## Charlotte M. Rice

Passed away at Tularosa on June 5, after a long illness. She was born in Chicago, October 3, 1870, where she spent her childhood and early womanhood. In 1901 she came to La Luz and later joined her father at Parsons. After living there for 20 years, they moved to Lincoln in 1923. In 1924 she was employed by the O. T. Dept. at Fort Stanton, but had to retire in 1935 due to ill health. She and her sister Helen then went to the Pacific Northwest, where her health improved to the extent that they decided to come back to their beloved New Mexico, settling down to home life at Tularosa in 1937. Miss Rice was a member of the Eastern Star of Carrizozo and also of the Presbyterian Church in both of which she was very active during her life.

Funeral services were held in the Tularosa Methodist Church Sunday, June 7, at 3 p. m., with Rev. F. J. Johnston and the Eastern Star of Carrizozo conducting the same. Interment was made in the Tularosa cemetery.

She is survived by three sisters, Mrs. J. Q. Welch of Dawson, Mrs. W. L. Weber and Miss Helen Rice of Tularosa, four nieces and three nephews, to all of whom sympathy is tendered.

Mr. and Mrs. J. V. Stokes of Midland, Texas, are here for a visit with their son Dewey and family. We are always glad to meet these folks and have a chat with them on their trips here.

Prof. and Mrs. L. Z. Manire, daughters Margaret, Mildred and son W. F., arrived here last week from Vaughn and are residing in the Phipps place, formerly occupied by Prof. J. M. Carpenter. Mr. Manire is the new City School Superintendent. We welcome Prof. Manire and his family to Carrizozo.

Mrs. A. L. Lane, daughters Margaret and Alma of Lake Arthur are here for a visit of several weeks with Mrs. Lane's son Wade, proprietor of the popular Nu-Way Cleaners.

Ben Barnett is in Los Angeles.

Mr. and Mrs. Walter McMillan are in Silver City, for a short visit with their daughter Bonnie, who is employed on the phone exchange at that place.

James Garner and small daughter Garnette were visitors in town from Coyote yesterday.

**GEORGIOUS FLOWERS**  
For all at the Nogal Post-office.

Jimmy Brister, the hustling insurance man and secretary of the Business Men's Club, has purchased the candy wagon from George Penke and is now on the route with candies, drugs and notions.

Mrs. E. A. Bellinger and daughter Mary Lou, who had been here from Tularosa for several days while Mr. and Mrs. Moore and small daughters of the B & M store were on their vacation, left Wednesday for home after the Moore family returned.

Mrs. Gunther Kroggel returned from her trip to Pensacola, Florida, to which place she journeyed to attend the wedding of her brother and also to see him get his "wings" in the naval service, making it a double event. Mrs. Kroggel was accompanied by her parents, Mr. and Mrs. H. C. Langston of Taos. The Langstons returned and after a brief stop-over here, went on to Taos.

Prof. and Mrs. L. V. Baker of Picacho are in Albuquerque, where Mr. Baker will attend summer school.

We understand that Wade Lane has leased the Harry Miller skating rink. Harry is now a train dispatcher at Tucumcari.

Mr. and Mrs. R. A. Walker and Mrs. Ole Wettermark spent the first part of the week fishing at Conchas Dam.

Word was received here this morning of the death of Judge Peacock of Nogal. Particulars next week.

Mr. and Mrs. John Dale, Jr., have moved to Alamogordo, to which place John has been transferred in the S. P. water service.

Mr. and Mrs. J. R. Jenkins, Mr. and Mrs. Jacinto Flores and M. E. Wade were business visitors from Corona yesterday.

The funeral of Robert Ford Sherrill, who died on June 11, will be held at White Oaks this afternoon. Particulars next week.

## Why Are We Fighting in Asia?

In answer to those who might ask the question contained in the head of this article, let us dwell on the matter for a little while and see if we can get a correct answer.

We are fighting in Asia with a view of restoring to the people over there what they have lost, namely: Their right to self-government; the right to till their own soil; to bring up their children under free and peaceful conditions such as they had before the Nazis and Japs brought them under subjection and slavery.

Many of them are under the impression that for the United Nations to win the war, would mean that they might be subject to what they are led to believe would be a western imperialism, which would be as bad as under Japanese or Hitler subjection. One commentator has said that in numerous occasions he has heard it said, or in words to that effect—"if we must live under a foreign master, it would make no difference what master it would be."

As the matter now stands, the people in countries conquered by Hitler have lost hope. They are in every sense of the phrase, sitting in darkness and the shadow of death. Their homes are gone, their properties and money have been confiscated. Liberty (what amount they did have) is a thing of the past, and in fact, death would be to them a welcome visitor.

True Americans are not interested in restoring 19th century imperialism in Asia—neither is any such aim set forth in the Atlantic Charter, which reads as follows: "No possession of territories by force. Freedom and self-government for all. Equal access to all raw materials. Improved standards of living for the people of the world. Peace, freedom of the seas and collective security against aggression."

People in the occupied countries are being warned right now, to flee the cities and escape from the intensity of the bombings which already have been started and which will increase with a wrathful rapidity. This warning is sent out to the good people of Germany and all countries under the ironic hand of the Gestapo. The United Nations wish the people to understand that friendly hands are outstretched to help them in their misery and sorrow.

If they will heed these warnings and refuse to believe the lies that are told to them of happy days after an Axis victory, a bright future will await them and out of the depths of despair, freedom and happiness will again be realized.

## Business Men's Club

At the regular meeting Wednesday evening at the S. P. Hotel, 11 members were in attendance and there being 8 visitors, made the total 14. In the absence of secretary Brister, Rev. Klassen acted as secretary. R. E. Lemon, cashier of the Citizens Bank, had as his guest, J. V. Hunt of Vaughn, who is relieving Mrs. Clouse while on her vacation. Emil Reynolds of the Standard Service Station presented his guest, Major Wm Odie, Field Representative and Recruiting officer for the U. S. Navy, and L. Z. Manire, the new School Superintendent, was the guest of President A. L. Burke.

Otho Lowe, Deputy County Clerk, who was made a member of the club at the previous meeting was placed on the roll. At the next meeting, there will be a musical treat for the members and also an address by one of the members. All members are urged to attend.

John Klassen, Acting Sec.

## Past Matrons' Club Entertained

Tuesday afternoon at her home, Mrs. Paul Mayer was hostess to the club, honoring Mrs. J. A. O'Malley, who is soon to leave Capitan. Mrs. O'Malley was given a handkerchief shower by the club and the hostess served refreshments. Mr. O'Malley has responded to a call from the U.S. Navy and will again take to the high seas for Uncle Sam. His headquarters will be at New Orleans and after a visit with her mother in Minnesota, Mrs. O'Malley will join Jack at the above named city.

Mrs. Poe Corn and children of Roswell, came in this week and are guests of Mr. and Mrs. A. J. Rolland. Poe is one of the leading football and basketball coaches in the state. Mrs. Corn will also pay a visit to her sister Miss Helen Rolland at Santa Rosa before returning home.

In a letter from Jim Greer, who is now in a hospital at Los Angeles, received by Mrs. Greer, he says that he is getting along nicely and soon will be home.

Geo. Perry, the well driller of Glencoe was here last week and told of drilling a well for Bryan Hightower to a depth of 200 feet without success. He then tackled a spot a quarter of a mile and got one of the heaviest flows in that vicinity.

Mrs. Bob Woollard and daughter-in-law Mrs. Harold Negley of Denver were here from Ruidoso Wednesday. Mrs. Negley will remain with Mrs. Woollard until Harold, who is a petty officer, first class in the Navy, sends for her. Mr. Negley is stationed at San Diego.

Mrs. John Rowland of Corona is here this week, as the guest of Mrs. Muggie Espy.

Mrs. Leola Basot, daughter Louise and Mrs. Frances are here from Silver City, visiting the Wm. W. Gallacher family.

Charles (Red) Busch, juvenile singing cowboy movie starlet, is here from Los Angeles, for a short visit with his mother, sister and many schoolmates at this place.

## Capitan Rodeo

YOUR ATTENTION is called to the ad on this page for the coming event to be staged by the Ropers' Club to be given at Capitan July 4 and 5. On account of Fire Conservation, the selection of Capitan was wisely made. The place is centrally located and is easily accessible from all places throughout Lincoln county.

Prizes will be given in a future announcement. Lovers of the rodeo sport will welcome this event, which will be the only one given in the County; a rousing good time is guaranteed to all. Wallace Ferguson, who was here Tuesday in the interest of the event, is at the head of proceedings and that will be a strong argument for its success.

Mr. and Mrs. E. T. Ingram and son Joe Boy of El Paso spent the week-end with Mrs. Ingram's mother, Mrs. Ladema Joyce, returning home Monday.

### Flock for Service on Navy's PT-Boats

The successes of our motor torpedo fleet in Philippine waters have brought a flood of applications to the navy from young officers who want to serve aboard the boats. Special schools have been set up for this purpose. At the left a group of officers is receiving instructions in the use of depth bombs. Picture at right shows a group of them gathered about an Orlikon automatic anti-aircraft cannon.

### Gal in Every Port?

"Just one gal is enough for me," says an old song, but this sailor seems to be of a different turn of mind. While his arms are quite full, health and vigor's what you need. You can get 'em, yes, indeed; Smoke Nansooker's new cigar... Tra la, tra la, tra la lar!

THE WOMEN'S ARMY  
Tramp, tramp, tramp, the girls are marching!

Women in uniform will be the 1942 feature of our war program. Girls will be doughboys.

The bill creating a Women's Auxiliary Army has been passed and one creating a Women's Auxiliary Navy is in the works.

It is soon going to be a question whether to tip your hat to a lady or give her a salute.

There will be 150,000 gals in the new army, and it is fairly obvious that before long there will be so many of them in uniform that a woman dressed like a woman is going to feel conspicuous.

It is all going to be a terrific blow at feminine daintiness and charm. The boudoir is going to look like an army locker room, every clothes hanger is going to have a military garment on it and the male members of the family are going to have their troubles telling which are their hats and which belong to mother and sister.

We fear a big drop in charm. A woman has to have everything to project oomph in flat heels and an army hat.

There will be no generals, majors, colonels, etc., in the Female Reserve. Those responsible for the matter were smart enough to know that chaos might result. But there will be other less militant titles. The ladies will be ranked as directors, assistant directors, first leaders, second leaders, junior leaders, etc. The preliminary battles will be fought over the question who are to be plain everyday members.

The gals will be paid. Directors will get \$3,000 a year and expenses, assistant directors will get \$2,400 and expenses, and those from junior leaders to first officers will get from \$648 to \$2,000 a year and expenses.

Expenses will not include bridge losses.

Just what the ladies will do has not been completely decided, but if the boys in the army could get their wish some of them will be assigned to cook, make beds and do the general housework which the boys now have to do.

Nothing would raise the morale of the American buck private like being relieved of the job of making his own bed.

The Women's Army will be non-combatant. (Except within its own ranks.—Ed.)

It may be sent anywhere in the world. And there is this one great consolation: it will not be sent out in those funny spring and summer hats.

THOSE MUSICAL COMMERCIALS  
Radio advertisers are going jingle mad. There is hardly a product on the air market today that hasn't been set to music.

You can't tune into the radio these days without finding yourself in the middle of some musical boost especially written for infantile intellects.

There was a time when an announcer would plug a drink, hair oil, bon bon or cigarette in a straight TALK. He didn't need an orchestra to say a good word for a loaf of bread, or a chair to emphasize the value of a can of beer.

He didn't have to set a Mother Goose jingle to music to beat down your sales resistance.

Radio is the most imitative of all the arts. Let some sausage maker come on the air with a sales talk via a male quartette and a dozen other business men will have their commercials musicalized.

Are you a cigar manufacturer? Very well. You'll want something like this to convince the American public that you have the best smoke. Health and vigor's what you need. You can get 'em, yes, indeed; Smoke Nansooker's new cigar... Tra la, tra la, tra la lar!

### Soil Building Measures Help Seedings

Tests Over Eight Years Show Interesting Results

By J. F. DAVIS  
Research Assistant  
Department of Soil Science, Michigan State College.

How soil building measures improve not only the yield but the quality of seedings and small grains was demonstrated by an experiment carried on by the soil science department of Michigan State college. The program covered an eight-year period and included crop rotation, the use of commercial fertilizer and a green manure crop plowed under. The rotation—corn, oats, wheat and alfalfa for two years, with sweet clover plowed down once in eight years—is typical for a large number of farms in north-central United States.

For every dollar spent for fertilizer a return of \$3.60 was realized, according to a tabulation of the results. In the experiment, 150 pounds of 4-16-4 fertilizer per acre applied to the oats and 250 pounds of 4-16-4 on wheat, seeded to alfalfa, resulted in an increase of 4.9 bushels of oats, 8.1 bushels of wheat and 1 ton of alfalfa hay.

That all the advantages gained from the use of fertilizers cannot be measured in increased yields alone was shown by the fact that a distinct improvement in quality was recorded, with plumper kernels and less shrunken grains. From the particular land devoted to this experiment the farmer exhibits grain samples, and when selecting his show samples he invariably discards grain from unfertilized plots.

Fertilizer applications proved more effective in some years than others. The average oats increase due to fertilizer was 4.9 bushels per acre. However, in 1938 this increase was 9.8 bushels and in 1940 it was 8.9 bushels. The wheat yield showed corresponding variations. In 1938 the increase in yield due to fertilizer was 18 bushels per acre; in 1939, 10.1; in 1940, 19.9; and in 1941, 4.3 bushels. Wheat grown on unfertilized plots was invariably of inferior quality to wheat produced on fertilized plots. Moreover, the lower the yield on unfertilized plots, the poorer the quality of grain.

In another series of tests the 1940 alfalfa yield was more than doubled by fertilizing the preceding barley crop. A plot fertilized with 200 pounds of 0-20-0 and eight loads of manure per acre applied on the barley, yielded 2.11 tons of alfalfa on the first cutting. The yield of plots receiving no fertilizer was .98 tons, and on plots on which manure alone was applied the yield was 1.65 tons.

### AGRICULTURE IN INDUSTRY

By FLORENCE C. WOOD

(This is one of a series of articles showing how farm products are finding an important market in industry.)

#### Oil Plants

To find out whether oil plants might be profitably grown in this country, the National Farm Chemistry Council has distributed seeds for test plantings. Farmers from Maine to California have tested the seeds and reported their results which are often favorable. With disturbed world conditions, imports may be still further curtailed and there may be a need for domestic oil to supplant the foreign supply.

Sunflower seed finds a ready market for birdseed and poultry feed mixtures. Our domestic supply of about 7,000,000 pounds is grown in Illinois, Missouri and California. It is an old crop which the Indians on the east shore of Lake Huron raised for their needs. They used stalks for cloth, leaves for fodder, flowers for yellow dye.

Since 1936, a small amount of rapeseed oil has been crushed each year in this country. It is used as a lubricant, mixed with minerals, and finds a place in the manufacture of rubber substitutes.

Safflower has been investigated as a possible oilseed crop for the northern states. It is a quick drying oil and can be used in the manufacture of paints, varnishes and enamels. In India, the blossoms are used for saffron dye and the oil is used for light.

The Perilla plant grows best in the cotton belt, especially in southern Virginia. It is difficult to handle, however, because the seeds burst from their pods when ripe.

### Agricultural Notes

We in the Farm Security administration started out to relieve the economic plight of disadvantaged farm people. We learned certain fundamentals—that you build an economically sound life not on credit or even the land itself. You build it on the people.—C. E. Baldwin, FSA administrator, U. S. department of agriculture in a speech before a farmers' meeting.

### J. Fuller Pep

By JERRY LINK

Talkin' to a fellow the other day, I couldn't help thinkin' that lots of folks claim they have an open mind when the fact of the matter is it's only vacant.

Which reminds me that if you really think straight about vitamins, you'll see why I keep tellin' folks about KELLOGG'S PEP. An' that's because this swell cereal is extra-rich in the two vitamins most often short in ordinary meals—B1, and D. And believe me, PEP is a mighty kick-in-the-pants cereal. ### We Can All Be EXPERT BUYERS

It is bringing us buying information, at prices that are being asked for what we intend to buy, and as to the quality we can expect, the advertising columns of this newspaper perform a worth while service which saves us many dollars a year.  
It is a good habit to form, the habit of consulting the advertisements every time we make a purchase, though we have already decided just what we want and where we are going to buy it. It gives us the most prices being in the world; the feeling of being adequately prepared.

When we go into a store, prepared beforehand with knowledge of what is offered and at what price, we go as an expert buyer, filled with self-confidence. It is a pleasant feeling to have, the feeling of adequacy. Most of the unhappiness in the world can be traced to a lack of this feeling. This advertising shows another of its manifold tools—shows how on an old-timer making all our business relationships more secure and pleasant.

STAGE SCREEN RADIO

By VIRGINIA VALE  
Released by Western Newspaper Union.

THE nation's largest radio stock company is behind the weekly production of the WPB's new program, "Three Thirds of a Nation," heard Wednesday evenings on the Blue network. Produced in cooperation with the Hollywood Victory committee, clearing house for war-time appearances of the Associated Actors and Artists of America, the program has at its disposal the resident membership of all Southern California. Castings weekly draw from a reservoir of more than 10,000 screen, stage and radio actors, all volunteers.

The Tone family, Franchot and Jan, will soon be working at the same studio. Franchot has signed a term agreement with Paramount; it calls for four pictures during the next two years. Jean Wallace Tone, a "Louisiana Purchase" beauty, is already there.

Ann Harding is returning to the screen in Metro's "Order of Violets," a mystery drama soon to go into

ANN HARDING

production. Edward Arnold has the principal male role. Donna Reed, one of Metro's abundant crop of starlets, is also in the cast.

You may not recognize Chester Conklin at once in "I Married a Witch"; playing a bartender at a country club who's in much of the opening action, he appears without that famous walrus mustache.

An evening gown that Fricelina Lane wears in "Silver Queen" is going to be melted down and given to the Ambulance corps when she's through with it. It's a 17-pound silver dress, and will eventually become wiring and dental plates for soldiers.

The diamonds that Marlene Dietrich wore in "The Lady Is Willing" are facing the camera again, this time in "Ellery Queen Across the Atlantic." The picture teams Margaret Lindsay and William Gargan. The story requires a collection of jewels, that are stolen, so James Hogan, the director, got busy and rented them. Miss Dietrich got a break—she just borrowed the gems.

Those children's giggles you will hear in Walt Disney's "Bambi" are the sounds of youngsters, filled up with ice cream, enjoying some old Mickey Mouse shorts. Disney wanted spontaneous laughter, and that's how he got it.

In all the movie studios Adolphe Menjou is known as the script girl's pet. He keeps track for himself of all the tricky little details which the girls have to watch. For example, in RKO's "Syncope" Menjou and George Bancroft do a lot of smoking, which means that lengths of cigars and ash must be matched in scenes which may be filmed weeks apart. Menjou carries a pocket ruler, measures cigar and ash at the beginning of each scene, and calls his results to the script girl.

Claudette Colbert has signed a three-year contract calling for one picture a year with RKO. Her first assignment will be the leading role in the screen version of Pearl Buck's "China Sky"—she'll play an American doctor.

Stepping into the title role of the "Bulldog Drummond" series, beck on the air after an absence of several months, Santos Ortega follows in illustrious footsteps. George Courtois, the last incumbent, is on tour with that very successful play, "Watch on the Rhine." E. E. Mathews was the first actor to assume the role, and John Barrymore, Ronald Colman and John Howard did it on the screen.

ODDS AND ENDS—Robert Preston learned to be a proficient machine gunner while on location with "The Island." Victor McLaglen of RKO's "Powder Town" has invented a 40 foot tank and mounted it on the war department; he's a veteran of the Bar and the last World war. A new adventure strip about a war correspondent will be based on the real life adventures of William L. Shirer during his days as a Berlin radio operator. Joan Edwards of "You Hit Partner" has won the pool three weeks running in guessing the ten hit numbers. Other stars may go in for unusual pets, but Mary Martin keeps good laying hens.

## PREPAREDNESS

### by the AMERICAN RED CROSS

MATERIAL assistance to service men's dependents by the 2,700 chapters of the American Red Cross has increased more than six-fold in the past few months, officials announced today.

Families or dependents of men in the armed forces are urged to keep in close touch with their Red Cross chapters so that existing problems may be handled promptly and others arising from war conditions may be prevented.

When war was declared wholesale cancellation of applications for discharges from the army on the grounds of dependency upset families' plans for the immediate future. Likewise, the transfer of troops from one station to another, and orders for departure from the country, left many unsettled problems. These sudden shifts created an unprecedented increase of work for the chapters.

However, with its resources generously contributed by the American people, the Red Cross is enabled to relieve immediate hardships of the service men's families and to help them plan adjustments to wartime conditions.

Officials stress the fact that this service to dependents is a legal and moral obligation of the Red Cross derived from its congressional charter.

Young wives and children left stranded far from home; parents who are hard-pushed to make ends meet; younger brothers and sisters in need of food or clothing—these are just a few of the thousands of situations which are being taken care of by local Red Cross home service workers.

If a service man is reported killed, wounded or missing the Red Cross will obtain information through its communication facilities. The men of the armed forces are likewise served by the thousand or more field workers on duty at all major military and naval stations at home and abroad.

### Devil's Metal

No modern war can be waged without nickel. Because of its toughness, people centuries ago declared that it was inhabited by the devil, and called it "Kupfer-nickel" (copper-nickel), the word being derived from Nikolaus, German for "Old Nick."

Nickel was known about 5,000 years ago to the Chinese and Assyrians, but the first man to isolate it was a Swede named Cronstadt, in 1751. Up to 1883, however, not more than 1,000 tons a year were used, but in that year vast deposits were discovered in Canada, which geologists said contained 200 million tons.

By-products of nickel are often as valuable as the parent metal and include gold, silver, and platinum, and modern methods of refining platinum from nickel have ended Russia's monopoly of this metal.

BANDS of ric rac on a slim waisted, full skirted apron inspires the sewing urge in you, doesn't it? Every woman who likes to "make her own" will en-

## NEW IDEAS

### for Home-makers

By RUTH WYETH SPEARS

A STOOL often looks better in front of a desk or telephone stand than a chair with a high back. A substantial wooden box may make the foundation, and if well padded and smartly covered will be as attractive as anything that you could buy.

Before shopping for materials check over things on hand. Moss, horse hair and even feathers from discarded upholstered pieces may be sewn in a cheese cloth bag and washed before using again. Worn draperies and bedspreads usually have unfaded good pieces in them

that may be used for covering a small piece like this.

NOTE: Have you sent for a copy of the new BOOK 8, in the series of homemaking booklets which Mrs. Spears has prepared for our readers? It contains 31 of these ideas for homemakers with all directions. To get a copy of BOOK 8, send your order to:

## Household Hints

Luggage, brief cases, men's belts, books, leather chairs, card cases, purses and handbags should be treated with vaseline occasionally to prolong their life.

Unused soap should be made into soap jelly and used for washing stockings, gloves, lingerie and curtains.

To provide the most adequate serving of omelet allow three eggs for every two servings.

To tighten springs in curtain rollers, hold roller firmly, put end of spring between tines of fork and turn until spring is tight.

If your fountain pen is found to be dry, and there is no ink available, draw up a dozen drops of water into the barrel and shake well. It will tide you over.

A delicious dessert is a serving of baked apples which have been baked in pineapple juice. Peel and core the apples and bake until they are soft and juicy.

Table salt added to blue water distributes the color more evenly and prevents streaked or patchy-looking clothes.

### Facts About Flies

One pair of flies can multiply to 235,923,200,000,000 flies in 10 weeks, if all their offspring live, according to Alan Devoe in Reader's Digest. In writing about "Our Enemy the Fly," Devoe says that a fly egg hatches in 24 hours, the larva becomes an adult fly in less than 10 days. Thereafter at 10-day intervals, for 8 to 10 weeks, the female fly lays 100 eggs. The total for nine generations of a single pair thus amounts to trillions of offspring.

"We must fight continuously against adult flies that get into our houses, wielding old-fashioned swatter, spraying, using fly-paper," says Devoe.

### Handle of Sin

Sin has many tools, but a lie is the handle that fits them all.—Holmes.

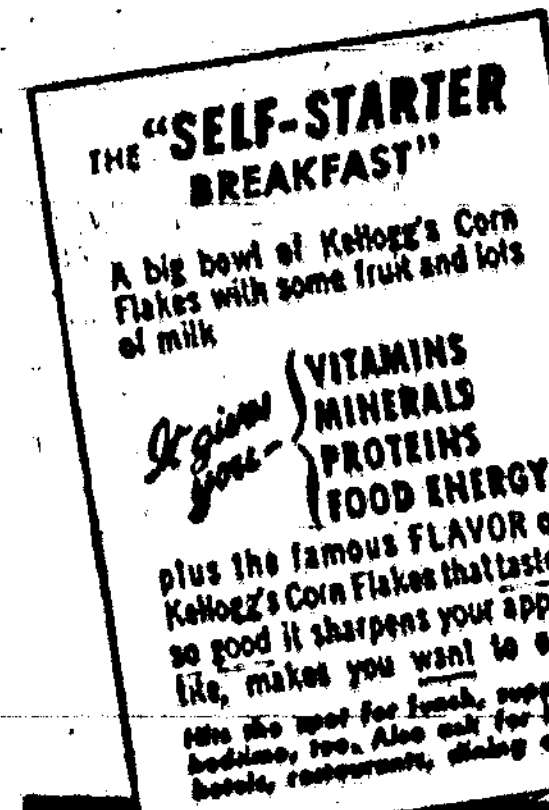

### Earned Fortune

That which we acquire with most difficulty we retain the longest; as those who have earned a fortune are commonly more careful of it than those by whom it may have been inherited.—Colton.

### HE'S A "SELF-STARTER"

PAN AMERICAN'S JOE WULLER is chief of the "Beaching Crew" for the big, ocean-flying South American Clippers. He says: "You've got to keep your eyes open on a big job like this. The breakfast that helps keep me in there pitching is a big bowl of Kellogg's Corn Flakes with fruit and plenty of milk. It's a great favorite here at the employees' cafeteria, too."

## Casualty—1,000 miles from the enemy

ALMOST as fatal as a bullet or a shell is the breakdown in the spirit of a sailor or a soldier.

Our men have the finest spirit in the world. But it must be maintained in the American way.

They must not be made to feel that they are mere automatons, fighting machines, as the armed forces of the dictators have been made to feel.

Life in our navy and army is hard. Discipline is tough. It must be. But there also must be moments when the sailor or soldier is treated as Mr. Somebody-or-other.

That's where the USO comes in. For the USO is the banding together of six great agencies to serve one great purpose—to see that our boys in the camps

and naval stations have a place to go, to turn to, a "home away from home."

The duties of the USO have more than doubled during the year. Its field of operations has enlarged to include almost the entire face of the globe.

To carry on its all-important work, it needs funds. It needs your contribution. No matter how small you make that contribution, it needs it. Now.

You are beset by requests for help on all sides. By all means, try to meet those requests. But among them, don't neglect the USO.

Send your contribution to your local USO committee, or to USO, National Headquarters, Empire State Building, New York.

Is everybody happy?

In Hitler slipping with the German people? asks the Roswell Record. That is the report that comes from Germany. The German people, slowly, have learned that Hitler's pronouncements or coming events have not been truthful forecasts. His failure to force peace in 1940, 1941 and now apparently in 1942 have brought home to the German people that he is not infallible, but that he has been merely guessing as to the future.

The story that Hitler is not getting the truth about the feeling of the Germans, that his underlings have concealed from him that he is no longer looked upon as the invincible one, if true, points to a closer end of the war than most of us have looked for.

Be It Hereby Resolved, by the Lincoln County Board of Commissioners, that all persons proposing to sell or dispense alcoholic liquors outside of the corporate districts in the County of Lincoln and who have qualified under the provisions of the Liquor Control Act, Chapter 236, New Mexico Session Laws of 1939, and amendments under Chapter 80, Laws of 1941, and who have as a condition precedent hereto secured proper License from the Bureau of Revenue, Division of Liquor Control of the State of New Mexico, may apply to this Body of County Commissioners at the office of the County Clerk in Carrizozo, N. M., for a license to sell or dispense alcoholic liquors in the following designations: Dispenser's License for the sale of all alcoholic liquors, Retailer's License for the sale of all alcoholic liquors in package form, and Club License for the sale of all alcoholic liquors. It is Further Resolved, that the said Board of County Commissioners hereby designates and prescribed license fees to be paid to the County of Lincoln as follows:

Dispenser's License	\$250 00
Retailer's License	200 00
Club License	250 00

Be It Further Resolved, that the license tax period shall begin July first of each year and end June thirtieth of the following year and that the full amount of said yearly license tax fee is due and payable on the date of issuance of the license for the license year.

Be It Further Resolved, that any violation of the terms of this resolution shall be sufficient for the suspension or revocation of said license by this Body Dated at Carrizozo, N. M., on June 1, 1942.
