KNOW YOUR BANK

Is Individual Thrift Out of Date?

Some people think so. But let's look at the record. Figures recently compiled by the American Bankers' Association show that thrift deposits in banks have increased for the seventh straight year! Over 45 million depositors have thrift deposits of more than 25 billion dollars. These figures speak well for the average American's faith and foresight. Our bank encourages thrift and welcomes the accounts of all sincere depositors.

RAILWAY LABOR UNION DEMANDS WOULD COST 900 Million Dollars A YEAR

THE labor unions have made their demands upon the railways of the United States—and through the railways upon the PUBLIC. These demands are vastly larger in proportion than any they have ever made. The economical and efficient operation of the railways is vital to the nation's defense effort. Therefore, the Western Railways present to the public the following facts:

The labor unions representing engineers, firemen, conductors, brakemen and switchmen are demanding a 30 per cent increase in wages, amounting to 190 million dollars a year—although their present rates of pay are the highest in history.

Other unions representing a greater number of railway employees are demanding wage increases ranging as high as 95 per cent—averaging 47 per cent—and amounting to 580 million dollars a year—although their present rates of pay also are the highest in history.

Thus the wage increases being demanded by the labor unions amount to 770 million dollars a year, an average increase in excess of 41 per cent.

In addition, certain of these labor unions have demanded advances in their pay not included in the above figures, and more rules for the creation of unnecessary jobs.

The situation, then, is this: The total cost of complying with all the demands made would be approximately 900 million dollars a year!

The average weekly earnings of railway employees are now 15 per cent higher than in the peak year 1929, while the cost of living is 12 per cent less.

The demands of the railway labor unions are being made when the entire nation has just been asked to make a supreme effort for National Defense.

The railways cannot meet these demands without a great increase in the cost of transportation. They exceed by more than 700 million dollars the income that the railways had left after paying their annual expenses, taxes and charges in 1940.

The railways have a vitally important job before them. They need all their resources to continue adequately to serve you and contribute effectively toward the National Defense Program.

As Cuba Prepares for Defense Against Invaders

In line with President Roosevelt's policy of Western hemisphere defense, the Republic of Cuba, under the leadership of President Batista, is training scores of youths for aviation. Students are also given courses in mechanical shop work. At left a group of students are being instructed in a mechanical workshop. Right: The right and wrong way to fall after taking the 'chute jump is explained.

Boring In—at Rock of Gibraltar

There's intense activity at Gibraltar—gateway to the Mediterranean—as British troops seek to make it impregnable to modern weapons. At the left a Tommy is handling a drill in one of the many honeycombed portions of the Rock. Right: One of the huge caverns inside the Rock, with new tracks about to be laid. Inset: A huge defense gun, manned at all times, points out from the base of Gibraltar, a warning to the Nazis.

First Big Gun Practice in War Games

This photograph shows the first use of real ammunition in the Tennessee war games at Camp Forrest—the 155-mm. howitzers of the 123rd artillery using "the real stuff." The guns are shown booming behind a smoke camouflage. The 155-mm. howitzers throw a 95-pound shell some 12,000 yards, but effective range is limited to 10,000 yards.

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Closing of German Consulates in U. S., And 'Freezing' of Axis Financial Assets Strain American-Nazi Diplomatic Ties; Hitler Offers New Problems to Russia

EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper. (Released by Western Newspaper Union.)

While the world watches the military and naval battles of Europe and the Middle East attention is diverted from the possible battleground in the Pacific. But Japanese military training goes on nonetheless. In the above photo, Emperor Hirohito of Japan is shown reviewing his troops during an imperial inspection which featured an anniversary celebration of the nation's youth training schools.

FDR: Cracks Down

The President of the United States, frankly hostile to the Axis, "cracked down" following the sinking of the *Robin Moor* by a German submarine in the South Atlantic, and announced the "freezing" of all Axis funds in this country.

It was considered a matter of course that the Italian and German governments would do likewise, and while any sort of guess as to the amount was impossible, some sources estimated that the freezing, if carried out on both sides, would be about "even Stephen" financially, with perhaps \$400,000,000 involved on each side.

More important, it meant that all business dealings between Italy and Germany and the United States were instantly at an end.

The reason the estimated sum was so small, state department officials revealed, was that during the past two years most Americans have liquidated their interests in Axis countries, and vice versa.

Financial experts said that the order does not necessarily mean that foreign countries cannot get their money out of this country, but that in order to do so, they must get a license for the withdrawal from the treasury.

If it is admitted that the Germans are paying out funds for sabotage in the United States, they will have a hard time getting such money, for the treasury can keep a check on the funds, and see that it is spent for the purposes intended, such as paying the upkeep of the German embassy, etc.

The fact that all 46 persons on board the *Robin Moor* were eventually reported rescued somewhat tempered public opinion on this "incident."

Further action on the part of this country was conjectural, but public opinion polls found the nation strongly favoring convoys for American shipping, and a general strengthening of our naval patrols.

NAZIS AND U. S.: Consulates Out

Following the U. S. "freezing" of all Axis financial assets in the United States came another move by the federal government which strained American-Nazi relationships to the breaking point.

This was the order from the state department closing all Nazi consulates in the United States. German propaganda offices—the German Library of Information, the German railway and tourist agencies and Transocean News Service—were also ordered closed in the same order.

RUSSIA: Heavy Strain

The stress of German demands on Russia was such that it appeared Stalin's hold on his country was cracking, if not actually broken, and his policy of appeasement of the Nazi demands found the army forces strongly opposed to the dictator.

Whether this would end in the long-expected military break between Germany and Russia, a feeling that was heightened by the announcement that 120 German divisions were massed on the Russian frontier, or whether it would simply result as in the past, in a terrific Russian blood-letting from within, was hard to foresee.

The analyst, seeking to ferret out the genesis of this troop-massing, perforce had to go back to Churchill's warning, when he was trying to interest Russia and Turkey in active assistance just before the start of hostilities in Greece. Churchill put Russia and Turkey on notice that "they would be next" when the Nazis got through with Greece.

Nobody else, thus far, at least, had been next. Then, too, there was the broad hint dropped by Goebbels, German ace propagandist, that Germany would need the Ukrainian wheat for a long war against Britain. Churchill also had warned Russia that the Ukrainian wheat-fields would be the next objective.

Another possible objective of the massing against Russia was the need of a sure and well-fortified line through Russia down into Syria, also the possibility that a sufficient threat against Russia might break up the Russian-Turkish alliance and allow the Nazis to press upon Turkey their demand for free passage of troops.

With a hostile Turkey and Russia to the north, Hitler's generals would be naturally hesitant in trying an air-borne invasion of Syria to help the French there, and to create a land base for attack against Suez. The typical strong groundwork necessary for a major German offensive would demand dealing with Russia and Turkey first.

There was just one more important angle, which might precipitate fighting, however brief, with Russia. Rumania wanted Bessarabia back, and the position of the German legions was such that this might be the primary objective, to force Russian abandonment of Bessarabian territory.

BILLION: For Bombers

Belief amounting almost to a certainty by U. S. war tacticians that a huge air armada, assuring Britain or this country mastery of the air was the surest method of winning the war for the democracies was evidenced when the RFC announced a plan to provide a billion dollars to produce 600 big bombers a month.

The RFC was given additional powers in a new law signed by the President also permitting it to have augmented borrowing capacity with no strings attached, provided it was for defense purposes.

This organization had already spent \$1,500,000,000 for defense, half a billion for factories, more than that for tin and copper and other defense materials, \$300,000,000 for rubber and \$200,000,000 for miscellaneous purchases of material.

HIGHLIGHTS in the news

Viety—The Germans have released thousands of French prisoners of war, giving their freedom to return home to all who have three minor children or three minor brothers.

Earls—Auto bodies can be made of artificial resin, an "ersatz" for steel. One body, tested on a moun-tain, turned turtle 20 times without damage, it was claimed.

Camp Robinson, Ark.—Connie Kaster, daughter of Lieut. Col. John F. Kaster, head of the Thirty-fifth division, wired her dad she would pay him a visit and added as a joke "have a band meet me at the station." Her father had nine bands, 275 pieces, playing when the train pulled in. There at least one abolition to be "met by a band" was realized.

Your Dreams May Tell Secrets About Yourself

"LUCKY that was just a dream," he thinks, "or I'd lose my job."
But he's wrong. No dream is "just a dream." Often it reveals something in yourself that you never knew—and perhaps should.

Instead of lightly dismissing these dreams, use them to help solve your problems. Our 32-page booklet gives the scientific explanations for several dream-symbols, falling off a cliff, running from wild animals and other typical dream-situations. Tells why some dreams are "prophetic." For your copy send your order to:

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Wastes
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be itching backache, persistent headache, attacks of dizziness, evening eye aches, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder trouble are sometimes burning, stinging or itchy frequent urination.
There should be no backache that persists unless it is due to kidney trouble. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a scientific basis. They are recommended by grateful people the country over. Ask your neighbor!

Christian Science Services

"Christian Science" is the subject for Sunday. Golden Text: "The Lord hath made bare His Holy arm in the eyes of all the nations; and all the ends of the earth shall see the salvation of our God." Citation from Bible: "Jesus saith unto Him, I am the way, the truth and the life: no man cometh unto the Father, but by me." Passage from Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "Jesus demonstrated Christ; he proved that Christ is the divine idea of God—the Holy Ghost or Comforter, revealing the divine Principle, Love and leading into all truth."

Mrs. Ricardo Garcia of Bayard visited the Lewis and Cosme Gallegos families here last week.

County Commissioner Manuel Corona was a business visitor from San Patricio last Saturday.

Ranger David J. Stouffer of the Gallinas District was a Carrizozo business visitor last Friday afternoon.

She prophesied that Hitler would die in 1942—so now she's in a concentration camp! So many of her other astonishing predictions have been accurate that the petulant Fuehrer had a tantrum when she boldly foretold his violent end and promptly had her taken into "Protective Custody." Read about this remarkable Hungarian prophetess, Boriska Silbiger and see the striking photographs.

Also—Modernizing the world's most popular book. Father John LaFarge, eminent Jesuit author, tells why the Catholic New Testament was brought up-to-date, and how the Saviour's words have been made clear. Read of this scholarly achievement and how many ancient Greek, Latin and Aramaic terms have been converted into more precise present-day expressions—as told in the American Weekly, the magazine with next week's Los Angeles Examiner.

Vidal Bliva of the Tucson mountain country was a Carrizozo business visitor Monday.
