Carrizozo Grizzlies outmatch Ruidoso in Exciting battle of touchdowns, 31 to 27

In a game replete with thrills and excitement until the end, the Carrizozo Grizzlies outmatched the Ruidoso Warriors in touchdowns last Friday evening, five to four, and emerged the winner, 31 to 27.

Behind 24 to 7 at the start of the second quarter, Ruidoso roared back with two second quarter touchdowns to draw up to the Grizzlies 20 to 24 at half time.

The Carrizozo marching band, under the leadership of Jack Zilka, appropriately played "Mr. Touchdown" and "Rough Riders" at half time.

These tunes marked the tempo of the game, for the nine touchdowns scored by both teams during the game probably set a record for county competition. And the game was a hard-fought one throughout.

The 40-piece Ruidoso band's half-time numbers were along a more sentimental note, among them "Little Annie Rooney," "Happy Birthday" and the "Anniversary Waltz."

The fans had hardly settled in their seats when Jim Wilson took the opening kickoff and ran 80 yards for a Ruidoso TD. The try for point was good and the Warriors were ahead 7 to 0.

Two plays later, R. Crenshaw broke through for a 75-yard run for a Grizzly touchdown. The PAT attempt failed and the score became 7 to 6.

Carrizozo's second touchdown came when they took over the ball on their 45-yard line. In two plays, the Grizzlies had scored again, this time on a 35-yard run by J. Beltran. Again the try for point failed.

The Grizzlies' third marker came after they recovered a Warrior fumble on the latter's 45-yard line. F. Vega scored on a pass from R. Crenshaw to make the score 18 to 7 at the quarter end.

A driving kickoff by Crenshaw was hard to handle, Ruidoso fumbling and Carrizozo recovered

"Fire Hazards and Prevention" talk made at Hondo PTA meeting

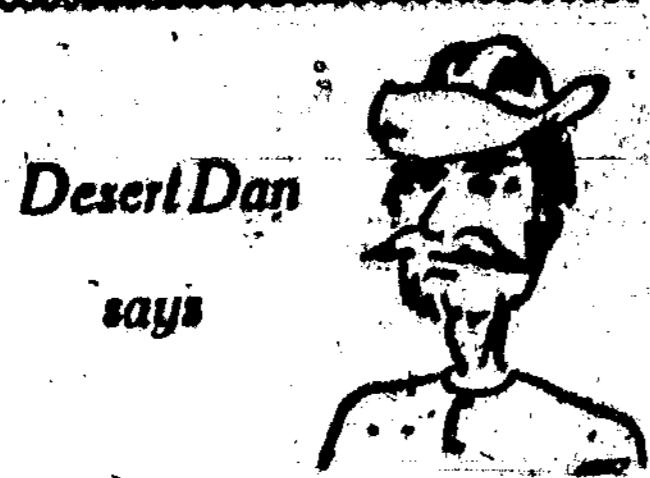

The Hondo PTA met Tuesday evening, Oct. 13 in the high school building for their monthly meeting.

After the business session, Frank Tisworth gave a very interesting talk on fire prevention. He cited several fire hazards around the home, such as overloaded electric circuits to appliances; danger of grease catching fire and inflammable fuels and cleaning solutions being kept too close to hot water heaters.

He said that household baking soda could be used in an emergency to fight a small blaze, but stressed that a good fire extinguisher should be kept handy in every home.

Two new teachers were introduced by Supt. Montes: Mrs. Alma Brewer and Arceno Rodriguez, who replace Mr. and Mrs. Barton Pavay, respectively. Mrs. Brewer will teach the third grade at Hondo grade school and Mr. Rodriguez taught history, band, chorus and general science.

A letter was read from the director of St. Vincent's School of Nursing in Santa Fe, regarding the fine progress being made by the PTA scholarship recipient, Manuela Torres. She is the daughter of Mr. and Mrs. Eloy

RAILROAD FEATHERBEDDING:

\$500,000,000 LOSS

TO THE NATION—INCLUDING YOU—EVERY YEAR

Featherbedding on the railroads—pay for work not done or not needed—is costing the American people the shocking total of more than \$500,000,000 a year.

You pay for it every time you shop, because featherbedding costs are hidden in the price of everything you buy.

Obsolete union work rules, involving the railroad operating employees, are responsible for this gigantic burden. Right now, for instance, these rules require every diesel locomotive to carry a fireman—even though diesels have no fires to stoke, no boilers to tend.

The forthcoming negotiations between the railroads and the unions are urgently important to the whole nation.

In asking the unions to drop these featherbedding rules, all the railroads ask for is a fair day's work for a fair day's pay.

IN MEMORY OF THE ROLLANDS

With the passing of Frank Rolland of Alamogordo, Otero county has lost one of its most prominent and highly-respected citizens. Mr. Rolland and his brother, the late A. J. Rolland of Carrizozo, came to New Mexico from Michigan about 1906 and established drug stores in Alamogordo and Carrizozo. Both were builders of their communities and very much esteemed in their respective counties.

Art Rolland served Lincoln county as treasurer for two terms and easily could have had any office of his choosing, but he preferred to serve the public in his own business.

The new owner, Eusebio Baca, still carries the firm name of "Rolland's" as a memory to his employer, and we presume it will be likewise in Alamogordo for Frank Rolland.

Louis Adams, Roy Baird, Emil Anderson, Elmer (Red) Eaker, Jake Cole, Florentino Lopez, Ray Warner and John Dolan were other trustworthy young men who were at one time household fixtures in Rolland's Drug Store in Carrizozo.

Emma Baker has returned from surgery in Albuquerque and is doing nicely, we are glad to report. Mr. and Mrs. Lawrence Gonzales have gone on furlough to Las Vegas and Mora. Their second honeymoon, we presume.

Mrs. John Paddock visited Mr. Paddock here for several days last week.

Social worker Serafin Vigil and son Mike spent the week end in Santa Fe, returning in time for duty and school Monday morning.

The following had visitors last Sunday: Mrs. Bowley, Rita Luera, Stella Castillo, Gilbert Sovedra, Mr. Jarvis, Richard Lynch, Joe Baca, Fabian and Apolonia Marquez.

Perry Zamora went to Roswell Saturday and flew a while in flight training.

Walter Gilmour was taken to Roswell last week for an appendectomy. He is doing nicely.

Jim Hoskie won first on his billfold and second on his painting at the fair in Roswell last week. Congratulations, Jim!

The film "How Disease Travels" was shown at the clubhouse last Thursday afternoon. A discussion period was held following the film.

Thanks to Mr. and Mrs. Tony Navarra for the pinon nuts. They were sure good and tasty.

Port Rough on Skunk Family

One evening, about dusk, last week, we were out on the front porch and saw two more skunks prowling on the lawn. About an hour later we heard some shots. Next morning we saw some blood on the walk and trailed it to the schoolhouse, where one of them had gone to die. Hi! That was some game Friday. Near the end it was pretty close, but we won with a score of 31-27. I think our boys are really ones to be proud of and we owe an extra special thanks to our coaches, Mr. Laabs and Mr. Bode; they have really done a wonderful job, especially when you remember we only won one game last year and that one by a narrow margin. Is it the boys or the coaches who make such a difference?

Here's a letter from an "X" student of Zozo, from Chicago. Many of you will remember her. She takes the Lincoln County News and reads the column—so take what she says with a "grain of salt":

Dear Pam: How are you and everyone else? I hope everyone is OK. I'm writing this because of the last article (column) you wrote. Some wrote that it seems his or her school is trying to make the kids like school more; they were taking a bus to the Eastern N. M. state fair. The schools here (in Chicago) are good schools, but in grammar school anyway, it's all work and no play. In high school they have sports, but as far as I know it's almost all work and no play.

If I had a choice about where to go to school I'd choose Chicago even if I don't like the city. New Mexico has been improved quite a bit but it still has a long way to go. I think the kids could help improve the schools. What people don't know will hurt them!

When I first came to the Chicago schools I had a hard time keeping up with the other kids. The first of this year we went into "square root" in math. Usually that is taught in high school.

When I went to Carrizozo to school I fooled around and didn't pay much attention but I still got straight "A's". Here, if I don't pay attention, I get a "U" (unsatisfactory).

To check on fluid milk

Beginning in October, inspectors of the Food and Drug Administration will step up their program of investigating the production of fluid milk. Samples will be collected for examination for antibiotics and pesticide residues from shipments of milk in inter-state commerce or milk offered for interstate shipment.

The object of this regulatory program is to eliminate antibiotic and pesticide residues from milk, says John J. Durkin, extension entomologist at New Mexico State University.

Penicillin and other antibiotics used in the treatment of mastitis and other infections should always be used within their limitations, Durkin warns.

Gamma Theta tea For rushing season

Gamma Theta of Beta Sigma Phi at Corona entertained at tea Sunday afternoon, Oct. 18, in the home of Francis Lovelace. The tea was held with a cloth of Madeira cutwork and was centered with gold candles and a heart of gold mums, in keeping with the theme of the rushing season—Heart to Heart.

Imported china and the sorority's silver tea service completed the table appointments. Frances Lovelace and Geraldine Perkins were invited to pour.

Favors were small heart-shaped pillows hand-made of gold crochet, laced with black ribbon, carrying out the rush motif in colors of the sorority.

The Fort Bayard Veteran's Hospital near Silver City was originally established on August 21, 1880, as a post to keep an eye on the Apaches.

Many men who became famous in the army put in time at the fort. Probably the most famous was General John J. Pershing who was stationed there in the 1880's while still a lieutenant.

In the 1870's the following report on Fort Bayard was filed with the War Department in Washington:

"The Commanding General of the District of New Mexico will establish a post in the vicinity of Pinos Altos, to consist of one company of infantry and two of cavalry, or three companies of infantry with one hundred horses for mounted service, subject to the approval of the Secretary of War." This post will be called "Fort Bayard" in commemoration of the name and services of General G. D. Bayard, deceased.

"The first of the visitors made their appearance on Sunday evening and from that time there was a constant arrival up to 9 o'clock Monday evening, and such was the appreciation of the guests of the fare and the fun that the last of them did not depart until Wednesday afternoon. Every section of the country surrounding the spring was a constant source of pleasure to the guests.

"The attention of this end of the Black range was totally absorbed, the first of this week, by the dance at Ojo Caliente on Monday evening. The boys who hold the fort and the stock and ranchmen of the vicinity made the most ample preparations possible with their limited resources and the entertainment furnished was of the most excellent and generous possible.

Final plans made for Federation's 4th District Convention in Carrizo

After a short business meeting of the Carrizo Woman's Club last Friday the meeting was turned over to Mrs. M. R. Baumgartner, president of the Fourth District of Federated Woman's Club of New Mexico.

"The garrison consists of four troops, Sixth United States Cavalry, and two companies, Thirteenth United States Infantry. Ft. Bayard is also the headquarters of the Sixth Regiment of Cavalry and is at present commanded by Major Abraham K. Arnold of that regiment, a graduate of 1854, who has served since that time with distinction in the Indian country and in the Army of the Potomac during the war."

After being used for 34 years as a base to protect the miners in the Pinos Altos area, the last troops were withdrawn from old Fort Bayard on January 2, 1900, and the fort site has been used since as a federal hospital.

Mr. W. F. Ball gave the devotional and read a delightful poem entitled "Friendship."

Mr. Lewis Farris, program chairman, had the group stand and sing in unison "Oh, Fair New Mexico," with Mrs. T. E. Kelley playing the piano accompaniment.

Guests introduced were the Mmes. S. S. Dodson, R. H. Bradley, Thomas Kerns and Mrs. Baumgartner of Alamogordo.

Members of the club are now taking orders for the birthday and anniversary calendars for 1960.

Refreshments of delicious pumpkin pie, topped with chopped nuts and whipped cream, salted nuts and coffee were served by the hostesses, the Mmes. R. E. Lemon, Roy Shaffer and J. D. Buntin.

Mrs. E. T. Fletcher, president, presided.

"The post is in a valley bounded by hills of granite in which gold, silver, copper, iron and lead are found; the nearest rail road station is nine miles distant at Silver City, a flourishing mining town. The country in the neighborhood is unsuited to agriculture, but affords excellent grazing and abounds in large and small game."

"Fort Bayard is on the side of a hill sloping to the east; the buildings are of adobe, one story high and shingled, forming a parallelogram.

"The fort was advertised for Monday night, but it didn't stop then, for Tuesday evening a goodly portion of the guests yet remaining, the fantastical too was permitted to bob to the tune of the muscians, John S. Charles, H. Shannon and Charles Stevenson, and with the regular floor manager, E. C. Houghton and Kean St. Charles.

"No part of the entertainment is given higher praise than that of the culinary, which department was presided over by Charles Stevenson, and Frank Reynolds, who if they ever need another ulcer can apply to any guest present for recommendations.

"A young bullock killed especially for the occasion furnished a high quality of meat—cooked to the queen's taste. The own and the neighboring gardens furnished vegetables and melons of the nicest varieties and in bountiful quantities, and these were supplemented by fruits and other delicacies too numerous to mention, all of which were attacked by appetites sharpened by long rides in a bracing atmosphere in a manner to spread alarm in a harder of less amply resources."

"A tent was erected over the

big spring and baths were free, which was true of everything about the place. The gentlemen present say that it is the cheapest place they ever visited, for strive as they might, nobody about the place could be induced to take cash for anything. Aside from the watermelons, there was no disturbing element at the Ojo Caliente party and all attendants agree that they were royally treated and had a glorious time."
