CARRIZOZO, NEW MEXICO, FRIDAY, NOVEMBER 14, 1930

NUMBER 46

Fess, G. O. R. Chairman

Washington, Nov. 12—Two prominent Republican anti-prohibitionists were joined today in open opposition to the expressed dry views of their party's national chairman.

Senator Fess of Ohio, chairman of the Republican national committee, was made the target of a vigorous attack by Representative Britten of Illinois, a former Senator James W. Wadsworth of New York.

Britten demanded the selection of another chairman, if, he said, "Senator Fess is so blind or so intolerant that he cannot analyze the desires of millions of voters in progressive northern states."

Wadsworth spoke of a split in the party and asked: "What kind of a split is better, a split caused by a straight-out manly declaration on the fundamental importance of repeal or a split caused by a half-hearted and transparently insincere adherence to prohibition?"

Leaving the Democratic south out of future Republican calculations, Britten said, the success of the party is dependent upon its success in "such wet Republican states as New York, Illinois, Pennsylvania, Massachusetts and Ohio, together with many smaller wet Republican states."

Fess leadership, he added, had been "colorless and void of the slightest comprehension of political strategy." He termed it as "Leadership which has brought defeat and urged an immediate meeting of the national committee for a discussion of the best interests of the party."

"We want our party to be right," said Wadsworth, "on the only fundamental constitutional issue that has arisen since the days of the Civil war and we will fight to make it right, split or no split."

"The trouble with Senator Fess is that he cannot see what is going on in this country. Tears dim his sight. The plain fact is that the prohibition law is a ghastly failure, and no change in penalties or procedure will make it a success."

This Week in History

Nov. 10—German Cruiser Emden destroyed at Cocos Island, 1914; Kaiser flees to Holland, 1918; British cruiser Serpent, wrecked in storm off coast of Spain; 167 lost, 1890; Saybrook, first English settlement in Connecticut, 1635.

Nov. 11—Germany signed armistice, 1918; Mayflower compact signed, 1620; Washington Peace Conference meets, 1921; Haymarket anarchists hanged, 1887; American unknown soldier buried at Arlington National cemetery, 1921.

Nov. 12—Jose Canalejas, Prime minister of Spain assassinated, 1912; Emigrant ship Edmund, wrecked off coast of Ireland, 100 lost, 1850; Montreal surrendered to Colonial forces, 1775.

Nov. 13—M. Madjanow, mayor of Sofia, Bulgaria, assassinated by a discharged municipal employee, 1925; East Indian Reliance, China to London, wrecked off Boulogne, 109 lost, 1842; Montreal captured by Montgomery, 1775; General Sherman begins famous "March to the Sea", 1864.

Nov. 14—Steamer Manistec sank in Lake Michigan, 30 lost, 1882; Mason and Dixon English surveyors, arrive to establish boundary, 1763.

Nov. 15—Articles of Confederation adopted by Congress, 1777; the Italian senate makes the Fascist Grand Council a part of the government, 1928; British Indian Steamer, Tukaram, sank in storm off Bombay, 128 lost, 1927.

Nov. 16—Louis David Riel, Canadian Rebel hanged, 1885; Emigrant ship Caleb Grimshaw burned at sea, 60 lost, 1849; Ft. Washington captured 1776; Oklahoma admitted to the Union 1907.

Corona News

(By Ruby Johnson)

Miss Dorothy Wright visited her mother, Mrs. Mattie Wright of Lincoln New Mexico last week-end.

Mrs. Beaver suffered a severe stroke of paralysis last week which she is not expected to survive.

Mrs. Dana Simpson returned home from Tahoka, Texas where she has been very ill for several weeks.

Mr. and Mrs. E. G. Buchanan announce the birth of a baby girl, Elma Merle.

Mrs. Elmer Melton's sister from Albuquerque visited her last week.

Miss Mildred Arnold visited Miss Edna Varney in Albuquerque during the Teachers Convention. She reports a very pleasant visit. Edna is a former member of Corona school.

Max Penix brought home the first deer from the Gallina's Mountains Monday morning. Six deer were taken out of the Gallina Mountains Monday.

Mr. and Mrs. W. S. Dickman and son accompanied by Miss Edna Atkinson, visited their daughter Zelfa at the State College last week-end.

The High School girls have ordered new basket ball suits.

Mrs. Groce's room is preparing an operetta entitled "Kay and Gerda."

They are preparing for Thanksgiving with decorations of all kinds.

Lid Stone is visiting Mr. Wm. Greer. He is the pitcher on the Philadelphia baseball team.

The following teachers from Corona attended the State Teacher's from Convention at Albuquerque Nov. 6, 7, and 8. Mr. and Mrs. D. U. Groce, Mr. and Mrs. L. S. Van Scoyoc, Mrs. Melvin Franks, Glen Greer, Miss Dorothy Arnold, Lois Martin and Donnie Franks.

Expresses Appreciation

I wish to express my appreciation to the voters of Lincoln county who gave me a vote of confidence in the recent election, and to say to them and to all the people of Lincoln county that I shall endeavor to merit the confidence that verdict imposed by a strict adherence to the performance of the duties of Assessor, Respectfully,
W. E. Kimbrell.

WATER CANYON WAY

Where gentle breeze blow,
And birds forever sing and play,
Isn't that—where we want to wander?
Perhaps—up Water Canyon way.

Where beautiful hills begin to rise,
With all their beauty on display
'Tis one of mother earth's best beauties;
Up Water Canyon Way.

Where shadows softly gather—
late in evening,
Making us want to stay;
Until dusk overtakes us,
Up Water Canon Way.

Where stately Mogal peak—
forever watching,
As if ever wanting to say:
Come on folks, and forget your troubles,
Up Water Canyon Way.

Industries We Can Have

When the industry committee of any small town Chamber of Commerce casts about for an industry for the community that will furnish employment to local labor it is directing its energies along the most helpful lines from the community standpoint.

Every community has many hours of idle labor that unless it can be stored up or saved by being put into some manufactured product will be lost to the individual and the community as well. By investing it in some manufactured product is the only way in which today's idle time can be sold tomorrow next week, or next month. Otherwise it is lost in the passing.

The commonest mistake made among small town industry promoters is that they go about the thing wrong end to. They build and equip a plant and then begin to look for a market and an outlet for their product.

Plants are easily built, but markets must be found. If every small town that attempted to embark in the field of industry would first locate its market and then arrange to supply it, there would be fewer failures of this kind recorded.

The value of an industry of the kind mentioned, to the small community is that it brings in outside money to the local channels of trade and permits the citizens of the community, to not only sell their products but their labor also.

Always, however, it is wise to know where the outlet for the product is to be before much is invested in its production.

New Chevrolet Model

Cleveland, O., Nov.—Definite assurance that Chevrolet will introduce a new car for 1931 on Saturday was revealed here today during the staging by Chevrolet factory officials of the first of fifty dealer meetings to be held in the next five weeks throughout the country.

Included in a carload of equipment brought in for the meeting was a new car substantially bigger than the current model, and extensively changed in appearance.

Although the meeting was closed to the public, it was learned that H. J. Klingler, vice-president and general sales manager of the Chevrolet Motor Co., who attended the meeting here, told the 500 dealers and associated bankers in attendance at the City Auditorium that the car would be publicly announced the coming Saturday, and that, despite its increased size and improved appearance, it would be priced considerably below current levels.

Dramatic incidents attended the presentation of the car. It was trucked under canvas from the freight shed to the stage of the Auditorium, and there, boxed in by velvet drops and under a flood of spotlights, disclosed to the audience.

The car is longer than the present Chevrolet, and changes and refinements are so extensive that it has a decided "big car" appearance, one dealer reported.

If the sentiment among the dealers here is any criterion, the new car ought to prove the most successful product in the history of the company.

Prices on the new Chevrolet line for 1931, as announced here

COMMITTEE

Notice of Hearing On Final Account of Executor and Petition for Distribution

State of New Mexico In The Probate County of Lincoln Court

In the Matter of the Estate of James M. Tyler, deceased

To Helen Gunther, Los Angeles, Cal., May E. Tyler, Kansas City, Mo., Price M. Miller, Ancho, N. M., Ed T. Miller, and Herbert Miller residence unknown, and all unknown heirs of James M. Tyler, deceased, and all claimants of interest in the estate of James M. Tyler, deceased:

You, and each of you, are hereby notified that L. P. Hall, as executor of the estate of James M. Tyler, deceased, has filed in the above entitled court and cause, his final report and account, and said court has appointed Monday, the fifth day of January, 1931, at the hour of two o'clock p. m., as the day and time for hearing of said final report and account.

You are further notified that on said day, the Probate Court will proceed to hear and settle said final report and account, to determine the heirship of said decedent, the ownership of his estate, and the interest of each respective claimant thereto and therein, and the persons entitled to the distribution thereof.

The attorney for said executor is John E. Hall, postoffice address, Carrizozo, New Mexico.

Dated this 7th day of November, 1930.
(Seal) S. E. Greisen, County Clerk.

sen. range from \$475 to \$650 as against \$495 to \$685 for the 1930 car.

Price reductions range from \$20 to as much as \$40. A comparison of old and New prices follows:

Model	Old Price	New Price	Change
Roadster	\$495	\$475	-20
Sport Roadster	515	495	-20
Standard Coupe	565	535	-30
5-window Coupe	New Model	545	
Sport Coupe	615	575	-40
Coach	565	545	-20
Standard Sedan	675	635	-40
Special Sedan	685	650	-35

In addition to the price changes in the passenger car line, Mr. Knudsen also announced reductions in the Chevrolet commercial car line. The commercial chassis has been reduced \$10 to a new price of \$355, and the Sedan Delivery \$20 to a new price of

What We Think

By Frank Dixon

A new Hoover dam being erected on the Colorado river will reclaim from the desert 7 million acres of land and increase the problem of over production to just this extent.

These things all work together. No small part of the butter surplus is due to the fact that the roasting ear crop was cut short this summer.

A Topeka family has named the oldest son "Farm Relief" because he won't work.

If every wheat grower should cut down his acreage, and every feeder feed wheat, and the drought continue to cut down the yield per acre, the Farm Board should be able to bring about a reasonable increase in the price per bushel of wheat.

Haven't heard much the last eighteen months about that prosperity that was "just around the corner." Must have been going the other way, but they didn't tell us about that.

A simpleton who is a member of congress has proposed another raise of the tariff to save industry. If the fool killer is ever loose he will begin on congress.

When We Can Reach the Moon

By JEAN NEWTON

BY THE year 2050 we shall be able to travel to the moon, and back, a well-known scientist tells us. Not only that, but we shall probably have telephone communication, too!

The year 2050—that means that the grandchildren of a girl reading this column may live to see it.

The explanation of how we earth dwellers are to reach the moon, which is over 200,000 miles away, involves scientific discussion which is too much for most of us. But it is clear that we are to travel in a rocket ship, at a speed of 50,000 miles per hour. Indeed, far sooner, probably by 1950, we are told, a speed of 1,000 miles an hour will be possible.

A review of the scientific advance, and the constant multiplication of speeds at which travel is possible, in the last few generations, makes it not at all preposterous to credit the vision of our great grandchildren commencing to the moon.

But my thoughts go a bit further. The question in my mind is—"and then what?"

Will human beings be any happier for that new facility in travel? Will the accessibility of the moon lengthen our life or make it any easier for the average man and woman? Will it wipe out weakness and disease, eliminate greed and discontent, wipe from the face of the earth worry and sorrow—and ingratitude? Will it cure us of the strain and pressure and "rush" of what we call modern life?

Or will it just mean another variety of speed and more of it? Perhaps we humans shall be able to travel to the moon. But what then?

Books' Teaching Value

Books without the knowledge of life are useless, for what should books teach but the art of living?—Johnson.

AT THE SUNSET OF LIFE

By Douglas Malloch.

O H, THE sunset of life is the sunset of more Than the days of the past, with our days nearly o'er, For the sun never sinks but it takes in its train, Though a little of joy, not a little of pain. Now the struggle is through, now the labor is done, And the world is slight with a kinder sun. There is dark in the east, but a glow in the west, And the voice of the night was a whisper of rest.

Yes, the sunset of life, like a long afternoon Brings the end of the day, but a silvery moon. Though the sun may depart, does it matter or not? There are stars in the sky we had nearly forgot. Now they light one by one, like the lamps in the street; Make a path through the dusk for the wanderer's feet. With our wandering done, we are near to the door, For the sunset of life is the sunset of more.

For the sunset of life comes to mortals, to me, Like the dark to the hill, like the night to the sea. Now the branches that tossed only flutter their leaves; It is so with the soul, with the mortal who grieves. Now the waves only lap on the edge of the sand, Never dash at the rocks—they have learned they will stand. Like the mercy of God at the end of the strife, There is wisdom as well as the sunset of life.

THE ARKANSAS WHIRPLESHUCK

By Hugh Hutton.

(Author of Nutty Natural History)

THE mountaineers of Africa have found that this creature is an indispensable assistant in the hunt for the Purple Whirple. Having a keen nose this beast can track a whirple to its den in less time than it takes to tell it and proceed to capture it. If given a wienersurst it will shuck the hide off the whirple in three min-

utes and then graciously present it to the attending mountaineers. With whirple hides selling at \$42, the mountaineers find the sport well worth the wienersursts they are forced to expend.

We are here shown a whirpleshuck on the trail of a whirple with his large

peanut head and small pecan body. The ears are split navy beans and the feet are split peanuts. To the toothpick legs are fastened the shucking spurs made of cloves which also furnish the tail.

(© Metropolitan Newspaper Service.)

Sensible Co-Operation

With the purpose of furthering economic co-operation between the two states, Austria and Hungary have each appointed a special commission of five experts to survey the needs of each country. They will keep in mind at all times that Austria, though primarily industrial, has certain agricultural interests which must not be damaged; and that Hungary, though primarily agricultural, has in mind an industrialization program which can not be ignored.

"The huddle system in football," says Coed Cars, "probably had its origin in a collegiate flivver." (Copyright.)

Everyday Good Things for the Table

By NELLIE MAXWELL

Enthusiasm is the one thing that makes the world go round. Without its driving power nothing worth doing has ever been done. Love, friendship, religion, altruism, devotion to career or hobby—all these and most of the other good things in life are forms of enthusiasm.—Robert Haven Schawler.

FRESH fish are so much enjoyed when steamed or cooked in a cheesecloth, dropped into boiling water. Serve carefully drained with hot: Maitre d'Hotel Sauce.

Melt three tablespoons of butter, add one-half teaspoonful of salt, one-eighth teaspoonful of pepper, one-half tablespoonful of chopped parsley and a teaspoonful of lemon juice. Double the amount if more sauce is needed. While cooking the fish add

an onion to the water and a teaspoonful of salt to a pound of fish.

Cup Cakes.

Cream one-half cupful of shortening and add one cupful of sugar gradually. Add two beaten eggs. Mix and sift together one and three-fourths cupfuls of flour, three teaspoonfuls of baking powder, one-eighth teaspoonful of salt, and add alternately with the milk to the first mixture. Beat well and add a teaspoonful of vanilla and pour into greased gem pans and bake in a hot oven 15 to 20 minutes. When cool cover with:

Quick Frosting. Put one cupful of sugar, one egg

white, four tablespoonfuls of cold water in a saucepan over boiling water. Stir constantly or beat with an egg beater until the frosting is of the consistency to spread. Add vanilla and spread on the cakes.

Coffee Macaroon Biscuits.

Soak one tablespoonful of gelatin in one-fourth of a cupful of cold water for five minutes, then dissolve in one and one-half cupfuls of hot clear coffee. Add one-third of a cupful of sugar, one-eighth teaspoonful of salt and set aside to cool. When it begins to thicken fold in one cupful of whipped cream and two-thirds of a cupful of macaroon crumbs. Pile in sherbet glasses and sprinkle with chopped pecan meats and garnish with chopped marachino cherries. Chill thoroughly.

Rubens Given High Honor

A Flemish journal recently opened a contest among its readers for the purpose of determining the most famous or patriotic Belgian. As far as the contest has proceeded the most glorious name in Flemish history is the gifted painter, Peter Paul Rubens, whose masterpieces have been esteemed among the incomparable possessions not only of Flanders, or Belgium, but of the world.

No Venomous Reptiles

There is no species of venomous serpent in Cuba, Haiti, Porto Rico and Jamaica are also free from poisonous reptiles.

A New Race of Adorable Females

RING out the old "It"; ring in the new.

For the "It" which Clara Bow and Alice White and many another made famous is dying, in not already dead, and in its place has come a new and utterly different "It." None other than Madame Ellnor Glyn, the famous novelist and scenario writer who first coined the word "It" to denote that something which attracts men to certain members of the opposite sex, is authority for this statement.

In an article in "The Modern Screen Magazine," Madame Glyn declares that today "males are demanding women who, however young they may be, do not demonstrate eternal immaturity, but who allow soul to be felt as an inspiration, the mind to be enjoyed as a stimulant, and the body to be worshipped as the perfect sweetheart

type, the perfect wife type, and what could, in the future, be divine motherhood." "This," she says, "is my conception of the new 'It'."

Madame Glyn maintains that women try to express in themselves what the men of a nation at any given time prefer. "After the war," she writes, "all males were too tired and weary to stand any type which required lifts to think before they spoke. They wanted just baby-faced, golden-haired, childlike dolls. When the males grew less tired and prosperity again permeated business, they wanted very young but go-ahead companions who were called 'Flappers.' These stimulated their renewed sense of life." Finally, she says, when males had begun to weary a little of the flapper because business seemed solid and they had more time in which to think, came the "Its." They intrigued the males and stimulated their imagination with more subtle clothes, suggesting the female outline, although skirts still were very short.

"Then," she concludes, "when disaster, or, at best, a slump, fell upon the males, those surviving yearned for sympathetic darlings with the mother instinct who would care for them and give them tenderness. The girls began to wear longer and longer

dresses; they let their hair grow, and while they still contrived to remain young and charming; they took on all the demure and exquisite womanliness of Southern belles before the Civil war. The males, recovering from their first stunning business blow and appreciating their new companions, are realizing that they are really the old ones, ever ready to follow their demands—and these demands now being for sympathy, collaboration in keeping the home going and helping to economize, a new race of really adorable females seems to be developing."

SCIENTIFIC METHODS ARE USED TO PRODUCE RAIN

A party of modern mad scientists, operating under the title of the weather control bureau, are endeavoring to produce rain by scientific methods on an old Virginia estate near Washington. Heavy dynamite blasts are set off against a rocky cliff, which acts as a reflector, in an effort to induce precipitation. The photograph shows the scene as one of the blasts is detonated.

SUPERSTITIOUS SUE

HE HAS HEARD THAT—

Looks Young. Feels Fine

"Eight years ago before my last baby was born, I started taking Lydia E. Pinkham's Vegetable Compound. I got such good results that I named her Catherine Lydia. I have six older children and five grandchildren, too. I am 44, but people tell me I look much younger. I am now taking the Vegetable Compound again because of my age. I eat and sleep better and I do all my housework, and my washing. I will do my best to answer letters."—Mrs. H. Dohndt, 6318 York St., New Orleans, Louisiana.

Lydia E. Pinkham's Vegetable Compound

BLACK-AND-WHITE HOLDS SWAY; SHEER VELVET FOR FORMAL WEAR

THE black-and-white note continues to resound throughout the length and breadth of fashion's realm.

Particular emphasis is placed on the black daytime frock with a touch of white fur at neckline and wristlines. The idea works out to perfection when the dress is of sheer and supple black transparent velvet, and the fur is dainty white ermine. Not only is the ermine-touched black velvet gown style convincing, but there is a sprightliness and youthfulness about the combination which appeals to every woman who aspires to appear at her best.

The chic frock illustrated in the foreground is just such a type as the woman—"who knows" will choose for her smart afternoon coming and going. Its becoming neckline is achieved with softly draped white flat crepe together with a band of snowy ermine. The same motif of fur and crepe is repeated for the cuffs.

At first glance this charming dress would seem to be styled very simply. In reality it has been put together by means of complex seaming, thus giving it a silhouette of sophisticated mode due to its finely fitted lines. Which is one of the very interesting things about the better velvet frocks—their intricate fabric manipulation which arrives at simplicity.

Returning to that which we started out to talk about—the vogue for black-and-white—for one of its most fetching interpretations designers are combining black velvet with white velvet. A styling which lends itself effectively to this alliance is that of seaming a white velvet bodice top to a skirt or lower portion of black. In the picture the model thus fashioned is of a very lovely quality of transparent velvet. The skirt is pleated on

CHIC FROCK FOR AFTERNOON WEAR

adorned the most. Experienced dress-makers and leading couturiers in this "velvet season" have unflinchingly used velvet sans trimming, the texture and the luster of the fabric being in themselves adequately decorative.

In creating the beguiling evening gowns pictured below, the theory that "beauty unadorned is adorned the most," has no doubt been uppermost in the mind of the designers. The center model, for instance, of midnight blue transparent velvet is entirely a matter of artful fabric manipulation. Its three graduated circular-cut tiers are deftly scalloped. The natural waistline with its quaint old-fashioned bodice is belted in and held by a jeweled buckle of sapphires and rhinestones. The neckline which accents the vogue for costume jewelry tapers to the color scheme of the gown, is also of simulated sapphires. The sandals are of the velvet of the dress.

The lovely frocks in the panels at either side in the illustration interpret the stately grace of the new all housette with consummate art. There is no difficulty in tracing at a glance the sculptural beauty of early Grecian lines in the gown to the left. This costume classic is done in white transparent velvet. Its softly draped neckline, its sectional seamed peplum

LOVELY EVENING GOWN IN SHEER VELVET

either side and rises to the bodice in a pointed movement. The frock is as dainty and lightsome as if it were made of chiffon.

For Social Functions. Then all fabrics lovely for the making of frocks which will attend the dance, grand opera, and all the other functions and festivities which go to make up the list of social activities, there are, perhaps, none lovelier than this season's transparent velvets which, if possible, are more exquisitely sheer than ever.

There is that about the new gowns fashioned of this enchanting material which leads to the conclusion that when unadorned, handsome velvet is

its long-limbed skirt with its undulating hemline all reflect the classic lines of ancient Greece. The décolletage is cut to the waist at the back.

Transparent velvet in the fashionable perrenche blue is used for the gown to the right. It has that air of sophisticated simplicity which speaks a patrician mode. A side panel is knotted at the waist, the drapery maintained over the shoulder and again knotted at the back waistline.

One of the problems left to the individual to solve is whether to choose standing black, lovely white or an enchanting color for the evening gown.

PALM SPRINGS California

Road Built in One Day

By building 35 miles of road in one day, Mexicans living near Tremendo are believed to have broken the world highway construction record. The stretch was a section of a highway which will link the Mexican cities of Guadalajara and Mexico City. When news of the intended project reached Tremendo, messengers carried the word throughout the district. In answer to their call, 2,000 rancheros and native Tarascan Indians dropped their own work and hastened to the site of the proposed road. Starting at dawn, they completed it by sundown.

Judicial Convictions
"Thousands of people are living according to their convictions."
"Yes, the jails are pretty full."

Many proverbs are the wit of one and the wisdom of none.

All artificial laughs are loud.

Should Have Known

What He Would Do
The hero of this one is not exactly as meek as Moses, but yields often to the wishes of a somewhat domineering wife, with mental reservations. The two went north not so long ago and, when the husband's two weeks of vacation were over, he yielded to her entreaty that she be allowed to stay on the lake for the remainder of the month and assured her everything would be all right at home. Of course, he would take his meals out, but he would sleep at home and take care of everything just as she would were she right there.

The woman came home Sunday to find the grass out of bounds, every window shade awry, and ashes, cigarette stubs, newspapers and whatnot scattered everywhere. But greater than her dismay at the disorder was the shock she received at friend husband's attitude toward her displeasure at the state of affairs.

"There was no apology, no remorse on the part of the culprit."
"What is the meaning of this?" she asked, falling into the time-worn question that wives save up for just such a situation.

"It's just my idea of 'Revolt in the Desert,'" he answered calmly, and stood his ground right there.—Kansas City Star.

Snowy linens are the pride of every housewife. Keep them in that condition by using Red Cross Ball Blue in your laundry. At all grocers.—Adv.

Perennial Mayor

Capt. Harry Wooding of Danville, Va., referred to as America's oldest mayor in the point of service, marked off another milestone in his career when he observed the thirty-eighth anniversary of his first election as mayor on August 15, 1892, a post which he has held continuously. After thirty-eight consecutive years in office Captain Wooding, who is now eighty-seven, is still hale, hearty and abreast of the times, and his robustness is revealed when it is said that his doctor's bill for the last 45 years has not exceeded \$10.

Bright Editors

Some time ago Clement Wood, the writer, purchased a farm and wrote invitations thereto in verse, sending copies to a number of editors. Three editors promptly returned the verses with regrets that they were not desired for publication. But one editor accepted the verses and sent Mr. P's Weekly.

Friendship is cemented by sharing some disaster; but who wants disasters?

Wakeful restless CHILD needs Castoria

WE can never be sure just what makes an infant restless, but the remedy can always be the same. Good old Castoria There's comfort in every drop of this pure vegetable preparation, and not the slightest harm in its frequent use. As often as Baby has a fretful spell, is feverish, or cries and can't sleep, let Castoria soothe and quiet him. Sometimes it's a touch of colic. Other times it's constipation. Or diarrhea—a condition that should always be checked promptly. Just keep Castoria handy, and give it promptly. Relief will follow very promptly; if it doesn't you should call a physician.

All through babyhood, Castoria should be a mother's standby; and a wise mother continues it in more liberal doses as a child grows up.

For the Average Girl
E. Barry Wall said at a Beauville dinner:

"There used to be a proverb about girls—'The more they take off, the more they get on.' But girls are now taking off too much. The average girl isn't a Clara Bow, and when she sprawls on a beach in a one-piece bathing suit, barefooted—well, that proverb doesn't seem to hit her off."

"What hits her off is the answer."

"A lady said to him:

"That rhinoceros is a male, I suppose?"

"And the keeper answered:

"No, ma'am; it belongs to the fair sex."

Electric Cradle Recker

If an invention of Holgerman V. D. Stanley of Tulsa, Okla., works out all right, "the hand that rocks the cradle" may be out of a job soon. Stanley has invented a motor to operate cradles. Now all he needs to do is get cradles back in style.—Cap.

A British mining company intends

transporting mining machinery by airplane over New Guinea's impassable jungles.

Readily obtained at any drug-store, the genuine easily identified by the Chas. H. Fletcher signature and the name Castoria on the wrapper like this:

PATENTS Booklet free. For best references, send results. For more information, write to J. C. O'Connell, Patent Lawyer, 114 9th St., Washington, D. C.

A Shifting Boundary Line

As a boundary line between Mexico and the United States, the Rio Grande has never been a success. It has a habit of shifting its location so completely that persons living near it could not determine sometimes whether they were residents of one country or the other. The situation led to many complications. The boundary commission is now considering a proposition to mark the line of the river bed and take steps to make the streams stick to its path.

Foreign Ground

Betty Jean was playing in a neighbor's yard when a woman called to her from the street:
"Don't you know you're stepping all over those flowers?"
"Oh, that's all right," replied Betty Jean. "I don't live here."

A fool and his boat are soon rocked apart.

Cleave to the good and use a cleaver on the bad.

WHAT A GUN !!!

YOU never saw anything like it before. Three shots, 20 gauge, light weight, fast, easy to swing, points itself—that's "The Sportsman". Made by Remington. For quail, grouse, pheasants, snipe, woodcock, rabbits and all upland game, there's never been such a gun. And as a sporty gun for ducks—well just try it.

THE SPORTSMAN

SPECIFICATIONS: Take down, hammerless, solid breech, 20 gauge, 3 shot, cross-bolt safety, 28 inch plain barrel in regular grades also supplied with acid or vented rib cylinder, modified or full checked. Top of receiver matted. American walnut pistol grip stock and fore-end both fully checked. Barrel and receiver in rich, glossy black finish. Regular stock dimensions 14 inches long, 2 1/2 inches deep at heel, 1 1/2 inches at comb. Weight about 6 1/2 lbs.

Price, plain barrel	\$26.75
acid rib	\$35.05
vented rib	\$31.55

Act quickly if you want it for this season

THIS beautiful gun has just gone on the market. It is finer than anything you were ever offered at the price. The receiver is handsomely decorated with flying ducks on one side and pheasants on the other. Naturally, the demand is tremendous by hunters who are itching to shoot it this season. Go to your dealer today. If he hasn't "The Sportsman" in stock get him to order it from his jobber at once. Don't delay. Act now. Send in the coupon for a complete description of "The Sportsman"—the shotgun sensation of the year.

Remington

The little nutting state threw off its shackles of a generation and swept into the Democratic column with a satisfied

Now they talk about reopening the brewery! Too late, we fear. The use of bootleg has become so general for the people to be satisfied with lighter beverages

The anti-suffrage league suffered a most as body in the late election, as did the administration. Ours, the birthplace of the league elected a Democrat, and a wet, by an overwhelming majority. This, with many other upsets will keep the league so busy explaining that it even won't have time to advise President Hoover what should be done with the "no-liquor experiment."

New York gave Franklin D. Roosevelt, Democratic candidate for governor, just a little over three-quarters of a million majority, while Illinois sent J. Ham Lewis to the United States Senate by a similar majority. Georgia, a part of that majority in Lincoln county would have kept the Republicans busy after the election tallying the absentee and the Highway (men) vote!

EXECUTORS' NOTICE

In the Probate Court, County of Lincoln, State of New Mexico. No 300

In the Matter of the Estate of James Edward Cree, Deceased.

Notice is hereby given that at the regular November 1930 term of the Probate Court of Lincoln County, New Mexico the undersigned were appointed ancillary executors of the estate of James Edward Cree deceased and all persons having claims against said estate are hereby required to file the same within the time required by law.

George Francis Dalziel, John Tweedie, 66 Queen Street, Edinburgh, Scotland

11-14-30

State of New Mexico, County of Lincoln, In the Third Judicial District Court

J. H. Reynolds, Plaintiff, vs. No. 3673

George E. Sligh, impleaded with the following named defendants, against whom substituted service is hereby sought to be obtained, to-wit: George E. Sligh; Emma Shannonhouse, if living, and the unknown heirs of Emma Shannonhouse, if deceased; the unknown heirs of James Elison Sligh, deceased; the unknown heirs of M. I. Sligh, deceased; Sligh, widow of James Elison Sligh, if living, and her unknown heirs if deceased; Alonso Darnell, if living, and his unknown heirs if deceased; Darnell, wife of Alonso Darnell, if living, and her unknown heirs if deceased; Titus J. Buckbee, if living, and his unknown heirs if deceased; Buckbee, wife of Titus J. Buckbee, if living, and her unknown heirs if deceased; Odille E. McQuillan; and all unknown claimants of interests in the hereinafter described premises adverse to the plaintiff, Defendants.

Notice of Suit

State of New Mexico to the above named defendants, greeting!

You, and each of you, are hereby notified that the above named plaintiff has filed his complaint against you in the District Court of the Third Judicial District of the State of New Mexico, within and for the County of Lincoln; that the general object of said action is to quiet the said plaintiff's title to the following described lands, situate in the County of Lincoln, State of New Mexico, to-wit:

South half of northwest quarter,

Ford Digs Two Mile Tunnel for A Billion Gallons of Water a Day

NEARLY a billion gallons of water a day—more than is used by the cities of Detroit, Philadelphia, Cincinnati and Washington combined—will be the capacity of a huge tunnel now nearing completion at the Rouge Plant of the Ford Motor Company, Dearborn, Michigan.

The tunnel will replace the present water intake system which supplies the Ford plants with 500,000,000 gallons a day. At the same time the company is remodeling its power house to greatly increase the power output. Both improvements, costing several million dollars, are being made to enlarge the production facilities of the Ford plant.

Sixty Feet Under Ground In constructing the waterway, the largest of its kind ever undertaken by a single business concern, the engineers are burrowing sixty feet under ground for a distance of two and a fifth miles. They have gone under main highways, railroads, street car tracks, bridges, a cemetery and a creek.

One of the most difficult tasks was that of tunneling under Baby Creek at a point which is crossed by a railroad bridge and where also a large sewer is under construction by the city of Detroit. The piles that provide the foundation for the bridge and those driven by the company constructing the sewer formed a network on each side of the creek. It was the task of the Ford engineers to burrow under the creek, sewer and bridge, going between the piles without striking or weakening them.

Boring of the tunnel is accomplished by means of a shield—a large steel cylinder fourteen feet long and twenty-

The head of one of the sections of the Ford tunnel showing the machinery used to burrow through the ground. In the foreground is one of the concrete blocks used to line the tunnel which has an inside diameter of fifteen feet.

one feet in outside diameter with a solid steel shell or skin two and a fourth inches thick. This shield has a bulkhead which is made fast near the front end. There are four openings through which the mud streams, like toothpaste from a tube, as the shield is shoved forward by twenty powerful hydraulic jacks.

When the shield has been pushed forward sufficiently concrete blocks two and a half feet wide and five feet long, each weighing 3,420 pounds, are

placed to form a ring around the circumference of the tunnel. One of them acts as a keystone so that the lining of concrete, which is eighteen inches thick, withstands the pressure of the earth. After this steel forms are set up and filled with concrete to form a solid inner lining which is also eighteen inches thick.

The present intake system of the Ford plant has a capacity of 500,000,000 gallons a day. The new tunnel will be able to carry 1,100,000,000 gallons.

LAWYERS ARE NEEDED

(By CALEB JOHNSON)

Uniform regulations for the issuing of driver's licenses, and uniform traffic regulations in all states, will be urged this winter upon the legislatures of forty states where the law-making bodies will convene after January 1. Such uniformity once secured upon and enforced, is expected to cut down materially the toll of traffic accidents, which cost the United States more than 23,000 lives last year, and made permanent cripples out of many thousands more.

The American Automobile Association is back of the movement to have all states require that no one may get a driver's license who is unable to understand highway warnings or directional signs in the English language. There are still a few states which require no license at all, and in these the percentage of traffic accidents is higher than in the states where licenses are required. But among the states where licenses are necessary before one may drive on the roads, the thirteen states which have the literacy provision in the law show a smaller percentage of accidents than any of the others.

Even more important than this uniformity of licensing regulations is the need for uniform traffic laws, and the standard which will be urged upon all legislatures is that agreed upon at the National Conference on Street and Highway Safety, of which Robert P. Lamont, Secretary of Commerce, is chairman.

One of the important recommendations of the conference is that no car shall be licensed until it has been inspected and declared fit for use. Under the Pennsylvania law more than 1,000 cars have been ruled off the roads because they were mechanically unfit and a danger to others.

Speed limits which now vary greatly from state to state and even from town to town, would be uniformly fixed, under this proposal, at 20 miles an hour in business districts, 25 miles in residential districts and in public parks within cities, and 45 miles outside of business and residential districts.

With respect to slow driving the code declares: "It shall be unlawful for any person unnecessarily to drive at such a slow speed as to impede or block the normal and reasonable movements of traffic except when reduced speed is necessary for safe operation or because upon a grade or when the vehicle is a truck or trailer necessarily in compliance with law proceeding at reduced speed."

Concerning passing of vehicles proceeding in opposite directions the code requires that drivers "shall pass each other to the right, giving the other at least one-half of the main east half of southwest quarter and lot four of section one; lots three and four, and southwest quarter of northwest quarter of section two, in township nine south of range ten east, N. M. P. M.

You are further notified that unless you enter your appearance in said cause on or before the 22nd day of December, 1930, judgment will be rendered in said cause against you by default. The name and address of plaintiff's attorney is A. H. Hudspeth, Carrizozo, New Mexico.

Witness my hand and the seal of said court, at Carrizozo, New Mexico, this the 30th day of October, 1930.

(Seal) S. R. Crockett, County Clerk.

10 PER CENT RECOVERY FROM CRUDE OIL IS NEW PROCESS OF REFINING CRUDE OIL

After exhaustive research covering some 250 major oil fields of the United States, the Bureau of Mines has arrived at the conclusion that "the average barrel" of crude oil is about 32 gravity and that it normally contains about 24 per cent gasoline. This means gasoline that can be "evaporated out" by what refiners call the straightening process. Gasoline made by this process is called "straight-run" gasoline.

In 1929, however, the average barrel of crude oil yielded about 44 per cent gasoline. The difference between 24 per cent gasoline normally in the oil and the 44 per cent made from the average barrel last year is accounted for by the use of cracking processes and also by the use of natural gasoline. Natural gasoline is recovered from gas from either gas wells or oil wells.

Up to about 15 years ago the skimming process was the only source of our gasoline. With the advent of cracking the recovery of gasoline increased rapidly. The use of natural gasoline for blending either with the "straight-run" or with "cracked" gasoline or as a finished motor fuel also increased the available supply of gasoline.

Thus, today, there are three major sources of gasoline—straight-run gasoline, cracked gasoline and natural gasoline. In 1929 about 57 per cent of the gasoline supply of the United States was straight-run gasoline and 10 per cent was natural gasoline. A great deal has been published recently about "hydrogenation," the newest gasoline-making process. By this process gas can be made from any kind of crude oil, from fuel oil, from waste oil and even from coal tar. The first installation of the hydrogenation process are now being completed. The original process was worked out by Dr. Bergius, a German scientist for obtaining oil from coal, and then gasoline from the oil. As Germany has practically no oil fields she turned to coal as a source of oil. Through co-operation between Dr. Bergius and the research department of the Standard of New Jersey the process, for American use, was adapted to making gasoline from coal.

It is currently reported that by this process a barrel of most any kind of crude oil can be made into a barrel of gasoline. In fact recent notices have appeared where 85 per cent gasoline was recovered from coal tar. The year 1930 will mark the launching of this new process on a commercial scale and it will probably be several years before it becomes a major source of our gasoline supply. While the cost of hydrogenation installations will be large and the number of plants that can afford it will be relatively few, the fact remains that those plants that do not install it will be faced with a staggering economic problem.

There are thus three distinct periods in the process for making gasoline: The skimming period that yielded something like 24 per cent gasoline from the crude oil—then the cracking period that has pushed the total recovery to about 44 per cent today—and the hydrogenation period, that we are just entering.

Up to the advent of cracking, some 15 years ago, the high gravity, high gasoline content crude oils, made the market price, for nearly all crude oils throughout the entire country. Since cracking has made available low gravity oils, as well as fuel oil, as sources of gasoline, this process has, unintentionally, but actually, been a factor in lowering the price of high gravity crude oils. Hydrogenation

is also required that "the driver of a vehicle shall not drive to the left side of the center line of a highway when approaching the crest of a grade or upon a curve in the highway where the driver's view along the highway is obstructed within a distance of 500 feet."

With respect to municipal traffic regulations, the recommendations provide that a left turn at an intersection be made on the green light. The regulation, as contained in the model municipal traffic ordinance, declares that "the operator of a vehicle or street car intending to turn to the left at an intersection where traffic is controlled by traffic control signals or by a police officer with proper care to avoid accident shall proceed to make such left turn only upon the 'go' signal, unless otherwise directed by a police officer."

That there may be danger, however, in too much traffic regulation, in inducing a sense of safety on the part of drivers who would otherwise look out for themselves better, was suggested to me the other day by Mr. Robbins B. Stockel, the Connecticut Commissioner of Motor Vehicles. Mr. Stockel has just returned from a visit to England, where motor accidents are few and speed limits unknown except when a motorist is driving "to the common danger."

"They have a few traffic policemen in England," Mr. Stockel said, "but everybody is a traffic man. It is everybody's business that a car be properly directed and all drivers, pedestrians and even the man seated on his porch, help by suggestion and direction. Always, too, in a kind and matter-of-fact way.

WEIGHTS AND MEASURERS

Anybody who has been reading the reports from the world's grain markets lately must find himself puzzled by the different standards by which wheat is measured in different countries.

Our bushel of wheat, weighing 60 pounds, has to be translated when the wheat goes into the export trade. England measures wheat by the "quarter". A quarter is 400 pounds; everybody has forgotten what it is a quarter of. It may contain eight English bushels, or sometimes eight and a half, or sometimes nine and a half, or sometimes ten and a half, or sometimes eleven and a half, or sometimes twelve and a half, or sometimes thirteen and a half, or sometimes fourteen and a half, or sometimes fifteen and a half, or sometimes sixteen and a half, or sometimes seventeen and a half, or sometimes eighteen and a half, or sometimes nineteen and a half, or sometimes twenty and a half, or sometimes twenty-one and a half, or sometimes twenty-two and a half, or sometimes twenty-three and a half, or sometimes twenty-four and a half, or sometimes twenty-five and a half, or sometimes twenty-six and a half, or sometimes twenty-seven and a half, or sometimes twenty-eight and a half, or sometimes twenty-nine and a half, or sometimes thirty and a half, or sometimes thirty-one and a half, or sometimes thirty-two and a half, or sometimes thirty-three and a half, or sometimes thirty-four and a half, or sometimes thirty-five and a half, or sometimes thirty-six and a half, or sometimes thirty-seven and a half, or sometimes thirty-eight and a half, or sometimes thirty-nine and a half, or sometimes forty and a half, or sometimes forty-one and a half, or sometimes forty-two and a half, or sometimes forty-three and a half, or sometimes forty-four and a half, or sometimes forty-five and a half, or sometimes forty-six and a half, or sometimes forty-seven and a half, or sometimes forty-eight and a half, or sometimes forty-nine and a half, or sometimes fifty and a half, or sometimes fifty-one and a half, or sometimes fifty-two and a half, or sometimes fifty-three and a half, or sometimes fifty-four and a half, or sometimes fifty-five and a half, or sometimes fifty-six and a half, or sometimes fifty-seven and a half, or sometimes fifty-eight and a half, or sometimes fifty-nine and a half, or sometimes sixty and a half, or sometimes sixty-one and a half, or sometimes sixty-two and a half, or sometimes sixty-three and a half, or sometimes sixty-four and a half, or sometimes sixty-five and a half, or sometimes sixty-six and a half, or sometimes sixty-seven and a half, or sometimes sixty-eight and a half, or sometimes sixty-nine and a half, or sometimes seventy and a half, or sometimes seventy-one and a half, or sometimes seventy-two and a half, or sometimes seventy-three and a half, or sometimes seventy-four and a half, or sometimes seventy-five and a half, or sometimes seventy-six and a half, or sometimes seventy-seven and a half, or sometimes seventy-eight and a half, or sometimes seventy-nine and a half, or sometimes eighty and a half, or sometimes eighty-one and a half, or sometimes eighty-two and a half, or sometimes eighty-three and a half, or sometimes eighty-four and a half, or sometimes eighty-five and a half, or sometimes eighty-six and a half, or sometimes eighty-seven and a half, or sometimes eighty-eight and a half, or sometimes eighty-nine and a half, or sometimes ninety and a half, or sometimes ninety-one and a half, or sometimes ninety-two and a half, or sometimes ninety-three and a half, or sometimes ninety-four and a half, or sometimes ninety-five and a half, or sometimes ninety-six and a half, or sometimes ninety-seven and a half, or sometimes ninety-eight and a half, or sometimes ninety-nine and a half, or sometimes one hundred and a half, or sometimes one hundred one and a half, or sometimes one hundred two and a half, or sometimes one hundred three and a half, or sometimes one hundred four and a half, or sometimes one hundred five and a half, or sometimes one hundred six and a half, or sometimes one hundred seven and a half, or sometimes one hundred eight and a half, or sometimes one hundred nine and a half, or sometimes one hundred ten and a half, or sometimes one hundred eleven and a half, or sometimes one hundred twelve and a half, or sometimes one hundred thirteen and a half, or sometimes one hundred fourteen and a half, or sometimes one hundred fifteen and a half, or sometimes one hundred sixteen and a half, or sometimes one hundred seventeen and a half, or sometimes one hundred eighteen and a half, or sometimes one hundred nineteen and a half, or sometimes one hundred twenty and a half, or sometimes one hundred twenty one and a half, or sometimes one hundred twenty two and a half, or sometimes one hundred twenty three and a half, or sometimes one hundred twenty four and a half, or sometimes one hundred twenty five and a half, or sometimes one hundred twenty six and a half, or sometimes one hundred twenty seven and a half, or sometimes one hundred twenty eight and a half, or sometimes one hundred twenty nine and a half, or sometimes one hundred thirty and a half, or sometimes one hundred thirty one and a half, or sometimes one hundred thirty two and a half, or sometimes one hundred thirty three and a half, or sometimes one hundred thirty four and a half, or sometimes one hundred thirty five and a half, or sometimes one hundred thirty six and a half, or sometimes one hundred thirty seven and a half, or sometimes one hundred thirty eight and a half, or sometimes one hundred thirty nine and a half, or sometimes one hundred forty and a half, or sometimes one hundred forty one and a half, or sometimes one hundred forty two and a half, or sometimes one hundred forty three and a half, or sometimes one hundred forty four and a half, or sometimes one hundred forty five and a half, or sometimes one hundred forty six and a half, or sometimes one hundred forty seven and a half, or sometimes one hundred forty eight and a half, or sometimes one hundred forty nine and a half, or sometimes one hundred fifty and a half, or sometimes one hundred fifty one and a half, or sometimes one hundred fifty two and a half, or sometimes one hundred fifty three and a half, or sometimes one hundred fifty four and a half, or sometimes one hundred fifty five and a half, or sometimes one hundred fifty six and a half, or sometimes one hundred fifty seven and a half, or sometimes one hundred fifty eight and a half, or sometimes one hundred fifty nine and a half, or sometimes one hundred sixty and a half, or sometimes one hundred sixty one and a half, or sometimes one hundred sixty two and a half, or sometimes one hundred sixty three and a half, or sometimes one hundred sixty four and a half, or sometimes one hundred sixty five and a half, or sometimes one hundred sixty six and a half, or sometimes one hundred sixty seven and a half, or sometimes one hundred sixty eight and a half, or sometimes one hundred sixty nine and a half, or sometimes one hundred seventy and a half, or sometimes one hundred seventy one and a half, or sometimes one hundred seventy two and a half, or sometimes one hundred seventy three and a half, or sometimes one hundred seventy four and a half, or sometimes one hundred seventy five and a half, or sometimes one hundred seventy six and a half, or sometimes one hundred seventy seven and a half, or sometimes one hundred seventy eight and a half, or sometimes one hundred seventy nine and a half, or sometimes one hundred eighty and a half, or sometimes one hundred eighty one and a half, or sometimes one hundred eighty two and a half, or sometimes one hundred eighty three and a half, or sometimes one hundred eighty four and a half, or sometimes one hundred eighty five and a half, or sometimes one hundred eighty six and a half, or sometimes one hundred eighty seven and a half, or sometimes one hundred eighty eight and a half, or sometimes one hundred eighty nine and a half, or sometimes one hundred ninety and a half, or sometimes one hundred ninety one and a half, or sometimes one hundred ninety two and a half, or sometimes one hundred ninety three and a half, or sometimes one hundred ninety four and a half, or sometimes one hundred ninety five and a half, or sometimes one hundred ninety six and a half, or sometimes one hundred ninety seven and a half, or sometimes one hundred ninety eight and a half, or sometimes one hundred ninety nine and a half, or sometimes two hundred and a half, or sometimes two hundred one and a half, or sometimes two hundred two and a half, or sometimes two hundred three and a half, or sometimes two hundred four and a half, or sometimes two hundred five and a half, or sometimes two ADDITIONAL LOCAL

Mrs. Ira Greer and boys were here last week from Tucumcari. Charlie Fritz was here Wednesday from his home at San Patricio.

Levi A. Hughes and son were here Monday from Santa Fe. Mr. Hughes is a prominent banker at the state capital.

J. V. Taylor, of the I-X ranch, left Wednesday for Chihuahua, Mexico, on business connected with his ranching interests.

Mrs. George Stebbins, who has been visiting her sister, Mrs. F. H. Johnson, leaves this afternoon for her home, Salina, Kansas.

Attorney and Mrs. E. M. Barber spent a part of the week at the I-X ranch, during which time Mr. Barber a hunting went; and, er; that's all.

Mrs. A. H. Kudaer and Truman Spencer, Jr., came in the past week from New York. Mr. Kudaer is expected also in a few days and the O-O ranch will again shelter a united family.

W. J. Ayers and daughter Miss Gertrude came in last week from Apache, Arizona, and will remain about a month, during which time their stock and ranch will be given attention. Mr. Ayers is employed by the railroad company at Apache.

Eb Jones, formerly a fireman on the division out of Carrizozo, and who has two sisters still residing here, Mrs. Ray Sale and Miss Grace Jones, is now located at Altus, Oklahoma, and is assistant manager of the Wm. Cameron Lumber Company at that place.

James Robinson came over Saturday from Portales to spend a few days in the hunting grounds where he lived the greater part of his life. Jim has acquired a farm and other interests in and around Portales and seems to be well pleased with his new home.

Mr. and Mrs. E. T. Collier returned last Friday from San Francisco where Mr. Collier has been in the company hospital, the past three weeks. Mr. Collier though not wholly restored to his accustomed health, is much improved and has returned to the boiler room.

FOR SALE: O. M. Franklin Blackleg Bacterin Black Leaf 40 The Titsworth Company, Inc.

The woods have been full of hunters—both resident and non-resident—the past week, and a number of deer have been brought to and through town. Some hunters returned empty-handed, but expect to go again. Next week, at the close of the season, we hope to have a more or less definite report on the season's kill in this county.

FOR SALE:—Pure bred Black Jersey Giant Cockerels 7 months old. \$3.00 Mrs. D. D. Tiffany.

Hon. Dennis Chavez, Congressman-elect, and Mrs. Chavez and little daughter, accompanied by Mr. and Mrs. E. Romero Jr., all of Albuquerque, were in town a short time yesterday afternoon. They had attended an Armistice day meeting at Carlsbad and were returning to Albuquerque. This office enjoyed a delightful visit with the Duke Citizens, and particularly Dennis and wife who are old and esteemed friends.

Hunters from Outside

A number of hunters from other states have been with us during the open season. Dave Finley has a party of friends in the Capitans who came from the Texas oil fields. Locally licenses have been issued to R. O. Hudspeth, C. P. Neville, Naud Burnett and J. J. Hendley, of Greenville, Texas. The first named is the brother of our own Andy. They are in the Three Rivers section. Two are from Midland, Texas, J. V. Stokes, Jr., and Elliott F. Cowden. They are scouring the mountains south of the Stokes ranch. The third group listed as having secured licenses here, were O. R. Campbell and H. P. McLean, Sherman, and R. R. Burged, Denison, Texas, and this group is hunting in the Lone and Jicarilla mountains.

NOTICE

State of New Mexico }
County of Lincoln } 55 No. 199
In The Probate Court of Lincoln County.

Henry Richard Humphrey, Mary Winifred Humphrey, Eleonor Cecilia Humphrey, Leo Marcys Humphrey, Mrs. Anna Humphrey, any unknown heirs of Harry L. Humphrey, Deceased, and to whom it may concern:
Notice is hereby given that Anna Humphrey, Executrix of the Estate of Harry L. Humphrey, Deceased, has filed her final report of her acts and transactions as Executrix of said estate; and that the Hon. Elerdo Chavez, Probate Judge of Lincoln County, New Mexico, has set January 7, 1931 the same being the third day of the regular January term of the Probate Court, within and for the aforesaid county, at the hour of 10:00 a. m., at his office in the court house in Carrizozo, New Mexico, as the time and place for hearing any objections to the same.

Therefore any person or persons objecting to said final report may do so by filing their objections on or before the above named date.

Dated at Carrizozo, New Mexico, this the 7th day of November, 1930.

(Seal) S. E. Greisen,
11-14-4 Probate Clerk.

State of New Mexico }
County of Lincoln } In The Probate Court

In the Matter of the Estate of E. Howard Sweet, Deceased. No. 201

NOTICE

To Marguerite Lee and Louise H. Sweet, and to the unknown heirs of E. Howard Sweet, deceased;

You, and each of you, are hereby notified, and notice is hereby given that Sallie Sweet, executrix of the estate of E. Howard Sweet, deceased, has filed in the Probate Court her final report and account as such executrix, and the court has appointed Monday, the 5th day of January, 1931, at the hour of two o'clock p. m., for hearing objections, if any there be, to the approval and settlement of said final report and account, and the discharge of said Sallie Sweet as executrix; and that at the hour and on the day named the Probate Court will proceed to determine the heirship of said decedent, the ownership of his said estate, the interest of each respective claimant thereto and therein, and the persons entitled to the distribution thereof.

A. H. Hudspeth, of Carrizozo, New Mexico, is the attorney for the executrix.

WITNESS the Hon. Elerdo Chavez, Judge of said Probate Court, and the seal thereof, this the 5th day of November, 1930.
(Seal) S. E. Greisen
11-7-4 Clerk
By Frances R. Aguayo Deputy.

Christmas Bazaar

The Domestic Science Class of the Capitan High School and the Ladies Missionary Society of Capitan are having a Christmas Bazaar and sale of stamped goods, at the School house November 22, 1930. An enchilada supper in the evening.

Teachers to N. M. E. A.

Many Teachers from the rural schools of the county and from Carrizozo attended the New Mexico Educational Association at Albuquerque, last week. The attendance, perhaps, was a little below that of last year, yet the percentage was high.

Rich Hust Wins Rifle

L. R. Hust, of Nogal, held the lucky number, 982, that won the rifle in the drawing at the Titsworth Company Store, Capitan, on the 8th. Go out and get a buck, Rich.

Card of Thanks

I wish to express my appreciation to many friends who gave me such loyal support in my candidacy for County Superintendent of Schools. I shall long remember the support accorded me during the campaign.

Respectfully,
Bernice Nickels.

State of New Mexico }
County of Lincoln } No. 3855
In the District Court
V. V. Frye, Plaintiff,
vs.
Robert P. Zarate, Defendant.

Whereas, in the above District Court, a decree was entered, finding that there was due the plaintiff from the defendant the sum of \$730.50; also that the said amount was a valid and subsisting lien against the real estate hereinafter described, and ordering the said property sold to pay the said amount, together with the cost herein:

AND, WHEREAS, on the same date the said Court appointed the undersigned Special Master in Chancery to advertise and sell the said property and otherwise carry the said decree into effect.

NOW, THEREFORE, notice is hereby given that I, the undersigned Special Master in Chancery, will, on the 22nd day of November, 1930, at the front door of the Court House at Carrizozo, N. M., at the hour of 10:00 o'clock A. M., offer for sale and sell at public auction to the highest bidder for cash, the said real estate in the County of Lincoln, State of New Mexico, as described as follows to-wit:

Lots Nos. 360, 361 and 362 in Skyland Addition to the Town of Ruidoso, N. M., according to the official map thereof on file with the County Clerk of said County of Lincoln, to pay the said judgment with costs, together with the cost of this sale.

John Haley, Special Master of September, 1930 in Chancery.

STEEL ECLIPSE

Starts sooner—pumps longer

Two windmills stood just across the road from each other. With the first sign of a breeze the one started up smoothly and quietly. The other however became a wind, the other started with a groan and lumbered away. When the wind stopped as abruptly as it had started, while the other continued pumping for some time then it finally stopped. The difference between the two was that the one was a Steel Eclipse Windmill and the other was an ordinary windmill.

There is the difference between a simple windmill and just a windmill. It is the difference between a Steel Eclipse Windmill and an ordinary cast gear windmill. The Steel Eclipse Windmill has a special feature—its center lift feature—this mechanism that enables the Eclipse to actually pump water during two-thirds of every revolution of the wind wheel. You will soon see a new idea of how good a windmill can be.

CHAPTER IX—Continued

At the hospital an interne was very businesslike.

"Her husband has identified her. Yes, he is with her now. No, you can't come in—well, only for a moment."

There lay Ernestine in the stiff, long-sleeved, hospital shirt, her hair black between her white face and the white pillow, a nurse beside her counting her respiration, Will crouching there, his face against the covers. Her eyes were opened, flushed with fever. She was talking—pleading—in delirium. Ernestine, the darling sister—in this dreadful place!

"You will all have to go," said the nurse, snapping shut her old-fashioned watch and darting a resentful look at the interne. "We cannot have anybody in this ward after hours. Mr. Todd, you will have to go."

"Ernestine," cried Lillian, and Ernestine said quickly:

"Will's coming. I tell you my name is Briceland B-r-i-c-e-l-a-n-d—I think there's more. The bus ran over me—it leaped at me—"

"She was crushed?" exclaimed Lillian, and the nurse said:

"No—she's just delirious. Please go. Can't we have her moved to a private room? Can't we move her?" It was Loring now.

Will had lifted his face, and he stared at Ernestine and gently smoothed her cheek, while her bright eyes turned on him.

"Papa—you must not worry—he'll worry," she urged him.

"I can't say about moving her. You'll have to see the floor doctor. She is very ill to be moved—please leave the ward now."

The nurse was definite. Training and authority were behind her, and they withdrew. Even Will had to leave her, but Ernestine made such an outcry that the nurse permitted him to come back until Loring should make arrangements to move Ernestine.

Lillian found herself in a tiny reception room furnished barely. Loring had gone to the office, Mrs. Bennett to the phone booth downstairs. For a moment Lillian thought she was going to be sick. She clung desperately to the arms of the chair. She was the only woman in the room. A black man stood near her, twisting a cloth cap in his hands, his lips moving soundlessly. There was another man, shabby, unclean, suffering in patient silence, and they were joined by a third and then a fourth vague quiet figure.

Lillian's feelings were not of pity but revulsion. She could not bear it—Ernestine here with the scum of the earth—mamma's baby—their beauty—in this place that smelled of lyzol, that was as full of the sounds of sickness and suffering as purgatory is full of groans. This place was hell, it was nightmare. There came from the streets the clang of an ambulance—and a stretcher moved in the hall. Loring was beside her, beckoning.

"We are taking her to the Presbyterian hospital. They'll have a room and a nurse for her when we get there. Also a good doctor."

Lillian followed him in confusion. The ambulance she had heard was for Ernestine. The taxi threaded after it through the streets, and again there was delay. Mrs. Bennett left them to go back home. Will was with Ernestine and the stretcher. But now, at last, a small freshly painted room, as clean as a scalded dish, a high narrow bed, by an open window, an electric fan on a white dressing table, a chair or two, and a graduate nurse, capable, cool. There was a doctor, too.

Lillian stood just inside the door. The doctor was silent for a long time, examining Ernestine, reading the copy of the chart that had been sent with her.

"Uremia—and some albumin," he said as though any of them knew what he meant. "The baby will be premature—if we can get her through her confinement now swiftly, she'll be all right. When did you say she was expecting?"

Will named the date. The doctor nodded with satisfaction as though his worst fears were confirmed.

"Well, it's a nasty case," he said, "but perhaps we shall pull her through. Miss Nana"—he turned to the nurse with a rapid fire of instructions and requests and laid his coat aside.

"Now—there's nothing any of you can do but give us elbow room and quiet. She's already had two convulsions. When the next comes we shall be ready for her." The horrid word shot through Lillian's mind like a sword thrust. No—no—only idiot children—only diseased and terrible people—only the poor and helpless were so afflicted. Not Ernestine—oh, God—not Ernestine!

The doctor put them out with deliberate firmness, allowing Will to stay.

"If you go across the street, there's a nice little hotel there. Tell the clerk I sent you, and go to bed. Miss Nana will call you if there's any change, or if she's delivered. The battle is ours, now."

Lillian knew that it was as hard for Loring as it was for her to accept this dismissal and leave Will behind. Will was so futile! He would have left her in that other dreadful place.

In silence they crossed the street, registered at the hotel, and were assigned a room. They moved about in silent misery, looking out of the windows at the walls of the hospital.

"Did you know Will lost his job?" Loring hesitated. "Yes," he said at last. "I knew it."

"But why?" "I didn't know how Ernestine would take it. If I butted in. I thought she would let us know if she needed us."

"You know how proud she is—"

Loring moved restlessly. "I think I'll go back to the hospital. You stay here. No need for both of us to go. I'll call you if you're needed."

Wary and confused, Lillian took off her clothes, bathed in the tiny bathroom and lay down across the bed, partly dressed again. Her whole thought was strained at first toward the hospital and the possible issue of Ernestine's illness. Then her thoughts turned, and turned, from Loring to Ernestine, to Will, to mamma and papa and Ernestine and back to mamma again. Mamma had allowed papa and Loring to dictate to her about Will's father. That had really separated Ernestine from them long ago. They had offered Ernestine their love and help only at the price of betrayal of her marriage. Tears came to Lillian, and eventually, tired and sad, she fell asleep.

Daylight streaming over her bed awakened her. She rose, dressed, went across to the hospital and asked for

She Sat There and Watched Him Prepare Supper.

Will, wondering as she did so whether or not she should have asked for Loring.

Will came to her in the reception room, looking at her from dull heavy eyes, silent, waiting.

"How is Ernestine, Will?" she asked him softly.

"She is still very ill," he answered, and added as an afterthought: "The baby is a girl."

He was exhausted, unshaved, and awry. As he stood there looking vaguely about him he seemed to Lillian the most forlorn and helpless human being she had ever seen. She pitied him, but he vexed her.

"Oh, Will," she said impulsively, "you shouldn't have allowed Ernestine to have this other baby—so soon, when you weren't prepared. You should have protected her." He averted his face, but she saw his flush.

"I've got to go back upstairs," he said, and added, as he turned to the door, "Loring has already lectured me on birth control. He's left the hospital. You must have missed him."

Lillian was ashamed. She had not intended to say such a thing. It was none of their business, really. At the hotel she stopped at the desk for the key, but Loring had it. She went up to the quiet elevator. When she opened the blocked door of their room and went in, Loring was lying back in a chair by the open window, his hat on the floor beside him, his collar and tie lying upon it. He was staring straight before him, and when Lillian came to his side he looked up at her with a piteous expression.

For a moment, standing there, a drift of such pain went through Lillian that she cried out. This was what Ernestine could do to Loring. She knew, with a gripping pang of conviction, that nothing that could ever happen to her would cause him such anguish—such rest. This was what Will meant when he said that he knew what was the matter with Loring! She fell on her knees beside him, sobbing, and laid her face upon his knee. His hand fell on her shoulder. He mistook her fear and pain. "She'll be all right, Lillian," he whispered. "God grant she will! The doctor said that a day or two will tell. It's uremic poisoning."

He sat forward in his chair, and his clenched hand fell on one knee, while the other arm held her convulsively. "Thank God you weren't there. Thank God you will never know how she suffered. Will fainted once, and the nurse brought me into the room. They were fighting death like a physical foe. I helped to hold her—"

He gave a stifled cry and tore the buttons from his shirt as he expanded

his lungs against the crushing fear that lay upon him.

"Oh, Lillian," he cried to his wife, "I don't see how she can live—after last night. The doctor thinks she will, and so does Doctor Gray. He's with her now. But I don't see how she can survive that struggle. But one thing is settled for us, for ever." He pulled her tear-wet face up from his knee, and looked at her with blazing eyes. "You and I will have to be enough. No child is worth such anguish. No life is worth—death. No children—for us."

She hid her face against him. Her arms held him close. "I don't care, if only you will, love me."

He pressed her to him but his eyes had flown to the windows of the hospital, and she felt a tremor pass through his big frame.

Ernestine stayed in the hospital until the baby was a month old. Will borrowed the money from Mr. Poole and paid the hospital bill, paid the nurse and the two doctors, the day she was to be discharged. Loring protested in vain. The removal to the expensive private hospital had been his suggestion—it was he who got the nurse, who got the two doctors; he had planned to meet all these expenses. But Will was deaf to him. He was going to pay Ernestine's hospital bill, he declared, if he had to rob a bank. What business was it of Loring's? It was Will's wife—Will's child. Legally the debt was Todd's. There was nothing that could be done about it, but the argument increased the bad blood between the men. Ernestine wanted to go to her own home, she told Lillian. Mamma was hurrying back from Europe. The house at the lake was closed. Lillian remonstrated with Ernestine's determination to go back to the house out in Mayfair.

"But what will you do?" she asked, and her face grew red. "Will isn't even working."

"Yes, I am," said Will. "I started today. Mr. Poole is going to open an independent studio, and I am going to work for him. He's got hold of the copyrights to his old strip and we are going to syndicate it ourselves. It will bring us in a lot of money. I'm to get fifty dollars a week to begin with. . . . and we'll be all right."

Lillian's dismay was increased, not diminished, by this news. The combination of Will and Mr. Poole was worse than nothing, it appeared to her. "I don't know what mamma will say," she protested feebly, but neither Ernestine nor Will seemed to be moved by that.

It was a wonderful day when Ernestine went home. All the way home in the taxi Will held the baby in one arm and Ernestine in the other, and his face was shining with joy when at last they stood in their little kitchen, she weak and trembling in his arms. He was starved for her, but he kissed her gently, got the rocker and filled it with cushions, and placed it by the open kitchen door. She sat there and watched him prepare supper.

"Will," she said, when they had eaten, and he had closed the door against the fall dusk, "you're like you used to be. You're like you were that day we met upon the street, when I first fell in love with you. Tell me, what is it?"

"The new job, I guess. I'm crazy about it, Ernestine. In the first place, to be working again is good—and to be working for John Poole. And then, Ernestine, I think we're going to do it—I believe we'll make a success—a big one."

His enthusiasm was boundless. While he washed the dishes he talked to her, and then they put the children to bed, and he drew Ernestine onto his knees.

"Tell me, Ernestine—it was an odd job business—but you aren't sorry, are you? Now that you're both home again—you're glad we've got her—aren't you?"

They sat looking at the baby. Will pressed his cheek against Ernestine's shoulder.

"Tell me," he implored her. Ernestine understood his need for assurance. He was still suffering from the humiliation Lillian and Loring had heaped on him.

"They said—I shouldn't have allowed—allowed," he exclaimed sharply at the word. "I never thought about it."

"We're married, aren't we?" asked Ernestine, and as his bright look questioned her she shook her head a little. "That's all," she said. "That's the answer. I'm your wife—I love you—of course I'm glad."

He kissed her passionately. It seemed so long since she had been in his arms like this—close, close.

"Oh, Ernestine," he said, "I don't deserve you. The future is uncertain. But if ever a wife deserved a good husband, you do. But sweetheart, it's hard, it's been harder for you than for me; don't think I don't know it. But it's been worth the risk, hasn't it?" "As long as we hold together," she whispered. "As long as we love." And he poured his kisses upon her this flushed face.

"I'll make up to you for everything—you'll never be sorry," he told her. And she lay against him, yielding, tremulous and in love, forgetting everything else for him as she had forgotten again and again.

FAIRM STOCK

CHEAP WHEAT IS GOOD HOG FEED

More Rapid Gains Made Than With Corn.

Wheat-fed hogs made more rapid gains in practically all experiments, than did those fed corn, asserts J. W. Wulchert, extension specialist in animal husbandry for the Ohio State university in suggesting the use of wheat at the present low prices, as a hog feed.

Eight bushels of wheat, on an average, are required to produce 100 pounds of gain, and with hogs selling for 9 cents a pound, wheat is worth, as hog feed, \$1.12 a bushel; at 10 cents a pound, \$1.25 a bushel. This, says Wulchert, is considerably above the farm price of wheat.

For best results, tankage or some other high protein supplement should be fed with the wheat, advises the animal husbandman. Rations consisting of wheat and tankage have given better results in the experiments than a ration of equal amounts of wheat and corn plus the usual allowance of tankage, he says.

When wheat is used in the ration, it should always be ground or crushed. Sometimes soaking the whole grain before each feed has given satisfactory results, but this method, according to Wulchert, is not as good nor as economical as grinding.

Crude Oil Favored for Hog Mange Treatment

Elephant hide pig—pigs with hard, dry skin—are usually infested with mange which is caused by a microscopic mite. These mites, too small to be seen with the naked eye, multiply rapidly and dig holes in the skin, causing irritation and itching. It is not possible to poison them because they do not eat anything outside of the hog but it is possible to kill them with crude oil or lime-sulphur dip, or even dry lime sulphur. The dip or the oil fills up the breathing pores of the mites and suffocates them. One treatment is not enough because it will not kill the eggs. The second application should be made 12 to 14 days after the first application.

Thrifty Sheep Produce More and Better Wool

The character of a sheep's fleece is largely within the control of stock owners, says the United States Department of Agriculture. An investigation by the bureau of animal industry indicates that there is a close relationship between the thriftiness of sheep and the quality and quantity of wool produced. Fibers were found to grow fastest and coarsest in summer and fall and slowest and finest in winter, but generally the period of greatest wool growth was also associated with a thrifty condition of the animal. Long wool growth, in ewes, occurred during lambing time and the 45 days preceding.

Success With Barley as Feed for Animals

Success in feeding barley to stock depends upon its quality and the manner in which it is prepared for feeding, says the United States Department of Agriculture. Barley fed whole is too hard and tough of it remains undigested. Do not grind it fine, however, but set the grinding machinery so it is merely cracked. In the West, where there are large mills to do the work, barley is often rolled. Small outfits for rolling barley on the farm may be bought. Eastern farmers could advantageously feed more barley to stock, the department believes.

Live Stock Facts

- Don't waste your surplus feeds.
- Don't match time and money against scrubs—you can't win.
- Don't keep scrub and inferior stock; they are wasteful of feed.
- Breeding stock is tending to form a larger proportion of all beef cattle.
- Don't feed carcasses of animals that have died of disease to any of your stock or chickens.
- Sheep require much more roughage than they do grain, and roughage is necessary to prevent serious digestive disorders.
- Don't feed more grain mixture or concentrate than the animal will clean up quickly, except when forcing fattening animals.
- It is just as important that sheep be provided with good water supply as it is that any other kind of farm animal be supplied with water.
- Where sheep are properly watered with good, clean, fresh water, they will drink about as much in proportion to their live weight throughout the year as will cattle.

SOUTHWEST NEWS

Leslie Gatliff, former Douglas, Ariz., police chief, and Walter Morris, Douglas patrolman, charged with conspiracy to violate the United States neutrality laws in the 1920 Escobar revolution, were discharged in federal court in Tucson.

Florence Allen, 8 years old, granddaughter of W. Strubbe, Oswego, N. Y., who was seriously burned in an explosion of a gasoline camp stove which killed Beatrice Strubbe, 12, at the camp grounds in Tucson, is reported recovering.

The Westward-Ho hotel in Phoenix, owned by Charles V. Bob, missing New York capitalist, was mortgaged for \$750,000 to August Heckscher of New York on Oct. 11, it was revealed in Phoenix when the mortgage was filed in the Maricopa county recorder's office.

The appeal of Leonard Collins, convicted in Yuma county, Arizona, Jan. 24, 1930, on manslaughter charges, will be heard by the Arizona Supreme court, Nov. 13, it was announced in Phoenix. Collins, it is alleged, killed Henry Cornell, an Indian, during a quarrel last November. A superior court jury found him guilty of manslaughter.

Miss Bobbie O'Dell, charged with the forging of a check for \$300, was acquitted in Carlsbad, N. M. Miss O'Dell, it was alleged, forged a check for \$300 on H. A. Kizer, Hogs oil man, by signing the name of his secretary, Miss Bertha L. Burns. Miss O'Dell maintained that Kizer authorized her to sign the check and receive payment.

Fern V. Saxon, former wife of A. E. Saxon, was arrested in Tucson on a warrant from Santa Cruz county charging child stealing. The warrant was signed by Saxon. Mrs. Saxon now is a teacher in the Tucson public schools. Saxon charges Alfred Eugene Saxon, the couple's six-year-old son, was taken from him illegally recently in Nogales.

Arizona highway department received \$225,544.22 in net collections of the state's four-cent gasoline tax during September. E. M. Whitworth, superintendent of the motor vehicle division, announced in Phoenix. With collections for September the net receipts for the fiscal year totaled \$750,833.55, an increase over the report for September, 1929.

John Robert Gregg, multimillionaire and inventor of the Gregg system of shorthand, and Janet Kinley, daughter of David Kinley, former president of the University of Illinois, were married in Gallup, N. M., in a private ceremony at the home of C. N. Cotton, a relative of the bride. When the marriage license was obtained, Gregg gave his age as 63 and the bride as 20.

Between 200,000 and 300,000 years ago, scientists believe, a strange animal ranged in southeastern New Mexico. Remains of the prehistoric blemish, unlike those of any other known beast, have been unearthed near the Pecos river, 75 miles north-east of Roswell. Sections of giant tusks and leg bones were discovered by R. L. Moss, manager of the Bar-V ranch. Moss sent the findings to the Smithsonian Institute in Washington.

Arizona led all states in the Union in percentage of increase in number of farms between 1920 and 1930, according to practically complete figures issued by the United States census bureau. Total number of farms in Arizona on April 1, 1930, is given by census figures as 13,020, compared with 10,892 on Jan. 1, 1925, and 9,975 on Jan. 1, 1920. The 1930 total represents a gain of 32.9 per cent over the 1920 figure, the highest gain shown by any state.

Traces of five different races of primitive peoples, residents of Arizona at various times back through the ages, are believed to have been uncovered by J. B. Kinley, in an excavation 25 feet deep near his ranch at Wheatfields, near Globe. Pottery utensils and articles, made of crushed stone, and painted both inside and out, are among the traces found in the excavation, indication that the district has long been the habitat of semi-civilized races.

Joseph Matthews, ex-soldier who says he is suffering from tuberculosis, recently filed suit for \$50,000 damages against Hugh Woodward, Albuquerque, U. S. district attorney for New Mexico, in the U. S. district clerk's office in Santa Fe. Matthews' charge that his health was impaired when he was forced to accompany officers to Albuquerque to answer charges of bootlegging preferred against a Joe Matthews. The hardships of the trip, together with two days spent in jail, seriously impaired his health, Matthews claims.

Kyalyn Haggard, died in Phoenix, the victim of a playful scuffle with Roy Saunders, over possession of a pistol.

N. O. Tenney, Jr., 13-year-old son of a Prescott goat rancher, was shot and killed today when he attempted to hold up H. C. Rossberger, Cedar Rapids, Iowa, tree surgeon, on a side road north of Miller valley. Rossberger told investigators he had stopped his car beside the road to sleep when the holdup occurred. He said Tenney arrested him to ask the distance to Prescott.

FAMOUS Doctor's Way to move the Bowels

Do your bowels fail you occasionally? Are you a chronic sufferer from constipation and its ills? Then you will be interested to know of this method which makes the bowels help themselves. Dr. Caldwell specialized on bowel ills. He treated thousands for constipation. The prescription he wrote so many times—which has been tested by 47 years' practice—can be had of any druggist today. Its pleasant taste and the way it acts have made it the world's largest selling laxative. "Dr. Caldwell's Syrup Pepsin," as it is called, is a skillful compound of laxative herbs, pure pepsin and other mild ingredients. Nothing in it to harm even a baby. Children like its taste. It acts gently, without griping or discomfort. So it is ideal for women or older people. But even the most robust man will find its action thorough, satisfying. The quick, certain benefits millions are securing from Syrup Pepsin prove a doctor knows what is best for the bowels. Next time you feel bilious, head-achy, bloated, gassy, or constipated take some Dr. Caldwell's Syrup Pepsin and see how fine you feel the next day—and for days to come!

Dr. W. S. Caldwell's SYRUP PEPSIN A Doctor's Family Laxative

Here is an egg story that just cracked this morning," writes Frances Kadow of Hollywood. It seems that little Bebe's mother was cutting her a new dress but could not agree with Bebe about the bodice. The little girl finally became thoroughly exasperated and stamping her tiny foot, declared: "I want a joke on that dress! You-k, joke," she spelled furiously. —Los Angeles Times.

Attention Hunters

In another column of this paper the Remington Arms Company announce a brand new three-shot, shotgun. It is made especially for quail, grouse, pheasants, snipe, woodcock, ducks, rabbits and all upland game. Read the ad and return the coupon today for descriptive folder to Remington Arms Company, Ilion, New York.—Advertisement.

Always Chances for Accident

"I'm afraid of my wife," the timid citizen complained to his lawyer. "Why, she's even threatened to attack me with an ax." "Huh! Why worry? Did you ever see a woman try to chop a stick of wood?" —Portland Express.

The housewife smiles with satisfaction as she looks at the basket of clear, white clothes and thanks Red Cross Ball Blue. At all grocers.—Ad.

Of Course

"I think this scenery is just gorgeous." "No, I don't know. Take away the mountains and the lake and it is just like anywhere else." —Lustige Zeitung, Cologne.

Overcautious men always look before they creep.

How Old Are You?

Gloriously Alive At 45

My Friends: Correct Your Eating Faults and Lose Your Fat With Kruschen Salts

Yes! I'm forty-five today—built like a race horse, my friends say—and I know I feel 10 years younger than I did three months ago—and I'd hate to tell you how much fat I lost with Kruschen. I call Kruschen Salts the "magic salts" because when I was fat and wretched, despondent and half sick all the time—I took only one bottle that I bought for 85 cents to live me up—got ambition and energy into me—made me feel years younger and with the help of a change in diet show me how to lose the fat I was so ashamed of. Cut out pastries and desserts—go easy on potatoes, cream, cheese, and butter—eat lean meat, chicken, fish, vegetables and fruits and never fail to take one-half teaspoonful of Kruschen Salts in a glass of hot water before breakfast every morning. Every drug store worthy of the name in the world sells Kruschen Salts—am 85 cent bottle lasts 4 weeks—not much to pay for beautiful health.—Ad.

Events in the Lives of Little Men

WORLD WAR YARNS

by Lieut. Frank E. Hagan

"Those Crazy Americans"

One day in July, 1917, a working party of the Eleventh engineers, one of the first units of the A. E. F. to arrive overseas was busy building a road for an "army" of British troops. Busy with pick and shovel they had left their rifles some distance behind them.

Suddenly a strong force of Germans, all heavily armed, burst upon the scene and, seeing this small force of unarmed laboring men, swept forward to what they believed would be an easy victory. But they didn't know that these were men of a corps of the United States army whose motto is "Essayons," French for "Let's Try."

To the surprise of the Germans, these unarmed men instead of taking to their heels, rushed forward yelling and brandishing picks and shovels. American flats crushed into Teuton faces and sent their owners sprawling. Rifles were jerked out of the astonished Germans' hands and turned against them. All in all, it was a one rough-and-tumble affair. Within a few minutes the engineers had routed the enemy with heavy loss, suffering only a few casualties themselves.

Thus early began the experience of the Germans with "those crazy Americans," who didn't know when they were licked. As time went on their first impression of the Yanks, gathered from this contact with the engineers, included also the infantry and the artillery. In September, 1918, it was reported from the French front that "many of the Boche prisoners, when asked what they think of the American troops, speak somewhat as follows: 'They aren't soldiers; the infantry is drunk and the artillery is crazy.' They don't care for the way the American infantry goes out and collects hostile machine guns and they think batteries which fire for 24 hours a day have lost their reason entirely. 'An important German officer who was captured was asked if he wanted particularly to see anything. 'Yes,' said he. 'I want to see your automatic artillery.' The captors were puzzled until it developed that the American 75s had been firing so fast that the Germans thought they were new inventions that worked like machine guns.'

Machinery in British

Cotton Mill Made Junk

Low Moor, a village near Gillingham, recently saw disappear its last hope of renewed prosperity, the machinery in the village mill, which formerly employed a total adult population of 700, being sold in small lots to brokers at scrap metal prices.

The mill, established 130 years ago, and run ever since by the Garnett family, was the first in Lancashire to introduce power looms, and cavalry defended it against the mob of 1820. Trade depression resulted in the mill closing nearly three years ago. One hundred and twenty-eight looms, costing \$120 each, sold for \$7; 648 looms, which today would each cost \$90, were knocked down for \$3.25, and 500, which, when running, were worth \$50 apiece, sold for \$2.75. Brokers have seldom known looms to sell so cheaply.—London Times.

THE LAXATIVE WITH HIGHEST ENDORSEMENT

When you get up headachy, sluggish, weak, half-sick, here's how to feel yourself again in a jiffy.

Take a little Phillips' Milk of Magnesia in a glass of water—or lemonade. Taken in lemonade, Phillips' Milk of Magnesia acts like citrate of magnesia. As a mild, safe, pleasant laxative, Phillips' Milk of Magnesia has the highest medical endorsement.

As an anti-acid to correct sour stomach, gas, indigestion, biliousness, it has been standard with doctors for 50 years. Quick relief in digestive and eliminative troubles of men, women, children—and babies.

Island for Sale, Honor Free

If you buy the island, Brochou, near Sark in the Channel Islands, you will be given a seat in the Channel Isles parliament as a bonus. The island, which has just been placed on the market, bears much the same relation to Sark as Jethou, the home of Compton Mackenzie, the novelist, bears to Herm, and the ownership carries a seat in the parliament. It boasts a dwelling house and farm, an arable plateau, fishing facilities, and a landing for motor boats.

Who can rear a child unless he understands him?

Cold in Head, Chest or Throat?

RUB Musterole well into your chest and throat—almost instantly you feel easier. Repeat the Musterole-rub once an hour for five hours... what a glorious relief!

These good old-fashioned cold remedies—oil of mustard, menthol, camphor—are mixed with other valuable ingredients in Musterole to make it what doctors call a "counter-irritant" because it gets action and is not just a salve.

It penetrates and stimulates blood circulation and helps to draw out infection and pain. Used by millions for 20 years. Recommended by many doctors and nurses. Keep Musterole handy—jars, tubes. All druggists.

To Mothers—Musterole is also made in milder form for babies and small children. Ask for Children's Musterole.

3,000,000,000 Pickles
An average yearly production of about 3,000,000,000 cucumber pickles in the United States is some evidence that the American public is fond of good pickles, and it is probable that consumption could be stimulated, the United States Department of Agriculture says. The annual crop is grown on about 74,000 acres, yields about 4,000,000 bushels, and returns more than \$4,000,000 to the growers.

Once Ocean Wonder
The Great Eastern, originally called the Leviathan, launched in 1853, was nearly 700 feet long, and was for many years the largest ship in the world.

THE FEATHERHEADS

After All, Felix Earns the Bread

FINNEY OF THE FORCE

Some Dentist, Maybe

A Valuable Muleskinner

In one of Rex Beach's stories, he has that inimitable character of his, Old Bill Joyce, declare: "Now a good mule driver is the littlest, orneriest speck in the human line that's known to the microscope, but when you get a poor one, he'd spoil one of them cholera germs you read about just by contact." But if Old Bill had listened in on a conference which took place at Camp Kearney, Calif., during July, 1917, when thousands of men were being trained for service "over there," he might have revised his estimate. Certainly it was a jolt to the self-esteem of some of the professional men who (at first) had a high idea of their worth to their outfit.

Two battery commanders of an artillery regiment were engaged in a heated argument. Overhearing part of it, the regimental adjutant undertook to adjust their differences.

"What's the matter?" he asked.

"He's trying to get a man away from my outfit," replied Captain No. 1.

"Well, I offered him a fair exchange," declared Captain No. 2.

"Who's the man, anyway?" asked the adjutant.

"A muleskinner and a damned good one," said Captain No. 1.

"What are you going to give him?" asked the adjutant.

"A banker and two salesmen," replied Captain No. 2. Then in a sudden burst of generosity, he added, "And if he insists, I'll throw in a lawyer to boot."

Not Localized

And now about those coolies of the A. E. F.

Twenty times more soldiers had them. It is estimated, that were bothered with rats and other pests peculiar to army life. You didn't have to be in the line to attract the coolies. The S. O. S. had 'em, too, and extraordinary care was taken at Brest and other points of embarkation, as a result, to see that all soldiers returning to America were properly deloused.

On board ship countless arguments arose, when men had nothing but their scalps to scratch, about "coolies" I have known. One of these returning home arguments was aboard the U. S. S. South Dakota, between a soldier and a marine.

"Where'd you find the most of 'em?" inquired the doughboy, referring to coolies.

"Brest," said the leatherneck.

"Brest?" returned the doughboy, "I had 'em all over me!"

Onion Is Fastidious

The onion, popular as a food even back to the days when the pyramids were built, may be common, but it is, nevertheless, a highly particular vegetable, so far as growing conditions are concerned. It requires especially soil of high fertility and well drained. It will not grow if weeds be present, and it needs cold, moist soil, with growing and warm, dry conditions at maturity.

CAUGHT COLD?

IT'S easy to throw off a cold when you know what to do—and do it. Two or three tablets of Bayer Aspirin will break up a cold in a jiffy! Take them promptly. Bayer Aspirin will check your cold at any stage, but why wait until you are miserable? These tablets are perfectly harmless because they don't depress the heart. If your throat feels sore, crush three more tablets in a little water

and gargle. This will ease your throat instantly and reduce any infection. A cold needn't worry you when you take these simple precautions. But the simplest cold is serious when you don't. Remember that, and remember to get the genuine tablets stamped Bayer. Read the proven directions for headaches, neuralgia, neuritis, sciatica; and for the prompt, positive relief of periodic pain.

EL PASO AVE. PHONE 16 CARRIZOZO, N. M., H. A. MILLER, PROP.

Ft. Stanton News

Mr. and Mrs. Ed White are the proud parents of a baby girl named Ethelene.

Mr. John R. Herting accompanied Mr. Dan Cousinich to Carrizozo Tuesday.

Hon. Marie Cavanaugh has been confined to her room the past week with a severe bronchial cold.

Word was received here Tuesday of the sudden death of Tom Smith in Roswell. Smith was a former patient here.

Many parties of hunters departed from here Sunday. J. M. Cavanaugh and J. M. Jr. going to Pajarito Ranch, Lonnie Cooper, W. M. Gould and Thomason going to the Capitans; Dave Parker, W. H. Hendren, Bert Minters and Tom Hobbs going to the Black Range. May they all get their deer and enjoy their outing.

We regret to hear of the death of Mrs. Zamora of Lincoln. Her two boys Leandro and Amelio have been employed here many years. We extend to them our sympathy.

Armistice day was observed as a post holiday. The offices were closed and all unnecessary work was suspended.

Mrs. J. W. Armstrong and Mrs. Alice J. Werner were visitors in the Sellars home Saturday.

SEAMANS' SOCIAL CLUB

Tuesday night Nov. 8th was again occasion for the boys who are members of the Seaman's Social Club. The ladies of the post were invited and quite a number attended.

The Fort Stanton orchestra played and many enjoyed the dancing. Bridge was enjoyed by some and others whiled the hours away in merry conversation. Delicious refreshments were served all thru the evening, consisting of coffee, cider, two kinds of sandwiches and cakes.

We are always proud to be invited to these affairs and hope the boys have another party real soon.

Ancho News

Virgil Peters brought in the first deer. Bill Reynolds and Dar Bell were other lucky hunters yesterday.

Mr. and Mrs. Charles Pfingsten, with their two children, were week-end guests of the S. J. Pruett, Mr. Pfingsten coming over to join in the first day's deer hunting.

Mrs. Billie Walsh is opening a beauty parlor and Women's Ready-to-Wear Shop in the first house to the left of the old school house in which Mr. Walsh has already established a cafe and bakery.

Mrs. L. L. Peters made a business trip to Carrizozo Saturday.

Sweet Bros. were in El Paso last week on business.

Curtis Weathersbee has made two trips to El Paso recently.

Alan Kile visited in Ancho last Saturday.

J. E. Frame left Tuesday morning for San Francisco to visit his mother until about January 1st. Mrs. Frame will join him there for the Christmas holidays, and it is hoped Mrs. Frame, Sr., who is rapidly regaining her health, will be able to accompany them on their return to Ancho.

Mrs. Elbert Brown entertained with an enchilada dinner at her residence at Luna last Thursday evening; the guests adjourning later to the Bullard home to play cards until a late hour.

A number of Ancho young people had a jolly camp fire supper in the hills Sunday evening, enjoying the last of the wonderful fall weather.

Miss Zanta Dubois, of Coron, visited in Ancho last Sunday, being the house guest of Miss Weathersbee.
