The Light In The Window

It was during the Spanish-American War, that Charles McDaniel, the only son of Mr. and Mrs. John McDaniel, lived with his parents on a small farm near Mansfield, Ohio.

Being their only boy, the mother interested herself in him more than in his two sisters, as is usually the case. Charles was popular among his associates, but his mother made him as near as possible, an idol; loving him with the implicit confidence which only a mother could extend.

On leaving for the service, the mother wept on his shoulder and said: "My boy, I will keep the light burning every stormy night, and besides, I will keep the light burning brightly in my heart for you. While you are away, remember the light in the window and the mother love which prompts it."

In that climate, Charles was stricken with what the natives called "bolo fever." With all medical care, he sank rapidly until when the end was near at hand, he raised to a sitting position on his cot and pointing his finger, he exclaimed to his soldier friends surrounding him: "Look, boys! Don't you see it?"

"Then dare the scoffer in his pride, Choose that fond faith to scorn."

Who's Who and Where in the Service

With the hearty co-operation of this newspaper, the local Board and the citizens of Lincoln County, the American Legion Post No. 11 of Carrizozo will list each week a number of service men from Lincoln county giving their full service address as follows—

Pvt. John Dee West, 200th C. A. (A. A.) Battery E, Ft. Stotsenburg, Pampanga, P. I. Pvt. Jos R. Cooper, 60th Infantry, Fort Bragg, N. C. Senon Chavez, Co. "I" 157th Inf, Camp Barkley, Texas. Herman Ingram, 85th Air Base A C B. F. S. Sherman, Texas. Therman Ingram, 85th Air Base A C B. F. S. Sherman, Tex. Sgt. Wilfred H. Kennon, Det. Medical Dept. Sta. Hosp. Fort Bliss, Texas.

We wish to share with those who have helped with this program by mailing in the addresses of our boys who are in the service, the appreciation voiced by these men who have received many cards and letters from their friends at home.

Many of our Lincoln County boys are serving at far distant outposts, and a word from us conveys appreciative recognition of the valuable service they are giving our country—and a salutation of "thumbs up" to their morale. Let's give them the hand they deserve by writing them every week.

There are approximately 75 of our boys in the service whose addresses haven't been mailed in. If you know one of these service men, we urge that you send these in to the American Legion at Carrizozo at once, so that their names may be included in this column.

Dan Conley, Adjutant.

Appreciation

Miss Sophia Vega takes this means to express her gratitude to her many friends, for the lovely tokens received at the Shower given in her honor last Sunday. The hostesses, Mrs. Ida Herrera, Misses Najer and Candelaria, served dainty refreshments to a large number of guests.

We have been authorized to extend to everybody, a cordial invitation to Miss Vega's wedding dance at Community Hall, tomorrow night, November 29.

Corporal Roy Clark of Fort Bliss spent several days last week visiting with friends here.

Mr. and Mrs. Ed Fitzpatrick of White Oaks were here this Wednesday.

PERSONALS

Mayor and Mrs. M. U. Finley left this Tuesday for Clovis, to spend the Thanksgiving holidays with the Harry Lyman family. Mrs. Lyman is the daughter of Mayor and Mrs. Finley.

Mr. and Mrs. Harbour Jones have returned to State College, where Mr. Jones is an instructor at that place. Mrs. Jones is the daughter of Sheriff and Mrs. A. F. Stover. The Jones' visited with the Stover family over the past week-end.

Mr. and Mrs. Albert Kimbrell and children of Picacho visited the Manuel Ortiz and Ben Holguin families and Mrs. Anna Rogers and mother last Sunday. Albert drives the Picacho school bus.

Will T. Coe, George Perry and Rod Johnson were here from Glencoe this Monday, attending to some business.

L. D. Merchant, prominent stockman of the Capitan country, was here on business Monday.

Mr. and Mrs. Bert Pflingsten of Hondo were here this Monday.

This office is in receipt of a nice letter from Mrs. Agnes St. John of the Oliver Lee ranch in the Sacramentos.

Representative Murray Morgan of Alamogordo was a business visitor here this Monday.

Mr. and Mrs. Marshall Atkinson of their ranch near White Oaks were visitors in town Saturday.

Deputy Nick Vega was confined to his home for several days with a bad spell of the flu.

Stockman Harry Ryberg and son Harry Carl of the Ryberg ranch near Corona were here the latter part of the week.

Mr. and Mrs. Albino Guebara and daughter Maxie were here last Saturday from San Patricio, where Mrs. Guebara is one of the school teachers. Albino tends to his ranch in the Indian Divide country.

Lesnett Anderson of the Highway force is now located at Ft. Stanton, where he will erect bridges, etc., that were washed out by the recent floods. Buster is the son of Mrs. Edith Crawford of Carrizozo.

Among the letters received this week from our old friends and subscribers was one from Mr. and Mrs. Frank Vigil, formerly of this place but now of San Diego. Frank is employed in an aircraft factory, while his wife, the former Miss Dolores Forsyth, has a civil service position in the Navy Department. They wish to be remembered to their many friends over Lincoln County.

Emil Reynolds, genial manager of the Standard Service Station, spent four days of this week in Carlsbad, attending the Standard Training School. He also visited the Carlsbad Cavern while at that place.

Mr. and Mrs. Seldon E. Burks of Capitan were visitors here this Wednesday. They were pleasant callers at this office while in town.

Mr. and Mrs. Jack Cleghorn of White Oaks were shoppers in town this Tuesday.

WEATHER REPORT

Table with columns: Nov. Max., Min., Prec., P. W. and rows of weather data for Nov. 21-27.

Permanent Waves \$3 or 2 for \$5 - Work Guaranteed - JERRY'S BEAUTY SHOP - Two Operators - Jerry McCaples - Betty Wiggins

Flood Assistance Program Formulated

A joint meeting of the County Program Planning Committee and representatives of governmental agencies was held in Carrizozo Monday, for the purpose of formulating a program of assistance for the people in the flood stricken area.

Results of the meeting are: Water Facilities Proposal accepted and ready to be submitted to the Washington Office for final approval. If, and when approved by the Washington Office, money at the rate of 3 percent interest will be made available through the F. S. A. for the reconstruction of dams and diversion ditches.

There will be a Christmas tree, program and supper at the Oscura Schoolhouse Christmas Eve, Dec. 24. Everybody invited. Come and bring a full basket.

Ryan Buys Portion of Tres Ritos Ranch

Thomas Fortune Ryan, III, is the new owner of a portion of the Tres Rivers ranch, once the pride of former Secretary of the Interior Albert Bacon Fall.

Word of the sale was confirmed by Mrs. Hall Gambrell of El Paso, a sister of Will Ed Harris of this place. Mrs. Gambrell said she understood approximately 60,000 acres had been acquired by Ryan, scion of a wealthy and prominent Eastern family.

LYRIC THEATRE

"The Theatre Beautiful" R. A. Walker, Owner

Friday & Saturday

Gene Autrey, Smiley Burnette, Mary Lee, Jacqueline Wells in "BACK IN THE SADDLE AGAIN"

A musical western which tells the story of a fight between copper miners and cattlemen. Also "Publicity Stunts" and "Redskins and Redheads."

Sunday - Monday - Tuesday

Mickey Rooney, Lewis Stone, Fay Holden, Polly and Kathryn Grayson in "ANDY HARDY'S PRIVATE SECRETARY"

Andy finds himself in a maze of work and glory and head of numerous committees as graduation time draws near—and so he finds a private secretary. Also Paramount News and "Of Pups and Puzzles."

Wednesday & Thursday

BARGAIN NITES, 10 and 20c Lloyd Nolan, Marjorie Weaver, Joan Valerie in "MICHAEL SHAYNE, PRIVATE DETECTIVE"

A mirth and melodrama mystery of race tracks, doped horses and a glib and nimble detective. Also "All Aint Well" and "An Empire in Exile"

Shows at the Lyric Theatre at 7:30 p. m.

Sheriff's Posse Shoot And Horse Racing

The above named affair was staged last Sunday at the Bognell Ranch at Glencoe. Target and clay pigeon shooting took place in the forenoon and after a big turkey dinner at the Bonnell home, the afternoon was spent in more shooting and horse racing.

B & M Sale

E. A. Bellinger, owner of the B & M stores at Carrizozo and Tularosa, was a business visitor in town this Wednesday. See the many bargains in the B & M ad on page 8 of this issue — and S-a-v-e! — If you have never been in the store before, we assure you that you will become regular patrons, after once being served by those efficient and courteous managers, Mr. and Mrs. J. G. Moore, Jr. Be convinced, folks.

ODD-FELLOWS' NEW OFFICERS

Elected at the last meeting on Tuesday night: Noble Grand, John Klassen Vice Grand, Marvin Burton Secretary, G. H. Dorsett Treasurer, Calvin Carl Trustees (8 year term) Roy E. Kent Trustees for 2 year term: Bradley Smith Degree Master, J. F. Tom

BIG DANCE at Cortez' Hall, San Patricio, Saturday, Nov. 29. Carlsbad Orchestra. Come!

Mr. and Mrs. S. B. Boatman were visitors at the ranch home of Mr. and Mrs. Clyde Luskey in Nogal Wednesday afternoon.

Business Men's Club

There was no meeting of the club Wednesday night at the S. P. Hotel, for the reason that the club members were entertained at the High School by the teachers who were hostesses to the club as a return of courtesy for the teachers being entertained by the club on a previous occasion.

Supt. James Carpenter was Toastmaster. Prof. Frank Martinez made the Address of Welcome for the Teachers and Frank Adams, Secretary of the Business Men's Club made the Response.

Both gentlemen made admirable addresses in which they reviewed the friendly relations which exist between the two organizations.

Baron Auriemma being present as a guest of club member A. J. Rolland, led the assemblage in singing several songs, accompanied by Mr. Clyde Brewster at the piano. "Sunny Jim" also made a short talk.

Club member A. L. Burke made a brief address in which he made a comparison of conditions of the early school days to those of the present time.

He complimented the school board and teachers on the progress made over the crude school conditions of the early days—and thanked the teachers for their extended courtesies.

Secretary Frank Adams made a motion which was seconded by numerous guests congratulating the teachers on the excellent turkey and other acts of courtesy of the evening. A unanimous rising vote carried the motion.

Miss Cavener, Home Ecs. teacher, was included on account of the splendid repast which was a credit to her in that department. Thus closed an enjoyable evening's entertainment.

Rainbow Girls Honored

Mrs. Laura Z. Becker, Supreme Deputy of Rainbow for Girls, accompanied by Mrs. Linberg, Mother Advisor of the Belen Assembly, came here Sunday to hold a school of instruction for the Carrizozo Assembly. Luncheon was served at 12:15 by the Advisory Board, assisted by members of the assembly. 28 persons sat at the table.

The Assembly meeting was called to order at 1:15 in the Masonic Temple, and the work exemplified for the benefit of the visitors. A few mistakes were made and were corrected by the Supreme Deputy. Mrs. Becker praised the girls for the enthusiasm shown and the way in which they put on the work. She promised to make a return visit early next year, and hoped that the membership would be doubled by that time.

—Mrs. R.E. Blaney.

ENTERTAINED FOOTBALL TEAM

Mrs. Roy Shafer gave a turkey dinner with all the trimmings to the Football Team last Friday evening at the Country Club.

Aside from the Team and Coaches, the attendants were — Mr. and Mrs. Roy Shafer and Mr. and Mrs. Wm. Gallacher. Mrs. Gallacher assisted the hostess in the serving.

Leonro Vega made a business trip to the Silva ranch in the Tucson mountains Tuesday.

Another TREAT! To Our Subscribers Beginning Nov. 1st and Ending Dec. 25th We again offer to our Subscribers a Two-Pound Box of Fine Chocolate Cream Candy with every new subscription or renewal.

Lights of New York by L. L. STEVENSON

Close Call: At Forty-third street and Eighth avenue, a young man sat in a second-story window watching the streams of vehicles and pedestrians. Suddenly he fell from his perch and struck on the cement sidewalk. A crowd collected immediately of course and there was confusion until two policemen, who seemed to spring up from nowhere, took charge. Then an ambulance gonged up and a brisk, white-coated interne hopped out. The doctor made a quick, but thorough examination of the one who had taken the tumble and who by that time was sitting up. The only injury found was a minor cut over one eye. So the doctor took some stitches, taped on a bandage, hopped into the ambulance and was whisked away. The cause of the excitement went back upstairs and as he did so, he was followed by assertions of bystanders that he surely must be made of rubber.

Industry: A writing man who early this year bought a large farm in Connecticut, came to town the other night to see "Anne of England." In the theater lobby between acts he was surrounded by a group of friends, most of whom had dreams of some day becoming farm owners. Quite naturally his rural holdings were the subject of discussion, and there were assertions that, in addition to doing farm work, he must have been quite busy turning out words to support his acres. The reply was that he had spent the entire summer writing, yet the farm had returned a net profit of \$125. There were numerous expressions of disbelief since even city dwellers know that farms mean toil, especially if there is a cash return. But a simple explanation silenced the scoffers. The writer had diverted his revenue by renting the pasture to the owner of a herd of cows.

Open Space: Speaking of a pasture, brings Battery park to mind. Before the Brooklyn tunnel operations were started, the park was a smoothly clipped, wide expanse of lawn. But when the digging began, the park department gave up cutting the grass with the result that by the time fall finally came, the park looked much like a hay field. Derelicts found the long, tangled grass a boon since, with nothing to hinder them, they had merely to stretch out and snore away sunny hours. Young lovers also used the long grass as a hand-holding place, there being a certain amount of concealment while the romance of the situation was increased by looking out to sea.

Taxes: The government increase in the liquor levy has brought additional business to New York glassware dealers. Not only did most dispensers raise the price a nickel or more a drink, but they also decreased the size of the shot, those who in the past served an ounce and a half cutting down to an ounce and a quarter while those who served an ounce and a quarter dropped to an ounce. That, of course, made it necessary to purchase new supplies of glasses. Incidentally, the tax increase is 25 cents a quart or 25 cents a fifth. So while the drinker gets less, the dealer gets more. And that caused a candid tavern keeper to remark that there was more money in selling taxes than in selling wet merchandise.

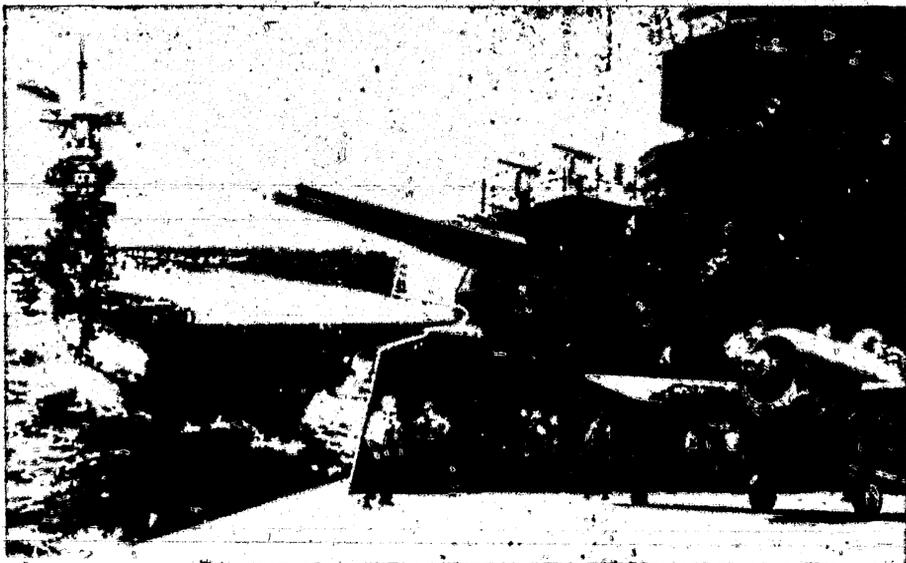

Absent-minded: That New Yorkers are indeed forgetful was shown by the recent auction of articles that had been found in Interborough subway trains and had remained unclaimed. Among them were 25 sets of false teeth which went to a bidder for \$11, though what use he would make of them was not disclosed. There were 5,000 umbrellas, enough books for a branch library, keys, 335 suit cases, 150 bags, four footballs, several mirrors (one quite large), guitars and other musical instruments as well as bird cages and crutches. The explanation for the crutches was that supposedly crippled beggars shed them hastily when a cop came along.

They Say: Richard Kollmar points out that some gals use a pill to get rid of a headache, but smart ones use a headache to get rid of a pill. Hi Brown declares the marriage altar is nothing more than a term invented by an Englishman who dropped his "h's."

Bad Piece: The scene of something or other is the story of the son of rich parents who had inherited none of his parents' brains and who had been brought up on the theory that anything worth while costs money. So when he went to the information booth in Grand Central Terminal to get a timetable, he asked how much it was.

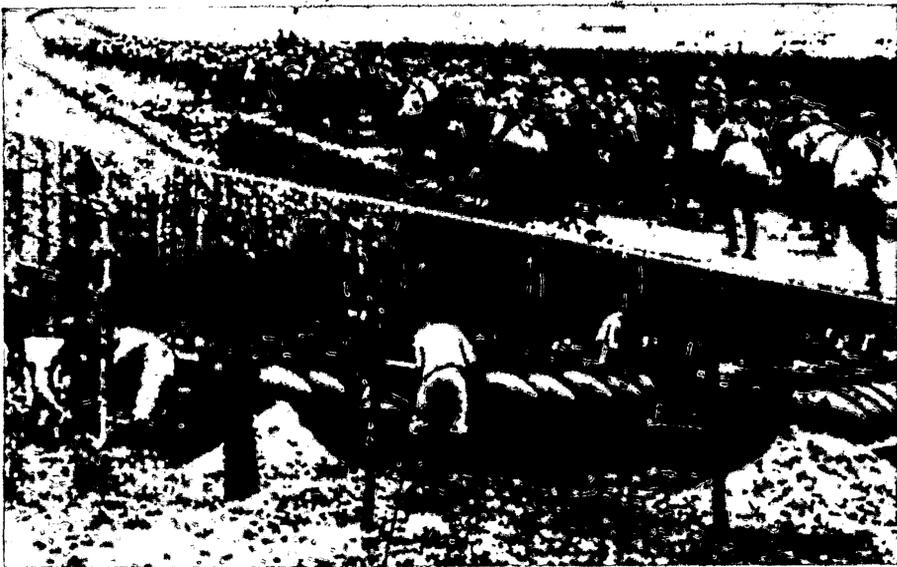

Live in Open Boat 15 Days on Daily Biscuit DUBLIN.—Nineteen survivors of three ships torpedoed while in convoy landed on the coast of County Galway after a 1,000-mile open-boat voyage. The men had lived on one biscuit a day each for 15 days. Three of the 22 in the boat died of exposure and were buried at sea.

Our Sky Fighters in the Pacific

Looking something like a football cheer leader, a signal officer aboard a U. S. navy aircraft carrier in the Pacific gives the "go" sign to a fighter plane (at right) about to take off from the flight deck. Photo at left was made from a plane which had just left the flight deck of an unnamed U. S. aircraft carrier somewhere in the Pacific. It gives you a bow-on view of the floating airdrome.

'Somewhere on the Eastern Front'

An ammunition dump in a forest somewhere behind the German lines in Russia is shown in lower picture. Men are stacking giant aerial bombs near a bomber base, whence Nazi planes go out to blast Russian positions. Above: Long lines of Russian war prisoners, carrying their worldly possessions in a sack, are being marched to an internment camp somewhere on the eastern front by the Nazi army.

Coal for Strike-Bound Yale

Picket at gates of powerhouse of Yale university, New Haven, Conn., moves aside when truckload of coal arrives for the strike-bound university. Maintenance employees at the university struck an hour before the state board of mediation was scheduled to meet with the C.I.O. to discuss settlement of union shop dispute. Inset: Philip Murray, C.I.O. president who, on the same day resigned from the national defense mediation board because of an opinion rendered on "captive" coal mines of the bituminous coal industry.

Giant Flying Ship Nears Completion

First of a fleet of giant four-engine flying ships built for American coast-to-coast, non-stop Transcontinental air service, nearing completion at Puget-Sound shipyard, Seattle, Wash. The planes have a top speed of 285 miles per hour and a maximum non-stop range in excess of 6,000 miles and accommodations for forty passengers.

'Plaything'

The German caption says that these are Russian children playing about the remains of a Red army bombing plane, shot down somewhere in occupied territory. The red star, Soviet insignia, may be seen on the fuselage. What strange "playthings" war has brought to children!

Iceland Chief

Navy Secretary Knox has established a new operating base in Iceland. Photo shows Rear Admiral James L. Knox, who has been named commandant of this important base.

Big Task Ended By Map Maker

Travels 300,000 Miles to Sketch Topographical And Climatic Works.

NEW YORK.—Two years of war have engendered, among other things, a great public interest in geography as manifested by the various map changes which have been made under military pressure. To Prof. John Hastings of the City College economics department, however, this transient interest must seem like the proverbial drop of water in the ocean when compared to the 20 years of his own map-making activity. Dr. Hastings, who teaches economic and anthropological geography at the college, has made more than 1,500 topographical and climatic maps and has traveled 300,000 miles through every continent to make his own measurements and observations. If all his maps were tacked together they would encompass an area of 2,500 square feet. He has also perfected his own method of mixing paints and has copyrighted a new method of depicting climate.

Completes Long Task. In the quiet of his classroom, the stocky, gray-haired professor recently put the finishing touches on a map of Montana. This was not just another map, he said, indicating with a sweep of his arm the innumerable charts which hung on the wall or lay in neatly stacked rolls in a corner of the room.

This was the forty-eighth state map, on a scale of one inch to eight miles, and the completion of a project which had caused him to cross the continent 14 times. He wished, the professor said, he had enough wall space to enable him to display all the state maps together but that would entail the use of 900 square feet. The college, he pointed out, could not spare the space so he guessed he'd have to continue showing the states individually. Dr. Hastings came to City College in 1924 after having studied at the Universities of Berlin, Utrecht, Manchester, Munich, Geneva, Michigan and Jena. He received his doctorate in geography from the latter institution in 1933.

Found Maps Inadequate. When he began to teach geography at City College, he found that all available maps were inadequate. This led to his prodigious work in making his own maps. He recalled that he had only 30 students in his first class. Now, he said proudly, over 200 students register for it every semester. That the students regard Professor Hastings very highly has been shown by the results of the annual poll at the school. For 10 consecutive years he has been voted the "Most Brilliant and Least Appreciated" teacher in the college and his wit and amazing memory have become legendary. One graduate, asked what benefits he had received from his college education, answered simply, "Hastings."

'Mr. Churchill' Too Busy To Clean Prisoners' Camp

JERUSALEM.—Axis prisoners of war camped somewhere in Palestine, thought they could taunt guards by dubbing the orderly who cleaned their quarters "Mr. Churchill." The officer in charge bided his time until the next routine camp inspection, when the prisoners, replying to questions, said their rations were better than they had received in active service and the clothing provided was ample, but they complained that their quarters "haven't been cleaned for a fortnight."

"I am really sorry," replied the officer, "but you are probably aware that Mr. Churchill is very busy fighting a war on four continents to crush Hitler and his regime. You will have to clean up around here without his help."

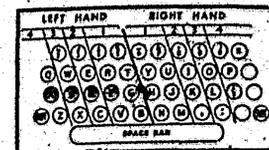

Folk Dancing Reported To Be on the Way Back

BOSTON.—Troubles are over for the wallflower and stag-lines are on the wane. This information comes from Miss Arne Cameron, dance instructor and assistant professor of physical education at Boston university's Sargent college of physical education, who says that folk-dancing is staging a comeback and you don't have to be a Fred Astaire to do it. "Because social dancing is an individual activity it does not answer the sociological need for group participation," she says. "The spirit of nationalism in these troubled times makes the demand for group activity even more insistent. A swing-back to folk-dancing, prominent since primitive man, is the natural outcome."

Housing Problem Solved, Truck Moves Tiny Home

LACONIA, N. H.—William Rising is never at loss to find a home, scarce as rents are. Rising was working in Tilton, 11 miles from here, when he got a new job. He summoned a truckman, loaded his tiny white house aboard, loaded a lot in Laconia and moved in. Rising's house is smaller than the usual way-side cabin and once was used as a wayside store.

Teach Yourself to Type With Aid of New Booklet

Good Touch Typist Wins Jobs.

TYPING away with never a glance at the keys! It may look tricky to you, if you're a job-seeker without such training. Really, touch typing's so simple you can teach it to yourself, with a keyboard chart like the one in our sketch.

Prepare for a job with the aid of our new 32-page booklet. Has keyboard chart, exercises, speed drills to train you in touch typing. Includes rules for typing English, business, social and official letters, tables of figures. Send your order to:

READER-HOME SERVICE 117 Mission St. San Francisco, Calif. Enclose 10 cents in coin for your copy of TEACH YOURSELF TOUCH TYPING. Name: Address:

Lincoln's Wit

Lincoln didn't like the tone of a business letter inquiring about a man he knew. He reply was short, pointed: "Yours of the 10th received. First of all, he has a wife and baby; together they ought to be worth \$500,000 to any man. Secondly, he has an office in which there is a table worth \$1.50 and three chairs worth \$1. Last of all, there is in one corner a large rat-hole, which will bear looking into."

Delicious Recipes Free

Would you like to try a brand-new delightful recipe for Apple Cake, Coffee Cake, Herb Bread, Orange Bread and dozens of other appetizing recipes? Just drop a post card to Standard Brands, Inc., Dept. W, 691 Washington Street, New York City, and you will receive a grand cook-book absolutely free.—Adv.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

CREOMULSION for Coughs, Chest Colds, Bronchitis

Need of Kindness Kindness is wisdom. There is none in life but needs it and may learn.—Bailey.

FEAR ANGER OR WORRY stimulate unpleasant stomach symptoms. May cause heartburn and general stomach discomfort. Creomulsion and Creomulsion in ADLA Tablets relieve sour stomach, acid indigestion. Your druggist has ADLA Tablets.

We Can All Be EXPERT BUYERS

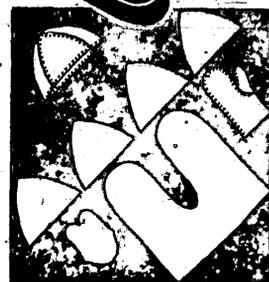

It brings us buying information, at prices that are being asked for what we intend to buy; and as to the quality we can expect, the advertising columns of the newspaper perform a worth while service which saves us many dollars a year. It is a good habit to form, the habit of consulting the advertisements every time we make a purchase, though we have already decided just what we want and where we are going to buy it. It gives us the most precise feeling in the world; the feeling of being adequately prepared. When we go into a store, prepared beforehand with knowledge of what is offered and at what price, we go as an expert buyer, filled with self-confidence. It is a pleasant feeling to have, the feeling of adequacy. Most of the misapprehensions in the world can be traced to a lack of this feeling. This advertising shows another of its wonderful facets—shows itself as an aid toward looking off our business relationships more secure and pleasant.

There was a time in America when there were no set prices. Each merchant charged what he thought "the traffic would bear." Advertising came to the rescue of the consumer. It led the way to the established prices you pay when you buy anything today.

**Star
Dust**

STAGE-SCREEN-RADIO
By VIRGINIA VALE
(Released by Western Newspaper Union.)

PERHAPS it's Shirley Temple's glowing health that inspired the British Ministry of Foods to ask Walt Disney for help. Studio experts say that in all the years that she was making pictures for 20th Century-Fox she never suffered from the numerous ailments children usually have, and now that she's approaching 13 making sub-deb pictures for Metro she's still the wonder of the studios because she's so well. That means a lot in Hollywood, where a star's illness can be so expensive for a studio.

Well, Shirley's diet has always included plenty of vitamins and minerals. And—Walt Disney has cre-

SHIRLEY TEMPLE

ated three new characters—Doctor Carrot, Clara Carrot and Carrotty George, to be used in a drive to get the people of England to eat more carrots!

Young women workers in the nation's Capitol are about to be glorified on the screen; evidently the same idea hit several studios at once. Paramount's version of the life and times of the young ladies will be called "Washington Escape." Metro bought a story called "White House Girl," by Ruth Finney, wife of a newspaper man.

Every so often somebody has to screen Rex Beach's "The Spoilers." It was done in 1925 with William Farnum and Tom Sweeney staging the first fight that made it famous. Paramount did it in 1930 with Gary Cooper. New Universal will make it once again—this time with Randolph Scott and John Wayne in the he-man roles, and Marlene Dietrich as the heroine.

Another re-make scheduled for the near future is "Mrs. Wiggs of the Cabbage Patch," which was last made by Paramount, in 1934, with W. C. Fields, Pauline Lord and Virginia Welder. This time little Carolyn Lee will be the child lead.

That won't be just gibberish that you hear the actors speaking in RKO's "Valley of the Sun"; it's really Apache. Producer Graham Baker hired Chief Chris Willowbird to make phonograph records in which each speech was spoken first in English, then in Apache. Then James Craig, Antonio Moreno, Tom Tyler and other members of the cast settled down to study the records.

Elizabeth Bergner, one of the most famous European actresses to work in Hollywood, has just completed the first of her films to be made. It's "Paris Calling," a story of the betrayal and fall of France. Miss Bergner's European pictures include "Catherine the Great," "Escape Me Never," and "Dreaming Lips." She became famous as one of Europe's leading stage figures before she made pictures.

The movies are an old story to Frances Robinson; at the age of four she played Lillian Gish as a child in "Orphans of the Storm." More recently, she appeared in "Smiling Through." Now she's left pictures for the radio; she's the giddy debutante in the air's version of the delightful "My Man Godfrey."

A 19-year-old girl is in Alexandria, Va., getting background material for a murder trial. She's the daughter of Jane Cruseberry, who writes radio's "The Story of Mary Marlin," now in its eighth year. Mrs. Cruseberry is a stickler for accuracy, and the dramatized trial takes place in Alexandria, so young Jane was sent off with a candid camera and a notebook to help her mother out.

ODDS AND ENDS—Bob Hope has been away from home so much, making personal appearances, that he fears that his children haven't the slightest idea who he is. . . . Jean Arthur, Cary Grant and Ronald Colman will head the cast of Columbia's "Mr. Twilght" . . . Phillips de Lacy, famous not so many years ago as a child star of the movies, is now producing commercial pictures for the March of Time company. . . . Alice Faye will portray Helen Morgan in the picture based on the singer's life. . . . Though they don't have night clubs in Iceland, some Heims may be shown running one in her next Fox picture, which will probably play down her singing.

IMPROVED
UNIFORM INTERNATIONAL
SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute
of Chicago
(Released by Western Newspaper Union.)

Lesson for November 30

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

CHRISTIAN LOVE

LESSON TEXT—John 13:34, 35; 1 Corinthians 13:1-13.
GOLDEN TEXT—We love him, because he first loved us.—1 John 4:19.

Many important things enlist the interest of the Christian, but we need to beware lest we neglect what Jesus declared to be the first and great commandment—that we love God; and its necessary sequel—that we love our neighbor. If love is forgotten (and who can deny that it often is in our day?), the very foundations are shaken. We need a revival of Christian love.

I. Love—A Mark of Discipleship
(John 13:34, 35).

Do you want to know whether a man is a Christian? Find out whether he loves his brethren. Such is the test Jesus gives in these verses.

1. Commanded. It is the will and purpose of God that the followers of Christ should have a real love for one another. It is not to be a matter of impulse or chance, but the love God has for us should constrain us to love one another. Thus is love.

2. Exemplified. God has loved us. He does love us. How infinitely much is wrapped up in these simple words! He even gave His Son to die for us because He loved us (John 3:16). How then can we withhold our love from Him and from one another?

II. Love—A Christian Grace (1 Cor. 13).

In a world where hatred prevails, and is in fact glorified, this chapter needs to be read and reread. We find that love is

1. Essential (vv. 1-3). Life has many excellent gifts and men quite properly seek after them. How do they compare with love, and what do they amount to apart from love? Glowing, angelic eloquence; the far-seeing eye of the prophet; the attainments of knowledge and culture; mountain-moving faith; liberal-hearted charity; martyr-like self-sacrifice—without love they are all as nothing. Apart from Christ and His love operating in our hearts and lives the worthiest attainments of men are vain and empty. Love is the very essence of a satisfying and useful life.

2. Effective (vv. 4-7). Does love really work, or is this just a fine-sounding but obsolete theory? It works.

Think of the things in life which irritate and depress us; then put opposite them the qualities of Christian love as given in verses 4 to 7, and you will agree that what this world needs most of all is love.

Remember that talking about love or reading about it or studying it in the Sunday school will not make it effective. We must put it into practice. Why not start now? You will be surprised at the results.

3. Eternal (vv. 8, 12). Many gifts are only temporary in their usefulness; in fact, almost everything that man makes or does (apart from his service for God) is transient. Even so vital a matter as prophecy shall one day find its end in fulfillment. Hope shall eventually find its longing expectation satisfied. Faith will be justified in seeing what it has believed. Childish things will be put away by the full-grown man, knowledge will increase and darkness disappear.

But love—love is eternal. It never fails, and will never fail. God is love and God is eternal. From all eternity and unto all eternity love continues. Therefore, we agree with Paul who in the verse preceding this chapter (1 Cor. 12:31) says that while you may covet the best gifts, here is the more excellent way—love.

Let us be clear about this. Love is not a substitute for regeneration, and certainly regeneration is no excuse for lack of love. Read John 13:34, 35 again and remember that if we are Christ's disciples, we will count it a high privilege to keep this first and great commandment of love.

Dependence on God

Poverty in any shape helps to stir in man a sense of need, a disposition to consider himself as dependent. . . . The real puzzle of life consists not in the fact of widespread poverty but in that of widespread affluence; in the fact that so many are sufficiently endowed with "goods" as to believe they can live by them, and so cease to look for their true life to God their Father.—E. Lytleton.

Death Becomes Transparent

And so the empty tomb becomes the symbol of a thoroughfare between life in time and life in the unshadowed presence of our God. Death is now like a short tunnel which is near my home; I can look through it and see the other side! In the risen Lord death becomes transparent. "O death, where is thy sting? O grave, where is thy victory?"—Dr. J. D. Jowett.

FARM TOPICS

GOOD MILK CARE PAYS DIVIDENDS

Specialist Outlines Rules for 'Creaming' Profits.

By JOHN A. AREY
(Dairy Specialist, North Carolina State College.)

The best way to "cream the profits" from a home milk business is to skim off the lazy practices of not properly caring for your product—the milk.

Farmers who keep a cow or several cows might tack on the wall of the barn following list of rules to be observed in managing cows and milk:

Milk clean, healthy cows in a clean, well-ventilated place. Use a partly covered, small-top milk bucket. No rough edges or rusty spots. Milk with clean, dry hands.

Take the milk from the stable or cow shed as soon as you've finished, strain and cool the milk.

Set the fresh milk in a cool, airy place. Set pans or cans of milk in cold fresh water to cool it quickly and thoroughly.

Stir water often—about every 10 minutes at first—less later on.

Keep milk and cream in a well-ventilated place free from insects, rats, dirt, dust and odors.

Don't add warm milk or cream to cold milk or cream, unless you want to speed up souring.

Rinse utensils, wash, scald with boiling water, dry, sun and air them promptly.

Scrub them in warm water with a brush—not a dish rag. Don't dry them with a towel.

If you sell cream, deliver it twice a week in winter.

AGRICULTURE IN INDUSTRY

By Florence C. Wood

(This is one of a series of articles showing how farm products are finding an important market in industry.)

Tobacco—Many Uses

An additional income of \$7.50 an acre will be available to American tobacco growers if tobacco seed can be utilized in this country.

In India, Bulgaria and Jugoslavia, an oil is extracted from tobacco seed which resembles sesame seed in taste and smell. Since it is not thick and penetrates tissues easily, it may prove useful in the manufacture of hair oils, glycerine, paints, varnishes and soap. In India, the cake left after the oil is extracted, is fed to sheep and goats. Still another possible use of the cake is in fertilizer. All of these new uses of seed would not interfere with cultivation or harvest of the tobacco leaf.

In the United States, the 1,848,652,000-pound crop is grown primarily for cigars, cigarettes, chewing and smoking tobacco and snuff. About 10 per cent is cigar leaf and the rest is "manufacturing tobacco." North Carolina produces the most, followed by Kentucky, South Carolina, Georgia and Tennessee.

Some of the crop goes into insecticides in which the nicotine is extracted, combined with oil and used as a spray for moths and garden pests. Other new applications to farm pests are being sought by research workers. Experiments are being made to produce a new non-smoking tobacco, specifically for industrial uses. Recent discoveries show that it will be used effectively in the field of medicine.

The United States grows about one-fourth of the world's tobacco crop, uses more than any other country, and imports more. The greatest area extends from Kentucky to Maryland and from central Ohio to North Carolina. Cigar tobacco is produced in Connecticut, Wisconsin, Pennsylvania, Indiana and Ohio.

Improve Manure Value With Superphosphate

Farm manure's value as a fall and winter fertilizer is greatly increased by the addition of superphosphate. The superphosphate not only prevents nitrogen loss in the manure, but adds another important plant-food element—phosphorus—an element that is lacking in all manures. "Methods of applying it may vary according to farm conditions," says a statement of the Middle West Soil Improvement Committee, "but perhaps the simplest way is to scatter one or two pounds of superphosphate per animal per day in the gutter or trough where manure is collected. By this means the superphosphate is evenly distributed through the mixture."

Agricultural Notes

Grain for dairy cattle should be ground, but fine grinding may be harmful because such feed has too little bulk to be used most efficiently by cows.

Hogs to be butchered should not be fed for 24 hours before killing but should get all the water they want. Fasted hogs bleed out better and dress more easily.

For you to make!

Pattern 7114.

BE up-to-the-minute in gay slipper you've crocheted yourself! Both these smart styles are done in afghan yarn and have

simple pattern stitches. They're good bazaar items, too.

Name

Costly Guard

The war department has spent large sums of money to maintain guards at the graves of Presidents and ex-Presidents until their mausoleums were completed and civilian watchmen provided by a memorial association, says Collier's. The military guard, consisting of one officer and twenty-five enlisted men, that watched over the temporary tomb of the late President Harding for almost five years, cost the government nearly \$135,000.

AROUND THE HOUSE

If food burns in a pan, shake a generous amount of soda into it, fill with cold water and let stand on back of stove until pan can be easily cleaned.

A teaspoon of baking powder in the water in which meat and vegetables are cooked will help make them tender.

When pressing men's suits always press over a damp cloth.

Crocheted bedspreads can be washed, but they should be carefully spread out on a clean sheet to dry and not hung on a line.

Directly under the skin of potatoes is a valuable nutritional layer, so, whenever possible, cook potatoes in their jackets. The skin can then be peeled off easily without loss of food value.

Often a coat of paint is saved by first washing the walls before repainting them. This removes the soil and stains and assures a better job and takes less paint.

Leftover, mashed potatoes can be fashioned into small cakes and used for holding creamed foods, shaped into flat cakes and browned, or then can be used for covering meat, fish or vegetable pies.

LaGuardia, Penniless, Came to the Right Place

A few years back, Fiorello LaGuardia, New York's peppery mayor, was addressing a group of Salvation Army workers before a large audience. The mayor gave a long and fiery speech in praise of the organization. At the finish, the plate was passed. When it came to LaGuardia, he reached into his pocket for money. A blank look came into his face when he could not find any. He fumbled desperately in all pockets. Sensing his predicament, the commissioner of the Army said in a loud voice: "That's all right, the Salvation Army is the right place to come to when a man hasn't a nickel!"

Harm in Excess

The desire of power in excess caused the angels to fall; the desire of knowledge in excess caused man to fall; but in charity there is no excess, neither can angel or man come in danger by it.—Bacon.

Best for Juice
and Every use!

More "health" per glass in California juice

The deeper color and more delicious flavor of California orange juice come from extra richness.

Science proves this means more vitamins C and A, and calcium in every glass!

Sunkist Navel oranges are easy to peel, slice and section for recipes, lunchboxes and all-round eating.

Those stamped "Sunkist" are the finest from 14,000 cooperating growers.

NU-WAY CLEANERS

KNOW YOUR BANK

How Do Bank Checks Provide Safety?

Checks provide safety in at least two ways: (1) They eliminate the need of carrying cash and (2) They furnish valid receipts in the form of cancelled vouchers which prove that payment has been made to the designated person. Both of these features are entirely automatic yet the amount of money they have saved for people with checking accounts, if possible to calculate, would be enormous.

persons claiming any lien upon, or
right, title, or interest, in or to, the
estate of the said decedent, and to
whom it may concern:

You, and each of you are hereby noti-
fied, and notice is hereby given that
Ruby Yates Ward Corn, Administra-
trix of the Estate of W. A. Yates, De-
ceased, has filed in the above entitled
Court her final report and account as
such Administratrix, and the Court
has appointed Monday, the 6th day of
January, 1942, at the hour of 10 o'clock
A. M., as the hour and day for hearing
of objections, if any there be, to the
approval and settlement of said final
report and account, and the discharge
of the said Ruby Yates Ward Corn as
such Administratrix, and at the hour
on the day named, the Probate Court
will proceed to determine the heirship
of said decedent, the ownership of his
said estate and the interest of each
respective claimant thereto and there-
in and the persons entitled to the dis-
tribution thereof.

This notice and postoffice address of
the attorney for the Administratrix is
John E. Hall, Carrizozo, New Mexico.
Witness the Honorable Marcel C.
St. John, Judge of said Court, and the
seal thereof, this 4th day of Novem-
ber, 1941.

The Once Over by H.I. Phillips

BUILDING ANYTHING, MISTERY?
SPAB has ruled that no new public or private building may be started unless it is essential to the health and safety of the country. Pop, there goes that idea of a new two-car garage!

The government must save all "critical material" for the war. Critical material is almost everything from the blueprint to the architect's bill.

The man who has just dug a cellar for anything may find he is just the custodian of a hole for the duration of the war.

Director Donald M. Nelson says that if you have a building partly finished he will try to take you out of your position in mid-air, but it is more than likely that the man with a house only 50 per cent finished will save himself a lot of trouble by just putting a sign "Opened By Mistake" on the whole project.

This is an all-out war and it appears to be leaving the building all out of most everything from cellar door hinges to lightning rods.

"Is the construction directly necessary for national defense, or for the health and safety of the civilian population?" This is the test question Washington asks. How are you going to make a new country home fit into that?

In fact, how are you going to make a garage fit?

Almost everything is necessary to defense, including those bronze door-knockers and the bathtub faucets.

"The House That Jack Built" is becoming the Bungalow That Nelson Stopped.

Mr. Nelson says the restrictions will halt "pork barrel" projects. The answer to that is "Wanna bet?"

He will have his work cut out for him trying to convince a congressman that the new power dam at Cornob Valley isn't essential to the safety of the country and that the deluxe post office in Cribbage Hollow isn't vital to the health of every politician involved.

Some questions and answers issued by the SPAB to explain the situation include:
Q.—If I were building a 10-story building and had four stories up could I get material to finish it?
A.—Very likely, yes.
Q.—If only an excavation existed?
A.—It would be a tossup.

And the builder would be "He who gets tossed."

AS MA GOOSE MIGHT PUT IT
This is the house that Jack built.

This is the architect that planned the house that Jack built.

This is the builder retained by the architect that planned the house that Jack built.

This is the stuff they needed for the cellar and the second floor.

This is the owner (oh, sad is he!) Who got word from S.P.A.B. He couldn't get stuff needed for the cellar and the second floor.

You can go on from here. All it takes is imagination.

LINES ON LONGEVITY
(An average life span of 550 years is attainable if conditions in the body at the age of 10 years are retained, according to a professor in the Columbia university school of medicine.—News item.)

Consider, please, the child-of-ten, Whose bodily condition's A miracle to learned men, Professors and physicians, Who say that if we could retain This stamina and vigor, Five hundred years we might remain, And somewhat more, they figure. But I have watched a child at play, From morning until night time, And wearily I now must say That threescore ten is quite time. —Richard Armour.

There is a 5 per cent tax on all railroad, plane and boat tickets now, and one hesitates to think what this must mean to Mrs. Roosevelt.

Commuters are excepted. This is the first instance in history where a commuter got any consideration whatever.

Roach powders are now hit by priorities. An ingredient is needed in munitions. Well, if the insecticide man goes after Hitler we'll take care of the situation around our own kitchen sink.

T. Jefferson, Farmer

AS OFFICIAL Washington hums with Uncle Sam's defense preparations, a group of stone masons are quietly putting the finishing touches on a stately, marble-domed shrine rising to completion as a memorial to Thomas Jefferson. The temple will immortalize Jefferson's contributions to his country.

Every citizen is familiar with Jefferson's greatest achievement—the Declaration of Independence. Many recall his authorship of the Bill of Rights, his unyielding devotion to religious freedom, education and democracy. Few Americans, perhaps, are aware of another of Jefferson's achievements—his contributions to the development of modern, scientific farming.

As a practical farmer Jefferson was constantly on the alert for new ideas. He made his Monticello estate into a progressive experimental farm where new machinery, new methods, improved stock breeding, new crops and tests in restoring soil fertility were tried out. Over a period of years he grew as many as 32 different vegetables at Monticello.

The Sage of Monticello had many problems to contend with. The land he acquired was worn out by generations of bad agricultural methods in a single crop type of farm economy in which tobacco had been king. No attempts at diversification or fertilization had been made. Unlike the

farmer of today, who can get advice from his county agents, agricultural college agronomist or experimental station on whether his soil is deficient in nitrogen, phosphorus and potash, and then obtain the correct analysis of commercial fertilizer, Jefferson had to depend on talks with his neighbors and his reading of farm papers and books published in England.

When he learned something new about agriculture he recorded it in a "Farm book" he kept in his own handwriting. One account tells how to lay out experimental plots to test the effects of fertilizers. In these tests his plant foods were manure and gypsum. Unfortunately for him fertilizers, as we know them today, were not in existence.

Writing to George Washington concerning the run-down condition of his land after overseers had farmed it during his absence on public business, Jefferson described the use of legumes as a soil conditioner. He discovered that clover, vetch and peas had a soil-enriching power, but did not understand that this lay in their ability to impart nitrogen to the land.

Crop rotation was another measure he championed. "My rotation is triennial," he wrote to a friend, "that is to say, one year of wheat and two of clover in the stronger fields, or two of peas in the weaker, with a crop of Indian corn or potatoes between every other rotation—i.e., one in seven years. Under this course of culture, aided with manure, I hope my fields will recover their fertility."

In addition to his pioneer efforts to put back into the soil fertilizing elements removed by constant cropping, Jefferson waged a winning battle against soil erosion. With his son-in-law, T. M. Randolph, he practiced horizontal plowing and bedding on hillsides that is reminiscent of present day contour plowing.

"Jefferson's enlightened efforts at soil conservation and the bettering of farming methods entitle him to foremost rank among great American agriculturists," says an official of the Middle West Soil Improvement committee. "He had an instinctive feeling that man should be a careful custodian of the soil entrusted to his care. His work in soil improvement, however, primitive as it was, helped pave the way for modern soil science."

Jefferson's farm improvement program included experiments in livestock breeding in co-operation with President Madison. His scientific knowledge was likewise applied to the problem of improving farm machinery. Half a century before the steel plow was invented he designed an all-metal plow with a mould board that turned the soil effectively. Shaped according to mathematical computations, the mould board met the least possible resistance from the earth. Jefferson also devised a seed drill, a hamp brake, and a primitive threshing machine.

INSTALLMENT NINETEEN

Texas ex-peace officers to invade the countryside and kill without trial all suspected rustlers. By mistake, Terry and his foreman, Larry, are attacked by the invaders. Jeff, thinking them rustlers, comes to help them, is wounded.

"He's so restless. I wonder if he would be content?"

"He'll have to settle down sometime, won't he?" Calhoun said.

"I don't know. He's so wild." She went on, almost as if she were talking to herself: "It would be terrible for a girl to be married to him. With a husband as reckless and unstable as he is, no woman would be able to keep step. He would bring her great and lasting unhappiness, though very likely she would keep loving him till the end."

Calhoun pulled up in his stride. "I thought you were going to marry him."

"Did you think I would marry a rustler?" she reproved gently.

"Do you mean—that you're not in love with him?" he asked, looking directly at her.

She laughed, a little tremulously. "Where did you get that ridiculous notion?"

He stared at her, a heat beating through his body. "Then you're not in love with him . . . or with any other man?"

She said in a low voice, "We aren't talking about any other man, are we?"

Some hint of her deep emotion reached him. A swift hope blazed up in him. He had thought never to tell her what was in his heart, but now he flung away restraint.

He said, "I couldn't be the man." But his voice asked for a denial.

When she did not reply, he pressed home his question.

Ellen looked up, her face a soft and shining answer.

Riding through the night to send the message to the Governor, Calhoun was filled with a sense of the nearness of the girl whose warm body he had held in his arms. The lift of the hour was still on him. With the extravagance of a lover, he was sure that no man since Adam had ever had a sweetheart comparable to her.

He loved everything about her—the parted lips and shining eyes, the flowing grace of movement, the turn of the lovely head.

His ecstasy amazed him. He had counted himself a hard man, cynical, not given to sentiment. Yet a girl with a wind-blown skirt had crossed his path and changed the world for him. He thought, with a smile, of the verse of the hymn he had once quoted to her:

Though every prospect pleases,
And only man is vile.

He was ready to revise his opinion about that too. Jeff Brand—Dave Morgan—Sheriff Hart, Tough, hard men all of them, but with a light shining in their hearts that separated them a million miles from vileness.

CHAPTER XXXIX

That the soldiers reached Wagonwheel Gap Ranch just in time to save the invaders is written in the history of Cattleland. Ellison and his men surrendered to the commanding officer of the troops stationed at Fort Garfield. To Sheriff Hart and to the best of the attacking settlers the sound of the bugle sent out by the approaching troops had been almost as welcome as to the beleaguered party.

Collins strutted out of the ranch house undaunted by the yells and

A rescue party takes Jeff to town for medical treatment, and Terry and Larry are arrested by the sheriff for safekeeping. Jeff pacifies mob. Cal, free, doesn't know Ellen loves him, not Jeff. But he is soon to learn.

curse flung at him and his associates. He stood on the porch and waited for a chance to speak, and when the angry shouts died down flung back defiance at the enemy.

"To call me a murderer doesn't make me one," he said, no more disturbed than if he had been sitting with cronies at the Cheyenne Club. "We're honest men fighting for our rights. Some of us have been here since the Indian days. Every cattleman among us has helped build up this territory and has been a good citizen. I can call out the names of a dozen thieves I see among you, scoundrels who came here without a cent and have obtained herds at our expense, every hoof of them stolen from some of us."

He waited till the roar of rage had spent itself, then went on hardily. "I'd do just what I have done again. The time has come when either honest men or the thieves have to get out, and by God! I stand for hanging every rustler I can find until the law will punish them by putting them behind bars. We are not fighting small settlers but thieves. If I have to go to prison for what I have done, I'll still say I did right in trying to rid this country of outlaws."

Neither Collins nor any of the other invaders went to the penitentiary. Their trials were postponed for many months. Witnesses vanished. The intensity of the feeling against the cattlemen declined. Moreover, the cost of the trials was so great that there was likelihood of county bankruptcy. In the end the indictments were dismissed.

But it was plain that the big ranches were doomed. One after another they followed the example of the Diamond Reverse B and went out of business. With the increase in the number of small cattlemen the chances for undetected rustling grew fewer. Most of the thieves were known, and one by one they fitted to Montana or Idaho or Mexico.

Jeff Brand joined a cattle outfit in the Argentine. At long intervals his friends heard of him. He came back to the States to enlist for the Spanish-American War. A bullet took him in the throat as he was going up San Juan Hill.

In the reorganization of the cattle country after the break-up of the big ranches Calhoun Terry took an important part. He was recognized as a strong man, and as the years passed his influence became more than local. There came a time when he had to go to Washington to represent his people. He was never quite happy there, for he was no politician, and he was glad when his term of office expired. So was Ellen. It seemed to her that a city was no place to bring up a large family of boys and girls, and she gave a deep sigh of relief when they were all home again in the West she loved. Her father was an old man by that time, and she knew it made him happier to be near them.

In private, sometimes, her husband tells Ellen that she is still lovelier than the slim, dark-eyed daughters who trouble the hearts of the young men of the neighborhood. She smiles wisely, and is content. For she knows that both Calhoun and she have had a happy life in spite of the occasional storms that have beat up to trouble them.

[THE END]

The voice was that of Lee Hart. He bowlegged forward, and pulled up abruptly as he recognized the two ranchmen. His gaze slid to Yancey. They could see understanding of the situation filter into his eyes. He opened his mouth to shout, and was a fraction of a second too late.

Terry had plunged forward, his right lashing at the man's jaw. Hart went down, and Terry was on him instantly, his fingers closing on his hairy throat to prevent an alarm. Calhoun dragged the heavy body into the aspens.

"Give me your bandanna," he said to Yancey, and with it gagged the prisoner. The rope from the saddle he used to tie the man.

The moon came out for a moment, then went behind a cloud. Yancey was boosted to the saddle and Terry swung up behind him.

CHAPTER XXXVIII

Ellen found it impossible to sleep. After tossing in bed for two or three hours she got up, dressed, and went down into the hotel lobby. Roan Alford passed through it, on his way from the bar to the street. The gray-haired little man's beady eyes fastened on the girl.

"What you doing up this time of night, Miss Ellen?" he asked.

"I can't rest, Mr. Alford. I'm worried about father. I want to go back to the ranch, where I'll be nearer him if anything happens.

Alford agreed to ride with her. As they rode up through the darkness to the ranch house Roan caught at the rein of Ellen's horse and pulled it to a halt.

"Wait a minute. There's someone there—on the porch."

Already Ellen's gaze had picked up two horses at the side of the building, vague and shadowy in the gloom. The object on the porch stirred. It was a man. Or was it two men?

"Who is it?" Alford called.

"Calhoun Terry," the answer came.

A pulse began to beat in the girl's throat.

"Is that father with you?" she asked.

Terry rose from where he had been kneeling. "No. Your father is all right, Miss Carey. This is a wounded man. He slipped out of the Wagonwheel Gap Ranch with a message, and they wounded him as he was trying to get through the lines."

"The Wagonwheel Gap," she repeated.

"Yes. Ellison's men are surrounded there. They want a telegram sent to the Governor."

"Has there been a battle?"

"Not yet. The settlers are besieging the invaders, who are pretty well fortified up. I'm afraid there will be a heavy loss of life if the troops don't stop it."

"Where is father?"

"He is with Herriott's men. We offered to mediate, but they wouldn't let us."

Ellen looked down at the man on the floor. "Is he badly hurt?" she asked.

"Shot in the leg. Could you take him in here, until I can arrange to have him moved?"

"Of course."

"I hate to trouble you, ma'am," Yancey said.

"Don't worry about that," she told him.

The men carried him upstairs and put him to bed. They dressed the wound as best they could, after which Ellen joined Calhoun on the porch.

"I'll rope one of your horses, if you don't mind," he said to her. "I have to get this message off to the Governor."

She took instant alarm. "You're not going back to Round Top?"

"No. I'll send the telegram from Jim Creek. It would probably be held up if I tried to get it off from Round Top."

"Will you send a wire to Doctor Harris and ask him to come up and look after our patient here?"

"Yes. He'll probably be needed at the Wagonwheel Gap Ranch too. On the way there he can stop here."

Ellen walked down with him to the corral. Roan Alford was taking care of the wounded man, and for the time she could be spared. She moved with a fine animal vigor, shoulders and hips in a straight line vertically. Calhoun noted the rhythmic grace of the slender figure. He had never met another woman like her, so fine and gallant and animated with life. There strummed in his blood a strong desire for her—for the dark beauty tempered as a Toledo blade, for the sweetness and the courage that she carried like a banner. There would be gifts in her eyes for some lucky man, but they would not be for him.

"Larry Richards and I are buying a slice of the Diamond Reverse B," he told her. "I've been thinking we might have a place for Jeff Brand when he gets able to work."

She flashed a quick look at him, surprised. "Do you think that would

WOMAN'S CLUB

Met last Friday at the Community Center with the president, Mrs. Snow, presiding. The meeting was opened by singing the chorus of "God Bless America" with Mrs. Burns at piano. This was followed by salute to the flag. In the absence of Mrs. Jenne, secretary, the minutes of previous meeting were read by Mrs. Frank Richard. Minutes were approved as read. Report of Mrs. Finley, treasurer, was read and approved. Mrs. Snow announced that the material for Red Cross sewing was at hand and all interested should see Mrs. Deglitz. Mrs. Norman reported one new member.

The annual bazaar was postponed for one week. It will be held Saturday, Nov. 29, from 2 to 5, at the Carrizozo Hardware Co. All members are urged to attend and bring aprons, needlework or baked goods. The president announced that the club is now sponsoring the sale of U. S. Defense Bonds.

Miss Madena Brady presented the following program: Songs, "In the Little Red Schoolhouse" and "School Days," Elizabeth Jordan, Dorothy Ferguson, Dorothy Hoffman, Geraldine Dixon, Mrs. Kelley at the piano. Discussion, "Health," Mrs. Shilling. Delightful refreshments were served by the hostesses, Mmes. Ralph Petty, J. P. Jones, Felix Ramey, Edith McKinley and Miss Bea Romero.

Felts—Mosteller

Mrs. Ufa Felts and Charles J. Mosteller of Lon were married Nov. 20, at the home of the bride's sister, Mrs. Roy Hawes, at Brownwood, Texas, with Rev. Boone officiating. The bride has taught school in Lincoln County for several years and for the past two years, has been teaching at Lon. Her son, Connie Lee Felts, is staying with Mrs. Hawes at Brownwood, where he is attending school this year.—Contributed.

Bradley Moberly, of whom we recently made mention as being in the Navy at San Diego, was one of the lucky boys in his department. There were four to be chosen to undergo a 16-week schooling at North Island, across the Bay from San Diego. The course will consist of study along mechanical lines, the construction of airplanes, etc. Bradley is one of the sons of Mr. and Mrs. Walter Barnett.

Mrs. Rebecca Guiles Jauragueta is here from Albuquerque this week, visiting relatives.

Mr. and Mrs. George Stinson of Coconino were visitors in town yesterday, Thursday.

Francisco Vega was here from

SCHOOL NEWS

The Turkey Day game of football was a great success. The sportsmanship of the boys was of the highest type. The gross receipts of game amounted to \$131.20. The high school thanks all who helped make this event a success.

The public is invited to two programs of the Xmas Season—Dec. 19, from 11 to 12, the St. Rita Schools present a program in the High School Auditorium. On the same day at 2:30, Prof. Ripley with a select group of students will present a Dramatization in the auditorium.

On Thursday, the Primary Dept. moved to the Methodist Church, as their building is being razed. The new building is nearing completion. This is but a part of the enlarged program of the growing Carrizozo school system.

The Harvest Carnival will be held at the Auditorium Saturday, Nov. 20. There will be bingo, roulette, fortune telling, target, cake walk, delicious hamburgers and a one-act play, "Neighbors." There will be no admission charge. The six popular girls in the case for Queen are: Jane Galloway, Dorothy Jones, Emma Galloway, Charlene Page, Virginia

Bean Elevator at Claunch

Maurice Spear was here from Claunch Saturday on business. Mr. Spear has filled a much-needed want in Claunch. He has erected a bean elevator, where beans are cleaned and made ready for market. Heretofore, bean raisers in that vicinity had to truck their product to other places, but now they have the service at home. Mr. Spear also represents the Trinidad Bean & Elevator Co. of Danvar, having been interested in that company since this last September.

Calixtro Aguilar

Calixtro Aguilar, World War veteran of Tularosa, passed away Tuesday morning at the home of his aunt, Mrs. Sam Farmer, after a long illness and the funeral was held Thursday at the local cemetery, with the American Legion in charge. Pallbearers were members of the Legion. Bandmaster Brewster of the Hi School Band sounded taps at the grave and acted as one of the pallbearers. The sympathy of our community is tendered to the surviving relatives.

Mrs. Precillana Perea of Los Angeles, old resident of Lincoln County, died Nov. 16, after a long illness. She leaves four children, Mmes. Flaus and Perea, Octaviano and Carl Perea, all of Los Angeles. She was a sister-in-law of J. P. Romero, her husband being killed while on police duty in El Paso several years ago.

Mr. and Mrs. B. L. Moore and small daughter of their ranch in the White Oaks country were visitors here Saturday.

Mr. and Mrs. Precillano Perea and baby were here from the ranch Monday, visiting the Phil Lopez and Fred Martinez families.

Mr. Payne, son of W. B. Payne, enterprising stockman of the Capitan country, was here on business Saturday.

Mr. Lulu Lewis of the Lewis ranch at the head of the Matamoros was a business visitor in town this Tuesday. Mrs. Lewis made this her first friendly call with

SAVINGS At B. & M.
