VOLUME XIV—(Carrizozo News, Vol. 28)

CARRIZOZO, NEW MEXICO, FRIDAY, AUGUST 5, 1938

NUMBER 6

Democrats Convene at the Community Hall Saturday

Lincoln County Well Represented in the First "Get Together" of the Campaign.

WAYNE RICHARD, CHAIRMAN, PRESIDED

Fine Discussions by Hon. John E. Miles,

J. D. Lamb, Hon. Cuba Clayton, M. U. Finley, Mr. Barker, Senator Coe

Democrats of Lincoln county met in mass convention at the court house last Saturday afternoon at 1 o'clock. The court house proved much too small, so the crowd went to Community Hall.

Wayne Richard, chairman of the Central Committee, of Lincoln county, presided. The usual number of 182 delegates, and around two hundred and fifty onlookers were on hand. Hon. John E. Miles, prominent local attorney, and a former representative of Lincoln county, was elected temporary chairman of the convention on motion of Ira Miller; seconded by Mrs. Dan Conley. Miss Dolores Forsyth was made secretary of the convention. Mr. Barker of Santa Fe, a former State chairman addressed the convention and pleaded earnestly for harmony in the Democratic ranks and for Democrats in Lincoln county to forget party quarrels and factional fights and to work for the entire Democratic party. All speakers asked delegates to forget former animosities and antagonisms and to re-dedicate themselves to the cause of Democracy—to pledge allegiance and co-operation to party success. Mr. Barker referred to the nobility of New Mexico's first governor, W. C. McDonald, as did Hon. Cuba Clayton and Mr. M. U. Finley.

Boy Scout Camps

Red Cross Life Saving examiners will be present at the three Water Camps to be conducted this month by the Eastern New Mexico Area Council, Boy Scouts of America. The three Camps are as follows:

August 8-11, Lake Vann, Dexter, New Mexico; August 15-18 at the Carlsbad Beach; August 22nd to 25th at the municipal Park in Clovis.

The first two camps will be directed by Field Executive C. K. Eisler, who is a qualified Red Cross Life Saving Examiner. The Clovis Camp will be directed by Field Executive, M. G. King who is a qualified Red Cross Senior Life Saver. In addition to this the American Red Cross First Aid and Life Saving Representative Mr. L. P. Bruss will be in Carlsbad and Clovis Camps. The program will consist chiefly of swimming and boating. The boys will bring their own food and shelter and do their own cooking. These Camps are open to any Boy Scout in the Eastern New Mexico Area Council and it is hoped that a large number of local Scouts will attend.

Senator Louise Coe made an excellent talk asking that no party or delegation should be steamrollered.

The first "rift in the lute" showed when Capitan's two delegations were disputing as to which crowd should be recognized. Credentials committee retired to the court house and after about two hours a compromise was reached. The two delegations from Capitan, 48 in number (24 to the delegation) were recognized and permitted one-half vote each. The paramount desire of the county leaders was to attend to the matter in hand and adjourn without any floor debates or confusion. In regard to naming the eighteen delegates to which Lincoln county is entitled, Mr. Herman Kelt requested that as many as want to, should attend the State convention in Santa Fe, and that each be allowed a per cent of vote according to number. About 50 signed up as wishing to attend.

Hon. John E. Miles then addressed the convention as did Mr. J. D. Lamb. We hope the convention accomplished things that will be beneficial to the Democrats of Lincoln county, and things that will redound to the glory of the party.

Mr. Barker said: "Let's bear in mind that the Democratic party is bigger than any individual, bigger than any man's ambition." He also mentioned that delegates should carry out instructions given at the convention, endorse and commend the record of those who had earned it.

Date of Hearing Set

Nothing else has developed in the murder mystery except that two guns were found in a clump of tumble weeds near Ancho, which are believed to have been the ones used by the slayers.

The two prisoners, Ben and Randall Mixon, were brought here Wednesday to have the opportunity to secure advice for the examining trial which is to be held here Monday before Judge Chavez, Justice of the Peace.

Mrs. W. S. Norman and daughters, Edith and Jane, went to Tucumcari Wednesday to attend the big Rodeo.

Bill Compton is attending the Rodeo in Tucumcari this week.

Mr. Frank English, has been in the Turner hospital since Tuesday recovering from injuries received on the face, chest, arm and hand when a dynamite cap exploded in his left hand, as he was taking it outside his store to dry.

Congratulations.

Sunday night, July 31, 1938, Mr. and Mrs. Jamea Clinton Duncan became the proud parents of an eight pound baby girl. She was named Margaret Esteline for her two grandmothers.

Smith-Hughes.

Miss Lois Smith, of White Oaks, and Mr. Tommy Hughes, of El Paso, drove to Alamogordo last Monday and were married by Justice of the Peace, Barringer, after which they went to El Paso, where they will reside.

Miss Margaret Elliott and Mr. Robert Genus accompanied them to Alamogordo and acted as witnesses.

The bride is a very pretty, attractive and accomplished girl. She is a member of the Rainbows and took a very active part in Rainbow affairs. She is quite popular with the younger crowd.

The groom visits his aunt, Mrs. Joe West, here frequently, and has many friends, both in El Paso and Carrizozo.

Friends wish them success and happiness.

ANCHO NEWS

Ancho, Jicarilla and the entire community are deeply grieved over the sudden and awful death of Mr. Geo. Roberts and young Edward Ferguson last Saturday morning when their murder had been discovered. Mr. Roberts came to Ancho about five years ago, going into the mercantile business, and he had made many friends. He was ever loyal to his friends and customers. He also had a nice business of which he was very proud. "George," as he was called, attended strictly to his own business, bothering no one at any time, and was never "short" when he was asked for a donation of any kind. At the time of his death he was ready to start painting his new store which he had occupied only a short while. A vegetable freshener was to have been installed and many other things for the convenience of his customers. Geo. is going to be greatly missed too from the store and Ancho, as the saying goes: "A friend in need, is a friend indeed," and that is just what George was. As for young Edward, who had been with Mr. Roberts for only a short while, he was a very fine young man and was well liked by his boss and everyone. We regret that such a fine young man had to be taken in such a way. We, at Ancho, Jicarilla, and the community extend our deepest sympathy and express our regrets to the bereaved ones of George and Edward. "When a friend we find, who is good and true, don't trade the old one for the new."

Mr. and Mrs. Fred Clark are visiting at the home of Mr. and Mrs. W. J. Balow for a few days. Mr. Clark has just been released from the Turner hospital.

Mrs. John Straley and little daughter, Esther Catherine, returned home from the Turner hospital Sunday and are getting along nicely.

Mr. and Mrs. Pruitt and family, of Carrizozo, were in Ancho last Friday. The Mr. on business the family came along for the ride.

Mr. and Mrs. J. E. Hicks, of Carrizozo, were at the Goodson home at Luna Sunday. Mr. Hicks is Signal Supervisor from

Public Welfare In New Mexico

(Issued by the New Mexico Department of Public Welfare.)

Important in relieving need in times of emergency are commodities purchased by the Federal Surplus Commodities Corporation, and distributed in this state by the New Mexico Department of Public Welfare.

The commodities are purchased to relieve agricultural surpluses and to stabilize market prices. Those to be distributed to the needy people in New Mexico are shipped to the State Warehouse in Albuquerque, where they are repackaged into small containers and shipped to district warehouses, maintained in Albuquerque, Las Vegas, Deming and Roswell. The Department maintains its own trucks to ship the goods to the district warehouses, maintained in each county in the state.

Relief clients receive the commodities from the county warehouses after they receive orders from the county welfare departments. The rate of distribution is limited by the Federal Surplus Commodities Corporation and only needy persons certified by the Department of Public Welfare are eligible to receive the goods.

Cost of distribution of commodities, with the exception of relief labor used to repack the goods, is borne by the welfare department. Relief labor is used to repack the goods, is borne by the welfare department. Relief labor is used to repack the commodities into small containers for distribution. Expenses borne by the Department of Public Welfare include warehouse rental, cost of supplies for repackaging, supervisory labor, truck operation, office supplies and public utilities.

During June 552,056 pounds of food, valued at \$54,892.02 and 1,675 articles of clothing, valued at \$2,051.66 were distributed to needy persons throughout the state. The clothing distribution during the month was light as only emergencies were being taken

Legion Auxiliary

The American Legion Auxiliary held a meeting for the purpose of completing plans for a dance to be given the 27th of July by the American Legion and Auxiliary. The officers were installed, also.

Meeting was held at the home of Mrs. Dan Conley. Refreshments were served to the ladies after the business was attended to.—Publicity Chairman.

Chevrolet Sales Trend

A change in the normal sales trend was established by the Chevrolet Motor Division during the first twenty days of July when an increase in both new and used car sales was registered over those of June, according to figures released today by William E. Holler, general sales manager of Chevrolet.

The new car sales increase was 7 per cent while the used car sales increase was 14.8.

The normal trend is usually down approximately ten per cent for new car sales in July as compared with June.

For the first twenty day period of July, Chevrolet dealers sold 29,858 new cars as against 27,986 for the same period in June.

care of. The balance of the clothing received, mostly children's garments, is being saved for the distribution during August and September, when school starts. It is estimated that 45,000 garments, valued at \$50,000.00 will be distributed to school children at that time.

On July 1, the Department had on hand in its warehouses 1,353,695 pounds of food, valued at \$142,595.37. The food included canned apples; dried apples, fresh apples, dried apricots, lima beans, navy beans, canned green beans, butter, breakfast cereal, potato flour, cereal, wheat flour, graham flour, grapefruit juice, dry skim milk, oranges, peas, potatoes, prunes, raisins, rice, shortening, syrup and fresh tomatoes.

The Department also had on hand sufficient cotton and mattress ticking to manufacture 3,000 double mattresses. The mattresses are now being manufactured and distributed to relief clients of the Department.

Griffin Items

Mr. and Mrs. R. C. Withers left for Hot Springs to spend a few days.

Mr. J. P. Glover and son came home from Canyon, Texas, where they have been employed for several weeks.

Mrs. Myrtle Griffin is having a garage built at her home this week.

Mr. and Mrs. Jno. E. Cooper went to Socorro Tues. on business.

Mr. Frank and Shorty McNabb of Lubbock spent the week end with their parents Mr. and Mr. J. T. McNabb.

Mrs. P. H. Wrye and son William were at Griffin Tues.

The dance given at the Gains home last Thursday night in honor of kinfolks of Amarillo Texas was a great success. A nice crowd attended. Refreshments of cake and coffee were served.

Mr. Ted Corker of Bingham has been on the sick list.

Mr. and Mrs. Wayne Withers are visiting Mrs. Withers' sister, Mrs. Fisher in Belen.

Mr. and Mrs. Bob Cotter and daughter of San Acacia were week end visitors at Mrs. Griffins.

I. O. O. F. Notes

Last Tuesday night the Odd Fellows installed the officers who were not present for the installation ceremonies the 1st of July. Those installed were V. G. Bradley Smith, R. S. N. G. Herman Kelt, L. S. N. G. A. L. Burke, Warden Howard Barnes, Chaplin Steve Boston, Inside Guardian Lawrence Drago, R. S. S. Bert Pfingsten, R. S. V. G. J. M. Carpenter, L. S. V. G. E. C. Dow, Jr. There were 16 members present.

Girls' Bridge Club.

Misses Rhoda and Mary May Freeman entertained the Girls' Bridge Club Wednesday of this week at their pleasant ranch home. Sixteen girls were present to enjoy the animated games. Prizes were two nutcrackers and bowls imported from Old Mexico. The larger one was given to Margaret Elliott, who won high and the smaller one was given Agnes Degner, who won low score.

Refreshments were delicious sandwiches, olives and other dainties served with ice tea and lemonade.

Lyric Installs Air Conditioner

Mr. and Mrs. R. A. Walker, owners and managers of the Lyric Theatre, in their determination to give their valued customers the very best and most modern service in the Southwest, are installing a new Kelvinator electric air conditioner at their theatre.

This installation will enable them to cool the clean air inside the theatre down to about 20 degrees below the outside temperature, and so will enable them to offer their patrons the most pleasant and coolest accommodations in town, no matter how hot the outside temperature may be.

The installation is made by the New Mexico Mechanical Equipment Company, who last year installed the modern heating plant in the Lyric Theatre.

Stroope-Potter

Florence Stroope of Corona and John W. Potter of Santa Fe were married in Santa Fe last Sunday.

Lyric Theatre

Show Starts at 8:00 Friday and Saturday
Sally Eilers, Preston Foster, in "Everybody's Doing It"

Another comedy made for laughing purposes only in which an alcoholically addicted artist hires out to draw puzzle pictures for an advertising campaign and his girl friend.

ALSO:

"Queens of Harmony" and Popeye in "Paul Play"

Sunday, Monday and Tuesday

Ginger Rogers, James Stewart, Jas. Ellison, Beulah Bondi, Chas. Coburn, in

"Vivacious Lady"

Ginger goes to college, but it will surprise you how! Giddy and capricious amusement—it concerns the adventures which befall a young college professor and his night club wife.

MARCH OF TIME—In the first authentic motion picture for theatrical distribution to have the unrestricted co-operation of the American Medical Profession, the U. S. Public Health Service, the Medical Departments of the U. S. Army and Navy. A complete behind-the-scenes film narrative on American medicine.

Wednesday and Thursday
Peter Lorre, Thomas Beck, Jayne Regan, Paulene Frederick, John Carradine, in

"Thank You, Mr. Moto"

With China as the background, the picture is a double dyed-in-the-wool melodrama of Oriental serenity, sacrifice and courage. Guaranteed wild and woolly screen fiction.

ALSO:

"Just Ask Jupiter," and "The Dude Ranch"

Sunday matinee 2:30 p. m. Night show at 8:00

Mr. W. G. Duggar, of Nogal, was a business visitor in town Tuesday.

King George Rides Through the Streets of Paris

King George and Queen Elizabeth on their first visit abroad since they ascended the throne, ride through the streets of Paris, which was elaborately decorated in honor of their state visit. In the background are the raised flags of the two nations on the pylons in the Place de L'Étoile. Social functions, diplomatic conferences and a review of France's armed might for the king at Versailles helped bind the alliance of the two nations.

Preparing for Air Raids

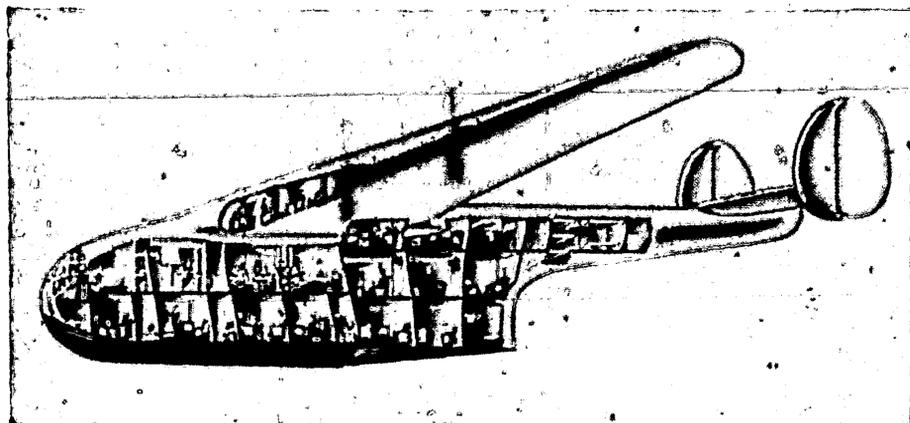

Nuns who have volunteered as women instructors in a course in air raid protection given under the auspices of the British Red Cross in London, England, examine the gas masks issued to them at the headquarters at Stoke Newington, near the British capital.

SPURS CUBS

Gabby Hartnett, who succeeded Charley Grimm as manager of the Chicago Cubs, is spurring his players on in the hope of capturing another National League pennant. A member of the Cubs for 16 years he is regarded as one of the greatest catchers in the history of the game.

100 Passengers in a Plane—In the Future

Artist's sketch of 100-passenger flying boat planned by the Consolidated Aircraft corporation of San Diego, Calif. The four-motored plane, which will have a crew of 16, is a 168,000-pound three-decker with a wing span of 194 feet, overall height of 31 feet, length of 102 feet and fuel load of 8,450 gallons. It will have a speed of 276 miles an hour.

Lowers Time In Trot Test

Just a little horseplay by Greyhound, holder of the world's record for the half-mile among the trotters, at Goshen, N. Y. Former Hambletonian winner and American cham-

plan, Greyhound is apparently at the peak of his career. He proved it at Cleveland recently, where he established another record by trotting the last quarter of a victorious mile in 0:26 1/4.

WHAT to EAT and WHY

C. Houston Goudiss Interprets the Modern Conception of Meat

Nationally Known Food Authority Explains Why It Rates As a Top-Notch Food.

By C. HOUSTON GOUDISS
6 East 39th Street, New York City

AMERICANS spend from one-fourth to one-third of their total food budget for meat. In order to discover whether this expenditure is justified, let us examine the nutritive value of meat, and consider its contribution to the diet.

Almost everybody likes the flavor of meat, from the man who considers that no meal is complete without it, to the child who instinctively eats the meat on his plate before he touches the other foods. The desire for meat is one of the strongest human appetites.

For centuries, man accepted this craving for meat as an indication that it was essential to his well being. But with the advance in civilization, there was an increase in many diseases, and for a period of years, meat was blamed as being a contributing cause to kidney trouble, rheumatism, high blood pressure, hardening of the arteries and gout.

In recent years, there has been a careful investigation of the possible association between meat and disease. In the light of our newer knowledge, the old notions have been discarded. And in many cases, meat now has a place in the treatment of the diseases that it was once believed to cause!

Composition of Meat
Meat is a protein food of the highest type. It is useful both for repairing the millions of cells that are worn out daily, and for building the new tissues that are necessary for growth in childhood. The proportion of protein varies with the kind of meat, and the cut. In beef, lamb and veal, it comprises between 14 and 20 per cent of the edible portion.

The other constituents of meat are fats, water, minerals, extractives, enzymes and pigments. The amount of fat present is an important factor in determining the fuel value of meat. And the more fat it contains, the less protein will be found in a given unit of weight. The different cuts of pork contain less protein than corresponding cuts of beef and lamb, with the exception of lean ham, lean pork chops and tenderloin.

Meat as a Blood Builder
Both glandular and muscle meats are rich in the blood-building mineral, iron, and meat also contains copper. The glandular organs, particularly liver, have great value in the prevention and treatment of anemia. Pernicious anemia baffled physicians for many years until, in 1926, two noted American scientists discovered that liver contains a principle which stimulates red blood cell formation. This discovery has been ranked with the discovery of insulin as one of the greatest in our times.

Meat also contains a high percentage of phosphorus. It is poor in calcium, however, and this necessary substance must be obtained in adequate amounts from milk, cheese and green, leafy vegetables.

The Vitamins of Meat
Lean muscle meats cannot be considered as an important source of any vitamin except G. This vitamin is necessary for the prevention of pellagra, and also helps to prolong the vigorous middle years and to ward off old age. Beef, pork and lamb muscle contain approximately the same amounts of vitamin G, but liver has been found to contain approximately 10 times as much as muscle tissue.

Some vitamin A is found in fat meats, but liver is also much richer in this vitamin than muscle tissue. Vitamin B is present in lean meat, especially lean pork, which has a considerably higher content than lamb, mutton or beef.

Value of Meat Extractives
Meat contains small amounts of extractives. It is partly because

one misses their savory flavor that a meal without meat often fails to tempt or satisfy the appetite.

The extractives indirectly aid in the digestion of meat proteins because they stimulate the flow of the digestive juices. Experiments have demonstrated that meat induces a flow of gastric juice in direct proportion to the amount consumed.

This calling forth of great physiological activity of the stomach is one reason why meat is said to be the most satisfying of all foods, and to "stick to the ribs" longest.

Digestibility of Meat

In considering the nutritive worth of any food it is necessary not only to analyze its contributions to the diet, but to determine how well its nutrients are utilized by the body. Meat has a high food value because its protein is digested rapidly and thoroughly. Tests show that 97 to 98 per cent of meat protein is digested and absorbed. The length of time meat remains in the stomach will depend upon various factors, such as the amount of fat present, the method of cooking and the degree of mastication. But there is no marked difference in the thoroughness with which the different kinds of meat are digested.

Since it is so completely digested, however, meat supplies little bulk, and it is therefore essential that an abundance of leafy vege-

This Free Chart Makes It Easy to

BALANCE YOUR DIET

YOU will find it a simple matter to safeguard the health of your family by serving a balanced diet if you send for the Homemaker's Chart for checking Nutritional Balance. It lists the foods and the standard amounts that should be included in the daily diet. Contains skeleton menus for breakfast, lunch and dinner or supper to guide you in selecting the proper foods in each classification. A post card will bring you this valuable aid to good menu planning. Just ask for the Nutrition Chart. Address C. Houston Goudiss, 6 East 39th Street, New York City.

tables and fruits should be eaten at the same time.

There has been considerable discussion regarding the place of meat in the child's diet.

There are the same good reasons for using meat in the diet of the child as in the diet of the grown-up. Moreover, the child's protein requirement is greater than that of the adult, in proportion to his body weight.

At the beginning of the second year, many authorities advise that small servings of tender and finely minced beef, chicken, lamb or liver may be given about three times a week. As the child becomes older, he may have meat more often and as his ability to chew increases, he may be given larger pieces.

Some Fallacies Regarding Meat

Many people believe that veal is less completely digested than other meats. But it has been demonstrated that even very young veal digests as rapidly and as completely as beef. It has also been held that red meats are less digestible and, therefore, less desirable than white meats. There is no evidence to support this point of view.

Someone with a gift for concise expression once remarked: "No meat—no man!" His point was well taken. For considering its delicious flavor, essential food values, and ease of preparation, it is easy to agree that THERE IS NO SUBSTITUTE FOR MEAT.

For this remarkable new cleaning agent—Irium—helps Pepsodent to remove those dull, staining surface-stains that may have long hidden the true natural beauty of your teeth! Buy Pepsodent NOW!

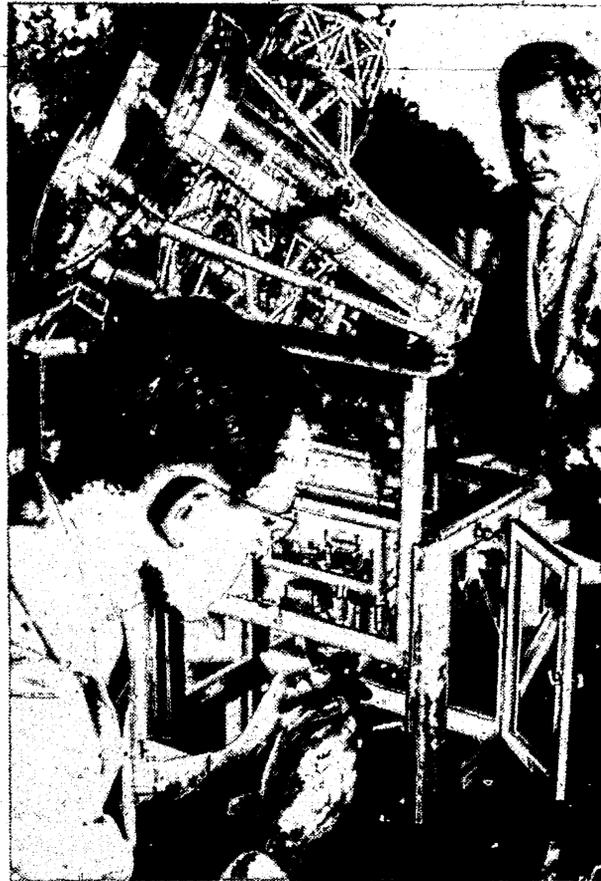

TOYS of SCIENCE

LILLIPUTIAN TOM THUMB would find himself at home in the Westinghouse laboratories where these pictures were taken. So would any toy-minded youngster. For modern scientists often work with equipment that hardly appears scientific. For example, see the midjet laboratory held in a fair-sized hand above. Microchemistry is to the under analytical methods what the microscope is to the unaided eye, solving big problems with tiny pinpoints of material. At the left is another toy, "Willie Vocalite," a robot that smokes and talks.

Laboratory engineers built this toy dam before proceeding with a \$550,000 "upside down" flood protection dam in the Pittsburgh area. Below: A remarkable celluloid model of the giant support for a 200-inch telescope being built atop Mt. Palomar, California

Here is a "microbalance" weighing specks of matter as light as one millionth of a gram. A common pin weighs one-tenth of a gram and is a heavy load for the scales.

Microchemists need a steady hand to handle these implements.

Meat Essential in Well-Rounded Diet

Balance Must Be Made Up of What Meat Lacks

By EDITH M. BARBER
MAN is a carnivorous animal and is generally proud of it. Like the tiger, he loves meat, but prefers it cooked instead of raw. Today, he adds salt to it, although early man got as much salt as he needed from the natural juices of the meat. Man has always considered meat "strengthening" and although we know today that other types of food do their part in supplying us with strength and energy, science has shown that man must have protein of good quality to rebuild the tissues which wear out to some extent each day. Children, of course, need an ever increasing amount of tissue-building food until growth has been attained.

While other animal foods, such as milk, cheese, eggs and fish supply us with protein, which is fully as good in quality as that of meat and while some vegetable foods contribute, man still maintains a high respect for meat. Practically everyone likes the flavor which demonstrates its presence by an appetizing odor when meat is cooked.

There was a time not so long ago when it was believed that meat should be kept low in the diet on account of the waste products which accumulate during digestion. Further work has shown that man in normal condition of health is able to take care of these even when a comparatively large amount is taken daily. Meat deserves a high place in a well-rounded diet, which, however, must give us the things which meat lacks. Plenty of vegetables and fruits, some milk and some eggs, some cereals, sweets and fats besides meat belong in the daily menu.

Frizzled Beef.

1/4 pound dried beef
 3 tablespoons fat
 3 tablespoons flour
 Pepper
 2 cups milk
 Tear the beef into pieces. Melt the fat in a frying pan and cook the beef in it a few minutes. Sprinkle with the flour and pepper, stir well, add the milk, stir until it boils and boil one minute.

French Hamburger Sandwiches

12 slices bread
 1/2 pound raw chopped round steak
 1 tablespoon minced onion
 Salt
 Pepper
 1 egg
 1/4 cup milk
 Butter
 Slice bread. Divide meat into six portions. Spread meat on one slice, sprinkle with onion, salt and pepper; place another slice of bread on top and press together firmly. Cut in half. Beat egg and add milk. Dip sandwich in this mixture and fry in hot fat slowly and brown on both sides.

Jellied Meat Loaf.

1 tablespoon gelatin
 1/2 cup cold water
 3/4 cup cooked salad dressing
 1 1/2 cups cooked meat, ground
 1/2 cup chopped celery
 1/2 green pepper, chopped
 Seasoning to taste
 Sliced egg
 Soak the gelatin in cold water, dissolve in hot salad dressing. As the mixture begins to thicken add the meat, celery, green pepper and seasoning to taste. Turn into a mold, chill until firm. Remove from mold, garnish with sliced egg, and serve with sour cream dressing.

Club Sandwiches.

Toast
 Sliced cold chicken
 Sliced cooked bacon
 Lettuce leaves
 Sliced tomatoes
 Mayonnaise
 For each sandwich, toast three slices of bread from which crusts have been removed. Arrange lettuce, chicken, bacon and tomatoes on one piece of toast. Spread with mayonnaise, cover with another slice of toast and repeat the process, making a "double decker." Garnish with lettuce leaves. The tomatoes, may be omitted.

Fillet of Beef.

Have fillet larded, by the butcher. Place meat on rack in pan, sprinkle with salt and pepper, dredge with flour, and put in bottom of pan, with small pieces of pork. Bake 20 to 30 minutes in hot oven at 450 degrees Fahrenheit, basting twice. Serve on hot platter. Serve with mushroom, horseradish or Bearnaise sauce.

Sauce Bearnaise

1/2 cup butter
 2 egg yolks
 1 tablespoon vinegar
 1/2 cup boiling water
 1 teaspoon salt
 Cayenne
 Divide butter into two parts. Put one piece in pan with egg yolks and vinegar. Cook over boiling water, stirring constantly, until butter is melted. Add second piece of butter when mixture thickens. Add water, cook one minute, and season.

Harmonious Modern Room

For a modern room, a monotone scheme has been designed by an eminent decorator. A beige carpet meets pinkish beige walls. The natural color upholstery fabric is self-checked and the chintz draperies striped beige and brown. One large easy chair is covered with blue.

SIX GUNS

and **CARPET TACKS**

A Gallos County Story

© McClure Newspaper Syndicate, WNU Service.

MOST times, here in Gallos county, a six gun's a-got just a little the best of the argument, but there was one time when the difference between two gun toters was a box of carpet tacks.

See that tree a-standin' out there, there at the bend in the road. Well, that's where they finally lynched Butch Manton. Folks just heard that some of Butch's friends was a-plannin' to ride in to town and take him out o' jail. And Butch a-bein' a cow thief like he was, they just up and taken him out and strung him to that tree. And Butch'd been livin' right, like as not, if it wasn't for them carpet tacks.

It was right here in the Happy Hour where things was a-beginnin'. Butch was at the bar when Johnnie Rucker comes in and was a little slow when he said somethin' 'bout Butch steakin' 50 head of steers from Johnnie, but Johnnie did nick Butch's right foot as the lead from Butch's gun went a-learnin' through his own heart. Course, Butch'd shot Johnnie

without givin' him a chance, but Butch still had that gun in his hand when he backs out of the Happy Hour.

'Fore long after the shootin', Sheriff Tom rides into town and hears 'bout the shootin'. It kinda hits him hard on account of Johnnie bein' a pal of his'n, and he don't wait for reason why there ain't been no posse after Butch. He lights out for the Diablo canyon country down close to the border where Butch and his gang has holed up for years.

Butch oughta gone right on to the border, but he don't. He stops by the shack, sends them riders of his'n on with them steers he stole from Johnnie and waits back to see if he can't do somethin' 'bout that foot of his'n.

He's a doin' a leetle doctorin' of his own when Tom rides up. Tom ain't never been a fool 'fore, but a-thinkin' 'bout Johnnie musta got him off, 'cause Butch gits the drop on him and takes Tom's gun but Tom does manage to kick a table over and put out a candle,

Along the Highway

Don't let ownership of an automobile rob you of your politeness.

Probably the worst fault in driving a car is believing you haven't any fault.

In these days, on the roads, it's a case of the survival of the fittest.

Thinking about one thing while doing another causes accidents.

the only light that's in the room.

No sir, Butch don't get away from Tom and Tom lives to bring Butch Manton right to the jail from which he was taken and hung on that tree at the bend of the road, down yonder.

You see, Tom, he's been out a-tackin' up signs when Johnnie was shot. Well he'd just bring them tacks long with him, and them tacks is how he caught Butch.

He just spread them on the floor quiet-like while he was movin' around there in the dark and a-fore long Butch steps on one with his foot that ain't got no boot on.

Butch's kinda surprised and lets out a hoop and Tom just grabs in the direction of that hoop.

Firestone CUTS THE COST OF TRUCK TIRE OPERATION

THE LOW PRICE ON TRUCK TIRES will AMAZE YOU!

Just at the time when you need a new set of tires for your truck, Firestone makes it possible for you to buy high quality tires at a new low price. Now, for the first time at a price so low, you can get those patented and exclusive Firestone construction features which have made Firestone Tires famous for safety, long-mileage and economy on truck operations of every type.

1. Gum-Dipping, the patented Firestone process which protects against blowouts.
2. Two extra layers of Gum-Dipped Cords under the tread, a patented Firestone construction feature which protects against punctures.
3. Scientifically designed tread which provides long mileage, quick stopping and protects against skidding.

Call on your nearby Implement-Dealer, Firestone Tire Dealer or Firestone Auto Supply and Service Store today and see for yourself how you can cut your truck operating costs by equipping your truck with Firestone Convoy Tires.

CAR OWNERS SAVE MONEY TOO!

Migratory Waterfowl
Season Established

Sportsmen will have a forty-five day season in which to hunt migratory waterfowl this year, according to advice just received by the State Game Department from the U. S. Biological Survey. This is an increase of fifteen days over the thirty day season in effect for many years. The dates established for New Mexico for the waterfowl season is November 15th to December 29th, both dates inclusive. Waterfowl includes ducks, geese, Wilson snipe, Jack snipe and coot.

"The sportsmen of the southern part of the State and the Middle Rio Grande Valley will be highly pleased with these dates," stated Game Warden, William S. Barker, "but unfortunately it will be too late to provide any shooting in the northwestern portion."

The Warden called attention to the fact that the State Game Commission, in order to be fair to all parts of the State, had very strongly recommended a forty-five day season to open November 1st and close December 15th.

While the shooting hours for ducks will remain the same, that is 7:00 a. m. to 4:00 p. m. each day, the regulations have been liberalized in certain other respects. The daily bag limit will be five geese and ten ducks. Sportsmen will be allowed not more than three of any one nor more than three in the aggregate of canvasbacks, rodheads, buffleheads and ruddy ducks. The killing of these species has been entirely prohibited in previous years. Any person at any one time may possess not more than two daily bag limits of both ducks and geese.

The bag limit and possession limit on coot is 25. The bag limit on Wilson snipe and Jack snipe is 15 per day or in possession, and the shooting hours are from 7:00 a. m. to sunset.

The season on Mourning doves and band-tailed pigeons is the same as that already established by the State, namely September 1st to November 15th for doves and October 1st to October 15th on band-tailed pigeons. The shooting hours for these species is 7:00 a. m. to sunset. The daily bag limit and possession limit of doves is 15 birds, and band-tailed pigeons is 10 birds. However, the State limit on band-tailed pigeons is 10 birds per season.

While the majority of sportsmen will be pleased with the new waterfowl regulations, they are, nevertheless, entirely unfair to the sportsmen in the northern and northwestern parts of the State where the shooting grounds are located in high elevations; since by November 15th, the opening date, all waters will be frozen over.

The State Game Commission will, in all probability, make the State regulations on waterfowl to conform to those set by the Federal Government.

Santa Rita Church

Rev. Fr. Salvatore announces Sunday Masses at 8:00 a. m. at Carrizozo and at 11:00 a. m. at Ruidoso.

Baptist Church

Everyone cordially invited.

Capitan American Legion Auxiliary

On July 20, 1938, the Capitan American Legion Auxiliary met at the home of Mrs. Perry Sears. This is the regular time for our Auxiliary luncheon and sewing for the community chest.

After the luncheon an impressive installation ceremony of new officers was given. The new officers for the coming year are as follows:

President--Marguerite Merchant.
Vice Pres.--Grace Burlison.
Secretary--Carol Williams.
Treasurer--Bessie Cummins.
Historian and Publicity Chairman--Ethel Howard.
A new member, Edna Purcell, of Lincoln, was enrolled. And Mrs. Price of Quitaque, Texas, was a special guest. Mrs. Price is the wife of Dr. Enoch Price, and they are old-time residents of Capitan.

The next regular meeting is the first Wednesday of August at the grade gymnasium in Capitan. Members please note. The third Wednesday, August 17, 1938 will be at El Pajarito Ranch with Mrs. Cavanaugh and her daughter, Mrs. Sellers, as hostesses. Publicity Chairman.

Congratulations.

Sunday night, August 31, 1938, Mr. and Mrs. James Clinton Duncan became the proud parents of an eight pound baby girl. She was named Margaret Estelline for her two grandmothers.

1940 Wheat Crop Can Be Insured

The Federal Crop insurance Corporation will accept from insured wheat growers a wheat deposit, to be used for payment of crop insurance premiums in 1940, equal to the wheat paid as a premium for crop insurance on the crop harvested in 1939, according to word received by G. R. Quosenberry, Director of Extension, from Roy M. Green, manager of the Corporation. This provision was made by the Corporation in accordance with the amendment to the Federal Crop Insurance Act made toward the close of the last session of Congress.

On wheat thus deposited the Corporation will pay storage costs as in the case of wheat premiums paid in, unless the grower who makes the deposit does not take out a policy covering his 1940 crop. The deposit is not the same as premium payment altho the advantages to the wheat grower are practically the same. The Corporation is not permitted to sell crop insurance policies for more than the current year. It can enter a contract with a wheat grower for only one year. The amendment to the Act did not change this provision of the law.

When a wheat grower deposits with the Corporation an additional amount of wheat above his premium for 1939 crop insurance, he will be issued a receipt. He cannot deposit more wheat than the number of bushels he pays as premium for 1939 insurance. This amount of wheat may be more or less than his premium will be for 1940, which will not be determined until next year. Wheat growers must pay their premium for 1939 before they plant the crop which is to be covered by the insurance. If the grower pays for a larger number of acres than he finally decides to plant, he may deposit the excess payment with the Corporation, or the excess will be refunded if he so desires.

Uncovering Herculaneum

Ruins of Herculaneum, buried during the eruption of Vesuvius in 79 A. D., were discovered in 1710 when the ruler of Naples began digging a water reservoir at the site of the old city.

Hats of Korea

With the exception of the dancing girls of the country, the Korean women wear no head covering other than their hair and this is twisted in the shape of a coil on top of the head to act as a pad in order that they may balance rather heavy bundles upon their heads. The men are rarely without the hat which is perched on top of the skull and not much of a protection. The dancing girls never appear without an elaborate headpiece, resembling a four-angled crown, tapering to the top.

Hebrew Money

The monetary system of the Hebrews was based upon the Babylonian system of weights. The ratio of the value of gold to silver was 1:18 1/3 and prevailed over all western Asia.

Local and Personal

Mr. and Mrs. Bill Smith and Barbara, of Des Moines, spent Saturday in Brooklyn, Mr. and Mrs. Ted Schoonover, of Washington, D. C., who have been visiting the Smith's in Des Moines,

were also visitors Saturday at the Karr home. Mrs. W. K. Karr returned to Des Moines with them. --Brooklyn, Iowa, Chronicle.

Mr. and Mrs. Shirley Phipps have as their guests, Mr. and Mrs. Coopridge and two children from Coatsville, Ind. Mrs. Coop-

ridge is Mr. Phipps' sister. They arrived last Sunday and will remain about two weeks. In company with the Phipps family they have been visiting the different points of interest.

Last Saturday, Mr. Frank Perkins, of the local C.C.C. camp was visited by his sister and brother-in-law, Mr. and Mrs. Tom Potter of Midland, Texas, who were enroute to California. The Potters expect to visit him on their return trip.

The ladies of the Baptist Missionary Union, gave Mrs. R. E. Berry a surprise birthday party and linen shower at the Baptist church last Wednesday evening, July 27th. The honoree received many beautiful and useful gifts.

Mr. and Mrs. T. E. Kelley visited the Carlsbad Cavern last week.

Mr. and Mrs. Ted Schoonover, of Washington, D. C., are the parents of a son, born Sunday, July 24, at the Methodist hospital in Des Moines. The baby weighed 7 lbs., 14 ounces and has been named Joseph for uncle Joe Karr and he doesn't object in the least. --Brooklyn, Iowa, Chronicle.

Misses Nellie Lee and Martha Catherine Smith and Pinkie Ruth Skinner were Alamogordo visitors last Saturday.

Mrs. James Greer, who was ill at Rathmann's hospital, is very much improved.

Mr. F. J. Sager and two daughters, Miss Lorena and Mrs. Esther Spence and her daughter, Virginia, came down from Santa Fe and staid from Friday until Sunday. They will come down

again in a few days to attend to business matters.

Recent Rains in N. M.

After a severe drouth of nearly two months which reduced grass supplies and threatens curtailment of crop acreages, the agricultural condition in New Mexico was materially improved by recent rains according to a survey on conditions made by representatives of the Santa Fe System Lines.

While more moisture is needed, both livestock and range conditions are fairly satisfactory; and as farms were permitted to continue planting grain sorghums and beans, the crop outlook is much better. Beans should now make 60 per cent of a normal crop.

Irrigated crops are doing well. Cotton, reduced to 115,000 acres, is late but making splendid growth. Alfalfa production in the Pecos Valley is heavy. Rain delayed the cantaloupe season in the Mesilla Valley but loadings are expected to top those of last year.

As the wheat harvest came to a close, it was predicted that the crop would not exceed 2,000,000 bushels.

Methodist Church.

At the Methodist Church S. S. 10, o'clock every Sabbath Mrs. R. E. Lemon, Supt. Preaching every 2nd and 4th Sunday mornings at 11 o'clock.

Services every Sunday evening at 8 o'clock.

Every one welcome.

New Auto Traffic Record Set in 1937

Total motor vehicle registrations in U. S. hit a new high record in 1937, almost reaching the 30,000,000 mark, according to final official figures released by Rocky Mountain Motorists, the AAA Automobile Club.

Colorado's registrations amounted to 337,217 at the close of last year as compared with 316,050 in 1936, an increase of 6.7 per cent, the report said.

New Mexico's registrations amounted to 118,106 as compared with 108,729, an increase of 8.6 per cent.

For the U. S. as a whole, motor vehicles aggregated 29,705,220 of which 25,449,924 were passenger vehicles and 4,255,296 were trucks. This total represented a gain of 5.5 per cent over the 1936 registration of 28,165,550 motor vehicles.

"In the official Bureau of Public Roads tabulation, New York led all the states in respect to registration, with a total of 2,484,653, California in a photo-finish second place, scoring 2,484,653 vehicles. However, it should be noted that the Bureau's total does not include trailers and semi-trailers, motorcycles publicly-owned vehicles. When all these vehicles are counted in, California is found to be slightly in the lead.

Have You a Favorite Cake Recipe?--Send It In It May Win Cash Prize

WHEN you decide to give your family a real treat and you bake one of those luscious, tempting chocolate cakes, or it may be a delectable marble cake or a delicious devil's food cake, made from your favorite recipe, and the folk all reach for a second, or perhaps a third, helping--now isn't that gratifying! How amply rewarded you feel by the remarks of appreciation going around the festive board such as "Oh, boy, what a cake!" from little Willie, said with a mouthful, to "I must have another piece if I burnt!" from Dad.

But here!--you may have still further reward coming to you. The very recipe that the family makes so much over may be the one to take the first prize of \$25, or one of the five second prizes of \$10, or one of the ten third prizes of \$5 in the Cake Recipe Contest. And why not?

C. Houston Goudis, noted food authority, who for 30 years has exerted a wide influence on the food habits of this nation through his lectures and books, and who at present conducts the food department in this newspaper known as "What to Eat and Why," is conducting a cake recipe contest with cash prizes to be given to persons submitting the best recipes. Your recipe will be judged on the basis of its nutritional and wholesome value. It need not be a marvelous creation for the eye to behold. The judges of this contest may agree with your family that your favorite recipe IS THE BEST! For further particulars see the announcement elsewhere in this issue of this newspaper. There is nothing to buy. No letter to write. Just send in your favorite cake recipe. It may win a prize.

The new serial, "CRUCIBLE" will start in this paper soon. Something new. Watch for it!

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON

NEW YORK—The British lion has been taking kicks from all corners lately, but it stiffened up and began looking a lot more heroic when the ancient bill of rights seemed to be infringed. It was no rubber-stamp parliament which reacted angrily to the army's summary action against young Duncan Sandys, conservative member, who had revealed undue knowledge of air defense secrets. The government was embarrassed and backed up considerably.

The swift parliamentary kick-back was an instance of the latent staying power of the British democratic tradition, as the representative body rattled the bones of its late and great libertarians in telling the executive where it got off.

The row overflows into important political by-ways, as the tall, handsome, loose-voiced Mr. Sandys is both a son-in-law and political ally of Winston Churchill who is pot-shooting the government just now in a political no-man's land.

There is a threat of conservative defection to the side of the still ambitious and powerful Mr. Churchill, with labor and liberal recruits, and, according to close observers of British politics, some important new alignments may result.

Mr. Sandys, thirty years old, is still just a rookie in this league, and, like Mrs. O'Leary's cow may not have intended to start anything in particular. He is, however, an energetic and capable young politician and there are those who say he may be another Anthony Eden in a few years.

Running for parliament in 1935, he was assailed by the comely young Mrs. John Bailey who was leading the fight for the opposition. She is a daughter of Winston Churchill.

He won the election in a rock-and-sock battle and then, in the chivalrous Eton and Oxford tradition which is his background, he married Mrs. Bailey. She, incidentally, is a granddaughter of the Jennie Jerome of New York who became Mrs. Randolph Churchill and the mother of Winston Churchill. Jennie Jerome's father was one of the fighting editors of the New York Times in the 1860s.

Mr. Sandys, studious and somewhat ministerial, was with the diplomatic service until 1933. He is a second lieutenant in the London anti-air force, a son of the late Capt. George Sandys.

GREECE never had any luck in trying to get the Elgin marbles back from England. Judging from this precedent, American aviators have a long fight ahead in trying to bring back from the Kensington Science museum in London the Wright brothers' airplane of the historical Kitty Hawk crow-hop of December 17, 1903. Such will be the endeavor of the newly formed association of men with wings.

They will appeal to Orville Wright, who let the plane go to England in 1920, after the Smithsonian institution had tagged the Samuel P. Langley plane as "the first machine capable of flight carrying a man." There is as yet no word from Mr. Wright, who lives and works somewhat aloofly in his office and laboratory at Dayton, Ohio.

That twelve-second flight put him in the history books, brought him a string of honorary degrees and gathered more medals than his plane could lift, but all this was marred by the misunderstanding about who flew first.

He had been trained in science at Earlham college when he and his brother made their plane in a bicycle shop. He continued his studies in aerodynamics and his later contribution was the stabilizing system which has made modern aviation possible. Wilbur Wright died of typhoid fever in 1912.

STIFF-NECKED, hard-bolled General Alexander von Falkenhausen, German sparring partner and coach for the Chinese generals until recently, stirs excitement in Shanghai by predicting Chinese victory. He says, "I feel sure that China is gaining a final victory and that Japan will fall in both war and peace."

The general and all others of the German military mission to China are homeward bound, suddenly recalled by their government, although their contract, worth \$12,000 a year for General von Falkenhausen, was to have run until 1940.

News Review of Current Events

CHALLENGES THE N.L.R.B.

Hoffman of Michigan Will Test Freedom of the Press . . . Texas Democrats Nominate a Yankee

David E. Lillenthal, TVA director, at left, trying to explain to the congressional investigating committee the methods by which TVA "yardstick" rates for power were established. Next to him is J. A. Kurg, chief power planning engineer; and at extreme right is Dr. A. E. Morgan, the deposed head of the authority.

Edward W. Pickard
SUMMARIZES THE WORLD'S WEEK.
© Western Newspaper Union.

Hoffman Dares N.L.R.B.

CLARE E. HOFFMAN, Republican congressman from Michigan, has challenged the National Labor Relations board in the matter of constitutional guarantees of freedom of speech and of the press. He sent to the board a letter recalling that the body recently declared the circulation of a house speech by Hoffman constituted an unfair labor practice under the Wagner act. In the speech Hoffman declared that known communists were active in the Committee for Industrial Organization and denounced C. I. O. sit-down strikes as communistic methods.

"This speech," Hoffman's letter said, "was republished, with illustrations, by the Constitutional Educational league of New Haven, Conn."

"I am now offering, and intend to continue to offer, to furnish to any and all interested persons, including employees, employers, or others, copies of this address for circulation at the actual cost of printing, and to recommend that employees might well read this address before joining the C. I. O."

Commenting on the letter, Representative Hoffman said that the board's ruling would preclude the distribution of newspapers containing news items or editorials critical of any organization or of activities of the labor board.

The American Federation of Labor charged in its official organ, the American Federationist, that maladministration of the Wagner act is threatening American democracy. The publication printed an editorial bluntly accusing the National Labor Relations board of promoting the rival Committee for Industrial Organization "which seeks to set up a dual labor movement despite all the social and economic waste which dualism involves."

"Every agency of the government that gives status to the C. I. O. gives the same recognition," it continued. "Surely this is not freedom for workers to choose their own unions and representatives for collective bargaining, but union development under government patronage."

Texas Picks a Yankee

TEXAS Democrats in their primary selected a Yankee to be the next governor of the state. W. Lee O'Daniel, born in Ohio and raised on a Kansas farm, received a clear majority over 11 other candidates for the nomination which is equivalent to election.

O'Daniel is a flour jobber. He campaigned with a hill-billy band and a platform that included the Ten Commandments and the Golden Rule, ridicule of professional politicians, promise of a business administration and more liberal pensions for the aged. More important nationally was the fact that Rep. Maury Maverick, leader of a considerable bloc in congress, was defeated for renomination by Paul Kilday, a San Antonio attorney. Maverick is an enthusiastic New Dealer. Kilday says he will not be a rubber stamp.

Two other administration backers were defeated for renomination. They were Representatives W. D. MacFarlane and Morgan Sanders.

Third Term Boost

GOV. FRANK MURPHY of Michigan told Democratic leaders of the state that Michigan must keep its mind open on the possibility of a third term for President Roosevelt. Said he: "The welfare of the nation and continued success of the New Deal must come first. If the suc-

cess of the New Deal depends on President Roosevelt running for a third term, then we must be prepared for that."

Murphy's statement is only another indication that the third term movement is growing rapidly. Various groups have petitioned the President to run again in 1940, and Republican National Chairman Hamilton says WPA Administrator Harry Hopkins launched a third term boom the other day when he asserted that 99 per cent of those receiving relief would vote for Mr. Roosevelt again.

Of course Mr. Roosevelt says nothing about all this, but political observers seem to agree that if the 1940 convention does not appear ready to get together on a candidate who would and could carry on the New Deal, the President might well consider it necessary for him to accept another nomination. Breaking a precedent wouldn't worry him.

To Expand Business Loans

CHAIRMAN JESSE JONES of the Reconstruction Finance corporation announced a new policy for forcing the expansion of business loans, by which competitor banks will be pitted against each other. When a loan applicant approved by the RFC is turned down by his local bank an RFC agent will contact the bank and try to persuade it to participate in the loan. If it refuses the RFC agent then will contact a competitor bank.

Jesse Jones

In its most optimistic monthly business survey of the year, the federal reserve board said industrial production is on the increase and available data indicate that in July the index will show a considerable rise.

The business summary particularly pointed out healthy business signs, noting that activity in many industries was on the increase contrasessionally.

Hull Prods Cardenas

SECRETARY OF STATE HULL, out of patience with Mexico, sent to President Cardenas a sharp note protesting Mexico's failure to pay for American owned farm lands that the Mexican government has seized. Mr. Hull asked that the matter be submitted to arbitration. The secretary has in this the full approval of President Roosevelt, for the administration feels that Cardenas is endangering the "Good Neighbor" relations between the two countries.

Sen. Key Pittman of the senate foreign relations committee also said Mr. Hull, asserting that Mexico refuses to arbitrate she will be subject to economic penalties. "Mexico," he said, "then would forfeit all the financial and other voluntary aid we have given her through our spirit of friendship and desire for peace, prosperity, and upbuilding of that country."

Spanish Rebels Gain

SPANISH insurgents started a drive in Estramadura region in the southwest as a feint to prevent reinforcement of the loyalist eastern front, and found the loyalist defenses were astonishingly weak. So they went ahead in a whirlwind attack that gave them possession of 23 important towns and villages.

The Barcelona loyalist government announced acceptance of the international plan to purge Spain of its foreign forces. Insurgent General Franco was expected to follow suit shortly and accept the plan framed by Great Britain and sponsored by the 26-nation nonintervention committee.

Disaster in Bogota

THIRTY-SEVEN persons were killed and 150 injured when a Colombian army plane crashed into a grandstand at Bogota and burst into flames. The stand was packed with spectators gathered to witness an aviation review and in the throng were the president and president-elect of Colombia and many foreign diplomats. These narrowly escaped death. The plane was heading an acrobatic parade, and after its wings struck the sides of the grandstand it nose-dived into the shrieking mass of men, women and children.

Bomb Kills 39 Arabs

THIRTY-NINE Arabs were killed and many injured by a bomb that was exploded in the crowded market place in Haifa, Palestine. The incident was the most costly in the turbulent strife between Jews and Arabs which has been sweeping Palestine anew since July 5. Clashes followed immediately and panic spread through the city. Many American tourists who had just arrived were caught in the uproar.

Pick-a-Back Flies Sea

MERCURY, the top part of the novel British pick-a-back seaplane, separated from Maia, the lower and heavier part, about a thousand feet above Foynes, Ireland, and then sped across the North Atlantic, making the crossing at moderate speed and without mishap, passing over Botwood, Newfoundland, the pilot flew on 850 miles further to Montreal, alighting on the St. Lawrence. After refueling the plane completed its flight at New York.

The flying time from Foynes to Montreal was 20 hours and 20 minutes.

Film Companies Sued

UNDERTAKING to break up what the government alleges is a great moving picture monopoly, Attorney General Cummings started a civil anti-trust suit against 8 major motion picture producing companies, 25 subsidiary or associated companies and 132 officers or directors, in an effort to divorce production, distribution and exhibition phases of the cinema industry.

The suit was filed in the federal district court for the southern district of New York. Federal Judge Henry W. Goddard signed an order for the service of subpoenas on all the defendants, directing that each appear before the court in New York within 20 days after being served.

The government is seeking an equity decree, Thurman W. Arnold, assistant attorney general, announced, requiring the companies to divest themselves of ownerships of theaters or of production and distribution facilities.

The suit named Paramount Pictures, Inc., Leew's Inc., Irving Trust company, New York, as trustee in bankruptcy for Radio-Keith-Orpheum corporation; Warner Brothers Pictures, Inc., Twentieth Century-Fox Film corporation; Columbia Pictures corporation; Universal corporation; and United Artists corporation.

Mr. Arnold said that allegedly monopolistic power exerted by the defendants has a "tendency to drive independent theaters out of business or to compel them to sell to the producer-owned theater chains on the latter's terms."

Mr. Arnold alleged that independent theaters are subject to numerous "oppressive" discriminations, such as block booking, high rentals and the imposition of preferred playing times.

Charles P. Howard Dies

CHARLES P. HOWARD, president of the International Typographical union and secretary of the C. I. O., died in his sleep at Colorado Springs, Colo. He was fifty-eight years old. Howard was defeated for re-election in a referendum last May by C. M. Baker, of San Francisco and would have gone out of office September 1.

First 'Death Clause' Case

ACTING under the utility holding company act, the federal securities commission began its first action to simplify a major utility holding company system.

Chairman William O. Douglas announced that a hearing would be held in Washington August 8 to determine what steps the \$300,000,000 Utilities Power & Light corporation should take to limit operations "to a single integrated public utility system."

The commission will consider whether the company should be required to rid itself of interest in "any or all" of its 45 subsidiaries. Douglas said the commission's action was being taken under section 11B of the holding company act—the so-called "death sentence" section.

Utilities Power & Light, with headquarters in Chicago, has subsidiaries in mid-western and north-eastern states. The company is being reorganized under section 77-B of the bankruptcy act.

For Romantic Midsummer Nights

By CHERIE NICHOLAS

BEGUILING, yes, beguiling is the word that best describes the romantic formal designed for dancing these lovely midsummer nights. Yards and yards around do these summer idylls of billowy tulle and nets, chiffons and laces measure and bodices are so quaintly picturesque it would seem as if they were ladies of the past come to life, for the styling is quite like we see in prints and portrait paintings of ladies in the days when "knighthood was in flower" and the very air breathed romance.

Perhaps the biggest news out of Paris at present is in regard to the high fashion of combining Chantilly lace with other fabrics. Typical of the best couture trends is the charming dress of sheerest marquisette pictured in the foreground of the accompanying illustration. Its deep bands and bordering of matching Chantilly of most exquisite type are applied in latest approved manner. Most gowns have a complementary bolero this summer and this very beautiful model is no exception to the rule. The bolero is of lace with short puffed sleeves which are applied with lace as in the skirt. Color of this adorable creation? It is carried out in a brilliant turquoise blue.

That pastel and bright-hued laces combined with sheers identical in color are a foremost mode there is no doubt, but there is also a tremendous, vogue for the frock of diaphanous white that is lavished with black Chantilly appliques, insets and borderings. The white sheer frock worn with a black lace jacket or bolero is a leading fashion. Likewise the black chiffon or marquisette frock or sheerest of sheer black net is frequently topped with a white lace jacket. Charming also is the combination of pink lace with black lace. A high built skirt with wide corselet effect of

the black lace, that has a bodice top of delicately sheer pink lace cut with extremely low décolletage over which is worn a bolero of matching pink lace, makes a most gracious gown. It is practical to provide also a black lace bolero for less formal occasions.

In this season of flowing skirts and glamorous lines for evening dresses the gown shown to the left of lace and net combined fits right into the picture. It comes in delectable shades using cable net for the full skirt and an Alencon-type lace in matching color for the long bodice. Below-the-hip jacket effects on this order of lace are the rage. If you have a sleeveless chiffon dress or net and wish to give it a new look buy ready-made or have made a lace jacket to wear with it. These often button primly up the front with buttons covered with self-lace.

Maybe you are an enthusiast in regard to gay prints. If you should be possessed also with an awareness of the importance of simple wash fabrics for dancing and dining, you will be simply charmed with the quaint new flowered muslins brought out this summer. They are the sort that will stay crisp and fresh after every washing—never need a bit of starch no matter how often you whisk them through soap and water. We are picturing a dress made of just such flowered muslin as described. It is a type frock that will make you look just "too sweet for words" and you do not have to be endowed with a millionaire allowance to own it. A flowered muslin such as this that will not shrink, having been scientifically pre-shrunk and guaranteed to that effect, is new. Note its charming neck and puff-sleeve styling. Its fitted bodice is cut to give you that "long" look that will mark you as definitely in the mode this season.

SUSPENDER DRESS

By CHERIE NICHOLAS

There's news for the sub-deb in that the suspender dress is regarded as smart fashion this season. It is proving a favorite at seashore and for town wear. The print silk suspender pleated skirt with monotone blouse is an especially outstanding type. The model pictured is of a neat print silk in gold and lighter yellowish tones. A peacock blue silk shirt is worn with the skirt shown. Note that the skirt suspenders are slit at the shoulders and the pleated skirt has a wide band. Other models feature suspenders that are peasant embroidered.

Oddities for Summer
Pumpkin seeds and gilded snail shells are used for beach jewelry.

DRAPED TECHNIQUE USED IN NEW GOWNS

By CHERIE NICHOLAS

Most significant is the sentiment expressed in employing a draped technique in fashioning the latest gowns. The material that yields most admirably to this treatment is the very smart rayon jersey. Wonderfully slenderizing are these draped effects and needless to say the fashion is making widespread appeal. Often the draping is aided and abetted with intricate shirring in clusters that tend to produce form-fitting lines.

The favorite for day wear is the black sleek jersey or satin that is draped to perfection. For evening wear no more beautiful gown can be conceived than a snow white draped jersey classic.

Candle-Wicked Clothes for Beach and Sports Doings

Quite new this season are the play clothes fashioned of candle-wicked unbleached muslin. The opportunity for designful decoration is vast. The grand part about the new candle-wicked muslin play outfits is that they wash out so easily, need no ironing and taking it from every viewpoint are about as practical a dress as can be suggested for beach and sports wear.

Mesh Oxford Shoes Offer

Maximum of Cool Comfort

A striking summer shoe which avoids the commonplace features of open toe and heel but offers a maximum of cool comfort is a mesh oxford. The mesh effect covers the entire shoe except for a strip at the instep and a wide binding. You can get this unusual model in white, beige, black or navy but its original design isn't to be picked up for a paltry sum.

Handbags Are Larger
Handbags are large and of soft dressmaker type.

CHAPTER XIII—Continued

"Morgan Norris killed Buck Conrad and freed Lou."
"Four besides himself. Others will be here after a while."
He flung another question at her, his voice harsh and swift. Nothing in manner or speech betrayed the swift awareness of her, passionate and fierce, that sent a heat running through his strong body.

"Anybody seen Clint Duke?" he asked.
"Anybody seen Clint Duke?" he asked.
"Anybody seen Clint Duke?" he asked.

"Chiswick's warriors are in town. They've done killed Duke and now they're in this, fellow, and don't you forget it."
Lou protested, in vain. Reluctantly he dressed and joined the other.

was in a sullen rage, but he had no guess that an explosion was imminent.
"Listen, Morg. Don't get excited. Listen to me." Howard made a motion to raise himself from the seat. He did not get halfway up.

"Rats leave a sinking ship, don't they?"

"I wasn't there. I left him alone after he was wounded."
"None," she denied. "It isn't true."
"I thought I had to go, to save us. Before I got back they had him."
She moved closer, filled with pity for him. "He would understand—if he were alive," she said gently.

where all these warriors came from.
"I aim to find that out right damn now," Norris said savagely. "I'll give you my guess. That double-crossing son-of-a-gun Sperm Howard threw down on us and sent word to Chiswick and his friends to come collect us. The rat figures we're sunk and he's trying to suck up to the law to save his own hide. When I see him..."

Morg Norris was a marked man as he walked to the bar. The talk suspended, and all eyes rested on him. He was the fighting spearhead of the lawless forces, just as Sperm Howard was the directing brain. Men watched him, to get a clue to future action. They meant to play safe. If the outlaws were going to win, they wanted to be with them at the finish. But if law was coming into the mesquite, if the day of the killer and the thief was at an end, they wanted to make overtures to Chiswick, or, in case they had gone too far for that, to slap a saddle on a bronc and leave swiftly for parts unknown.

Norris ordered a drink and asked curly where Sperm Howard was. The bartender Pete nodded a head toward the office.
"Where are cases, Morg?" someone asked with what indifference he could assume.

CHAPTER XIV
The barking of Ransom's dog upset the plans of Morgan Norris for a surprise. He had forgotten about Laddie, though everybody in Tail Holt knew the great affection of the blacksmith and the collie for each other. Since the loud and angry protest of Laddie at his presence annoyed him, Norris followed his impulse and killed the animal.

"I'll go with you," Mile High said hurriedly.
Norris swung round on him, standing on the balls of his feet, angry eyes glaring through slitted lids. "By God, you won't."
Mile High looked at him for a long moment, then gave way with a shrug. There was no doing anything with Norris when he was in a rage. Clearly he was working himself up into one now. The issue was not important enough to justify a quarrel. Trust Sperm Howard to talk some sense into his head. The old fox would know how to handle Morg.

Without waiting for an answer he turned his back on them and walked into the office, closing the door behind him. In the room were three men, Sherman Howard, Curt Dubbs, and a man named Yorky who usually hovered close to the stout man. It was generally understood he was a guard.

Jeff slipped around the corner of the Presnal boarding-house to the road. Nobody was in sight within fifty yards, but as he looked he heard the drumming of horses' hoofs crossing the bridge at the end of town. He drew back into the shadow of the building to let the riders pass. Before they reached him he saw the glint of moonlight on the barrels of rifles.

"Find cover, boys," Norris ordered. "We don't want to get killed while we're smoking these birds out."
He could have saved his breath. The others were already on their way to get out of sight.
Norris sent two men to make a wide circle and get to the rear of the cabin. "If they try to make a break, crack at them. We'll be there on the jump."

Chemical Industry Is Putting Luster in Textiles by Using Lobster Shells
Gourmets who have been troubled about what to do with empty lobster shells will be pleased to know that the chemical industry is finding uses for the material. The horny armor of lobsters and other crustaceans has been found to be a starting material for the manufacture of chemicals which give a soft, lustrous finish to textiles, reports a writer in the Chicago Tribune.

Black Ducks Are Wise
Black ducks know how to avoid enemies. Their nests, well camouflaged with weeds and hidden in swamps or brush, can be found only by accident. Parent ducks keep their young huddled close on reedy swamps, rarely venture on open water. They fly at night, feed generally at dawn and dusk. When danger nears, they fly to the middle of a river or lake, or leave the vicinity entirely. The black duck is thus seldom brought down by gunners.

GREAT BOOKS
Dumas' Story Formed Basis For 'Traviata'

By ELIZABETH C. JAMES
ONE has grown used to seeing characters from favorite books on the screen. There is interest also in meeting again the old books, just as their authors wrote them long before the cinema era. Among famous love stories recently brought to the screen is that of Camille, the lady created by Alexander Dumas in his book, 'The Lady of the Camellias.'

Elizabeth C. James

You recall that Dumas opened his romantic novel by relating how he himself had gone to the sale of the personal possessions of Marguerite Gautier, a beautiful courtesan of Paris. He bought the book, Manon, which had been inscribed by one Armand Duval, whom he guessed to be one of her lovers.

VERSATILE DUMAS
Alexander Dumas, fils, was the natural son of the noted novelist and a seamstress. The mother brought up her son carefully and early he attained a wide and cultured education. Taunts from his playmates shadowed his childhood with unhappiness.

sonable young man could hardly talk for weeping. He wanted to buy back the book, Manon.
After much weeping, Duval told the story of the Lady of the Camellias.
Marguerite Gautier, outstanding among the lovely women in Paris, had as her favorite flower the camellias, which she wore the year round in preference to all other flowers. From the time that Armand first saw her, his life was not the same. When he obtained an introduction to her, he was so overcome that he made a very silly impression and for two years he made no effort to see her again. At one time she was ill for two months, and he went daily to inquire about her, never leaving his name.

Marguerite Disappears.
ate in the evening when Armand returned to the country, he found the house dark. Frantic, he found that Marguerite had gone. A letter stated that their relationship had been lovely, but it could not last. Armand was wild. He would show her! Back in Paris he went everywhere that Marguerite went, he gambled and lived recklessly, taking every occasion to insult her. Marguerite fled from Paris.
In her exile, the Lady of the Camellias knew that she would soon die. Longing for Armand she wrote him each day, but did not send the letters. She gave instructions that when she was dead these letters with one other should be sent to Armand.

On returning to Paris, Armand learned of her death and received her letters with one from his father to Marguerite in which Armand's father had implored Marguerite in the name of her love to give up his son so that the family name and future would be untarnished. The importunate letter had used every means to win her to the idea that she would be doing a heroic deed in the name of love.
The plot of Verdi's opera, 'La Traviata,' comes from this book. © Bell Syndicate—WNU Service

All Is Fair Even If It Is a Dog's Life

He was a pork butcher, and he and his sausages had done very well indeed in the town—until a rival came along and, by undercutting and pushful publicity, started to take all the trade.
Butcher No. 1 was sitting in his shop musing on what the inside of a poorhouse would look like, when a bright idea suddenly struck him.
Changing his clothes as quickly as he could, he hurried to his competitor's shop and, elbowing his way through the crowd of customers, planted a dead dog on the counter.

"Ere y're, Jack," he exclaimed in a loud voice. "That makes the dozen."

Send for This Free Bulletin on KEEPING COOL with food

YOUR family will be far more comfortable during the next few weeks if you send for "Keeping Cool with Food," offered free by C. Houston Goudais. It lists "cooling" and "heating" foods, outlines the principles of planning a healthful summer diet, and is complete with menu suggestions. Just put your name and address on a post card, ask for "Keeping Cool with Food," and send it to C. Houston Goudais, 6 East 39th Street, New York City.

How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 38 to 43), who fears she'll lose her appeal to men, who worries about her flabby, free of her, dizzy spells, upset nerves and moody spells.
Get more fresh air, 8 hrs. sleep and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound, especially for women. It helps Nature build up physical resistance, thus helps give more vitality to enjoy life and aches and pains, cures nervous and disturbing symptoms that often accompany change of life. WELL WORTH TRYING!
