WORLD'S FAIR NEWS.

Friday of last week Prof. Carrera reached White Oaks on his territorial tour in the interest of New Mexico's mineral display at the World's Columbian Fair. Our leading citizens at once organized a meeting and received the Prof. in a very creditable style. Committees were formed to show him the many mineral resources surrounding White Oaks, and the mines, the coal, iron and marble deposits were visited and inspected. Mr. Carrera has seen everything and many times manifested signs of admiration at our rich gold mines and vast deposits of coal and iron, and left with the kindest feeling for White Oaks people and opinion of the bright future growing out of the unlimited resources which envelope us as the atmosphere.

The LEADER never lets an opportunity slip to obtain news for it's readers, and Prof. C. coming to us bearing credentials from the most distinguished and reliable gentlemen in the Territory we lost no time in button holeing him while ensconced in our office chair. We first insidiously enquired:

What impression has our little place made upon you? Without hesitation he replied:

White Oaks, in my estimation, will be a large place one of these days. It's dormant richness will be awakened by the magic influence of the iron horse. The world needs your iron, your coal, your gold, just so soon as the world knows that you have so much of these imperishable commodities. At present you are striving to get it before the people with which to market your ores and fuel. To do this you must inform capital that you have a field for it's investment. You have now a distinct opportunity to advertise your abundant resources. The World's Fair will show your riches to the entire world. It is with you to hasten your success. No other means can advertise so completely and so profitably your vast mineral wealth as this great Fair, where you can make a display second to none in the country. Your magnificent gold specimens will surely be matchless in the mineral building at Chicago in 1893.

Will you not tell us something about the mineral resources you have seen on your way coming up from Las Cruces that may be of importance in regard to the R. R. project that will be agitated in convention at El Paso on the 21st inst.?

Yes, with great pleasure; and so much more so as I believe that what I have seen would indeed encourage the building of your R. R. I will mention the several mines along the Organs, San Andreas, Jicarillas and White Mountains, all full of ore, idle only from lack of means for transportation to market. These mines will keep many locomotives puffing up the beautiful valley in which you are located and the gem of. I must speak, especially, of the remarkable deposit of gypsum midway between here and El Paso and just on the line of the survey of the White Oaks R. R. This unique deposit of gypsum is approximately 50 miles from north to south, and 20 miles from east to west—how thick nobody knows. Enough to say that the phenomenal sea of sulphate of lime shows more tonnage in sight than the world will be able to use for many years to come for agricultural purposes, artificial marble and Plaster Paris. Besides this deposit of gypsum there are in the same locality vast accumulations of carbonate of soda, chloride of sodium, epsomite, and probably other as valuable minerals. This alone will provide enough business for any R. R.

How about means? Will your Board have sufficient money to make a display worthy of the Territory and of the great Fair?

The means the Legislature has appropriated are surely insufficient for the purpose—only $25,000, while other Western States have given several hundreds of thousands. But we do not propose to appear shabby, and rather than to appear so we shall stay at home. It is proposed, and the law provides for it, that the counties help us. Besides private aid, we hope will come to the rescue. At the meeting held here on Saturday, Mr. Morris Parker was made my deputy. He will assist me in making a fine display from this part of the Territory, and he will start a subscription to defray expenses for making such collection. I feel that every noble minded man will help him, whether he is directly or not interested in mining as it is well known that from the success of the mines depend the welfare of the whole Territory.

The Territorial Board is very anxious to have the mineral display the most important of any, and to that end it offers a $200.00 gold medal for the best one.

Yes, Mr. Editor, I wish you would express in your influential paper my heart-felt sentiments and good wishes for this beautiful camp and it's generous people who so kindly took charge of me while here.

The awful stories of distress that are already coming form the famine stricken regions of Russia show very clearly that relief measures on immense scale will be necessary to prevent suffering such as the civilized world has hardly ever experienced before. The Russian government doubtless has it in its power to greatly relieve the sufferings of these people, but a nation capable of such barbarities as it has practiced toward the unfortunate Jews within its borders is not apt to be greatly moved by the present suffering in that country. It will move in the matter probably about as far as it has to and no farther.

CITIZENS' MEETING.

August 29th a meeting of the citizens of White Oaks was held at Town Hall.

Wm. Watson was elected chairman and G. R. Young Secretary.

Object of meeting was stated by Col. Heman to make a proper showing at the convention to be held at El Paso of our unsurpassable resources; demonstrating to the convention how a R. R. would pay and the amount of tonnage provided when the highway was completed to White Oaks.

Prof. Carrera, of Las Cruces, was then introduced, who stated that he was visiting all of the mining towns of New Mexico, desiring the appointment of committees for the collection of a proper exhibits at the World's Fair to be held at Chicago, 1893.

The following committees were then selected:

On Gold—Wm. Watson, B. H. Dye, J. D. Grumbles, F. Lloyd, Morris B. Parker.

Coal—E. W. Parker, T. W. Heman, Ed. R. Bonnell, A. Schinzing and J. P. C. Langston.

Iron and Marble—Jno. Y. Hewitt, T. W. Heman, Geo. L. Ulrick, G. R. Young and B. H. Dye.

Copper, Lead and Building Material—John Y. Hewitt, W. Watson, B. H. Dye, L. H. Rudisille and Jones Taliaferro.

It was moved and carried that the several committees extend to Mr. Rose, representative of the Las Vegas Optic, such courtesies as will show him the resources of White Oaks and vicinity, especially our mineral wealth.

Morris B. Parker was appointed by Prof. Carrera his Deputy Mineral Assistant.

Adjourned to meet subject to call of Chairman.

ADVICE TO MOTHERS.
MRS. WINSLOW'S SOOTHING SYRUP, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhœa, regulates the bowels, and is, by giving rest to the child, it rests the mother. Price 25c. a bottle.

America has 36,000 miles of boundary, or more than the coast lines of Asia, Africa, Europe, Mexico South America combined.

He—And, darling, what does your father think of my suit?

She (sobbing)—He thinks it is a misfit.

Territorial Fair Notes.

The D. & R. G. R. R. and the Santa Fe Southern have joined hands and made a rate one full fare for round trip from all points on their lines in New Mexico to persons desiring to visit the Territorial Fair at Albuquerque.

—Those having paintings, water colors, etchings, or other articles of art, can feel that good care will be taken of them if sent to the Fair.

—The management this year expects a representative from the Bureau of Agriculture at Washington to be present at the Fair and note the agricultural and horticultural resources of the Territory. It is especially requested that everyone contribute something in order to make a complete showing.

—Those wishing a treat should be present on opening day, Sept. 14th, and hear the address of Gov Prince. Those at the Fair last year will always remember with pleasure the remarks made by the Governor. The plain truth is the Governor always says something good to remember.

—Mr. C. H. Blanchard has charge of the accommodations outside of the hotels and those wishing rooms should write him at 210 Railroad Avenue, Albuquerque, and secure accommodations early as the attendance at the Fair will be very large.

—Prof. C. Meyrelles, bandmaster of the 2nd Cavalry band, engaged to play at the Territorial Fair, has a very interesting history. He comes of a family of musicians, his father being a bandmaster in the Portugese army for many years. He emigrated with his family to this county in 1870. Prior to coming here Prof. Myrelles was leader of the band in the Crystal Palace of Oporto, Spain, for five years. He was a member of the famous Gilmore Band of Boston, and when Gilmore moved to New York to take charge of the 22nd Regiment Band Prof. Meyrelles went along and remained with him until 1883, when he was appointed chief musician of the 2nd U. S. Cavalry. Besides being a musician of note he is famous for his compositions and arrangement of military music.—While the 2nd Regiment was in the Northwest he played for three years at the Mechanics' Fair, and each year received a premium and a handsome present in recognition of his service. His Band is composed of 20 members and will play every afternoon of the Fair, and with the concerts at the Opera House, Armory, music of the parade and the open air concerts in front of the San Filipe Hotel.—Surely visitors will be royally entertained.

CONSUMPTION CURED.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Powers' Block, Rochester, N. Y.

Ex-Senator Pomeroy of Kansas died at Worcester, Mass., a few days ago. At one time he was a prominent member of the United States senate, and a leader in Kansas politics.

It is the drop of water that wears the rock. Little irritations wear on the public.

In a previous issue of the BULLION the sale of the Old Abe mine of Lincoln county for $600,000 was announced. Our information was derived from one of the most responsible mining men of New Mexico and one with whom we have been intimate for nearly two decades. Both those excellent journals, the Leader and Interpreter, deny that such a sale was effected, but until further information we will back our correspondent whose attention we call to the matter.—El Paso Bullion.

Our information concerning the sale referred to was derived from the owners of two-thirds of the Old Abe Mine—that is, it's non-confirmation, but positive contradiction—and they ought to know the facts about as well as the mining man," who gave the Bullion the item, however "responsible" he may be, and we will set our information for reliability against the mining man's, even if the editor of the Bullion has been intimate with him for "nearly two decades," or even longer than that.

There is a pretty general feeling abroad that the New York Sun's sustained attack on Cleveland has practically eliminated him from the contest for the Democratic nomination next year. If, however, the Democrats look to New York for their candidate they are betwixt the devil and the deep sea. With Cleveland out of the question, they cannot take Gov Hill, for then they would lose the support of the entire Mugwump press—the Times, the Post and other papers. It looks like Gorman's opportunity; perhaps Carlisle's. A large element of the Democratic part of the North is begining to look favorably upon the idea of a Southern candidate.

A Mystery.
How the human system ever recovers from the bad effects of the nauseous medicines it is literally poured into it for the suppositive relief of dyspepsia, liver complaint, constipation, rheumatism and other ailments, is a mystery. The disabled done by bad medicine is scarcely less than that caused by disease. If they who are weak, bilious, dyspeptic, constipated or rheumatic, would oftener be guided by the experience of invalids who have thoroughly tested Hostetter's Stomach Bitters, they would in every instance obtain the speediest and derivable from rational medication. This medicine is a searching and at the same time a thoroughly safe remedy, derived from vegetable sources, and possessing, in consequence of its basis of pure spirits, properties as a medicinal stimulant not to be found in the fiery local bitters and stimulants often resorted to by the debilitated, dyspeptic and languid.

I hate the pants that mother pinkes
And "leaves me room to grow;"
That's why they drag around my legs,
That's why they wobble so.
That's why the pockets at the side
Are 'way down by my feet;
And the way I know the front from back
Is the patch that's on the seat.
That's why they look so kind of queer;
I'm going to tell her so
I hate these pants that mother makes
With "lots of room to grow."

The limited mail on the Pennsylvania line made its fastest run between Columbus, Ohio, and Indianapolis, Ind., last week. The distance is 188 miles and the run was made in four hours and thirty-five minutes, deducting stops. The average speed was fifty-eight miles an hour and thirteen miles were covered at a speed of seventy miles per hour, three of the thirteen miles being run at a speed of seventy-four miles per hour.

"Early and often" should be the advertiser's motto.

FAMILY SCRAP-BASKET.

An Interesting Compilation of Household Fact and Fancy.

The most successful method of destroying black ants that infest a house is to pour kerosene down their holes, which will be found near the house somewhere. Set it on fire, and cover over all a wet pad or old blanket. In this way a complete colony may be wiped out.

In putting down carpets if care is exercised in thoroughly drying the floors beforehand, the moths will not be so liable to bother in the house.

When making frosting in warm weather, set the whites of the eggs on ice for a short time before using.

No matter how large the spot of oil, any carpet or woolen stuff can be cleaned by applying buckwheat plentifully and faithfully, brushing it into a dust-pan after a short time, and putting on fresh until the oil has all disappeared.

Every mother knows how difficult it is to clean the baby' finger-nails. By folding some tissue paper into a sharp point, and when using it calling the attention of the baby to something else, this simple task can be easily performed. The paper is so soft that it does not hurt the tender flesh, yet it is sufficiently firm to remove every particle of dirt.

Lard may be made perfectly sweet by boiling a pared potato in it.

After beating an egg thoroughly in a bowl, add a cup of cold water and use enough of this to wet your coffee when making. Keep it in a cool place and so waste no more egg by drying.

Willow furniture should be scrubbed well with salt and water, applied with a nail brush, to clean it. Dry it thoroughly.

Cups and saucers stained with tea may be made bright again by using damp salt.

Placing a piece of zinc on the live coals in a stove or grate is an easy way to clean a sooty chimney.

A large proportion of the "currant jelly" sold to hotel-keepers and bakers is said to be manufactured from gluten and acids, colored to resemble somewhat the genuine article. As it can be bought for about four cents a pound, and "answers the purpose" as well as the more costly genuine jelly, the latter is not in great demand.

Kerosene oil should be kept for use in air-tight closed vessels. A large quantity is best kept in a well-corked can, provided with a faucet an inch or two from the bottom, so that the oil can be drawn off as required without disturbing the sediment which usually collects on the bottom of the vessel. The oil for daily use should be kept in a small can, kept corked at the neck and spout. If either cork be left out for a day or two, the oil will burn dull and kerosene is kept in a warm place.

If the eggs you have to use for frosting are not quite as fresh as you could desire, a pinch of salt will make them beat stiffly.—Boston Budget.

WORKS OF CHARLES DICKENS,

In Twelve Large Volumes,

Which we Offer with a Year's Subscription to this Paper for a Trifle More than Our Regular Subscription Price.

CHARLES DICKENS.

Wishing to greatly increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a complete set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for little more than our regular subscription price. Our great offer to subscribers will be a revelation to them. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has written a line that he achieved, and his works are more read and popular to-day than during his lifetime. They abound in wit, humor, pathos, masterly delineation of character, vivid descriptions of places and incidents, thrilling and skillfully wrought plots. Each book is intensely interesting. No home should be without a set of these great and remarkable works. Not to have read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, with new type, on fine paper, and contains the following world-famous works, each one of which is published complete, unabridged and absolutely unique:

DAVID COPPERFIELD,
MARTIN CHUZZLEWIT,
NICHOLAS NICKLEBY,

A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying the great delight of reading these masterpieces. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at such a price which all can afford to pay. Every home in the land may now be supplied with a set of the great novelist's works.

Lincoln County LEADER one year and full set of Dickens, for $6.75.

LOCAL ROUNDUPS.

Luck sometimes makes a name.
But printer's ink in black and solemn,
Will give a man peculiar fame,
When put in this peculiar column.

Wood has gone East to buy his fall stock of goods.

The public school will open on Monday, Miss McGrew, teacher.

Ernst Lancston has returned home from his Eastern pilgrimage.

The smiling, not to say good looking countenance of W. McHoyle, again illumes our streets.

Mrs. McCourt and her daughters, Jennie and Margie, have gone to Las Vegas, where the girls will go to school.

Never was Lincoln County so well and accurately written up as it is now being done by Mr. Ross, of the Las Vegas Optic.

The last item of Goodman, Ziegler & Co., are already preparing their store for the reception of a mammoth stock of fall goods.

The White Oaks Republican League met on last Wednesday night and appointed the following named gentlemen as delegates to the Territorial Convention to be held at Albuquerque on the 17th inst., viz:

T. W. Heman, Ed. Uebrick, E McB. Timoney, Jos. Grieshoeber, Jos. L. Church.

The World Benefited.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited, as when Syrup of Figs was first produced the world was enriched with the most perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more we value it because.

Rev. Bunce, who has been absent some two weeks attending the Conference of the M. E. Church, South, returned this week having been remitted back to us for another year. He informs us that White Oaks is now a complete charge and that Lowrie services will be held in the chapel every Sabbath. Rev. Thomas, formerly pastor here, has been relegated to his late charge, San Marcial.

At a public meeting of the citizens of White Oaks, held Sept. 1, 1891, the following resolution was unanimously adopted:

Resolved—That Prof. J. C. Curtis be and he hereby is requested to act as a delegate and representative from White Oaks at the El Paso R. R. Convention to be held Sept. 21, 1891.

Thos. W. Human, Chm.
J. Y. Hewitt, Sec.

Last Monday evening's Las Vegas Optic contained the following: "Wm. C. McDonald and Mrs. Frances J. McCourt, both of White Oaks, N. M., were united in marriage this morning, at 9 o'clock, at the home of Rev A. A. Layton, pastor of the First Baptist church who pronounced the ceremony.—Mr. McDonald is one of New Mexico's leading business men, while Mrs. McCourt was one of the Territory's handsomest and most accomplished young widows. Mr. McDonald and bride left for Clayton and the East on the morning train.

A well organized effort is now being made to organize a new Academy Association.

The law passed in the house of commons prohibiting the employment of children under 11 years affects 200,000 little workers.

The population of the State of Nevada is 45,761, a decrease of 16,505, or 26.51 per cent since 1880 when the State had a population of 62,266. In every county but two decreases are shown, owing, no doubt, to the decadence of mining interests.

PROPOSALS FOR FUEL FORAGE & STRAW.—Headquarters Department of Arizona, Office of the Chief Quartermaster, Los Angeles, California, September 1, 1891. Sealed Proposals will be received at this office, and at the office of the Quartermasters at each of the posts below named, until 11 o'clock a. m. Thursday, October 1, 1891, and then opened in presence of bidders, for furnishing and delivering at military posts in the Department of Arizona as follows: Forts Apache, Bowie, Grant, Huachuca and Thomas and San Carlos and Whipple Barracks, A. T., Los Angeles and San Diego Barracks, Cal., and Point Bonita, Wright and Stanton, N. M., and Fort Forage of Straw at Albuquerque, N. M. Preference given to articles of home production and manufacture, conditions of price and quality being equal, and such preference given to articles of American production and manufacture as may be required on the Pacific Coast to the extent of the consumption required by the public service there. Proposals for other class of supplies required, or for quantities less than the whole required, for delivery of the supplies at points other than those above named will be entertained. Specifications, general instructions to bidders and blank forms of proposals will be furnished on application hereto or to the Quartermasters at any of the stations named above. A. S. KIMBALL, Quartermaster, U. S. Army, Chief Quartermaster.

NOTICE.

Erastus W. Parker, vs. John T. Reid. } In the Dist. Court, County of Lincoln.

The said defendant, John T. Reid, is hereby notified that a suit in assumpsit by attachment has been commenced against him in the Dist. Court for the County of Lincoln, Territory of New Mexico, by said plaintiff, Erastus W. Parker; damages claimed $179.75, on account of a promissory note and on oath account and that the property has been attached thereto, and that unless he enters his appearance in the said suit on or before the first day of the next October term of the said court, commencing on the 5th day of October, 1891, judgment by default shereon will be rendered against him and his property sold to satisfy the same.

$200 Reward for Ore Thieves.

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion. Therefore, the "Old Abe" Company offers a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holder of Old Abe specimens.
