CARRIZOZO, LINCOLN COUNTY, NEW MEXICO, FRIDAY, MARCH 8, 1944

PRICE \$2.00 THE YEAR

PERSONALS

Mrs. Callie Franks of Corona attended the teacher's meeting Saturday.

Mrs. Price of White Oaks is in the Turner hospital ill with pneumonia.

Mayor M. U. Finley and Ed Kelley made a business trip to Picacho Monday.

Mr. and Mrs. Henry Dale and children of Ancho were here on business Saturday.

Mrs. T. C. Key of Capitan visited at the home of Mr. and Mrs. Ernest Key Saturday.

Mrs. Marie Pacheco, teacher at San Patricio, attended the teacher's meeting Saturday.

Mr. and Mrs. C. F. Burton of the Burton ranch near Nogal were shoppers in town Saturday.

Jimmie Briater is on his way to the Hawaiian Islands, we understand; he has enlisted in the Navy.

Mr. and Mrs. Pat Trudeau and baby son Richard Patrick of Oscura were shoppers in town Saturday.

Mr. and Mrs. Jess Kennedy of the Kennedy ranch in the Jicarilla mountains were here on business Friday.

George Hobbs of Ancho, a SP Pumper at Luna, was a visitor here Monday and made this office a pleasant call.

Miss Elsie Kimbrell of Picacho attended the teacher's meeting held here Saturday. Miss Elsie is a teacher at that place.

Mrs. J. C. Mosteller of Lon attended the teacher's meeting held here Saturday. Mrs. Mosteller is a teacher in Lon.

Mr. and Mrs. C. P. Battersby of White Oaks were visitors in town Wednesday. Mr. Battersby making this office a friendly call while in town.

Fireman Ira Greer was here Tuesday after making his usual run between that place and here. The Greers have two sons in the service, Fred and Jack.

Mr. and Mrs. John Lewis came in Monday from Arizona and will visit for a short time with John's mother, Mrs. Lulu Lewis, brothers Rex, Brooks and families.

Mmes Wilson and Nickels, teachers at Jicarilla and Ancho, attended the teacher's meeting Saturday. Mrs. Wilson has two sons in the service, Walton and John.

Mrs. E. L. Fesperman left last Saturday for her home in Birmingham, Ala., after a visit with Mr. and Mrs. Harry Miller being the daughter of Mrs. Fesperman.

Mr. and Mrs. A. W. Drake of the Drake ranch near Ancho were shoppers in town Wednesday. The Drakes have a son Lt. Joe Drake, pilot in the Air Corps, in the service.

Engineer George Strauss of Tucumanji was here after making his usual run between that place and Carrizozo. His son, Captain George Strauss, Jr., in the Air Corps is a war hero.

Promoted

Fort Mason, Calif., Feb. 28.—Announcement has just been made at Fort Mason, Headquarters of the San Francisco Port of Embarkation, of the promotion from Private to Private First Class of Roy Walton Harman, former U. S. Postal employee from Carrizozo, N. M., who entered military service last August and is at present serving in the Army Postal Service. Pfc Harman is the husband of Mrs. Carolyn R. Harman, and son of Leslie Walton Harman, both of whom live in Carrizozo.

George Boicourt, chef at the Bureau of Mines in Gallinas, visited here Wednesday.

Mrs. Bell of the Silver Moon Cafe has returned from California, where she visited her son.

Mrs. Raymond Davis and cute small daughter Sandra of the Davis ranch near Capitan were shoppers in town Tuesday.

Mr. and Mrs. Joe Wigley, Mmes. P. E. Christensen and Spiver were here on business Wednesday from Capitan.

Meyer Barnett, a guard at the Fort Stanton Nazi camp, visited his family here Wednesday. The Barnetts have a son Ben in the Navy.

Mrs. Ethel Willson of Ruidoso visited local friends Wednesday; Mrs. Willson has a daughter, two sons and a son-in-law in the service.

Sgt. Walton Willson, one of the sons of Mr. and Mrs. Barney Willson of Ancho, has been transferred from Camp Carson to Camp Hale, Colo.

Mrs. Stella Willingham is here this week from Texas, visiting Mr. and Mrs. Marvin Roberts and baby daughter; Mrs. Roberts is Mrs. Willingham's daughter.

Mr. Alfred S. Chavez, County Welfare Director, was in Portales last week attending a conference of Southeastern New Mexico district welfare workers at the Eastern New Mexico College.

Mr. and Mrs. E. M. Harville of Borger, Texas, were friendly callers at this office the latter part of last week. They were at one time residents of this county and were here for the purpose of leasing some good grass land in old Lincoln County. See the ad in this issue.

Born—At the Turner hospital to Mr. and Mrs. Cap Straley Wednesday, Feb. 22, a boy. The new Marine has been named Charles Spurgeon Straley. Mother and son are doing nicely. Cap Straley, as we stated last week, is in the Marines. — Congratulations.

Miss Adela M. Meza, formerly of the Lincoln County Extension office, is now stenographer in the Welfare Department office. She fills the position left vacant by Miss Betty R. Shafer, who resigned to accept employment as road-master's clerk at the local S P office.

Wanted to Lease

Four or Five Sections of grass land anywhere in Lincoln County—write to E. M. Harville, Borger, Tex 4t m3 24

Claunch-Pinto Soil Conservation

Mr. J. W. Garrison, Chairman of the Claunch-Pinto Soil Conservation District Board of Supervisors, reports that 21 cooperative agreements were written and signed in the district in 1943. This makes a total of 49 cooperative agreements signed in two years the district has been in operation. Mr. Garrison says that each agreement is a workable plan to help increase food production and protect our soil from wind and water erosion. One conservation practice in Estancia Valley which is recommended by the board of Supervisors increased the yield of beans on one farmer's place 99 lbs to the acre. The results of terracing have even shown greater results. Contour farming and terracing not only help to hold moisture but they help hold valuable plant food which dissolves in run-off water as it leaves the field.

Mr. Garrison says that the district seeded 507 acres of old fields to permanent grass last year. The work was a special grass drill. Most of the grass planted was created wheat. Because of dry weather last summer and fall most of the grass seeded did not come up. With plenty of moisture this winter the grass should come up this spring.

The district also developed 26 stock watering tanks and constructed 34,257 feet of diversion ditches.

Mr. Garrison says that conservation work has been planned on farms and ranches the coming year and remaining years. Some of the work planned for next year consists of; seeding to permanent grass 500 acres; the development of 12 water wells and 15 stock tanks; terracing 980 acres; the construction of 2400 feet of diversion ditches and the treatment of 325 gullies.

Farmers and Ranchers in the District who plan to have conservation work done or who need help in doing conservation work are requested to see one of their Supervisors and make application. Application can also be made at the work unit office in Mountainair.

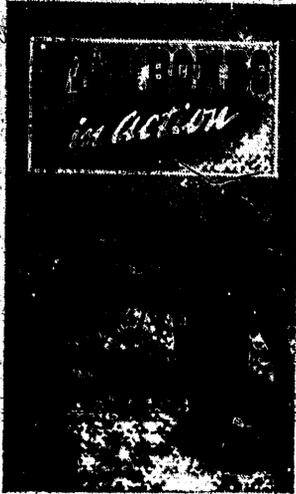

This piece of equipment will be in use in the District for several months and then transferred to cooperators of the Edgewood Soil Conservation District. From the Edgewood Soil Conservation District it is later to be made available to cooperators in the East Torrance Soil Conservation District.

Farmers and ranchers in the District interested in having a well drilled through their local Soil Conservation District Program should contact their local Supervisors and make application.

The rig will be routed in accordance with a plan prepared by the Supervisors of the several districts in the Work Group. The cost of the drilling of wells will be borne by the individual cooperator.

A Soil Conservation Service Geologist will be made available to them. Through the use of this type of service it is felt that some of the hazards of drilling dry holes can be eliminated, by having this type of technical assistance made available in advance of the actual drilling operations.

Bowen Zumwalt of Nogal was a business visitor here Monday.

Money spent for War Bonds goes to the front. Sometimes it provides spectacular equipment like planes, oft times it buys a runty donkey like this American soldier is taking ashore in Italy. The quicker your dollars go into action, the sooner it will be over. Buy More War Bonds. U. S. Treasury Department

Orchard Project Progresses

The home orchard and vineyard project, which is being sponsored as one of the 4-H projects in the northern part of the county, is making excellent progress. 4-H club members and adults who have become interested have ordered approximately \$500 worth of fruit trees and grape vines.

Although most of the orchards are small, it means that in a few years a number of homes will be provided with sufficient fruit for their family needs.

—Carl Radcliff, County Agent

Crenshaw-Mills

On Sunday, Feb. 27, Miss Opal Crenshaw of Carrizozo, N. M., and Weston A. Mills, who had just received his commission as an Ensign in the Navy, were united in marriage at St. Johns Cathedral in Albuquerque. The happy couple left Tuesday for Candagis, New York to visit Mr. Mills' parents before his departure for unknown ports. More particulars next week.

Attention Masons

There will be a communication of Carrizozo Lodge No 41 Wednesday night, March eighth at Masonic Temple, at which, the degree of Entered Apprentice will be conferred. All Masons are invited.

Bert Pfingsten, W. M. R. E. Lemon, Secretary.

Mr. and Mrs. George Goodson arrived home late Wednesday afternoon from Oklahoma City, Okla., where they have been at the bedside of Mrs. Goodson's mother, Mrs. Belle Collins, who passed away February 24.

Well Rig Available

Andy Gordon of the Soil Conservation Service states that a well rig has been made available to the Claunch-Pinto Soil Conservation District cooperators.

C. C. Chase of Ruidoso was a Carrizozo visitor Wednesday.

Stockman Harry Straley of Ancho was here on business Saturday.

Sparks-Thornton Vows

Said Before Rev. Hamblin (Bismark, N. D. Tribune)

In the manse of the First Presbyterian church Thursday morning, Miss Betty Jane Sparks, of Braddock, became the bride of Sgt James E. Thornton, army air forces, son of Mr. and Mrs. J. E. Thornton of Carrizozo, N. M. Rev. Chester W. Hamblin heard the exchange of vows at 10 o'clock. Nuptial music was Liszt's "Liebestraum" and "Song Without Words" by Mendelssohn.

For her maid of honor the bride chose Miss Doris Michell; Sgt. Tom Carahan was best man. Miss Vivian Borgen of Jamestown was an out-of-town guest.

The bride, who was given in marriage by her father, wore a suit of teal blue, complimented by brown accessories and a corsage of white roses. Miss Michell was dressed in a coral frock with black accessories and a corsage of tallisman roses. The bride's mother, who wore navy blue, had black accessories and a corsage of red roses.

Following the ceremony the bride's parents gave a wedding breakfast for 10 guests in the Sweet Shop Rendezvous. After a wedding trip to Winnipeg the couple will be in Jamestown where the bridegroom is stationed.

The new Mrs. Thornton is a 1941 graduate of Bismarck high school and has completed part of her junior year at Jamestown college, where Sgt. Thornton has been stationed for the last 10 months with the college training detachment. Before going into service he attended Texas Tech. Mrs. Thornton is a sister of Lt. Robert Sparks of Ogden, Utah, formerly of Bismarck; and of Lloyd Sparks, a student at Bismarck high school.

Old Friends Meet

Mr. and Mrs. Gaylord Cravy of Belen were here for the major portion of last week, principally for the purpose of seeing Miss Mary Lewis, who was here from the Robert B. Green Hospital at San Antonio, Texas, visiting the home folks. Mrs. Cravy, who was the former Miss Haldane Stover, has been a chum of Mary's for many years and their meeting gave both of the old friends much enjoyment. Mr. Cravy is a fireman on the Santa Fe railroad out of Belen and a pleasant gentleman to meet.

Want to learn a skill?

WOULD YOU like to be a radio operator, a skilled stenographer, an airplane mechanic, an expert driver?

In the Women's Army Corps you have a chance to get valuable Army training—training that may pave the way to bigger pay, better jobs after the war.

TODAY find out about all the WAC offers you—the interesting jobs, the chance to meet new people and see new places, and to help your country.

APPLY at any U. S. Army Recruiting Station. Or write: The Adjutant General, 4415 Munitions Bldg., Washington 25, D. C.

(Women in essential war industry must have release from their employer or the U. S. Employment Service.)

Annual Easter Seals

Opens April Two

Executive Office Santa Fe, New Mexico: Whereas, the New Mexico Society for Crippled Children annually provides aid for crippled children in New Mexico; such aid including many items not provided by any Federal or State agency such as transportation, clinics, special braces and appliances, educational assistance for those who cannot attend school, and hospital equipment, and

Whereas, funds for carrying on this humanitarian work are largely derived from the annual sale of Easter Seals, sponsored by the National Society for Crippled Children, which opens on April 2, 1944;

Now, therefore, I, John J. Dempsey, Governor of the State of New Mexico, hereby proclaim the period from April 2 to 9, 1944 as Easter Seals Week. Done at the Executive Office this 14th day of February, 1944. Witness my hand and the great seal of the State of New Mexico.

John J. Dempsey, Governor.

J. V. Simmons, formerly of this place, but who has been with the Borax people in the Death Valley for the past year, has returned, but not to stay, as he is going to Arkansas to settle a short distance from Gravette, Arkansas, where our old friend O. B. Shook is located. Mr. Simmons said that the Death Valley was too lonesome for him. He was 33 miles from the nearest village. There were no means of communication was the mail, which visited them once a week. Every month they had a dance and when they gave one it was a "hummer." He will leave for Arkansas in a few days.

Star Dust

STAGE SCREEN RADIO

By VIRGINIA VALE
Released by Western Newspaper Union

BEING a chaperon on "Blind Date," the Blue network show, has its hazards. Veronica Lake's parents were chaperons for an evening, and, to add an extra fillip, the program's sponsor had arranged for hansom cabs to take the servicemen and their girls from the radio studio to the Stork Club. A crowd of fans were milling around, waiting for another glimpse of the "Blind Dates." One of the horses bolted, tossing the cabbie off and leaving Mrs. Keane, who is as tiny as her famous daughter, helpless inside. Everyone ran, screaming "Runaway!" but a cool-headed Anzac soldier, used to emergencies, stopped the horse before damage was done.

Andrew Stone, producer-director of "Sensations of 1944," thinks so well of his idea that he plans to produce

ELEANOR POWELL

one "Sensations" each year for the next three years. Eleanor Powell of this year's edition will be the central figure of each one.

The desire to remake "A Farewell to Arms," that touching love story of World War I, struck both Warner Bros and Paramount. Warners wanted it for Ingrid Bergman and Humphrey Bogart, which would have been better than the combination Paramount set up. Ingrid Bergman and Ray Milland. Paramount owns the story, therefore it will be their picture.

Craig Reynolds, the first Hollywood actor to don a uniform in World War II when he enlisted in the marine corps in September, 1940, will return to the screen as a result of a contract signed with RKO. After serving in more than 50 engagements in the European and South Pacific theaters of war, he was awarded the Purple Heart and two presidential citations. Retired with honor as a first lieutenant after being badly wounded, he can now walk with the aid of a brace and with scarcely a trace of a limp.

RKO is building up a good, substantial stock company, to have plenty of talent ready for its enlarged production schedule. Recent additions to the list of male players—Bert Moorhouse, Sherry Hall, Larry Blum, Frank Mayo, Larry Wheat, Jason Robards, Chester Carline, Wheaton Chambers and Alan Ward. Look as if the shortage of actors won't worry that studio any.

Warner Bros. have lifted suspension of their contract with Dennis Morgan, and booked him to play opposite Ida Lupino in a romantic comedy, "The Very Thought of You." And he and Irene Manning, the romantic singing team who costarred in "The Desert Song," will do another screen musical together. They'll be reunited in "Henrietta the Eighth," a musical comedy.

There's a new reason for the spirited marching of American sailors these days. The boys are "hopping" it to the rhythm of Alec Templeton's band compositions. The star of the CBS "Carnival" received a request from the navy department for a group of his martial selections, and they have been photostated for distribution here and overseas.

Not for nothing have Warner Bros. made all those biographical films. They've learned that pictures of that class have brought in the largest amounts of mail in the past, so a special bureau has been set up in the fan mail department before "The Adventures of Mark Twain" is released. They figure that Twain's popularity will result in a veritable landslide of letters.

ODDS AND ENDS—Dickie Moore, child star of yesterday who is now 18, received his draft call while at work at RKO on "Are These Our Children?" "Heavenly Days," starring Fibber McGee and Molly, is now under way at RKO. A tale that's started New York—it took Mrs. Sinatra a month to get a maid. A member of Bob Ripley's large staff does nothing but decipher the badly scrawled letters that come to the Believe It or Not experts. Each month Tom Conway gets about 100 requests from people, asking him to find missing friends, relatives or articles. He's the detective in the "Falcon" series.

New Revolution Stirrs China as Farmers Learn Modern Methods From U. S. Expert.

Primitive Tools, Hand Cultivation Limit Yield of Tiny Plots

By BARROW LYONS
Western Newspaper Union Correspondent

Probably no man has planned practical farming on so vast a scale as Dr. Walter C. Lowdermilk, assistant chief of the U. S. soil conservation service, who has just returned from a year in China.

His plans envisage revolutionizing the agriculture of Chinese provinces the size of several states; of freeing several hundred millions of farmers from the soil so that they can build new industries for China; of seeding 30,000,000 acres of eroded hillsides with grasses, legumes and hardy trees; of educating the masses away from the farming traditions of many centuries through demonstrations of what can be done.

Dr. Lowdermilk has a record of solid achievement behind him. With other experts of our Soil Conservation service, he has helped American farmers increase the yields of their own fields. The average in-

TERRACED SLOPES, built with much painful labor, are being ruined by erosion, as gulleys cut through the steep lands. This scene is in the province of Shensi. Dr. Lowdermilk is standing in the foreground, making a survey.

ing. The spring floods generally wash out many of the stones and wreck the diversion works, so that, on the average, only one-third of the area can count on a water supply each year.

Another 2,000,000 mow on the sides of the lower mountains consist of steep slopes, some of them 80 per cent slopes, which are cultivated, but suffering rapid soil erosion. About 3,000,000 mow are too high for agriculture, but are capable of growing forests, if properly cared for, and now produce abundant water supply.

Concrete Highway Needed. The farmers have cleared the intermediate slopes and are raising meager crops upon them. These slopes can be used for growing grass upon which sheep can pasture. But there is at present no means of marketing the sheep from the lower hills, or lumber from the higher hills. Concrete highways will be the answer.

But in handling the land surface the lessons learned from the Tennessee Valley experiment point the way to reclamation. Penghsien is to be a model guinea pig county for China. Dr. Lowdermilk and his experts laid the foundations for a vast demonstration of replacing loose stone diversion ditches with cement channels and making over the face of the valley so that its crops will never fail.

Near Sian, in the Province of Shensi, an actual demonstration was begun. Bench terracing that would conserve both soil and moisture was put in with improvised plows and tools; grass was planted along the

ridges and crests to stop erosion; nut and fruit trees were planted on steeper slopes seeded with grass. Over an area of some 10,000 mow the yield was increased between May and October, and erosion was virtually stopped.

Chinese farmers from miles around watched at first with deep skepticism—but in the fall, when the crops were gathered, they came to praise—even to ask that similar work be done on their own farms.

Three-Acre Farms. One of the great handicaps to modern farming in China lies in the fact that farms are all small. The average farm in most of China is about 3.3 acres. In the Northwest the farms are larger—about five acres each. This means that modern machinery cannot be used economically unless villages can pool their land, and farm cooperatively.

This is the pattern that is being advocated by the Chinese government, and is beginning to find acceptance. As the tremendously increased efficiency and profit of the use of modern machinery become evident, there is no doubt that this type of farming will spread as rapidly as machinery can be obtained. (Farm machinery manufacturers take note.)

But there, resistance arises from the intense individuality of the Chinese farmers. He is even more independent and individualistic than the American farmer. He likes to work his little farm by himself without even hired labor, in most cases.

REFUGEES RETURN to their home city, Changteh, Hunan province, in the heart of the "rice bowl" section of China. Japanese troops were driven out after bitter fighting on December 9, last year, after holding it about a week.

The city of Changteh is especially important, because through it great quantities of rice move annually. Freeing of these "rice bowl" cities is one of the most important tasks in the grave problem of feeding the great Oriental nation in wartime.

When farmers try to work together, they generally get to quarreling, he feels. He is likely not to like the way his neighbor does things.

Just the same, when he sees the village next to his, which has adopted the new ways of farming, prospering as he never thought possible, he is moved to giving consideration to the advantage of cooperative action. Then, too, he has heard of the strange things that are happening in the cities, where cooperative industries have sprung up to make implements of war for Chiang Kai-shek's armies. And when he thinks about it for a while, cooperation becomes worth trying, although at first the hazards seem extreme.

'Bombing' With Grass Seed. Perhaps the most spectacular of the plans developed by Dr. Lowdermilk and his experts is the project for reclaiming almost a third of China, which has been ruined for cultivation by deforestation and erosion. These intrepid pioneers propose that after the war, when airplanes and pilots become available, this land be seeded with clay pellets which contain the seeds of grass and leguminous herbs and hardy trees.

After the war the Chinese hope to drop millions of seeds upon the washed-out slopes of China when they are damp and soft after rains, so that the pellets will sink in and stick, and the seeds will grow. The chief difficulty will be to obtain enough seeds. In one year the United States Soil Conservation service managed to get 800,000 pounds of grass seed for soil reclamation in

the common symptoms—pain in stomach, lack of appetite, excessive amount of gas, nausea, vomiting—occur at all regularly, the physician should be consulted. Should examination reveal that no organic disease or condition is causing the symptoms, this very knowledge may be sufficient to remove the mental or emotional disturbances which are causing the symptoms.

Further, early investigation of these common symptoms will likewise reveal any disease or other condition present, the early treatment of which may not only bring relief but prevent serious or fatal illness.

Wise Reducing Diet Must Be Balanced. The famous 10-day diet was a diet to be used in a race against time to fulfill a term of a contract. This term was that the actress would be at a certain weight on a certain date. The taking of a little meat, some rough bulky vegetables and some fruit juice enabled her to fulfill the contract and be at the agreed weight within the 10-day period. We all know now what happened to many women who undertook the 10-day diet. Some came through it safely; some wisely stopped; others collapsed and many died.

The 10-day diet, however, had one point in its favor; that is, it had the individual eat "some" meat and some bulky vegetables, and included citrus fruit juices. The real danger from it was that it did not provide enough of these three food substances, particularly meat.

While some vitamins were present in the diet, there was not enough of that vitamin B and its family. The average overweight knows about meats, starches and fats, but how can he be sure of getting enough vitamins and minerals?

A glass of whole milk, an egg, and a half glass of orange juice (four ounces) daily will supply minerals, enough animal protein, and the necessary amount of vitamin C. All together these give only 330 calories but should prevent malnutrition. It will be necessary, of course, to use only about 1,500 calories in all to bring the weight down to normal.

The above suggestion—a 1,500-calorie diet of which 330 should be made up as above—is for cases where the overweight is due simply to over-eating. In cases where there is lack of some gland extract—thyroid, pituitary, adrenal, sex—treatment by gland extract in addition to a reduced diet will be necessary.

QUESTION BOX. Q.—How can I cure bleeding gums and whiten my teeth? A.—Your dentist can best advise you on these two matters. One visit may be all that is necessary.

Q.—What other forms of treatment besides X-ray or surgery are there for an over-active pituitary gland? A.—Treatment by a combination of pituitary and thyroid extracts is reported to have helped some cases. Ask your physician about it.

TO YOUR Good Health

by DR. JAMES W. BARTON
Released by Western Newspaper Union

INDIGESTION

It is only natural when the stomach is upset—nausea, vomiting, pain—to blame the symptoms on food very recently eaten. While this is true in some cases, the stomach is upset usually because something about the stomach and more often the gall bladder has been affected in some manner. In fact, some physicians state that two ailments are responsible for more than half of all cases of indigestion. These ailments are gall bladder disease and ulcer of the first part of the small intestine—duodenal ulcer.

Some months ago I spoke of the results of an investigation of the causes of indigestion recorded in the New England Medical Journal by Dr. T. Grier Miller. A chart showing the causes of indigestion in 2,542 cases accompanied the article.

The symptoms complained of were discomfort in the stomach, lack of appetite, gas distension coming up through the mouth and going down and out of the intestine—nausea and vomiting.

Of this large number of cases 31 per cent had gall bladder trouble, ulcer of the duodenum (upper part of small intestine) showed nearly 25 per cent, nervous and emotional disturbances of the stomach showed 17 per cent, nervous and emotional disturbances of the large intestine (colon) accounted for about 5 per cent, inflamed condition of the stomach lining 5 per cent, stomach ulcer 4 per cent, cancer of stomach 4 per cent, appendicitis between 2 and 3 per cent.

An interesting point shown by the above figures is that 25 per cent of the cases, that is one in every four, was not caused by any disease or malformation of the stomach or intestine but from mental and emotional disturbance.

The lesson learned from this investigation is that when any of these common symptoms—pain in stomach, lack of appetite, excessive amount of gas, nausea, vomiting—occur at all regularly, the physician should be consulted. Should examination reveal that no organic disease or condition is causing the symptoms, this very knowledge may be sufficient to remove the mental or emotional disturbances which are causing the symptoms.

Further, early investigation of these common symptoms will likewise reveal any disease or other condition present, the early treatment of which may not only bring relief but prevent serious or fatal illness.

This term was that the actress would be at a certain weight on a certain date. The taking of a little meat, some rough bulky vegetables and some fruit juice enabled her to fulfill the contract and be at the agreed weight within the 10-day period. We all know now what happened to many women who undertook the 10-day diet. Some came through it safely; some wisely stopped; others collapsed and many died.

The 10-day diet, however, had one point in its favor; that is, it had the individual eat "some" meat and some bulky vegetables, and included citrus fruit juices. The real danger from it was that it did not provide enough of these three food substances, particularly meat.

While some vitamins were present in the diet, there was not enough of that vitamin B and its family. The average overweight knows about meats, starches and fats, but how can he be sure of getting enough vitamins and minerals?

A glass of whole milk, an egg, and a half glass of orange juice (four ounces) daily will supply minerals, enough animal protein, and the necessary amount of vitamin C. All together these give only 330 calories but should prevent malnutrition. It will be necessary, of course, to use only about 1,500 calories in all to bring the weight down to normal.

The above suggestion—a 1,500-calorie diet of which 330 should be made up as above—is for cases where the overweight is due simply to over-eating. In cases where there is lack of some gland extract—thyroid, pituitary, adrenal, sex—treatment by gland extract in addition to a reduced diet will be necessary.

QUESTION BOX. Q.—How can I cure bleeding gums and whiten my teeth? A.—Your dentist can best advise you on these two matters. One visit may be all that is necessary.

Q.—What other forms of treatment besides X-ray or surgery are there for an over-active pituitary gland? A.—Treatment by a combination of pituitary and thyroid extracts is reported to have helped some cases. Ask your physician about it.

Laughing Jackass' Brays, Is One of Meanest Birds

A sassy-looking, colorful bird which makes its home in Australia, frequently puzzles foreign visitors. The kookaburra, as the natives know it, has rightly been called the "laughing jackass," for it makes a sound like the braying of a jackass and it is one of the meanest birds living. It eats small mammals, killing them by flying high with its victim in its beak and dropping it to destruction.

RUB FOR COLD MISERY

Spread Penetro on throat, chest, back, cover with warm flannel—eases muscular aches, pains, coughs. Breathed-in vapors comfort irritated nasal membranes. Outside, warms like plaster. Modern medication in a base containing old-fashioned mutton suet, only 25c, double supply 35c. Get Penetro.

Royal Indian Navy

Unlike India's army, the Royal Indian Navy forbids its officers and men to maintain their usually very strict racial and caste differences while in its service.

WOMAN OVERCOMES HER CONSTIPATION!

"Once Took Laxatives 3 or 4 Times a Week," She Says!

Are you, too, a disappointed "dosser"? Then read this unsolicited letter!

"I'd started working nights, and with my way of living changed around, I soon found I was taking 3 or 4 laxatives a week, and feeling terrible. Then I heard about KELLOGG'S ALL-BRAN through your radio program. The Breakfast Club since taking my daily helping of ALL-BRAN, I am regular as clockwork. Thanks for what your ALL-BRAN has done for me!" Mrs. E. Wood, 274 Beaumont St., Akron, Ohio.

Yes, it does seem like magic, the way KELLOGG'S ALL-BRAN helps so many people. "Gets at" one common cause of constipation—lack of enough dietary "cellulose" elements! That's because ALL-BRAN is one of Nature's most effective sources of these elements—which help the friendly colonic flora flourish and prepare the colonic contents for easy, natural elimination! KELLOGG'S ALL-BRAN is not a purgative! It's a gentle-acting, "regulating" food!

If your constipation is this kind, eat KELLOGG'S ALL-BRAN regularly, with milk and fruit, or mixed with other cereals. Drink plenty of water. See if you don't find real help! Insist on genuine ALL-BRAN, made only by Kellogg's in Battle Creek.

SNAPPY FACTS ABOUT RUBBER

A gallon of latex is about one-third rubber and two-thirds water.

GR-S, the synthetic rubber now used in civilian tire manufacture, requires more time in being fabricated of factories. With the equipment and labor shortage, this means that the industry has a tremendous problem ahead of it to make the 30 million new tires scheduled for 1944.

Back in 1823, when rubber shoes were shipped here from Brazil, they were not made according to sizes or for left and right feet. Just thick rubber coverings that were stretched over the regular leather shoes. They were sold in winter, gone in summer.

In war or peace B.F. Goodrich FIRST IN RUBBER

HOUSEWIVES: ★ ★ ★ Your Waste Kitchen Fats Are Needed for Explosives TURN 'EM IN! ★ ★ ★

Kidneys Must Work Well

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other wastes matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

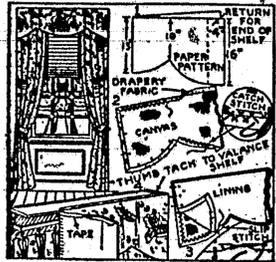

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer aching back, aches, headaches, dizziness, rheumatic pains, getting up at night, swelling.

Why not try Doan's Pills? You can't buy a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to waste out the excess wastes from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. All drug stores.

DOAN'S PILLS

ON THE HOME FRONT
with RUTH WYETH SPEARS

WE KNOW that the Eighteenth Century is often called the golden age of the cabinet makers. We know that the English cabinet makers, Chippendale, Hepplewhite, Sheraton and the Adam brothers, flourished then and that their work was copied by our own cabinet makers of the late Colo-

rial period. The furniture types of their day have become standard with us but we seldom stop to think about the kind of curtains and draperies that were originally used with this furniture.

Visitors to the reconstructed village of Williamsburg, Va., are often surprised to find that Venetian blinds were the fashion long before the Revolution, and the well tailored canvas lined valance used with floor length chintz draperies also seem modern to them. Yet these were the curtain styles when ladies and gentlemen wore powdered wigs. Valances were made just as we make them today and were tacked to a valance board in pretty much the same manner as is shown here.

NOTE—This is the second of a series on modern adaptations of period curtain fashions. Another version of the shaped type of valance is given in BOOK 3 of the series of ten booklets on sewing for the home. To get a copy of Book 3 send 15 cents direct to:

HOUSEHOLD MEMOS
by Lynn Chambers

Keep to Low Point Foods on Lunches
(See Recipes Below.)

Luncheon Aids

If you don't have the points for traditional staples to make up the children's mid-day lunches, then glance over the suggestions I'm giving you today. They're low on points, good on nourishment and high in health-giving vitamins and minerals.

Homemakers with growing children who must feed them at home during lunch, and then feed a very hungry husband at dinner, frequently find themselves low on points for these two important meals. They must be well balanced and satisfying or the family will suffer in days lost at school or at work and that's sabotage on the home front.

Sandwiches are an old standby and children look forward to them. To give a well-balanced lunch, they should be served with soups or salads.

It is smart to save bits of leftover vegetables from dinner, even if they amount to only a quarter of a cup, and then to use them for a coup for luncheon the next day. Think of the colorful soups that you can create from green peas, spinach and carrots. And as for nutrition, that's there in vegetables without saying!

Creamed Soup.
(Leftover Vegetables)
(Serves 4)

- 1/4 cup pulp (onions, carrots, celery, peas, string beans or lima beans)
- 1 tablespoon flour
- 2 tablespoons butter or substitute
- 1 teaspoon salt
- 1/4 teaspoon pepper
- 2 cups milk

Add milk and seasonings to vegetable pulp. Blend butter with flour and add to milk and vegetable pulp. Bring to a boil and cook slowly for 4 minutes.

***Cream of Corn Soup.**
(Serves 6)

- 2 cups corn (canned or leftover)
- 2 cups boiling water
- 2 cups milk
- 1 slice onion
- 2 tablespoons butter
- 2 tablespoons flour
- Salt and pepper

Place corn, boiling water, milk and onion in a saucepan. Simmer for 20 minutes. Rub through a sieve. Brown flour and butter together. Stir in corn mixture. Simmer 5 minutes. Serve very hot.

When making sandwiches, there's a tendency to fall into the same pattern and create real monotony. New ideas can quickly pep up lunches whether they're at home or in the lunch box. It's easy to achieve variety if you use low-point cream cheese or some of the wedge-cuts flavored with pimiento, relish and chives. These furnish nutritious butter fat too, and you can take it easy on butter for spreading:

Lynn Says

Escort Ideas: The little things you do for food are as important as the big things you do for them in cooking correctly. For example, the bread pudding may be good, but it will be better with a spoonful of spicy apple butter on top, or a dab of grape jelly.

Make your meat casseroles interesting by leaving the vegetables in larger pieces. When you make a biscuit topping, use different types of cutters for biscuit dough—hatchets, diamonds, cloverleaves, etc.

Apple slices fried in bacon add fragrance to your kitchen, and have that hard-to-resist flavor when served with old fashioned griddle cakes.

Save Those Used Fats; Take Them to Your Butcher.

Luncheon Suggestion

- *Cream of Corn Soup
- *Cream Cheese and Peanut Sandwiches on Boston Brown Bread
- *Date and Orange Salad
- *Recipes Given

***Cream Cheese and Peanut Sandwiches.**
(Makes 3)

- 1/2 six-ounce wedge-cut of cream cheese
- 1/2 cup chopped salted peanuts
- 1/2 teaspoon lemon juice
- 1/2 teaspoon salt
- 6 slices white or whole wheat bread

Cream the cheese until soft. Add nuts, lemon juice and salt. Spread between slices of bread.

The other half of the wedge can be mixed with 2 tablespoons of lemon juice and pulp and 2 tablespoons of finely chopped nutmeats. This will give 1/2 cup of sandwich spread.

Devilled Cheese Sandwich Spread.

- 1/2 pound mild cream cheese
- 1 small onion
- 3 canned pimientos
- 3 hard-cooked eggs, chopped
- 1/4 teaspoon salt
- 1/2 teaspoon paprika
- 4 tablespoons mayonnaise

Grind the cheese, onion, and pimiento. Add chopped eggs, seasonings and mayonnaise and mix well.

Liver Sandwich Spread.

- 1 chopped onion
- 1 tablespoon butter
- 2 hard-cooked eggs, minced
- 1/2 pound liver
- 1/2 cup cream
- Salt and pepper

Brown onion in melted butter. Mix well with liver, blend in cream and seasoning and mix well. Keep spread in cool place until ready to use.

Cottage-Cheese Spread.

- 1 cup well-seasoned cottage cheese
- 1 cup finely chopped peanuts
- 1 tablespoon mayonnaise
- 1/2 teaspoon salt

Combine all ingredients. Use either white bread or Boston brown bread.

Cheese and Dried Beef Spread.

- 1/2 pound American cheese
- 1/2 cup drained canned tomatoes
- 1/4 cup butter or substitute
- 1/4 pound dried beef, chopped

Melt cheese in top of double boiler. Add tomatoes gradually, stirring occasionally. Add butter and blend thoroughly. Add dried beef and mix well. Store in refrigerator.

Chopped Meat Spread.

- 1 cup leftover meat, chopped
- 1 teaspoon mustard
- 2 finely chopped hard-cooked eggs
- Chopped pickle or vinegar
- Mayonnaise to moisten

Mix all together. Spread generously on buttered bread.

A fruit salad all quivery and delectable with fruit makes a perfect foil for a sandwich luncheon and gives your menu plenty of variety:

***Date and Orange Salad.**
(Serves 4)

- 1 package orange-flavored gelatin
- 1 cup boiling water
- 1/2 cup cold water
- 1 tablespoon lemon juice
- 12 pitted dates, quartered
- 2 oranges, sectioned
- Lettuce
- Salad dressing

Dissolve gelatin in boiling water. Add cold water and lemon juice and chill to the consistency of thick syrup. Fold in dates and orange sections. Pour into lightly oiled mold and chill until firm. Serve on lettuce with salad dressing mixed with lemon or orange juice, or both.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

By HAROLD L. LUNDQUIST, D. D. Of The Moody Bible Institute of Chicago. Released by Western Newspaper Union.

Lesson for March 5

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JESUS URGES HIS DISCIPLES TO WATCH

LESSON TEXT: Mark 13:3-10, 31-37.
GOLDEN TEXT: Watch ye therefore: for ye know not when the master of the house cometh.—Mark 13:35.

God has a plan, and even now when men seem to have turned all order into chaos, we know that God is working out His purpose. The important crisis in that plan of God which we now await is the return of Christ, His second coming.

He will come secretly to call His own Church, the Bride, to Himself, and then He will come openly, in great glory, when every eye shall behold Him. Then His enemies shall be confounded, and His eternal kingdom be established.

We look for His coming, but while we wait (and it may not be long!) we are to occupy for Him until He comes. Our lesson tells men:

I. What to Expect While Waiting for Christ (vv. 3-9).

First, we note that we are to expect the coming of false teachers and false Christs, who will claim to be the fulfillment of the prophetic Scriptures. We need only one admonition concerning them, "Take heed that no man lead you astray."

There have always been such false leaders who for the prominence or gain afforded them are willing to offer bewildered mankind all sorts of panaceas whereby it is supposed to solve its problems. It seems that these men increase in numbers when great crises, such as war, come upon the nations. Do not be misled by them. Just because a man seems to be devout and professes to be interested in Christ's return does not make him a dependable teacher. Are not the very ones Jesus warned against? They must meet the test of all of God's Word.

Christ warns believers that before the end of the age there will be world-wide war, earthquakes in many places, and famines. These are to be expected, and will come. But here a word of caution is needed. We must not seize upon present events and rush out (or into print) and tell people that "this is it!"

We should be alert in relating world events to the teaching of Scripture, but let us not assume that the need for caution justifies him in ignoring either the Word or world events. We are to be alert, well informed, spiritual and ready.

II. What to Do While Waiting for Christ (v. 10).

Preach the gospel! That is our first and most important business. Our Lord said that the whole world was to be evangelized before the end came. Please note carefully that He did not say that all nations will be saved, but that they will hear the gospel.

That is our responsibility—to see to it that every nation has a full and free opportunity to hear the blessed gospel message. We have not done it, and the failure of the Church at that point is a dark blot on its record.

There seems to be a revival of interest in the work of missions now, and there are many who believe that at the close of this war almost the entire world will be open for Christian missionaries. This will probably be true for a limited time only, and it is the urgent business of the Church now to prepare the missionaries who will then be needed.

And in the meantime we should all be busy about the all-important matter of teaching and preaching the gospel. It is the best preparation for the coming of Christ and the thing we would want to be doing when He comes.

III. How to Live While Waiting for Christ (vv. 31-37).

There should be an air of expectancy constantly characterizing the Christian. We are looking for Someone—yes, a very definite and glorious One—our Lord Himself.

We do not know when He will come (v. 32). That is a matter hidden in the eternal counsels of God the Father, a secret into which angels do not pry, and which even the Son did not know. Why then do foolish men attempt to learn it? Beware of any man who sets a date for Christ's return or for the end of the age. He is setting himself up as being superior to Christ, and you can be sure that he is an impostor.

We do not know the day, but of the fact we are sure. Christ is coming again! So we are to be watchful as we wait. God has not called us to stand idle, looking for the dawning of that glorious day. We are to be about His business, but everywhere and always, wide awake and looking for Him.

That kind of a believer (and all believers should be that kind) will pray. We are to "watch and pray." They go together. The one who prays will watch. The one who watches will pray. Possibly some of us are not praying because we have fallen asleep and no longer watch for His coming. Then too we probably fell asleep because we did not pray.

Pattern No. Size

Name
Address

Barbara Bell Pattern No. 1924 is designed for sizes 11, 13, 15, 17 and 19. Corresponding bust measurements 29, 31, 33, 35 and 37. Size 13 (31) short sleeves, requires 3 1/2 yards 36-inch material.

Household Hints

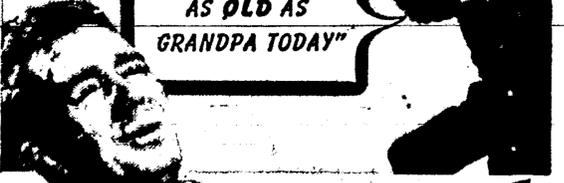

Work clothes will keep clean longer if they are starched. Factory managers recommend a hard finish because it is safer around machines.

After washing cooking utensils used for fish, rub with orange or lemon rind to remove any lingering odor of fish.

Do not paint over whitewash. Wash off the whitewash with clear water and allow the walls to dry thoroughly before applying the paint.

When shortening a dress, snap a rubber band around a yardstick at the desired length line and measure the dress from the floor.

To avoid stretching, line the pockets of knitted sweaters with satene.

-DUE TO MUSCULAR PAINS!

SORETONE
soothes fast with
COLD HEAT ACTION
in cases of
MUSCULAR LUMBAGO OR BACKACHE
due to fatigue or exposure
MUSCULAR PAINS

IN THE THIRD JUDICIAL DISTRICT COURT OF THE STATE OF NEW MEXICO WITHIN AND FOR LINCOLN COUNTY.

No. 5085
R. A. CRENSHAW, Plaintiff,
vs.
JOHN E. WRIGHT, Treasurer of Lincoln County, New Mexico, Impleaded with the following named defendants, against whom substituted service is hereby sought to be obtained, to-wit: ANICETO LUERAS, SAN TIA G LUERAS, AURELIA LUERAS GARCIA, MARY LUERAS MAES, JOSE EITA LUERAS PEREA, UNKNOWN HEIRS OF THE FOLLOWING NAMED DECEASED PERSONS: JUAN REGALADO, TEPORTANA L DE ROMERO, PATROCINA LUERAS JOSUE LUERAS, JOSE MARIA LUERAS, GREGORIA REGALADO DE LUERAS, MALENA BARELA and ALL UNKNOWN CLAIMANTS OF INTEREST IN THE PREMISES ADVERSE TO THE ESTATE OF THE PLAINTIFF, Defendants.

NOTICE OF PENDENCY OF SUIT

THE STATE OF NEW MEXICO: To each of the above named defendants against whom substituted service is hereby sought to be obtained, GREETING:

You and each of you are hereby notified that a certain cause wherein you and each of you are defendants, and R. A. Crenshaw is plaintiff, being Civil cause No. 5085 on the Civil Docket in the above named Court, is now pending against you.

The general object and purpose of said suit is to establish and quiet plaintiff's title in and to the real estate and property described in the Complaint in said cause, the same being in the County of Lincoln, State of New Mexico, and in: Sections 12 and 13, Township 6 South, Range 13 East, N. M. P. M. against the adverse claims of you and each of you, and anyone claiming by, under, or through you, or any of you, and to forever bar and estop you and each of you from having or claiming any lien upon, or right or title to, or interest in said real estate and property.

You are further notified that unless you enter your appearance in said cause on or before March 30, 1944, judgment will be rendered in said cause against you and each of you by default.

The name of plaintiff's attorney and his postoffice address is John E. Hall, Carrizozo, New Mexico.

GIVEN under my hand and seal of the Third Judicial District Court of the State of New Mexico, this 16th day of February, 1944.

Felix Ramey,
District Court Clerk.
By Margaret Stinnett, Deputy,
District Court Clerk.

Community Gardens

A 4-H Community Garden Club has recently been organized at Statson. Club members of the community will contribute to the War effort by planting and caring for a Victory Garden on the school grounds.

The project will be sponsored by the county agent in cooperation with school authorities and the Parent-Teacher Association. Each 4-H Club member will be given supervision in caring for a designated plot of the garden. Commodities produced will be canned by the P. T. A. and the 4-H club girls to be used for the school's Hot Lunch Project.

The club will meet at two-week intervals to study the following topics: Preparation of the Soil, Selection of Seed, Planting, Cultivating, Irrigation, Identification of the Control of Insects, Harvesting, Storage and Preservation.

Carl P. Radcliff,

1944 WAR FUND

This year, with service flags in windows of nearly every home, Red Cross will mean so much more to Americans. As depicted in this reproduction of a 1944 Red Cross War Fund poster, many windows also will display the symbol of participation in the cause of Mercy and Humanity—the Red Cross.

Red Cross Asks \$200,000,000 To Cover Wartime Needs

WASHINGTON, D. C.—Confronted with possibilities of unprecedented proportions, as the war enters its most crucial stage, and with a staggering task ahead in the post-war period, the American Red Cross opens its 1944 War Fund appeal March 1, confident that the American people will respond to the limit of their ability.

President Roosevelt, president of the American Red Cross, Norman H. Davis, chairman and active head of the vast organization, and Leon Fraser, national War Fund chairman, join in urging the people of this country to help Red Cross reach its national objective of \$200,000,000, because of the vital part it must play within the next twelve months.

Chairman Davis, in opening the campaign will stress the fact that with the decisive stage of the war at hand, the Red Cross must assume a greater burden than ever before, and at the same time must provide aid to servicemen being returned in ever-increasing numbers.

Red Cross operations over the entire world during 1942 have dwarfed its activities during the first two years of war.

An even greater burden will be placed on Red Cross services in 1944. Thousands of American men and women are now in Red Cross service with U. S. troops at home bases and overseas. Field directors, hospital, club and recreation workers are with American armed forces in virtually every command, Mr. Davis asserted.

Both in Europe and in the Far East, Red Cross workers have either gone with invasion forces into new combat areas, or have followed within a very limited time.

On the home front, the Red Cross has broadened its service tremendously. Field directors are serving in

every sizable military establishment, and camp throughout the country, and recreation and social service workers are located in Army and Navy hospitals.

One of the most important necessary wartime Red Cross functions has been the collection of blood for plasma. Thirty-five blood donor stations are now operating.

The dramatic story of the Red Cross Blood Donor Service, through which thousands of soldiers and sailors have been saved from death, began in February, 1941, when the Surgeons General of the Army and Navy asked Red Cross to procure 15,000 pints of blood. Last year more than 3,700 pints of blood were collected for the Army and Navy. This year the goal is more than 5,000,000 pints.

With major battles of the war yet to come, the Army has asked the Red Cross to supply many millions of surgical dressings. American men wounded in battle will depend acutely on the vast Red Cross surgical dressing production program.

Numerous other Red Cross home operations, such as Prisoners of War packaging centers, where more than a million parcels for war prisoners are prepared each month for shipment overseas, are supported by citizen-participation in the Red Cross War Fund.

So extensive is Red Cross service during this war that every American civilian can contribute something to at least one of its functions. To continue this gigantic work, all Americans must assume their share of the responsibility of carrying on this far-reaching service.

The \$200,000,000 quota will enable Red Cross to alleviate suffering and pain at home and abroad, and to carry on its vast military welfare service.

7 P. M., Wednesday, prayer service.

4-H Orchard Club
Home orchards and home vineyards will be the chief 4-H projects taken by club members in the northern part of the county for 1944.

Each club member will plant at least five fruit trees or five grape vines. The project will be sponsored by the county agent, in cooperation with Mrs. F. L. Juppman, Local Leader, and school authorities.

The club will meet at two-week intervals to study topics pertaining to the project. Discussions will be conducted on selection of the Orchard Site, selection of Varieties of Fruit and Grapes, Planting, Pruning, Grafting, The Making of Grape Jellies, Identification and Control of Insects, and the General Care of the Home Orchard and Vineyard. Carl P. Radcliff, County Extension Agent.

Indian BEEF

by HAROLD CHANNING WIRE

LEW BURNET has been engaged by TOM ARNOLD, owner of the Cross T, to act as trail boss on the drive from southern Texas to Ogallala in the spring of '45. Tom, with his son and daughter, STEVE and JOY, are moving to Wyoming. Tom must deliver 3,000 longhorns by September 1 or lose a profitable contract. Lew suspects that the Indian Supply Co. is trying to delay the Cross T herd so their Open A herd will arrive first at Ogallala. Lew camps on the Red river. They hear gunfire, and the herd is stampeded. After a night of running, the herd is rounded up, but Tom Arnold has been thrown by his horse, and killed. CLAY MANNING tells Lew: "This will make a big difference."

CHAPTER X

"Let him bark," Quarternight said. "It'll take more than that." But Clay's meaning was clear enough. With Tom Arnold gone Joy and Steve would be the Cross T owners. And since Steve wore the pants he could take charge. Clay could put the idea into his head.

From the river bluff he saw the water had dropped a number of feet. It was still high, but the churning flood was gone. Long red sand bars were uncovered out in the middle.

No matter what happened, the longhorns had to go on. He made an immediate plan for that. Then near camp he said, "You go in, Jim, and get tools from the cook's wagon. Don't be seen if you can help it. Go on back ahead of me."

He pulled in and waited until Quarternight rode out of the trees with a canvas bundle under his arm. Only Steve was there when he went in, squatted at the fire pit, drinking coffee. His head turned at the sound of the horse. His cheeks that never took much tan were smooth and rosy and he seemed all at once, in this moment, too young for what was coming. "Lew," he said, "where's the others?"

"Up the creek, Steve. Joy here?"

"Asleep."

"Then come on with me." The thing he had to tell him made him quietly gentle. Even Steve's quick, "Say, I've hidden enough! Can't you let a man rest?" didn't change that. He said again gently, "Come on. This isn't work. Something's happened."

He saw the high color drain away and rush back. With no talk then Steve got up and walked to his horse. But out of the trees, looking straight ahead, he asked, "Dad?"

"Yes, Steve—" Lew put out his hand. There had been years when he and this boy were like brothers, and Tom Arnold had been a father to them both. It seemed to him that now, if at any time, the unexplainable barrier between them ought to be down. His hand touched Steve's arm. It jerked from him as if he had struck a blow. He did not finish what he wanted to say. It was no use. Inside him a desolate lonely feeling came crowding back.

He held deliberately to a slow walk up the creek, letting the men get most of their work done. There was no need for the boy to look at the trampled thing they had found. The grave on a little knoll close to the bank was already covered. They were mounding it over with rocks. Afterward, with that finished, they made a bareheaded circle waiting for someone who could talk.

Someone coughed and the little group moved. No one had spoken. That brief moment was gone. "Clay," he said, "you go in now. Let Joy know. You and Steve."

He had seen Ed Splann stay off with the horses apart from the little group around the grave, and it seemed a kind of rank insult, the way the big man stood there casually rolling a cigarette, watching them and blowing out his gusty breaths of smoke.

As Steve and Clay got into their saddles and started toward camp Splann reached up for his own horn to follow them.

He called the man's name, walking toward him fast. Close, he said, "Not you. You stay here."

The heavy arm came down from the horn and hung loose. Splann turned himself around with a ponderous deliberation. "You talkin' to me?" His dusty fouled beard hid all expression. Then a quick hard mockery glittered in his pale eyes. "Maybe," he said, "I don't hear you any more. New owners make a new boss. You thought of that?"

He knew a certain end was coming, that he'd held back so far on the trail. Quietly he said, "There'll be no change. There's something here you've missed." The urge toward the end he wanted drove him on. "If you can't take it like that you can ride out."

He saw the instant way the pale gray eyes sharpened. Splann's voice dropped, low and oddly droning. "So you figure it's that easy?"

"I've done my figuring," he said. "There it is."

This big man was no hot-headed amateur when a definite time came. He could see the veiled coldness behind the drooping lids and the slack readiness that slid over the huge body. Then some thought loosened the bearded lips in a half grin.

"All right," Splann turned a little from him. "You're smart. I've thought maybe you were only a damn fool." His right arm lifted again as if to reach the saddle horn.

He understood this man's kind too well. He knew the move was false even as the arm rose and so was ready when that hand curved suddenly downward to the holstered gun.

His own holster flap was buckled. In that fraction of a second he wasted no time in trying to loosen it. He grabbed left-handed at the dull steel of Splann's rising weapon and threw all of his weight behind a blow of his right fist upward against the bearded jaw. It rocked the big head. But the man was solidly planted. He felt the gun's hammer in his palm and hooked his thumb around it. It snapped with a explosion and he hardly felt the metal's sharp cut in the flesh of his thumb. For the hatred dammed back in him so long had released something savage and cruel. He threw his fist again into a body blow. The gun came free into his hand with his thumb still blocking the hammer. He swung it, lashing across Splann's face. It half turned the man around and he brought the heavy weapon's barrel once more against the side of his head. That dropped him forward onto his knees.

Standing back, he was aware then of the others who had come running up. He heard Quarternight's voice: "What's he done?"

He answered without turning. "Splann's quit. He's through." He released the gun's hammer and shook away the blood. Behind him Jim Hope blurted out as high and

He threw his fist again into a body blow.

shrill as a girl, "Judas priest! Was he figurin' to kill you?"

"Kid!" Quarternight said, "shut up."

Splann bent over and wiped his face and got onto his legs unsteadily. He held the back of one hand against his cheek. His hot eyes glared over it. "You've started something, Burnet. I warned you once to stay clear."

"You've got a month's pay coming," he said. "You can take the horse for that. Now get out!" The heated rush of anger was gone now in the way of a storm's tumult that has passed and left only a knowledge of the damage in its wake. This wasn't a clean end; a killer's savage blood was not in him. "When you go," he said, "stay away from camp. I'll throw your bedroll off. I'm letting you out easy. I know... you'll head back to your Open A friends now and work from there."

Splann dropped his arm. "You want to save that?"

"How?"

"Let me see Clay Manning."

He shook his head. "You'll see no one."

Splann turned. He was in the saddle when he said, "You're draggin' down more than you know. I'll see Clay. Tell him so. And there'll be two others when I do!" He pulled his horse around and jumped him into a lope.

Quarternight growled, "Lew, you had him. Why didn't you finish it?"

"Not my way, I guess," he said. "Anyhow, Splann's only one. It wouldn't have settled anything."

Enough time had passed, he felt, for Steve and Clay in camp. He moved back to his horse. From the saddle, with the others up around him, he said, "I know we've all done enough riding in the past twenty-four hours, but I'm going to ask you to ride some more. We're lucky in getting ourselves bunched. That thunderstorm was bad and it must have given a stampede down at Doan's. Those herds were all camped too close together. If they ran they mixed, and it'll take a week to get them untangled. This gives us a chance to trail ahead. So we'll go in and eat and then we'll cross."

There was another reason also he had for moving now. Times like this work was better than anything else. He didn't want Joy, or the men either, with an idleness to go back over what had happened. Now the shock still held them in a numb way. Throwing themselves into the job of crossing would ease the bad hours that were bound to come.

Joy stood at the end of her wagon, both arms rigidly down at her sides. Clay had just stepped back from her. He didn't locate Steve. She drew her head up and raised her eyes to Clay's. "I'm all right." He seemed to look far down in them and see all of this girl's quiet courage and something else in their steady gaze, unreadable to him.

Then Clay was at his side. His hand took her arm. "Honey, you'd better rest." His blue eyes turned with a hot stare. "That goes for the whole camp, I figure. Any objections, Lew?"

He saw where Clay was leading. The challenge was thinly veiled. And that a man even with Clay's surly temper should force any issue now showed him how unexplainably bitter the reasons must be.

"We'll rest," he said, "beyond the river. We're going across as soon as we eat."

"Not if I know it!" Clay jerked his glance to the girl. "Joy, this is up to us. You don't have to go on."

"Clay!" She stared at him with a suddenly lost look. "What are you doing?"

"Joy," Lew said, "never mind. We're all of us on edge. It'll be all right." He moved to Clay's side and put his hand on his arm, his body covering the hard grip of his fingers. He turned Clay and walked him, the grip digging in. They were beyond her hearing when the arm jerked free.

He halted. "Clay, damn your soul." He could speak without anger now. His own life had been bitter and twisted enough at times so that he could know the hounding torment of another's mind. He had that understanding without knowing what was behind it. "This is plenty hard for her," he said. "You haven't made it any easier. What kind of a devil's driving you, Clay? I'll tell you one thing. You needn't hide so much maybe. Splann's quit."

"Quit?" Clay turned and was suddenly rigid and still. "You mean he pulled out himself?"

"Well, no," he said. "I fired him. We had a run-in." He waited, watching that desperate, driven look set across Clay's big face. "Splann will go to the Open A. I know that. What does it mean?"

There was no hot violence that he had expected in the answer. "It means," Clay said, "you've played hell." He swung his broad shoulders and walked away.

Lying there with the mid-afternoon sun bright upon its surface and the green grass stretching away beyond the north shore, the Red looked as inviting as a man could want. But a trail boss never could be sure. He had learned that himself in the way all men had learned it, by grief. Yet he felt that now was the one time to cross. A man shouldn't wait for the high water to drop to normal level. Flood had scoured the river to its hardpan bottom. Later, when the current slowed completely, the silt would pile up. That made you quicksand, the dreaded deathtrap for cattle.

Whetting from the bank, he saw Clay in camp arguing with the men around him. But Quarternight was in there. Clay wouldn't get far with old Rebel John. Off on the flat the pooled longhorns had lain down, resting. Moonlight Bailey and Jim Hope were grazing the horses apart from them along the creek.

He called a yell into camp and saw the men start toward him, all except Clay and Steve. And then, waiting for the riders to come out, and with that sign of Clay's growing rebellion so clear, his mind went to a thing he had not thought of before. Tom Arnold had said for him to look in an old account book that Joy's wagon carried if anything happened. A moment's speculation held him, but afterward in the rush of work he did not think of it again.

Riding on toward the horse herd, he could see the dead-tired heaviness of his crew. Yet there was no complaint and there would be none. "We'll get across and camp early," he promised.

The horses had no fear of the river. Under pressure of the riders strung out behind them they raced to the water and plunged in, sending muddy geysers higher than their heads.

He pulled off on the bank and watched them closely, seeing the flood touch their bellies but come no farther than that. It was safe enough, he thought, to cross the wagons.

When his wave brought them out of camp he saw Clay on the seat with Joy, driving for her, his big shape stiff and set. Without a wait for help he turned down the slippery bank.

(TO BE CONTINUED)

WAY FOR THE ROCKET FLIVVER
W. B. Stout, Detroit engineer, warns the auto industry that the airplane industry is so far ahead of it in new ideas that it may lead the field in automobile making after the war. He thinks the aviation engineers and designers will spring models that will eclipse anything the automobile people have dreamed of.

It seems to make sense. We can imagine the aviation folks beating the gun and coming out with a flivver that will combine the best features of a runabout and a fighter-plane, and with a touring model that will put mothers-in-law in the ball-turret or bomb rack.

We await these coming postwar models in the showroom windows: The Whirlwind Coupe—A zippy number. Has cigar shaped body with two motors and collapsible wings for hopping street intersections. Has distance computer and automatic horizon sights. Rubber raft and flares optional.

The Town Car Terror—Has three motors over rear axle. Seat for pilot and co-pilot on roof. Carries spare motors in fenders. Makes 100 miles an hour. Is air-cooled and has automatic device which flashes red lights when driver has taken wrong road. Powerfully armored in rear to combat motorcycle interceptors.

Helicat Sedan—Nothing can stop this car once it is warmed up. Carries pilot, co-pilot and crew of ten. Room for 250 pounds luggage. Banks beautifully at all altitudes and speeds. Has bomb bay doors. Reversible retractor motors and smart sequence-valves. Also equipped with driftmeters. Forty miles to a gallon. Speed 180 per hour.

Comet Limousine—Just the number for getting anywhere regardless of obstacles. Has four concealed dynamotors. Excellent diver. Carries spare set of landing gear. On road test this car went through ten miles of flak from motorcops unscathed. Another model, badly battered, got home on two wheels and with steering wheel gone. This car operates as efficiently upside down as rightside up, a point to be considered in modern traffic.

It looks like lots of fun ahead, boys and girls. The law enforcement officials are going to love it. But we think the pedestrians are going to be pretty scared by the sight of traffic cops in scout planes.

Tokyo's Mrs. Topping
A woman who calls herself Mrs. Henry Topping broadcasts from Japan in sweet motherly tones, lauding the Japs as a kindly people, assuring Americans that their sons suffer no cruelties and even quoting Yank prisoners as saying, "The Jap is not a bad fellow at all. He is fighting as I am, because I am told to. But he wants to get back to his wife and kids, just as I do."

The Japs pronounce it wrong. What they want is a Co-Barbarity Sphere.

"Ickes Bars Plan for U. S. to Take Over Fish Industry."—Headline.

Omigosh! The thought that there was any talk of federal operation of fishing stands out. Washington controlling the fish catch, mending the nets, telling the habitat when to run and announcing a code for mackerel? It unnerves us.

We are skeptical about results. A carp or hake may give in but wait until they try to tell a big blue, bass or kingfish what to do about holding the line! And we won't believe Chester Bowles is all he is cracked up to be until we see how he comes out in an argument with a swordfish.

An Elmer Twitchell says, a ceiling on fish is better than fish on the ceiling, anyhow.

It will be weeks before we can step into a fish market without thinking of administrators and conferences. Not for a long time can we gaze upon a flit of sole without thinking of arbitration boards. We saw a boiled cod today and couldn't escape the feeling Harold Ickes was in the background, with lemon and parsley.

"Governor Dewey Cuts Budget Five Million."—Headline.

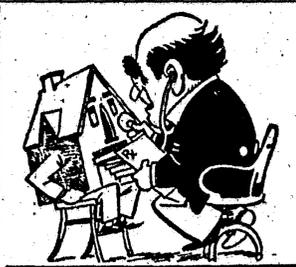

A thing like that can make a man an outcast in this country today.

"Thousands of tenants are complaining bitterly that landlords refuse to paint or redecorate."—Mayor LaGuardia of New York.

We recently met a landlord who was pretty decent about it. He agreed to cooperate. If we would buy the paint and do the painting he would furnish the ladder.

"Traders' Interest Centers in Rye."—Headline.

Gin being harder to get.

FIRST-AID to the AILING HOUSE
by Roger B. Whitman

Roger B. Whitman—WNU Features.
POWDERY CONCRETE

Question: My basement floor has a white, powdery substance which comes out of the cement. I am unable to keep this off, no matter how often I sweep it. How can I correct this?

Answer: If the dusting was not apparent at any time previous, I am inclined to think that efflorescence is forming on the surface of the concrete. This condition might be caused by excessive dampness coming through the concrete to the surface of the floor carrying with it alkaline and mineral salts (in solution). On evaporation of moisture the salts crystallize, forming a white powdery substance. The condition may disappear when the greater part of the dampness in the floor has evaporated. Of course, the powder will have to be removed from time to time. Scrubbing with a wire brush may remove most of the efflorescence. A couple of soaking coats of a zinc sulphate solution may help alleviate the condition. Try this on a small area of the floor to see what effect it will have. Dissolve three pounds of zinc sulphate in a gallon of water and apply liberally. After two or three days for drying, brush off what crystals may have formed and apply a second treatment. Puddles should be wiped up.

MARBLE WALLS

Question: How can I restore my marble vestibule wall and my tile entrance floor to their original appearance?

Answer: Neutral soaps can be used for the ordinary cleaning, or

else scouring powder that is not too coarse, and the same for the floor. But, if the marble is in very bad condition, ask a marble specialist to polish the stone. You can get an excellent booklet on the care of marble by sending 15 cents to the Marble and Stone Institute, 18 East Forty-first street, New York.

Stained Asbestos Shingles
Question: What can I use to remove the stain on asbestos shingles, caused by the old wood in window sills? The stain is under every window on our house.

Answer: Scrub the surfaces of the shingles with a solution of trisodium phosphate or washing soda, about a pound in each gallon of hot water. The use of a scouring powder might be necessary. Rinse thoroughly with clear water. Protect painted surfaces against damage by the solution. You might be able to prevent or minimize the staining by filling all cracks and crevices between the shingles and window frames with a caulking compound. All openings between the sections of the window frame should be well puttied. Rotting wood should be replaced.

Repairing Stucco
Question: I intend repairing the stucco on my house. Will you give me the percentage of sand, cement and crushed stone to make this repair? After this is completed I intend to go over the entire house with a cement wash, or paint job. I believe there is a certain kind of cement for this purpose.

Answer: One part portland cement (white or gray) and three parts of clean coarse sand is the usual mortar mixture for stucco repair. When the stucco has been repaired, coat it with a cement base-paint which comes in powder form and is mixed with water. You can get this kind of paint from your local dealer in mason materials.

Water Glass on Glass
Question: About six months ago I pasted flowered paper pictures on French doors with water glass. Now, since the pictures have fallen off, a hard crystallization has formed from the water glass on the glass panes. Nothing seems to remove the stains. What could I use to dissolve the water glass?

Answer: You will do best to replace the glass instead of trying to remove the water glass. This chemical, when dry, is insoluble with the ordinary household chemicals or cleaners.

Baby Duck Applique For That Play Frock

5600

FOUR buttons, a wisp of soft striped cotton and a gay little duck parade—they all add up to make the nicest little play frock in town! Use bits of yellow and brown scraps for the baby-duck appliques. The pinafore frock includes sizes for 2-3-4 years.

To obtain complete pattern for the Play Frock (Pattern No. 5600) applique Baby Duck and finishing directions, send 15 cents in coin, your name and address and the pattern number. Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers. Send your order to:

HOME NEEDLEWORK Chicago, 538 South Wells St.

Just 2 drops Penetro Nose Drops in each nostril help you breathe freer almost instantly. Relieve the head cold nasal misery. Only 25¢-35¢ times as much for 60¢. Contains Penetro Nose Drops.

THE OLD JUDGE SAYS...

"Somethin' special catch your eye in the paper, Judge?"

"Sure did, Chet...an article here telling about prohibition in India being written off by the Madras government as a dismal failure after a three-year trial. They found out that enforcement was ineffective and that there was a steady increase in bootlegging and other violations of the law which increased penalties failed to check.

"It all goes to prove what I've said time and time again, Chet...prohibition does not prohibit. It's been tried in this country 47 times in the last 33 years and discarded everywhere except in three states. Was found to be a failure and abandoned in Canada, Norway, Sweden, Finland and Russia, too.

"Same thing happens every time...as soon as legal liquor is voted out, bootleg liquor with its crime and corruption moves right in."
