CARRIZOZO, NEW MEXICO, FRIDAY, MAY, 25 1934

NUMBER 52

### Commissioners Meet

Special Meeting of Board of County Commissioners Monday, May 7th, 1934, duly called to order by F. W. Morgan, Deputy Sheriff, at 9:30 o'clock, A. M.

Present: T. E. Kelley, Chairman, Melvin Franks, Vice-Chairman, Hilario Gomez, Member, F. W. Morgan, Deputy Sheriff, Ernest Key, Clerk, at which the following Resolutions were passed to-wit:

**RESOLUTION**  
WHEREAS, authority to create and change Precincts is vested in the Board of County Commissioners by the provisions of paragraphs 32-4216 and 33-4221, New Mexico Statutes Annotated 1929 Compilation; and

WHEREAS, Petitions having been presented to the Board which appear to be in proper form and to have a sufficient number of signers as required by law; a motion being made by Melvin Franks, seconded by Hilario Gomez;

It is hereby Resolved by the Board of County Commissioners of Lincoln County that a new precinct be formed out of the East side of Precinct No. 18, from a line running North and South across said Precinct No. 18 on the Township line between

ranges 17 and 18 east, beginning at a point on the north boundary line of Lincoln County where said boundary line is intersected by the line between ranges 17 and 18 East, thence South 11 miles to the northwest corner of section 31, township 1 south, range 15 east, thence East 3 miles to the Northeast corner of Section 33, Township 1 South, Range 15 East N. M. P. M.; thence South 1 mile to the Southeast corner of section 33, thence East 3 miles to the South East corner of Section 35, Township 1 South, range 15 East; thence South 6 miles to the South West corner of Section 31, township 2 South, Range 19 East; thence 6 miles East to the Lincoln County line; thence 18 miles North to the Lincoln County line; thence West 12 miles to the point of beginning, to be known as Precinct No. 20, the boundaries of said new Precinct are described as follows:

Boundaries of Precinct No. 20, Harmon.  
Beginning at a point on the North boundary line of Lincoln County where said boundary line is intersected by the line between ranges 17 and 18 East, thence South 11 miles to the North West corner of Section 31, Township 1 South, Range 15 East, thence East 3 miles to the North East corner of Section 33, Township 1 South, Range 15 East N. M. P. M.; thence South 1 mile to the South East corner of said section 33, thence East 3 miles to the South East corner of Section 35, Township 1 South, Range 15 East; thence South 6 miles to the South West corner of Section 31, Township 2 South, Range 19 East; thence 6 miles East to the Lincoln County line; thence 18 miles North to the Lincoln County line; thence West 12 miles to the point of beginning.

This Precinct embraces all of Township 1 North, Range 15 East, and all of Township 1 North, Range 19 East, New Mexico Principal Meridian, and all of Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 34, 35, and 36, Township 1 South, Range 15 East, and all of Townships 1 and 2 South Range 19 East, N. M. P. M.

Boundaries of Precinct No. 18, Joneta.  
Beginning at a point on the North boundary line of Lincoln County where said boundary line is intersected by the line between ranges 17 and 18 East; thence South 11 miles to the Northwest corner of Section 31,

WHEREAS, it appearing to the Board of County Commissioners of Lincoln County, that it is necessary at this time to designate polling places in the various precincts in Lincoln County, for the General Election to be held on Tuesday, November 6th, 1934, and after proper consideration the following order was promulgated by unanimous vote of the Board:

IT IS HEREBY ORDERED by the Board of County Commissioners of Lincoln County, that the following shall be the polling places in Lincoln County, for the General Election to be held Tuesday, November 6th, 1934:

- Pct. No. 1, Lincoln—School House (not upstairs in old court house.)
- Pct. No. 2, Hondo—School House.
- Pct. No. 3, Arabela—School House.
- Pct. No. 4, Picacho—School House.
- Pct. No. 5, Rabenton—School House.
- Pct. No. 6, Encinosa—School House.
- Pct. No. 7, Jicarilla—Jicarilla School House.
- Pct. No. 8, White Oaks, Hewitt Hall.
- Pct. No. 9, Capitan, School Gymnasium Building.
- Pct. No. 10, Ruidoso—School House.
- Pct. No. 11, Nogal—Nogal Hall.
- Pct. No. 12, Bonito, Angus School House.
- Pct. No. 13, Corona—School Gymnasium Building.
- Pct. No. 14, Carrizozo—(Election District "A" in the Court House—court room.) (Election District "B" in Community Hall)
- Pct. No. 15, Oscura—School House.
- Pct. No. 16, Ancho—School House.
- Pct. No. 17, Spindle—School House.
- Pct. No. 18, Joneta—School House.
- Pct. No. 19, White Mountain—School House.
- Pct. No. 20, Ramon—School House.

Done at Carrizozo, New Mexico, this the 7th day of May, A. D. 1934.  
T. E. KELLEY, Chairman.  
ERNEST KEY, Clerk.

### Kelley's Headquarters for Big Contest

Official local headquarters for big \$2700 fish contest.

Local anglers stand an excellent chance of winning one or more of the 200 prizes offered by National Sportsman and Hunting & Fishing Magazines in their first annual nationwide \$2700 fishing contest.

The sponsors of the contest assert that it is not necessary to wait until you have caught a "record fish." Enter as many fish as you desire, in as many different classes. It costs nothing to enter and the entry blanks, rules and regulations affecting this section may be procured from T. E. Kelley's Mdw. & Sport Shop, official headquarters for the contest.

Along with the entry blanks Kelleys are offering their 1934 Spring and Summer sports equipment catalog, with general fishing laws for 1934 free.

The overpass is going up in a hurry. The concrete piers on the other side of the track have been finished.

Township 1 South Range 15 East, thence East 3 miles to the Northeast corner of Section 33, Township 1 South Range 15 East, N. M. P. M., thence South 1 mile to the Southeast corner of Section 33, thence East 3 miles to the Southeast corner of Section 35, Township 1 South, Range 15 East; thence South 6 miles to the South West corner of Section 31, township 2 South, Range 19 East; thence 6 miles East to the Lincoln County line; thence 18 miles North to the Lincoln County line; thence West 12 miles to the point of beginning, to be known as Precinct No. 20, the boundaries of said new Precinct are described as follows:

Boundaries of Precinct No. 20, Harmon.  
Beginning at a point on the North boundary line of Lincoln County where said boundary line is intersected by the line between ranges 17 and 18 East, thence South 11 miles to the North West corner of Section 31, Township 1 South, Range 15 East, thence East 3 miles to the North East corner of Section 33, Township 1 South, Range 15 East N. M. P. M.; thence South 1 mile to the South East corner of said section 33, thence East 3 miles to the South East corner of Section 35, Township 1 South, Range 15 East; thence South 6 miles to the South West corner of Section 31, Township 2 South, Range 19 East; thence 6 miles East to the Lincoln County line; thence 18 miles North to the Lincoln County line; thence West 12 miles to the point of beginning.

This Precinct embraces all of Township 1 North, Range 15 East, and all of Township 1 North, Range 19 East, New Mexico Principal Meridian, and all of Sections 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 34, 35, and 36, Township 1 South, Range 15 East, and all of Townships 1 and 2 South Range 19 East, N. M. P. M.

WHEREAS, it appearing to the Board of County Commissioners of Lincoln County, that it is necessary at this time to designate polling places in the various precincts in Lincoln County, for the General Election to be held on Tuesday, November 6th, 1934, and after proper consideration the following order was promulgated by unanimous vote of the Board:

### Ancho Notes

Wednesday evening, May 16th, the Ancho School auditorium was filled to capacity by a crowd from Jicarilla, Coyote and Ancho who came to enjoy the graduation exercises of the eight grade. The program rendered by the young people was very interesting and showed that quite a bit of time and effort had been put forth. Due to the illness of Ola C. Jones, County Superintendent who was unable to attend and give her address, Miss Ruth Brickley of Carrizozo gave the address. The address was followed by the presentation of diplomas by Geo. T. McQuillen.

Friday May 18th, wound up a successful year for the Ancho school. A very appropriate program for the "last day of school" was rendered in the morning and brought to a close with a short talk from Prof. Bright after which he presented the following with honor certificates for perfect attendance; Thelma Storey, Evelyn Millson, Corinne McMillan, Ted Hobbs, Angel Torres, Myrtle Hobbs, James Ferguson and Sylvia Gresham. An announcement was then made that the planned school picnic for Ancho and Jicarilla would be held in the Jicarilla hills and for everyone to make ready to go. After a bountiful dinner was spread and consumed the balance of the day was enjoyed with a may-pole drill put on by the Jicarilla boys and girls; various races and a ladies' baseball game.

Bryan Hightower was given a complete surprise, Friday evening, May 18th, when members of the Ancho Bridge Club rushed in and reminded him that he was still having birthdays. In games of bridge Mrs. Belknap was winner of high score. At a late hour ice punch and cake were served. While enjoying the refreshments Mr. Hightower found that the crowd of joy-makers had also remembered him with a number of gifts.

Mrs. Harry Straley was hostess to the Ancho Women's Club at her ranch home, Saturday May 19 for one of the most interesting meetings of the season. As the ladies assembled Mrs. Allen Kile, announced she had quite a surprise in store for all. After the announcement Master Tommy Knight walked in with a gavel in his hand and made the following speech. "It is with much pleasure that I present this gavel to the Ancho Women's Club through the courtesy of Hon. John Garner, Vice-president of the United States." Mrs. Belknap responded with a word of thanks for the club has been in need of a gavel for some time. A rising vote of thanks was extended Mrs. Kile for her efforts and success in securing this gavel from the vice-president. Mrs. Belknap then called the meeting to order and the usual business session followed, at which time defunct plans were made for the memorial program and clean up day at the Cemetery, May 20th. Mrs. Bryan Hightower was in charge of the study hour and it being another home project she gave quite lengthy and thorough demonstration on various methods of canning pickles. A short social hour followed with Mrs. S. J. Pruet winning the prize. A palatable plate consisting of Salad, bread and butter sandwiches, slice peaches, cup cakes and lemonade was served to a large attendance of members and one guest.

### Dance Recital

Miss Helen Frances Hupperts gave a delightful dance recital at the home of Mrs. J. M. Beck last Tuesday evening in which her little pupils showed much talent and excellent training. The program follows:

- Dance.....Betty Beck
- Piano Solo.....Mrs. Ben Burns
- Highland Fling.....Betty Shafer
- Ninnet.....Betty Beck, Jack Waldrop
- Violin Duets.....Louise Sweet, Ardeane McCammon
- Aerobatic Dance.....Totsie Grumbles
- Little Dutch Mill.....Jack Waldrop
- Waltz.....Helen Hupperts
- Piano Solo.....Ruth Brickley
- Milk Maid Dance.....Betty Shafer, Totsie Grumbles
- Accompanist.....Dorothy Dozier

Mrs. J. M. Shelton and daughter, Louise, have gone to Texas to visit Frank, who had been in school there this year. He will return with his mother and sister.

Mrs. Bob Patterson returned Wednesday from El Paso where she had been visiting her husband since last Saturday. She was accompanied to that place by her sister, Mrs. Charles Armstrong who had been visiting her relatives and attended her brother, Bud's, graduation.

Mr. and Mrs. E. L. Fernsten left last Tuesday for Denver where they will spend part of the summer.

### Baseball Results

The Carrizozo baseball club defeated Vaughn by a score of 8 to 10. (Red) Huffmeyer pitched the entire game and proved that he can still hold his own with any of the pitchers belonging to the neighboring teams.

The Eastsiders trimmed the Alamogordo Wild Cats. Ted Bruzuelas opened the game and held the visitors to a few scattered hits, Alfredo Lopez relieved him at the seventh inning and held them scoreless for the remaining innings. The game ended with a score of 15 to 9 in favor of the Eastsiders.

Tularosa defeated White Oaks in an eleven inning game, the score was 14-15.

Graduation exercises will be held at the State University, at Albuquerque Monday, June 4th. Lincoln county graduates are: Jane Spencer, Carrizozo, and Glen O. McGuire, Capitan.

Frank Abel, Jr. has been visiting relatives in El Paso since last Saturday.

A big rain fell at Oscura Tuesday afternoon. Carrizozo enjoyed two light showers Wednesday night.

### Adobe Items

Mr. Bill Thompson, who has been with Mr. Jim Morris as Capitan, sick with pneumonia is able to be up and home again.

Mr. and Mrs. Paul Wilson have moved to Carrizozo.

A large crowd attended the dance Saturday night, given at the community building. The musicians were Lia Cooper, violin; Ernest Gaines, Jess Garrison, and Bob Cotter, guitar; and Pat Withers, harmonica. Everybody had a good time.

Mr. Wayne Withers and Miss Annie Glover surprised the people, by going to Carrizozo Saturday and getting married. Their many friends wish them much success through life.

Mr. Patrick and son of Texas returned to their homestead Saturday.

Mr. C. T. Echols spent the week-end at the J. A. Lairmore home.

Mr. and Mrs. J. W. Withers and little daughter Patsy were Saturday night guests at the Cotter home.

Don't fail to see show at the Big Tent tonight and Sat. matinee, and night. The Missourians will play for dance after show Saturday night.

## • DON'T TAKE TIRE WORRIES ALONG ON YOUR TRIP

Drop them off here before you start out this week-end or next Wednesday

It's a lot safer, more pleasant and cheaper in the end to start out on new tires—particularly since prices are still so low... And because Goodyear makes the most tires—by millions—and so offers the biggest money's worth at every price—it's a lot wiser to choose new Goodyears... Come and see why more people buy Goodyears than any other tire—just name your price and look at the Goodyear it buys!

### Bargain Shop Specials

Complete spring tune-up and valve job thoroughly conditioned for a pleasant summer's driving. Ask us.

\$10.00

### Monthly Payments

Ask us about our monthly payment plan on tires, and Shop Repair.

### NEW "G-3" GOODYEAR ALL-WEATHER

The greatest Goodyear tire of all time—43% more non-skid mileage—tougher rubber and more of it—the tire that outgrips and outlasts them all. See it!

And the best news of all: This marvelous new Goodyear "G-3" with its many advantages over any other tire on the market costs you nothing extra.

Prices subject to change without notice and to any State sales tax

Dependable GOODYEAR SPEEDWAY A good low-priced tire—value only Goodyear can offer.

# A Living Memorial to the Soldier Dead

1. General view of the Indiana World War Memorial Shrine from the northwest.  
 2. The Altar to the Flag in the memorial shrine.  
 3. The statue, "Pro Patria," which stands on the main staircase at the south side of the memorial shrine.  
 4. The Memorial Hall or Shrine Room with the Altar to the Flag in the center.

By ELMO SCOTT WATSON

They tell the story of a philanthropist who, upon being asked to assist in a World War memorial project, replied "Money for cold stones? Never!" Whether or not his attitude is indefensible depends upon what form it was planned to have those "cold stones" take. If they were to be piled together and topped by one of those hideous cast iron statues, which broke out like an ugly rash all over the nation after the Civil war, perhaps he was quite right, both morally and aesthetically, in withholding the support of his money. But if it was proposed to erect a memorial of the kind that several states have built to honor the memory of their World War heroes since 1919, then perhaps his refusal is open to criticism.

A contributor to the columns of the New York Times, commenting on the words of the philanthropist quoted above, pointed out that in memory of the men who "went through the scourge of devastating fire in France, there now exists in one American state a magnificent hospital, in another a school, in another an auditorium, in another a shrine," all of which owe their construction to the spirit of dedication, the desire to perpetuate the memory of the dead, as the dead themselves would have it—not in cold stones but in some vital and inspirational contribution to the living.

The shrine to which he refers is in Indiana where the project for honoring the memory of her dead heroes consists of a series of splendid buildings grouped around a massive temple which stands in the center of a plaza that is spread down like a long strip of carpet, five blocks long and one block wide, through the center of her state capital, Indianapolis.

Nine years ago, in 1925, the first unit of the memorial structure was erected as the home for the national organization of the American Legion. The fact that the nation-wide activities of this organization are centered here is another reason why this memorial is more than just a state project, but instead is one that has a special interest for thousands of Legionnaires in every part of the country.

The American Legion building, situated near the northwest corner of the Plaza, a magnificently plain structure finished in Indiana limestone, is of Greek architecture and of fireproof construction. It contains four floors and a large sub-basement and houses both the national and state organizations of the American Legion and their auxiliaries. Space has been provided near the northeast corner of the Plaza for a companion building to be erected at some future time.

Looking to the south from the Cenotaph, the visitor to the memorial sees the Mall, a large expanse of blue grass with terraces on either side and on both sides of it are walks and grass plots lined with avenue trees and shrubbery. Continuing southward to the next block, the visitor arrives at Obelisk square, an entire block paved with macadam and bordered with grass plots and trees. At the four corners are pairs of large-caliber captured German field guns. In the exact center of this square is the Obelisk rising to the height of 100 feet. Near the base on each side are the bronzes of the sculptor, Henry Hering, representing the four fundamentals on which the hopes of a nation are founded—Law, Science, Religion and Education.

In 1926 the construction of the Indiana World War Memorial Shrine or main building was started. The foundation for this mammoth structure begins about 20 feet below the street level and consists of reinforced concrete and steel girders to carry the enormous load of the walls of the large tower which rises to a height of 210 feet above the street level. The base is approximately 230 feet wide and 400 feet long, consisting of a basement and a ground level floor which are still in the hands of the finishing contractor.

The halls and corridors of the basement and first floor will provide the space for a World War museum. In the center on the first floor will be an auditorium seating about 600 persons. There will be two other rooms on this floor with a capacity of 250 persons each for meetings of patriotic organizations. About 40 feet above the street level is the podium or porch which entirely surrounds the tower of the building. At this level will be found the cornerstones which was laid by Gen. John J. Pershing on July 4, 1927.

Between the five large windows in the tower on each of the four sides are six magnificent stone columns, above which stand the six heroic figures sculptured in stone, representing Courage, Memory, Peace, Victory, Liberty and Patriotism.

On the north facade above the four bronze entrance doors to the ground level floor is the inscription taken from the law creating the Indiana World War Memorial which reads: "Erected to commemorate the valor and sacrifice of members of the land, sea and air forces of the United States and all others who rendered faithful and loyal service at home and overseas in the World War. To inculcate a true understanding and appreciation of the privileges of American citizenship. To inspire Patriotism and respect for the law to the end that Peace and good will may prevail, Justice be administered, Public order maintained and Liberty perpetuated."

On a base of pink granite in the middle of the south hallway to the Memorial Shrine Room stands the largest sculptural bronze casting ever made in America—Henry Hering's "Pro Patria." This statue is 24 feet in height and its weight

is given at approximately seven tons. The purpose of Memorial Hall, or the Shrine Room, is to inspire good citizenship in all those who visit it. This inspiration will come from the room itself, its architectural treatment, its shape and lighting, which all form a magnificent setting for the American flag, hanging in the center of the room, above which shines the crystal Star of Destiny. Beneath the flag is placed the Altar of Consecration. It is also presumed that the room will extend a hand of fellowship and welcome to all nations of the world as typified in the inscriptions on the four sides of the Altar.

Around the inside perimeter of the room is a marble wainscot about 17 feet high. In this marble wainscot on the east and west sides are six niches, three on each side, which frame the portraits of the leading soldiers of America, France, England, Belgium, Italy and Serbia, painted by Walter Drough. Above the marble wainscot around the entire perimeter of the room is an allegorical sculptured frieze; the subject on the north wall represents America joining the Allies, under the conditions of war prevailing, the head of war appearing over the world of turmoil. The east and west sides are devoted to the portrayal of the great struggle. The south side indicates the contrasting conditions realized by ultimate peace and the activities of mankind under these conditions. The sculptor for this work was Frank Jirouch.

The main architectural features of the room are the 16 dark red columns of American marble surrounding the room, the shafts of which are approximately 40 feet high; the color of the marble itself being a symbol. The columns stand unusually close together, symbolizing the defense of the nation in their sturdy quality, and the aspiration of the nation in their verticality. The columns stand on dark green American marble. The capitals are richly decorated in gold and form a noble termination to the shafts.

Between the corner pilasters and columns adjacent to them are groups of flags of all the Allied nations, again echoing the international spirit of the room. In the four corners of the room are four silk banners of royal blue upon which are embroidered the American eagle from the official seal of the United States. The banners are placed between the flags of the Allies symbolically linking them together.

The Altar to the Flag is in no way a religious altar in any part of its design but rather an altar where homage can be paid to the flag, and where people can consecrate themselves to good citizenship and patriotism. This is intended to be world wide in scope, the four sides of the altar facing north, south, east and west. The four marble eagles at the corner of the altar are the guardians of the shrine and the gold stars in the blue marble field above the eagles represent a united band of states. The top of the shrine is executed in brilliantly colored enamels, embracing the American golden eagle, the shield of the United States, the wreath of memory, the palms of victory and a broad gold ribbon upon which is inscribed in blood red letters the pledge of allegiance to the flag. On the four sides of the altar are appropriate inscriptions.

At each corner of the altar and situated on the raised plinth are four marble and gold tripods representing sentinels of light throwing their luster on the apotheosis of the whole design, the American flag, whose dimension is about 17 by 30 feet. Above the flag is the Star of Destiny, a large crystal star symbolizing the guidance of the future welfare of the nation.

Looking down from the north end of the Plaza is the James Whitcomb Riley library, considered one of the finest examples of Greek architecture in this country. The south end of the Plaza is a beautiful square of old trees, shrubbery, flower beds and grass. Its central figure is the graceful De Few memorial water fountain. At the south side of this square stands the Benjamin Harrison statue. In the southeast corner is being erected a statue of Abraham Lincoln, the gift of Henry Clay Long, a veteran of the Civil war. At his death in 1901, Mr. Long left a fund to provide this statue, with the provision that it be erected in this location. In the near future, a statue of Woodrow Wilson, the World War President, will be erected in the southwest corner of this square. At the south end stands the large federal building which is to have extensive additions in the near future. It is hoped that before many years have elapsed, the Plaza will be surrounded by handsome structures such as the Scottish Rite cathedral situated on the west side.

## Southwestern Briefs

Over half of the students enrolled in the University of Arizona are either partly or wholly self-supporting, according to statistics compiled by C. Zaner Leshar, registrar of the university.

Prominent educators and citizens of Arizona, interested in education, assembled recently in Tucson for a special meeting of the state board of education to discuss a five-year plan for financing education in the next half decade.

An explosion which rocked buildings in Silver City recently, was believed to have been caused by a subterranean blast of some sort after a close check of all the large mines in Grant county revealed that all powder dumps and magazines were intact.

Liquor dealers must pay both a liquor stamp tax and sales tax, Attorney General E. K. Neuman of Santa Fe ruled in an opinion to Byron O. Beall, chief state tax commissioner. The former is an excise and the latter a privilege tax, Neumann said.

When the new FERA set-up in Arizona gets into full swing it is expected approximately 2,200 unemployed persons in Yavapai county will be given employment, it was said by Miss Grace M. Sparkes, member of the county and state welfare boards.

Gasoline tax collections in New Mexico continue to show an increase over collections for corresponding periods last year, Mrs. Adolph P. Hill, collector, said recently, in announcing that April collections totaled \$189,998 compared with \$176,530 for April last year. The federal relief administration recently made the following relief grants: Arizona, \$768,883 for May, including \$500,000 for general relief and work program; \$260,000 for transient services; \$4,023 for expenses of the national re-employment service and \$4,880 for the student aid program.

The State Tax Commission announced that revenue produced by Arizona's various excise and liquor license taxes, exclusive of the motor vehicle fuel tax, totaled \$187,310 during April. Receipts from the luxury tax were greater than at any time since the law became operative last July.

Governor Hockenbush fared well at the hands of the legislators of New Mexico, a comparison of his call with legislation passed, shows. The governor included thirty-eight items in his call, several of them making more than one request. The Legislature passed forty bills, of which thirty-five have become law.

Farmers of the Las Vegas vicinity who wish to raise peas and ship them on a cash basis to eastern markets, according to a proposition explained at a meeting held at the Storrie project school house some time ago, are asked to secure contracts and sign as soon as possible in order that the required 450 acres may be assured the contractor.

The following announcement has been made by Colonel Charles H. Rutherford, civilian aide to the secretary of war, in charge of C. M. T. C. procurement. The camp will be held at Fort Huachuca, Ariz., from July 20th to August 18th. Owing to limited appropriations there will be but fifty students accepted, one-half of which will be first year or basic.

Two boys, who have spent the last four years in the Albuquerque orphan asylum, soon will have a fortune in their own names. Julian Sanchez, 13, and his brother, Alejandro, 10, were not excited when they received the news that the long litigation had ended and that they were entitled to the estate which was at one time between \$75,000 and \$100,000.

A total of 531 transients were registered at the federal-state transient service station in Gallup during the month of March, according to figures released by Riley E. Mapes, director of the transient service. Of this number, 100 remained in the center at the close of the period. Turnover in the Gallup center was not as great as it was in Lordsburg and Tucuman, nor for the state as a whole, Mr. Mapes said.

Applications for loans at 5 1/2 per cent interest are now being approved by the Albuquerque Production Credit Association's loan committee, according to J. L. York, secretary-treasurer. The Albuquerque Production Credit Association has been organized to make short-term loans to farmers in McKinley, Bernalillo, Torrance, Valencia, Santa Fe, Sandoval, San Juan, Rio Arriba, Taos, Catron and Socorro counties.

Year awards for honor groups and individual honors have been announced at the University of Arizona by Col. A. W. Holderness, director of the department of military science and tactics. The award of honor squadron went to the second squadron, Cadet Maj. William A. Watson commanding. Watson is from Long Beach, Calif. Troop "C" ranked as honor troop, and is under the command of Cadet Capt. Bruce Layton of Safford.

The Yavapai county, New Mexico, quota of \$1,000 to go toward financing an Arizona exhibit at the Century of Progress in Chicago has been over-contributed in the amount of \$708, it was announced by Alfred B. Carr, member of the state commission. Approval was given to send as one feature of the district exhibit the likeness of an Indian woman's head that was carved out of solid granite several years ago by Howard Dunoon McAllister. The work is now in possession of Howard L. Dickman at the Shadow Craft tourist court.

## Takes Much Water to Quench Engine's Thirst

Long-distance nonstop runs and high speeds on our railways demand enormous quantities of first-class water, much of which is purified by being passed through water-softening plants before it is supplied to the troughs placed between the running lines at convenient points.

Between 3,000 and 5,000 gallons of water are carried in a locomotive tender, and into a series of troughs varying in length between 600 and 700 yards hinged scoops are lowered by the fireman of an engine running over the troughs, the speed of the train forcing the water through internal vertical pipes leading from the scoop to the tanks of the engine tenders. By this means, between 2,000 and 3,000 gallons of water can be picked up in 15 to 20 seconds, and on the assumption that a passing train picking up water draws 2,000 gallons from the troughs, it is calculated that the normal water level is regained in less than five minutes.

The water troughs are filled from storage tanks with a capacity of anything up to 30,000 gallons. Each trough has its own valve and auxiliary tank apparatus preventing the passage of a train on an "up" line reducing the level of a trough on a "down" line. The Flying Scotman on its 302 1/2 miles journey from King's Cross to Edinburgh "drinks" on six occasions, picking up some 11,000 gallons of water.—London Answers.

## Insull, Brought Back for Trial, Defends Himself—Taken Payments on War Debts Are Barred—Compromise Silver Bill Being Formulated.

By EDWARD W. PICKARD

**SAMUEL INSULL**, once the grand old man of public utilities, has been brought home to be tried for his alleged sins after his long period of refuge in foreign lands. His "prison ship," the *Exilona*, arrived at Fort Hancock, N. J., and Insull was taken off at open sea by the United States coast guard cutter *Hudson*, which landed him quickly. After an automobile ride to Princeton Junction, he was put aboard a train and transported to Chicago. His son, Samuel Insull, Jr., had been permitted to join him on the *Exilona* and accompanied him on the trip west.

Landings on American soil, Insull appeared to recover his old time confidence. To reporters he said: "I am in America to make the most important fight of my life. I am fighting not only for freedom but for complete vindication. I have erred, but my greatest error was in underestimating the effects of the financial panic on American securities, and particularly on the companies I was trying to build."

"I worked with all my energy to save those companies. I made mistakes—but they were honest mistakes. They were errors in judgment, but not dishonest manipulations. Arbitrarily, I had been instructed to resign as head of those companies which I had built and which I had tried to protect."

"I was told that I was no longer needed. Tired from the fruitless struggles to save the investments of thousands of men and women, discouraged in my attempts to save the investments of my friends and associates as well as everything I had, I got out."

"No charges were brought against me until I had been away for three months. My return at that time would have further complicated the problems of the reorganization of the companies."

"The whole story has not yet been told. You only know the charges of the prosecution. Not one word has been uttered in even feeble defense of me. And it must be obvious that there also is my side of the story."

"What it is in court, my judgment may be discredited, but certainly my honesty will be vindicated."

**RUSSIA** has been angered by a ruling of Attorney General Cummings and there is danger that all the plans for re-establishing trade with that country will go awry. Mr. Cummings was called on to determine what nations would be barred by the Johnson act from marketing their securities in this country or in any way receiving financial assistance. This he did by announcing the six foreign nations that are not in default to the United States government on their obligations. These are Finland, Great Britain, Czechoslovakia, Italy, Latvia and Lithuania. Finland has met in full all its obligations on its war debt. The others have made token payments on recent installments.

Immediately after the attorney general's ruling was made public it was authoritatively stated in Washington that President Roosevelt had decided to accept no more token payments; therefore England and the others that have made such payments will fall into the default class on June 15, when the next payments are due. Even Finland may now default, if the nations proffer token payments they may be accepted by the treasury as "on account," but the nations will still be held in default and thus will be shut out under the new Johnson act from obtaining any government loans in the United States.

The President will inform congress, it is reported, that he desires no legislation at this time with respect to the debt question.

Soviet Russia fell in the default class because it ignored obligations of the preceding czarist and Kerensky governments.

**AIMING** directly at the American Telephone and Telegraph company and the Western Union company, both of which are said to have defied him, Recovery Administrator Johnson made public a drastic code for the wire communications industry prepared by his own staff. Imposition of a code is regarded to all intents the same as writing law for the industry affected, equal in scope to the authorization for licensing industry. Nothing like it has been resorted to heretofore.

In the telegraph case, with all but one minority group flatly opposed to any code, the NRA is proposing to change long-standing conditions and alter the internal economy of the industry on the ground that existing conditions burden commerce and reduce employment. A date for hearings was set, after which the President was to be asked to take action.

The code, if adopted, would deprive extensive interests of financial ad-

vantages amounting to many millions of dollars, the NRA authorities declaring these are not fairly held. Among the things it would abolish are: Exclusive rights of the Western Union Telegraph company to something like \$25,000,000 worth of business annually; use by many corporations of private wire circuits leased at figures alleged to be out-of-line with regular charges for the same volume of business, and free use of these circuits by clients of the lessees to the tune of millions of dollars worth of words each year.

**D**RASTIC reorganization of the NRA to give the federal government a permanent balance of power between large and small industries was recommended in the majority report by the Darrow board, which President Roosevelt decided not to make public in its original form but referred to three government agencies for preliminary digesting.

On the theory that the NRA has shown business incapability of self-regulation, the 5-to-1 majority report proposes to scrap all the present code authorities in favor of an entirely new set-up in which the federal government, big business and little business have equal voting representation.

**S**OME sort of a compromise on silver legislation that will be acceptable to both the White House and the silver bloc in congress is likely to be worked out, though Senator Borah, who wants outright remonetization of the white metal, thought the plan being prepared would not serve. Secretary of the Treasury Morgenthau and eight other senators held prolonged conferences, and all but the gentleman from Idaho were fairly well satisfied. Senator King of Utah said he hoped for a bill which would nationalize silver bullion and provide for the establishment of a 25 per cent silver reserve for currency. Probably the measure will be mandatory as to policies and permissive in leaving to the discretion of the President the means of carrying out the policies.

**T**O AVOID impending defeat by the senate, the President withdrew from his consideration the names of two men he had appointed to office. One was Willard L. Thorp who had been made head of the Commerce department's bureau of foreign and domestic commerce. The senate's objection to Mr. Thorp, who has been serving as head of the commerce bureau pending action on his nomination, was based on the fact that he once registered as a Republican in a Massachusetts primary.

The other withdrawal was of Rene A. Viosca an United States attorney for the Eastern District of Louisiana. He was opposed by Senator Huey P. Long.

**A**NDREW W. MELLON, the venerable and wealthy ex-secretary of the treasury and former ambassador to England, came out on top in his latest contest with the Department of Justice. The government had accused him of evading his income taxes and sought his indictment by a federal grand jury in Pittsburgh. However, the grand jury refused to return a true bill, declaring the charges were without basis.

The foreman of the jury was William Beeson, a bank clerk. Among others on the jury were five laborers, two farmers, two engineers, two mechanics, two clerks, one plumber, one carpenter, a lumber dealer, and a writer.

Mr. Mellon said: "I am of course gratified that I have been exonerated by a jury of my fellow citizens. The fact that the grand jury reached a sound conclusion, notwithstanding the unusual methods pursued in my case, is proof of the good sense and fairness of the American people."

The finding of the jury probably ended finally the affair, Mr. Cummings saying the government would not challenge the decision. It may also put an end to the not infrequent attacks on Mr. Mellon in congress.

**P**RESIDENT ROOSEVELT is again a grandfather, for down in Fort Worth, Texas, a daughter has been born to Mr. and Mrs. Elliott Roosevelt. The baby, who weighed six pounds six ounces, has been named Ruth Chandler Roosevelt.

**A**R mail flying by the army has come to an end, and the routes are being taken over by commercial aviation as fast as the short term contracts are let.

**H**OW the League of Nations proposes to aid China was told in a long report, made public by the Nanking government, covering the arrangement made by Dr. Ludwig Rajchman, representative in China of the league. This plan, it is supposed, led to Japan's recent statement of a policy demanding that other nations keep their hands off China. The document was politically innocuous, being chiefly the recommendations of technical advisers for projects designed to attract foreign capital to China and consolidate it as an independent nation. The list of advisers did not include any Japanese.

The chief interest in the report, from the standpoint of the United States, concerned the section devoted to cotton. It shows that China must purchase about \$80,000,000 worth of raw cotton annually, most of which comes from the United States.

The report also proposes an extensive road building program which is likely to improve the market for American cars as well as gasoline.

A Chinese national military and communications commission has just left Shanghai for the United States by way of Europe. Its twenty-two members are instructed to learn how China can acquire a modern war machine and methods of communication that are up to western standards.

**R**EPORTS from Cairo, Egypt, told somewhat hazily about fierce fighting that was going on in the Arabian peninsula where Ibn Saud, the fanatical king of Saudi Arabia, was making war on the ancient kingdom of Yemen, determined to conquer it. Already the Saudian army, which is powerful and equipped with all modern arms, had captured the Yemen seaport Hadeldia, and it was advancing to attack Sana, the capital. The war started with a border dispute.

According to the conflicting stories reaching Cairo, both sides claimed victory. One report was that the Emir Feisal, heir of Ibn Saud, had overtaken and defeated the rear guard of the retreating Yemeni army.

From Yemeni officials, however, came telegrams stating that their retreat had been halted and that the Saudian army suffered a severe defeat in a 23-hour battle. Capture of 26 armored cars, nine of them undamaged; 26 guns, and 400 prisoners was claimed by the premier of Yemen, who wired that the Saudian casualties exceeded 2,000.

Because of their nearby territories in Asia and Africa, Great Britain, Italy, and France were watching the conflict with deep concern and all had warships at hand to protect their interests.

**H**USBANDS and wives who want to be divorced—and lots of them do—may now accomplish their purpose in conjunction with a pleasant visit to Cuba, which is bidding for the American divorce business. President Mendetta signed a decree that shortens the time required to get mutual consent divorces from three years to six months. It also provides that, instead of three appearances before the court at intervals of six months, the parties may make three appearances 30 days apart.

Four new causes are added to the 15 recognized as grounds for divorce. They are bigamy, vice or immorality, use of any drug, and disparity of character.

**G**REAT BRITAIN and Japan are on the verge of a big trade war. The British have threatened to take strong action to protect their textile export interests against increasing Japanese competition, although the British government officially declares it will do everything to maintain amicable relations with Japan. The official position in Tokyo is that Japan can take care of herself, and there was every indication that it would not yield to the British ultimatum that it must modify its trade program and tactics. The British already have begun to impose quotas on Japanese goods, but trade leaders in Tokyo said this would not hurt their country seriously, especially since Japan's imports from the British Isles in 1933 totaled \$3,000,000 yen or almost as much as was exported there, \$0,000,000 yen. Hence, they said, the Tokyo government would be able to make reprisals.

Trade with the British dominions is considered far more important and the Japanese are confident the dominions will not follow the mother country's lead—especially Australia, which sold to Japan in 1933 four times its purchases, and Canada, which sold seven times as much as it bought.

**A**CCORDING to the unanimous report of a house committee of investigation, Maj. Gen. Benjamin D. Foulois, chief of the army air corps, acted "in clear violation of existing law" in the proposed purchase of airplanes costing \$7,500,000.

Coupled with the criticism of Foulois was a commendation of Harry H. Woodring, assistant secretary of war. The report stated that late in 1933 the Public Works administration set aside \$7,500,000 for the purchase of army airplanes. It asserted that Foulois had decided to buy the planes, without competition, from the Northrup corporation, the Boeing Airplane company and the Glenn L. Martin company. On Woodring's insistence, the plan for direct purchases was dropped and specifications drawn on which competitive bids were asked.

# That Body of Yours

By JAMES W. BARTON, M. D.

## Hernia Is Very Common

THE fact that more men than women are afflicted with hernia, or rupture as it is commonly called, is sometimes blamed on sport or the more active life of men.

However, reliable figures show that while about four times as many men as women undergo operation for hernia, nevertheless hernia is found about six times as often in infant boys as in infant girls.

This then proves that while the condition may be brought about by sport or heavy lifting, in a great majority of cases it is a weakness in the abdominal wall itself that predisposes or gives the tendency to hernia.

And it is at this point that should be remembered when operation is being considered. There is no question but that operation is the ideal method of correcting the condition; that is the radical operation which is now often done under a local anesthetic.

Another operation coming into some favor now is what is called the injection method whereby scar tissue is formed which seems sufficient in some cases to strengthen the abdominal wall enough to prevent the hernia. However, this method has not yet met the general approval of surgeons.

If the operation is performed does this guarantee that the hernia will not occur again?

Unfortunately the hernia does occur after operation, not because the operation was not done properly, but because of the natural weakness or tendency of the abdominal wall to sag or rupture.

There is no question but that a properly fitted truss is a great boon to the wearer and affords a good measure of safety, but in those cases where an operation has a reasonable chance of success (and most cases have a reasonable chance) it would seem only like good sense to be free of the truss and be able to do the things other individuals can do.

Even in those cases born with weak abdominal walls, about 50 per cent of the cases who undergo operation have no return of the hernia.

Your best plan if you have a hernia is to undergo an examination by your family doctor and a surgeon, as your age, your occupation, the condition of your abdominal walls must all be taken into consideration.

If operation is not considered advisable a well fitted truss and the avoidance of heavy work should prevent further trouble.

## Curing Cases of Mental Conflict

**W**HEN statistics show that at the present rate of increase in mental ailments 50 years from now half the civilized world will be confined to mental institutions with the other half taking care of them, we must all give this some thought.

The world has gone through a lot of trouble in the past 20 years and mental illness must be expected, but the very large number afflicted has brought so much attention to the matter that new methods of treatment are being tried, and will continue to have, a most helpful influence in curing many cases.

In the first place children that are a little "different" are being treated and will become men and women able and willing to take their normal or natural place in the world. This means prevention of mental ailments.

And even in adults many cases now confined to mental institutions are being cured by painstaking treatment. After all physical defects—teeth, tonsils, eyes, ears and other parts—are corrected, careful questioning of the patient is undertaken.

Dr. W. H. Cassels, of Provincial Mental hospital, Ponoka, Alberta, states that many cases are due to some "conflict" in the patient's mind. He puts these conflicts into three classes: (1) the actual condition existing when the patient has done something wrong, or which conflicts with what he thinks is right; (2) where the patient desires something different from his present condition although the condition might seem normal or satisfactory to most people; (3) where the patient's standards of living are so strict that he is in conflict with them because it is almost impossible to live up to them. This is called the "rigid" type of personality.

What are the methods by which many of these cases are cured? In the first case the patient is shown that he is only human, and that to err is human; that mistakes are forgivable.

In the second case where desire for a different condition exists his unsatisfied desire is directed into other channels. For instance a bereaved mother may give vent to her feelings by charitable work.

In the third case the patient is shown that his standards are too strict for the world in general and that he'll have to give and take to a greater extent in order to get along with his fellow men.

**Cellulose in Cotton Stalks**  
Cellulose in cotton stalks and chaff (the husk of the bolls containing the lint) is identical in unit cell structure with that of the fiber, chemists report to the American Chemical Society.

# Control Cutworms With Poison Bait

Bran Mixture Is Suggested for Use on the Early Spring Crops.

By C. H. Brannen, Extension Entomologist, North Carolina State College, WNU Service.

The use of a poisoned bran mixture to kill cutworms and prevent their damaging early vegetable crops is especially recommended.

Early in the spring, when the worms first get busy, the young plants are particularly susceptible to damage. Growers should watch their plants closely and apply the poisonous bait at the first sign of cutworms.

In experiments, best results have been obtained from a mixture of one pound of paris green to 50 pounds of bran. Sodium fluoride will also give good results, but lead arsenate and calcium arsenate should be avoided.

The poisoned bait should never be left where children or live stock can get at it.

About four pounds of bran-paris green bait should be applied to each 100 square yards of tobacco plant bed to control cutworms. No lumps will come in direct contact with the tender young plants.

For most other crops, the bait should be broadcast at the rate of 15 to 20 pounds to the acre. The bait should be applied a few days before the plants come up, or on the day they come up, at the latest. Applications are most effective in the evening so that the bait will be fresh when the worms go to work. New applications should be made after heavy rains.

The bran and poison should be well mixed while dry, then moistened with just enough water to dampen but not wet it. The mixed bait should not form large lumps or be sticky and mushy.

## Test Proves Old Style Corn Ears Out of Date

The model ear of corn of a few years ago is as much out of date as the motor car of the same period, and production methods are undergoing changes which increase the efficiency of the corn farmer as much as improved methods have benefited mechanical industries.

These facts are disclosed in a survey of the records of the ten-acre corn yield tests conducted in Nebraska during the past ten years. What is true of corn production is equally true of other branches of agriculture, P. H. Stewart, extension agronomist at the University of Nebraska, says.

The corn ear now most in demand for seed, Stewart points out, is no longer the longest ear. The emphasis is placed on smooth, hard starch, medium size ears. Ten years of experimentation in ten-acre tests have proved that corn from seed of this type shows in the best production records.

The result of the experimentation has been an increase in production and a decrease in the cost per bushel. Farmers have been able to reduce greatly the number of hours per acre of labor required to grow corn.

## Buds on Tree Differ

Botany teaches us that buds and fruits are but the extensions of the twig growth, just as our hair and finger nails are outgrowths of the skin. The old-fashioned theory that all the buds from a tree of certain variety are identical is disproved by literally thousands of instances. Buds partake of the same cell characteristics as the branch on which they grow. A branch whose genetic factor produces solid red apples consistently, while a branch whose cell factors are mixed will produce mixed colored apples consistently.—Greening Nursery.

## Land Checked New Way

Methods for estimating the area in fields of various shapes are explained in a new circular on "How to Calculate Field Areas," which has been issued by the University of Maryland extension service. It deals with triangular, rectangular and irregularly shaped fields and explains how to make the necessary corrections for fields that are sloping. The plan is helpful to farmers who have signed contracts to reduce their wheat production by aiding them in checking their acreage.

## Preserving Beef on Farm

Any part of a beef carcass may be preserved by corning. Cut the beef into five or six-pound pieces and rub with salt. Pack these chunks in a clean vessel of stoneware or hardwood and cover with a pickle made of one and a half pounds of salt, one ounce of salt peter, one-quarter pound of sugar or strup and one gallon of pure water. Allow the meat to stand in this pickle for about two weeks. It may then be smoked lightly to improve the flavor or it may be allowed to hang some time.

## Habits of Goat Grass

Goat grass is a wild relative of cultivated wheat, a winter annual. The seedlings emerge in the fall, and the plants mature the following spring about the time wheat is ready to harvest. Seedlings and young plants are difficult to distinguish from wheat plants. The leaves are narrower than those of wheat plants, and have hairs along the edges near the base, a character lacking in wheat. The grass tillers profusely, and when abundant it often crowds out the wheat.

# DRESSY DESIGN IN FROCK FOR HOUSE OR STREET WEAR

PATTERN 9337

Looking lovely around the house is an art worth cultivating. It isn't a luxury to have good-looking morning frocks. It's just a matter of choosing the right design. The frock in the illustration is so comfortably trim that it is nice to do your housework in, and yet, it has so many delightful fashion details that you can actually use the same pattern to make an afternoon or street dress. For mornings make it of one of the checked, striped or figured new cottons. For afternoons, use sheer cotton or silk.

Pattern 9337 may be ordered only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40, 42 and 44. Size 16 requires 3 3/4 yards 36-inch fabric.

Complete, diagrammed sew chart included.

Send FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, the STYLE NUMBER and SIZE.

Send your order to The Sewing Circle Pattern Department, 232 West Eighteenth St., New York.

# Smiles

**WHERE?**

"Dad," said the small boy, looking up from his book, "where is Atoms?"

"You mean, 'What are atoms?'" said his father. "There is no place called Atoms."

"No, I mean a place."

"You must be thinking of Athens," "No," the small boy insisted, "I mean Atoms—the place where the things get blown to."—Vancouver Province.

**Correlativity**

"Are you a politician or a statesman?"

"Both," answered Senator Borghum.

"A man may be a fine statesman and be of no service unless he's enough of a politician to keep before the public and prove it."—Washington Star.

**Prepared**

"Please, teacher, what have I learned today?"

"What do you mean, Fritz?"

"I don't know, but they always ask me at home."—Frankfurter Illustrierte (Frankfurt).

**About the Business Tax**

Santa Fe, May 18th.—Questions on how much the business tax will yield have arisen after statements appeared in the press to the effect the tax in Arizona returns only \$120,000 monthly.

Proponents of the New Mexico business tax believe it will return \$3,000,000, which is the amount they claim is needed to keep the schools open.

It is almost certain that the law in New Mexico will produce considerably more than the Arizona sales tax. The latter law applies only to retail sales, chiefly, and to extractive industries, according to information received here.

In New Mexico the law is on a much wider base. All forms of business, of whatever character or kind, are included.

Just how much the return will be from doctors, lawyers, barbers, abstractors, insurance agencies, real estate concerns, newspapers, hotels, amusement houses, construction concerns, common carriers, and a score of other businesses cannot be accurately estimated, but school authorities feel confident it will be sufficient to meet their needs, when returns from the liquor and chain store taxes have been considered.

Otto Prehm, Notary Public, Prehm's Bargain House

**NOTICE OF HEARING OF FINAL REPORT AND ACCOUNT**

IN THE PROBATE COURT OF LINCOLN COUNTY, STATE OF NEW MEXICO

In the Matter of the Last Will and Testament of John Y. Hewitt, Deceased. No. 824

To Paul Mayer, Executor, Carrizozo, N. M., Stella Thompson, Penn., Mich., Lorena Sager, Carrizozo, N. M., Arthur J. Bond, 564-25th St., Oakland, Calif., Harry W. O. Smith, Tampa, Fla., Raymond A. Bond, 564-25th St., Oakland, Calif., Stewart Bond, 564-25th St., Oakland, Calif., Hewitt Bond, 564-25th St., Oakland, Calif., Millie (Thompkins) Wright, Penn., Mich., and to all unknown heirs of the said decedent, and all unknown persons claiming any lien upon, or right, title, or interest, in or to, the estate of the said decedent, and to whom it may concern:

You, and each of you are hereby notified, and notice is hereby given, that Paul Mayer, Executor of the Last Will and Testament of John Y. Hewitt, deceased, has filed in the above entitled Court his final report and account as such Executor, and the Court has appointed Thursday, the 5th day of July, 1934, at the hour of 10 o'clock a. m., as the hour and day for hearing of objections, if any there be, to the approval and settlement of said final report and account, and the discharge of the said Paul Mayer as such Executor, and at the hour on the day named, the Probate Court will proceed to determine the heirship of said decedent, the ownership of his said estate and the interest of each respective claimant thereto and therein and the persons entitled to the distribution thereof.

The name and post office address of the attorney for the Executor is John E. Hall, Carrizozo, New Mexico.

Witness the honorable Manuel Corons, Judge of the said Court, and the seal thereof, this 11th day of May, 1934.

(Seal) Ernest Key, Clerk.

By: Frances R. Aguayo, Deputy.

**LOCAL AND PERSONAL**

Mr. Fred Neighbauer was in town on business Wednesday.

Mr. Phil Bright of Anso visited Carrizozo on business last Tuesday.

Mrs. W. O. Garrison reporter for the Woman's Club, has gone to Dallas to spend two months visiting her son and daughter.

Mr. L. T. Bacot has been in Tucumcari for some time relieving Mr. J. F. Kimbell who has been in S. P. hospital at Sag Francisco. Mr. Kimbell improved sufficiently to return home, and passed through here last Tuesday.

Mr. L. T. Bacot went last Tuesday, from Tucumcari, to Silver City to witness the graduation of his daughter, after which he will return here.

Quite a few people from White Oaks, Corona, Capitan, and nearby towns have been attending the Gray's Tent Show here this week.

**MARRIED**—Miss Nettie Brown of Oscura and Mr. John LaMay of Nogal were united in marriage at the home of the bride's parents on Friday May 18th at 6:00 p. m. Rev. L. D. Jordan performed the ceremony in the presence of many friends of the contracting parties who are both popular and have the good wishes of everyone.

Mr. Sears of Capitan was here on business last Monday.

Mrs. G. L. Straub, has been quite ill for the past ten days.

Mrs. J. E. Farley of Almogordo passed through here last week enroute to visit her mother in Denver. She remained here, Thursday night to witness the graduation of her granddaughter, Frances Charles.

The baseball club gave a for dance at Community hall last Saturday night. The Rancheros furnished excellent music.

**Don't Sleep on Left Side—Affects Heart**

If stomach GAS prevents sleeping on right side try Adlerika. One dose brings out poisons and relieves gas pressing on heart so you sleep soundly all night.

**In Service Again**

During the last few months thousands of former subscribers throughout the country have had their telephones reconnected.

They are no longer dependent on neighbors' telephones.

For a few cents a day you can have a telephone in your own home, to use often as you like.

Why not order one today? It will be connected promptly.

*Any employee will take your order.*

The Mountain States Telephone & Telegraph Co.

**Native Lumber**

I have my saw mill running. Can cut anything in the way of native lumber. Phone or write me your wants. Delivered anywhere.

E. L. Luck, Azro, N. Mex.

**Carrizozo Woman's Club**

The last meeting of the Woman's Club of Carrizozo, for the year, was held Friday afternoon, May 18, at the home of Mrs. Nellie Branum.

Miss Ella Brickley, the president, presided, with Thelma White, Sec., also present.

The meeting was opened with songs, Mrs. Kelley at the piano and Mrs. Lemon leading the singing, followed by the flag salute.

Roll call was well responded to, with Mothers Day quotations, after which Mrs. Petty sang "That Wonderful Mother of Mine," accompanied by her daughter at the piano.

Mrs. Blaney was made club historian, and a committee was appointed to assist her in figuring out a financial report of the club's money.

With Mrs. Branum as chairman, the club voted to outfit and furnish 10 kits, during the summer, in answer to a request from the County Health Board. The usual \$10.00 donation to Harriet Donahue scholarship loan fund was given, also a \$5.00 contribution to the sanitary movement, across the track.

Mrs. LaValle and Mrs. Lemon gave very interesting reports on the District Convention, held at Ruidoso two weeks ago. The standing committees and officers gave their final reports. An auditing committee consisting of Miss Hazel Melas, Zoe Glassmire and Mrs. Peck was appointed to audit books of secretary and treasurer. \$75.00 was voted upon, to be transferred from the checking account to the savings account, which meant to every loyal member, another bit toward our "dreams" Club House, which some day we hope to have.

The installation of the new officers, was the last thing on the program, which was conducted by Miss Brickley, the retiring president.

She asked each of the old officers to come forward and receive a rose, in appreciation of their loyal support to her during her year. Then the new officers: Mrs. C. W. Young, Pres.; Mrs. J. M. Snyder, 1st vice-pres.; Miss Thelma White, 2nd vice-president; Mrs. R. E. Lemon, Sec.; Miss Nellie Shaver, Treas.; Miss Ella Brickley, Parliamentarian, came to the front for their installation and were also given a beautiful rose, and responded with many well chosen words. Mrs. Glassmire installed Miss Brickley. To close the installation service, Mrs. J. M. Beck very appropriately sang "I Love You Truly," accompanied by Mrs. Kelley.

The club then gave a rising vote of appreciation to Miss Brickley for guiding the club thru its 13th year and the year of depression, so successfully.

Lovely refreshments were then served by the co-hostesses: Mrs. J. V. Taylor, Mrs. Oscar Clouse, Mrs. Clint Branum, Mrs. C. A. Branum, Mrs. A. J. Rolland, Mrs. F. L. Boughner.

Department of the Interior Santa Fe, N. M., May 12, 1934.

NOTICE is hereby given—that the State of New Mexico has filed in this office Indemnity School Land Selection, List No. 9780, Serial No. 000067 for 3 1/4 SW 1/4 Sec. 29, T. 5 S., R. 16 E., N. M. P. M.

The purpose of this notice is to allow all persons claiming the land adversely or desiring to show it to be mineral in character an opportunity to file their protests against the approval of the selection.

(Sealed) M. F. Miers, Register, M 18—June 15

Mr. and Mrs. Riley McPherson and children visited friends in Nogal last Sunday.

Mr. David Velasco of El Paso went through here last Saturday enroute to Corona and returned Sunday taking his brother-in-law, Willie Stewart to an El Paso hospital for some special treatment

**Westinghouse Increased Sales**

Signs of better times are reflected in an announcement of the Refrigeration Department of the Westinghouse Electric and Manufacturing Company," says Mr. Kelley local dealer "R. C. Cosgrove, Manager of Household Refrigeration Sales, in addressing members of our field organization says:

"I certainly have to congratulate our field organization for the increased sales Westinghouse is now enjoying in its refrigeration department. I am glad to report that sales are mounting higher every day, and it looks as if we would easily surmount the high peak sales we had during the corresponding season last year."

"Cosgrove went on to report that Westinghouse refrigeration sales are breaking all previous records. For instance, he points out that while last March, 1933, records were 53 percent over the previous March, 1932, this March; or 1934, record has proved to be 97 percent over the corresponding month of 1932", the local Westinghouse representa-

tive continued. He went on to say that refrigeration sales for the first quarter of 1934 had gone over 30 percent higher than for the first quarter of 1933, the year which broke all previous sales records for the refrigeration industry. Continuing his optimistic report, Mr. Kelley added that during the first seven days of April, 1934, more orders were received than the entire month of the corresponding period last year, and that if the balance of the month holds up that Westinghouse will receive orders for approximately 40,000 refrigerators, an all-time record.

Reasons for the tremendous refrigeration sales records are being given by the local dealer are better general business conditions, an increasing public acceptance for refrigeration in general, and in quality units specifically a larger and better dealer organization obtained through an intensive national campaign for outlets, and intensified sales promotion efforts.

A Miss down in Iowa is advertising for a missing dachshund. The ad reads: "He is two dogs long and half a dog high and a bit underslung."

**The Country Club**

The Carrizozo Country Club golf course is in A-1 shape. The greens, teeing grounds and fairways are all in trim for the Southern New Mexico Golf Association which meets here June 2, 3 and 4. The new building is being completed. It can't be quite finished before the tournament because the time is too short, but it will be in the very near future and then the club plans to give some brilliant entertainments. On both Sunday and Monday chuck wagon dinners are to be served. The public is invited to both. Special emphasis is to be given to the dinner for Monday. It has been suggested that all business houses close that day (Monday) to witness the Southern New Mexico finals. Business houses in other towns have closed to view the finals, and Carrizozo doesn't want to be an exception.

Mrs. Ola Jones is still too ill to take up her duties at her office. Miss Ruth Brickley, her popular and efficient assistant has things in charge.

**Miss Melas Entertains**

Miss Hazel Melas entertained the Bon Soir bridge club at the home of Mrs. Young last Monday evening. Three tables played. Miss Thelma Shaver won the guest's prize. Mrs. Snyder won the club prize for high score. Refreshments were delicious cake and ice tea.

Hon. Charles Gilbert of Roswell, was in town last Saturday attending to some business affairs.

Mr. G. Miller was in from the Coyote pumping station Wednesday.

Mrs. F. J. Sager sprained her right hand painfully last Saturday.

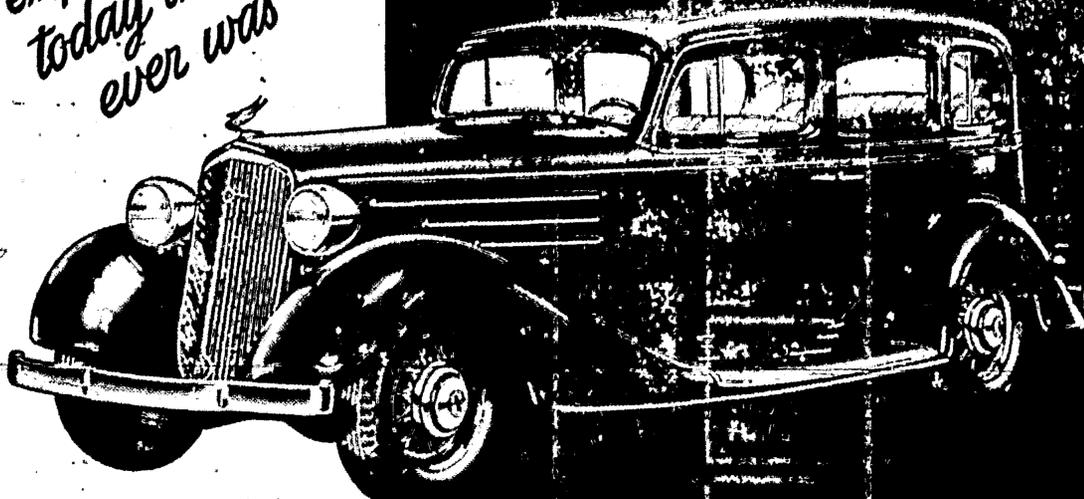

Mr. Ben Gerson of Capitan was in town on business Tuesday.

The Lincoln County Board of Education met Monday of this week.

Monday was a big day for Carrizozo. People were here from Hondo, Corona, San Patriello, and in fact almost every place in the county.

*more emphatically true today than it ever was*

**A SIX COSTS LESS TO RUN**

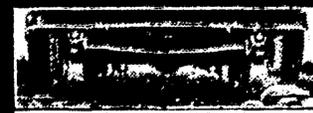

**CHEVROLET** Engineering facts prove it. Experience in building nearly ten million cars confirms it. And the record of over 3,000,000 Chevrolet Six owners removes any shadow of doubt about it: *The only way to get real economy in a low-priced car is to insist on SIX cylinders and OVERHEAD valves.*

**SIX cylinders—no more!**—because extra cylinders mean extra cost for gas, oil, upkeep and parts. **OVERHEAD valves—nothing else!**—for the same good reason that airplanes use them. And speedboats. And racing cars. They get the **MOST** power out of the **LEAST** gas. That's why overhead valves are the choice of leaders—and champions.

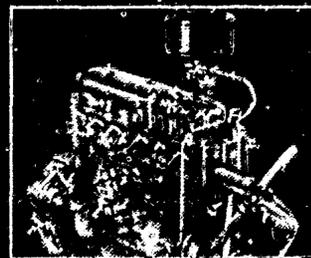

**CHEVROLET MOTOR CO., DETROIT, MICH.** Compare Chevrolet's low delivered prices and easy G.M.A.C. terms. A General Motors Value.

Rome as It Was in the Days of the Caesars

PAUL BIGOT, member of the Institute of France, constructed this beautiful model of the city of Rome in the time of the Caesars, on a scale 400 times smaller than the actual dimensions of the buildings. At the left is the Circus Maximus, with the Colosseum at the right, above which is the Imperial Forum with the temples of Constantine and Venus. The Tiber follows the edge of the model at the top of the picture, past the Palatine and the Capitol.

BEDTIME STORY FOR CHILDREN

By THORNTON W. BURGESS

PETER FINDS A FRIEND IN TROUBLE

SEEMING Farmer Brown's boy coming through the Old Orchard, Peter Rabbit decided that that was no place for him, so he scampered for the Green Forest, lipperty-lipperty-lip. Just within the edge of the Green Forest he caught sight of something which for the time being put all thought of Farmer Brown's boy out of his head. Fluttering on the ground was a bird that was not even Glory the Cardinal was more beautiful. It was about the size of Hedwig the Black-bird. Wings and tail were pure black, and all the rest was a beautiful scarlet. It was Hedcoast the Tanager. At first Peter had eyes only for the wonderful beauty of Hedcoast. Never before had he seen Hedcoast so close at hand. Then quite suddenly it came over Peter that something was wrong, and he hurried forward to see what the trouble might be.

"What is it, Hedcoast? Has something happened to you?"

began to flap and flutter in an effort to fly away, but he could not get off the ground. "What is it, Hedcoast? Has something happened to you? It is just Peter Rabbit. You know you don't have anything to fear from me," cried Peter. The look of terror which had been in the eyes of Hedcoast died out. He stopped fluttering and simply lay panting. "Oh, Peter," he gasped, "you don't know how glad I am that it is only you. I've had a terrible accident, and I don't know what I am to do. I can't fly, and if I have to stay on the ground some enemy will be sure to get me. What shall I do, Peter? What shall I do?"

Right away Peter was full of sympathy. "What kind of an accident was it, Hedcoast, and how did it happen?" he asked. "Broadwing the Hawk tried to catch me," sobbed Hedcoast. "In dodging him among the trees I was heedless for a moment and did not see just where I was going. I struck a sharp-

pointed dead twig and drove it right through my right wing." Hedcoast held up his right wing and, sure enough, there was a little twig sticking out from both sides close up to the shoulder. The wing was bleeding a little. "Oh, dear, what ever shall I do, Peter Rabbit? What ever shall I do?" sobbed Hedcoast. "Does it pain you dreadfully?" asked Peter. Hedcoast nodded. "But I don't mind the pain," he hastened to say. "It is the thought of what may happen to me."

Mother's Cook Book

SEVERAL GOOD THINGS

FOR a warm day try the following cooling and delightful dish:

**Jellied Consomme.**  
Dissolve two tablespoonfuls of gelatin in one-fourth of a cupful of cold water. Dissolve in one quart of hot consomme. Pour into bouillon cups and chill, or pour into a shallow pan and when chilled cut into cubes or heat with a fork, before serving in the cups.

**Cucumber Jelly.**  
Grate enough peeled cucumbers to make a pint, season with salt, pepper, paprika, olive oil and vinegar—two of oil and one of vinegar. Add one teaspoonful of gelatin softened in two teaspoonfuls of cold water, dissolve over hot water until soft, then add to the cucumber and mix well. In the bottom of each individual mold, place a half walnut meat, then pour in the cucumber mixture. Serve turned out.

BONERS

The Magna Charta is an oak tree near Hartford, Conn., containing the hidden charter of the state of Connecticut.

**BONERS** are actual humorous tid-bits found in examination papers, essays, etc., by teachers.

The British compelled the Americans to place tax stamps on all legal documents.

Beethoven remained deaf ever since a conductor boxed his ears and it has shone upon his work.

A moratorium is a place where dead bones and other relics are kept.

Oral Question—Tell what you can of Bonar Law.  
Answer—The prohibition law is known in England as the boier law.

How are sardines caught?  
By throwing tin cans overboard.

Food passes from the mouth through the esophagus to the stomach.

GIRLIGAGS

"After all a vegetarian diet reads to a meat eater," says Ullian Tillie, "like a bunch of balony."

MY CABIN

By ANNE CAMPBELL

I SHALL have a cabin with no pictures in it. There will be wide windows gleaming in the sun. Every oaken frame will hold a landscape in it. Changing in the morning and the setting sun.

Nothing ever painted will excel the splendor Of the lovely scenes that bless my weary gaze. Dawn will come with fingers silver-tipped and slender, And the midnight moon will leave her misty ways.

Paintings cannot tempt me when the hills and valleys March outside my window in eternal pride. From my hilltop cabin where the east wind dallies, I shall see the treasures Time has defied.

Do YOU Know—

That in its beginning the American newspaper was a very small affair. The Boston News-Letter, one of the first newspapers published in America, April 24, 1704, was printed on half a sheet of paper 7 1/2 x 12 1/2 inches. It contained one advertisement—that of the proprietor.

WNU Service.

"British Isles"

Seen at the fashion promenade of the Dress Operators' League of America in New York was this symphony in brown and white called "British Isles." It is a summer costume consisting of a white linen crash three-quarter-length coat, brown linen shirt, linen tie and brown felt hat.

**"Napoleon of the Stump"**  
The title "Napoleon of the stump" was frequently applied to William McKinley, who had a supposed resemblance to the Emperor Napoleon, and who, during the Harrison campaign, traveled more than 16,000 miles and in his own first campaign made over 300 speeches.

Cleveland Girls Learn Men's Work

Girls wearing overalls and boys bustling around in kitchen aprons is the contradictory situation that greets visitors to morning classes of the Emerson junior high school in Cleveland, Ohio. While the boys are fixing salads and beating cake batter, the girls take possession of the work benches where they are just as proud of their accomplishments as the boys are of their domestic science.

Queen Anne's Lace

CHAPTER XII—Continued

"Oh, no, thank you." This time Neal was standing above her, his weight heavy against her weary shoulder. "Bad news again? I knew it!" "You're holding your own." "Holding my own! Good G—d, I've got to do more than that!" "You will, darling, you will. Would you not like a cup of cocoa or something?"

"No—No—don't leave that telephone. It may ring again at any moment."

But it didn't. The silence, like the darkness, grew oppressively heavy. Dora came in and suggested that it was past dinner time. Anne shook her head and Dora went out again. Roy Griffin, who knew so many lawyers; George Hildreth, who was state master of the Grange; Mr. Goldenburg, whose one small shop had grown into a great chain with links all over the state; Low, who had appointed Neal to the senate, and who had political wires running in every direction from his gubernatorial seat; would they all do their share? And, if they did, would it counterbalance Stetson's strength with the labor vote, where Neal had no strength? The Wallace town Bugle and the other weeklies—a great many of them—if they were all friendly to Neal, would that make up for those two big papers of Fletcher's, which were hurling denunciatory editorials at Neal's head?

Spring came, glad and golden, magnolia-scented, to Washington, and Anne, asking herself these troubled questions, shook the beauty that was all about her impatiently from her consciousness, and strained with eagerness to reach Hinsboro, raw and windswept, and bleak as it was. But this was the year of the "Long Season," and Neal would not be at liberty to go home early in March. It was actually mid-July before adjournment came, at two o'clock one torrid morning when ugly feelings had been unleashed by fatigue and ugly words spoken by lips which were merely the mouthpieces for overwrought nerves. Neal, who had been steering a filibuster, lost his temper that night and said unforgivable things to men who had been his friends for years. These unforgivable things were printed in the Record, and circulated through the country. Were they unforgettable, too?

Junior wanted to go to a camp in the Yellowstones. Mme. Estavi was taking her little family to Europe for the summer and had invited Nancy to accompany them. But both children were kept at home. They added immeasurably to the picture—Junior's more and more famous smile; Nancy's sweeter and sweeter manner, made an indelibly favorable impression on wavering constituents who came to the house and so much had to be jammed into such a short time that not a single consideration could be overlooked. Neal's enemies had been at work all the time he was chained to his chair in the senate. And now only August, September and October were left in which to tear down what they had built. Of course the children must do their share, even though it was a tiny one. Anne must make them see that share might mean to their father. And she must do her share, too. Must shield Neal, spare him, save him. But HOW?

She went everywhere that she was asked, even when she was faint with fatigue. She picked up the threads of her old association, with her church, her historical societies, her pupils; she wore clothes that were spotlessly fresh, delusively simple. She was gracious, cordial, democratic, dignified, tireless, decorative. What did it all amount to? How much "influence," after all, did a wide have in this frantic, powerful, hideous struggle of politics? Probably very little. Perhaps none at all. Still, she had done her best, and if only Neal did not feel she had failed him, it would not matter what anyone else thought. But how would he feel toward her if he were not elected? She remembered the hard months after his campaign for the lieutenant governorship, when he had been defeated. Was it going to be like that again?

"Hello—Hello—Senator Conrad's house? The polls have just closed here in Weatherby. Allen, first selectman, speaking—yes—two to one for Neal. We are banking on him, Mrs. Conrad, to come through in Belford yet."

Would defeat in the long run be such a calamity? She saw herself living in Hinsboro again, in the house she loved so much and into the building of which her very soul had gone—comfortable, happy, unworried—no more calls to make; no more "appearances" to keep up; no more "admirers" to contend with; time for her children, her music, her real friends. How much simple satisfaction—how much real joy—she was denied because she could never "find time" for these things. Would she not be happier, no longer deprived of these homely pleasures?

And yet, even as she asked herself the question, she knew that she would miss the insidious charm, the fascinating excitement of political life as much as Neal. She could bear that philosophically, but because of her own

feeling, she could gauge his. He must, he must go on. She slipped to her knees. With the same simplicity, with the same ardor, that she had prayed on her wedding night, she prayed again now. For Neal—for Neal—for Neal.

Still on her knees she reached for the telephone. "Headquarters calling again. Mrs. Conrad. We've heard from the last five wards in Belford—('Oh, God—let him win—let him win!')—you must get your husband to the telephone."

She spoke to him. Her voice sounded strange and distant, like that of a foreign woman calling from some far shore. "You will have to answer, Neal, this time." ("Oh, God—let him win—let him win—let him win!")

She pressed the receiver into Neal's hand, threw her arm around him. From the wire she could hear the crackle of laughter—the tumult of triumph; and staccato sharp the words that were being spoken:

"You old crape hanger you! What in h—l's the matter with you? You have the handsomest margin—"

"What do you call a 'handsome margin'?" Neal shouted through the receiver, clutching at Anne's shoulder.

"Well, if fifty thousand doesn't look handsome to you—Come on down here, you old son of a gun, and celebrate . . . ! ! !"

CHAPTER XIII

With Neal Conrad's senatorial career every reader of any daily paper is familiar. There is the tariff, which bears his name; there is his speech on the British debt funding plan, which is used as a model in "elocution" for every schoolboy; there is his unshakable stand on the League of Nations which sent him, at the head of a special senatorial committee, to Geneva. All this, and much more, is so well known that it needs no further comment. Besides, this is not the story of Neal Conrad to which numerous famous biographers have already failed to do justice. It is the story of his wife.

And of his wife as the only hostess to achieve a real "salon" in Washington; as the only American woman whose dress drew forth royal commendation at Buckingham palace; as the only this and that in various conspicuous capacities, enough has also been said. Her dresses and her dinners have been described a thousand times. Why, therefore, attempt to describe them again? It is neither the Beauty nor the Belle with whom we are primarily concerned—it is the woman . . . The woman who, on a certain hot afternoon in mid-June, boarded the congressional express with her husband, bound for the great national convention in New York.

The lobby of the Waldorf Astoria, as they entered it, weary after their warm and dusty journey, was so jammed that they could hardly wedge their way through it to register. With every step that they advanced, some acquaintance stopped and seized them, shouting at them excitedly. With every turn they took, placards and posters of rival candidates—most of whom had their headquarters in the hotel—cracked above their heads. Scurrying bellboys, distracted room clerks, helpless assistant managers, strove in vain to perform their normal functions. Laden elevators sank and rose in the hopeless, endless endeavor to convey the mass of humanity which bounded into them like a phalanx from one door to another. It was nearly an hour before they reached their suite; and Neal, mopping his brow and snatching up a glass of ice water, muttered as he drank, that he was "infernally late for the cursed committee meeting" and that he must be off at once.

"Committee meeting? Tonight?" Anne asked in astonishment. "Why, it's after ten now."

"Probably shan't get in before three, he informed her hastily. 'Well, goo-by. Better order yourself an orangeade and a chicken sandwich and have Dora see you unpacked and settled before she goes to bed. Try to get some sleep. You'll have a hard day tomorrow.' Refreshed by a bath and a cooling drink, Anne slipped into the lacy nightgown which Dora had spread out for her, and settled herself for slumber. Her hopes for repose were, however, entirely unfounded; a party of men who were occupying the next room, and who had apparently met in secret conclave, were either unaware or unconcerned of the fact that they could be overheard, and that they were disturbing the public peace. Their voices reverberated through the thin wall. Their lack of harmony rent the air. They were—it appeared—delegates from Chicago, in revolt against their "boss" and violently distrustful of each other. When Neal returned, haggard and hollow eyed, about five, he found Anne sitting up in bed, taut with nervousness.

"Neal, dear, just listen to that racket! It hasn't stopped for a single instant. I can't stand it! We'll have to go to some hotel where it's more quiet."

"Quiet! At a national convention! Good G—d, Anne, you don't know what you're talking about. There isn't any quiet. Those fellows aren't really objectionable. They're just having a little friendly argument. You should have heard our committee. Turn over, old lady, and go to sleep."

Modern Transportation on Roanoke Island.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

**M**ODERN engineers have thrust Virginia Dare trail down the islands of the North Carolina coast and built the Wright Memorial bridge across Currituck sound, bringing the islands into touch with the modern world, yet the visitor still finds in Roanoke Island the speech and customs common in the days of Sir Walter Raleigh whose followers established there the first English settlement in America.

From the skipper of the small mail boat that plies between the islands one may supplement his limited knowledge of this region supplied by obsolete descriptions and by copies of the original letters and maps left by Sir Walter Raleigh's adventurers. He learns that Roanoke Island perfectly exemplifies the adage that byways of isolation pocket the choicest realities of life. Here is a genuine, inbred dignity, expressive of a mild-mannered, hospitable folk. The islanders are proud of their physique, speech, manners, and customs—historic survivals of old English Devon.

The ubiquitous automobile did not reach Roanoke Island until less than a decade ago. For land transportation there were up to that time only two-wheeled carts and sand ponies and occasional oxcarts. Even the little sand-ponies' tradition went back to castaway vessels, to the Portuguese and to Sir Walter Raleigh's voyagers.

On Raleigh's attempts at colonization hinged momentous results in the New World. The "Lost Colonies," though they began and ended Sir Walter's ventures upon the North Carolina Sea Islands, were the first English-speaking settlements in America.

Discovered in 1584.

In 1584 the adventurer obtained a patent from Queen Elizabeth, whose favors his genius readily commanded, and dispatched to the New World the first of his expeditions. The little band, under Amadas and Barlowe, sailed through an inlet on July 4, 1584, to discover Roanoke Island—a spot so favored in climate and setting and so rich in fruits, game, and bird life that it seemed to them a veritable paradise.

Back to England they sailed to describe it, taking with them two friendly Indian chiefs; and also tobacco, sasaparilla, maize, pumpkins, squash, grapes, and other fruits. Their story created excitement, and in the following year Raleigh sent out Sir Richard Grenville with a second colony, numbering 108 souls, determined to make a permanent home on Roanoke Island and establish plantations.

They landed on August 17, 1585, and built a log fortification, to which they gave the name "The New Fort in Virginia," also spoken of as "Fort Raleigh." However, they could not live at peace with the Indians, and the entire colony sailed back with Sir Francis Drake in 1586, just two weeks before the arrival of reinforcements. Finding the fort deserted, the new group also returned to England, but left 15 men on the island.

A third expedition, sent out by Raleigh in 1587, found the fort demolished and no trace of the 15 men except the bones of one slain by the savages. The gruesome discovery was a shock to the homeseekers, and they willingly followed the advice of their leader, John White, to forestall future hostility by making friends of the Indians. The plan succeeded admirably. Manteo, one of the friendly chiefs, was even baptized and given a title of nobility as Lord of Roanoke—the first English peerage in America.

Virginia Dare's Birth.

On August 18, 1687, five days after the baptism of the Indian, was born John White's granddaughter, Virginia Dare, the first English native of America. She was baptized on the following Sunday. Thus was Elizabethan civilization anchored here by a baby, a mother, and the American family.

Around little Virginia Dare remained more than a hundred men, women and children. They were left alone for three years. Then John White, who had gone back to England after establishing the colony, returned to find that they had disappeared.

The only promising clue White found was the sign "CRO" blazed on a tree. Since these letters were part of a code agreed upon by the colonists three years before, the rescue party hoped that their friends had gone to Croatan, home of the friendly Manteo, who had promised sanctuary in emergency; but the captain, pleading bad

weather and lack of supplies, forced the party to sail away before the clue could be investigated.

What had been the colonists' fate? The blazed sign was all that was ever found of the Lost Colonies except hasty marks of departure, burned chests, rusty iron implements, household effects, and books. Even in that wilderness colonists of Shakespeare's day could not exist without books.

Whatever the fate of the colonists, either they or their early successors left their Elizabethan English dialect, manners, customs, and features in this American byway.

As the little mail boat bobs along toward Roanoke Island, the traveler's thoughts turn from the story of Virginia Dare and the first colonists to another historic drama of the Banks. In 1812, just across the channel from Roanoke Island, on the ocean sand spits of Nags Head, the pilot boat Patriot, carrying Theodosia Burr Alston, daughter of Aaron Burr and wife of Governor Alston of South Carolina, ended its last voyage. After the tragic collapse of her father's career and the loss of her little son, the only hope of the Burr family, Mrs. Alston was in the depths of despair. She set sail from Georgetown, S. C., to join her lonely father, and disappeared forever!

Life on the Island.

A bit of life on Roanoke is revealed by a recent visitor, a woman doctor.

An old midwife and nurse, the widow of a life service man, was to care for her temporarily in her ancient cottage by the sound, where she lived alone. Her name was "Mia" Bashl—the "Mia" an island designation for mistress, and "Bashl," she said, "a Bible name after Bathsheba, the wife of Uriah; but they call me Bashl."

Surnames on the island do not denote the individual, for the families in a hamlet are usually all members of one or two clans.

"I'll wipe the dusties off you, your cornbread is waitin', and your cake all dressed up in coconut."

Mia Bashl stirred about the spacious old brick fireplace, with its crane and firelogs, and brought from the coals an old four-legged skillet in which she had baked a delicious cornbread. Lying on the hearth was a mammoth bushy-tailed, long-haired cat, one of the numerous beautiful descendants of an island Maltese and a brown, bushy-tailed Norwegian cat that had been the sole survivor of a wreck.

In a worn slab-wood rocker in which the old woman had rocked her six children the doctor rested after dinner and listened to her tale of a remarkable life history.

What she learned entitles Mia Bashl to a place in the annals of medical history. The old nurse belonged to the island's remnant. Her blood, her sterling character, and her beautiful, broad dialect were heritages of the old Devonshire castaway. She was comely and agile, her visage one of strength and thought.

Of only five weeks "schoolin'," she had never learned to read, but had been taught to work indoors and out and to spin. At sixteen "out" (old) she married and at twenty-one "out," in a far life service station hamlet, she undertook her first obstetrical case.

"Doctor, I knew nothin' of it; but Mehaley read me a doctor book, and the moon was comin' to full, so the baby would be thrifty. One born in the dark of the moon is not."

Mia Bashl's Nursing.

On her little plantation, in pine woods by the sound, though widowed later, she cared for a psychiatric mother, raised her own brood and her mother's and her brother's children, cared for cows, pigs, and gardens. Then for 45 years she ministered to all the sick of the region, a local doctor coming only at rare intervals.

Her sand pony Napoleon carried her in a two-wheeled cart through woods and sand and water, in gale or sunshine, to her patients. Often afoot she swung with her Viking stride down beaches or through the woods. She was smart, exact, and knowing, though she signed by mark, and she was known as a "couthy" (capable) woman. Her dignity of bearing and courtesy were exquisite. Thus she fell into the role that nature cast for her.

Months later the doctor realized how the personality of this island woman, linked with a touch of science, prevented morbid results from household conditions. She established her own art of medicine and it worked.

# Visioning Auto of Future

Full Streamlining, With Considerably More Efficiency in Engines, Is the Forecast; Scientist Doubts Planes Will Take Place of Motors.

Every year the automobile shows turn our thoughts to next year's cars. But motor manufacturers, unless I am much mistaken, are at heart more concerned with the cars of two, three or even four years hence. If makers did not habitually look far ahead, the time would come when "next year's models" showed no changes at all except in body work.

Builders are experimenting with single-pedal control, with small engines producing even greater horsepower, and similar developments of the near future. Let us look at the car of ten, twenty and even fifty years hence.

The first objection that will be raised is: "Cars will not be used in 1934; every one will travel by airplane." I do not anticipate that flying will make such strides, Prof. A. M. Low, British scientist and author, writes in the Philadelphia Public Ledger, "We have first to establish the plane which can descend and ascend vertically, to overcome entirely certain weather conditions such as fog, and to find a way of getting more power from our fuel. For many years flying will call for lengthy training, and I put the time when the ordinary man will know how to land his plane on his own hoof or in a gale at more than fifty years ahead."

Until this time motor cars will be necessary. In my opinion they will remain universally popular for journeys of less than 100 miles, especially at the average speed rates. But their character will change completely.

The first thing we shall notice about this car of the future is its shape. It will be as carefully stream-

lined as an ocean liner. There is no great inducement to streamline cars at the moment, for air resistance does not begin to count appreciably at low speeds, and the number of persons who wish to travel 90 miles per hour on our roads is small compared with those who drive comfortably at 23 miles per hour.

In the future higher speeds will be possible because of improved traffic conditions. Safe roads of reasonable width will be available. Slow-moving vehicles will be barred from motor roads, and pedestrians will either be railed off or carried on overhead footways. Sixty miles an hour will be a safe average speed, while the absence of unbanked corners on these speed roads will make much higher speed possible. Cars may even be signaled automatically like trains, so that no two cars are ever within 200 yards of each other.

Air resistance increases as the square of the speed, and after 60 miles per hour much of the energy is devoted to overcoming air pressure. Streamlining will, therefore, be of tremendous importance and the car of the future will have smooth lines from end to end. No spare wheel, headlight, windshield or mascot will jut out. The result will be that, with engines developing lower horsepower, higher speeds will be accomplished.

Manufacturers will aim at getting more out of their fuel. At present about 60 per cent of the potential energy in fuel is wasted. Experiments are now being made which may teach us more about combustion.

This year many cars are having radio sets installed. The cars of

the future might have not only a radio receiver but also a cocktail bar, wash basin and many similar luxuries.

I expect the long-distance touring car of the future, as distant from the rumpabout to have a bed, a bath and similar fittings, so that the busy man can actually "get up" while being driven to work.

One of the most striking changes will be the elimination of noise. The car of the future will be acoustically designed and cleverly sprung so that the passenger in the back cabin will not know that he is moving until he looks out the window.

Let Posterity Tell

Don't waste so much time trying to convince people as to what your ancestors did; get busy yourself and leave that to your descendants.—Florida Times-Union.

Must Be in Ourselves

When we cannot find contentment in ourselves, it is useless to seek it elsewhere.

# Cattle Feed of Wood

Is Laboratory Product

The farmer who fed his horse on sawdust may not have been such a fool as the joke would have him. Among scores of other wood products which have come out of the Department of Agriculture's forest products laboratory at the University of Wisconsin, is a cattle food made of wood. Sawdust is cooked under pressure with diluted sulphuric acid. This action converts a portion of the cellulose and allied substances into sugar—and the cows like it.

A list of what can be done with wood sounds like a fairy tale. Here are a few of its odd by-products: Sugar, perfume, incense in the form of candles, parts of shoes, rayon, linoleum, an inhalant for asthma and catarrh, alcohol, casein, balsam, dyes, rubber, turpentine, lime and phonograph records.

Wood flour is used to make filler for linoleum. Mixed with nitroglycerin and other elements it becomes dynamite. With phenol resins, it may be molded into radio dials, handles of all kinds, telephone parts, automobile radiator caps and ignition blocks.—Washington Star.

# "Spring fever"

time is here

... and what does it mean to you?

**JUST THIS**—if you feel listless, run-down, appetite dull, with a weak, let-down feeling... perhaps nervous and worn out... why not make an effort to "snap out" of this condition?

Try toning up your appetite... increasing your red-blood-cells... the best way to be happy.

You need a tonic—not just a so-called tonic... but a tonic that will tone up your blood. S.S.S. is specially designed to do this for you. Unless your case is exceptional you should improve as your oxygen-carrying hemoglobin increases.

# MORE THAN 50% LONGER NON-SKID MILEAGE

# IN THE NEW Firestone

# HIGH SPEED TIRE FOR 1934

**T**HE new Firestone High Speed Tire for 1934 is the greatest tire Firestone has ever built. With its wider, flatter tread, greater thickness, deeper non-skid, more and tougher rubber, and greater non-skid contact with the road, you get more than 50% longer non-skid mileage.

This new development is made possible by the Firestone patented process of Gum-Dipping, whereby the cotton fibers inside the high stretch cords are soaked and coated with pure liquid rubber. This provides greater strength, safety and blowout protection.

Firestone engineers pioneered and developed the first successful balloon tire in 1923, and it is only natural that Firestone would lead in the further development of tire construction to meet the demands of the high-powered high-speed cars of today.

The new Firestone High Speed tires for 1934, have already proved their worth by constant testing on the Firestone fleet of test cars over all kinds of roads and highways throughout the United States.

Firestone High Speed tires are further subjected to the most severe tests known on the greatest proving ground in the world—the Indianapolis Speedway. In fact, Firestone Tires have been on the winning cars in the annual 500-Mile Indianapolis Race for fourteen consecutive years—conclusive evidence of Firestone's outstanding leadership in tire development and construction.

## Performance RECORDS FIRESTONE HIGH SPEED TIRES

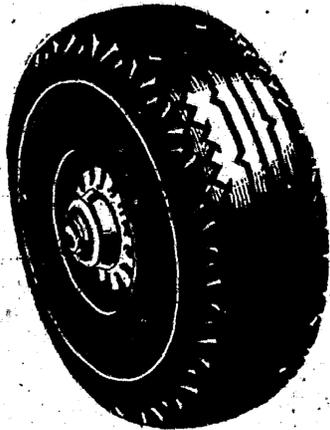

—for fourteen consecutive years have been on the winning cars in the 500-mile Indianapolis Race.

—for seven consecutive years have been on the winning cars in the 100-mile Indianapolis Race.

—for three consecutive years have been on the 151 buses of the Washington, (D. C.) Railway and Electric Company, covering 11,271,116 bus miles without one minute's delay due to tire trouble.

—were on the Nelson Motors Ford V-8 Truck that made a new coast-to-coast record of 67 hours, 45 minutes, 30 seconds actual running time.

See Your Firestone Dealer or Service Store today and replace your thin, smooth, worn tires with a new set of the Safest—Largest Wearing—and Most Dependable Tires Firestone has ever made

# THE NEW Firestone AIR BALLOON FOR 1934

FREE TRIAL ON YOUR CAR

The new Firestone Air Balloon for 1934 embodies all the improvements in the new Firestone High Speed Tire. The lower air pressure provides maximum traction and riding comfort. Gum-Dipping Safe-T-Locks the cords, provides 30 to 40% greater deflection and blowout protection.

Get 1935 low swung style by equipping your car today with these new tires and wheels in colors to match your car. Your Firestone Dealer or Service Store will give you a free demonstration.

Mr. and Mrs. Wilson of Hansonburg have moved to town and are living in one of the Reil cottages. Mr. Wilson is employed by Harkey & Co.

The Mill at the South Home stake Mine in White Oaks burned down Tuesday afternoon. The fire was discovered about 2:30 and Mr. Wright was notified by telephone. He and Messrs. Snow, Beck, and others hurried to White Oaks, but were too late to do anything because so much headway had been gained by the flames. Some belts and small motors were all that could be saved. We have been informed that the owners are Mr. and Mrs. Paul Mayer of this place and Judge A. H. Rudolph of Santa Fe.

Mrs. Eula Foster of Hansonburg was in town shopping Wednesday.

The Epworth League gave an interesting program last Sunday evening honoring mothers.

Several of the friends of Miss Refugia Garcia gave her a surprise party at the home of her parents last Thursday evening after the graduation exercises were over. It being her graduation night, every one took gifts and tokens of remembrance. Twenty-five were present.

Mrs. Ernest Key and infant son returned from a visit to Mrs. Key's parents, in Oklahoma Wednesday of last week.

Mrs. Varne W. Dalton and son, Jackie, who have been in Las Cruces for two weeks, returned to Tucumcari yesterday afternoon to spend several days visiting her parents, Mr. and Mrs. J. F. Kimbell, who returned last evening from California, where they have been for four months, the last two months they spent in Angwin—Tucumcari News.

Mrs. Oia Jones is still seriously ill. She went to an Albuquerque hospital Sunday.

**"Sharp Stomach Pains Upset My Whole System"**

Says E. Hentges: "I tried a \$1 bottle (3-weeks treatment) of Dr. Emil's Adia Tablets under your guarantee. Now the pains are gone and I eat anything." Roland's Drug Store

The truck in which Mark Sloan was riding late Tuesday afternoon swerved and threw him out breaking his left arm above the elbow. He is at the Johnson hospital and is doing nicely.

Mrs. Wayne Zumwalt is quite ill. She has been at the Johnson hospital since Monday night.

Mr. Jim Dinwiddie and Mr. and Mrs. Calvin Carl went to El Paso to attend the big meeting of the White Mountain association for Odd Fellows and Rebekahs last Saturday and Sunday.

The Gray Stock Company has played to fair sized crowds every night this week. Music by the Misourians and the Louisiana Ramblers is especially good. All members of the company are good actors and actresses. They have an excellent repertory. "Little Orphan Annie" drew a big crowd last night. Tonight the play to be given is Sainly Hypocrites and Honest Sinners. A big free matinee, sponsored by the Carrizozo business firms will be given tomorrow afternoon.

**NOTICE**

Children and others are warned to discontinue entering upon private property and taking fruit and flowers. The Town Marshal has been instructed to arrest any offenders caught, or against whom complaint is made.

F. H. Johnson, Mayor.  
Morgan Lovelace, Clerk.  
M 25-J 1.
