CARRIZOZO, NEW MEXICO, FRIDAY, JULY 9, 1937

NUMBER 2

Ft. Stanton Rodeo Winners Announced

More than fifty cowboys entered themselves more than one hundred times and put up a fine exhibition before four thousand spectators at the twenty-fourth annual Rodeo and Fourth of July Celebration at Ft. Stanton last Sunday, according to an announcement just made by the committee.

Due to the large number of entrants, increased purses were given the winners in several events. Top-hands who won:

Calf roping: First, Polk Brown; Second, Doc Kennedy; Third, Fletcher Hall; Fourth, H. E. Marr.

Wild cow milking: First, Billy Ferguson and Fletcher Hall; Second, E. Marr and H. Marr; Third, Newt Robinson and Merritt Kelly.

Steer riding: First, Rose Coe; Second, Ferris French; Third, Leonard Cain.

Bronc riding: First, Grady Eldridge; Second, Ferris French; Third, Scrub Thompson.

Goat roping: First, Jack Forster; Second, Louis Cain; Third, Z. L. Ferris.

Cigar race: First, Ralph Bonnell; Second, Billy Ferguson; Third, Paul Aguayo and E. Marr, tie.

Cowboy foot race: Elmer Schrier & T. Hargett, and a dead heat, tying for first.

The day was perfect and was not marred in any way. The Barbecue Dinner was worth coming a long way for and the committee desires to thank all who contributed to the successful day. Next year will be the twenty-fifth annual event at Ft. Stanton and plans are being made, invitations extended, for this Silver Anniversary affair.

CAPTAN ITEMS

Mr. Richard Hust was here from Nogal, Wednesday.

Mr. Frank Analla and Dannie Lucero who reside near Arabela were Capitan business visitors Wednesday.

Cruz Maes and Bony Carabajal were here from Lincoln Wednesday. They were accompanied by Bony's father, Mr. Daniel Carabajal.

Mrs. J. L. Merchant went to Carrizozo Tuesday of this week and bought a new V-8 from the Carrizozo Auto Company.

Mr. and Mrs. Hilario Maes and family spent the week end at Lincoln.

Mr. J. B. Savage, insurance man from Roswell was here one day this week seeing prospects.

The following new cars and trucks were delivered by the City Garage this week: Cruz Otero, pick-up; J. L. Shaw, G. M. C. school bus; K. W. Dentzler, Oldsmobile Coupe.

We are glad to report that Mrs. Helen M. Sears is now much improved from the operation which she underwent recently in El Paso. She is now attending to her duties and is waiting on her patrons at the post office, as cordially as ever.

For Sale: Sewing machine inquire at old livery stable, or at the News Office.

Sale Opens Tomorrow

We call attention of our readers to Ziegler Bros. Ad which gives only an inkling of the bargains they will offer in their annual sale, which opens tomorrow. They are offering a full line of merchandise at remarkably low prices. Go at once and select your goods while the stocks are large. Their wide price range will meet your approval and will suit your purse.

Notice of Pendency of Suit

IN THE THIRD JUDICIAL DISTRICT COURT OF THE STATE OF NEW MEXICO WITHIN AND FOR LINCOLN COUNTY

CHARLES P. FRITZ, Plaintiff,

vs.

Vicente Ulbarri impleaded with the following named defendants against whom substituted service is hereby sought to be obtained, to-wit: John H. Graham, Rosenthal & Company; First State Bank of Capitlan, A Corporation; The Unknown Heirs of Jesse Ulbarri, deceased; The Unknown Heirs of Juan Ulbarri, deceased; The Unknown Heirs of Luasaro Gallegos, deceased; The Unknown Heirs of Manuel Silva y Silva, deceased; The Unknown Heirs of Juan de Dios Romero, deceased; The Unknown Heirs of Celestina Romero, deceased, wife of Juan de Dios Romero, deceased; And All Unknown Claimants of interests in the hereinafter described premises adverse to the plaintiff,

No. 4472
CIVIL

The State of New Mexico to the above named defendants, PRESENTING:

Notice is hereby given that Charles P. Fritz as plaintiff, has filed his complaint in the above named court and in the above numbered and styled cause of action against you and each of you; that the general objects of said action are to quiet the said plaintiff's title in and to the property described in the complaint in said cause, said property being in section 25, Township 10 South Range 16 East, N. M. P. M., Lincoln County, New Mexico, and to establish plaintiff's estate in said title against any adverse claims of the defendants and each of them and to estop and bar the defendants and each of them from having or claiming any right or title or interest in or lien upon said property.

You are further notified that unless you enter your appearance in said cause on or before the 21st day of August, 1937, judgment will be rendered in said cause against you by default.

The name of plaintiff's attorney is John E. Hall, and his post office address is Carrizozo, New Mexico.

Witness my hand and seal of said court this 7th day of July, 1937.
(D. C.)
Seal. Edward Penfield,
July 9-30. County Clerk.

Methodist Church

Rev. J. A. Bell received a letter from Chaplain Ridout of Fort Bliss, stating that he would be glad to preach at the Methodist church Sunday evening July 11, combining his service at the local CCC camp with our evening service. The local camp will attend in a body. Our orchestra will play. All the folks of the community please come.

J. A. Bell.

Dink Myers of White Oaks was in town today.

I. O. O. F. Notes

Carrizozo Lodge No. 30, I. O. O. F. in regular session on Tuesday night, July 6th had as visitors our distinguished Grand Master of the state, Mr. Wm. I. Keith; James E. Anderson, High Priest of the Encampment of the Order; A. J. Newsom, Past Grand Master, and Dr. C. T. Kibbe, Grand Instructor.

Grand Master Keith and Grand Instructor Kibbe were accompanied by their wives and children. Their wives are of the Rebekah degree.

E. F. Crockett of East Side Lodge, I. O. O. F., Los Angeles was present as a visitor, there being a total of thirteen visitors.

Bro. H. S. Comrey of this lodge was present. He joined the order in Parkersville, Va., in 1867 and has been a member ever since. Bro. Comrey has passed his 90th year.

There was a joint installation of Alamogordo and Carrizozo officers elect, by Herman E. Kelt, D. D. G. M. of District No. 9.

Also the First degree of Odd Fellowship was conferred upon a candidate from Alamogordo and one from Carrizozo.

The hall was filled to its seating capacity. Refreshments were served between acts.

NOGAL NOTES

Mr. and Mrs. Jack Zumwalt have moved back to Carrizozo.

Mr. Stinnett of Post, Texas, spent the week-end here with his brother, Carl Stinnett.

Mr. and Mrs. Jesse May, W. F. Peacock, John McDaniels, Marion Hust, Homer McDaniels, Hardy Shrum, Marvin Peacock, Mrs. Benton Yates and children of Nogal, Mrs. Andrew McBrayer, Mr. and Mrs. Randall Mixon of Carrizozo spent the 4th up Nogal Canyon, on a picnic. All reported a nice time and a lovely lunch.

Mr. Benton Yates is home from Weed where he has been employed by the forest service.

Mr. and Mrs. Clyde Luckey, Drexall and Maydell Yates were in Carrizozo Saturday evening for the carnival dance.

Mr. and Mrs. Bowen Zumwalt spent Sunday with their son, Mert.

Buster and Jack Graves are back home after spending several months in Arizona.

Mr. and Mrs. Walter Riggs visited in the community Monday afternoon.

Mr. and Mrs. Ollie Lucas spent Monday with their daughter, Mrs. Hardy Shrum.

Mr. and Mrs. Virgil Jones, Walter Snell, Snooks McDaniel, Violet McDaniel, Buster, Jack, and Jerry Graves and Floy Skinner all attended the rodeo at Ft. Stanton the 4th.

Nogal had two nice showers this past week which were enjoyed by everyone.

Jerry Graves and William Snell spent a few days at Carlsbad this week.

Appreciation

The American Legion officers and dance committees wish to thank everyone who helped to make the dance a success Saturday night. We thank those who sold tickets, helped to decorate, and those who attended.

Picnic on Bonito

Sunday, July 4th, about thirty members of the P. M. Johnson family celebrated the holiday by holding a reunion of the family for as many as could attend. Those present were: Mr. and Mrs. Bryan Cazier, Mr. and Mrs. Lloyd Treat, Mr. and Mrs. Ira Greer and children, Miss Lillian Johnson, Mr. and Mrs. Carroll Johnson, Mr. and Mrs. Meyer Barnett and children, Mr. and Mrs. Iva Johnson and sons, Mrs. Julia Greer, Mrs. John Greer, Mr. and Mrs. Frank Greer and two sons. The last five named are from Arizona, and were visiting relatives here and at Hot Springs.

Diesel

"Diesel" has been somewhat of a mystic word. The public has been told over and over that the Diesel is the most efficient type of engine ever manufactured. But why? The answer is that it gives the most power for the least fuel; it converts several times as much energy in a fuel into work as does the steam engine or turbine engine, and is recognized as inherently somewhat better than the most highly developed gasoline automobile or airplane engines. A gallon fuel in a Diesel has pulled a train almost three miles and cut down the cost of the haul nearly seventy-five per cent. No wonder the Diesel engine is emerging from the shadows of mystery to serve modern progress. Time marches on!

Mr. Lazaro Torres

Mrs. Joe Navarro left Sunday for El Paso, to be present at the funeral of her father, who passed away, last Saturday at Tucson, Arizona in a Southern Pacific hospital.

Mr. Torres was 54 years of age and for many years was employed by the Southern Pacific in El Paso.

He leaves to mourn his death, two daughters, Mrs. Joe Navarro of this place and Miss Juana Torres of Oscura.

Mr. Velasco gives 25 Years of Service to Insurance Co.

In the last publication of the Washington Review appeared the photographs of Mr. Fred Velasco of El Paso and his brother Mr. G. G. Velasco.

Mr. Fred Velasco is well known in Lincoln county and the Review highly praised his work with the Washington National Insurance Company. He has been a successful agent for the company for the last 25 years. He is planning to make his home in the Hondo valley in the near future.

Hill-Johnson

Miss Cora Hill and Mr. Carroll Johnson were married in Alamogordo, June 21st. The bride is very attractive and has spent most of her life in Otero county. The groom is a son of Mr. and Mrs. P. M. Johnson of Carrizozo, and is an exemplary young man. They will reside at Three Rivers where Mr. Johnson has a responsible position with the Palomas Cattle Company. Friends wish them a happy and prosperous life.

American Legion Dance

The American Legion dance last Saturday night was by far the best attended affair that has been held here in months. People came from Capitan, White Oaks, Corona, and every point around. About \$181.00 were added to the coffers. Decorations were beautiful. Confetti was plentiful and souvenirs were white balloons with the American flag stamped upon them.

"Trailabouts"

Latest addition to the group of General Motors Truck products is the "Trailabout," a new GMC two-wheel commercial and general utility trailer of 1,000 pound capacity which hitches either to passenger cars or trucks.

An extremely wide range of utility, is afforded by a choice of two body lengths and four body arrangements which meet the needs of such prospective users as small tradesmen and contractors, salesmen who must carry bulky or heavy samples, landscape gardeners, sportsmen, tourists and campers. The Trailabout may be obtained either with or without springs. A folding support leg holds it in a horizontal position when detached. Quality of workmanship, body metal, axle steel and all other materials are identical with those employed in General Motor Trucks.

Goodbye Caboose

With the railroads going in for "streamlining," it will not come as surprising news to the average citizen to learn that "the little red caboose behind the train" has also come in for a share of it. Several of the big railroad systems are removing the little old tower from the top of the caboose and installing bay windows on each side. Here the brakemen and conductors can sit in comfortable, upholstered chairs and watch for any tell-tale smoke of a hot-box or the streams of sparks indicating a binding brake beam. Safety stoves will enable them to cook warm meals as they ride, while electric refrigerators and leather couches easily convertible into beds will supplant the old time wooden benches that served as seats. And so, in this modern age of science and invention, another old tradition passes. The "little red caboose behind the train" is to join the long list of old time memories.

Mr. and Mrs. J. V. Taylor of Oscura are spending the summer in Washington, D. C. where Mr. Taylor is employed.

Ralph Hall of Albuquerque spent the 4th of July holiday with his parents, Mr. and Mrs. J. E. Hall, Sr., at Ancho.

Miss Bee Johnson, proprietor of Bee's Beauty shop moved her residence today to an apartment in the Newton cottage.

Mr. Stewart Sterling and wife, of Silver City, visited at the home of Rev. and Mrs. J. A. Bell last Sunday and Monday. They found part of the family away from home, but their nephew, Sterling, entertained them. Mr. Sterling formerly lived here, but has been Agricultural agent at Silver City the past fifteen years.

Mr. Jno. Harkey is adding some improvements to his lumber yard.

Village Report

Minutes of regular meeting of Board of Trustees held at City Hall July 6, 1937, at 7:30 p. m.

Members present: F. E. Richard, Mayor; A. J. Rolland, John W. Harkey, Andy Padilla and Tennis Bigelow, members; Roley Ward, Marshal; Morgan Lovelace, Clerk.

Members absent: None. Minutes of last meeting were read and approved.

The following bills were approved and ordered paid.

| | |
|---|--------|
| Don Gordon, Met. | |
| Dep. Ref. | \$2.50 |
| Mrs. C. E. Armstrong .. | 2.50 |

Steel Furnaces Glow Again

PLANTS of the independent steel corporations in Pennsylvania and Ohio were once more operating as state troopers kept the peace. Violence among strikers, workers and police dwindled to a handful of hand to hand fights in which injuries were comparatively few.

With Gov. George H. Earle having lifted martial law in Johnstown, Pa., it was estimated that nearly half the 15,000 workers of the Bethlehem Steel corporation's great Cambria plant were back on the job.

It was apparent that the real grip of the strike had been broken. Mayor Daniel Shields declared it was all over, but there were still about 250 pickets on hand. The day before the plant re-opened the C. I. O., in a last-minute attempt to save its cause, promised a mass meeting near Johnstown of 50,000 miners who would then add the steel strikers in keeping the plants closed. Only about 1,500 showed up, and after listening to speeches by union leaders they dispersed peaceably.

Plants of the Republic Steel corporation and Youngstown Sheet & Tube company in Ohio's Mahoning valley, where half of the total numbers of state militiamen were protecting the public peace, again were operating. Steel plants in Chicago were preparing to reopen. Still none of the independent steel corporations had signed contracts with C. I. O. unions. Their refusal to sign had been the sole issue of the strikes.

Der Fuehrer Scores Neutrals

"FROM now on," Adolf Hitler told 200,000 Nazis at a party rally in Wurzburg, "we will prefer to take the freedom, independence, honor and security of our nation into our own hands and protect ourselves alone."

Disgusted, Germany withdrew from the non-intervention patrol of Spain, as Italy did likewise. Der Fuehrer warned that the Nazis would take independent action to protect themselves from attacks by the Spanish government. He described how Germany had been condemned for shelling Almeria after a Spanish airplane had bombed the cruiser Deutschland, and how, when the cruiser Leipzig was attacked by a submarine while on patrol duty, the non-intervention committee had done nothing about it.

A remedy suggested by Great Britain and France was that the patrol duty be left entirely to them, with Italian observers on French patrol ships and German observers on British ships to "judge the equitable, impartial working of the system."

A remedy suggested by Great Britain and France was that the patrol duty be left entirely to them, with Italian observers on French patrol ships and German observers on British ships to "judge the equitable, impartial working of the system."

Mediation Board Gives Up

THE mediation board of three, named by Secretary of Labor Perkins to sit in Cleveland and attempt to negotiate a settlement in the steel strike, gave up in despair. Its chairman, Charles P. Taft of Cincinnati, and the other two members, Lloyd Garrison, former president of the national labor relations board, and Edward F. McGrady, trouble-shooting assistant of Mme. Perkins, were unable even to persuade Tom Girdler, Eugene Grace and other steel officials to sit around a conference table at which union leaders were present. The board explained its failure, "The only hope of settlement lies in such a meeting."

In criticizing the companies for their stand the board said: "Nothing can be made clearer today than that management and organized labor, when it really represents the wishes of the men, have got to learn how to live together, to reach agreements and to abide by them when made."

Steel officials handed Taft a written resume of their stand, that they would not make any agreement with Lewis' "irresponsible" C. I. O. They admitted that the Wagner act might force them to negotiate with the union, but declared another law provides that no one need make a contract he doesn't want to make.

Governor Davey of Ohio revealed that after the board had given up, Secretary Perkins telephoned to ask him to subpoena steel chiefs to the state capital, Columbus, and "keep them there until they sign an agreement." Meanwhile a state troops would keep the mills closed. Mme. Perkins suggested. Governor Davey refused, saying:

"Secretary Perkins' suggestion would be the exercise of the most autocratic and dictatorial power ever attempted. In private life it would be kidnapping. "Until the courts have decided that the companies have to sign contracts or agreements I have no right to take anybody and hold him. I have no right to keep plants closed except in case of riot. The troops are in the steel district

Love surmounted the hatred of two political dynasties as Miss Ethel du Pont married Franklin Delano Roosevelt, Jr.

now for the purpose of maintaining law and order; to protect the rights of those who want to go back to work."

Looks Like a Long Summer

CONGRESS will be in session for a long time yet, probably until September 1. That was the consensus of the 240 senators and congressmen who attended President Roosevelt's week-end outing for majority members on Jefferson Island in Chesapeake bay.

Although they insisted the meeting was purely social, it was generally accepted that attempts had been made to swing back certain of the New Deal lawmakers who had been getting out of line lately. The result is that a heavy program of legislation desired by the administration will be attempted before the members of congress can leave for home.

The President's court bill—presumably in its original form, although it seems to face certain defeat, either through a vote or through filibustering—headed the list. It was closely followed by government reorganization and wage and hour measures.

Seeks Changes in Wagner Act

SEN. ARTHUR H. VANDENBERG of Michigan proposed three amendments to the national labor relations act designed to broaden the rights of employers under the Wagner act, forbid "sit down" strikes and other "unfair" union practices, and provide severe penalties for unions which violated contracts with employers. His amendments:

1.—To give employers the same right which only employees now enjoy to appeal to the national labor relations board for an election to determine the representatives of employees.

2.—To require agreements in writing and to permit strikes only after a majority vote of all employees. Any group which broke its contract and did not repair the break after being ordered to do so by the board would be suspended from representation.

3.—Establish a code of practices for labor. This would:

Prohibit compulsory political assessments on union members.

Require that all union officers, agents and representatives be United States citizens.

Prohibit union organization by coercion.

Prohibit damage to property, strikes intended to force any person to violate a contract or federal laws, and violations of "any person's rights in real or personal property."

Montagues and Capulets

WITH all the family blessings save those of a political classification, Miss Ethel du Pont, daughter of Eugene du Pont, and Franklin Delano Roosevelt, Jr., son of the President of the United States, were married at Christ church near Wilmington, Del., in a "simple" wedding attended by a "handful" of about 400 picked guests. Bitter political hatreds of the older generations were buried in the protests that this was "the youngsters' day."

Gedeon Slayer Surrenders

ROBERT IRWIN, New York sculptor once treated for insanity, who killed Veronica Gedeon, beautiful New York model; Mrs. Mary Gedeon, her mother and Frank Byrnes, a boarder in the Gedeon home, on last Easter Sunday, surrendered to police in Chicago. He was flown back to New York City where indictments were being prepared. He prepared to defend himself from the electric chair by a plea of insanity.

Budget Trouble, French

BUDGET trouble is bothering France in a serious way; in fact it led to the resignation of Premier Leon Blum and his People's Front government, to be succeeded by Camille Chautemps. One of Chautemps' first acts was to appoint Georges Bonnet, ambassador to the United States, as minister of finance, with orders to begin attempts to balance the budget.

Bonnet's first moves were to close the stock exchange and suspend foreign exchange and commercial payments pending a decision on whether or not he would be made an economic dictator temporarily.

France, like the United States, operates on two budgets—ordinary and extraordinary. France's deficit in her ordinary budget, as estimated by retiring Finance Minister Vincent Auriol, is about \$200,000,000, and the deficit in her extraordinary budget approximately \$1,500,000,000. Rene Brunet, Bonnet's under-secretary, said they could be balanced in three years.

Most of the expenditures from the extraordinary budget are for defense.

Budget Trouble, U. S.

TREASURY figures indicated that the end of the fiscal year would find the President's economy program missing its mark by about \$200,000,000. Last April he warned all departments that expenditures would have to be drastically cut, and revised his budget to \$295,000,000 less than the forecast in January. His revised budget estimated that expenditures from July 1, 1936, to June 30, 1937, would be \$7,781,000,000; actually they turned out to be \$7,883,000,000, or \$102,000,000 above the estimate. It was believed that, at that rate, there would be a difference of about \$200,000,000 in the budget and actual spending for the entire fiscal year.

"Humanizing" the Majority

A MAJORITY members of congress met on Jefferson Island in Chesapeake bay with President Roosevelt, to have their relations with the chief executive "humanized," the belief in Washington circles is that the President is willing to accept a third term expanded to the greatest proportions yet known.

President Roosevelt

The spark which touched off the latest cloakroom whisperings of a third term was the declaration by Gov. George H. Earle of Pennsylvania that he would give "unqualified and final" support to a Roosevelt - for - President movement in 1940. Further reports had it that John L. Lewis, chairman of the Committee for Industrial Organization and leader of the sit-down strikes that have swept the nation, was working toward the same end. The President has only indirectly disavowed such an ambition.

The Mail Must Go Through

FEDERAL warrants were issued at Cleveland for six C. I. O. leaders in the strike at Youngstown and Warren, charging them with preventing delivery of the United States mails to loyal employees of the steel company plants there. Their names were not revealed.

The order for the obtaining of the warrant was given by Attorney-General Homer S. Cummings after he had looked over testimony at the senate post office committee's hearing. Charges have been made that C. I. O. leaders were censoring the mail in Ohio cities and refusing to permit delivery of parcel post packages containing food, clothing and other "irregular" articles for workers in the plants.

"All mail that the post office department sees fit to attempt to deliver must be delivered," said Cummings. This did not conflict with the post office department's refusal to deliver packages to the plants, but sought to prosecute persons who would prevent the delivery of mail the department had okayed.

Rebels Again Eye Madrid

HAVING taken Bilbao after months of siege, Gen. Francisco Franco, rebel commander, turned his guns once more upon Madrid and the sector north of Guadalajara. New troops were moved into the sections about the western and southeastern limits of the city.

The loyalist government set out at once to strengthen its own lines, although it was not believed Madrid was in much danger of attack before the insurgents have "cleaned up" the northern provinces. Since the capture of Bilbao the Basque and Asturian forces have been virtually isolated from those of the Madrid-Valencia government.

Hopkins Slices WPA Rolls

WORKS PROGRESS ADMINISTRATION HARRY L. HOPKINS is busy trimming 314,739 names off the WPA rolls, to shave the total to 1,635,477 by mid-July. The cut was to be effected "simply through not replacing men who found jobs in private industry" and by combing the lists for ineligible. WPA officials emphasized the need for economy by comparing the estimated \$2,175,000,000 spent in 1937 with the \$1,500,000,000 approved by congress for relief in fiscal 1938.

Here's What to Wear on Summer Day

By CHERIE NICHOLAS

AS TO what to wear on a summer day, simple flattering little gay print frocks, the more sophisticated the smarter, are literally "running away with the show." To emphasize the summery look comes into the style picture hats that are very wide of brim. These hats are of straw, or felt, or that which is very, very new, they may be of stitched fabric, plique, linen or layer upon layer of stiffened silk chiffon.

In the illustration we are showing to the right a most wearable shirt-waist-type spectator sports dress in a silk crepe with a neat Paisley patterning on a blue ground. The panel front in the skirt has pleats on either side. The conservative styling of this dress together with the quality texture of the silk gives "class" in the eyes of those who recognize the better fashions. The fabric being a sterling pure silk dyed can be depended upon as a standby when in critical moments the "what-to-wear" problem presents itself. The wide-brimmed hat of burnt straw adds the final touch of distinction.

Another token of chic is the fact that this hat is crownless, and hats in fashion's realm are going crownless at an astonishing rate. Speaking of smart millinery, there is a tendency, whether hats are large or small, to wear them in an off-the-face manner that reveals a smooth brow framed with smartly coiffed hair. The hat pictured in the oval inset is a Jean King creation in glistening white toys, a cool popier-mache straw that is just the thing for midsummer wear. A velvet band in soft blue finishes its graceful line in an artful bow at the nape of the neck. With your most summery frocks a hat of this type will carry a convincing message of chic and charm.

Designers have entered into the

spirit of cottons wholeheartedly this season. It is truly a revelation to see what wonders they are doing with both sturdy and dainty sheer weaves, tuning their fashioning to formal as well as informal wear. Printed cottons especially were never more beautiful. A special feature is being made of printed cotton velvets, some of which are simply entrancing both as to their patterning and their exquisite sheerness. These velvets are so inexpensive too, women who do their own sewing can have the prettiest sort of frocks at trifling cost.

The attractive summer girls standing to the left and center in the illustration are wearing charming cotton dresses as fresh and sweet as an old-fashioned garden. The cottons that fashion them won't shrink because they have already been scientifically shrunk. The dress to the left has wee little pleatings on the skirt and is a pretty style to copy if you are making your own.

The dress centered offsets its gay print with a dainty lace-and-embroidered lingerie collar. There never was a time in fashion history when accessories counted for as much as they do this season. Not only is the most feminine looking neckwear a necessary luxury but in more ways than can here be enumerated the emphasis is placed on the value of choosing smart tanned-to-the-costume accessories. An intriguing use of bright cotton prints is made in the clever halters which are selling at the neckwear counters so briskly. These halter vestees with their long tie-edges are making a gesture in economy that enables the woman with a most limited budget to look well dressed at all times.

VIVID FLORALS

By CHERIE NICHOLAS

Simple daytime frocks neatly tailored of sturdy wash fabrics patterned with vibrant florals are the call of the hour. One should include several frocks of the type pictured in the summer wardrobe, especially since they are so easily made, and alluring materials guaranteed not to shrink are so easily available. This well-tailored frock is strewn all over with exotic flowers. It is a dress that will tub any number of times and never shrink a mite.

SHORT DANCE DRESS IS NEWEST FASHION

Why not wear the new short dance dresses before anyone else does? Schiaparelli introduced them, Paris immediately began wearing them, and New York is looking them over with great interest. They may be the beginning of the end for long evening gowns, as some stylists say, but the end is a long way off.

These short frocks for long evenings are very spirited and gay and young. Their swirling hemlines are more than five yards around. College girls will take them back to school this fall. The length may be anything that suits you, from six to twelve inches from the dance floor.

Tyrolean Influence Is

Spreading to Accessories

Gay colors cross the border of the Tyrol—that little mountainous district in western Austria—to fashion circles in all parts of the world. From the shaving brush feather in madame's sport hat to the embroidery on the hem of her skirt, the Tyrol influences her wardrobe.

The latest and most novel Tyrolean accessory—prong initials for the handbag—were just brought out for Palm Beach wear. They are made up in many colors which madame mixes with gay abandon. Tangerine yellow, followed by red and hunter green is a garish combination inspired by the peasant girls' costumes.

The largest of the new Tyrolean initials is reminiscent of the bold lettering on children's blocks. Cut out in metal, this initial is covered over with shiny patent-leather, or a calf grain. Strung across the flap of a white pastel bag, these initials speak a dashing personality.

FARM TOPICS

CURING HAY CROP TO RETAIN COLOR

Artificial Drying Found to Be Good Practice.

By E. R. Gross, Agricultural Engineer, New Jersey College of Agriculture, WNY Service.

Larger scale production and increased use of machinery have placed greater emphasis on the proper curing and handling of hay to preserve its feed value, prevent shattering of leaves, and to retain the full green color and the carotene from which animals get vitamin A. Observations and research on the new practices in curing and storing have made available more scientific knowledge than ever before. Earlier cutting, artificial drying and chopping have brought better results in many cases, but have also introduced new dangers.

Artificial drying of early cut crops offers possibilities of preserving the green color, a high vitamin content, and saving the tender leaves. Mature hay shatters more readily from field handling. Artificial drying generally requires large equipment which may be too costly for the average farmer. A portable drier operated by a ring of farmers or a custom operated drier are solutions suggested.

Chopped hay offers the advantages of compact storage, easy handling in the operations of feeding, mixing and rationing, and results in more complete consumption. This may be particularly noticeable in the feeding of coarse-stemmed hay. Hay chopping may be especially desirable when hay prices are high.

Chopping when associated with artificial drying should create no problem in heating, but care must be taken not to overload mow floors built only for the storage of loose hay. Chopped hay will occupy about one-half the space required for loose hay.

Chopping field dry hay increases the possibilities of loss from shattering because the hay must be as dry as for loose storage, or drier. Chopped hay packs very closely and is likely to heat excessively if it contains more than 15 to 20 per cent of moisture. The farmer must judge the moisture content by twisting a wisp of hay and noting stem moisture and shattering.

Spontaneous combustion, cause of many barn fires, should be prevented as far as possible by never allowing the hay to reach high temperatures. Temperatures of 120 to 125 degrees Fahrenheit are not dangerous but may cause some loss of color and vitamin A.

Special Care Necessary to Raise Good Pullets

The goal of the poultryman should be a crop of good pullets next fall at a time when high egg prices prevail. In making plans for next fall's pullets, determine the number of replacements wanted and secure three chicks for each pullet. Keep these chicks in roomy, comfortable quarters and feed complete rations in adequate amounts.

As warm weather is here, special efforts should be made to keep the chicks comfortable, advises a writer in Wallace's Farmer. This means an abundance of shade such as patches of sunflowers or corn. A liberal supply of clean, fresh water also is especially important. Keep the feed hoppers in clean, shady places and move frequently to avoid contamination of the soil.

Remember that consumption of green, succulent material insures thrifty chicks. So far as possible, the range should provide this succulence.

Unless the chicks are ranging and eating during the time when it is unnecessary for them to seek shelter from the hot sunlight, valuable time when favorable temperature conditions prevail is lost. While the poultryman does not have direct control of the weather, he can arrange his management practices so as to minimize the retarding effects when high temperatures prevail. This will be all the more important with the early-hatched chicks.

Disposing of Cockerels

As a general rule, it is more profitable to dispose of all the cockerels as broilers at 1 1/2 to 2 pounds, according to a specialist. The feed requirement increases rapidly after that time and the price falls, owing to the seasonal drop in poultry prices and the fact that heavier birds will not bring broiler prices. Keeping the cockerels for a longer time may be unwise, for the laying pullets represent the chief source of annual income.

Mixing Chick Rations

In mixing chick rations only good quality materials should be used. For instance, if yellow corn is used it must be sweet and clean. If good quality yellow corn is not available then some other grain that is good should be used. It is easy to demonstrate that two mixtures can be made using the same formula and if the one mixture is made with poor quality materials the results will be unsatisfactory, no matter how good the formula.

BEAUTY'S DAUGHTER

 WNU Service

SYNOPSIS

Victoria Herrendeen, a vivacious little girl, had been too young to feel the shock that came when her father, Keith Herrendeen, lost his fortune. A gentle, unobtrusive soul, he is now employed as an obscure chemist in San Francisco. His wife, Magda, cannot adjust herself to the change. She is a beautiful woman, fond of pleasure and a magnet for men's attention. Magda and Victoria have been down at a summer resort and Keith joins them for the week-end. Magda leaves for a bridge party, excusing herself for being such a "runaway." The Herrendeens return to their small San Francisco apartment. Keith does not approve of Magda's mad social life and they quarrel frequently. Magda receives flowers and a diamond from Ferdie Manners, a wealthy man from Argentina whom she had met less than a week before. Manners arrives a few hours later. Magda takes Victoria to Nevada to visit a woman friend who has a daughter named Catherine. There she tells her she is going to get a divorce. Victoria soon is in boarding school with her friend Catherine. Magda marries Manners and they spend two years in Argentina. Victoria has studied in Europe and at eighteen she visits her mother when Ferdie rents a beautiful home. Magda is unhappy over Ferdie's drinking and attentions to other women. When her mother and stepfather return to South America, Victoria refuses to go with them because of Ferdie's unwelcome attentions to her. Magda returns and tells Vic she and Ferdie have separated. Meanwhile Keith has remarried. Victoria is now a student nurse. Magda has fallen in love with Lucius Farmer, a married artist. While she and Vic prepare for a trip to Europe, Ferdie takes a suite in their hotel. The night before Magda and Vic are to sail, Magda elopes with Lucius Farmer. While nursing the children of Dr. and Mrs. Keats, Vic meets Dr. Quentin Hardisty, a brilliant physician, much sought after by women, who is a widower with a crippled daughter.

CHAPTER IV—Continued

"Better than that," Victoria said. "We've put it aside—we expected this."

She went away and presently, when a maid had preceded her with a card table and silver and glasses, returned with a laden tray.

"You looked very charming with that baby in your arms," he said abruptly. Victoria and he were alone now; the men had had their supper; the fire had burned down low during the weary, comfortable talk that had followed, and presently a ringing telephone had taken the doctor to his study, and Mrs. Keats, murmuring something like, "Oh, dear, I must tell him—" had followed him.

He had seen her with Bunty in her arms, had he? The unexpected blood rose to Vic's face.

"Any man would be glad to come home and find such a scene at night," the man said.

"Well, would he?" Vicky countered. "Violet and I have just been having an argument about it. I say that nurseries and Nanas and hearth fires have all gone out of fashion. That isn't what men want, any more!"

"Only proving that you don't know anything about men," the doctor said. "I didn't think you did!"

"Most men would much rather have wives who are curled and dressed and painted and ready to go out at night," Victoria persisted, annoyed in spite of herself by his lazy air of complacency, and warning to her subject. "Men aren't crazy about Violet, because she lives for her husband and the children."

"You may be a little bit cracked on the subject of love and marriage," Dr. Hardisty said. "But you're amusing."

"Do you think I'm a little bit cracked on the subject of love and marriage?" Victoria demanded in surprise. "There are plenty of bachelors about. Is it so extraordinary that now and then a woman likes to play a lone hand? I have my work, my friends—everything I want. Why should I add to it all a man I don't want?"

"Because in your heart you know that you do want a man!"

"You think so?" Vic asked, her face red.

"I do." Quite suddenly, quite simply his arm was about her and, for the first time in her life, a man kissed her on the lips. "There!" he said and laughed. In another instant he was gone.

"Seriously, and all this teasing aside, would you come over to the shack for Saturday and Sunday?" he asked her a few weeks later.

Instantly she knew now that she ought to say no. But the temptation to yield was strong. For, after all, his was the most fascinating and popular figure in San Francisco's social circle at the time, and weekend invitations to the shabby little cabin in Mill Valley were eagerly sought.

Mill Valley would be thrilling! After all, Quentin had shown that he regretted his craziness, and when he was in one of his nice, simple moods she liked him quite as much as she detested him in his other ones.

All this flashed through her mind as she hesitated over the invitation, smiling.

"You said I would, you know, and I will!" she told him, simply.

"And I think you are a sport!" he answered, in his pleasantest manner. "It'll be rough, you know."

"I can be very rough. Only I don't go in for cocktails and staying up dancing to the radio until morning," she began.

"Nothing like that. Rough means that I have only one Chinese boy there and he doesn't know much about cooking, and that the chief entertainment will be a long climb up the mountain on Sunday."

"And can the beautiful Mrs. Pool go in for all that?"

"The beautiful Mrs. Pool will not be there. This will be a very simple party. Just four of us."

"It sounds good. Who's going along to protect my youth and innocence?" Victoria smiled.

"Do you think Chase and Dora Upham might manage it?"

"They might."

"I'll pick you up at four o'clock on Saturday, then. Bring comfortable shoes."

At four o'clock Saturday they drove to the ferry and were carried, motorcar and all, across the flowing, gray waters of the bay. There was fog on the bay, and Tamapals was wreathed in fog; but down in the valley a misty sunlight was shining.

Up through a shady tunnel of redwoods the winding road rose above the Cascades and mounted the great stony flank of the mountain. On a spur of land pushing boldly westward toward the far glitter of the sea the plain little brown cabin stood. The ground all about it was deep in pine needles; the air was aromatic with their sweet, sharp scent. Descending from the car, the girl admitted that her first impulse was to give a long, loud scream of pure delight.

CHAPTER V

A lean Chinese boy in a coolie coat of blue, with dingy white trousers and padded rope shoes, was carrying the provisions out of sight. Vic and the man went into the big, main room that constituted almost the entire cabin.

At both sides of it were raised wide alcoves with windows; thick blue canvas curtains could shut them off from the main room. Each of these contained three beds,

"And Isn't He a Darling?"

chests, chairs; opening from each was a large shower bath casually constructed of brown planks, with redwood fronds pushing their way in between the walls and the roof.

In the main room were rugs, big chairs, tables from which books and magazines cascaded, an enormous fireplace smoked high from many a roaring blaze, lamps, cushions on a deep davenport; all of the comfortable, informal litter dear to the bachelor heart. Window doors opened on a flagged terrace behind which the magnificent crest of the mountain reared against the softly encroaching fog.

"We have our meals out here on the terrace all summer," the doctor said. "But it's going to be too cold tonight. Mock Suey!" he shouted suddenly. The Chinese silently padded into sight. "Eat by fire tonight?"

"Eat tellis?" the boy asked hopefully.

"No. Too muchee catchem cole tellis. Eat fire."

"Fi-ah," the Oriental conceded in a sad, liquid voice. The boy melted away.

Victoria began to wonder when the Uphams would arrive.

Five o'clock came. Six o'clock came.

"Nervous, huh?" Quentin Hardisty asked, looking up.

"Not very," the girl smiled, flushing.

"Why at all?"

"Well, then, not nervous at all!" Vic said, laughing. "But there is something fundamentally disturbing about being shut up in a lone mountain cabin with a handsome and fascinating man," she reminded him.

"Listen, why do you rub in that fascinating, handsome stuff? That's the third time."

"The second, I think."

"I've seen you," the man insisted, "when you were nothing short of—well, there's only one word for it; beautiful."

"Thank you. Seriously, there aren't many real beauties, and the few I've known have had a vile time!"

"Well, coming back to first principles," Dr. Hardisty said, "don't

worry about the Uphams; they'll get here. And if they didn't, I assure you that you'd be as safe as my own sister."

The girl looked across at him, handsome and brown, and quite serious, in the soft fire and lamplight, and her heart gave an odd twist, a physical plunge of emotion. Her throat thickened suddenly, and she felt silly and confused. But she gave no sign of it, and before either she or her host spoke again the Uphams arrived, in a gay flurry of apologies, and after that everything was smooth sailing.

The two women were relegated to the south alcove, drew their curtain, and proceeded with their unpacking and changing to a lively exchange of gossip. Dora was going to have a baby in six months; nobody knew it but Chase, but they were tremendously excited. Vic was all sympathetic enthusiasm here. There might be some question in her heart and mind as to wifehood, but motherhood was all joy.

"Oh, Dora, I envy you!"

"I'm terribly happy about it."

"Isn't this fun, being over here together, and just ourselves!"

"I adore this shack. We had our honeymoon here. And isn't he a darling? Vic—listen—"

"Oh, shut up!" Vic said, denying the impeachment before it was voiced.

"No, but listen, don't you think he's darling?"

"Dr. Hardisty? Yes, I do."

"If he liked you?"

"There isn't the slightest chance of it, even if you continue to broadcast your romantic suspicions all over Mill Valley!" Vic began. Dora oink her voice to a whisper.

"Just the same—they can't hear, their shower's going," Dora said.

"Just the same you'd be an awful fool not to marry him if you could, Vic."

"I'll never marry anyone," Vic said, putting on a blue apron, "until I'm foaming at the mouth about him. And I'll never foam at the mouth about anyone, for before I reach that point, I'll take my little throat indoors and cut it. So don't worry about me!"

Trimly equipped, they went out to the kitchen, where the younger doctor was mixing something liquid in a small pail, and the older one busy with a salad.

They all worked together, getting in each other's way, getting more and more hungry as the clock's hands clipped from half-past six to seven, from seven to eight. The boy carried the steaks into the shed, where they were to broil on a charcoal fire. Victoria sampled the salad on a bit of cracker.

"That," she said firmly, "is the most delicious salad I ever tasted!"

It was a long and delightful meal. Presently they carried their cups to the fire, and Mock Suey cleared away the table, and still nobody made a move to go to bed, and the logs burned on, and the level branches of the redwoods swept across the low roof in the restless wind of the spring night.

"You girls going to freeze?"

"Believe me, we have our hot-water bottles," Dora said firmly. Victoria, raising her eyes with a sleepy smile, met Quentin Hardisty's steady look, and was disturbed to feel herself flushing. But when she and Dora finally did drag themselves off to the raised platform where their beds were, and had drawn the canvas curtain against the warm sitting room and the fire, she was conscious of a sort of dancing excitement in her veins. This was all such fun!

There was a rattle at the curtain rings. Victoria put her head through them and found Quentin Hardisty standing close to her at the other side.

Victoria's hair had been gathered to the top of her head in a mass of careless, tawny curls; her young face was rosy from heroic washing with scented soap, her eyes danced.

"Here are two extra—things," the doctor said a little confusedly. "They're stone hot-water bottles; some people like 'em. Anyway, they'll keep hot until morning."

"Oh, God bless you, mister!" Victoria said, the curtains parting as she put out her arms to show her slim body in square, blue-striped pajamas open at the soft young throat.

"You look like a doll!" the man said in a whisper.

Victoria stood still, her throat suddenly thick. She smiled at him confusedly.

"You're lovely!" Quentin said. He laid his hand on her arm. "Good-night!" he said, and somehow the familiar little word was not a farewell. It was everything quivering, thrilling, amazing, breath-taking. Hardly knowing what she did, carried away from her moorings by an impulse thousands of years older than she was, Victoria stooped a little from her higher position, rested her face against his for one second of madness and vertigo, and breathed an answering "Good-night!"

But in the morning she forgot everything except that a new delicious day had dawned and had brought complete happiness with it!

Everyone was in wild spirits on this singing spring morning.

'Way Back When

By JEANNE

FAMOUS SONG WRITER KEPT A BOARDING HOUSE

I WONDER how many many women who are just simple little housewives today, would be famous, if they had the time to take from demands of their homes and families.

Carrie Jacobs Bond made her success because circumstances forced her to change from a housewife to a business woman. She was born in Janesville, Wisconsin, in 1863. She liked music and studied piano from childhood until she married at the age of eighteen. When she was twenty-five, she married Dr. Frank L. Bond, who took a sympathetic interest in her music and encouraged her to compose. She wrote one song, "Is My Dolly Dead?", at that time and it was accepted; but the work was merely a hobby with her and she did not produce more. She devoted her time and efforts to being a good housewife and mother for the Doctor and her little boy. Then, Dr. Bond was killed in an accident and she was left an invalid, without

money, and an eight-year-old son.

Carrie Jacobs Bond did not lose heart. She rented a large house in Chicago and took in roomers. She made some money as a dressmaker and painting china. They were so poor that her son had to go to work soon thereafter as a delivery boy. Ambitiously, she devoted all her spare time to composing songs. Through financial support from a woman singer she started a small music publishing house, writing the words and music, and painting the cover designs of the songs she printed. She even promoted the songs herself, and little by little she won success. Today the songs she wrote are remembered and sung throughout the world, "A Perfect Day," "I Love You Truly," "His Lullaby," "My Son," "Do You Remember?" and others.

SENATOR PITTMAN RUSHED TO ALASKA

SO OFTEN gold buried far away in some inaccessible part of the world looks easier to get than fortunes awaiting us right at home. Senator Key Pittman of Nevada started his career on a wild goose chase for gold, but came back to make his success in the occupation for which his schooling fitted him.

Key Pittman, who was born in 1872, attended law college in Tennessee. His career at that time looked as though it might consist of practicing law, obtaining an appointment as district attorney, and forging ahead in politics with the United States senate as a goal. But young Pittman could not see it that way, and the reason was the Alaskan gold rush in 1896. He rushed up to the Klondike! And what happened? Key Pittman landed at Dawson just ahead of the freeze almost penniless. In Nome it is said that he worked at one end of a bucksaw

to make a living. Then, the people made him district attorney. Shortly thereafter, he returned to the United States, settling in Tonopah, Nev., where he laid the foundation of his fortune in the Tonopah Telephone company.

In 1913, Key Pittman, in his first political contest, was elected to the United States senate, where he has given a good account of himself for 24 years. His greatest interest is to better the position of silver, inspired of course by the great production of this metal in Nevada.

Stories of wealth to be won in foreign fields sound so much more alluring simply because the fields represent the unknown and seem to offer more adventure. Probably while we are pining to be in one place, the fellow who is there wishes he were in ours.

Smart and Comfortable

YOU can stay on the cool side this summer and still bask in the sunshine of flattery if you'll look to Sew-Your-Own for your inspiration. Witness today's trio of smart fashions: do they not fairly take you by the hand?

For Sheer Comfort The model portraying the cool poise of a well groomed cosmopolitan, above center, can be yours, Mildred, with very little tadoo: Choose a beautiful dark ground sheer for this stylish frock. You'll enjoy making it up. Remember it's modern to sew—medieval to swelter.

Personal Item No. 1. This cleverly designed slip is, in a way, like the lovely flower born to blush unseen for it knows its place and keeps it. Because of superb styling, this slip offers new chic to the meticulous woman. It has a wide shadow proof panel, and smooth fashionable lines that make for a well turned out appearance. This is indeed a pattern that bears repetition—anything from lingerie crepe to satin will do well for your several versions.

Sweet 'n' Tart. As wholesome and becoming as her sultan, is this exciting new dress for Miss Junior Deb or her kid sis. It is young enough to please its youthful client, and pretty enough to satisfy the most fastidious mother. Noteworthy is the button-all-the-way front. This means easy laundering, and gives Miss In-Be-Teen the awing she wants. Seersucker, pique, linen, and percale are the materials to choose from for this one.

The Patterns. Pattern 1946 comes in sizes 14 to 20 (32 to 44 bust). Size 16 requires 3 1/4 yards of 39 inch ma-

terial plus 1 yard of ribbon for shoulder straps.

Pattern 1325 is designed for sizes 38 to 52. Size 38 requires 4 1/2 yards of 39 inch material plus 1/2 yard trimming as pictured.

Pattern 1301 is designed for sizes 6, 8, 10, 12, and 14 years. Size 8 years requires 2 1/4 yards of 35 or 39 inch material plus 5 yards of trimming to finish as pictured.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

FRIDAY, JULY 9, 1937

Mrs. Eva B. Smith, Editor and Publisher

Congressional Reflections

Office of Senator Chavez, July 8, 1937.—The boy scouts are in Washington 30,000 strong. Gay and care free these American boys have taken over the city. It is a far cry from the war and regimentation of European youth training methods. 100 boys from New Mexico are participating in the Jamboree. The boys are having the time of their lives. . .

New Mexico gets new benefits, developments in Washington this week revealed. First, the Senate passed the Chavez-Hatch Bill for the Arch Hurley Conservancy District. Second, the Interior Department Appropriation Bill, carrying appropriations for the Rio Grande project on the lower Rio Grande was also approved by the Senate.

This week saw the first tangible results of conferences held by the Congressional Delegation with Bill Oestreich, the Middle Rio Grande Conservancy Engineer, and RFC officials, with the approval of a loan for \$102,000.00 for the repair of flood damage. This will relieve the immediate financial predicament and afford a breathing spell while the program, which also resulted from the conferences and which was presented to the RFC, is being considered by the directors of that agency. There is every indication of a favorable result. The program calls for extensive financial readjustments.

Rural Electrification steps into the picture with an announcement by John Carmody that he approved a contract of \$184,000 for rural electrification in Chavez and Eddy counties.

Notwithstanding these concrete benefits to the State some folks still get unduly agitated because Senator Chavez amended the Interior Appropriation Bill in the Senate and would keep the Indian Bureau from employing three or four useless propaganda employees in the state.

The first steps toward what promises to be the biggest thing that ever happened for New Mexico, the San Juan-Chama Transmountain Diversion Project, was taken this week when the Hatch-Chavez Bill was introduced in the Senate.

Senator Chavez renewed attacks on the Indian Bureau in a radio talk over the Columbia Network Thursday. Chavez reiterated his charges of mismanagement and gross waste. Meanwhile the Senate Committee on Indian Affairs, holding daily hearings, heard sensational charges against the Bureau from various reservations all over the country. There is no doubt that dissension and unrest among the Indians has reached a peak unequalled in the history of the Bureau.

Recent visitors to the office include Representative E. M. Barber of Tucuman, George Queenberry of Las Cruces and Hon. Irwin Moses, Judge of the 9th Judicial District of New Mexico.

Injured From Fall

Billy Roy, young son of Mr. and Mrs. Lloyd Hardcastle of Capitan received internal injuries last Sunday when he fell 30 feet from a tree he was climbing while visiting his grand parents, Mr. and Mrs. Henry Purcell. Billy Roy was taken to the Ft. Stanton hospital for examination, where his condition was pronounced serious.

High School Library

The soil for the new building was broken July 6, where the men started digging the basement. Adobes are all made and work will move along rapidly to completion.

Fifty books were given to the library by Mrs. Gussie Johnson, for which we want to express our thanks.

Mrs. Roselle spent two weeks in the Jicarillas, on her vacation, Margaret Phillips had charge of the library in her absence. The women have cleaned, mended and checked about 10,000 books ready for school this fall.—Reporter.

Being Happy Fashionable

Saying one is happy seems to be the proper thing in China, according to Dr. Randolph Saller, psychologist at Yenching university. Of 500 workers questioned, only 60 admitted that their happiness was below par, and none was a complete pessimist. Happiness is not affected by money, education or jobs, Doctor Saller and his co-workers found. Smokers and non-smokers both were happy. And married men were happier, as a rule, than bachelors.

Local and Personal

Mrs. Riley McPherson and children from Roswell spent July 4th at Ft. Stanton.

Theodore Hobbie and sister Eliza took in the big celebration at Ft. Stanton last Sunday.

Mr. Wm. I. Keith from Raton grandmaster I. O. O. F. his wife and children the grand instructor Dr. Kibbe, and wife and son of Clovis left early Wednesday having attended the joint meeting of Alamogordo and Carrizozo lodges on Tuesday night.

Mrs. Robert Taylor and little granddaughter of Las Cruces visited Mr. and Mrs. Elmer Eaker and family last week.

The "Weaver" Aluminum agents have been putting on a series of dinner parties to demonstrate their ware.

Mrs. Ira Johnson and children will leave Sunday for Mayhill to spend the vacation period with Mr. Johnson. During their absence, Billy Bamberger will have charge of the Times and Herald paper routes.

Virgil Hall was in town from Ancho last Tuesday.

Aubrey Hines, Walter Fulmer, Jr., and Bradley Smith left July 5th for a month of training in C.M.T.C. at Fort Bliss.

Mr. and Mrs. J. R. Jenkins were here from Corona last Monday.

Mr. Larry Gomez former county commissioner was a visitor from San Patricio Saturday.

Mr. and Mrs. Leonard Hunt and children and Mrs. Cherillo Coe of Tularosa were guests of relatives at White Oaks for the Fourth.

Messrs. Cal Lewis, Milton Jones and D. A. Simmons were among the visitors from Ancho last Monday.

Mr. and Mrs. Johnson Stearns of Tucumcari were in town for the American Legion dance Saturday night and spent the Fourth with their parents, Mr. and Mrs. Roy Shafer.

Mr. and Mrs. Bryan Cazier left for their Tucumcari home Tuesday afternoon after spending a few days with Mr. and Mrs. P. M. Johnson and family.

Among those who went to Ruidoso the Fourth were Misses Evelyn Claunch and Dorothy Nickels.

The Star Cafe served a most delicious chicken dinner last Saturday. Mrs. Bigelow has made a number of improvements, and is giving the public prompt and excellent service.

Messrs. P. A. Melton and Arthur Melton of Ancho were business visitors here Tuesday.

Miss Louise Degner spent last Tuesday in Alamogordo visiting her aunt.

Mr. and Mrs. Fred Velasco and son and daughter came up from El Paso and spent the Fourth at Fort Stanton.

FOR SALE—2-wheel trailer, well built, priced reasonably. See Mrs. Jerry Click at Herron's Grocery.

Mrs. Georgia Harkey was a Ruidoso visitor last Sunday.

Mr. and Mrs. Jerry Click will leave tomorrow for Ft. Worth, Texas.

About July 15th Mrs. Marshall Shearer will leave for Colorado. After a few days there she intends to visit the Pacific northwest and Alaska. Before she returns to Carrizozo, she will visit relatives in Louisiana.

Mrs. Wayne H. Hamilton was here from El Paso Tuesday, Mrs. Hamilton had been spending the Fourth at Eagle Creek, and stopped here to visit her grandmother, Mrs. Lesnett and her aunt, Mrs. Crawford.

Supper Party at White Oaks

The Ladies' Aid Society of White Oaks gave a supper party and wiener roast July 4th, high up in the hills to which the entire village was invited. It was more than a party, it was a most delightful event and the good things to eat, were too numerous to mention. All kinds of fruit and vegetable salads, pickles, cookies and coffee. The Ladies' Aid holds these little social affairs every two weeks.

Used Cave for Glass Work
The first glass maker in Scotland was George Hay (1800-1825). He took advantage of a peculiarly formed cave at Wemyss on the Fife coast, and set up his furnace therein.

The Four Kinds of Excess Fat

By DR. JAMES W. BARTON
© Bell Syndicate.—WNU Service.

THERE are some overweights who conscientiously follow their physician's strict reducing diet for a week or ten days and find that the amount of weight lost is practically nothing. If one of normal weight follows that same strict diet, gets the same amount of sleep, and takes the same amount of exercise, there would likely be a loss of from 2 to 5 pounds. If, however, the overweight were to continue on the strict diet for another two or three weeks there would likely be a loss of 4 to 5 pounds at the end of that time. This failure to lose weight during the first ten days was because while some fat was lost all right, the body had retained more than its usual amount of water and so kept up the weight. But by the end of about three weeks, less water is required in proportion to the amount of real fat now present, and with the loss of this "held" water, the weight goes down. It would be worth while, therefore, for all who are trying to lose weight by reducing their food intake, to persist for not less than three to four weeks.

Dr. Barton

However, it is possible that even after keeping to the strict diet for three or four weeks, the loss of weight is very small—one or two pounds. If such be the case the overweight is justified when reporting to his or her physician in asking for some other method as even his severe or strict reducing diet has failed to bring results.

Physicians who treat patients for overweight first explain that to obtain sure results safely from 6 to 10 months may be required, that a reduction of one and a half to two pounds each week is the utmost to be desired or expected.

Make Metabolism Test. It is very likely then that the physician will suggest one more month on the prescribed reducing diet and if results are disappointing he will prescribe other measures to get rid of the excess fat.

If this excess fat is distributed evenly throughout the body, he will make or have made a metabolism test which shows the rate at which the body processes are working. If they are not working at the normal rate (that is they are working slower) he knows that the thyroid gland in the neck is not manufacturing enough juice, and if processes are working faster than normal he knows that the thyroid gland is manufacturing too much juice. Thus when the individual is greatly overweight and the test shows that the body processes are slower than normal, which happens in about 3 to 5 per cent of all overweights, the physician will prescribe thyroid extract because the overweight is justified in requesting it.

If the excess weight is not distributed evenly over the body but is across the shoulders, chest, abdomen, hips and thighs (no excess weight on forearms or lower legs) then instead of using thyroid extract, the physician will likely use pituitary extract, as the pituitary gland has much to do with growth, development and the handling of starch foods by the body.

Removing Local Deposits. Thus when the excess fat is evenly distributed, thyroid extract is used in "stubborn" cases; when it is across shoulders, chest, abdomen, and hips pituitary extract is used. However, there are cases where there are accumulations of fat in different parts of the body, maybe on chest, on hips, on back of neck, or elsewhere. What can be done to remove these "local" deposits of fat?

When the individual is in good health, heart and blood vessels sound, then exercising the parts is the best method of getting rid of this local fat deposit. Slow jogging or running on the spot, skipping, and dancing are excellent exercises.

The use of the electric vibrator, striking the part with the sides of the hands and vigorous massage of the part will stir up the circulation in the part and help to break up the fat globules. In these cases with the local fat deposits, if there is any tendency to overweight generally then cutting down on the food is helpful, but if the individual is of normal weight it is better to depend upon the exercise and massage to remove the fat than take any chances on too great a loss of weight throughout the body.

Remember then that while over 90 per cent of overweight is due to overeating and underexercising there are these other types of overweight where gland extracts and local exercise and massage are necessary.

Cynical Brutality. People were not only brutal but cynically brutal in the last century. The history of Italy, recounts how, after a revolt, many Italians were executed and the bill of expenses presented to the nearest relations of the hanged men.

Doctor Gives Baby Breath of Life

His own mouth pressed against the tiny lips of a new-born baby, Dr. A. L. Gilbert of Elwood, Ill., breathed the breath of life into the tiny lungs. While the doctor kept the baby alive, an inhalator was rushed to Elwood from a nearby city. The little life was saved.

WORLD'S RECORD CATCH

Bigger than the young angler who caught it is the 60-pound white seabass recently landed by Douglas Bombard, age eleven, off Santa Catalina Island, Calif. Douglas made the catch from a little speed boat using flying fish for bait, with a light tackle with a breaking strength of 26 pounds. The young angler's record breaks the former record of E. A. Brewster.

What Irvin S. Cobb Thinks about

Comfort in Traveling. LATELY, on a cross-country prowl, two of us converged on the remotest corners of the desert.

Until our car broke down we crawled along some of the roughest backways in creation, then escaped on what by quaint irony was called an accommodation train over a side-spur of a prehistoric railway line.

Irvin S. Cobb

When we hit concrete high roads and a r-conditioned fliers, I caught myself saying our forefather's put up with plenty of misery in order to move about. And then I realized that what we had endured did not date back to former generations. So soon have we grown accustomed to luxury with speed we forget that most of America, fifteen years ago, lacked what we now accept as common traveling comfort.

Why, less than two decades ago, for my sins, I rode on a certain jerk-water railroad in the deep South. The last work done on its tracks was in 1864 by General Sherman—he tore 'em up.

I made the mistake of trying to shave while en route. When I got through, I looked like one of those German student duellists.

But, nowadays, even those who use homemade trailers seem almost happy at times.

Diplomatic Busybodies. WHO'LL be the next member of our diplomatic corps to open his mouth and put his foot in it clear up to his hip-joint?

It has been nearly two months now since our ambassador to Germany had a bad dream and before nurse could quiet him was proclaiming that a certain billionaire was willing to put up one of his loose billions to buy a dictatorship for this country. He failed to furnish the name and address. Maybe they got left out of the nightmare.

Hardly had paregoric wooed this distinguished sufferer back to hush-a-bye-land when our new representative in the Philippines began demanding that, when it came to drinking official toasts, his name must come higher up on the wine list or he wouldn't be responsible for the consequences. However, the excitement subsided before he could summon the Pacific fleet to bombard Manila. There's a rumor that Washington sent him word he needn't worry about being appropriately saluted—there'd be a nationwide Bronx cheer awaiting him on his return home.

Since then there's been a lull and the American public is getting impatient. We do so love a free show and especially when it's amateur night.

Hard-Bitten Females. TOURING about over certain Western states where open gambling either is by law permitted, or by custom winked at, I noticed this: Generally speaking, the feminine patrons are the steadiest drinkers, the most persistent gamblers, the most reckless betters of all. And frequently their manners are the rudest and their faces the grimmest—determined seemingly to disavow the theory that their sex is the gentler sex.

On the other hand, the men patrons—descended, many of them, from old gun fighters, old prospectors, old path-finders—grow increasingly docile and subdued, absorbing less than their share of the hard liquor—maybe because they fear there won't be enough left for mama and the girls—and risking their dimes where the gallant ladies plunge with dollars.

Sometimes a fellow, watching the modern professional from the protection of the sidelines, gets to longing for the bygone days when, as Kipling might have put it and, in fact, almost did, a woman was only a woman, but a good cigar was ten cents.

These Candid Cameras. ONCE a citizen had a right to object to the publication of a flashlight view showing him beating his wife or exhibiting his appendicitis scar or taking out his upper or something.

That was before they began printing magazines for those who've abandoned the old-fashioned habit of reading and writing. And it's doing glamorous movie queens no real good when these betraying close-ups prove that maybe the glamor is only paint-deep.

Thus the last stronghold of our one-time personal liberty crumble. I used to think a passport picture was about the frankest thing we had in the line of intimate likenesses, excepting, of course, the x-ray.

But this candid camera business which catches you unawares—and often without your underwears—either is the most mendacious attack of all against our practically vanished privacy.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fall to remove impurities that, if retained, may poison the system and wreck the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.
Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

DOAN'S PILLS

Shriners Elect Sugden Imperial Potentate

View of part of the parade of Nobles of the Mystic Shrine in Detroit in connection with the recent convention. John W. Ashworth, eighty-seven years old, said to be the oldest noble at the convention is shown riding in the parade. Right, is Walter S. Sugden of Sidersville, W. Va., elected imperial potentate.

F. Trafford Taylor Heads Kiwanians

F. Trafford Taylor of St. Boniface, Manitoba, Canada, who was elected president of Kiwanis International for 1937-38 at the recent convention at Indianapolis.

He has been a member of the club since 1924. Delegates from all parts of the United States and Canada attended the convention.

Youngest Eagle Tries His Wings

Edward Somers, twelve years old, became the country's youngest "eagle" when he took off for his solo flight at Floyd Bennett field at Long Island, N. Y. Instructor Pilot Archie Baxter wishes him luck. Eddie comes from a flying family. His father, Congressman Andrew L. Somers of Brooklyn, is a pilot.

Baseball Men Honor Memory of Frank Chance

Memories of another baseball era—Frank Chance's day—were revived recently by the Chicago Cubs at a luncheon given by P. K. Wrigley and later at the ball park where the principal ceremonial was the presentation to the present Cubs of a bronze plaque. Shown in the photograph, left to right, front row, John O. Soys, Mordecai Brown, Johnny Evers, Warren Brown; standing, left to right; Joe Tinker, Jimmy Archer, Bill Terry, Charlie Grimm and Jack McCarthy.

Miniature Airplanes Now Fly Freely in New Test Tunnel

Scientists Test Catapult for Launching Transports

By WATSON DAVIS
Director, Science Service.
Langley Field, Va.—Miniature airplanes take off and maneuver for the sake of science in the world's first "free-flight" wind tunnel just demonstrated for the first time by the National Advisory Committee for Aeronautics at its laboratories here.

Instead of the small counterpart of a full-sized airplane being held conventionally in an experimental blast of air, the artificial breeze is increased until the model takes off by itself and flies freely. Then all airons and rudder are controlled by magnetic fields acting on small electro-magnets in the model's wings. The scientist in charge maneuvers the test model plane just as a pilot handles a real one.

"We expect that this new method of studying airplane stability and control will give us much information directly that we have hitherto obtained theoretically or by empirical estimation," said Dr. George W. Lewis, N. A. C. A. director of research.

"Bumps" or gusts of wind are measured and studied by two new devices devised by N. A. C. A. experts.

Instrument Fits Pocket

One of these is a bump recorder small enough to fit into the pocket. About 160 of these instruments are placed in airplanes and seaplanes of different types during actual flight. One of them has been carried by the China Clipper on round trips between San Francisco and Manila. From the curve traced by the instrument, engineers are able to reconstruct every roughness of the voyage and tell what stresses the craft withstood.

Gusts are made to order in a new tunnel and model airplanes are catapulted into them. As fast as an arrow is shot from a bow, the tiny plane is accelerated to 50 miles per hour in a few feet of travel. Hit by the gust, its action is recorded by a motion picture camera.

Reduces Take-Off Distance

Just by reducing the size of rivets in an airplane wing by one thirty-second of an inch, it is possible to reduce the power necessary by 100 horsepower. This is one result of the experiments on the friction drag on the wings of large modern airplanes. In operating high-performance modern aircraft, the importance of smooth surface in a wing is so great that the N. A. C. A. experts suggest it may be found economical to have service crews wipe off accumulated dirt and dust on wing surfaces at every stop.

Large Air Transports Leaving Our Airports in the Future May Be Catapulted in Order to Assist their Take-off and Reduce the Long Run now Necessary, if a Suggestion of the N. A. C. A. is Adopted. A Catapult with Half the Acceleration of Gravity would Reduce the Take-off Distance from 1,000 Feet to 1,150 Feet.

No Housing Shortage in Days of Cave Men

New Haven, Conn.—There was no housing shortage in the United States in prehistoric times when men were cave men, and went cave hunting instead of house hunting. Many a fine cave was vacant century after century.

In Europe practically all caves and shelters have yielded evidence of occupancy by ancient man, says Dr. George Grant MacCurdy of Yale university, director of the American School of Prehistoric Research. Caves in the United States, including some of the biggest and most beautiful caverns in the world, are, from the viewpoint of importance in study of the cave man, not comparable with Old world caves.

Dr. MacCurdy believes there is evidence indicating that man may have come to America some 40,000 years ago, but that it would have been far easier for man to have reached this country ten or fifteen thousand years ago.

The oldest known prehistoric inhabitants of this country, called Folsom and Yuma men after their characteristic weapons of stone, were older than the Basket Makers of the southwest, who in turn were older than the Pueblo Indians in that part of the country.

Start Early, Girls, to Find Real Mate, Expert Admonishes

Widen Circle of Friends, Improve Your Personality

New York.—Go out of your way to make friends, improve your personality, get out of a rut, and give real time and thought to finding a husband. These admonitions were given along with much other practical advice of how to win a mate, directed particularly to college girls and other intelligent women by Dr. Paul Popenoe, general director of the Institute of Family Relations, Los Angeles, Calif.

Two difficulties hamper the girl who would like to marry, but cannot find a suitable partner, Dr. Popenoe says. The first has to do with her marriageability; the second with lack of opportunities for meeting eligible young men.

Here are the elements that go to make up marriageability, as outlined by Dr. Popenoe from his broad experience in the study of married couples at the Institute of Family Relations:

1. The girl must be sexually normal. If she is mannish or engrossed with persons of her own sex, she may be cured provided this is a psychological condition. The happiest marriages are between womanly women and manly men.

Mustn't Be Suspicious

2. She must be emotionally grown-up. The infantile girl is likely to have a fear of sex that, unconsciously perhaps, prevents her from desiring or attaining a happy marriage.

3. She must not be suspicious or stand-offish by disposition.

4. She must not make the mistake of relying on her diploma to charm desirable potential husbands. When 250 happy, educated married couples were asked what they found most admirable in their respective mates, most of the women stressed intellectual companionship. But the husbands were pleased with something quite different—it was the wife's ability to do her job and be equal to her responsibilities.

A girl to be attractive as a wife must appeal to the man's emotion, she must be able to enhance his ego, and she must have domestic competence. If she lacks these assets, she can not offset the deficiency by putting forward a quality that he does not particularly want—capacity to satisfy him intellectually.

Be Seductive, Alluring

For the woman who possesses these points of marriageability, the importance of the correct technique for winning a mate was stressed by Dr. Popenoe who has many practical hints to offer in this connection. Don't be misled by thinking that you must take the initiative in courtship or proposal, he warns educated women. The role of the female as seductive and alluring rather than aggressive goes back in evolution not only far beyond the human, but far beyond the mammalian stage.

"The woman who is not clever enough to maneuver a man into a position where he will propose, is probably not clever enough to hold a man after she gets one," he said.

Streamlined Mines Suggested to Lower Ventilation Losses

Cincinnati.—Streamlined mines, using the discoveries of air flow which have produced the modern, sleek airplane, were suggested here at the annual coal mining convention by Prof. H. Landsberg of the Pennsylvania State college. Ventilation losses when mine air has to turn an acute angled corner are equivalent to 45 feet of straight, concrete-lined tunnel, he disclosed. A right angle bend in a shaft creates losses equal to 250 feet of the standard reference concrete-lined tunnel. A rounded bend, by contrast, produces losses equal only to about 25 feet of straight, lined tunnel.

While admitting that few mines can achieve the ideal of a smooth concrete lining, Professor Landsberg showed that it was possible to place the timbering so that much loss could be prevented.

Even mine cars achieve some streamlining, Professor Landsberg indicated, although they move relatively slowly in relation to the ground. Actually of course their velocity relative to the ventilating air stream when heading into it is the important point.

Studies showed, disclosed the professor, that when a mine car blocks 20 per cent of a tunnel area a trail of 20 such cars causes losses equal to 525 feet of surface in the standard smooth reference tunnel.

"It is true," said Dr. Landsberg in summary, "that one rounded corner in a mine will not reduce the operating costs of a ventilating system appreciably, but the sum total of bends, splits and overcasts along an air course of several miles will show the savings effected by a streamlined ventilation system."

NEED CARE FOR PERFECT JELLY

Acid Content of Juice Is of Prime Importance.

By EDITH M. BARBER

IT WOULD be interesting, at least to me, to know what clever old-time housekeeper, perhaps in the still-room of a manor house, discovered that fruit juice and sugar when cooked together would jelly. We know that the time does not date back centuries, because sugar, the necessary factor, in the fine granulated form, has not been generally available until a comparatively recent time. Many must have been the experiments before more or less accurate recipes were developed.

The perfect jelly should be clear, firm enough to mold but not stiff. The results depend upon using the proper proportions of fruit juice and sugar. They also depend upon the amount of acid present in the juice. Not all fruits supply the proper amounts of pectin and acid. For this reason our grandmothers limited the number of fruits, for jelly. Strawberries and peaches for instance were reserved for canning and preserving. The standard proportions—1 cup of sugar to 1 cup of juice—were not always successful for other jellies. They usually work for currant, green apples and green grapes. If fruit was overripe, however, this amount of sugar was too much and the result was a soft, syrupy mixture. This was sometimes prevented by combining the fruit juice with green apple or with green grape juice. This custom eventually resulted in the preparation for market of a concentrate of apple juice which we know as fruit pectin.

By the use of this fruit pectin in the proper proportions we are now able to make jelly of practically any flavor in a very short time. The short time of cooking preserves the fresh flavor of the fruit, and for this reason, pectin is sometimes used with fruit juices, such as currant, which will jelly without it.

Plum Jelly.

4 cups (2 lbs.) plum juice
7½ cups (3¼ lbs.) sugar
½ bottle fruit pectin

Wash about four pounds of fully ripe plums. To prepare juice, crush fruit well without peeling or pitting, add one cup of water, bring to a boil, cover, and cook over a low flame ten minutes. Put fruit in double cheesecloth or one thickness Canton flannel and squeeze out juice. Measure juice into kettle, add sugar and stir well. Put over hot flame, bring to a boil, stirring occasionally. As soon as the mixture boils, stir in fruit pectin, bring to a hard rolling boil and continue boiling and stirring for just half a minute. Take from fire, skim quickly and pour at once into scalded jelly glasses. Cover with an eighth of an inch layer of paraffin. Yield—ten to eleven six-ounce glasses.

Sour Clingstone Plums Make Best Jelly.

If sweet plums or freestone prunes are used, substitute one-half cup strained lemon juice for an equal amount of prepared juice in this recipe.

Blackberry Jelly.

4 cups (2 lbs.) blackberry juice
2 tablespoons lemon juice
8 cups (3½ lbs.) sugar
1 bottle fruit pectin

Wash about three quarts of fully ripe berries. To prepare juice crush well or grind the berries. Put berries in double cheesecloth or one thickness of Canton flannel and squeeze out the juice. Squeeze and strain juice into 1 medium size lemon. Measure juice into kettle, add lemon and sugar; stir well. Put over hot flame, bring to a boil, stirring occasionally. As soon as the mixture boils, stir in the fruit pectin, bring to a hard rolling boil and continue boiling and stirring for just skim quickly, and pour at once into scalded jelly glasses. Cover with an eighth of an inch layer of paraffin. Yield—eleven to twelve six-ounce glasses.

Strawberry Jelly may be made by the above method.

Test for Pectin.

Put one tablespoonful of hot juice into glass or cup. Add one tablespoonful of alcohol and stir once. Let stand two minutes. If a thick jelly which can be taken up on a spoon without breaking, one cup of sugar to one cup of juice may be used. If jelly forms, but breaks as it is taken up with the spoon three-fourths cup of sugar to each cup of juice should be used. If there is no jelly formation, the juice must be combined with sour apple juice or currant juice and retested.

Old Fashioned Jelly.

To obtain best results in jelly making, it is advisable to work with a small quantity of juice. Two quarts of juice is a sufficiently large quantity to handle at one time. Measure juice, add sugar and stir until sugar is dissolved. Boil rapidly until jelly test is obtained. When two drops will hang side by side from a spoon which has been dipped into the boiling mixture, the jelly is ready to be skimmed and to be poured in clean, hot glasses. Pour hot paraffin immediately over the jelly to the depth of one-eighth inch. When cold cover with tin lids.

Judge Often Handed Down Humor "From the Bench"

Late Lord Darling Lived Drab Scenes With Pleasantries.

Many are the stories told about Lord Darling—better known as Mr. Justice Darling, "England's wittiest judge"—who died recently. He was a poet, with several published volumes to his credit. But it was his humor "from the bench" that made his name almost a household word.

On one occasion, a salesman claimed exemption from jury duty on the ground that he was completely deaf in the left ear.

"You can go," said Judge Darling, gravely; "I cannot have anyone in the jury box who cannot hear both sides."

A lawyer who had the misfortune never to have acquired the ability to use the letter "h" (relates Silvan Mayer in his "legal" reminiscences), was engaged before Justice Darling in a case which had relation to a horse. For some time the lawyer kept referring to the animal as "an orse." After a while, Darling looked down and said:

"Was the animal a large horse or a little one?"

"Oh, a little one."

"Then," said the judge, "may

we, for the remainder of the case, call it a pony?"

In another case before Justice Darling—in which a Cockney caterer was suing to recover the cost of a picnic luncheon he had provided for a large number of people—the plaintiff waxed highly indignant, under cross-examination, when it was suggested that his sandwiches were mostly "bread and bread," with the ham conspicuous only by its absence.

"I h'am amazed; I h'am surprised; I h'am—" he spluttered. "That will do!" interrupted Darling.

"I suggest that had you been more generous with your hams on another occasion and a little less liberal with them here, you might not have found yourself in this situation!"—Kansas City Star.

Identifying Houses

Before houses were numbered, London's business streets were lined on both sides by a succession of gay signboards exhibiting an almost infinite variety of blue boards, black swans, red lions, flying pigs and the like. Even with these signs, it was often hard to find one's destination, for the signs were often so badly painted that it would have puzzled a naturalist to make out the animal meant.

Think It Over

BY THE street of Bye-and-Bye one arrives at the house of Never.—German proverb.

People who have half an hour to spare usually spend it with somebody who hasn't.

Dignity is one thing that can't be preserved in alcohol.

Epitaph: He walked on the suicide of the road.

Many have made up their minds what they are going to do if temptation comes their way. They are going to fall.

When one is unimportant, he can attract attention in many noisy ways.

Mongols! Madam, Barked Sir Howorth

Sir Henry Howorth was taken aback one day when introduced to a gushing lady who declared that she was so charmed to meet him because she wished to talk to him about her little dog.

"But I know nothing about dogs," he protested.

"Oh, how can you say so," she said, "when you have written books about them?"

"Never, madam, never!"

"But surely," she persisted, "you have written a history of the mongrels?"

"Mongols, madam, mongols!" he barked. "Not mongrels."—London Answers.

HERE'S WHY FIRESTONE ALWAYS GIVES YOU SO MUCH

More for your Money

Higher Quality Raw Materials!
More Efficient Manufacturing!
Lower Distribution Cost!

These All Combine to Give You Extra Values at No Extra Cost

FROM the day of its introduction, the Firestone Standard Tire has more than lived up to its name by setting a new high standard of tire values. Hundreds of thousands of car owners have already bought it because they saw in it more value for their money.

"How does Firestone do it? How can they build so many extra value features into Firestone Standard Tires and yet sell them at such low prices?" The answer is simple—Firestone controls better-quality rubber and cotton supplies at their source, keeps manufacturing costs low by efficient factory methods and sells in such huge volume that distribution costs are held to a minimum. That is why Firestone has been able to give you such extra value features as Gum-Dipping and two extra layers of Gum-Dipped cords under the tread.

Make no mistake about this! The Firestone Standard Tire gives you the blowout protection of Firestone's patented Gum-Dipping process. Its scientifically designed tread gives greater non-skid protection and longer wear. And those two extra layers of Gum-Dipped cords under the tread guard against punctures.

Before you buy ANY tire at ANY price, see today's top tire value—the Firestone Standard Tire. Don't risk your life with thin, worn tires on your Fourth of July trip. Join the Firestone SAVE A LIFE Campaign today. Let your Firestone Dealer or Firestone Auto Supply & Service Store equip your car with a set of new Firestone Standard Tires.

Listen to the Voice of Firestone! Monday evenings over Nationwide N. B. C. Red Network

Mason, deceased; NEW YORK SECURITY & TRUST COMPANY, A Corporation, and All Unknown Claimants of interests in the hereinafter described premises adverse to the plaintiff, Defendants.
THE STATE OF NEW MEXICO to the above named defendants, ORECTING:

Notice is hereby given that T. D. Dickey as plaintiff has filed his complaint in the above named court and in the above numbered and styled cause of action against you and each of you; that the general objects of said action are to quiet the said plaintiff's title in and to the property described in the complaint in said cause, said property being in sections 32 and 33, Township 8 South, Range 14 East, N. M. P. M., and sections 4, 5, 7, 8, 9, 17 and 18, Township 9 South, Range 14 East, N. M. P. M., and in section 13, Township 9 South, Range 13 East, N. M. P. M., Lincoln County, New Mexico, and to establish plaintiff's estate in said title against any adverse claims of the defendants and each of them and to stop and bar the defendants and each of them from having or claiming any right or title to or interest in or lien upon said property.
You are further notified that unless you enter your appearance in said cause on or before the 21st day of August, 1937, judgment will be rendered in said cause against you by default.
The name of plaintiff's attorney is John E. Hall, and his post office address is Carrizozo, New Mexico.
Witness my hand and seal of said court this 7th day of July, 1937.
(D. C.) EDWARD PENFIELD,
(SEAL) County Clerk.
July 9-July 20

Local and Personal

Mrs. Marshall Shearer, who is employed by the county health department, will leave for Little Rock, Arkansas where she will join her sister, then they will go on an extended visit to the West. Mrs. Shearer will return in 30 days.

The Titworth Company is showing a wide range of summer dresses in cotton and silk. They have all sizes, colors, and prices. A long counter of yard goods offers bargains to the home seamstress.

Mrs. Tennis Smoot left this week for points in California to visit her sister and brothers.

M. Doering says; no matter how much money talks no one is ever bored by its conversation.

Not knowing what the styles will be 20 years from now it's a little hard to say where the children should be vaccinated.

Miss Margaret Elliott left this week for Los Angeles, California to visit her sister.

Mr. Ansel Swearingen of Alamogordo was a visitor here yesterday.

Rev. and Mrs. J. A. Bell and younger children went to Clovis July 4th. Their son, John Allen who has been visiting his uncle, returned home with them last Tuesday.

Mr. and Mrs. Arthur Turner of Long Beach, California, are visiting Mrs. Turner's father, Mr. G. T. McQuillen. Mr. and Mrs. Turner and Mr. McQuillen went to the Carlsbad Cavern last Wednesday.

Petty's Economy Grocery is driving a new pick-up bought at the City Garage.

Robert Skinner and Ike Adams are visiting Mr. and Mrs. Roy Skinner.

Mrs. M. C. St. John has been very ill this week.

Mr. and Mrs. Thomas Karr received a telegram from Des Moines, Ia., Wednesday, July 7, stating that a seven pound baby girl had been born to Mr. and Mrs. Floyd R. Smith on that date. Mrs. Smith is Mr. Karr's sister, and she and her husband have visited Carrizozo several times.

Open House

On Friday, July 16th the educational camp, N. Y. A. for girls is planning to hold open house. The two sections of the camp, the women's organizations of the surrounding communities, their friends and any others interested in the camp are invited to attend. The program will begin at 10:00 in the morning, and will close with exercises in the afternoon.

Baseball Game
Sunday July 11
Socorro Merchants
