What Is Good For The Goose Is Good For The Gander

The New Deal papers of the state are bemoaning the fact, as they see it, that Hamilton Fish of New York will locate in New Mexico. They are saying that it is the purpose of Mr. Fish to establish himself here and run against Senator Chavez next year. So What-and what does it amount to.

All the howl comes up because Fish is a Republican—if he should be a Democrat it would be all right. But weighing everying in the balance, let us see what has been done before: Governor Dempsey was sent into the state for the expressed purpose of first, running for Congress in which he was successful because of the fact that coming here in the hey-day of the New Deal when a monkey could have been elected to any office high or low. Then he ran for Governor and now for a second time he is in the Governor's chair. Bronson Cutting came here as a Republican and from New York, and Ex-Senator H. O. Bursum took him up made him acquainted with the leaders, got him next to the ropes and for a short time, he walked with the party, but as soon as he got fully entrenched, he turned the tables on his first friends, went over to the Democrats and helped in

a large measure to put the Republicans out of power in the state.

When he came here as a Republican, he was assailed as coming for political purposes, which was right, but as soon as he turned his heel on the party, he was applauded and given the highest seats. He fared well when Governor Dillon appointed him to a seat as Senator, but that was not enough—he sought higher honors at the hands of the Democrats, which he got. Now, as contained in the head of this article, what is good for the goose is good for the gander; Hamilton Fish has as much of a right to come here even if for political purposes as did Cutting and Dempsey. The only difference between Cutting and Dempsey was that Cutting deserted the party which brought him out and Dempsey remained loyal to his side of the fence. After serving on the Dillon appointment and running against Chavez, Cutting got through by the skin of his teeth and to this day, some really think that Chavez was elected. Be that as it may, we still insist that Fish has as good a right to come even for political purposes as did Cutting and Dempsey. Give the gander the same right as the goose.

Letter From "Bill" Ferguson

Dear Mother, Dad and All:

Have a few odd minutes, the first in 8 days, so will let you know I am alright and still carrying ammunition. It has been plenty rough but we have a flag on one end of the islands and have the Nips on the run at the other end. We are doing some real effective firing and all hope to have things secure soon. It has been a shade rough and they are well dug in. Boy I know what it is to be scared, but then we are not working we are making a deeper hole to dig to. I washed my face and feet today and shaved. Sure felt good too. Men have been hungry but still eating K C rations.

Had a cup of coffee last night and it tasted good. We work as long as long as there is a fire mission and that is nearly all the time. One doesn't want to say much as these devils wait until night to fight. These moly fox holes are not quite like home. I can tell you this is Iwo Jima Island and right in Jap territory. The people at home must be working as we have a real navy and air corps, and lots of supplies. One good thing here we didn't have to duck enemy airplanes. Thanks to the air corps I could tell lots if I had time, but no table in my fox hole. Don't worry about me as I believe this island will be secure in a few days. Hope you are all well.
My love,
"Bill" W. M. Ferguson.

W. J. Hooten, editor of the El Paso Times, C. M. Harvey and son Paul came through here Tuesday enroute to the Harvey ranch north of here, where they spent the day and returned to El Paso in the evening. Before they left town, they made this office a friendly call.

Howard Jones, son of Mr. and Mrs. Colonel Jones, is in El Paso, recovering from a tonsillectomy.

Prune Fluff Is a Sugar-Easy Dessert
(See Recipe Below)

Dessert Answers

As the frosty winter melts and soft spring breezes gradually take its place, our thoughts turn to less hearty desserts. First and foremost on our minds is the sugar problem and how we can skirt around it.

There are many helps available today. Although sugar is not available in the quantity in which we'd like it, then, at least, substitutes are plentiful—corn syrups and honey among them.

You can use both fresh and dried fruits which are high in natural sweetness. You can use prepared puddings, prepared cake mixes and flavored gelatin desserts which will not take even a teaspoonful of sugar.

Our star of the column today is Prune Fluff which may be prepared in a loaf pan and served with custard sauce to substitute for whipped cream.

***Prune Fluff.**
(Serves 12)

- 1½ cups cooked prunes
- ¼ cup liquid drained from prunes
- ¼ cup sugar
- 4 teaspoons lemon juice
- ½ teaspoon cinnamon
- ¼ teaspoon salt
- 1 tablespoon plain gelatin
- 2 tablespoons cold water
- 5 egg whites
- 1 teaspoon vanilla extract
- Soft custard sauce

Remove pits from prunes and beat prunes through a pulp. Combine the prune liquid, sugar and lemon juice, spice and salt in saucepan and bring to a boil. Continue boiling two minutes.

Remove from heat. Add gelatin moistened in cold water and stir to dissolve. Pour hot liquid over egg whites and beat well. Add flavoring and prunes and mix thoroughly but lightly. Pour into wax paper-lined mold and chill until firm. Unmold and slice. Serve with soft custard sauce.

The tangy taste of oranges in this different kind of "fluff" makes a nice topping for hot, spicy gingerbread:

Orange Fluff.
(For gingerbread)

- 1 tablespoon flour
- 1½ tablespoons sugar
- Few grains of salt
- 1 egg yolk
- ½ cup orange juice
- ½ teaspoon grated orange rind
- 1 egg white

Mix flour, sugar and salt. Beat egg yolk; add to first mixture. Blend in orange juice and mix well. Add rind. Cook over hot water, stirring constantly. Cover; cook 10 minutes. Chill. Beat egg white stiff and fold in. Serve at once.

Lynn Says:

Kitchen Tips: To shine your stove, rub waxed paper over it after cleaning. This will also keep it from getting rusty.

To clean brass pipes and fixtures, rub with half a lemon, rinse with boiling water and rub dry.

To pick up tiny slivers of glass which may have broken on the floor, moisten a piece of absorbent cotton and wipe over the slivers. This will pick them up and prevent cutting your fingers.

To unloosen stubborn bottle caps, knock on floor on each side of cap and screw loose. For stubborn cases, let hot water run over cap before knocking against floor.

To make cut glass retain its brilliancy, rub with a piece of lemon, then rinse and rub dry with lintless towel.

Here's a gingerbread that takes honors because it uses little of our precious sugar and still is satisfactory from the standpoint of sweetness. Use stewed pears, apricots, apples or nectarines over the top.

Gingerbread Upside Down Cake.

- ¼ cup shortening
- ¼ cup sugar
- 1 egg
- ¼ cup molasses
- ¼ cup milk
- 2 cups sifted flour
- ¼ teaspoon ginger
- ¼ teaspoon cinnamon
- ¼ teaspoon baking soda
- ¼ teaspoon ground cloves
- 1 teaspoon salt

Cream shortening. Add sugar gradually. Add egg and beat well. Stir molasses into milk. Sift together dry ingredients. Add alternately with molasses mixture. Mix until smooth. Prepare square pan as follows:

- ¼ cup molasses
- 2 tablespoons butter or substitute
- 1 cup sliced fruit

Melt butter in square pan then add molasses and arrange fruit in it in a decorative pattern. Pour gingerbread batter over fruit and bake in a moderately hot (350-degree) oven 45 to 60 minutes. Turn upside down.

The dried fruits may be used in this delicious crispy dessert. Or, if you want to use canned fruits or fresh apples or pears, the choice will be a good one:

Fruit Crunch.
(Serves 6 to 8)

- 2 cups peaches, apricots, pears or apples
- 1 teaspoon grated lemon rind
- ¼ cup brown sugar
- ¼ teaspoon cinnamon
- 2 cups lightly crushed cornflakes
- 3 tablespoons melted butter or substitute

Soak dried fruit and then cook until tender. Drain. Fresh fruit need only be peeled and cored. Place in a shallow baking dish which has been well greased. Mix together lemon rind, ¼ cup brown sugar, and cinnamon. Sprinkle over fruit. Mix together cornflakes and butter, and add remaining sugar. Pack firmly over fruit. Bake in a moderately hot oven at 400 degrees for 20 minutes. Serve with or without cream.

Hot Apple Dessert.
(Serves 6)

- 6 apples
- ½ cup seeded raisins
- ½ cup sugar
- 20 marshmallows

Pare, quarter and slice apples. Place in greased pudding dish in layers with raisins and sugar. Cover and bake until apples are tender. Remove cover when apples are done and cover with marshmallows and then brown in hot oven. Serve at once.

Rice-Orange Pudding.
(Serves 4)

- 2 cups cooked rice
- ½ cup dark corn syrup
- ½ cup orange juice
- 1½ cups orange sections

Combine syrup and orange juice. Bring to a boil and boil 5 minutes, then add orange sections. Reheat and add rice. Chill well before serving.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL LESSON

Lesson for March 18

THE LAW OF LIFE

LESSON TEXT—Matthew 25:31-46.
GOLDEN TEXT—Thou shalt love the Lord thy God with all thy heart, and with all thy soul, and with all thy mind. This is the first and great commandment. And the second is like unto it, Thou shalt love thy neighbor as thyself.—Matthew 22:37-39.

Our lesson presents a great judgment scene—majestic, solemn, stirring. Many confuse it with the judgment of the Great White Throne in Revelation 20. But Matthew 25 is obviously the judgment of nations (v. 32) for their treatment of Christ's brethren (v. 40), a word referring primarily to Jews, but also spoken of in Matthew 12:48-50.

The lesson needs broader application, however, so we suggest that we allow the more general principles of judgment occupy our attention. We note that

I. Judgment Divides (vv. 31-33).
The nations, coming before Christ when He shall have appeared in all His glory, shall find themselves separated into two groups on the basis of their treatment of the brethren of Christ.

The fact that God has drawn a line of division down through all humanity and that each one of us is on one side or the other is not a doctrine which finds ready acceptance with modern thinking, but it is nonetheless a fact.

No man established that division—God Himself did it, and did it in love. To some it may seem to be a "hard saying, but it is not, for it comes from the lips of the gentle, loving Jesus.

It is because He loved us enough to give Himself for us that any of us find ourselves on the side of that dividing line which assures us of eternal joy and blessedness.

They who stand on the other side of the line do so because they have not accepted God's proffered salvation in Christ. Reader, where do you stand?

II. Judgment Declares (vv. 34-45).
Our attitude toward God expresses itself in our attitude toward our fellow man. That which we do toward those about us is not a matter of indifference, but is the basis for God's judgment of our lives. Each of us must answer for the deeds done in the flesh whether they be good or evil. That is true even of the believer (II Cor. 5:10), whose salvation has already been determined by his faith in Christ.

Here in our lesson, however, the failure to do that which shows forth God's law of love is made the ground of eternal judgment. This is not because an act of kindness itself can be regarded as the ground of division, but because the failure to give it or do it reflects an attitude of heart toward our God and His Christ, which is in reality a rejection of His way of salvation.

Judgment is thus a revelation of the attitude of the heart, which marks a man or woman as being either saved or lost. It may be possible to so becloud the thinking of our friends and neighbors that we may go through life looking something like a Christian, but when Christ judges, it will all be revealed to us.

Notice the importance of a proper attitude toward those who need our kindness and help. All too often the only concern of men and women is to look out for "number one" and let the rest of the world shift for itself.

Observe also that the Lord identifies Himself with His brethren—what is done to and for them is counted as done to and for Him. Compare the experience of Samuel (I Sam. 8:7) and of Paul (Acts 9:5). Touch God's people and you touch Him. Fail them and you fail Him. Serve them and you serve Him.

III. Judgment Determines (v. 46).
Yes, God's judgment determines eternal destiny. Life eternal, or everlasting punishment, which shall it be? That is determined by God's final word of judgment, but remember that He judges in accordance with the attitude of heart and action of life on this side of the grave.

Now, for that matter, is a part of eternity, and it is consequently of great importance that we are right with both God and man now if we expect to be right throughout eternity.

We need to face this truth of judgment with complete candor and honest heart-searching. We agree with Dr. Douglass that "we must stand with awful concern before this solemn truth. Do not hesitate to teach this because it is contrary to the current of modern thinking or shocking to confront. It needs to be faced in a brave spirit of realism. (As a teacher) you will do your pupils a great disservice if you try to shield them from the grim implications of this truth."

Yes, and also if you keep from them the glorious prospect of eternal joy in the presence of God. The law of life is the law of love—love for God, and for Jesus Christ whom He hath sent to be our Redeemer, and love for His brethren. That law of love rules even in the day of judgment.

Firestone

YEARS of time and experience prove that Firestone Ground Grip tractor tires outpull any other tractor tires in any soil condition any time, anywhere. Obviously, others would like to duplicate the Firestone Ground Grip design but they can only imitate it... because the Ground Grip design is patented.

Put your tractor on Firestone Ground Grip tires and get up to 16% extra pull at the drawbar. The patented Ground Grip tread has up to 215 extra inches of traction bar length per tractor. No wonder it pulls better. It has no broken center tread bars. That means no traction leaks. It has no trash-catching bar stubs. Of course, it cleans better.

Be sure you get patented Firestone Ground Grip tractor tires. Don't compromise with imitations.

Here's a SENSIBLE way to relieve distress of

periodic FEMALE WEAKNESS

(Also a Grand Stomachic Tonic)

Have you at such times noticed yourself feeling nervous, irritable, so tired, a bit blue—due to female functional periodic disturbances? Then don't delay! Try this great medicine—Lydia E. Pinkham's Vegetable Compound—to relieve such symptoms. It's so effective because it has a soothing effect on one of women's most important organs.

Important to Know! Pinkham's Compound does more than relieve such monthly troubles, headache, backache. It also relieves accompanying tired, nervous, irritable feelings—due to this cause. Taken regularly—it helps build up resistance against such distress. Pinkham's Compound makes NATURAL hair grow thicker and longer. It's a special 3 times a day before meals and at bedtime. Follow label directions.

You Can Grow Your Own Tomato Plants

—Photo Courtesy Ferry-Morse Seed Co.

Why not start your own tomato plants from seed indoors this spring? It's one of the surest ways to get fruits of the quality you really like.

Buy a packet of seed, gather your materials together, and get to work about six or eight weeks before time to set the plants outdoors in the garden. If you want a fairly large number of plants, use a shallow box or flat in which to sow the seeds. Many home gardeners who need only a comparatively small number of plants find a ten-inch clay flower pot convenient. Fill the container with fine soil to within one-half inch of the top. Shake the seed from the packet as evenly as possible over the surface. Scatter fine soil over the seeds to a depth of about one-quarter inch. Firm the soil with the flat of your hand.

Cut several layers of newspaper to fit the top of the flat or clay pot. Keep the paper well soaked with water. Every day or so lift the paper and peek in for signs of life. Remove it as soon as the seedlings begin to sprout. Until the seedlings appear, the flat or pot can be placed anywhere in a room of moderate temperature. As soon as they do come up, however, the container should be placed in a sunny window. See to it that the tender sprouts do not get chilled; take care that the sunshine does not overheat them. Keep the soil moist but not too wet.

The plants will probably come up thickly in the container. When the second pair of leaves appear, they should be transplanted to other flats or pots, as the case may be. In their new quarters they should stand one-and-a-half to two inches apart. For a ten-inch pot this means about twelve plants.

Avoid injuring the roots of the little plants by lifting them out gently with a slender knife blade or a pencil. In the second flat or pot make the holes deep enough and wide enough to take the roots without cramping. Firm the soil around the base of each transplanted seedling with your fingers.

Let the plants continue to grow in a sunny window until time to set them out—about one to two weeks after all danger of frost is past. Do not let them get chilled. Turn the containers around occasionally to allow all the plants to get equal light and sunshine.

When it comes to selecting varieties—Bonny Best, Rutgers, and Marglobe are all excellent for eating fresh, for canning, and for juice. Earliana is a good choice if you are looking for early fruits. For a late variety Stone is a splendid standby.

Symbolic Red Cross Emblem To Appear In Windows Again

WASHINGTON, D. C.—Once again, next month, the scarlet emblem of the American Red Cross will appear in the windows of American homes, symbolizing the financial support of the nation in supporting the manifold services of that organization to American fighting men overseas.

In every nation of the world, this red cross has long been the symbol of universal humanitarianism, both in peace and in time of war. Today it is worn by medical corpsmen of all armies and navies serving the wounded. It projects hospital tents, ships, planes and trains painted on each of the International Red Cross ships bearing food parcels to prisoners of war and exchanged prisoners homeward. It is a guarantee of safety from acts of war.

To the giver doing his part to fulfill the \$200,000,000 goal of the American Red Cross in 1946, it represents his personal part in supplying the material things which add to the morale of the American serviceman whether hospitalized or able-bodied.

"The window sticker means more than dollars contributed to the Red Cross," Chairman Basil O'Connor declared. "It means service clubs, canteens, recreation rooms and clubhouses for the men in war theaters." To the American Red Cross, each window sticker is a family's request to the Red Cross to continue its responsibilities on behalf of the son in Italy, the neighbor's boy half a turn around the globe in the Philippines, and the brother fighting on the Western Front. It is the expression of faith of the American people that Red Cross will maintain the supplies of surgical dress-

ings, blood plasma and whole blood, kit bags and comfort articles to the battlefronts. It is a vote of gratitude for the millions of food parcels reaching American men in enemy prison camps.

Opening March 1, the third American Red Cross War Fund campaign for \$200,000,000—the same as last year—will continue throughout the entire month. More than 3,000,000 volunteers will distribute the familiar window emblems, conducting a house-to-house canvass to fulfill the 1946 quota. Along with the window emblem, each contributor will receive a lapel tab fashioned after the Red Cross flag—the flag known to all as a sign of aid and comfort.

LOOKING AHEAD

Stymie Law

On V-Day, when fighting ends and the peoples of a plundered world begin shouting their joy and gratitude in a thousand tongues, aerial bombs and floating mines are going to seem pretty cheap. All treacherous and destructive machines will appear in their right light again. Their values will show as minus quantities. Then slow, cautious men will set to work getting rid of them.

But there are instruments of war more treacherous than floating mines, more ruinous than any block-buster ever devised, Uncle Sam will have one of these on his hands when war ends unless Congress does something about it. It is trained on American factories and farms now, ready to start a bombardment on Armistice Day and nothing can eliminate the serious menace but new legislation.

Congress Can Save

The United States has a law against progress. It was not enacted to stop scientific and industrial development but, if it stays on the statute books in peace time, even for a short while, it will be a government freeze of creative work. It was passed five years ago to raise money for national defense and keep war-mongers from profiteering on the misfortunes of other people.

I am not criticizing the purposes of the act. America had to raise revenue quickly for defense, and right thinking people did not want to see a new crop of war-lords enriched with blood-money. Just the same, there ought to be a new act, worded to take effect on the day of victory, repealing certain provisions in the 1940 tax law which are war measures, ruinous to any people at peace.

Kills New Business

The sense of the law is this: Add up all the profit a firm made in four pre-war years, 1930-1939 inclusive; figure 25% of the total and call it a simple pre-war year's profit. If a corporation earns more than that in any year of war, it must pay the government 55% of the difference in a special tax.

Small business concerns can't grow if the law stands. Really big corporations can escape being devastated. Some will want to expand further and can't, but they can stay big. Here is why: by percentage, not much of a giant corporation's business is over new business; its profits (however big) grow slowly. Small firms, not so. What will be the net result?

Service to Humanity

Thrifty little enterprises like you and I might form will be paralyzed. They can't expand because their dollars of increased profit will be split two ways, 15c to keep, and 85c for the government. Many will die, as losses on development of new products wipe out their meager capital. Huge firms, which have no need for substantial growth, can develop new products with no risk to their strong financial position.

A big company's losses on new developments can be used to reduce taxes on profits from old business. In this way, government pays more than four-fifths of such losses for big concerns. It must be remembered, however, that big corporations are too few to solve the nation's post-war employment problem.

Small companies employ more than 80% of the nation's workers. They handle the lion's share of our national income. What their employees eat makes farm prosperity. If these little firms see a chance to earn a profit, they will get ready for peace. . . new business and new jobs in large numbers. But if until V-Day they remain scared to expand, America is stymied and so is the world.

Raise Some Vegetables You Can't Buy

Photo Courtesy Petty-Mares Seed Co.

The only way you can be sure of having certain delicious vegetables for your table is to raise them in your own garden.

Take Swiss chard, for example. These appetizing greens have been widely grown in Victory Gardens these war years. The reason you don't see them in the markets is because the delicate foliage withs quickly after picking. To enjoy Swiss chard at its best, you should use it shortly after cutting. The same planting will furnish many a "mess o' greens" over a long period if only the outside stalks are cut each time, allowing the center leaves to go on growing. (See illustration).

Sovoy is a type of cabbage not at all improved by being hauled from place to place... the crinkly brittle leaves bruise so easily. By growing a few heads in the garden, you can have this tender, delicately flavored, nearly odorless variety at its finest. It takes no more exertion and care than raising plain cabbage. Chieftain is the variety which has become a universal favorite.

Friends who come to dinner will exclaim over edible pod peas from your garden vines. This is a type of pea which is cooked and eaten like snap beans, pod and all, when the young peas have barely begun to form. The liking for this mouth-watering dish

may have originated in France or Holland. Folks of Dutch ancestry are the ones most familiar with edible pod peas in our own land. Once grown in anyone's garden, they are likely to be on the repeater list year after year.

Do you know that odd shaped vegetable, kohl rabi? Plant a row of it and give the family something out of the ordinary. Although related to cabbage, it is milder and more delicate in flavor. It looks like a turnip growing above ground. Kohl rabi matures quite rapidly and should be eaten when about two inches in diameter.

Anybody can have common cucumber pickles. You can add that extra touch to your list of appetizers by raising West India gherkins. The prickly little oval fruits, picked when fairly small, make unusually good sweet pickles... nearly impossible to get these days for love or money.
