

# LINCOLN COUNTY NEWS

Official U. S. Land District Paper

VOLUME X—(Continued News, Vol 25)

GARRIZO, NEW MEXICO, FRIDAY, SEPT. 21, 1934

NUMBER 17

### County Generous to Salvation Army

According to Baron Auricemma's statement, Carrizozo's response to the Salvation Army's appeal was even greater than last year, in spite of the fact that she was hard hit; and at other points in the county he has found it the same way. The entire report for Lincoln County is the second largest since 1927. The work of the Army and the devotion Baron Auricemma has given to the cause make the public realize that there is something to the Army's mission, and the response has been most liberal and cordial; for which he extends his most sincere thanks to each and every individual in the county, including the school children. He realized about \$500, which is \$150 more than last year.

The money raised is approximately as follows: Carrizozo, \$351; Corona, \$62; Capitan, \$42; Lincoln, \$17; Fort Stanton, \$43.

The Advisory Board and Baron Auricemma take this opportunity to thank the Board of County Commissioners, the Village of Carrizozo, and everybody individually and collectively for their generous financial and moral support.

Baron Auricemma will go to Vaughn from here.

### Hansenburg Items

School started last Monday and we have a large crowd of pupils. The buses started Monday.

Mr. Garrison and family returned from Texas last Tuesday.

Mrs. Alice Wilson and daughter, Velma spent Thursday night with Mrs. Louie Moon.

There was a Democratic meeting at Hansenburg last Tuesday night and we had some good speaking and a large crowd.

Mrs. Frank Hefner spent Friday with Mrs. Louie Moon.

Miss Velma Wilson has been on the sick list the past week but is better.

Mr. and Mrs. Jess Garrison called at the Wilson home Sunday.

Mrs. T. K. Martin drove the school bus the past week.

### Lyric Theater

Thursday, Friday and Saturday "Sisters Under the Skin"

With Ellena Lund, Joseph Scheldkraut and Frank Morgan. You have heard about the Colonel's lady, and Judy O'Grady—well it is here!

— ALSO —  
"Woman Haters" and "Krazy Spooks"

Thursday is "Lucky No. Nine" all 35c tickets for the price

Sunday, Monday and Tuesday WILL ROGERS in "David Harum"

With Louise Dresser, Evelyn Venable, Stepin Fetchit and many others.

The best picture Rogers ever made! If you don't think he is a race horse driver come and see for yourself.

— ALSO —  
"Village Blacksmith" and "The Last Dodge"

### For Commissioner

Mr. T. E. Kelley is a candidate for nomination and re-election as commissioner of District No. 3, Lincoln County. For the last two years he has been conducting the office successfully. He has been open-minded, fair and unbiased in all his decisions.

Mr. Kelley has been a member of the game commission several years and knows practically everyone in the county. His many friends respect him highly on account of those qualities of mind and heart which are most prominent in his personality; honesty, caution and uprightness. He never permits a difference of opinion to change his regard for anyone, or sever his friendship; he promises if nominated and re-elected to continue to do his duty by all districts as heretofore.

### Woman's Club Meets

The Woman's Club of Carrizozo meets this afternoon at the home of Mrs. C. W. Young. The program will be directed by Mrs. Paul Mayer. The hostess will be assisted by Meses Snyder, White and Lemon, and Misses Nellie Shaver and Ella Brickley.

In The Probate Court State of New Mexico } ss. County of Lincoln. In the Matter of the Last Will and Testament of Harvey T. Elliott, Deceased. No. 332

Notice To Whom It May Concern:

Notice is hereby given that an instrument purporting to be the Last Will and Testament of Harvey T. Elliott, Deceased, has been filed for probate in the Probate Court of Lincoln County, New Mexico, and by order, the 5th day of November, A. D. 1934, at the hour of 3 P. M., at the court room of said Court in the Village of Carrizozo, New Mexico, is the day, time and place for hearing proof of said Last Will and Testament.

Therefore any person or persons wishing to enter objections to the probating of said Last Will and Testament are hereby notified to file their objections in the office of the County Clerk of Lincoln County, on or before the time set for hearing.

Dated at Carrizozo, New Mexico, this 5th day of September, A. D. 1934.  
Ernest Key, Probate Clerk.  
by: Frances R. Aguayo, Deputy.

### Notice For Publication

U. S. Land Office at Las Cruces, New Mexico, September 19, 1934.

NOTICE is hereby given that Louis Nalda, of Carrizozo, New Mexico, who, on May 20, 1929, made Homestead Entry, No. 039280, for S $\frac{1}{2}$  Section 15, NE $\frac{1}{4}$ , S $\frac{1}{2}$ NW $\frac{1}{4}$ , NW $\frac{1}{4}$ NW $\frac{1}{4}$ , Section 22, Township 6 S, Range 8 E., N. M. P. Meridian, has filed notice of intention to make 3 year Proof, to establish claim to the land above described, before E. B. Baca, Co. Clerk, at Socorro, New Mexico, on the 2 day of November, 1934.

Claimant names as witnesses: Ben Rentfrow, Doyle Rentfrow, Juan Laxaga, Miguel Laxer, all of Carrizozo, N. Mex.  
Paul A. Roach, Register.  
Sept. 21.—Oct. 19.

### Child Accidentally Shot

Albert Reeder, the seven-year old son of Mr. and Mrs. J. M. Reeder, of Corona, was shot and seriously wounded by the accidental discharge of a .22 caliber rifle in the hands of his brother, Russell, 9. The bullet broke the left jaw bone and lodged in the back of the neck. The child was rushed by auto to El Paso, stopping in Carrizozo long enough for local surgeons to locate the missile by X-ray. Latest reports from Masonic hospital, where he is being treated, indicate slight improvement in his condition.

### Music Study Club

The Music Study Club held its first meeting this season at the Blaney home Thursday. Mrs. Blaney was re-elected president; Mrs. Degitt, vice president; Mrs. Burns, secretary. Eighteen members joined.

### Baptist Church

Rev. L. D. Jordan, Pastor  
Lynn Smith, S. S. Supt.

Mr. B. F. Fields, of Roswell, has been with us all this week, and is teaching a class in "Building a Standard Sunday School." Plans are under way to enlarge our Sunday School, and to increase its efficiency, so that we may more effectively minister to the community.

Sunday School meets at ten o'clock.

Beginning at seven p. m., we will have a forty-minute song service, followed by a sermon by the pastor.

The choir meets for weekly practice every Wednesday evening.

### Notice of Filing of Final Report and Account

In the Probate Court of Lincoln County, State of New Mexico. In the Matter of the Last Will and Testament of Joseph Beckman, Deceased. No. 336

To Lester Greer, Bertha Greer, and to all unknown heirs of the said decedent, and all unknown persons claiming any lien upon, or right, title, or interest, in or to, the estate of the said decedent, and to whom it may concern:

You, and each of you are hereby notified, and notice is hereby given, that Lester Greer, Executor of the Last Will and Testament of Joseph Beckman, deceased, has filed in the above entitled Court his final report and account as such Executor, and the Court has appointed Monday, the 5th day of November, 1934, at the hour of 11 o'clock, a. m., as the hour and day for hearing of objections, if any there be, to the approval and settlement of said final report and account, and the discharge of the said Lester Greer as such Executor, and at the hour on the day named, the Probate Court will proceed to determine the heirship of said decedent, the ownership of his said estate and the interest of each respective claimant thereto and therein and the persons entitled to the distribution thereof.

The name and postoffice address of the attorney for the Executor is John E. Hall, Carrizozo, New Mexico.

Witness the honorable, Manuel Corcos, Judge of the said Court, and the seal thereof, this 5th day of September, 1934.  
Ernest Key, Clerk

By: Frances R. Aguayo, Deputy.

### School Notes

Every year, for most of us, this time of the year rolls around and stares us in the face. School time—that time that we dread in our minds and yet sincerely welcome in our hearts. Well, it's here—and how! The school this year is larger than in any other year. It is quite difficult to say definitely how many there are in school, for more come in each day. At the end of the first three weeks, the students are quite settled, courses are arranged and serious study commenced.

On October 12, the Faculty of the High and Grade Schools has promised to present a play. This is something quite new for the faculty of our school to attempt, and the result will be critically examined, by the students and their parents, for all are cordially invited to attend.

The chief thought in the minds of the greater part of the student body is the fact that the High School Football schedule starts this Saturday at Hot Springs. The High School has a good number out for this, her major sport, and out of this number of students is being a team that, before the season closes, will make football history in this section. It takes two teams to play a game, but to have a real game it takes a large, loyal and peppy crowd. We hope that the parents and friends of the boys on our team, representative of our school, will be fully represented so that they may enjoy the game and give the team the necessary feeling that they are backed one hundred per cent by their home-folks.

The first home game, in which the home-folks can see the boys in action, will be with Tularosa, on Saturday, September 29. Come out and root, and see your high school team play heads-up football against hard competition.

The Football Schedule:  
Sept. 22—Hot Springs—there.  
Sept. 28—Tularosa—here  
Oct. 6—Alamogordo—here  
Oct. 13—Capitan—here  
Oct. 20—Open  
Oct. 27—Alamogordo—there  
Nov. 3—Open  
Nov. 9—Weed—here  
Nov. 17—N. M. M. I Colts, Roswell—there  
Nov. 24—Hondo—here  
Nov. 29—Capitan—there.

Methodist Church  
Edgar H. Johnson, Pastor.

Sunday school 10:00 A. M.  
Praying Services 11:00 A. M. 7:30 P. M.  
Morning Service:  
Text: And Isaac digged again the wells which they had digged in the days of Abraham his father, Genesis 26:18.  
Subject: Wells of Salvation.  
Evening Service:  
Text: Lords Prayer, Matt. 6; 9:1-3  
Subject: Prayer.  
Your presence is very much needed—God needs it, yes, God demands it. Come

### Baseball Results

The Mustangs went to San Pedro last Sunday and played an eleven-inning game before one of the largest crowds of the season.

In the last of the ninth inning the score was even, 2-2. Two more innings were played to decide the game, San Pedro scoring 3, making the final result 2-3 in their favor.

Andres Luceras was in splendid form and the result of this game is a credit to him for his good pitching.

### LOCAL AND PERSONAL

Mr. Joe West has returned from a business trip to Eagle.

Mr. Finley Wingham made a business trip to Tucumanari the first of the week.

Mr. J. B. Harley spent several days in Belen and Albuquerque this week.

Mr. and Mrs. J. W. Morris, of Capitan, were visitors in Carrizozo Monday.

Mr. W. S. Armstrong has come into town for the winter from his ranch home near Coyote.

Mr. and Mrs. Ray Lomon entertained Mr. and Mrs. J. B. French to dinner last night.

Mr. G. T. McQuillen is back from the World's Fair. He says he had a most enjoyable time.

Mr. George Clements, Jr., of Corona, was a business visitor in town the first of the week.

Mr. M. U. Finley went to Las Cruces last Wednesday to attend the big golf tournament.

Mr. and Mrs. Albert Ziegler have as dinner guests this evening, Mr. and Mrs. French.

Mrs. Fred Neighbauer who has been ill for several weeks, has removed to the Johnson hospital for treatment.

Baron Auricemma favored the high school with several song numbers at the assembly last Friday afternoon.

Mr. and Mrs. Wm. Gallacher, Mr. Harry Gallacher, Mr. and Mrs. Doyle Rentfrow and Mr. M. U. Finley are attending the inter-county golf tournament at Las Cruces this week.

Mr. B. F. Fields, of Roswell, is spending this week in Carrizozo. He is assisting Superintendent Lynn Smyth in an enlargement campaign in the Baptist Sunday School.

Mrs. Jimmie Lee and children; Mr. and Mrs. Oscar Hamburger and son, and Mrs. Nupperts and daughter, Helen, were all attendants at Bluglog Wood Citizens in El Paso yesterday.

Mrs. Miller French left last Tuesday for Denver, Colorado, to join her husband, who has been transferred from that city to Cody, Wyoming. They leave for the latter place today.

### Musical Grays-Tent Theatre to Play Here

Grays Stock Co., big tent theater which has proven one of the most popular stock companies ever to show here under canvas will be in Carrizozo one big week, starting Monday, Sept. 24, and closing Saturday, Sept. 29.

The show is playing under auspices of Community Hall Association. An entire new repertoire of plays will be presented.

The opening play, "Buddies," a comedy-drama in three acts, presents each member of the cast in a role that seems to fit each perfectly. The play has comedy galore, heart interest, and suspense that will hold you till the final curtain.

New vaudeville will be presented between the acts, and, as usual, "The Miscellaneous" feature orchestra, will appear in concert each night before the show.

The low prices which will prevail during the showing here at ten and twenty-five cents and ten cents for reserved seats.

One lady will be admitted free on the opening night with each paid adult ticket. The doors open at 8:15, show starts 8:30.

### Maine's Endorsement of New Deal

The Democratic victory in Maine was much greater than was indicated by the bare returns. Rock-ribbed Republican though it always has been, and one of the six states to vote against Roosevelt in 1932, the Old Guard took no chances. Both Republican national committees sent all of their top speakers; the press of the state was almost solidly Republican and there was supreme confidence in the G. O. P. high command. On the day of the election the New York Herald-Tribune, pre-eminent Old Guard spokesman, said it had been "a campaign in which the New Deal was the dominant issue." The Republican Washington Post had stated editorially that from the Maine returns "one may perhaps be able to forecast the national trend fairly accurately." Both papers had predicted Republican success.

The weather was ideal, and the prohibition repeal issue brought out 3,900 more voters than in the Presidential contest two years ago. A large vote always heretofore has favored the G. O. P. But as against the Hoover vote of 166,631, the Democratic governor, Louis J. Braun, rolled up 166,813. His majority was 23,135, against his 1932 majority of 2,358. He is the fifth Democratic governor in Maine history and the first to be re-elected.

The campaign of Senator Frederick Hale for a fourth term had attracted attention principally because of the 12 conservative Republican senators up for reelection this year, his chances of success seemed to the Old Guard to be most certain. His father had preceded him in the Senate for 20 years and his own majority in 1932 had been 81,992. But this year he insisted throughout his campaign that a vote cast for him would "signify repudiation" of the New Deal. With the result that he emerged with a scant 1,200 majority over his Democratic opponent on the face of the returns and probably faces a recount.

The veteran Republican Congressman Reedy, seeking an eighth term, took the same line. Two years ago he was re-elected by 1,633; this year he was defeated by Simon Hamlin by 1,628, first Democrat to be chosen in the First District since 1862.

In the Second District Edward C. Moran, Jr., Democrat, increased his 1932 majority of 3,757 to 6,070. Evan former Gov. Ralph O. Brewster, in the Third, lost Republican elected to the House from Maine, laid great stress on his known record of strong advocacy of Roosevelt power and public works policies and announced that he was favorably inclined to other aspects of the Roosevelt administration.

The Scripps-Haward newspapers analyzed the congressional district races as follows: "New Deal score: 3 runs, 2 hits, 0 errors."

### Mrs. Ziegler Hostess to Bridge Club

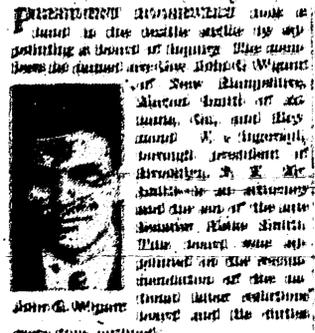

Mrs. Albert Ziegler was hostess to the Carrizozo Bridge Club last evening. A most enjoyable time was spent. Mrs. Louver, of Albuquerque, and Mrs. J. B. French were guests of the club, Mrs. Louver being the winner of the guest prize. Mrs. Blaney was winner of the club prize.

## CHAPTER VIII—Continued

"No one ever would do such a thing," said the girl...

"Why worry, Deputy?" asked Stark. "You got the best..."

"What's the idea, anyhow, Nell?" she demanded hotly...

"You mean," she determinedly bit back her teeth...

"That's something," Deak said, sympathetically...

"AN Sorts of Things and Weathers..."

preparation of construction, Milton Downey had command of all engineering parties in the field...

This was a rough job—the preliminary survey of a highway through Little Bear valley...

An eight of a mile away Nell Goodenough, rousing levels on the center line—taking elevations every hundred feet or so...

It was a surcharged atmosphere that hung over the two parties as they made their campfire by a spring at break time...

Mary's eyes blazed. She opened her mouth, closed it, turned and strode to her instrument...

When they reached headquarters she turned in her reports, and then, going to her own desk...

"Mr. Stark," she came directly to the point, "either Nell Goodenough or I will have to go—and I guess I might as well be the one."

"What's the trouble, Mary?" "Immediately Mary told him in detail of the friction between her and Nell...

"Why—more or less?" "There's a thing of his: The Mountain—think I could quote it. But never mind."

To be continued.

# HOW TO SHOOT

By Bob Nichols

Shooting Editor, Field and Stream

ONE of the commonest errors of the novice upland hunter is to try to shoot a gun that is too long in the barrel. There is a widespread belief that long barrels make a gun shoot harder. Practically speaking, this isn't true. The short barrel gun shoots just as hard, and kills game just as far away, as the old-fashioned "Long Tom." The gun with 32, or even 30-inch barrels, is too long. You will do better work with 28—better still, with 26-inch barrels. I am even of the opinion that most standard gunstocks are slightly too long. The standard stock is about 14 inches from front of trigger to the middle of the butt-plate. My favorite gun has 26-inch barrel and 13 1/2-inch stock. The shortened gun—at the barrel as well as at the stock—speeds up your handling of it tremendously.

In the latest designs of American shotguns being turned out today, one trend is definitely towards the 26-inch barrel. This is undoubtedly the gun for upland use. Robert Churchill, the famous English gun maker, was the pioneer in this field of shotgun research. Some years ago he brought out his now well-known line XXV guns, so named because of their 25-inch barrels—and most immediately it became apparent that the users of these short-barrel guns were to do better work in the field than sportsmen of equal skill using longer tubes. The reason is easy to demonstrate. The shorter you make your "pointer," the quicker you can point it. Try pointing with a walking stick. Much quicker. Try pointing with your finger— instantaneous.

If you want to learn to shoot, and learn it quickly, begin now with a short-barreled, lightweight 20-gauge. Have it properly stocked to fit you. Then watch your scoring begin to climb!

Just within the last year I have had a fine opportunity to observe how the right gun can make a wonderful difference in speeding up a man's acquisition of skill. I have a friend who has been hunting for the past ten years. Up until last summer, even with all his experience, he was still a miserable shot. Shortly after I met him early last spring he told me, jokingly and regretfully, that the only reason his friends ever took him on a hunt was because he has big feet and had the reputation for kicking up more game than any other shooter in the party.

He finally showed me his gun. It was all I expected it would be. A 12-gauge with 30-inch barrels that tipped the scales at exactly seven and three-quarter pounds. Moreover, it was bored modified and full choke—much too close for a field gun. As a crowning fault it had a good 3 inches of drop at the heel of the buttstock—in other words, an "under shooting" gun. The big drop explained why he could kill an occasional rabbit, for the right way to shoot rabbits is to slightly under-shoot. But pheasant, woodcock, or grouse, were too much for him. He had arrived at the hopeless stage where he was convinced that he could never become a decent shot.

Shortly after that he did me a kind favor. In return I presented him with an extra gun I had in my cabinet—a neat little 20-gauge pump gun, with 28-inch modified choke barrel, that weighed just short of six pounds. He was grateful, but just a little dubious about so small a gun. In fact the gun did look funny in his hands, because he is better than a six-footer.

During the remainder of the summer and on up through September, I took him crow and hawk shooting frequently. Slowly I taught him that he had to swing from behind his target, swing past, and shoot ahead of it. Before long he was tumbling the corn-stealers and chicken-snatchers from 30 to 40 yards out of the sky with fair regularity—and was delighted!

Later, during the hunting season, he shot with the same friends who formerly regarded him as the "game dog" of the party. Only this time the laugh was on them. He killed grouse, pheasant, woodcock—and taking bunnies, he told me later, was like shooting fish in a bathtub. On two occasions he out-shot every man on the party. Anyone can learn to shoot if he gets the RIGHT gun!

**Opossum Is Protected, but Is Found Nuisance**

State wild life investigators who are endeavoring to determine whether the opossum should be classed as predatory in Michigan have so far found little to justify the protection that is now afforded this animal. Paul Hickie, state analyst, who has examined the stomach contents of a number of opossums, states that the specimens examined have been guilty of eating both eggs and birds, the latter of which he believes to belong to the pheasant family, and that these findings indicate the opossum to be of no benefit whatever.

The opossum made its first appearance in the state about five years ago. It has long been declared a nuisance and a pest by farmers, hunters and others, despite the protection afforded it by law.

**Fish Hatchery Here**

The federal fish hatchery under construction at San Angelo, Texas, expected to be the largest of 86 such plants in the country, will cover 190 acres with water.

## Above All Riches of Earth

Writer's Fine Tribute to "Pal" Recalls Shakespeare's Admonition, "Grapple Thy Friend to Thy Soul With Hooks of Steel."

A great writer has said that after the word "mother" the most endearing is that of "friend." A contributor to our columns, of high position in the newspaper world, evidently is of that opinion. Employing the more affectionate word "pal" she says:

"My Pal!

"They are the simple, most primitive words in the Anglo-Saxon lexicon, yet—

"How pregnant they are with meaning. How they play upon the heart-strings! How they stir up the bottommost depths of tender sentiment and emotion, engulfing us in up-welling waves till the heart fills, the throat catches and words fall us.

"Purists will sniff and quizz. Why

"pal? Why not 'friend'? Why not 'companion' and the like?"

"Exactly so.

"For I have many friends. And I have a few companions. But I am favored beyond the wildest dreams of Croesus, fortunate outside the compass of Midas and Monte Cristo, happier than the lark that sings wings its way through stellar ether.

"For I have what is more precious than all the world's gold—a pal!

"My pal—unfortunately one can have but one pal—is mostly what I am not.

"As for me, I am a cross sort of person, terribly fault-finding, temper-tuously temperamental.

"And my pal is a contrast to me, a

roll, if you please, eternally good-natured, forever understanding, smilingly indulgent; so that she becomes a reproach to me, albeit an unintended reproach, time and again. And when I fume, and rage, and toss and stamp—my pal calmly awaits the lull of the cyclone—and says with a laugh—"All right, just as you say!"

"And then my arms fly around and about her! And I cry out what a beast I am! And I promise I will never offend again! And I do not. No! Not until the next time!

"But I wanted to tell you about my pal, not about myself.

"My pal is unselfish.

"She is like a little flower giving out sweet fragrance in a shady nook.

"She is like the music of tinkling bells, like the music of myth and legend that melted the rock, soothing and restful as a song at twilight.

"She is like the cool, grateful pillow, ever ready to receive the hot, tired head.

"She is always on the verge of a laugh that is never at my expense; always anxious to share my cares and irritations, to smooth away grief and trouble with her genial cheer; to

help with my burdens when they press too heavily upon me; to join me in frolic if such be my mood.

"And perhaps this is the wonderful part of her—the God-given part of her—that she is always ready to enter my moods—and to understand—and perhaps that is why my pal is incomparable.

"I have just looked up the origin of 'pal.'

"My tattered Webster tells me its beginnings are shrouded in obscurity, have become uncertain in the dim passages of the centuries—and in its various ramifications it has taken on the senses of match, equal, love.

"Now I see! Now I know the secret that makes her the most wonderful pal that ever was—it is this: "My pal" is capable of a great love—she "seeketh not herself, exalteth not herself," and—

"Let me ask you—

"Are you somebody's pal?"

## Red Cross Membership Unhurt by Depression

The membership enrollment in the American National Red Cross for the year ending June 30, 1934, was 3,302,384 for the United States and its insular possessions—an increase of 100,518 members over the roll-call for the previous year.

During the five years of the depression the Red Cross membership showed a decrease of only 7.8 per cent for the entire period and during the past year the roll-call showed an increase of 2.72 per cent over the previous year.

Commenting on the figures, Chairman John Barton Payne said: "They not only show that the Red Cross did not suffer a serious loss at any time during the period of stress, but that such small decline in membership as was inevitable is now being erased, and the response to our roll-call is now on the up-grade."

The figures are reassuring in the light of the still decidedly ominous situation in Europe.—Literary Digest.

# Buy Firestone

**SAFEST TIRES IN THE WORLD! PRICES REMARKABLY LOW!**

## Here's PROOF OF SAFETY

**TWO BREATH-TAKING ENDURANCE RUNS ON SAME TRACK—A DRAMATIC COMPARISON OF SAFETY! READ BOTH LETTERS BELOW!**

THE proof of leadership is performance! Many claim it, but Firestone proves it. Never before have tires withstood such severe, continuous, grinding torture, breaking 77 records for 3,000 consecutive miles at 127.2 miles an hour. Not a Gum-Dipped cord loosened, not a tread separated, not one blowout.

Hour after hour, on through the scorching heat of the day and inky blackness of the night, with temperatures as high as 120 degrees—breaking record after record for speed, strength, safety and blowout protection—all in a stupendous demonstration of safety performance for the car owners of America.

This remarkable achievement was made possible by Gum-Dipping, the Firestone patented process which saturates and coats every fiber within the cords with liquid rubber—counteracting friction and heat and preventing the tire from heating up and blowing out.

Have the Firestone Service Dealer or Service Store equip your car with Firestone Tires, Spark Plugs, Battery and Aquapuf Brake Lining. Protect your life and the lives of your family with the safest tires in the world. Buy them this week before prices go higher.

**Ab Jenkins praises Firestone tires in toughest endurance run he ever made.**

Lake Bonneville, Utah Aug. 18th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

Under A.A.A. supervision I have just completed a 3,000 mile endurance run on the hot salt desert at Lake Bonneville, Utah. My car, weighing over 6,000 pounds, traveled the 3,000 miles at an average speed of 127.2 miles per hour, breaking 77 World, International and American Speed Records—all without tire trouble of any kind. Firestone Tires gave an almost unbelievable performance in this run, particularly when you realize that the temperatures were as high as 120 degrees and that the holes in the course had been filled with crushed rock that was hard as flint and had knife sharp edges.

This endurance run was the severest test to which I have ever subjected any automobile and especially tires. Last year I made a similar run with a car of less power and less speed using tires of another make whose national advertising featured blowout protection. Yet, I had a blowout and made a number of tire changes.

This year I also used Firestone Spar Plug and a Firestone Extra Power Battery made with your new All-Rubber Separator. Not a Spark Plug failed and the Battery required no service of any kind.

If every car owner knew what my Firestone Tires went through they would appreciate what Gum-Dipping means in strength and heat protection that make Firestone Tires safe from blowouts.

This is the toughest run I have ever made in my twenty-three years of breaking speed records and after a short stay here I am coming East. Hoping to have the pleasure of seeing you then, and with best regards, I remain

Sincerely yours,

Ab Jenkins

**Wilbur Shaw** using widely advertised competitive tires had eleven tire failures preventing him from establishing records worthy of the car he was driving.

Lake Bonneville, Utah Aug. 18th, 1934

Mr. Harvey S. Firestone, Chairman, Firestone Tire & Rubber Company, Akron, Ohio

Dear Mr. Firestone:

I have just finished a 3,000 mile test run on the salt beds at Lake Bonneville, Utah, driving a stock car of a leading automobile manufacturer. My car was equipped with a nationally known brand of tires which a large manufacturer has recently brought out as the newest development in tire construction and again testing and performance claims.

With these tires on this run I had eleven tire failures and made two precautionary tire changes. When a right front tire blew out, my car left the track of a mile, leaving a trail of rubber and fabric on the hot salt beds.

After an experience of this kind, I appreciate tires that have played a vital part in my success during the fourteen years I have used them on my racing and personal cars. Without them I know that I could never have made the many speed records that I have established.

I understand that you expect to be in California soon and if convenient, I would like to see you.

Very truly yours,

Wilbur Shaw

Fears, deceased, and all persons having claims against the estate of said decedent are hereby notified to file same with the Clerk of this court and to give notice thereof as required by law within one year from date of such appointment.

J. L. Sheppard, Executor.

Look Box 2, Tlanie, New Mexico. Sept. 21—Oct. 12.

**Land Bank Lends \$19,600 in County**

Lincoln county farmers were made seven land bank and land bank commissioner loans amounting to \$19,600 during the six months period ending August 31, 1934. This report of loans made in this county has been received from the Federal Land Bank of Wichita.

In order that the farmers who have gotten these loans are left with a chance to work out of debt, none of the loans has been made for more than 75 per cent of the appraised normal agricultural value of the farm property mortgaged, it is pointed out.

The report explains further that although the land bank has made farm mortgage loans totaling over \$85,000,000 to farmers in Colorado, Kansas, New Mexico and Oklahoma since the first of this year, these loans have not appreciably increased the indebtedness of these farmers. The reason is because these farmers have used about 90 per cent of this amount to pay old standing debts. They are refinancing themselves with these loans at a lower rate of interest for a long term without having to pay costly renewal charges every few years.

There are an average of several individuals in addition to the farmer-borrower who benefit directly from the proceeds of these loans. These individuals comprise not only the principal creditors, but grocers, supply merchants, implement dealers, doctors, and other business and professional men, thus benefiting nearly everyone in the community either directly or indirectly.

"It should be kept clearly in mind that the Federal Land Bank, when making loans, is not disbursing the proceeds of appropriations which need not be repaid," states the report. "Funds which are lent must be collected, and must be repaid in accordance with the terms of the bonds which the bank sells to obtain the funds which it lends."

Applications for loans from the

**Reading Fun in Store For Boys**

Here is important news for the boys of America. THE AMERICAN BOY—YOUTH'S COMPANION, the nation's quality magazine for boys, has been reduced from \$2.00 a year to \$1.00. The three year rate, formerly \$5.50 has been reduced to \$2.

"For a long time we have been seeking a way to reduce the cost of The American Boy to readers," states Griffith Ogden Ellis, editor. "Recently we have effected savings that make the cut possible, and we think boys will agree that the new price is big news to them. We hope boys will help us to spread the good news by telling their friends."

Along with the cut in cost, the magazine publishers are planning a magazine that will continue to set the pace in fiction, articles, and departments. The favorite characters of millions of boys will parade through The American Boy in new stories. Douglas Kenfrew of the Royal Canadian Mounted, Hiderack, the red-and-gold cello, Bonehead Jim Tierney, the detective, will give readers many exciting hours in the months to come.

William Heyliger, whose true-to-life gripping vocational stories have won him wide acclaim from parents and librarians, as well as the hearty approval of boys, is working on new stories. Staff writers are interviewing famous coaches and athletes and world renowned explorers, to bring boys the color and fun of sports and travel.

In short, The American Boy, under its new price, will continue to give boys a magazine that measures up to the best standards set by adult magazines. Send your subscriptions to The American Boy, 7400 Second Blvd., Detroit, Michigan. Enclose your name and address and the proper amount of money and The American Boy will soon be headed your way, loaded with reading thrills.

land bank at Wichita are made through the secretary-treasurer of the local national farm loan association serving the territory wherein is located the farm security. Farmers not knowing the name and address of the secretary-treasurer to whom they may make application, may obtain this information by writing to the Federal Land Bank, Wichita, Kansas, and stating the township and range in which the land on which they wish a loan is situated

Mr. Waite J. Keeney, State Director of Re-Employment for New Mexico, was in Carrizozo Friday. While here he visited the local re-employment office. He also was a visitor at Ft. Stanton, where he inspected Project FP 57. He reports the local re-employment service satisfactory.

**GREASER FOR GOVERNOR CLUB**

To All Delegates of the Democratic Party: The destiny of our State now rests in your hands. Something must be done. The people are demanding men and women of the Jefferson type and principle. We ask your sincere consideration of our candidate.

Time for action is now at hand, the welfare of our state depends largely upon the Governor selected; will he have these qualifications; First, is he in full accord with President Franklin D. Roosevelt's Recovery Program? Has he proven himself a devoted friend to the common man's cause? Does he possess courage and willpower to stand unmoved when injustice challenges justice? Will he guard the most humble home within the State as having the same rights as the largest corporation? We have known Mr. Greaser for twenty-nine years. He is a square shooter, honest and trustworthy. His battles as a legislator in behalf of justice and economy are fresh in the minds of all. The schools have no better friend.

We do not hesitate to say that Mr. Greaser will be governor for the people and a credit to his party. His plans to reduce taxation are far-reaching. Talk with him on this and you will be surprised.

Thirty-six Democratic State Papers are carrying a Greaser for Governor Club advertisement paid for by this organization. All club memberships will be held in strict confidence. Try to get as many members as possible. Have members write their names and addresses plainly and mail in at once. A plain piece of paper will do. We want you to be a part of this organization. What will you do in your community?

Mr. Greaser was endorsed Sept. 15 at the Democratic Convention held at Tucumcari with out the loss of a single vote.

Mail to Box 124, Obar, New Mexico.

**Eastern New Mexico State Fair Oct. 3-6**

Roswell, N. M. Sept. 18—Starting promptly on Wednesday morning, October 3, at 10 o'clock, a pageant of beauty will pass in review before the thousands at the opening day of the Eastern New Mexico State Fair to be held in Roswell October 3, 4, 5 and 6. On gorgeous floats prepared by commercial firms, organizations and communities, each unit will compete for the honor of naming the Queen of the Fair. The judges will select the most beautiful float—and the lady on the winning float will become Queen of the Fair. The large cash prizes offered in this competition are attractive, but it is the honor of naming the Queen which is stimulating the interest among the contestants.

From every part of the territory come most encouraging reports that farmers and stockmen are planning exhibits, that organizations and communities are planning booths and entries in the big parade. With our greatly improved grounds and facilities, the directors are confident of the greatest fair in our history. An amateur rodeo each afternoon, special carnival features and other entertainment has been provided for each afternoon and evening.

**Long Distance Driver Claims Record**

An average of 22.4 miles per gallon over a 3,000-mile non-stop run is the record claimed by Ted Ellis, a veteran long distance driver, who piloted a Chevrolet knee-action sedan over a several hundred mile course between Coalinga and Sequoia National Park, in California. The total oil consumption is reported as 2 1/2 quarts. The route included desert and mountain tracks, deep rutted roads, and a wide range of altitude and temperature between San Joaquin Valley and Sequoia. Each circuit included a speed spurt of four miles on a track laid out in the desert near Coalinga. Ellis was at the wheel for 98 hours, being relieved only for short periods from time to time.

**Public Health Column**  
(By Dr. J. R. Earp)

**FEAR**—Fearlessness is natural. Fear is a contagious disease. "I am going to earn a nickel," said my five-year-old to his mother. "How?" his mother asked him. "Another boy has promised me a nickel if I jump off the stable roof." Now the stable roof is full fifteen feet above a hard, hard ground. His mother urged that if he broke an arm or a leg it would cost more than a nickel to repair them. "But I've jumped off the roof before," he objected, "and I didn't break myself at all!" He has not caught many fears, this youngster. He will catch some, alas, as he grows older; fears of accident and sickness and death, fears which are so widespread that few of us can escape them.

precaution in the face of danger is not fear. The child who looks both ways before he steps into the street is not afraid of automobiles and is not in danger. The child who rushes into the street, sees an automobile and at once is stricken with terror behaves irrationally and is in very great danger.

Children catch fear, less from what is told to them than from the tone of the voice, the expression of the face, the shrinking away from danger. If you tell your child that you are afraid of spiders he will probably just feel sorry for you. But if he sees your eyes grow wide and hears you scream when a spider walks across the bed, he will become afraid of spiders, too.

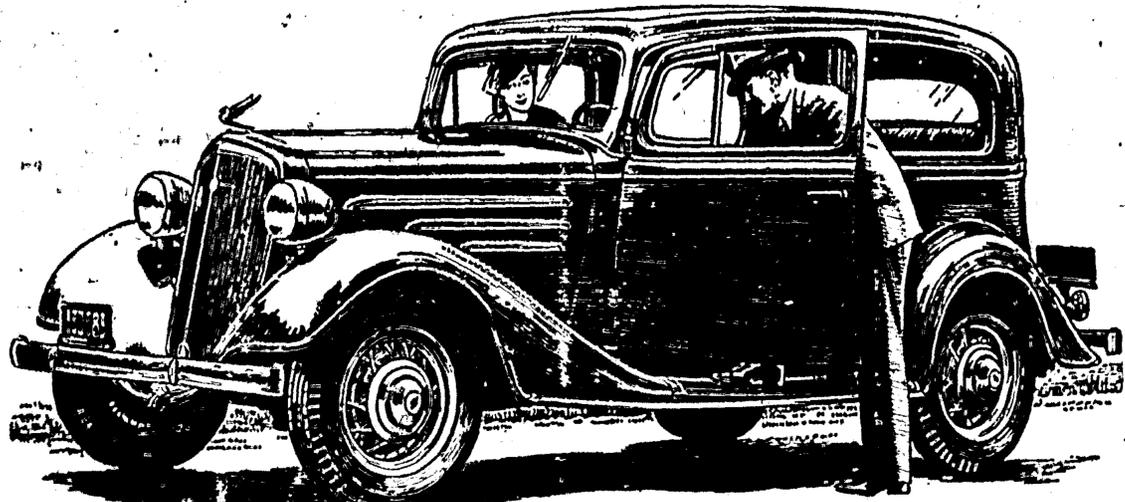

Courage is more than fearlessness; it is that part of the personality which controls fear, without which fear controls the personality.

Fear is irrational. Reasonable

Courage also is contagious.

Let Chevrolet tell its own story of riding and driving comfort

Make the ownership test

THE best way to get at the truth behind the fine things you hear and read about the new Chevrolet, is to get in the car and drive. Take this car, drive it over the same routes, in the same way you drive your present automobile, and let the results you can see and feel tell their own story. You have heard that Knee-Action makes bad roads good, and good roads better. A ride will prove it. You have heard that Chevrolet provides shock-proof steering, Syncro-Mesh gear-shifting, a remarkably flexible 80-horsepower engine, and cable-controlled brakes. A few minutes at

the wheel will show you what a difference these advancements make in safety and driving ease. And when the ride is over, and you step out refreshed and ready for more, you will know why so many thousands have found it impossible to return to ordinary driving after an experience like this. That is the Ownership Test—easy, enjoyable, and the most practical way to choose a car.

One Ride

is worth a thousand words

Uncle Sam Sells This House for \$2,000

HOUSES like this are being constructed for approximately \$2,000 apiece at Cumberland Homesteads, Crossville, Tenn., one of the projects being developed by the subsistence homesteads division of the Department of the Interior. The construction of native "crab-apple" stone and hand-hewn timbers, fits into the rural scene in which the homes are located.

Bedtime Story for Children

By THORNTON W. BURGESS

A QUEER BREAKFAST

A LONG lane leads from Farmer Brown's barnyard down to his cornfield on the Green Meadow. Very early one morning Peter Rabbit took it into his funny little head to run down that long lane. Now at a certain place beside that long lane was a grayly bank into which Farmer Brown had dug for gravel to put on the roadway near his house. As Peter was scampering past this place he caught sight of some one very busy

to eat there. Peter was puzzled. "Hello, Mourner!" he cried. "What under the sun are you doing in there? Are you getting your breakfast?" "Hardly, Peter, hardly," cooed Mourner, in the softest of voices. "I'm picking up a little gravel for my digestion." He picked up a tiny pebble and swallowed it. "Well, of all things!" cried Peter. "You must be crazy. The idea of thinking that gravel is going to help your digestion. I should say the chances are that it will work just the other way."

Mourner laughed. "I haven't the least doubt that a breakfast of gravel would give you the worst kind of a stomach-ache," said he. "But you are you and I am I, and there is all the difference in the world. I eat grain and hard seeds which I have to swallow whole. One part of my stomach is called a gizzard and its duty is to grind and crush my food so that it may be digested. Tiny pebbles and gravel help grind food and so aid digestion."

T. W. Burgess—WNU Service.

Campus Suit

This campus suit combines a brown, green and beige plaid skirt with a dark brown cut-velvet jacket. The turtleneck blouse is green jersey.

"Well, of All Things!" cried Peter. "You Must Be Crazy!"

In that gravel pit, Peter stopped short, then sat up to stare. It was Mourner the Dove whom Peter saw. His body was a little bigger than that of Welcome Robin, but his slender neck, longer tail and wings made him appear considerably bigger. His shape reminded Peter at once of the pigeons up at Farmer Brown's. His back was grayish brown, varying to bluish gray. The crown and upper parts of his head were bluish gray. His breast was reddish-buff shading down into a soft buff. His bill was black and his feet red. The two middle feathers of his tail were longest and of the color of his back. The other feathers were slaty gray with little black bands and tipped with white. On his wings were a few scattered black spots, and there was one under each ear. But it was the sides of his neck which were the most beautiful part of Mourner. When untouched by the Jolly Little Sunbeams his neck appeared much like his breast, but the moment the sides were touched by the Jolly Little Sunbeams they seemed to be of many colors constantly changing, which, as you know, is called iridescence.

But it was not Mourner's appearance which made Peter stare; it was what he was doing. He was walking about and every now and then picking up something, quite as if he were getting his breakfast in that gravel pit. Peter couldn't imagine anything good

Do YOU Know—

That, in the same way that "Uncle Sam" personifies the United States, "John Bull" is symbolic of Great Britain. He made his bow in 1712, as a character in a political satire of the same name by Dr. Arbuthnot and was popularized shortly afterward by the famous wit Dean Swift.

Mother's Cook Book

TO HAVE FOR DESSERT

THIS is the season of the year when simple, light desserts appeal to those who prepare them and to those who only enjoy eating them. The wealth of fruits which are in the market in the late summer and early fall supply many pleasing desserts with but little preparation. Fruits to be served at the table should be well chilled, garnished with appropriate greens when possible and arranged in as dainty and appealing manner as is convenient.

**Fruit Charlotte.**  
Soak one tablespoon of gelatin in two tablespoons of cold water and dissolve in one-fourth of scalding milk. Scald three-quarters of a cup of milk and one cup of sugar. Add to this the gelatin mixture and stir until cool. Whip one pint of cream and add it to the gelatin, fold in one dozen crumbled macaroons, one-half cup of candied cherries cut into bits, two slices of candied pineapple shredded, one-half

cup of blanched almonds shredded and browned in the oven, one-half cup of pecan meats broken into pieces and one teaspoon of vanilla. Pour into a mold, allow it to become firm and serve with cream, plain or whipped.

Banana Ice-Box Cake.

Put one cup of milk, one tablespoon of butter, one teaspoon of cornstarch, one-half cup of sugar, and three beaten yolks in a double boiler, cook over hot water until smooth and thick. Remove from the water, add a teaspoon of vanilla and the stiffly beaten egg whites. Cover the bottom and sides of a spring form with split lady fingers, round side down, slice four bananas to cover the lady fingers, then cover with half of the filling and repeat, then finish with the top of lady fingers, with the rounded sides up like the spokes of a wheel. Keep in the ice chest 12 hours before serving. Decorate with whipped cream and serve.

QUESTION BOX

By ED WYNN... The Perfect Fool

Dear Mr. Wynn: I hear that in HINDUSTAN they don't have dentists. The people take out their teeth with their fingers. Don't you think that is wonderful? Sincerely, BYMAN PANE.

Answer: Nothing wonderful about that. We have thousands of people in this country who take their teeth out, with their fingers, every night before going to bed.

Dear Mr. Wynn: I bought a new pair of shoes. When I got home I found I couldn't get them on my feet. What shall I do? Yours truly, I. M. PERTURBED.

Answer: They are probably like all new shoes. You won't be able to get them on till you've worn them awhile.

Dear Mr. Wynn: I have been keeping company with a traveling salesman. Last night he asked me to marry him. He said he would always love me from February to May and September to December. What does he mean by promising only to love me in certain months of the year? Yours truly, HUGH SHUDNO.

Answer: He's traveling the other months.

Dear Mr. Wynn: What will be the difference between present times and the days when women will have all equal rights? Yours truly, I. C. A. CONSPIRACY.

Answer: At the present time women have their faces on coins, their hands in men's pockets, their eyes on

Colorado Law-Breakers Are Warned

HERE are seen six edgies which were hanged on a tree near Pueblo, Colo., recently by a newly organized band of vigilantes. Names of five men were on five of the edgies and the sixth was merely labeled "Shyster Lawyer."

HIS LITTLE DUTCHMAN

By ANNE CAMPBELL

HE CALLS her his "Little Dutchman," And laughs at her sweeping pride In the noble state that nurtured His happy little bride.

I never have seen a Dutchman Whose soul was not as white As the walls of his humble cabin, Scrubbed clean for his delight.

He calls her his "Little Dutchman." She has the quaintest ways, All of the simplest virtues Glow in her candid gaze, As she bends above her sewing, The lamplight on her hair, He blesses the God of Lovers, Whose kindness placed her there.

He calls her his "Little Dutchman." Wrapped in that teasing name Is every known endearment That ardent sweethearts claim. He cannot find words to tell her The joy he is dreaming of, So he calls her his "Little Dutchman"— A phrase to prove his love! Copyright—WNU Service.

Silo Will Be Aid to Dairy Farmers

Best Way to Save Crops Too Late in Maturing in Natural Way.

By W. A. Foster, Farm Building Specialist, University of Illinois—WNU Service. Silos are coming into such importance as a result of the critical feed situation that one farmer even wanted to know how he could move a concrete silo instead of building another.

Extremely dry weather and the chinch bugs have combined to reduce the amount of hay and other forage that are normally stored for winter live stock consumption. But on farms with silos, this loss can be overcome at least partially by putting up additional silage. Corn planted or replanted too late to mature for grain will make good silage. Furthermore, such chinch-bug resistant crops as sunflowers, soybeans and cowpeas may be made into silage. Where grain sorghum is grown this, too, may serve as a substitute for the more common corn silage.

If a new silo of any kind is to be built, there are certain things that must be kept in mind. In the first place, the structure should be strong enough so that it will not burst under great pressure. It should be smooth on the inside so that the ensilage will settle freely, and leak-proof so that the juices will not seep away and air enter to cause spoilage. The silo should be economical, of ample capacity, storm and fire-proof and attractive. The latter feature may not be essential, but it will add to its value as a permanent improvement in the farm building group.

Whether or not a silo is necessary on most farms is, of course, debatable in some cases. However, with the increased difficulty of earning a livelihood out of the soil because of keen competition, insect pests, drought and floods, late freezes and early frosts, the silo is becoming increasingly important in farm operations.

It is admitted that silo filling is hard work, but it is all done in a few days. Then, after the task is completed, the farmer has available, in a 100-ton silo, sufficient feed to carry a herd of 25 cows through the winter feeding period with enough silage left over for four to six weeks feed during the summer when pastures are short.

"Back to Grass" Means the Forage Crops Also

"Back to grass," now the objective of farmers for millions of cultivated acres in the United States, needs a little explanation, according to crop specialists in the United States Department of Agriculture. Grass—in this sense means legumes as well, and these are in most cases forage crops.

Grass, to the average person, connotes only plants, in which the leaves are narrow and spear-shaped blades. When speaking of pasture land farmers usually refer to land in grass—sod year after year. In the West they mean the native grasses.

"Back to grass" means more grasses and legumes in semipermanent pastures and hay land, or in crop rotations of two to five years. It means in many cases using better soil for pastures. "Only pastureland" is a phrase common in the Middle West especially, when referring to land too poor and too rough for plow land.

Grasses and legumes grown on soils as good as those used for grain crops, say the department specialist, often will return greater net profit to the live stock farmer than grains on similar soil.

Grass Halts Soil Erosion

Grass not only prevents erosion, but well managed grazing land loses less fertility, because less is taken from the soil by pasture plants and part of that which is removed is restored by herds. Land planted to corn on an 8 to 10 per cent slope in Missouri and North Carolina loses from 15 to 17 tons of soil an acre annually. Land growing bluegrass or lespedeza loses only 0.8 to 0.9 ton an acre. Similar results were obtained in a comparison of the native grass sod and cleaned tilled kaur in central Kansas, and of cotton and grassland in southern states. Decaying grass roots keep the soil porous and favorable to the absorption of moisture.

Stomach Worms in Lambs

Experiments conducted at the North Carolina state college experiment station show that drenching for control of stomach worms in lambs is absolutely necessary especially where the lambs have grazed on permanent pasture. This applies to all lambs now on hand and the drenching should be continued until the first of November. The most practical method of control, however, is to change pastures as often as possible and drench only when conditions show this to be necessary. This method of control has given excellent results.

Along the Windrows

HAS SMARTNESS AND SIMPLICITY

PATTERN 1811

Daytime is the "Big Time" of sunny days—days that are crowded with activity from morn 'til sunset. You'll need many crisp cotton frocks—and now's the time to plan and make them! If it's smartness plus simplicity you're looking for, this model fills the bill with both! The wide neckline and the raglan-like sleeves with a bit of self-ruffling trim are new, and just no trouble at all to set in place. Large, handsome colored buttons lend an eye-catching interest. Make your frock of a novelty cotton—and you'll be up to the minute. Beginners will find the new Sewing Instructor a guide that is very easy to follow.

Pattern 1811 is available in sizes 12, 14, 16, 18, 20, 22, 24, 26, 28 and 30. Size 16 takes 3 1/4 yards 36 inch fabric.

Send FIFTEEN CENTS (15c) in coins or stamps (coins preferred) for this pattern. Write plainly name, address and style number. BE SURE TO STATE SIZE.

Address orders to Sewing Circle Pattern Department, 243 West Seventh Street, New York.

ALL THAT IS NECESSARY

Mother—Tommy, your music teacher is coming. Have you washed your face and hands?  
Tommy—Yes, ma.  
"And your ears?"  
"Well, mother, I washed the one that will be next to her."

FRESH FLAVOR

# "Medics" Called On to Check Toll of Suicide

Very little is known about suicide, in spite of the fact that the impulse of self-destruction claims about 25,000 lives in the United States each year. The customary attitude is to attribute deaths from this cause to the complexity of modern life and assume that nothing can be done about them.

Popular belief in a relationship between economic conditions and the number of suicides is to some extent upheld by the findings of Frederick L. Hoffman, consulting statistician. The drop in the suicide rate for 100 cities from 21.3 per 100,000 persons in 1932 to 19.1 in 1933, he says, reflects improved circumstances "which has a direct bearing on a measurable proportion of the suicides due to the unemployment, business failures, general discouragement, etc."

Many other factors would have to be considered, however, to obtain a full understanding of the problem. In the heyday of prosperity the suicide rate was only slightly lower than it was last year. Excessive rates in 1908, 1914-15, 1931-32 indicate a direct relationship between self-destruction and cataclysmic events that tend to destroy social stability. The prevalence of suicides in post-war Austria and Germany confirms this point. But when it is accepted much that is mysterious remains.

The highest ratios of suicide to population are not found in the large cities, where the strains of modern life are supposed to be most severe. Davenport, Iowa, in the heart of our greatest agricultural area, has a suicide rate nearly ten times that of Troy, N. Y., an industrial center. Washington residents indulge in twice as much self-murder (relatively, of course) as the people of Chicago, Detroit and Philadelphia. Carrying the anomaly a step further, Switzerland has a suicide rate of 25 per 100,000 persons,

while the Irish Free State maintains a rate of about 3.4.

Perhaps ennui is as much a cause of self-obliteration as is economic failure. On a basis of ratio, suicide may indeed be more prevalent in the palaces of millionaires than in the hovels of the unemployed. It seems to result from a state of mind that may afflict individuals in all strata of society. Heredity and disposition are doubtless important factors. Suicide is often a result of mental disease.

Medical science cannot be expected to bring forth a remedy for a cause of death that is so complicated. But the suicide toll could be greatly reduced by proper psychological analysis and treatment. It offers a formidable challenge that has not yet been fully accepted by the medical profession.—Washington Post.

### Kindergarten's Value

"From my experience I have observed that the socializing values of the kindergarten are such as to commend themselves to every right-thinking parent and educator. I believe that it would be a pity if the present tendency towards economy should deprive our younger children of the splendid opportunities afforded them in the kindergarten."—Emil Leffler, President, Battle Creek college, Michigan.

If there is no public school kindergarten for the little children of your community write to the National Kindergarten association, 8 West Fortieth street, New York, for advice and free literature.

### Decorative Table

George Rock, eighty-six, of East Brookfield, Mass., worked six months and used 7,831 pieces of wood in constructing a diagonal-shaped table. Multi-colored flags and stars decorate the top.

## FUTURE PLANES TO BE MARVELS OF RAPID FLIGHT

Whirling through the stratosphere at well over a thousand miles an hour in the hermetically sealed cabin of a giant air liner, guided entirely by wireless control stations on earth—can you imagine the possibility? Sir Charles Kingsford-Smith, hero of the recent record-smashing flight to Australia, believes this not only possible, but likely. In an astonishing vision of aerial development within the next fifty years, he foresees air travel brought to such a pitch that ships and railways will become obsolete, their sole use being as carriers of heavy freight.

"There will be no human pilot, but gyroscopic control," said Sir Charles. "The huge flying liners which will move through the stratosphere at a uniform speed of 1,200 miles an hour, carrying 100 passengers in their luxurious cabins, will be fitted with super-efficiency, super-charged engines and variable pitch propellers."

"Risk will be negligible. Each plane will have ten, twelve or fifteen engines. In the event of one cutting off, the officer in charge will simply declutch that engine from the propeller while the mechanics repair it en route. Crude oil will probably be used as fuel."

Actually, to accomplish the amazing speed of which Sir Charles speaks we do not require more powerful engines than some already built. The atmospheric density 60,000 feet above the earth is about a quarter of what it is here, so that an engine, which under normal conditions today attains the high speed of 350 miles an hour, would hurtle through the rarefied atmosphere at 1,400 miles an hour.—Montreal Herald.

### Great City's Shame

Illiteracy is high in Madrid, according to official figures. It has been reduced, however, from 15 per cent in 1921, to 11 per cent. There are 117,802 people in Madrid who can neither read nor write. Many of the rest have merely the most elemental education.

## Tree Definition Stir Dispute Among Experts

What is a tree? Don't be too sure of your answer, because even the foresters' and botanists are not agreed on it. Everyone may be agreed that a mature elm is a tree, but how about a sumac? Is that a shrub? Some authorities place the dividing line at 10 feet—but does that make a foot-high maple any less a tree?

E. E. Fernow, pioneer American forestry teacher, places the emphasis on seeds and branches. He says: "Trees are woody plants, the seed of which has inherent capacity of producing naturally within their limits one main erect axis, continuing to grow for a number of years, more vigorously than the lateral axes, the lower branches dying off entirely." Other authorities state that shrubs have branches clear to the ground and trees do not. Usually trees in the forest lose their lateral branches, except for the crown, but many trees like the blue spruce growing in open spaces will have branches clear to the ground.

The New York State College of Forestry at Syracuse university says: "A tree is a woody plant which at maturity reaches a height of at least 20 feet and normally possesses a single stem with a more or less definite crown." Have you a better definition of a tree?

## HISTORIC ISLAND

When Domitian exiled St. John to the island in 95 A. D., Patmos staked its claim to fame and a place on mariners' maps.

Of especial interest to pilgrims are the monastery of St. John, the cave where guides declare St. John received a heavenly vision and wrote the Apocalypse, and the island's 300 or more churches, some of which are mere huts with domes topped by crosses.

### Needs Excuse

"We are not here to defend human nature, but to excuse it."

## If you feel low-

don't be discouraged—remember, loss of strength... sleeplessness... nervousness... paleness... lack of appetite... and general run-down condition quite often may be traced directly to low blood strength—that is, the red corpuscles and vital oxygen-carrying hemo-globin of the blood are below normal.

S.S.S. is the great, scientifically-tested medicine for restoring this blood content. Its benefits are progressive... accumulative... and enduring. By all means try it for better health and more happiness. Unless your case is exceptional, you should soon enjoy again the satisfaction of appetizing food... sound sleep... and renewed strength.

Do not be misled by the efforts of a few unethical dealers who may suggest substitutes. You have a right to insist that S.S.S. be supplied you on request. Its long years of preference is your guarantee of satisfaction.

# Mr. COFFEE - NERVES . . . the landlord forecloses on him!

AW—CLAMP DOWN ON HIM RIGHT NOW! RUN HIM OFF THE PLACE... THWILL TEACH HIM A LESSON!

LOOK HERE, JOHNSON... I'M TIRED OF YOUR STALLING AROUND! YOU PAY UP ON THAT MORTGAGE WITHIN 30 DAYS... OR THE FORECLOSE!

WELL—I GIVE JOHNSON SOMETHING TO THINK ABOUT, ALL RIGHT! HE'S GOT JUST 30 DAYS TO PAY... OR GET OFF!

BUT, JIM—AREN'T YOU BEING A LITTLE HARD ON HIM? HE'S A FRIEND AND A NEIGHBOR. WHAT MAKES YOU SO CROSS LATELY—IS IT BECAUSE YOU'RE NOT FEELING WELL?

WHY DOES SHE TAKE JOHNSON'S SIDE? SHE OUGHT TO KNOW YOUR HEADACHES AND INDIGESTION LEAVE YOU IN NO MOOD TO ARGUE!

I REMEMBER WHEN MY BROTHER WAS CROSS AND IRRITABLE, HIS DOCTOR TOLD HIM HE HAD COFFEE-NERVES. HE SWITCHED TO POSTUM... AND HIS HEADACHES AND INDIGESTION WENT AWAY. HE SLEPT BETTER, TOO!

NONSENSE! NO NAME FOR IT! TELL HER YOU'D SLEEP A LOT BETTER IF JOHNSON WOULD PAY YOU WHAT HE OWES YOU!

I DON'T CARE WHAT YOU SAY DEAR... I STILL THINK YOU DRINK TOO MUCH COFFEE! WHY DON'T YOU SWITCH TO POSTUM FOR 30 DAYS, AND SEE WHAT HAPPENS?

OR, ALL RIGHT... IF IT WILL MAKE IT ANY EASIER TO LIVE WITH YOU!

CHESS! THIS WOMAN HAS ME LICKED! SHE KNOWS I CAN'T STAY HERE IF POSTUM COMES IN!

I'M SORRY... BUT I CAN'T RAISE ALL THE MONEY YET. IF I COULD I WOULD HAVE A LITTLE MORE TIME... UNTIL MY PAGES ARE READY TO SELL...

THAT'S ALL RIGHT, JOHNSON... TAKE ALL THE TIME YOU NEED, WE PARTNERS MUST STICK TOGETHER!

ONCE JIM SWITCHED TO POSTUM, HE FELT SO GOOD I DON'T BELIEVE HE COULD BE MEAN TO ANYONE!

**30 DAYS LATER...**

**MANY PEOPLE**, of course, can safely drink coffee. But there are thousands and thousands who cannot. And you may be one of these—without realizing it!

If for any reason you suspect that the drug caffeine in coffee is robbing you of sleep, upsetting your digestion, or undermining your nerves, why don't you switch to POSTUM for 30 days? You'll find it a delicious drink—and it may be a real help. It is economical and easy to prepare. There is nothing in POSTUM that can possibly harm you. A product of General Foods.

### Carrizozo Hardware Co.

Mr. and Mrs. M. U. Finley started to Glavis last week where Mrs. Finley intended to visit their daughter for a few days, but she became ill at Roswell and went to the hospital. The physicians recommended a complete rest, so Mrs. Finley is remaining in the hospital there for a few days. Mr. Finley attended the golf tournament while there. Many of Roswell's good players were defeated. Bill Beeson, Roswell, won the championship.

### Seaplane Always Will Be Fastest, Says Expert

St. Louis, Mo.—Land planes can never hope to attain the speed in the air that seaplanes can, according to Maj. James H. Doolittle, holder of the American seaplane and world's land-plane speed records.

"Paradoxical as it may seem," Doolittle observed, "airplane speed in the air is governed by its landing speed."

"The problems on a seaplane's landing gear," he said, "present comparatively smooth contact with the water with a suction effect, compared with the rough landing of land-plane wheels on a gravel runway, which, at extremely high speeds, has a tendency to turn the plane over."

The most powerful engine used in land-landing planes today is about 500 horse power, while a 2000-horse power engine was developed for the English seaplane which flew 400 miles per hour, the record. The land-plane record is 304 miles an hour.

### Attention Eastern Stars

Sister Edith Turner, Worthy Grand Matron of the Order of the Eastern Star of New Mexico and Brother Ernest M. Brickley, Worthy Grand Patron will make their official visit to Comet Chapter No. 29 September 29. At 6:30 a banquet will be served for Stars and their husbands and Stars and their wives at 65 cents per plate. Those desiring to attend will please make their reservations with the secretary, Mrs. M. L. Blaney as early as possible and not later than Thursday Sept. 27, 1934. After the banquet the members of the Order will report to the Chapter Room in the Masonic Hall for work. A cordial invitation is extended to all Stars whether members or visitors, in this jurisdiction.
