IS IT ON THE LIST?

Ammonia and Alum in Baking Powders. How to Detect Them.

In view of what the Minnesota Senate has done, it is hoped that legislative bodies in other states will soon take up the subject of food adulteration. The subjoined list of baking powders containing ammonia and alum compiled from official reports and published in a recent number of the Scientific American, is given below. "It deals in a direct manner with an evil which must be set down," said the Chicago Tribune in commenting on the Scientific American report. Following is the list of

Ammonia and alum are the most common adulterants used in the manufacture of baking powders. The Government reports show that a large percentage of the baking powders on the market contain either one or the other, or both these pernicious drugs.

What woman would use an ammonia or alum baking powder if she knew it? Such powders not only undermine the health but are made great to the complexion making it of blotched appearance. The presence of ammonia or alum in a baking powder, however, can easily be detected.

To Detect Ammonia—Mix one heaping teaspoonful of baking powder with one teaspoonful of water in a tin cup; boil thoroughly for a few moments, stir to prevent burning, and if ammonia is present you can smell it in the rising steam. Or, place a can of the suspected powder top down on a hot stove for a minute or two, then take off the cover and smell.

To Detect Alum—Alum powder can be tested by putting a couple of teaspoonfuls of the powder in a glass of cold water.—If no effervescence, that is bubbling or simmering, takes place, condemn the powder and return it at once.

Some alum powders, however, like the "Calumet," "Ben Bon," "Chicago Yeast," etc., contain phosphates in combination with alum, and with these brands the following test is simple and sure.

Take one half teaspoonful of baking powder in lid of any half pound can; char thoroughly over a strong alcohol flame, a good gas jet, or red hot coals. After charring (that is, burning until the whole mass is black) add a teaspoonful of water and place a bright piece of silver coin in the solution. Stir for one minute; then take out the silver. If the powder prove a cream of tarter powder the coin will be bright; if an alum powder it will have a dull plate stain.

Now pour a little vinegar into the lid and smell the fumes. Alum powders give off sulphuretted hydrogen, which may be detected by its foul odor.

The Western Settler's Chosen Specific.

With every advance of civilization into the far West, a new demand is created for Hostetter's Stomach Bitters. Newly peopled regions are frequently less salubrious than older settled localities, on account of the miasma which rises from recently cleared land, particularly along the banks of rivers that are subject to freshets. The agricultural operations can reach such localities, when he does not already do so, when the settlers afford the only sure protection against malaria, and those disorders of the stomach, liver and bowels, to which climatic changes, exposure, and unaccustomed drinking water or diet subject him. Consequently, he takes an estimate with this great household specific and proceeds to commence to use it on the first symptoms of fever, and is careful to keep it and a restorative and promoter of health so regularly to be relied upon in time of need.

LAST week Gov. Geo T. Anthony was interrupted in a speech he was making at Burr Oak, Kansas, by an Alliance man, who enquired of him why the government provided warehouses for whisky but rejects the sub treasury. Mr. Anthony promptly silenced his interrogator and sent him home with his thinking cap on.

"O, I came here armed," replied Anthony. "Here," holding up the statutes, "is the law on whisky warehousing. It costs 60 cents a gallon to distil whisky. The government taxes it ninety cents a gallon, and then the distiller builds a warehouse and the government permits him, under surveillance, to store whisky there and the payment of tax is delayed during the period of warehousing. Now, if you want your wheat taxed nine times the cost of production, and if you want to build a warehouse for it, the government will probably consent to let the bill rest for a time. This is the whisky warehouse law."

DR. PRICE'S Cream Baking Powder.

Used in Millions of Homes—40 Years the Standard.

He had seen better days. Anybody could tell that. To get down to hard facts he was a tramp.

He walked up west Main street in an aimless sort of way and his every action gave proof to the fact that he was playing in hard luck. Just up by Plymouth Av. came another tramp came along. The second one differed from the first but a very little in his general makeup. He was younger, though, and not quite so dirty.—The two then met and stopped.—They eyed each other curiously a moment and then the second one said:

"How's things?"

"Bad," replied the first one contentiously.

"Same here," said the other one, grimly.

"Ever try grab?"

"Nop."

"What are yer doin'?"

"Lookin' fer it."

"Where yer goin'?"

"Goin' ter try my luck out here on this street. Wenever the same woman four times by callin' an' askin' if her mother was in.—She's 60, but she thinks she don't look it, an' she's bit every time on the same gag. Wanter go 'long."

The young man was pleased at the prospect and said that he did. Up the street the two pedestrians sailed, and, after a few minutes walk, reached the house where the susceptible woman lived. Just as the man who had been there four times was about to make another try, a happy thought seemed to strike him and he turned and said:

"Say, what's the matter with you goin' in an' makin' a bluff at her. She'd know me this time sure."

"What'll I say?" asked the young man.

"Aw, give her any guff yer think of; Ask her 'f her grandmother is in an' w'en she tells yer that she is dead beg her pardon and tells her she's so young lookin' that you thought she was livin' with her. Any sort of stuff'll go, she's so dead stuck on bein' taken for younger than she is."

The young man was tickled with the idea and he pulled the gate open and walked the front steps with a nonchalant air an pulled the front doorbell. In a moment the lady of the house came to the door and he took his hat off and made a low bow. "Scuse me, ma'am, but is any of yer grandchildren at home?"

"I haven't any grandchildren," snapped the woman as she started to close the door.

"I ax yer pardon, ma'am.—Come to look at you you hain't old enough yet to have grandchildren. Can I see your married daughter?"

"Why, you howling wretch, and me only thirty years old. Get out of the yard or I'll sic dog you," shouted the woman as she slammed the door shut with a bang that could be heard a square.

Meanwhile the other tramp stood at the bottom of the steps, black in the face from anger.—When the young man came down he grabbed him by the throat and hissed: "What did you ask her that for? You're a handsome gifly, you are. You don't know as much 'bout taffyin' a woman as I do 'bout the inside of a tank."—Then he pushed the young man from him and struck off to the sidewalk. At the gate he turned and shouted back to the young fellow who stood where the older man had shoved him: "You a tramp! Bah! The best thing you can do, young fellow, is to go 'home.'"

POLICE!

Every person in this land of ours that would in the dregs of the city "copper" or the country constable; how he looks, how he acts, how he flirts in that queer comical fashion if sketched and told in this month's issue of Judge's Library or Monthly Magazine of Fun. Judge's Library has hosts of friends throughout the country and it well deserves to have them. For it gives ten dollars' worth of fun for only one dollar, and that dollar in turn is much reduced by our grand clubbing offer which we alone can make for our county. If you want a copy of this number send ten cents in stamps to the Judge Publishing Company, 110 Fifth Avenue, New York City. But if you want to laugh all year round, accept our clubbing offer of the LEADER and JUDGE'S LIBRARY for $2.25.

LAST Sunday we saw what at a distance impressed us as "a new dude come to town," but on nearer approach to the object we discovered that it was Calvin Fisk, decked out in a spanking new suit of clothes and looking the very personification of health and beauty. Mr. Fisk came here about five months ago freighted with asthma and dropsy. On arriving he didn't suppose another new garment would ever envelop him, save, perhaps, a shroud and wooden overcoat. But, thanks to our invigorating climate and Jno. Brother's provender the old cuss can now crow like a biddy, and boots have supplanted No. 14 slippers on his dropsical feet. He says he would rather live in White Oaks than die in any place he ever saw, and that it is as easy to live here as it is to slide down bannisters.

THE JICARILLA PLACER MINING CO.—Resumption of work tending toward the immediate working of the property named will take place in a few days. The general manager, Robt. L. M. Rose, has arrived here and has already laid the foundation for development of the water resources. It is the intention of the Company to push matters in connection with its property with the ultimate view of working the rich placer claims thereon at as early a date as possible.

ATTEN. OF MINERS!

To the prospectors, miners and citizens generally throughout the mining districts of the United States:

The undersigned, acting upon the request of the miners of the country, and in the interest of the restoration of silver and to remedy the evil effect caused by that portion of the Sherman act that prohibits the investment of foreign capital in mining property in the territories, the object of the Southwest Silver Convention that is to convene on the 15th day of December, 1891, in El Paso, Texas, is to discuss and take steps to remedy these evils. No other subject but the silver question and the modification of the alien act will be entertained by the convention, and all attempts to pervert the object of this mass meeting of miners by the introduction of questions foreign to the principles for which it was called, will be suppressed. The restoration of silver to its normal value or parity with gold 16 to 1, and the obliteration of unjust discrimination against miners operating in territories, will engage the entire energy and time of the assembled miners of the southwest.

Newspaper Laws.

Dr. Tuckerman, editor of the Workman Cleveland, has taken some pains to collect and compile the decisions of the U. S. Courts on this subject and gives to the Washington Post, as the result of his investigations, the following, which may be relied upon as correct:

1. Subscribers who do not give express notice to the contrary are considered wishing to receive their subscriptions.

2. If the subscriber orders the discontinuance of his periodical the publisher may continue to send it until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. If subscribers remove to other places without informing the publisher and the papers are sent to the former address they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them unclaimed for is prima facie evidence of intentional fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it, otherwise the publisher is authorized to send it, and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

The latest postal law is one such that newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "refused," or have a friend send notifying the publisher, leaves himself liable to arrest and fine the same as for theft.

"Hello! Tom: Glad to see you, old fellow! It's almost ten years since we were married, isn't it? Now, let's have an experience meeting. How's the wife?"

"Oh! she's so-so, same as usual,—always wanting something I can't afford."

"Well, we all want something more than we've got. Don't you?"

"Yes: but I guess I want it all be my master." I started to keep down expenses and now I'll says I'm 'mean,' and she's tired of saving and never having anything to show for it. I saw your wife down street, and she looked as happy as a queen!"

"I think she is; and we are contented, too, I says to be. My wife can make a little go further than anyone I ever knew, yet she's always surprising me with some dainty contrivance that adds to the comfort and beauty of our little home, and she's always 'marry as a lark.' When I ask how she manages it, she always laughs and says 'Oh! that's my secret!' But I think I've discovered her 'secret.' When we married, we both knew we should have to be very careful—but she made one condition she would have her Magazines. And she was right! I wouldn't do without it myself for double the subscription price. We read it together, from the title-page to the last word! the stories keep our hearts young; the synopsis of important events and scientific matters keeps me posted so that I can talk understandingly of what is going on; my wife is always trying some new idea from the household department; she makes all her dresses and those for the children, and she gets all her patterns for nothing, with the Magazine; and we saved Jennie's life when she was sick with the croup, by doing just as directed in the Sanitarian Department. But I can't tell you half!"

"What wonderful Magazine is it?"

"Demorest's Family Magazine, and—"

"What! Why that's what I've wanted so bad, and I told her it was an extravagance."

"Well, my friend, that's where you made a grand mistake, and one you'd better rectify as soon as you can. I'll take your subscription here, as my wife's secretary, she's bound to have a club-raiser in time for one big wedding next month. My gold watch was the premium I got for getting up a club. Here's a copy, with the new Premium List for 1892,—the biggest thing out! If you don't see in it what you want, you've only to write to the publisher and tell him what you want, & either it's in his hammer or a new carriage, and he will make special terms for you, either for cash, or part cash. Mother subscribes right off and surprises Mrs. Tom. Only $2.00 a year—will save fifty times that in six months. Or send 10 cents direct to the publisher, W. Jennings Demorest, 15 East 14th Street, New York, for a specimen copy containing the Premium List."

GRAND PREMIUM OFFER!

A SET OF THE

WORKS OF CHARLES DICKENS,

In Twelve Large Volumes,

CHARLES DICKENS.

Which we offer with a Year's Subscription to the Weekly Leader, Three More than One Dollar Subscription Price.

Wishing to greatly increase the circulation of this paper during the next six months, we have made arrangements with the well known publishing house of Porter & Coates, of Philadelphia, to secure a complete set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for little more than our regular subscription price. Our first offer to subscribers will be the last one made. Charles Dickens was the greatest novelist who ever lived. No one before or since his time has written books that can be compared with his works as a popular author. His stories are read to-day just as they were when they appeared in weekly parts, many years ago, and his works will be read by generations yet to come. Not to be read them is to be far behind the age in which we live. The set of Dickens' works which we offer as a premium to our subscribers is handsomely printed from entirely new plates, in large type, published complete, bound and shipped to subscribers.

DAVID COPPERFIELD,
MARTIN CHUZZLEWIT,
NICHOLAS NICKELBY,
DOMBEY AND SON,
BLEAK HOUSE,
LITTLE DORRIT,
OUR MUTUAL FRIEND,
PICKWICK PAPERS,
BARNABY RUDGE AND CHRISTMAS STORIES,
OLIVER TWIST AND GREAT EXPECTATIONS,
THE OLD CURIOSITY SHOP AND THE UNCOMMERCIAL TRAVELER,
A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated, in every nook and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of fine books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern labor-saving machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It wants your subscription—yours particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier.
"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 21x28 inches, and they are elegantly reproduced in fac simile, showing every tint and color of the great originals, either one of which could not be purchased for $100,000.

"Women and Children First," by C. Napier Hemy.
"Christ Leaving the Prætorium," by Gustave Doré.

Each of these pictures is reproduced in photogravure, size 21x27, and exquisitely suited for framing, and will adorn the walls of the most refined house.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $6,000—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that its premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The EXAMINER and the LEADER, the combined price of which is $3.50, will be sent you for one year, postage paid, for $2.00 if the money is sent to the office of the LEADER and your subscription will be promptly forwarded to the EXAMINER, and you will receive therefor the EXAMINER'S numbered receipt. You can get a Premium Supplement by applying at this office.

ATTENTION MINERS!

To the prospectors, miners and claim owners of the Southwest:

The depressed state of silver and to the evil effect caused by that portion of the alien act which prohibits the investment of foreign capital in mining property in the territories. The object of the Southwest Silver Convention that is to convene on the 15th day of December, 1891, in El Paso, Texas is to discuss and take steps to remedy these evils. No other subject but the silver question and the modification of the alien act will be entertained by the convention, and all attempts to pervert the object of this mass meeting of miners by the introduction of questions foreign to the principles for which it was called, will be suppressed.

The restoration of silver to its normal value or parity with gold 16 to 1, and the obliteration of an unjust discrimination against miners operating in territories, will engage the entire energy and time of the assembled miners of the Southwest.

By order of the Executive Committee. Chas. Longuemare, President; F. W. Edelstein, Secretary; O. F. Heckeman, Chairman Committee of Arrangements; Juan S. Hart, Chairman Committee of Reception; D. W. Reckhart, Chairman Committee of Finance, Amusements and Program.

Newspaper Laws.

Dr. Tuckerman, editor of the Workman Cleveland, has taken some pains to collect and compile the decisions of the U. S. Courts on the subject and gives to the Washington Post, as the result of his investigations, the following, which may be relied upon as correct:

1. Subscribers who do not give express notice to the contrary are considered wishing to have their subscription renewed.

2. If the subscriber orders the discontinuance of his periodical the publisher may continue to send it until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. If subscribers remove to other places without informing the publisher and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for is *prima facie* evidence of intentional fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it; otherwise the publisher is authorized to send it, and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

The latest postal laws are such that newspaper publishers can prosecute any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the postmaster to mark it "refused," or leaves a notice sent notifying the publisher, leaves himself liable to arrest and fine the same as for theft.

This train carries Pullman palace sleepers from El Paso to Kansas City, and Los Angeles to Chicago, with Pullman tourist sleepers Los Angeles to Kansas City making direct connection at La Junta for Pueblo, Colorado Springs and Denver, and at Burton for St. Louis, via the Frisco Ry.

The train from San Francisco (with palace sleepers to Kansas City and tourist sleepers to Chicago) leaves Albuquerque daily at 1 hour noon, strikes darkness near Wagon Mound, arriving in Kansas City evening of next day, and in Chicago the following morning. An additional Pullman sleeper leaves Deming for Las Vegas, running through without change to Denver via La Junta and Trinidad.

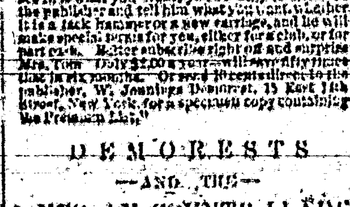
Every Lady ... Paper, GOD...



"Hello! Tom! Glad to see you, old fellow! It's almost ten years since we were married. Sit down; let's have an experience meeting. How's the wife?"

"Oh! she's so-so, same as usual, always wanting something I can't afford."

"Well, we all want something more than we've got. Don't you?"

"Yes; but I guess I won't sell my master," I started to keep down expenses; and now I'll say I'm 'mean,' and she's tired of saving and never having anything to show for it. I saw your wife flower-sized, and she looked as happy as a queen!"

"I think she is; and we are economical, too—have to be. My wife can make a little go further than anyone I ever knew, yet she's always surprising me with some dainty contrivance that adds to the comfort and beauty of our little home, and she's always 'merry as a lark.' When I ask how she manages it, she always laughs and says, 'Oh! that's my secret!' But I think I've discovered her 'secret.' When we married, we both knew we should have to be very careful, but she made one condition; she would never Mugwump. And she was right! I wouldn't do without it myself for double the subscription price. We read it together, from the title-page to the last word; the stories keep our hearts young; the synopsis of important events and scientific matters keeps me posted so that I can talk understandingly of what is going on; my wife is always trying some new idea from the household department; she makes all her dresses and those for the children, and she gets all her patterns for nothing, with the Magazine; and we saved Jog when he was so sick with the croup, by doing just as directed in the Sanitarian Department. But I can't tell you half!"

"What wonderful Magazine is it?"

"Demorest's Family Magazine, and—"

"What! Why, that's what I'd wanted so bad, and I told her it was an extravagance."

"Well, my friend, that's where you made a grand mistake, and one you'd better rectify as soon as you can. I'll take your subscription from me myself, if necessary. She's bound to have a silk dress in time for me this wedding next month. My gold watch was the premium I got for getting up a club. It was a corker, with the new Premium List for clubs, the biggest thing out! If you don't see in it what you want, you've only to write to the publisher and tell him what you want, whether it is a jack hammer or a new earring, and he will make special terms for you, either for a club, or for part cash. Better subscribe right on and surprise Mrs. Tom. Only $2.00 a year—will scarcely miss that in six months. Or send Demorest direct to the publisher, W. Jennings Demorest, 15 East 14th street, New York, for a specimen copy containing the Premium List."

Dobbins' Electric Soap
THE BEST FAMILY SOAP IN THE WORLD.
It is Strictly Pure. Uniform in Quality.

THE original formula for which we paid $1,000 twenty years ago has never been modified or changed in its ingredients. Dobbins' keeps it identical for squeakily to-day with what made it twenty years ago.

IT contains nothing that can injure the finest fabric. It lightens labor and labor's cost.

IT washes flannels and blankets as no other soap in the world does—without shrinking, leaving them soft and white and like new.

READ THIS TWICE

THERE is a great saving of time, of labor, of soap, of fuel, and of the fabric, where Dobbins' Electric Soap is used according to directions.

ONE trial will demonstrate its great merit. It will pay you to keep it on hand.

LIKE all good things, it is extensively imitated and counterfeited.

Beware of Imitations.

INSIST upon Dobbins' Electric. Don't take Electric Magic, Philadelphia Electric, or any other kind, simply because it is cheap. They will ruin clothes, and are dear at any price. Ask for DOBBINS' ELECTRIC Soap, and take no other. Nearly every grocer from Maine to Mexico keeps it in stock. If your's doesn't, he will order from his nearest wholesale grocer.

READ carefully the inside wrapper around each bar, and be careful to follow directions on each outside wrapper. You cannot afford to wait longer before trying for yourself this old, reliable, and truly wonderful

Dobbins' Electric Soap.

GRAND PREMIUM OFFER!

A SET OF THE

WORKS OF CHARLES DICKENS,

In Twelve Large Volumes,

Which to Over-Read a Year's Subscription to the Page Size, Title More than Any English Subscription Price.

CHARLES DICKENS.

We have to greatly increase the circulation of this paper during the next six months, we have made arrangements with a New York publishing house whereby we are enabled to offer as a premium to our subscribers a set of the Works of Charles Dickens, in Twelve Large and Handsome Volumes, with a year's subscription to this paper, for little more than our regular subscription price. Our first offer to subscribers will be our better for first. Charles Dickens was the greatest novelist who ever lived. No author before or since his time has won the fame that he achieved, and his works are even more popular to-day than during his lifetime. They abound in wit, humor, pathos, humanity, delineation of character, vivid description of places and incidents, thrilling and absorbingly interesting. No home should be without a set of these grand and remarkable works. Not to have read them is to be far behind the age in which we live. The set of 12 books which we offer as a premium is one entirely new plates, with new type. The twelve volumes contain the following world-famous works, each one of which is published complete, unabridged and absolutely unexpurgated:

DAVID COPPERFIELD,
MARTIN CHUZZLEWIT,
NICHOLAS NICKELBY,
DOMBEY AND SON,
BLEAK HOUSE,
LITTLE DORRIT,
OUR MUTUAL FRIEND,
PICKWICK PAPERS,
BARNABY RUDGE AND CHRISTMAS STORIES,
OLIVER TWIST AND GREAT EXPECTATIONS,
THE OLD CURIOSITY SHOP AND THE UNCOMMERCIAL TRAVELER,
A TALE OF TWO CITIES, HARD TIMES AND THE MYSTERY OF EDWIN DROOD.

The above are without question the most famous books that were ever written. For a quarter of a century they have been celebrated in every book and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of fine books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

A Number for the LEADER

YOU WANT

a San Francisco paper and of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It wants your subscription—yours particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier.

"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 21x28 inches, and they are elegantly reproduced in the shape showing every tint and color of the great originals, either one of which could not be purchased for $100,000.

"Women and Children First," by C. Napier Hemy.

"Christ Leaving the Prætorium," by Gustave Doré.

Each of these pictures is reproduced in photogravure, size 21x28, and uniquely fitted for framing, and will adorn the walls of the most refined house.

Each subscriber has the choice of any one of these four subjects, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $6,000—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that its premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

The EXAMINER and the LEADER, the combined price of which is $3.50, will be sent you for one year, postage paid, for $3.00 if the money is sent to the office of the LEADER and your subscription will be promptly forwarded to the EXAMINER, and you will receive therefor the EXAMINER's numbered receipt. You can get a Premium Supplement at by applying at this office.
