

CARRIZOZO OUTLOOK

Corona Progressive

The writer stopped over at Corona last week and noticed with surprise the notable improvements in the town during the past year.

The business section of the town was illuminated perfectly, which to judge from the amount of cars in front of the stores, must help the evening trade considerably.

The New Mexico Mechanical Equipment Company has built, owns and operates the Corona Power Plant which under the efficient management of Mr. Bill Klier, gives the people of Corona very good and reasonably-priced electric current 24 hours a day.

The people of Corona are to be commended for the improvements during the past year.

Richmond Bowlin

Richmond Bowlin, 89, father of R. W. Bowlin of the Carrizozo Auto Co., died at his home in Clarendon, Texas, Wednesday.

Mr. and Mrs. Will Ed Harris of their ranch in the Gallinas mountains were visitors in town this morning, mayhap on their way to El Paso to hear Mrs. Roosevelt.

Judge Elerdo Chavez, who was quite ill the first part of this week, is now much improved, we are glad to report.

Angora goat shearing began at the Harkey ranch about twelve miles from town this Thursday. A force of men are now engaged in the work.

Mr. and Mrs. A. D. Hart left for El Paso today, to hear Mrs. Roosevelt.

Mr. and Mrs. J. M. Frame of Ancho were visitors in town today, Friday.

Mr. and Mrs. O. T. Newton and children have moved to Tularosa, where Shorty will operate a Service Station.

If you are inclined to be somewhat nervous or easily excited, we would ask you not to read 'The Last Home-Coming of Charley Nolan,' under Memory's Lane.

A goodly number of our people made the trip to El Paso today, for the purpose of hearing and seeing Mrs. Roosevelt, who will deliver a lecture tonight.

The traffic on the S. P. has been resumed. Eight freighters came through here yesterday and an equal number is expected today. Passenger traffic is again normal, flood waters having abated in California.

The State Department of Public Welfare has been removed from Santa Fe to Albuquerque, according to word received at this office this morning.

Personals

Mr. and Mrs. Henry Morris were in from their ranch near Ancho Monday.

Mayor and Mrs. J. E. Bell were here from their ranch home in the Jicarilla country Monday, returning home after transacting some business matters.

Miss Mabel Mackey returned last Saturday from Santa Fe, where she had been visiting for a few days.

T. C. Romero and brother Refugio were here from Lincoln Monday on business.

Mrs. Melvin Richardson has been acting as relief teacher at the Santa Rita school this week.

Mr. and Mrs. W. H. Sparkman were down from Jicarilla Monday purchasing supplies for their ranch. The ranchmen of that locality are very fortunate from the fact that they have had an abundance of moisture, which insures a good spring range. All stock has wintered over nicely.

Mrs. Stella Willingham was a Carrizozo visitor from Corona Monday as a guest of her daughter, Mrs. Marvin Roberts and son Kenneth.

Miss Louise Coe, teacher at the Jicarilla school, was here last Sunday, returning in the afternoon.

Mr. and Mrs. Nick Vega and the children were Tularosa visitors last Sunday.

The Woman's Club will meet Friday, March 18, at the home of Mrs. J. M. Beck, with Mrs. Titworth in charge of the program.

The interest in the Lincoln Co. monthly afternoon singings continues to grow. 100 new songbooks have been bought for the singings and conventions. Congregational singing, specials, etc. Next meeting at Alto, Sunday, March 13. Everyone invited. Songbooks for all.—Chairman.

Mrs. Lucy Sandoval and one of the Sisters of Mercy are confined in the Turner hospital this week, ill with pneumonia.

Cres Mares of Corona came in Tuesday from Colorado and Arizona, where he solicited life insurance among the railroad men. Cres has four states in his territory, Texas, New Mexico, Colorado and Arizona.

Mrs. C. L. Hodgkin and son Charles returned Sunday from Vaughn, where they visited relatives for about ten days.

Joe Candelaria, Paulino Aldaz, Julio Hernandez and six others left Tuesday for Arizona, where they will be employed in a sheep-shearing plant.

Michael Nalda, brother of Louis Nalda, was here Monday attending to some court matters in the interest of the livestock industry. He was accompanied by R. M. Kranawitter, a attorney of Vaughn.

Attorney and Mrs. H. B. Hamilton are here this week from Santa Rosa, the attorney attending to his legal practice in district court, while Mrs. Hamilton is meeting her old Carrizozo friends.

I. O. O. F. Notes

Carrizozo Lodge No. 30, I. O. O. F. held an enthusiastic meeting Tuesday night at which the First Degree was conferred on one candidate, Lawrence Dragon. The Second Degree will be conferred next Tuesday night.

The attendance was 30, including seven visitors from Alamogordo and Tularosa, namely: A. J. Newsom, S. L. Buck, Dr. E. A. Grissom, C. E. Thomas, Alamogordo; J. E. Anderson, O. T. Newton, Tularosa; also J. L. Garrett, Pampa, Kansas. Out of town members of the lodge were: Messrs. R. E. Kent of Ocuero and Fred Hendrix of Ancho.

The Grand Master was to have been present, but on account of illness, he sent a message of regret on being unable to attend.

A beautiful white plaque was presented to the lodge by Jack Voyde of Alamogordo, with all symbols of the order contained thereon.

The new light fixtures have been installed, and this is a great improvement to the interior of the Hall, the credit for which belongs to G. T. McQuillen.

District Court

District Court convened Monday morning and the time had been taken up in the drawing of the jury, returning of indictments and hearing civil cases. Criminal cases will begin next Monday morning, we understand. Two murder trials will occupy the attention of the court at this term.

Mrs. Dewey Pilant came up from El Paso the latter part of last week, where she had been attending vocational school. She was met here by her sister, Mrs. Harry Lyman and after a short visit with their parents, Mr. and Mrs. M. U. Finley, they returned to their homes in Clovis, accompanied by Mrs. Pilant's little daughter, who had been with her grandparents for the past school semester.

Mr. and Mrs. Elzy Perry were here from Glencoe yesterday on some business. Mrs. Perry is the youngest daughter of Uncle Geo. Coe of Billy-the-Kid fame.

John W. Herron is the new agent for the Albuquerque Journal. See his ad on page four.

Judge H. M. Maes of Capitan was a business visitor here this Monday.

Among our callers at this office this week, was Charles Cre, once a resident of Carrizozo, but now assistant State Health officer, with headquarters at Santa Fe. He gave several health demonstrations at high school with the aid of moving pictures. He left Wednesday on his trip to other parts of the state.

Mrs. J. Tom White and Pat Murphy of the White & Murphy ranch near White Oaks were El Paso visitors this Friday, to hear Mrs. F. D. Roosevelt.

The Lincoln County Utilities Co., is busy in laying plans for the erection of the new electric light plant south of the overpass. The material is on the ground and work is now being done preparatory to putting in the foundation.

Rousing Masonic Communication

A big Masonic communication was held last Saturday night at Masonic Temple. After the business session, the Fellowship Degree was conferred on one candidate, after which refreshments were served in the banquet hall. The attendance was 33 including the following visitors: Jack Spence, District Deputy Grand Master, L. A. Hendricks, A. D. Walker, Alamogordo; Pat Kirk, J. E. Nelson, Tularosa. Other members from out-of-town were: Bert Pfingsten, Hondo; R. E. Ferris, James Anderson, Fort Stanton; W. J. Ferguson, Coyote; R. E. Kent, Ocuero. Local visiting members were: Wm. Peterson, James Carpenter, E. O. Frahm.

The next communication, April 2, will be Past Masters' night, when all stations will be occupied by Past Masters. A Masonic picnic is being planned for May 21, for Masons, Stars and their families, the place to be designated by a committee composed of the Masters of lodges in Carrizozo, Tularosa and Alamogordo. The plan was formulated by Vance P. Smith, Master of the local lodge.

BUSINESS MEN'S CLUB

met at its regular weekly meeting and 8 o'clock dinner Wednesday evening at the S. P. Hotel. Pres. G. T. McQuillen occupied the chair. Secretary Blaney reported that Mr. Harvey and himself made a trip to the Malpais and selected a certain spot which they thought the most suitable to designate as a National Monument and that that area would be submitted to the proper department for approval.

Other matters, mostly concerned about roads, occupied the attention of the club. Mr. Hall of Capitan was the guest of George Titworth and Mr. Craig of Ancho was the guest of James M. Carpenter. A. L. Burke was the speaker of the evening and the speaker at next week's meeting will be James Carpenter.

House-Warming on Zane's Birthday

Last Saturday being the 16th birthday of Miss Zane Harkey, the new Harkey residence being all-completed and ready for occupancy, Mrs. Harkey acted as hostess to a birthday party in honor of her daughter at their new home.

The guest list was made up from Zane's schoolmates, all of whom were young ladies whose ages ranged closely to that of the honoree. At the close of the well-arranged affair, the hostess served dainty refreshments.

BASEBALL TALENT—Did you get woolly and rusty during the hibernation period? Let's begin to talk it up, boys, and have a better team this summer, than we did last year. How about it, Manager Ben Sanchez? —Diamond Dust.

Arthur Cortez of Fort Stanton, agent for refrigerators, radios, washing machines and electrical supplies, writes this office that his business is thriving. Read his ad on page four and pay this pleasant and courteous gentleman a visit.

Ashby Roselle of Jicarilla visited Mrs. Roselle, County School Librarian, last week-end.

Memory's Lane

A. L. B.

The Last Home-Coming of Charley Nolan

Charley Nolan was reared on a farm about twelve miles below Springfield, Ill. His father had a fine orchard and at one time, Charley planted a row of peach trees on a certain part of the farm, which the father allowed him to occupy for that particular purpose. The trees grew and yielded abundantly through fire and attention. When the Spanish-American war was declared, Charley joined a company made up at Springfield, many of whom were farmer boys like himself.

Like other soldier boys away from home, Charley wrote regularly, until after a long silence, his parents received word that he had been killed in action and that fact was furnished to Mr. Nolan together with the proper papers from the war department. His death was chronicled as being caused by a bursting shell that blew his body into fragments and what remains could be collected were buried in a foreign soil.

After the war, all of the company came home except Charley and for the space of ten years, he was mourned by his many friends in his home locality. Remembering his love for the peach trees, the folks gave them more attention than they did to any other part of the orchard. They bemoaned the cruel fate that had prevented the body to be sent home so that it could be given burial among the trees he had loved so ardently.

At the end of ten years, when the peach trees were in full bloom, a buckboard rolled up to the front gate, and a gentleman, neatly-dressed, alighted and with a grip in each hand, came up the pathway to the house and setting down his luggage, rapped on the door. Thinking him to be a peddler, the father went to the door. He gave a shout of joy that brought the entire family to his side. Instead of a stranger, it was Charley. So overjoyed at seeing him, questions were forgotten and he was rushed to the dining room, where the mother was about to serve the noon-day meal.

He embraced every member of the family with all of his former love and beaming with joy, he said: "I'll be back shortly, mother, I want to see how my peach trees are getting along." Before he could be detained he disappeared in the direction of the orchard. Thinking he would return shortly, they went to invite the driver of the buckboard to dinner, but he was nowhere to be seen. One of the boys heaped to the road, but there was no tracks of the vehicle to be seen. Waiting a reasonable length of time, they went to the orchard and called for him, but no answer came. Neither was there any trace of him to be found. The grips had vanished. Seasons have come and gone. The parents have long ago gone to their rewards. The children

Lyric Theatre

Friday and Saturday—Robert Montgomery and Rosalind Russell in—

"Night Must Fall" A Dr. Jekyll and Mr. Hyde story. A murder mystery with a horror angle. Not suitable for children. Also "Bars & Stripes" and "Spooky Hooky."

Sunday—Monday—Tuesday—Bobby Breen, Marion Claire, Leon Errol and Henry Armetta in—

"Make a Wish" The picture centers around a boys' camp in the Maine woods and New York City, and for the first time Bobby is presented as a red-blooded American boy. Also "Grandma's Bunya" and "Hawaiian Holiday."

Wednesday and Thursday—Lloyd Nolan and Claire Trevor with Akim Tamiroff in—

"King of Gamblers" A night club story of the slot machine racket is exposed in this production, based on facts and figures of the secret files and reports of police and government investigators. Sunday matinee at 2:30 p. m.

Mr. and Mrs. Doyle Rentfrow will be home shortly from Albuquerque, where Doyle has been receiving treatment at the Veterans' hospital.

Mrs. Irene Hart, Co. School Supt. and Mrs. Ola Jones, Co. School Supervisor, returned Sunday night from Atlantic City, N. J., where they attended a convention of the Association of American School Administrators from Feb. 26 to Mar. 3. Before going to the convention, they stopped over at Washington, D. C., where they went through the White House and attended a Congressional Tea. They report a splendid trip and much valuable information gleaned from the sessions of that educational association.

Mrs. Alice French came up from El Paso Tuesday and was a guest of Mrs. Gusie Johnson for the day, leaving again Wednesday morning for Albuquerque. Mrs. French will return in May to spend the summer at her cottage in Eagle Creek.

Mrs. Gunther Kroggel has returned from a visit with her mother, Mrs. Anna Ristinger, at Roscoe, Texas. Mrs. Ristinger was ill, but has now recovered.

were all married, some of whom are still in the surrounding neighborhood. The youngest boy now resides in the old home. The row of peach trees is still there, blooming and yielding more abundantly than ever before. Close relatives have set the row of precious peach trees apart as a shrine, where they gather every year in the balmy springtime when they are in full bloom. Here under the branches, laden with the fragrance of the peach blossoms, they refresh their memories of their love for Charley, whom they at one time thought had returned and was lost again. Villagers mark the spot where the peach trees bloom in the springtime, guarded by a mammoth weeping willow tree which stands at the head of the row, as they repeat the story of Charley Nolan.

Floyd Gibbons' ADVENTURERS' CLUB HEADLINES FROM THE LIVES OF PEOPLE LIKE YOURSELF!

"Monster Out of Hand" By FLOYD GIBBONS Famous Headline Hunter

HELLO EVERYBODY: John J. Boner of Chicago has been firing a locomotive since 1906. He says that in that time he has had many a thrill...

The train pulled out of Perry in some of the finest weather John had ever seen in his life. "The beauty of the day," he says...

Up and Down the Water Grades.

For the benefit of us lubbers who don't know what a water grade is, John explains it to us. Those water grades get their name from the fact that a water tower is always set on the top of a hill whenever possible...

They were rounding the last curve, a mile east of Manning, when it happened. John was tossing a few scoopsful of coal into the firebox...

The Lead Engine Took a Nose Dive.

when all of a sudden he saw John Cunningham go into action. "He was grabbing for the whistle—grabbing for the brake valve—grabbing for the reverse lever," says John...

Off the Track at Full Speed.

"I jumped to the left cab window. I was just in time to see a section gang scattering to the fields—and in time to get a shower of ballast full to the face. We had struck a hand-car loaded with iron rails."

John reeled back under the force of the blow he had received. For a second or two the big engine seemed to be riding the rails. Then John felt the wheels hump off onto the ties...

He Got Out Just in Time.

John and John Cunningham were still in the cab—still fighting for equilibrium—for a foothold that would give them a chance to jump. The engine slid down the bank and came to rest in a hog wallow beyond the right-of-way fence.

They were out the window so fast that it seemed as if both of them had gone through together. But at that, they weren't a second too soon. Just as they cleared the cab, a steam tube let go—burst with a roar that cleared the cab out as clean as dynamite could have cleaned it...

"The second engine," says John, "humped into our tender and turned off to the left, but the crew escaped injury in almost the same miraculous manner that we did. None of the coal cars piled up on top of either engine, as they usually do in such accidents, and that was almost another miracle."

England's Smallest Inn England's smallest inn is the Smith's Arms in the Dorsetshire village of Godmanstone. It has a thatched roof and measures about 10 by 20 feet.

Now Prize for Clock In 1713, the British government offered \$100,000 to any one who could make a clock that would not lose more than three seconds a day.

ADEN AND ITS TANKS

"Running Water" in Aden.

Aridity and Beautiful Colors Characterize City on the Red Sea

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

A HUNDRED miles east of Bab el Mandeb, the Arab "Gate of Tears," which guards the southern exit of the Red sea, the extinct Aden volcano rises to a height of nearly 1,800 feet above the Arabian coast...

On this desert rock-fortress, midway between Egypt and India, live the Europeans and the Indians who are garrisoning Aden, with a floating civil population of Hindus, Parsis, Arabs, Greek merchants and Palestine Jews.

The sun-saturated barren rock seems to suck the life and moisture from human bodies. In 20 square miles of brown precipices and patches of sandy plain grow only a few trees, no grass, and one important flower, the Aden lily, found in remote rock crevices.

The modern town of Aden, centered around Steamer point, is connected with the old town by the five-mile Ma'ala road. The old town lies huddled inside the crater where the rim is broken down toward the sea, and overlooks the old harbor.

Water From the Tanks Is Sold. Behind the town, in a gorge of the crater, arranged like a row of masonry cups, each emptying into the next lower one, is the chain of reservoirs known as the Aden tanks.

The Aden believe that each time the tanks become full there must be three deaths by drowning. If Aden is arid, it has the compensation of being in a beautifully painted setting, for by daylight the more-than-Mediterranean blue of the water lies in violent contrast with the Vandyke browns, umbers, grays and ochres of the walls of rock, which make a perfect background for the bright dress of a crowd of Eastern people.

On a lava slope a hundred feet above the sea, you may watch incomparable sunsets beyond the gerrated ashen-great ridges of Little Aden (Jebel Ihsan), an old, broken-down cone which was once a twin to the Aden volcano (Jebel Shamsan); it now shelters in its flat sandy coves an Arab fishing village.

As you watch, some large Arab dhow with a high poop, looking like a caravel of the Spanish Armada, steals out from the inner harbor to the sound of its sweeps, to pick up the evening breeze on its way south. Later, a little group of Somali sailors, brown figures clothed in white, is seen squatting round the evening meal, a bowl of millet.

Later still, the afterglow springs up from behind the line of crags, now nearly coal-black, and then brilliant rainbow rays, bars of lemon yellow, green, and pink, cut the zenith from west to east. A bright planet begins to show itself.

In the stillness, a large fish a mile away leaps a dozen feet into the air, probably trying to rid itself of parasites, and comes down upon the water with a resounding smack. From the men pulling at the oars of the creeping vessel comes the rowing chorus, "Yahudi, wa'llah" (By Allah, a Jew!).

A cool puff of air arises, the water begins to ripple into little waves, the Somali crew gets up and goes running forward to the bow, and the big triangular lateen sail rises and spreads, cutting the sky.

creakings of cordage and sharp cries and the chorus of many voices: "In the name of God, in the name of God." Then due south, keeping the mountain peaks on the starboard side, the boat itself becomes a coal-black dot against the pale yellow of the west, and silence again reigns.

Pleasant-looking fellows, these, and, standing about in groups are more civilized wealthy Arabs in long, bright silk jubbahs and embroidered waistcoats. They are holding an impromptu stock exchange over a hill of mother-of-pearl shell from Perim island or bags of rice from India, ready for transshipment to Africa.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By REV. HAROLD L. LUNDQUIST, Dean of the Moody Bible Institute of Chicago, Western Newspaper Union.

Lesson for March 13

FEEDING THE HUNGRY

LESSON TEXT—Mark 6:30-44. GOLDEN TEXT—Give ye them to eat, Mark 6:37. PRIMARY TOPIC—When Jesus Fed a Hungry Crowd.

"My God shall supply all your need according to his riches in glory by Christ Jesus" (Phil. 4:19). Such is the assurance of God's Word. Countless Christians have proved it to be true that they may trust God to supply every need—temporal or spiritual.

The lesson for today first presents the disciples as they had come back from their preaching expedition and presented to the Lord Jesus a report of their stewardship in ministering the bread of life to the spiritually needy. He invites them to a place apart from the busy walks of daily life for a time of communion and rest.

Reports of accomplishments in the field of Christian work (although sometimes an earnest accounting of stewardship of service and money) are all too often prepared for the purpose of impressing men and seeking their financial assistance. The real report is the one which disciples make to their Lord. It concerns two vital points.

I. The Ministry of the Bread of Life.

One of the temptations which face the preacher and teacher of Christian truth is to avoid unpleasant and difficult problems by simply proclaiming the truth and doing nothing about the outworking of that truth in daily living. It sounds very plausible to say that we will present the Word and let it do its own work, but the Christian worker—who evades his duty to deal at close grips with sin and disorder in the church and community has not discharged his responsibility to Christ.

Teaching and doing the commandments of God go hand in hand. II. The Ministry of Daily Bread.

Jesus found no rest, for the multitudes followed Him to the other side of the lake. Ere long the evening approaches, and the disciples begin to be concerned about how this great multitude is to be fed. They follow the inclinations of the flesh and decide to solve the problem by asking Jesus to...

Wisdom Wisdom allows nothing to be good that will not be so forever; no man to be happy but he that needs no other happiness than what he has within himself; no man to be great or powerful that is not master of himself.—Seneca.

Language Every longing should become an active impulse in the soul. Our longing should lead us into all paths of Christly service and into all heroic duty.

CLASSIFIED DEPARTMENT

PIANOS & MUSICAL INSTRUMENTS. CLASSIFYING OUT ALL USED PIANOS. Good uprights, \$40, \$50 to \$65, uprights \$65, up; tiny new uprights \$105; baby grand, \$250. Up. Easy terms, like rent. Several desirable instruments at points outside of Denver. Band instruments and accordions.

AROUND THE HOUSE

Improving Cocoa.—The flavor of hot cocoa or chocolate may be improved by adding one-fourth teaspoon of vanilla to each cup of milk.

When Handling Hot Glass.—Handle hot glass cooking utensils with a dry cloth or pad; damp or wet cloths are apt to cause them to crack.

Sandpaper Wax Cure.—To remedy furniture drawers which stick sandpaper and wax their edges.

Peanut Butter Drops.—One cup peanut butter, one and one-half cups powdered sugar, four egg whites (unbeaten). Cream together and drop mixture in small spoonfuls on parchment paper. Bake in moderate oven for 20 minutes.

Prepare for Spring.—Now is a good time to collect cigar boxes or make flats for planting seeds indoors.

Covering Chairs.—When making loose covers for easy chairs or settees, make extra slips fitted with patent fasteners to cover the arms, which get most wear and soil quickly. These strips can be removed and washed when necessary.

Dr. Pierce's Favorite Prescription is a tonic which has been helping women of all ages for nearly 70 years. Adv.

Pride Offends The proud are always most provoked by pride.—Cowper.

FREE 4 cups of GARFIELD TEA. KEEP CLEAN INSIDE! You'll like the way it keeps you healthy, energetic, in the feeling of "zest" to go! Washes and cleanses the stomach, cleanses the liver, purifies the blood, and keeps the system in good condition. For more information, write for FREE SAMPLES to GARFIELD TEA CO., Dept. 10A, Brooklyn, N.Y.

Smokers know that LUDEN'S Menthol Cough Drops 5¢. "...soothe a raw throat instantly." Yourself First Be that which you would be others.—Amiel.

For Chest Colds Distressing cold in chest or throat, never safe to neglect, generally causes "up" when nothing, warning. Must be applied. Better than a mustard plaster, Musterole gets action because it's NOT just a salve. It's a stimulant, penetrating, and helpful in drawing out local congestion and pain.

Watch Your Kidneys! Help These Cleanse the Blood of Harmful Body Waste. Your kidneys are constantly filtering waste matter from the blood stream. But if they are not working properly, the waste matter will not be removed, and you will not be in the best of health. Doan's Kidney Pills are the best remedy for all kidney troubles. They are gentle, and do not irritate the system, and speed the whole body machinery.

DOAN'S PILLS

Cross Stitch and Crochet Linens

Pattern No. 1422

Two's company and a smart combination when you team up dainty crochet and fetching 8 to the inch cross stitch in a stunning motif for towels, pillow cases or scarfs! Either crochet or cross stitch may be used alone. It's effective to use a monogram with the crochet. Pattern 1422 contains a transfer pattern for two motifs 6 1/2 by 9 1/2 inches, two motifs 5 1/2 by 8 1/2 inches, two motifs 4 1/2 by 7 1/2 inches and two 5 by 7 1/2 inches; directions and charts for the flat crochet; material requirements; illustrations of stitches used; color suggestions.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle Needlecraft Dept., 82 Eighth Ave., New York, N. Y.

Please write your name, address, and pattern number plainly.

SORE THROAT WITH COLDS Given Fast Relief

Take 2 Bayer Tablets with a full glass of water.

Crush 3 Bayer Tablets in 1/2 glass of water—gargle twice every few hours.

The speed with which Bayer tablets act in relieving the distressing symptoms of colds and accompanying sore throat is utterly amazing... and the treatment is simple and pleasant. This is all you do. Crush and dissolve three genuine Bayer Aspirin tablets in one-third glass of water. Then gargle with this mixture twice, holding your head well back.

This medicinal gargle will act almost like a local anesthetic on the sore, irritated membrane of your throat. Pain ceases promptly; rawness is relieved.

You will say it is remarkable. And the few cents it costs effects a big saving over expensive "throat gargles" and strong medicines. And when you buy, see that you get genuine BAYER ASPIRIN.

Virtually 1 cent a tablet

Secret With One Three may keep a secret if two of them are dead.—Franklin.

BACKACHE, NERVOUS?

From Utah—Mrs. Olive Johnson, 58 S. 6th St., East, 8787: "I had headaches and such terrible pains across my back due to functional disturbance. I was suffering and so weak that I just could not get about. Dr. Pierce's Favorite Prescription stimulated my appetite and helped me build me up and I felt better in every way." Ask your druggist today for it in liquid or tablet form. New size, tablets 50 cents.

Confesses Weakness Revenge is a confession of pain. Seneca.

CONSTIPATED?
To keep food waste soft and moving, many doctors recommend Nujol—because of its gentle, lubricating action.

Keeping Up With Science

Role of Glands in Mental Disease Is Unsolved Problem

By MARJORIE VAN DE WATER

New York.—One of the most puzzling problems faced by the scientist exploring man's mind is the role played by the powerful glands of the human body.

A matter of demonstrated fact is the knowledge that these glands serve as chemical factories, pouring out potent substances capable of changing the whole behavior of the individual. Presence or lack of a glandular chemical may make a person energetic or lazy; submissive or rebellious, mentally alert or stupid.

That the endocrine glands occupy a place of power in determining the mental soundness or illness of the individual has long been suspected by physicians and psychologists. Glandular disorders have been noted in the mentally ill and to some this has meant that the glands could be blamed for the mental illness. Others, reversing the relationship, see the emotional strains of mental disease as effective in throwing the endocrine system out of balance.

Actual Proof Lacking.

Actually, medical science today has no crucial evidence of any cause and effect relationship between the powerful glands of internal secretion and mental disease or mental deficiency. Dr. Hugh T. Carmichael, psychiatrist of the University of Chicago medical school, told his colleagues at the meeting of the American Association for the Advancement of Science.

A recent survey showed that of a group of about 300 mental patients selected for endocrine diagnosis and treatment more than a third were so improved that they were able to leave the institution. But do not jump to the conclusion that it was gland treatment that saved them. Further analysis showed only 17 per cent of those selected for endocrine diagnosis actually had anything wrong with their glands and less than half of these had adequate gland treatment. In addition many of those "cured" had had a type of mental disease that often disappears spontaneously.

Mental disease and mental deficiencies are common. So also are glandular imbalances. That they are often found in the same individual could be simply a matter of chance.

The role of the endocrines is still an unsolved problem and presents a fruitful field for future research.

Nose Spray Helps Prevent Infantile Paralysis

Washington.—New research, which gives a clue to the mechanism that gives immunity to infantile paralysis and seems to show that spraying of the nose with chemical or other germ-fighting agents will eventually prove the means of preventing this crippling malady was reported at the meetings of the Society of American Bacteriologists here.

In actual practice with children, the method has so far not been anything like 100 per cent successful. But from reports presented it appears that the method is fundamentally sound and that success is only a matter of perfecting details, such as finding the best substance to spray and the surest way of getting the spray onto the strategic area.

The lining of the nose appears to be the key to the situation. Not only does the virus of the disease enter the body through this lining, but resistance to the virus develops naturally in this lining. This last important point appears from research reported by Drs. Albert B. Sabin and Peter K. Ollitsky of the Rockefeller Institute for Medical Research.

Of all the chemicals they tested, zinc sulphate was the most effective.

Ship's Officer Sees Two Moons in the Tropics

Washington.—Ordinarily, if a seafaring man in the tropics sees two moons he discreetly says nothing about the matter, lest a cynical world raise an eyebrow and murmur something about too many swizzles. But Third Officer R. T. Lewin of the American steamer Yorkmar saw a double image of the moon recently for which an abnormal refractive condition of the earth's atmosphere was responsible.

Mr. Lewin observed the strange phenomenon during a run from Balboa, C. Z., to San Pedro, Calif., while his ship was off the tip of Lower California. The crescent moon was going down through a thin haze, when it appeared double, the lower crescent scarcely touching the upper. Twenty minutes after he first noticed it, the moon set, still appearing double.

Most of Us "Queer" According to the Ink Blot Test

Indianapolis.—There is scientific confirmation of the widespread idea that most of us are a bit queer—except me and thee, of course.

It has popped up in the queerest of places, in ink blots that are made with a scientific purpose. It is quite a psychological game, much like trying to see what you can make of the flickering flames of an open fire on a cold winter's evening, or what creatures are hiding in the clouds of a summer's day.

Your imagination seems to bring to the surface things you unconsciously subside. And it seems that trying to see pictures in smears of ink or floating clouds or flames may be quite as dangerous as telling your dreams to a Freudian.

Dr. James Vaughn of the University of Cincinnati gave the Rorschach ink blot test (that's what it is called, after the psychologist who devised it) to 43 patients in mental disease hospitals, all of whom had paranoid tendencies and thought people were persecuting them when they were not. He also gave it to 52 college students.

Difference in Degree.

Imagine his surprise when he found that many of the apparently normal students showed unusual character in the forms they saw for seeing such forms has been taken as an indication of mental derangement.

"One can hardly escape the conclusion that insanity is a difference in degree and not in kind," Dr. Vaughn told the American Association for the Advancement of Science meeting. "The degree seems important."

The idea that a thing is bigger and better just because it belongs to the Good Old U. S. A. received support from tests by another psychologist, Dr. Heinz Ansbacher of Columbia University. He used postage stamps in his investigations.

After the possible influence of size, shape, color and other postage stamp features had been eliminated, Dr. Ansbacher was able to prove that sheer acceptance of the stamp as a stamp of one's own country gives it an apparent size greater than that of the stamp of some other country.

If the trifling matter of postage stamp size is affected in this way, how fundamentally, argues Dr. Ansbacher, is our personality as a whole determined by the people and surroundings in which we live and are reared.

Flight Strips Proposed on Highways for Airplanes

Cleveland.—Desperate hunts for landing fields, with the gas getting low and the fog closing in, may be a thing of the past for airline pilots, if the scheme proposed to the thirty-fifth annual convention of the American Road Builders Association by Lieut. Col. Stedman S. Hanks is adopted. Instead of cruising around hunting for a place to land, pilots of the future will hunt a highway, and set their planes down on "flight strips" built beside the main roads by the highway departments.

Proposed not only as emergency landing fields, but for the use of private pilots, these paved strips beside main highways, at least 200 feet wide and 1,800 feet long, built and maintained by highway engineers, on state-owned land, may also be used as way-stations, from which air mail and air freight may be picked up by arrangement.

Chest Pains Often Due to Great Overweight

San Francisco.—Severe chest pain resembling that of the dread heart malady, angina pectoris, is in many cases due to excessive overweight. Dr. William J. Kerr, professor of medicine in the University of California medical school, has found.

The huge pot belly or "bay window" of very fat men forces them to adopt an abnormal posture which cramps the chest, causing breathlessness and preventing the heart from getting a normal supply of oxygen. Severe pain and low blood pressure accompany the condition.

The pain and other features clear up when the weight is reduced and the posture brought back to normal, Dr. Kerr found. Diet, exercises and properly fitted abdominal belts are used in the treatment.

Cellulose Film Protects House From Winter Cold

Storrs, Conn.—Cellulose film wrappers, that now protect packs of cigarettes and nickel candy bars, will presently be fortifying whole houses against winter cold, if the method developed by the Yankee ingenuity of Prof. R. H. Wallace of Connecticut State college here works out as well as it seems to promise.

Not that the whole house will be wrapped in the transparent sheets. That isn't necessary. But windows, outside cellar doors, and other warmth-wasting openings, Professor Wallace has found, can be effectively insulated against the cold with cellulose film.

The method is especially valuable for greenhouses, Professor Wallace states.

WHAT TO EAT AND WHY

Food Provides the Key to Mental and Physical Power

You Can Be Strong, Beautiful, Wise, Rear Healthy Children Only If You Know How to Combine the Right Food Materials in the Diet

By C. HOUSTON GOUDISS
8 East 39th Street, New York.

SINCE the world began, food has been man's first consideration. For it he has fought and died. To find it he has traveled over great continents and braved unknown dangers. His quest for food has changed the map of the world and colored the history of nations. But in all of these historic struggles, he has been motivated solely by the desire to get enough food to satisfy hunger.

Today, actual hunger is rare. But hundreds of thousands of people starve in the midst of plenty because they do not realize the tremendous power of food for good or for evil.

They do not realize that as a man eats, so he is, and that his choice of food materials gives or takes away the power to live vigorously—to think clearly—to feel warmly—to be strong, healthy and wise.

It can be truly said that your food is your fate. It has the power to shape your body—to make it strong and beautiful, or weak and ugly. It has the power to influence your language, your gait, your tone of voice, in short—your life. With the right food, life becomes a glorious adventure, for it increases your leadership, intensifies your magnetic qualities, strengthens your morale, and increases your physical defenses and resistance. Without it, one drags through miserable days—never realizing even half of his potential mental and physical powers.

Food—the Fuel of Life.

The human body is a machine, far more complex than any machine devised by the mind of man. Food is the fuel which runs this amazing machine. Food is also the material used to repair worn-out parts, and to keep the intricate mechanism in good working order.

The body machine cannot be run efficiently without proper food fuel—any more than a car could be run without gas, or a house could be heated without oil, coal or wood.

Food also has the power to speed up or slow down the workings of the mind. It likewise influences the state of our nerves, the warmth of our affections, the type of characters we possess.

Finally, the power to have strong, healthy children is based on proper food. And nutritional scientists have discovered that the wrong food can even take away from us the greatest blessing that Nature has bestowed—our earthly immortality. For it can deprive us of the ability to bear children who will carry on after we are gone.

Six Groups of Food Substances.

What food substances are necessary to build and maintain top health—to develop the greatest physical and mental power? There are six groups of food substances which must be included in the balanced diet which promises increased health, happiness and longevity:

1. PROTEINS which build and repair body tissues. These are found in such foods as milk, eggs, meats, fish, cheese and nuts.
2. FATS which yield heat and energy. The fats are represented by butter, cream, oils and the fat of meats.
3. CARBOHYDRATES—the starches and sugars. These also supply heat and energy, and are found chiefly in such foods as bread, potatoes, cereals and sweets.
4. MINERALS which build, repair, protect and regulate. Among the minerals which are absolutely necessary to health and vigor are calcium, phosphorus, iron, copper, iodine, sulphur, manganese, magnesium, sodium, and potassium. These are found in varying amounts in milk, eggs, fruits, vegetables, whole grain cereals and meats.
5. VITAMINS which are necessary for body regulation, and as a protection against dread deficiency diseases. Six have been discovered to date—A, B, C, D, E, and G.
6. WATER which is a part of all body tissue, and must be present in order to have the other food elements function properly.

C. Houston Goudiss, outstanding food authority, author, and radio lecturer, author of "What to Eat and Why." He knows food from soil to serving, from table to tissue. Watch for his articles each week.

The ideal dietary is one that includes a correct proportion of the different food elements required to supply bodily needs without any of them being supplied in excess, or in insufficient amounts.

Danger in Omitting One Essential

To illustrate how important it is that not one of the necessary food substances be omitted, let me tell you how an eminent bio-chemist proved in his experimental laboratory, in one of our leading universities, that the difference between stupidity and genius depended upon the presence or absence of one vitamin.

He placed a pregnant animal upon a diet adequate in every respect, except that it lacked one of the six vitamins. As soon as her young were born and weaned, they were fed a completely adequate diet.

Then the scientist tested the mentality of the young animals. He wanted to find out whether or not their mental power had been injured in any way by the fact that their mother—during pregnancy—had been deprived of one vital food element. So he put them in a runway. To get out of this and reach a tasty morsel at the other end—they had to make their way through a series of passages. He had already made this same test on the same type of animals born of properly fed mothers. He knew that it never took them more than 25 trials to learn their way out of the maze.

Most of them had gotten out after 15 to 18 attempts.

But what lack of skill was shown by the animals whose mother had been deprived of proper food? The stupidity of these pathetic little creatures was unbelievable. Some of them never learned to thread the maze and reach their goal, even after as many as 250 trials. They were being given—at the time—everything that was necessary to their diet. But they had entered life with minds totally unequipped to cope with the world—because their mother had not been properly fed before they were born.

This is a striking example of the power of food to make or mar existence. I could cite hundreds of other laboratory experiments, many of which have been confirmed by clinical experience.

Food Can Make or Mar.

Nor is this power of food to affect mental activity confined to prenatal life. Even if a child enters this world with a strong body and a clear mind—the wrong food during childhood has the power to wreck health.

Investigation after investigation, by leading specialists throughout the country, has proven that a surprising percentage of retarded children—those who cannot keep up with their school grades—do not really have inferior minds. They only seem stupid because the action of their minds is clogged and slowed down by sluggish, under-fed bodies.

Physical fitness is a far greater asset than material possessions. For in times of stress and trouble, those who can stand up under the physical strain win the battle. For those who collapse, all is lost.

The Homemaker's Responsibility.

Every wife and mother is therefore faced with the tremendous responsibility of keeping her family mentally and physically fit. Her husband must have the right kind of food in order to earn a living. Her own diet must be adequate and well-balanced if she is to have the energy, wisdom, and patience required of a

Notice of Hearing of Final Report and Account

In the Probate Court of Lincoln County, State of New Mexico In the Matter of the Last Will and Testament of William Thomas Lumpkins, Deceased. No. 438

To Julia Mary Lumpkins, Chester Lloyd Lumpkins, Sherman Lumpkins, William Thomas Lumpkins, and Louis Christian Lumpkins and to all unknown heirs of the said decedent, and all unknown persons claiming any lien upon, or right, title, or interest, in or to, the estate of the said decedent, and to whom it may concern:

You, and each of you are hereby notified, and notice is hereby given, that Louis C. Lumpkins, Executor of the Last Will and Testament of William Thomas Lumpkins, deceased, has filed in the above entitled Court his final report and account as such Executor, and the Court has appointed Monday, the 18th day of April, 1938, at the hour of 10 a. m., as the hour and day for hearing of objections, if any there be, to the approval and settlement of said final report and account, and the discharge of the said Louis C. Lumpkins as such Executor, and at the hour on the day named, the Probate Court will proceed to determine the heirship of said decedent, the ownership of his said estate and the interest of each respective claimant thereat, and therein and the persons entitled to the distribution thereof.

The name and postoffice address of the attorney for the Executor is John E. Hall, Carrizozo, New Mexico. Witness the Honorable, Marcial C. St. John, Judge of the said Court, and the seal thereof, this 1st day of March 1938. (Seal) Edward Fenfield, Clerk.

ARE YOU ONLY A THREE-QUARTER WIFE?

Men, because they are men, are never understood a three-quarter wife - a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time. No matter how your back aches - how your nerves scream - don't take it out on your husband. For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. It helps Nature to get up the system, thus lessening the discomforts from the functional disorders which women must endure in the three weeks of life: 1. Turning from weakness to strength. 2. Approaching "middle age." 3. Practicing "middle age." Don't be a three-quarter wife. Take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

Notice of Pendency of Suit

In The Third Judicial District Court of the State of New Mexico Within and for Lincoln County Charlie Jay Skiles, Plaintiff vs. Evia B. Skiles, Defendant.

The State of New Mexico, to the above named defendant, Greeting: Notice is hereby given that Charlie Jay Skiles as plaintiff, has filed his complaint in the above named court and in the above numbered and styled cause of action against you; that the general object of said action is for a dissolution of the bonds of matrimony existing between you and the said plaintiff, and for an absolute divorce.

You are further notified that unless you enter your appearance in said cause on or before the 18th day of April, 1938, judgment will be rendered in said cause against you by default. The name of plaintiff's attorney is John E. Hall, and his postoffice address is Carrizozo, New Mexico. Witness my hand and seal of said court this 1st day of March, 1938. (D. C. Seal) Edward Fenfield, Clerk.

Speaking of Sports

Farm System Solution to Yank Menace

By GEORGE A. BARCLAY

WITH anti-monopoly and trust-busting movements abroad in the land, baseball men generally would welcome with three rousing cheers any formula that would effectively break up the pennant monopoly of the New York Yankees.

Winners of the American league pennant and the world's series in 1936 and 1937; Joe McCarthy's Yankees look like such sure-fire repeaters again this year in both fields that there seems to be little chance of heading them off.

But in the future it is obvious that something must be done to improve other clubs in the American and National leagues—particularly the last three teams in each circuit—if national interest in the national sport is to be maintained. The tallenders are so hopelessly out of the pennant race from the start that the most ardent followers lose interest.

Two major suggestions have already been brought forward. One is a sort of share-the-wealth plan which proposes that the Yankee machine be broken up and the talent distributed to less fortunate clubs.

Baseball men agree that this is a bad suggestion. The other way suggested to break that pennant monopoly is to build up the weaker clubs in both the American and National leagues to meet it. This can be done. And the way to do it is by the extension of the farm system.

Yanks Get Talent

The Yankees, supported by Colonel Ruppert's wealth, have constructed a splendid farm system with Newark in the International league and Kansas City in the American Association as their principal training grounds for talent.

Joe McCarthy.

These two powerful minor league clubs will continue to produce fine baseball ability every year for the Yankees.

The Yanks are one of several teams that have discovered that the proper method of supplying a winning major league club with capable talent is to own some minor league teams. Ruppert first tried paying high prices for advertised stars when he took over the Yanks. This proved too costly. The farm method has proved far better. It costs less and supplies classier material.

The St. Louis Cardinals under Branch Rickey made a similar discovery a few years back and they now have the most extensive chain farm system in baseball.

The thing for the other clubs to do is to build farm systems that are as good as the Yankees or the Cardinals have and the Giants, Cubs and Indians are developing. Such a measure would eventually equalize the playing strength of the various teams and bring into a more even balance the strength of the American and the now admittedly weaker National league.

Of course there is the alternative of a bigger scouting system for every team. But if the top clubs continue to increase their farm activities, the field for scouting will be so limited that it will be difficult to find adequate talent except on teams owned by other clubs. Scouts are said to be running into that situation already.

Baseball fans everywhere love a winner. They are content as long as their team is in the fight. But they are justly dissatisfied with teams that have no chances whatever. Unless the problem of strengthening the tallenders is solved shortly, it is not inconceivable that major leagues be cut to six clubs each or some of the franchises moved. Moving the franchises might not remedy the situation more than temporarily. The solution is for all major league clubs to be so financed that they can establish adequate farm systems of their own.

Do You Remember When?

Jack Dempsey left a job as an assistant cook in a restaurant and Jack Kearns said he would become heavyweight champion of the world. Every one laughed when the late William the "Duke of Muldoon" said Jim Braddock would some day be heavyweight king. Helen Wills Moody wore pig tails and won her first tennis championship out in California. Mollie Mallory, the national champion, made Suzanne Lenglen quit in a match in a national tournament at Forest Hills.

Numerology de Luxe

JACK KEARNS may be coming up with another heavyweight champion in Jimmy Adamick of Detroit. If association means anything, Jimmy crashed into the big time recently when he won a decision over Harry Thomas at Madison Square Garden in New York. Adamick has

Jimmy Adamick

a double "M" ring name the same as Jack Dempsey. He has been hailed the "Midland Macer" Dempsey, you may recall, was known as the "Manassa Mauler." Both have had Kearns as manager and both have seven letters in their last name.

Carrying this business a little further, you will find that the first names of ten of the fifteen listed heavyweight champions of history began with "J" and three of them were called "James."

The current heavyweight title holder, Joe Louis, also figures in the Adamick picture. Jimmy got his start in the same frame-lifting department of a Detroit automobile factory as Joe Louis. So now all Jimmy has to do is go out and win the championship.

Doing that, however, promises to be considerable of a job, particularly in view of Louis' recent showing when he knocked out husky Nathan Mann of New Haven, Conn., in less than eight minutes. The Brown Bomber looked impressive in his second defense of the title he won last June from Jim Braddock. His timing and all-around punching power were reminiscent of the days when he was a sensational contender for the title.

Hitless Wonders

NOTES gleaned from official National league batting averages: Boston's Bees truly were the hitless wonders of 1937. They had a team average of .247, made the fewest number of runs, of hits, of total bases, and wound up the campaign in fifth place, only a stone's throw from the first division. The answer lay in a defense that was stouter than any other in the league.

It was a bad year for Cincinnati's betting baseball players: Manager Charley Dresen wagered, among other things, eight hats to one of Jimmy Wilson's that the Reds would beat out the Phils in the standings; and Chick Hefey, who had a sporting wager with Wally Berger over relative batting marks, found his .261 average more than 29 points under that of the Giants' outfielder.

With the retirement of Frank Frisch from active baseball the National league lost the outstanding turn around hitter in its history. There were six regular turn around hitters last season—Herschel Martin, Lonny Frey, Jimmy Brown, Ripper Collins, Augie Galan, and Del Young. None of them hit as high as .265.

There were fewer 380 hitters in the National league in 1937 than in either of the two previous years. Also the general league batting average last season was lower than in either of the two other years. Yet, despite the decline of offensive power, the league ruled for a deader ball.

Football Barter

THE recent appointment of bald eagle-faced Tad Wieman as head coach of the Princeton university football team brought to consummation a series of interesting swaps between Princeton and the University of Michigan.

First, Michigan signed Fritz Crisler, Princeton coach, as head football mentor and assistant athletic director at Ann Arbor. Then Princeton selected Wieman, a Michigan alumnus who had assisted Crisler, as its football coach.

Crisler then appointed Campbell Dickson and Earl Martineau, Princeton end and back, Tad Wieman's assistants at Michigan and Wieman was faced with the task of filling two holes in his coaching staff.

Wieman was graduated from Michigan in 1921. He played tackle and fullback under Fielding Yost. He assisted Yost for six years, then became head coach at Michigan in 1927. After the 1928 season he confined his activities to assistant athletic director. He went to Minnesota in 1930 to assist Crisler, followed him to Princeton and remained with Crisler until the latter transferred to Michigan.

Washington Digest

National Topics Interpreted By WILLIAM BRUCKART

Washington.—Congress has just passed another relief appropriation for the current year. This, like the earlier vote of funds, was done at the request of the President.

The new sum is \$250,000,000. Since the first appropriation for the current year was a billion and a half, we now find that federal relief during the current fiscal year will have cost at least \$1,750,000,000. It may be added that the sum mentioned is in addition to local charity, community chests, etc., and also that it has been, or is being, spent in a period five years after we were told that the nation was about to be remade under New Deal ideals.

Now, it is a rather far cry from relief, the care of the aged and infirm, the destitute, to the question of politics. That is, it appears only to be a great gap between those two phases of national life. I insist it is very close; that there is no gap at all. I reach that conclusion because never before in history has there been such use of basic economics as in the last four or five years.

That is to say, politicians have turned to questions of economics for their political buncombe—and it ought to be added that when a politician tries to do something with fundamental questions, just there begins a grand mess.

All of which brings us to the point of this discussion. When President Roosevelt went into the White House in March, 1933, he was confronted with probably the most unfavorable conditions, insofar as business conditions were concerned, that any President ever has faced. He called for a New Deal in handling the situation and he obtained almost unanimous support. Indeed, as we look back at that situation, the support was too nearly unanimous. He had no opposition to point out weaknesses of what was proposed by the responsible officials. I think I recall having written at that time that a stronger opposition would have been good for the country. Some of the pitfalls would have been avoided, I am sure, if congress had not been so subservient and if the President had not yielded so completely to the theories of advisers who had no practical experience.

The people of the nation were in a mood to listen to anyone. They heard new phrases of what can and should be done—the more abundant life, the economic royalists, the crushers of the poor, and on and on. But the trouble with the professor-advisers was that they ignored or did not know of another side to the story. In short, they believed that human nature had changed overnight and that a nation could be managed or directed or ordered as an individual. It has taken several years to re-establish natural facts and natural laws, but they seem now to be approaching that re-establishment through the processes that normally must be followed in a nation, as distinguished from an individual.

So, what do we have? I think the answer is that we have an administration headed by a man who is the victim of the advisers he selected. I believe it can be said that politically President Roosevelt is just as uncertain about where he is going as is the rank and file of citizens about where the nation is going. But he selected those advisers and, for the most part, continues to give them his confidence. They are still on the job. And in no better way has it been shown that they are utterly incapable of meeting national problems than is shown in the business of relief. Relief is more than just the care of those who must have help. Relief is a condition reflecting other conditions. The President and his theorists, therefore, must be charged directly with having failed. We have almost as many unemployed or under government aid as we had when Mr. Roosevelt took office.

I suppose someone will write to me asking what can be, or what should be done about it. Anticipating that query, I will attempt to answer now, but I want to illustrate it.

A friend of mine has been ill for several years with an intestinal ailment. Physicians to the number of a dozen or more have studied the case. Finally, the use of a drastic remedy, a potent and almost poisonous drug, was prescribed. The doctor began by ordering the patient to take three drops, only three, at the start. The dose was increased gradually. In the last few weeks, my friend has taken fifty drops of the drug each day. There is no assurance that the ailment will be eliminated. There can not be a determination for many months because the treatment is entirely new in medical annals. Thus far, there has been no appreciable change in the patient's condition. But the point is, after all, that a professional man who has

HOW TO SEW

by Ruth Wyeth Spears

IF SPRING is not in the air yet it soon will be. It is the season when every room in the house seems to need a lift. If your couch or daybed looks as though it has had a hard winter now is the time to give it a thought.

The couch of the type shown here may be made to fit into almost any decorating scheme if it has a smart and appropriate cover. The one shown here is ideal for a room with modern furniture or for one that follows no particular period. It would also give an interesting accent in a Colonial or provincial room. The cushions match the couch cover. A roughly-woven navy blue cotton material is used and the seamlines are outlined with heavy cream colored cable cord. If you would like a gayer color scheme, use red cord with navy blue. Cream or yellow cord with brown material also makes an attractive cover.

A curved candlewick tufting needle such as is shown here at the lower right is good to use for sewing the cord in place. Thread about size 8 or 10 to match the cord should be used. The needle shown is really a medium size version of an upholsterer's needle which is another piece of sewing equipment that you will find useful if you like to renovate old furniture. So often mystifying technical details stand in the way of mak-

ing things that would add beauty and comfort to your home. It is with this in mind that Mrs. Spears wrote and illustrated her book, SEWING for the Home Decorator. With clear sketches and text it explains the simplest and most professional methods of making new slipcovers, correctly styled curtains, difficult dressing tables, pleasingly proportioned lamp shades and dozens of other things that will give your rooms new charm and freshness. This book will save you many dollars. Readers wishing a copy may address Mrs. Spears, 210 So. Desplaines St., Chicago, Ill., enclosing 25 cents (coins preferred) and a copy of the book will be sent post-paid, by return mail.

TIPS to Gardeners

Miscellaneous Tips

BEFORE planting, work soil deeply, making the top three or four inches as fine and loose as possible. For better germination, pour water into the drill or furrow just before sowing. Use enough water to moisten the soil, but not enough to cause caking. If you have had little experience and wish to try the vegetables easiest to grow, select radishes, carrots, beets, Swiss chard, and turnips. With a good-sized garden you might add spinach, peas, beans and corn.

If your garden is small and you wish to increase the total yield, try the following quick-growing vegetables: Radish, leaf lettuce, beets, carrots, peas and beans. You can replant most of these after space has been made for them by early harvest. Do not plant seeds deeper than directed. After planting cover seeds immediately, pressing the soil down firmly.

Favorite Recipe of the Week

Pineapple Cream for Plain Cake. MANY times the dessert question is a difficult one to decide upon, and there are other times when there is some pound cake, gingerbread, or plain butter cake left that needs to be made interesting to tempt the family. When these two situations meet, you will find that pineapple cream to serve over slices of any one of the kinds of cake will be just the trick to produce a lovely dessert. Pineapple Cream. 1 cup crushed pineapple. 1 pint heavy cream. 1 cup marmalade, jam or jelly. Drain the juice from the pineapple and save it to use for something else, or just drink it. Whip the cream until stiff. Blend the cream with the drained pineapple and the marmalade, jam or jelly. By varying the kind of jam used the whole tone or flavor of the cream can be changed, and you will find any flavor blends well with the pineapple. Serve the pineapple cream over slices of the chosen cake. MARJORIE H. BLACK.

THE red-and-silver Ferry's Seeds display in your neighborhood store is the first real sign of spring. It's a reminder, too, that you can grow more luscious vegetables and more glorious flowers than ever if you rely on Ferry's Seeds. For the Ferry-Morse Seed-Breeding Institute has developed many fine new varieties and even improved old favorites. In the Institute's experimental gardens, seed experts develop and test Ferry's Seeds—breeding and gradually perfecting carefully selected strains. Choose your seeds from the Ferry's display this year. All have been tested for germination and freshness to type—your assurance of a successful garden. So a packet and tin, 1938 NOVELTY tool Ferry-Morse Seed Co., Detroit, San Francisco.

GUIDE BOOK TO GOOD VALUES

When you plan a trip abroad, you need a guide book, and figure out exactly where you want to go, how long you stay, and what it will cost you. The advertisement in this paper can help you decide on good values. If you wish a booklet on good values, it will send you one free. Simply fill out and send your name, address and money order.

COMMENTS

Lewis Burke

How do you do, Ladies and Gentlemen; how DO you do? And how's everybody? You say little Willie has a bad cold? That's too bad.

- And R U Listenin'?

Now is the time for a Brave Refrain. Why? On account of the molature we've been having lately. It is quite timely, too.

We were out to the malpais or Pre-historic Lava Beds last Sunday. There is something always new to be seen about it. There can be made a scenic driveway across from Lovelace's ranch on an "Island" or place where the lava didn't touch.

The view at this place affords a decided contrast, i. e., the snow-capped peaks of the distant mountains, and right at hand one may observe the lava formation which has no history whatever. Then comes the cacti, the scrub oak, the stunted cedars, the yucca plants of every variety, rattlesnakes, too (if you don't watch out)

We've never seen a rattler on the Malpais; believe it or else.

Pardon us, for we're ahead of our story, for we saw Mr. A. H. Harvey, Surveyor and Dr. R. E. Blaney, Secretary of the Carrizozo Business Men's Club, out looking over the Ancient Lava Beds. Wonder why?

- But have patience; it is going to be made a National Monument or State Park in the near future. We have assistance of the local Business Men's Club that they will do all in their power so to do.

In mentioning the list of the "Mayors" of neighboring hamlets last week, Dewey Stokes says we overlooked one important official, Hon. L. A. Whitaker, Mayor of Walnut. - We beg to apologize; apologies to Amos 'n' Andy.

While we're about it, a few more names we would like to give as having this "distinguished" honor bestowed on them-

Hon. B. L. (Shorty) Moore, Mayor of Rabenton.
Hon. Jay Rustin, Mayor of Hobart.

Heard on the radio Tuesday night: Jack Oakie asked Charlie Butterworth the old question about which came first, the Chicken or the Egg. After a time, Charlie drawled out, "The Egg - on this program."

"Whistle While You Work," from "Snow White and the Seven Dwarfs" is a popular melody at present. Note "The Whistler and His Dog," composed by Arthur Pryor, and "The Whistling Farmer Boy at Feeding Time," written by Harry Fillmore, are standard numbers, and are heard frequently on the air. We're asking for information, could these numbers be forerunners of this popular tune?

Heard on the radio: Stop at any - Low Drug Store and Pay MORE.

So, Adios, Thanks for listenin'!

WISE

The wise and pleasant way to relieve a cough due to a cold is a Smith Brothers Cough Drop. (Two kinds: Black or Menthol-5¢)
Smith Bros. Cough Drops are the only drops containing VITAMIN A. This is the vitamin that raises the resistance of the mucous membranes of the nose and throat to cold and cough infections.

School Notes

The Senior Class reports favorable progress upon their Class Play which will be presented in the near future.

Rev. Vandiver substituted last week while Mr. Caton was attending the Tournament.

Grade cards for the recent 6-weeks' period have been given out.

The presentation of Zora's Gale's one-act play "The Neighbors" by the Freshman Class was greatly enjoyed by the student body in a recent assembly.

A generous supply of Life magazines, donated by Attorney and Mrs. Hall are eagerly read and appreciated by the students. A series of Educational Pictures are being shown to the Junior Hi. They are enjoyable and very educational to the children. Prof. Bright is to be complimented for directing this educational work.

Last week some members of the Capitan student body made a good-will tour to the Carrizozo school. They gave a nice musical program, and made a fine start for the good-will tours between the two schools.

Great interest has been displayed over the names of the alumni published last week. Several have called and are interested in forming an Alumni Association. Hence a meeting of all graduates of the Carrizozo Hi School will be called for the near future, just as soon as a definite list of same can be worked out. Information of the following students is not at hand: Zella Mayes, Rufus Branum and Pearl Hyde. If any reader can give their addresses and occupations it will be appreciated.

The state and local health authorities conducted a splendid assembly program Wednesday. Their movies were both instructive and interesting. The Assembly programs are attracting much attention this school year; many visitors are common at each event. Visitors are always welcome.

County Board of Education

The following members of the County Board of Education have been re-appointed for the year beginning March 1, 1938: G. T. McQuillen, Mrs. L. L. Peters, A. L. Hulbert, Gregorio Pino. The board met in session March 7, to take the oath of office and organized with the following results: McQuillen, President and Mrs. Peters, Vice-President. The board is looking forward to a pleasant and successful school year.

Women's Missionary Society

of the Methodist Church will conduct an Enchilada Supper at Community Hall, Tuesday, Mar. 15.

BORN--To Mr. and Mrs. Willis Lovelace, Jr., Monday, in El Paso, a girl. Mother and daughter are doing nicely.

Allie Stover was here for a portion of the week, attending to some court matters. Mr. Stover owns a ranch and some livestock in the Hondo valley.

There will be an all-day singing convention held at Corona on the 4th Sunday in March, which will be the 27th. Several out-of-town singers of note will attend. The public is cordially invited. -Mrs. Don English.

BORN--At Beaumont hospital, El Paso, to Lieut. and Mrs. A. B. Johnson, a girl. Mother and daughter are doing nicely.

Lieut. and Mrs. G. C. Ward will leave Saturday for McAlester, Okla., to visit Mrs. Ward's parents, Mr. and Mrs. R. J. Hanchette, for about two weeks.
