Village Report

Minutes of special meeting held at City Hall May 28, 1935, at 7:30 P. M.

Members present: Dr. F. H. Johnson Mayor, L. J. Adams, Shirley Phipps and Juan Martinez members. Morgan Lovelace clerk and Ira Greer, Marshal.

Absent: F. E. Richard.
Object of meeting to consider bids for laying new roof on City Hall building and to consider Water Superintendent bids.

Paul Wilson being the low bidder, the contract was awarded to him by unanimous consent of Council. Also by unanimous consent of Council it was agreed to have the work supervised by one qualified to do the same. Said supervisor to be paid at the rate of \$4.00 per eight hour day.

On consideration of the Water Supt. bids a motion was made by Juan Martinez that John W. Harkey & Son be awarded the contract for the ensuing year. Motion was lost for lack of a second.

A motion then was introduced by L. J. Adams that Don English be awarded the contract which was lost by lack of second. Shirley Phipps then made a motion seconded by L. J. Adams that bids be held over for further consideration until the next regular meeting night which fell on June 4, 1935.

Minutes of the regular meeting held at City Hall June 4, 1935 at 7:30 P. M.

Members present: Dr. F. H. Johnson Mayor, F. E. Richard, L. J. Adams, Juan Martinez and Shirley Phipps members. Morgan Lovelace clerk and Ira Greer Marshal.

Absent: None.
The minutes of the last meeting were read and approved.

On re-consideration of bids for Water Supt. for ensuing year a motion made by F. E. Richard and seconded by L. J. Adams that John W. Harkey & Son be awarded the contract. Motion carried.

A motion by L. J. Adams and seconded by F. E. Richard that a RESOLUTION AMENDING ORDINANCE No. 36 to conform to State Liquor Law be adopted. Motion carried.

The following bills were ap-

Grant Miller Wins by Knock-Out Route

A large crowd was present at the Lyric Theatre Wednesday night and witnessed a boxing card promoted by Mr. Dewey Stokes and Mr. A. H. Harrison. Grant Miller won by a knock-out in the 3rd. round, when he floored Jim Clark of Texas for the full count.

Frank Vega of Carrizozo also won when Tiger Underwood, St. Louis, failed to come back in the fifth.

Charles Mackey, Carrizozo, knocked his opponent in the first.

Corona Kid and Oklahoma Red went the full six rounds. Corona Kid won every round. Red took a lot of punishment only his fighting heart saved him from a knock-out.

Two negroes fought six rounds and kept the fight fans on their feet all the time.

Mr. Fred Morgan was the referee.

White Oaks News

The ladies of the White Oaks bridge club entertained their husbands and friends with a bridge party at the home of Mr. and Mrs. Jack Cleghorn last Wednesday Mrs. L. E. Hunt winning ladies' high prize, Clyde Collier men's high. Mrs. Cleghorn ladies' low and Phelps Walker men's low. Delicious potato salad and sandwiches were served.

White Oaks ball team vs. Ft. Stanton next Sunday. Good game is promised.

The McNutt family are moving to their ranch this week.

L. E. Hunt was a Carrizozo business visitor yesterday.

Chevrolet Productions

Productions of Chevrolet passenger cars and trucks will continue at Peak schedules through out June, and probably considerably longer. W. E. Holler, vice president and general sales manager of the Chevrolet Motor Company, announced this week, following his return from a trip through the sales territory, where he discussed with dealers and the wholesale organizations the outlook for the next 90 days.

June output projections, Mr. Holler said are higher than June of last year, and full capacity of the manufacturing units and the company's 10 assembly plants will be required to carry out the program. This assures a wide spread of employment at a period when production normally begins to taper off. He added that it is company's hope to maintain sales at such a level as to repeat the unprecedent achievement of last year, when Chevrolet sales in the second six months eclipsed those in the first.

"Several factors noted in the field justify optimistic predictions," said Mr. Holler. "In the first place, Chevrolet dealers have on hand a large bank of orders, which the plants are now working hard to fill. Deliveries are coming through much more promptly, and this fact is naturally having a favorable effect on the number of orders recieved.

"More than a dozen executives from Detroit are now out in the territory, addressing Chevrolet wholesale and retail personnel in all parts of the country. They are in constant touch with us, and the reports they have relayed in all point to continuation of business at or near its present peak.

"In the final analysis, the improvement can be traced clear back to the farm, which of course is fundamental in any picture of national prosperity. Farm income in most sections of the United States has shown a substantial gain over 1933 and 1934. The outlook for business from farmers would be good even without the addition of the government benefit money which have been pouring into rural sections.

"There is no line of business

Call for Bids

Notice is hereby given that the Lincoln County Board of Education will receive sealed bids for contracts for the transportation of school children in the following districts for the school year 1935-36:

District No. 1, Lincoln: route No. 1 and route No. 2
District No. 2, San Patricio: route No. 1 and route No. 1 A and route 2- High school bus to Hondo
District No. 3, Ruidoso: high school bus to Hondo
District No. 4, Picacho: route No. 1 and route No. 2 and high school bus to Hondo
District No. 6, Encinosa: route No. 1

District No. 9, Ramon: route No. 1 and route No. 2

District No. 14, Jicarilla: route No. 1 and route No. 1 A

District No. 15, Alto: route No. 1

District No. 21, Ancho: route No. 1, route No. 2, route No. 3

route No. 4

District No. 28, Capitan: route No. 1, route No. 2, route No. 3, route No. 4

District No. 30, Lon: Gra: e school route No. 1, route No. 2, route No. 3, route No. 4

District No. 32, Arabela: route No. 1, Blackwater one) and route No. 2

District No. 34, Asperus: route No. 1

District No. 34, Erwin: route No. 1

District No. 35, Stetson: route No. 1 and route No. 1 A

District No. 45, Macho: route No. 1

All bids must be in the office of the Lincoln County School Superintendent at Carrizozo, New Mexico, on or before 7 P. M. June 28, 1935.

In awarding contracts the Board will consider the equipment of respective bidders and reliability of proposed drivers. The amount to be paid for said contracts will be governed by the budget allowance for respective routes. All bids must be stated in dollars and cents. All truck drivers will be required to carry liability insurance. Details concerning these routes may be secured from the Local Board of Directors of respective school districts or from the office of the office of the County School Superintendent.

The County Board of Education reserves the right to reject any or all bids submitted.

Lincoln County Board of Education

Secretary

J7-28

where the flow of money will not be favorably affected by the rising income on the farm," he said. "Our dealers will share in the increase, too, through the sale of the new cars, used cars and trucks."

An especially favorable sign, he added is the unusually high percentage of truck models among the passenger cars ordered this season. This condition confirms the prediction made by hotels and tourist agencies, to the effect that 1935 would see a resumption of motor touring on a scale so great as to surpass the highest previous record.

"This resumption of touring by the public is a good omen for business," he said. "It is one the most reliable telltales regarding the status of the public purse. When every other car encountered on the highways bears a license from some other state, you can write it down without fear of contradiction that things are decidedly looking up."

To Broadcast Over KOB

The K Circle B Serenaders are making a "mythical tour" of New Mexico and their "appearance" at Carrizozo will be over Radio Station KOB, Albuquerque, New Mexico on June 10th.

These popular KOB entertainers broadcast for thirty minutes from 7:30 to 8:00 P. M. each Monday and Friday. Their program consists of old time music and a lot of fun.

The present series of broadcasts is a scheme to advertise the outstanding cities of the State of New Mexico and Carrizozo is fortunate in having been selected as one of these cities to appear at the head of the list.

Roswell Made Work district

Las Vegas will be headquarters for district No. 1 in New Mexico. Counties in the district are: Colfax, Union, Mora, Harding, Quay, San Miguel and Guadalupe.

Roswell has been designated as headquarters for the second district, including Lincoln, De Baca, Curry, Roosevelt, Chavez, Otero, Lea and Elddy counties.

District 3 headquarters will be at Albuquerque with jurisdiction over San Juan, Arriba, Taos, Sandoval, McKinley, Santa Fe, Valencia, Bernalillo and Torrance counties.

Deming will be headquarters city for the fourth New Mexico district, including Catron, Socorro, Grant, Sierra, Hidalgo, Luna and Dona Ana counties.

Cobras Added one More Victory

Manager Sabino Vidaurri took his team to San Antonio. N. M. last Sunday, the boys played a close game, the score being 5 to 3 in favor of Carrizozo. Sally Ortiz pitched a real game and had splendid support from his team mates.

San Antonio will play here a return game next Sunday, June 9.

This is going to be a hard fought game so come and root for the home team.

A reasonable admission will be charged.

Sisters Mary Claudia, and Mary Pascal who have been teaching at Santa Rita will leave tomorrow for Clovis and Albuquerque. Sister Mary Claudia will spend the summer at Albuquerque while Sister Mary Pascal will go to Cincinnati O.

THIS GENUINE FRIGIDAIRE '35

EQUIPPED WITH THE SUPER FREEZER

Model 3-35

Price \$107.50

Come in and see this remarkable value. See how the famous Super Freezer of the Frigidaire '35 gives you Complete Refrigeration Service. It provides the right kinds of cold for every purpose—all in the same cabinet. There's fast freezing for making ice cubes and desserts; frost storage for meats and ice cream; extra-cold storage for keeping a reserve supply of ice cubes; moist storage for vegetables and fruits; and normal storage for foods requiring dry, frosty cold. Don't fail to visit our showroom and learn how easy it is to own one of these beautiful new Frigidaire '35's.

Porcelain interior with beautiful DuPont exterior finish. Equipped with the famous Super Freezer. Interior light. Hydrator. Automatic ice tray release. Automatic reset defrosting.

The Lucky Lawrences

By KATHLEEN NORRIS

Copyright by Kathleen Norris
WNU Service

SYNOPSIS

The luck that had brought the Boston Lawrences to California at the beginning of the gold rush has deserted the present generation. From a 4,000-acre ranch, their holdings have shrunk to a small farm, and the old family home in Clipperville. The death of their father forced the three eldest children to work so that Sam and little Ariel might continue their education. Phil, now twenty-five, had gone into the iron works, Gall to the public library and Edith to the book department of Clipperville's largest store. Seventeen-year-old Ariel is becoming a problem, and Phil is fascinated by "that terrible" Lily Cass, whose husband has deserted her. Young Van Murchison, son of a wealthy family, returns from Yale, and Gall has visions, through marriage with him, of the turning of the Lawrence's luck. Dick Stebbins, Phil's best friend, has the run of the house. Ariel is sneaking out of the house at night for joy rides. Phil suggests to the girls' consideration, that they invite Lily Cass to the house. Gall goes with Van for a week-end with the Chippes, his uncle and aunt.

CHAPTER IV—Continued

Ariel, after some interested questions regarding the day's plans, had said suddenly:

"Did you notice what happened to the Challenge last night?"

"No," Gall had said with a puzzled, expectant glance.

"I got rid of it!" Ariel had announced in a conspirator's tone.

"Got rid of it? What for?"

"Because," Ariel had murmured, with a cautious glance about for possible eavesdroppers, "because it said that Mr. and Mrs. Arthur Chipp had gone down to their Los Gatos place on Tuesday and were opening it for the summer."

"Oh—" Gall had stammered, with a suddenly deepening color and a sickly laugh. "Oh—"

Her voice had dropped flatly. She, the mentor, the guide, the example of this little sister, had stood stunned and detected, trying to find amusing what was a most painful and humiliating moment.

"I don't blame you," Ariel had said. A quick protective instinct to add lie to lie had shaken Gall. But she was too unused to falsehood. She had stood silent, presently saying in a troubled voice:

"I was sorry—to have to do that. But it isn't—it isn't as if Phil were my father. He has no right—and Edith has no right—"

"Neither of them," she had recommenced, with a little difficulty, "neither of them understands how much—how awfully one wants to go places—do things."

"Phil, who runs around with Lily Wilber!" Ariel had helped her scornfully. And the younger sister had given her a sudden, passionate kiss. "I love you, Gall!" Ariel had said quickly.

But this rare demonstration from cool little Ariel had brought no responsive happiness to Gall's heart. To have Ariel protecting her, abetting her in deceit, in dealing with what was not open and fair, had given her a wretched sensation that the solid ground was falling beneath her feet.

Even the scornful reference to Philip had alarmed her. After all, Phil was the head of the family; Phil was sacred. There was no law nor order anywhere if Phil was to be scorned.

Driving along the country roads that were smothered in spring beauty, Gall's spirit rose. Nothing could prevent her from having a week-end in a Los Gatos country house now. On Sunday evening she would join the family at the dinner table, on Monday morning she would be back at work, and everything would return to normal. But she would have this wonderful memory as so much pure gain.

She was always in a gale of high spirits when she was with Van, anyway; it was impossible to be otherwise; he was the gayest of the gay.

She questioned him as they drove along.

"Who else will be on this house party, Van?"

"On this house party," Van responded cheerfully, "will be, first, mine host and his buxom wife, Dame Martha. They will draw the ale, heap oaken logs in the great fireplace—"

"Oh, for heaven's sake, you idiot!" His shout of joyous laughter.

"No, there'll be the Chippes," he began again seriously, "and three or four good auction players—they have to have those. They'll play all this evening, all tomorrow morning, all tomorrow night, and all day Sunday. In between games they'll eat, drink and ask if anyone wants to swim badly enough to take the bother of undressing."

"Then there'll be Lucia Tevis; she's a cute kid; she's eighteen. She goes to Vassar next fall."

"Miss Mary Tevis' niece?"

"Yep. Then there's Mary Spence; she's from Boston, visiting Lucia; she's a keen girl, too. And Jim Speedwell and Fred Hunter—Fred's a polo man, but he broke his arm, so he's resting—and Bill Billings, and maybe his sister, and the Duchesses—Lenore Phillips—Mrs. Phillips. She was Lenore Murchison."

"She's your half-sister?"

"Yep. Step-sister. My mother married her dad, when she was about—oh, well, she's a year younger than I am. But she's living mostly with her grandmother. She's getting a divorce!"

They drove through Los Gatos, sleepy in late afternoon sun and ridged with wooded hills, and turned south-

west on the boulevard that led to the ocean, twenty-six miles away. The car mounted slopes, rolled smoothly under mighty oaks, left the paved highway for a comfortable dirt road.

Few houses were visible now. But the gates bore names: "El Nido," "Hillways," "Jackson Farm Road," "Hidden Paradise Road." The gate into which Van at last turned the car was marked "Far Niente."

There were fruit trees here, scattered in among the natural forest trees; there was a tennis court, dappled with shade and light and draped in a banksia rose vine heavy with golden bloom. Flower scents were everywhere, beauty was everywhere.

Under a loaded, rose-vine, on one of the porches, four persons were playing bridge. Gall, as she and Van approached, recognized one of these as her hostess.

Mrs. Chipp looked up at them sharply, and without changing her position concentrated her cards in her left hand and stretched a hand toward Van.

"Oh, hello, dear! How'd you do, Miss Lawrence?" she said, in a quick aside. "Van, they're all swimming, and there's nobody here to—Excuse me just one second, Hillet," she interrupted herself, speaking to one of the players. "Van," she went on, "I'm not sure where the Duchesses has put Miss Lawrence. But you take her up to the girls' cottage and just let her park herself somewhere until the Duchesses explains. Will you do that, like a darling?"

Resolutely, Gall would not let herself feel that it was rude, that it left anything unsaid, undone.

"I'll be all right!" she said, with a smile and a nod, walking off with Van. Mrs. Chipp made no answer.

Van led the way to one of the cabins, a brown, enchanting place with geraniums and lobelia in the window boxes, and a wide open door into a central sitting room.

"Take any of these rooms—gosh, they're all full of suitcases!" Van said, peering in at doorways. "Here—here's one—this must be you. Make yourself comfortable. Are you going to swim?"

"I think not. Not—well, maybe I will!"

She decided against the swimming, and walked out to meet Van, ten minutes later, looking her prettiest in a white frock, white shoes, a white hat.

The boy lingering in the garden path, waiting for her, was trim in a black bathing suit, with a towel across his shoulders.

Boys and girls, as wet and sleek as seals, were sprawled in the late sunshine on the grassy ramp beside the pool. They were drinking a pale yellow drink from tall ice-filled glasses; a cocktail shaker stood on the gram.

Gall found herself the only person who was not drinking in the group. The circumstances seemed to alienate her from them. She listened, smiled, made herself appear at ease as a low-toned conversation that had evidently been interrupted was begun again among the girls.

The men merely rolled in the sun, yawned and exhaled monosyllables.

"You did not," "Quit that!" "Say, listen . . ." Gall heard, over and over again.

The girls, Lucia, Mary, and Lenore, murmured interestedly.

"Oh, come on," said the Duchesses suddenly when there had been a good deal of this. "We'll never get dressed!"

Immediately they were all running down the path to the cabin, Gall with them. The only one who took any notice of her was the Boston girl, named Mary Spence. Mary spoke now and then kindly to Gall as they all began a flurry of dressing for dinner.

They left their bedroom doors open and ran back and forth lightly clad or not clad at all. Lenore and Lucia shed their bathing suits on the strip of lawn outside the cabin, and slipped into thin cotton kimono, brief and almost transparent; to wander about brushing their hair, rubbing themselves with towels, and gathering garments and cosmetics.

Gall, who was not going to change, sat on the upper porch step a few feet above the path and stared at the beauty and luxury of Far Niente as it lay on the slope below her, and pretended to be satisfied and absorbed in what she saw. She knew now that all the vague, shy fears she had felt in anticipating this visit were going to be more than justified. She knew that Mrs. Chipp was not going to be nice to her, that the girls were entirely dif-

ferent to her, and that she should not have come.

Her clothes were not right, her training was not right, her background was not right. She simply did not belong here; and they were all more or less conscious of it. This nice Mary Spence, herself a stranger in the group, was being cordial merely on general principles. It was nothing to her that these Californians had social distinctions between themselves; they were all the same to Mary Spence.

"I shall have to work!" Gall told herself grimly. She must work, talking, smiling, keeping herself occupied, for all this endless evening and all tomorrow and most of Sunday. It sounded like an eternity.

Suddenly she noted two of her companions in the cottage, Lucia and Lenore, walking with two boys named Bill and Jim, down the path to the house. They must have left the cottage by the back door, which faced toward the men's cabin. Perhaps the boys had called them.

That left only Mary in the house, and if she also slipped away Gall would have to go down to dinner, at some spot unknown, all alone. Her heart began to beat hard in nervous anticipation.

Presently a middle-aged woman came up the path toward her, and with a not unamiable half smile for Gall stood still, a few feet away, calling, "Mary!"

Gall recognized her as one of the card players.

"Yes, Mrs. Billings!" Mary called, putting her head out of the porch door.

"Mary, you know what I asked you to do?" the woman said.

"Oh, yes!" Mary answered.

"Will you do it now, dear?"

"Oh, yes; instantly!" said Mary, running out of the cabin. She and Mrs. Billings, conferring, went rapidly down the path together. Gall swallowed once, with a dry throat. Then she got up and began to saunter slowly after them.

She encountered the boy named Fred Hunter in the path, and fell upon him with all the boldness of desperation. She laughed with him, narrowed her blue eyes in their thick black lashes at him, and when he said somewhat nervously that he had been going up to the cabin to wake Van, whose aunt felt sure he had fallen asleep, Gall said gaily that she would go, too.

They awakened the drowsy, surprised Van, and they all laughed together, and Gall, still holding firmly to the now manageable Fred, waited for Van on the porch of the men's cabin. She walked down to the house between the two of them, disposing of Van's good-natured attempts to shake young Mr. Hunter by a determined, if light, hold upon the latter's arm.

At dinner, which began immediately, she was between the two young men. So far so good.

But it was work. It was bitter, hard, endless work; all struggle, no relaxation anywhere. She was conscious of carrying a heavy handicap.

The girls were all against her. They ignored her; they looked bored when she spoke; they deliberately carried the conversation into channels where she must be ill at ease and unfamiliar.

Gall fought on. Her cheeks blazed, her blue eyes shone. She lost all consciousness of Van as the man for whom she was beginning to care, of the beauty of the place and the summer night, of the novelty of dining here with these fashionable folks. It was all a blur, through which she was determined to hold her own despite them all.

When Lenore, at the end of the long meal, during which they had all eaten, drunk, and smoked too much, said provocatively to Van something about needing him to conspire with her upon something that would surprise the others, Gall countered by saying that she and Mr. Hunter wanted to get up to a charade.

"That's what they call it now, is it?" one of the boys said, and Gall joined in the loud laughter. The infuriated Hunter was by this time incapable of any emotion, even surprise, and he and Gall went down to a marble bench on the lawn, where she held him as long as she could, listening to his fatuous vague words, and laughing and keeping him laughing as if it were the greatest fun in the world. Later she annexed Bill Billings, and fell into a deep-toned conversation with him about almanacs and air records, pretending to be so absorbed in the conversation that when Van came to get her to dance she had to call a few last words over her shoulder to Bill.

They were dancing on a sort of platform, with vines trailed up over its lattice top. The moon shone down between the leaves, the radio droned and choked and droned again. Gall danced well, and loved dancing, and was happy for a few minutes.

Suddenly they were all disputing as to whether they should play bridge or go down to Mockerson's. Mockerson's was a roadhouse over on the Halfmoon Bay road, sixty miles away.

"Come on, let's go dance at Mockerson's! Maybe the place'll be raided."

"I am the captain of my fate, folks, I am the master of my soul!" Van observed, rising with a wine glass in his hands. "In the fell clutch of circumstances, what'd you think I do? D'you think I wince, or cry aloud? I don't!"

He was hailed down.

"Well, do we go to Mockerson's?" "Listen. Let's not, and say we did!" "Well, I'll tell you a story!" Jim Speedwell said unexpectedly. He told it.

TO BE CONTINUED

As Hi Ho Sees "Humility"

"Humility," said Hi Ho, the sage of Chinatown, "is often the disguise of an arrogant spirit waiting to gather strength for a conflict."

Southwestern Briefs

Reports from all sections of Arizona where quail thrive are very favorable for a good hatch this year and range and water conditions are seemingly excellent, according to S. L. Lewis, state game warden.

Dona Ana county has been named one of the counties in New Mexico in which Reclamation Camps are to be established immediately, it was announced by officials of the U. S. Reclamation Service.

Five hundred and sixty-three forest fires in New Mexico burned over a total of 12,335 acres in 1934, according to figures released by Mr. Stanley F. Wilson, who is in charge of the fire work in Region Three.

According to information received at the Albuquerque office of the U. S. biological survey, the force of federal game wardens in New Mexico will be increased next fall as the result of additional funds becoming available.

A new Hopi village has been constructed at Mesa, Ariz., and the craftsmanship of this picturesque and superstitious tribe from northern Arizona has been transferred to the southland for the first time in Arizona history.

Jesse B. Wright, Coconino county engineer, has announced the completion of a half-mile road leading from the Oak Creek highway to Fort Alexander M. Tutill, summer encampment site of the Arizona national guard.

Some 800,000 fingerlings are being planted in streams in the north part of New Mexico by O. W. Stanford and Frank Bengard, superintendent of the Parkview hatchery. Half a million fish will be planted in the El Vado dam lake.

Governor Clyde Tingley has been advised by Secretary of Interior Ickes that New Mexico's daily oil production quota for June will be 4,500 barrels over the May allotment. The June quota was fixed at 55,000 barrels daily production.

Jerrile W. Lee, Secretary of the Arizona Wool Growers' Association, has announced that during the conference of officials and livestock men in Salt Lake City, federal authorities agreed to establish three huge game refuges in Arizona.

Mrs. Florence Van Bibber, Huntington, W. Va., received the first Doctor of Philosophy degree the University of Arizona has presented to a woman, at commencement exercises, May 29. Mrs. Van Bibber received her Ph.D. in educational psychology.

In preparation for the 1935 trout season in Arizona, 150,000 finger-length trout have been placed in the Mormon Lake rearing ponds and 200,000 have been placed in the Oak Creek rearing ponds, according to S. C. Lewis, state game warden.

Commencement exercises at New Mexico Aggies, in Las Cruces, were held on Queenberry field at State College, May 28, with Dr. Bradford Knapp, president of Texas Technological College of Lubbock, Texas, delivering the commencement address.

Degrees were presented to twenty-three seniors and one graduate student in the commencement exercises at the New Mexico School of Mines. Dr. H. C. Gossard, president of the New Mexico Normal University, delivered the commencement address.

Research into the twig blight that has affected 30,000 acres of timber in Prescott national forest, will be conducted at Prescott by the Bureau of Plant Industry, division of forest pathology. An office has been opened by the bureau with Dr. W. H. Long of Albuquerque, N. M., in charge.

Thirteen counties in Arizona will participate in a systematic attack on grasshoppers this spring with 200 tons of poison available for the eradication of the pests. P. H. Ross, director of the Agricultural Extension Service at the University of Arizona, has announced.

New Mexico State Land Commissioner Frank Vesely has announced that for the first time in twelve years both Indians and whites are satisfied with the proposed Navajo reservation extension in McKinley county. An agreement was reached at a conference of county, state and federal officials and Indian representatives.

Lea Rowland of Roswell has been named the Works Progress Administrator for New Mexico by Harry Hopkins, relief administrator. In his series of announcements of federal projects.

The Arizona motor vehicle division reported collections of \$277,773.76 in net gasoline taxes were made during April. This was an increase of \$33,373.69 over April, 1934.

Nationally known fire fighters, including Chief Harry C. (Smoky) Rogers of Chicago and Colonel Clarence Goldsmith, Chicago engineer and hydraulic instructor, will be among those attending the thirteenth annual convention and sixth fire college of the New Mexico State Firemen's Association when the state convention convenes in Santa Fe June 20-22, inclusive.

Choosing Raton as their 1935 convention city, and naming State Senator B. A. Jones, president of the Citizens bank of Clovis as president, the New Mexico Bankers' Association opened their twenty-fifth annual convention in Roswell, H. H. Ault of Santa Rosa was elected vice president; Mrs. Margaret Barnes of Albuquerque was chosen to serve her twelfth term as secretary and A. E. Hunsinger of Vaughn was named treasurer. Floyd Childress, B. H. Keyes and A. E. Ramsower were named as members of the executive council.

Giant Cinnamon Trees Were Felled to Make a Jungle Home.

Prepared by the National Geographic Society, Washington, D. C.—WNU Service.

RANCH life in the wilds of Ecuador was the dream of an adventurous American couple.

Together they have created a delightful home in the middle of an equatorial jungle. The Hacienda Rio Negro is located on the eastern slopes of the Andes, about two degrees south of the equator, at an altitude of some 5,000 feet, on the north side of the Pastaza valley.

The site itself was a tropical paradise. A broad, beautifully wooded valley rises in range after range of hills on each side of the falling Pastaza in a series of table-lands.

The most delightful feature of this equatorial Eden is the fact that there are no mosquitoes, and all noxious insects seem to be reduced to a minimum.

The nearest town, post office, and general supply depot—Banos, whose white-walled, red-roofed houses cling with a stolid, and several times misplaced, trust to the base of the Black Giant, Tungurahua, a beautifully shaped volcano.

Leaving the lava-swept base of Tungurahua at Banos and the semi-aridness of the Andean cradle, one progresses down the valley of the Pastaza, past the Falls of Ayoan, higher than Niagara, and finds oneself getting gradually deeper and deeper into the fringe of the jungle.

At last, descending from El Mirador where one sees a large section of the Pastaza river valley spread out, partly occupied by the hacienda, one emerges from the gorgeously orchid-lined trails into open pastures.

Years before, an Ecuadorian had partially cleared some of the land and had built a four-roomed house in what he proudly called the "American style." The heavy tile roof had fallen in; the rotten timbers which supported it, sagging with fatigue, had finally given up the struggle. A bamboo shack attached to one end of the house was alive with cockroaches.

Keep in Touch With Radio.

Everything had to be done with what resources were at hand. Immediate purchases were impossible, for there were no convenient shops. Consequently they learned to improvise, even when it was a question of creating such things as a forge, a blower, an efficient water heater and pressure tank, a water wheel to run the dynamo to charge the radio battery, a power-transmission belt, dressing for the belt, or kitchen drainboards out of roofing zinc.

The whole hacienda, with its house and furnishings, may be put down as a one large improvisation. Radio links the jungle clearing with a remote world. During one small political uprising in Guayaquil they heard the news broadcast from New York before the newspapers in the mountains had published it.

The natives regarded the set with superstitious awe; but were more impressed by being able to hear programs from the mountain cities of Rio-bamba and Quito than they were by European or North American programs. All things outside Ecuador were foreign to their experience, but to hear music from towns which many of them had visited was something at which they could really marvel.

Fortunately the special osier fiber known as mimbre was found growing near the ranch. It was readily adapted to the making of wicker furniture. In an incredibly short time strongly built, comfortable chairs, a chaise longue, and a table were fashioned by a native cabinet maker.

Passing Indians brought sacks of kapok, which made soft cushions for the chairs, mattresses for the beds, and pack blankets for the mules. The scarlike shawls, worn by the Indian women of the mountain region are used as cushion covers and curtains.

These shawls, hand-woven of white cotton with a geometric design in indigo last indefinitely and can be washed as often as necessary.

Making Their Garden.

There is no glass in the house windows. Heavy shutters of wood can be closed when the rains beat down too heavily. The temperature is so constantly mild that no further protection is needed. By dint of much hard work, a complete water system was finally installed. A flume of hardwood and bamboo brings water from a stream on the hillside back of the house to a pressure and settling tank, also built of wood. From this tank the water is piped into the house.

An efficient system for heating the water was made from two 50-gallon drums. The bathroom is lighted by candles set in sconces made of hollow bamboo stems.

One of the first things the young pioneers did on arriving at their new ranch was to look for land which had good drainage and which was not too far from the house, to clear for land for the planting of a vegetable garden. They found a shelf of good land overlooking the river and set men to chop down trees, clear away brush, and trace it as far as possible from roots. Carrots, beets, beans, spinach, and radishes thrive, but lettuce and cabbage grows very tall—into small trees, in fact—and develops disappointingly small heads. Tomatoes flourish. Even stray seeds dropped around the kitchen door grow into strong, healthy plants. The small pepper, all so popular in Ecuador, grows equally well.

Papaya trees give delicious melons for the breakfast table. Bananas, of course, were planted immediately. Orange and tangerine trees grow nearby; also lemon and lime trees. Wild guava trees bear fruit just over the fence.

There is also the naranjilla, which is an orange-colored fruit covered with a prickly, hairy coat. The inside of this fruit is a greenish-yellow color and is filled with tiny seeds. One species is tasteless, but the juice of the other, when ripe, has a delicate, distinctive aroma and flavor, which may be indicated vaguely to the sense of taste by mentioning a combination of orange, pineapple, and strawberry. It makes a refreshing hot-weather drink, and also a delicious pie similar to a lemon meringue. Palatable foods are kept by means of a homemade, water-cooled, bamboo refrigerator. The mountain stream which is diverted over this refrigerator box keeps butter hard and vegetables fresh and crisp.

Since the ranch is located nine miles from the end of the automobile road, of necessity transportation is by horses and mules. The tortuous trail, sometimes very muddy and rocky in spots, is everywhere spectacularly beautiful, as it winds around the spurs and ravines of the Pastaza Valley gorge. Flowers are always in bloom, sometimes orchid, wild guava blossoms in their season, or lilacs.

Brilliantly plumaged birds fly overhead, their calls echoing in the canyon walls, and occasionally a startled wild animal darts across the path. Beyond the few scattered little ruins and settlements immediately on the trail, the unknown wilderness stretches on either side of the Pastaza for hundreds of miles. There are hidden valleys and wooded peaks where no white man has ever been and very few Indians have penetrated.

All the Comforts of Home.

In this wilderness two modern Crusoes have achieved the comforts of the white man's civilization. Their dinner is served on a hand-rubbed mahogany table. China is native-made and hand-decorated in a single design which resembles that of Italian pottery. The shawls are effective as curtains and stand out brightly against the soft, silvery gleam of the cinnamon-board walls.

Against the dark wall of the living room, the paintings of a Quito artist emphasize the rich, bold tones of native scenes and native faces. Between the book shelves which flank one end of that room is a built-in divan designed by one of New York's foremost stage designers. It is upholstered in the downy kapok of the woods and covered with the weaves of nimble native fingers. A wide veranda incloses the front and sides of the house, and another of generous proportions outlines the U between the rear wings.

Outside, in the "working" grounds, is a blacksmith shop, with an improvised forge and blower, to which the stubborn little pack mules and the riding horses are led for shoeing. Across the driveway is a peon shack, made of split bamboo and covered with thatch. Near the big gate is a corral built on the western style, by using whole bamboo poles instead of pine timbers.

The big gate which leads to the hacienda house from the Pastaza trail was an achievement in hand labor. To the top of the huge ligum-vitae post, 15 feet high and 20 inches square, the men hauled up on runners a cross-beam weighing 1,700 pounds. Sheer manpower, lacking the assistance of machinery, fugged and sweated that massive lintel into place all one afternoon. There it is now, etched in the moonlight, proclaiming to the jungle and the trail the results of two years' effort.

Rebuilding Rural America

Above, Dr. Tugwell Leads to Cattle Slaughter in the West. Below, Left to Right, Henry Ford, M. L. Wilson and R. G. Tugwell.

By WILLIAM C. UTLEY

MOving day is fast approaching for hundreds of thousands of America's most destitute farmers since President Roosevelt declared his intention of rebuilding rural America and moving poverty-stricken families into new homes where they may have a considerably better chance to make a living and find happiness. The moving bills will be paid out of Mr. Roosevelt's \$1,800,000,000 work relief allotment, and the boss foreman of the movers will be Rexford Guy Tugwell, under secretary of agriculture and pride of Columbia university, who thinks he can lift planes easier than the farmers can lift mortgages.

For the eight main types of relief work to be done there are some 60 federal departments and divisions already existing to administer the funds and three entirely new divisions are being created. The one which deals with the retraining of the agricultural map of the United States under Tugwell is the rural resettlement division. The recent exodus of 200 farm families of the north central states of Alaska, there to begin life anew with the state-wiped clean, was only a curtain-raiser to the main bout against rural poverty and privation which Mr. Tugwell and his forces will conduct.

Single farm families who have conducted something of an isolated battle against overbearing odds of depression, drought and poor land, will be moved into new and better lands and given a fresh start at Doctor Tugwell's discretion. By the same token, whole area groups of farm families who have collectively—and in many cases literally—bitten the dust will be gathered into Doctor Tugwell's moving van and rolled away to new homes where the land and the life will give them something more closely resembling an even break. Pale and underweight communities, suffering from economic pip in their industrial sections, may be moved to where change of climate and a few honest dollars will revive them; if they can't be moved, new and healthy industrial sections will be grafted (no double meaning intended—perish the thought!) into them.

Break for Slum Dwellers.

Citizens who have found the going a little bit too tough in the slum sections of the larger cities will be moved 20 or 30 miles out in the suburban, semi-rural territories, given small plots of land on which to raise three squares a day and found factory jobs where the hours are short and the remuneration adequate.

Officially known as the Resettlement administration, Doctor Tugwell's division has been allotted \$10,000,000 by the President for administrative expenses. What further funds are necessary for each authorized project will be allotted at a later date.

President Roosevelt himself outlined the purposes of the resettlement by dividing them into three brackets:

First: To administer approved projects involving resettlement of destitute or low-income families from rural and urban areas, including the establishment, maintenance and operation, in such connection, of communities in rural and suburban areas.

Second: To initiate and administer a program of approved projects with respect to soil erosion, stream pollution, seacoast erosion, reforestation, forestation and flood control.

Third: To make loans as authorized under the emergency relief appropriation act of 1935 to finance, in whole or in part, the purchase of farm lands and necessary equipment by farmers, farm tenants, croppers or farm laborers.

In carrying out these threefold purposes, Mr. Tugwell was authorized by President Roosevelt to acquire in the name of the United States government any real property which he deems necessary. In the Resettlement administration are incorporated the en-

tire personnel and funds of the land program of the Federal Emergency Relief administration. This land program has already been extended into 25 of the states and includes in its operations the movement of farmers and their families to the Matanuska valley of Alaska.

Never Tried Before.

No projects such as these have been carried out by any other nations, according to M. L. Wilson, assistant secretary of agriculture.

"This only nation-wide planning with the conscious idea of removing land too poor to farm from cultivation is being done in the United States," he asserted.

Commenting on the resettlement program, he said that there are "approximately half a million farm families who are unable to produce anything to be exchanged. Their homes, which often average three persons to a room, are on the poorest grade of submarginal land.

"The land must be shifted to better uses. It has been tradition in this country to get land into ownership, but the land on which families are falling because of its poor quality is partly cut-over timber land, areas in the semi-arid plains, land whose surface soil has been washed away by erosion, etc. It is largely land which is not adapted to private ownership. It is breaking its private owners. The thing to do is to bring it back into the hands of the government.

"The solution is the gradual transfer of people on it to what we have been calling rural-industrial communities." Assistant Secretary Wilson estimated that three-fifths of the people on this kind of land have some idea in mind concerning what they would like to do about it and have a little money with which they might carry out their plans. The other two-fifths will require assistance from the Resettlement administration.

"Some families will be moved to better land," Mr. Wilson explained. "A richer farm may be cut up into smaller tracts. For instance, a 320-acre farm may be divided into 32 ten-acre farms. Such a move will be made only where it will not particularly increase agricultural production for sale.

"Then we'll try to get an industry located thereabouts. The people who have been relocated will find employment and will earn wages. The government will sell them land and houses. We can let them put their common labor in on the building of the houses. Farmers have their option. They make their own decisions whether to stay or go."

New Kind of Community.

Mr. Wilson even went so far as to say that there must be a great deal of shifting of population to maintain the democracy, adding that considerable economic planning would be required.

He said that a new kind of community, the like of which this nation has not had, will be created.

"They will furnish a life akin to that of European villages where they raise their own food and work for wages," he declared. "It is a new type of industrial setup, in which industry to quite an extent is decentralized."

Mr. Wilson said that the economic system was developing more leisure time, and that some constructive use of it must be devised or we will degenerate.

"There are spiritual and ethical values which come from contact with the soil," he said. "I don't believe you can find anything to which everybody is adapted save gardening and flowers. Practically everybody is interested in growing things. There is value in this process of raising a garden. You produce something used by the family. If we develop in this direction, all the workers can be absorbed into industry at a five or six-hour day.

"This is not socialism. It goes counter to a great many elements of socialism. Most of the working people would own their own homes and plots

of land in the readjustment outlined. As it develops and becomes widely known, it will become very important in the program of the liberal elements of society."

About 75,000,000 acres of poor submarginal land were recommended for retirement by the national resources board last winter. The inhabitants of this land were said to be "characterized by incredibly low standards of living."

Resettlement is hardly the answer to the nation's farm problem, in the opinion of the 150 delegates to the conference of agriculture, industry and science, which met at Dearborn, Mich., to honor Henry Ford for his contributions to "chemurgic" farming and to sign a "declaration of dependence upon the soil."

Principal speaker in the conclave in the town that Henry Ford built was Louis J. Taber, master of the National Grange, who urged farmers to grow every plant and every product that can be grown in the United States. He said, "The American farmer hopes this conference will set in motion influences that will do more for rural life than the politician has ever been able to accomplish."

"Chemurgic" Farming.

What the conference, sponsored by Chemical Foundation, suggested as the remedy was, of course, "chemurgic" farming. This would shorten the distance between production and consumption by having the farmer once more assume more of the elemental services and processes, and claims that chemistry will drive man back to the farm, just as the machine ago took him from it.

"Chemurgic" farmers would bend much of their efforts to raising farm products for purposes other than food. Farm production would need to be doubled if agricultural alcohol replaced petrol as a motor fuel, the conference concluded, and it would open up a new farm income of \$5,000,000,000 a year. It was said that no unsolved technical problems stood in the way "although important improvements in processes can confidently be expected."

It was only a few days later when 4,000 farmers, mostly from the South, marched (for the larger part in railroad trains and automobiles) in a pilgrimage to Washington, to express their thanks personally to the President and the AAA for what the administration is trying to do for them. Thinking they smelled a rat, opponents of the New Deal, on the floor of the senate and elsewhere, openly charged that the "marchers" were hand-picked by the AAA officials for a stunt to arouse public sympathy for the program, and that the farmers' traveling expenses were paid by the government.

At any rate the 4,000 farmers cheered the President wildly when he denounced to them the "Rats" who criticized the operations of the AAA. They expressed themselves to a man as being heartily in favor of the proposed AAA amendments, some of which even propose to make it necessary for every manufacturer, wholesaler and retailer of food products to obtain a license from the Department of Agriculture.

Such amendments would put in the hands of that department the prescribing of rules governing business practices, advertising and the general regulation of the manufacturers' and merchants' business. They aim at control of every step in the process of distribution of food, including the advertising—under Tugwell, who has declared advertising to be "an economic waste."

There are 110,000 food manufacturers, 62,500 wholesale and 911,000 retail dealers in food products who, no matter how small and insignificant they might be, would be subject to penalties of from \$50 to \$500 a day for violation of any rule made by the Department of Agriculture.

POULTRY

PEN ROOSTER WHEN NEEDED NO LONGER

Poultrymen Should Consider Breeding Stock.

By Roy S. Dearstyn, Head Poultry Department, North Carolina State College, WNU Service.

When the hatching season is over, the flock is changed from a breeding flock to a laying flock and only fresh, infertile eggs are desired by the trade.

This means that the male birds should be moved to separate quarters. In doing this, however, the poultryman will consider his prospects for breeding work next season. All those male birds which do not measure up to the owner's standard for type, color and breeding ability should be discarded. If the birds are below standard they will be a dead expense during the period they are producing no returns to the owner. Sometimes, it is necessary to remove the males because in-breeding has begun. In such a case new blood will be needed.

If the owner does have some desirable roosters, however, and no adequate place to keep them, it might be well to build summer range houses. These are constructed at low cost and will answer the purpose very well.

In removing the male birds, it is well to keep in mind that eggs from some of the hens will be fertile 21 days after the male bird has been removed. A fertile egg will start incubation at a temperature of 70 degrees and in a few days the embryo chick will begin development. Such eggs are objectionable.

Another economy measure to put into practice after the hatching season is over, is that of culling. Every economy is needed to make the flock pay in summer.

Turkeys, Like Chickens, Good and Poor Producers

People often ask how many eggs a turkey hen will lay, and it is the general impression among those inexperienced with turkeys that they lay very few eggs, 20 or so during the spring, after which they go broody and from then on they loaf. This is a fallacy, states a writer in the Missouri Farmer. The egg production of turkey hens is comparable to the production of chicken hens in that there is a variation in number of eggs among the individuals and, if not allowed to go broody, some of them lay all summer and fall and they have made production records in excess of 150 eggs per year. Some of them lay every day for a week, then pause. Others lay every day for a month and more without a pause. Generally speaking, turkey hens, not having had the broodiness bred out of them, will lay 20 or 30 eggs and go broody. If broken up, they will soon resume laying until 18 or 20 eggs are laid and go broody again and if repeatedly broken up will continue laying throughout the summer if they are good producers.

Feather-Producing Geese

As feather producers all breeds of geese are good, though the lovely Africans are much harder to pluck either alive or dead. As for eggs, the various breeds stand about in the following order: White Chinese, Toulouse, African and Embden. These four breeds are the ones largely kept in this country for various purposes and all of them are excellent and serve their purpose well. There is a great difference in the strains of geese kept, and some of the Africans now seem to hold all leads in egg production; though as with all others it is more of a matter concerning the man who carries the feed pail than it is in breed alone.—Rural New-Yorker.

Shade for Young Pullets

Shade is of prime importance for all poultry, especially during the summer months. Where houses are crowded and shade is not available on the range there will be a high mortality. A cheap and adequate shelter may be constructed by driving 2 by 4 supports in the ground and thatching these over with bagging or green branches. These shelters, however, should be cleaned of droppings at regular intervals.

Poultry Jottings

A cap about 3 or 4 inches above the brooder stove pipe prevents back drafts.

After the first ten or twelve weeks, both mash and grain should be available at all times to pullets.

Chicks have no teeth; they have a gizzard instead, but the gizzard cannot grind feed if it has no grit in it to grind with.

Mites are a common pest. They are tiny and infest all joints, nail holes and crevices in the droppings boards, in the perches, side walls, and under boards nailed to the floor to brace roosts.

On the average, about 40 out of every 100 eggs set fail to hatch.

Since lice increase in warm weather, and reduce both egg production and flesh treatment for destroying them is essential to the highest returns from the flock.

"Blond Baby"

By LEE CALVERT

© McClure Newspaper Syndicate, WNU Service.

STELLA NORTON poked the pillows into a more comfortable angle at her back and picked up the open letter on the counterpane. Two warnings in one morning were sufficient to rouse her to action. Etta's telephone call had followed immediately on the receipt of a letter from the ingenue of the company whose innuendoes had not been as carefully veiled as she had hoped.

It would be like Billy to get roped by a chorus girl. Stella was frankly panicked.

"I had a letter yesterday from Fay Campbell who is in Chi with 'Pretty Baby,'" Etta had said in the cat-hat eaten-a-mouse tone. "She says that Billy sure likes 'em young and snappy. There's a blond baby."

"Oh, yes," Stella broke in, confident, however, that Etta would not believe the HASLBY invented lie, "that's Margie May's cousin and Billy got her with the show."

It was only the second time in their twenty years of married life that Stella had been separated from Billy. The first had been when Jane Ann was born eighteen years before. Jane Ann was the most exquisite mortal ever created, in her parents' opinion, and was still safely tucked away from the turmoil of their theatrical world in a small exclusive school in Cleveland.

Warnings had reached her then, as now, and just a few weeks after the infant's birth, Stella had lost no time in rejoining the troupe of which Billy Taylor was the leading comedian. The chorus girl who had understood her none too well on the stage, had endeavored to replace her out of the theater.

Poor Billy! He was so susceptible. A trim nimble was as provocative to him as a sweet pea to a bee. Not that Stella believed that he had ever been more than mentally untrue to her. But it had been a slightly difficult time keeping him clear of scrapes.

"There's no fool like an old one," she muttered. "At your age, Billy Taylor, you should have some sense."

An inconsiderate appendix had sent her to the hospital just a few days before June Francis opened in Cleveland. For six weeks she had raged and fumed, for not only a well founded fear of Billy's misadventures prompted her anxiety, but also an acknowledged fact that Billy never played as well as when she was present.

"Billy ought to consider Jane Ann," Stella fussed. "Doctor or no doctor, I'm going to leave for Chicago tomorrow. I won't wait another week. That may be too late."

Stella carefully timed her arrival in Chicago. She drove directly to the hotel where Billy and she always stayed and had her bags checked in the parcel room.

"Don't you want to go up, Miss Norton?" the clerk who knew her, inquired. "It's a surprise for Mr. Taylor," she refused. "I'll go directly to the theater, but if I should miss him, please do not mention that I am here."

She would drive to the theater and park the taxi opposite the stage entrance, she would follow Billy, and... It was another nasty mess she feared, but she was not taking any chances with her happiness or Jane Ann's. Billy of course would be penitent, as always.

Stella sat back in the corner of her cab watching. The matinee jam evaporated. One by one the members of the company emerged, blinking in the bright light of the late afternoon sun. Stella's heart beat more rapidly. Any moment now and Billy would come.

The echo of Billy's effervescent chuckle reached her and she leaned as far forward as she dared, without being seen as the comedian's long slight figure appeared. With him was Jane Ann clinging adoringly to her father's arm.

What was Jane Ann doing there in Chicago? Stella shook her head to clear her eyes and then leaning forward, her arms extended, called to the pair standing in the shadow of the stage door.

"Billy—Jane Ann."

"Stella!"

"Stella!" Billy Taylor was half in and half out of the automobile, his arms around her and his lips on hers. "Stella, old girl, this is a surprise! I didn't expect you for weeks."

"So I see," she lifted her daughter's face to hers. "Jane Ann, what are you doing here?"

"Oh Mommie, darling!" Jane Ann flung herself in the waiting arms, almost strangling her mother in her embrace. "I knew you would never let me go on the stage; not for years and years and years. When Daddy left Cleveland I ran away and met him at the train and he just had to take me with him; didn't you, Billy dear?" she appealed. "And Mommie, darling, no one knows who I am. I use a stage name and I'm in the chorus, and I love it so."

Stella Norton sat between them, an arm encircling each. This was the one time she need have no fear of a Blond Baby. Perhaps if Jane Ann were with him, Billy would be so busy teaching her the tricks of the game he knew so well he would have no time for anyone else. And after twenty years of vigilance, some rest was due her.

"Oh, Mommie," their daughter was pleading, "please don't send me back."

Stella patted her hand gently. "You haven't an ounce of sense, Billy Taylor," she scolded. "But both husband and daughter read the laughter in her voice. 'The minute my back is turned you get into mischief, both of you!'"

TAKE IT OR LEAVE IT

The daughter of the house, writes a Sandusky reader, was talking over the problem of what to serve for bridge club, a group of girls with finicky appetites.

One girl disliked salads, one refused sweets, another never ate fruit and still another shunned meat. "Well," her disgusted younger brother put in, "about the only thing left for that bunch is a good chaw of tobacco."—Cleveland Plain Dealer.

Distrain Warrant

The State of New Mexico, to the Sheriff of the County of Lincoln, State of New Mexico, Greetings:

You are hereby commanded to distrain and seize, forthwith, so much of the goods and chattels of the persons, firms and corporations named in the list annexed hereto as shall be sufficient to make the several sums set under their respective names in said list, together with interest thereon at the rate of one per centum per month from the date hereof until paid, and sheriff's fees and mileage and costs of sale, if sale be made, to satisfy the taxes, penalties and interests assessed against the personal property of the said named persons, firms and corporations; and to sell the said property so seized at the time and in the manner required by law; or collect the several sums; and make due return of this warrant within sixty days from the date hereof showing how you have executed the same.

Dated this 16th day of May, 1935.

State Tax Commission
of New Mexico
By L. J. Adams, Treas.

Lincoln County, New Mexico
The amount to be collected, not including interest, sheriff's fees and mileage, and costs of sale, are as follows:

Name	Year	Tax	Total
Green Construction Co.	1933	157.52	157.52
Green Construction Co.	1934	358.00	358.00
Total			515.52

Scouts Organized

At a meeting in Capitan Monday evening, May 27th, of men from Carrizozo, Ft. Stanton and Capitan, plans were made to offer the Scout and Cub Programs to boys of Lincoln County. At present there are Troops at Capitan Mescalero and there are possibilities for about ten Scout troops and as many Cub Packs.

Mr. T. E. Kelley of Carrizozo long associated with the Scouting movement, was elected as Chairman of the Lincoln County District Committee of the Eastern New Mexico Area Council, Boy Scouts of America. Mr. Bill Lumpkins, of Capitan, has been appointed Commissioner for the District. Mr. Lumpkins is an Eagle Scout and has had a great deal of Scout experience. In addition to Mr. Kelley and Mr. Lumpkins, the following were present: Edward Smith and J. F. Macari of Ft. Stanton; W. H. Nickels of Carrizozo; J. R. O'Malley and Vasser L. Thompson of Capitan and P. V. Thorson, Scout Executive for the Eastern N. M. Area Council. Another meeting will be held before school opens this fall at which time the organization will be completed.

Deputy.

May 17-24-31--June 7

Notice

The State Legislature in this year's session passed a law to the effect that all sheep marks and brands must be re-recorded.

This new law states in part:

"Every sheep owner, owning or having sheep in the State of New Mexico shall record in the office of the Secretary of the Board the mark and brand which he may use in marking his sheep, and the said Secretary shall enter and record said mark and brand in a book kept by him for that purpose. That the Secretary shall refuse to record in the name of any person, firm or corporation, any mark or brand which may have been previously recorded in the name of any other person, firm or corporation."

The record book of the Sheep Sanitary Board has not been revised since 1923. During this time many sheep owners have gone out of business and quite a few are deceased, consequently, there are a number of duplications and obsolete brands and marks on the record book. We are always short of earmarks for the sheep and it is necessary to have a re-recording of marks to clear the record books.

The Sheep Sanitary Board at its meeting March 27, 1935, adopted the following resolution:

"THAT all marks and brands must be re-recorded."

It is not the intention of the Sheep Sanitary Board to deprive you of your ear mark and brand, therefore, we are sending you this notice for the purpose of ascertaining if you want your mark and brand re-recorded.

If you are still in the sheep business, please notify this office within [90] ninety days allowed by law, so that your mark and brand can be re-recorded or cancelled according to your wishes. Failing to notify this office within the given time your brand and ear mark will be cancelled and may be used by another.

Yours truly,
Sheep Sanitary Board
of New Mexico
By Tom Snell, Secretary
M. 24--June 14.

Local and Personal

Mr. and Mrs. Carl Jones plan to leave about June 20th.

Judge A. H. Hudspeth of Santa Fe was in town the first of the week.

Miss Oney McPherson is spending the week with A. L. Hulbert of Lincoln, N. Mex.

Mr. and Mrs. J. B. French of Albuquerque spent Memorial day in Carrizozo, returning home last Friday.

Henry Hoffman and family moved into the Davis residence last Saturday. They bought the property about two months ago.

Attorney Jack Hahn and mother and sister moved last Monday into the Carl Jones residence which they purchased recently.

Mrs. C. P. Huppertz who has been visiting her sister in Los Angeles, for some time has returned home, and is much improved in health.

Mrs. R. F. Sherrill and R. L. Sherrill of Jicarilla were here last Tuesday. They were accompanied by Mrs. Mattie Shelton, who is a visitor from Texas.

Methodist Church

Rev. Edgar H. Johnson, Pastor
Mrs. F. L. Boughner, S. S. Supt.
Louise Shelton, Pres. Epworth League.

Christian Science Service

"God the Only Cause and Creator" is the Lesson-Sermon which will be read in all Churches and Societies of Christ, Scientist, on Sunday, June 9th. The Golden Text is: "Known unto God are all his works from the beginning of the world." (Act 15:18)

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "But now, O Lord, thou art our father; we are clay, and thou our potter; and we all are the work of thy hand."

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The potter is not in the clay; else the clay would have power over the potter. God is His infinite Mind, and expresses all."

Mr. Eric Williams of Fort Stanton was in town on business last Monday. Mr. Williams says the Fort Stanton rodeo will be better than ever this year. They are building new and larger corrals and arranging for every minute of time to be full of thrills.

Golf Tournament

The big golf tournament opens tomorrow. Messrs. Finley, Gallacher, Bacot and Kelley are committee members.

Prizes are offered for medalist, winner and runner-up in each flight--and consolations. Program: 9-hole qualifying round Saturday forenoon; 18-hole first round, Saturday afternoon; 18-hole 2nd round, Sunday forenoon; 18-hole final, Sunday afternoon.

Entertainment: All players will be guests of the club on Saturday for luncheon at noon and dancing in the evening, also Sunday at noon for a big barbecue. At 6 p. m. Saturday an enchilada dinner will be served at 50c per plate.

CORONA NEWS

Mrs. O. M. Downing went to Alamogordo on business Sunday.

Vernon Arnold is home for a few days before opening of Summer School at Las Vegas.

Brack Courson is home for a two-weeks visit with relatives.

Clive Jolly has returned from California to spend the summer with his parents.

Archie Perkins is visiting in Corona for a few days.

Mr. and Mrs. Tom Tyree and family of Shafter, Texas visited relatives in Corona for the past two weeks.

Miss Ollie D. Jarnagin has gone to Shafter, Texas for the summer.

Mrs. Florence Stroope, Hivana and Thelma Stroope are home from Clarendon, Texas where Hivana has been attending Junior College.

Mrs. Wilbur Dishman and daughter Zelfa are visiting relatives in Texas.

Miss Geraldine Du Bois made a trip to Clovis last week to attend the Seventh Annual Convention of the New Mexico Pharmaceutical Association.

J. G. Berryman has returned from Eunice, New Mexico, to spend the summer on his farm.

Mr. and Mrs. Leslie Shaw from Albuquerque were here last week.

Mr. and Mrs. Wayne Zumwalt of Carrizozo were visitors of Mrs. Jack Davidson Sunday.

Mr. Allen Davidson and Miss Fleta Kinsell of Albuquerque were visitors of Mrs. J. T. Davidson Sunday.

Mrs. Jack Davidson and children visited Mr. Davidson, for several days last week.

Public Health Column

By Dr. J. R. Ears

Hot weather is coming. You are going to sweat, for that is nature's way of cooling you. You will be thirsty. That is your body asking for water to replace what has been lost in evaporation. You will go to the faucet [please not to the irrigation ditch] and you will drink. You will take off your coat and roll up your shirt sleeves so that the air may come closer to your skin, carry off the moisture and so cool you more rapidly.

The baby will get hot just as you do. But the baby cannot reach the faucet, nor can he take off his coat. The baby will complain the only way he knows. He will cry. And what will the mother do then, poor thing? The untutored mother will follow her instinct and give the baby to drink-milk. But milk is food as well as drink and in hot weather we need less food, not more. The

baby will get too much food, his digestion will be upset and he will be hotter and more uncomfortable than before. He will cry louder and get more milk until he becomes so ill that he can hardly cry.

When the baby is hot see that he has not on too many clothes. Let the fresh air reach his bare arms and legs. Supply him with drink-not food. Give him cool boiled water. All liquids, except mother's milk, that the baby takes at any time but especially in summer time should be first boiled to kill all the germs, then cooled quickly [in the refrigerator if you have one] and given from a clean teaspoon or a bottle that has also been boiled. Never let a fly get near to the baby's food or drink or onto the bottle, mug or teaspoon from which he is to drink.

FOR more than ten years, this familiar Red "OK" tag has been a symbol of sound, dependable used cars and of outstanding used car values. Great numbers of people in this community have learned that the way to get a better used car is to visit this organization and buy a car with the "OK" that counts.

We are very discriminating about the cars we take in trade, accepting only popular makes and models. We are even more careful in preparing these cars for public sale.

Every car must pass a rigid, systematic inspection before it is awarded our Guaranteed "OK" tag. All features are carefully checked by factory-trained mechanics--brakes are adjusted, upholstery cleaned, the car made to look like new, and all mechanical parts reconditioned to provide the finest and most dependable performance.

Yet you pay no more for our Guaranteed "OK" used cars because we do a large volume of business and can afford to give you more for your money. See our fine stock of used cars--today! Not only will you get a better used car value but you will also get a better deal on your old car in trade.

Bedtime Story for Children

By THORNTON W. BURGESS

AN ENEMY PROVES TO BE A FRIEND

The things we do and things we say, (The true though hard to believe it is) Affect the lives of other folk More often than we ever know.

So it is that friends often hurt each other and in the same way enemies help each other without the least idea of so doing. It is a funny world. It certainly is a funny world. You think only of yourself and straightway do the greatest possible kindness or an equally great harm to some one of

Danny Overheard Mrs. Hooty Tell Hooty That She Had Seen and Heard Some One Moving Down Below.

whom you are not thinking at all, and never know anything about it. Just take the case of Mrs. Hooty and Danny Meadow Mouse. Danny always thought of Mrs. Hooty, just as he did of Hooty, as one of the enemies he must always be on the watch for after dark, and Mrs. Hooty always thought of Danny Meadow Mouse simply as a good dinner if only she could catch him. The idea of doing Danny a good turn never in all her life had entered her head. Nor had the idea that she could do such a thing ever entered Danny's funny little head. Yet Mrs. Hooty did do Danny a good turn. In fact, all unknowingly she proved to be a friend.

You remember that Billy Mink had trapped Danny in a hollow log in the Green Forest. Billy couldn't get into that hollow log because the doorway was too small. So he promptly told Danny that he would keep watch until Danny starved to death inside or came out to be caught. Then Hooty the Owl and Mrs. Hooty arrived in a tree close by and Danny overheard Mrs. Hooty tell Hooty that she had seen and heard some one moving down below and that she intended to stay right there until she found out who it was. Danny at once thought that she was watching for him. But when he had had time to think a little he remembered that he hadn't so much as poked his

nose outside that hollow log since the coming of Mrs. Hooty, so of course she couldn't have seen him. Could it have been Billy Mink she had seen? Danny at once became very much interested and crept a little nearer the doorway. He waited very much to see what was going on outside.

For some time nothing happened. Then he heard Hooty's voice way off in the distance. He crept just a wee bit closer to the doorway and peeped up in the top of the tree where he had heard Mr. and Mrs. Hooty talking. He was just in time to see a great dark shadow sweep silently down. He heard a spiteful snarl and knew then that Mrs. Hooty had tried to catch Billy Mink and had missed him. And he knew, too, that, having escaped, Billy would waste no time hanging about there, but would seek a safer place.

Danny let a little sigh of relief escape. Mrs. Hooty had frightened Billy Mink away and did not herself know that Danny was there. He was no longer trapped. She who would

gladly have eaten him had proved a friend by setting him free. Didn't I say that this is a funny world?

QUESTION BOX

by ED WYNN, The Perfect Fool

Dear Mr. Wynn: In the past ten days I have read in the newspapers of thirty-four men committing crimes. I discovered, by keeping tabs on them, that twenty-eight of the thirty-four men ran away to Canada. How do you account for that?

C. KLUSIVE.

Answer: I am surprised, as I thought everybody knew, that it was the only place "Toronto."

Dear Mr. Wynn: A friend of mine has just returned from a trip through the South American tropics and he said that sometimes, while walking along, he would sink 10 and 12 inches in the ground. What struck me rather peculiar was his assertion that farmers lived there and cattle grazed all around. How could cattle exist in mud like that?

Yours truly,

E. QUATER.

Answer: Your friend is right. I have been where he speaks of and I have seen the mud so deep down there that the farmers had to jack the cows up to milk them.

Dear Mr. Wynn: Don't you think a man will succeed better in life if he goes by the following rule: "Live and let live?"

Truly yours,

HAMMOND EGGS.

Answer: That is a great rule for every one excepting a butcher.

Dear Mr. Wynn: I have often heard that the worst

THE UNKNOWN

By ANNE CAMPBELL

I DO not know which way the road may lead Tomorrow. My soul may tremble like a broken reed To sorrow; But though unknown the dark untraveled way, I have Today!

This day is steeped in joy! Each shining minute Has gladness in it. No black forebodings steal the skies' clear blue; The sun shines through, And golden lies the path that winds this hour To love in flower.

I have Today! I face it gratefully, Intending, No matter where the road that's meant for me Is wending To walk it as the saints their hard way trod, With faith in God!

Copyright—WNU Service.

Back Drapery

In this lovely gown cascading back drapery is held at the hips with a half round crystal clip. The tightly fitted bodice with draped shoulder covering is fastened in front with tiny glass buttons. Gay field flowers are on the black crepe.

be stirred to be dissolved. Those who like honey use it often in preference to sugar, as it is the best sugar to give children, being easily digested.

When company drops in and needs quick refreshment on a hot day, try an orange ginger ale. For each person combine two-thirds of a cup of orange juice, one-third of a cup of ginger ale, pour over a glass of cracked ice and serve at once. For a delightful ice cream soda serve a glass two-thirds full of orange juice and add a ball of vanilla ice cream. Stir rapidly and serve. Orange juice with lemon juice is liked by many as a combination drink. Iced coffee served as an ice cream soda drink is most delicious. Drop in the ball of ice cream and serve at once. One should remember when serving these refreshing drinks that they are not only cooling to the body, delightful to the palate, but are supplying the body with needed minerals and vitamins for health.

Apple Straws

Wash and grate a red-skinned apple. Place in sherbet glass and cover with the juice of an orange. Top with freshly grated coconut, chopped nuts and dates. Omit the topping for very young children and also remove the apple skin.

© Western Newspaper Union.

Wild Geese Can Be Confused The directional sense of the wild geese, while incredibly accurate most of the time, is by no means infallible. Thick weather, wind storms and other natural hazards sometimes confuse whole flocks and lead them to destruction.

Fighting Fire With "Airfoam"

THIS is a scene at Bellingham, England, during a demonstration of the "airfoam" apparatus which extinguishes fires in quick time with a smothering action. A mixture of 80 per cent air, 15 per cent water and 5 per cent soap produces a foam seven times lighter than water, which excludes air from the seat of combustion and can be pumped to great heights.

Dental Hygiene

The Road to Health

By DR. R. ALLEN GRIFFITH

DISCOLORED TEETH

TEETH are never pure white. A negro's teeth look white because of the contrast with his dark skin. Most teeth are a blending of yellow and blue. The enamel and dentine are both semi-transparent; the dentine carrying the underlying color, which is more or less yellow.

Discoloration of the teeth is usually due to deposits on the outer surface, to fillings or to drugs to treat teeth. Deposits that form on the outer surfaces of teeth are due to the formation of much plaque which become stained by food, tobacco, etc. This class of stains is due entirely to failure to keep the tooth surfaces clean.

In certain parts of the country, many of the children have badly spotted teeth and discolored enamel. This is due to the mineral content of the water.

Where the enamel is broken or worn away so the dentine is exposed it is very easily discolored. When the front teeth erupt their cutting edges have three serrations which wear away as the teeth are used. This wear increases with age and finally, in many instances, the enamel is worn through. Discoloration then is easy. Many tobacco users' teeth finally become very dark as the stain penetrates through the tiny canals which radiate all through the dentine. Women who smoke will find their front teeth growing disgustingly unsightly as they grow older.

Fitted teeth are also a source of discoloration. Pits in teeth are usually due to childhood diseases, such as measles, scarlet fever, etc. Any illness that interferes with the nutrition for a short period of time may cause pits in the teeth. Yet the teeth are not directly attacked by these diseases, as many people suppose. Dentists are frequently asked if the pits are not produced on the teeth in the same manner as they are produced on the face in chickenpox. This is not true. The pits are a secondary result, due to the fact that all the powers of the system are concentrated on combating the disease and its effects, during the period when the teeth are forming.

Fitted teeth decay rapidly because they afford a lodging place for the fermentation of food. They are usually treated by filling which is necessary after decay starts. Many of these cases can be treated by polishing. The enamel can be polished down until the surface is smooth, which prevents decay, and removes and prevents a return of the discoloration.

CITY VS. COUNTRY TEETH

IT IS a commonly accepted theory that the country boy is healthier than the city boy. With his advantages of outdoor life and exercise, he should be, but many statistics show that he is not. The physical examination of the school children of the United States shows that the country child is from 5 to 20 per cent more defective than the city child.

Take the tuberculosis statistics as a test.

We have been taught that fresh air and outdoor life are the panacea for tuberculosis. We read advertisements everywhere declaring that this, that or the other sanitarium, located in some distant part of the country, offers a sure cure for tuberculosis, largely on account of climatic conditions.

Statistics show that only a fraction of 1 per cent of city children have tuberculosis, in spite of the smoky atmosphere of the city, while 3.7 per cent of country children have an affection of the lungs. The proportion runs just about four to one against the rural youngsters.

This fact could be carried on indefinitely.

To what is this condition due? It can only be due to one thing. The city child gets better medical and dental attention than the country child. No one can go through our country districts without noticing the dirty, unkempt mouths of most people.

They seldom visit a dentist except to have a tooth extracted.

Bad teeth are acknowledged to have a direct bearing on the health, and teeth without doubt play an important part in the poor showing of the country child.

The army draft in the late war disclosed the fact that the city boy has far better teeth and is more perfect physically than the boy from the rural districts. The city boy has a far better opportunity to come in contact with the dentist and learns to take care of his teeth and keep them in a high state of efficiency. In most of our city schools there is some sort of dental examinations of the children, while only a few states make any attempt to care for the teeth of the children in country schools.

The draft in the late war also showed that a large per cent of the physical defects of our boys are remediable, and they were remedied wherever possible. Is this not the best possible argument for military training? Would it not be far better to draft our young men who are out of work now and put them in the army where they would receive proper medical and dental care than to keep them in idleness on a dole?

Big Buttons Brighten Chic New Home Frock

PATTERN 9310

Take a peep at this delightful home frock, with its big, bright buttons strategically placed for giving chic—then look at the sketch of the garment spread open. Cut it out, and it almost finishes itself like magic—put it on, and it changes your appearance in the same surprising way! It's vastly becoming, this simple frock with the easy lines, and a good, quick beginning to your new supply of home dresses. There are crinkly cottons which look like plaid ginghams. Try a colorful one for this—contrast the yoke and sleeves if you wish.

Pattern 9310 may be ordered only in sizes 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34 and 40. Size 30 requires 3 1/2 yards 36 inch fabric.

BEND FIFTEEN CENTS in coins or stamps (coins preferred) for this pattern. Be sure to write plainly your NAME, ADDRESS, STYLE NUMBER and SIZE.

Address your order to the Sewing Circle Pattern Department, 232 West Eighteenth Street, New York, N. Y.

Smiles

WORDS TO THE RESCUE

"That man is positively diabolical!" exclaimed the visitor.

"Your language is not in keeping with our higher educational standards," said Senator Borghum. "You should say that he has not arrived at the point of intellectual development that would enable him to discriminate between the gratification of the ego and the ethical responsibility to consider the needs of others."

Expensive Art

"Your picture show makes an unusually high charge for admission," said the traveling salesman.

"The expense is heavy," answered Cactus Joe. "Our audience is so sympathetic in hating the villains that every screen is riddled with bullet holes."

Power

"Why did that actress marry her press agent?"

"She wanted security," said Miss Cayenne. "She let him understand that if his compliments did not continue to please her, he'd lose his home and his job both at once."

MINUTE MAKE-UPS

By V. V.

Complexions are always washed or creamed in a thorough cleansing process when blackheads appear. But if complexions were cleaned daily with a brush having firm but not stiff bristles, the dirt would not work into the pores and become insidious blackheads.

News Review of Current Events the World Over

Roosevelt's Veto of Bonus Bill Overridden by House,
Upheld by Senate—Ford Boosts Wages—
Hitler's Peace Program.

By EDWARD W. PICKARD

© Western Newspaper Union.

SETTING a new precedent, President Roosevelt "acted as his own messenger" and personally returned to Speaker Byrne the Patman bonus measure with his disapproval. Before a joint session of the house and senate and crowded galleries the Chief Executive read his veto message, an able and well ordered document in which he set forth his conviction that "the welfare of the nation as well as the future welfare of the veterans wholly justifies my disapproval of this measure." Asserting that an able-bodied citizen, even though he wore a uniform, should not be accorded treatment different from that of other citizens, he said:

"The veteran who is disabled owes his condition to the war. The healthy veteran who is unemployed owes his troubles to the depression. Any attempt to mingle the two problems is to confuse our efforts."

Mr. Roosevelt's stern warning against the dangers of inflation inherent in the measure was listened to in silence, though there was mild applause at other times. All his argument was in vain so far as the house was concerned, for as he left the chamber there were quick demands for a vote and by the time he had reached the White House the representatives had overridden his veto and again passed the bill by a vote of 322 to 99. In the affirmative were 248 Democrats, 64 Republicans, 7 Progressives and 3 Farmer-Laborites. Those voting to sustain the veto were 90 Democrats and 33 Republicans.

The re-passed bill was laid before the senate by Vice President Garner, and Senator Thomas insisted on the reading of the veto message in that body. Action was postponed for one day because a lot of the senators wanted to make speeches.

The debate in the senate was long and perfunctory, and quite unnecessary because the result of the vote had been a certainty for several days. Fifty-four senators voted to override the veto; but 40 supported the President, and only 32 were needed to kill the measure. Three members had switched over from their stand when the bill was first passed. They were Pittman of Nevada, Pope of Idaho and Coolidge of Massachusetts, all Democrats. The only absentee was Norbeck of South Dakota. Dennis Chavez, the new senator from New Mexico, caused a surprise by voting to uphold the veto.

BONUS advocates and inflationists were prepared for further action in various ways. One plan was the introduction of a bill to draw \$2,000,000,000 to pay the bonus from the work-relief appropriation, out of which the President has already approved the allocation of about \$1,000,000,000 for immediate work projects. Other measures, as riders to navy or legislative appropriation bills, were being drafted. So there was a prospect of a great tangle in the administration's legislative program.

IN ITS annual statement the Ford Motor company discloses that it made a gain of \$3,750,311 in 1934 over the previous year, to a total of \$590,276,391. Just before these figures were made public, the company announced that the minimum daily wage of its employees would be raised from \$5 a day to \$6, adding \$2,000,000 a month to the pay roll. The Ford and Lincoln plants in Detroit and all other cities share in this revision of the wage scale.

Henry Ford began boosting the wage scale back in 1914, and in answer to adverse criticism of economists, he made the pay increases a policy of his company. He put the minimum wage at \$5 in 1910 and ten years later raised it to \$7, where it remained until the end of 1931. With the depression it fell back to \$4, but in March, 1934, a raise to \$5 was made. The company's announcement says:

"The Ford Motor company has paid its workmen a total of \$223,000,000 over and above what the company need to have paid had it followed the general wage scale."

MISS JANE ADDAMS, "first citizen of Chicago," internationally famed as a social worker and peace advocate, has gone to her reward, and her passing is deeply mourned by the many thousands of poor and unfortunate persons for whom she had made life more endurable. She started her real life work in 1889 among the Italians and other foreigners on Chicago's West side, founding Hull House, which grew into the most famous social settlement in America. Later her activities were extended to the amelioration of sweatshop conditions, the child labor problem, and then to the matter of international peace. During the war she was made president of the women's international peace conference at The Hague, and she interviewed the officials of virtually every one of the belliger-

ent nations. Three times she presided at the sessions of the International Congress of Women, and she was prominent in many humanitarian movements. But it is as the head of Hull House and the tireless friend of the poor and underprivileged that her memory will live longest.

GOV. MARTIN L. DAVEY of Ohio withdrew the warrant charging Federal Relief Administrator Harry Hopkins with criminal libel, so the administrator was able to visit Cleveland and make a speech without being arrested. The governor said that "all the objectives which were sought have been accomplished and no good purpose can be served by carrying on guerrilla warfare."

FIRST of the list of projects to be undertaken under the work relief program is the Passamaquoddy tidal power scheme, and there is a lot of grumbling because it was placed at the head of the line by the President himself. This project was once turned down as uneconomic by Secretary Ickes, the assertion being that it would cost too much in comparison with the returns that might be expected; would take too long for completion and was in a region where so much work relief was not needed. But Mr. Roosevelt, whose Campobello summer cottage is near the location of the proposed dam site, is said to be personally interested in the project, believing it will bring new industries to the area.

Anyhow, this big Maine project is to go ahead, and Maj. Philip B. Fleming of the army engineers corps has been chosen to take charge of the construction. Major Fleming has been serving in the PWA for some time but has been released for this Eastport work.

Major Fleming

IN ADDITION to the Passamaquoddy project, calling for \$10,000,000, about a billion dollars in work-relief allotments were given verbal approval by the President, these having been favorably passed by on by the allotment board. Included in this program are extensive rivers and harbor works throughout the country, and a \$100,000,000 integrated works program for Wisconsin. The latter was planned by Senator La Follette and his brother, Governor La Follette, and approved by the administration.

These initial allotments will put a lot of men to work in a short time, for the plans for many of the projects already are complete. Mr. Roosevelt pointed out that 25 to 50 per cent of the work-relief funds to be spent in the various states would go out through mandatory allotments to such units as the CCC, highway construction and grade-crossing elimination. Funds for these expenditures were earmarked in the bill.

IN AN executive order the President established pay rates under the \$4,880,000,000 work-relief measure, dividing the country into four sections in setting regional wages. Pay will range from \$19 a month for unskilled laborers in the South to \$34 a month for professional and technical workers in the East. The wages will be from 20 to 30 per cent below the prevailing wage rate structure throughout the country.

REICHSFUEHRER HITLER, appearing before the reichstag, outlined a 13 point program for disarmament and the improvement of international relations, and did it so well it cannot well be ignored by the other nations of Europe. He again rejected the resolution of the League of Nations council condemning him for the rearming of Germany, but said Germany might return to the league if that body divorced itself from the principles of the Versailles treaty and from the "psychology of victors and vanquished" and "after Germany is granted full equality rights, extending to all functions and privileges in international life."

To the great satisfaction of Great Britain, Hitler promised to respect the territorial clauses of the Versailles treaty, which, he said, could not be modified by unilateral action. He declared Germany was willing to sign non-aggression pacts with all her neighbors except Lithuania, and to agree to an arms embargo if others would do the same. Also the reich is ready to sign an air convention supplementing the Locarno pact.

Maj. Gen. Walter von Reichenau, director of the ministry of defense, announced that under the new conscription decrees the classes of 1914 and 1915—Germany's "war babies"—would be called up for medical examinations starting June 1. The able men of the class of 1914 will be called to the colors November 1 for the army and air force. The class of 1915 is to be conscripted for the labor service at the same time.

ETHIOPIA, in a note to the League of Nations council, denied the Italian war preparations and gave warning that she "would yield neither to intimidation nor to violence." Capt. Anthony Eden and Pierre Laval tried in vain to persuade Baron Aloisi, Italian delegate, to accept a gift of exclusive economic privileges in Ethiopia in exchange for saving the league's face and keeping a united front in Europe. The statesmen in Geneva began to believe there was no way of stopping Mussolini's African adventure. The Rome government is decidedly exasperated against Great Britain, charging that the British are promoting the shipment of war materials to Ethiopia through British Somaliland. Emperor Haile Selassie has just bought a large fleet of bombing planes from Turkey, some of which were sold to the Turks by British firms.

MANEUVERS of the Pacific fleet were marred by another fatal airplane accident. A seaplane plunged into the ocean 40 miles south of Midway Island and the six members of its crew were lost. The victims were: Lieut. Harry Brandenburg, Lieut. Charles J. Kelly, Aviation Chief Machinist Mate P. C. Little, Chief Radioman C. M. Derry, First Machinist's Mate P. J. Proteau and Third Machinist's Mate Q. A. Sharpe.

SENATOR WAGNER of New York and Representative Cresser of Ohio offered in the senate and house identical railroad labor pension bills drafted in a way to meet the objections of the Supreme court to the law it declared unconstitutional.

WHEN Dennis Chavez was brought into the senate to be sworn in as successor to the late Bronson Cutting of New Mexico, six "liberal" members silently walked out of the chamber in protest against the efforts that had been made to unseat Mr. Cutting. Those who participated in this unprecedented action were: Senators Hiram Johnson, California; William E. Borah, Idaho; George Norris, Nebraska; and Gerald P. Nye, North Dakota; Republican Independents; and Robert M. La Follette, Wisconsin Progressive; and Henrik Shipstead, Minnesota Farmer-Laborite.

RUSSIA'S immense airplane, the Maxim Gorky, largest land plane in the world, was destroyed when it collided with a small training plane over a Moscow suburb, collapsed at a height of 2,000 feet and fell in ruins. All on board, 48 in number, were killed, as was the pilot of the small plane. The victims were mostly engineers and workers of the Central Aerodynamic Institute and members of their families who were being taken for a pleasure ride.

SECRET hearings were opened by the house military affairs committee to investigate charges that the Tennessee Valley authority, already has squandered \$1,000,000 of government money in questionable awards of contracts for dynamite and powder and throughout irregularities. Arthur E. Morgan, head of the TVA, and his two fellow directors, David L. Benthall and Harcourt A. Morgan, were summoned before the committee.

A. E. Morgan

The charges are contained in an audit of the TVA made by Comptroller General J. R. McCarl. Some of the irregularities he claims to have uncovered are:

The awarding without competitive bidding of a contract which obligated the government for an indefinite sum of money, estimated at \$815,000.

Overpayments of an original contract by as much as 120 per cent.

Awarding of contracts, in contravention of law, to firms which were not the low bidders, with one contract going to a bidder who was seventh from low.

Failure to require one large contractor to post performance bond and at the same time the payment of fees to this contractor in advance, despite a legal prohibition against advance payments.

Solicitation of bids by telephone or circulars among a certain group of private business houses, or in other irregular ways.

The TVA directors were said to be prepared to disprove the worst of the charges, and to be ready to make some disclosures of their own.

The inquiry came as the administration was trying to get the house committee to report favorably the bill, recently passed by the senate, providing more money for the TVA and enlarging its scope of operations.

HOUSE leaders were hurrying to ward passage the administration's amendments to the AAA act, enlarging the powers of that organization the demand of opponents for long debate being denied. It was certain this measure would arouse controversy in the senate. Jobbers and retailers of foodstuffs, of whom there are about 111,000 in the country, are much disturbed by these proposed amendments for the measure extends to them the processing taxes now imposed on food manufacturers, makes them subject to regulations not yet specified and requires that each one be licensed by the AAA.

CROWN Prince Frederik of Denmark and Princess Ingrid of Sweden were married in Stockholm in the presence of a brilliant assemblage. A week of activities preceded the ceremony, attracting great throngs to the Swedish capital.

FOODS OF THE 'GOOD OLD DAYS'

No Longer "Regional," but Still Enjoyed.

Any reminder of the good old days when American cookery traditions were being formed is sure to warm our hearts and make the gastric juices run a little swifter but it is safe to assert that we'd have a gastric reaction of a more painful sort if we were actually to return to the daily fare of our ancestors. We do not want to revive the mistakes and the deficiencies of the early American diet, but there can be much pleasure and benefit from renewing our acquaintance with some of the dishes which derived from the early days in this country.

Indian cookery lore has been combined with and modified by the customs and traditions of each separate group of settlers. In Charleston, C. C., the cookery is a very special mixture of French and negro art. Certain of the favorite old-time dishes of the Middle and Far West were evolved during the covered wagon pilgrimages. Thus the beginnings of camp cookery, although much of it was far less healthful than present-day camp food, as the frying pan was the most extensively used implement over those open fires. It is no accident we associate clam bakes and blueberry puddings with Cape Cod, chile con carne with Texas and New Mexico or fish pilchus with Charleston, where the rice fields used to stretch in every direction. Now all these regional dishes may be enjoyed at any point of the compass—Lettie Gay in the Parents' Magazine.

Work Piled on Teachers Philadelphia high schools have become so crowded because of industrial codes that teachers are doing almost twice as much work. There are not only too many students in one class, but it also is found that teachers must regulate their courses to pupils of different levels of abilities.

Household Hint If your oven is a very quick one, it is apt to dry out roasted meat. Place a saucepan, half full of water, in a corner of the oven. The steam from the water will keep the air moist and the meat will be juicy.

Rebekahs are cordially invited to the Hall tomorrow afternoon at 2:30 to meet the President, Mrs. Randall of Aztec.

Mr. and Mrs. Tom Burleson of Fort Stanton were guests of Mr. and Mrs. Frank English yesterday.

Frank Arthur English is assisting at Rolland's Drug Store for the summer.

Mr. and Mrs. T. J. Stokes of Midland, Texas are visiting Mrs. Stokes' parents, Mr. and Mrs. English and their brother, Mr. Dewey Stokes.

Mr. and Mrs. T. J. Stokes went to El Paso yesterday for the day. Mrs. Oscar Bamberger is assisting at Kelley's Hardware and Sport Shop.

Mr. and Mrs. C. O. Garrison, Mr. and Mrs. W. K. Karr, and Mr. and Mrs. Floyd Smith left this morning for the Carlsbad cavern.

Rev. L. D. Jordan went to Belen Wednesday and will return Saturday.

Mr. R. E. Berry spent the first of the week in Nogal, putting up a windmill for Mr. Luckey.

Mrs. C. A. McCammon has been quite ill at her home in El Paso, but is reported very much improved this week.

A letter to friends from attorney John E. Hall and party states that they spent the last of May in Ontario, Canada, and will return home via Washington and other eastern points.

Drink Water With Meals
Good For Stomach

Water with meals helps stomach juices aid digestion. If bloated with gas add a spoonful of Adlerika. One dose cleans out poison and washes BOTH upper and lower bowels.

Rolland's Drug Store — In Corona by DuBols Drug Store.

LINCOLN LOCALS

On Monday May 27th at 4 P. M. Bishop Gerkin, from Santa Fe gave confirmation to about 50 children, assisted by Rev. Salvatore, Rev. O'Hara from Ft. Stanton, and Rev. Girod from Santa Fe. Padre Jose Girod attended the Lincoln county mission for 6 years. He left here 32 years ago. It was a pleasure for this community as well as people of the county to see him once more. He was transferred to Taos county. Padre Jose Girod helped to build the present Catholic church.

Miss Nellie Miranda, left Monday for Albuquerque and Santa Fe to visit with friends and classmates in both cities for a few days. Later she will go to Las Vegas and visit her sister Miss O'ella Miranda who has been attending the Normal University.

Miss Julia Penfield, visited friends at Picacho Wednesday.

Miss Pearl Forbus, from Hondo is staying at the Bonito Inn.

Mrs. J. P. Church from Roswell stopped Tuesday to visit her sister, Mrs. Davidson, at the Inn on her way to Ruidoso.

Those who went from here to San Antonio last Sunday to witness the ball game between the Carrizozo Cobras and San Antonio were: Mr. and Mrs. Sabino Vidaurri, Mr. and Mrs. Sat Chavez, Mesdames Andy Padilla, Rosa Lucraz, Rosa Chavez, Placida St. John; Misses Teresa Navarro, Cecilia Vidaurri and Messrs. Lorenzo Garcia, Sat Chavez, Jr., Loyd Vigil, Marshall St. John and Macario Navarro.

Baseball Game

Sunday June 9, the Billy the Kids will cross bats with the Indians on the Lincoln diamond.

CAPITAN ITEMS

Mrs. Hunt Hobbs and niece are away visiting relatives. They plan to visit Silver City, N. M. and Holbrook, Arizona.

The singing groups from Capitán and Fort Stanton, and some of the young people from the Nazarene church visited the Angus young peoples' Christian Endeavor Sunday night to sing and assist in their program.

Mrs. Benton Yates is visiting her mother, Mrs. Con Merchant at Bent, N. Mex. She hopes to improve her health by a summer rest.

The Howards, Pete Phillips, and Pat Johnson families have moved to their ranches for the summer.

The school teachers also have gone and since school is out Capitán seems somewhat lonesome.

Mrs. Sellers, mother of Mrs. Lewis Cummins left Tuesday for California after a two weeks' visit with the Cummins family.

There were no church services Sunday following the Nazarene Sunday school, as Rev. A. G. Johnson has the mumps.

Sunday, June 9th is Rev. A. G. Johnson's farewell. Come and enjoy a large Sunday school and morning service; also a pageant, "Heaven's Door," for the young peoples' service and farewell address at 8 p. m. Your presence is always appreciated. Rev. Johnson will leave for Colorado the 10th, to attend the annual assembly at Canyon City, and at which time he will receive his new appointment.

Police of Danville, V., are looking for the thief who broke into the Pentecostal Holiness Tabernacle after a Sunday evening service and stole the draperies on the rostrum and two chairs.

Federal Housing Administration

Farm representatives of the Federal Housing Administration are attempting to make Better Housing Day, June 15, one of importance in rural communities. Although the farmers are busy in the fields at this season of the year, the women's divisions of many localities are sponsoring programs for this occasion.

National Better Housing Day is being recognized throughout the country. Well over 1,000 model homes, will be constructed following ground-breaking exercises to be held on that day. These model homes, in most cases, will be sold and financed through the Mutual Mortgage Insurance Plan of the Federal Housing Administration.

In rural communities where model houses are not to be erected, other celebrations will be held in recognition of the Better Housing program. Some towns will be visited by demonstration trucks and exhibits held.

Demonstration trucks are touring the states of Oregon, Idaho and Washington to assist in creating interest in farm programs of the Federal Housing Administration.

The trucks are sponsored by power companies and building and plumbing supply concerns, and the equipment carried in the cars is demonstrated at each place. One or more types of water systems are exhibited. Home lighting plants, plumbing fixtures and a model a septic tank are generally carried.

Similar tours are being organized in other sections of the country to enable the residents of rural districts to see the sort of improvements which may be made to their property.

The Cobras will play a return game with San Antonio here Sunday.
