CARRIZOZO, NEW MEXICO, FRIDAY, JUNE 16, 1933

NUMBER 47

## Puckett-Zumwalt

Last Tuesday evening Mr. and Mrs. A. B. Zumwalt of Nogal gave an elaborate dinner party for their son Floy and bride the former Miss Virginia Hunt Puckett, who were married in Carlsbad Monday morning at the home of the bride's parents, Dr. and Mrs. O. E. Puckett.

The bride who is one of Carlsbad's most popular young social leaders was complimented by many parties after the announcement of her engagement early in May.

The young people left Carlsbad immediately after the wedding ceremony for a visit to the groom's parents at Nogal. They will leave next week for Greeley, Colorado, where they will attend the State Teachers' college for the summer, returning to Cottonwood, N. M., where Mr. Zumwalt is principal of the school.

Floy's many friends throughout Lincoln county wish him and his charming bride a happy and successful life.

We reprint the following detailed account of the wedding from the Eddy County News:

The marriage of Miss Virginia Hunt Puckett, daughter of Dr. and Mrs. O. E. Puckett, and Mr. Floy Raymond Zumwalt son of Mr. and Mrs. A. B. Zumwalt took place Monday morning at ten o'clock at the home of the bride's parents at 509 North Guadalupe Street.

The nuptial solo Lehenglin's "Bridal Chorus," was played by Mrs. Annie L. Davidson.

Rev. A. E. Johnson of Hope, a long time family friend, read the marriage service before an altar of sweet peas, larkspur and other cut flowers, against a background of greenery, using the double ring ceremony.

The bride, who was given in marriage by her father, wore a model of white organdie, a small lace hat with a small spray of spring flowers and other white accessories. She carried a shower bouquet of white rosebuds with sprays of fern.

Miss Edna Puckett, sister of the bride, was her maid of honor, wearing a long organdie gown of blue and pink, with matching accessories. She carried a n arm bouquet of matching shades.

Mr. Gladney Zumwalt of Nogal, New Mexico, brother of the groom was best man.

Following the ceremony a beautiful breakfast was arranged for fourteen. A large white two-tier wedding cake formed a centerpiece for the table. Crystal holders and pink tapers also added to the beauty of the table. Small place cards in the form of small silhouettes continued to carry out the scheme of pink and white.

Mrs. Zumwalt received her diploma from the Carlsbad high school in the class of 1929. In the fall she entered Abilene Christian college and remained for a year, then going to Bethany college at

Lindsborg, Kansas the next year. The following year she entered the University of New Mexico at Albuquerque for one term before returning to teach near Carlsbad for one term. She taught in Artesia last term, and was a student at the Colorado Teachers college in Greeley last summer.

Mr. Zumwalt attended Pasadena university in Pasadena, California and also the State Normal in Las Vegas, New Mexico. The couple left following the ceremony to visit Mr. Zumwalt's parents in Nogal before going on to various points of interest in Colorado and attending school in Greeley.

Guests included only members of the family and very closely connected friends, who were Mr. and Mrs. J. L. Williams, Gladney Zumwalt, of Nogal, Otis Winborn, of Pinon, Louise Davidson, Mrs. Annie L. Davis, Pleas Puckett, and Mrs. Claude Brown.

The couple will return in September when Mr. Zumwalt will be a teacher in the schools near Artesia.

Mr. and Mrs. Chas. Jordan and daughter, Mrs. Turner returned from Big Springs, Texas, where they went on account of the serious illness of their son Johnnie. Coming home their car lost a wheel and turned over twice. Fortunately none were seriously hurt. Mrs. Jordan's wrist was cut and they were badly shaken up.

Lee Carl spent the past ten days visiting at the Lewis ranch.

## LOW PRICE CARS VS. CHEAP CARS

We do not build a low-price car; the cost to us of building our car is pretty high.

But we do sell a high quality car at a low price. Almost every new Ford V-8 car we have built so far this year, has cost more to manufacture than its selling price was. As you buy them at only \$490 to \$610, we have to depend on increasing volume to make up the difference.

The reason for this is simple:— a manufacturer who gives good value must expect to lose money on the first cars he sells because he cannot charge all his costs to the people who are first to buy.

But with the purchaser it is different — he cannot afford to lose anything on a car. It must give him full value from the first, and keep on giving him full value for years.

Two things make possible our combination of low prices and high cost quality:

1. Volume Production
2. Taking only one profit

First, we set our price at what would be fair to the public on the basis of economies we enjoy in volume production. Then, in order to justify and maintain our low price we must get volume sales.

Thus it comes that a car which is really high-cost to make, is also low-cost to buy.

There is a difference between a cheap car and a low-priced high quality car.

Ford prices are always fixed at a point which makes it profitable for a customer to buy.

Good and lasting business must produce profit to the buyer as well as to the seller. And of the two, the buyer's profit must be, comparatively, the larger one.

It pays us to sell the Ford V-8 because it pays you to buy it.

*Henry Ford*

## Gentlemen's Association Holds Board Meeting

The Executive Board Meeting of the Gentlemen's Association was held at the I-X ranch on last Monday, June 12. This is the first time a meeting of this kind had been held at a ranch and it was a success all the way around and Mr. and Mrs. Taylor proved to be a royal host and hostess. About fifteen or eighteen arrived on Sunday the 11th and camped on the lawn. The next morning the remainder of the delegates and guests arrived. Mr. Whitaker, as assistant host, added to everyone's comfort by bringing all the garden and lawn hose into use to lay the dust which was the only disturbing element in evidence. After the reports of committees, about ten new members were added to the Gentlemen's Association. Mr. Mitchell, as chairman presided at the business meeting. Messrs. Spencer, Brownfield and Sowder, also took part as chairmen, and Board Members.

The dinner consisted of barbecued beef and mutton, (barbecued as only New Mexico cowboys can barbecue,) hominy, relishes, pickles, preserves, even strawberry preserves; worlds of cakes of every description; coffee, ice tea and in fact about everything in the line of "cats" and drinks.

Old time music was played mostly by Mr. and Mrs. Raymond Lackland, sang several duets, some in English and some in Spanish.

About two hundred were in attendance from Roswell, Albuquerque and other points in the state. Lincoln county was especially well represented. From Ruidoso were Mrs. Boyce, Mrs. Stovall, Mr. and Mrs. Wilbur Coe; from White Oaks Mrs. White and Miss Thelma; from Carrizozo were Messrs. and Mesdames T. A. Spencer, M. U. Finley, Carl Jones, Claud Branum, Raymond Lackland, Dewey Stokes, Mrs. George Dingwall, Mrs. Nellie Branum, Mrs. Oscar Clous, Dr. and Mrs. E. H. Johnson, James Garner, Mr. T. E. Kelley, Mrs. Sam Allen, and Mr. J. V. Stokes.

Notables present from different parts of the state were Dr. Kent of Las Cruces, Mr. Gatlin, head of the Biological Survey and Senator Louise Coe of Glencoe.

Mr. Turner, of the Hotel Husman, El Paso, represented the El Paso Chamber of Commerce.

## Building and Repairs

The Sweet building is nearing completion. Messrs. Tom and Garrison have been rushing the work in order to finish before the wet season starts.

Mrs. Edmiston is having a new roof and new porches added to her home on Elm street. Mr. Jordan has the contract.

Mr. Riley McPherson has the contract for laying new hardwood floors in the Hines residence.

## Charles M. Stimmel Dies in Washington

Charles M. Stimmel third son of Mr. and Mrs. E. L. Stimmel passed away in a Walla Walla, Washington, hospital last Saturday, June 10th, at 2 p. m. Mr. Stimmel, who was thirty-six, died from heart and liver complications. His home was in Los Angeles and he had gone to Walla Walla, Washington to visit his sister, Mrs. C. M. Eaton, thinking his health might improve, but he became much worse and was taken to the Walla Walla hospital where he died as stated above.

Mr. and Mrs. Stimmel left Saturday night for Walla Walla to attend the funeral, which was to be held Wednesday morning, followed by interment in the Walla Walla cemetery.

Besides his parents, Mr. and Mrs. E. L. Stimmel of Carrizozo, he is survived by four brothers, Roy, Lee, and Ben who reside in California; George of Washington; two sisters, Mrs. Eaton of Walla Walla, Washington and Mrs. Tennis Smoot of Carrizozo. Mr. Stimmel was a earnest worker and an upright citizen and the entire community extends sympathy to the bereaved family.

Mrs. Pinkie Skinner, Miss Frances Skinner, Mr. and Mrs. Wayne Zumwalt and Mr. Byrl Lindsay attended the dinner party at the Zumwalt home at Nogal Tuesday evening.

## R. A. Hunnicutt

Mr. R. A. Hunnicutt, age 70 died at his home in Capitan about noon yesterday, June 15th. He had been ill a week, when two days ago he suffered a stroke of paralysis, since which time he had been unconscious. With him when death came were his son and Mr. Bingham. He will be buried at Angus this afternoon.

It was Mr. Hunnicutt who was robbed of \$380, last January, following a cattle deal. They compelled him to reveal where the money was hidden by torturing his son by pouring gasoline on his feet and holding burning torches against him until his clothes were ignited.

## The Methodist Church

Rev. John L. Lawson, Pastor.

Fifty six in Sunday School last Sunday. Forty three at Angus. We were favored at Angus by a dust by Mrs. Askins and Miss Prior. Rev. Askins preached an interesting sermon. Services at Capitan next Sunday morning; at Angus in the afternoon; and in Carrizozo in the evening. While you are enjoying your mountain trip, and are near Angus, take a little time off and attend Sunday School at two in the afternoon, or church services at three. Get acquainted with some fine people and worship the Lord together.

Miss Dorothy Dosier of Tucuman visited friends here yesterday.

# Fur Has Played Stellar Role in World History

## Demand That Never Ceased Throughout Centuries.

Washington.—What is described in press dispatches as the first full time fur exchange in the world was recently opened in London. Its address, aptly enough, is "Beaver House."

This event emphasizes the stellar role fur has played on the stage of Europe and North America, according to a bulletin from the National Geographic society, which points out that the world's demand for furs, throughout the centuries, has never ceased.

"Valued first for warmth, then as adornment," says the bulletin, "fur became a luxury, to be enjoyed only by the wealthy few. Kings and emperors exchanged furs as gifts; royal captives redeemed themselves with furs; and only kings and nobles and the highest clergy were permitted to wear certain kinds of fur. Some kinds, like the ermine of a judge, became almost a badge of office for state officials. A man's social importance could be gauged by the amount and kind of fur he wore."

Affects Map of World.  
"Like gold and silver, fur helped unroll the map of the world and affected its political and economic history; for fur traders, trappers, and hunters were frequently pioneers and explorers as well. Russians, seeking furs, stretched their power over Siberia. In North America, French, English and Dutch ranged the lakes and woods for pelts, and battled for possession of the rich fur storehouse. Men like La Salle, Champlain and Joliet, Daniel Boone, Kit Carson and Jim Bridger, and Alexander Mackenzie, pushed back frontiers and cleared up blind spots on our map."

"Quest of furs changed American and Canadian trading posts like New York, Albany, Detroit and St. Louis, Winnipeg, Montreal, and Edmonton, into prosperous cities; founded powerful trading firms like the Hudson's Bay company; built up fortunes like those of John Jacob Astor and Lord Strathcona. From furs Canada derived its early prosperity; even its present-day boundaries roughly coincide with its early fur-trading areas. From furs originated much of the foreign commerce of the United States."

"Beaver," as far back as Chaucer's day, was practically synonymous with 'cat.' And because Charles I ruled that no fur except beaver could be used in the manufacture of hats, demand for beaver pelts increased to such an extent that new sources of supply were sought and found in North America. So important did the beaver become that it found a place on the coat of arms of New Netherland and of New York city, and on Canada's coat of arms.

"A beaver pelt became not only an

## Money Gets Bath After Fish Dealers Handle It

London.—London's dirtiest money circulates in the Billingsgate fish market.

Once used there, so contaminated does metal money become that it has to be boiled before it is suitable for reuse by banks.

Several banks near the market have been compelled to set up kitchen copper, where the coins are cleaned in boiling water before they are issued to other customers.

In the case of paper money, the notes are used only once—they circulate in the market and are then exchanged at the bank for fresh issues. Notes once used in Billingsgate market never lose the peculiar odor.

Sometimes the coins go black, but more generally green. One bank reports a customer opened a bag containing \$350 in silver and found many of the coins corroded together in lumps.

The "money laundry" in most of the banks consists of a stew pan, washing soda, sacks of drying dust and sleeves—in case fish scales get mistaken for the smaller coins.

## Sharkey and Carnera Sign for Fight

Jimmy Johnston (center), the promoter, tenderly holds the hands of Jack Sharkey (left), world's heavyweight boxing champion, and Primo Carnera (right), the challenger, after the two men had signed up for a title match to take place in June. The two hands will bring what Johnston hopes will be a million dollar gate to the coffers of the promoter. In the back row are (left to right) Johnny Buckley, Sharkey's manager; Bill Duffy and Louis Seresi, managers of Carnera.

## Cabinet Members Are Given Soaking

By WILLIAM L. BRUCKART

Washington.—White House attaches are laughing these days at the soaking received by two members of the cabinet whose identity they refuse to disclose but who seem to have been the victims of the Roosevelt open-door policy.

There is a great fountain and pool filled with lily-pads at the east entrance to the Executive mansion. This entrance is used only occasionally by the cabinet members, but evidently the two members in question were in a hurry and took a short cut. Their arrival at the east gate coincided with the time a stray dog chose to disport himself in the pool, and they watched the fun. The dog seemed to feel perfectly at home on the White House grounds and no one molested him. But after he had had his play he leaped from the pool to the side of the two apparently new-found friends. Then, he did exactly what every dog does. He shook that water off. Striped trousers and spats were well-soaked, but the cabinet members went on to the meeting with the President.

ing, windproof coats and rugs became all the more necessary for outdoor wear. And high wages of World war days and post-war prosperity changed increasing numbers of housewives and stenographers from cloth to fur coats.

"As a result of this latter development, there is now less call for sables and other expensive furs, and more for cheaper grades like muskrat and rabbit, that can be dressed and dyed to resemble costly kinds. The muskrat frequently masquerades under the trade name of Hudson seal; the rabbit once hid behind some seventy-five different aliases, from 'Arctic seal' to 'Russian leopard.' To obviate confusion, manufacturers now use more exact descriptive terms.

"For 300 years Canada and the United States have supplied a large proportion of the raw furs—beaver, fox, lynx, marten, mink, muskrat, skunk, raccoon, weasel, and numerous others—that pour into various European centers to be dressed and manufactured into finished articles. The United States today is still the world's largest producer of raw furs."

## MINT CONTROLLER

Now portrait of Mrs. Nellie Taylor Ross, who has become the new controller of the mint by appointment of President Roosevelt. Mrs. Ross was formerly governor of Wyoming and is vice chairman of the Democratic national committee.

## 'Living Pebbles' Found on Islands

### Samples Are Brought Back by Smithsonian Scientist.

Washington.—"Living pebbles" are among the curiosities of nature secured by Dr. Waldo L. Schmitt, curator of marine invertebrates of the Smithsonian Institution, along the shores of the Galapagos islands.

Doctor Schmitt has just returned after taking part in the Galapagos expedition of Capt. G. Allen Hancock of Los Angeles. He collected for the Smithsonian the crabs and shrimps of these isolated islands, securing hundreds of specimens of some species hitherto known to science by only one or two individuals.

The "living pebbles"—otherwise known as leucoid crabs—were among the special objectives of the expedition. They are tiny animals with rough shells of the same color as the beach sand in which they live. They look exactly like coral pebbles. About the only way to detect them is to see them move. They represent one of the most effective concealment devices in nature, Smithsonian biologists say.

Doctor Schmitt also collected numerous fresh water crustaceans on islands practically devoid of fresh water, whose life cycle illustrates another remarkable biological phenomenon. They appear at the beginning of the rainy season in mud puddles and rain-filled depressions in the lava crust. Here they lay their eggs. The rainy season is brief and the burning tropical sun soon dries up the puddles. The adults, unable to exist without water, perish.

But, curiously enough, the eggs will

not hatch unless they are dried out and again dampened. They are baked into the mud. Life remains dormant in them until the next rainy season. This dormancy may last for several years. But as soon as rain falls they hatch and the strange life story is repeated.

The animals of this kind collected on the Galapagos may throw light on the past history of the islands. If they are closely related to the species found on the American continent they may afford evidence of an ancient land connection.

## Pardoned, He Stays in Penitentiary by Choice

Michigan City, Ind.—Although granted his freedom three years ago through pardon, Fred Kettleback, seventy-two years old, remains, satisfied to be an inmate of the state prison here.

Kettleback came to the prison 33 years ago. Six years later he became ill and was confined to the prison hospital, where he has remained. Later he could walk a little, but age finally plied him to a wheel chair.

After 30 years, the pardon he had longed for as a young man, came. There were no friends waiting outside, however, no job for an invalid, and no hope for care, so Kettleback stayed.

## Birthplace and Snuff Mill of Artist Restored

North Kingston, R. I.—The birthplace of Gilbert Stuart, famed portrait painter of Colonial times, has been restored by the Rhode Island Historical society.

Norman M. Isham, who directed the work, made researches in England and America to secure accurate information concerning the old snuff mill at the Stuart birthplace.

The mill has been restored as it was in Stuart's time and snuff has actually been ground in it.

## \$310 Bill Is Paid With 260 Pounds of Pennies

Boston, Mass.—To pay a \$310 bill the Weeks Printing company of Halifax, N. S., shipped 31,000 United States pennies, weighing 260 pounds, in a stout wooden crate to Jacob Bloom & Co of Boston. With the Canadian dollar quoted around 83 cents the firm saved a substantial sum by using American pennies.

## Find Czar's Watch

Delhi, India.—A watch which, it is said, belonged to the late czar of Russia, has been offered for sale here for approximately \$7,900. It contains portraits of seven generations of British rulers and seven generations of czars.

## Foxhound Turns Wild

The Forks, Maine.—A thoroughbred foxhound owned by Bert Morris, old-time Maine guide, has turned wild and is running wild with packs of foxes near Marshall mountains.

## SALMON A FISH OF GREAT VALUE

### Supports a Vast Industry on Pacific Coast.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

SOME two thousand Chinook salmon from the Pacific coast, which were hatched in the aquarium of Washington's new Department of Commerce building, will be placed in Deep Creek lake, Maryland, whose waters drain into the upper Potomac. It is hoped the fish will find their way to salt water and return, in four years, to spawn, thus stocking the historic river.

Pacific salmon are the most valuable fishes, not only of the United States but also of the entire western hemisphere; and with the single exception of the sea herrings, they are commercially the leading fishes of the world.

In one year the aggregate catch of salmon in the Pacific states, British Columbia, and Alaska was upward of four hundred million pounds; which, sold in a canned, salted, smoked, frozen and fresh condition, had a market value of about \$27,750,000. The canned product alone, consisting of more than five million cases of 48 one-pound cans, was worth \$25,500,000. Thirty-five thousand people were engaged in the different branches of the industry, and the invested capital was fully \$50,000,000.

There are five distinct species of salmon, which, having many characteristics in common, nevertheless differ strikingly in size, color, habits, distribution, food value, and economic importance. The largest and most magnificent of all salmon is the Chinook, Quinat, King, Spring, or Tyee salmon. It has an average weight of nearly 25 pounds in the Columbia river, and is often caught weighing 40 to 60 pounds, while occasionally examples of over 100 pounds are taken. While found from California to China, it attains its greatest abundance in the Sacramento, Columbia, Yukon and other large streams.

### Blueback Has Its Faults.

The species called Blueback salmon on the Columbia, Rockeye on Puget Sound, and Redfish or Red Salmon in Alaska, averages only five pounds in weight and never exceeds twelve. It

A Chinook Salmon.

attains greatest abundance in the Columbia, the Fraser, and in various streams throughout Alaska. Its meat is rich in quality, deep red in color, and the fish is therefore in great demand for canning. While a beautiful fish when in salt water, with bright blue back and silver sides, after entering fresh water it deteriorates rapidly in food value and appearance, the head turns to olive green, and the entire back and sides become crimson and finally dark blood red.

The Silver or Coho salmon, with a general distribution in the coastal streams, averages six pounds in weight and rarely exceeds 25 or 30.

The smallest species is the Humpback, so called from the well-marked hunchal hump developed by the male in fall. The extremes of weight for mature examples are three and eleven pounds, with four pounds as the average. The region of greatest abundance is Puget Sound to southeast Alaska.

The remaining species, the Dog or Chum salmon, averages eight pounds in weight. It is generally distributed and abundant, but, owing to the poor quality of the flesh, is the least important of the group. The distortion of the jaws in the male during the breeding season, while characteristic of all species, is particularly marked in the Dog salmon.

The differences in spawning times and places of the different species of salmon are most interesting. After spending most of their lives at sea, growing, accumulating fat, and storing energy, the salmon move inshore and ascend the streams. After once beginning their upward journey, they take no food, and in fact are incapable of digesting and assimilating food.

### Where They Spawn.

The Quinat salmon begins to run in spring and pushes its way to the headwaters of the larger streams. In the Columbia basin the species distributes itself over 60,000 square miles of Washington, Oregon, Idaho, and Montana, its upward limit being insur-

mountable obstructions or falls. In the Snake river and Yukon river the spawning grounds lie 2,000 miles by water from the sea.

The spawning streams of the Red salmon are those that rise in lakes, and the spawning grounds are in the affluents of those lakes. The run begins in May and fish continue to come in until October, depending on latitude.

The Silver salmon enters the streams from July to October or November, but does not as a rule ascend for long distances.

The Humpback runs into fresh water in summer and fall, preferably in short coast streams, and often spawns within a few rods of the ocean.

The schools of Dog salmon come in to the stream rather late; in the Columbia river and Puget Sound the run extends from August to late in November, and in Alaska the height of the season is about the first of September.

Now, whether the salmon travel in the streams 2,000 miles or 200 feet to reach their spawning grounds, and regardless of their physical condition at the time they arrive at the particular places required for the proper development of eggs and young, every individual of every species dies shortly after spawning. This is the most characteristic and remarkable event in the life of the Pacific salmon.

Why this is the case is one of nature's mysteries. It has its parallel in some other fishes, in the may-fly, which perishes after a few hours' existence, and in the annual-plants. One can only say of such that they have served their purpose and are no longer needed.

### Periods of Abundance.

While the Pacific salmon run with more or less regularity, year after year, two of the species exhibit, in particular streams or regions, a marked periodicity in abundance which is so well established that it can be predicted with certainty years in advance.

The Blueback, or Sockeye, in certain streams shows a climax in abundance every fourth year. This is especially marked in Puget Sound and Fraser river, where the years 1903 and 1909, for example, were characterized by immense runs, while in 1900 and 1910 the abundance, as shown by the catch, was only one-fourth or one-fifth as great.

### Artificial Propagation.

The artificial propagation of salmon in the streams of the Pacific seaboard began at a comparatively early date and has continued with yearly increasing extent and importance, so that at the present time more hatcheries are devoted to the Pacific salmon than to any other fishes of the western hemisphere. The vast interests at stake have appeared to warrant and to require all the money that could properly be expended by the federal and state governments for salmon culture.

The first salmon hatchery in the West was established in 1872, on the McCloud river in California. By Executive order there was set aside a large tract for a "pleicultural preserve," which was fittingly named Baird, after the first national commissioner of fisheries; and Livingston Stone, a pioneer fish culturist, was placed in charge and continued in that capacity for many years, overcoming many obstacles, undergoing many privations, repeatedly subjected to great danger from attacks of Indians and outlaws, while devising methods which showed the possibilities of salmon culture and led to the present extraordinary development of this art.

The original Baird hatchery, still in active operation, is now supplemented by numerous other government stations, which may be regarded as lineal descendants.

The eggs of the salmon are 2 to 2.5-inch in diameter, and are the largest handled by the fish culturist. They are easily obtained by intercepting the fish on their way to the spawning grounds by means of racks, traps, seines, etc., and then, when exactly ripe, by expressing by firm pressure on the abdomen.

### Not Easy to Handle.

The size and activity of the salmon make it necessary for two or three men to work together in holding the fish and relieving them of their eggs and milt, and the largest individuals are most readily managed by putting them in a strait jacket.

In view of the inevitable death of the salmon after spawning, an improvement over the old method of forcible expulsion of eggs is the stunning of the fish by a blow on the head and taking of the eggs by abdominal section. This, while greatly facilitating the work of the spawn-takers, adds approximately 10 per cent to the egg yield by the saving of eggs that would ordinarily be left in the abdominal cavity.

Salmon eggs hatch slowly. Incubation, beginning in late summer or early autumn, continues until the following spring or summer, depending on the temperature of the water. The most protracted period of incubation thus far coming to the notice of fish culturists is that of the red salmon at Karluk, Alaska, where eggs taken in September may not hatch until the following May or June, and in certain seasons the hatching time has been prolonged to 270 days.

The annual deposits of young salmon in the waters of the Pacific seaboard by the bureau of fisheries, the three coast states, the Province of British Columbia, and the private hatcheries in Alaska now total many millions, of which the largest quantity represents the work of the federal government.

## Knitted Things Demand

### Extra Care in Washing

Have you succumbed to the knitting or crocheting fever? Whether or not, you certainly have sweaters, knitted suits, etc., for who can be without them these days? They're so attractive, and almost indispensable for sport and everyday wear, and, if washable, as many of them are, it's so easy to keep them clean.

Before washing a new sweater, test it to be sure the colors are fast, by squeezing an inconspicuous portion in clear, lukewarm water for five minutes or so.

Knitted things often get out of shape when wet, so to insure restoring them to the correct proportions just draw an outline on clean, wrapping paper, before wetting. Incidentally, the ideal time to draw this outline is when the sweater is new, before you have stretched the elbows, etc. Then this outline may be used each time you wash the sweater.

Remove unwashable buttons, buckles, etc., and turn the sweater wrong-side out. Make rich sudas with mild, neutral soap flakes; always have the sudas and rinse waters lukewarm or cool. Put in the sweater and wash by squeezing the sudas through and through the material. Never rub. Wash quickly. Do not soak colored garments.

Thoroughly rinse in plenty of lukewarm or cool water. Squeeze out the water—don't twist. Then roll the sweater in a dry turkish towel, knead for a moment and unroll. Don't leave colored garments rolled up while wet. Ease the sweater into shape on the outline. If the sweater tends to shrink, pin it in place on a firm surface as on corrugated pasteboard, or an old rug. Use pins which will not rust.

When the sweater is dry remove it from the outline, turn it right-side out and press it lightly, using a damp cloth to remove wrinkles and pin marks.

## Strained Eyes Burden

### Entire Nervous System

Between 60 and 69 per cent of the nervous energy used up by the five senses is "burned up" by the eyes alone, says M. J. Julian of the Better Vision Institute. So delicate is the function of vision that the eye has the first call on the available nervous energy of the body, and it is for this reason that strained eyes or eyes which are neglected drain the "current" required for other functions, he explains.

"Eyes that are out of adjustment use even more than the normal amount of energy allotted the eyes," Mr. Julian says. "It is even worse if one eye is normal and the other sub-normal, for then there is a conflict between the images registered on each retina which requires unusual effort to adjust. Headaches, dullness and digestive disorders are a natural result when the eyes thus become parasites on the limited nervous energy supplied by the body. Eyesight specialists, in normalizing sight, are in reality conserving the resources of energy of the body, balancing the budget of 'current' that the various organs need. No one has estimated the amount of nervous energy which correct glasses save in a lifetime, but it can be guessed from the disastrous effects which weak eyes lead to."

## JUST 46 POUNDS OF FAT GONE

### Feels 20 Years Younger

"I surely am rejuvenated! Kruschen Salt. I feel 20 years younger. A pinch a day keeps the fat away." Mrs. V. Walker, Seattle, Washington (Dec. 20, 1923).

Once a day take Kruschen Salt—one half teaspoonful in a glass of hot water first thing every morning. Besides losing ugly fat SAFELY you'll gain in health and physical attractiveness—constipation, gas and acidity will cease to bother you! Feel younger—more active—full of ambition—clear skin—sparkling eyes.

A jar that lasts 4 weeks costs but a trifle at any drugstore in the world—but demand and get Kruschen and if one bottle doesn't joyfully satisfy you—money back.

Unit Price, Large Bottle 50c. Book of beautiful patterns, 25c. Chicago, World's Fair Souvenir, free with each 75c. order. Needs Gold, T-123 E. 43rd St., Chicago.

## Clear Your Skin of Pimples

Anoint the affected parts with Cuticura Ointment. Wash off in a few minutes with Cuticura Soap and hot water and continue bathing for several minutes. Nothing purer or better for skin troubles.

Write for special folder on the care of the skin.

Address: "Cuticura," Dept. 95, Malden, Mass.

**"The Moral Risk"**

One thing that has come out of the investigation of the J. P. Morgan bank was the statement made by this shrewd financier when asked what his bank considered first when making a loan. He promptly replied, "the moral risk." And why not? In times of depression when values are tumbling about us on all sides the qualities that make a man a good moral risk stand unimpaired. Now and then one breaks under the strain and collapses but the proportion of losses from this cause is negligible compared to the losses where reliance has been placed alone on property values. If a man has the right stuff inside of him he will pay his obligations in full if it is humanly possible to do so. If he hasn't he will find some way to slip out from under the obligation.

**Cotton Conference Favors Acreage Cut**

The general sentiment at the cotton-conference held in Washington to discuss ways of making the Farm Adjustment Act effective for the cotton industry was to reduce the supply by abandoning at least 20 per cent of the cotton acreage planted this spring. Cotton producers and the cotton manufacturing industry were agreed that this would be the most effective way of meeting the present emergency. Cason J. Callaway, president of extensive textile interests in Georgia, as spokesman for the American Cotton Manufacturers Association, and W. D. Anderson, president of the Bib Manufacturing Company, spokesman for the Cotton Textile Institute, asserted that the textile industry was in favor of immediate action which would reduce the size of this year's cotton crop. Both speakers endorsed the Bankhead amendment to the national recovery act now pending in Congress which would appropriate \$200,000,000 to the Secretary of Agriculture to be used for production-control measures on basic commodities this year.

**Notice**

Department of the Interior, United States Land Office, Las Cruces, New Mex. June 8, 1933.

Notice is hereby given, that Congress by Act of May 18, 1933, suspended annual assessment work on mining claims held by location, from 12 o'clock July 1, 1933, PROVIDED: claimant is entitled to exemption from payment of Federal Income tax for the taxable year, 1932, and further provided: that every claimant, in order to obtain benefit of this Act, shall file, or cause to be filed in the office where his location notice or certificate is recorded, on or before 12 o'clock July 1, 1933, a notice of his desire to hold his mining claim under this Act, which notice shall state that claimant, or claimants, were entitled to exemption from payment of Federal Income Tax for taxable year 1932. V. B. May, Register.

**Notice**

Notice is hereby given that the Lincoln County Board of Education will receive sealed bids for contracts for the transportation of school children in the following districts for the school year 1933-34: Dist. no. 1, Lincoln, 2 trucks; dist. no. 2, San Patricio, 2 trucks; dist. no. 4, Picacho, 1 truck; dist. no. 9, Ramon, 2 trucks; dist. no. 15, Alto, 1 truck; dist. no. 20, Hondo, 3 trucks; dist. no. 21, Aneho, 4 trucks; dist. no. 23, Little Creek, 2 trucks; dist. no. 25, Capitán, 3 trucks; dist. no. 26, Jonets, 2 trucks. All bids must be in the office of the County School Superintendent at Carrizozo, New Mexico, on or before 4 p. m. July 1, 1933, when said bids will be opened and considered. In awarding contracts the Board will consider the equipment of respective bidders and reliability of proposed drivers. The amount to be paid for said contracts will be governed by the budget allowance for respective routes. All truck drivers will be required to carry liability insurance. Details concerning these routes and budget allowances may be secured from the Local Board of Directors of respective school districts. The County Board of Education reserves the right to reject any or all bids.

Lincoln County Board of Education. By Ola C. Jones, Secretary. 9-16-23-30

**Notice of Contest CONTEST 6559**

DEPARTMENT OF THE INTERIOR, UNITED STATES LAND OFFICE, Santa Fe, N. M. May 31, 1933. To Joseph E. King of Ramon N. M., Contestee: You are hereby notified that Leslie M. Kuykendall who gives Ramon, N. M., as his post-office address, did on May 11, 1933, file in this office his duly corroborated application to contest and secure the cancellation of your H. E. Entry No. 048206, Serial No. 953296 made April 13, 1932, for Lots 1, 2, 3 1/2, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, Township 2 S., Range 18 East N. M. P., Meridian, and as grounds for his contest he alleges that said entryman has totally abandoned said land for more than two years; that he built a house on the land in 1929 but sold it and moved off the land in 1930, and has not been on the land since that time. You are, therefore, further notified that the said allegations will be taken as confessed, and your said entry will be canceled without further right to be heard, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically responding to these allegations of contest, together with due proof that you have served a copy of your answer on the said contestant either in person or by registered mail. You should state in your answer the name of the post office to which you desire future notices to be sent to you.

FRANK L. WOOD, Acting Register. Date of first publication, June 9, 1933. " " second " " 16, " " " third " " 23, " " " fourth " " 30, "

It costs Chicago \$1,500,000 a year for delinquent boys as compared with only \$118,000 for its 18,000 Boy Scouts. Fifty-seven oranges are used to make one gallon of juice. Oil may be poured on troubled waters, but never on your fires.

**Economic Highlights**

The news spotlight since March 4th has been focused on the White House. For brief periods it has moved slightly to illumine business recovery, beer, war debt, tariff accord and discords, world economic and disarmament parleys. At the moment the Morgan investigation has dwarfed everything--it has served to obscure in the day's news other developments which, if less dramatic, are infinitely more important to the average citizen. These developments involve business which is moving forward after three years of retreat.

The country is experiencing a buying wave--still moderate, but definite. Factors behind it are renewed confidence, a belief that present low prices are doomed--and the more concrete fact that wages are rising and employment levels gaining. The price-rise belief is justly amplified by the statistics. Commodity prices have been advancing at a steadily inclining rate for several months, as have security prices. Business failures are down.

There is a noticeable decline in the number of distress sales. The index of industrial activity is now advancing satisfactorily. Dun and Bradstreet's review is almost a triumphant march of encouraging statistics, vital facts. Specific information on a number of major industries follows:

**Shoes**--Retail sales improving, wholesale buying expanding; 89 per cent of shoe workers are now employed.

**Steel**--Ingot production has had an uninterrupted rise for about three months; has reached the highest point since May, 1931.

**Car Loadings**--Constantly improving. In a recent week they registered the largest increase over the preceding week since 1929.

**Automobiles**--May production was heaviest in 21 months.

**Lumber**--Orders are close to 100 per cent greater than at this time last year.

**Retail Trade**--Well ahead of last year, and future gains confidently anticipated. Prices are gradually advancing.

**Building Permits**--Started upward in March, and sizable gains were experienced in April and May.

**Coal**--Bituminous production has increased.

Mr. Roosevelt's inflationary powers have aroused bitter disputes--to some they mean a quick and decisive victory over depression, to others they foreshadow the potential collapse of the country's monetary system, in the manner of post-war Germany, when a box of matches cost a thousand marks one day, ten thousand the next. The President has said little, moved cautiously and sought opinions, facts and advice.

Recently the inflationary movement got underway. The President ordered the Federal Reserve to go into the market to purchase Federal securities. Under the new law, it may buy up to \$3,000,000,000 at the option of the President--in the first week of operation, it bought but \$25,000,000, and there is every evidence that it will go slowly. This type of buying is instigated to expand commercial credit.

A financial advisor to the Government has been appointed, with the title of Executive Assistant to the Secretary of the Treasury. This official, Oliver M. W. Sprague, was formerly economic advisor to the Bank of England, and will be a much consulted member of a department which is short on banking authorities. Finally the President asked to repeal the gold payment clause in debt contracts. This will simply make theory and practice alike--ever since the banking moratorium the Treasury has refused to pay in gold coin. A battle at once started in Congress between those who viewed with

alarm and those who pointed with pride to the Administration position. To those who have been frightened by the specter of inflation, it may be said that every indication is that the President will withhold his power to the greatest possible degree consistent with his program; that there is no intention of flooding the country with unsecured, printing-press currency.

**Your Horoscope**

June 11, 12, 13

You are energetic, proud, venturesome, and ready to fight when occasion requires. You are affectionate, demonstrative with high ideals. You have enemies as well as many friends, but are not unjust or malicious in your dislikes. You have strong spiritual leanings, and desire to understand the hidden workings of everything. You are musical, and of a somewhat happy make-up. You are sensitive, wilful, shrewd, harsh at times, but generally kind and loving.

June 14, 15

You are very close in money matters, but sometimes very generous with a friend. You are faithful and loyal to what you consider your duty. You are very reserved regarding your affairs except with your very intimate friends. While strongly inclined to have your own way, you will sacrifice your own desire for the sake of peace and the welfare of your family.

**Birthday Party**

Miss Frances Skinner entertained some friends at a birthday dinner June 8th, at 8 p. m., at Roy's Cafe. Those present were Misses Frances Skinner, Julia Romero, Esther Dow, Katherine Kelt, Willie Kelt, Frances Pruetz; Messrs Clifford Anderson, Bob Gray Gladney Zumwalt and Otto Prehm. All had a wonderful time. Delicious refreshments were served. Many nice presents were received by the hostess.—A guest.

Rev. Sloan of Tinnie filled his regular appointment at White Oaks, Thursday evening, June 8th.

June 16, 17, 18

You enjoy luxury and ease, love home and kindred. You are very fond of music and poetry but are inclined to be impractical in business. You have many warm, devoted friends, and are a valued friend, but you do not understand fully how highly you are regarded by those who know you.

**Retail Deliveries Gain**

Chevrolet dealers reported the sale at retail of 65,761 new cars and trucks in May for the largest single month's retail deliveries since June, 1931. W. S. Knudsen, president and general manager announced last Saturday.

In May, 1932, the figure was 48,210 units, a gain of 36 per cent, and in April this year 53,926 units, Mr. Knudsen said.

Each one of the three ten day periods in May showed a constantly growing margin of gain over the comparable periods of a year ago. Figures as announced by Mr. Knudsen were 17,000 for the first ten days of May this year, as against 13,800 last year, a gain of 22 per cent; 21,800 in the second ten days as against 16,200 last year, a gain of 34 per cent; and 26,800 in the last ten days as against 18,100 last year, a gain of 48 per cent.

Despite the sharp upsurge of new car sales, used stocks in dealers' hands remained unchanged during the month; while new car stocks in the field dropped several hundred units due to retail sales running ahead of factory projections, Mr. Knudsen said. Manufacturing schedules had to be increased frequently during the month to meet expanding dealer commitments.

The sharp rise from April into May was much more than seasonal with his company, Mr. Knudsen said, indicating a belated buying season and promising to bring June retail volume up close to May.

**LOCAL AND PERSONAL**

Mrs. Byrl Lindsay left for Las Vegas last Sunday to attend the Normal University. Mrs. Lindsay has been engaged to teach the Nogal school the ensuing term.

Mr. and Mrs. Hartsell Davis of Emporia, Kansas, who have been visiting Mr. and Mrs. Frank Haskins and Mr. and Mrs. Raymond Davis at White Oaks for several days left last Sunday for their home.

Mr. Ashby Roselle of the Jicarilla mining district was a business visitor here Saturday.

**FOR SALE**—Yearlings, two year olds and three-year old Hereford bulls. Will sell at reasonable prices, or will trade for good, young stock cattle.—The Titworth Co., Inc., Captain, New Mexico.

Mr. Dan Elliott of Alamogordo was in town on business Friday.

Mrs. Oscar Clouse of Tucumcari arrived Monday and spent part of the week visiting her mother Mrs. Nellie Branum, before going on to El Paso, where Mr. Clouse has a run for some time.

**FOR SALE**—BRONZE TURKEY EGGS, 75 cents per dozen G. B. SHORT, Box 275, Captain, N. Mex. pd-2t

Mrs. Laura Sullivan was down from White Oaks Monday.

Mrs. Paul Mayer returned home Friday at noon, after spending the greater part of two months

in Tularosa at her mother's bedside. Mrs. Gilmore has sufficiently recovered to be up. Although the after-effects of pneumonia have left her in a somewhat weakened condition she is recovering very nicely. Mrs. Mayer's nephew, Robert Gilmore returned with her to spend a week.

**LOST**—White gold wrist watch. Initials M. N. scratched on back. Finder return to Margorie Nickels and receive reward

Mr. and Mrs. Cleghorn of White Oaks were in town Saturday.

Frank LaGrone's string band will give a big dance at the Ancho school house tomorrow night.

**FOR SALE**—Used pump engine at a low price. The Titworth Co., Inc.

Miss Simpson of Dallas, Texas, who is a niece of Judge A. H. Hudspeth is visiting at the home of her brother, Owen Simpson at White Oaks. Judge Hudspeth's brother Mr. Geo. Hudspeth also of Dallas visited his nephew here memorial day and then went to Santa Fe with Judge Hudspeth for a visit.

Mrs. J. S. Cook of White Oaks was in Carrizozo on business last Monday. Mrs. Cook entertained as guests at her home last Sunday Mr. and Mrs. Ray Krukenmeyer of the Cottonwood ranch, her son, Dink Myers, and her son Tommy and bride of the Welch-Davis ranch.

**Get Up Nights? Make This 25c Test**

Use this easy bladder physic to drive out impurities and excess acids which cause irritation that results in leg pain, backache, burning and getting up nights. BU-KETS, the bladder physic containing bushu, juniper oil, etc. works on the bladder pleasantly and effectively, similar to castor oil on the bowels. Get a 25c test box (5 grain size) from your druggist. After four days, if not relieved of getting up nights go back and get your money. You are bound to feel better after this cleansing and you get your regular sleep. Sold by Rolland's Drug Store.

The South Dakota State college is breeding sheep with no wool on the face or legs and no tail.

An inch of flue repair is worth a mile of fire hose.

Electric irons may be sad irons if you don't watch out.

**The Livestock Situation**

J. A. McLaughlin

Los Angeles, June 8, 1933.—Attention of the entire livestock and meet industry is now centered in the administration of the recently enacted Federal Farm relief Act. Just how the Farm Act is to be administered and to what extent the normal channels of trade will be affected is not certain, yet it must be thoroughly understood that the entire purpose of the Act is to raise farm prices. The law has "teeth in it," and those in charge of carrying out the will of the Administration are sincere in their desire to see that the act does all that it is expected to do in bringing about higher commodity prices.

It is no secret that the livestock and meet industry is pleased with the character and ability of the men who have been appointed to administer the Act. There has been apparent a desire on the part of Secretary of Agriculture Wallace to work with the industry with as little interference with normal business practices as possible. There also is very apparent a desire on the part of the packers and most distributors to assist in carrying out the intentions of the law with as little Federal supervision as possible.

In this effort, the various Stock Yard companies and livestock exchanges are working hand in hand with other factions. In fact, every element of the industry is anxious to do its part in the laudable effort to bring about more satisfactory conditions, with better prices the paramount objective.

Many believe that we are emerging from our long period of depression and that natural laws of supply and demand will quickly adjust the situation. But beyond that, the Federal administration believes that agriculture must lay comprehensive plans to prevent oversupply and depressed prices. In this plan, it is possible that the Federal Government, because of its entrance into the field of financing, may play a vastly more important part than is generally anticipated.

It appears now that the livestock industry is on a fundamentally sound basis and further natural improvement in values may be anticipated. In the meantime, different factors in production, processing and distribution are making time, expressing their desire to cooperate in bringing about more prosperous times for the producer and more satisfactory general trade practices.

**Piles Quickly & Safely Relieved at Home**

Without an expensive operation through the use of Prescription 3900 which has been in constant use for years by hundreds of physicians in the successful treatment of hemorrhoids, itching and bleeding piles. It is a wonderfully effective, quick acting and positively safe remedy. It may be easily and quickly applied in the home, and full treatment given without loss of time or expense. Price large size, full treatment tube \$1.00 at your druggist, or mailed anywhere in plain wrapper on receipt of \$1.00 by D. P. O. Laboratories, Holton, Kansas. If relief is not secured after using one tube, money will be promptly refunded. Accept no substitutes.

**FIRST NATIONAL BANK**

CARRIZOZO NEW MEX.

"TRY FIRST NATIONAL SERVICE."

**Public Health Column**

Conducted by Dr. J. R. Kay

**Tuberculosis Contagious—Yes But—**

The slogan of the National Tuberculosis Association for 1933 is "From whom did he get it? To whom has he given it?" Probably the idea of this slogan is to promote careful examination of all people and especially children who are living in close contact with active cases of tuberculosis. Regular medical examination with chest x-rays are desirable for such people and indeed all people. Tuberculosis is contagious as careful study has proved. But the slogan is being misused. An article in a national magazine compares the contagion of tuberculosis with that of diphtheria. A statement from the New York state health department compares tuberculosis with smallpox. Such comparisons are ridiculous. Those who make them do so in an effort to impress the public with the danger of tuberculosis infection, forgetting perhaps that the public feared tuberculosis infection before the doctors believed in it.

The suggestion that tuberculosis is caught as easily as diphtheria or smallpox is not only ridiculous but dangerous. Already in many parts of the country the life of a sanatorium graduate is made miserable by the exaggerated and unnecessary fear of his neighbors. The contribution of hope and cheerfulness, so important to his recovery, is denied him. Instead he is placed under the double handicap of mental anxiety and poverty, since many people fear even to give employment to one who has had tuberculosis. Poverty starts a vicious circle. The patient's disease is reactivated and the resistance of his family to infection is seriously reduced by undernourishment and overgrowing. There are countries in the world where tuberculosis is so unpopular that even advanced cases are hidden away from the health authorities by their families. This results in many cases and many deaths from the disease.

If the proposed survey of tuberculosis in New Mexico is carried through it may show that we do not take enough precautions against the spread of infection. On the other hand it may prove that a morbid fear of the disease is not necessary to its control.

# The SILVER FLUTE

By Lida Larrimore

Macrae-Smith Company WNU Service

### SYNOPSIS

On her eighteenth birthday, Barbara, motherless daughter of Christopher Thorne, artist, awakes with anticipation of the joys of the day. She receives a birthday ring from Bruce MacLean, young artist friend of the family, but more than friend to Barbara. Barbara and Bruce go picnicking on the sands at Provincetown. He tells her a story of a gypsy boy, a little gypsy girl whom he loves, and the song of a silver flute. She knows it is her own love tale. Her happiness turns to sorrow when she returns home to learn her father has been drowned. Barbara fears she and her brother and sister will be separated. Relatives arrive and take charge of things. Having been almost a mother to the others, Barbara cannot think of Kit's sensitive nature bruised in Uncle Herbert's household by his rough-and-ready cousins, and Gay spoiled by her association with silly Aunt Lola. Bruce urges immediate marriage, but that would mean separation.

### CHAPTER IV

Aunt Lola's car stood at the gate, a beautiful car, dove-gray with silver fittings and a chauffeur named Pierre. Aunt Lola, small and plump, with massed-looking skin and hair a shade too golden, sat beside the living room fire wrapped in molleskin as soft as velvet.

Gay was bewitched by Aunt Lola, her clothes, her jewels, the dove-gray car, the chauffeur named Pierre. Already she was different. Barbara thought, watching Gay adopt Aunt Lola's mannerisms, her gestures, the affected tones of her voice. She didn't want Gay to grow up into a silly little peacock, like Owen, Aunt Lola's daughter, married now and, according to family gossip, leading her husband a life. Mother would have hated it so. And Father, too. Gay could be so nice.

Uncle Herbert came and went, attending to business matters, interviewing the real estate agent and the officials at the bank. Uncle Herbert was not above medium weight, ruddy and stockily built. But you felt that he was very tall and imposing.

Uncle Herbert was kind to the children. He was especially kind to Kit. "Well, Michael Angelo," he would say, "have you painted a masterpiece yet?"

Or, pinching Kit's arm, he would say: "No muscles!" He would pretend to be terribly shocked. "See here, young fellow, that won't do. Wait 'til we get you out in Pittsburgh. Roast beef is what you need."

Did he think they hadn't been properly fed? Barbara would try to choke back her indignation, knowing that Uncle Herbert meant only to be kind.

He would talk about Paul who played on his college football team and Joe who was a prep school star and Junior who had six medals for swimming, although he was only fifteen. Barbara, an ache in her heart, would see Kit's flush deepen and a frightened look creep into his eyes. Kit couldn't play football. He would never be very strong.

Her last hope had vanished. She had pinned up her hair and worn her longest frock, but she knew that she looked as young and frightened as she felt, when she asked them to let her keep the children there in the gray-shingled house.

"We could manage," Barbara felt her courage slipping away with the plea that held her hair. "You can live so cheaply in Provincetown. If Kit gets a job and we don't have Martha and—"

"It isn't only a question of money," Uncle Herbert said not unkindly. "There are many things to be considered. You're too young to assume such a responsibility. Besides," he added, "it isn't necessary."

It was necessary. She knew, in her heart, that it was necessary to keep the children together. But she couldn't put it into words. They confused her with grown-up logic. She shut herself up in the studio and cried helplessly with her cheek against Father's coat. Aunt Josephine had decided not to come. The change in the weather, she wrote, made the Journey too great a task, since she wasn't as young as she used to be. Barbara was to come to Providence with Cousin Evie. She enclosed a generous check.

Barbara looked thoughtfully at the strip of pink paper signed in spidery writing with Great-aunt Josephine's name. The check would take her to New York and buy her a winter coat. A dress, perhaps. Her wedding dress, Aunt Josephine would make a fuss about Bruce. She didn't approve of artists. But Mother had married Father.

It would be lovely to be with Bruce, she thought, curled in a corner of theavenport, watching the lights in the fire. She wouldn't mind if they hadn't spent money. Darling Bruce! She twisted his ring on her finger and heard the tinkling of the small gold heart. She hadn't told anybody. The

children thought it was a birthday ring. The relations might make fun. She couldn't bear that. Darling Bruce! If it weren't for the children...

The house was to be sold. Uncle Herbert decided that was best. They couldn't understand why Barbara minded so much.

"Why should you want to keep it?" Cousin Julia asked in amazement. "We like it, Cousin Julia." Never had the long low room seemed so charming and friendly and dear. But she knew it was useless to explain. They never could understand. Her eyes brimmed over with tears.

Cousin Julia, assisted by Martha, thoroughly cleaned the house. Things were burned in the fireplace. There was little worth keeping, Cousin Julia said. Barbara packed her sea-chest with treasured odds and ends. Everything else would be sold.

Their last day together arrived, a rainy day, chilly and depressing. Martha's eyes were rimmed with red and her scolding voice was gentle. People from the town came to say good-by.

"We'll miss you," they said. "The house won't seem the same."

Never the same again! Barbara realized it, all at once, with a sickening lurch of her heart. The house would belong to somebody else, the house that Mother had loved. They wouldn't see the willows grow green, next spring, and the apple tree burst into bloom. They wouldn't sit on the studio steps with "Chips" stretched out in the sunshine across their feet.

Barbara ran blindly from the room, up the stairs, along the hall, up into the attic.

She heard a sound of sobbing. Kit lay on a broken sofa in the unused part of the attic, his face buried in his arms.

"Kit!" she cried softly, running to him, kneeling beside the sofa. He raised a tear-stained face. His cheeks were hot and flushed. A feverish light burned in his hazel eyes.

"Sorry, Babs," he gulped, ashamed of crying, trying to be manly. "Do you mind so much about going with Uncle Herbert?" she asked, her heart breaking for Kit.

"You don't know what it's like, Babs," he sobbed, no longer ashamed. "Uncle Herbert's boys are so strong. I—I couldn't keep up. They laugh at things I say. They—they think I'm sort of crazy. I'd rather die than go back there."

It was dreadful to hear him sob. Kit so seldom cried; not even when he was a little boy and had to sit in a chair. He minded things so terribly. Those great boobies of Uncle Herbert's, Barbara thought. It wasn't fair. She must do something. Kit shouldn't suffer so.

"You needn't go with Uncle Herbert," she said, not very sure about anything, wanting only to hush his straggling sobs. "We'll all stay together, Kit."

He raised his head, a question in his eyes.

"We'll all run away together!" A plan presented itself to Barbara. She didn't know why she thought of it. Perhaps all along it had been lurking somewhere in the back of her mind. "I know exactly what we'll do." Her voice sounded frightened, but happy, too. She felt her heart thumping against her ribs.

"What?" Kit asked hoarsely. "We'll—"

"Yoo-hoo!" That was Cousin Evie coming up the stairs.

"Shh!" Barbara whispered, her eyes dark with excitement, a warm pink flush in her cheeks. "In the studio after supper. I'll tell you about it then."

Cousin Evie, wrapped in a crocheted shawl, reached the top of the attic steps. "You naughty kiddies!" she said, smiling brightly, shaking a finger in playful reproof. "Hiding up here in the cold! Come on downstairs by the fire. Martha has made hot chocolate. We'll have a nice little game of hearts."

It was chilly in the studio. The children huddled together in a circle on the floor. They hadn't dared to turn on the lights for fear of being discovered. A candle burned in an ash tray. Kit and Gay and Jamie looked at Barbara.

"We'll run away," she began, trying to make her voice sound confident in spite of the way that her heart was thumping against her ribs.

"All of us?" Gay asked, forgetting Aunt Lola and the dove-gray car in the excitement of an adventure.

"All of us," Barbara said, her eyes very wide and frightened in her pale face.

"Chips, too?" Jamie asked the question anxiously, the small yellow dog huggled tight against his chest.

"Chips, too," Barbara said almost gaily. "Why, Jamie Thorne, do you think we could ever leave 'Chips'?"

"Where are we going?" Jamie asked, not caring very much since "Chips" was going too.

"We're going to Uncle Stephen." There, it was out. And it didn't sound crazy at all. It sounded like a sensible thing to do.

"Did he invite us?" Gay asked eagerly, her warm color deepening.

"No," Barbara was forced to admit. "We're just going anyway."

"But Babs," worried thoughtful Kit, "shouldn't you write to ask him? Or telegraph or something?"

"It's better if he sees us," Barbara was sure of that. Certainly "Uncle Stephen" could never resist the charms of Kit and Gay and Jamie. "A crusty old bachelor!" She didn't believe it. His letter, sounded so nice.

(TO BE CONTINUED)

## Southwestern Briefs

The Arizona Fish and Game Commission has named S. L. Lewis, Flagstaff hotel manager, as state game warden, succeeding W. O. Joyner.

The tentative 1933-34 budget for the New Mexico State Highway Department calls for an expenditure of \$5,985,000 in construction work on the 7 per cent system.

Arizona State Game Warden S. L. Lewis has announced the appointment of Guy Rencher as deputy state game warden, to succeed E. W. Betts, Springerville, who resigned.

Members of the Arizona state highway patrol are to be deputized as quarantine inspectors by the State Board of Agriculture and Horticulture, it was announced a few days ago.

Santa Fe, Madrid, Las Vegas and Bernalillo have formed the Central New Mexico Baseball League. A split season, with nine games in each half, opened May 28, and will close September 10.

State Criminologist J. F. McDonald has reported that crime in Arizona has shown a 6.73 per cent decrease for the first ten months of the present fiscal year, as compared to a similar period in 1931-32.

The program for an \$8,000,000 flood control project, as a means of alleviating unemployment in Arizona, has been presented to Gov. E. B. Moser and Stuart Bailey, secretary of the State Public Welfare Board.

The present faculty of the University of New Mexico will continue intact next year with one exception. Dr. E. J. Workman has been engaged to take the position of Dr. R. S. Rockwood, whose death occurred last fall.

Milton J. Helmick's decision allowing sale of 3.2 beer as a legal beverage in New Mexico, won't affect Gallup's thirst, but it may serve to bring the city additional revenue in the form of licenses. M. K. Clark, federal prohibition agent, believes.

Appointments by county boards of supervisors for Arizona to fill vacancies in the Eleventh Legislature since adjournment of the regular session of that body, were held invalid in an opinion delivered to Gov. Moer by Attorney General Arthur T. LaPrade.

Receipts of the state land office from gas and oil fees and rentals in April exceeded the same period a year ago by nearly a fourth, Frank Vessely, state land commissioner, announced. Last year the receipts were \$45,411 and this year are \$10,012 ahead of that figure.

Three hundred and fifty men, bound for civilian conservation camps, recently arrived in Santa Fe, N. M. They were assigned to two camps near the capital city. The contingent was composed mostly of men from Texas, the first workers from outside the state to reach that section.

An election during 1933, to name a successor to former Congressman Lewis W. Douglas, is impossible under existing statutes or those which will become operative June 13, 1933. Arthur T. LaPrade, attorney general of Arizona, ruled recently in an opinion to Governor Moer.

Roswell won the New Mexico Rifle League championship by one point from the Grant County Rifle Club. Teams participating in the league shooting, which has been held for the last two months, were Roswell, Grant County Gun Club, White Signal, Alamogordo and Lordsburg.

The chief of the New Mexico state highway motorcycle patrol and the nine patrolmen to be selected out of the host of applicants, will be put through a thirty-day course of training at St. Michael's College to fit them for their work. The school is to be conducted either by the head of the Texas or the California patrol.

Possibility that 40,000 acres of pine timber in the Prescott, Ariz., national forest will be laid waste by a blight now sweeping it, unless emergency action is taken, has been voiced by Frank Grubb, supervisor of the local service. The disease is known as "twig blight" and works on the pine needle bunches, causing them to become yellow, die, ultimately killing the tree.

San Miguel county, N. M., taxpayers, through representatives of the Federated Taxpayers' Association, will lend support to Curry county taxpayers in appealing to the State Supreme Court in an effort to prevent the fulfillment of Senate bill 144, the measure providing for the sale of delinquent tax property June 12, C. W. G. Ward, secretary of the federation, has announced.

Ruth Hanna Simms, Albert G. Simms and Barlett H. Kinney, president of the New Mexico City Products Company, have offered to subscribe \$100,000 in capital stock to effect a reorganization of the insolvent First National bank of Albuquerque. This would only leave \$75,000 needed for the complete reorganization. It is proposed to call the new bank the National Bank of New Mexico.

Another new Arizona state law that makes it tough on delinquent tax payers was unearthed in the supervisors' office recently. This one makes it impossible for a contractor to bid on public works within the state, if his taxes are not paid.

Arizona, one of the few remaining so-called frontier sections of America, boasts an increasing number of automobile vehicles and a decreasing number of horses. Twelve years ago there were 190,000 horses and colts in the state. Today there are only 77,000, according to state census figures.

## Mr. George B. Cautious Arises to Protest Inconvenience in Matter of Men's Hot Weather Apparel

"Gentlemen," said George B. Cautious, at the weekly meeting of the Rowan's club, "if you will pardon me, I wish to refer again to a subject that I think I may have discussed here in the past. At any rate, it is a topic that appeals to me as being of timely interest, one that concerns virtually all of us to a greater or lesser degree. To come to the point, friends, I refer to the coming of these warm days when men discard their waistcoats—or vests—and transfer from this garment to other garments, the various useful and necessary implements and articles that have, during the winter season, been carried in the waistcoat pockets. There is one gentleman here who does not wear a waistcoat winter or summer, and he may be excused if he does not care to remain, but most of us are accustomed to donning vests when the cool days come in autumn and wearing them until spring forces us into cooler habiliments.

"My friends, I have made a statistical survey of the suit of clothing that I now have on, and I call your attention, not to the clothes, but to the pockets the suit contains. In the trousers we find two side pockets, two hip pockets, a watch pocket and a secret inside pocket for currency—made in the days before hoarding was 'ahoo' and when there may have been something to hoard. The waistcoat has four outside pockets and one inside. The coat has four outside pockets, two inside and a little extra ticket pocket. Thus we have six pockets for the trousers, five for the waistcoat and seven for the coat, or eighteen in all.

"Now, then, I claim that I am not alone in the practice of carrying something in each pocket. We will take the waistcoat, for that is the garment under discussion. In the lower left pocket, let us say, will be the watch. In the lower right pocket we will find a box of safety matches. The upper left pocket houses spectacles and a small notebook. Our pen and pencils we discover in the upper right pocket. In the inside pocket is our driver's license. It is immediately apparent that we cannot do without any of these things, so when the mercury goes up to where a waistcoat is uncomfortable, we will have to move out of it and place these things in the pockets of the coat and trousers—pockets that already have their full quota of deposits. As we are creatures of habit we will continue to reach for our watch, our matches, our pen, and so on, where we have been accustomed to find them, and we will no sooner become reconciled to the new order of things until autumn will be here, and we will be moving back into our waistcoat again. There will be days when going without even a coat will be

advised, whereupon it will be necessary to find places in the six pockets of the trousers for what formerly was housed in the twelve pockets of the coat and waistcoat.

"All of us have read from time to time that men are prisoners of convention, that they do not go coatless and hatless because they fear ridicule. I insist that they cling to as many garments as possible because they have use for pockets. These are the days of rapid change, of one innovation after another, and yet nothing has been done in behalf of man's comfort during hot weather. He can don a pair of linen slacks and a shirt open at the throat and sit on his porch each evening, but he cannot go to his office thus attired because such a combination does not have pockets enough. Gentlemen, I contend that too much time is spent in thinking up new fashions for women and not enough in consideration of the practical problems of men.

If somebody would bring out a modified cartridge belt, in which we could park our pen, pencil, watch, notebooks and similar articles, perhaps we, too, might dispense with both coat and waistcoat when the weather becomes sultry. We might carry a purse on a strap, such as laundry drivers have, but thus far we are expected to make the change with out any help, and it is that form of assistance that I am asking you to join me in seeking today."—Indianapolis News.

### In Agreement

The young author, who had been having a slack time, unfolded his tale of woe to a friend.

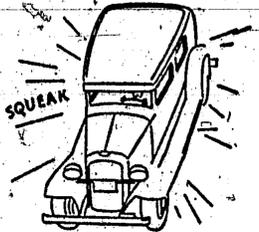

"Yes," he said, "the income tax people sent me an ominous-looking letter. I opened it, as you can imagine, with trembling hands. 'Sir,' it read, 'the assessor of taxes is dissatisfied with your statement of last year's income,' or words to that effect."

"What did you do about it?" asked his friend, trying to be sympathetic.

"Wrote back and said, 'Dear sir, you are not half as dissatisfied as I am.'"—London Answers.

### IN A NUTSHELL

Why should there be any question about which is the aggressor nation? The one that's sure to get licked never starts a row.

No squeaky springs in the big new Dodge Six.. Special new Oilite Springs cant Squeak.. never need oiling.

Just one of the many features that will make your Big New Dodge "Six" stay new—and give you new car service for years to come... Come today and take a demonstration ride in the car that is thrilling America... You'll find it down among the low-priced cars in cost and upkeep—but among the costly cars in performance and style.

### NEW "SHOW-DOWN" PLAN SWEEPS NATION

Imagine a car that sells itself—and doubles its sales almost overnight in city after city. That's what the new Dodge is doing... laying its cards on the table... then asking any other car dealer to match it on the open road, in traffic and up hills. Go to your nearest Dodge dealer today and ask for the sensational "Show-Down" score card. Then make your own "Show-Down" test against any other car.

**Nogal Notes**

Nogal has had two weddings this week. The first couple were Mr. Floy R. Zumwalt and Miss Virginia Puckett, who were married in Carlsbad, and the second couple were Mr. Carl McDaniels and Miss Katie Whitaker who were married Tuesday at Carrizozo. The young folks here certainly enjoyed themselves chivareeing the newly-weds Tuesday night.

Miss Lois McDaniels left Saturday for Las Vegas to attend school.

**Dr. and Mrs. Johnson Entertain**

Dr. and Mrs. F. H. Johnson gave a dinner party at the golf club house last Sunday evening, honoring their sister, Mrs. Stebbins who is visiting here. Thirty guests were present.

Mrs. Harry Miller gave a party Monday at 2 o'clock for her sister, Mrs. Stebbins. The afternoon was spent playing bridge, after which the hostess served dainty refreshments.

**Additional Local**

Mrs. C. O. Davis was hostess to the Missionary Society of the Methodist church last Wednesday afternoon. A big crowd attended. Mrs. Davis was assisted by Mesdames C. A. Snow, Oscar Snow and C. M. Luckey. Refreshments of punch and cookies were served.

Mr. and Mrs. George Jeffries were in from their ranch Thursday.

Mrs. J. V. Taylor and daughter and son, Mr. and Mrs. Duncan Scott were in from the I-X yesterday morning shopping.

Miss Melba Baca, daughter of Mrs. Marguerite P. Baca, Secretary of State, was in town Tuesday in connection with some child welfare work for the State.

Comet Chapter No. 29 O. E. S. held a banquet Wednesday night for members and their families.

Mr. G. L. Strauss went to El Paso Monday to visit his mother Mrs. Mary Strauss, who is seriously ill.

Mr. Elmer Eaker has accepted a position in Mrs. Brannum's new grocery. Elmer is a Carrizozo boy, but has been gone for several years.

Alvin Carl will leave next Tuesday for Farmington, N. M., to visit his brother, Earl, who is farming up there at present. Mrs. Laura Sullivan of White Oaks will be clerk in the drug store during Alvin's absence.

Mr. F. C. Biggs, field manager for the Live Stock Magazine of Albuquerque, was here Tuesday and Wednesday. Mr. Biggs had been to the I-X barbecue, Monday the 12th.

Messrs. Percy Welch and D. L. Jackson were Carrizozo business visitors yesterday.

Big all-day picnic for Oddfellows and Rebeccas next Sunday at Camp Robison.

Mr. Riley McPherson was awarded the contract to build the Rabenton school house, he being the lowest bidder by about \$80.

Mrs. Pinkie Skinner and granddaughter, Frances, and grandson, Bob motored to Portales last Wednesday to attend the General Assembly of the Nazarene Church.

Miss Rosa Sandoval from Los Angeles arrived last Saturday to visit relatives for a short time.

Mrs. Edith Crawford spent the first of the week in El Paso visiting relatives.

Messrs. L. A. Whitaker and J. V. Taylor were in town last Tuesday.

Reynaldo Sanchez of Tularosa has just completed the erection of a very neat cottage for his brother, Abe Sanchez, over on the east side next door to the Andy Padilla home.

Attorney H. B. Hamilton of El Paso was in town Wednesday.

Col. Geo. W. Prichard of Santa Fe was a Carrizozo business visitor Tuesday.

Mr. and Mrs. Manuel Marquez of Alamogordo visited the St. John family here last Sunday. Reynaldo Sanchez who has been here the past three weeks building a house for his brother accompanied them on their return as far as his home in Tularosa.

It was reported here this week that Mr. John Wright has leased his coal mine at White Oaks, but this it seems, was a mistake. Mr. Wright employed some mining experts from Gallup to go over the mine and fix the timbers and scaffolding so it will be safe for miners. Two months will possibly be occupied in the construction of these safety measures.

Manuel Luceras visited his brother, Andres Luceras in El Paso Tuesday.

Mr. and Mrs. Fred Neighbauer were in town from their Mal Pais ranch Thursday.

**Ancho Notes**

Prior to entering the hospital in San Francisco, Mrs. C. C. Belknap is visiting in Los Angeles. Later she will go to the World's Fair and then on to New York City to visit with Mr. and Mrs. Carroll Belknap.

Mrs. Joe Roscoe is spending her summer vacation at the home of her parents, Mr. and Mrs. T. J. Straley.

Misses Mandie Warden and Miriam Hightower are guests of Mrs. R. M. Jones at Tucumcari.

**"Hello, Sis"**

"We can't come over today. Thought you might worry, so I called up."

He's 50 miles away, but for a few cents he telephoned and saved her needless worry.

Maintaining family ties by telephone is so worthwhile and costs so little.

Ask "Long Distance" for any rate you would like to know.

Manuel Luceras visited his brother, Andres Luceras in El Paso Tuesday.

Mr. and Mrs. Fred Neighbauer were in town from their Mal Pais ranch Thursday.

Miss Thelma White gave a bridge party at her pleasant home in White Oaks last Wednesday afternoon which was attended by several Carrizozo ladies. All reported a delightful time. Mr. and Mrs. Sloan of Midland, Texas, who are visiting Miss White and her mother were the guests of honor.

Rev. J. L. Lawson is spending the greater part of his time in Nogal canyon, only coming to town for Sunday services.

Porfirio Chaves, Sr., of Eagle, N. M., visited his son Porfirio, Jr., and family here last week.

Born—to Mr. and Mrs. Bryce Duggar Saturday morning, June 10, at the Johnson hospital, a girl.

Mr. E. T. Collier was highly elated one day this week when he discovered a spring on his ranch which will furnish sufficient water for fifty or more head of cattle. This will save Mr. Collier the trouble of moving his cattle to another pasture on account of water.

Mr. Byrl Lindsay drove to Las Vegas last Saturday to visit his wife who is attending school there. He returned home Sunday.

Mr. and Mrs. Davis and Mr. and Mrs. Tommy Cook of White Oaks were Carrizozo visitors Wednesday afternoon.

Dr. M. G. Paden spent last Monday in Alamogordo listening to the case of Prichard and Paden vs. Travis Mining Co., of Ancho. The case was originally filed in Lincoln County but was transferred to Otero on change of venue. Col. Prichard pleaded his own case. District Judge Numa C. Frenger presided.

Last Friday evening Mrs. F. H. Johnson entertained four tables of bridge at the Carrizozo Eating House. Refreshments were delicious and elaborate. Mrs. Stebbins was honoree at this delightful affair.

Mr. and Mrs. Longley of Oscura visited Mrs. Longley's father, Mr. Jet Rustin, here Sunday.

Mr. Frank Lesnet and daughter, Nadine, were in El Paso from Saturday until Tuesday.

**"Forest Workers" Enlist**

Several Carrizozo boys and young men have been accepted as forest workers. The National Emergency Conservation Workers, popularly called the "Forest Army" sign up for a period of six months. They receive food, shelter, clothing and \$30 per month, \$22 of which is allotted to their dependents. Each man enlisted is expected to remain the full six months. Three camps of 200 men each are to be established in the Lincoln National Forest. The one nearest here is 18 miles from Capitan. The government has provided this work for the employment of 250,000 young men who are idle

the country over. This week a trainload of young men passed through enroute to California. Last week three trainloads passed through enroute to California and Nevada. These young men were from New York, Pennsylvania and other eastern states, but had been stationed at Camp Knox near Louisville, Ky.

**Rain, Rain, Rain!**

Worlds of it blessed the Carrizozo Valley yesterday afternoon with the prospect of more.

Mrs. J. B. French, and daughter Mrs. Miller French of Albuquerque came down last Saturday. They went to Eagle Creek and staid until Wednesday. They will return to Albuquerque next week.
