— In —

"KEEPING COMPANY"

A romantic comedy of newlyweds and their trials and tribulations with little sister always around and hubby's ex-girl friend too.

— ALSO —

"More About Noctadamus" and "Memory Tricks"

BINGHAM BREVITIES

Mrs. May Turney and son Bob are visiting her mother, Mrs. Dick Williams.

Frank Hefner and Dick Williams made a business trip to Socorro Wednesday.

Pat Withers and family visited in the Hefner home Monday.

Miss Genevieve Moody of Socorro is visiting the Dick Williams family this week.

Guy Dean of Lovington is spending several days with his brother, Harold Dean.

Mrs. Lorena Ablord, who visited her mother, Mrs. T.A. Jenkins

State Fair Commission

Albuquerque, N. M., July 18—The New Mexico State Fair commission has announced completion of a contract with Lynn Bentler, Elk City, Oklahoma, widely known rodeo impresario; for six night rodeo performances to be staged in a brilliantly lighted arena during the coming State Fair September 21 through 28. Bentler, in addition to his own stock of rough broncs and brahma calves and bulls, is now assembling specially selected stock and has secured a number of nationally known trick riders and ropers, and professional rodeo performers who have been featured in Madison Square Garden and at other major rodeos.

The rodeo, which will be the principal night attraction from Monday through Saturday of fair week, is open to the world. New Mexico amateurs may enter in any of the events and special events are being planned for New Mexico riders and ropers who are not in the professional class but who are members of the now numerous roping and riding clubs throughout the state. Only riders not in good standing with the Rodeo Association are barred. Prize money mounts into four fat figures and is sufficient in all major events to attract the country's best rodeo arena talent.

Popularity of the rodeo in New Mexico was evidenced on the Fourth of July when fourteen major rodeos were held in as many points in the state. Others to come include the Carlsbad rodeo, August 23, 24, 25. The State Fair rodeo, Impresario Bentler promises, will be "the daddy of them all", and will be "the biggest, fastest rodeo ever presented in New Mexico."

Notice

The Farm Security Administration office will be open only on Mondays and Saturday mornings from July 15, 1941 to August 1, 1941.

Mr. and Mrs. Manuel Marquez were Alamogordo visitors Wednesday.

For several days returned to her home in Dallas, Monday.

There will be an old time dance at the John Harless ranch, July 29th. Everyone is invited.

Mr. and Mrs. Jenkins made a business trip to Carrizozo, Tuesday.

Mr. and Mrs. Harold Dean went to Lovington Tuesday returning Wednesday.

Alvin Griffin, J. W. Hefner and Nalan Hefner have returned to El Paso after spending a few days with Mr. Frank Hefner.

THIS WEEK IN DEFENSE

President Roosevelt informed Congress he had ordered a Navy force to Iceland to "forestall any pincer movement . . . by Germany against the Western Hemisphere." He said German occupation of that country would threaten the North American continent, shipping in the North Atlantic, and the flow of munitions to Britain. The President said the Navy had been ordered to take "all necessary steps" to insure safety of communications "in the approaches between Iceland and the United States, as well as on the seas between the U. S. and all other strategic outposts."

The President later told his press conference that whether Iceland lies outside the Western Hemisphere is an academic question. He said there are points outside the commonly accepted Hemisphere limits which are of importance to U. S. defense, and that in occupying Iceland he acted to forestall a hostile move which strategists considered logical or likely.

Selective Service
Selective Service Headquarters announced July 1 will be given draft numbers so they will be called in proportion to previous registrants rather than ahead of or after older men. Order numbers will be determined by national lottery on July 17.

Headquarters advised local boards to defer men who have volunteered for civilian or military duty with Canadian or British forces. The House passed legislation to permit deferment of all men who were 28 on July 1.

Allied Education
The President allocated \$14,000,000 of WPA funds for a program to educate 1,000,000 aliens in the duties and responsibilities of citizenship. More than 11,000 teachers on WPA rolls will conduct classes for aliens who wish to become citizens.

Registered Civilian Organizations
WPA announced that more than 200,000 national, State and local civilian organizations with 50,000,000 members will be catalogued within the next 90 days to determine the parts the organizations and individuals can play in home defense so the Office of Civilian Defense can find qualified persons for new programs. All except purely social clubs will be indexed.

Civilian Supply
OPM conservation officials announced that "our purchases, our habits, our daily lives, perhaps even our styles, will be controlled by the requirements of national defense." Some of the changes facing the public, according to OPM: No corsets in bottle tops; beverages in bottles rather than cans; silk used in parachutes will make silk stockings more scarce; women will have fewer permanent waves, cosmetics, and facial creams; it will not be patriotic to buy two automobiles; farmers will choose from 200 instead of 1,400 types of plows; chrome, copper, aluminum and woods such as mahogany will probably not be available to the furniture industry, and many designs will be eliminated.

Buy Coal Now
The Federal Bituminous Coal Consumers' Council appealed to the nation to buy coal now so it can be moved from the mines before growing defense production burdens the country's transportation system. There is an ample supply of the coal, the Council said, but by September 15 shortages in some places may develop unless coal is stored for the winter before then.

Prices
Price Administrator Henderson announced that price ceilings on rubber tubes and other rubber products will be deferred for several months to allow the industry time to work out price problems voluntarily. He announced, however, that ceiling prices will be placed within a few days on cottonseed oil and certain grades of West coast lumber used by the Government. Mr. Henderson also stated that recent action to check rises in hide prices does not mean the OPAC expects to freeze livestock or meat prices.

Army
The President asked Congress for

CC Second Annual Convention

El Paso, Texas, July 18—The second Annual Convention of the Associated Southwestern Chambers of Commerce will be held at Silver City, New Mexico, August 10-11-12.

This organization, which embraces the territory between Midland, Texas and Tucson, Arizona; Portales, N. M. and Chihuahua City, Mex., was organized last August at Ruidoso, N. M. The purpose of the organization is to promote tourist travel throughout the entire area, to persuade more people to visit this section and stay longer.

The communities of the southwest have realized that it is impossible for each town to carry on an extensive advertising program, but by pooling their efforts and resources it is altogether possible to tell of the many places of interest in this section, and also to have exhibits at the big travel shows held in the larger cities each year.

Dudley Yard of Pecos, Texas, is the president of the Associated Southwestern Chambers of Commerce. In regard to the coming convention at Silver City, Mr. Yard stated: "This meeting of representatives from over the southwest will be the largest of its kind ever staged in this section. We have arranged a splendid program which will feature addresses by outstanding speakers from all over the nation. We want every citizen of the southwest who is interested in tourist travel to attend."

Among the speakers who will appear on the program will be Minor R. Tilletson, Regional Director, National Park Service; Fred Wemple, Midland, Texas; Governor Alfredo Chavez, Governor of Chihuahua; J. H. Thielig, Manager, Tourist Promotion, American Air Lines, New York, N. Y.; R. M. Birdseye, Gen. Advertising Manager Santa Fe Ry. Chicago, Ill.; and many other speakers of national renown.

Lloyd P. Bloodworth, formerly executive secretary of the El Paso Chamber of Commerce has been employed by the association as Executive secretary and is giving his entire time to the work. Mr. Bloodworth is one of the best known chamber of commerce executives in the southwest. He speaks each Thursday morning at 7:45 over radio station KPOD from El Paso. Mr. Bloodworth said, "At last the southwest is realizing the value of the tourist business and the towns are catching step with each other in putting over a program that is destined to bring additional thousands of tourists this way, and add millions of dollars to our income. We are going to have a great time at Silver City in August."

The headquarters of the ASCC is in the Chamber of Commerce Building in El Paso and reservations for hotel accommodations should be made directly to Mr. Bloodworth.

The motto of the association is "ONE FOR ALL, AND ALL FOR ONE."

An additional \$4,700,000,000 for the Army, most of it for purchases of heavy guns, \$400,000,000 for clothing and other equipment, \$200,000,000 for the Air Force and \$350,000,000 for the Signal Corps, and \$1,000,000 for horses.

The War Department announced formation of a completely motorized, and heavily armed experimental division, strengthened with tanks, with 50 percent more fire power than a present armored division although with 14,000 instead of 15,550 men. The Department also announced that to bolster anti-tank defenses, anti-tank specialists will be assigned to every Army large unit to work out methods of defeating armored force attacks.

Air
OPM announced that during June 1,476 military planes were delivered to the Army, Navy, and Great Britain . . . 142 more than the previous month and a new record. The War Department announced contracts of nearly \$200,000,000 for new airplane manufacturing facilities and ordered all Air Corps Reserve Officers except those in key civilian positions to active duty by August 1. The Army Air Force established its own Air Staff to form Air Force plans and decide on equipment and other mat-

Photographer Builds Tower To Shoot Tree

In going out to photograph the world's hugest living thing, take along a forty-foot tower! That's just what ingenious Mike Roberts, noted scenic photographer, Oakland, California, did in getting a close-up shot of the General Sherman tree in Sequoia National Park.

The photograph, obtained by such a method, now takes an honored position in the Standard Oil Company of Texas 1941 collection of scenic views are now being distributed by Standard Service men to the public.

"Getting an undistorted and all-inclusive close-up photograph of this ageless Sequoia Gigantea at first seemed an impossibility," said Roberts. "Then I conceived the idea of trucking in and setting up a sectional steel scaffolding, forty feet high.

"Even the widest angled lenses obtainable would not take in the tremendous size, 274 feet high and 102 feet in girth. I punched a pin hole in a piece of black paper and clamped it in front of the shutter. With the sun shining fully on the tree, I got the exposure."

To obtain four prints of Hawaii for the Standard Oil collection, Roberts traveled 7,000 miles by boat, plane and car, and shot 500 photographs. Ever resourceful, he brought a truck load of movie flood lamps to New Mexico to make the first successful photographs ever made of Carlsbad Caverns in color.

The natural color photographs in the Standard Oil Company collection were assembled from 7,000 negatives taken by clever amateur and renowned professional photographers. They are being distributed by Standard Service men throughout the West on a two-weeks rotating plan in ninety-one zones. This means that a motorist, even on a short trip, may procure an assortment of the pictures, and a sizable collection before the summer ends. The pictures are mounted, ready for framing.

without the approval of the General Staff as heretofore.

Navy
The President asked Congress for \$1,625,000,000 in appropriations and contract authority for the Navy for additional ordnance, yard equipment, planes, and repairs, including \$400,000,000 for defense installations on naval and private ships . . . anti-mine equipment, armor, etc., but the President emphasized, not for guns to arm merchant ships.

Rear Admiral Robinson, Chief of the Navy's Bureau of Ships, announced the Navy shipbuilding program is proceeding so rapidly that "every single combat ship is ahead of schedule." He said the problem of labor supply has been solved and the rate of expansion is limited chiefly by the ability to obtain materials.

Ships
The President asked Congress for \$1,628,000,000 for the U. S. Maritime Commission, including \$238,000,000 in cash for new ships and \$1,200,000,000 in contract authorizations. The U. S. Maritime Commission announced a saving of more than 500,000 tons of steel in the building of 705 commission-designed ships by construction methods not known in the first World War. The Commission said the greatest single weight saving measure was the introduction of welding to replace riveting so that entire ships are now built without a single rivet.

Mr. and Mrs. Flavio Chavez of Tularosa visited this week at the home of Mr. Porfirio Chavez.

- S-49 Leonard Leon Love, Ruidoso, N. M.
- S-50 Ernest Sultemeler, Corona, N. M.
- S-51 Fred Homer English, Carrizozo, N. M.
- S-52 George Robert Armstrong, Corona, N. M.
- S-53 Pablo Chavez Hernandez, Hondo, N. M.
- S-54 Andrew Maea Richardson, Tinnie, N. M., Arabela Rte.
- S-55 Manuel Aragon, Ancho, N.M.

Mr. and Mrs. J. V. Hobbie have sold their residence next door to the Sproles home to Mrs. Ruby Ward, who will move there August 1st. Mr. and Mrs. Hobbie will move August 1st to Ruidoso where they have a new home under construction.

Born - Wednesday, July 16, 1941, to Mr. and Mrs. Robert E. Hemphill, a 7 lb boy. He is named Robert Edward.

Buy U. S. Defense Bonds.

KNOW YOUR BANK

How Can I Help America's DEFENSE PROGRAM?

One way you can help (there are probably many others) is financially. Total defense requires huge government expenditures, part of these funds are being raised by borrowing. You can do your part by purchasing U. S. Defense Bonds, which are available at this bank in a variety of denominations, ranging from twenty-five to one thousand dollars.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—A few years ago, Anita Loos' maid used to deliver to her every day a dash of gopher dust from Harlem. We haven't heard whether she still has her net, \$800,000 goes on, but the charm seems to be still working. All goes well as "Blossoms in the Dust" gets warm, almost fulsome from the critics. Miss Loos did the screen play for Ralph Wheelwright's story. It taps deep founts of tears and ranges far from Miss Loos' "Gentlemen Prefer Blondes," and its Lorelei Lee, the alluring and unabashed gold digger of 1925. It's one of those "where are they now?" stories, with Miss Loos sitting pretty, literally and figuratively, as a deft, swift, workmanlike story adapter, scenarist and remodeler in Hollywood—one of the best.

The pint-size girl with bangs—weight 87 pounds, height four feet, eleven inches—was riding on the train from California to New York in 1925, considerably bored. She started writing up this gold digger Lorelei, with a soft-stub pencil, in big, round letters. The manuscript strung along clear through Kansas and Indiana and on to New York, and was almost as big as Miss Loos, what with those big grotesque letters, when she landed here.

It brought her something over \$600,000. It was translated into virtually every language except Eskimo and pigeon-talk, and in England its sales passed those of any other American book. She later wrote "But Gentlemen Marry Brunettes."

Her talent for humor may have been inherited from her father, a country newspaper publisher and humorist of the Bill Nye school, of Sloatsburg, Calif., where Miss Loos was born. She was a shy, quaint little thing, hanging around the newspaper shop, helping polish up a gag or feed the fatted. When she was 14, she sent a story to the New York Morning Telegraph. They printed it. A year later David Griffith sent for a girl who had sent a scenario which had set his assistants to whooping joyously.

"What can I do for you, my child?" he asked when the tiny girl with bangs and pigtail came in. The Loos girl showed him her summons to Hollywood. There she was and in the years between she had become a pretty good actress, appearing in San Francisco and other California cities.

JUST a year ago, Roger L. Putnam, go-getting mayor of Springfield, Mass., was much in the news with the Putnam plan to break bottlenecks in industry. He Finance, Rapidly caught the nation's attention by his success in achieving co-operation among the city, industry and labor, the most important detail of his formula being the training of labor by the city, to fit specific needs. He's in the news as Springfield's defense director with some snappy suggestions about the swift and effective integration of civilians and officials, and private and public facilities. His successful battles with two floods and a hurricane give weight to his words.

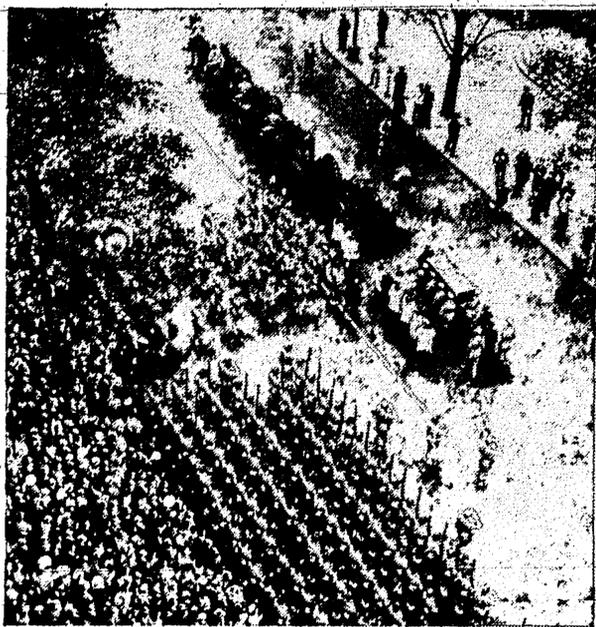

He's Harvard, 1915, did a P.G. stretch at M.I.T., worked at engineering and was in the navy in the World war. In the navy he learned to crochet cord belts, an art which he still practices, and Putnam-made belts are in great demand among his friends. He is the father of three boys and three girls, 48 years old, stocky in build, but quick-moving both in person and speech. He is president of the Package Machinery Co.

More and more management, as above, is coming to the top, as against finance. Note James Burnham's new book, "The Managerial Revolution,"—malign over there, still benign over here.

A WIZARD in electrometallurgy is Dr. Francis C. Frary, who explains the exact uses to which aluminum pots and pans may be put in expediting defense. Since 1918 he has been director of the research laboratories of the Aluminum Company of America at Keystone, Pa. His work made possible over 2,000 uses of aluminum.

He was schooled at the University of Minnesota and the University of Berlin. He then taught for seven years and became an industrial research worker in 1918.

Last Honors for Paderewski

A view of the funeral of Ignace Jan Paderewski, renowned Polish patriot and pianist. The casket, draped with the national flag of the Polish Republic, was borne on a gun carriage flag by an honor guard of the U. S. army. Until it can be taken to Poland, the body will rest in Arlington cemetery.

Mexico Makes Land Expropriation Payment

Mexican ambassador Dr. Don Francisco Najera (right) hands acting Secretary of State Sumner Welles the Mexican government's check for \$1,000,000, in payment of the amount due on account of the claims of American citizens whose lands in Mexico have been expropriated since August 30, 1927, under the Mexican agrarian program.

New Anti-Aircraft Guns for U. S.

The army officially receives, at Akron, Ohio, the first two 48-millimeter anti-aircraft guns ever made in the U. S. Photo shows, L. to R., Harvey Firestone Jr., Congressman Dow W. Harter (Akron), Brig. Gen. Charles T. Harris, and J. W. Thomas, president of Firestone. (Man at extreme right unidentified). The guns were completed in Akron.

World's Record Cracked

Grover Klemmer, defending champion of the Olympic club of San Francisco, wins the heat of the senior 400-meter dash in the world's record-breaking time of 56 seconds Sat at the National A. A. U. track championships in Philadelphia by beating out Hubert Keras of the Southern California A. A. The old record of 56.1 was set by Archie Williams in 1924.

Leaves for Duty

Rep. Hamilton Fish of New York, leading house isolationist, and a colonel in the Specialist Reserve, is pictured in his uniform in his office in Washington shortly before leaving for a month's active duty at Fort Bragg, N. C.

New RFC Chairman

Charles B. Henderson, 68, of Elko, Nev., appointed chairman of \$10,000,000 Reconstruction Finance Corporation, to succeed Emil Schram, now head of New York Stock exchange.

Enemy, Beware

Private Herbert Davis of the U. S. engineers attacks a pillbox with new model flame thrower at Fort Belvoir, Va. This model is portable and can be used by soldiers for attacks on fortifications or defense against enemy tanks.

Debut

Anne Bullitt, daughter of William C. Bullitt, former ambassador to France, shows in the debut gown which she wore at a coming out party at Graysford Valley, Pa.

A Community Planting Project

Any public-spirited local organization, desiring to attract tourists, could hardly do a more effective thing than to encourage the planting of trees and flowering shrubs along its roadsides. Both the comfort and the appearance of country roads is greatly improved by suitable roadside planting and certainly a project of this sort can be done more economically and more effectively by community effort than by individual effort. This article, then, is in the nature of a call to local chambers of commerce, women's clubs, park commissions, school and church organizations to see what may be done in any given community to improve and beautify the roadsides. In addition to its undoubted commercial value, a beautiful roadway helps to keep the younger generation from drifting to some nearby city because it gives them a source of pride in their own environs; it makes local travel—from country to town and back again—immeasurably pleasanter; it keeps down an unsightly and troublesome growth of weeds by every roadside; and it offers shelter and nesting places for valuable birds.

PLANNING FOR SUCH PLANTINGS

The beautification of roadsides is necessarily a long-term project and, since whatever is done will be relatively permanent, it is wise to make definite plans in order to secure really desirable results. If the work is done in co-operation with a state forestry division, presumably it will be carefully and intelligently planned; in any event, the following considerations must be kept in mind: The plantings must not hide the view of approaching traffic; they must be such as can be easily and inexpensively maintained; they must be of such a character as not to harbor noxious weeds, insects and plant diseases.

In sections of heavy snowfall, the plantings can easily be arranged to serve as snow-barriers, thus keeping the roads comparatively free of snow, and to form windbreaks, thus making winter travel much pleasanter.

HOW TO PLANT

The nature of the countryside will influence the mode of planting. In a flat country where the roads are straight it is well to plant trees in rows, regularly spaced in the row, whereas in a rough, rolling country, informal planting is most appropriate and largely inevitable.

USE OF SHRUBS

Amidst informal tree plantings, shrubs, woody vines and even herbaceous perennials may be used to excellent advantage. In this connection, a recent government bulletin says: "The open spaces between shrubbery groups may be covered with grasses or dwarf herbaceous growths with more or less possibility of showy flowers."

Wherever the ground has been made bare by the road work some care should be exercised to cover it with vegetation not likely to be injurious to the adjoining farm regions, otherwise it may become a breeding ground for troublesome plants.

Where trees have been set in a formal planting, tall-growing trees may be interspersed with lower-growing ones, though in line with them, to avoid monotony. For such a purpose the flowering dogwood may be used to advantage in some sections, or specimen shrubs such as the high-brush cranberry, forsythia, crapemyrtle, blueberries, oleanders, in other sections, depending of course upon climate and soil.

Usually it is advisable to use native plants, or such as have been tried and proved under local conditions.

CARE AND PROTECTION

It must not be assumed that all that is necessary in order to have beautiful roadsides is to plant a few trees and shrubs and let nature do the rest. Such plantings require care: They must be cultivated for several years to discourage the growth of unsightly grass or weeds; they may need an occasional pruning; they may require spraying. Such care with its attendant expense, must be provided for.

Neither the labor nor the cost of roadside planting is excessive; nothing could more effectively express a commendable local pride than will such an improvement project; and few things will result in greater all-round value to the community.

For further information send five cents to Superintendent of Documents, Washington, D. C., asking for Farmers' Bulletin No. 1481, or five cents, asking for Farmers' Bulletin No. 1482, or 10 cents for both.

SOMETHING ABOUT HAWKS

Although the hawks are distrusted by the farmers and are generally hunted without mercy, it should be remembered that they feed—not only upon poultry, which may be with them only an occasional article of diet—but very largely upon field mice, snakes and insects. They are thus, in most cases, of much greater value to farmer and gardener than they are a menace.

The hawks include falcons, buzzards, and kites. They were formerly trained for use in hunting.

FIRST AID TO AILING HOUSE

by Roger B. Whitman

(© Roger B. Whitman—WNU Service.)

Moldy Window Frames

QUESTION: In my new house the varnished wood of the windows has started to turn dark, and mold or mildew has formed on them. How can this be prevented? In repainting the windows, should all varnish and mold first be removed? How?

ANSWER: You will probably find that the water that causes the mildew comes in through cracks around the outside putty. On new work putty is very likely to separate from the wood frame in the course of hardening. Your first move should be to close these cracks which can be done with a coat of paint. Take off the inside varnish with varnish remover; the mold should go with it. If it does not, scrub with steel wool wet with a disinfectant. Follow by rinsing with clear water, and allow to dry thoroughly before revarnishing.

Cold Air Intake

QUESTION: We are confronted with the problem of how large a cold air intake our hot air furnace requires in order to give the maximum amount of heat throughout the house. There is a screened opening on the right side of the furnace, but since we were not getting enough heat, we decided to have another opening made on the other side of the furnace. There is no noticeable improvement. Can you make any suggestions?

ANSWER: Air taken from outside the building should have a cold air duct area not less than 60 per cent of the total area of the warm air leaders. If the cold air supply is obtained by recirculation from the building, the area of the cold air return pipe must be at least equal to the sum of all the warm air leader pipes. It would be advisable to have a reliable heating man check the heating capacity of the furnace, the heat supply ducts and the outlets.

Rough Cement Floor

QUESTION: Is there some simple, inexpensive way to resurface my rough cement floor in the cellar? The finish is somewhat like a sand-float plaster finish.

ANSWER: A floor grinding machine, of the type used by terrazzo floor contractors, can be used to smooth down the surface. Get an estimate on this method from your local terrazzo and tile man. A topping coat of portland cement could be laid over the present floor after properly preparing it for the new cement. The Portland Cement association will gladly send you a bulletin on this subject, on request. The New York office is at 347 Madison avenue; the Chicago office at 33 West Grand avenue.

Wooden Fruit Bowls

QUESTION: I have seen some fancy fruit bowls made of woodwork in some of the department stores. They have a high gloss finish. What material is used to finish the bowls in this way, and how is it done? I have some unfinished bowls that I should like to finish in this way.

ANSWER: Get a smooth surface on the wood by rubbing it with fine steel wool or very fine sandpaper. Wipe off the dust with benzene, being extremely careful of fire. Finish with two coats of a good quality quick-drying varnish. Pull the gloss of the first coat, when dry, by rubbing lightly with very fine sandpaper; wipe off the dust, then apply the finish coat.

Hardened Paint Brushes

QUESTION: Please advise the best method to restore paint brushes that were allowed to dry hard and have been unused for two years.

ANSWER: To remove hardened paint from a brush, soak in paint remover. Or, you can use any one of a number of brush cleaning compounds on sale at paint and hardware stores. Brushes in which paint has hardened will not be satisfactory for fine painting. The bristles usually lose elasticity and form.

Lining a Cabin

QUESTION: In finishing the inside of a summer cabin, I plan to attach panels and composition board directly to the studding. Would it be wise to put tar paper underneath?

ANSWER: Rather than tar paper I should prefer to use heavy roofing felt for it is not so brittle. This lining will make the walls more wind-proof and be a protector against moisture.

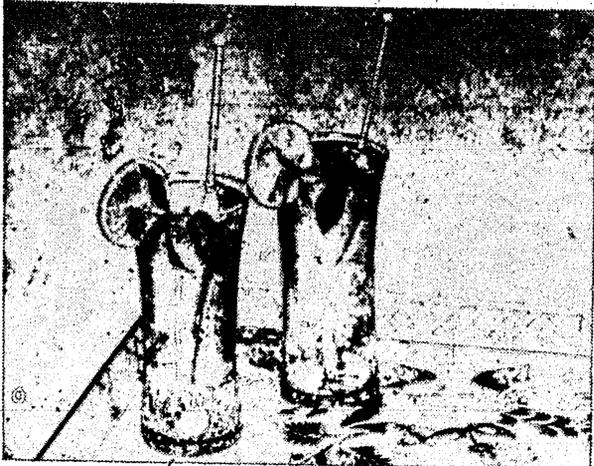

Brick Sun Porch

QUESTION: Inside our sun porch the walls are red brick, like the outside bricks of the house. I should like to paint the brick walls inside the porch in an ivory color. What kind of paint should I use?

ANSWER: Casein paint or a cement paint would be suitable for painting the brick. Be sure the surface is clean and free of grease.

News that's Hot

by Lynn Chambers

CRISPLY COOL ON A SUMMER DAY!
(See Recipes Below)

THIRST QUENCHER IDEAS

The thermometer's soaring and the summer sun's too hot, you say? Then you'll want a cool, gracious drink with tinkling ice to lift your wilted spirits.

Indeed the favorite pickup for a sultry day is nothing more than a simple drink of fruit juices, tea, or frothy milk with shimmering ice. The tartness of the fruit juices in these drinks will refresh and cool you, soothe your disposition long after you've sipped them. Besides they'll give vitamins and minerals to pep you up even more.

For a really quick cooling drink you might try some of the prepared fruit juice powders on the market. They can be mixed in a flash and give a very satisfying beverage. The children will like working with them, too, and won't muss the kitchen if they have this type of easy preparation to use.

Summer drinks can be especially attractive when served with those

fragrant sprigs of mint you have growing on the side of the house, strawberries from the patch, or long, lengthwise slices of lemon to bring out the delicate flavor of tea. Ice cubes with cherries, red berries, mint leaves, orange or lemon slices, or fruit juices all frozen in the cubes will make your thirst quenchers a joy to look at.

Tea must be made double strength when used with ice, so use 2 teaspoons for each cup of water. Measure 1 cup of freshly drawn water, bring to a boil. Pour over leaves, let steep 5 minutes, then strain into a pitcher. Cool, pour into glasses filled with ice, two-thirds full. Serve with slices of lemon.

You can do such delightful things with this combination of tea, oranges and mint, so here's a recipe which you might like to try. It's a company favorite!

Orange-Mint Julep

(Serves 10)
6 glasses of strong tea
2 cups sugar
1/2 cup water
1 orange rind grated
Juice of six oranges
Sprays of mint

Boil the sugar and water and grated orange rind for 5 minutes. Remove from fire, add crushed mint leaves and let cool. To the strained tea add orange juice, and pour into glasses which are half-filled with crushed ice, and sweeten to taste with the strained mint syrup. You'll like this garnished with mint sprays and floating orange slices.

For a really exhilarating drink that has nutritive value so vital to lift lagging spirits, here's eggs and milk combined with fruit and juices. It's so-o-o good and looks like a charm.

LYNN SAYS:

A snowy frost on the glass in which you serve your cooling summer drinks is very attractive and simple to make. All you do is dip the top of the glass before it is filled into slightly beaten egg white and then into granulated sugar. Allow to dry thoroughly before using.

If you'd like a true frost for the glass try a drink which is guaranteed to have one. Such are the old-fashioned "granits" which may be of any flavor you desire. The granit is a half-frozen drink which is put in the refrigerator or freezer until a light snow-frost appears, but leaves the drink still liquid enough to pour.

For a strawberry granit, mash a quart of berries and cover with 1 1/2 pounds of sugar, then set aside for several hours to let a syrup form. Drain and press through a sieve. Add 1 tablespoon of strawberry extract, then mix with 1 pint of water. Freeze until the top is snow-frosted and serve in long, thin glasses.

THIS WEEK'S MENU

Fruit Cup
Noodle Ring with Fried Chicken
Cream Gravy Hot Biscuits
Fresh Asparagus with Browned Butter and Crumb Sauce
Tossed Fresh Vegetable Salad
French Dressing
Iced Tea
Red Raspberry Fluff
*Recipe given.

Fruit Float

(Serves 2)
1 cup water
2 cups sugar
Juice of 2 lemons
Juice of 2 oranges
2 eggs
1/2 teaspoon salt
1/2 cup fresh raspberries or strawberries
Chipped ice
Boil the sugar and water for 5 minutes. Cool. Mix all the ingredients except the ice and beat thoroughly. Chill. When ready to serve, pour into glasses half filled with ice. Garnish with a few whole berries.

Fruit Swizzle

(Serves 8-10)
1 quart strong tea
1 quart ginger ale
Juice of 3 lemons
1 small bottle maracchino cherries
Juice of 3 oranges
2 cups pineapple juice
1 cup diced or crushed pineapple
Mix all the ingredients together, sweeten to taste and serve iced.

Here's an old-fashioned treat that always makes new friends. I can

still remember how nice the kitchen smelled when mother used to put it up, and then again how hospitable everyone thought she was when un-

expected guests came and she served this drink. It has a delightful color, and unusual flavor.

Current Syrup With Raspberries.
(Makes 3 quarts)
1 pint currant juice
2 pounds sugar
6 pounds currants
1 pound sour cherries
1 pound raspberries
1 1/2 pints water

Pick, wash, seed, and dry the currants carefully. Seed and stem the cherries, and the raspberries. Pound and mash them well and let stand in a cool place for 36 hours. Then strain through a bag. Cook the sugar and water until it will snap when tested in cold water. Then add the fruit syrups, let boil 5 minutes, remove from fire. Let it get cold and then put up in bottles.

Cinnamon Almond Float.
(Serves 6)
1/2 cup sugar
1/2 teaspoon ground cinnamon
1 quart cold milk
1 teaspoon almond extract
1/2 teaspoon vanilla
1 pint vanilla ice cream

Combine sugar and cinnamon; add milk and flavorings and stir until sugar is dissolved. Pour into tall glasses and top each with a generous spoonful of ice cream.

Coconut Flake Cookies.
(Makes 5 dozen)
1 1/2 cups sifted flour
3 teaspoons double-acting baking powder
1/2 teaspoon salt
3 cups corn flakes or bran flakes
1 cup butter or other shortening
1 cup granulated sugar
1/2 cup brown sugar, firmly packed
2 eggs, unbeaten
1 teaspoon vanilla
1 1/2 cups shredded coconut

Sift flour once, measure, add baking powder and salt, and sift again; add flakes. Cream butter, add sugar gradually, and cream together well. Add eggs, one at a time, beating thoroughly after each. Add vanilla. Add flour and flakes mixture, mixing well. Add coconut. Drop from teaspoon on ungreased baking sheet and bake in moderate oven (375 degrees F.) 12 to 15 minutes, or until done. For variation 1/2 cup chopped nuts may be added to mixture before baking.

For Summer Style Silhouettes Visit Your Corsetry Expert

By CHERIE NICHOLAS

THIS is a day and age that demands style-perfection throughout every detail of general make-up and apparel. One may be ever so glamorously groomed in matter of complexion, hair-do and fingertips, one's costume may be of fine fabric in colors delectable, but if one's figure is not expertly and scientifically brought under subjection into lines of smooth contour and grace via faultless foundation-garment technique, all is lost in matter of style-right and charming appearance.

Note how slim, oval and graciously satisfying the fashions pictured are to the eye. They demonstrate the efficacy of corset wizardry in giving the much-to-be-coveted smooth silhouette that modern fashion demands. In the foreground the "portrait of a lady" demonstrates how distinctive a smartly conservative graceful sheer print redingote costume looks when the wearer is nicely fitted in the correct foundation garment. In this instance the simple styling of the redingote with its accent of tiny white buttons down the front calls for a well-constructed corset in order to show to advantage the slender-waisted figure. Diminutive quill pens darting from tiny inkwells make the attractive white-print patterning on fine dark

sheer for the redingote with matching crepe for the under slip. Shirred heart-shaped pockets add interest to the flaring skirt.

Slim through the waist and hips, smartly bulky through the blouse and shoulder, the lumberjacket slacks costume shown is beautifully tailored in cool spun rayon for active summer wear. For a slim, chic line and comfortable action freedom, the fashion-wise vacationist will wear this trim costume over a sleek punty girldo correctly fitted to her special needs.

Fresh and cool for summer the patrician jacket suit pictured to the left uses fine printed sheer and crepe in a clear white scroll and a leaf patterning. A self-fabric cobby styled jabot at the bodice front gives subtle accent to this cheer-with-crepe frock, with its all-around pleated skirt. The season's important lingerie touch appears on the collar of the nipped-in jacket.

The influence of the new long-torso line is seen in the attractive spectator costume shown to the right in the group. Here a smartly striped one-piece frock is teamed with a trim short-sleeved jacket in solid white. The broad collar of the frock to worn over the jacket collar to heighten the ensemble effect. Worn over a well-fitting foundation garment, this figure-revealing costume has a slender trim line of grace and beauty.

(Released by Western Newspaper Union.)

Hat to Match

It is a treasureable little hat and dress of cunning pique, patterned with pink rosebuds that this darling little girl is wearing. The gay posy pique is just the thing for the making of this little sun suit. A matching bonnet completes the vision.

Middy Blouse Types

One of the reactions to the vogue for long-torso lines is the revival of the middy blouse. The latest types accent the lowered V-line neck. Middy sweaters are very smart worn with pleated skirts. White wash-fabric middies are also good style.

City Cottons Go 'Tops' In Summer Fashions

Ladies who "know their fashions" dress in gingham, seersucker, chambray, tissue-crinkle organdy, dark boucles and other smart "city cottons." It is a picture that fashion paints for summer, most refreshing and one that goes keen on chic and charm. For downright practicality the jacket suit tailored to a nicety of dark check crinkle seersucker, of plaid gingham or striped chambray takes first prize this summer. Women of discriminating tastes have yielded wholeheartedly to the new cotton vogue, a fact impressed on one throughout the summer style parade all along the highways and byways of fashion.

Sweaters for Evening Wear Are Very Popular

Evening sweaters continue to be a smart fashion. The latest arrival in formal sweaters reflects the bra influence in a most attractive way. It is knitted of pastel wool, comes just below the bust neckline where it ties with velvet ribbon drawn through a deep scalloped V-neckline. Sleeves are short and for an evening fantasy this is one of the prettiest sweaters imaginable.

Dye White Venice Lace To Match Your Fabrics

The use of stark white stiffened Venice lace is outstanding in the summer mode. So successful has this adventure in lace proved, designers are planning to trim monotone frocks this fall in handsome Venice lace dyed to match the fabric that teams with it.

Gay Handkerchiefs

Carry out a summer note for your costume by flirtatiously flaunting a gaily flowered handkerchief. You can get perfectly fascinating "hankies" with realistically colorful life-size roses printed to look as if they were artfully hand-painted. Others are patterned with huge poppies, and the ones with big clusters of natural looking violets are lovely with the new and now-so-fashionable costumes in purple tones.

THINGS for YOU TO MAKE

or do these gay designs entirely in outline. Matching panholders may be made from the parrot-in-cage motif.

Z9266, 15 cents, brings this set of parrot tea towel and panholder motifs in a transfer that will stamp more than once. Send your order to:

AUNT MARTHA
Box 166-W Kansas City, Mo.
Enclose 15 cents for each pattern desired. Pattern No.
Name
Address

Pattern No. Z9266

MONDAY, Tuesday, Wednesday, Thursday — each tea towel boasts an industrious parrot busily pointing the way to efficient household routine. Applique Polly and outline the rest of the motif,

Deadly Tongue

The second most deadly instrument of destruction is the dynamite gun—the first is the human tongue.—W. G. Jordan.

AROUND THE HOUSE

Matches should be kept in non-inflammable containers where children cannot reach them.

Proper drainage should be provided under concrete floors and porches, and around wall footings and foundation walls.

One teaspoon of dissolved gelatin added to one-half pint of whipped cream will make the cream stiffer when whipped.

When buying bone roasts, be sure the butcher gives you the bones even if they have been removed. The bones can be used for making soups and stock for stew.

One reason jelly is tough is because too little sugar is used; another is overcooking.

Fried mush is often served with fried chicken. To prepare the mush mold it in a loaf pan. Chill it until it is firm. Then cut it into four-inch slices and sprinkle each with flour. Brown in chicken drippings and serve around the platter of chicken.

Pretzel crumbs make a tasty covering for small cheese balls served with salads or as appetizers. Freshen the pretzels by heating five minutes in a moderately hot oven. Cool and then roll into crumbs.

It takes less time, fewer hours of labor and, therefore, costs less to roof a house with strip shingles than with individual shingles.

No Halfway
I hate to see a thing done by halves; if it be right, do it wholly; if it be wrong, leave it undone.—Gilpin.

Benefits to Our Readers

THE PUBLIC nature of advertising benefits everyone it touches. It benefits the public by describing exactly the products that are offered. It benefits employees, because the advertiser must be more fair and just than the employer who has no obligation to the public. These benefits of advertising are quite apart from the obvious benefits which advertising confers—the lower prices, the higher quality, the better service that go with advertised goods and firms.

NOTICE

Several hundred engineering aids are needed by various governmental agencies, the U. S. Civil Service Commission announced today. These Engineering Aids will be needed throughout Colorado, New Mexico, Utah and Wyoming as well as in other areas. In order to qualify applicants must have had certain engineering training or experience. The amount of training or experience varies with the grade and responsibility of the position. Applications may be filed until further notice with the Manager, Thirteenth U. S. Civil Service District, 136 New Customhouse, Denver, Colorado. Applications and the necessary forms for filing may be secured from the Secretary, Board of U.S. Civil Service Examiners at any first or second-class post office in Colorado, New Mexico, Utah, or Wyoming, or the Manager, Thirteenth U. S. Civil Service District, Denver, Colorado. The Civil Service Commission does not desire applications from persons now engaged in national defense work either in private industry or in a government agency.

Defense Dance

Messrs. Albert Roberts, Tino Lopez and Tennis Bigelow have been appointed committee for the defense dance, which is scheduled for July 24. Be patriotic and buy a Defense Dance ticket. Price \$1.00.

ROSWELL PRODUCTION CREDIT ASSOCIATION

The farmers and stockmen of Lincoln County helped swell the loan volume of the Roswell Production Credit Association for the first six months of 1941 to the largest half-year figure in the credit co-op's history, according to E. J. Bonnell of Glencoe, a director.
Reporting \$948,293.05 loaned during the first six months of this year, Mr. Bonnell said a good share of it went to finance seasonal operations of Lincoln County farmers and stockmen. The 1941 figure is \$163,108.37 over the 1940 figure of \$495,190.68 for the same period.
Some of the increase, he said, can be attributed to farmers' increasing production of certain farm commodities to aid the national defense program.
Reports from all over the nation, the production credit director declared, indicate that some time during July some farmer or stockman somewhere in the United States will receive the two billionth dollar to be loaned by a production credit association. Since the Roswell association was organized by farmers and stockmen in the spring of 1934, it has loaned \$6,378,195.00 to finance livestock and general farming operations in Chavez, Eddy, Lea and Lincoln counties.

Proclamation

Whereas, the urgency of national defense in all its phases has made it mandatory for the public mind to be awakened to the need of the hour; and

Whereas, in a democracy, we the people are individually and collectively responsible for the state of our defenses; and

Whereas, the need of aluminum in national defense industries is paramount; and

Whereas, the sale of defense bonds is necessary to the consummation of our defense program at this time; and

Whereas, I have set up a New Mexico Council of National Defense and Local Councils in every municipality in the State of New Mexico;

Now, Therefore, I, John E. Miles, Governor of The State of New Mexico, do hereby declare July 24, 1941 to be

NATIONAL DEFENSE DAY

for New Mexico.

On the day set aside, it is directed that all state offices close until one o'clock P. M., and I urge that all public business men of this state close their places of business until that hour.

During this period we should devote ourselves to a study of national defense needs, and I request that local patriotic meetings, parades and other proper celebrations be held in various communities and that each individual utilize this period to enhance his knowledge of how he can best aid our national defense program.

I further urge that State and Local Councils of Defense sponsor observance of this day in local communities by coordinating activities and providing public speakers to disseminate information in connection with proper civilian activities to aid the state and national defense effort.

DONE AT THE EXECUTIVE OFFICE THIS 12th DAY OF JULY, 1941. WITNESS MY HAND AND THE GREAT SEAL OF THE STATE OF NEW MEXICO.

John E. Miles
Governor

Attest:
Jessie M. Gonzales
Secretary of State

How your child's face gets warped. A famous dental surgeon tells why leaning chairs on hands, sleeping on hands, sucking pencils, and gnawing fingernails are dangerous and disfiguring habits. Read his methods of preventing such habits and correcting the damage they do, as told in *The American Weekly*, the magazine distributed with next week's *Los Angeles Examiner*.

What do YOU know about **WOMEN**? Are they more affectionate? Tactful? Ticklish? Better liars, bosses or drivers than men? Dr. Donald A. Laird, famous psychologist, explains many curious notions about the much misunderstood ladies. Read his diverting and challenging article in *The American Weekly*, the magazine distributed with next week's *Los Angeles Examiner*.

Local and Personal

Mr. and Mrs. Fred Velasco and son George of 1411 N. Campbell St., have just arrived home from Fort Madison, Iowa. Where they were guests of Mr. and Mrs. W. H. Burdan. They were honored with banquets and dinners by Mr. and Mrs. Burdan's daughters and friends. They were honored by Mr. and Mrs. D. R. Llywelyn, Mr. and Mrs. R. McClanahan and several others.

They also were guests of Mr. and Mrs. Cadberry of Pueblo, Colorado, and guests of Mrs. Kate Bechtold of La Junta, Colorado. They were gone 21 days, and they traveled through eight states, including New Mexico, Missouri, Colorado, Illinois, Oklahoma, Kansas, Nebraska and Iowa. They had a wonderful trip.

—Contributed

Miss Barbara Smith left last Tuesday for the B. T. U. convention in North Carolina. She will be there until July 19th.

Miss Gertrude Keller of Pittsburg, Pennsylvania and her niece Marian, were in Carrizozo last Friday enroute to the Nogal Mesa to visit Marian's sisters. Miss Gertrude Keller is a sister to Mr. Ed Keller, formerly of the Mesa, but who is now living near Albuquerque.

Mr. and Mrs. J. A. O'Kelly purchased the Leon Houston cottage on Elm street and moved into it last week.

Mr. and Mrs. Robert Smith moved into the Humphrey house which Mr. O'Kelly vacated.

Mrs. Frank Elliott left her home which had been occupied by the Smiths, who moved Tuesday of this week.

When the Defense Dance ticket sales people call on you, buy a ticket -- \$1.00 admission. Be patriotic!

Mrs. F. L. Stevens and children, Loraine, and the twins, Pauline and Nadine from Bayard, N. M. are guests of Mr. and Mrs. Charles Hodgins, and other Carrizozo friends for a few days.

Mr. and Mrs. C. L. Hodgins took a fishing trip to Mountainaire over the week-end.

Mr. George Joyce has arrived home from a trip to Kansas.

NOTICE

A meeting of the defense organization is scheduled for Monday July 21st by order of the Mayor.

Card of Thanks

We are sincerely grateful to our many friends for their kindness and many beautiful flowers during the illness and death of our mother, Mrs. Mary Russell.

Mr. and Mrs. Sam Dillard
Mr. George Holliday
Mr. and Mrs. Orville Luttrell
Mrs. Cora Frazier and Betty

Mr. Henry Hoffman was here Tuesday from Tucumcari to visit the family.

BORN -- At Lubbock, Texas to Mr. and Mrs. Leon Houston, Tuesday, July 8, 1941, a 6 lb. boy.

Will Use Magic to Pack Church Pews

Handsome Performer Goes To Work for Christianity.

CHICAGO.—John Booth, a handsome youth who has lived off magic the last six years, transfers his tricks and fancy talk from night club floors to the church pulpit to "pack the pews" for Christianity.

He has promised to "rekindle enthusiasm for the church if I have to pull jackrabbits from the organ stops.

"I made a lot of money amusing crowds at theaters and night clubs from Canada to South America," he said, "and I'll pack the pews for Christianity, too."

Booth, 20, is a theology student at the University of Chicago. He said he decided to become a minister when he realized that "something constructive" should be done with his powers of entertainment.

For six years after his graduation in 1934 from McMaster university, Hamilton, Ont., he pounded the footboards as a career conjurer, winning reviewers' plaudits from scores of metropolitan newspapers. A national trade journal rates him "one of the nine foremost magicians of the day," and, additionally, he has written three books of instruction in the art.

Tall, dark and mustached, Booth said he learned early that presentation—"gift of gab" he calls it—was "90 per cent" of any trick.

"If I could make presentation pay with mere tomfoolery I figured I could make it do big things for truth," he said.

Booth long had nurtured an ambition for the ministry because it was as a child in Sunday School at Cleveland that he learned his first "magic" from Carl Germann, a prominent showman and a teacher in the church school.

"Of course I cannot hope to make the money I made on the stage," Booth said. "But I will have become useful to myself and to mankind."

He said he expects to bring magic and logic together in the pulpit "in a modern, sane setting." In ancient ritual, magic and religion were united in ceremony, he said, to impress the congregations.

Birthday Party for Sis

Birthday parties given by modern young misses call for a great deal of planning as well as diplomacy. For little ladies of eight can be just as temperamental and jealous as movie stars. Games should be scheduled as precisely as a railroad time table, and refreshments planned down to the last cookie.

Right: Dorothy Edith Sasse, eight, whose dad took the pictorial record of this affair, welcomes the arriving guests.

FLOOR SHOW . . . Virginia Smith, a talented youngster, is holding the floor here with a recitation while the other guests listen intently.

MAIN EVENT . . . One of the games children go for most is the ancient one of pinning the tail on the donkey.

STAGE SET . . . Arrangement of the banquet table calls for an understanding of the psychology of ladies of eight. All hats and favors are exactly alike to avoid loads of trouble.

"BIG BLOW" . . . Dorothy Edith is giving the big huff and puff here to blow out the candles on her cake.

Low-Cost Houses Foundation For Healthy, Happy Home Life

Some of the 48 houses being removed above to make room for new homes which will have comfortable and modern living quarters, similar to the top scene. This slum clearance project is being sponsored by the city of Frankfort, Ky., and will house 61 families who previously occupied the area shown here.

WASHINGTON.—Pounding hammers, buzzing saws, swishing paintbrushes and rattling plumbing are harmonizing in a new song of progress as the nation pushes forward its new-born drive to bring better low-cost housing to millions of families in the smaller cities and towns throughout the land.

Hundreds of small communities are swinging into the movement as Uncle Sam and many of his nephews carry on the task of doing something about the 10,000,000 American families living in homes that are considered to be dangerous to health and safety. While the big city slum clearance and rehousing campaigns have been marching along for several years, it was not until recently that the equally important rehousing drive in the smaller towns moved into high gear.

Families that had always lived in dilapidated houses without the "decent necessities," are getting new thrills by switching on real electric lights, trying out their own bathtubs, cooking in airy kitchens, while the children play and romp around the landscaped lawns and in the playgrounds. While the living conditions of these families have been revolutionized, they pay the landlord about the same rent they paid in the old places, when he comes around every month.

Playing the leading role in the growing rehousing movement is the federal government, through the United States Housing authority, thanks to the \$800,000,000 that congress dropped in its lap to lend to local communities. Although a sizeable part of this pile of dollars has gone into cleaning up the blighted areas of big cities, an increasing share has been pouring into small cities and towns during the past 12 to 18 months. About 60 communities of less than 50,000 population have already benefited by the USHA program. As a part of its rural housing drive, new farm houses for 1,300 low-income families have been completed within the last year, and 203 housing authorities have been created to speed the program.

Twin Houses.
A typical example of the USHA program in action in the small town is found at Mount Hope, W. Va., where the census taker counted 2,361 men, women and children last year. Borrowing 90 per cent of the needed \$238,200 from the federal agency, the local housing authority raised the other 10 per cent by issuing bonds, and proceeded to demolish the rows of 30 tottering shacks that had been the homes of workers for the nearby coal mines. To house the evacuated families, and others in the town, 70 dwelling units are now being built in the form of twin houses extending along a narrow strip of rolling land about three-quarters of a mile long, facing a site being developed as a park. Each family will have a lot of 40 by 210 feet for raising some flowers and fresh vegetables in the summer.

Government is not the only driving force in the new movement. One of the most encouraging developments now taking place is the increasing interest and financial support being given by large corporations with plants in the communities.

To qualify for a new housing project it was necessary for the city of Frankfort, Ky., to agree that a collection of 48 shanty houses be demolished. The Schenley Distillers corporation contributed \$25,000 for the purpose, and the way was cleared for 61 families living there.

In Chicopee Falls, Mass., the Chicopee Manufacturing company undertook to turn a row of century-old dilapidated houses into a clean, modern and attractive group of homes. Today the tenants are living in the remodeled houses, with play and garden fields, at rentals running from three dollars a room per month for three rooms, up to four dollars and sixty cents a room per month for five rooms.

Government and corporations are also digging into their pockets to put up money to speed the building activities for poor groups.

And local citizens are stepping up to shoulder some of the load in many towns. In Vincennes, Ind., for instance, a group of 25 leading men and women, joined as the Vincennes Emergency Relief committee, decided that something had to be done about a squatter settlement of nondescript hovels that stood along the river bank. Known as "Pearl City" because the inhabitants depended on mussel fishing for a livelihood, and sometimes found valuable pearls, the settlement had stood for 30 years as an eyesore, and a menace to health.

The Vincennes group arranged for the demolition of Pearl City, and erected "Sunset Court" for the families. Here are 20 houses, arranged in a quadrangle, with a four-acre court in the center; 14 are two-room houses, and the other six are three-room houses. Every home has a small porch, facing the center court, a drilled well, a coal shed and chicken house, and modern sanitary unit. Each tenant has signed a lease to pay one dollar a year as rent, agreed to keep the house and surroundings clean and in good repair, and works two days a month on the site.

East Oil Problem Is Becoming Acute

NEW YORK CITY.—Adequate distribution of oil supplies, vital to a motorized nation in both peace and war, is creating concern among United States government officials as more military airplanes, tanks and bouncing army "jeeps" (field cars) are lined up daily at gasoline pumps.

Secretary Ickes, appointed by President Roosevelt as petroleum coordinator for national defense, already has hinted at "gasless Sundays" in the Eastern states, where transfer to Great Britain of 50 American-flag tankers has cut down the steady arrival of oil. Congress is studying a bill designed to clear the way for laying an oil and gasoline pipe line system to the Atlantic seaboard from the Gulf states' oil fields.

"The current oil problem is largely one of transportation," says a bulletin from the National Geographic society, "for federal statistics indicate that aggregate supplies of gasoline, fuel oil, and lubricants are sufficient for anticipated needs. Oil reserves are at their highest point in the United States, which since 1905 has produced more than 60 per cent of world stocks.

"From 375,000 active wells—about twice the number in operation in 1917—petroleum companies in this country last year took a daily average of 3,800,000 barrels of oil. This was about two-thirds of world production. The vast Texas fields furnish about two-fifths of the domestic supply, with other important amounts coming from California; the Mid-Continent field of Oklahoma, Arkansas, Kansas and northern Louisiana; the Gulf coast area, which includes southern Texas, Louisiana and the Rocky Mountain region.

Mrs. F. Roosevelt Answers Critics Of Her Four Sons

WASHINGTON.—Four of the Roosevelt boys, sons of the President and Mrs. Roosevelt, have commissions in the military and naval forces of the United States.

Did these boys get their commissions with Uncle Sam through "inside pull" or did they actually work for and earn them?

Writing in the August issue of the Ladies Home Journal, Mrs. Roosevelt answers a letter which questioned her pointedly concerning the technique required to secure commissions. This statement will no doubt let loose another flood of both criticism and praise.

Mrs. Roosevelt responds in part: "As far as I know, the most important thing, in order to obtain a commission today in our military services, is to be qualified to have one. To do that, one must have done some work in the past which can be usefully applied in some branch of the service, and to have done it well."

Another way, she notes, is to qualify through reserve officers' training courses.

"Since you ask me specifically about my own sons, I will tell you exactly how they obtained their commissions.

"James took the course in college. He was then taken into the marine corps and did the required training as a reserve officer.

long before the present emergency, to hold his commission. When his father went to South America, James was given a high rank in order to be able to appear with his father at certain functions. On his return to the United States he himself asked his father to request his demotion. Before he was called as a reserve officer in this emergency he reported for duty in Los Angeles, where he was then living and worked with the unit with which he would be called to serve. He was actually called for active duty in that unit last autumn.

"Elliott had worked for a time on the West coast, and come of his first work was with an airplane-manufacturing company, and later he worked as an aviation editor for a newspaper. He learned to fly and held a license, but his eyes would not permit his entry into the army as a pilot. He knew that he would not be drafted because he has a wife and children, and yet he felt he would like to be useful, so he came to Washington and asked the army authorities where his experience could be of use. He was commissioned and, as far as I know, his work has been satisfactory.

"Franklin James took his navy training course in college and has done his cruise in the naval reserve every year since. He was commissioned an ensign as a result of the work, and has been in the reserves. He was called in April, and has been on active duty ever since.

"John, our youngest son, never was interested in anything military and took no courses in college. He has, however, applied himself to the merchandising business, and when he made his application for ensign in the supply corps of the navy, he explained that he was then an assistant manager of a branch store and was about to be made manager, and he thought his merchandising experience could be useful either on a ship or at a shore station. His number has not yet been called in the draft, and, like all other boys in the navy, he was taken as a volunteer. Of course, as you know, practice cruises and courses at Annapolis are now available to those who wish to apply, and the boys will be selected on their ability to qualify. John, like Elliott, unfortunately is extremely nearsighted, and for some branches of the navy service, that would be a bar."

Ensign John Roosevelt.

The Strumpet Sea

By BEN AMES WILLIAMS

CHAPTER XVII—Continued

When she ended, Mat Forbes spoke. "Ma'am, I'm not saying you're right or wrong; but we've nothing to go on." "We've got to look at it straight," he pointed out. "We can ask Mr. Corr to go back; but if he won't, why he's the Captain. We can't make him, unless we know for sure."

To attempt to compel him in any way, or even to disobey his commands, was an action tainted with mutiny; and Mat, as the whispered discussion proceeded, repeatedly pointed this out.

"He says Cap'n Corr was killed. He's logged it that way; and he can't go back on that; if it's true or not. He's got to stick to it; and short of handling him, there's nothing we can do."

"But I know he's lying," Mary pleaded. "I know Cap'n Corr's alive." She felt Corkran's eyes upon her; and she appealed to him. "Don't you, Corkran?"

Corkran was a long moment in replying; and before he spoke, his eyes swung from her to George. "Reverence," he asked gravely, "what do you say? Are you for going back?"

"Yes."

"Would you be thinking to satisfy the young lady, so she'll know he's dead? Is that maybe it?"

"No. No, I'm sure he's alive. He's hurt, maybe. If he weren't, he'd have come to the boats. But I think he's surely alive."

"Then it's knowing he's alive that you'll want to go back and get him?"

"Yes, certainly."

Corkran stood up, and turning to the mate, said simply:

"Mr. Forbes, if himself here says go back, then I say go. If he said not, I'd say no; but we'll do what he's wanting."

Mat Forbes nodded. "Yes, certainly. I'd say go back, if we'd anything to go on. But it's hard to say to Peter that he's got to go back without knowing something."

"There's a way to know," Corkran told him quickly. "Gee was with them ashore. Whatever happened, Gee knows. Gee's hated Cap'n Corr, and talked killing ever since the Cap'n had him flogged. Maybe he was in this, maybe not; but whatever happened, he knows about it."

This was, clearly, true. If Peter had lied about Richard's movements on shore at Hoakes Bay, Gee must know it. Mary whispered earnestly: "Yes, yes! Don't you see, Mr. Forbes? Gee must know."

CHAPTER XVIII

A half hour later Corkran reported that Gee, after some "persuading," had given him enough information to justify turning back.

Mat then led the way into the common room aft, and moved with a certain heedlessness, careless of the noise he might make. There he lighted one of the hanging lamps, and Corkran lighted another; and Mat turned toward the door of the Captain's cabin where Peter was asleep.

But before he could touch the door, it opened and Peter faced them. He stared from one to the other. There were six men and Mary, against him alone.

Peter must have read their faces; and guilt for a moment flickered in his so plainly every man there could see it. He leaped backward and slammed the door shut; but before he could bolt it, Corkran's weight against it forced it open and threw Peter headlong against the cabin wall, and Corkran after a moment's struggle pinned him helpless there.

Then Peter, his voice cracking, asked in a sharp panic: "What is this, anyway? What's the matter?"

Mat Forbes said: "Bring him out to Mr. Corkran."

"Is the matter?" Peter demanded. "What is this, mutiny?" Mary, watching him almost with sympathy, thought again that his beard was like a mask behind which his eyes flickered. Peter cried: "Blast you, get out of here, back where you belong!"

Mat Forbes spoke almost gently. "Mr. Corr, we're going back to Hoakes Bay to find Cap'n Corr."

"Find him?" Peter wetted his dry lips. "He's gone."

"We'll have a try, anyway."

"You can't find him. I told you what happened to him!"

Mat said: "We're going back to have a look, and Gee tells a different story."

"Gee?" This was Peter.

"Yes. He says you told him to say a lion killed Cap'n Corr; but he says Cap'n Corr never came out of the tussocks on the way up the ridge."

"He's a liar!"

"Not Gee. He wasn't lying. He knew it wasn't safe to."

"Then you scared him. A scared darky will say anything you want him to. I tell you he's lying."

"We'll go back and see for sure."

Mat asked almost pleadingly: "Will you go along, sir? Or do we have to iron you?"

Peter, seeming to consider, moved absently toward the desk. He stood with one hand on top of it, looking down at it, his side toward them. Corkran had left the upper drawer a little pulled out; and suddenly Peter's hand dropped into that drawer.

But before he could fetch the weapon clear, Corkran with a leap

bore him sidewise and down. The heavy revolver clattered against the edge of the drawer, was jerked by his fall from Peter's hand. Mat Forbes picked it up. Corkran held Peter flat, twisted him on his stomach, dragged him to his feet.

Peter was stony silent now. Mat Forbes turned to Mary. "You and Mr. McAusland move in here, into these cabins," he said briefly. "I'll iron him to the mizzenmast."

Later Mat came to speak to her. He was white with strain, but his voice was calm and steady.

"He's secured," he said. "I've left Mr. Corkran with him, and the door's bolted between. You'll be safe here. I'll go call the watch and wear ship, make back for Hoakes Bay. We'll be there, with luck, soon after day. Mr. McAusland can take the Cap'n's cabin. You have yours."

It was upon Mat Forbes that the responsibility for the venture and those aboard her now fell. Half persuaded by Mary, and then convinced by Gee's enforced confession, he had accepted the necessity of leading what was technically a mutiny. He had not read that treason never prospers, since if it succeed then none dare call it treason; but he understood quite clearly the implications of his own position. If Richard were found, dead or alive, Mat's action would be justified. If Richard were not found, then he and

"I'll shoot you if you do!" George retorted.

those who had supported him in making Peter captive were simply mutineers, damned not only by the laws but by all the tradition of the sea.

So, for their salvation, Richard must be found. Mat, on the way back to Hoakes Bay, questioned Gee. The Negro repeated that he and Richard and Peter started through the tall tussock grass up toward the pond where the geese had lighted; that they entered the grass abreast, and became separated in its maze; and that when he emerged at the upper border of the grass, he was first, and Peter presently appeared, but Captain Corr did not. Beyond that, he swore in beseeching terror, he knew only what the mate had told him.

"Believed what he told you, did you?" Mat demanded.

"Yes, sah."

Mat said evenly: "You're a liar! There wasn't any beach in the tussocks, nor any sea lions. You knew well enough nothing like that happened to the Cap'n in there." With one strong motion he ripped Gee's shirt off his back. "Get a boat spade, Rannels," he directed. "Cut a hole through his small, cut the truth out of him!"

Rannels said with a relish: "Take my knife. It's nicked, and dull, and jagged as a saw; but you can hack a couple of rib chops out of him with it."

At the fearful picture Rannels' words evoked, Gee surrendered altogether and damned Peter beyond denial. He said the mate had given him a pearl, and promised him a rich reward later, if he would tell the tale and stick to it.

Gee appeared to have no more to tell, but Mat had no remaining doubt of Peter's guilt. Yet even so it was necessary that Richard be found, alive or dead, for final proof. Mat had no intention of evading the issue. If Richard were not found, he must release Peter and return him to command, and himself submit to the arrest that would follow when the Ventura reached Stanley.

But if Richard were found, then the situation would be in Richard's hands. So he must be found. Mat decided that when they came to anchor again in Hoakes Bay, he would send Corkran to command and direct the search ashore. Corkran was wise and strong. Mat himself, clearly, had better stay on board the Ventura. Someone must keep an eye on Peter, and on Gee; for the two prisoners and the ship herself were the key to the situation.

So Mat would stay aboard. He meant to send ashore as many men as possible, to prosecute the search for Richard with the best chance of success. George clearly could not go. His strength would not permit it. Mary would wish to stay with her husband.

As matters developed, one other man stayed aboard the Ventura. After the anchor was down, since the wind was freshening, Mat ordered the sails all furled. This meant sending the men aloft. Hurd, the little Cockney, descending afterward, in some way fell the last few feet to the deck. He landed on his feet; but he howled with pain, and when he tried to stand he could not. Apparently he had broken a bone in his ankle, or suffered a severe sprain; certainly he would be of no use ashore.

So when the boats put off, twelve men went in them; or rather, eleven men and Tommy Hanline. Corkran commanded one boat, Big Pip the other. Seven men and Mary were left aboard. Hurd was in the fore-castle, Gee and Peter in irons below, George in his bunk in the Captain's cabin, Willie Leeper in his galley, and Mat and Rannels and Mary on deck to watch the boats depart.

Rannels, like the other harpooners, was by the etiquette of the ship restricted in his movements, forbidden to come to the after house except on business. So while the boats moved away from the vessel's side, he stood alone in the waist, Mary and Mat were together by the rail just forward of the after house. They saw the boats land and saw the men haul them high and dry.

It occurred to Mat to inspect Peter's irons. He called to the harpooner: "Take a look at Gee, Rannels." The other man went obediently toward the fore hatch, and Mat descended into the cabin with Mary. He slid back the bolt on the door between the common room and the main cabin. Peter sat there at the table, his hands in front of him, the irons on his wrists passed through the loop of chain around the mizzen; and he met Mat's eyes, but he did not speak. Mat closed the door and bolted it again. When he turned, Mary stood in the doorway of the Captain's cabin; and George was on his feet inside the cabin, facing her, and coughing a little.

Mat Forbes felt rather than saw a shadow pass along the skylight over his head. He looked up sharply at the skylight, too late to see anything; and then he took the revolver out of his belt and cocked it and stepped quickly toward the companionway.

He started to ascend. Mary came to the foot of the companionway; and his feet were level with her shoulders, his head just emerging from the companion, when she heard the crack of the smashing blow that felled him.

The revolver, without being discharged, dropped out of his hand and clattered down to her feet. Mat slumped forward limply on his face, his body sprawling on the deck, his legs hanging down the companionway. Rannels shouted something; and she looked up and saw the harpooner, his face red with excitement, grab Mat by the collar. Mary snatched the revolver from the floor; but Rannels hauled Mat out of sight before she could shoot. On deck someone came running aft. George crossed to her side, took the weapon from her. Looking up, he whispered: "What happened?"

She was strangely not excited. "Rannels killed Mat!" she told him simply. Through the companion above them they could see the sky, the rain-filled clouds, the after rail. They heard Rannels speaking.

"Watch the companion," he panted, his voice thick. "I'll go get him loose, and Gee. You stay here, and if anybody shows a head, bust 'em."

Mary did not know Hurd was aboard. She looked at George and saw, with a quickening respect and admiration, that he was calm; that strength had run into him to meet this emergency. He said:

"Go get the guns out of the rack and load them. I'll watch here, in case they try to come down."

She said from across the cabin by the arms rack: "It's locked. The guns are locked in."

"Can you break it open?"

"No! I don't see how."

"Then find the bomb gun."

She turned to look for that huge and awkward weapon. Someone tried the bolted door between; and Peter called to them sharply: "Mary, let me in."

George said strongly: "No, Peter."

"You sick fool, I'll break down the door." Peter's voice cracked as it was likely to in moments of emotion.

"I'll shoot you if you do!" George retorted. He made a sign to Mary to hurry; his lips shaped the words: "Bomb gun!"

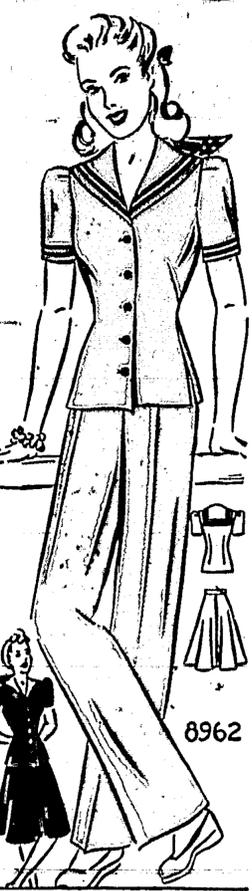

Peter was whispering to Rannels in the main cabin. George and Mary could hear his murmur, but no words. Mary found the bomb gun, as heavy as a small cannon. Luckily it was loaded. The voices in the main cabin could no longer be heard; and there was no sound on the deck above their heads. She asked George:

"Will that bomb explode if it hits anything?"

"I don't know," he admitted. "I don't know how they work." He grinned doubtfully. "Richard said the back end of a gun like this does as much damage as the front, but it's better than nothing; and if that bomb hits anyone, even if it doesn't explode, they'll know it!"

Invented Torpedo Plane

The torpedo plane, figuring so prominently in this war and highlighted by the crippling and sinking of the German battleship Bismarck, is an American invention. Patent for the first torpedo plane in history was obtained 29 years ago (in 1912) by Rear Admiral Bradley A. Fiske, U. S. N., retired, hero of the Battle of Manila.

Now 85, Admiral Fiske looks at the important role being played by the weapon he invented, developed to meet modern needs, as vindication of his dream.

One Way Open
"What about your prospects of promotion?"
"Splendid, sir. I can't go any lower."

Obliging Him
Farmer (angrily)—What are you doing up in my cherry tree?
Rastus—Cause dere's a notice down dere to keep off de grass.

Conditional
"How old are you, little girl?"
"Five, ma'am; and mother says if I'm good and eat my greens and rice pudding I'll be six next year."

No Accompanist
"What is your occupation?"
"An organist."
"Organist, eh? And why did you give it up?"
"The monkey died."

Cover Up
Mother had bought father a new tie.
"I wonder what would go best with it?" she said coyly, as she held it up.
Father eyed the violent-colored horror and replied, briefly: "A beard!"

ON YOUR boat or on dry land you'll enjoy this play suit which features the smart nautical theme. The sailor collar top mates well with either slacks or a skirt—have both in your vacation ensemble! Make it in faded blue denim, trim with red, white

Local and Personal

The Lincoln County News is in receipt of a letter this week from Pvt. Eugene C. Dow Jr., who is stationed at Camp Barkley, Texas, in which he says he enjoys the News which reaches him every Saturday morning and makes him feel as if he had been home on leave. Gene states that Army life isn't so bad if he didn't have to do so much walking, but that recently he has been assigned to a "weapon carrier" or "geep", and that he really enjoys maneuvers and the swift driving at night with the lights off. He said that his company would be sent to Louisiana on maneuvers August 1st.

Mrs. Maggie Espy, who has been spending the summer in Los Angeles with her sister, Mrs. R. E. McComie, will arrive home next Sunday.

The revival at the Baptist church, which was conducted by Rev. Morgan, of Artesia, closed Sunday with seven additions to the church.

Mrs. Henry Hoffman and two daughters, Mildred and Dorothy, left last Tuesday for New Iberia, La., to visit relatives.

Mr. and Mrs. Leo Sanchez were at El Paso the first part of the week where they took their small child to a baby specialist.

Miss Ruth Barnett of Tucuman spent Tuesday and Wednesday here with her parents, Mr. and Mrs. Meyer Barnett.

Mr. and Mrs. J. T. Hodgins of Mountainair are here to visit their son, Mr. and Mrs. Charles Hodgins, and also for Mr. Hodgins to consult his physician.

Mmes. Daniel Chavez, Joe Garcia and Lucila Presquez, drove to Arabela Wednesday to visit relatives and friends.

Mr. and Mrs. Sat Chavez and daughter, and Mr. and Mrs. Manuel Chavez, spent the week end at Bernalillo visiting Sat Chavez Jr.

Announcement has been made by The Mountain States Telephone and Telegraph Company that additional circuits out of Roswell to Clovis, Carlsbad, Artesia and Capitan, also a circuit between Carrizozo and Capitan has been placed in service.

These additions provide a third circuit between Roswell and Clovis and a fourth circuit between Roswell and Artesia. A second circuit is provided between Roswell and Carlsbad, Roswell and Capitan, and between Capitan and Carrizozo.

The project which involved additions to central office equipment as well as to existing toll facilities was estimated to cost approximately \$24,000.

Rockwell-Garrity

Announcement is made of the marriage of Miss Inez Rockwell of Fort Stanton, New Mexico and Frank J. Garrity of Santa Fe.

The bride was graduated from Capitan High School and attended the New Mexico A&M College. She went to Santa Fe a year ago to work in the Bureau of Revenue and prior to that was instructor in the Lincoln County Schools. Mr. Garrity is manager of an oil station in Santa Fe. He is formerly of El Paso, Las Cruces Citizen.

Used Cave for Glass Work. The first glass maker in Scotland was George Hay (1558-1625). He took advantage of a peculiarly formed cave at Wemyss, on the Fife coast, and set up his furnace there.

Help Prepare for National Defense!

Judge A. H. Hudspeth has returned from Santa Fe where he attended a meeting of the Selective Service Board of Appeals of which he is the chairman.

Her Insurance Claim Clerk (the local manager of fire insurance office)—One claim has come in this morning, sir—from that newly married couple we insured last week. She's burned a whole baking of cakes.—Passing Show.

CAPITAN NEWS

The C. W. C. entertained the state president, Mrs. Fred E. Dennis and her daughter with a luncheon at the Buena Vista Hotel Friday. After the luncheon everyone went to the home of Mrs. Geo. A. Titsworth for the regular meeting. There were 16 members present, and five visitors. Mrs. Dennis made a very interesting talk on the National Convention held this year at Atlantic City. The Club presented Mrs. Dennis with a beautiful hand painted tray, made by the patients at Ft. Stanton. The Club is sponsoring a picnic to be held at the camp meeting ground, at Indian Divide, July 20th. Everyone is cordially invited to come and bring their basket lunch. After the meeting delicious refreshments of angel food cake, whipped cream and fresh raspberries were served by the committee.

Little Donna Holloman is in the Fort Stanton hospital with pneumonia.

Mrs. Hoyt Cullaghan and little daughter Sharen from El Paso are visiting her mother, Mrs. Beasie Dale.

Mrs. Cherile Coe is visiting her brother wife, Mr. and Mrs. Gordon Wells. Mrs. Wells entertained with two tables of bridge and one of checkers Monday afternoon.
