CARRIZOZO, NEW MEXICO, FRIDAY, AUG 1, 1941.

NUMBER 4

R. A. Walker, Mgr.
FRIDAY & SATURDAY
Adolphe Menjou, John Hubbard
and Carole Landis

"ROAD SHOW"
A comedy of a millionaire who escapes an insane asylum and joins a carnival. Episodes range from lion taming under pressure to a flight by fire engines.

— ALSO —
"The Power For Defense"

SUNDAY, MONDAY & TUESDAY
Robert Taylor, Ruth Hussey,
Walter Pidgeon, Nat Pendleton

"FLIGHT COMMAND"
Filmed in cooperation with the Navy, it pictures air maneuvers at sea with air craft carriers, battle ships and squadrons of fighting planes engaged in every hazard of the service.

— ALSO —
Paramount News and "Ye Olde Ministrals"

WEDNESDAY & THURSDAY
Bob Crosby, Jean Rogers, Elizabeth Risdon

"LET'S MAKE MUSIC"
Romance, songs and dances blended for perfect entertainment.

— ALSO —
"Drafted in the Depot" and "Information Please"

Pvts. Riley Hailey and Thomas Truax have returned to Camp Berkeley, Texas, after spending their furloughs with home folks. Mrs. Riley Hailey, Mrs. C. L. Hailey and Mrs. E. J. Truax and family.

Mr. Campbell of Roswell, who has had a beauty parlor in operation here for a long time, moved all the equipment and fixtures to Artesia this week, where he will open a beauty parlor.

Both the Courthouse and the new schoolhouse are ready for the finishing touches.

Petty Go to Wyoming

The Petty General Merchandise store bought a new Pick-up from the City Garage and Mrs. Petty and daughter, Miss Ruth, drove to Buffalo, Wyoming two weeks ago where Mrs. Petty is taking a course of baths. Mr. Petty and son, Jess, drove to Wyoming last week and Miss Ruth drove home; Mr. Petty remained with Mrs. Petty, who is improving.

Thomas Calvin Key

Friends of Mr. Thomas C. Key all over the county were shocked and grieved to learn of the death this well-known citizen, which occurred at his home in Capitan, Thursday, July 24, 1941, after an illness of little more than a week. He was taken to Fort Stanton for treatment and was considered better. He was brought back home and passed away a few days later.

Mr. Key was born in Kaufman County, Texas, on March 2, 1872, being at the time of his death past 69 years. He moved with his parents to Hood County, Texas in 1878, where he lived until 1902, in which year he moved to New Mexico and was married to Miss Ellen Green, of Otero County, in 1902. Two children were born to them, Ernest D. Key, who is now treasurer of Lincoln County, and Mrs. Hilda K. Young, who lives in Capitan.

The Keys moved to Capitan in 1917, and have made their home there ever since; being substantial citizens and active in community affairs, Mr. Key will be greatly missed by a wide circle of friends.

Mr. Key was a devoted husband and father and a loyal friend to all.

He is survived by his widow, one son, Ernest, one daughter, Hilda; three grand children, six brothers, one sister, a number of nieces, nephews and a host of friends.

Funeral services were held last Friday afternoon July 25, in Capitan community church, with Rev. R. A. Crawford in charge. Several of his favorite hymns were sung by the choir.

The Pallbearers were Messrs. S. E. Greisen, Hunt Hobbs, J. H. Morris, Geo. A. Titaworth, C. S. Rockwell and W. E. Lair. Interment was in the Capitan cemetery.

Legion Auxiliary Notes

The regular meeting of the American Legion and Auxiliary was held Thursday, July 18. Plans were made at this time for participation in the Defense Program held July 25. The Legion and Auxiliary assisted with the dance and in addition a Defense Plate of Haviland, China and a cake were raffled off at the dance which netted \$10.00. The cake was red, white, and blue, and had an American Flag on top. It was won by Bob Cooper of Ancho New Mexico.

Sept. 25--Albuquerque Day

The Albuquerque Retail Merchants Association will be hosts to the people of New Mexico on Albuquerque day during the 1941 State Fair, Thursday, September 25 has been designated as the date and the outstanding feature of a special afternoon and evening program will be a mammoth fireworks display, funds for which have been provided by the merchants association. The fireworks show will conclude the Thursday evening program.

All Albuquerque stores will close at noon to give store and office employees an opportunity to attend the fair and big noonday parade, with numerous bands, is being planned.

The Albuquerque handicap, a special added race with a substantially increased purse, will feature the afternoon program.

Moved to Ruidoso

Mr. and Mrs. J. V. Hobbie, who sold their residence next door to the Sproles home to Mrs. Ruby Ward gave possession today, and are moving to Ruidoso, where they have another home under construction. They have resided here about 28 years and will be missed by their friends.

Return From Idaho

Mr. and Mrs. Doyle Rentfrow and Mrs. J. M. Beck and daughter, have just returned from a trip to Montpelier, Idaho, where Mr. Beck is employed in the shoe department of a big store.

Card of Thanks

To our friends and neighbors we wish to express our sincere gratitude and appreciation for the many kindnesses and beautiful floral offerings extended to us during the last sad rites of our dear husband and father.

Mrs. T. C. Key--Capitan N.M.
Mr. and Mrs. Ernest D. Key and family--Carrizozo, N. M.
Mr. and Mrs. Jack W. Young--Capitan, N. Mex.

New Grocery Store

Mr. Porfirio Chavez, who is well known here and who was formerly jailer, has opened up a new grocery store at his new house which is just completed. It is located near the curve opposite the Lincoln County Utilities Co. He asks his friends to call and give him a trial.

Moisture has been the rule here and not the exception. Three bridges are washed out on 54 as a result of the torrential rains of the last two or three days.

Former Residents Visit

Mr. and Mrs. W. J. Fetter and young son, Johnie were in Carrizozo Friday and Saturday, attending to business matters and mingling with old friends. The Fetters now live at Gila Bend, Ariz., having moved recently from Phoenix. They spent part of their time at Lincoln and Hondo with Mrs. Fetter's sister, Mrs. Lloyd Hulbert. Mr. and Mrs. Lloyd Hulbert have been residing in White Oaks for several years, but moved last week to Lincoln. Mrs. Hulbert will be in charge of the Bluewater school this fall.

White Oaks News

Mr. and Mrs. D. J. Queen and son, Donald, of San Diego, Calif., have been visiting Mr. and Mrs. E. L. Queen and Mr. and Mrs. Whitwell.

Mrs. Daisy Bayette and daughter of Pomona, California have been visiting her sister, Mrs. Robt. Huffmyer and children.

Mr. Bill Smith and Nonie Littell have gone to Morenci, Arizona.

Mr. and Mrs. Tommy Hughes and children visited the Bill Smith family this week.

Mr. and Mrs. Whitesides of Gorman, Texas have been visiting the W. L. Smith family this week.

Mrs. E. L. Queen left for Calif., to visit her sons and other relatives in Los Angeles and San Diego.

Betty Tom Huffmyer was bitten by a dog Saturday afternoon and suffered painful lacerations. Dr. Turner dressed the wound. The dog is under observation.

Miss Kathleen Smith left for El Paso, Texas last night.

Mr. Robert Huffmyer came home from Morenci, Ariz., for the week-end.

Mrs. Belle Collier is visiting her daughter, Mrs. Cleghorn this week.

Methodist Church

There will be no Sunday school or preaching services at the Methodist Church Sunday August 3rd as we wish to cooperate with the Ranchman's Camp Meeting which will close on this day. We urge all who can possibly do so to attend.

L. A. Hughes
Pastor.

Visitors From California

Mr. and Mrs. Albert Bland are guests at the Claud Brantum home. They left Monday for a trip to El Paso and Juarez, and returned here Thursday. Mrs. Veda Rustin and little grand daughter, Veda Lou accompanied them on the trip to El Paso. They left today for Arizona, Colorado, Nevada and Utah on the return trip to their home in Itascadero, Calif.

Mrs. Bland was the former Jessie Rustin, Mrs. Brantum's sister.

Mr. and Mrs. Albert Roberts left today for Douglas, Arizona, where they will be joined by Mr. Mrs. L. T. Bacot, and the four will go on an extended trip to the West Coast including Los Angeles and Catalina Island and other points.

Mrs. H. O. Bursam Jr., of Bingham was in town yesterday on business.

List of Selected Men

The following named man has been selected for induction by this board for Call No. 11.

He shall report to this Local Board at Carrizozo, New Mexico at 8:00 a. m. on August 13, 1941; whereupon he shall be sent to an induction center of the United States at Santa Fe, New Mexico. Gene Gerald Frye, Picacho, New Mexico; Order No. 472.

Vacations In Progress

Members of the local Mountain Telephone force are taking their vacations. The manager, Mr. G. T. McQuillen and wife will leave tomorrow for St. Louis Mo., for two weeks.

Mrs. Roy Harman was on vacation last week, and Miss Betty Shafer this week.

Mrs. Buella Scharf will spend a month at different places in the state. She and her husband, Mr. Scharf will go to Pecos first to visit Mrs. Scharf's brother, Seaborn, and to enjoy the good fishing at that point.

Mrs. Wayne Zumwalt is relief operator during the vacations just started.

Return From Louisiana

Mr. and Mrs. Henry Hoffman, and son, Harold, and two daughters, Mildred and Dorothy arrived home last Saturday from a trip to New Iberia, Louisiana, where they visited Mrs. Hoffman's sister. They also visited Houston, Galveston, and Waco, Texas enroute to Louisiana.

Mr. and Mrs. R. C. Hemphill and daughter, Marilyn visited the C. E. Smith family and their daughter-in-law, Mrs. R. E. Hemphill and infant son Sunday. Upon their return to Orogrande they were accompanied by Mrs. Robert E. Hemphill and son, Robert Edward. Later on they will join Mr. Hemphill, who is employed in El Paso.

Mr. L. P. Hall of Ancho was in Carrizozo Monday to attend the meeting of the County Board of Education.

Mr. and Mrs. Olin Campbell will spend the week end in Roswell where they will meet Mrs. Campbell's little daughter, Peggy June Cathey, who has been in Denver City, Texas the past two months to visit her grandparents, Mr. and Mrs. Cathey.

Rex Lewis undertook to kill a rattlesnake with a hammer and got bitten on the hand. He is now in the Turner hospital recovering very nicely, but was ill from the effects of the bite.

Mrs. May Phillips of Tillamook, Oregon, writes that she is pleased with her new home and that it is most beautiful in Oregon. She wishes her Lincoln County News sent to that point.

New Bridge At San Antonio

In spite of the doubtful road program, a new bridge is to be built at San Antonio, on Highway 380; contract was let to Shuffelbarger of Albuquerque and the amount is \$24,427. Due to steel shortage, entire bridge will be constructed of timber.

Mrs. Williams, of Las Cruces, the former Miss Myrtle Hartley, was visiting here aunt, Mrs. Albert Snow her last week and her mother, Mrs. Hartley, in Capitan.

Dr Carl E. Freeman and daughter, Mrs. Ralph Pruett, spent last Monday in El Paso, where Mrs. Pruett bought a new trailer house. She will leave for her home in Tucson the 5th, accompanied by her sister, Miss Rhoda Freeman.

Messrs. Wm. Kimbrell and son Albert were in Carrizozo Monday on business.

Douglas Harwell of Fort Stanton has gone to Fort Wingate, near Gallup to take a position as secretarial expert with the army under Civil Service.

Miss Virginia Grumbles of Tucumcari has made reservations at Eastern New Mexico College at Portales, where she will matriculate this fall.

Monday visitors from White Oaks were Mrs. Jack Cleghorn and her mother, Mrs. Belle Collier. Mrs. Collier, who lives in Oklahoma City, is spending the summer with her daughters, Mrs. Goodson of Ancho and Mrs. Cleghorn of White Oaks.

The 6th annual XIT Ranch Reunion will be held in Dalhart, Texas, the 4th and 5th of this month.

Mr. and Mrs. J. V. Hobbie will move to Ruidoso August 1st where they are building a new home.

Mr. J. A. O'Kelley is building an addition to the house which he bought from Mr. Leon Houston the first of July.

Mr. Charles Fritz was here from San Patricio last Monday.

Mr. Manuel Corona of San Patricio, one of the County Commissioners, was here on business last Monday.

The State of New Mexico has been called upon for 190 additional draftees. They are called for Monday August 11, Tuesday Aug. 12, and Wednesday Aug. 13.

Mr. James Duncan has bought a new 1941 Ford truck from the Carrizozo Auto Co.

Mr. and Mrs. Champ Ferguson were in town from Capitan last Saturday.

Mrs. Buella Hartley, who is chief operator at Capitan, is taking a month's vacation. She will spend part of her time with her mother, Mrs. Anna Brazel, in Carrizozo.

ANNOUNCING!
THE OPENING OF
J. R. GROCERY STORE
AUGUST 1st, 1941. East Alamo Ave.

KNOW YOUR BANK
Does Your Bank Encourage Unnecessary Borrowings?

We do not. It would be easy to succumb to the lure of profits and make loans indiscriminately. But we realize that our offering of loan services to the community also involves the moral responsibility of lending only for sound, constructive purposes. We discourage needless borrowing. However, if you have a good reason to borrow, come in.

The Marines Have Landed

This photograph was made at Jacksonville, N. C., during marine maneuvers—first time—between army-navy and marines on beach landing practice. Transports unloaded armored cars and troops carrying equipment, etc. Photo shows marines going over the side of transport into landing boats.

Pay Day for Dollar-a-Year Men

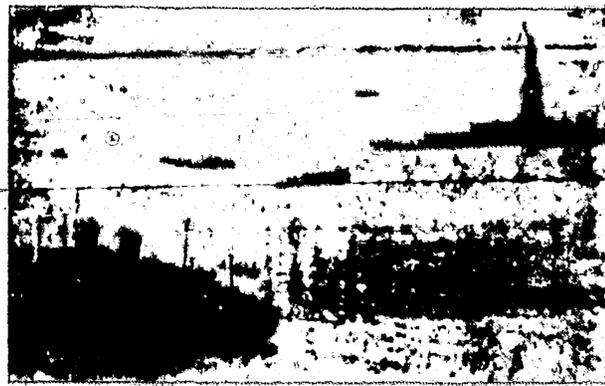

Here are some of the 262 dollar-a-year men in the defense program on their recent "pay day." Total of all payments was only \$124 to the 262 workers as many of them had not worked a full year and could not receive their "total" salary. Distributing checks above (center) is Edward Stettinius, priorities director.

Safe Arrival for Canadians

A Canadian tank division, which includes many U. S. volunteers, arrives at a camp "somewhere in England," after a trip through the Atlantic danger zone. They were part of the largest contingent of Canadian troops to reach England. Thousands of men made the safe journey across, said the British censor.

Miss Liberty Waves Good-bye

The ship West Point enters out of New York harbor with her passenger list of German and Italian consulate employees. The Statue of Liberty, welcoming hope to liberty loving immigrants bids a long farewell to those Axis nationals who have been ordered out of the nation by the federal government.

'Unlimited Army'

Arrow indicates Gen. George C. Marshall, army chief of staff, as he appeared before senate military affairs committee asking congress to authorize a draft army of unlimited size. He spoke of the "grave national peril."

Another Number

Secretary of Navy Frank Knox is shown drawing the second number in the second peacetime draft lottery. The number was 98. First number was 196.

New Product

Steve Vassiliakos, for 34 years the White House peanut vendor, now has a new product. Steve, who has been selling peanuts near the White House since Teddy Roosevelt's time now offers peanuts, popcorn and defense bonds.

General 'Yoo-Hoo'

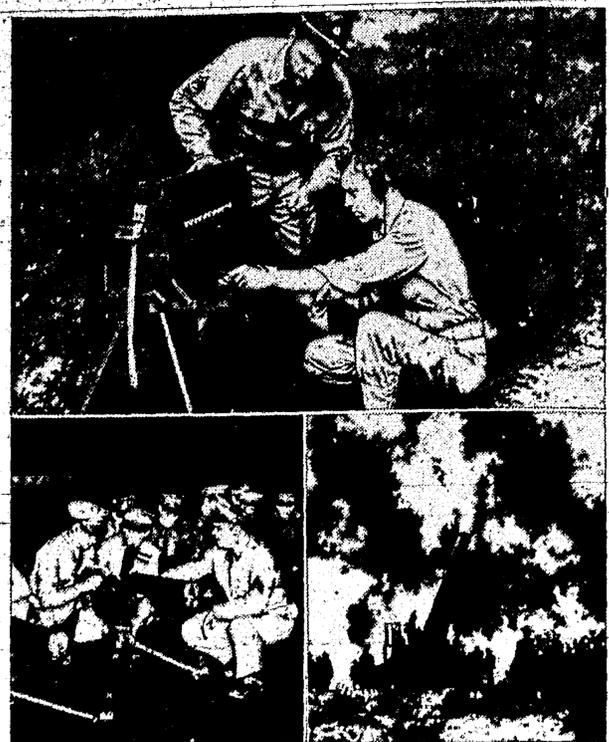

This is Gen. Ben Lear, whose marching pony for soldiers "yoo-hooing" at shorts-clad girls on a golf course, made him "famous" overnight.

U. S. Soldier-Boys Become School-Boys To Study New Technique of Modern War

Text Book School Lessons From European-War Battlefields.

By LIEUT.-COL. W. H. WELLS (Released by Western Newspaper Union.)

"What d'ya know?" This casual, friendly American greeting has assumed tremendous significance in the army and is the essence in securing military preferment in place of "Who d'ya know?" So important is the "what d'ya know" that in order to develop the innumerable technical and professional specialists needed in a modern fighting force, approximately 60,000 of our soldiers are in constant attendance at some 71 schools. Their studies range from brief clerical courses, to six months of practical and theoretical work for air mechanics. This school work is a full-time job with the entire day devoted to the classroom or shop. Evenings are taken up with "home-work." Thousands of officers also are attending schools, but that is another story, the war department stated.

Military experts claim that the army, in being and planned, is essentially a motorized, mechanized, technical force, utilizing every gadget or contrivance ever devised by Yankee ingenuity which has military value. In proportion to that of other powers, it contains more motors and more technically trained men, both enlisted and commissioned, than any force ever organized in the world's history.

Because of the emergency, war department instructions provide for the continuous operation of army schools. As the graduates of one class receive their certificates of completion of a course, another is waiting to occupy the desks or benches of their predecessors. It is estimated that over 300,000 men will pass through these schools this year.

Technical Knowledge Vital. "Essentially, our army is a fighting force, and its only reason for existence is national defense," General Marshall, U. S. chief of staff, declared. "A modern army trained to cope with any foe, or meet any situation must be composed principally of technical experts. Even a soldier running a caliber-30 machine gun must have a fair knowledge of mechanics; while the crews of the large 16-inch coast defense guns must have expert knowledge which includes both mechanical and electrical subjects.

"Modern pedagogical standards have been adopted by the armed forces, and the khaki-clad student finishing one of the courses is certain to have mastered his subject with consequent increased value to himself and the nation on the termination of his military service," he continued.

It is obvious that every man in the army will not attend one of these special schools. Aptitude, previous civil occupations, and the results of intelligence tests invariably will govern commanding officers in recommending soldiers to take special courses of study.

Every branch of the army is conducting schools for the development of its particular type of specialist. In the ordnance department men are trained to repair and maintain, under field service conditions, articles of equipment ranging from intricate precision fire control instruments to the rugged prime-movers of heavy artillery. The finance department

has special courses in accountancy and finance. The signal corps stresses communications. While the coast artillery courses of instruction emphasize electrical installations, weather forecasting, road making, X-ray technicians, and cooking are among other courses taught.

When these soldiers return home, the family jolopies should be maintained in perfect running condition as a result of this training, one officer observed; while the static which interferes with Pa's radio set should be readily eliminated.

School Centers Scattered. Army schools are scattered from coast to coast, with the air corps schools, with an enrollment of 20,265 students, leading the 13 branches of the army. This figure does not include flying cadets or commissioned officers undergoing instruction. At Scott field, over 4,000 men are learning to be radio operators and radio mechanics; while at Chanute field, over 11,000 men are taking technical courses of instruction.

Close behind the air corps in the number of soldiers attending schools is the quartermaster corps with 17,212 men being trained in practically every activity found in civil life, ranging from electricians, carpenters, painters, and plumbers to shoe repairers and welders. The quartermaster corps also has motor transport schools at Camp Holabird, Baltimore, Md.; Fort McPherson, Atlanta, Ga.; and Camp Normoyle, San Antonio, Texas, where 700 men graduate each month from a three-months' course as specialists in motor mechanics.

The armed force school at Fort Knox will eventually graduate 20,000 men a year, and at present, has a student body of 4,298. The tremendous expansion of the armored force, from one division to the four now in training with four more planned in the immediate future, calls for innumerable specialists. The maintenance of motor vehicles and tanks is indeed a job for specialists.

Intensive instruction in every phase of military operation and testing of war equipment is well under way today in army schools and camps located at hundreds of points in the U. S. The personnel of the army, navy and air corps is being trained to a razor-edge of efficiency in preparation for stern times that may lie ahead. Above at top, is pictured a young soldier being initiated into the mysteries of field telephone communications. To the left at bottom, a machine-gun instructor explains the mechanism, and at right bottom, a 16-inch steel spokesman for America roars out a thunderous message, while artillery recruits look on.

Russian Failure to Ship Fresh Caviar Opens a Market for Ontario Fishermen

BOSTON.—Caviar, the delight of the cosmopolitan gourmet for which the lesser epicure must definitely acquire a taste, has become "black gold" to the fishermen of northern Ontario since shipments from Russia, chief source of caviar supply, have been curtailed for the duration.

With the price of caviar soaring to three dollars a pound as it is taken from the sturgeon, and one dollar per ounce by the time it reaches the consumer, the Ontario fishermen have been quick to set additional nets in the northern lakes and rivers to meet the demand.

Bearing out the adage that "It's an ill wind that blows no good," the new activity is attracting many tourists to the fisheries of the north. The Ontario Indians, usually Ojibways, also share in the boom. When the fish is dressed they get the head—an Ojibway delicacy when cooked as we cook a pig's head—and with the increased activity of the fisheries every day is feast day.

Like the moose, another native of northern Ontario, the sturgeon is also pre-historic in appearance; a strange thing left from an age when living things were large and ugly. The sturgeon has from 11 to 13 bony plates on its back and about as many of these hard, bony armor shields on each side.

In the northern lakes sturgeon are taken in traps having nets several hundred yards long stretched across a lake or river and leading the fish into a circular net from which they are taken by the fishermen.

Thus the sturgeon fishermen of the lakes constantly hope for high winds to move the fish into their traps. Four or five fish taken in a haul, although a highly profitable catch in the present market, is considered a poor "take." When a high wind blows the catch is always better and with caviar selling for more than twice as much as fine silver (caviar \$1.00 per ounce to consumer; fine silver \$.42 per ounce), the large fish are well named "black gold."

Because the roe is highly perishable, and must be treated by the fishermen immediately after the sturgeon is dressed rather than shipped to market "raw," converting it into caviar is an art that is handed down from father to son and held just as much a secret as a chef's formula for a favorite sauce. The result is that some fishermen get twice as much as others for their caviar because of the manner in which they treat it. The female fish will produce about 30 pounds of roe, netting fishermen up to \$3 per pound.

GEN. GEORGE C. MARSHALL, Chief of Staff of United States Army.

Prison Counterfeiters OMAHA, NEB.—The federal penitentiary at Leavenworth, Kan., has become a "counterfeiters' college" where bogus-money makers often teach other convicts how to "make" fake money, according to Russell Daniel, United States secret service agent in charge here.

All money counterfeiters eventually reach Leavenworth, and there they discuss among themselves methods and compare notes on imitating the United States currency.

THINGS for YOU TO MAKE

Pattern No. 29324

PERHAPS this is Chicken Little and Ducky Lucky come to decorate baby's crib spread. Twelve adorable blocks are done in outline and lazy daisy, and a border of color and scallops of white finish the spread.

The hot iron transfer for stamping is 29324, 15 cents. There is a minimum of embroidery on this delightful cover. Send your order to:

Test With Reason

Reason is the test of ridicule—ridicule the test of truth.—Warburton.

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—brings heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired—no matter how much you rest. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Doan's Pills. Doan's helps the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. And recommended by trained hospital physicians. Ask your neighbor!

DOAN'S PILLS

SHOPPING **Tour**
The best place to start your shopping tour is in your favorite newspaper, with an open newspaper.
Make a habit of reading the advertisements in this paper every week. They can save you time, energy and money.

FIRST-AID to the AILING HOUSE

by Roger B. Whitman
(© Roger B. Whitman—WNU Service.)

Scared Floor

QUESTION: How can I refinish a badly scarred, horribly varnished and stained soft white pine floor?

ANSWER: The best treatment for your floors would be scraping with a floor machine. You can undoubtedly find someone in your neighborhood who does work of this kind. The machine will not only take off all of the old finish, but will bring the floors to an even smoothness, while the new wood that is exposed can be finished in any desired way. If you cannot have the floors scraped, you can take off the finish with trisodium phosphate; three pounds to the gallon of water. If you cannot get this chemical under its own name, ask at a grocer's for a colorless, latherless cleaning powder. The finish will soften and can be wiped and scraped off. Rinse with clear water and allow to dry before refinishing.

Sticky Shellac

QUESTION: I have an oak bureau on which the old finish was removed with sandpaper, soap and water. A thin coat of shellac was put on a month ago, and since that time the shellac has dried but is still sticky. Is there any finish to take care of the stickiness?

ANSWER: Either the shellac was of a very poor quality, or thinned with poor alcohol, or else the surface was not properly cleaned before shellacking. Remove the shellac down to the wood with denatured alcohol. Wipe the surface with benzine, being extremely careful of fire. Then finish with shellac. Ask your paint dealer to give you the best quality he carries. When using denatured alcohol for thinning, be sure it is clean and of good quality.

Celling Finish

QUESTION: A plaster ceiling, about 11 by 25 feet, has had wallpaper removed, and has a hard and rather smooth surface. A large space was recently patched. I want to put on a finishing coat of plaster. Local masons doubt that plaster will stay on. Can you advise me?

ANSWER: Instead of plaster, use a kind of plastic paint made with gypsum. There are several brands on the market. These paints contain a binder that will hold to your old plaster. The paint can be put on with a whitewash brush about one-quarter inch or more thick, and can be smoothed with a trowel or a mason's float. These paints are intended to be used for texturing, but can equally well be given a smooth surface.

Veneered Surfaces

QUESTION: Some time ago you recommended scraping a veneered top rather than using liquid varnish remover. Why? I was for many years in the piano manufacturing business and when we had occasion to remove varnish from a case we always used liquid remover. No harm resulted by this method.

ANSWER: My reason for suggesting scraping for removal of finishes on veneered furniture is due to the fact that not all veneers are glued with the same type of glue or in the same manner. A poor quality veneer on furniture may separate when a liquid is applied. Therefore it is safer to use a scraper, unless the veneer is known to be of high quality workmanship and materials.

Oil in a Sewer

QUESTION: My house is near the end of the city sewer line. It is frequently filled with an odor of gasoline and oil, and my neighbors notice it also. Flushing out the sewer by the city is of help, but the odor returns. What can you suggest?

ANSWER: Your letter is clear evidence that garages are dumping gasoline and oil into the sewer. Many communities have suffered from this to such an extent that it has been prohibited by ordinance. The danger is not only from odor, but from possible explosion. You should report the condition to your local fire department.

Leather Club Chair

QUESTION: I have a leather club chair, which is near a radiator. The leather is beginning to crack and dry. What kind of dressing would be best to preserve the leather and restore its flexibility?

ANSWER: Leather exposed to high temperatures may be completely destroyed. You may possibly be able to restore its flexibility by applying a leather dressing. You can get this at a large department store, or at a leather goods store.

Plaster on Plasterboard
QUESTION: Can a thin coat of plaster be applied to plasterboard? What is the proper method?
ANSWER: Yes; and it is very usual. Any dealer in plasterboard can give you instruction sheets describing the process.

Slacks and Shorts Outfits
Styled for Every Occasion

By CHERIE NICHOLAS

THE vogue for slacks and shorts outfits has developed into one of the most significant, outstanding movements in the field of modern costume design. Beginning some few seasons ago as a mere experiment, the new mode of costume today flings a challenge to designers to give their best to a movement that is advancing in leaps and bounds to unqualified acceptance by women everywhere, women who recognize the chic, the comfort and the ease that slack costumes offer.

A few seasons ago the wearing of slacks was restricted to certain time, place and occasion and if you ventured beyond a prescribed program you were made to feel conspicuous. Nowadays slacks costumes are so generally worn, nothing less than a whole wardrobe of slacks is required in order to keep up with the social and fashion demands of the times.

Impetus has also been given to the slacks costume movement owing to the spreading of interest in civilian defense works which is creating a new and most exciting demand for slacks outfits, because of the need of durable workaday clothes. Among college girls who are taking courses in "emergency mechanics," there is a call for trouser costumes and coveralls made of denim, gabardine and other sturdy materials that will be increased as the fall school terms begin.

However, the workaday idea is but a single phase and a very recent development of the slacks-trousers costume theme, and there will be much to say later in this regard. Just now a most fascinating story is being unfolded at vacation resorts and amid home environs, a story so

thrilling in interest and so wide in scope it carries through from sun-up to sun-up all through the 24 hours of a calendar day and night.

And so, while the vacation spirit is going strong throughout the nation, fancy turns to cool sleek streamline types such as the trim suit pictured to the right. Tailored with precision and cut to give the style-correct streamline silhouette, this is a type that makes instant appeal to best-dressed women. Over this smart outfit the wearer tosses one of those short wool jackets, the rage at resorts this summer.

In the same category as this "classy" slacks suit are the exquisitely tailored jacket and slacks suits. Fashioned of gabardine for the most part in fetching pastel greens, violet shades, soft blues and dusky pinks. There is a sleek and fine-cut about these suits that indicate genuine refinement and appealing femininity. See the pert little play suit pictured above to the right. The entire outfit is made of waffle pique with large stars in red and white.

Shown to the left in the background is a slacks suit that answers the call of both chic and comfort. It is a navy blue gabardine with a white boxy jacket, falling loosely over the slacks.

On a hot midseason day, it's butcherboy pajamas in checked percale (pictured to the left). They will give you much comfort and ease. (Released by Western Newspaper Union.)

Button-On-Vestee

Soon the time will come when college and back-to-school wardrobes will be the paramount theme in every household where school-faring daughters live. Why not look ahead and, in idle vacation days, make up a simple basic wool dress and brief jacket which will serve as a suit for a "starter" on the fall clothes program. The costume pictured will prove ideal as a many-purpose outfit.

Button-on vestee is in crisp white pique and really very easy to copy. Bright metal buttons make a smart trim for the dress when the vestee is removed. To give your costume a final flipp, knit a smart turban in white sports yarn.

Quills and Feathers

To Feature Fall Hats

There is much novelty in the new hat arrivals. The tendency is to manipulate fabrics in intriguing and original ways. Among the fabrics used often is jersey, with an angora finish and milliners are creating draped turbans and toques of long scarf effects in lacy feather-weight wool knit manufactured especially for millinery purposes. These scarfed novelties will also be worked into snoods and apron drapes at the back of hats.

Look for quills and feathers galore, for they are "on the way." Not one quill but several, will appear dramatically posed on a beret or turban or "novelty" shape. Feather-adorned felt hats will be very popular this fall.

Bretons still maintain as a favorite type in the simpler and wider-brim felts. Sometimes these will have a crochet edge instead of a ribbon binding.

Belts Cleverly Handled

Reduce Waistline Span
In the march toward smooth silhouettes designers are manipulating belts in subtle ways. The latest move is to inset the belt in a sleek graceful midriff treatment. When shopping for the new gown take note of this, for it is surprising how this technique takes away inches from the waistline span.

Braided Effects

Much braiding is appearing throughout late summer fashions. It is said this matter of using braided trimmings will be accentuated throughout fall fashions. An interesting reaction to the call for braided effects will be hats with braided work on off-face brims that corresponds with braiding on jacket or frock.

PATTERNS
SEWING CIRCLE

8968

IT'S the new frock young American loves. You'll see it everywhere this summer in washable prints. Calico, percale, gingham, broadcloth and chambray are ideal for it. The style glorifies feminine charms, with its low cut square neckline, full gathered bodice, tight girlish waistband, girlish puffed sleeves and billowy gathered skirt. Wear it with a choker necklace of bright colored beads!

NOTICE OF HEARING OF FINAL REPORT AND ACCOUNT

In the Probate Court of Lincoln County State of New Mexico In the Matter of the Estate of Robert J. Hagee Deceased. No. 109

To Mary B. Hagee, his mother, and Thaddeus Alfonso Hagee, his father, George W. Hagee, Lillie E. Humphrey and William T. Hagee, and to all unknown heirs of the said decedent, and all unknown persons claiming any lien upon, or right, title, or interest, in or to, the estate of the said decedent, and to whom it may concern: You, and each of you are hereby notified, and notice is hereby given, that Mary B. Hagee, administratrix of the Estate of Robert J. Hagee, deceased, has filed in the above entitled Court her final report and account as such administratrix, and the Court has appointed Monday, the 8th day of September, 1941 at the hour of 10 o'clock A. M., as the hour and day for hearing of objections, if any there be, to the approval and settlement of said final report and account, and the discharge of said Mary B. Hagee as such administratrix, and at the hour on the day named, the Probate Court will proceed to determine the heirship of said decedent, the ownership of his said estate and the interest of each respective claimant thereto and therein and the persons entitled to the distribution thereof. The name and post office address of the attorney for the administratrix is John E. Hall, Carrizozo, New Mexico. Witness the honorable Marcel C. St. John, Judge of the said Court, and the seal thereof, this 21st day of July, 1941. Felix Ramsey, Clerk By Miriam Hightower, Deputy. J25-Aug. 10.

ROSWELL PRODUCTION CREDIT ASSOCIATION The farmers and stockmen of Lincoln County helped swell the loan volume of the Roswell Production Credit Association for the first six months of 1941 to the largest half-year figure in the credit co-op's history, according to B. J. Bonnell of Glencoe, a director. Reporting \$648,200.05 loaned during the first six months of this year, Mr. Bonnell said a good share of it went to finance seasonal operations of Lincoln County farmers and stockmen. The 1941 figure is \$103,108.37 over the 1940 figure of \$485,190.68 for the same period. Some of the increase, he said, can be attributed to farmers' increasing production of certain farm commodities to aid the national defense program. Reports from all over the nation, the production credit director declared, indicate that some time during July some farmer or stockman somewhere in the United States will receive the two billionth dollar to be loaned by a production credit association. Since the Roswell association was organized by farmers and stockmen in the spring of 1934, it has loaned \$6,578,195.00 to finance livestock and general farming operations in Chaves, Eddy, Lea and Lincoln counties. (Reported by T. H. Boswell, Secretary-Treasurer.)

Service Men To the men of Lincoln County, whose numbers were drawn in the National Lottery and who are inducted into the Military Services of our country; The American Legion, cordially invites you to avail yourself of every facility of the American Legion and Auxiliary of Post No. 11, Carrizozo. We wish to assure you of our heartiest co-operation and the services of this post are offered in any possible way that may be of benefit to you, Albert Scharf, Commander, By: Dan Conley, Adjutant.

NOTICE Several hundred engineering aids are needed by various governmental agencies, the U. S. Civil Service Commission announced today. These Engineering Aids will be needed throughout Colorado, New Mexico, Utah and Wyoming as well as in other areas. In order to qualify applicants must have had certain engineering training or experience. The amount of training or experience varies with the grade and responsibility of the position. Applications may be filed until further notice with the Manager, Thirteenth U. S. Civil Service District, 136 New Customhouse, Denver, Colorado. Applications and the necessary forms for filing may be secured from the Secretary, Board of U.S. Civil Service Examiners at any first or second-class post office in Colorado, New Mexico, Utah, or Wyoming, or the Manager, Thirteenth U. S. Civil Service District, Denver, Colorado. The Civil Service Commission does not desire applications from persons now engaged in national defense work either in private industry or in a government agency.

Notice For Coal Bids

The Lincoln County Board of Education is asking for sealed bids on lump coal for nine Rural School Districts, bids to reach this office not later than August 1, 1941. The Board will not consider or accept any bids submitted after this date. Prices must be f. o. b. the different schools. Coal must be lump coal. All bids must be accompanied by a certified check for 15 percent of the total amount of the bid said check to be returned if your bid is not accepted by the Board. There will be approximately 99 tons of coal to be delivered. The following is approximately the number of tons of coal that will be needed by the Lincoln County Rural Schools:

Table with 2 columns: District Name and Tons. District No. 1, Lincoln 14 tons; District No. 3, Ruidoso 19 tons; District No. 4, Picacho 8 tons; District No. 8, Bogle 3 tons; District No. 8, White Oaks 2 tons; District No. 11, Nogai 2 tons; District No. 12, Angus 2 tons; District No. 21, Ancho 20 tons; District No. 35, Stetson 29 tons; Total 99 tons.

The County Board of Education reserves the right to reject any or all bids.

Details concerning the coal bids may be obtained from the County School Superintendent, Carrizozo, New Mexico.

Lincoln County Board of Education Mrs. Ola C. Jones, Secretary J25-A1

Body of Tall Men The association which is composed of tall men is called the National Society of Long Fellows. It was organized in the spring of 1937, for the purpose of giving publicity to the needs of exceptionally tall people in the way of social accommodation.

Monkeys Once Keenest Holland Farthest north for the monkey tribe is believed to have been claimed for a species that once, far earlier than history records, inhabited what is now Holland. Fossil remains recently discovered in that country show these monkeys to have been similar to those now found around Gibraltar, although somewhat larger, says Popular Science Monthly. Scientists believe that the fossils found in Holland indicate that a mild climate once existed there, as monkeys cannot endure cold.

The Lamp in the Valley BY ARTHUR STRINGER

Carol Coburn was a "bush-rat's" daughter, who left Alaska for an education. When her father died on the trail she headed back North, where a shadow had fallen on the claim that should have been hers, though she returned primarily to teach in an Indian school. When the school burned, Carol moved to Matanuska Valley, sub-polar land of promise—the latest American frontier—where the government planned its settlement project. And here against this background of fantastic social experiment, Carol's affairs mount swiftly to climax on climax. Sidney Lander, mining engineer, is in love with her, but is engaged to the daughter of his employer. Still another woman is in love with him. There are, indeed, a few threads to unravel, and the author does it skillfully. Don't miss this absorbing story of the Far North—

IN THIS NEWSPAPER

Pioneering for Progress! THERE ARE PIONEERS today just as in the days of our forefathers when trails were blazed through trackless wilderness. Today's pioneers lead the way in business, in medicine, in engineering—in the advancement of many fields of human endeavor. This year we salute some of telephony's pioneers in commemorating the twenty-fifth anniversary of the first transcontinental telephone call. It was late in January, 1915 that the continent was first spanned by telephone—a thrill for those in New York and San Francisco whose words traveled back and forth in a fraction of a second. In 1915 it took about half an hour to complete a connection. Today you call the nearest town or across the country without hanging up—like making a local call. Telephone pioneers who build the speech trails—the men in the laboratory who are working constantly to make the service better and more comprehensive, represent the never ending effort of the Bell System to continue pioneering for progress. The Mountain States Telephone & Telegraph Co.

Lost Combination Is Found, Safe Is Barren
TULSA.—A cry of triumph rang through the city hall when Hubert Smith, secretary to Mayor C. H. Veale, found a long-lost combination to a safe in the mayor's office which hadn't been opened since the former mayor left. Smith called Veale and together they opened the safe. It was empty.

Dying Miner Seals Body in Solid Ice

Believed Done to Save It From the Wolves.

FAIRBANKS, ALASKA.—OUT of the frozen Yukon came the uncanny story of an aged Alaskan sourdough who, dying in the wilderness, was believed to have deliberately entombed his body in ice to save it from the wolves.

Encased in solid ice, the body of 64-year-old Edwin A. Robertson was found by a searching party in a glacial stream where a little trickle of water still flowed over the ice.

His rifle, the tracks of wolves and a tiny heap of sticks with which he had tried vainly to build a fire were found beside the stream.

Robertson, a Maine man who had spent most of his life in the wilds of interior Alaska, lived in a lonely cabin on Seventy Mile river. On November 14 he set out for Eagle, near the Alaskan-Yukon territory border and less than 100 miles below the Arctic circle.

The weather was bitterly cold, the route untraveled and without shelter and the country infested with packs of wolves.

As United States Commissioner R. E. Steel reconstructed Robertson's end, darkness overtook the old timer on the trail and he tried to camp for the night beside the stream. But when he was unable to light a fire, death from freezing swiftly approached.

The commissioner believes the howling wolves and the certainty of death then impelled the Alaskan pioneer to take the step which cheated the wolves.

From the position in which the body was found, with parka pulled over his head and his arms folded, Steel was convinced that Robertson had purposely lain in the stream, with the freezing water trickling over him, to make sure the wolves would not get his body.

Once-Rich Man Is Found Dying in Stripped Home

SEWICKLEY, PA.—There was no sign of life in the huge, ornate house set in spacious grounds in this exclusive Pittsburgh suburb when police approached. They had been called by neighbors, who reported that they had not seen A. Campbell Stewart, owner of the house and last of a once prominent family, for several days.

The officers knocked. Receiving no answer, they crawled through a window into the great drawing room. It was cold and barren except for a few pieces of worn furniture—pieces that obviously had been priceless.

In an upstairs bedroom, cluttered with family heirlooms, they found Mr. Stewart lying, semi-conscious. He died at Valley hospital soon after he had been removed there. A post-mortem was to be performed, but authorities believed malnutrition and exposure—there was no heat in the big house—had caused his death.

None of his wealthy friends, who frequently had attended social gatherings at his home, had known of his plight. Too proud to ask for help, he had been selling the furnishings of his home little by little to obtain food. Apparently he had balked at parting with the remaining heirlooms.

Only a few months ago he had lent treasures left by his grandfather, Col. David Campbell Stewart, Civil war hero, for exhibition during a Sewickley centennial exhibition.

The LAMP IN THE VALLEY

A Novel of Alaska By Arthur Stringer

Carol Coburn, a "hushrat's" daughter, while returning to her native Alaska to teach and establish an unproved claim, is rescued from annoyance by Sidney Lander. Lander is an engineer for the Trumbull Company, which is fighting the Coburn claim. He breaks with Trumbull, but remains engaged to Trumbull's daughter, Barbara.

There is still another woman in the case—and then there's Sockeye Schlupp, the rip-roaring old timer—all woven into this thrilling story of the Federal Colony on the latest American frontier. It's great reading!

COMING SOON IN THIS PAPER

Simply Old Superstition
 The word "lunatic" comes from the Latin word "luna," meaning moon, and it is an old superstition that the moon has a direct effect upon the brain of human beings, hence the superstition that sleeping in the moonlight causes blindness, insanity and kindred calamities. This has long since been disproved by scientific investigation.

Business Idea
 A storekeeper, puzzled just how to dispose of several second-hand suits, hit upon the idea of displaying them in the window with this placard: "Very Much Worn."

Local and Personal

Pearl Ferguson of El Paso was a visitor here at the Meyer Barnett home last Sunday, having accompanied her daughter, Mrs. J. L. Miller and baby to Carrizozo.

Bill Hobbs, son of Mr. and Mrs. Wayne Zumwalt, is working at the Harkey Lumber Co.

Herman E. Kelt Jr., is an employe at the Camp Mal Pais.

Eugene C. Dow Jr., who was stationed at Camp Barkley, Texas, has gone to St. Louis, Mo., where he is in the Air Corps.

Mrs. Selma Degitz came home Monday from a two weeks vacation spent in northern New Mexico and Colorado.

Mrs. J. L. Miller, nee Katherine Rowland, and her infant son are here for a few days before going to St. Louis, where Mr. Miller is employed. Mrs. Miller is visiting her father, Mr. Floyd Rowland, and her friend, Miss Hilda Ann Barnett.

Mrs. O. I. C. Jones, County Superintendent of schools, and Mr. G. T. McQuillen, President of County Board of Education, went to Tinnie on school business last Tuesday.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—Early in World War I, Louis Raemaekers, Dutch cartoonist, drew a cartoon called "When the Grain Is Ripe." It showed Raemaekers' ink death ad Horn Blasts at vancing with Germans Continue reaping a human harvest. Perhaps the only other cartoon which has had comparable range and staying-power was Sir John Tenniel's "Dropping the Pilot," in Punch, or possibly some of Thomas Nast's pen Philipics against Tweed. If American views had been evenly balanced in World war days, Raemaekers' cartoons might have tipped the scales, so powerful was their impact on our public opinion, with their grim portrayal of German brutality.

At '72, with no slackening of pace or skill, or of his devastating hatred of German aggression, he renews his pictorial blitzkrieg over here, just now drawing posters for the Belgians in Britain and other groups rallying against the Nazi onslaught. He arrived here about a year ago, his country a captive, his home and all other possessions swept away in the German lunge against which he first began warning Holland in 1902. Through this stretch of more than three decades, during wars and in between, he never has faltered in his almost daily portrayal of the deadly menace of expanding Germany.

He is a small, compact, pink-checked man, looking much younger than his years, with ruffled-back, thinning hair, sharp blue eyes and a shadowy goatee. His mother was German and his Dutch father was for 40 years editor of the liberal Weekly Volkfreund. He won for 32 years political cartoonist for the Amsterdam Telegraph.

He speaks of himself as "writing," which aptly denotes his ability to pack the content of a long and powerful harangue into a bit of black and white.

USUALLY, there's quite a loss in transmission when real life is slued into the movies. The new film, "Blasphemy in the Dust," seems to be an exception, at least so far as the deeper or truer import of the film is concerned. The critics score it high in sensitivity and adult emotional content.

Mrs. Edna Gladney would naturally come out that way in a film. The widow of a Texas flour manufacturer, she built the Texas Children's Home and Aid society, which has now provided happy homes for several thousand waifs. Her effort began before the death of her husband, a sublimation of her yearning for children who never came. The 1928 crash wrecked her husband's prosperous business. He got work in a flour mill. She rang door bells to get money to build her home for children. He developed a new process of flour-milling which was restoring their fortune, when he died. She kept on recruiting and mothering stray children, until one day a Hollywood writer knocked on her door in Fort Worth.

"What on earth could anybody write about me?" she asked. The movies ranged clear back into her girlhood, as Edna Kahly in Milwaukee.

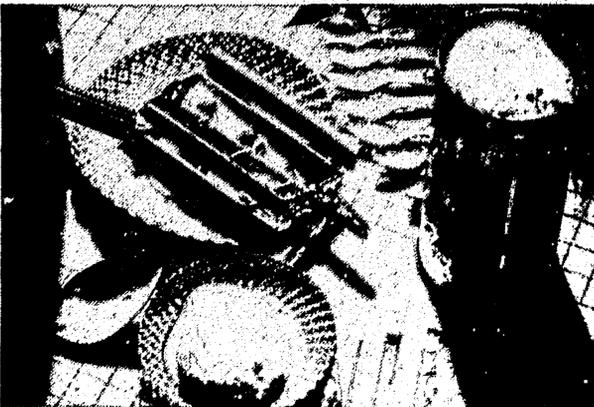

NIKOLA TESLA'S eighty-fifth birthday finds his death ray still in the blueprint stage. The great inventor says he could build a few plants, at a cost of \$2,000,000 each, within three months, and melt the engine of any approaching plane at a distance of hundreds of miles.

The immigrant youth from Yugoslavia already had discovered the rotary magnetic field, which made possible alternating current motors, before he arrived here in 1884. He helped harness Niagara, turned in numerous inventions which became historic contributions to power transmission, was an associate of Edison, won the 1915 Nobel physics prize and now holds 700 patents.

When he grows too old to dream, he'll have this and many other things to remember. Among other things he may remember that many of his earlier dreams caused amusement—as when he made the declaration that it would soon be possible to telephone around the world. Alone in his room in the Hotel New Yorker, he still delves deep in the hidden chambers of electro-mechanics, his deep-set eyes eager and intense under their bushy brows. Wireless transmission of power is still one of his many deep preoccupations.

Household Hints

by Lynn Chambers

LET'S HAVE AN ICE CREAM SOCIAL!
(See Recipes Below)

ICE CREAM 'N CAKE

Shining in their starched dresses, the girls are ready "to recite their piece," the boys, slicked and combed, are watching them shyly, and everyone's waiting for refreshment time to come. Of course, it's an ice cream social, that typically American festival to which home makers bring their most delectable cakes and choicest ice cream. There, too, you'll find lemonade, "made in the shade by the old maid."

There was a time when an ice cream social, though as pleasant an affair as you'd find on the summer calendar, carried with it a great deal of careful preparation. Ice cream had to be kept in heavy containers which in turn were wrapped in blankets, and if the speeches and program lasted too long it was apt to be more melted than icy when you were finally served. But no longer do you have such a risk. The ice cream can be stored in your refrigerator and it will be kept really hard.

Making ice cream with the freezer method is fun, and usually the whole family gets together to do some of the cranking. The freezer has a wooden or metal bucket holding the ice and salt and a non-rusting metal container with a closely fitting cover for holding the mixture to be frozen. The mixture is stirred by a paddle attached to the crank which is operated by hand, and sometimes by a small electric motor.

Use three parts of ice to one part of salt. Turn the crank slowly at first for about five minutes or until the mixture stiffens, then as quickly as possible until it is difficult to turn. This takes about six minutes. Add more ice and salt if necessary. Pour off salt water, push down ice and salt being careful to get none in the can of ice cream.

Wipe top of can, uncover, take out the paddle, and beat the frozen mixture with a wooden spoon. Cover can with wax paper, and pack again. Let stand several hours to ripen.

If you would be famous for your ice creams and have them spoken of well at the social, follow directions to get the delectable smooth, creamy triumphs. Ice cream free from crystals and splinters will get first prize every time.

Vanilla Ice Cream.
(Makes 1 1/2 quarts)
1 1/2 cups sweetened condensed milk (15-oz. can)
2 cups thin cream
1 cup cold water
1 tablespoon vanilla

Blend thoroughly the sweetened condensed milk, thin cream, cold

LYNN SAYS:

Did you know that: Ice creams should stand several hours to blend or ripen the many flavors combined in them? Each flavor will stand out separately if the mixture is not properly ripened.

Texture is affected by the method of freezing? Ice cream will be coarse and rough if frozen too quickly, whereas slowest freezing improves texture. Before putting the cream in the freezer it should be properly whipped or it will be icy.

Richer mixtures give smoother textured ice creams? The amount of fat in the cream also affects the flavor. Richer ice creams have full bodied flavor. Ice cream expands? If the ice cream is well made, it expands to at least one-third more than its original size, and that this has an important bearing on flavor. If frozen too rapidly, ice cream is prevented from increasing size.

Flavors should be lightly suggested, not pronounced? Amount and quality of extracts used are very apparent in the finished product.

THIS WEEK'S MENU

- Ice Cream Social
- Vanilla and Chocolate Ice Cream
- Walnut Torte
- Lemonade
- *Recipe given.

water and vanilla. Freeze in one-quart freezer. Remove dasher. Pack in ice and salt for one hour or more after freezing.

For Banana Ice Cream, use the above recipe, except to substitute 1 teaspoon of lemon extract in place of vanilla. Mash three bananas to a smooth pulp with a silver fork and add to ice cream after removing dasher.

Coffee Ice Cream: Proceed as for Vanilla Ice Cream, using 1 cup of cold black coffee in place of 1 cup of water and 1/2 teaspoon vanilla in place of 1 tablespoon of vanilla.

Maple Nut Ice Cream: One of the most requested flavors, made just like the vanilla except maple flavoring is substituted for vanilla, and 1/2 cup of chopped nuts is added just after removing the dasher.

If you like chocolate flavoring, here's a recipe I'm sure will please you. Rich and creamy, full of satisfying chocolate flavoring, it's one kind of ice cream of which there can never be too much made.

*Chocolate Ice Cream.

- 4 eggs separated
- 1/4 cup sugar
- 1 cup milk
- 1 teaspoon cornstarch
- 1 pint cream, whipped
- 1 1/2 ounces chocolate

Mix cornstarch and sugar. Stir into well beaten yolks. Mix and blend with milk, heat in double boiler, and cook until thick. Add chocolate and cook till blended. Cool, fold in beaten egg whites and whipped cream. Freeze.

Among the pleasant surprises in appearance and in flavor among ice creams is this one called Tutti-Frutti. If you're longing for a change from familiar favorites this one leaves nothing to be desired. To make it really gain for the youngsters, take a scoop of it, pop two raisins in for the eyes, a currant for the nose and a cherry for the mouth. It's a simple gesture but one which they'll appreciate for all its worth.

Tutti-Frutti Ice Cream.

(Serves 6)

- 3/4 cup sweetened condensed milk
- 1/2 cup water
- 1 1/2 teaspoons vanilla
- 1 cup whipping cream
- 1/4 cup finely chopped maraschino cherries
- 1/4 cup seeded raisins, finely chopped

Mix sweetened condensed milk, water and vanilla. Chill. Whip cream to custard-like consistency. Fold into chilled mixture. Freeze in freezing unit of refrigerator till half frozen. Scrape from tray, beat until smooth but not melted. Add chopped fruit. Replace in freezing unit until frozen.

No social is completely a success without an array of freshly baked, nice smelling cakes with their swirls of frosting piled high to tempt. One cake which will really give you a new high in reputation is this Walnut Torte, an old-fashioned favorite with new found fame.

*Walnut Torte.

- 1 cup zwieback crumbs
- 1 teaspoon baking powder
- 1 cup chopped walnuts
- 4 eggs separated
- 1/2 cup sugar
- 1/2 pint cream, whipped

Crush the zwieback crumbs, mix with baking powder and nuts. Beat egg yolks thick and lemon color, beat in sugar, and then gradually, the crumb nut mixture. Fold in stiffly beaten egg whites. Turn into two greased and floured tins and bake in a moderate (375 degrees) oven 10 to 15 minutes. When mixture is light to touch and pulls from sides of pan it's done. Cool thoroughly. Put layers together with whipped cream and garnish with whole walnuts.

(Released by Western Newspaper Union.)

LEAVES from Uncle Sam's Notebook

HARRIET MAY WILSON

Some Standard Insecticides

In spite of the fact that formulas for poison bait, sprays, and various dusting compounds are printed from time to time, the average gardener, when a sudden need arises for some insecticide, says, "Now, where the heck did I read a formula for destroying rose slugs?" Or, "I wish I'd kept that recipe for poison bait that I saw a while ago." Directions for mixing and using a number of the standard insecticides are therefore offered here, and it is suggested that the gardener cut out the column and file it, or paste it in his garden scrapbook where he can find it if the need arises.

CARBON DISULPHIDE EMULSION

(For destroying the white grubs of various beetles which wreak havoc on various flowering plants, and on lawns and golf courses.)

- | | |
|--------------------------|----|
| Rosin fish-oil soap..... | 1 |
| Water..... | 3 |
| Carbon disulphide..... | 10 |

Beat the soap and water to an even consistency; add the carbon disulphide; beat until the mixture becomes creamlike, or is thoroughly emulsified. Add 1 quart of the mixture to 50 gallons of water and apply at the rate of 3 pints to the square foot of surface. Apply no more than one layer—more will cause severe burning.

KEROSENE EMULSION

(For use against thrips, aphids, ants, and other insects that suck the juices of plants; in double strength will destroy chicken mites.)

- | | |
|--------------------|-------------------|
| Small quantities | Large quantities |
| Kerosene..... | 2 pints 2 gallons |
| Fish-oil soap..... | 1 ounce 1/2 pound |
| Water..... | 1 pint 1 gallon |

Cut the soap into chips or shavings and dissolve in the water, by boiling. Remove from the fire; add the kerosene very slowly, stirring constantly. It is important to have the solution hot, and to agitate it thoroughly while adding the kerosene. Emulsify, either by beating or some other means, until a creamy mixture is secured. The mixture may then be bottled and should be kept tightly corked until used. Apply by spraying.

ARSENATE OF LEAD DUSTING POWDER

(For insects of the chewing type—leaf-eating beetles, grasshoppers, caterpillars, etc.)

Powdered arsenate of lead, 1 ounce or part Hydrated or air-slaked lime, 4 1/2 ounces or parts Superfine sulphur, 4 ounces or parts. Mix thoroughly, sifting several times through a fine-mesh screen. Apply by a hand duster or blower gun, or place the mixture in a jar or cheesecloth sack and shake it over the infested plants.

POISONED BAIT

(For use against army worms, cutworms, millipedes, grasshoppers, etc.)

- | | |
|-----------------------------------|----------------------|
| Small quantities | Large quantities |
| Paris green or white arsenic..... | 1 ounce 4 ounces |
| Bran (dry)..... | 1/2 lb. 5 pounds |
| Molasses or syrup..... | 4 fluid ozs. 1 pint |
| Water..... | 1/2 pint 3 or 4 qts. |

Mix the arsenic or paris green and dry bran thoroughly in a container. In another container, stir the molasses or syrup into the water. Prepare a mash by adding the mixture of syrup and water to the poisoned bran. Let stand several hours until the bran has taken up the arsenic. Scatter thinly over the surface of the soil along the plant rows, after sundown.

ARGENTINE ANT POISON

Following is the government formula for use against this pest: Dissolve 1 pound of granulated sugar in one-half pint of water and add 1.4 grams of tartaric acid (crystallized). Boil these ingredients slowly for 30 minutes and allow to cool. Then dissolve 1.4 grams of sodium arsenate in one-half ounce of hot water and allow to cool. Combine the two solutions by thorough stirring. Finally, add 1 1/2 ounces of honey. Saturate small pieces of sponge with the mixture and scatter about infested places; or, put small quantities of the syrup in shallow dishes. NOTE: These ingredients are extremely poisonous; children and animals must not have access to them.

For further information concerning control of garden pests, and for cards to Superintendent of Documents, Washington, D. C., asking for Farmers' Bulletin No. 1025.

EBONY OF COMMERCE

Ebony wood, long known for its beauty and durability, comes from the East Indies and Ceylon, but this mercantile product is only one species of a large family, the members of which are indigenous to tropical and semi-tropical lands. Only one representative of the ebonyes is found in the United States—the persimmon tree. This tree bears a fruit which is delicious when ripe, but exceedingly bitter and astringent in the green stage. The wood of persimmon takes a high polish.

Government Agency Helps You

Dream of Home Comes True

IS A "home of your own" an unfulfilled dream? Then you will want to know more about the Federal Housing Administration, one of the most important agencies

created by the national government in the past few years. Loans insured by the FHA have helped thousands of families—many making over \$2,000 a year—to buy their own homes. Other government agencies might also be of interest to you.

Our 32-page booklet fully describes how you can make use of these government agencies, also government-sponsored employment and education opportunities. Gives facts on Selective Service. Send your order to:

The Strumpet Sea

By BEN AMES WILLIAMS

CHAPTER XX

Peter was in danger, and the men hunting for them would be in danger. As much to protect these others as to save himself, Richard decided to dig his way out.

He had for tools the stout club, about four feet long, two inches thick, one end shod with iron; and he had his pocket knife. He whittled the end of the club into a flat, chisel-shaped blade, not too sharp, not sharp enough to break easily.

Then he began to dig steps up the side of the pit. For the first few feet, the sides sloped outward. That was easy; but above that, they became perpendicular. He began to excavate a sort of spiral gallery around the sides of the pit; a shelf wide enough for him to lie on, on his stomach, while he reached up ahead of him and loosened the soft stuff with the end of his club, and then scraped it out with his right hand, flinging it over the side of the shelf to fall to the bottom of the pit.

The dust of his digging through the charred, half-burned peat choked him. He descended and drank water from the pool, and wetted his handkerchief and tied it across his mouth and nose. While there was still some light, he had been able to climb ten feet above the floor of the pit; but then the light failed and he worked in darkness. Some time later, the shelf on which he lay broke off under his weight, and he fell, rolling down into the water again. He guessed that he had reached a point where the walls of the pit began to slope inward; so that there was nothing to support the gallery he excavated so laboriously.

He would have to tunnel upward through the solid peat and reach the surface somewhere to one side of the hole.

He began to do so. Almost at once the texture of the peat became tougher. Till now he had worked in stuff half-burned, the life baked out of it by the heat of those old fires; but now it began to have substance and cohesion, held together by grass roots dead centuries ago. His task became increasingly laborious. Using the chisel-shaped end of his club like a narrow spade, he drove it upward, cut around blocks of peat, and then with his right hand clawed these blocks free.

He burrowed like a mole. The tunnel he dug was no larger than necessary. If he could wedge his body through it, and have room to use his club, he was content. There was now some moisture in the peat through which he tunneled, and not much dust; nevertheless thirst harassed him.

Once when he went down to drink, he saw that there was light in the hole at the top of the pit. The short southern night was ending. Dawn was near.

A long while after that, he realized by the tougher fibre of the chunks he tore away that he had reached live grass roots. The realization, even though it proved he was near the surface of the ground and promised an early end to his labor, did not speed them. He worked slow and slower, tired without knowing it, sluggish with weariness. He thrust the pointed club upward with a heave of shoulders and back, his feet braced hard.

Presently one of these thrusts sent the club through into open air. There was still the mat of grass roots to rip apart; but five minutes later Richard dragged himself like a crippled mole through the opening he had made, and lay prone.

It was Corkan, following the broken trail through the tall grass, who hours later found him there.

Aboard the Venture, George and Mary kept their vigil. George by the desk with the revolver and the bomb gun ready, Mary at the cabin window through which she could see the boats on shore. After a long time, George heard a voice on deck, a sudden cry; so he knew the truth before Mary spoke.

She turned with glowing eyes; she whispered: "They've found him! He's walking. Two of them are helping him. George, Richard is alive!"

George nodded. "Then they'll be at us," he reminded her. He knew what to expect. Since the men had found Richard, Peter must hold the Venture and escape in her, or be damned. To hold her against the men in the boats, he must have the guns.

George did not stop to consider what means Peter had in hand. He meant to hold the cabin against any odds. If he could. But he might fall. In the sudden imminence of crisis now, like a revelation, he realized that even if he failed, he could still leave Peter weaponless.

He spoke to Mary, sharply. "Take all those cartridge boxes, the powder, everything. Break the window. Throw it all overboard."

She began to throw out the boxes of cartridges. Someone on deck heard them splash in the water and looked over the rail and saw what she was doing, and shouted a warning.

"Stop that down there, you!"

George shouted back: "I'll shoot the first man who shows himself!" Looking up through the companion he could see nothing except the sky, and a segment of the rail.

Mary kept at her task, working fast and without pause, till it was done.

The sounds over his head kept George's attention fixed on the companion. No movement in the main cabin warned him; but it was from that quarter that the attack came.

Rannels, Gee, Hurd, and Peter were united by the greedy hope of reward. Peter had won them by promises, playing on each according to his appetite. For weapons, they had the edged tools of the whale fishery; harpoons, lances, spades. It was only necessary to find a chance to use them. With this in mind, Peter planned to draw George's eye in one direction, to attack from another. He set Rannels by the cabin companion with a cutting-in spade, the keen chisel blade six inches across, the handle long enough so that Rannels from the deck could reach the cabin floor. He posted Hurd on top of the after house where from high overhead he could see down through the glass of the skylight and dart a harpoon at any mark that offered. He directed Gee to take an axe down into the main cabin and strike the door into the common room a smashing blow that would make George turn that way. When he thus turned, Rannels, at the companion, or Hurd, darting the great harpoon, would kill him from above.

When the others were in position the Negro went below. Peter himself would take no active part in the affray. Gee was barefooted, and he moved silently. He was accustomed to use an axe left-handed. The door he had to attack swung into the after cabin, the hinges on the port side. Gee stood on that side when he swung the axe.

He delivered that blow with a nervous violence which proved his own destruction. The axe hit the panels just beside the bolt, and the flimsy screws flew out and the door flew open so easily that Gee by his own weight was pulled forward, the axe and his swinging arms dragging him off balance, into the doorway.

George, when the Negro struck, was standing at the foot of the companionway, looking up, the bomb gun in his hands, the door into the main cabin ten feet away and behind him. At the crash of the axe blow, he whirled and saw the Negro in the doorway. Gee bawled in dismay, trying to leap clear, as George lifted the bomb gun and fired.

At the sound of the axe, Rannels stepped to the top of the companionway above George. At the foot of the companionway he saw George swing to face Gee, and as George lifted the bomb gun, Rannels stabbed downward with the long spade. He aimed at the nape of George's neck.

If the blow had struck fairly, it would have decapitated the man below; but the recoil of the gun knocked George off balance backward. He was already falling when Rannels struck, so the harpooner missed his aim. The spade that would have caught George in the neck, instead slid over his shoulder and down his left arm. It bit into his forearm just below the elbow. It sliced the flesh like a razor, graded on the bone.

George, thrown backward by the recoil, fell on his left side. The smoke of powder from the gun's thunderous discharge had instantly filled the cabin; but through this smoke as he lay on his side he saw Rannels at the head of the companionway recovering the spade to strike again. He rolled on his back, dodging that blow; and he dragged the revolver, already cocked, cut of his belt and fired it upward blindly. The heavy slug struck Rannels in the breast bone. He slid feet first down the companionway and lay in a huddle on the cabin floor.

The thinning smoke made George cough. He heard a faint sound that seemed to be far away, and realized it was a voice, and saw Mary on her knees here beside him.

Mary was trying to hold him. He pushed her away. He had not meant to do this violently; but under his thrust she staggered backward till she collided with the corner of the desk. He shook his head regretfully. Too bad to hurt her; but he had business in hand.

He looked for Gee, and saw him with a calm surprise. George had not heard the bomb explode; but it had exploded. There was no doubt of that. Gee was in the main cabin, on the floor by the table. Something had flung him backward; but what lay there had been Gee. If must have been. The skin was black.

Mary was here again, ripping at his coat, trying to tear away the terrible wound in his arm. Weakness swept over George in a slow, sick wave; yet his mind was clear enough. Rannels was dead, and Gee too; but in a minute now he, George McAusland, would collapse from loss of blood, and lie helpless here, and then Peter could come down and get the guns.

That had to be stopped. He must kill Peter while he could.

George decided to go through the main cabin into the steerage and thus reach the deck. Mary was trying to hold him, but he put her aside. Whatever she was saying did not matter. It could not matter. He must reach the deck somehow, and manage Peter Carr. Mary hindered him. He said to her in an elaborate whisper, loudly, so that she would be sure to understand: "Stay here. Talk. Make them think I'm here."

He pushed her aside, and she was thrown three or four steps backward against the wall and fell. He thought: Why, I must be strong, really strong, to do that! Too bad! Poor Mary!

He went through the after 'tween decks. He moved briskly, the revolver in his right hand, his left arm hanging. He remembered to cock the revolver before he started to climb to the deck. He could not help himself with his left hand, because it would not do what he wanted it to do; and he had to hold the revolver ready in his other hand; so he went up the companionway very slowly, pushing himself with his feet, his body leaning forward against the treads.

The housing looked aft. When his head rose above the deck level, he faced the mizzenmast. He crawled out of the companion on his hands and knees; and the revolver in his right hand thumped on the deck.

Peter heard that sound and turned and saw him.

Peter was on the starboard side of the cabin companion, by the door of the potato room where Tommy Hanline slept. He had a boat spade poised ready to slice at anyone whose head appeared in the companion. George saw him. George did not see Hurd. Hurd was on the port side, beyond the door of the galley, where old Willie Leeper, as though blind to all that went on aboard here, persistently banged and clattered at his work. Hurd had a boat spade too.

But George did not see him. He saw Peter, and Peter saw George and leaped toward him. George fell on his face and rolled on his side and lifted the revolver and shot.

Peter ducked and dodged; and suddenly he screamed like a woman. Panic fear broke him down. He turned to run aft toward the companion, squalling as he ran.

George thumbed back the hammer of the revolver and shot again. Peter seemed to trip and fall, and he no longer screamed. George, lying on his side, his cheek against the deck, the revolver flat on the deck at his arm's length, pulled the hammer and shot again and again, slowly, laboriously aiming through eyes half closed.

After a space, the hammer clicked on an empty cylinder. He could do nothing more. He rolled on his back and looked up; and then his eyes opened wide in clear recognition of what was about to happen to him. Hurd, the little Cockney, stood over him in silhouette against the sky and the web of rigging. Hurd was lifting his boat spade to strike. He seemed to stand there motionless; and time had stopped, and instants were eternal.

CHAPTER XXI

Behind Hurd—George could see him under Hurd's upraised arms—Willie Leeper was holding upraised a heavy cleaver. Before Hurd's spade stopped going up for the downward blow at George, the cleaver, already lifted, began to descend. It came slowly against Hurd's neck, on the side under the ear, at an angle inward. The broad keen blade went far in and in.

The spade in Hurd's hands dropped to the deck. The blade of it brushed against George's side, and stuck in the planking; and the spade stood erect for a moment, and then fell over sideways as the blade, for lack of any deep hold, broke out of the planking. The handle fell across George's body.

Hurd fell the other way, making choking sounds. Willie Leeper looked down at him. Willie said in a piping, thin voice to Hurd dying on the deck: "There, drat you!"

George laughed. That was funny. He had never heard Willie speak before. Willie had a thin, squeaking voice that was completely absurd. George was much amused.

Then he forgot Willie, for here was Mary. George rolled his head sideways to look at Peter lying on the deck aft; but Peter had not moved, so everything was all right. He told her so. He said carefully: "Everything's all right, Mary. He tried to nod, to reassure her. "It's all right, Mary," he repeated.

She said fiercely: "Hush! Oh, my brave dear!"

"It's all right," he insisted, and smiled. Something was running out of him. His life. It was running out through his arm, fast; but he must be sure Mary understood, so that she would be happy, afterward. He tried to tell her that, he knew she loved Richard, that he knew she and Richard were fine, that it was all right, that she was not to feel badly about him, or about anything.

But so much of him had already run out that there was not enough of him left to say what he wished to say; and while he lay happy in Mary's arms, the feet ran out in a dwindling little stream.

On a day almost four months later, under all sail, the Venture moved serenely upon a white-capped sea. Richard had for the moment gone below. Mat Forbes was aft, Tommy Hanline proudly taking a turn at the wheel. Corkan and Mary stood together by the starboard rail amidships; and the parrot nibbled at Corkan's ear; and whistled wheedlingly. Two or three miles away, a whaler, bark-rigged, was outward bound.

NEW IDEAS

Home-makers

APPLIQUE DESIGN ON FABRIC

IT ALL GOES WITH A BRIGHT IDEA for making a simple painted coffee table from odds and ends of lumber. The sketch at the lower left gives the dimensions. The two end sections were made first; the top and sides of these being

together with 1-inch metal rods, a shell was then nailed to the table. Two boards were placed on top of the table were then nailed to the end sections.

Now the needle-lady comes in. The table was to be painted putty color and then waxed. She bought a yard of slightly darker tan saten and appliqued a design of bright blue and red morning glories and green leaves on it with stems and tendrils in green, outline stitch. This was placed over the table top and tacked around the edge. A piece of window glass was then cut to fit and 1/2 by 3-inch pieces were screwed to the sides.

NOTE: This graceful morning glory design is so attractive that Mrs. Spears has arranged to furnish transfer patterns to be used in stamping fabric for a table and matching cushion. The pattern is for both cushion and table top. If you are interested in husband and wife projects in homemaking you will be fascinated with the Book 7 in the series of booklets available with these weekly sketches. Book 7 contains directions for more than 30 things to make and a full description of other numbers in the series. The pattern is 15 cents and the booklets are 10 cents each. Order direct from:

TIRES GIVE YOU THESE EXCLUSIVE ADVANTAGES and SAVE YOU MONEY

IT'S just good judgment to BUY THE BEST right now—and that means Firestone tires for tractor, truck or car. You'll get longer mileage and greater dependability through Firestone's patented construction features of a Safety-Lock Gum-Dipped cord body and a wear-resisting Vitamic tread rubber compound—extra features that cost you no more. It's smart to buy now and have the tires when you need them.

All tractor tires are not alike. Only Firestone Ground Grip Tractor Tires have the patented Triple-braced traction bars which provide up to 215 extra inches of traction bar length per tractor. This means a stronger backbone in the "traction zone" where the pulling job is actually done. Continuous traction is assured because the Triple-braced bars cannot bend, slip or tear off and they automatically clean themselves. To get more work out of your tractor, to decrease your gasoline and tire cost, equip now with Firestone Ground Grip Tires.

★ Mr. EXTRA TRACTION gets his name from the Extra Traction Bar length on Every FIRESTONE GROUND GRIP TIRE.

MORE FARM TRACTORS ARE EQUIPPED WITH FIRESTONE GROUND GRIP TRACTOR TIRES THAN WITH ANY OTHER MAKE

AN AMAZING NEW TRUCK TIRE

- ★ Fits Passenger Car Rims
- ★ Carries Heavier Loads
- ★ Tracks as Construction Features

AT A SENSATIONALLY LOW PRICE

Here's the way to put real track tires on your 1/2, 3/4 and 1 ton trucks at low cost. The new Firestone Standard Delivery Tire is a truck tire that fits passenger car rims. It's built with Firestone's patented construction features to withstand heavier loads at higher speeds and its Vitamic tread rubber compound delivers thousands of extra miles.

\$13.94 (4.10) STANDARD DELIVERY
