VOLUME XIII—(Carrizozo News, Vol. 27)

CARRIZOZO, NEW MEXICO, FRIDAY, AUG. 6, 1937

NUMBER 6

## Hospital to Open Sept. 1st

Hot Springs.—Dr. G. T. Colvard, president of the board of the Carrie Tingley hospital for Crippled Children, announced Tuesday the institution would officially open September 1.

Dr. Colvard said dedication ceremonies would follow "soon after" the opening.

Business manager Jessie K. Morrison said immediate delivery of furnishings and equipment had been promised by the factory. Delivery of the equipment has delayed the opening of the institution.

The hospital will open with children patient from every county in the state. The number will be increased gradually to the full capacity of the institution.

Dedication ceremonies planned for last May 29 were cancelled due to flood conditions.

## Who's Who Among Women

Volume two of "American Women", which lists outstanding women of the nation, has recently been issued. The new book, edited by Durward Howes, nationally known biographer, carried the biographies of 7,851 women, among whom appears the name of Kathleen C. Doering, a sister to Mrs. A. F. Roselle and Zoo Glassmire. Miss Doering is professor of Entomology in the University of Kansas, and is listed in the volume as an educator. Miss Doering is quite well known in Carrizozo, having visited her father, Mr. John Doering and her sisters here at different times.

## Ball That Will Be Ball

From the Carrizozo News, file of May 7, 1909.

A game of base ball is under way between and among the business men of Carrizozo. J. R. Humphrey, the jeweler, is the captain of one team, while A. J. Rolland, the druggist, will command the opposition force. The game will be pulled tomorrow afternoon, and the line-up is given below:

| OCCIDENTALS       | ORIENTALS          |
|-------------------|--------------------|
| Jilliam Taylor    | c Doc Lacey        |
| Howard Hall       | p Ray B. Hall      |
| Ernest Burrell    | ss W. M. Rely      |
| J. R. Humphrey    | 1b H. S. Campbell  |
| Geo. Hall         | 2b W. J. Henley    |
| Ervin Gray        | 3b A. J. Rolland   |
| D. Humphrey       | rf O. W. Bamberger |
| E. H. Martin      | lf Chas. McMaster  |
| Dr. F. S. Randles | cf J. H. Canning   |
| Substitutes—      | Substitutes—       |
| W. J. Deering     | Ed R. Kelley       |

## Prude-Capps

Word has been received of the marriage of Miss Mabel Ruth Prude of Mesalero to Glen Capps, son of Mrs. A. B. Capps, of our city, which took place July 26, in Deming.

Mrs. Capps attended the A&M at Las Cruces the past year.

The groom is a graduate of the Tucumari high school class of 1934, and for the past two years has been attending college at Las Cruces.

The couple is honeymooning in the home of the bride's parents, who are owners of an Indian Trading post, in Mesalero.—Tucumari News.

## El Paso Southern R. R. Gets Franchise

Acquisition of the Alamogordo and Sacramento Mountain Railway and the El Paso and North-eastern Railway by the El Paso and Southwestern Railroad, a "major subsidiary" of the Southern Pacific was authorized by the Interstate Commerce Commission Monday.

The shift will be accomplished, the commission said, by dissolution of the two branch lines, conveyance of their properties to the El Paso and Southwestern and cancellation of outstanding bonds. Operated by the Northeastern are 124 miles of lines from Carrizozo, N. M., to the New Mexico-Texas border and 21 miles from Carrizozo to Capitan.

## Dies at Albuquerque

Albuquerque, Aug. 3.—Funeral services will be held at 10 a. m. tomorrow for Acacio Gallegos, lawyer, former assistant state superintendent of public instruction and one-time sheriff of Lincoln county.

Gallegos died in a hospital here last night following a major operation. He was 68.

Born in Sabinal, Gallegos, who practiced law here 20 years, was educated in several New Mexico schools. He first became a school teacher, then served as Lincoln county sheriff and during the World War was assistant superintendent of public instruction.

Surviving him are his widow, who lives here, six daughters, Mrs. Isabel Aldaz of Lincoln; Mrs. Flavio Romero, Los Lunas; Miss Mary Gallegos, Denver; Mrs. Meliton Sandoval, Iola, and Amanda Gallegos, Albuquerque; and three sons, Acacio Jr., Brush, Colo., Ernest, Chicago, and Tony of Albuquerque.—Santa Fe New Mexican.

## O-Bar-O Ranch Annual Barbecue

Thursday, August 12, 1937 is the date set for the annual barbecue to be held at the O-Bar-O ranch at Bernada Gap, east of Carrizozo and invitations have been sent to their friends.

Invitations are in red and black very western in design and are beautiful. The last few lines are typical cowboy style:

"Rain (here's hopin'), or shine. Go get the 'dobe off your boots. Let the old belt out a notch. Spread a big smile on your face. And come a hungerin'! You'll be welcome."

And provided for And beyond that, Let your appetite be your guide!"

## Notice to Trespassers

This is to notify the public that the land located East of Coyote known as the Kelt place is posted against all hunting and trespassing. Kelt Bros. (Aug. 27.) By W. M. Kelt.

## CCC Dance At Community Hall CARRIZOZO

Friday Nite August 6 To celebrate the second anniversary of Camp DG 40 N. FREE: Confetti, Streamers, Paper Hats, Noise Makers, Punch, Cookies. A Good Time Guaranteed. Music by THE CAMP ORCHESTRA.

## Narrow Escape

Last Friday afternoon about 4:30 Mr. Manuel Marquez, machinist helper at the Southern Pacific was enroute to Alamogordo when the right front tire of the car he was driving blew out. The car turned over four or five times and was totally demolished. Messrs. Tennis Bigelow and Claud Branum found him and brought him to town, where it was learned he was not seriously injured. The car he was driving was the Ford V-8 owned by his brother-in-law, Judge M. C. St. John.

## ANCHO NEWS

Mr. and Mrs. Joe B. Collier and children, Buddy and Lassie of Grass Valley, California pleasantly surprised the families of Jack Cleghorn, White Oaks; Clyde Collier, of Carrizozo; Geo. Goodson, Ancho; and their mother Mrs. Belle Collier, of Oklahoma City, Okla., by driving in Tuesday morning for a two weeks' visit. Also to visit Mr. and Mrs. E. T. Collier of Carrizozo, Mr. and Mrs. L. H. Keller of Roswell, N. Mex.

Mr. and Mrs. Ted Hebron and Frances Ruth were Roswell visitors last week. Mrs. Hebron and daughter will leave Monday for Hot Springs for a visit with her mother Mrs. Poole Earnest who has greatly improved since going to Hot Springs several weeks ago.

Rev R. B. Sherman of Roswell has held Bible Study and evening services this week at the Ancho School House which have been very much enjoyed by the community. We extend our appreciation to Rev. Sherman and his assistant, the name of whom we have failed to learn.

Mrs. Snodgrass has been quite ill for several days, but is improving at this time.

Mr. and Mrs. D. E. Cozart, daughter Miss Emma and Mr. and Mrs. Goodwin and family were El Paso visitors this week and to consult a specialist for Mr. Goodwin who has been ill for several weeks.

Mrs. E. L. Peck visited her parents at Roswell this week.

Mrs. Slim Buie and little Shirley of Carrizozo visited their home folks Mr. and Mrs. H. T. Porter of Luna last week.

Mrs. Fred Dale, with the new baby has returned to her home east of Ancho and of course Mr. Dale is a very happy father.

## Loss In Mexico

Mexico City, Aug. 4. Mexico's \$400,000,000 foreign-controlled oil industry was ordered today to make wage increases and establish other workers' benefits aggregating \$7,200,000 annually.

Eighteen thousand employees staged a 12-day strike two months ago which brought their demands and the employers' arguments before a three-man board of arbitration. A 3,250-page, nine-volume decision was handed down last night.

Make your hair lovely to look at by having your Beauty work done at Bee's Beauty Shop.

Miss Jane Spencer came from Albuquerque to spend the weekend with her parents.

## Village Report

Minutes of regular meeting of Board of Trustees held at City Hall August 3, 1937, at 7:30 P.M. Members present: F. E. Richard, Mayor; John W. Harkey, A. J. Rolland, Tennis Bigelow and Andy Padilla, members. Roley Ward, Marshal, Morgan Lovelace, Clerk. Members absent: None. Minutes of last meeting were read and approved.

Mr. L. L. Bell of the Western Fire Department Supply Company of Denver, Colorado, met with the Board in regard to the purchase of a new fire truck and equipment for the Carrizozo Fire Dept., after some discussion it was decided by a motion of A. J. Rolland and seconded by John W. Harkey that the clerk write a number of towns using this equipment for information as to durability, performance etc., and also that the Mayor appoint a committee to inspect said equipment before a purchase be made. Motion carried.

The following bills were approved and ordered paid.

|   |         |
|---|---------|
| Robert B. Hail Met Dep Ref                    | 1.87    |

| Standard Sanitary Mfg. 120" 3/4" Copper Pipe  | 25.12   |
| Total   | 1520.04 |

There being no further business the meeting adjourned to meet in a Call Session August 16th at 7:30 P. M.

Attest: Morgan Lovelace Clerk F. E. Richard, Mayor.

Mrs. Forrest Lindamood of Denver, Colo., arrived last Friday to visit her grandmother Mrs. A. E. Lenett for a few days. She will divide her time between Carrizozo and Eagle Creek. Mrs. Wayne Hamilton is expected for a two days' visit while Mrs. Lindamood is here.

Mr. Leandro Vega of Nogal was in town on business yesterday.

Mr. W. M. Kelt was a business visitor from the Kelt ranch near Coyote yesterday.

Messrs. Emory Galloway and Murel Burnett have gone to Texas to spend a few weeks.

## Gasoline Dealers Must Get New Licenses

Santa Fe, Aug. 3.—Gasoline dealers in the state were warned Monday that they must obtain new licenses to do business under the gasoline tax act passed by the 1937 Legislature.

## Syric Theatre

Friday and Saturday

### "BORDERLAND"

Hopalong, Johnny and Windy match wits with an outlaw who has successfully eluded both the Texas Rangers and the Mexican secret police to the detriment of life and property along the Rio Grande.

"The Collie" and "We Did It"

Sunday and Monday

"Rainbow on the River" featuring Bobby Breen with May Robson, Charles Butterworth and the famous Hall Johnson Choir.

All the heart-throbs, laughs, tears and warming sentiment that can be crammed in one picture is delivered to you in this one. Don't miss it.

"So and Sew" and Navy Film. Sunday matinee at 2:30 p. m. Night shows at 8:00.

Tuesday

## The Reemtsma Marionettes

Sponsored by the Womens Club of Carrizozo.

Wednesday and Thursday

## "Holy Terror"

featuring Jane Withers with Anthony Martin, Leah Ray, Joan Davis, El Brendel. The motherless daughter of a tradition-erusted commander, she's the pal of all the sailors, mixes into grown-up romances and is regarded as a holy terror by all.

"Diamonds in the Rough"

## Lincoln County

The local leaders of the 4-H clubs of Alto were visited, as well as the president and vice-president of two of the clubs. The date for the final enrollment to be sent in to the State Office was explained and the supplies and patterns requested by one of the local leaders were sent her.

During the early part of the month beneficial rains were received in some localities. The outlook for ranchmen is very favorable as plenty of moisture has fallen to provide ample storage water, as well as improving the range. In the southwestern part of the county, however, where the land is devoted more to truck and fruit growing, heavy losses have been experienced due to hail and flood conditions.

## Baseball Items

Manager Ben Sanchez took his ball team last Sunday to Fort Stanton and played a return game there. We are informed that Carrizozo won with a substantial majority.

Mr. and Mrs. J. W. J. Evans had as guests the past week, Mrs. Evans' sister, Miss Martha Uhlir of San Diego and Mr. Evans' sister, Miss Evans from San Francisco.

Miss Colina Salazar of Santa Fe is visiting relatives in Lincoln.

## Commissioners Proceedings

Regular Meeting Of The Lincoln County Board Of Commissioners, Aug. 2, 1937.

Meeting is opened by Hugh A. Bunch, Deputy Sheriff Present: S. Dewey Stokes, Chairman, P. R. Sandoval, Gordon Wells, Edward Penfield, Clerk, and Hugh A. Bunch, deputy sheriff.

Minutes of the previous meeting are read and approved in open Court.

The clerk's, sheriff's and treasurer's reports are approved.

The Board's attention is called to the fact that the considerations due the signers of the right of way easements for Highway Project no. 31-F have not been paid, and the Board being of the opinion that these should be paid, warrants for the same are ordered issued.

The Board recesses at 10:00 A.M. The Board convenes at 2:00 P.M., pursuant to recess.

In the matter of providing for Right of Way for Highway F.A.P. 82 Reo. 2 and F.A.P. 20-A Reo. 2; Picacho-cast:

Resolution Adopted By The Board Of County Commissioners

BE IT RESOLVED that the Board of County Commissioners of Lincoln County, sitting as such Board of County Commissioners on this 2nd day of August, 1937,

does hereby guarantee, free of cost, to the State Highway Commission right of way for F.A.P. 82 Reo. 2 and F.A.P. 20-A Reo. 2 as per the locations and plans of ingress and egress to and from all material pits necessary for the construction of said project.

BE IT FURTHER RESOLVED that this Board of County Commissioners does also guarantee the removal of any and all encroachments from said right of way and that any expense which may be incurred in the removal of said encroachments shall be borne by the County of Lincoln. (signed;)

S. Dewey Stokes, Chairman of Board of Board of County Commissioners of Lincoln County, New Mexico, Gordon Wells, Member, P. R. Sandoval, Member. Attest: Edward Penfield, Clerk.

Minutes Of Accounts Allowed:

BE IT REMEMBERED, that warrants to be drawn on the County Treasurer, Nos. 2806 to 2840, inc. are hereby approved and ordered paid and entered of record.

There being no further business the Board adjourns at 3:00 P. M. S. Dewey Stokes, Chairman, P.R. Sandoval, Gordon Wells, members. Attest: Edward Penfield, Clerk.

Big dance tonight at Community hall.

CONGRESS READY TO QUIT

Senate Shelves Court, Farm Bills . . . Spanish Conflict Reaches Crisis . . . Fighting Continues in North China

Sen. Harrison (right) congratulates Sen. Barkley.

Edward W. Pickard  
SUMMARIZES THE WORLD'S WEEK

© Western Newspaper Union

'Aw, Let's Go Home!'

WITH Supreme court bill recommitted to the senate judiciary committee, a new substitute bill for reform of only the lower courts due to be reported out of the committee, and a new senate-majority leader selected to take the late Senator Robinson's place, the overwhelming sentiment of the members of the seventy-fifth congress was to pack up their bags and get as far away from Washington as possible.

Even measures which President Roosevelt had insisted bear the "must" label were being shoved aside with dispatch, as Vice President Garner sought to heal the party wounds inflicted during the bitter court battle and salvage as much of the President's legislation as he could. The first to be buried was the new AAA and "ever-normal granary" bill, the senate agriculture committee shelved it until the next session. The committee authorized James P. Pope, Idaho Democrat and sponsor of the bill, to prepare a senate resolution to lay the plans for regional hearings on a comprehensive farm program during the remainder of the summer and report back in January.

It seemed certain that the President's legislation for governmental reorganization would be left over until next session when the record of three months' hearings by the joint congressional committee was made public. It was revealed that committee members have not even come close to agreement on any of the main points involved. Majority Leader Barkley said that the White House still wanted the wages and hours bill, the Wagner low-cost housing bill and a judiciary bill passed, as well as legislation to plug tax loopholes. The Wagner bill, meanwhile, was reported out of committee, and it was expected the senate would act upon it quickly. It would set up a federal housing authority with power to issue \$700,000,000 in bonds over three years to make loans for "low-cost" housing construction.

'Glory Be to God!'

DYING for weeks, the scheme to add to the number of justices of the Supreme court finally choked its last gasp and left this world. On a roll-call vote the United States senate voted to recommit the Robinson substitute for the President's original bill to the judiciary committee. The vote was 70 to 20, the most crushing defeat the President's legislation has yet suffered at the hands of a house of congress. In an agreement made at a session of the judiciary committee earlier, it had been decided to let the opposition senators write their own bill, an innocuous measure for "judicial reform" not dealing in any way with the Supreme court. Senator Barkley, the new majority leader, attempted to save the President's face by having the bill left on the calendar, but he never had a chance. When the roll-call came, even Senators Ashurst of Arizona and Minton of Indiana, two of the Supreme court bill's chief supporters, voted to recommit.

"Glory be to God!" said Sen. Hiram Johnson (Rep., Calif.) when the results of the roll call were made known. The applause that belled forth from the senators and gallery alike left no doubt that the veteran from California had voiced the sentiments of the great majority.

Madrid's Moat of Blood

THE Spanish government was defending Madrid against the insurgent forces in the most terrible battle of the entire civil war and the most important. It couldn't last; it was too furious. The whole loyalist cause apparently rested on resisting this, the most vicious attack the rebels had yet made. Gen. Francisco Franco's army, under his

personal supervision, was making advances, but at such loss of men that the cost might be too great.

Insurgents stormed loyalist entrenchments directly in the face of point blank machine guns. Losses were so terrible that thousands of wounded lay without food or water among thousands already dead and decaying in the hot sun. Infantry, tanks, cavalry and artillery were supplemented by airplane bombers.

In one salient 250,000 men were fighting, including the cream of both armies. The loyalist position was admittedly the most serious of the whole war, and upon the government's ability to withhold against the attack rested the fate of the best units in its army. It was reported that 20,000 Italian troops had joined the rebels for the battle.

While the Madrid conflict was in full swing, the insurgents sprang a surprise air attack on Barcelona. In the early dawn advance planes dropped flames which lighted up the city. Then came additional planes, dropping bombs on the easy target and turning machine guns on citizens who attempted to flee. At least 65 persons were killed and 150 injured.

Is This the Beginning?

AS JAPAN brought airplanes into action for the first time since the new Sino-Japanese crisis developed, and threw all available strength into a campaign against the Chinese Twenty-ninth army in North China, it was feared that the expected long Japanese military offensive had begun. While it was difficult to assimilate many conflicting and confusing reports, there was good ground for the belief that all attempts at a truce had failed, for a while at least.

The Japanese airmen rained bombs upon Chinese military barracks around Peiping, and pressed infantry and artillery attacks along the Peiping-Tientsin railway and the highway to the sea. Entrance of 200 Japanese marines into the Chinese Chapel district of Shanghai sent 20,000 men, women and children fleeing into the international settlement in search of protection. It was rumored a Chinese mob had killed a Japanese sailor, provoking Japanese reprisals.

Meanwhile the threat of real war continued to hover as the Chinese army refused to leave positions in and near Peiping, in what Japan considered violation of the Tientsin peace agreement.

Barkley, 38; Harrison, 37

SEN. WILLIAM H. DIETERICH of Illinois changed his mind at the last minute and today Alben W. Barkley, hard-fated, blustering senator from Kentucky, is the majority leader of the United States senate, succeeding the late Joseph T. Robinson of Arkansas. The vote was 38 for Barkley to 37 for Sen. Pat Harrison of Mississippi.

The conservative Democrats in the senate had been assured of 38 votes, enough to elect Harrison, on the eve of the secret election. But that night Dieterich, apparently under pressure from the Democratic party organization in Illinois, begged Harrison to release his pledged vote, in order that the President's personal choice might head the party in the senate.

The slim victory by no means patched the obvious party rift. Even the administration admitted that the President's Supreme court bill was virtually dead even then. Vice President Garner visited Sen. Burton K. Wheeler of Montana, leader of the opposition forces, and invited the opposition to write its own bill.

40 Hurt in Strike Riot

ALTHOUGH the independent steel plants were back at work, there was still plenty of discord along the labor front. Forty persons were injured in a wild riot among pickets of the Steel Workers Organizing committee (affiliated with C. I. O.), loyal workers and police, at the Corrigan-McKinney plant of the Republic Steel corporation in Cleveland.

A mob of strikers hurled rocks from a hillside upon cars of employees parked in the valley about the plant. Loyal workers attempted to drive the strikers away, and at one time 500 of them rushed out of the plant and set upon the pickets. Police tried to break up the fighting, relying chiefly on their tear gas guns. One striker was killed when a moving automobile, which was being stoned, got out of control and ran berserk through a picket line.

In Buffalo there was a serious food shortage because of a strike of 1,000 wholesale grocery truck drivers and 1,000 butchers at four meat packing plants. As C. I. O. and A. F. of L. unionists co-operated in their demand for closed shops, residents of the city were forced to motor to the country for butter, eggs and vegetables.

'Joe' Robinson's Successor

THE Democratic state committee of Arkansas nominated Gov. Carl E. Bailey to be the late Joseph T. Robinson's successor as United States senator. He is forty-two years old.

Gov. Bailey

Traditionally, having been nominated by the state committee, Bailey is "an good as elected," but he may be opposed in the elections which he will call himself, September 14, by a Republican or by other Democrats running as independents. Rosser Venable, who opposed Robinson in the 1930 primary, had indicated that if Bailey were nominated he would run in opposition. The state Republican committee was reported seeking an opponent for the governor.

Low Interest for Farmers

BY A vote of 71 to 10, the senate overrode the President's veto of a bill extending for a year low interest rates on loans to farmers. It was a defeat even more crushing than the recommission of the court bill, and made the bill a law without the President's signature, for the house had previously passed it by a two-thirds majority over Mr. Roosevelt's veto.

Senator Barkley made a half-hearted attempt to stave off the overwhelming vote, and the defeat was accepted by many observers as an expression of resentment over Barkley's having been elected majority leader instead of Sen. Pat Harrison of Mississippi.

A Year of Reclamation

APPLICATIONS for grants under last year's agricultural conservation program covered 233,000,000 acres—two-thirds of the country's crop land—and represented an estimated 4,000,000 farmers. H. R. Tolley, agricultural adjustment administrator, reported. Nearly 31,000,000 acres were diverted from crops which deplete the soil; 53,000,000 acres received the benefit of soil-building practices.

Conservation payments for the year totaled \$32,323,303.11, benefit and rental payments \$235,744,264.42. Total expenditures by AAA during 1935 were \$357,333,617.30, including administering expenditures and liquidation of obligations outstanding when the Supreme court held sections of the original AAA unconstitutional.

De Valera is Re-elected

IF HIS party, Fianna Fail, can keep in power that long, Eamon de Valera will be president of the executive council of the Irish Free State for another five years. He was elected to the nation's highest office by a vote of 62 to 52 in the dail eireann (parliament). De Valera, in favor of severing all ties with Great Britain, won even the vote of the labor group, which does not endorse his party.

It was believed that De Valera would go ahead with legislation necessary to implement the new constitution approved in the plebiscite of July 1. He would in that case set up a senate and elect a president by popular vote, as the constitution provides. If De Valera is elected president, to serve seven years, political experts say he will virtually disappear from politics and his party will break up.

Football Couldn't Save It

NOT even the excellence and popularity of Edward Patrick (Slip) Madigan's football teams could save little St. Mary's college at Oakland, Calif., from the auction block. It was "knocked down" to its security holders for \$111,150—the only bid—after it had failed to pay interest on its bonded indebtedness of \$1,370,500 since 1934. When Madigan came to St. Mary's from Notre Dame in 1921 it had 71 students. His football teams made it famous and built the enrollment up to 700. It was indicated he will remain as coach, at a reported salary of \$7,000 a year and 10 per cent of the gate receipts. Receipts last year were \$174,671.

Matching Lace Trims Silk Sheers

By CHERIE NICHOLAS

NO MATTER how much your taste and the general tenor of your life may call for practical tailored and sporty-type clothes, none other than a really and truly dress-up dress will answer to occasion. If anything more apropos can be found than either of the stunning models pictured in the way of dressiest-dress gowns that tune graciously to afternoon functions, garden parties and such, pray tell where is it?

The illustration presents exactly the type of dresses we have in mind. Here you see two gowns that are one hundred per cent voguish. They are modern up to the instant, and they are fascinating in regard to nicety of detail and they carry that air of sartorial elegance which every woman of discriminating taste covets. Make it yourself, have it made, or buy it ready made as you will, a dress of the type of either of these handsome frocks will give you endless satisfaction, for no matter what comes up in the way of social affairs unless extreme formality demands ultra full-dress attire, gowns such as pictured class their wearers as among the those-present in the best dressed group.

This gesture of dying lace in exact match to the silk sheer it trims is proving a most exciting venture to designers in that it invites such free play of imagination. Then, too, the lace being the identical color enhances the dress without making

it look too fussy or overdone—gives it the exclusive accent that many covet but few attain.

Current collections include both dark and light sheers with matching lace trims. A costume done in monotone color scheme of either the very fashionable spruce green or beetroot red would be outstanding. Grays in the pastel shades are greatly stressed, also rose-beige.

As to swank styling the redingote theme prevails since it offers such excellent opportunity to introduce border effects with lace insertions after the manner shown in the charming dress to the left in the picture. This redingote gown is a most fetching style for the cocktail hour. It is made of gray silk marquisette tastefully embellished with insets of matching lace. The huge red straw open-crowned hat worn with it plays up in dramatic contrast to the demure gray of the dress. It is flower-trimmed and has black streamers that tie under the chin.

The other young woman seeks and finds midsummer coolness in a gown of beguiling rose-glow silk marquisette trimmed with insets of matching lace. The tiny self-fabric buttons add to the choiceness of this dress. Short sleeves and short gloves also do their bit toward giving smart style accent. The modish poke bonnet is a blue straw with violet and old rose velvet ribbon trim.

SMART SHEER WOOL

By CHERIE NICHOLAS

The midseason dress problem when it is too warm to wear this and too cool to wear that need no longer set any woman into a worry and flurry for the answer has been found in the new sheer wools that are the very thing to don at the first hint of autumn's approach. Pictured is a stunning dress that will bridge from summer to fall perfectly. This distinctive tailored frock combines sheerest wool weave in attractive dusty rose coloring with chic accents of snowy pique. Pleated-in sleeves and an intriguing pleated skirt convey early style messages. Note the high crown in her smart fall felt. As the new season advances, crowns keep going higher and higher.

MANY COLORS SEEN IN COATS FOR FALL

Coats of many colors have been featured so extensively in Paris that they are expected to be early fall fashion successes in this country. All of these coats are very brief and are made of elegant fabrics or of ribbons, thus indicating their place with evening dresses.

One French designer has introduced a little jacket made of two-inch velvet ribbon sewn together in vertical strips, the ribbon combining shades of apple green, old blue, chamôis, pink which has a blue cast and an orchid-purple. This is worn over a gown of black Chantilly lace. Another jacket is made of red and blue grosgrain ribbon interlaced to suggest a woven pattern.

Matching Headdress and Heels Offer Gala Touch

Matching headdresses and heels are providing a gala touch to simple summer outfits worn by attractive young spectators at smart midwestern country clubs. Dusty pink frocks combined with beige turbans and ostrich skin pumps with beige-colored built-up heels are a popular combination. On many of the smartest white ensembles, effective accents are furnished by paisley print headbands and heels.

Tailored Jersey Suit Is Made With Loose Jacket

Chanel's tailored suits in jerseys and wools are made with loose jackets that are cut somewhat like box coats. Blouses are finished with round collars or jabots, which are worn outside the jackets. The short and comfortably full skirts often are trimmed with hip pockets.

Parma Violet Underwear They are doing it in Paris, featuring the violet as well as the more delicate mauve and orchid tones in georgette and satin negligees.

what Irvin S. Cobb thinks about:

Western Hostilities.

SAN FRANCISCO, CALIF.—They have mighty fine hotels in this town. I've stayed at several of them and friends of mine have been put out of some of the others.

And once I enjoyed a fire scare here when the alarm, at 3:30 a. m., brought to the lobby a swarm of moving picture actors without any makeup on and not much else. This was in the era of the silent films, but you wouldn't have dreamed it to hear the remarks of an hysterical lady star when she discovered that her chow had been forgotten. The current husband also was temporarily missing but she was comparatively calm about that. She probably figured a husband could be picked up almost any time whereas darling little Ming Poo had a long pedigree and represented quite a financial investment and anyhow was a permanent fixture in her life.

Irvin S. Cobb

Through the strike here, the traveling public seemed to make out. Maybe visitors followed the old southern custom—stop with kinfolks.

Think, though, how great would have been the suffering had the strike occurred during prohibition days when transient guests might have perished of thirst without bright uniformed lads to bring them first-aid packages in the handy hip-pocket sizes! Bellhops qualified as lifesavers those times.

Humans in the Raw.

AS I behold vast numbers of fellow beings strolling the beaches, yes, and the public thoroughfares too, while wearing as few clothes as possible—and it seems to be possible to wear very few indeed—I don't know whether to admire them for their courage or sympathize with them in their suffering or deplore their inability to realize that they'd be easier on the eye if they'd quit trying to emulate the raw oyster—which never has been pretty to look upon and, generally speaking, is an acquired taste anyhow.

For a gentleman who ordinarily bundles himself in heavy garments clear up to his Adam's apple, this warm weather strip-act entails a lot of preliminary torture. At first our gallant exhibitionist resembles a forked stalk of celery bleached out in the cellar. Soon he is one large red blot on the landscape, with fat water blisters spangling his brow until he looks as if he were wearing a chaplet of Malaga grapes. In the next stage he peels like the wallpaper on an Ohio valley parlor after flood time.

Destructive Hired Help.

SOMEbody found a stained glass window in an English church dating back to 605 A. D., but still intact. And from the ruins of a Roman villa, they've dug out a marble figure of Apollo—the one the mineral water was named after—in a perfect state although 2,000 years old.

These discoveries are especially interesting to this family as tending to show that hired help isn't what it must have been in the ancient time.

We once had a maid of the real old Viking stock who, with the best intentions on earth, broke everything she laid finger on. Moreover, she could stand flatfooted in the middle of a large room and cause treasured articles of vertu, such as souvenirs of the St. Louis World's fair and the china urn I won for superior spelling back in 1904 at the Elks' carnival, to leap to the floor and be smashed to atoms. She didn't have to touch them or even go near them. I think she did it by animal magnetism or capillary attraction or something of that nature.

The first time we saw the Winged Victory, Mrs. Cobb and I decided it must have been an ancestor of Helms who tried to dust it—with the disastrous results familiar to all lovers of classic statuary.

The Reaping Season.

CERTAIN crops may not have done so well, due to weather conditions, or, as some die-hard Republicans would probably contend, because of New Deal control. But, on the other hand, hasn't it been a splendid ripening season for sit-downs, walk-outs, shut-ups, lock-outs and picket lines?

It makes me think of the little story the late Myra Kelly used to tell of the time when she was a public school teacher on New York's East Side. She was questioning her class of primary-grade pupils, touching on the callings of their respective parents. She came to one tiny sad-eyed little girl, shabby and thin and shy.

"Rosie," she asked, "at what does your father work?"  
"Mein poppa he don't never work, Teacher," said Rosie.  
"Doesn't he do anything at all?"  
"Oh, yessum."  
"Well, what does he do?"  
"He strikes."

CHAPTER VII—Continued

"Men have always liked me, and yet I've never had any character and I never do anything I don't want to do," the older woman explained simply. "I sleep late, I wander downtown in the afternoon to a movie; I never assume the slightest responsibility, and I am altogether unwise and idle and useless!"

In the beginning Victoria would laugh at such whimsicalities. But her mother had not been long her guest before she discovered that they were partly true; Magda really never did make any effort, or assume any responsibility, except to interest and please men. She would not be left alone at home at night with the children, even though they were all asleep in their beds. "One of them would set something on fire, and then you'd think I deliberately killed the lot!" she pleaded, and the mere suggestion of this calamity prevented Victoria from ever urging the arrangement.

For the rest, it was astonishing to discover that Magda's self-respect had suffered no whit by her long and exciting career.

In the beginning of the European experiences, Lucius Farmer had become "strange." He had been a delightful person in Tahiti and Majorca, but somehow southern Germany had affected him badly. "It wasn't his fault, but he didn't really have quality, Vic," Magda explained it, generously. "He wasn't a gentleman; it simply wasn't there! Perhaps I was to blame for thinking that it ever was."

Victoria listened on, scrambling as she did so along the line of the sitting-room bookcases, taking out children's books, matching sets, stacking the volumes neatly. Now and then she sat back on her heels, smiling at her mother. Magda busy with a nail file and a tiny pair of scissors, occasionally in her turn raised her eyes from her hands and looked seriously at Vic, while without anger or resentment she recounted the strange actions of Lucius Farmer. After all she, Magda, had done for him, he had been unappreciative enough to desert her.

As the days went by, and Vic found herself drawn more and more under her mother's influence, affected more and more by her mother's point of view, she found it increasingly difficult to maintain her own standing; the solid earth rocked a little sometimes beneath her feet. Poor faded Mummy with nothing to show for all the flattered, romantic years, the presents and the checks, the beautiful face and the beautiful gowns—Mummy couldn't be entirely right in her preposterous ideas and attitudes, but there were moments when Victoria felt uneasily that perhaps she wasn't entirely wrong, either.

Mummy, for one very important thing, thought that having more than one or two children was a mistake. It was a forgivable mistake. "For you have them so easily, Vic, and you do adore them so. But I tell you it's selfish. You'll lose him!"

Victoria felt that she could afford to laugh at this. According to Mummy every man between the ages of sixteen and eighty was interested in any reasonably pretty woman, anywhere, everywhere, at all times and seasons. No wife was safe!

But Magda was not to be laughed out of her position. She said thoughtfully: "Women must go crazy about him. He's stunning!" "He's forty-three!" Vic laughed. "And he has a large family and the hardest surgery practice in the city."

"Forty-three. He's not at the dangerous age yet," Magda mused. "Is anyone specially crazy about him?"

"There's always some woman telephoning," Vic answered unalarmed. "I know the signs. But he doesn't take them seriously."

Magda was hardly listening; her eyes were narrowed in speculation.

"I don't think any woman gets hold of a man," Vic submitted, comfortably relaxed in a big chair now, with her feet stretched out before her. "I don't believe any woman loses her husband because some other woman wants him," she substituted, beginning again. Her mother regarded her in astonishment.

"What do you think?" Magda demanded.

"I mean I think the wife has lost him first," Victoria explained.

"Ah, yes, but it all depends upon what you mean by losing him," the other woman said. "It doesn't always mean that they're quarreling, that they've made up their minds to separate! It may mean that they've drifted apart—perhaps they don't realize it themselves..."

"Mother, do you really believe that all married women are waiting for affairs with other men to come along; that all married men have an eye out for charming women—fresh women?"

Mrs. Herrendeen's surprised stare was sufficient answer.

"Why, but of course!" she said, amazed. "Vicky, look at them! They do."

"They all don't!" Vicky muttered. But she was thinking.

"Some men never would," Magda conceded. "But some men are after women—smart women and beauti-

ful women—all the time! The world's full of them now—women who have comfortable big alimonies or settlements; and who are on the loose hunting for someone like Quentin—someone to love!"

"There are lots of men handsomer than Quentin for them to go after," Victoria observed with a laugh.

"But it isn't looks that count, Vic. That hard-faced, deep-voiced, dark-headed square sort of man is—well, I tell you," Mrs. Herrendeen said, shrugging lightly, looking away, "I tell you that if I were ten years younger I'd give that lad of yours a run for his money!"

For once Vicky was not amused; she was secretly affronted by her mother's words. Magda broke the silence.

"Marriage isn't what it used to be, Vic. In the old days if a man wanted to wander there were places he could go that his wife never heard about. Women suspected what was going on, but they were having their ten or a dozen children and

sweet-tempered, and a good sport, and making him a comfortable home, and loving him—" She stopped short in her catalogue so much in earnest that tears were near her eyes.

"He does, Vic. A man who has a wife like that is lucky, and he knows it. But that doesn't mean that—oh, well, that the look some woman gives him over her shoulder as she goes out of his office won't stay with him for days."

"Oh, Quentin!" Victoria exclaimed in surprise and dismay. And irresistibly she added, "Does that happen to you?"

"Sometimes!" The doctor admitted, laughing.

"But—there's no sense to it! Look what it leads to. Look at Mother, and so many others—the mess they make of it! In the end—"

"In the end it's the Vicky's who show them what fools they were," Quentin said, teasingly.

"Quentin, have you—since we were married, I mean—ever had that feeling about any other woman?"

"I'd tell you if I had, would I?" "I think you would."

"Well, I don't know but that I would! I believe you'd be very understanding about it. You'd pity the sinner and forgive the sin. But a man with five kids, another coming, a new stove to put in, bills unpaid, and an operation at eight tomorrow morning has a swell chance at that sort of thing!" Quentin yawned. "I'd be afraid of your mother, anyway," he laughed.

CHAPTER VIII

Serena, wife of Spencer Ashley George Morrison, was by birth part English and part Dane; she had been married to this, her third husband, for only a few years, and was in her early thirties when the Morrises came to California in search of sunshine and health. Not that Serena herself was not glorious in health and strength, and her child, Gita, seven years old, as strong as a little bullock, but her husband had been seriously injured in a hunting accident and would never be whole and well again.

There was a good income somewhere. The little family could afford to choose what place and what climate it preferred. Menlo Park—some eighteen to twenty miles down the peninsula from San Francisco—finally had seemed to be the ideal place, and they had bought the Tracy house, right next door to Dr. Quentin Hardisty's big place, in the week when Madeleine Hardisty was a year old.

The Hardistys' old-fashioned place was spacious, plain, comfortable. But the Morrises' residence was quite new, and lovely in plastered Spanish patios, tiled oddments of sloping roof, oaks, peppers, roses, flagged paths. Little Gita Stewart, Serena's daughter, lonely and curious and bold, had lost no time in creeping through the evergreen hedge that separated the two gardens, crossing the Hardistys' old tennis court and, skirting the berry patch, threading her way under the oaks and over the lawn, and finally discovering what she later had described to her nurse as the most fascinating family she had ever met: a mother who was fixing the puppy's hurt head with rags and water and medicines, and boys named Kenty and Dicky and Bobs, and girls named Gwen and Sue, and a baby that could walk.

The adult members of the family did not meet so simply. It was at a country-club lunch that Victoria first noticed the straw-haired woman and identified her as the beauty Quentin had noticed more than a year earlier. Everyone was noticing Serena that day and asking about her; it was her first social appearance since the long-ago night at the opera, although she had been in her new house for almost a month.

Quentin and some of the other men (had been playing golf since breakfast time; Victoria had come later to the club to carry her husband home for lunch. With Gwen and her two older children she was watching the tennis when she saw Mrs. Morrison for the first time; presently Phyllis Tichnor came up with the newcother in tow.

"Vic, you know Mrs. Morrison?" "I don't," Vic said, smiling. "I'm so glad to! I remember seeing Mrs. Morrison at the opera last year, and I think our children know each other?"

"Our children?" echoed the beautiful Mrs. Morrison, raising the delicate dark line of her eyebrows. "Isn't your small girl Gita Stewart?"

"You ought to know each other," said Phyllis. "You live right near. Is there a place between you and the Tracy house or aren't you right next door?"

"Oh, of course we are," Serena said slowly, with no change of expression beyond a hint of languid curiosity. "It's your children Gita talks to Amah about?"

"I am not a very formal person. You can't be, when you have six children," Vicky explained, when they were comfortably seated, watching the tennis. "But I do mean to come and see you one of these days!"

"(TO BE CONTINUED.)"

"He Wasn't a Gentleman; It Simply Wasn't There!"

feeding chickens and making soap and putting up preserves, and they didn't have much to say. It's different now. The women they can buy are of their own class, and they're not all after presents and trips and alimony. They want love—they've got money! They're after the love part! There's a sex war on, Vic—women don't want one experience, they want twenty, now!"

"Well, I hate the word 'sex,' and I hate so much talk about it, and I hate the idea that it's the most important thing in the world!" Vic presently said, with feeling.

"But it is the most important thing in the world," her mother assured her seriously.

Victoria shook her head, frowning. She fell into thought, and her mother, idling in her favorite fashion on a couch beside the fire, was silent, too. Later that evening Victoria asked Quentin if he thought sex was so important.

"Sex?" he echoed in surprise. Vicky laid a hand on his.

"I don't mean in youth, when flirting is natural and right. But afterward—does it have to go all through life, men tempting women and women tempting men to throw everything else over, decency and home and honor and obligation?"

"Often," the doctor said slowly. "It is that way. They tell me about it," he added.

"How do you mean, 'it is that way'?"

"I mean that a man who really loves his wife and kids, who is perfectly satisfied with his home life—"

"Perfectly satisfied!" The tame phrase affronted her, and she laughed.

"Well, perhaps what I mean is that his new affair has nothing to do with his—his organized life. He meets some woman who appeals to him tremendously—irresistibly—"

"Physically!" Vic put in, scornfully, as he hesitated for a word. He accepted it simply, unsuspectingly.

"Oh, yes, primarily that. Primarily that. She has some trick of using her eyes—some note in her voice—something that sets him on fire just as definitely as if a fuse were lighted."

There was a pause. Victoria was studying his face attentively.

"Yes, but suppose all that," she presently said. "Grant all that! Is he then to tear up his whole life, kick his wife out, deprive his children of their father—"

"It's usually the wife who does that, Vicky!"

"A man might expect his wife to forgive him," Vicky said, after thought. "But then how would she know that it mightn't happen again?"

"She wouldn't," Quentin said, mildly, unsmilingly.

"Ha!" Vicky exclaimed, out of deep thought. Quentin laughed.

"It would seem that it takes you by surprise," he observed.

"Well, it does. I've always felt—I've always hoped—that a man liked a woman for other things—her being

## Ask Me? Another

A Quiz With Answers Offering Information on Various Subjects

1. How often does the United States gain one in population?
2. Was Sir William Blackstone successful as a lawyer?
3. Do baseball or football players receive more injuries?
4. How fast must an object travel to escape from the gravitational attraction of the earth?
5. Does an elephant eat as much as a mouse in proportion to its size?
6. Was the United States Supreme court ever closed for a period more than one year?

### Answers

1. There is one birth in the United States every 14 seconds, one death every 22 seconds, one immigrant every 15 minutes, and one emigrant every 14½ minutes, making a net gain in population of one person every 35 seconds.
2. Sir William Blackstone (1723-

1780) whose fame as England's greatest jurist is based on his "Commentaries," actually possessed only the vaguest possible grasp of the elementary conceptions of law and was considered a failure as a lawyer, jurist and parliamentarian, according to Collier's Weekly.

3. Baseball players receive more minor injuries, but fewer permanent injuries and fatalities.

4. It must have a speed of 8.95 miles per second.

5. If an elephant ate the same amount proportionally as a mouse it would consume 10 tons of food daily. Actually it eats only about 100 pounds.

6. Rushed through congress in 1801, a measure directing that the Supreme court should meet only once a year, on the second Monday of February, closed the court for 14 months, until February, 1803.

## Uncle Phil Says:

**He Doesn't Expect Help**  
Usually the man who is in a position to say, "My friends would do anything for me," is the man who doesn't need it.  
"Angels can do no more," means that angels will not waste time and energy on something that is futile.

Make it your business to know how to do things for people and they will pay you well. That is the surest means of making one's way in the world.

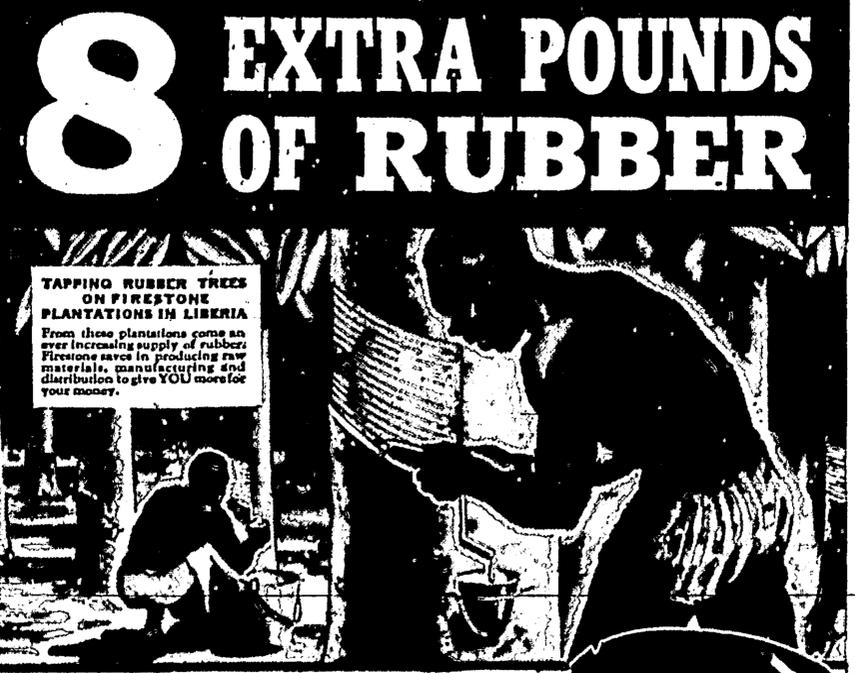

Culture consists in liking the best things in art and literature and not pretending to.

### The Other Way Around

Instead of motorists decreasing accidents these days, accidents are decreasing motorists.

Experience is a dear (expensive) teacher, and she ought to be; for she teaches the most valuable thing in life—common sense.

Save an attic room when you build your house—to sleep in when it rains.

Another Reason Why  
**FIRESTONE GIVES YOU SO MUCH**  
Extra Value at No Extra Cost

- YOU GET EXTRA PROTECTION AGAINST BLOWOUTS**—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process.
- YOU GET EXTRA PROTECTION AGAINST PUNCTURES**—because under the tread are two extra layers of Gum-Dipped cords.
- YOU GET EXTRA PROTECTION AGAINST SKIDDING**—because the tread is scientifically designed.
- YOU GET LONGER NON-SKID MILEAGE** because of the extra tough, long-wearing tread.

Before leaving on your vacation trip, join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value. See your nearby Firestone Dealer or Firestone Auto Supply & Service Store Now!

**DON'T RISK YOUR LIFE ON THIN WORN TIRES**  
**DO YOU KNOW**  
THAT last year highway accidents cost the lives of more than 38,000 men, women and children?  
That a million more were injured?  
THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

At right section cut from a smooth, worn tire, with non-skid protection layer off. Tires in this condition are liable to punctures, blowouts and skidding.

At left is section cut from a new Firestone Tire. Note the thick, non-skid protection against skidding, blowouts and punctures. Come in and see by actual demonstration.

Mrs. Eva B. Smith, Editor and Publisher

**When 111,000 Americans Died**

A generation has passed since the sinking of the Titanic, yet that great disaster is still well remembered. Fifteen hundred persons died.

The Johnstown flood will never be forgotten—the world was aghast when the death total of 2,209 was tabulated.

The World War was the most sanguinary conflict in history. In it, 50,000 Americans lost their lives, and they are still mourned.

The recent Texas school explosion, which killed 294 children, brought universal sympathy and horror.

Yet last year 111,000 Americans met accidental death—more than twice as many as were killed in the great war—and it caused hardly a ripple in the flow of news. We read of some of those accidents in our paper—"John Jones, aged 45, died in emergency hospital after being struck by an automobile"—turned the page, and forgot them. This astounding callousness—this attitude of "Accidents always happen to the other fellow, not to me or mine"—is death's greatest ally.

Among men, heart disease is the only thing which kills more men than accidents. Such plagues as cancer, tuberculosis, pneumonia—plagues which are being fought by all the resources of science—are down the list. Recklessly driven automobiles, burns, falls, drownings, and so on—these are the great killers.

Practically every accident is preventable—and this is especially true of the motor car, greatest of all the great killers. Care, competence, courtesy—these make up the accident prevention triumvirate. It's up to you—to all of us.—Industrial News.

**NOTICE OF SUIT**

IN THE DISTRICT COURT OF LINCOLN COUNTY, NEW MEXICO.  
Board of County Commissioners )  
of Lincoln County, New Mexico, )  
Plaintiff, )  
v. )  
Mrs. E. C. Dow, et al. )  
Defendants. )

THE STATE OF NEW MEXICO TO: Mrs. E. C. Dow, impleaded with the following named defendants upon whom substituted service is hereby sought to be obtained, to-wit: Mrs. Ralph Dow, Mr. Charles G. Peppin, Mrs. J. M. Serano, Mr. Edward Peppin and Epitacio Anaya, and all unknown heirs and claimants of the lands and premises described in said complaint.

GREETINGS: You and each of you are hereby notified that the Board of County Commissioners of Lincoln county, New Mexico as plaintiff, has filed its petition in the above entitled Court and that the same is now pending therein against you; and That in said petition plaintiff alleges that it is about to engage in the construction of a public highway known and designated as Forest Project No. 31-F, Lincoln county, New Mexico, which highway will traverse the lands and premises described in said petition, as follows, to-wit:

All of that part of a strip of land 100 feet wide, lying and being situate in Sec. 28, T. 9 S., R. 16 E., N. M. P. M., being 50 feet wide on each side, parallel and adjacent to the following described surveyed centerline, to-wit: Beginning at Sta. 1270+43 of Forest Project No. 31-F, Lincoln county, New Mexico, point on curve; thence southeasterly on a 2 deg. 00' curve (Radius equal 2865 feet) thru an arc of 3 deg. 33' to the left 178.1 feet to Sta. 1272+21.1 back equals 1272+11.3 ahead; point of tangent; thence S. 03 deg. 49' 30" E., back equals S. 03 deg. 54' E., ahead, 668.7 feet to Sta. 1277+80.

Containing 1.715 acres, more or less. Plaintiff further alleges that all the lands and premises described in said complaint and petition, and hereinabove described, are necessary for the public use aforesaid, namely for the use of a right of way in the construction of the aforesaid public highway. That plaintiff prays in said petition for the appointment of three (3) commissioners, as provided by law, to assess the damages which the owners and claimants of said lands may sustain by reason of and in consequence of said condemnation and appropriation of said lands for said purpose, and that plaintiff have judgment against you and each of you condemning the lands described in said complaint, as provided by law, and thereafter, upon compliance with the requirements of said judgment and the provisions of the Statute applicable thereto, that a final decree of condemnation of said lands and premises described in said complaint, be made and entered in said cause and for general relief.

You are further notified that on the 6th day of September, A. D. 1937, at the Court House in Carrizozo, Lincoln county, New Mexico, at the hour of ten o'clock in the forenoon of said day, or as soon thereafter as counsel may be heard, plaintiff will present said petition to the Court and thereupon ask and move the Court to appoint three (3) commissioners to assess the damages, as provided by law, and for such other relief, orders and judgment as it may be entitled to under said complaint and petition and such proceedings will thereafter be had in said cause as are prescribed by law in such cases. M. A. Throet, Las Cruces, New Mexico, is attorney for the plaintiff. Witness my hand and seal and the seal of this Court this 19th day of July, A. D. 1937. (SEAL) EDWARD FENFIELD, Clerk of the District Court.

List 9785, serial No. 053285 for lot 1, Sec. 34, lots 2, 3, 4, Sec. 35, T. 5 S., R. 6 E., N $\frac{1}{2}$ SE $\frac{1}{2}$  Sec. 1, T. 6 S., R. 4 E., N. M. P. M.

The purpose of this notice is to allow all persons claiming the land adversely, or desiring to show it to be mineral in character, other than coal as mentioned, an opportunity to file their protests against the approval of the selections.  
Paul A. Roach Register.  
July 23-Aug 20.

**Mrs. Pruett is Arrested Local and Personal**

Chicago, July 31 (AP)—Mrs. Maggie S. Pruett, 41, former state auto license tag distributor at Carrizozo, N. M., was arrested Saturday by Chicago police on a charge of embezzling \$900 in license fees.

Sergt. Edward Allman, detective, said Mrs. Pruett admitted she took the money over a period of two years.

She was arrested at the home of a married daughter, whose address was furnished police here by Chief E. J. House Jr. of the New Mexico State Police. She waived extradition, Allman said, and would be returned to New Mexico by policemen enroute here by plane.

Mrs. Pruett said her husband died three years ago.—Albuquerque Journal.

Mrs. Pruett refused to waive extradition unless four of her children are brought back to New Mexico without expense to herself, according to dispatches. She was arrested in Chicago, charged with embezzlement of more than \$800 collected as license distributor of Lincoln County. Officials at Santa Fe say it will be cheaper for the Sheriff to take a large car when he goes than to pay the cost of extradition proceedings. Mrs. Pruett has many friends in Lincoln county who are grieved and surprised to learn of this unfortunate affair, and who hope there are extenuating circumstances.

**Chemical Character Of Water**

A study of the chemical character of the water of the Pecos River in New Mexico is being made by the United States Geological Survey, Department of the Interior, in cooperation with the Interstate Stream Commission of the State of New Mexico. Samples are being collected at various points in the river and from ground-water sources that may contribute to the flow of the river. These samples are being examined at Carlsbad and Roswell, New Mexico, and in the laboratory of the Geological Survey in Washington, D. C. It is not practicable to distribute the results by mail in advance of publication, but in order that the information may be readily available to those interested, the results of the analysis may be seen at the laboratory of the United States Geological Survey in Washington, or by arrangement with Mr. Walter F. White, Jr., who is stationed at the chemical laboratory of the New Mexico Military Institute at Roswell.

**Miss Anderson Visits**

Miss Emma E. Anderson of Minneapolis, Minn., was a guest at the Garner house last Sunday. Miss Anderson is a Missionary who worked in New Mexico thirty years ago. She delivered an interesting and inspiring address from the pulpit at the Baptist church last Sunday morning. She spoke of the early days in the Carrizozo Valley and spoke touchingly of the kindness shown her by Mrs. Ira Wetmore and other prominent members of the church in those days. Miss Anderson owns some property here and is delighted to note the progress which has taken place since the old days, when she made this her home.

Mrs. Flossie Goodman and family from Monahans, Texas, stopped in Carrizozo Sunday to visit Mrs. Nettie Byron. They had been visiting in Oklahoma and were enroute home.

Friends of Mr. and Mrs. Henry Hoffman are glad to know that their little daughter Mildred has almost recovered from her serious illness of Monday and Tuesday.

**Special Election**

A special election will be held in New Mexico, Sept. 21st to vote on five amendments to the state constitution. They are:

1. To permit state officials of the executive department to hold more than two consecutive two-year terms.
2. To permit county officials to hold more than two consecutive two-year terms.
3. To permit absentee voting.
4. To permit issuance of \$1,250,000 building bonds for state institutions (before the next general election.)
5. To raise legislators pay to \$10 a day.

A sixth proposal, adopted by the 1937 legislature, will not come up until the 1938 general election, according to a ruling of the attorney general's office. It would enable a justice of the supreme court to sit as a trial judge when no district judge is available.

**Millionth Chevrolet**

The year 1937 takes its place as the third successive year in which Chevrolet has produced more than one million units and the sixth time in history of the company that more than one million cars of any one model have been built.

The millionth 1937 model Chevrolet was completed at the company's Flint, Mich., assembly plant two weeks after the production of the 13-millionth car since the founding of the company 25 years ago.

The first year in which Chevrolet produced more than a million units was 1927. In 1928 and again in 1927, the company built more than a million cars and trucks. Production passed the million mark again in 1935, repeating the achievement in 1936. Chevrolet led the entire automobile industry in sales during eight of the past ten years.

Mrs. R. L. Huffmeyer has as her guests her mother, Mrs. R. F. Chambers and her little niece Billye Ruth Marcom both of Dallas, Texas.

Commissioner P. R. Sandoval of Honda was in town Monday on business.

Billie Lafferty of Alamogordo visited friends here Monday.

## TRAINS

### TO CALIFORNIA AND THE EAST

There is no reason now why you should put up with the heat when you travel. EVERY SOUTHERN PACIFIC TRAIN TO CALIFORNIA AND THE EAST IS COMPLETELY AIR-CONDITIONED. Every regular car is delightfully cool... clean... quiet no matter what the outside weather may be. You get this supreme travel luxury even at our LOWEST FARES.

**3 FAST TRAINS**

Both the *California* and *Apache* are designed for those who want to get the most from their travel dollars. On both trains, you'll enjoy delicious meals in the dining car for as little as

|           |          |        |
|-----------|----------|--------|
| BREAKFAST | LUNCHEON | DINNER |
| 25¢       | 30¢      | 35¢    |

On both trains too there are free pillows and free drinking cups for all passengers. The *California*, for coach and tourist passengers exclusively, has reclining chair cars, improved tourist sleeping cars, special chair car for women and children, stewardess-nurse, many other features. The *Apache* carries coach, reclining chair car, tourist and standard Pullmans.

The *Golden State Limited*, one of the finest of trains, has all-Pullman equipment including a superb lounge car with valet, ladies maid, barber, shower baths, radio, etc.

*Very low one way and round trip fares are now in effect.*

## Overweight and Life Span

By  
**DR. JAMES W. BARTON**  
© Bell Syndicate.—WNU Service.

FOR many years it was believed that overweight shortens the span of life but it was not until the large insurance companies with the records of thousands of "healthy" individuals accepted for life insurance, gave out their figures to physicians that the true facts became known.

These facts are that overweight definitely shortens the span of life. Taking the life expectancy of individuals of definite height, age and weight, it is shortened in the exact proportion to the amount or percentage of overweight that exists.

The tables state: "Taking the life expectancy of any individual as 100 per cent, his mortality or death rating as influenced by overweight is given in percentages. Thus a person 5 feet tall whose standard weight is 129 pounds, but who weighs 50 per cent in excess, or 193 pounds, has a mortality or death rate of 170 per cent, or 70 per cent above normal."

In commenting upon this fact that the death rate is increased in proportion to the percentage or amount of overweight, Dr. Harry Gauss, University of Colorado, in his book "Clinical Dietetics" says: "There is nothing amazing in these statistics. A person whose normal weight is 150 pounds and who weighs 100 pounds is carrying 20 per cent excess body tissue. His heart is required to pump blood to 20 per cent increased tissues by weight, the kidneys must get rid of waste matter from 20 per cent increased tissue, the liver and pancreas must do the work for the same increase in tissue, and so all the organs in the abdomen (and also in the chest) are taxed by the increased burden."

Now we know that Nature is very generous, that the limit or margin of safety in these organs is much beyond the everyday needs of the body (we could live with one kidney, one half or less of the stomach, of the liver, and of the intestines), but the extra strain of overweight over a number of years must result in a breaking down before it otherwise would occur.

**Tendency to Diabetes.**  
"And the reducing of the span of life is not the only penalty of overweight. The increased tendency toward diabetes is another. Dr. E. P. Joallin, Boston, the outstanding authority on diabetes, has shown that diabetes is from ten to twenty times more common among fat persons than in normal or undernourished persons." Dr. W. E. Preble, Boston, who made observations on 1,000 cases of obesity (overweight), found that 432 of the patients showed evidence of organic heart disease, 239 showed functional diseases of the heart (disturbances such as increased rate or irregularity), while 463 showed evidences of interference with the work of the kidneys.

That overweight persons are poor surgical risks is a common observation of the surgeons, and that they offer less resistance to such infections as pneumonia is a common observation also."

Now the above facts should not make those of normal weight think they would feel better, be more free of ailments, and live longer if they were to reduce their weight. To be of normal weight, with just the right amount of fat (15 to 20 per cent of the total body weight) is an asset.

**Cut Down on Bread.**

Nor should those who are slightly overweight give the above figures much thought; a matter of 5 to 8 pounds over the average weight should cause no concern. Perhaps cutting down slightly on bread, butter and potatoes—nothing more—would reduce the weight to normal over a period of two to three months.

It is of course fortunate up to a certain point that the fashion for slimness has passed its height; stage directors no longer demand that members of the chorus shall be "skinny" and women in general are not ashamed of curves any more. This will prove helpful if women, and men also, will not let the pendulum swing too far the other way, and allow themselves to become overweight, because there is no getting away from the facts presented in insurance tables.

Insurance companies do not refuse applicants for insurance if they can help it. Their business is to insure all that they "safely" can. The fact that they refuse applicants with excessive overweight, and charge a higher premium for those who are even moderately overweight is the strongest possible argument that overweight is not only a menace to health but definitely shortens the life span.

**Jade Symbol of Long Life**  
Jade has been regarded as a symbol of long life among the Chinese for thousands of years. The gift of a piece of jade was equivalent to wishing the receiver happiness and long life.

## Marriage May Reunite the House of Bourbon

Prince Alvaro of Bourbon, Orleans, and his bride, Carla Delfino Parodi, just after their marriage in the Church of San Roberto Bellarmino in Rome. The wedding brought about the first formal appearance in six years of former King Alfonso and former Queen Victoria of Spain, stimulating reports that they are considering a reconciliation. They served as patrons for their cousin, Prince Bourbon-Orleans.

### WILLIAMS' PREXY

Dr. James Phinney Baxter III, professor of history and master of Adams house at Harvard university, who was unanimously named to succeed Dr. Tyler Dennett as president of Williams college, at a recent meeting of the executive committee of the Williams board of trustees. Forty-four years old, he takes office September 1 as one of the youngest of the ten men who have held the presidency in the college's history.

### Famous Father and Two-Year-Old Son

An exclusive pose of John Jacob Astor and his two-year-old son, William Henry Astor, as they appeared in commune, on the steps of "Chetwode," their summer home at Newport, R. I. William Henry recently celebrated his second birthday with his dad and mother, the former Ellen Tuck French.

### Socialite Back From Wild Life Hunt

Bronzed George Vanderbilt, twenty-three-year-old socialite, pictured aboard his yacht, Cressida, on his return from a 20,000-mile, six-month cruise in the South Seas during which he gathered about 20,000 wild-life specimens for the Philadelphia Academy of Natural Sciences. George is shown with Tag-Along, the tortoise-mascot he picked up on the Galapagos islands.

### Honorable Artillery Company Has Birthday

Sir George Broadbridge, the lord mayor of London, inspects the Ancient and Honorable Artillery Company on the four hundredth anniversary of its founding recently. The British company is one of the most exclusive regiments in England. The American company dates from 1838 when a group of planters in America who had been members of the British company formed a similar regiment.

## 'Way Back When

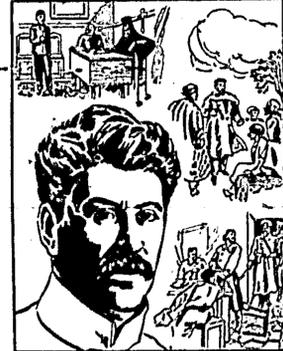

By JEANNE

### JOSEF STALIN STUDIED FOR THE PRIESTHOOD

WITH what blindness do we attempt to guide our children's footsteps in life, so often forcing on them an ambition of our own!

It might be laughable were it not so seriously in opposition to the man's own desires, but Josef Stalin was forced to attend the Tiflis Greek Orthodox seminary, because his mother wanted him to be a priest. Young Stalin, legally named Josef Vissarionovitch Dzygashvili, did not want to be a priest.

Born in 1879, Josef was educated in the village school of Gori, Russia. In his young days he was a fighter who bore many a black eye, and he was somewhat of a bully, although he always displayed intelligence and character. At the seminary, he led the other students in plotting against the authorities, and local railway workers met in his

room. Eventually, he was dismissed in disgrace. At the age of seventeen, he joined the underground dock workers of Batum in a riot and, when the terrorist Bolsheviks were formed became active in their movement. While attending a Bolshevik party conference in Stockholm, in 1903, he met Lenin for the first time.

Josef Stalin was arrested a half a dozen times, and exiled from Russia the last time. He changed his name regularly and returned again and again. With Lenin and Trotsky, he took over the government of Russia in October, 1917. After Lenin died in 1924, Stalin supporters exiled Trotsky and through ruthless executions made Stalin dictator.

Josef Stalin's life is hardly the kind of biography you would expect from a boy who studied for the priesthood.

### JOAN CRAWFORD WAS A TELEPHONE OPERATOR

JOAN CRAWFORD'S life is an example of a girl who had talent, ambition and enthusiasm, but who might never have risen beyond an ordinary occupation without the necessary confidence to keep trying.

Joan Crawford was born about 1907 in San Antonio, Texas, daughter of a theater manager. Most of her play hours were spent playing "show," and she danced her way through many struggling years before a real opportunity came her way. At fourteen, Joan went to work as a telephone operator in Lawton, Okla. Then, she was sent to a convent in Kansas City, where she had to earn her way by acting as a kitchen maid and waiting on tables. After leaving college, Joan Crawford found a job in a Kansas

City department store as a stock girl at \$10 per week, working during the day and practicing dancing at night.

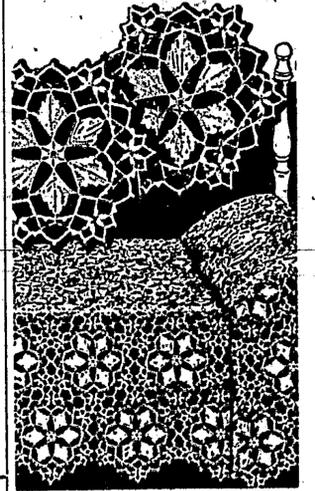

Finally a theatrical agent found a job for Joan in a show which failed a month later, leaving her stranded 300 miles from home. Courageously, she found job after job in cabarets and night clubs in Chicago, Detroit, and New York. She was working in a Shubert show, "Innocent Eyes," when a Metro-Goldwyn-Mayer executive saw her and signed her for pictures.

Think of the troubles this girl had, the disappointments and struggles. Born in the atmosphere of show business, she was inspired from the time she could first toddle to find a place for herself in that glamorous life. Then, circumstances took a hand and forced her into occupations that were far more on the side of drudgery than glamour. She plugged lines into a switchboard, washed dishes, swept floors, carried heavy trays, wrapped packages. But through it all, she kept her confidence in herself.

## Crocheted Flowers for Your Bedspread

You've seen spreads before, but never one like this with its large and small crocheted flowers! And don't think you must wait an "age" before it can be yours. Crochet hook, some string, and easily crocheted individual medal-

Pattern 5817

lions form this rich all-over design. With the "key" pattern easy to remember, the "repeats" are a glorious pastime. Why not crochet some extra medallions and have a dresser scarf to match? In pattern 5817 you will find complete instructions for making the 9 inch medallion shown; an illustration of it and of all stitches used; material requirements.

To obtain this pattern send 15 cents in stamps or coins (coins preferred) to The Sewing Circle Household Arts Dept., 259 W. Fourteenth St., New York, N. Y.

Please write your name, address and pattern number plainly.

## Favorite Recipe of the Week

PICNIC time is here—and as every picnicker will tell you—it's the lunch which makes or mars the occasion. Here's a cake that can go to a picnic successfully.

### Picnic Cake.

- (2 Eggs.)
- 1 1/2 cups sifted cake flour
- 1 1/2 tsp. double-acting baking powder
- 1/2 tsp. salt
- 1 tsp. cinnamon
- 1 cup butter or other shortening
- 1 cup sugar
- 2 egg yolks, well beaten
- 1/2 cup milk
- 2 egg whites, stiffly beaten

Sift flour once, measure, add baking powder, salt, and cinnamon, and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add egg yolks and beat well. Add flour, alternately with milk, a small amount at a time, beating thoroughly after each addition. Fold in egg whites. Bake in greased 8 by 8 by 2-inch pan in moderate oven (350 degrees Fahrenheit) 50 minutes. When ready to serve, frost top and sides with chocolate frosting.

# Keeping Up With Science

By Science Service

## Cosmic Rays Man Finds on Earth Are Trapped in Galaxy

### They May Originate in Blast of Stellar Worlds

New York.—A Nobel prize winner in physics and a Chinese scientist joined forces, through the printed word, here to tell the world of a new hypothesis on the origin of the cosmic ray. The men are Prof. Arthur H. Compton, University of Chicago, and Dr. P. Y. Chou, physicist at National Tsing Hua University, Peiping, China. Their medium of expression was the highly technical journal of the American Physical Society, the Physical Review, published here.

In the present stage of cosmic ray knowledge, say Professor Compton and Dr. Chou, there is no known act of nature—even the annihilation of the atomic nucleus—which can provide sufficient energy to fit the observed energies of some of the cosmic rays.

The only possibility, they feel, is the primeval explosion that sent worlds and galaxies literally rocking and reeling into space.

**Acknowledge Belgian's Theory.** Every kind of particle and the packets of energy known as photons would be the debris of such a staggering catastrophe, they admit. To account for the known preponderance of electrically charged particles, they suggest that the non-charged photons and neutrons have been lost in space because they could penetrate the magnetic field of stars and galaxies. But these same magnetic fields might trap the charged particles and so produce the observed particle component of the cosmic rays.

The scientists acknowledge the expanding universe theory of Abbe LeMaitre, the Belgian scientist, as the inspiration for this newest cosmic ray origin hypothesis. The Compton-Chou report is the first one in considerable time which has tackled the origin of the cosmic ray. For some years scientists have been content to study and obtain more and more experimental data, leaving the fitting together of the pieces to a later time.

Discussing the high energy of cosmic rays and their apparent origin somewhere out in space, the scientists said, "If the cosmic rays come from beyond the Milky Way, at a really typical place in intergalactic space the density of cosmic-ray energy would be of the order of 100 times as great as that of starlight. It is thus apparent that either the source of the rays must be a radiator which is very powerful compared with stars as a source of light, or the cosmic rays once emitted must be retained by the metagalactic system instead of being lost as is starlight.

**May Deflect Rays.** "Although nuclear processes occurring in interstellar space might result in an adequate total energy," they add, "it appears that such processes are inadequate to account for the great energies of the individual cosmic-ray particles."

Concerning the trapping of the electrical particles they ask, "Is it possible that electrically-charged rays emitted by the initial explosion may be deflected by stellar or galactic magnetic fields just as a cosmic-ray electron is deflected by the earth's magnetic field? If so, those particles which would be most probably retained by the metagalactic system would be those with the highest ratio of charge to mass in order, electrons, protons, etc., whereas all neutral rays might be forever lost."

## Trace Lip Inflammations to Dyes in Lipsticks

Atlantic City, N. J.—Cases of inflammation of the lips due to hypersensitivity to certain dyes in lipsticks were reported by Drs. Joseph Goodman and Marion B. Sulzberger of New York at the meeting here of the Association for the Study of Allergy.

By making tests of the various ingredients of the lipsticks, it was possible to discover which dye was the offender in a particular case, and to prescribe for the patient a lipstick she could use safely.

Other cosmetics, notably powders and nail polishes, have also caused inflammation and skin irritation, the New York doctors found.

Dyes in wearing apparel, ranging from dresses to shoes and socks, frequently cause irritation.

## Get Elderly Patient Up in Two Weeks to Avoid Death

### Doctors Find Confinement to Bed Hastens the End

By JANE STAFFORD  
Atlantic City, N. J.—Elderly persons who get sick must be gotten out of bed and back on their feet as rapidly as possible, in order to stall off death, Drs. Louis B. Laplace and J. T. Nicholson of Philadelphia told members of the American Medical association here.

Confinement to bed hastens death in persons over sixty years, they found. The reason is that remaining inactive and prone for long periods allows the blood to accumulate in the small veins and arteries. The total volume of blood is thus reduced and its circulation is further impeded by the hardening of the blood vessels that occurs in old age.

The blood, therefore, remains in the capillaries until it is forced out by contractions of the muscles, but a person confined to bed moves his muscles so little that the blood does not circulate enough. As a result, tissues degenerate, ulcers form, and the body is slowly poisoned by absorption of the products from the degenerated tissues. The patient sinks into stupor and the final invasion of the bacteria into the lungs causes the fatal pneumonia.

The way to prevent all this is to order elderly patients out of bed as soon as possible and while they must remain in bed to give them massage, exercise in bed, deep breathing and frequent shifts of position.

A new, quick and inexpensive test to determine whether a woman is going to become a mother was reported by Drs. John Huberman, Howard H. Israeloff and Benjamin Hymowitz of Newark, N. J. The test is made by injecting under the skin of the forearm one of the hormones present in the body of an expectant mother. If the skin becomes red and inflamed, the test is negative and the woman is not about to become a mother. If there is no reaction, the test is considered positive evidence that the woman is bearing a child.

The test was originally devised by Drs. G. C. Gillfillen and W. K. Gregg of Dayton, Ohio. The Newark physicians found it 80 per cent accurate in tests of 200 expectant mothers and 75 per cent accurate in 150 women known not to be pregnant.

## New Gadget Devised for Measuring the Blueness of Sky

Washington.—How blue is the sky? That is not a mere rhetorical question put by a poet for the purpose of dragging his lady's eyes into the discussion. The exact color of the sky is a matter of considerable scientific, commercial and even military importance, for it is a measure of air turbidity, dust content, haziness, etc., affecting visibility at a distance, intensity and color composition of sunlight, and a number of other intangible but important matters.

A new device for measuring sky blueness was described before the meeting of the American Geophysical union here by Drs. H. Landsberg and H. Jobbins of Pennsylvania State college. It is considered an advance over the series of standard color cards hitherto employed, being more rapid and direct in use, and having no abrupt jumps from one degree of blueness to another. The device consists of a wedge of clear blue glass of a standard hue, mounted so that sunlight is reflected through it from a mirror. Half of the opening of the frame in which it is mounted is open, so that the observer can look at the sky, and then slide the wedge along until the color matches.

## Action of Mangroves Adds to U. S. Coast

Memphis, Tenn.—New land is being added, slowly but surely, to the map of the United States. The mangrove bushes along the coast of Florida are doing it, declares Prof. John H. Davis of Southwestern university here. Professor Davis has been making a special study of this subject, from personal observation, examination of old maps, and comparison of newest air-survey photographs.

The red mangrove, which grows in salt water, has numerous roots which catch and hold silt and clay. As the deposit becomes higher, the red mangrove is supplanted by the white and black varieties which grow better on the higher soil. On decay, the mangrove remains form peat formations which aid further in the land-building process.

## Household Hints

By BETTY WELLS

"I'M HAVING the time of my life," announced Helen B., whose husband just lost a lot of money in a fire that destroyed his place of business. "Because Frank and I are back where we started out, and in spite of all the ups and downs we feel like honeymooners again."

"Of course, I'm doing my own work because we can't afford a maid. It's the first time I've really worked in this kitchen. "Till I really rolled up my sleeves and went to work here, there were more things wrong with this kitchen! I wish I'd known before how much time and energy it wasted after all it's as good economy to save the maid steps as to save myself."

"To begin with the sink was much too low so that an average person had to lean way over to use it. "Then I found that the cabinet where we kept silver, dishes and cutlery and mixing bowls was across the room from everything

We Feel Like Honeymooners Again.

else, while the pots and pans and groceries were on the other side of the room near the stove. The refrigerator was adjacent to the sink. "I have had the sink raised but I can't move it or the refrigerator or the stove to bring the three in reaching distance. I could get cupboards around the sink-refrigerator unit though. I had all the space below the sink made into cupboards, then turned the corner with another cabinet that ran around the adjacent wall. Here I made room for all cutlery, silver, dishes, mixing bowls and groceries and most of the pots and pans. I left the frying pans and the like alongside of the stove but kept all those that would have to be mixed in or fixed ahead in the cupboard by the sink where the groceries were.

"Then I bought a kitchen table on wheels, that I could pull from my working unit to the stove. This works fine, and with a couple of high stools to sit on my kitchen is as handy as you please.

"Frank and I did all the work—he's a pretty good carpenter, and I did the painting. All these changes called for a new color scheme so we decided on Swedish blue for the kitchen walls, and yellow ceilings, yellow wash curtains and some yellow pottery on a shelf just for show."

### Even at a Picnic.

She's the kind of a lady who can be a duchess on any occasion, even at a picnic. And her house is like that, too, gracious and poised and yet unpretentious with an effortless ease.

We were driving along her street one hot, hot afternoon recently, and on an impulse decided to stop in.

And there she was looking fresh as a daisy in a pink linen dress and her hair just out from a wet comb. The house was pleasantly orderly (but not nasty-nice—after all she has a rambunctious pair of children who take care of that). "Just a second," she said when she had seated us in a breeze, "I'll be back with tea."

She flew out to the kitchen and before we'd fanned our fan a dozen

She Can Be a Duchess Even at a Picnic.

fans, there she was with a tray of ice tea and a plate of oatmeal cookies.

As she sat down before that tray and served the tea, we thought what a thoroughly successful woman she was. Not famous. Not even rich. But doing a perfectly splendid job of making a pleasant home for her family, and that's no sinecure. That living room seemed like a haven on a hot day. Very pale aquamarine walls, a mulberry broadloom rug that somehow didn't seem hot because it made such a shady background for the silp covers of very flowery chintz on an aquamarine ground. The curtains were plain aquamarine chintz lined with cream and tied back with heavy mulberry cord.

There was a room that would seem like a cool and tranquil retreat in summer and like a hospitable room of friendly warmth in winter, so versatile and satisfying was it.

By Betty Wells.—WNU Service.

## BERRIES SOLVE DESSERT RIDDLE

### Shortcake, Cobbler, Pie, Pudding Popular in Summer.

By EDITH M. BARBER

BERRY season is welcome for many reasons but for none more than that it practically solves the summer dessert question. We do not mind how many times these berries repeat themselves, plain, with cream, in shortcakes, cobblers, rolls, cottage puddings, in plain fruit pies or in cream custard pies.

For a cobbler, the fruit is always baked with the dough which is the same as that used for shortcake. Put the berries or sliced fruit in a well buttered baking pan, sprinkle with sugar and cover with a soft dough. Bake in a moderately hot oven, 400 degrees Fahrenheit. This same dough is used for a roll. It is made stiff enough to roll into an oblong piece, which is sprinkled with fruit and sugar and rolled tightly. This is baked also in a moderately hot oven. A custard sauce, a hard sauce, or cream is served with this. For "pufts" the fruit and sugar are put into greased custard cups. The dough is put over this and they are then steamed thirty to forty minutes.

This same dough is used for apple, peach or pear dumplings which may be either steamed or baked. At our house we always had to have some each way to satisfy the preferences of the family.

A favorite pudding is a sponge cake with whipped cream and strawberries. This may be made into a more elaborate dessert by putting ice cream between the layers of cake, covering with crushed berries and garnishing with whipped cream. Meringue with ice cream and strawberries or other fruit sauce is a dessert which fits a party meal nicely. Sometimes you can buy them ready to use but they are not difficult to make.

### Meringues.

- 4 egg whites
- 1 1/4 cups powdered sugar, or
- 1 cup granulated sugar
- 1 teaspoon vanilla

Beat egg whites very stiff, add the sugar gradually. Beat until the mixture will hold its shape. Stir in flavoring. Drop by tablespoonfuls onto a wet board, covered with glazed paper. Bake about thirty minutes in a very slow oven, 250 degrees Fahrenheit.

### Fresh Fruit Pudding.

- 8 slices buttered bread
- 1 quart raspberries
- 1 cup sugar
- Whipped cream

Crush berries with sugar, if fresh, or crush canned fruit. Trim crust from bread and line a greased bowl with the slices, cutting corners so that the pieces meet. Pour in the berries, cover with bread, set plate on top of this, so that it is pressed down with the weight, and put in the refrigerator twenty-four hours. Turn out of mold, garnish with whipped cream and serve.

### Preserved Cherries.

- 4 pounds cherries
- 4 pounds sugar

Wash cherries, remove the stems and stones. Cover with sugar and let stand two hours. Set on stove and bring slowly to a boil, stirring occasionally. Cook until the cherries are tender. Fill hot jars and seal. A few pits cooked with the fruit improves the flavor.

### Medley Marmalade.

- 2 quarts raspberries
- 2 quarts strawberries
- 2 quarts currants
- 4 1/2 pounds sugar

Mash the berries, add the sugar and boil about forty-five minutes until thick, stirring occasionally. Pack and seal in clean, hot jars.

### Apricot Blossom.

- 3 parts gin
- 2 parts orange juice
- 1 part pineapple juice
- 1 part apricot brandy
- Lemon juice to taste
- Cracked ice

Mix all ingredients and shake with ice until outside of cocktail shaker is frosted.

### Cherry-Pineapple Jam.

- 4 quarts pitted cherries
- 2 cups crushed pineapple
- Sugar

Combine fruits and add an equal weight of sugar. Heat slowly to boiling. Simmer three-quarter hour. Pour into platters. Cover with glass and set in the sun until the desired consistency is reached. Pour into hot jars and seal.

### Cucumber Sandwiches.

Spread bread before slicing with softened butter. Slice and cut into rounds. Arrange sliced cucumbers which have been crisped in salt water for one-half hour, on the rounds. Spread with mayonnaise to which a little onion juice or horseradish has been added. Cover with other spread rounds of bread.

### Cocoanut Cup Custard.

- 2 eggs
- 4 tablespoons sugar
- 2 cups milk
- 1 cup cocoanut
- 1 teaspoon vanilla extract

Beat eggs very lightly. Beat in sugar. Add milk slowly. Add cocoanut and flavoring. Pour into cups which have been greased lightly with butter. Stand cups in a pan of water and bake in a slow oven (300 degrees Fahrenheit) one hour.

By Betty Wells.—WNU Service.

## Sew, Sew, Sew-Your-Own

TO MAKE you the girl of his dreams (and to keep him always dreaming), that's the happy ambition behind these newest creations by Sew-Your-Own. One of these frocks to enhance your beauty, and an evening to spend in that romantic lane of Moonlight and Roses— isn't it quite likely that you will become the girl of his dreams?

**Luncheon for Two.** When he takes you out to luncheon you should be the very essence of chic. A two piece like the one at the left will bring the sort of eye-compliments you like, and you'll find it a great boon to comfort if the date is to be soon. You will probably want it made of the season's hit material, sheer crepe.

**When It's Dancing.** He'll be very Scotch about giving away dances when he sees you in your copy of the frock in the

center. It was really born to dance. The tucked skirt has all the thrilling sophistication of a gored one, and it's much easier to sew. Little touches of grosgrain, and pretty puff sleeves add the kind of quiet elegance that makes this your choice for those happy hours of dancing under the stars.

**End of Summer.** The season, like romance, rolls swiftly. But you still have time to do a few summery things in a summery frock—such as the one at the right. In dimly or swish it will make you more youthful and charming than many a more ornate style (and after all the girl of his dreams must be young and charming). A good suggestion might be to cut a carbon copy, while you're about it, in sheer wool with long sleeves. Then there'll be nothing to worry about when a cool evening happens along.

**The Patterns.** Pattern 1288 is designed for sizes 14-20 (32 to 42 bust). Size 16 requires 3 1/2 yards of 39-inch material.

Pattern 1326 is designed for sizes 12-20 (30 to 38 bust). Size 14 requires 4 yards of 39-inch material.

Pattern 1220 is designed for sizes 14-18 (28 to 37 bust). Size 13 requires 4 1/2 yards of 35 or 39-inch material. With long sleeves 4 1/2 yards are required.

Send your order to The Sewing Circle Pattern Dept., Room 1020, 211 W. Wacker Dr., Chicago, Ill. Price of patterns, 15 cents (in coins) each.

© Bell Syndicate.—WNU Service.

**The LIGHT of 1000 USES**

**Coleman**

AIR-PRESSURE MANTLE LANTERN

Use your Coleman in hundreds of places where an ordinary lantern is useless. Use it for after-dark chores, hunting, fishing, or on any night job. It turns night into day. Wind, rain or snow can't put it out. High candle-power, electric light. Reproofs and gas-tight. The finest made. Prices as low as \$4.50. Your local dealer can supply you. Send postcard for FREE Folder.

**Local and Personal**

Mr. James Duncan arrived home from El Paso yesterday where he had been in Wm. Beaumont hospital.

Mr. and Mrs. Wm. Armstrong of Duran spent the week end with relatives here.

Dr. C. E. Freeman made a business trip to Duran Monday.

Mrs. Jim Gatewood of Nogal was shopping here yesterday.

Mr. Louis Nalda manager of the Red Canyon sheep company was buying supplies here yesterday.

Mrs. Abe Sanchez has been very ill this week.

Mr. Jeff Herron went to El Paso yesterday on business.

Mr. V. Reil received a carload of 1937 Chevrolet trucks Wednesday.

Mrs. Marie Bishop and Miss Edith Martin have as their guests, their mother, Mrs. C. A. Martin, Maureen Martin and C. A. Martin, Jr., and Miss Marjorie Bounds of Louisiana. The entire party visited the Grand Canyon the first of the week and returned Wednesday night.

Mrs. Marie Bishop moved to Roswell yesterday where she will be in charge of resettlement work for three counties.

Miss Edith Martin, Home Ec instructor at the Girls' Camp near Capitan is spending her vacation with her sister, Mrs. Bishop.

Before leaving for her new home in Roswell yesterday, Mrs. Marie Bishop renewed her subscription to the Lincoln County News.

Dorothy Ferguson, who resides near Coyote came home from Roswell, Monday of this week, where she had been visiting for a week.

For Rent - 5-room Modern home completely furnished. Inquire of John W. Harkey.

Messrs. Dickinson and Sterling Bell went to Mancus, Colorado today.

It was in the matter of tires that the old timers had to dig especially deep. The 1909 motorist reported that because of a recent cut in price his tire replacements and repairs in the first year amounted to \$278.86, whereas today's car owner reported an average tire cost per year of \$10.64.

Washington, Aug. 4.—J. Edgar Hoover disclosed today that federal agents had arrested William Roifar of New York in connection with an attempt to export \$2,000 from George Palmer Putnam for the safe return of his missing aviatrix wife, Amelia Earhart.

Mrs. Roberto Benavidez of La Mesa, N. M. is visiting here at the home of her sister, Mrs. M. C. St. John.

Rev. J. A. Bell is in Sacramento this week taking part in the Methodist assembly.

Lieut. H. H. Tracy is here this week from his home at Hico, Texas.

Aubrey Hines and Orlando Vigil got home from C. M. T. C. at Fort Bliss, Tuesday.

Judge Riggins of Capitan was in town on business Wednesday.

Mr. Hendricks of Jearilla was a business visitor Wednesday.

George Strause, Jr., is with the Pacific fleet at Portland, Oregon, this week. He is 1st class seaman aboard the U. S. S. Minneapolis.

Sheriff and Mrs. S. E. Greisen left last Wednesday for Chicago to accompany Mrs. Maggie Pruett and children back to New Mexico.

Mr. R. A. Walker used his new air cooling system for the first time last Tuesday night.

Mrs. Jennie Parker arrived from California last week to visit her sister, Mrs. T. A. Spencer.

Mrs. Francisca Marquez and daughter of Alamogordo were in Carrizozo Friday and Saturday.

Mr. Lorenzo Garcia was a Roswell visitor this week.

**Care in Selecting Diet**

"Because more time is spent in the open air during the summer months, larger appetites are developed with the result that many people eat more than is good for them," declared Dr. Robert A. Fraser, Chief Medical Director of the New York Life Insurance Company. "This overloading of the stomach, in conjunction with the frequently debilitating effects of hot weather, has a detrimental action on the general system, which can prove to be serious."

Dr. Fraser, in the course of observing the more common causes for hot weather disarrangements of the individual's health, feels that the matter of diet is an extremely important one, both from the point of view of "how much" is eaten as well as "what" is eaten.

"Do not overeat," Dr. Fraser advises, "though be sure and get three balanced meals every day. — A balanced diet is most important. During the warm summer months, cereals, eggs, fruit, vegetables, salads and fish should form the bulk of the diet, with very little meat. Drink plenty of liquids to make up for the large amounts lost by the body through perspiration. Deal sparingly with "ice cold" drinks and avoid alcohol. These last two cause many gastro-intestinal upsets.

Diet "Don'ts" For Vacationists  
For those who are going away on a vacation, Dr. Fraser offers special advice. "It is human nature," he says, "to eat more than ordinarily when on a party or when the food is different.

If the vacation is being spent in a district where pure water is hard to secure, Dr. Fraser suggests using boiled water or some well known bottled water. If you are sending your child to a camp, it would be well to find out from the director of the camp whether or not the water and milk supply for the campers has been thoroughly investigated.

Dr. Fraser cautions everyone to be careful of the water they drink. Camps, country resorts and roadside springs should have the source of water carefully investigated. If there is the least cause for doubting the purity of the water supply, drink only boiled or certified bottled water.

Moreover, do the same as regards the milk supply. Pure milk comes from healthy cows, is produced in sanitary barns and is kept pure by quick cooling in immaculately clean containers. A slip up at any one of these points can result in milk with too high bacteria count and that is unhealthy.

"A special effort," Dr. Fraser feels, "should be made to secure the best milk possible, even though it costs a little more."

**To Remit Taxes To Internal Revenue Collector**

Albuquerque, August 6—Tax returns and remittances filed under provisions of the Social Security Act should be sent to the Collector of Internal Revenue and NOT to field offices of the Social Security Board, it was announced today by Grant N. Hamm, manager of the Albuquerque office of the Board.

"Although we have announced at every opportunity that the Board has nothing to do with collection of taxes imposed by the Act, many employers continue to send us completed SS-1 forms, accompanied by checks, money orders or cash.

"Employers will be doing themselves as well as the Social Security Board a favor by sending their returns and remittances to the Collector of Internal Revenue for the district in which the employer's principal place of business is located," Hamm said.

Furthermore, tax return forms SS-1 are available only at internal revenue offices. This form, it was explained, is used each month by employers in remitting taxes imposed under Title Eight of the Social Security Act. On this form, employers report a one per cent tax on their total payrolls as well as a one per cent tax deduction from the wages paid to each employee. The sum of these two taxes accompanies the SS-1 form to the Collector of Internal Revenue.

Only SS-4 and SS-5 forms are to be returned to the Social Security Board. All others should be forwarded to the Bureau of Internal Revenue.

Dr. T. H. Williams of Chickasha, Oklahoma is here this week.

Miss Katherine Kelt, Secretary to Senator Carl A. Hatch will be home the 17th from Washington, D. C.

First Lifeboat?  
The first lifeboat is believed to have been one built by Lancelot Luke in England in 1780.

Messrs. Wayne Zumwalt and George Peak went to El Paso the first of this week on business.

**GETTIN' THE BUSINESS**

*means giving the mileage*

It's up to me to make this business go, because it's mine. I never did a smarter thing than featuring Conoco Germ Processed oil, with all its long mileage for you. Talk doesn't make mileage or customers, but I can tell you what does... Oil-Plating your engine with Germ Processed oil. The patent Germ Process makes oil actually take hold of every working part and keep it coated with a durable Oil-Plating... entirely extra to the regular moving type of oil film. Oil-Plating backs up the oil film while the car is running, and never drains down during hours of parking. Then you'll never start up without lubrication. And at the end of your longest run on a hot day, your engine will still have its full safe plating of Conoco Germ Processed oil. The way it lasts gives me a right to be called Your Mileage Merchant.

**CONOCO GERM PROCESSED OIL**
