CARRIZOZO, NEW MEXICO, FRIDAY, SEPT. 26, 1941.

NUMBER 12

Lyric Theatre

R. A. Walker, Mgr.

FRIDAY & SATURDAY

Henry Fonda, Dorothy Lamour,
Linda Darnell

— In —

"CHAD HANNA"

Taken from the Saturday Evening Post Story of "Red Wheels Rolling" it is the story of the people of the tent-show world in a setting vivid and fascinating.

— ALSO —

"Mississippi Swing"

SUNDAY, MONDAY & TUESDAY

Ginger Rogers, Dennis Morgan,
James Craig

— In —

"KITTY FOYLE"

The story of America's white collar girl putting up a good fight with a wide-open heart, a salty tongue and a lot of imagination

— ALSO —

March of Time and Paramount News

WEDNESDAY & THURSDAY

Lloyd Nolan, Lynn Bari, Mary
Beth Hughes

— In —

"SLEEPERS WEST"

A detective story in which most of the sequences happen on board a train bound for San Francisco

— ALSO —

"Battle of the Atlantic" and "The Magic Shell"

Effective October 1st, the new tax on admissions is 1c for each 10c and 2c for each 20c ticket.

Night show starts 7:30 p. m.
October 1st.

Game Party

The American Legion Auxiliary will have a Game Party at the Community Center Tonight, starting at 8 p. m.

All funds derived will be used for Child Welfare work in our community.

Attend this party where your presence will help to restore some needy child to normal health.

Refreshments will be served.
Admission, 25 cents.

New Mexico Regiment To Be Fully Armed

While organizations similar to New Mexico's State Guard in other near by states are reported to have only a third as many rifles as they have enlisted personnel, the New Mexico regiment is to be fully armed.

The state military department has been notified by the War Department that the State Guard is to be loaned a second issue of army rifles, bringing the total allotment up to 900.

The present strength of the guard, including commissioned officers, is approximately 900.

Bayonets and other complementary equipment go with the rifles.

The State Guard now has 547 rifles, all of the Enfield make, but r. bored during the first World

War to take the 80-caliber Springfield ammunition. The army had an enormous number of these in storage.

State military headquarters doesn't know what make the new rifles are; but believes they may be the Springfield, the regular army gun which now, however, is being replaced with the automatic Garand. That depends, the officer say, upon what progress arsenals are making in rearming the army with the Garand. The main point of all of this appears to be that the War Department regards the New Mexico regiment as an excellent organization, having shown it this preference in the matter of armament. It is, and New Mexico gets another credit mark in its progress in the matter of defense.

Nadine Lopez

Nadine Lopez, 5 months old, daughter of Mr and Mrs. Vic Lopez, passed away at the home of her parents, Saturday at 4:00 a. m.

She was buried in the local cemetery, Sunday at 2:00 p. m.

Farewell Party

A farewell party was held Wednesday night at -Onorio's hall, in honor of Mr. Luciano G. Gutierrez who left yesterday for Santa Fe where he will be inducted into Military service.

The invited guests took part in dancing; games were played and refreshments served.

CARRIZOZO WOMAN'S CLUB

The Carrizozo Woman's Club met at Community Center, Friday, September 19th with the President, Mrs. Clara Snow, presiding, 35 members and 4 visitors being present. "God Bless America", was sung with Mrs. Brewster leading and Mrs. Burns at the piano. The pledge of allegiance to the flag was given; secretary report was read, also treasurer and auditors report.

The President announced the printing of year books was delayed because of defense work, the printer being unable to get material. It was announced the membership was almost one hundred.

A Rummage Sale will be held, Oct. 11, at the Reil building across the street from the Sanitary Barber shop, the committee in charge are Mrs. Degitz, Montfort, Hodging, Baxter and Mrs. P. M. Shaver.

The Teachers Reception will be held Saturday September 27th, 8:00 to 10:00 p. m. at Community Center.

Mrs. Frank English has charge of the October program and the refreshment committee is Mrs. Norman, Stover, C. O. Davis, P. E. Johnson, Miss Rhoda Freeman.

Mrs. Jane Turner had charge of program honoring past presidents. There were 5 past presidents present, Mrs. Blaney being the first president; nine live in Carrizozo, four out of town, 5 passed on. Mrs. Turner read a few quotations. The refreshment committee officers, Mesdames Snow, Purcey, Nicholas, Finley and Blaney served delicious punch and cookies.

The officers are looking forward to a pleasant and prosperous year and hope to have a good attendance at each meeting.

Marbry Burns,
Reporter Pro tem.

Eastern N. M. State Fair

The Old Timers parade in connection with the Eastern New Mexico State Fair to be held in Roswell October 1, 2, 3, 4 will be held on October 8 as usual despite the difficulties the committees are running into, it has been announced. Too much gasoline and not enough horses is the complaint of the committee for they are having difficulty getting enough teams of horses to pull all the chuck wagons, stage coaches, carriages and other old time vehicles in which the old timers ride. But they will find them, they say, if they have to recruit teams from a dozen counties.

Those who have been in New Mexico thirty years or more will be special guests on that day. Started fifteen years ago without such thought as to its importance, this has come to be one of the outstanding events of the fair this year.

As the time draws near for the world championship steer roping match on the last day of the fair, partisans of Carl Arnold, of Buckeye, Arizona, holder of the title, Merritt, of Federal, Wyoming, challenger, are becoming more positive in their convictions as to who will win. This difference of opinion is not limited to New Mexico either, for requests for reservations are coming from many different states. Each contestant will rope, throw and tie twelve Mexican steers, total time to decide the championship, a title won from Bob Crosby here last June.

A real rodeo on the first three afternoons of the fair is attracting contestants from all parts of the west, so that it too will be a real show.

Division superintendents report indications point to the largest entries in the 10 years history of the fair.

O. E. S. Entertains Worthy Grand Matron

Comet Chapter No. 29 O. E. S. entertained Worthy Grand Matron, Pearle Sloan, and other Grand officers on her official visit to the chapter at the banquet held at the Southern Pacific Hotel Saturday evening at 6:30. In her party were Past Grand Matron, Bessie Compton, Past Grand Patron, Russel Bird and wife, Grand Sentinel Dr. Neely and Mrs. Neely. Members of Comet Chapter No. 29 with husbands and friends also enjoyed the sumptuous repast, the tables were nicely arrayed with beautiful and appropriate booklets containing the names of the Worthy Matron, Pearle E. Bostian and her corps of officers, the menu and the Program. Ula G. Mayer the toastmistress, presided with her usual gracious manner. The following program every number of which brought its share of merited applause:

"God Bless America..." Assembly Invocation... Elizabeth Sproles, Grand Rep. of Louisiana.

Introduction of Grand Officers... Pearle Bostian, Worthy Matron Comet Chapter.

O. Gallilee... Jannette Lemon, Grand Instructor, Marjorie Clouse Margaret English, Mattie Kelley, accompanist.

Greetings to visiting Stars and visitors... Maude E. Blaney Response... Tennis Bigelow Piano Solo... Marbry Burns Toast to the Worthy Grand Matron of 1941... James Baxter, A.P.

After the banquet the Stars and their guests repaired to the Masonic Temple where the officers of Comet Chapter No. 29, exemplified the work of the Order Worthy Grand Matron, Pearle Sloan addressed the group praising the officers for their excellent work.

Gussie Titworth prepared and presented the Worthy Grand Matron with an unusual bouquet, the center of which was native flowers surrounded by leaves formed by dollar bills. The guests invited to the dining room where the Past Matrons Club served punch and cookies. It being The NTH. ANNIVERSARY of Mrs. Maude L. Blaney, the club presented her with a delicious birthday cake shared with the guests amid greetings and good wishes. Dr. Neely gave a toast which would bear repeating could it be remembered.

A vote of thanks is extended to all who aided in making this official visit of our Worthy Grand Matron a success including Margaret Stinnett, Margaret English, Pearl Bostian, Blanche Baxter, Elene Sale and Grace Jones, makers of the lovely booklets.

NOTICE

On October 11th the Carrizozo Woman's Club will hold a Rummage Sale in the Reil building on Alamogordo Ave., across the street from the Sanitary Barber Shop. The public is invited.

Good Will Trip

Twenty-five members of the Roswell Chamber of Commerce came to Carrizozo on a good will trip last Friday noon. They partook of dinner at the S. P. Hotel. Seventeen business men of Carrizozo sat at the table with them. Mayor M. U. Finley presided.

Mr. D. L. Jackson of White Oaks was in town Tuesday on business.

HIGH SCHOOL NOTES

The sophomore class was honored with two new students this week: Mary Ruth Irwin from Roswell, and Herman Bouie from Cloudfcroft.

The biology class is preparing its insect boards, each pupil is to collect his own specimens for study.

The Home Economics Club met for the first time Thursday, Sept. 18. Marion Joyce was elected president; Dorothy Jones, Vice president; Adela Meza, secretary; Mary Vidaurri, treasurer; and Theresa Page, yell leaders. Miss Cavenier is the sponsor and the girls all agree that the Home Ec. Club is going to prove a great success.

Doris Aguayo made 96 words per minute in a one minute speed test; Myrtle Hobbs, 77 words in a five minute test. These are the highest rates made in typing this week.

Margaret Myers is a new student in typing I, which is still the largest class in the commercial department.

In the math department, the geometry class seems to have made the most advancement so far. The students are starting now on the theorems which they find quite difficult.

The school buses have been having quite a bit of trouble getting to school due to rainy weather.

The Carrizozo Grizzlies will meet Tularosa High this Friday for the first football game of the season. The game will be held on the local field. Would it be pre-sumptuous for us to, publish the score in our favor? Perhaps so but we are anticipating with much enthusiasm a great victory.

The Manuel Training class is getting underway in spite of the many changes in teachers. The beginning class is making broom holders. The advanced class has been repairing the football field and conditioning tools.

GRADE SCHOOL NEWS

Many students have been absent because of rain.

Third Grade. The third grade has started an animal booklet this week. There are several new pupils in the third grade, Ben David Benton, Lucille Richards, and Ramon Aragon are their names.

Fourth Grade. In art class the girls embroider, and the boys are building model airplanes.

Fifth Grade. The fifth grade is painting pictures with water colors and crayons. The students are going to start on their charm strings Tuesday. Then they are to make vases out of clay.

Six and Seventh Grades. The sixth grade is preparing a Patriotic Program which will be given Friday for Assembly.

The seventh grade is preparing an assembly program which is to be held Friday, October 1. The public is cordially invited to attend the school assemblies.

Eighth Grade. The eighth grade is selling candy in order to make money for a sand table for the first grade.

Methodist Church

The Rev. W. G. Bailey, District Supt. of the Albuquerque District of the Methodist Church will hold our Fourth Quarterly Conference Monday Evening at 7:30 at the Methodist Church. All members and friends of the Church are urged to be present at this important meeting.

NEW MEXICO HI-WAY 54 ASSOCIATION

A meeting of the above named Association will be held in Santa Rosa on October 3rd, 1941. This seems to be the opportune time to have a meeting of this kind. "In Numbers there is Strength" therefore it behooves all those who are interested in the construction, drainage and black topping of Hi-way 54 to put forth every effort in an endeavor to prove to the Governor and the State Highway Commission that 54 is of great importance to all the tradesmen and to all the towns along the unfinished part. We are entitled to a share of the tourist dollars that are sent into the state and it is hoped that we can induce those who are in charge of the Highway funds to use a part of the money, allocated for roads, in this section of the State.

Dr. R. E. Blaney, President,
N. M. Hi-way 54 Association,

Local and Personal

Mr. W. S. Norman who is with the Southern Pacific Company at Tucumcari spent the week-end here with his family.

J. T. Sayers of Ruidoso is now under treatment at the McCleary Clinic and Hospital in Excelsior Springs, Missouri. He has been there almost two weeks and is getting along very nicely. Mr. Sayers expects to return home in about a week. Excelsior Springs is a mineral water health resort located about 28 miles northeast of Kansas City, Missouri.

First Sergeant Ramon St. John of the Tokay CCC camp returned today to his duties after spending a week's leave here with relatives and friends.

Through the efforts of members of the local Chamber of Commerce, the runway in the airplane landing field north of town has been cleared of weeds. Any of the smaller planes can land there now without danger of a crack up. This work was done through the courtesy of the County Commissioners, to whom we extend our thanks.

Dr. R. E. Blaney has been appointed as additional medical officer for the Lincoln county selective service board by military headquarters.

Foreman Bill Rush and his crew of telephone linemen moved this week to Las Cruces.

Mr. and Mrs. Geo. Goodson of Ancho were here Tuesday attending business affairs.

Charles Snow, employee of Mountain States Telephone Company left last Tuesday for Las Cruces, where he will be stationed for a few weeks on a line job.

Miss Adelina Chavez left this week for Arabela where she has accepted a position with the W. P. A.

Legion Commander Albert Scharf has received word from State Adjutant, Jim Neely, that Benj. I. Berry Post No. 11 was the first in the state to turn in their full quota of membership. Mr. Scharf deserves praise for making this possible.

KNOW YOUR BANK

What Does Your Bank Consider A Good Loan?

The two major tests which we apply to loan applications are these: (1) Is it sound? Is the purpose constructive? Will it be beneficial to the borrower and to the community? (2) Is it safe? Does it provide a proper use for the funds of our depositors, entrusted to our care? Can the borrower provide assurance that the loan will be repaid as agreed? When the answer to these two questions is "Yes", we usually say "Yes" too.

The Lamp in the Valley

BY ARTHUR STRINGER

Carol Coburn, Alaska-born daughter of a "bush rat" who died with an unestablished mining claim, returns North to teach Indian school. Aboard ship, she is annoyed by Eric (the Red) Ericson and is rescued by Sidney Lander, young mining engineer. Lan-

der, working for the Trumbull company, which is fighting Coburn's claim, is engaged to Trumbull's daughter. Lander breaks with Trumbull and moves to Sock-Eye Schlupp's shack. Carol gets the school job at Matanuska

through Doctor Rudderick's aid. But there's no schoolhouse for her. For a residence she gets an abandoned shack. But Carol is optimistic about Matanuska. The shack truly needed some thorough overhauling and Sock-Eye helped.

THE STORY SO FAR

INSTALLMENT VII

It was not, I could see, a very appealing abode. It looked, with its sagging and snow-matted roof and its time-weathered timbers, about as inviting as a mausoleum.

Nor did it add to my joy when I saw Sock-Eye, kicking away the snow, disclose the flattened-out body of a dead coyote lying there, its teeth grinning malevolently up from the uncovered jawbones.

My companion, with a prompt sweep of his foot, brushed the frozen carcass to one side and swung open the door. Doors in Alaska, I remembered, were very seldom locked.

I had to shut my teeth tight so the trembling of my chin wouldn't betray me. For about all that musty-smelling and deep-shadowed room held was an untidy wall bunk, a table and two wooden chairs with roughly spliced legs. I could see where the smoke pipe had fallen from a rust-stained stove and where rodents had been attacking a grub box imperfectly armored with a Joseph's coat of flattened-out tobacco tins. Above it was a dish shelf with a few rusty pans and a showing of sadly chipped crockery. At the foot of the bunk lay the dead body of a parka-squirrel, half-buried in a scattering of lint from a much-chewed quilt. Along the wall directly above the bunk were tacked, to remind me Alaska was still a man's country, irregular rows of equally irregular movie-queens, interspersed with dancing hours. Each and every one of them, I observed, was in an arresting state of dishabille.

But even more revolting was the uth that covered the floor.

Sock-Eye's questioning glance must have detected some shadow of hopelessness on my face.

"You a-goin' t' atick it?" he challenged.

"I've got to," I said. "There's no other way."

My companion, as he turned and swept that room with a saturnine eye, proclaimed that an old skinflint like Sam Bryson should have two inches of lead in his gizzard. "But since he's put you here, I'm a-goin' t' give you a hand t' git planted."

I had thought of Sock-Eye as a maundering old man. But as he threw off his coat and got busy I realized I had altogether misjudged both his skill and his strength.

His first act was to force open the windows.

Then, grunting with indignation, he went to the place like a cyclone. He tumbled the greasy table and chairs out into the snow and scraped the litter from the floor. Then he left me alone with my worn-down stub of a broom. He reappeared with a rusted axhead, into which he fitted a rough handle of birch wood. When he started to shovel the ashes from the stove-box I told him to save them, as they'd come in handy for scrubbing.

By the time he had a fire going and snowwater melting in our galvanized tub I'd unearthed a shriveled cake of yellow soap and a lopsided scrub brush. While I scoured the grease-blackened table and chairs with hot water and wood ashes he dragged the bunk mattress out into the snow, emptied it, pounded the last of the dust from it, and refilled it with wild hay which he commanded from a pole-stack at the back of the clearing.

At last everything smelled clean, and seemed different, and the singing of the old iron kettle on the drum stove was almost homelike. But my spirits declined to rise as they should.

Sock-Eye, after spitting into the rusty stove front, reached for his coat and crossed to the door.

"I'm a-goin' over t' the vilage," he offhandedly announced. "We've a one-hoss store there. I'll see if I kin rustle a pair o' blankets and pack in a mite o' grub for you."

When he returned, I stood blinking at the size of his sleigh load.

"Git in out o' the cold," he commanded. "I reckon I purty well know what a cheechako needs."

I felt my throat tighten.

"You can't do this for me," I contended as Sock-Eye piled things on the table end.

"I ain't a-doin' it for you," he retorted. "I'm a-doin' it for your o' pappy. He rustled many a mess o' grub for me."

That didn't take the lump from my throat. I watched him in silence as he disinterred two caribou from his store supplies and lighted them. "Evenin' 'pears to be comin' on," he said. "I reckon I may as well stay an' have chow with you."

I started to thank him, but he cut me short.

"When you git settled," he said. "You'll have t' have a gas lamp. And I'll tote over a hunk of sourdough for your bread-makin'. And, meanwhile, I'll leave you a slab o' deer meat that'll help tide over the week end."

I laid the table, using a newspaper for a cloth, while the old-timer beside the stove cooked bacon and eggs and put coffee on to boil and packed two holes in the top of a parka with his hunting knife. He was surprisingly adroit and quick-

handed about it all. When he sharpened a stick and on it speared a slice of bread, which he began toasting at the stove front, I found the aroma of that browning bread mixing with the aroma that came from the coffeepot. And I realized there were times when food was more important than philosophy.

"Things is goin' t' come easier," explained Sock-Eye as we ate together with the honest and unabashed appetite of the hungry, "once you've took root here."

"And made friends with my neighbors," I added.

"You ain't got no neighbors within a mile," countered Sock-Eye. "And the valley folks nacherly ain't goin' t' fall over themselves t' welcome you, seein' you was sent in here by them Juneau bureaucrats. Yep; you'll have t' stoke that ol' firebox yourself. And rustle your own grub and wood and water. I s'pose you've got a shootin' iron?"

I didn't see, I told him, how a shooting iron could solve any of my problems.

"It kin ease your mind considerable," argued Sock-Eye. "There's no satisfaction like knowin' you've got a six-gun in reach. Kind o' pecks

you up when you're alone. And I reckon I got an ol' blunderbuss or two I kin be bringin' over t' you."

I was afraid to thank him for what he had done. It didn't seem to be the valley way. I merely stood in the doorway watching him as he trudged off in the snow and was lost in the blue-tinted darkness.

CHAPTER VIII

Those first days in my Matanuska wickiup always remained a clouded memory of discomfort shot through with incongruous moods of exaltation. But Sock-Eye had been right. One took root, in some way, and fiber by fiber time wove one back to the soil of one's birth.

I learned more about the valley of the Muddled Waters—for that, in the language of the local Indians, was what the word "Matanuska" meant. It revealed itself as a deep-soiled and lightly timbered valley of almost two hundred square miles, with a friendly huddle of mountain shoulders that cut off the Arctic winds and framed the lowlands in eternal white. Diagonally across the valley ran the Matanuska River, and up that river, in the open season, the salmon come in swarms. Here and there, along the lower benches, little patches of land had been cleared, mostly as subsistence farms for hill trappers and disheartened gold-seekers, like old Sock-Eye and Sam Bryson. On those farms they grew two-pound potatoes and thirty-pound cabbages and oats and rye and hay as high as a horse's back. For the growth from that black soil, once played on by its bath of twenty-hour sunshine, was prodigious.

But the little homestead shacks, I found, were scattered and far apart, and life, apparently, was still precarious, with no fixed market for the settlers' produce and no final reward for a short season of industry after a long season of hibernation.

Yet the valley was rich. It could, according to Sidney Lander, prove itself the grub bag of the North. Its soil was drouthless and inexhaustible. And under that soil it had coal in abundance. And through all its outer hills it had game enough for an ever-enduring backlog on the fires of hunger.

I came to Matanuska as a teacher, but it was the valley, I found, that was teaching me things. Its first lesson seemed to be that frontier life was the mother of invention and the father of resourcefulness. For I learned how to attach a wire handle to a discarded gasoline can and turn it into a water pail, and how to cover an empty packing

case with chintz and convert it into a dressing table. I learned how to stuff duck feathers into a sugar bag—with the lettering boiled off in lye water—and call it a pillow, and how to make sheets out of factory cotton and dish towels out of flour sacks, and even a Dutch oven out of two boxes interlined with chopped out stray. I relearned how to whittle shavings from a spruce stick and start a fire, and chop wood without standing in a tub to protect my feet, to say nothing of the discovery that birch logs split easiest when frozen.

I knew how a baking-powder tin could be turned into a biscuit-cutter, how bag burlap with a design crocheted on its ends made a passable door mat, how a broom handle fastened across a room corner curtailed off with calico converted the same into a clothes closet, and how life, after all, was mostly what you made of it.

I'd never liked that red-rusted old stove of mine, standing as it did a monument of neglect at the center of my new family circle. So on a sufficiently mild afternoon when I could afford to let the fire go down I decided to sandpaper off some of the rust and replace it with a bright and shining coat of black-lead.

The old potato sack I'd pinned around my waist didn't leave me looking any too regal. My hair came down and my hands took on a distinctly negroid tint. On my face, too, I must have smudged a good deal of the black lead that should have gone elsewhere. And just as I was wielding my polishing brush on the last rough-surfaced old stove leg a visitor walked into my humble abode and stood regarding me with a quietly bewildered eye.

"Where will I find Carol Coburn?" an unexpectedly well-modulated voice inquired of me.

I knew who it was, even before she told me.

"I'm Carol Coburn," I told her, as quietly as I could. "Wan't you sit down?"

She blinked at me, for an incredulous moment or two.

"I'm Barbara Trumbull," she announced.

"I know," I murmured as I poured water into my tin basin and engaged in a hasty struggle to remove some of the black lead. "Can't I make you a cup of tea?"

"No thank you," she said, with a second study of my partially cleaned face. She pulled up her sleeve and looked at a jeweled wrist watch. "I'm flying back to Anchorage in a few minutes."

"I'm sorry," I said in the silence that ensued.

"You know Sidney Lander," she observed. She said it softly. But it was like the softness of velvet with a razor blade wrapped up in its folds.

"And?" I prompted, feeling that all the frostiness wasn't to be on one side.

"And you know, of course, that we're to be married next summer?" she continued, making it half a question and half a challenge.

"Yes, he told me about that," I acknowledged.

And again I heard the musical laugh edged with ice.

"You and Sidney, I understand, had a very adventurous trip together a few weeks ago."

"We got storm bound on the trail," I explained. "But he survived it, quite unscathed."

"That's what I wanted to make sure of," said the lady in the mink coat, ignoring the touch of acid in my voice. But her eyes narrowed a little. Then, with great deliberation, she drew off the luxurious gauntlet that covered her left hand. It was a very white hand. And on the third slender finger I could see the glitter of a diamond.

"That's his ring," she quietly but conclusively announced. "Do you want to stop my marriage?"

It impressed me as rather primitive. But I was at least compelled to respect the lady's directness.

"What makes you think I could?" I asked.

She, apparently, both suspected and resented my air of guilelessness.

"My convictions in that quarter seem to be weakening," she said with a languid sort of asperity.

"Then why bother about the source of them?" I countered, a little fired by being accepted as merely an Audrey of the backwoods.

"Why are you fighting my father?" John Trumbull's daughter rather abruptly demanded. "And making Sidney break with the one man who could have him amount to something? It won't, of course, do any good."

I met her gaze without flinching. "Are you saying that for your own sake?" I asked, "or for your father's?"

Barbara Trumbull laughed a little. "My father's big enough to fight for himself," she announced. "Then what are you worrying about?" I found the courage to inquire.

(TO BE CONTINUED)

"It kin ease your mind considerable."

Big Dam Will Boom Farming

Huge Project in Nebraska Holds Wealth for Three Counties

OGALLALA, NEB.—Formal dedication of the Central Nebraska (Tri-County) Public Power and Irrigation district's Kingsley dam and McConaughy lake marked another step in the development of Nebraska's hydro-electric projects commonly known as the "Little TVA."

Located near Ogallala, Kingsley is the second largest earth dam in the world, exceeded only by Fort Peck dam across the Missouri river. The dam proper is 2 1/2 miles long. It is slightly less than a quarter mile thick at the base and is 162 feet high. Into its construction went more than 26,000,000 cubic yards of earth, sand and gravel. Had the material for the fill been hauled by railroad, it would have required 378,200 cars, or a train 3,782 miles long.

Water backed up by the dam forms McConaughy lake, named after one of the fathers of the project. The lake covers 32,000 acres, has a 105-mile shore line and will store 2,000,000 acre feet of water.

Holds Reserve Waters.

The lake will act as a "reserve savings bank," where precious Platte river water will be conserved. Only water which previously has gone down the river unused will be stored.

The dam and lake also will serve as flood checks, capturing in times of high water the flow that otherwise would go downstream to threaten floods along the Platte, Missouri and Mississippi.

The reservoir, canal, power and irrigation facilities of the Tri-county encompass parts of seven counties. A main supply canal 76 miles long leads to an irrigation system consisting of almost 600 miles of canals and laterals. On the main canal are located three hydro-electric plants, two large regulating reservoirs and 26 co-called "lakes."

Partial Tri-county irrigation already has produced corn crops up to 81 bushels an acre on land which, before the coming of water, had yielded sporadically.

Systematized crop rotation and specialization in corn and alfalfa under irrigation will bring a great expansion in livestock production, feeding and dairying. A farm income increase of \$10,000,000 annually is expected, together with tremendous gains in population, building and trade.

Electricity a By-Product.

The electric production and transmission facilities of two Loup river and Platte valley projects are coordinated with the Tri-county systems to achieve two aims:

1. Conserve the life-giving waters in Nebraska so that a maximum will be available for irrigation.
2. Produce electricity as a by-product and market it economically to serve homes, farms, industry and national defense needs.

Water released from McConaughy lake first produces electricity in from two to four hydro plants on its way to irrigators. Sale of this power helps pay for the irrigation system, making it possible to deliver water to farmers at lower cost.

Storage in McConaughy lake started last February 9, reaching its peak of 159,600 acre feet on June 21. That water now is being released for the Tri-county's first summer irrigation program.

British School Children Rent and Cultivate Farm

MAYFIELD, SUSSEX, ENGLAND.—The pupils of Mayfield school have started a farm. They rented a field for \$20 a year, plowed it for sowing and then bought rabbits, ducks, pigs and sheep.

They also have a market garden and the whole venture is paying so well that the children—none of them older than fourteen—are planning to buy another field next year for wheat.

The boys made all the huts, needed for stock, in the carpentry class at school. When the chickens were due, the girls carried the eggs into their classroom and hatched them in incubators.

Aluminum in His Teeth; One Teapot Lost to U. S.

DANVILLE, PA.—Mont W. Knarr was bothered with his false teeth so he and a fellow mechanic melted down an aluminum teapot and made a new pair.

Knarr declares his new set of teeth are far superior to the old ones and several dentists who viewed the homemade teeth said they were almost perfect.

Fish Clubbed to Death; Self-Defense Plea Wins

BOYNE CITY, MICH.—It is all right to kill a fish with a club in self-defense.

Youngsters playing on a Lake Charlevoix beach spied a pike, floating lazily. One of the boys touched the fish and it clamped its teeth in his hand, tearing the flesh. The boys pounced on the pike and beat it to death. It weighed 17 pounds. Conservation officers said they would overlook the incident.

THINGS for You to Make

and pencil inside the hinged door invites friends to leave word if they call when you are away. Practical, too, are the doorknockers—the red-headed woodpecker and the horse. And kitchen or dining room will welcome this clever cottage flower holder and the matching shade pulls.

Jig, coping or keyhole saw may be used in cutting these articles from wood—bright enamels for painting them. Pattern Z9310, 15 cents, gives outlines and complete directions. Send your order to:

Rising Barometer of Public Opinion Aids F.D.R. Battle Against Powerful Enemies

Roosevelt Refuses 'Catspaw' Role in 1933 Political Drama When Opposition Demands 'Rescue Party' Return Government Helm to Them.

By special arrangement with Collier's Weekly and Western Newspaper Union this newspaper presents in condensed form a series of articles by President Roosevelt currently appearing in that magazine. The articles are taken from the President's newly written introductions to forthcoming volumes of his state papers. This, the third article, contains the President's own story of the bitter battle to maintain and extend the gains of liberalism.

THE FIGHT GOES ON "The Constitution Prevails"—Part III

By Franklin D. Roosevelt
(Copyright, 1941, by Franklin D. Roosevelt and by the Crown-Collier Publishing Co. Reproduction in whole or in part is forbidden.)

The Continuing Struggle for Liberalism

IT HAS frequently been said that eternal vigilance is necessary to preserve our liberties. It is equally true that eternal vigilance is necessary to keep democracies and their governments truly liberal. We in the United States have had first-hand experience with that truism since the end of 1933, when, for the first time, the full effects of our program of recovery and reform began to be felt. For, as soon as the clear action of the new administration in 1933 had started the wheels of industry turning, there came the demand from some sources to stop all of the reforms, and to let things begin again to run on as they had during the previous decade.

Of course, the people of the United States have always understood that the new administration never intended to be a mere rescue party—organized to save the economic system and turn it over to the small, powerful group which had formerly controlled it through their concentrated economic power. The government in 1933 was determined not only to save the system, but also to remove from it the abuses, evils, and widespread maladjustments which had brought it to the very brink of destruction. The government was determined that the system, thus preserved and reformed, should no longer be subject to the control of the handful of men and corporations that had dominated it in the false boom days before 1929.

To carry out that determination was to resist, from 1933 down to date, all the efforts of mighty forces—day by day, year by year. These forces had tremendous interests at stake—wealth, privilege, economic power, political power. Although few in number, they had the resources which enabled them to make the most noise, and to become the most vociferous in the press, over the radio, through newspaper and outdoor advertising, by floods of telegrams and letters to the congress, by employment of professional lobbyists—by all the many means of propaganda and public pressure which have been developed in recent years.

Opposition Strengthens Efforts.
In 1933 the efforts of this minority, consistent in its opposition since 1933, rose to new heights. They had tried stubbornly at the polls in 1932 to stop our program of reform. They had failed. They had tried in 1937 to stop it in the courts, where they had been so successful during 1935 and 1936. Here, too, they had failed. Therefore, through the years of 1937 and 1938, their activities to impede progress and to bring about a repeal or emasculate of the New Deal measures of reform were redoubled.

There were several reasons for this particular burst of effort this year. First, the Supreme court fight, although it had been finally successful in obtaining its objective, had been defeated in the congress. The enemies of liberal government tried to halt that loss of a single battle as a defeat of the entire progressive program of the administration. A strong "putsch" was organized to try to make it appear as though the representatives of the people in the congress had, by failing to pass the Supreme court bill, repudiated the principles and conduct of the New Deal.

Second, there had come a substantial business recession—commencing in the fall of 1937, and continuing through the first half of 1938. These same minority groups sought at once to take advantage of it by blaming it exclusively on the attitude and legislation of the government, claiming that the administra-

Needing a preponderance of power to maintain liberalism in the front ranks of his own party councils and in the executive and legislative branches of the government itself, President Roosevelt took an active part in some of the primary elections of 1938. When cries of "purge" arose from administration critics, the Chief Executive, resenting the applied term, pointed out that his participation and expressed opinions of candidates, prevented the deliberate mis-use of his name by those falsely claiming his support. Above are four men whose opponents received the presidential support. Back row, left to right: Sen. Walter F. George, Georgia, and Sen. Millard T. Tydings, Maryland; bottom, left to right, Sen. Ellison D. Smith and Sen. Guy M. Gillette.

tion was "strangling business" and "ruining confidence," and preventing "full recovery."

In 1932 the national income had fallen as low as \$38,000,000,000 from a high in 1929 of over \$50,000,000,000. Since 1932 and for each and every year thereafter, up to and including 1937, the national income had gradually risen until it reached the figure of \$60,000,000,000.

Production Overtakes Sales.
This consistent and continuous recovery was stopped short in 1937 by several factors. First, the production and speculative buying of heavy and consumer goods had been increased by industry at such a rapid pace that it had completely outstripped the ability of the people of the country to buy such goods. The same thing happened in 1937 on a small scale, that had happened in 1929 on a prodigious scale, namely, the purchasing power of the consumers of goods had been exceeded too quickly and too greatly by the amount of merchandise manufactured. The result was that large inventories of stocks had accumulated, which could not be sold.

In addition, the prices of merchandise had been forced up by business too drastically during the year 1937, in spite of all the efforts of the government to discourage such inordinate increases. The mounting prices, in turn, contributed also to the inability to sell the goods manufactured, and helped to create a large excess of goods which could not be sold.

At the same time, with the steady rise of business through 1936 and early 1937, the government had begun to cut down its own expenditures for relief and work relief. It did so with the reasonable expectation that private industry, with its increased markets and output, would take up some of the slack, and provide some of the employment which had previously been furnished by the government through public works projects. In this the government miscalculated.

Liberalism Endangered.
All of the big guns and resources of pressure politics and modern propaganda were brought into play in late 1937 and 1938, to try to strike down liberalism in the congress and in the executive branch of the government.

NOTABLE EVENT

A series of articles by the President of the United States is a notable event in journalism. Seldom has any newspaper had an opportunity to publish anything under the name of any President. The present series of articles is a notable contribution both to history and journalism. This newspaper publishes the articles without bias as to the opinions contained in them.

The 'Round Table' Discusses Rural Social Problems

WILLIAMSTOWN, MASS.—A call to rural churches and women's clubs to assume responsibility for community conditions and the improvement of intergroup relations, was voiced in a Round Table report on the small community presented to the Williamstown Institute of Human Relations, held here biennially under the auspices of the National Conference of Christians and Jews.

In discussing the "critical" social problems of rural communi-

ties, the Round Table, which met daily throughout the five-day Institute, under the chairmanship of Dr. Benson Y. Landis of the Federal Council of the Churches of Christ in America, stressed the opinion that one of the chief problems is that of the small community "whose leaders think it has no problems."

The Round Table report stressed the importance of the rural family who do much to preserve and protect the family, as a unit.

Exercise for Health, Beauty

Double Chin Can Be Conquered

GETTING old? That double chin means only that you're getting soft!

Chin and neck exercises, you know, can vanquish a double chin, just as right exercises reduce fatty hips or a bulgy tummy.

Adaptations

The whole secret of living is to make adaptations as they are necessary. Let none of us try to insist that nothing should ever be changed!—Jane Addams.

Our 32-page booklet has exercise routines to correct all these figure faults, as well as poor posture, "dowager's hump," heavy legs. Also has general daily exercise routine, special exercises for relaxing tense nerves, relieving aching feet. Send your order to:

Made Most of Opportunity To Illustrate His Point

The prisoner charged with assault had been severely cross-examined by the prosecuting attorney, but still maintained he had just pushed his victim "a little bit."

"Now," said the prosecutor, "for the benefit of the jury, will you please step down here and, with me as a subject, illustrate just what you mean by 'a little bit?'"

The prisoner descended and the spectators were astonished to see him slap the lawyer in the face, seize him bodily, lift him from the floor and hurl him prostrate across a table.

Turning to the jury, he explained mildly, "Gentlemen, about one-tenth that hard."

INDIGESTION

what Doctors do for it
Doctors know that gas trapped in the stomach or gullet may settle like a lead weight on the heart. They set gas free with the fastest-selling medicine known—list tablets act like the medicine in Bellows Tablets. Try Bellows today. Legion-Auxiliary Notes

The regular meeting of the Legion Auxiliary was held September 11, 1941. The meeting was called to order by the President, Laura Norman.
 Reports of various committees were heard. Mrs. Nellie Rieley, Membership chairman reported fourteen paid members to date. Mrs. Beulah Scharf, Child welfare Chairman reported the payment of transportation by the Auxiliary of 3 children to Roswell to be fitted for glasses. The glasses were bought by the Red Cross. The treasurer reported the increase in the treasury of \$10 as a result of the sale of the Defense Plate and also the purchase of another plate.
 Plans for raising funds to be used in Child Welfare Work include a Benefit Card Party to be given Friday, September 26 at the Community Center Building.
 There being no further business the meeting adjourned. Refreshments were served and a short social hour terminated the meeting.

Edith McKinley,
 Publicity Chairman.
 Charles Dow was in town from Lincoln Monday visiting the Lary and Gene Dow families.

Chevrolet Offering for 1942

New massiveness, contributing to the smartest styling ever designed for the nation's No. 1 sales volume motor car, characterizes the Chevrolet offering for 1942, according to company engineers. The new car presented in three lines ranging from an economy model that incorporates unusual refinements to a luxury line surpassing all previous presentations in the lowest-price field.

As in past years, the new car is presented in the Master Deluxe and Special Deluxe series. The Fleetline series, introduced mid-season last year in sedan only, is represented again by sedan, known as the Sportmaster, and the new Fleetline six passenger Aerosedan, said to be one of the most attractively styled models in the entire showing.

The same attention to finished detail that is apparent in the exterior of the new models is noted at once inside the car. Smart styling, fine materials, and excellent design have produced the most beautiful and comfortable interiors that Chevrolet ever has offered.

Though wheelbase on all models is unchanged from 1941, remaining at 116", stylists have set the over-all length at 195 7/8", creating a long, low, sleek car that combines sweeping lines with a generally rugged appearance. Complete new front-end treatment, handled harmoniously, does much to convey an impression of greater size and increased sturdiness throughout.

A new, lower, wider, more massive grille with its havier bars gives an instant impression of bigness, while the blunter, deeper, hood, front splash shield, and more widely spaced Sealed Beam headlights contribute to that effect. Greater length is indicated at once by the new elongated front fenders, which flew back into the front doors, swinging with the doors as they are opened. The new fender design permits desirable clean, smooth surfaces. An ingenious touch is the new feet scraper at the front running board step pad, created by triangular extension of the new fenders.

Because the unusually successful Chevrolet engine developed for 1941 is retained with only minor refinements for the new year, power output remains virtually the same, assuring the same high performance characteristics so generally acclaimed last year. Axle ratios and tire sizes likewise are unchanged, insuring hill-climbing ability, acceleration, and general over-all performance at the 1941 level. Fuel and oil economy, long a Chevrolet trait, is also thus assured.

Local and Personal

Mr. and Mrs. Woods of the Oscura Store were business visitors here Monday.

Mr. Dan Conley came down from Santa Fe and spent last week end with his family. Washouts on the highway delayed his return trip to his duties with the department of Internal Revenue.

Mrs. A. B. Fall of El Paso was in town on business last Friday afternoon.

Southern Pacific Signal Maintainer, Howard Jones and family have moved here from El Paso.

Mr. and Mrs. Sherrill and grandson Thomas Cook, Jr., were in town last Monday from Three Rivers they report high water marks from recent rains.

Miss Barbara Smith spent the past week-end in El Paso. She was accompanied home by Miss Marjorie McClure who has been in Las Cruces but visited Carrizozo friends a few days before going to Roswell where she will be employed.

Mr. J. F. Lindsey, Southern Pacific Signal gang foreman spent the weekend in El Paso visiting friends.

Mrs. Marjorie Willis nee Nickels was here from El Paso the past weekend visiting her parents, and friends.

Mr. Earl Thornton returned from Bebe, Arizona last Saturday after a two weeks' visit at that point.

Mr. and Mrs. Bill Rush and Charles Snow were El Paso visitors last Friday night.

Eddie Provine and Jr. Leslie of Capitan were in town visiting friends here Sunday.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON (Consolidated Features—WNU Service.)

NEW YORK.—In the newspapers and on the street there is more and more talk of Donald M. Nelson for the one-man head of the national defense effort.

There has been much favorable comment on his showing in a recent radio debate on prices. Processed through several alphabetical scrambles at Washington during the last year, he has been appointed executive director of the President's new Supply, Priorities and Allocations board.

Mr. Nelson—probably would concede no more than a deprecatory wave of the hand to this miracle business.

Mr. Nelson's business career of 29 years has been given entirely to Sears Roebuck & Co., of which firm he became chairman of the executive committee in 1939.

He's slightly red-headed but isn't that way temperamentally. In this connection, he is an inveterate pipe-smoker, the same being the classical deterrent to going off half-cocked.

THE life of Artemus L. Gates has been one continuous anti-climax. From the day of his 99-yard run in the Yale-Howard game of 1917, he has been slipping steadily.

And now he has dragged along to 46 before being named by the President as assistant secretary of the navy for air.

He entered Yale from Cedar Rapids, Iowa, his home town, guessed right on our entering the World war, joined an apprentice flying group and was ready when the call came.

All this got passing mention in the public prints, as did his appointment to the presidency of the Liberty National bank in New York, in 1929, at the age of 33, but it was just a whisper compared to the uproar touched off by that 90-yard run.

At this writing Mr. Gates is president of the New York Trust company.

Others engaged in Wall Street activities who are on the up-and-up at Washington include Robert Lovett, (he not so long ago served as one of Mr. Gates' directors) who now has a war department post corresponding with Mr. Gates' new navy secretaryship.

Gasless Club of America Is Formed

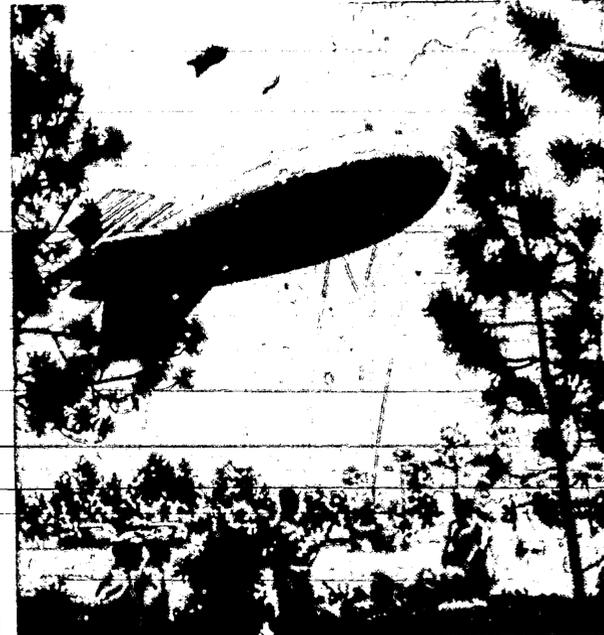

To help conserve gasoline, the Gasless Club of America is formed in New York city, with a number of socially prominent women taking to their bicycles.

'Pop' Patten Joins His Seven Sons in Navy

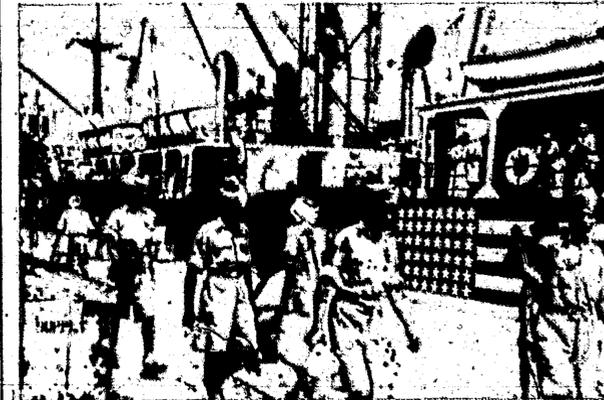

Saluted by admirals and bluejackets alike, Clarence F. ("Pop") Patten, 52-year-old former farmer and sawmill operator, joins his seven sons on the battleship Nevada.

Graduation at Barrage Balloon School

While two barrage balloons float lazily overhead, a group of student officers of the barrage balloon class at Camp Davis, N. C., is being inducted by Col. Perry Lewis.

Lend-Lease Material Arrives at Singapore

This photo shows one of the many crates of important war materials of the lend-lease plan on the Singapore docks.

Pointers on Pickling

Although some varieties of cucumbers because of special shape or unusual degree of firmness are better suited than others to preservation by pickling...

Three things are important to remember in gathering cucumbers for pickling: namely (1) They should be cut in such a way as to retain from one-fourth to one-eighth of an inch of stem...

SALT PICKLES Salt pickles are made by curling in a brine consisting of not less than 3 1/2 per cent of salt, at the start.

TIME REQUIRED FOR CURING

No attempt should be made to hasten the curing of cucumbers. From six weeks to two months is necessary for the process...

SMALL QUANTITY RECIPE

Gather the cucumbers as specified, with a small end of vine adhering; wash, and pack in a four-gallon jar and cover with a 10 per cent brine.

At the end of the first week, and at the end of each succeeding week for five weeks, add one-fourth pound of salt.

PROCESSING THE PICKLES

It is necessary, to make the pickles palatable, to process them somewhat, depending upon how they are to be used.

CHIEF CAUSES OF FAILURE

Probably the most common difficulty experienced in the making of pickles is that of softening.

The discovery of hollow pickles in a batch is often a disappointment to the housewife. While this condition is sometimes due to faulty development...

Being put into the brine. If the brine is made with hard water, the presence of the calcium or some other salts causing the hardness may interfere with proper curing.

Shriveling of the pickles will inevitably result if they are placed suddenly in very strong salt or sugar solutions...

FAT-TAILED SHEEP

The fat-tailed sheep, called Karakul, are natives of Bokhara, in west central Asia. When food is plentiful these sheep store up fat in their tails...

WAFFLES AT NIGHT—GUESTS' DELIGHT!
(See Recipes Below)

OUT OF THE WAFFLE IRON

Waffles! Um'm! Crisp and browned to suit the taste—a queenly dish, whether you're a homemaker who delights in calling in your friends—a "home body" who caters only to the family—or a lone eater who simply likes nice foods.

It's fun to make 'em. It's fun to bake 'em. And waffle baking has made so many homemakers—young and old—waffle-party conscious, that we've included in this week's column games especially suitable for waffle parties.

So why not be a hostess who is different! Invite the "gang" in for a neighborhood "waffle feed."

Your new deal in entertaining—whether your guests be clubwomen, daughter's pals, the high school basketball team, or hubby's cronies—will go down in social history. Mark our words!

Waffle recipes can be divided into two parts—the "ordinary" or "regular" waffle—good enough for anybody; and the waffles with trills and furbelows—gingerbread waffles, chocolate waffles, etc. So we give you some of each.

Waffles.

(Makes 6 waffles)
2 cups sifted flour
1 1/2 cups milk
3 teaspoons baking powder
3/4 teaspoon salt
3 eggs
4 to 6 tablespoons melted shortening
Separate the eggs and beat the yolks with the milk. Add the sifted dry ingredients, then the melted shortening, and last, the beating egg whites. Pour into hot waffle iron and bake until iron stops steaming.

Variations for Standard Recipe.
Pineapple Waffles—Reduce milk in plain waffle recipe to 1 cup and add 1/2 cup well-drained crushed pineapple.
Date Waffles—Add 1 cup chopped dates mixed with part of flour from recipe.
Ham Waffles—Add 6 tablespoons minced cooked ham to plain waffles.
Huckleberry Waffles—Add 1 cup well-drained, canned or fresh huckleberries mixed with 1/4 cup sugar.
Nut Waffles—Add 1 cup finely chopped nuts to standard waffle recipe.

Spiced Waffles.—Add 1 teaspoon cinnamon, 1/2 teaspoon cloves and 1/2 teaspoon nutmeg to batter for plain waffles. Nuts may be added to this.
Corn Waffles.—Add 1 cup well-drained, canned whole-kernel corn to standard recipe.

Yeast Waffles.
(Makes 5 waffles)
1 1/2 cups milk
1 teaspoon salt
4 tablespoons melted shortening
1 yeast cake
1/4 cup warm water
2 cups flour
2 eggs
Dissolve yeast in warm water. Add salt and melted fat, then milk and flour. Stir until smooth. Let

LYNN SAYS:

Care of the Waffle Iron. Most modern electric waffle irons should not be greased, but extra richness must be put into the waffle batter. This should be poured on the pre-heated iron from a pitcher or with a large spoon.
With continued use, the cooking surface is apt to become brown, and it is a mistake to remove this unless it becomes burned or too thick. During the occasional scorings, great care must be taken not to get water into the connection plug or heating element. A damp cloth or a soft brush should be used to free the iron from excess batter or crumbs.

THIS WEEK'S MENU	
WAFFLE PARTY	
Hot Bouillon	Sausages
Waffles	Syrup
Fruit Salad	
Homemade Chocolate-Mint Ice Cream	
Coffee	Milk

stand over night, or 1 1/2 hours. When ready to use, beat egg yolks, add to mixture and then add beaten whites. Bake 4 minutes on a very hot iron.

Fruit Sauce for Waffles.
1/2 cup butter
2 cups powdered sugar
1 cup crushed berries
1 egg white
1 teaspoon vanilla

Cream butter, add powdered sugar and when well creamed, stir in white of egg and vanilla. Mix thoroughly and add berries. Chill. Makes a delicious topping for waffles when served for supper, dessert, or even late-at-night as a "snack."

Gingerbread Waffles.

(Makes 6 waffles)
1 1/2 cups pastry flour
1/4 cup sugar
1/2 cup molasses
2 eggs
1 cup sour milk
1 teaspoon ginger
1/4 teaspoon salt
1 teaspoon soda
1 teaspoon cold water
1 teaspoon baking powder
6 tablespoons melted shortening
Beat eggs until light. Add sugar, molasses and sour milk. Sift dry ingredients together and add. Beat until smooth. Add shortening and bake 3 or 4 minutes. Serve with ice cream.

Chocolate Waffles.
(Makes 4 waffles)
1 1/2 cups flour
3 teaspoons baking powder
1/2 teaspoon salt
5 tablespoons sugar
2 eggs
1 cup milk
2 squares chocolate
4 tablespoons butter

Mix and sift dry ingredients. Add milk, beaten eggs, fat and chocolate which has been melted over hot water. Preheat iron 8 minutes and bake waffle for three minutes.

Apple Waffles.
(Makes 6 waffles)
1 1/2 cups flour
2 teaspoons baking powder
1 egg
2 tablespoons butter
1/4 teaspoon salt
3/4 cup milk
1/2 cup chopped apples
2 tablespoons lemon juice
Dash of nutmeg

Chop apples, add lemon juice and nutmeg. Let stand for 15 minutes. Sift flour, measure, add dry ingredients and add apples and butter. Heat waffle iron 6 to 8 minutes, pour on batter and bake two to three minutes. Serve with butter and brown syrup.

Here's a good game for your next waffle party. It's called CONSEQUENCES and is played as the old familiar Consequences. Paper and pencil are needed. Each person draws the head of a beast, bird or man, folds the paper over and passes it to

the neighbor on his left. Each person then draws a body of beast, bird or man, according to his fancy, and again folds the paper over. The last item to be added is the legs and feet. The paper is to be folded again and passed to the neighbor on the left, then all are opened. The results may be astonishing.

Drastic Millinery Changes For Autumn Fashion Parade

By CHERIE NICHOLAS

PREPARE to see drastic innovations in millinery fashions this season. Perhaps the most significant and startling is the new cover-up look that is achieved through curtain drapes, snood fantasies and various other intriguing devices.

There is an endless number of new pillboxettes on the fall program, which carries the accuracy of every one, being becomingly litted this season. Basic hats are all on the list, so you can be utterly conservative in your choice. You will find your favorite beret on the list, all types of draped turbans, pill-box chapes galore, bonnets from Dutch to frontier-woman types, call-ers wide of brim or not, mushrooms, and cloches (very face-framing this year) also call in versatile pleasing interpretations.

However these simply give start to the current millinery story. The big thrill is the revolutionary interpretations that daring designers are giving to the various type hats, through amazing back-curtain effects, cover-up devices and picturesque drapes. This all seems to convey a new message of "more hat than hair" in direct contrast to the long bobs showing as heretofore.

Below to the right, in the group illustrated is a very new pointed-pillbox type made of checked felt that achieves outstanding distinction and sophistication, via a coarse-mesh net snood draping, so voluminous it extends over the shoulders. Note also the decorative metal band ornament from beneath which, the snood emanates in gathered fullness.

Another hat that is making conversation in the fashion world is the profile beret. The hat below to the left, is typical of this new trend.

The dramatic pose given to dashing berets, to achieve a smart new look is perfectly demonstrated in this model, which is a black skirt-felt chape worn to accent the new profile silhouette. That there are many ways of wearing the popular beret, adds to its popularity this season. Not only is the profile beret outstanding but emphasis is also given to huge berets worn back on the head in pompadour fashion.

A tremendous revival of feather trims is anticipated, which is another "reason why" hats take on a different look these days. Not only does "fashion place" a feather in your cap but entire hats are made of feathers. And a perfect riot of feathers enliven the new fall fells, while dainty headgear will flaunt feathers in gayest mood. The little hat above, to the left, is typical of little feminine millinery confections, that call for cunning veils and the use of hatpins.

One characteristic feature of town and country wide-brim fells, is that crowns go low to any height, as you see in the model pictured in the upper right corner. In this instance, a striking hat-and-bag ensemble has been achieved with two-toned felt, bright blue and red glove stitching. Blue and red combinations is a "hot word" message broadcasting from fashion centers, not only for hats but for the entire wardrobe.

Sportsfests are very wide of brim this season and have a nonchalant swagger picturesqueness about them that is most intriguing.

(Released by Western Newspaper Union.)

CLABBER GIRL BAKING POWDER

Injures Self Envy choosers at others and wounds herself.

THE dress which is practically a requirement for college entrance is the jumper. It's the basis of every well-planned school wardrobe, for it can be worn with different blouses and sweaters in many interchangeable effects. Pattern No. 8018 presents a jumper which slim girls will like—it has a fitted waistline, marked with a chaped, wide belt. The top is supported with straps which cross

In a Minority

A well-known British dramatic agent, Golding Bright, who died recently, handled Shaw's plays among others. But on their first encounter Bright was in the gallery on a Shaw first night. It seems he was the only member of the audience who didn't like the play. Anyway, when Shaw came forward to take the "author" call, Bright greeted him with a full-lunged "Boo!" "Quite, my dear sir," said Shaw. "But what are you and I among so many?"

Reflections

The world is a looking-glass, and gives back to every man the reflection of his own face. Frown at it, and it in turn will look sourly upon you; laugh at it and with it, and it is a jolly, kind companion. —Thackeray.

Luxury Blouse

Evening and dressy afternoon blouses stress the luxury note more importantly than it has been for many past seasons. This distinguished blouse has an elaborate embroidery treatment expressed in multi-colored sequins, beads and metal threads. The use of rich and glittering embroideries for the new evening jackets follow the same trend. The new deep armhole seams so modish this fall, present endless opportunity to introduce ornate embroidery schemes.

Sweater V Necklines

Sweaters have become a campus and schoolgirl hobby. The fashion that stands pre-eminently forth as a favorite is the long torso pullover sweater with a deep V-neckline. The "big idea" aside is to wear this sweater in lightweight soft cashmere yarns over a smartly styled tweed skirt.

Two-Piece Effect For Fall-Winter

The two-piece effect whether simulated or actually so, is outstanding this season. Sometimes the skirt is seamed to a long-torso middy-like top so that it has the appearance of a two-piece, though it really is a one-piece. This type is particularly slenderizing to the figure inclined to curves.

Then the new tunic costumes interpret the two-piece vogue, being actually two-piece versions and not camouflaged. Tunics are running a big vogue, some straight-lined, others with a flare.

Peplums sewed on at the waistline make another interesting approach to the modish two-piece fashions. Youth seeks the peplum effects for they are especially adapted to slender hips but the more mature figure glories in the straight tunics and long torso bodice tops.

Fall Fashion Program Includes Lace Neckwear

Emphasis on lace neckwear accessories continues as important fashion news. The fact that classic simplicity is the rule for daytime dresses of sheer wools and smart velveteens, has caused a revival or rather sustained interest in lovely feminine lingerie neckwear touches. New in the present showings are deep lace-trimmed collars with half sleeves of matching lingerie to be sewed into bracelet-length sleeves.

Sequins and Appliques Trim Fine-Mesh Veils

Veils will be very ornate this season, with glittering accents of sequins or appliques of tiny felt flowers. Some are dotted with tiny suede stars. Very fine mesh veils prevail, some of which are bordered with span-gles, others having rows of heavy sequins to finish them off.

THE SMOKE OF SLOWER-BURNING CAMELS CONTAINS 28% LESS NICOTINE than the average of the 4 other largest-selling cigarettes tested—less than any of them—according to independent scientific tests of the smoke itself!

CAMEL THE CIGARETTE OF COSTLER TOBACCO

THE RIGHT SLANT ON REFRESHMENT

Pontiac Cars are New For 1942

The new Pontiac cars for 1942 which dealers have been receiving and which have been seen on the streets were announced officially Tuesday, Sept. 23.

Although this is a year when improvements are least expected, Pontiac engineers and production men have restyled the appearance and added several worthwhile mechanical improvements to produce a line of cars for 1942 that are worthy successors to the greatest year in Pontiac history.

Styling which Pontiac introduced two years ago with great success is continued in a fleet of two basic lines of models, the Torpedo with seven body models on the 119 inch wheelbase chassis and the Streamliner with two bodies on the 122 inch wheelbase chassis. Also, there are two Streamliner-Chieftain models with several added style features.

All models are available with either six or eight cylinder engines at the same small price differential of \$25 between sizes and eight that Pontiac established last year.

For the eighth year the "Silver Streak" continues as the most striking Pontiac identification.

There is a more generous use of plastics for decorative and ornamental purposes, while a new and attractive copper finish appears on the instrument panel, radio grille and clock replacing the chromium plate of former years.

Without change in wheelbases, all around impression of greater size by only slightly increasing the overall length and rebalancing the front and design appearance.

THE NEW CAR WITH THE NEW PRICE--GENERAL MOTORS' MASTERPIECE

ANNOUNCING THE NEW 1942 Pontiac Sixes and Eights*

New streamlined Sedan Coupe in Pontiac's lowest-priced line.

- Pontiac Triple-Cushioned Seats--even further improved--lead yours in 1942.
- New Unisteel Bodies by Fisher equal in quality--even exceed in beauty those of any previous Pontiac.
- Pistons and all vital engine parts are changed for 1942.
- Travel of the gearshift lever has been reduced 30%.
- Gas and oil economy has not been sacrificed.
- Front wheel brakes have been increased in size.

*ONLY 68¢ MORE FOR AN EIGHT IN ANY MODEL!

Proud To Be Doing Our Part

Pontiac is doing its part for National Defense by building a new type of rapid-fire cannon for the United States Navy. Two plants, covering 426,123 square feet of floor space, have been devoted to the

manufacture of these cannon. Thousands of craftsmen have been trained for the highly technical machines. This means building fewer cars--but Pontiac places defense work ahead of everything else.

SURPRISINGLY ADVANCED in style and luxury, the new Pontiac Sixes or Eights for 1942 today come sweeping into the spotlight--refreshingly new in appearance, but still the same, fast, faithful Pontiacs in time-tried quality. Two series of new Pontiacs include ten widely varied models--among them a streamlined Sedan

Coupe in the lower-priced series. New features are many. And in every instance, they represent actual improvement resulting from progress in design. We invite you to come in now to give these new Pontiacs your most thorough and critical inspection. You will find Pontiac today, more than ever, the *Fine Car* with the *Low Price!*

BINGHAM BREVITIES

Mrs. Juanita Kennedy, primary teacher, spent the week-end in Socorro, returning by bus early Monday morning.

Miss Lizzie Story made a trip to her home at Bosque, south of Beien, over the week-end. On Saturday the family went to Albuquerque.

Mr. and Mrs. Felix Spence were visitors at the State Fair in Albuquerque Monday.

Mr. Robert Dean of Lovington, New Mexico was out visiting his son, R. H. Dean, last week. The latter accompanied him home on Sunday, and returned Tuesday morning with an International Pick-up.

Wayne Kennedy rode his bicycle to his home in Socorro last Friday afternoon after school, and returned Monday afternoon.

The Bingham school was dismissed Monday for the children's free day at the State Fair. A bus load of school children was driven up to Albuquerque by Mr. Ted Myer accompanied by Miss Anabel Howell, the high school principal. The trip was made Sunday morning, the group arriving in Albuquerque that afternoon. Visits were made to the Municipal Airport, the City Zoo, and the fair grounds. On Monday the parade was viewed and the fair attended until time for the return trip on Monday afternoon.

Mr. and Mrs. Felix Spence were in Carrizozo on business last week.

Mr. I. J. Kennedy and Mr. J. Davis of the Rio Valley Building Co. of Socorro, arrived here Monday enroute to White. Store to construct some tourist cabins for Mr. McSmith.
