THE CHICAGO WEEKLY NEWS AND LEADER Co. LEADER, 1 year $2.75.

AN AGE OF PROGRESS.

Truly this is an age of progress as is demonstrated not only by what we see in our own country but through news coming to us from other lands. Great changes are going on in the Holy Land.—What is known as the Holy Land has been figured to be about the size of Vermont. It has a population of 100,000; of which 83,000 are Jews, 10,000 are of the Moslem faith, and the rest are what are called Christians. In days of yore it was more densely peopled, but in the matter of public thoroughfares it has never been so well equipped as Lincoln County. Its ordinary roads have never been much better than burro paths; its cart roads, over which Solomon hauled cedar timber from Joppa to Jerusalem, were ever to have been of a precarious character. The road of this generation from Joppa to Jerusalem is just passable for carriages, but better for the saddle. That from Jerusalem to Bethlehem is said to be better, but the one from Jerusalem to Jericho, along which the caravans were traveled only to fall among thieves, is a holy terror to such as would go in wheels.

But old things are passing away in the Holy as they are in this unholy land, and the new are coming forward. The track builders there have got ahead of those on our short line road, are tooling out the highway and gathering out the stones, and the sound of the spike driver has been heard in the land and the scream of the locomotive whistle has been heard in Sharon's Vale—among the orchard hills, and the clank of iron wheels at the foot of Olive, close unto sad Gethsemane.

Yes, the news comes to us that the R. R. has been completed from Joppa, on the Mediterranean, to Jerusalem, 80 miles. The iron horse now capers over the track of countless caravans, treads and crosses the line of march of vast contending armies, crosses the field where Joshua stilled the sun, where Solomon came forth, where humbly trod the feet of Christ and where Peter's pathway was. The highways of mighty men and armies that has been trodden for centuries is now trodden by steam and steel. Who can comprehend Jerusalem as a railway station? Or Bethlehem, Nazareth, Sea of Galilee, stations on the Jordan Valley Short Line R. R.?

So it has come to pass that mankind feel most free to give place to improvement. The Pope and others may rumble in sackcloth, several mountebanks, Hills and Vilas may lift up their heads in wonderment at the speed of the locomotive's whistle, but commends on the start, say keep on doing their pleasure.

REPUBLICAN CONVENTION.

The Lincoln County Republican Convention convened at Lincoln, Saturday, April 9th., 1892, at 2 o'clock p. m.

Col. T. W. Heman was made chairman and Demetrio Perea, secretary.

The following named gentlemen were elected delegates to the Territorial Republican Convention to be held at Silver City, April 14th., 1892: T. W. Heman and Geo. B. Barber.

DEMOCRATIC CONVENTION.

The Democrats of the county met in convention at Lincoln on Saturday last.

M. Cronin was chairman and J. L. Zimmerman, secretary.

A resolution was passed endorsing Delegate Anthony Joseph and his bill for the admission of New Mexico as a State.

Segio Salazar, John Y. Hewitt J. F. Hinkle and George Curry were chosen delegates to the Albuquerque, Convention, May 4th.

Maj. W. H. H. Llewellen, Santa Fe ring, New Mexico—The days of the cattle kings are not past, by any means. There are 7,000,000 head in Texas and New Mexico has more cattle on its ranges than ever before in the history of the territory. Lincoln county alone reports over 500,000 head of cattle for taxation. In central and southern parts of the territory the herds are increasing, but in northern New Mexico the limited area of the ranges has had the effect of decreasing the number. The reports showed that 200,198 head of cattle were taken out of the territory last year. This year I would estimate that the sales for outside use will amount to 250,000 head. Of this number 65,000 will go to Wyoming and Montana, 25,000 to Nebraska, 50,000 to the Texas Panhandle and the remainder to Colorado, Kansas, Missouri, Iowa and Illinois. New Mexico also has 4,000,000 sheep.

Let the Free Trader defend his demand for free wool by arguing that we can more profitably raise something else if he will. It is an honest, straightforward theory, and deserving of respectful attention from Protectionists. But when they undertake to show that unrestricted competition of foreign wool would benefit American wool growers they deserve neither attention nor respect.

"There is more sound than substance in this reciprocity," says the Hogwump Providence Journal. To the "reformer" only those things that benefit foreign capitalists and fill owners are substantial; measures whose object is the prosperity of American laborers or the extension of American trade are mere "sounds," nothing more.

The term "modus vivendi" is now being frequently employed in the Behring Sea disputation and a subscriber wants to know what it means. Literally it means "pre-serving alive," but diplomatically it signifies an arrangement by which diplomats can settle a controversy without fighting.

ANTE UP

The April number of Judge's Library or Monthly magazine of Fun, Ante Up, is filled with pictures devoted to the American national game—not baseball but poker. You will not find in it any rules which govern the game, nor any pointers by which you can make three of a kind beat a full hand, but you cannot afford to keep house without first looking over the funny sketches of Ante Up. When we announced some months ago that we had the sole right to club for this Magazine at reduced rates, we did not realize its full importance. We realize it now. Good neighbor, if you do not see Judge's Library, why not try it for a year and make yourself and your family happy?

THE BED BUG.—In hot weather or he's about. To quickly and permanently rid your beds of bugs put a small box of Rough on Rats in a pint bottle of benzine, shake when using. Douche the mixture into the cracks, crevices, holes and open joints of the bedstead. It will turn the toes up rapidly. Then mix another small box of Rough on Rats thoroughly with a quarter pound of lard, with this mixture fill all holes, openings, cracks and crevices in the bed. The two methods are warranted to never fail; to be effective and lasting. Cut this out.

Safety in the Midst of Danger.

This would seem a contradiction—is so, in fact, to the eye. But experience has proved its possibility. Take the case of the individual who dwells in a malarious region. A robust constitution is no certain defence against the dreaded chills. What is recorded testimony, covering a period little short of half a century, proves that Hostetter's Stomach Bitters is precisely this. This continent does not limit the field where the medicine has proved its efficacy. In South America, the Isthmus of Panama, Mexico, everywhere in fact where miasma-born diseases take on its most obstinate and formidable types, the Bitters is a recognized specific in fashionable demand, and prescribed by physicians of repute. Potent, too, is it in disorders of the stomach, liver and bowels, and against that destroyer in grippe. It restores appetite and sleep, neutralizes rheumatism and kidney complaints.

PEOPLE hereabouts are now very feverish to hear R. R. news—This fever has been fanned by folk professing to speak by authority who were not authorized to speak. There has been much of that kind of blister in the past resulting in Cero Gordo stating that not one of the lies told by the smart Alecks were true. And now it is safe to say when an outsider professes to have inside news and that dirt will fly within 30 days that half the lies he tells are not true. The other day O. L. Houghton, general manager of the short line road, gave the directory notice that in 30 or 90 days he would make his report and until that report is made we must all possess our souls in patience. We have full faith in the outcome of the project, but lying won't build a R. R. nor aid in building one—in fact it makes the work of such a condition in the grand aisles sick.

G. A. R. DOTS.

The Territorial G. A. R. Encampment, held at Las Vegas last week was the largest and most enthusiastic ever held in New Mexico. The following are the department officers elected for the ensuing term:

Department Commander—S. W Dorsey.

Senior Vice Commander—Capt Jack Crawford

Junior Vice Commander—Jno. A. Ross.

Chaplain—Thos. Harwood.

Medical Director—J. F. Martin

Delegate to National Encampment—H. J. Franklin—Alternate Wm. M. Berger.

Council of Administration—Smith H. Simpson, J. P. Hyland, Edward Terrell, John G. Bromagem, John R. McFie.

Santa Fe was selected by the Encampment for holding the 16th annual Encampment next year.

Hearing of the fact that Parson Arney and Mr. Leathers had dined together, The Methodist Christain Advocate said: "The Methodist Parson Arney, who has such a vein for horse races and race horses dined at a city hotel recently with a noted "sport." Mr. Arney's reply pulverizes his reverend critic as follows: "I know no man as a sport; but as a Christian minister I know men only to love them. Christ himself was likewise criticised by the Pharisees, who said: 'This man receiveth sinners and eats with them. Had some of the 'good' people whom I met there as courteously invited me to, I would as likely have dined with them. And as for horses, I often find it quite a relief to turn from the braying of sanctimonious asses to the friendship of an intelligent and honest horse."

HON. DAVID TAYLOR, one of the wealthy and representative men of Emporia, Kansas, came in this week on a cattle buying tour. This shows there is something in the wind touching the raise in the price of cattle.

THIS week Mrs. Susan E. Fowler bought from W. J. Lucas, the property situate on the corner of White Oaks Avenue and Pinon St., (½ lot.) Consideration $300.

THE air of the Pecos Valley is heavily freighted with the rumor that Jay Gould, who is now and for some time has been in El Paso proposes taking hold of and pushing the Pecos Road through to White Oaks and Los Cerritos.—At present it is but rumor.

THERE has been quite a dearth of news, local and general, the past week. Papers must take the place of news papers.

RECENTLY H. B. Ferguson understood that there was a rich mica bed in the San Andreas. Not having time to apply to the promised land himself he equipped and commissioned Uncle John Walters to take his place touching the bearings and John found a sure-enough bed of the precious stuff which peels as thin and is as transparent as that on hand here in the service of glasiers purchased from those in the trade. Specimens can be seen at Parker's hardware store, and Walker says that there is a mountain of it. This is a new industrial product, which we hail with pleasure. A rich mica bed is as remunerative as a gold mine. "T'were better to be born lucky than rich," is a trite old axiom, and Ferguson exemplifies its truth.

SOME of our exchanges attribute want of enterprise on the part of White Oaks papers because the output of our mines are not published. The fault, if there be any, does not lie with the publishers. Our mine owners hold that such information is private, not public property. The Old Abe owners are exceptions. The other mine holders have invariably declined to impart the information indicated though importuned to do so.

Safety in the Midst of Danger.

This would seem a contradiction—is so, in fact, to the eye. But experience has proved its possibility. Take the case of the industrial who dwells in a malarious region. A rational constitution is provided defense against the dreaded chills. What is Recognized testimony, correcting a tendency to chills? Hostetter's Stomach Bitters is precisely this. This excitement does not finish the task where the medicine has proved its efficacy. In South America, the Isthmus of Panama, Mexico, everywhere in that where miasma-born disease takes on its most obstinate and formidable type, the Bitters is a recognized specific for liver complaint, and prescribed by physicians of repute. Patent, too, is it in disorders of the stomach, liver and bowels, and ailment that destroyer is proved. It removes appetite costiveness, neutralizes rheumatism and kidney complaints.

ONE of the most pleasant and enjoyable affairs of the season occurred last week at the residence of L. W. Stewart. It was a Phantom Party. Quite a number of our leading society people attended and the wee sma' hours appeared before the guests disappeared.

WE understand that the name of John Y. Hewitt will be presented before the democratic county convention as first choice for delegate to the national democratic convention at Chicago in June. He would reflect honor and dignity on his party and the Territory.

QUITE a number of consignments of freight have been received the past week by our merchants, indicating that business is good.

$250 Reward for Ore Thieves.

The common experience of this camp shows that much is lost by the mine owners by the stealing of gold in specimens if not in smelting and bullion.—Therefore, the "Old Abe" Company offer a standing reward of Three Hundred Dollars for the arrest and conviction, or for information leading to the arrest and conviction of any person guilty of stealing ore of the property of the Old Abe Co., even the smallest specimen of ore.—The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as gold dust. Any one receiving such gold is guilty knowingly, is as guilty in law as the thief. This offer applies to the hold of Old Abe specimens.

HOME DECORATION.

How to Obtain Very Pretty Results from Mamma's Materials.

A pretty design for sash curtains is developed in denim. The curtain after it is hemmed at the top and bottom should be just the length of the window from the middle to the lower sash. Trace on a strip of paper exactly as long as the width of the denim the words "Pull me tight, shut out the light," and on another, "Pull me back, to welcome back." Paste these strips, one on each curtain, about an inch from the bottom. The lettering should be quaint and rustic in design. Almost any fancy store keeps the wooden alphabets now. The lettering should then be couched in white or red cord. Sew brass rings to the top of each curtain and suspend them from a brass rod. These are pretty for ground floor bedrooms or dining-rooms.

Denim also makes an effective portiere. One lately seen was made of three widths of blue denim—the light side being used for the outside. At the top and bottom hems of nine and eighteen inches were turned onto the right side and stitched—the dark on the light affording a pretty contrast. To cover it a stubbing a length of white cotton rope one-half inch in diameter should be overcast. Instead of attaching the portiere to the pole by means of rings and fine yarn lengths of rope were used. They were sewed at regular intervals to the upper edge; the ends were then thrown over the pole and securely tied, after which they were fringed. If the portiere is to be looped back rope should be used and the ends fringed to correspond. The portiere could be lined, though the one described was unlined and hung in graceful folds.—Housewife.

Yet there are thousands of homes in America not yet supplied with a set of Dickens, the usual high cost of the books preventing people in moderate circumstances from enjoying that luxury. But now, owing to the use of modern, improved printing, folding and stitching machinery, the extremely low price of white paper, and the great competition in the book trade, we are enabled to offer to our subscribers and readers a set of Dickens' works at a price which all can afford to pay. Every home in the land may now be supplied with a set of the greatest writer's works.

MARLIN RIFLES EVERYWHERE

YOU WANT

a San Francisco paper and, of course you want a good one. The WEEKLY EXAMINER fills the want completely, for it is first rate. It gives you every week not only all the news, but the best literary and miscellaneous matter published on the American continent—that is its specialty; being the best. It meets your wishes, sir—your particularly—and offers not only to you, but to every other subscriber, one or more attractive premiums.

In the first place, it gives every subscriber, one of the four magnificent etchings or paintings described below, and delivers it safely at his address, postage paid.

"The Retreat from Moscow," by Meissonier.
"The Roman Chariot Race," by A. Wagner.

Each of these pictures is 21x28 inches, and they are elegantly reproduced in the finest shading every line and color of the great originals, either one of which would not be considered too high.

"Women and Children First," by C. Napier Hamy.
"Christ Leaving the Pretorium," by Gustave Dore.

Each of these pictures is reproduced in photogravure, size 15x18, and exquisitely fine for framing, and will adorn the walls of the most refined home.

Each subscriber has the choice of any one of these four pictures, which will be mailed him in a tube direct from the EXAMINER office as soon as the subscription is received.

In the second place, it will give 5,000 premiums, valued in the aggregate at about $125,000 to its subscribers this year. If there are 50,000 subscribers, one in ten will get one of these premiums; if there are 100,000, only one in twenty. But no matter how many there are, each and every one of these premiums—which range in value from 25 cents to $5,000—will be given absolutely without cost to those of those who have paid $1.50 for the WEEKLY EXAMINER for one year. The EXAMINER is thoroughly responsible, as you know, or as Dun, Barlow, Fergs & Co. or any bank or commercial agency in San Francisco will assure you, and the leading men of the city will see that the premiums are distributed exactly as agreed and that every subscriber no matter where he is located, will receive just what is designed to him.

Of course you want your home paper also, and you can just as well as not save a little money by taking the EXAMINER with it. The price of the WEEKLY EXAMINER is $1.50 per year, including the premium picture and your share of the $125,000 list of premiums, which are fully described in the twelve page Premium Supplement, which will be sent free on application to

W. R. HEARST, Publisher, San Francisco, Cal.

[illegible] which has a combined price of $2.25, will be sent you for one year, postage paid, for $1.00. Send the money to the office of the EXAMINER and your subscription will be immediately forwarded to the EXAMINER, and you will receive these two publications by return mail. HOME DECORATION.

How to Obtain Very Pretty Results from Mosses Mistletoe.

A pretty design for sash curtains is developed in denim. The curtain after it is hemmed at the top and bottom should be just the length of the window from its middle to its lower sash. Trace on a strip of paper exactly as long as the width of the denim the words, "Pull me tight, shut out the light," and one another, "Pull me back, my darling Jack." Baste these strips, one on each curtain, about six inches from the bottom. The lettering should be quaint and rustic in design. Almost any fancy store keeps the rustic alphabet now. The curtain should then be couched in white or red cord. Sew brass rings to the top of each curtain and suspend them from a brass rod. These are pretty for ground floor bedrooms or dining-rooms.

Denim also makes an effective portiere. One lately seen was made of three widths of olive denim—the light side being used for the outside. At the top and bottom breadths nine and eighteen inches were turned over on the right side and stitched, the dark on the light affording a pretty contrast. To cover it a trailing vine of white cotton rope one-half inch in diameter should be couched. Instead of attaching the portiere to the pole by means of rings and three-yard lengths of rope very high. They were sewed at regular intervals to the upper edge; the ends were then thrown over the pole and securely tied, after which they were fringed. If the portiere is to be looped back rope should be used and the ends fringed to correspond. The portiere could be lined, though the one described was unlined and hung in graceful folds.—Housewife.

—A woman who gave her husband some zephyr to get matched two days ago on his way home in the evening has not seen him since. As there are only forty-five stores in town where zephyr is sold, she thinks it is about time he returned home.—Norristown Herald.

A TERRIBLE FIRE.

A LITTLE LIFE LOST.

About 9:30 on Tuesday morning the South Homestake whistle startled our people by one of its loudest blasts. It didn't take long to divine the cause. From near the corner of Harrison Avenue and Placer St., black clouds of smoke were climbing the heavens emanating from what having been known as the C. T. Clark building, for some years owned by U. Oaks to. Soon the larger portion of our populace was on the scene, each with pail in hand. In an incredible short time two full water tanks were wheeled into line and those present worked heroically to stop the direct element from consuming contiguous buildings which seemed doomed, notably the Langston residence, and it was only through indefatigable work intelligently applied that a serious conflagration was checked.

But it was serious, involving as it did a precious young life, causing the stoutest heart to quail and to make each spectator feel that a personal loss had touched him. The burned house was occupied by Chas. Ericson (Ormes's blacksmith) wife and two children, one nearly 4 years of age and the other a 7 month's old infant. A short time before the fire broke out Mrs. E. left her children alone in the house and churried over to Weed's store to make some little purchase. While so engaged she happened to see the smoke and exclaiming "My God! my children!" ran to the scene, alas, too late. At the outbreak of the fire Mrs. Davies gave the alarm and Ericson hearing it ran, kicked the door in and from the clutch of the flames bore his infant out but not before the little body had been pretty badly singed, though not dangerously. The elder child was not reached until its charred rayiments were taken from out the ruins. It is hoped and believed that smoke smoked out the little fellow's life away and that he was insensible to pain incident to conscious contact with fire.

Of course the origin of the fire will always be a mystery, but it was doubtless due to some innocent operations of the children as it is said there was little or no fire in the stove. It is safe to say that Mrs. E. will never again confine her children alone in a house, as it is to say that mothers have done it before, and others will do it again.

Of course not a chattel was saved and the stricken and bereft couple a pod in their helpless misery without shelter or change of raiment. But the people of this town, true to their noble instincts bestirred themselves. A furnished house was procured and Langston swung around the circle with a subscription paper, returning with an amount overstepping $100, enough to compensate them for their loss—save that of their loving child.

LAST Tuesday the fire fiend visited Nogal and destroyed the Henley houses. Both the log and frame houses were burned. W. J. Henley's family saved everything but store—the old folk lost all.

$500 Reward for Ore Thieves.

Ignorance of experience of this Camp shows that much is lost by the miners, prospectors by the stealing of gold in various ways, if not in smelting and bullion. Therefore, the "Old Abe" Company offers a standing reward of Three Hundred Dollars for the arrest and conviction, or information leading to the arrest and conviction of any person guilty of stealing any of the property of the Old Abe Co., even the smallest specimen of ore. The rule of this company is to mill all specimens. Therefore none of the ore from this mine can be honestly held as specimens. And as the receiver, with guilty knowledge is as guilty in law as the thief, the officers of the company will prosecute to the full extent of the law all persons found guilty of violating the rights of the Old Abe Co.

Address, New Home Sewing Machine Co., 725 Market St., San Francisco, California.
