EDITORS.

A few weeks since we published our impressions as to true journalism; and now comes the Albuquerque Democrat carrying an editorial on editors which accords with our views of the subject whether in or out of type. Joe. Dixon is the foremost editor in the Territory, and albeit he has been so often told thereof he never lost his head and went sky scraping, but has continued to keep his footing like unto other mortals.

Speaking of editors who swell up with self importance, Joe. says:

It is nonsense to assume that what an editor writes goes out with some high and sacred sanction and it ought to be, if it isn't, accepted as gospel. The truth is that a vast quantity of modern editorial matter is the veriest rot, shallow and inconsequential, furnished by men who are simply writing against space and who have neither inclination nor ability to treat a subject exhaustively.—It is a pleasure to any thoughtful person to read a well considered newspaper article on an interesting subject, and there is no doubt whatever that newspaper writers by virtue of their training and experience are better able than others to furnish apt and spicy daily comments on current affairs, but it is absurd to suppose that their opinions carry a priestly weight and the world does no thinking for itself. He mistakes the case when he thinks that his editorial utterances are facts that either destroy or build up. Journalism and its influence need no such false assumption as that.

We have oftentimes felt mortified as we saw editors of inconsequential papers, editors only in name and their own conceit, register at hotels, attaching to their names the name of the journals they were connected with, they feeling that their personality was secured free keeping, whisky and cigars—and others who, while the mail is being distributed, unlocks his box, takes out his mail and spreads it so that beholders may be impressed with his importance and the magnitude of his exchange list and voluminous correspondence. Such pencil-shovers should be tabooed. They disgrace true journalists as an exposed lecherous clergyman throws a shadow upon the character of pure preachers.

The position of editor is an honorable one—so is that of any and every known profession. But all editors are not saints or geniuses, and no more reverence is due them than other equally well behaved gentlemen. He who assumes special privileges or favors because of his connection with the press is a "dead beat" who would accept eleemosynary aid with the same grace he would a subscription from a delinquent subscriber. He is a parasite on society and his presence in a community works injury to whatever of good he fancies himself forward to advance. Any paper should speak for itself—if good its speech will be golden—if weak no gabby editor can elevate it in the estimation of the public. Blatherskites never make good editors or papers. As the poet Young said:

Pyramids are pyramids still, though perched on Alps;
And pyramids are pyramids in vales;
Each man makes his own stature, builds himself;
Virtue alone outbuilds the pyramids,
Her monuments shall last when Egypt's fall.

From the Socorro Chieftain.

The White Oaks Country.

Your subscriber in company with that well known Knight of the gavel, R. C. Stuart, the popular salesman of Brown & Manzanares Co., arrived after two days travel in that beautiful cove, wherein is nestled the prosperous camp of White Oaks. I was met by a delegation headed by Col. Heman, J. P. C. Langston, and several others who entertained me royally for the three days I remained at the camp. White Oaks is marching onwards in the line of progress. Some twenty fine residences have been erected, and some fine business blocks—notably among these are the fine store buildings now in erection by that prosperous citizen John Y. Hewitt, who is also making an excellent well. The Socorro mill of twenty stamps is leased by the Old Abe Co. and is kept pounding night and day on as rich ore as one would want to see. The North Homestake is running on its own ore. The Wilson mill is stopped for a general clean up. Through the courtesy of Col. John Y. Hewitt and Mr. Watson I went through all the workings of the renowned Old Abe gold mine. The working consists of a main working shaft 600 feet deep, with ten levels leading north and south from it, these levels will average 125 feet each. There has not been very much sloping done as yet. An upraise has been made between the surface and level No. 7, which gives the mine splendid ventilation from the top to the bottom of the shaft, and in all the levels amounting to over 2,500 feet in length. The vein of ore shows up boldly without a break; its main average is about 20 inches. The character of the ore is what is known to miners as a rotten iron stained, decomposed quartzite, the metal occurs in the native state and is very pure, the amalgamated bullion assaying from $15 to $18.50 per ounce. It is safe to say that there is to-day over $1,500,000 in sight. Some specimens shown me by Mr. Watson showed over 50 per cent. of their weight in gold. I have obtained a fine specimen for exhibit which will truly advertise our Territory to the capitalists of the east. In addition to the Old Abe there is the noted Homestake mine. This mine is being worked systematically, and is producing a good grade of ore which is treated at their mill.

The South Homestake has been shut down for some time on account of its main working shaft having been destroyed by fire. This great producer has again commenced work, and its now sinking a new working shaft.

There are several other claims being developed. Col. John Y. Hewitt and Mr. Watson own also some two hundred acres of land that has the finest marble in the United States, the black marble especially is very fine, it can be taken out in slabs 10 to 12 feet in length and 3 to 4 feet in width. This marble takes a very high polish, and will at some future time be a great industry to White Oaks. The coal fields near town are very extensive and of a good quality, but there being no market are at present valueless.

In my next letter will give you more particulars regarding the mines of White Oaks district and its other resources. The people of White Oaks are very anxious to have the bridge at Socorro completed, as they prefer to trade with the business men of the Gem City. The trade of this vast section is large, and one that should by all means be secured. They also favor the location of the government assay office at Socorro.

White Oaks has strong faith that a railroad will pass through it on its way to Socorro in the very near future.

J. J. Lenon

That the Irrigation Convention to open at Las Vegas on the 16th. will be largely attended is assured. Quite a number would go from this county were it not that our district court convenes on the 14th. Cheap R. R. transportation has been assured. S. F. Judy, the general manager of the Pecos Valley road, says: We will make the same rate as the Texas Pacific and the Santa Fe. W. A. Bissell, general passenger agent of the A. & P., writes: "We will make a rate of one fare for the round trip from all points in New Mexico: Geo. T. Nicholson, general passenger and ticket agent for the Atchison, says: "We will sell tickets from New Mexico and Colorado points, also El Paso, on March 13th-16th, final return limit March 25th; rate, one fare for the round trip. I have, also, requested the Union Pacific, Colorado Midland and D. & R. G. to sell such tickets, delivering business to us at Pueblo, Colorado Springs or Denver. From Missouri river our regular Las Vegas tourist tickets will take care of the business very nicely. Special rate have also been made for accommodation of delegates at the Montezuma hotel, Las Vegas Hot Springs.

Big Cry, Little Wool.

On last Sunday morning, between the hours of 2 and 3 o'clock some unknown person or persons attempted to murder J. G. Wyatt commonly known as "Coal Oil Johnny," night watchman of the North Homestake Mill. From the testimony it seems that while Wyatt was seated at lunch about the hour indicated, he was disturbed by a noise at the west door of the mill. He arose to investigate and found that the door was barred against him from the outside. He suspected something and quietly proceeded through the back entrance of the boiler room and when passing through the alley way, between the blacksmith shop and the boiler room, some one seized him by the collar and felled him to the ground with a bar or some blunt instrument. He had [illegible] and knees back into the mill and gave an alarm for help by blowing the whistle. Mrs. Lloyd, wife of the manager of the mine, was the first one on the scene, living but a short distance from the mill. It was further discovered that Wyatt had been shot through the wrist. Doc. Patterson, a former employee of the company, was implicated in the attack and arrested. He was arraigned before Judge E. M. Parker, who, after hearing the testimony, which was voluminous, released him from custody. A mystery enshrouds the case which should be unveiled. Our people feel chafed and ill at ease.

Consumption cured.
An old physician, retired from practice, having had placed in his hands by an East India missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing, with stamp, naming this paper, W. A. Noyes, 149 Powers' Block, Rochester, N. Y.

Col. David Wylie, the old-time editor in Canada, with whom we were wont to cross lances in the early '50's, died last month at his old home in Brockville, aged 81 years.

Editors, as a rule, are [illegible] hearted and liberal. An exchange tells of a subscriber who died and left fourteen years subscription unpaid. The editor appeared at the grave as the lid was screwed on for the last time and put in a little dust, a thermometer, a [illegible] leaf fan and a receipt for making ice.

There is "lots" of bad moonshine liquor in Chatwood, Va., and vicinity. While the usual price is $4 per gallon, 50 per pint, the moonshiners have reduced their stuff to the unusual price of 30 cents per gallon, 15 cents per pint. It is reported that these moonshiners have only the old "tin tank and a [illegible] for their outfit.

ALL kinds of Patent Medicines just received at the Postoffice drug store.

HON. MCKINNEY has at last succumbed to the prevailing disease, measels. He is recuperating.

THE K. of P. dance last Monday night was largely attended and passed off very pleasantly.

A FULL line of Paints, Oils, Varnishes and Brushes will arrive this week at the Postoffice Drug Store.

THE Band boys have received their instruments and had an first-class practice last Thursday night at their hall.

THE Governor has commissioned Geo. B. Bacon, of Lincoln, Atty for the 1st judicial district in place of Hamilton, resigned.

R. C. STEWART, of Brown, Navarre & Co., Las Vegas and Socorro, has been with us this week interviewing our business men.

WE learn from good authority that the Santa Fe engineers are now in the field between Carthage and this place doing the most practicable route.

MR. J. L. ZIMMERMAN will fit up the Delaney property on White Oaks Avenue preparatory to receiving and installing his family which will shortly arrive.

WM. PIGOTT, who has been at work in the Gallinas for several months past was in town the past week and returned to do some extensive development work on the Lookout.

WORK is progressing finely on the new Lowitt Block, east of Stewart's, and it is probable that in our next issue we will be able to announce the erection of the walls of the first story.

DR. WATSON, brother of our fellow citizen, Wm. Watson, who has been sojourning amongst us for several weeks, left on Wednesday for his Iowa home. He speaks well of our town and says he will visit us again.

A Richly dressed 5 year old boy trudging along with a banana and asked, "My little boy have you not change?" "No ma'am," said the Chinaman, "I've got plenty two."

Last Saturday morning the little son of our esteemed foreman G. R. Young, George Dick Young, after battling bravely for over a week with the king of terrors succumbed, and his spirit left the azure blue and went up to Him who gave. Dick, as he was familiarly known and called, was a pretty child, and albeit he had not reached his fifth birth day every body knew him and to know him was to love him. His winsome looks, manner and matter of speech captivated all hearts. The blow to his parents was a heavy one and like an electric bolt it was felt by others than whom it touched. Sunday afternoon the great majority of our people turned out to manifest their sorrow for the common loss and sympathy with a sorely stricken ones. Dick had a large following to the cemetery and in my rear the tears shed as his little form was lowered into the dark lap he of the grave and his breast billowed by the cold clods. "Gone, but not forgotten little Dick," welled up from many hearts.

J. J. LAMBERTON, Grand Chancellor of the K. of P. of New Mexico, spent several days and nights in town this week putting his boys through their facings. Mr. L. is an old citizen of Socorro, where he is deservedly popular. No man in the Territory has exhibited more industry and tact in pushing New Mexico to her place in the front as a mineral producer than Mr. L. After exploiting the Bax or Mountain mines he expressed great gratification. He left here on Tuesday for Eddy and intermediate points where there are K. of P. lodges and will tarry here on return home.

The World Ransacked.

The facilities of the present day for the production of everything that will contribute to the material welfare and comfort of mankind are almost unlimited and pure Syrup of Figs was first produced the world was ransacked with the only medical herbs known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and efficacious to cleanse the system gently as the spring time of the year, as it is known the more you use it becomes.

A fine line of Toilet Soaps now on hand at the Postoffice drug store.

WE are in receipt of a neat map of the A. T. & S. F. R. R. which is embellished with "White Oaks" as one of the points on its line. Five or six years ago this town was the largest and richest camp in the Lake Valley district. Before our town was eliminated for effect—this time we believe it means business.

THE Leader has for sale a piano, an organ, 2 wagons, 2 carriages, 2 safes, 3 type writers, a watch, a soda fountain, a shot gun, a stove and range, 2 typewriters, one for a lady and one for a gentleman, also a first-class sewing machine. Call on Leader for our agent for the sale of any or all of the above articles and secure a bargain.

$300 Reward for Ore Thieves.

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgum and bullion.—Therefore, the "Old Abe" Company offers a standing reward of Three Hundred Dollars for the arrest and conviction, of or information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore.—The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in law as the thief, this offer applies to the holder of Old Abe specimens.

NEW DISCOVERY by ACCIDENT

In compounding a solution a part was accidently spilled on the hand and on washing afterwards it was discovered that the hair was completely removed. We at once put this wonderful preparation on the market and so great has been the demand that we are now introducing it throughout the world under the name of Queen's Anti-Hairine.

IT IS PERFECTLY HARMLESS AND SO SIMPLE ANY CHILD CAN USE IT.

Lay the hair even and apply the mixture for a few minutes, and the hair disappears as if by magic without the slightest pain, and is never again seen or even afterward. It is unlike any other preparation ever used for a like purpose. Thousands of LADIES have been annoyed with hair on their FACE, NECK and ARMS after its merits.

CAUTION.—Do not be deceived by worthless imitations offered in its stead or substitutes. Insist on Queen's Anti-Hairine which does away with shaving, by rendering its future growth an utter impossibility. Sealed from observation. Send money or postage in letter with full address written plainly. Correspondence strictly confidential. Price of Queen's Anti-Hairine $1. per bottle, sent by mail to any part of the world. We invite you to deal with us and you will find everything as represented. Call this out and send to-day. Address QUEEN CHEMICAL CO., 174 Race Street, CINCINNATI, O. You can register your letter at any Post Office in America to safe delivery. We will pay $1,000 for any case of failure or slightest injury to any purchasers. Every bottle GUARANTEED.

SPECIAL—To ladies who introduce and sell among their friends 36 bottles of Queen's Anti-Hairine, we will present with a NICE DRESS, 12 yards best Satin Faille, Terra Cotta and Cardinal, of style to select from sent with order. Good salary or Commission to

EDITORS.

A few weeks since we published our impressions as to true journalism; and now comes the Albuquerque Democrat carrying an editorial on editors which accords with our views of the subject whether in or out of type. Joe. Dixon is the foremost editor in the Territory, and albeit he has been so often told thereof he never lost his head and went sky scraping, but has continued to keep his feeting like unto other mortals.

Speaking of editors who swell up with self importance, Joe. says:

It is nonsense to assume that what an editor writes goes out with some high and sacred sanction and it ought to be, if it isn't, accepted as gospel. The truth is that a vast quantity of modern editorial matter is the veriest rot, shallow and inconsequential, followed by men who are simply writing against space and who have neither inclination nor ability to treat a subject exhaustively.—It is a pleasure to any thoughtful person to read a well considered newspaper article on an interesting subject, and there is no doubt whatever that newspaper writers by virtue of their training and experience are better able than others to furnish apt and spicy daily comments on current affairs, but it is absurd to suppose that their opinions carry a priestly weight and the world does no thinking for itself. He mistakes the case when he thinks that his editorial utterances are fiats that either destroy or build up. Journalism and its influence need no such false assumption as that.

We have oftentimes felt mortified as we saw editors of incense quantial papers, editors only in name and their own conceit, register at hotels, attaching to their names the name of the journals they were connected with, they feeling that their personality was assured free keeping, whisky and cigars—and others who, while the mail is being distributed, unlocks his box, takes out his mail and spreads it so that beholders may be impressed with his importance and the magnitude of his exchange list, a voluminous correspondence. Such pencil-shovers should be tabooed. They disgrace true journalists as an exposed lecherous clergyman throws a shadow upon the character of pure preachers.

The position of editor is an honorable one—so is that of any and every known profession. But all editors are not saints or theologues, and no more reverence is due them than other equally well behaved gentlemen. He who assumes special privileges or favors because of his connection with the press is a "dead beat" who would accept eleemosynary aid with the same grace he would a subscription from a delinquent subscriber. He is a parasite on society and his presence in a community works injury to whatever of good he forces himself forward to advance. Every paper should speak for itself—if good its speech will be golden—if weak no gabby editor can elevate it in the estimation of the public. Blatherskites never make good editors or papers. As the poet Young said:

Pyramids are pyramids still though
perched on Alps;
And pyramids are pyramids in vales;
Each man makes his own stature, builds himself;
Virtue alone outbuilds the pyramids,
Her monuments shall last when Egypt's fall.

From the Socorro Chieftain.

The White Oaks Country.

Your subscriber in company with that well known Knight of the grip, R. C. Stuart, the popular salesman of Browne & Manzanares Co., arrives after two days travel in that beautiful cove, wherein is nestled the prosperous camp of White Oaks. I was met by a delegation headed by Col. Heman, Jr. P. C. Langston, and several others who entertained me royally for the three days I remained at the camp. White Oaks is marching onwards in the line of progress. Some twenty fine residences have been erected, and some fine business blocks—notably among these are the fine store buildings now in erection by that prosperous citizen John Y. Hewitt, who is also making an artesian well. The Old Abe mill of twenty stamps is leased by the Old Abe Co. and is kept pounding night and day on as rich ore as one would want to see. The North Homestake is running on its own ore. The Wilson mill is stopped for a general clean up. Through the courtesy of Col. John Y. Hewitt and Mr. Watson I went through all the workings of the renowned Old Abe gold mine. The working consists of a main working shaft 600 feet deep, with ten levels leading north and south from it, these levels will average 125 feet each. There has not been very much stoping done as yet. An upraise has been made between the surface and level No. 7, which gives the mine splendid ventilation from the top to the bottom of the shaft, and in all the levels amounting to over 2,500 feet in length. The vein of ore shows up boldly without a break; its main average is about 26 inches. The character of the ore is what is known to miners as a rotten iron stained, decomposed quartzite, the metal occurs in the native state and is very pure, the amalgamated bullion assaying from $18 to $18.50 per ounce. It is safe to say that there is to-day over $1,500,000 in sight. Some specimens shown me by Mr. Watson showed over 50 per cent. of their weight in gold. I have obtained a fine specimen for exhibit which will truly advertise our Territory to the capitalists of the east. In addition to the Old Abe there is the noted Homestake mine. This mine is being worked systematically, and is producing a good grade of ore which is treated at their mill.

The South Homestake has been shut down for some time on account of its main working shaft having been destroyed by fire. This great producer has again commenced work, and are now sinking a new working shaft.

There are several other claims being developed. Col. John Y. Hewitt and Mr. Watson own also some two hundred acres of land that has the finest marble in the United States, the black marble especially is very fine, it can be taken out in slabs 10 to 12 feet in length and 6 to 8 feet in width. This marble takes a very high polish, and will at some future time be a great industry to White Oaks. The coal fields near town are very extensive and of a good quality, but there being no market are at present valueless.

In my next letter will give you more particulars regarding the mines of White Oaks district and its other resources. The people of White Oake are very anxious to have the bridge at Socorro completed, as they prefer to trade with the business men of the Gem City. The trade of this vast section is large, and one that should by all means be secured. They also favor the location of the government assay office at Socorro.

White Oaks has strong faith that a railroad will pass through it on its way to Socorro in the very near future.

THAT the Irrigation Convention to open at Las Vegas on the 16th. will be largely attended is assured. Quite a number would go from this county were it not that our district court convenes on the 14th. Cheap R. R. transportation has been secured. S. F. Judy, the general manager of the Pecos Valley road, says: We will make the same rate as the Texas Pacific and the Santa Fe. W. A. Bissell, general passenger agent of the A. & P., writes: "We will make a rate of one fare for the round trip from all points in New Mexico." Geo. T. Nicholson, general passenger and ticket agent for the Atchison, says: "We will sell tickets from New Mexico and Colorado points, also El Paso, on March 13th-16th, final return limit March 25th; rate, one fare for the round trip. I have, also, requested the Union Pacific, Colorado Midland and D. & R. G. to sell such tickets, delivering business to us at Pueblo, Colorado Springs or Denver. From Missouri river our regular Las Vegas tourist tickets will take care of the business very nicely. Special rate have also been made for accommodation of delegates at the Montezuma hotel, Las Vegas Hot Springs.

Big Cry, Little Wool.

On last Sunday morning, between the hours of 2 and 3 o'clock some unknown person or persons attempted to murder J. G. Wyatt commonly known as "Coal Oil Johnny," night watchman of the North Homestake Mill. From the testimony it seems that while Wyatt was seated at lunch about the hour indicated, he was disturbed by a noise at the west door of the mill. He arose to investigate and found that the door was barred against him from the outside. He suspicioned something and quietly proceeded through the back entrance of the boiler room, and when passing through the alley way, between the blacksmith shop and the boiler room, some one seized him by the collar and felled him to the ground with a bar or some blunt instrument. He laid there in an unconscious condition for some time, and when coming to and knees back into the mill and gave an alarm for help by blowing the whistle. Mrs. Lloyd, wife of the manager of the mill, was the first one on the scene, living but a short distance from the mill. It was further discovered that Wyatt had been shot through the wrist. Doc. Patterson, a fellow employee of the company, was accused of the attack and arrested. He was arraigned before Judge H. M. Parker, who, after hearing the testimony, which was voluminous, released him from custody. A mystery enshrouds the case which should be unveiled. Our people feel chafed and ill at ease.

Consumption Cured.

An old physician, retired from practice, having had placed in his hands by an East Indian missionary the formula of a simple vegetable remedy for the speedy and permanent cure of Consumption, Bronchitis, Catarrh, Asthma, and all throat and Lung Affections, also a positive and radical cure for Nervous Debility and all Nervous Complaints, after having tested its wonderful curative powers in thousands of cases, has felt it his duty to make it known to his suffering fellows. Actuated by this motive and a desire to relieve human suffering, I will send free of charge, to all who desire it, this recipe, in German, French or English, with full directions for preparing and using. Sent by mail by addressing with stamp, naming this paper, W. A. Noyes, 149 Power's Block, Rochester, N. Y.

Con. David Wylie, the oldest editor in Canada, with whom we were wont to cross lances in the early '50's, died last month at his old home in Brockville, aged 81 years.

EDITORS, as a rule, are warm hearted and liberal. An exchange tells of a subscriber who died and left fourteen years subscription unpaid. The editor appeared at the grave as the lid was screwed on for the last time and put in a fifty cent duster, a thermometer, a palm leaf fan and a receipt for making ice.

There is "lots" of bad moonshine liquor in Chatwood, Va., and vicinity. While the usual price is $4 per gallon, $2 per pint, the moonshiners have reduced their stuff to the minimal price of 80 cents per gallon, 15 cents per pint. It is said that these moonshiners have only the old 'ole tank and a gourd for their outfit.

New Mexico Irrigation Journal a

Territory of New Mexico,
Executive Office,
January 11, 1899

Pursuant to a generally expressed desire, and in order to carry forward the work usually inaugurated by an Irrigation Congress held at Salt Lake City in September last, I hereby call a Territorial Irrigation Convention to be held at Las Vegas

MARCH 16, 1899,

and the subsequent days, to consider the question of irrigation and the improvement of arid lands in New Mexico and the surrounding region.

To this convention delegates are invited to be sent as follows from New Mexico:

From each county, to be appointed by the county commissioners, 10 delegates.

From each city or incorporated town, to be appointed by the municipal authorities, 5 delegates.

From each board of trade or commercial club, 5 delegates.

From each incorporated irrigation company, 5 delegates.

From each newspaper, 1 delegate.

From the Territorial Bureau of Immigration, to be appointed by its president, 5 delegates.

All persons interested in the general subject of irrigation, living outside of New Mexico, will be welcome, and will be received on such terms as to representation and membership as the convention may decide.

L. BRADFORD PRINCE,
Governor of New Mexico.

THE CHILDREN'S BOOKS.

How to Select Reading Matter for the Young Folks.

A very grave matter indeed has become the quality of the reading furnished to our young people. In families where newspapers enter freely, even the casual reader who takes them up and glances them over carelessly can not fail to get a knowledge of the world that if it does no harm does no good either. There are families, indeed, where the children are allowed certain columns of a single paper only, but such prohibition is often as dangerous as it is impolitic. A notion prevails in many minds that the young people are being furnished to their whole subject has been written down to their comprehension, forgetting that all our growth comes from struggle upward, and that it is really a good deal better after the taste for reading has been once formed to have the book or the subject just one degree advanced beyond the moment's taste or fancy. Much of the formation of taste in this matter devolves upon the mother, the aunt, the older sister; and if they see to it that models of purity and wholesomeness are presented and observed, rather than those which are debilitating to the mental tone, and thus noxious, a habit will be formed that in time will instinctively reject all that is not distinctively ennobling, and does not feed the better portion of the mind and nature. Fascillities are much in vogue to-day but their influence is vicious because it is weakening, and in so much degrading. Children can be trained to care as much for one of Parkman's histories, with all its tale of daring and doing, as for any gory-covered story of a cowboy's adventures; as much for the Midsummer Night's Dream with its wit and poetry as for [illegible]

PAINTERS' INK.

A JOURNAL FOR ADVERTISERS.

Is issued on the 15th and 30th days of each month, and is the representative journal of the art of judicious advertising. It believes in the liberal, intelligent, honest use, when, and where it should therefore have to warn or circumvent any in the use of the same; when newspapers do not live and many a reputable business is only paid that kind of profitable success. Advertising is an art practiced by many but understood by few. The problem of PRINTERS' INK is to teach it, and those who do learn it as an investment of more than twenty times the cost of the paper. Free Reading Matter.

There is a curious scheme to supply reading matter at less than a share actual cost. What would you think if you could get good reading free?

Drop a postal to G. T. Nicholson, G. P. and T. A. A. T. & S. F. R. R. Co., Topeka, Kas., and ask for a copy of "A Trip to Mexico by Santa Fe." You can also get free copies of "Grand Canyon Holiday," "Guide to San Diego-Hotel Del Coronado," "Las Vegas Hot Springs Guide," and folders relating to Texas, Oklahoma and Kansas.

Newspaper Laws.

The Postmaster-General, Mr. Wilson, of the Cleveland, has taken some pains to collect and compile the decisions of the U. S. Courts on the subject and gives to the Washington Post, as the result of his investigations, the following, which may be relied upon as correct.

1. Subscribers who do not give express notice to the contrary are considered wishing to renew their subscriptions.

2. If the subscriber orders the discontinuance of his periodical the publisher may continue to send it until all arrearages are paid.

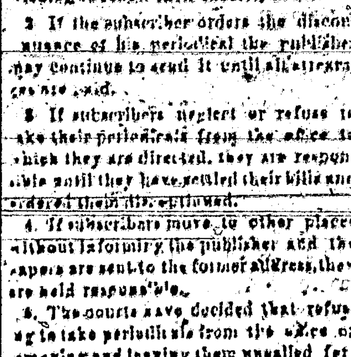
3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

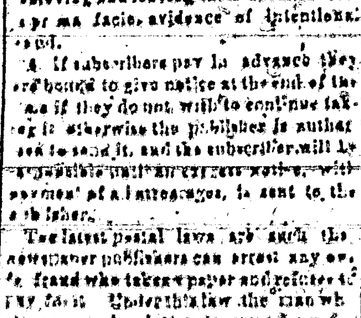
4. If subscribers move to other places without informing the publisher and the papers are sent to the former address, they are held responsible.

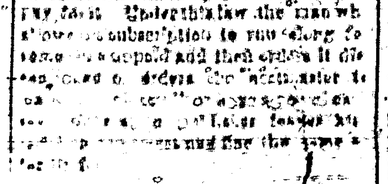
5. The courts have decided that refusing to take periodicals from the office or removing and leaving them unsalled for is prima facie evidence of intentional fraud.

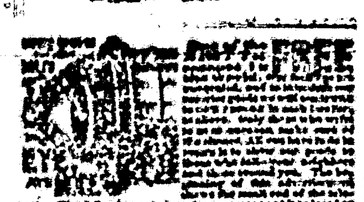
6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it; otherwise the publisher is authorized to send it, and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

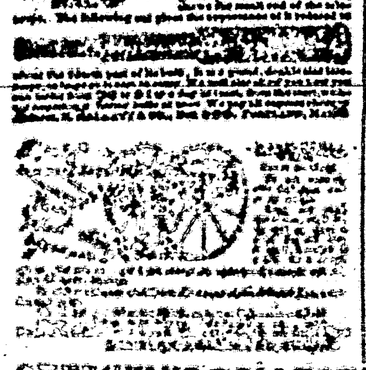
The latest postal laws are such the newspaper publishers can arrest any one who, to defraud who takes a paper and refuses to pay for it. Under this law the man who allows his subscription to run along for some time unpaid and then orders it discontinued, or orders the whole matter to be dropped [illegible]











Excellent Train Service.

The present schedule of train service on A. T. & S. F. R. R. in New Mexico is an excellent one.

A fast express leaves El Paso, Deming and Silver City each afternoon, making the run to Rincon, and from Willard to Lamy, by daylight, arriving at Lamy the morning of Second day, and Chicago evening of third day after day of departure. This train carries Pullman palace sleepers from El Paso to Kansas City, and Los Angeles to Chicago, with Pullman tourist sleepers Los Angeles to Kansas City making direct connection at La Junta for Pueblo, Colorado Springs and Denver and at Lamy for St. Louis via the Texico Ry.

The train from San Francisco with palace sleepers to Kansas City and tourist sleepers to Chicago leaves Albuquerque daily at noon, strikes darkness near Wagon Mound, arriving in Kansas City evening of next day, and in Chicago the following morning. An additional Pullman sleeper is attached at Las Vegas, running through without change to Denver via La Junta and Trinidad.

The Santa Fe Route aims by its fast time, fine equipment and reasonable rates, to merit the patronage of the traveling public.

WANT YOU WANT

A San Francisco paper and of course you want a paper. The WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It wants your subscription—wants particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier.
"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 21x27 inches, and they are elegantly reproduced in the finest, showing every fine and color of the great originals, either one of which would not be sold for $100.00.

"Women and Children First," by O. Maples Henry.
"Christ Leaving the Prætorium," by Gustave Doré.

Each of these pictures is reproduced by photogravure, the finest and expensive color printing, and will adorn the walls of the most refined room.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In the second place, it will give these premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 50 cents to $5,000—will be given absolutely without cost to every one who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as your bank, or Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that the premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is promised to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

and your subscription of which $1.50, will be sent you for one year, postage paid, for $5.00. Send in money to the office of the EXAMINER and your subscription will be promptly forwarded to the EXAMINER, and you will receive therefor an EXAMINER'S number receipt. You can get a Premium Supplement by applying at this office.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every book and review of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved, printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all may afford to pay. Every home in the land may now be supplied with a set of the great author's works.

Territorial Fair for Lincoln County

New Irrigation Convention.

Territory of New Mexico,
Executive Office.
January 11, 1892.

Pursuant to a generally expressed desire, and in order to carry forward the work originally inaugurated at the irrigation Congress held at Salt Lake City in September last, I hereby call a Territorial Irrigation Convention to be held at Las Vegas

MARCH 16, 1892,

and the subsequent days, to consider the question of irrigation and the improvement of arid lands in New Mexico and the surrounding region.

To this convention delegates are invited to be sent as follows from New Mexico:

From each county, to be appointed by the county commissioners, 10 delegates.

From each city or incorporated town, to be appointed by the municipal authorities, 5 delegates.

From each board of trade or commercial club, 5 delegates.

From each incorporated irrigation company, 2 delegates.

From each newspaper, 1 delegate.

From the Territorial Bureau of Immigration, to be appointed by its president, 5 delegates.

All persons interested in the general subject of irrigation, living outside of New Mexico will be welcome, and will be received on such terms as to representation and membership as the convention may decide.

L. BRADFORD PRINCE,
Governor of New Mexico.

THE CHILDREN'S BOOKS.

How to Select Reading Matter for the Young People.

A very grave matter indeed has become the quality of the reading furnished to our young people. In families where newspapers enter freely, even the casual reader who takes them up and glances them over carelessly can not fail to get a knowledge of the world that if it does no harm does no good either. There are families, indeed, where the children are allowed certain columns of a single paper only, but such prohibition is often as dangerous as its opposite. A notion prevails in many minds that the young must have nothing furnished to them where the subject has been written down to their comprehension, forgetting that all our growth comes from struggle upward, and that it is really a gain not to feel better after the taste for reading has been once formed to have the book or the subject just one degree advanced beyond the moment's taste or fancy. Much of the formation of taste in this matter devolves upon the mother, the aunt, the elder sister; and if they see to it that models of purity and wholesomeness are presented and observed, rather than those which are debilitating to the mental fiber, and thus noxious, no habit will be formed that in time will instinctively reject all that is not distinctively ennobling, and does not feed the better portion of the mind and nature. Puerilities are much in vogue to-day, but their influence is vicious because it is weakening, and is so much distending. Children can be trained to care as much for one of Parkman's histories, with all its tale of daring and doing, as for any paper-covered story of a cowboy's adventures; as much for the Midsummer Night's Dream, with its wit and poetry of [illegible] as for [illegible]

PAINTERS' INK.
A JOURNAL FOR ADVERTISERS.

Is issued on the first and fifteenth days of each month, and is the representative journal of the only branch of American advertising. It discusses in the latest, newest, shrewdest way, when, and where to advertise; how to write an advertisement now to bring the best returns; what newspapers to use; how much money to expend in each; how often to put it in; what class of publications to choose. Advertising is no art practiced by any two men alike, and the methods of PAINTERS' INK cannot fail to be of value to those who desire to keep in touch with the best and most successful advertisers.

A specimen copy will be sent free to any address upon application.

Price - $1.00 a year.

If there is no agent in your town, address the publishers,

Free Reading Matter.

There are various schemes to supply reading matter at the lowest practical cost. What would you think if you could get good reading free?

Drop a postal to G. T. Nicholson, G. P. and T. Agt. A. T. & S. F. R. R. Co., Topeka, Kan., and ask for a copy of "To Mexico by Santa Fe." You can also get free copies of "Across Bar and Holiday," "Guide to San Diego," "Grand Canon," "Las Vegas Hot Springs Guide," and folders to Hot Springs, Ark., and to Texas, Oklahoma and Colorado.

Newspaper Laws.

Mr. Tuckerman, editor of the Workman, Cleveland, has taken some pains to collect and compile the decisions of the U. S. Courts on this subject and gives to the Washington Post, as the result of his investigations, the following, which may be relied upon as correct.

1. Subscribers who do not give express notice to the contrary are considered wishing to renew their subscriptions.

2. If the subscriber orders the discontinuance of his periodical the publisher may continue to send it until all arrearages are paid.

3. If subscribers neglect or refuse to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. If subscribers move to other places without informing the publisher and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for is prima facie evidence of intentional fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time if they do not wish to continue taking it; otherwise the publisher is authorized to send it, and the subscriber will be responsible until an express notice, with payment of all arrearages, is sent to the publisher.

The latest postal laws are such the newspaper publishers can arrest any one for fraud who takes a paper and refuses to pay for it. Under this law the man who allows a subscription to run along for some time unpaid and then orders it discontinued or orders the postmaster to [illegible] refusing [illegible] the paper [illegible]

Excellent Train Service.

The present schedule of train service on A. T. & S. F. R. R. in New Mexico is an excellent one.

A fast express leaves El Paso, Deming and Silver City early each afternoon, making the run to Rincon and Wallace to La Junta by daylight, arriving at Kansas City evening of second day, and Chicago morning of third day after day of departure. This train carries Pullman palace sleepers from El Paso to Kansas City, and Los Angeles to Chicago, with Pullman tourist sleepers Los Angeles to Kansas City making direct connection at La Junta for Pueblo, Colorado Springs and Denver and at Kansas for St. Louis via the Frisco Ry.

The train from San Francisco with palace sleepers to Kansas City and tourist sleepers to Chicago leaves Albuquerque daily at noon, strikes darkness Dean Wagon Mound, arriving in Kansas City evening of next day, and in Chicago the following morning. An additional Pullman sleeper is attached at Las Vegas, running through without change to Denver via La Junta and Trinidad.

The Santa Fe Route aims by its fast time, fine equipment and reasonable rates, to merit the patronage of the traveling public.

Inquire of local agent, or write to G. T. Nicholson, G. P. & T. A., Topeka, Kas.

The above are without question the most famous novels that were ever written. For a quarter of a century they have been celebrated in every book and corner of the civilized world. Yet there are thousands of homes in America not yet supplied with a set of Dickens. The usual high cost of the books prevents many people in moderate circumstances from enjoying this luxury. But now, owing to the use of modern improved printing, folding and stitching machinery, the enormously low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the great author's works.

IF YOU WANT

a San Francisco paper and of course you want a good one, THE WEEKLY EXAMINER fills the want completely, for it is the best. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It wants your subscription particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it fully at his address, postage paid.

"The Retreat from Moscow," by Meissonier,
"The Roman Charlot Race," by A. Wagner.

Each of these pictures is 21x27 inches, and they are elegantly reproduced in fine etching, showing every line and color of the great originals, either one of which would be cheap at $100.00.

"Women and Children First," by O. Napier Henry,
"Christ Leaving the Prætorium," by Gustave Doré.

Each of these pictures is reproduced in photogravure, size 20x28, and exquisitely suited for framing, and will adorn the walls of the most refined home.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office, as soon as the subscription is received.

In this second premium, as well as in the first mentioned, amount in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums. If there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 25 cents to $6,000—will be given absolutely without cost to some of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Wells, Fargo & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that its premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is assigned to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

LILLA G. TIMONEY, P. M

ON Saturday the 20th ult., the grim monster, death, entered the home of our respected townsman, G. R Young, and departing took with him the bright, nearly 5 year old boy Dick, whose mortal remains were laid away in the cemetery on Sunday 21st. This victim did not satiate the greed of man's arch enemy and on Sunday the 28th., he again stalked into the stricken household, snatching therefrom the precious little life of the fourteen months old daughter, Mary Florida Young. The loss of the little boy was a severe dispensation—the taking away of the little girl so soon thereafter was heart crushing. But one more little flower was left in the garden of Mr. and Mrs. Y., and sickness threatened it. Believing that the young home had become permeated with fever, W. H. Weed, in the largeness of his heart, threw open the doors of his residence and invited the survivors to enter and sojourn until such time as the measel scourge could and would be extirpated, which invitation was gratefully accepted.

The World Enriched.

The facilities of the present day for the production of everything that will contribute to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

THE LEADER has for sale a piano, an organ, 2 wagons, 2 carriages, 2 safes, 2 type writers, a watch, a soda fountain, a shot gun a stove and range, 2 bycicles, one for a lady and one for a gentleman—also a first-class sewing machine. EDITOR LEADER—

As one of the committee having in charge the valuable collection of bric-a-brac and art donated as an exhibit for the benefit of the general public by the wealth and talent of White Oaks, after due consultation with the committee as a whole, it has been decided that under proper restrictions as to the care and safe return of these valuable articles, to grant the request made by the Congressional Committee, who recently visited the World's Exposition grounds in Chicago, that this unique display be loaned to said World's Exposition, to be placed in the building about to be erected from the marble quarries of White Oaks, as a special art gallery for said collection.

The liberality displayed by the donors of this unequalled collection of works of art, shows that commendable spirit in allowing them to be moved so far from their own supervision, and displays a patriotism and generosity only found in White Oaks, N. M. U. S. A.

Hoping that the world at large may be benefited to a limitless extent by inspection and study of this grand exhibit, I am

Yours Truly,

$300 Reward for Ore Thieves.

The common experience of this camp shows that much is lost by the mine operators by the stealing of gold in specimens, if not in amalgam and bullion.—Therefore, the "Old Abe" Company of fer a standing reward of Three Hundred Dollars for the arrest and conviction, of or information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore.—The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge, is as guilty in Law as the thief, this offer applies to the holds of Old Abe specimens.
