There may be many more worlds like ours than science ever thought. A famous Physicist explains why astronomers now have reasons to believe that when the Universe evolved planets almost identical with ours developed. Don't miss this illustrated popular science feature in The American Weekly, the magazine distributed with next week's Los Angeles Examiner

Mr. Henry Hoffman of Tucumcari attended the funeral of Dr. Freeman Tuesday and spent a few days with his family here.

Manson Hicks of Tucumcari, Southern Pacific employe, was in town last Tuesday.

Quiet Home Wedding

A pretty home wedding was solemnized last Monday morning at 10 o'clock when Miss Wilma Lorene Snow became the bride of Robert G. White of Silver City.

Preceding the ceremony Miss Lucile White, sister of the groom sang "O Promise Me," with Mrs. Ben S. Burns at the piano, after which Mrs. Burns played the wedding march. The bride entered escorted by her father Mr. C. A. Snow who gave her in marriage. Charles Snow Jr., brother of the bride, was best man. The groom's sister, Miss Louise White, was bride's maid. The Rev. J. A. Bell of Farmington officiated using the beautiful ring ceremony of the Methodist ritual.

Both the bride and bride's maid wore lovely blue dresses. The bride carried an arm bouquet of white carnations.

For something blue the bride carried a handkerchief which was made by her great aunt and used by her at her wedding in 1885. All members of both families were present. The out-of-town guests were the groom's parents, Mr. and Mrs. White of Mesilla Park; his sisters, Miss Louise White and Mrs. Mary Alice Kent of Clovis; Roy Connely of State College and Mr. Armstrong of Cliff, N. M.; Charles Snow Jr., of Belen; John Allen Bell, Douglas Bell and Miss Virginia Ann Bell of Farmington; and Mr. and Mrs. Champ Ferguson of Capitan.

After congratulations and felicitations were over the bride cut the large wedding cake.

The couple left their home in Silver City where the groom has his headquarters and where he had a furnished apartment prepared for his bride.

Congratulations

A daughter, Billy Jean, was born to Patrol Inspector and Mrs. J. G. Frye at the Turner hospital, on Tuesday, Dec. 30th. The maternal grandparents are Mr. and Mrs. W. O. Sibley of Natchitoches, Louisiana. The paternal grandparents are Mr. and Mrs. L. B. Frye of Robeline, Louisiana.

Mr. A. H. Aguayo of Nogal was in town Tuesday. Mr. Aguayo said his son, Herbert Claud, went to Albuquerque on Dec. 16 where he joined the Air Corps. He was sent to Fort Bliss and from there was transferred to Sheppard Field, Wichita Falls, Texas.

William Homer Hudson

Funeral and interment services were held Saturday afternoon at 2 o'clock at Stetson for William Homer Hudson of Hollywood, under the direction of the Kelley Mortuary. He died December 25 at Fort Stanton Marine Hospital after six days illness of pneumonia.

He was born May 26, 1897 in Marion County, Arkansas. He is survived by his wife Mrs. Laura Hudson, stepsons Lawrence and Floyd Cole of Hollywood, his father William H. Hudson, Sr., Fayette, Arkansas, half brother Jewel Hudson, Oklahoma, and a half sister Miss Essie Hudson of California.

Mr. Hudson was a long time member of the Baptist Church and of the American Legion. He served over seas during the World War I.

Not To Believe All You Hear

Disaster came to us at Pearl Harbor when, in violation of every international principle, our Oriental enemy struck a coward's blow while pretending to be striving for a peaceful outcome to the differences between Japan and America. Immediately there was an outcry that a scapegoat be found for the happening.

Before the facts were known or could be known there was some perfervid oratory attributing negligence and incapacity to the officers entrusted with the defense of our stronghold in the mid-Pacific, demanding court-martials, and whatnot. Undoubtedly there will be the closest sort of investigation by the naval authorities of every phase of the Pearl Harbor incident. That is martial routine. But the time for making such an inquiry is not now when the American navy is scouring the seas for the enemy ships and when the officers who alone know all the facts cannot be called home to appear before a proper tribunal.

Rarely has a war been fought in which every engagement was a victory and still more rarely has there been an international conflict when the enemy has not out-guessed the other fellow.

Certainly it was untimely, to say the least, for a Senatorial outburst based on gossip and rumor and that outburst was fittingly characterized by Senator Walsh, chairman of the Senate Naval Affairs Committee, and others on the floor. The circumstances mentioned by Senator Tobey of New Hampshire, pointing to lack of vigilance, unreadiness, and worse, he admitted were founded only on what some other Senators had told him. He did not know, and his alleged informants did not know, and could not know, whether there was any foundation for the terrible accusations. Ultimately, of course, every circumstance will be disclosed and action if action is required, will be taken.

As was pointed out in the Senate debate, any Congressional investigation would disclose the very information that our foes would like to have, as for example, the extent of the damage to the ships and just what our precautions at Pearl Harbor and Honolulu against such raids consist of. The enemy that struck and fled can know none of these details.

It will be remembered that the Nazis reported the complete destruction of the British airship carrier Illustrious, to cite just one example, and did not know of their error until the great ship, steam-

Public Installation

The joint public installation of Stars and Masons was held last Saturday night at the Masonic Temple. Just preceding installation ceremonies an elaborate banquet was served to about 75, the Stars being sponsors and servers. Much praise was bestowed upon the ladies. Mrs. Don English had charge of decorations, and they were extremely beautiful and appropriate. Mrs. Frank English was banquet chairman. Mr. Anderson was installed as Worshipful Master and Mrs. Mattie Kelley was installed as Worthy Matron. Just preceding the installation of Masonic officers, Messrs. Frank English and T. E. Kelley performed a very solemn rite by cremating a note for \$1700, which Mrs. Burke had loaned the Masons and which had been paid off. Following this a rising vote of thanks and three cheers were given Mrs. Burke.

Mrs. Vena Elliott was installing Marshal for the Stars. Mrs. Burns was installed as pianist. A complete list of officers will be published later. Mrs. Boston as retiring Worthy Matron presented her officers with leather receipt cases.

Peter Roger Phillips

Funeral services for Peter Roger Phillips who died here Sunday evening were held at 2 o'clock Monday afternoon at Angus.

Mr. Phillips was born January 31, 1885 in Tom Green County, Texas and came to New Mexico with his parents when a very small child. He married Roseall Carleton who survives together with three children, Allene, John and Joseph. He is also survived by his mother, Mrs. John W. Phillips of Carrizo.

Mr. Phillips was a ranchman and was well liked by a host of friends.

New Year's eve was celebrated at the Carrizozo Country Club with a dance. Heavy Stewart furnished the music.

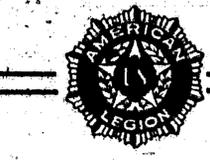

ing under its own power, came to a United States port for repairs.

Quite apart from the inadvisability of seeking the sadist satisfaction of trying to fix the blame at this particular stage of hostilities is the danger that lies in giving credence to surmises or mere inventions that start no one knows where and are magnified as the stories are passed along. The other day it was broadcasted all around, and probably published in some papers, that enemy bombers were within an hour and 20 minutes of New York, that enemy warplanes had been seen over Boston, etc. There was not a word of truth in the story.

A few days later we got the story in another shape, to wit, that on the morning of December 12 New York had actually been bombed. In the old World War we had to deal with many similar stories, these were supposed to have been given currency by fifth column agents, though that particular term had not been coined then. It is not impossible that the yarns of today may have come from a corresponding source.

The lesson of all this is not to believe all you hear. While it is wise to be prepared for anything, it is supremely stupid to get the jitters from every unfounded report that drifts from unnamed and unknown sources.

Who's Who And Where In The Service

Important Notice

In writing to men in the Service BE SURE you have given his full and complete address. Many of our boys are not receiving their mail on time due to this neglect. Give full address as we have previously listed them in this column. It is important to give Rank, Company, Battery, or squadron number and alphabetical letters attached to address to facilitate prompt delivery of mail to these men.

Rainbow Notes

Carrizozo Assembly No. 7 will hold the regular meeting Thursday January 8th at the Masonic Hall at 7:30 p. m. This is an important meeting as it is election of officers for the first quarter of 1942. It is the time to pay your dues for 1942. Those expecting to vote or to hold office must have their dues paid for 1942.

On Saturday afternoon, January 10, at 1:30 p. m. the Roswell Assembly accompanied by the Mother Advisor, members of their Advisory Board and Colonel E. L. Lusk will be here to initiate our class of members. Masons, Eastern Stars and Rainbow Girls are cordially invited to be present and witness this ceremony. Roswell constituted Carrizozo Assembly for Girls in 1928 and we are very glad to have them with us again. Come and give the Rainbow Assembly your moral support.

Maude L. Blaney
Officers:
Worthy Advisor - - Jane Gallacher
Mother Advisor - - Mrs. Blaney

Fort Headquarters Sheppard Field, Texas

To The Lincoln County News.

Sheppard Field, Texas, Jan. 1, 1942. Beginning the first lap of a course that eventually will give him a rating as an aviation mechanic, Pvt. Charles H. Provine, of Capitan, New Mexico, today is enrolled in the Mechanics School at Sheppard Field, Texas, the world's largest Air Corps Technical Training School.

Pvt. Provine, attached to the 318th School Squadron, began class work Nov. 10 and is scheduled to graduate in February. The son of Mrs. R. B. Provine, Capitan, he attended New Mexico A. and M. College.

At present, Pvt. Provine is in the sixth week of School and is studying propellers. Before he qualifies as one of the eight specialists necessary to keep one plane in the sky, Private Provine will have undergone intensive training designed to give him a complete working knowledge of the battle birds.

A revelation that will startle you! What the Japs may have learned from the Nazis to blast minds and nerves. Don't miss Joseph Gollomb's important story aimed at sabotaging American morale. Read it in The American Weekly, the magazine distributed with next week's Los Angeles Examiner.

Dr. Carl Elmo Freeman

Prominent Carrizozo Citizen Passed Away While Visiting in California

The death of Dr. Carl Elmo Freeman, in its suddenness, in its tragedy, came as a shock, not only to everybody in this community, but to people throughout the state.

Dr. Freeman accompanied by his daughter, had gone to Pass Robles, California, to spend Christmas with his son, Lt. Carl Albert Freeman who is stationed there prior to being transferred to another fort. On the morning of December 26th he was preparing to start back home, when a sudden heart attack caused his death.

Dr. Freeman was well-known almost everywhere in the state; he was outstanding in his profession, was state chairman of the bureau of animal husbandry; was a member of the cattle sanitary board; a gifted writer upon subjects connected with his profession, and will be greatly missed by many.

He was a father of whom his children were justly proud; as a friend and neighbor he was pleasant and loyal; as a citizen he was progressive and aggressive and even militant in his advocacy for what seemed best for the community; as a soldier he went through two wars in loyal service to his country and at the time of his death was Major in the Reserve Corps.

The Rev. John L. Lawson conducted the funeral services at the Freeman ranch home at 8:00 o'clock Tuesday afternoon, Dec. 30, 1941. A choir sang two hymns followed by prayer by Rev. John Klassen after which Rev. Lawson gave an address. After his eulogy he spoke of the hospitality that had been extended to so many by this pleasant family and of the vast crowd present, we feel sure almost everyone there had at one time or another enjoyed the hospitality of this family. After dismissal at the home the remains were taken in charge by the Masons and were interred in the local cemetery under the auspices of the local Masonic Lodge.

Dr. Carl Andrew Elmo Freeman was born in Missouri in 1881. He was married to Miss Rhoda Belle Callahan in 1902. He was graduated from the Veterinary College of Kansas City in 1907. They came to New Mexico and lived at different points, locating here in 1915.

His survivors are two daughters, Miss Rhoda Freeman teacher in the local school; Mrs. Elizabeth Pruitt of Bowie, Arizona; and Lt. Carl Albert Freeman of Pass Robles, California.

Pail bearers were: Messrs. Don English, L. A. Whitaker, Orville Smith, Curtis, Perry, Sears and Dr. Kemper.

Flower girls were members of Eastern Star, Mesdames Ada Edmiston, Jimmie Baxter, Henry Hoffman, Frank English, Paul Mayer, Sid Bostian, Elizabeth Sprules and Mrs. E. T. Collier.

The American Legion string squad composed of Marvin Burton, Marshall St. John, Homer McDaniel, Jim Greer, Tom Shields and Wm. Gallacher, commanded by Mr. Brewster, fired. Mr. Brewster sounded taps while soldiers present stood at attention; after which the flag was folded reverently; Mr. Gallacher presented it to Miss Rhoda Freeman.

The array of brilliant, colored flowers and lovely sprays were mute evidence of the sorrow felt by his many friends.

Mr. L. P. Gonzalez of San Patricio, member of the Lincoln County board of education was here this week.

KNOW YOUR BANK

Why Public Banking hours are Short

Many people wonder why banks are open for comparatively few hours each business day. This gives rise to a misconception that bankers' hours are also short.

The fact is that much of a bank's work must be done after it closes its doors in the afternoon, work which cannot be completed while the bank is serving the public. Checks received during the day must be posted to customers accounts, or listed and sent to other banks for collection. The day's entire transactions must be entered, and the books balanced at the end of each day. If they don't balance, employees must remain until the error is corrected.

At times there are "peak loads" that require considerable work after public banking hours, such as periods when statements are being mailed to customers.

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
(Consolidated Features—WNU Service.)

NEW YORK.—Commentators and war correspondents are now recalling the famous "Memorial to the Emperor," supposedly written by Baron Gi-ichi Tanaka in 1927, in which, if the document was not a forgery, Japanese plans for world conquest were formulated much in the manner of Adolf Hitler's blue print for homicide in "Mein Kampf."

Baron Tanaka died September 29, 1929, a few weeks after the fall of his cabinet, his premiership having lasted about two years.

This department is supposed to deal only with the living, but breaks pace today to note the possibly historic significance of the baron and his document—and the life story of the suave little man who died of high blood pressure, at 68, after many years of deep absorption in "sword romance," the Japanese equivalent of the blood and thunder pulp thrillers of our country.

History may give him a nod in view of the fact that his document kicked off the later steps of Japanese aggression as neatly as a pool-player calling his shots. The Japanese repeatedly have denounced it as a forgery. Whatever it was, it jumped the clock and told "the shape of things to come."

The first reference to the document in this country, so far as this reporter could discover, was in published quotations from the Russian newspaper, Pravda, of November 5, 1931. Pravda did not reveal how it had obtained its copy of the "Memorial," but it stored it out as "a startling revelation of the Japanese carefully prepared plan for world conquest."

"Japan's aggressive tendencies will not end in China," said the Pravda article. "She has designs on the Philippines, the Malayan archipelago, Guam, Tahiti, Samoa and Australia. It preaches a fight for a new division of the world, for it is inseparably linked with conflict among Imperialist nations for control of the Pacific."

The newspaper then quoted from the document:

"If we intend to gain control over China, we must first crush the United States. To capture China, we must also crush Manchuria and Mongolia. In order to conquer the world, we must first conquer China. If we succeed in conquering China, the rest of the Asiatic countries and the South Sea countries will fear us and surrender to us."

For understandable reasons, the Pravda story got scant attention in the American press. Tanaka Memorial; in view of many previous propaganda stories issuing from this source and was, for the most part editorially dismissed as an effort to "cause dissension among friendly capitalist nations."

But, American correspondents, digging into the story in the Far East, discovered that, in 1923, the "Memorial" had been examined by members of the American Council of the Institute of Pacific Relations, in Mukden. It was submitted to them by members of the entourage of the Chinese Marshal Chang Hauch-liang. One of this delegation was reported to have said:

"We pledge the full authenticity of this document and we plead with you to understand that Japan has begun a program of world aggression which inevitably must involve the United States."

So far as we can learn, news of this incident was not published in this country until after the Pravda story. This, however, is not certain. It may have appeared in some American newspapers. This writer remembers a long article in a British newspaper of five or six years ago, the Manchester Guardian, if memory serves, in which was cited documentary evidence of the validity of the document and pleaded for a re-shaping of British policy in the Far East and the strengthening of the naval base at Singapore.

On April 23, 1940, Rear Admiral J. K. Tausig, retired, appeared before the senate committee on naval affairs and insisted on the validity of the Tanaka Memorial. He begged for a consideration of Japanese relations in this light, but the navy, however, repudiated his testimony. Pierre Van Paassee, in his recently published book, "This Day Alone," reviews the history of the document, defends its authenticity and launches invective against the stricken world for failing to heed it.

Benito's Contribution to Singapore Defense

These Breda guns, captured from the Italians in Libya, are being reconditioned in Malaya for use against Jap invaders. During Wave's desert blitz a tremendous amount of Italian equipment was taken by the British. It has since been useful on other fronts, and will serve the allied cause again in Malaya.

U. S. Battleship Arizona Goes Down

The U. S. S. Arizona on fire and sinking in Pearl Harbor after sneak raid by Japanese bombers. The 25-year-old battleship was destroyed by the explosion of the first of its boilers and then its forward magazine, due to a bomb which was said to have literally passed down the smokestack.

String of 'Valentines' for Axis

At a U. S. army airport, somewhere in the U. S., a ground crew is making adjustments to a string of 600-pound bombs before the missiles are loaded into a bombing plane for delivery at . . . ?

Where U. S. Troops Are Meeting Japs

Above is a view of the rice fields of Aparri, on the northernmost tip of the island of Luzon, which is the principal island of the Philippines. The Japanese were reported as succeeding in landing troops in this rough terrain, but met with stiff resistance from U. S. troops. Manila, on this island, was the first major Jap objective.

From Wake Island

J. B. Cooke, Wake Island airport manager, and his wife and two children, Bleecker and Phillip (front), shown upon their arrival at San Francisco on the clipper plane. This was the third clipper to arrive safely from the war zone. All passengers commented on the high morale of the civilians in Honolulu. Wake Island is one of our far-Pacific outposts that has held out so splendidly against the Japs.

Fortify Hong Kong

A motor torpedo boat, the British navy's newest weapon for harbor defense, makes a test run across Hong Kong harbor. In the background are two lumbering Chinese junks. This "Gibraltar of the East" has lent its might in repelling Jap attacks.

War Jobs for Women

Lieut. James Hoey of New York shows a group of members of the American Women's Voluntary Services how to slide down a pole in his Archery. The women have enrolled for defense training courses. The organization announced a shortage of trained switchboard operators and auto drivers.

To Direct Chinese

Lieut. Col. O. L. Cheatham, famous U. S. flying ace, who will direct a Chinese aerial offensive against Jap bases. The 31-year-old Texan is a veteran of World War I.

Reindeer Farming In Alaska

Nearly all Americans are still close enough to pioneer conditions—if not in actuality, at least in spirit and heritage—to be interested in the development of the reindeer industry in Alaska.

The reindeer were imported into Alaska from Russia during the decade between 1891 and 1902. They were established on the Seward peninsula—about 1,300 of them—and from that beginning have been developed the present immense herds, numbering now approximately one million. The herds are distributed from Point Barrow in the north to Kodiak island on the south, and from the Bering sea inland to Ophir, with the heaviest population still on Seward peninsula.

The original purpose of the importation was to supply food for the Eskimos but the herds have been so successful that it is now possible to export reindeer products, the most important of which are meat and hides. Reindeer hides are delicate and pliable, and are much used for the manufacture of kid gloves and leather jackets. Of course they are also used where they are produced, for a variety of purposes such as the manufacture of boots, leggings, parkas, sleeping bags, mittens, socks and trousers.

FUTURE OF INDUSTRY

Various conditions tend toward stability of the reindeer industry in Alaska. For one thing, there are in that territory at least 200,000 square miles of grazing land which is particularly suited to raising reindeer. Further, when reindeer are slaughtered for market, there is practically no waste in the carcasses. Not only is the flesh, including heart, liver and tongue, good for human consumption, and the hide suited to the manufacture of many necessary articles of apparel, but even the antlers, bones, viscera and blood are used in the preparation of food for the dogs which are indispensable in that region and for the foxes raised on various fur farms.

Moreover, reindeer are of gentle disposition and easily handled. Except in the mating season, when the bucks become dangerous, it is possible to go freely among a reindeer herd, just as one would among beef or dairy cattle. It has been said, by those familiar with them that "they flock together, like sheep, graze more like cattle, and in intelligence and activity more nearly approach the horse." They become attached to any accustomed range and if moved away, will return to it. They are good swimmers; they graze on the wettest ground and, like the moose, will frequently wade out into a pond or lake to feed on aquatic plants.

REINDEER RANCHING

Many features common to the reindeer country remind the observer of the Old West. The reindeer are herded in much the same manner as were the cattle on the old western ranges, and are rounded up at intervals for marking or branding, for sorting, and for marketing.

APPEARANCE OF REINDEER

The reindeer pictured with Saint Nick have been considerably idealized, running mostly to slim legs and branching antlers. Actually, the reindeer, which is a domesticated caribou, although symmetrically built, gives an impression of stockiness. In color reindeer are brown and gray, with head and legs dark and with a white mane. Individual animals vary somewhat from this pattern and may even be all white or spotted. The average full-grown reindeer stands from 42 to 44 inches high. The average dressed weight is about 150 pounds, infrequently increasing to 200. Both the males and the females bear antlers which are grown and shed each year.

CALL OF THE WILD

For young men and women with the blood of pioneers in their veins, with good health, and with a willingness to endure the cold of the Arctic and sub-Arctic regions, reindeer ranching in Alaska has great attraction and promises reasonable returns. At the present time, the reindeer rancher does not have to depend entirely upon experience to learn how to manage his herd. A Reindeer Experiment Station was established at College, Alaska, in 1923 and substations are maintained at Nome on Nunivak island in the Bering sea.

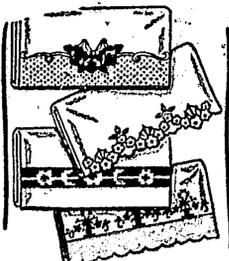

For additional information, send five cents to Superintendent of Documents, Washington, D. C., asking for Department of Agriculture, Miscellaneous Publication, No. 207.

SPICED NUTS

Sift together, three times, the following dry ingredients: 2 cups confectioners' sugar, 1/2 cup of cornstarch, 2 teaspoons of salt, 1 teaspoon nutmeg, 1/2 cup of cinnamon, 2 teaspoons of ginger and 1 tablespoon of ground cloves. Beat 1 egg white, slightly, and add to it 2 tablespoons of cold water. Place in a wire strainer 1 1/2 cups of nut kernels and dip into the egg mixture until each nut is well coated. Drain the nuts, roll them in the spice mixture, and bake for three hours.

SYNOPSIS

THE STORY SO FAR: Bruce Harcourt, Alaska engineer on a rare visit to New York to confer with heads of his company, finds a lady slipper, black and white, tucked into his pocket, in the middle of Fifth avenue. He is leaving the next night for the North. He tries to find a secretary for the camp but none of the men interviewed wanted to go to Alaska. He answers an ad asking for the return of the slipper. To his amazement, the girl who lost it is Janice Trent, sister of a college chum whom he knew as a kid. Janice is to be married to Ned Paxton, rich, but a bit too gay with the ladies. Janice and Ned quarreled in an auto and she was about to leave but changed her mind. The slipper, however, had dropped off. Bruce impulsively asks her to break off the marriage. But she leads him on to talk of Alaska. Now continues with the story.

CHAPTER II

What had Janice meant by that? But Bruce kept blithely on. "I referred to the breaking up of the winter ice. We've been building a bridge. It spans a river which flows between living glaciers."

"It makes my teeth chatter. It sounds horribly cold!"

"Cold! I'll say it was cold. Snow storms were continuous. But it isn't always like that in winter. There are days when the banks of streams are vague and misty with young green and you can smell spring in the air. The summers are glorious. Sunshine days. Birds singing. Long twilights. Ferns and brilliant flowers, fruits and vegetables, double the size of those grown here."

"Do you live in a tent when—when on location?"

"By 'on location' do you mean when I'm at headquarters? A tent! I'm a house-owner. Three years ago a young architect joined the outfit as a draftsman. Someone had fooled him into thinking that the experience in the frozen North would lengthen his life. He came with an outfit suitable for winter sports and a pair of pearl-handled revolvers. To keep him cheerful and occupied I suggested that he draw plans for a log house for me, he was not physically fit for anything else."

"What is it like? I'm all excited."

"He called it an H house. It is built of logs chinked with moss. There is a long room in the middle with the length of the rooms at either end going the other way." With a pencil he drew the letter on a card. "Like that. Stone chimneys at each end of the living-room provide fireplaces for the other two rooms. We use these in summer; in winter good old Yukon stoves are the only things which will keep us warm. Having gone so far in our plans, we lost our heads, went cuckoo and added a model kitchenette and a bath for each bedroom. Sent for codes of price-lists and catalogues of fittings. The boy architect and I had the time of our lives selecting them. I spent money like a drunken sailor."

"Did the boy architect get well?"

"No. 'Twas a tough break for him. He was the nephew of the Camp sisters."

"Your H house sounds marvelous."

"I wouldn't have believed it could mean so much to me. When I rush into headquarters behind my dog-team, I can see, perhaps through falling snow, smoke curling upward from the chimney. The glow from lighted windows sets the fancies which fringe the eaves agleam. Snow piled almost to the roof sparkles like an old-fashioned Christmas card. Although I know that only my husky, Tong, and my house-boy, Pasca, are waiting for me, a sense of home-coming warms me to the marrow."

"Into the silence which followed boomed the voice of a tower clock. She rose quickly."

"I've kept you here talking and talking. If you don't hurry you will miss your train—I wish—I wish I dared make you miss it."

He caught the glint of tears in her eyes as he laid the costly wrap across her shoulders. A tide of passionate desire to pick her up in his arms and run away with her possessed him.

At her door he said unsteadily:

"You've given me a wonderful memory to carry back to Alaska."

The quick, almost frightened clutch of her fingers, touched his blood with flame.

"Don't marry him, Jan. Don't—"

She twisted one hand free to press it against his lips. "Don't say it. Then you'll never be sorry. Good-night."

He kissed the slim fingers fervently. "Good-by," he whispered.

From a spur on an Alaskan mountainside, Bruce Harcourt regarded the recently completed bridge which straddled the river. The breakup was due any hour, any minute.

"It won't be long now before we know how good we are," he told himself. He turned at a hall. "A man, almost as broad as long in his Eskimo park, which hung down to meet the tops of his skin boots, was hurrying toward him."

"Tubby! Back so soon? Boy, but I'm glad to see you!"

Theodore Grant Junior's great eyes responded to the affection in the greeting. His face was rough from lack of a shave, but his teeth showed healthily white as he grinned.

Your H House sounds marvelous.

"I've got him, ba-gosh!"

"Got who?"

"Got who? Has your memory frozen up? The secretary. An assistant for myself, Theodore Grant Junior, accountant extraordinary for this branch of the Alaskan Expeditionary Force to crack a way through the great Northwest."

"How did you get him?"

"From an agency in Seattle. They sent him on the first boat. I'll bet the old tub had to plow and crush its way through ice. And keep your shirt on, Bruce. I brought the Samp girls."

"The Samp girls! Tubby! Have you gone plumb crazy?"

"Now listen!"

"Listen! Look here, does Hale know?"

"Hale! What's he got to say about it?"

"Considering that he's chief of this outfit, considerable."

"Chief! Who's had to take his place most of the time this winter? You. He opened up high, wide and handsome while you were away. He got the Indians on their cars, driving them like slaves when he was sober and chucking their squaws under the chin when he was plastered."

"Just the same why the dickens did those two women leave the Waffle Shop at headquarters, which is remote enough, to come out here to this wilderness of snow and ice?"

"That's what I asked them. Martha inveigled me into the shop to talk it over. Heaped my plate with the hottest, crispest waffles, dripping with melting brown sugar and butter, Bruce—butter; filled my cup with honest-to-goodness coffee and reminded:

"Mary and I can't do missionary work with books, but we can with food. One of the biggest forces which prods men on to deviltry is the trash they put into their stomachs. That bridge you're building is a big thing for the country. I've been talking with the men who worked on it. They claim that 'twill stand or fall in the spring break-up."

"She's right."

"Martha argued that we wouldn't be here long, that she and Mary would like to see the interior, and on and on ad lib, ad infinitum. That she wanted to keep our courage up with good food. She has the missionary spirit, all right."

Waffles and brown sugar! Real coffee! Harcourt's opposition ceased.

"Now that they are here, they will have to stay. I can't spare a man to take them out. Got your secretary located?"

The Samp girls have taken him under their wings. He's no cave-man. Even in his parka and mukluks he's as slim as a fishing-rod. He's got a little mustache like the down on a yellow chicken's back, black curly hair—big crimson spots on his cheeks."

"I get you, T.B. That's why he was willing to leave the land of lights and movies."

A workman came running toward them.

"Chester," he said, "sent me to tell you the false works has suddenly moved!"

Harcourt's face whitened. The false works! The two thousand piles which had been driven forty feet into the bottom of the river!

"How much! Quick!"

"Fifteen inches! Sudden as the crack of doom!"

"Where's Hale?"

"Gone back to headquarters with his dog-team. Said everything was O.K. Didn't need him; he'd take the boat out to Seattle to get Mrs. Hale. Said you'd had your leave, he'd take his."

"Gone! Without letting me know! Get every man out, Tubby!" Harcourt started on a run.

In the prolonged nightmare which followed, Bruce Harcourt felt as though he were his own double looking at a great motion picture. Steam from every available engine was turned into every available feed-pipe. Men chopped seven-foot thick ice away from the piles. A stinging needle-pointed Arctic night settled down. The river roared. The forest quiet was broken by the chop, chop of picks. The piles must be kept free. Hundreds of cross pieces were unbolts. The shifting into place began. No man relaxed his vigil-

lance until another stood ready to go on with his job.

If he thought of anything but the bringing back of the bridge into place, Harcourt thanked God for the Samp sisters. They were indefatigable. They made the men stop for hot coffee and waffles put together sandwich fashion with succulent brown sugar. Once he glimpsed a boy hovering in the background. The new secretary?

Melting. Chopping. Coaxing. Melting. Chopping. Coaxing. The hours dragged on.

Inch by slow inch the span settled back on its concrete bed. Haggard, exhausted, with a two days' growth of beard on their faces the engineers watched the last bolt driven in. From the distance came a faint rumble. It increased in volume.

Grant clutched Harcourt's arm. "It's coming!" he whispered through stiff lips.

The rumble increased to a roar. The river had broken loose. Carrying ice and timber before it, it swept along on its mad rush to the sea.

Rigid, tense, the two men watched the wreckage and ice sweep by. The bridge stood immovable against the onslaught. Grant's eyes were unashamedly full of tears.

"You've done the trick, Bruce. This day will mark a crisis in your life and Hale's."

"What's the name of that secretary of yours, Tubby?"

"Jimmy Delevan."

"Delevan? Did he help during the late excitement?"

"Sure he did. He was everywhere. Perhaps not so helpful in some spots as in others. One of the men found him freeing a snowshoe rabbit which had been snared. When he explained that the rabbits were the chief source of feed for the dog-teams, Jimmy Delevan went quite white, walked off without answering, but with the rabbit clutched tight in his arms like a baby."

Three shrieks of a small steamer's siren echoed and re-echoed among the snow-tipped mountain tops.

"E-o-a-t! E-o-a-t!"

The cry set in motion Eskimos and Indians, countless uncanny echoes. Dogs responded with wofish wails.

"I never watch that boat come in but I wonder what turn old Fortune will give her wheel," observed Grant at his elbow.

"Its arrival is packed with significance, Tubby. So many on this last frontier have past."

"I'll bet the wheel turns for Hale this time. He and the Mrs. are coming in on this boat. It's six weeks since we fought to save that bridge. He went off to Seattle before he knew that it would stand the break-up. I'm mighty sorry for his wife, but our reports went by air, must have reached the authorities weeks ago."

"I made mine as charitable as possible, considering the fact that a flaw in construction imperils hundreds of lives and wastes thousands of dollars."

"I'll bet you put on the soft pedal, Bruce. In the interest of cool and impartial accuracy, Jimmy Chester—ba-gosh, how he hates Joe Hale, if he is his brother-in-law—and I didn't, in my capacity as accountant for the outfit I reported unvarnished facts. Here come the mail-bags and Stephen Mallory. It's good to see the Dominie again. I'm glad we're back on the coast, even if we are hundreds of miles from civilization. I wonder how long we'll have to stay in this raw place?"

"Until we have developed a railroad terminal! The authorities have decided not only to extend the tracks north but to connect the Alaskan system with Seattle, San Francisco and Los Angeles. That's what I've been doing these last six weeks. Even got a piece of track laid as an object lesson. Left Jimmy Chester in charge. He's a human dynamo, in spite of the fact that he looks like a stage Romeo. Part of this outfit is to scout by plane and report bridge possibilities. That means that next winter we'll begin pier-setting again. How's the new secretary working out?"

(TO BE CONTINUED)

FIRST-AID to the AILING HOUSE

By ROGER B. WHITMAN

(© Roger B. Whitman—WNU Service.)

Cleaning Rugs and Upholstery
SOILED carpets, rugs and upholstery can be cleaned by shampooing with soap jelly. Ordinary soiling will come out easily, but other methods should be used for obstinate and unusual stains. These may call for professional work. Further, shampooing should be applied only to fabrics of which the colors are fast.

The jelly is made of chips or flakes of pure and mild soap; the kind of soap that is used for fine laundering. Four cups are put in a bowl or wide-mouthed jar, and one cup of water is added. The jelly will form within an hour. A portion of the jelly is put into a mixing bowl and beaten with an egg-beater, which will raise suds as stiff as whipped cream. Using a soft brush, jelly is worked on the fabric in a space 12 inches or so across. After a few minutes for the loosening of the dirt, the space is wiped with a cloth damp with clear water, and with a stiffer brush, the nap is brushed in its proper direction. An adjoining space should then be cleaned. The suds are so dry that upholstery fabric will not be soaked, as would be the case with soapsuds as usually used. After cleaning, the fabric should be quickly dried. A rug can be supported on boxes and chairs, so that air can get at the back as well as the front.

Mounting Maps

There have been few times when maps have been studied to the extent that they now are; maps of Europe, Africa, the Near and Far East, as well as the parts of the world not at present involved in war. For a map to be useful, it should be mounted on a stiff support. One-eighth plywood, is excellent. The first step in mounting is to lay the map on the plywood, and to mark the positions of the four corners. The plywood is then given a coat of shellac on both sides and on the edges. When this is dry, another coat of shellac is applied, the map is rolled up, and one of its ends is laid down with the corners on the marks. With the worker leaning over the board, the rest of the map is then thrown over the head, to be supported by it. The rest of the map is then quickly laid on the damp shellac, and smoothed with the two hands, which are free. As soon as the map is down, it should be gone over with a stiff brush, working from the center toward the edges, to push out air bubbles that may have been caught. Should any remain, they can be disposed of through a pin hole in the paper in the center of the bulge.

Room Decoration

Question: A study used by four people has a white ceiling; walls are light blue, and window frames are light yellow. Walls and ceiling are dirty and should be done over. The room is 11 feet square. In redecorating, what colors would make the room appear larger?

Answer: A light room will seem larger than if finished in dark colors. Had I your problem I should use one single light color for everything; ceiling and woodwork as well as walls. My choice would be light ivory or a pastel shade. Colors to relieve the monotony could be in curtains and upholstery.

Floor Cleaning

Question: Good oak floors are discolored and revarnished. How can I clean them and make them light? How can I clean stair treads? Sanding would be expensive?

Answer: At a hardware store you can get an alkali powder to be mixed with water that will take off the varnish and the discolorations. Directions on the label of the box should be carefully followed.

Floor Finish

Question: What would make a good finish for a newly sanded oak floor? We dislike varnish.

Answer: Use a treatment called a seal, which soaks into the wood and becomes part of the surface, rather than lying on it. Any good paint store should have a sealing liquid. If you want to, you can finish it with wax.

White Paint on Red

Question: How can I give a white finish to a red seat without the red coming through?

Answer: Take off all present finish with paint remover, which will also take out much of the red. The remainder can be sealed in with one or two coats of aluminum paint, to be finished with white enamel.

Alcohol Stain

Question: What will remove white spots left on my walnut bed by spilled alcohol?

Answer: Rub with camphorated oil, or use scratchless cleaning powder mixed with household oil, rubbed on with your finger tip.

PATTERNS SEWING CIRCLE

your hipline because of its adroit piecing — and weight-minimizing smoothness at the sides and in back. The dress may be finished with short sleeves or sleeves of the new "below-the-elbow" drape. The style is suitable for silk, rayon or wool crepes, for satin, faille or organdy.

High Time for Pert Miss To Catch Up on Reading

Clifton Fadiman, in his book, "Reading I've Liked," warns the layman against spending all his time trying to keep up with the latest books. He tells about one of his old professors who sat beside a pert young thing at a dinner.

"Professor," she piped up, "have you read so-and-so's new novel?"

He confessed he hadn't.

"Oh," she said, "you'd better hurry—it's been out over three months."

"Miss," he said, "have you read Dante's 'Divine Comedy'?"

"Why, no."

"You'd better hurry—it's been out over six hundred years."

PERFECT RESULTS with Amazing ECONOMY

YES, a dress to admire for its very fresh approach to the problem of looking slim and stately when your figure is too heavy! Pattern No. 1482-B happily overcomes your figure difficulties with a vesette effect through the top, extending as a slim waist treatment. The softly gathered side pieces permit easy roominess through the bodice, the low pointed neckline is youthful and flattering to the face. The skirt attached at a low waistline takes pounds away from

Uncle Phil Says:

Collect in Happiness
Some men follow the vocation they like best and never get rich. They don't seem to care. Courtesy pays 100 per cent dividends even if you don't get waited on ahead of the man who pounds on the table. A gem of thought is often impaired by a bad setting.

Or What You're After
It's not much good being a "go-getter" if you don't know where you are going. The only thing that anger can make better is the arch in a cat's back. Make the best you can of the worst you get.

Early Shorthand

The earliest record of an organized system of shorthand dates from the year 63 B. C., the age of eloquence in Rome. At that time a freedman and friend of Cicero, Marcus Tullius Tiro, invented a system that was used in recording the speeches of Cicero, Seneca and others in the Roman senate. Tiro's method was taught in the Roman schools, was learned by emperors, and remained in use for several centuries.

CLABBER GIRL BAKING POWDER

Result of Zeal
Through zeal knowledge is gotten, through lack of zeal knowledge is lost; let a man who knows this double path of gain and loss thus place himself that knowledge may grow.—Buddha.

ACYCLE OF HUMAN BETTERMENT

ADVERTISING gives you new ideas, and also makes them available to you at economical cost. As these new ideas become more accepted, prices go down. As prices go down, more persons enjoy new ideas. It is a cycle of human betterment, and it starts with the printed words of a newspaper advertisement.

Important Notice

To All Banking Institutions, and Others Concerned, in the Eleventh Federal Reserve District:

It is necessary for all persons and organizations subject to the provisions of Regulation W of the Board of Governors of the Federal Reserve System, which was issued under authority of the President's Executive Order No 8848 to file a Registration Statement by Jan. 1, 1942, in order to continue to handle, after that date, installment transactions of the types covered by the regulation.

Many persons and organizations have already filed Registration Statements, but many others apparently subject to the provisions of the regulation have not filed their statements.

All who are subject to Regulation W, and who have not filed Registration Statements, are urged to give the matter immediate attention. On November 14 Registration Statement forms were forwarded to all names on our Regulation W mailing list. Additional forms will be supplied upon request.

The federal license heretofore granted will terminate at the close of December 31, 1941, for every person or organization that has not registered on or before that date in the manner provided.

R. R. Gilbert, President.

See Emil Reynolds and Dan Conley for check-up and certificate. Standard Oil Station.

AMERICAN RED CROSS WAR CHEST CAMPAIGN

The Red Cross has recently requested to raise fifty million dollars for a War fund to be used for taking care of men in the armed forces of the United States, and for their families.

President Roosevelt issued a proclamation to this effect last Friday, and asked that each chapter meet its quota as quickly as possible.

The quota for Lincoln County is \$1100.00. Mr. J. E. Hall is the County War fund Chairman, and sub-chairmen have been appointed in each community in the County.

Every person who can give to this cause is urged to see their local chairman or forward funds direct to Mr. Hall at Carrizozo at once.

Let's do our part for the protection of our boys in service and put this drive over the top as quickly as possible.

Frank Adams, Chapter Chairman.

Returning Soldier of Lincoln County

When your service in the armed forces of the United States has been completed, and you are returning home rest assured that our assistance in securing your former position or a new job for you is at your disposal.

Re-employment Committee for County.

The Poor Cave Man Had No Newspaper To Advertise In. But You Have!!

Careers in Engineering
By R. T. Strohm
Dean, International Correspondence Schools

WHO enriched our lives by the airplane, the modern refrigerator, the automobile, the radio? Who provided us with light at the flick of a switch? Who, indeed, has wrought more changes in our manner of life than the engineer?

In conquering the forces of nature man learned engineering. The first lever used to pry a rock, the first wheel built to move burdens, the first wedge shaped to split a log were creations of prehistoric engineers. Over four thousand years ago, engineers built the dams on the Euphrates and erected the Egyptian pyramids.

Two thousand years ago Roman engineers tied Europe together by highways, spurred the migration of older civilizations into unexplored countries. There the conquerors provided uncontaminated water supplies and shelter against the elements. So down through the ages, making life more secure and more satisfying, the work of engineers has gone forward.

The work of engineers, often unappreciated, has provided for ever-widening and continuous benefits to the human race, through control of nature's forces and materials.

Today the youth of vision, interested in knowing more about our fast moving age may well consider engineering as one of the most utilitarian and fascinating professions.

Engineering embodying a knowledge of mathematics, technical arts and sciences and the ability to direct and work with men offers worthwhile careers for youth of ability!

Safety Assured for Tiny Tourists

Tiny tourists sometimes grow restless on long motor trips and their limitless energy and curiosity require double checking to insure that every safety precaution is being taken by their parents. With the entire rear compartment of the family Chevrolet as his personal playground, this youngster assumes a favorite perch that ordinarily would be dangerous. However, a simple adjustment, easily made by Chevrolet mechanics, converted the rear door handle to a safety-action handle, which "free wheels" and does not open the door. After the lock is adjusted to safety position, as indicated in the inset, the lock button is depressed and the inside handle then will not open the door, rendering it "child-proof." Release of the lock button enables the driver to open the door as usual.

Lighted Windows

by EMILIE LORING

Here is a story that starts on Fifth Avenue, New York, but quickly takes you to the wilds of camp life in Alaska where life is tough but bracing and glorious.

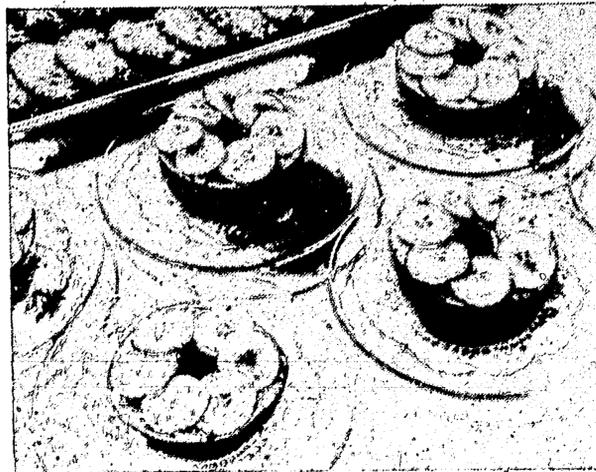

Janet Trent found it so. There is love and death, danger and mystery.

Invite the Club—Serve Apple-Banana Rings
(See Recipes Below)

Dessert Parties

"Come over for dessert" has become one of the most popular ways of entertaining at luncheon or afternoon meetings of bridge or sewing clubs. Your guests will take a light snack at home and come over to your home for dessert only.

Easy? Yes, and a very successful way of starting out your afternoon. So, take out your best recipes for dessert and let's go: Whatever you have must be attractive, so bring out your nicest dessert plates and doilies. First idea on our list today are these broiled Banana-Apple Rings which will polka-dot your table in dessert perfection.

*Broiled Banana-Apple Rings.

- (Serves 6)
1 cup sugar
1/2 cup water
2 apples, unpeeled
3 firm bananas
Melted butter
Salt
Cinnamon

Bring sugar and water to a boil and cook until sugar is dissolved. Core apples and cut crosswise into three thick slices. Add to syrup and cook until tender, but firm. Remove from syrup and place on a broiler rack or pan. Cover apple slices with overlapping slices of bananas which have been peeled and sliced thin. Brush with butter and sprinkle with salt and cinnamon. Broil about 10 minutes or until bananas are brown and tender, easily pierced with a fork. Serve hot with sweetened, whipped cream.

To make your dessert party a double success, serve:

Banana Oatmeal Cookies.

- (Makes 3 1/2 dozen)
1 1/2 cups sifted flour
1/2 teaspoon soda
1/2 teaspoon nutmeg
1/2 teaspoon cinnamon
1/2 cup shortening
1 cup sugar
1 egg
1 cup mashed bananas (2 or 3 bananas)
1 1/2 cup rolled oats
1/2 cup chopped nuts
Sift together flour, soda, nutmeg and spices. Add sugar gradually to shortening and cream well. Add egg and beat well. Add bananas, rolled oats and nuts and mix thoroughly. Add flour mixture and blend. Drop by spoonfuls onto an ungreased cookie sheet about 1 1/2 inches apart. Bake in a moderately hot oven about 15 minutes. Remove from pans at once.

Simply elegant will be your guests' or family's verdict when you serve

LYNN SAYS:

When planning your luncheon dessert parties, be sure to use this season's rich color schemes on your tables and favors and placards. White with silver, gold, blue, red are tops right now. If you like three color combinations, there's green, white and gold, blue, white and gold, or white, red and green. For an elaborate color scheme use the rich tones of violet, emerald, gold, blue and red. This is especially good in a centerpiece.

Bridge placards may be made out of paper chrysanthemums in your favorite color with the card tilling out of the flower. The white cards may also be decorated with painted flowers, or candy-shaped flowers pasted in the center. Evergreen, holly, mistletoe, bright berries, pine cones, used alone or with a silver ornament such as a bell on the place card are sure to bring delighted murmurs from your bridge guests.

THIS WEEK'S MENU

- Tomato-Pea Soup
- Breaded Veal Cutlets
- Riced Potatoes
- Broccoli
- Molded Gingerale Salad
- *Broiled Banana-Apple Rings
- Cookies
- Beverage
- *Recipe Given

an ambrosial concoction so easy to make, it's no trick at all. Here's a dessert that proves you don't have to spend hours of cooking and baking to get a first-rate dessert:

Krispie Cream Roll.

- (Serves 10)
1 1/2 cups whipping cream
8 marshmallows
1/4 cup honey
1/2 cup chopped dates
1/4 cup chopped nuts
3 1/2 cups oven-popped rice cereal
Whip cream until stiff, reserving 1/2 cup. Cut marshmallows into small pieces, adding them to cream. Add honey, dates and nuts. Roll rice cereal into fine crumbs and add 1 cup of crumbs to cream mixture. Blend well. Spread remaining crumbs evenly on a piece of waxed paper and place cream mixture on top. Mold into a roll and chill for several hours. Slice and serve garnished with remaining whipped cream, chopped nuts or fruit slices or berries.

No list of dessert tempters for parties is complete without super-smooth, delectable, melt-in-your-mouth ice-box cake. Made with orange flavoring the ice-box cake can be truly provocative in both flavor and appearance and still be easy on the waistlines of your diet-conscious friends:

Orange Ice-Box Cake.

- (Serves 8.)
1 tablespoon gelatine
3 tablespoons cold water
2 cups milk or 1 cup evaporated milk diluted with 1 cup water
2 tablespoons cornstarch
1 cup sugar
1/2 cup orange juice
1 teaspoon grated orange rind
2 dozen lady-fingers
Soak gelatine in cold water. Scald the milk in a double boiler, mix cornstarch and sugar, and add to hot milk. Add the eggs slightly beaten, combined with cold milk. Cook several minutes, stirring constantly. Remove from fire and add gelatine. Add orange rind and juice. Line a mold with lady fingers, then fill with alternate layers of the cooked mixture and lady fingers. Have a layer of lady fingers on top. Chill in refrigerator overnight. Serve with whipped cream, garnished with orange sections.

Piquant peppermint adds a never-to-be-forgotten flavor to chocolate, and served in quaint tarts, here's a dessert that will mark you as a leader in your crowd:

Chocolate Mint Tarts.

- (Serves 6)
2 squares unsweetened chocolate
1 cup evaporated milk diluted with 1 cup water
1/2 cup sugar
5 tablespoons flour
1/2 teaspoon salt
2 egg yolks
2 tablespoons butter
1 teaspoon vanilla
1/2 cup chopped nuts
6 baked tart shells
Sweetened whipped cream
1/2 cup crushed peppermint candy
Add chocolate to diluted milk in double boiler and heat until chocolate melts. Beat with rotary beater until chocolate is blended with milk. Combine sugar, flour and salt and add gradually to chocolate mixture. Cook until thick and smooth, about 15 minutes. Beat yolks and add to cooked mixture gradually. Cook two minutes longer. Remove from fire, add butter, vanilla and nuts. When cool, pour into tart shells. Top with whipped cream, mixed lightly with the crushed candy.

'Front' in Africa Would Bring War Close to America

(While America eyes events in the Pacific, somewhat forgotten is the Berlin-Rome end of the Axis. But, as the special release below points out, it is only 1,870 miles from Africa's western tip to Natal, Brazil. Perhaps here then is a "front" that requires study. Copyrighted by the National Geographic Society, this article explains some of the less known features of this region that may play an important role in world affairs should either the Axis or the Allies try to occupy or develop it in a military way for strategic reasons.)

Nearer to the New World than any part of Europe is the bulging shoulder of northwest Africa, a thinly settled region ranging from desert to tropical jungle. From Dakar, French colonial port on Africa's western tip, it is only 1,870 miles across the Atlantic ocean to Natal, Brazil.

Busy sea lanes have paralleled this part of the African coast ever since the early Portuguese explorers rounded the Cape of Good Hope to trade with India, China and the East Indies. Ships to and from South Africa, South America, and Australia often stop to refuel at the scattered northwest African ports or at near-by islands.

Only in comparatively recent years, however, has the region been developing from an agricultural and economic standpoint. With the exception of the Republic of Liberia, the territory is divided into British, French, Spanish, and Portuguese colonies. Those nations have been doing much to increase the productivity of the land.

There are several geographic reasons for the delay in exploring and developing not only this section but the whole continent. Topography, climate, and the primitive character of the Negro savages must be taken into account.

Sahara Is Unexplored.

In the north, the vast, desolate sand and rock expanse of the Sahara covers an area the size of the United States. Much of the desert never has been explored; its oases are few and far between. The dry heat of the Sahara is in contrast to the hot humidity of the jungles and forests farther south, but neither climate is very suitable for white men.

Hindering exploration and transportation, too, have been the falls and rapids of the African rivers. These unfortunately are found near the mouths of the streams, at points where the continent's vast plateau dips toward the coastal lowlands. Furthermore, the coastline is so regular that there are few good harbors.

Despite these natural disadvantages, some parts of northwest Africa are becoming highly productive. In the north, the fertile lowlands of the Atlas mountains in Morocco and Algeria yield not only the olives, grapes, and citrus fruits of the Mediterranean basin but wheat and other grains.

Farther south, French West Africa is an important source of peanuts and palm oil. Peanuts, called "ground nuts" by the natives and Europeans, supply a valuable vegetable oil. They do not require irrigation.

In the grasslands of French West Africa, many experts believe there can be developed one of the most important farming areas of the future. In portions where there is sufficient rainfall, experiments have indicated that cotton can be grown. In the drier areas, sheep and cattle already are being raised in quantities. If insects and livestock diseases can be brought under control, the herds may show marked improvement.

The grasslands merge into heavy tropical forests along the southern portion of the northwest African hump. There, as in French West Africa, the natives are proving adaptable to farm work. In Liberia, Americans are supervising the development of rubber plantations. In British colonies, production of cocoa has become a leading business. The cacao trees, from which cocoa is obtained, grow well in the hot, damp regions, where there is no wind to blow down their heavy pods.

How U. S. Is Building a 'Super' Navy

BUILT	BUILDING	TOTAL
15	17	BATTLESHIPS 32
6	12	AIRCRAFT CARRIERS 18
37	48	CRUISERS 85
197	171	DESTROYERS 368
103	82	SUBMARINES 185
358	330	TOTAL 688

The above chart shows graphically plans for increasing the U. S. fleet under present schedules. Because the naval front seems the most important current phase of the war already demands are being made in congress and among military leaders to speed up these schedules and make even more additions to the fleet. Protection of the sea lanes, to keep critical materials flowing to America from the Far East and to protect American shipping across the Atlantic to our Allies makes a strong navy a most vital factor in the war. Figures in "Built" column show vessels in use after the Jap blow at Pearl Harbor.

'All-Out' Industrial Effort Bolsters America's Front Lines

By WILLARD HOLMES
WASHINGTON, D. C. — Twenty-four hours a day, seven days a week. That's the job for American industry to play its part winning the war against the Axis powers.

"Speed now is of the essence just as much in turning out things in plants as it is among the fighting forces," said President Roosevelt to the recent War Labor conference, where representatives of both labor and capital had gathered to work ways of speeding production.

Considered by many to be the most momentous meeting between these two groups in recent history, the conference was headed by William H. Davis, chairman of the National Defense Mediation board as moderator. Representing labor were both William Green, A. F. of L. president, and Philip Murray, head of C.I.O. Leading industrialists represented the interests of capital.

These leaders heard the President issue a "must" assignment. For truly this is a war of production. The assembly line then becomes an important line of the fight.

While these battle lines are strengthening how does America stack up on the front lines? What did we have when the war started and how fast are we getting what we need?

How Well Prepared?

Because war came to us so violently just as we were fitting our stride in defense materials production and because the future schedules look so much higher than what we actually have produced, the impression was felt in many quarters that we are not at all prepared.

While there are some gaps in many things between what we have and what we would like, the country is far from defenseless. The Knox report on the disaster at Pearl Harbor was bad, but it wasn't as bad as most people expected. We lost six warships and a large number of planes.

Cost of Wars to America

Up to the beginning of the current war between the United States and the Axis powers, America had engaged in six wars and each time the result was victory. Here is the cost in money and men:

War	Cost	Men used	Deaths in action	Disease deaths
Revolution	\$ 504,288,328	395,858	8,000	(No record)
1812	246,785,373	527,654	5,614	(No record)
Mexican	195,087,436	107,631	1,549	10,986
Civil:				
Union	11,667,533,483	2,128,948	110,070	224,586
Confederate	1,520,033,632	650,000	52,779	62,375
Spanish	1,015,554,728	280,564	700	5,423
First World	41,765,000,000	4,390,000	53,500	~62,500

Electricity Now Lights

One of Three U. S. Farms

Nearly 1,400,000 of the nation's farms have substituted electric lights for the traditional oil lamp in the past 8 1/2 years, according to a report by the department of agriculture. This brings the total to more than 2,000,000 electrified farms out of a total of over 8,000,000 farms in the nation.

This report, prepared by the Rural Electrification Administration, is compiled from various sources, including the REA estimate of un-electrified farms required to be made each year under the terms of the R. E. act of 1936.

The actual number of farms receiving central station electric service, from private power companies, REA systems and all other sources is 2,128,150, according to the REA estimate, as against 743,864 on January 1, 1936, the year in which REA was established. Today, 34.9 per cent of the nation's farms are electrified. In 1936, only 16.8 per cent had such service.

As far as the planes are concerned, the aviation industry is so geared that much of this loss has already been replaced by new production. With respect to the warship, the fact is that in every category except cruisers on hand the navy shows a superiority over Japan. Being the industrial nation that we are, this margin can be expected to increase over the period of a long war. For we have the materials and means for production.

Stepped-Up Production. While the ratio of expansion in American sea and air power is a military secret we can safely assume that it is much larger than anticipated over a year or even six months ago. Coupled with the drastic controls that come with war and with war's recalcitrant national unity this expansion should really boom.

While it is too easy to forget that we are at war also with Germany and Italy in addition to Japan, sea power at present does seem to be the most important phase of the fighting.

Before the Pearl Harbor attack the United States had 17 battleships, with 17 building and due for launching in the next three years. Twelve air-craft carriers were being built and six were in use. Thirty-seven cruisers were in service and 48 were on the way. In lighter vessels the line-up was this: 171 destroyers being used, 197 being built; submarines, 103 in fighting trim and 52 under construction. Subtract from this the battleship Arizona, the target ship Utah, three destroyers and a mine layer, lost at Pearl Harbor and you have the front line of defense.

This force was buttressed by about 5,000 navy planes, with about 10,000 more on the way. Though the army air corps has not released figures on the number of planes it has in use, the numbers are being increased each week—especially in heavy bombers, medium bombers and dive bombers—possibly the deciding factors in this war.

Army's Strength.

What of the army in addition to its flying force? As 1942 draws there is a personnel of about 1,600,000 officers and men. Roughly half of these are selectees, 400,000 are National Guardsmen and the rest regulars. But this is just the beginning. Already selective service has a pool of about 1,000,000 Class A men available for immediate call. Enlistments boomed at a terrific pace following the declarations of war.

With the extension of the age limits for draftees another three or four million men will be immediately available without lowering physical or dependency standards. Plans for tapping this huge supply of manpower are already worked out.

Just as important as a good reserve of manpower in modern warfare is the organization of strong striking units. The army is known to have five divisions comprising its armored force. This unit is composed of tanks and men who know how to handle them. Fifty battalions of tank destroyers, parachute troops and other specialized units to meet Panzer and blitzkrieg tactics have been and are being trained in great numbers. Even this will be speeded up under the impact of war. Doubling and even tripling of schedule is anticipated.

You May Find a Career In U. S. Civil Service

If YOU'RE planning a career, you may find that the U. S. Civil Service gives the opportunities you want. For Uncle Sam offers many chances to get ahead. In some office jobs you progress through six grades. A Junior Stenographer, starting at \$1,400,

New Worker Can Learn and Earn, may become a Senior, then a Principal.

If you have training in a profession you may start at \$2,000 and progress to \$9,000. Medicine and law are two of the fields. You may start in the mechanical trades as a Helper-Trainee, earning while you learn. In the Postal Service you may start without special experience as letter carrier (\$1,700) and advance by competitive steps to postmaster.

These are but a small fraction of U. S. Civil Service opportunities. Our 32-page booklet lists many other interesting jobs with pay, requirements, type of test given. Tells how to apply. Send your order to:

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—in its risk of exposure and infection—keeps the strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all year out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try Doan's Pills. Doan's helps the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

DOAN'S PILLS

BEACONS of SAFETY

Like a beacon light on the height—the advertisements in newspapers direct you to newer, better and easier ways of providing the things needed or desired. It shines, this beacon of newspaper advertising—and it will be to your advantage to follow it whenever you make a purchase.

EIGHT POINTS

HIGH COURT CHANGES

NAZI-SOVIET WAR

WAR ON JAPAN GERMANY ITALY

The Year in Review

Chronology

OF THE YEAR 1941

COMPILED BY EDWARD C. WAYNE

The year began with these important events:

January

- 1-Hitler in a speech predicted "victory in 1941."
- 3-New congress convened, heard President ask "all out" aid for democracies.
- 15-CIO ordered by government to end defense strikes.
- 20-President Roosevelt inaugurated for third term.
- 21-Civil rioting broke out in Rumania signaling beginning of Nazi "putsch" in the Balkans.

February

- 7-British empire forces capture Bengasi, last important city in eastern Libya.
- 10-Italian defense in Albania reported broken.
- 11-Nazis and Rums sign new trade pact.
- 17-Russian, Rumanian clashes disturb Balkans.
- 21-Civil rioting breaks out in Rumania.
- 23-Rumanian revolt leaders executed as civil rioting is ended.
- 24-British forces sweep on beyond Derna Libya.
- 25-Hitler declares all "aid-to-Britain" ships will be torpedoed.

March

- 1-Bulgaria joins Axis. German troops enter that nation.
- 3-Turkey closes Dardanelles as Axis' push through Bulgaria to Greek and Turkish frontiers.
- 12-British push aid to Greece.
- 13-British smash at Berlin for first time since December 20, 1940.
- 20-Crown council of Yugoslavia approves program of "active alliance with Axis."
- 21-King Peter takes Yugoslavia throne as Axis rule is ended in bloodless coup d'etat.

April

- 1-Bengasi, eastern Libyan capital, taken from Italians by Axis and Italians.
- 6-Germany declares war on Yugoslavia and Greece. Invasion starts.
- 12-Japan and Russia sign neutrality pact.
- 13-"Great bombing" of nine times London.
- 14-Jugoslav army collapses.
- 15-Greece agrees to German ultimatum.
- 16-King George II heads new government.
- 17-British troops land in Iraq to guard vital oil supply.
- 22-Nazis crack both ends of Allied defense line in Greece and reach history-famed Thermopylae pass.
- 27-Nazi advance guard enters Athens.

May

- 1-Iraq protests landing of British forces to protect oil fields.
- 2-Iraq forces fight British, shell important Baghdad.
- 3-British troops out of Greece enter African battle.
- 5-British regain control of Iraq oil pipeline.
- 11-Nazis take U.S.S.R. premier'ship.
- 12-British fleet sees Germany and lands in England.
- 13-Marshall Pétain of France agrees to closer cooperation with Germany.
- 14-Turks of Asia and main Italian force in Ethiopia surrender to British.
- 15-Largest warship afloat, Britain's 42,000-ton Hood, is sunk by new 35,000-ton German battleship Bismarck.
- 17-British navy sinks battleship Bismarck after thrilling sea battle.

June

- 1-German forces reported in Syria.
- 2-British and Free French forces invade Syria.
- 3-Freighter Robin Moor reported sunk by Nazi U-boat in mid-Atlantic.
- 4-Turkey and Germany sign friendship pact.
- 6-British and Free French in Syria take Damascus.
- 7-Germany attacks Russia.
- 8-Brest-Litovsk, Vinnia, Kaunas, Dvinsk and Lwow fall to Nazis as Russians hold on north and south fronts.

July

- 1-Wain orders "scorched-earth" policy for Russia as German divisions advance.
- 2-Britain halts U. S. occupation of Iceland.
- 3-Soviet claims sea victory over Nazis.
- 4-Russia-American sign mutual aid pact.
- 5-Japanese form new cabinet under Prince Kameyama.
- 6-France accepts Japan's demand for military control of French Indo-China.
- 7-Japan's assets frozen by U.S. and Britain.
- 8-Finnish government breaks relations with Britain.

August

- 1-Frost thins air raids on Berlin.
- 2-Germans attack Nazi garrisons in Kiev and Leningrad sectors.
- 3-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 4-Craig Wood wins National Open golf championship.
- 5-Patty Berg wins Women's Open golf championship.
- 6-Frankie Parker and Pauline Betz win national clay court singles tennis titles.
- 7-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 8-Craig Wood wins National Open golf championship.
- 9-Patty Berg wins Women's Open golf championship.
- 10-Frankie Parker and Pauline Betz win national clay court singles tennis titles.
- 11-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 12-Craig Wood wins National Open golf championship.
- 13-Patty Berg wins Women's Open golf championship.
- 14-Frankie Parker and Pauline Betz win national clay court singles tennis titles.
- 15-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 16-Craig Wood wins National Open golf championship.
- 17-Patty Berg wins Women's Open golf championship.
- 18-Frankie Parker and Pauline Betz win national clay court singles tennis titles.
- 19-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 20-Craig Wood wins National Open golf championship.
- 21-Patty Berg wins Women's Open golf championship.
- 22-Frankie Parker and Pauline Betz win national clay court singles tennis titles.
- 23-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 24-Craig Wood wins National Open golf championship.
- 25-Patty Berg wins Women's Open golf championship.
- 26-Frankie Parker and Pauline Betz win national clay court singles tennis titles.
- 27-Fred Perry, former English Davis cup star, wins national professional tennis singles title.
- 28-Craig Wood wins National Open golf championship.
- 29-Patty Berg wins Women's Open golf championship.
- 30-Frankie Parker and Pauline Betz win national clay court singles tennis titles.

'TEN BIGGEST' EVENTS OF 1941

Selected by BAUKHAGE (WHU Washington Correspondent)

Adoption of the lease-lend law. The Roosevelt-Churchill meeting at sea.

The President's shoot-on-sight order.

The inauguration of a President for a third term.

German invasion of Russia. Failure by Germany to achieve its objective: destruction of the Red army.

Revision of the neutrality law. Sending of American troops to Iceland.

U. S. war with Japan, Germany, Italy.

Defeat of rigid price control by farm-labor coalition.

New Jersey waterfront is swept by \$25,000,000 fire.

Market quota restrictions on wheat approved by over 80 per cent of farmers.

Fifth of army plane production tied up as C.I.O. workers strike at the North American Aviation company in California.

Army takes over strike-bound North American aviation plant at Inglewood on orders of F.D.R.

Justice Harlan Blake Stone made chief justice with dissent from Robert Jackson and Ben James Byrnes get high court posts.

President Roosevelt "breezes" all Nazi and Axis ships.

U. S. orders Nazi consulates to close by July 10.

Thirty-three die in sinking of U. S. submarine.

Ford signs union contract with C.I.O.

U. S. state department condemns Nazi attack on Russia.

U. S. successfully completes first test hop.

Men who reached the age of 21 since October 10, 1940, register for the draft.

President Roosevelt orders that U. S. armed forces have occupied Iceland.

Grand Jury names German reich in Germany.

Nation's second peacetime draft lottery held.

President asks extended term for draft.

Nationwide drive for scrap aluminum opens.

President mobilizes Philippine forces on Luzon.

President forms economic defense board to wage economic war on Axis. Wallace named head.

Warrenton ordered closed at night to Eastern seaboard states.

U. S. shipments to Japan banned.

C.I.O. calls strike at huge Kearny, N. J., shipyard.

Senate passes act extending draft term by 10 months.

OPM puts steel under full priority control.

Installation buying curbed to check inflation trend.

House passes draft extension bill.

President ordered for eastern states.

President returns to U. S. after historic sea meeting with Winston Churchill.

Strike at Kearny, N. J., shipyard ends as navy takes over.

Senate passes largest tax bill in U. S. history.

President orders U. S. navy to shoot at Axis ships sighted in "sensitive" waters.

U. S. calls for \$500,000,000 in lend-lease bill.

U. S. calls for \$500,000,000 in lend-lease bill.

President orders U. S. navy to shoot at Axis ships sighted in "sensitive" waters.

U. S. calls for \$500,000,000 in lend-lease bill.

U. S. calls for \$500,000,000 in lend-lease bill.

'TEN BIGGEST' EVENTS OF 1941

Selected by BAUKHAGE (WHU Washington Correspondent)

Adoption of the lease-lend law. The Roosevelt-Churchill meeting at sea.

The President's shoot-on-sight order.

The inauguration of a President for a third term.

German invasion of Russia. Failure by Germany to achieve its objective: destruction of the Red army.

Revision of the neutrality law. Sending of American troops to Iceland.

U. S. war with Japan, Germany, Italy.

Defeat of rigid price control by farm-labor coalition.

New Jersey waterfront is swept by \$25,000,000 fire.

Market quota restrictions on wheat approved by over 80 per cent of farmers.

Fifth of army plane production tied up as C.I.O. workers strike at the North American Aviation company in California.

Army takes over strike-bound North American aviation plant at Inglewood on orders of F.D.R.

Justice Harlan Blake Stone made chief justice with dissent from Robert Jackson and Ben James Byrnes get high court posts.

President Roosevelt "breezes" all Nazi and Axis ships.

U. S. orders Nazi consulates to close by July 10.

Thirty-three die in sinking of U. S. submarine.

Ford signs union contract with C.I.O.

U. S. state department condemns Nazi attack on Russia.

U. S. successfully completes first test hop.

Men who reached the age of 21 since October 10, 1940, register for the draft.

President Roosevelt orders that U. S. armed forces have occupied Iceland.

Grand Jury names German reich in Germany.

Nation's second peacetime draft lottery held.

President asks extended term for draft.

Nationwide drive for scrap aluminum opens.

President mobilizes Philippine forces on Luzon.

President forms economic defense board to wage economic war on Axis. Wallace named head.

Warrenton ordered closed at night to Eastern seaboard states.

U. S. shipments to Japan banned.

C.I.O. calls strike at huge Kearny, N. J., shipyard.

Senate passes act extending draft term by 10 months.

OPM puts steel under full priority control.

Installation buying curbed to check inflation trend.

House passes draft extension bill.

President ordered for eastern states.

President returns to U. S. after historic sea meeting with Winston Churchill.

Strike at Kearny, N. J., shipyard ends as navy takes over.

Senate passes largest tax bill in U. S. history.

President orders U. S. navy to shoot at Axis ships sighted in "sensitive" waters.

U. S. calls for \$500,000,000 in lend-lease bill.

'Remember Pearl Harbor' War Cry

Another battle cry "Remember Pearl Harbor" has taken its place in American naval and military history. The cry is placed beside "Remember the Alamo" and "Remember the Maine" of earlier wars in our history.

Lighted Windows by EMILIE LORING

Here is a story that starts on Fifth Avenue, New York, but quickly takes you to the wilds of camp life in Alaska where life is tough but bracing and glorious.

Janet Trent found it so. There is love and death, danger and mystery.

Defense Instructions

The Office of Civilian Defense has issued the following official instructions to motorists: Follow these rules if you're out in a car when an air-raid starts. Do these things at once:

1. Pull over to the curb
2. Park the car
3. Turn off all the lights
4. Get out of the car
5. Take shelter in the best available place - indoors if possible.

If you're on a bus remember that the bus must stop when the warnings sound. Get out of the bus and take shelter.

If unable to shelter yourself indoors, sit down; if bombs start dropping near you, lie down. Cover your ears with your hands. Protect the back of your head.

If you meet a warden, go where he tells you to go, promptly and cheerfully.

CAUTION Don't leave your car in the middle of the street. Don't double park. Don't run - walk.

Keep cool. Keep your head.
 Signed F. H. LaGuardia
 U. S. Director of Civilian Defense

NOTICE!

The Local Defense Council has established an office at the Department of Public Welfare for purpose of registering Civilian Volunteers for emergency work. Through the courtesy of the congenial force at said office, we are allotted from 1 to 3 p. m. each day and request that everyone please register there.

Local Defense Council

We Shall Finish It

What we are saying to ourselves today is that it makes little difference to us what particular persons are responsible for starting this war; that is we who, pleading the justice of our cause in the tribunal of Almighty God, mean to finish it. We shall finish it to the end that never again shall the foul hands of totalitarianism and militarism be lifted against us, our children or our children's children. Today we know but our duty--to stand together as Americans under the leadership of the President and Congress of the United States. The day for decision is here; the day for dissension is past. —New York Sun (Ind).

Beware of Female Spies

The Navy told its personnel today to be aware of female spies. This notice was posted at Navy offices:

"Women are being employed by the enemy to secure information from Navy men on the theory they are less liable to be suspected than male spies.

"Beware of inquisitive women, and prying men. See everything, hear everything, say nothing. Silence is safety."

Local and Personal

Mr. and Mrs. J. C. Hutchison and infant daughter, of Clifton, Arizona, came to Carrizozo last Tuesday, accompanied by Mrs. Hutchison's mother, Mrs. Ella Sprinkle who had been visiting there for several weeks. After a visit to J. C.'s parents, Mr. and Mrs. Rustin, and the Sprinkle home they left Friday for Clifton, where J. C. has a position with a mining company.

Out of town attendants at the Freeman funeral here Tuesday, were Dr. and Mrs. Kemper, and Mrs. LaRue of Albuquerque; Mr. G. A. Titsworth, Mr. Perry Sears and Mr. and Mrs. S. E. Greisen of Capitan; Mr. Anderson and Mr. Hobbs of Fort Stanton; Mr. and Mrs. C.M. Luckey, Rev. and Mrs. John L. Lawson and son of Nogal; Bradley Smith of El Paso.

Mrs. R. T. Lyons, who has been a guest of the Burke family since before the holidays, has returned to Kansas City.

Mr. and Mrs. John E. Hall spent New Year's day in El Paso.

Mr. Bryan Hendricks, who has been employed at Gallup for several months, was a holiday visitor at the home of his niece, Mrs. Sam Welsh.

Mr. Tomas Serrano, of Butte, Montana, was renewing old acquaintances here last Tuesday. Mr. Serrano is a former Carrizozo resident.

BURTON FUEL YARD

Smart Styling Keynotes New Chevrolet

Distinguished styling, characterized by a new massive hood, marks the new 1934 Chevrolet, introduced to the motoring public today. Shown above is the Special De Luxe Sport Sedan, a roomy, luxurious, six-passenger model. A new grille treatment, with integral parking lights, and the smart new slanted front fender, which sweeps back fully and opens up the front door, are design highlights. Interior appointments are in the modern mode.
