

CARRIZOZO OUTLOOK

Weather Report (Weekly)

Table with 5 columns: Date, Max, Min, Prec, P.W. Rows for Nov 16-21.

Beatrice Romero, Airway Observer

Funeral of Sam Farmer

Highly-respected citizen and pioneer of Lincoln County, was held last Saturday afternoon with Fr. Salvadore of the St. Rita Church conducting the services.

Sam Farmer, 68, came with his parents to Lincoln from Manzano when only a child and after reaching manhood, he married and settled down to life as a farmer.

Sam's health had been on the decline for several years. The survivors, his widow, a brother, Teodoro and other relatives have the sympathy of this community.

Funeral Services For F. L. Elliott

Funeral services for the late F. L. Elliott, who died Nov. 7, were held at Tucumcari Nov. 9. The same were held at Dunn's Funeral Parlors with Rev. Stueland of the Episcopal Church officiating.

Mr. Elliott had been in the employ of the S. P. railroad company for many years and would have soon been retired. He was a Past Master Mason, holding his membership in the Tucumcari lodge.

Dan Chavez is assisting at the Star Cafe Bar, in company with Doble Blankenship.

Mrs. Maggie Pfingsten and Miss Erma Poage were here from the Nogal country last Saturday, doing some shopping.

Mr. and Mrs. Douglas Langston of Albuquerque, Mr. and Mrs. H. C. Langston of Taos, Mr. and Mrs. Wm. Klier of Corona were guests of Mrs. Guenther Kroggel for Thanksgiving dinner yesterday.

R. M. Storey of the Ancho country was a visitor in town yesterday.

Local Mention

Mr. and Mrs. H. M. Kennedy of their ranch in the Jicarilla mountain country were visitors in town this Monday.

Sat Chavez, Jr., was here from Bernadillo on Nov. 8 to spend the week-end with the home folks.

Mr. and Mrs. Jack Cleghorn of White Oaks visited friends here this Monday.

Mrs. Grace Comrey of Nogal was a visitor in town this Tuesday.

Probate Judge-elect Marcial C. St. John made a business trip to Alamogordo last Sunday.

Mrs. Ira Greer was here from Tucumcari to spend the week-end with the folks at the San Andres ranch, her father and mother, Mr. and Mrs. P. M. Johnson and other relatives here.

Mrs. C. O. Davis left Monday for her old home in Newark, Okla., after receiving a message that her aged father H.A. Shaffner was seriously ill.

Mr. and Mrs. B. L. Stimmel left last Saturday for Walla Walla, Wash., where they will spend the winter months with their son Roy and family at Whitman, George and Lotta at Weitesburg.

Mr. and Mrs. T.C. Key and Mrs. Jack Young of Captain visited County Treasurer Ernest Key and family this Wednesday.

Mr. and Mrs. George Goodson of Ancho-Luna visited friends here this Wednesday.

Mr. and Mrs. F. H. Hendron and Miss Patsy Moore of Albuquerque are here for the week as guests of the Moore family of the B. & M. Store. Mr. Hendron is the father of J. W. Hendron, who had charge of the reconstruction of the old Lincoln courthouse.

John Schaff, the efficient caretaker of the City Plaza, was taken seriously ill last week, and is at the Turner Hospital. He is much-improved at this writing.

Rev. and Mrs. Elvin Bost and daughter are residing in one of the Burke residences.

Mr. and Mrs. James Baxter and son Jimmy, Jr. visited Dr. M. G. Faden at White Oaks last Saturday.

W. J. Ferguson of Coyote, who was injured recently, is improving.

Harry Aguayo, sons Jack and Elmo, Rich Huat and Bryce Dugger were Carrizozo business visitors from the Nogal country the first part of the week. Homer McDaniel and Judge Peacock were here also.

Mr. and Mrs. Walter Burnett of their ranch near Ancho were visitors here Saturday.

Mr. and Mrs. Will Ed Harris of their ranch in the Gallinas mountain country visited relatives and friends at this place this Wednesday.

Miss Marye Lewis of the Lewis ranch at the head of the Malpais visited friends here this Wednesday.

Another Treat To Our Subscribers

BEGINNING NOV. 1, 1940

We will again give away a 2-Pound Box of Fine Assorted Chocolate Cream Candy with every new subscription and renewals as well.

It's Your Opportunity

And Our Treat!

Offer Closes Dec. 24

Three Volunteers

The quota of three men was filled by the following volunteers who met with all qualifications: Pat Conley, Carrizozo; T. J. Youngblood, Lincoln; and Benigno Mirabal, Carrizozo.

These boys left yesterday evening to report to the commanding officer of the inducting station at Ft. Bliss, Texas.

Signed, Herman Kelt, Chairman, Local Board.

The boys were given a big send-off at the station just before train time.

Mr. and Mrs. B. L. Stimmel left last Saturday for Walla Walla, Wash., where they will spend the winter months with their son Roy and family at Whitman, George and Lotta at Weitesburg.

Mr. and Mrs. F. H. Hendron and Miss Patsy Moore of Albuquerque are here for the week as guests of the Moore family of the B. & M. Store.

John Schaff, the efficient caretaker of the City Plaza, was taken seriously ill last week, and is at the Turner Hospital.

Rev. and Mrs. Elvin Bost and daughter are residing in one of the Burke residences.

Mr. and Mrs. James Baxter and son Jimmy, Jr. visited Dr. M. G. Faden at White Oaks last Saturday.

W. J. Ferguson of Coyote, who was injured recently, is improving.

Harry Aguayo, sons Jack and Elmo, Rich Huat and Bryce Dugger were Carrizozo business visitors from the Nogal country the first part of the week.

Mr. and Mrs. Walter Burnett of their ranch near Ancho were visitors here Saturday.

Mr. and Mrs. Will Ed Harris of their ranch in the Gallinas mountain country visited relatives and friends at this place this Wednesday.

Miss Marye Lewis of the Lewis ranch at the head of the Malpais visited friends here this Wednesday.

Mr. and Mrs. H. M. Kennedy of their ranch in the Jicarilla mountain country were visitors in town this Monday.

Sat Chavez, Jr., was here from Bernadillo on Nov. 8 to spend the week-end with the home folks.

Monthly Sale at The B. & M.

The B. & M. Store is putting on its monthly sale and as usual, is offering the public many money-saving bargains.

Lead Increases to 427

Topeka, Kansas, Nov. 21—Gov. Payne H. Ratner, Republican seeking re-election, emerged a photo-finish leader Thursday night in the complete unofficial count of ball to cast 16 days ago.

The 44-year-old governor, who proclaimed Nov. 28 as Thanksgiving Day for Kansas, considered the result conclusive enough that he ate turkey in a private celebration and said he would go quail hunting Friday.

Frank J. Ryan, secretary of state, said it would be several days at least before official figures would be known.

The canvassing board will begin to tabulate returns, including in-state absentees, Monday. About 8 counties have not sent in their returns.

NYA Employment Age Lowered to 17

Information was released today by the Area N Y A office in Carlsbad that youths from 17 to 24 years old inclusive may be employed for work experience.

Cather Morper, Area Youth Personal Supervisor, advises that interested youths may secure application blanks from Attorney John E. Hall in Carrizozo.

Bill Thomas of the Thomas Garage in Corona was a business visitor here today, Friday.

Allan Walker, assistant district attorney, was taken to the hospital Sunday for treatment for influenza pneumonia. He is reported recovering satisfactorily.

Mmes. Geo. A. Titeworth and H.M. Balknap of Captain visited friends here today, Friday.

Probate Judge John Maskey of San Patricio was here Tuesday, attending to his official duties. The Judge reported freezing weather in the lower valley.

Mr. and Mrs. Albert Kimbrell of Pecos are here today, visiting the home folks.

Mr. and Mrs. Barney Wilson of Ancho were visitors in town this morning.

A. L. Burke

Let Us Be Careful To Preserve Our Democracy

It will be the task of historians of the future with all the evidence at their disposal, to weigh and designate the factors which led to the tradition-shattering third term for President Roosevelt, but for us in ordinary citizens' clothes, our duty to this country is very clear.

During the coming times, it will be Democratic to support the President without bitterness and rancor in what is right—but, it is just as essential to oppose him when we see he is wrong, for in that way, and that way only, can we preserve our Democracy.

Already the opposition is showing itself in our national congress. On this Tuesday, when the adjournment of that body was advocated by the President, it was defeated by a vote of 191 to 148.

The opposition party should feel no pang of regret—we have not lost in vain. Wendell Willkie made a gallant fight and the millions of our citizens who voluntarily enlisted under his banner furnished a good and firm foundation for a lasting fortress to preserve our form of government, the best under the sun.

The President has promised to make us strong—to keep us at peace and in all things to preserve the great American way.

Let us hope that he keeps those promises. If he does, he will have the whole-hearted co-operation of that heavy portion of our people called the "opposition," which is strongly American to the bone and sinew.

Let us be strong in preserving our great Democracy and the American way.

Hospital For Old Toys

The American Legion has arranged a toy hospital, where a disabled war veteran of our community has donated his services, toward repairing and reconditioning any old toys donated, for redistribution to needy children, through the Dept. of Public Welfare.

Billy Beck is home from the Tingley Hospital and his physicians say that he will soon be able to walk without the assistance of crutches.

LYRIC THEATRE

(Air conditioned) R. A. Walker, Owner "The Theatre Beautiful"

Shows start promptly at 7:30. Sunday matinee at 2:30 p.m.

Friday & Saturday

Bill Boyd, Russell Hayden, Ruth Rogers and Britt Wood in

"Hidden Gold"

Hopalong sets out to learn why a certain gold miner's shipments are always stolen from a stage-coach and never held up when carrying other freight.

"Onion Pacific" and "Two of a Kind."

Sunday—Monday & Tuesday Fred Astaire, Eleanor Powell, Geo. Murphy & Frank Morgan in

"Broadway Melody of 1940"

The world's greatest dancers in the world's greatest musical show. If you like a really well-produced musical picture, we're shouting don't miss this one!

March of Time and Paramount News.

Wednesday & Thursday BARGAIN NITES, 10 and 20c Brian Donlevy, Muriel Angelus and Kean Tamiroff in

"The Great McGinty"

A slam-bang, rough-and-ready, brain-brawny comedy. A full measure of swell entertainment.

"Have You Met Yvette" and "When a Razzberry was a Fruit."

They Were Pals

Last week, on the streets of Los Angeles, two dogs were noticed playing in a friendly manner. The small dog was a scottie, the other a large brown dog. They played until a passing truck struck the little scottie, injuring him so badly that he crawled to the gutter and died.

It happened toward evening and the big brown pal set vigil over his dead playmate all through the night and until near the noon-day hour of the following day.

Officers who tried to get the carcass away for burial were met with growls and showing of teeth from the watchman, and only children passing that way, were allowed to pat him on the head.

Through that long period, the gallant pal had nothing to eat or a drink of water. Finally, a friendly milkman threw a handful of hamburger to the scottie which he eagerly devoured. Then, the dead pal was taken from his partner, but children did the job where officers had failed.

Crist Trevino of Lingle, Wyo., and Paul Lucero of Trinidad, Colo., arrived here last night for a visit with Mrs. S. Trevino and Mr. and Mrs. Andy Luceras. Mrs. Edward Rael the children, Mike Crist and Annabella of Clayton are also here visiting the Trevino and Luceras families.

Miss Haldane Storer, former Carrizozo teacher, was here from Helen to spend Thanksgiving Day with her many old friends in Carrizozo.

Election Night Crowd in Times Square

New York's Great White Way was the scene of election night excitement as great crowds jammed Times square to read the latest bulletins in the thrilling presidential race. (Inset, left) Franklin Delano Roosevelt, the first President ever elected to a third term. (Inset, right) the newly elected vice president, Henry Wallace, former secretary of agriculture.

New Recruits for Uncle Sam's Army

A raw batch of new recruits are pictured as they arrived at Fort Devens, at Ayer, Mass., ready to go through the routine that will turn them out as soldiers of the line within a few months. There are 3,400 soldiers and 100 officers housed at present at Devens. Meanwhile more than 3,000 artisans are working night and day to complete the first of 27 new barracks to accommodate the 1940 batch of draftees. Each building will house 63 men.

The Old Folks 'At Home' in London

This aged couple spend the air raids in the de luxe shelter constructed in the basement of their Westminster Borough home in London. The banks upon which they rest were installed by the Westminster council which is providing them for all private shelters, to enable the populace to obtain their proper rest and curb "air raid nerves."

As London's Children Are Evacuated

British captives with these pictures describe them as "another large party of mothers and children being evacuated to the country from London." At the left a child in a policeman's arms shows her bewilderment at the evacuation. Right: a youngster with an identification tag around her neck is being carried to a waiting bus by a policeman.

Christened

The U. S. S. Swanson, new destroyer, sliding down the ways at the Charleston, S. C., navy yard. It was christened by Mrs. Claude Swanson, wife of the late secretary of the navy.

Speaks for Petain

Gaston Henri-Hays, French ambassador to the U. S., who delivered to Secretary Cordell Hull the reply of Marshal Petain to President Roosevelt's appeal that the Vichy regime abstain from collaborating with Germany in the war.

PSYCHOLOGY TEST FOR SOLDIERS

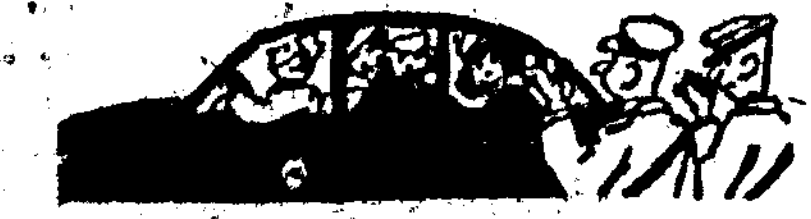

Tests in psychology for all men in the army are proposed by officers at Fort Dix, where such tests are now being applied to determine the fitness of soldiers in special situations. And just when it seemed that enlisting in the army might be the only way to escape those things!

One of the questions is: "You are driving an auto at night. While driving you meet another auto which will not dim its lights, regardless of your signals. What would you do?" The question becomes particularly important if the gent in the other car happens to be a general.

Another reads: "You are walking along a muddy road carrying a stone in one hand when an auto passes and splashes mud over you. Would you throw the stone? Answer yes or no." There's only one answer for a soldier to that one: "No. But don't depend on it."

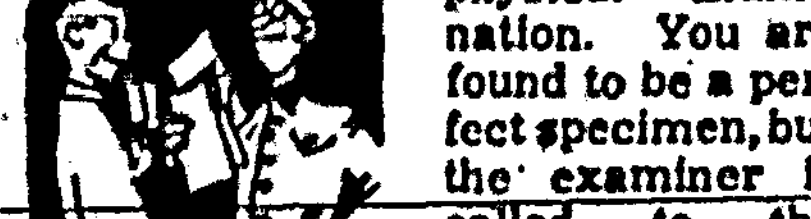

Professor Elmer Twitchell, this department's eminent psychologist, has prepared the following tests for volunteers and draft prospects:

1.—You are driving a limousine to the front. There are four young ladies with you. On the way you

encounter two majors going to the front on foot. They both give you the thumb in the orthodox hitch-hiker manner. You explain that, as you have four girls with you, there is no sense taking them aboard unless they can dig up another major. Go on with the story from there.

2.—You have answered the draft summons and presented yourself for physical examination. You are found to be a perfect specimen, but the examiner is

called to the phone, and in stumbling over a chair drops his papers and gets them mixed up. He returns to you and says: "Let's see; you're the one with defective eyesight and deafness in both ears, aren't you?" Which of the three answers would you make:

- (a)—Right you are.
- (b)—No, sir.
- (c)—Yes, and my arches are all gone, too.

3.—You are assigned to guard duty at night on a desolate post. Vigilance bores you so you sit down and use a portable radio. While you are listening to the Pot of Gold program a superior officer comes along. Which would you think the best remark to make under the circumstances:

- (a)—How do you suppose this radio ever got here?
- (b)—Sorry, captain. I forgot where I was.
- (c)—Let's both go home so we can win this dough in case our phones ring.

ELECTION RESULTS
An office-seeker, if defeated; Finds his stock of friends depleted.

An office-seeker, if elected; Has friends he'd not before suspected. Richard Armour.

It seems good to see America off the acid standard after election, thinks E. E. Jay.

A dictator is something that goes in one era and out the next.

"Our idea of the complete football fan is the fellow who witnesses the game, listens to his portable radio description of it and then buys a paper to see what happened."

BORDER INCIDENT
The statesman of (fill in the blank) Took just a little nap, And when they woke they couldn't find Their country on the map. Richard Armour.

CAN YOU REMEMBER
Away back when babies were exempt as legitimate war targets? When speed laws were as low as 40 miles an hour? When wars could be stopped by ultimatums?

DRAFT REACTIONS
Drawings are a thing I hate—I drew number One-Five-Eight. Lotteries they make me blue—Now I'm known as One-Nine-Two!

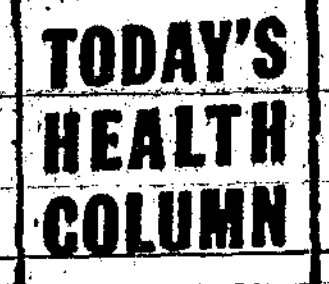

Never say my luck is fine—I'm Eight Thousand-Six-Two-Nine!

Number 100 in the First district, New York, was a Chinese. If by any chance he gets Secretary Stimson's laundry

Heat Always Good Remedy For Backache

By DR. JAMES W. BARTON
(Released by Western Newspaper Union.)

WHENEVER I see a man on the street walking as if his back were hurting him I want to stop and tell him about the backaches I have had in my time. My first backache, due to injury (braking my car) required

a supporting brace (Goldthwait) for four years; the second attack, due to infected tonsils, disappeared when tonsils were removed; and the third and fourth attacks, due to infected teeth, disappeared when these teeth were removed.

With the backache due to injury I found that by assuming a certain position in bed I could be free of pain. With the backaches due to infection (tonsils and teeth), I found that the pain was worse when I was at rest and was less painful when I was up and walking about.

What many physicians, including myself, fail to remember, however, is that

the backache due to injury may come on slowly because the injury is not due to some sudden strain but to some slow steady strain on the back. Many cases are due to men and women allowing themselves to become overweight, particularly over the abdomen. The increased weight of the abdomen causes a pulling on the joint between the spinal column and the hip bones. This causes not only backache but often severe pain down the upper leg—sciatica. In these cases, reducing the weight and the wearing of an "uplifting" abdominal belt takes the strain off these joints and gives great relief.

Abdominal Belt Also for Underweights.

However, those who are underweight may also have this pain if they are physically weak and do not stand correctly. Here also an abdominal belt is of help. Also, as men and women grow older and weaker there is an extra strain on the joints and muscles of the lower back.

The thought then in all cases of backache is to try to find the cause. While trying to find the cause—injury, infection, poor posture—heat in any form is good treatment. Heat not only soothes the nerves but relaxes the muscles, thus taking much of the "pull" or tension off the muscles and ligaments surrounding the affected part.

Tooth Disorders and Trifacial Neuralgia

ONE of the drug companies has distributed to the medical and dental profession an accurate and complete illustration of the distribution of the "fifth" nerve. The illustration shows how branches, large and small, go to every part of the face, jaws, cheeks, throat and to each individual tooth. I had it framed and it hangs on the wall of my office as I can so easily point out how one tiny nerve ending in a tooth can start pain in the large group of nerve fibers under the ear and cause that agonizing pain called tic douloureux, or trifacial neuralgia.

That other conditions of the teeth aside from impacted wisdom teeth may be causing this severe trifacial neuralgia is stated by Dr. M. Melchior in the Journal of Psychiatry and Neurology, Copenhagen.

Dangers of Extracting Teeth.
Dr. Melchior is very emphatic in pointing out the danger following extraction of the teeth. "Pieces of the root or splinters of bone from the bony socket often remain which may heal into the jaw without causing any symptoms but which, after many years, may be the concealed cause of severe neuralgias.

Extraction of the teeth may develop little nerve tumors, thin ridges of bone, and fractures of the sides of the bony sockets in the jaw bone. Some of the pieces of bone stick out as bony edges and cut into the lining membrane of the mouth. These sharp edges are of course struck by food or other substances in the mouth, causing continuous injuries or soreness with resulting infections. The treatment for such cases is the removal of these jagged pieces of bone.

QUESTION BOX

- Q.—What is sebum? What does it do?
A.—Sebum is the name of the natural oil that is made in little oil sacs or sacks in lower part of skin. It comes up to surface of skin and keeps skin soft and pliable.
- Q.—Does the five-meal-a-day plan mean to eat more food in the 24 hours?
A.—No. Part of lunch and evening dinner is eaten at 11 a. m. and 8 p. m.

Panda Cuddle Toy Is Easy to Crochet

BLACK and white yarn—a crochet hook— presto—a life-like panda cuddle toy. Single crochet forms the exterior of this cute animal; cotton stuffing the interior; buttons do excellent service as eyes.

Easy directions for this cuddly panda are 25036, 15c. He is about 14 inches tall when finished, and will be a nursery favorite. It takes but little effort to crochet him. Send order to:

Era of Swift American Clipper Ships Engaged in China Tea Trade Was One Of Most Romantic in Maritime History

By ELMO SCOTT WATSON

(Released by Western Newspaper Union.)
IT WAS the year 1860—more than three-quarters of a century ago—and the place was London, England, at the docks. Men crowded the wharf, eyes searching the channel. They jostled each other, eager to be the first to announce the coming of the ship which they awaited.

In the windows of nearby buildings other men with field glasses kept watch. A rumor swept like wildfire through the crowd "She's coming, she's coming." But the rumor proved false and the watchers settled themselves to wait again. They were joined by scores of others until the dock was packed solidly with expectant humanity. Suddenly a cry went up: "That she be, coming down the channel. The beauty!"

Moving with infinite grace the clipper ship, Falcon, was coming into port, bearing the year's first cargo of tea from Foochow, China, to London. She had made the voyage in 110 days, beating her rivals, Ellen Rodgers, Robin Hood, Chrysolite and Ziba, into port and so won a fortune for her owners. Despite the fact the Falcon was heading for an English port, she was American-built and was one of the great line of clipper ships, constructed on American ways, which made sea history.

There is no more dramatic era of the sea than that of the clipper ships, an era which was recalled a few weeks ago by announcement of the Tea Bureau, Inc., that for the second time in history this country's annual imports of tea had passed the 100,000,000 pound mark.

During the Nineteenth century the arrival of the first cargo of new tea into port meant a fortune for its owner, and the clipper ship races bore all the elements of great sporting events. In fact, the races were recorded, on canvas by noted painters of the day and have since formed the theme of many books both of an historic and fictional nature.

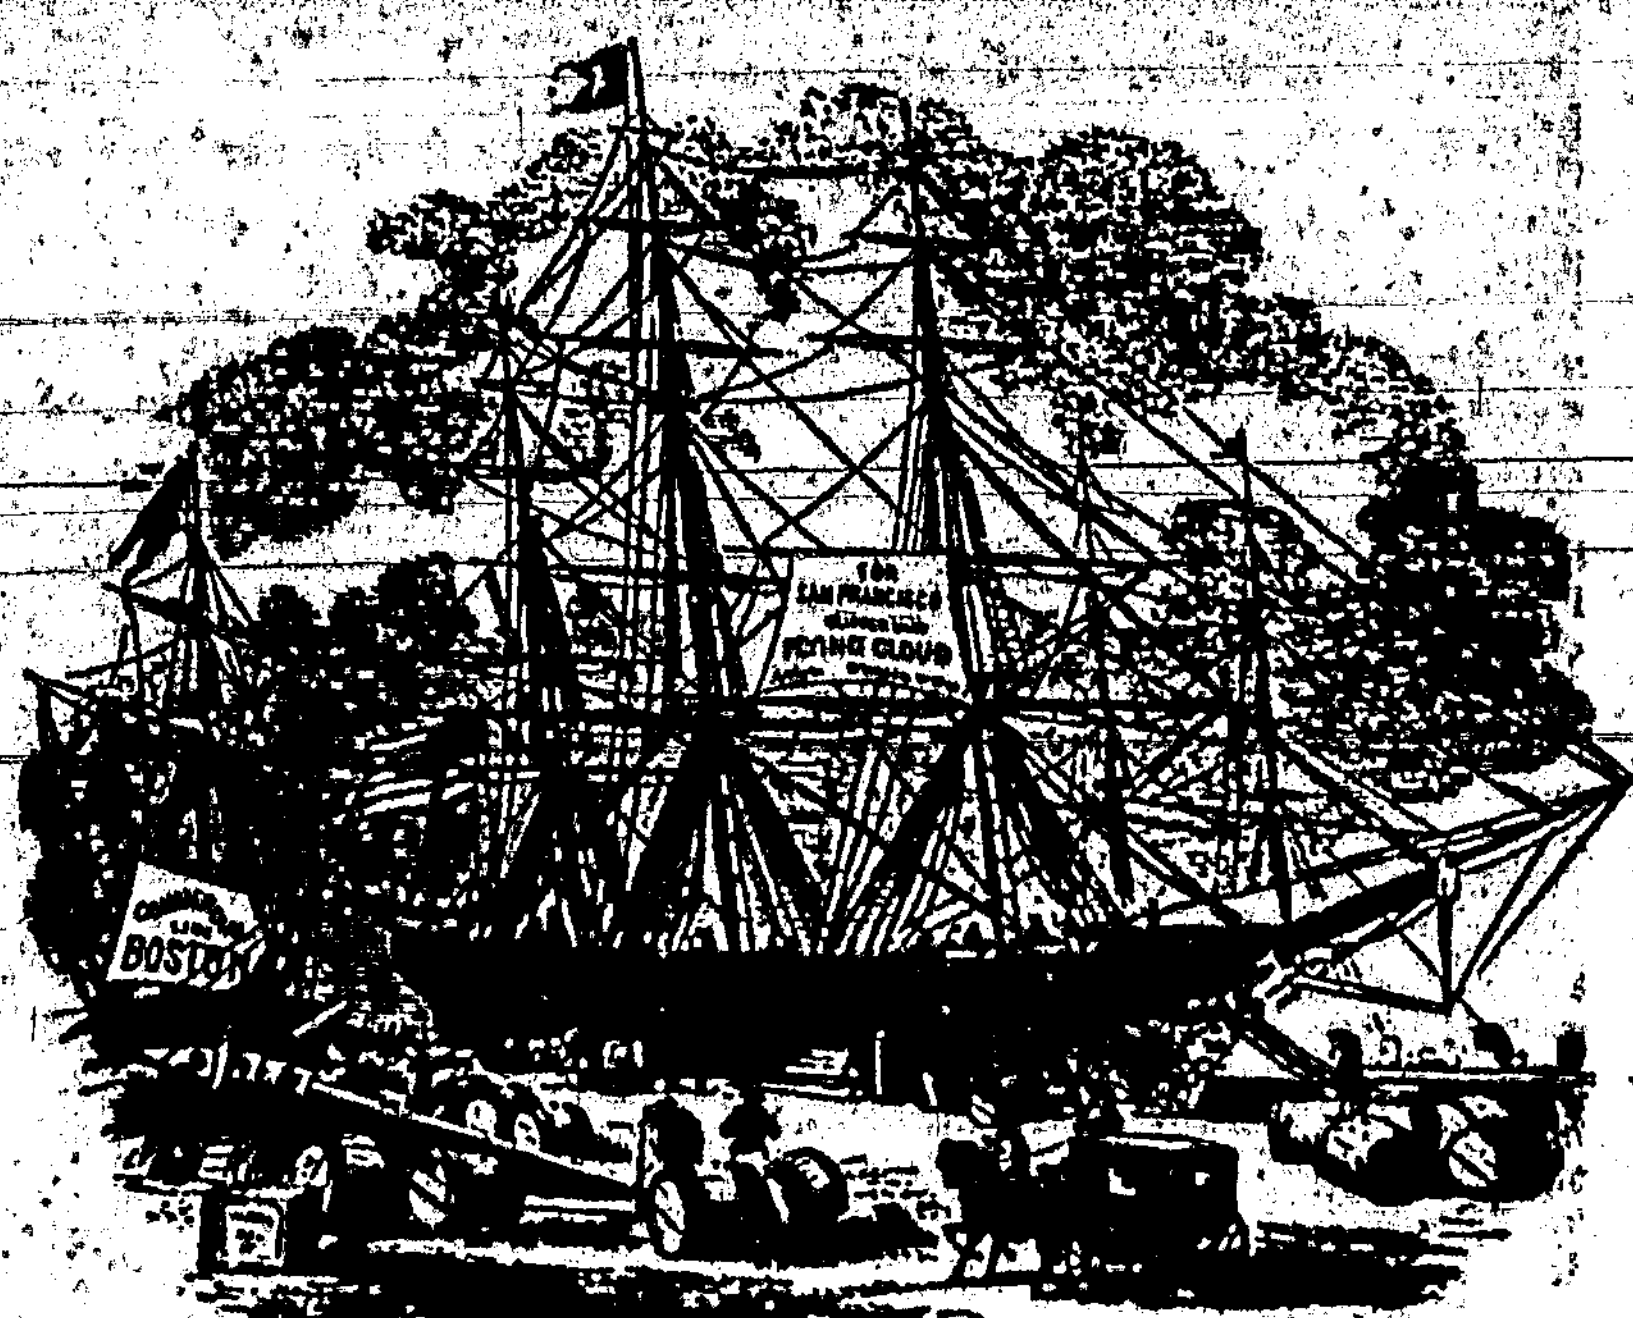

So great was the interest of both tea traders and citizens of London in the clipper races that they have been rivaled only by the famous English derby. It was, in fact, the clipper races which inspired another series of historic contests of our own time, the Sir Thomas Lipton yacht races. Often only the rise and fall of a tide separated the winner from her nearest competitor. Upon one occasion a race was won by a matter of 20 minutes. This was the contest between the Teapling and the Ariel, which became known as "the great race of 1866." It still remains a favorite topic of conversation in Mincing Lane, center of the London tea trade, and inspired both books and poems.

Record of Flying Cloud.
 Greatest of all of the clipper ships was the American-built Flying Cloud, which established two records which were never equalled. The Flying Cloud was the second extreme clipper designed by Donald McKay, who is credited with being "the man who made the clipper ship famous." His advance production of a vessel of the extreme clipper class proved a notable contribution to America's prestige as a maritime nation.

The Flying Cloud was launched in 1851 and was a vessel of 1,782 tons. Although originally built for the firm of Enoch Train & Company of Boston, she was sold while still on the stocks to Grinnell Minturn & Company, of New York. Longfellow's well-known poem, "Building of the Ship" with its often quoted line, "Sail on, O union strong and great," is said to have been inspired by the launching of the Flying Cloud.

As did many of the early California clipper ships, the Flying Cloud had to cross the Pacific to China to get a cargo home. She made Honolulu in 12 days. On one of those days, using skysails and studdsails, she covered 374 miles. The Flying Cloud later accomplished the run around the Horn in 89 days and 21 hours, and three years later she beat her own record by 12 hours. These records were never equalled.

Inspired by Baltimore Clippers.
 The early clipper ships were inspired by the swift privateers produced in Baltimore for the War of 1812, and came into being because of the demand of tea merchants for faster vessels to bring each season's new cargoes of tea. Isaac McKim, Baltimore merchant, is credited with being the first to conceive the idea of a three-masted full-rigged vessel built along the lines of the Baltimore clippers for use in the tea trade with China.

Most famous of all of the clipper ships, the Flying Cloud made records which were never equalled. (From Bettman Archive.)

In 1832 Mr. McKim had built a vessel of 493 tons and 143 feet long which he christened the Anne McKim. The vessel proved to be one of the fastest on the China run, but her carrying capacity was much smaller than that of slower vessels.

However, she well served her purpose since she inspired two enterprising marine architects, John Willis Griffiths and Donald McKay, to design a type of sailing vessel from which was evolved the extreme clipper.

The Anne McKim was followed by the Rainbow, designed by Griffiths and launched in New York in 1845. The design was so revolutionary that argument became hot as to whether she would float or sink. But she exceeded even the hopes of her designer. She started her maiden voyage to China in February and was back in New York in September, having paid her cost of \$45,000 and returned to her owners, Howland and Aspinwall, an equal amount in profit. She did even better on her second voyage when she made the round trip so speedily that she brought back to New York news of her own arrival in Canton. Actually she made the round trip faster than any other ship could sail one way, 52 days out and 38 days back.

Interestingly enough, it was the arrival of a cargo of tea on a clipper ship in 1859 that paved the way for our modern system of chain store merchandising and distribution which has revolutionized both production and marketing. A bewhiskered young New Englander by the name of George Huntington Hartford purchased a few chests of tea from a clipper ship just in port with a new cargo, dealing directly with the owner of the tea instead of with a broker as was then the custom. At this time, despite its extensive importation, tea was still a luxury item beyond the reach of the average citizen, the many hands through which it passed before reaching the citizens being largely responsible for this high price.

Mr. Hartford put his tea up in small packages and sold it from door to door at a fraction of what it would have cost had the tea passed through the usual number of hands on the way to the consumer. The venture was so successful that he tried it again with a larger purchase of tea and thus gained the idea for the system of mass distribution and merchandising upon which the oldest and largest of the nation's food chains was founded. Within eight years after Mr. Hartford's original venture the price of tea had been brought down to within reach of the man earning a small livelihood.

Methods used in the distribution of tea proved so popular with the consumer that they were later translated into the sale of all other types of food products. Thus was established the system of moving goods direct from producer to consumer in large quantities, making possible substantial savings.

"Captains Courageous"

Captains and crews of the clipper ships were as colorful as the ships themselves. Both played leading roles in the success of a voyage and the speed with which the ocean was spanned. Writing of famous ships of the clipper era, Richard C. McKay says, "A sailing ship is an exceedingly complex, sensitive and capricious creation, quite as much so as most human beings. Her coquetry and exasperating deviltry have been the delight and despair of seamen's hearts at least since the days when the wise, though much-married, Solomon declared that among the things that were too wonderful for him and which he knew not was 'the way of a ship in the midst of a sea'."

One of the most famous of all of the clipper ship captains was Robert H. Waterman, first commander of the Sea Witch. Cap-

tain Waterman was born in New York May 4, 1808. At the age of twelve he shipped on a vessel bound for China. He became mate of the Britannia under Captain Charles H. Marshall and speedily won a reputation for keeping his vessel in excellent shape as well as maintaining order among steerage passengers and crew. At the age of twenty-five he was made a captain and in 1843 took command of the Natchez, one of the full-pooped New Orleans packet boats which had been built by Isaac Webb in 1831.

Although the Natchez was known as an exceptionally slow ship, Captain Waterman made the voyage from Canton to New York in 78 days, during which he covered 13,955 miles. Upon his arrival in New York he was given an ovation which in those days was comparable to a typical New York welcome in honor of a trans-Atlantic pioneer in aviation.

The owners of the Natchez, Howland and Aspinwall, were so favorably impressed by his feat that they had built for him the Sea Witch, which was launched in 1846 and was one of the fleetest of the clipper ships. Among the stories growing out of Captain Waterman's feats in beating competing clippers into port with tea cargoes was one to the effect that he "carried sail too hard" and then put padlocks on the sails in order to prevent members of his crew from cutting it away.

Crews of the American clippers were a polyglot lot with frequently as many as seven nationalities represented on one ship. It was said of them that they "worked like horses at sea and spent their money like asses ashore." In any event, it was a commonplace occurrence before a vessel sailed for at least half and often times more members of the crew to be lifted aboard like sacks, as the result of too-prolonged celebrations on land. Once on board, however, they were speedily sobered up and for the duration of the voyage they rarely if ever saw any alcoholic beverages.

A Society Event.

Departure of the clippers was the occasion for a gathering of smart New York society at Battery Park, which was then a fashionable resort. When the vessels had finished loading cargo they would drop down to East river and anchor off the park, usually under their own sail as tug boats were both scarce and slow. New York society went to the park to hear the sailors sing their sea shanties which were an important part of sea life. Songs gave zest and cheeriness to life aboard ship. If the crew knocked off chattering then something was definitely wrong and the captain started to worry. These songs originated early in the Nineteenth century with negro stevedores in Mobile and New Orleans, from whom the sailors aboard the packet boats learned them.

Rates these clipper ships earned from New York to Hong Kong seem almost incredible nowadays. In 1850 the Samuel Russell received \$80 per ton of 40 cubic feet. This clipper was registered as 940 tons and being a sharp ship could not carry more than 1,200 tons but her freight cargo would still amount to \$72,000. Today owners of vessels plying from New York to Hong Kong regard \$12 a ton as a good price.

Opening of the Suez canal in 1869 rang the knell for the clipper ships, since it gave the steamships an advantage they had not possessed when it was necessary to watch every pound of coal. As steamships rapidly replaced the clippers for tea cargoes, the latter drifted into the Australian trade, where wool gave them another opportunity. But the day of their glory was finished and their proud traditions waned until they were little more than worn-out freighters toiling through seas over which they had once held sway.

Patterns SEWING CIRCLE

erall. It protects the top as well as the skirt of your dress; it goes over your head and ties in a liffy. It's so cut that it can't slip from your shoulders.

Just leave off the bib part of the overall, and you have the high-cut, saucy little tie-around. Batiste, gingham, linen, percale and seersucker are pretty apron materials.

Barbara Bell Pattern No. 1993-B is designed for sizes 32, 34, 36, 40, 42 and 44. Size 34 requires for 31 3/4 yards of 36-inch material without nap and 8 yards rickrack; 1 1/2 yards for 32, and 3 1/4 yards trimming. Send order to:

Dominion Over Self
 You can never have a greater or a less dominion than that over yourself.—Da Vinci.

TWO of the most useful aprons in the world are yours in this one simple pattern (No. 1993-B). One is the all-protective type that you rely on to keep your dresses clean while preparing supper. The other is the more or less decorative little tie-around that you wear when serving afternoon tea. Notice the special virtues of the cov-

Ask Me Another A General Quiz

The Questions

1. Is it incorrect to refer to our flag as the "American" flag?
2. Is the Diesel engine a comparatively new invention?
3. What common name is given to the Sinitist?
4. When does a newly elected President take office?
5. A man dressed sans souci would be dressed how?
6. What is verdigris?
7. Was India paper so named because it was first made in India?
8. What is an Igorot?

The Answers

1. According to the United States Flag association, it is not. However the official title is the "Flag of the United States."
2. No. It was invented by Dr. Rudolph Diesel of Munich, Germany, and put in operation in 1898.
3. Tea.
4. January 20.
5. Carelessly.
6. Green rust on copper.
7. No. It originally came from China.
8. A member of a wild Philippine tribe.

Haunts of Happiness

The haunts of happiness are varied, but I have more often found her among little children, home firesides, and country homes than anywhere else.—Sydney Smith.

Driving ACCIDENTS DOUBLED in Winter

...JUST WHEN DRIVING IS MOST IMPORTANT!

SHOW AHEAD WEED CHAINS

LOOK FOR THE WEED CHAIN SNOW GIRL

The best drivers need WEEDS—the best buy in tire chains—carried by the best dealers. WEED AMERICAN BAR-REINFORCED CHAINS keep your car on the road and out of the repair shop. They keep you on the job and out of the hospital. WEED CHAINS give you more than double mileage. Their hidden values provide greater protection. WEED engineers make certain of results by testing WEED CHAINS continuously in the laboratory, and on the road. But the tens of thousands of car owners who wouldn't drive on a snowy, slippery, winter road without WEEDS are your best assurance that these chains are right. Get the genuine: ask for WEED AMERICAN CHAINS—Made by American Chain & Cable Company, Inc., York, Pa.

KNOW YOUR BANK

How to Avoid Service Charges

The costs of handling a checking account are in proportion to the number of deposits made, the number of items in each deposit and the number of checks written. Offset against these costs are the earnings of the account through the investment of the free balance (that part which is not set aside for reserves and which is not reduced by checks drawn.) If costs exceed earnings a service charge is made to cover the difference. In other words a certain amount of free balance is necessary to carry the cost of each check written and each deposit. We do not like to make a service charge, so to avoid it we encourage the depositor to either increase his balance or limit the number of checks drawn.

PUBLIC NOTICE OF PROPOSAL FOR LEASE OF CARRIZOZO MUNICIPAL PROPANE GAS SYSTEM

The Board of Trustees of the Village of Carrizozo, New Mexico, hereby gives notice, in accordance with Chapter 168, Laws of 1939, that it contemplates to lease to M. B. Harwell and Sewell Harwell on December 21, 1940, the Carrizozo Municipal Propane Gas System, together with all its appurtenances, including lots 11, 12, 13, of block 1, McDonald Addition to the town of Carrizozo, for a term of twenty-five years.

That the proposed lease which is to be entered into is as follows:

GAS SYSTEM LEASE
This lease, made on this 21st day of December, 1940, by and between the Village of Carrizozo, Lincoln County, New Mexico, a municipal corporation, (hereinafter known as the Lessor) and M. B. Harwell and Sewell Harwell, of Fort Sumner, De Baca County, New Mexico, (hereinafter known as the Lessees),

WITNESSETH

That, for and in consideration of the payment of the rental and the performance of all the covenants and agreements hereinafter contained by the Lessees, said Lessor hereby leases, demises and lets unto the said Lessees, for the term of twenty-five years, to-wit: from the 21st day of December, 1940, to the 21st day of December, 1965, the Carrizozo Municipal Gas System, together with all of its appurtenances, fixtures and equipment of every kind and description, including the storage tanks, mains, service pipes, meters, connections, valves and all other equipment, supplies, and property, now owned by the said Lessor, necessary for the convenient and proper operation of the said Municipal Gas System, together with Lots 11, 12, 13 and 14, Block 1, McDonald Addition to the Town of Carrizozo, New Mexico, and together with the right to operate, use and maintain the said gas mains, pipes, connections, conduits, meters, etc., together with all necessary or desirable attachments, connections, fixtures and appurtenances now existing, and to lay and construct, equip, use or operate and maintain such additional gas mains, pipes, connections, conduits and meters as may be necessary or desirable, in the discretion of the Lessees, across and through the streets, avenues, alleys, roads, highways and other public places and grounds of and within the Village of Carrizozo, as now or hereafter laid out, for the purpose of storing, conveying and transporting gas into, out and through said Village for distribution and sale for light, fuel, power, heat and any and all other purposes, to persons and corporations inside, beyond and outside of the limits of said Village, provided that should the village limits of Carrizozo be extended into new areas, Lessees shall have the same rights herein granted in such new areas, all upon the following terms and conditions:

1. That the Lessees shall operate and maintain said gas system, and any extensions thereof, for the full term of twenty-five years, and provide and sell gas to the inhabitants of the Village of Carrizozo and comply with

all regulations and requirements of this lease and there shall be no discrimination by the Lessees, or their successors in interest, as to the use of said property and/or the facilities afforded by said gas system, by any person, regardless of race, color or creed.

2. That, as rental for the said gas system, with the appurtenances, fixtures, and equipment, and the rights and privileges granted herein, the said Lessees shall pay all outstanding bonded indebtedness of said municipal gas system, being the present outstanding issue of Carrizozo Municipal Gas System bonds, represented to be in the principal sum of \$14,600.00, and the interest coupons thereto attached, as of the date of this contract, and when the same shall become due and payable, and in the manner and at the times as hereinafter provided, to-wit:

a. It is hereby stipulated and agreed that the moneys on hand in the Municipal Gas System Fund representing unused and unobligated bond proceeds, and accretions thereto, resulting from the operation of said gas system, as of the date of this lease, shall be credited to the Lessees and applied on the payment of the interest installment to become due and payable on said bonds on the 15th day of January, 1941, and on the bonds to become due and payable on the 15th day of July, 1941, and that the Lessees shall pay monthly, commencing with the date of this lease, to the Lessor's treasurer, such sum as, with the credits aforesaid, may be required to assure a fund on hand sufficient to meet the interest requirements on the said 15th day of January, 1941, and the bond and interest requirements on the said 15th day of July, 1941.

b. That thereafter, to-wit, from and after the said 15th day of July, 1941, the said Lessees shall pay monthly to the Treasurer of the said Village of Carrizozo a sum equivalent to one-twelfth of the annual requirements for the respective year for principal and interest on the said outstanding revenue bonds of the Village of Carrizozo Gas System, until the same, both principal and interest, shall have been fully paid.

3. That for the first five years from and after the date of the said proposed lease, the Lessees shall furnish and sell gas through the said system to the inhabitants of the Village of Carrizozo, applying therefor and complying with the provisions of this lease and the municipal ordinances in effect, in accordance with the following schedule:

1st 1,000 cu. ft.	\$1.50 minimum
2nd 1,500 cu. ft.	.70 per thousand
Next 7,000 cu. ft.	.48 per thousand
Next 10,000 cu. ft.	.30 per thousand
Next 20,000 cu. ft.	.25 per thousand
All in excess of 40,000 cu. ft.	.50 per thousand

Provided, however, that under special conditions of use and for quantities in excess of 40,000 cubic feet per month, the Lessees may, with the consent of the Lessor, establish rates in particular cases lower than, but not in excess of 45¢ per thousand, provided no discrimination shall be made between consumers using gas in like quantities and under like conditions.

All of the above rates shall be sub-

ject to revision after five years from the date of this lease, and at the end of each three year period thereafter, upon the mutual agreement of the Lessor and Lessees; provided, however, that in event the Lessor and Lessees cannot agree upon a proposed revision thereof, then and in that event, either the Lessor or Lessees may submit said question to the then presiding judge of the District Court in and for said County of Lincoln, State of New Mexico, whose decision shall be accepted by both the Lessor and Lessees as final and without the right of appeal.

4. This lease may be terminated by the Lessees upon the giving of ninety days notice in writing to the Lessor, providing the Lessees shall pay all sums as rental due to the date of the termination and all current accounts payable, without claim or right of damages to the Lessor against the Lessees.

5. The Lessees agree to protect and save harmless the Village of Carrizozo and its officers, or their successors, from any liability or damage, in connection with the operation and maintenance of said gas system and Lessees agree to forthwith obtain and keep in force during the leasehold period adequate public liability and property damage insurance, running in favor of and protecting the said Lessees, the Village of Carrizozo, and the members of the Board of Trustees of the Village of Carrizozo.

6. That upon the termination of this lease by expiration of the primary term, by cancellation, forfeiture, or otherwise, all rights of the Lessees herein shall cease and determine and the Village of Carrizozo shall be entitled to full possession, ownership and control thereof, together with all extensions, and additions thereto, and in as good a state of repair as the system now is, ordinary wear and tear, acts of God and causes over which Lessees have no control, excepted.

7. The location of all additional mains, pipes and laterals by the Lessees, and the depth thereof, shall be reported to the Mayor of the Village of Carrizozo, or the duly authorized representative thereof, and proper maps and plats showing all mains, pipes and laterals shall be furnished to the Village of Carrizozo by the Lessees. Such gas mains, pipes, conduits, connections, and feeders shall be laid at a minimum depth of eighteen inches, unless the existence of other pipe lines, such as sewer, water, etc., may require them to be laid at a greater or lesser depth. In the opening and refilling of all openings by the Lessees, it shall be the duty of the Lessees to do all other work necessary to complete restoration of the streets, sidewalks or ground to a condition equally as good as when disturbed; and when the Lessees shall open any ground in the Village for the purpose of laying any gas pipes, or for any other purpose whatsoever, the Lessees shall open no more space at any one time or at one place, nor keep the same open any longer than is necessary to properly execute the work for which the same shall be opened; and shall do all such work in such manner as to interfere with travel as little as possible; and it is specifically required that, in all cases where work requires the exercise of skill, as in the laying or relaying of pavement, curbs or sidewalks, the Lessees shall employ skilled workmen familiar with the execution of such work. In all cases of construction work upon the streets, avenues, alleys, public places and parks within the Village of Carrizozo, Lessees shall give the Village at least two days' notice of such construction work prior to the commencement thereof. Whenever deemed necessary by the proper authorities, the Village shall have the right to designate its engineer or other persons to superintend and supervise the refilling and repairing of highways, streets, avenues, roads, alleys and other public places and grounds; and the relaying and refilling of sidewalks, curbs and pavement of other ground so disturbed for the laying of said pipe lines, shall be at the expense of the Lessees, but, nevertheless, the same shall be done to the satisfaction of said Village, its engineer, or engineers, designated by it; and if the Lessees fail to restore the streets to the condition they were in before being disturbed, in accordance with this section, the Village may give fifteen days notice and if the streets are not placed in such condition, or diligent efforts are not being made by the Lessees to place the same in such condition before the expiration of fifteen days then the Village may, at its election, restore said streets, sidewalks, pavements, curbs, avenues, roads, alleys and other grounds and public places to their former condition, and the Lessees shall pay the reasonable cost thereof to the Village, upon presentation of bill therefor. That where practicable, all pipes necessary to be laid in the Village of Carrizozo shall be placed along the curbs or in the alleys.

8. This lease shall not be assigned, nor shall the properties hereby leased to the Lessees, or constructed or purchased by them as an extension, improvement or appurtenance thereto, or their right to operate under this lease, be assigned, or transferred, without the written consent of the Lessor; provided, however, that such consent shall be promptly given by the Lessor, upon request of the Lessees, unless there shall be some substantial and cogent reason why such consent should be refused, and in event such consent be refused after request made by Lessees, or the Lessor shall fail to act thereon within a reasonable time, the Lessees are hereby given the right to submit the question to the then presiding judge of the District Court in and for the County of Lincoln, State of New Mexico, and both the Lessor and the Lessees hereby agree to accept and be bound by the decision of said presiding judge, without right of appeal.

9. The Lessees shall at their own expense and without further or other order provide, erect and maintain at all times during the progress of con-

struction work, suitable barricades, fences, signs or other adequate protection and shall provide, keep and maintain such red lights, danger signals and watchmen as may be necessary for the proper protection of the public.

10. The Lessees agree that the gas when delivered hereunder shall be at all times at a standard of not less than 530 British Thermal heat units per cubic foot tested at 7 ounces above atmospheric pressure at Carrizozo, New Mexico, and to determine whether the gas supplied is of the heating value above specified, the Village of Carrizozo may have tests made by a competent analyst under recognized and scientific processes, according to the approved method of making the same. Such tests shall be of samples of gas collected from the gas mains at any point or points in the Village. If the average result of such tests during any one month shows that the heat value of the gas supply was below 530 British Thermal heat units per cubic foot, then said Lessees shall immediately take such steps as may be necessary to bring said heat value up to and maintain it at said required standard.

11. The Lessees guarantee to keep at all times a continuous and uniform pressure in the service pipes within the Village of Carrizozo of not less than four ounces, nor more than ten ounces, with a pressure variation of not to exceed four ounces in any one day. The Lessees further agree that they will at all times keep and maintain a sufficient pressure in their mains at the Village gates of the Village of Carrizozo to amply protect the consumers within said village against any danger of a deficiency in gas pressure in the service pipes of said Lessees being caused by sudden or unusual increases in the consumption of gas within said village. Provided that in the event such pressure shall ever drop below four ounces the Village may demand that Lessees maintain thereafter at all times an increased pressure at the village gate in such an amount as to insure against a repetition of such deficient pressure and such demand shall be immediately and continuously complied with by Lessees. Provided, further, that in the event it be necessary for Lessees to install intermediate lines within the Village of Carrizozo in order to maintain the pressure herein provided for, the pressure in said intermediate lines shall not exceed thirty pounds.

12. The Lessees agree to keep proper books of account and records, covering their operations under this lease, and to allow the Lessor, its proper representatives and agents, and the owners and holders of the said bonds, or any of them, to inspect such books of account and records at all reasonable times, and further to submit to the Treasurer of the Lessor, quarterly during each calendar year; if so requested, a full financial report of their operations under this lease, to include a statement of receipts, disbursements, bills and notes receivable and bills and notes payable, and other pertinent financial information, and, if requested, to also furnish a consolidated financial statement within thirty days after the close of each calendar year, showing, among other pertinent financial information, the net return to said Lessees from their operations of the said gas system hereunder.

13. All gas furnished or supplied by the Lessees shall be metered, and for that purpose the Lessees shall, at their own proper cost and expense, provide and install for each consumer a good and accurate meter of standard make, which said meter shall at all times be maintained to the accepted standard of accuracy; provided, however, that Lessees may use such of the meters as are now on hand and belonging to the Lessor and be required to provide only such additional meters as may be necessary in order to comply with the requirements of this paragraph.

14. The Lessees shall have the right to require from each consumer a reasonable deposit to guarantee payment of gas bills, which deposit shall be refunded to the consumer when service is discontinued. Provided, however, that any amount due Lessees upon unpaid bills of such consumer may be deducted prior to such refund.

15. The Lessor reserves the right to adopt from time to time in addition to the provisions herein contained, such ordinances as may be deemed necessary in the exercise of its police power, or otherwise; provided that such regulations shall be reasonable and not in conflict with the Constitution or Laws of the State of New Mexico.

16. That upon written request of the Board of Trustees, or any consumer, the Lessees will extend their lines at their own expense, a distance of not to exceed one hundred and fifty feet in order to serve any one consumer; that in the event an extension of more than one hundred and fifty feet is necessary in order to properly serve any one consumer, the Lessees herein shall extend such line, provided such consumer shall pay the actual cost thereof to the Lessees over and above said first one hundred and fifty feet; and provided further that said cost over and above said first one hundred and fifty feet, shall be refunded to said consumer by the Lessees, as additional consumers are connected with said extension, and pay the Lessees their proportionate part of the cost of such extensions as herein provided.

17. That in case of a shortage of gas supply due to any cause, and Lessees are for said reason unable to furnish gas for all purposes, preference shall be given domestic consumers, schools and hospitals in the use of gas until such time as the gas supply shall prove adequate for all purposes.

18. This lease is conditioned upon the faithful performance of and compliance with all of the terms and conditions hereof, and any failure on the part of the Lessees to so perform or comply with, or any violation thereof, if not remedied within a reasonable time and, at all events, within thirty

days from and after receipt of written notice thereof by the Lessees from the Mayor or Board of Trustees of Lessor, shall, at the option of Lessor, operate as a forfeiture hereof, and in the event it shall be necessary to bring an action in a court of competent jurisdiction to enforce such forfeiture, then and in that event, and provided such action shall result in favor of the Lessor, the Lessees shall pay all proper costs of suit, including a reasonable attorney fee to be fixed by the Court.

19. This lease and each and every of the terms and conditions thereof, with all of which the parties hereto agree to comply, shall extend to and be binding upon the successors, executors, administrators and assigns of the parties hereto.

IN WITNESS WHEREOF we have caused this notice to be dated and given this November 6, 1940, and ordered published in the Carrizozo Outlook of Carrizozo, New Mexico, on November 8th, 15th, 22nd and 29th, 1940.

NU-WAY CLEANERS

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Rough Weather Aids Greek Troops In Fighting Off Invasion by Italians; Kennedy Urges U. S. Aid for England; Soviet-Nazi-Fascist Diplomats Meet

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

President Roosevelt was guest of honor and No. 1 off the record speaker at the National Press club's annual dinner for the Chief Executive.

He'll Stick Around

ANN ARBOR, MICH.—Fakhri Maluf (above), University of Michigan student, who has learned from Syrian newspapers that he has been sentenced by the French Petain government to 15 years in prison for his writings advocating independence and social reform in Syria.

FIFTY-FIFTY: Election Aftermath

Immediate aftermath of the precedent-shattering election of President Roosevelt to a third term in the White House was the strengthening of the foreign policy.

Japan had seen this as a likely happening, and the Axis powers had commented on it frankly in expressing hopes for a Roosevelt defeat.

It was not unexpected in Europe, nor in this country for that matter, when President Roosevelt made his first announcement of a strengthening of the "old to Britain short of war" which had been his open foreign policy prior to the campaign.

This took the form of a statement that on the production of war materials for our national defense, Britain will be given a "fifty-fifty" pick.

The answer is O. K., if the college feels that way about it, but let these colleges play among themselves. They have too great an edge on those who happen to feel otherwise.

The only "rule of thumb" which President Roosevelt has said that he will recognize is prior need by this country for her defense.

Steps have been taken to extend large credit to Britain to permit the "paper" purchase of her needs.

AIR CRASHES: 10,000 Miles Apart In the snowy mountain wastes of Utah 10 persons, including a couple of honeymooners, met death when an air-liner crashed into a mountainide, split in two.

MISCELLANY: Nearly a year after the end of the Finnish-Russian war, a ship arrived in New York with 100 American volunteers, who managed to escape back to this country again.

DEBACLE: Fascists Meet Greeks The Greeks, aided by heavy storms and mountain torrents, claimed to have dealt a crushing blow to the Italian armies attempting invasion.

DEBACLE: Fascists Meet Greeks

The Greeks, aided by heavy storms and mountain torrents, claimed to have dealt a crushing blow to the Italian armies attempting invasion. The Italians, using the accepted German formula of "plincers" invasion, were attacking boldly on two fronts, the left flank moving from Koritza as a base, and the right flank smashing southward close to the Adriatic coastline toward Ioannina (Janina or Vanina).

Latest dispatches indicated that these successes were colossal. Thirty thousand Italian troops were first described as trapped, then nearly half of them cut off and captured, and finally thousands of them caught in a mountain torrent in a gorge and drowned.

Cut to pieces, London has heard, is one of Italy's crack divisions of Alpini, or mountain troops, called the Centaur division. Trapped in the Pindus mountains, the Greeks say it has been annihilated.

There was wild enthusiasm in Athens and throughout the nation. Added to this was the favorable report from the Kalamas river sector, where the Greeks reported the mechanized advance had been halted in its tracks and forced to take up defensive positions.

Heroes of the Greek victory seem to have been the Evzones, or mountain guerrilla troops, who have been clipping away at the Italian columns in a manner reminiscent of the Finnish depredations on Russian troops during the early days of that war.

Like the Russo-Finnish war, however, it is too early to write the attempted Italian invasion down as a failure, for there are other quarters, notably Russia and Germany, to be heard from.

While Italy has admitted no reverses, it was considered significant that Italian dispatches told of Greek attacks.

AMBASSADOR: Spens Out

Spensation was sprung by U. S. ambassador to the Court of St. James, Joseph P. Kennedy, who suddenly abandoned the hush-hush role of the diplomat, and in a copyrighted interview published by the Boston Globe told what he thought about the war and where Europe is heading.

Summed up in brief, Kennedy said:

- 1. England is holding out, but...

SIDELIGHTS in the news. An election aftermath in many communities was the public burning of all campaign literature as a gesture of "unity." In Salina, Kan., they had a fine blaze. In Tacoma, Wash., the gesture was a "flop."

RECENTLY there has been a large turmoil over the Ogden Miller, of Yale, interview and the conflict between the purists and the proselytizers in football's happy or unhappy family.

Nothing new was either uncovered or discovered. It was merely the revamping of an age old argument—and conflict. If you feel like walking that far we could take you back 30 years or more through the same old argument. And let you finish where you started.

There isn't any questioning the fact that too many colleges overdo their football collecting. There isn't any questioning the fact that colleges with stricter entrance requirements and higher scholastic standards are at a disadvantage in meeting opponents who have no such barriers to face.

There are, of course, always exceptions. Cornell and Pennsylvania are Ivy institutions and yet they manage to hit the jackpot with regularity.

But it is a tangled, intricate scheme when you come to locating the true answer. I don't believe there is one, in a game that has such a direct appeal to so many millions.

The answer is O. K., if the college feels that way about it, but let these colleges play among themselves. They have too great an edge on those who happen to feel otherwise. It isn't fair competition.

I know of more than one strong college outfit where the students get no help through college. But wealthy and influential alumni get summer jobs for the leading players that net from \$200 to \$400 a month, plus board, no working experience required.

I know of others who play before big-time crowds, where each player is given from 5 to 10 tickets per game which net from \$25 to \$50 per contest. The ticket request is made for the family.

After talking with a large number of football coaches my guess is that at least 75 per cent of the better players belong to the proselytized, or paid for group, one way or another.

College football in two months draws far more spectators than big league baseball draws in six months—far more. It has grown into big time. Big league teams can lose a flock of games and still draw. College teams can't afford to lose many in a season, especially where there is no traditional rivalry to help lure out the crowds.

The main trouble, of course, is the demand for a winning team. But, unfortunately, not every team can win. So the problem is shoved along to the coach. The coach doesn't want to lose his job.

Teams with about the same scholastic ranking and the same methods of ethics should play among themselves.

We'll take the Southwest. They help their athletes. But in the main they are all Texas players.

"At E. M. U." Maty Bell told me, "we have 36 men on the squad. Thirty-three are from Texas. The other three from Oklahoma and Missouri, just across the borderline."

The new director on the West coast has already thrown out a flock of budding stars who were prospectively brought in.

SPEAKING OF SPORTS

By ROBERT McSHANE

AN AMAZING young fighter lost an equally amazing bout recently in New York's far-famed Madison Square Garden.

The fighter was Steve Belloise, who dropped a 15-round match to Ken Overlin, New York-recognized king of the middleweight division.

Belloise, a 21-year-old resident of the Bronx, had only 33 fights behind him when he stepped into the ring with the champ. Outweighed by five pounds, the Bronx contender clearly was the underdog.

The sixth round really got underway when Steve hammered a terrific right to Overlin's head. The navy man was stunned.

That was midway in the round. Steve kept on top of Overlin and hammered him with rights and lefts to the head.

KEN OVERLIN

have landed on Overlin in the round. But Belloise couldn't come through with the finishing touch.

Then came the seventh. Overlin's legs seemed to have regained their spring. Belloise seemed punched out. In his anxiety to finish his stricken opponent he had shot his bolt.

The succeeding rounds averted even the old timers. Overlin, after taking brutal punishment in the sixth round, went on to win the next six in a row. It was in this stretch that he saved the New York version of his title. Belloise still was throwing leather, right up to the final bell, but he was facing a more elusive target, and his sixth round opportunity didn't return.

Overlin was given the decision, though it was far from popular. Belloise was the top man in the fight. He inflicted considerably more damage than he received. On the basis of who actually beat whom, Steve was the winner.

However, that makes no difference in the record book. According to commission rules the verdict was correct because Overlin won a majority of rounds. That's the way the commission instructs its referees to judge fights.

Even in questionable defeat Steve didn't draw all the sympathy. There was another angle. No champion ever made a more gallant comeback or a more courageous last-ditch stand than did Overlin. It was fitting and proper that he be rewarded.

Belloise can take heart from the knowledge that neither of Overlin's predecessors grew stale in possession of the title. Indeed, both Utilita in the championship line created by the State Athletic commission—Fred Apostoli and Celerine Garcia—lost their crowns in their first defenses.

SPORT REPORTS The University of Pennsylvania football team didn't have a coach from 1876 to 1894. The captain was absolute boss in those days.

Hook Posy Pad for Chair or Foot Stool

By RUTH WYETH SPEARS

ATELRY I have received dozens of letters saying, "I would like to hook the flower designs for which you give directions in Book 5. Will you please tell me if I can use old silk stockings for these?"

Silk stockings may be used for hooked rugs but they do not wear as well as woolen materials. They

are perfect for hooked chair pads, foot stool tops and wall hangings. All the popular stocking colors may be dyed soft green, red and brown tones, without first removing the tan color.

Flowers may be hooked in outline or in a shaded effect, as shown here. And here is good news for all of you rag rug enthusiasts.

MRS. RUTH WYETH SPEARS, Drawers 18, Bedford Hills, New York. Enclose 20c for Books 5 and 6. Name, Address.

INDIGESTION

Gas trapped in the stomach or colon may get like a half-dozen on the loins. At the best, it gives you a dull ache and a heavy burden on your back.

COMMENTS

Lewis Burke

Little old town, good afternoon!

Como ste, Senoras y Caballeros!

R U Listenin'?

BELIEVE-IT OR ELSE

George Strauss, Jr., the young son of S. P. Fireman - Engineer George Strauss is an aviator in England with the Royal Flying Force, bombing H-out of Berlin. Young Strauss attended the Carrizozo schools.

George Harkness has some tame quail around his home near the city limits. Amigo George feeds them with his chickens.

The motion picture, "Billy the Kid" is at last going to be made in New Mexico. Why not in Old Lincoln Town?

The native surroundings are at that place; we'd think it would give a real thrill to re-enact the various exploits of those days in realistic atmosphere.

Billy the Kid was "a quiet, modest, sort of a boy."

Uncle George Coe of Glencoe "Fought and Rode with Billy the Kid."

Mr. Coe is author of a book describing the life of "Billy the Kid." Read it, for it is excellent.

Mr. Coe still operates a store at Glencoe; he is 'on the job' every day.

The work is going on at a rapid rate on the new addition to the Court House. The cement brick walls are going up, the solid brick chimney towers majestically over the rest of the structure.

Wm. J. Langston and J. F. Tom have completed stuccoing the front of the Oddfellows' Hall.

WE WONDER

When work will begin on Highway 54, the Tularosa road?

Who will play Santa Claus at the Carrizozo Business Men's annual celebration this Xmas?

When somebody will organize another expedition to explore Cravens' Bat Cave or the Crockett Cavern?

If you know that Highway 390 (the Malpais road) is a wonderful piece of engineering? The black-topped, surfaced highway had to be dynamited through solid volcanic lava?

If you know that this town is 5,488 feet in elevation?

One could hear the Radio commentator breathe from Berlin this Tuesday afternoon?

Petty's Dry Goods, Groceries, Meat Market and General Merchandise Store has a new gigantic gas stove in the front part of their establishment.

Mr. H. E. Alden, piano tuner of El Paso, who visits this locality about three times yearly, never fails to bring a rain with him?

Cincinnati went for Wilkie on Nov. 5.—We're glad that they won the world's series, too.

So...Hasta la Vista.

Baron Auriemma Here

Baron Auriemma was here for a few days this week, after covering the county for the Salvation Army. He now has an organization over the county as follows: A. J. Rolland, Geo. T. McQuillen, Carrizozo; A. J. Atkinson, Bert Penix, Corona; F. H. Hall, Capitan; R. S. Fagan, Fort Stanton; Miss Ruth Penfield, Lincoln. He reported good donations from the different places mentioned and wished to thank the people for the same.

Mr. and Mrs. B. L. Moore and small daughter Leta Joe of their ranch in the Jicarilla mountain country were visitors in town Saturday.

Fred Baldonado, S. P. Shops employee, who fell from a passenger engine and broke his wrist a short time ago, is improving nicely, but still unable to work.

Frankie Silva was a business visitor from his ranch in the Tucson mountains Wednesday.

E. P. Fireman Wm S. Norman was called to duty this week, to work out of Tucumcari or in the Tucumcari yards.

Ralph Dow left for El Paso the early part of the week and enlisted in the U. S. Navy. When last heard from his brother Ben, who also is a seafarer, he was stationed at Manila.
