He was born February, 14, 1921 at Garretts Bluff, Texas. He came to New Mex. in 1909 and was married to Miss Earlena Berry March 29, 1941. They have made their home in our community. He leaves a wife and a 10 months old son Earnest Wayne and mother Mrs. C. F. Freeman and Mr. Freeman. He was a highly respected young man and the his many friends were shocked to hear of his death as he was ill only a short while.

Funeral services were held Thursday 3:00 p. m. at the Baptist Church Rev. James in charge.

Mrs. Woodrow Adams went to Douglas, Ariz., where she will join her husband who is a student fireman for the S. P.

Mrs. Elmer Baker, who was quite ill at the Hospital is up and around again.

Mrs. Maggie Chavez has received word from her son, Saturnino, that he has received his wings at Las Vegas, Nevada and is soon to leave that place for parts unknown.

Mrs. T. C. Key and daughter Mrs. Jack Young of Capitan visited at the home of County Treasurer and Mrs. Ernest Key today.

This man is not dead. He is just sleeping. And sleeping a little more soundly, perhaps, because there are still many Americans who are not putting at least 10% of their pay into War Bonds on a regular Payroll Savings Plan. How about you joining a lot of other fellows in giving the little paperhanger a rude awakening? How about you signing up with a Payroll Savings Plan *today*... to the tune of not 6%, or 7% or 8%, but 10%, and more if you can? LET'S TOP THAT 10% BY NEW YEAR'S!

### WHAT YOU SHOULD DO:

- If you are...
- 1. Already investing 10% of your pay in
- 2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
- 3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman, or plant manager—and see if it can be installed right away. The local bank will be glad to help.
- 4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank, or wherever Bonds are sold. They will be glad to help you start a Plan of your own.

## Dempsey Faces A New Deal Spanking

Our new Governor-elect will soon be called on the carpet by the New Deal contingent at Washington for his adverse opinions from what his party has been favoring, concerning gas rationing, sugar and other things which, the administration has put into practice. In his attitude, we can plainly see the fine Italian hand of James E. Farley, who is a close friend of Mr. Dempsey. It is a well-known fact that Mr. Farley has been an opponent of a great many measures of the New Deal and that breach was what caused the apple cart to be upset in the recent election in New York.

In a recent interview at Phoenix, Arizona, he made this remark to the reporters, quote: "It is time to ration stupidity, not gasoline." Following that statement, he told of New Mexico having a surplus of oil production which eliminates the necessity of conserving gasoline. He sees the gas rationing as a direct bar, against the migration of people from the war-exposed areas of the Pacific coast to the inland protection of states, among which is New Mexico.

He chided those in high places of the administration for selfishness in issuing preferences in gas rationing and said; "If there is to be any parade of sacrifice, then those on the payrolls ought to lead, not to have box seats."

Our new Governor, more perhaps than many more we could mention has had a front seat to the inner-workings of things at Washington, hence his ability to speak plainly and we give him credit for having the guts to speak out at this particular time, when it is so badly needed. We did not support Mr. Dempsey in the last election; far from it—but his stand on things of the nature mentioned above, meets with our approval. We are of the opinion that Mr. Dempsey noticed the decreased majority the Democrats had in the election, the footprints of a trend against the New Deal policies, regardless of past political followings.

Mrs. Gauling entertained the Intermediate B. T. U. at her home in Coyote, with a banquet. She was assisted by Miss Barbara Smith and Mrs. Johnnie Walker.

Mrs. Elmer Baker, who was quite ill at the Hospital is up and around again.

Mrs. Woodrow Adams went to Douglas, Ariz., where she will join her husband who is a student fireman for the S. P.

Mrs. Maggie Chavez has received word from her son, Saturnino, that he has received his wings at Las Vegas, Nevada and is soon to leave that place for parts unknown.

Stockman H. O. Smith of the Capitan country was in town Saturday.

Mrs. Margaret English and son Frank Charles of Tucuman, spent Thanksgiving Day here with relatives and friends.

## HEADACHE FOR THE MERCHANT

Price-fixing may sound simple to the man in the street. But it is a monumental headache to thousands of retail merchants.

Never before have the people and the Industries of America faced the necessity of donning a regulatory straightjacket such as is embodied in the deluge of pamphlets now reaching storekeepers from Maine to California. Everything from gum to tractors is being "fixed" or "frozen." The price of each item on a retailer's shelves must be carefully set according to formula.

The policies and methods used in enforcing these new laws will make or break the entire price fixing effort. Long before the establishment of the price laws, retail merchants bent every effort toward holding down inflationary rises in the cost of living. They did an effective job for which they received praise from high government officials.

And now these same merchants, many hundreds of thousands of them, are striving valiantly to comply with the complicated edicts issued from Washington. A great many of them have unknowingly become lawbreakers because they have found it impossible to quickly understand the technical rules. Their cases deserve far different consideration than those of the very few who maliciously seek to evade the law. In this instance the old saying that ignorance is no excuse should not be applied. Ignorance, if you wish to call it that, is a very definite excuse.

And if the administering officials are wise they will not begin our new authoritarian era by fixing or throwing any erring storekeeper in jail until they have determined his intent. After all, our main job is to win the war, not persecute good American citizens.—Industrial News Review.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

THE MISSION OF THE CHURCH

LESSON TEXT—Matthew 18:15-17; Acts 1:8; 2:42; 6:1-4; 11:27-30; 13:1-3; I John 1:3. GOLDEN TEXT—As my Father hath sent me, even so send I you.—John 20:21.

The church is the greatest institution in all the world, with the most widespread membership and influence. That is true from a purely secular or worldly standpoint. Then when we realize that here is more than a human organization, for it is in fact a divine organism; that it is the means through which God is now manifesting His power toward men, we see the supreme importance of understanding the church and our relationship to it.

This week we stress the mission of the church. We note seven things.

I. Holiness of Life (Matt. 18:15-17).

In a time when general standards of decency and honesty are low, and no one wants to be his brother's keeper, the church needs to be reminded that part of its mission is to maintain holiness in life and the relationship of one to another.

Notice that man's attitude toward his fellowman is first a matter for personal attention, then it becomes of real interest to the church, and if no response is found there, the offending individual is excluded and put in the hands of God. Be sure to observe that all this is done to "gain" or win him back, not for revenge or in bitterness.

II. Witness in Divine Power (Acts 1:8).

The witness bears testimony to that which he has experienced, and in the case of Christian experience he is assured of divine power in carrying out his sacred task.

The world would have laughed (and possibly did) at the idea of a small group of humble believers making the gospel effective simply by telling others about the Saviour—but it worked, because God's power was in it.

III. Unity in Faith and Practice (Acts 2:42).

The early church had not yet been split up by the philosophies of men and the vagaries of doctrine, which have since divided God's people. It was His purpose that His people should be one in Him, something we should recall before we divide them just to promote some theory of interpretation.

Unity is not only a matter of belief, it must reach into the practice of daily life. They were steadfast not only in doctrine, but in communion and prayer. A bit more unity there might bring us closer together in belief.

IV. Service, Spiritual and Social (Acts 6:1-4).

The church rightly put the emphasis on the spiritual. The leaders who had gifts for ministry of the Word did not permit themselves to be diverted into social service. Too many in the church have failed at that point. Even the good may be the mortal enemy of the best.

At the same time the early church did not neglect social needs. Men were appointed to care for them. In all too many instances the modern church has failed to minister to the social needs even of its own people and has weakly (and one fears gladly) turned them over to social agencies. What a pity!

V. Love—In Deed as Well as in Word (Acts 11:27-30).

Talking about the need of others, wishing them God's blessing, saying a desultory prayer asking God to bless and help them, is not sufficient, in fact it is not Christian at all (see James 2:14-17).

Love acts. It gives. It serves. It proves faith by works. It translates the gospel into a language an unbelieving world can understand.

VI. Obedience to the Holy Spirit (Acts 13:1-3).

God has certain plans for the work of the church in the world, and be sure that they are no small or indifferent plans. His mighty agent in bringing His will to pass in the world is the third person of the Trinity, the Holy Spirit. If the church will respond to His guidance and be subject to His control, the work of God may go on unhindered. But just there, Christian friends, the church has most ingloriously failed.

The early church was directed of the Holy Spirit to set apart Paul and Barnabas for the work of missionaries and evangelists. Knowing as we do the marvelous results of their ministry, we shudder at the thought of what might have happened if the church had disobeyed the Holy Spirit that day!

VII. Fellowship (I John 1:3).

Here is the great secret of spiritual life and growth—Christian fellowship. And notice with care the place for it is in the church. If we do not come to the church we deprive ourselves and others of the opportunity for fellowship. The matter of church attendance (and twice on Sunday is not too much) needs to be put on our consciences lest we by our absence bear an anti-church testimony before our neighbors. But even more important is our own need of fellowship with God's people.

PREPAREDNESS AMERICAN RED CROSS

THE making of large numbers of surgical dressings for the armed forces in wartime is one of the principal duties of the American Red Cross.

Immediately after the outbreak of the world war in Europe in September, 1939, more than 500 Red Cross chapters throughout the nation began making large quantities of surgical dressings for our army and navy. In addition, a large number of dressings were made to be used by Red Cross relief organizations caring for the suffering civilian population in the war-torn countries of Europe.

As the war progressed and spread to more and more nations of the world, this program of surgical dressings was gradually enlarged and extended to Red Cross chapters in practically every county in the United States. Today more than 3,000 Red Cross chapters are busily engaged in making surgical dressings for our army and navy according to standard specifications and methods furnished by them.

More than two million women throughout the nation are now making surgical dressings for our armed forces under this program. By the end of October, 1942, they had made more than a hundred million dressings of all kinds and were embarking on a very large program for the coming year. The making of surgical dressings is a very important work in which nearly every woman can participate, no matter where she is located or how little time she can spare. Many thousands of volunteers are needed for this work and every one of the 3,350 Red Cross chapters participating in this program in nearly every county in the United States needs help.

Adding to His Greatness Every great scientist has a right to be conceited, but he never is. The difference between perseverance and obstinacy is one is a strong will and the other a strong won't. "ACCIDENTS HELP THE AXIS" Use WEED CHAINS

Usually winter doubles driving accidents. But this is no ordinary winter—it is a war winter when Americans must conserve every car and truck and tire until after victory is won. So there is a new appreciation of Weed Tire Chains which prevent skid accidents and help get through snow without delays. Examine your Weeds—if there are broken links have them replaced. Take chains off when no longer needed, and clean them after using; it pays. If your used chains are worn out get new Weed American Bar-Reinforced—for double mileage. Household Hints

In buying iodine for the medicine closet never buy any solution stronger than 2 per cent. A 2 per cent solution is specified by the Red Cross First Aid Manuals as strong enough for those other than doctors to use. Why will not form if milk is warmed before adding eggs to it when making custards. Geraniums should be kept in a very sunny window if you wish them to live through the winter. Artificial fruit may be cleaned easily if dipped in and out of white soapsuds several times, then rinse in clear water to which a few drops of ammonia have been added. To broil steak, grease the rack of the broiler. Place the meat on rack close to the heat. Sear it quickly on one side, season with salt and pepper, turn and sear on other side. Lower the rack or the heat to allow steak to finish cooking. Season and add a piece of butter before serving. Rare steak is juicy and flavorful and is often preferred to well-done steak. Do not pierce center of steak when turning.

Margaret

Margaret turned on the humming vacuum cleaner, and straightened the slipcovers of the armchair and the daybed that she had pushed up to go over the rug. Then she stood quite still in the doorway and looked at the small bedroom with its southern exposure. It was as neat and impersonal as a pin. It might never have been lived in. The door stood open on the clean, bare closet. There was not a pennant, not a team picture, not even so much as an old Arithmetic book left to show whose room it had once been.

Margaret stared at the walls, the furniture, and deeply, slowly, she realized that no matter what lodgers with their own trinkets and picture-frames might occupy it, she would see it the old way. It was the old way that she saw it now. A pair of hard-worn gray pants lay on the floor where they had been dropped. Three baseball bats were stacked with a fishing rod in the corner. A battered red cap with a letter on it lay on the bed. And through the bed, as though it were transparent, Margaret saw another bed, smaller, and with high slatted sides.

She put the vacuum cleaner away and went down to her desk in the sitting-room. She took the fifteen dollars rent that the new lodger had paid that morning in advance for the room, and added to it, from her purse, three dollars and seventy-five cents more. Then she drew out a sheet of paper and began to write on it, slowly, gravely.

"To buy a bond to help train a young man to replace Don, Jr., killed on June 6th in the Battle of Midway."

**What You Buy With WAR BONDS**

The "Stovepipe," as the 60-millimeter trench mortar is commonly known, is used by our infantry for close-in fighting. It fires a 2.4-pound shell at the rate of about 35 a minute.

The mortar fires its projectile in a U-shaped arc and for this reason may be successfully camouflaged behind an obstruction. It costs about \$500. You and your neighbors, joining together, can buy many of these effective weapons for use of our Army. Investing at least ten percent of your income in War Bonds every payday will do the job. **FOR VICTORY**

**When Gasoline Rationing Comes—**

When gasoline rationing comes, you will probably have to stop driving long distances, and you may be planning to travel by train instead.

Ordinarily, of course, any railroad would be delighted at the prospect of a lot of new customers, but these are not ordinary times, and we are frankly worried about what the consequences of gasoline rationing may be.

We are carrying hundreds of thousands of troops, and there has already been a big increase in civilian travel because of the war.

So far we think we have done a pretty good job. But there is a limit to our present capacity, and we cannot buy new passenger cars because of the shortage of critical materials.

**SO WE SUGGEST:**

1. Please do not travel unless you feel you have good, sound reasons for doing so.
2. Travel during the middle of the week instead of on week-ends.
3. Please buy your rail and Pullman tickets well in advance of the day you leave.
4. If plans change, please cancel your Pullman space promptly so somebody else can use it.
5. Use Pullman space to its maximum capacity. If you reserve a bedroom, compartment or drawing room, share it with friends or business acquaintances (and share the expense).
6. Buy round trip tickets. Make your return reservations at the same time.
7. Travel light, and take into the train with you only the luggage you actually need on the train. Check the rest.

If we all cooperate, it will help to avoid any necessity of rationing train travel, too.

**S.P.**

The War Bonds you buy now will help pay for a new home after the war.

Government is asking the American Farmers to dedicate the remaining weeks of 1942 to an intensified scrap hunt. Steel Mills need more scrap and the farms are one of the best sources of this hot metal. We need your further help in this farm drive and in aiding our salvage committee to continue this effort throughout the next few weeks. All salvage committees are being instructed to continue to make available to the farmer all the transportation facilities and manpower and to cooperate in every possible way. The nation is looking to the American Farmer and I am sure with your help she and some through.
