

**BANKING LOOKS AHEAD**

**Big Business of Tomorrow**

Many of tomorrow's industrial giants are today small concerns, struggling for a foothold in our highly competitive economic system. The fact that they will survive and prosper will be due first to a worthy product of service, and second to sound management. Banking can, and does, play an important role in sound business management. Wise is the "small-business man" who early in his career allies himself with a strong bank. If you are in business, or hope to be, we invite you to establish a working relationship with this bank.

COMMENTS

Lewis Burke

—And R U Listenin'?

Man, maybe this is your trouble: When you were a boy, you wouldn't study. When you were a young man, you didn't try to improve yourself in a trade or in a business.

And now that another man is doing better than you are, because he knows more than you do, you yell that there is something wrong with the social system.

The social system is all right. The trouble is that from the very first you trained yourself to become a bum.

WHAT TO DO IN A SANDSTORM

The best way to survive a sandstorm without getting the jitters is to get into some sort of a game with other persons. Card games are the best thing I know. And a red hot bowling game will do very well.

I know of some persons who start for the bath emporiums just as soon as the wind starts blowing. They holl out and then they are rubbed down and they wrap up on a cot and go to sleep.

About the worst thing to do is to stay at home and read. Usually, you will seek out a spot close to the window, and ever so often you'll look out, your attention will be attracted by the windows rattling and you'll be a mental wreck by evening.

Keep yourself busy, intensely interested and be with people when the sand is blowing and the wind is howling outside. — Exchange.

Headline — "Stop Hitler!" Save Rumania from German Domination; France May Mobilize.

—It appears that they are all afraid of the Chancellor.

This country levied a large duty on Nazi-made importations last week.

WHO SAID "STOP HITLER?"

The Skoda munitions plant, one of the world's greatest and most important arms manufacturing, situated in Pilsen, Bohemia, now comes under the control of Germany with Hitler taking that famous Czech-Slovakian province, along with Moravia and Slovakia, under Nazi "protection." Until the dissolution of Czechoslovakia, most of Skoda's products were absorbed by Czechoslovakia and other allied powers. Germany, most likely, will now become chief customer.
