Her hubby told her to get a hobby, but he didn't expect her get a tall, tan, sea-going glamour boy.

- ALSO -

"Story of the Coast Guard" and "Gandy Goose in Trouble"

## NOTICE

The Lincoln County Singing Convention will convene at Ancho, Sunday July 26, and every lover of gospel singing is cordially invited to attend, bringing a well filled basket for lunch at noon.

In these times of war and strife gospel singing is needed more than ever before to keep up the morale of our people and encourage faith in our maker with whose aid we ultimately hope to win in the conflict now raging throughout the world.

Come one, come all and let's enjoy the day with one another mingling our voices in songs of praise and thanksgiving to the one, and only one who can bring peace and set man free indeed.

W. J. Ferguson, Pres.  
Margaret English, Sec.

## BANKS AND THE WAR

# THIS IS TOTAL WAR

EVERY man, woman and child in this war. There are no longer only military fronts, as past wars. Instead, our whole nation is a "front" and we are all "fighters" in the sense that our individual efforts are closely linked to ultimate victory. There are many ways to help; in civilian defense, by supporting war organizations, by helping pay for the war, by doing the best we can in our daily work. This bank welcomes the chance to help you help your country. Tell us your problems.

LINCOLN COUNTY AGENCY,  
Citizens State Bank of Vaughn,  
Carrizozo, N. M.

Member Federal Deposit Insurance Corporation

### Honored With Birthday Party

Jackie Jackson, son of Mr. J. F. Jackson, of El Paso; was honored with a birthday party at the Stearns ranch, from two to four, Thursday.

During the afternoon many games were played after which dainty refreshments of sandwiches cake and punch were served to nine little guests.

Guests included, Jeanne Hall, Janet Mae Shafer, Weston Lindsey, Preston Lindsey, Ted Zumwalt, Glen Zumwalt, Melville Hall, Martha Sue Luckey and Bobby Stearns. Favors were individual packages of lolly pops.

Jackie was nine years old and was well remembered with gifts. He has spent some time at the Stearns ranch for the past four or five years.

The hostess was Mrs. D. S. Stearns.

### Boy Drowns in Pool Near Hondo

Kivas Tully Bonnell, 17, drowned Sunday afternoon as a result of a fall from the bank of the Ruidoso Creek near Hondo into deep water. He could not swim. The body was removed to the Kelley Mortuary.

He was a junior student at the Hondo High School where he was a member of the basketball team. He was born May 17, 1925 and was the son of the late D. N. Bonnell and Agnes Coe Bonnell, a grand-son of Mrs. Mary Coe, and a nephew of Mr. Burt Bonnell.

He leaves the following brothers and sisters: Orilla Casper and Leo Bonnell of Silver City; Edwin Bonnell of Hondo; Mary Brooks, El Paso, Texas; Albert Bonnell of Washington; Anna Miller, Kermit, Texas; and Ethel Bonnell, Los Angeles, California.

Funeral services were held at 3 o'clock Tuesday afternoon from St. Ann's Church with interment at the Glencoe cemetery.

### Penfield At Camp Barkley

Special to Lincoln County News

Camp Berkeley, Tex. July 23. Private Edward Penfield has been promoted to technician 5th grade. He is from Lincoln, N. M.

Pvt. Penfield was inducted into the Army last April. He was Lincoln County Clerk for four years and was very efficient.

### Buffet Supper to Honor Mrs. Tompkins

Mrs. J. M. Penfield entertained a group of ladies on Thursday, July 16, 1942, honoring her mother, Mrs. Julia Tompkins, on her 85th birthday. It was a gala occasion and all present joined in the Chinese checker games and other modes of entertainment. After the delicious luncheon, Mrs. Tompkins opened her gifts which were numerous and consisted of jewelry, stationery, hose and one gift was a card with 85 pennies fastened to it.

Those present were Mesdames B. D. Garner, D. M. McClain, Ted O'Bryant, Lloyd Hulbert, Edgah Phillips, Chester Womack, Giles Itamey, Roy Ramey, Felix Ramey, E. H. Ramey and the hostess, Mrs. Penfield.

Mrs. B. D. Garner, formerly of Carrizozo composed the following poem which was read as a climax to the pleasant event:

#### DEAR GRANDMOTHER

"Father Time" is a funny old codger!

Now why, do you suppose, he blew his nose, Cracked his heels together, danced on his toes, And looked like an ancient Rajah? He's full of glee - that's easy to see!

His eyes twinkle, as he paints whiskers here and there And leers at youth with lustrous hair - An Eschew of the smiles of "Mabye,"

But as sure as pride goeth before a fall He stumped his toe! - and in his mad rush To make cartoons, - He lost his brush!

Now grandmother Dear - you're the envy of us all!

We'd think to you Father Time had been very kind But - nothing less than the Hand of God Could have protected you - without a rod - And given to you the Godlike mind.

Happy Birthday Greetings from us to you We hope there'll be as many more Before Father Time finds brushes galore And working with a fury - stamps you too.

We wish you to stay as you are - and say! We're glad it was you; got the best of the Old Boy With it all, - we wish you happiness and joy And the same happy outlook for your next Birthday.

Mrs. B. D. Garner

Mr. R. E. P. Warden, Sr., was in Magdalena on business the first of this week.

Mr. and Mrs. T. E. Kelley and little grandson, Kelley Corbett, returned from Albuquerque the first of this week.

Miss Betty Mae Gruder has returned to her home in Tucumcari after a visit to her sister, Mrs. Margaret English.

FOR SALE: Purebred Jersey bull, 4 years old. Apply at Crews ranch, Oscura, N. M. July 24-42

Mrs. Grone, prominent leader of the Church of Christ, Scientist is here from Chicago to be at the bedside of Mrs. R. E. Blaney, who has been seriously ill for more than a month.

### Methodist Church Sponsored Free Chicken Dinner

The Ladies of the Methodist Church sponsored a free chicken dinner to all who had helped in liquidating a note held against the Parsonage property of the Methodist Church. Quite a number of men were present, who enjoyed the "best fried chicken you ever ate". After dinner, Mr. Geo. T. McQuillen after a few appropriate remarks burned the note, clearing all debts against Methodist Property. Mrs. Margaret English entertained with singing two solos and then led the entire group in singing some old favorites. Mr. John E. Hall presided over an old-fashioned spelling Bee, ladies against the men, which was tied by Mrs. L. Z. Manire and Mr. Ben Burns.

### Accident Near Tinnie

About 1:45 Tuesday afternoon as Mr. Kalsen was driving his team and wagon along the highway, a truck overtook him near the Tinnie postoffice and the two unavoidably crashed. Mr. Kalsen was considerably bruised up, but an examination at the Roswell hospital did not reveal any permanent injuries. Mr. Kalsen is an uncle of Mr. Buster Boone of Three Rivers.

Corporal Bill Elliott, son of Mr. and Mrs. Dan Elliott, who is stationed at Temple, Texas, wrote to his parents enclosing clippings of the 4th of July celebration his division enjoyed at Cameron and Rosebud, Texas. The 105 men in Bill's company were served over 200 chickens and all the fixings.

Mr. M. Doering of Evansville, Indiana arrived in Carrizozo last Wednesday and intends to spend six weeks mingling with his old friends.

Herman E. Kelt Jr., will leave tomorrow for Phoenix, Arizona where he is called to report for examination prior to entering a Naval training base.

Mr. Jack Sargent of Santa Fe, has been inducted into the Army and is stationed at Fort Knox, Ky. Mrs. Sargent, nee Katherine Kelt has joined him there, having driven through with the wife of another soldier, who was going to an Indiana camp.

Mrs. Frances Payne and children of El Paso visited her sister, Mrs. Winzell Pickerson the first of this week.

The Odd Fellows of the local sent all their members, who are in the armed forces, paid receipts for the duration of the war. This was a thoughtful and generous act, and of course will be very much appreciated.

Mrs. Ted Purcoy of Las Cruces and Mrs. Walter Krohm of El Paso, and their small sons were visitors of Mrs. Prior and the Romero family this week.

Miss Helen Jeanne Kelt left last Monday for Tucumcari to spend a few days with her aunt, Mrs. Maggie Kelt.

Sgt. W. C. Marler came up from Fort Bliss Saturday and spent the week-end with his wife, nee Effie Campbell.

Mr. and Mrs. Roy Stimmel and family, who have been guests of the Stimmel and Smoot families for the past three weeks, returned to their home in Walla Walla, Washington last Saturday.

Mr. Francisco (Chiebo) Mireles of Lubbock, Texas, was a Carrizozo visitor this week.

### MRS. MARY CATHERINE SHAFFNER

Mrs. Mary Catherine Shaffner, age 83, passed away Monday morning at 8:45 at the home of her daughter, Mrs. C. O. Davis. Mrs. Shaffner had made her home with Mrs. Davis for about nineteen months, having come here shortly after the death of her husband Mr. H. A. Shaffner.

At the time of her husband's death they had been married 63 years and 2 months. She was ill and wished to come to the home of her only daughter, where every thing possible was done to relieve her suffering; her constant prayer had been that she might be permitted to "join him in the Glory Land."

Mrs. Shaffner was a native of Illinois, but moved to Oklahoma when young, and had lived at Newkirk, Oklahoma for 45 years.

She had been a Christian all her life, and united with the Methodist church when very young. She had been a member of the Daughters of Rebekah for fifty years and was active in the Lodge until prevented from regular attendance by her failing health. She was a Past Noble Grand of the Lodge and had requested that her Past Noble Grand pin be placed on her dress at death. She was generous, cordial and kindness personified.

Mrs. Shaffner is survived by four sons who live in Oklahoma; one daughter, Mrs. C. O. Davis of Carrizozo; thirteen grand children and six great grand children.

Remains were shipped to Newkirk, Oklahoma Tuesday night on No. 4, accompanied by Mr. and Mrs. C. O. Davis. Funeral services were held at the Methodist church in Newkirk yesterday, with the Daughters of Rebekah in charge of the burial rites.

Mr. and Mrs. R. A. Walker returned this week from a trip to Texas.

The American Legion wants your old phonograph records; old records, broken records, worn out records; as part of a plan to provide new records for our boys in service.

Mr. and Mrs. Pat Withers of Biggam were in town Monday.

Mr. and Mrs. Hammond and children who moved here recently from Tucumcari are occupying Mrs. Jones' residence on Alamo-gordo avenue. Mr. Hammond is a Southern Pacific brakeman.

Mr. and Mrs. Ansel Swearingen of Lordsburg arrived last Tuesday for a few days at home.

Mrs. R. E. Blaney who has been in the Turner hospital for two weeks is still not entirely out of danger.

Miss Cora Crews of Oscura was in town on business last Wednesday.

Mr. and Mrs. Riggs Houston went to Lubbock last Saturday.

They were accompanied by Mrs. Houston's mother, Mrs. Feagan, who lives in Lubbock. Mr. and Mrs. Houston and children returned home Monday.

Mr. Leon Houston is employed at Ft. Stanton at present.

Mr. James H. Walker of Captain is the new Southern Pacific operator. He has moved into the Hines apartment.

Lt. Aubrey Hines is at Fort Benning, Georgia.

Pfc Bob Means passed through here Monday on a troop train. His mother had the opportunity of having a short talk with him.

Record of Senator Carl A. Hatch

Washington, D. C., July 23. Steadfast adherence to the international approach to foreign policy has marked the record of Senator Carl A. Hatch of New Mexico. It was revealed in the "1942 Election Guide" published this month by The Christian Science Monitor.

Showing votes of all members of the U. S. Senate on eight major issues relating to foreign policy, the Election Guide asserts that "the issue of isolation versus internationalism is the one overwhelming issue before the voters."

The Guide also tabulates votes of senators on eight major domestic issues. Senator Hatch's votes placed him on record as favoring:

Repeal of the arms embargo to permit American arms to be sent to Britain.

Extension of the reciprocal trade agreements bill, an "approach to world trade which the administration hopes to make the economic basis of postwar peace."

Enactment of the Selective Service Act.

Continuing the right of the army to send men abroad rather than limiting army action to the western hemisphere.

Land-Lease bill. Transfer of axis ships to Britain in 1941.

Extension of the Selective Service Act.

Repeal of the Neutrality Act to reopen combat zones and arm merchant ships.

Bills relating to domestic issues on which Senator Hatch's votes were tabulated included building a new TVA dam, WPA relief bill of 1938, government reorganization bill, farm parity bill, Hatch clean politics bill, outlawing labor spies, increasing excess profits and ending tax exempt bonds.

Senator Hatch voted in favor of each of these with the exception of the bill ending tax exempt bonds. He voted for a proposal to curtail the work relief bill from \$875,000,000, asserting his belief that the larger sum was unjustified.

### Iron Ore

About six or eight truck loads of iron ore per day are being loaded out of Carrizozo.

Miss Barbara Smith and sister Helen Marie are visiting their parents, Mr. and Mrs. W. W. Smith at Clifton, Arizona for the week end.

Mrs. Mae Brazel gave a party and shower at her home yesterday for Mrs. Thomas O'Rear. Many presents were received by the honoree. Dainty refreshments were served.

Mrs. Harold Coe and baby were here from Ruidoso Wednesday to visit the Bowlin family.

# WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON  
Consolidated Features—WNU Release

**NEW YORK.**—At Londonderry, in Ulster, the U. S. A. has its first naval base in Europe—the first in history. It is an operating base and it is now operating. This is a reminder or to this department that the ancient and adaptable "Londonderry Air," obtainable in any one of many guises at any song shop, never failing to re-align ragged banes and tenors and bring them through to a valorous finish. It was over half a century ago that John Addington Symonds, great English literary critic, wrote his adaptation of the "Londonderry Air." He made the old song "News Today." Here are his words:

*Come day of joy, when lustier men  
and nobler  
Than ere the world hath known shall rise,  
With flame of freedom in their spirits,  
And light of knowledge in their eyes.  
They shall be gentle, brave and strong  
of heart,  
To spill no drop of blood, but they shall  
die,  
All that may plant man's lordship firm  
and free  
On earth and fire and flood and sea and air.  
Till race with race and people blend with  
people,  
Unarmed shall live as comrades free,  
In every heart shall beat the love of  
human kind,  
The pulse of one fraternity.  
No arts shall bloom, of lustier mould  
more beautiful,  
And mightier music thrill the skies,  
And every life shall be a song of pure  
delight  
When all the earth's a paradise for all.*

In school we took a lot of punishment from an aggressive pedagogue, assaulting us with Symonds' "Predecessors of Shakespeare." It was not until years later that we understood that Symonds had been fanning up that "flame of freedom" of pre-Elizabethan England, and that in Webster, Marlowe, Green, Dekker, Peale and Heywood, he found unfettered spirits, making a great literature and a great England. If the teacher had had us sing the "Londonderry Air," as above, we might have understood.

**SOMEBODY** is always giving Dr. J. C. Hunsaker a medal, so turn about in fair play when he gets on the sending end and hands one to Brig. Gen. James Doolittle, for obvious reasons and with appropriate sentiments. As chairman of the national advisory committee for aeronautics, he conferred on the Tokyo bombardier the Daniel Guggenheim medal which he himself received in 1935.

Most people would be willing to settle for Tokyo in honoring General Doolittle, but Dr. Hunsaker, a careful scientist, weighs in the general's other achievements and emphasizes the award on "not given for any single act." That puts both the general and Tokyo in a long perspective, which is characteristic of Dr. Hunsaker.

He is the head of the faculty of aeronautical and mechanical engineering at the Massachusetts Institute of Technology, a former commander and aircraft designer in the navy, and co-ordinator of navy research. He designed for the navy the NCA flying boat which made the trans-Atlantic flight in 1919, made the first wind tunnel for experimentation in aerodynamics and designed the Shenandoah, the biggest dirigible built in America.

From Creton, Iowa, he went to Annapolis, and was graduated in 1903. He studied aeronautics in Germany, getting some interesting close-ups of Zepplin design, and returned in 1912 to begin his wind-tunnel research at MIT. There he gained his degrees in science and engineering and was an instructor from 1914 to 1916. He was in the construction corps of the navy from 1909 to 1926, advancing to the rank of commander, retiring from the navy in 1927. In that period, he was assistant naval attaché at London, Paris, Berlin and Rome.

He became a director of the Good-year Zepplin corporation in 1929 and vice president in 1933. In addition to the Guggenheim medal, his awards include the Navy Cross and the Franklin medal.

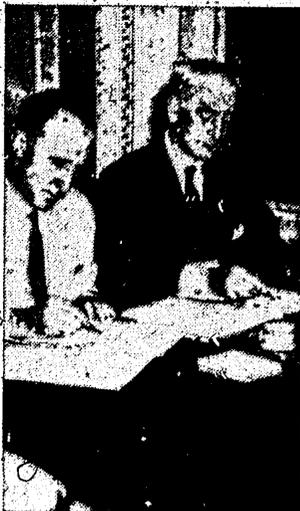

**AFTER** a battle of many decades, Britain takes over her underground coal deposits from the ancient ownership of dukes, marquesses, earls and the Church. Nationalization is for the war period only. The transfer is a victory for Mr. Ernest A. Gowers, who has made more or less of a career in the cause of public ownership of coal mines. He becomes chairman of the commission of five members in which ownership of the mines is vested. He is little known in British public life outside of coal issues.

## U. S. Leaders at Saboteur Trial

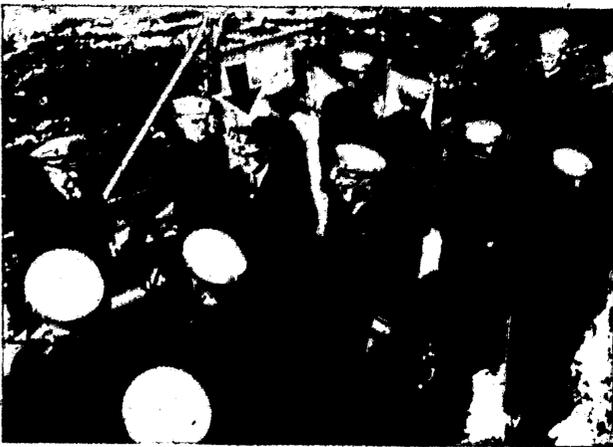

Attorney General Francis Biddle, J. Edgar Hoover, FBI chief, and Colonel Ristine are shown seated around a table in the courtroom in Washington as they listened to the proceedings of the famous saboteur trial. This is the trial of the eight Nazi saboteurs who were landed in this country by submarine for the express purpose of wrecking America's war machines. Caught by the FBI before they could fulfill their mission, they faced trial as spies. Speaking over the radio, Hoover declared that those who gave these eight Nazis aid were traitors to their country.

## Norway Lend-Lease

In this soundphoto, Norway's Ambassador Wilhelm Morgenstierne and Secretary of State Cordell Hull are shown signing the lease-lend agreement between the United States and Norway. Through the terms of this agreement Norway will receive substantial aid in the maintenance of her merchant marine, which is the fourth largest in the world.

## Commander in Chief Visits Atlantic Fleet

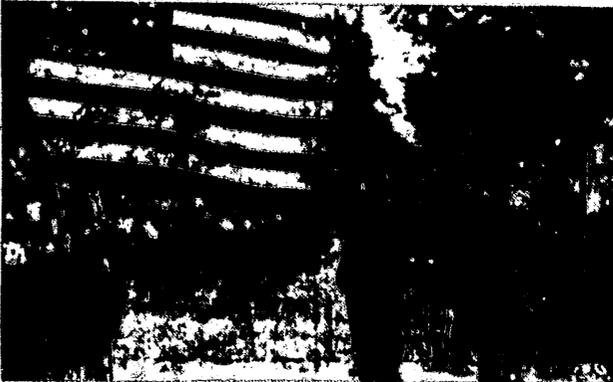

At Sea . . . Adm. Harold Stark (arrow) commander in chief of the European fleet, inspects the guard of honor on one of the ships of the Atlantic fleet.

## Tough in the Air—and on the Ground

Aviation cadets at Randolph Field, Texas, famed "West Point of the Air," charge over an embankment with rifles and fixed bayonets in a phase of extended order drill. Along with their flying training, these future fighters and bomber pilots are going to be tough and ready to defend themselves on the ground as well as above it.

## Chinese General Here on Visit

Gen. Hsiung Shih-Fei, head of the Chinese military mission sent to Washington from Chungking, was the guest of the army on a visit to Governors' Island. He is pictured here, left, with Lieut. Gen. Hugh A. Drum, commanding general of the eastern defense command and First Army, as they inspect the guard of honor and salute the flag.

## Libyan Actor

Maj. Henry Cabot Lodge Jr., senator from Massachusetts, who was in the midst of heavy action in the Libyan desert. Major Lodge had accompanied American armored units to the Middle East.

## Desert Fox

This picture, from a neutral source, shows Field Marshal Erwin Rommel, of the German Afrika Korps, standing on a bunker directing one of the Axis operations in the see-saw battle of Egypt. Rommel is one of the wildest generals the war has produced.

## Physical Director

Miss Katherine Van Kessel, who was appointed director of physical education of the WAAC. Miss Van Kessel gave up three jobs to take up this one—one as director of physical education at the American Women's Association.

## Wild Plants in U. S. Yield Food

### Forests and Fields Abound In Varieties Used by Indians Years Ago.

**NEW YORK.**—There is no reason why hikers who get lost in the forest wilds, or even deserts, of the United States should starve to death—provided they, or even one of a group, are equipped with a working knowledge of botany. For there are no fewer than 3,500 different species of plants and grasses used by the Indians years ago, with more than half of this number of edible variety.

Vegetables, grains, fruits and seasonings are to be found in the wild and were obtained by the North American natives, writes Marian A. and G. L. Wittrock in the Journal of the New York Botanical Garden. Dependent to a large extent on the plants that could be gathered, the Indian found many to satisfy his palate, and those same plants are growing in North America today.

A number of trees and shrubs provided nuts many herbaceous plants gave greens and other types of vegetables; fruits came from innumerable sources, and many bulbs and tubers which are passed unnoticed today provided tasty vegetables, seasonings or nourishing ground meal. In the absence of wheat the Indians used the seed of many other grass plants for flour.

### Acorn Was Popular.

Perhaps the most important food plant was the oak. The trees with the sweetest acorns are the California live oak and the basket or cow oak of the Atlantic states, but any acorn may be used for food if the tannin is removed. Indians ate the nuts of more than 40 species of trees and shrubs, as well as the nutlike seed of the water chinkapin, or American lotus.

Fruits are another source of food in the wilds. The Indians enjoyed fresh berries and berrylike fruits from at least 270 species of plants that occur in the United States.

Many species of flowers, too, were consumed. A number are grown in vegetable gardens today. They are all of European origin; cauliflower, broccoli and artichoke, of which we eat the bracts of the flower in the bud stage. The Indians, however, ate raw the flowers of 24 species of wild plants, boiled the flowers of many others; fried the flowers of the red-bud; boiled the buds of the common milkweed and cooked an pot-herb the inflorescence of 15 other species in the bud stage.

It seems that anything green, tender and not too fibrous was used. More than a dozen different kinds of leaves were eaten raw.

Wild rice, restricted in its distribution, was known to only a limited number of tribes.

### Learns Value of Ferns.

The white man is just beginning to learn the food value of the ferns, of which the Indians used at least 20 species. Some of these now are being served in restaurants on the Atlantic and Pacific coasts and at least one kind is being commercially canned. The outstanding fern plant used as food by the Indians was the common bracken. The rhizome was utilized, its bark being removed and white heart roasted. Though it resembles the dough of wheat, its taste is too pungent for most white people. The Indians, however, relished this nutritious food, particularly in the Northwest. The intermediate part of the frond in the early spring is delicious and when properly prepared suggests asparagus shoots.

So sustenance can be found in the woods and fields. There is food also in the prairies and along the shores of lakes and rivers, in pools, even in margins of deserts. These native foods are not recommended as staple articles of diet but they provide a source of food in an emergency.

## Trained Watchdogs Used To Guard Defense Plants

**WASHINGTON.**—Trained watchdogs have amply proved their worth in guarding defense plants and industries, the war department says. "One well-trained dog is the equivalent of six guards," declared Lieut. Col. Clifford Smith.

Afghans, German shepherds, Doberman pinschers—all have been "drafted" into service to furnish not only protection, but also companionship for army and navy sentries.

Trained by Dogs for Defense, Inc., New York city, an organization of dog fanciers, breeders and trainers, the canines are put through a systematic course which teaches them to detect the presence of prowlers.

In one instance along the Pacific coast, watchdogs were responsible for locating several men hiding in a boat underneath the piers, the army revealed.

## Ex-Strong Man, 65, Gives Blood for Transfusions

**PHILADELPHIA, PA.**—Edward ("Spike") Howard, a retired strong man, is doing a vastly different act these days. Howard can still break chains across his chest, bend steel spikes into horseshoes with his bare hands and tow a 10-ton truck with his teeth. But now, at 65, he devotes most of his energy to giving blood transfusions. Hardly a day passes that he isn't called out.

**HARMONIOUS** beauty for bedroom linens is offered in these new designs. Graceful baskets of brown filled with colorful flowers are for pillow slips, dresser scarf and vanity set. Outline, lazy daisy, blanket stitch and French knots are the simple stitches required for the motifs.

Pattern No. 22463, 15 cents, brings a usable-several times transfer, which includes all of the motifs shown, together with directions. Send your order to:

AUNT MARTHA  
Box 164-W Kansas City, Mo.  
Enclose 15 cents for each pattern desired. Pattern No. ....  
Name. ....  
Address. ....

### J. Fuller Pep BERRY LINK

Nothing much gets by Old Judge Wiggins' "Fuller," he says to me, "just about the only thing that can keep on growing without nourishment is some folks' conceit."

And speakin' of nourishment reminds me that you got to get all your vitamins. That's why I keep tellin' folks about KELLOGG'S PEP. 'Course PEP hasn't all the vitamins. But it's extra-rich in the two most likely to be short in ordinary meals—vitamins E1 and D. And PEP's a Jim-dandy tastin' cereal, too. Why not try it tomorrow?

**Kellogg's Pep**  
A delicious cereal that supplies per serving (1-cup) the full minimum daily need of vitamin D; 1/4 the daily need of vitamin E1.

**Youthful Soul!**  
The coul never grows old—Longfellow.

### When Your Back Hurts—

And Your Strength and Energy Is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer ranging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes twinges and aching sensation with smarting and burning is another sign that something is wrong with the kidney bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

**DOAN'S PILLS**

WNU—M 29—42

### We Can All Be EXPERT BUYERS

- If bringing us buying information, as to prices that are being asked for what we intend to buy, and as to the quality we can expect, the advertising columns of this newspaper perform a worthy while service which saves us many dollars a year.
- It is a good habit to form, the habit of consulting the advertisements every time we make a purchase, though we have already decided just what we want and where we are going to buy it. It gives us the most priceless feeling in the world, the feeling of being adequately prepared.
- When we go into a store, prepared beforehand with knowledge of what is offered and at what price, we get an expert buyer, fixed with self-confidence. It is a pleasant feeling to have the feeling of adequacy. Most of the unhappiness in the world can be traced to a lack of this feeling. This advertising shows another of its manifold facets—shows how as an aid toward making all our business relationships more secure and pleasant.

W.N.U. RELEASE

THE STORY SO FAR: Forced to run from the law to save his life, Con Cameron is anxious to prove his honesty. Arrested as a murder and robbery suspect because of his association with the notorious Barkers, he was in danger of being hanged as "Criminals' King" in spite of the fact that he had recently saved the life of the marshal, Nevil Lowe. He escaped from jail with Jeff Allison and joined Dad Paramore's gang, but broke with Paramore when Dad attempted to kidnap Lowe's sister, Janet. He saved Janet and later foiled Dad's attempt to rob the bank at Tipton. When he saved Jeff shot by Dad, he left a note telling the story. Still a fugitive, he has been joined by his pal, Caramba Vear, who has persuaded him to stay in the neighborhood. They have been offered a job as detectives by a rancher named Wiley who is a member of an association organized to break up a band of cattle rustlers. Nevil Lowe is also a member of the association. They are to work for Topka Tension of the Broken Wheel ranch, one of the biggest and most powerful outfits, and meanwhile keep their eyes and ears open. Now they are on their way to ask Tension for a job.

New continues with the story.

## CHAPTER XII

A wide veranda shaded the front of the rooming house. Topka Tension sat with the stillness of a gray hawk halfway along it. Con slowed his pace a trifle, so that Caramba preceded him.

"Mr. Tension?" Caramba asked respectfully. "My name's Vear and this is Twenty Johnson. We make out to be hands and if you got jobs we'd like to have 'em."

Tension drew a foot up into the seat of the barrel chair and locked his arms around his knee.

"Any warrants close behind you?" he inquired drawlingly. He had a low voice; very even. "Gets tiresome, having the sheriff jerk my busters right out of the saddle."

"Nary warrant any place! We drifted into the Territory to kind of limber up our g'ography. Rode a spell for the 20 Bar on the Pecos. Twenty, he took on with Los Alamos long enough to bust a few for Taylor. I was too rich to work—then."

Con had sat down upon the edge of the veranda so that only his side face was presented to Tension. Head down, he began to roll a cigarette. When footsteps sounded inside the house, he did not look up.

"Uncle Peck!" Janet Lowe called from the door. "Did you hear about that man Oxwell being killed? The Fronteras killer?"

Con stared incredulously at tobacco and paper and drew a long, slow breath. Then he went on making the cigarette, but shifted position a little so that he could turn his back upon the girl.

"Yeh, I heard about it. Slash never was the wolf he let on to be. Gale Goree told me, that Slash was swelling around yesterday and he kind of stuck a pin in Slash's blister. Gale didn't take Slash serious, so he never killed him. But a couple fool cowboys misread him and one killed him. Good riddance! How you fixed with the store? Got everything?"

"I—I think so," she said. But there was a tone which turned Con carefully about, to meet her wide-eyed stare. "Oh, yeh! I think I have just about the list."

"So you don't think Slash was a real wolf, huh?" a grim voice demanded. "And you think Gale Goree is?"

It was the tall, slim "Gloomy" Megeath, so neat as when Con had seen him at the bar in Fronteras. It was plain that Tension knew Megeath. He did not alter position, nor did his expression change. But there was a tension about him that Con could see.

"Yeh—to both," he said flatly. "Anyway, Slash is dead."

"Slash was plenty fast! Dangerous as a rattler!" Megeath said to Con. "So, when I heard about you killing him, I come to take a look at you. I wondered if you was faster, or just luckier. There'll be some that want to know. Slash left friends!"

Tension's eyes shifted quickly to Con. From the girl came a gasping sound.

Deliberately, Con got to his feet and stepped up on the veranda. Megeath watched him, then turned to look directly at Janet Lowe.

"Why, I do believe it's the sheriff's sister!" he cried. "First chance I ever had, young lady, to take a real mira at you. But if I had guessed what a pretty—"

"That'll do!" Tension cut in. "Whoever and whatever this young lady is, it's not a thing in the world to you. Now, or any other time. You hear me? You better remember it!"

Megeath's thin mouth stretched. He nodded slightly.

"Now, ain't that just too bad!" he whispered—then laughed. "Well, I'll be seeing you-all. Specially, you, Johnson."

He turned away and seemed to forget them. At the edge of the veranda he looked up and down, then stepped off and loafed toward the center of Onopa.

"That's a plumb bad actor!" Tension admitted. "Goes by Gloomy Megeath. I do no' as I would put much past Megeath. But you won't likely see him again, honey. Don't you worry."

Then he turned to Con and Caramba. "You boys might as well start on out. Yonder's the road. Just keep

Irby came down loosely, like a dropped jumping jack.

to it for ten mile, then you'll hit a right-hand trail with a pile of rocks to make the sign. Take that trail and go straight on toward the hills."

"You don't think you might have trouble with Megeath?" Caramba asked hesitantly. "Of course, me and Twenty don't weigh awful heavy, but we might kind of back you up—"

"When I need help—or advice—I'll ask for it!" Tension snapped. "All right! All right! But I hope you don't live to see the day you need it and don't have time to come asking!"

They got their horses from the livery corral, had a final drink at a little cantina where Mexican proprietor and Mexican customers watched so steadily that Con knew he was recognized. When they rode past the rooming house, Tension and Janet were not on the veranda. But, somehow, Con felt more cheerful than before. He stared ahead blankly and whistled Buffalo Gals.

"She is pretty!" Caramba said thoughtfully. "Say! I thought you said she keeps house for her brother. How come she's down here?"

"I don't know. Surprised me to see her step out there and call Tension 'Uncle Peck' and talk about buying for him at the store. Well, Mrs. Tension may be a friend of hers. Or she may be a niece. Probably she came visiting—I wonder! Maybe Nevil's not so easy in mind about her being on the NL while he chatters around. After Dad's crack at the place probably he wouldn't."

They turned at the heap of boulders and rode along the ranch road. Ahead, the hills rose, low and smoky. The sunlight of late afternoon was pale upon flat and height. Caramba shifted in the saddle to look all around him.

"Ought to be ten-twelve miles to the house. Be dark by the time we hit there—good and dark. Say! how come the girl never let on she knew you?"

"Because I was with you. You wouldn't expect a nice girl to speak to anybody siding a wild-eyed Tex-cap of your build. When she gets me off to myself, she'll read me a sermon about associating with bad companions."

He swung off on the little hilltop and stretched himself. Caramba dismounted and reached into his alforja for the quart brought from Onopa. He sprawled comfortably to make a cigarette and smoke. Con sat beside him and played mumblepeg with his heavy knife.

"You know, I told you about that gang at Fronteras," he said presently. "Well, this Gloomy Megeath was drinking at the bar within a yard of me. I don't think he recognized me today and made out that he didn't. But I made enough noise around Fronteras for him to notice me and remember me."

"Does look funny. Looky!"

But Con had already seen the rider topping over a ridge a quarter-mile or so away, coming toward them. Caramba stared calculatingly at the man and shook his head.

The rider came on toward the hill and when he was within fifty yards they saw that he rode with hand on his pistol. He pulled in, a thick, dark man with wide, flat face, to look sullenly and arrogantly at them.

"Whealers?" he grunted. "Hell! don't gawp so. I ain't aiming to eat you—maybe."

"That'll please your teeth," Caramba said dryly. "Yeh. We're wheelers. So that makes it polite for us, being on Wheel range, to ask where you're from. Even, which way you're heading."

"I'm Monk Irby! Reckon you heard that name. And I'm from Hellig Canyon. And I'm heading for Onopa to kill me a couple pups!"

"Well, I've heard of Onopa, anyway," Con drawled solemnly.

Irby's smoky eyes shuttled suspiciously from one to the other. Out of a pocket of his old coat he drew a flat flask, held it up to the low sun, uncorked it and drank gulpingly until the half-pint of liquor had disappeared. Then he tossed the empty flask away and got heavily out of the saddle.

"Gi' me a cigarette," he ordered them generally. "I run out of tobacco while ago."

"La' roe!" Caramba begged Con

plaintively. "You know I'm tenderer in the gizzard than you are."

He held out tobacco and papers and when he had smoked for a moment, Irby seemed not so belligerent.

"I got a couple pups to kill," he said rhapsodically. "You fellows been in town today? Slash Oxwell was murdered—plumb murdered!—by two tramp cowboys. If you was in town—talk up!"

"Goodness me! We got nothing to hide!" Caramba cried. "We watched the whole business and we're willing to talk. Not because you say so, sabe? You want to watch that habit of yours, Mister Irby, being so crowdsome and handing out powder so gay! But it did happen that we saw our wagon boss, Gale Goree, push Slash around allasame!" Irby, boy steering a pig with a switch.

He shook his head in the way of one meditating.

"I bet you that made Slash mad at Goree. Goree wanted him to pull his big pistol, you see. But Slash set out to fool him: he wouldn't do it!"

"So"—Con picked up the tale drawlingly—"Slash had to try something to blow up his balloon again. As soon as he was certain that Goree and the other wheelers had got a long way out of Onopa, he hunted a safe man to kill—any old way. He picked the youngest, tenderest cowboy he could find. He thought it was a good pick, a safe pick. But it turned out that it was a sharp pick. Another false alarm was with Slash and he got out with his hide—but that hide had a hole in it."

His hand twitched smoothly and Irby stiffened before the cocked pistol.

"I wouldn't try slapping leather, Irby!" Con said evenly. "Reach up and take hold of your big, ugly ears!" Con lifted his Colt and aimed at Irby's belt.

Irby's hands went up as if jerked by a string. He blinked incredulously, swallowed, began to stammer thickly. Caramba went humming to jerk the gun from Irby's holster. There was a shorter pistol in a shoulder holster under the prisoner's coat, a long Bowie knife sheathed between his shoulder blades, a derringer in the watch pocket of his pants. Con watched the disarming with brooding calm. Then he handed Caramba his pistol and went three steps to stand before Irby.

"The more I look at you," he said between his teeth, "the more I don't like a thing about you! So—"

His hand shot out to rake down Irby's face from forehead to chin. Irby swore furiously and struck at him. Con swayed to the side and twisted. He drove his left to Irby's belly and jerked the taller man down, hooked right and left flashingly to Irby's neck under the ears, then stepped back. Irby slipped to his knees, but scrambled up and came in a clumsy rush at him.

Irby was staggering, mouth open, too winded even to curse. As coldly as an executioner, Con moved to the precise position he wanted, then smashed him exactly on the boxer's "button." Irby came down loosely, like a dropped jumping jack. Con turned to find Caramba staring at him with an odd, narrow-eyed intentness.

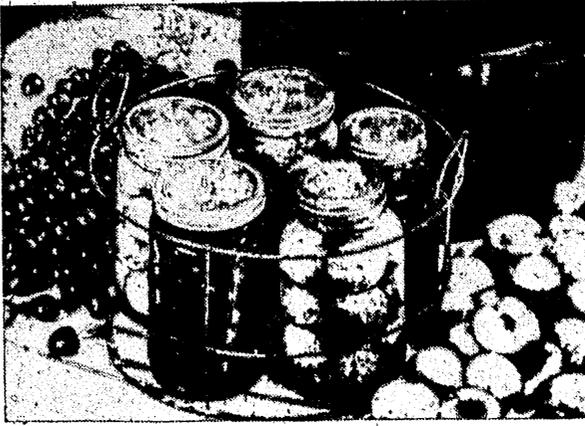

"For dion!" the red-headed puncher said explosively. "I do believe Topka Tension stumbled onto somebody exactly the kind they been saying the Busted Wheelers run to! You never looked so—so damn' deadly, Con, even when you bucked Slash Oxwell!"

"They get under my skin!" Con snarled furiously. "Dud Paramore! Gloomy Megeath! Slash Oxwell! This! And the like of that! Thieving outfit at Wild Horse—Nobby, for one! They swagger it and you'd think nobody around amounted to a hoot but their kind. And most of 'em are cowards of one kind or another, if they're pushed. Buzz Upperman, or Nevil Lowe, or a lot of other men who don't blow and strut—plenty of plain cowboys—have got more guts than a pastureful of these two-by-four thieves—Now, I reckon we might's well pull out for the house. We'll be late—No! Let's give people a chance to see him the right way. Here!"

# Household Hints

by Lynn Chambers

Prepare for Winter With Delicious Canned Fruit (See Recipes Below.)

## Fruit Canning

Plan now to put up those fruits from the market or your victory garden while you can still capture their garden-freshness and summer sweetness. This year's canning will require more careful planning than ever before, for waste in the fruit itself, canning jars, rubbers or sugar is highly undesirable.

Chart your plans before embarking on the canning program. Consider first how much sugar you will have available, with the five pounds per person allotment for people who are canning. Plan this amount so it will do for the jams, jellies, preserves, and sugar syrups for fruit canning.

If possible, can in the early morning hours when you are rested and your mind free from too many other thoughts. You will then be able to follow recipes more carefully, to work with more energy and spirit. The day before you will, if you are the bright and alert homemaker, have gathered together your jars, washed them, bought necessary supplies of rubbers and covers and other equipment.

Bring out the preserving kettles and pressure cookers, too. See that they are well scoured, that you have the racks, petcocks, pressure gauge, and steam-tight cover on the pressure cooker well in order.

A hot water bath is best for processing fruits because they are acid. They can safely at high temperatures, and texture, flavor and color are best. Oven canning is good also. For the hot water bath, use a large wash boiler or vessel with tight fitting cover. Fit this with a rack at least 1/2 inch from the bottom. Fill the rack with enough water to cover jars at least one inch over the top. Count the processing time as soon as water surrounding the jars begins to boil. There should be free circulation of water around jars.

For oven canning, set the temperature at 250 degrees. Set jars on a rack in the cold oven, however. Start counting time when oven is switched or turned on. Do not allow the temperature over to exceed 250 degrees as this causes liquid to boil away and evaporate.

In placing your jars in the oven, allow for free circulation of heat between them. Do not allow the jars to touch each other, as this will often cause breakage, and do not allow them to come in contact with the sides of the oven.

If liquid evaporates during the processing in the oven, do not fill the jars after you take them out. Some evaporation does not affect successful canning of the fruit.

## The Sugar Question.

Fruit may be canned successfully without sugar or sugar syrup with water or fruit juice used in its place. Sugar, however, does mellow and ripen the fruit, giving it a better flavor. You might try making your fruit syrups for fruit canning less sweet than usual if you are short on sugar.

Honey may be used in place of sugar in making the sweet syrup, but the fruit will be somewhat more dark than if sugar is used and the fruit flavor will be intensified. Use honey for each cup of sugar in the substitution.

## Lynn Says:

How many jars are you putting up of the fruits? Here's a guide to help you pick out jars.

Cherries: 9 baskets yield 2 pints pitted, 7 pints, if whole.

Peaches: 2 1/2 pounds (small basket) yields 1 quart.

Plums: 1 14-pound basket yields 2 1/2 pints.

Strawberries: 1 crate yields 2 1/2 pints, if canned whole; 3 1/2 (7 1/2-ounce) glasses of jam.

**THIS WEEK'S MENU**

Smothered Steak With Onions
Green Beans Scalloped Potatoes
Tomato-Lettuce Salad
Bran Muffins
Whipped-Fruit-Gelatin Beverage

White corn syrup is another acceptable substitute, but since it is less sweet than sugar, substitute 1 1/2 cups of corn syrup for 1 cup of sugar.

**Syrups to Use.**

Thin syrups (No. 1) are used for small, soft fruits such as cherries and berries. Make the syrup by using three parts of water to one part of sugar.

Medium syrup (No. 2) does best by sour berries, acid fruits as cherries and rhubarb, and peaches. Boil two parts of water with one part of sugar.

Heavy syrup (No. 3) is prescribed for the large, sour fruits in which you desire extra sweetness. Measure one part water to one part sugar and bring to a boil.

## Apples or Pears. (Hot Pack)

Wash, pare, core uniform-sized apples and cut to desired sizes. (If fruit is to stand long enough to discolor, drop into water which has been slightly salted, until ready to use.) Drain from brine. Boil 3 to 5 minutes in a medium syrup and pack into clean jars, filling with syrup to 1/2 inch of the top. Put on cap, screw band tight, process in hot water bath 25 minutes, or in the oven (at 250 degrees) 75 minutes. If using a pressure cooker, process at 5 pounds for 10 minutes.

## Apples or Pears. (Open Kettle)

Select uniform fruit, wash, pare and core. Cut into halves or slices. Drop into boiling No. 1 syrup, and boil for 20 minutes. Pack into clean, hot, sterilized jars and seal tight.

## Peaches. (Open Kettle)

Select firm, ripe peaches. Peel or dip peaches in hot water, then in cold and slip off peel. Leave whole or cut in halves or slices. Boil 20 minutes in No. 2 or 3 syrup, and pack in clean, hot, sterilized jars. Seal tightly.

## Peaches. (Hot Pack)

Prepare as above, removing peel and pits. Precook for 3 minutes, then pack into clean jars, add syrup to within 1/2 inch of the top. Put on top, screw-on firmly, and process in a hot water bath for 20 minutes, or in the pressure cooker for 10 minutes at 5 pounds, or in the oven (250 degrees) for 60 minutes.

## Plums. (Hot Pack)

Use the same method and time as for peaches, except do not peel the fruit, merely prick the skins.

## Berries. (Cold Pack)

(Except strawberries and cranberries)

Wash, stem and pack berries. Pack into clean jars and add No. 2 or 3 syrup. Put on cap, screw tightly. Process in hot water bath 20 minutes or in pressure cooker 8 minutes at 5 pounds or in the oven at 250 degrees for 65 minutes.

## Cherries. (Cold Pack)

Wash, stem and pit cherries, if desired. Pack into well cleaned jars, fill with No. 2 or 3 syrup depending on the sweetness desired. Put on cap and fasten tightly. Process 20 minutes in a hot water bath, 10 minutes in the pressure cooker at 5 pounds, or 65 minutes in a 250-degree oven.

If the directions for the fruit you desire to can are not given here, or if you have any query on other canning problems, write to Miss Lynn Chambers, explaining your problem to her. Address your letters to her at Western Newspaper Union, 210 South Dearborn Street, Chicago, Illinois. Please enclose a stamped, self-addressed envelope for your reply.

# HOUSEHOLD TINTS

Clean your oil mops in hot water to which has been added washing powder, with a little ammonia.

If you cannot get candleholders for the birthday cake, decorate top with marshmallows and stick a candle into each one.

Shake your turkish-towels vigorously before hanging up to dry. This removes wrinkles and raises the nap.

When stewing dried fruits, the addition of a small amount of lemon rind will give a better flavor.

Ravel the thread from an old silk stocking and use it for catching and mending runners in other hose. It is stronger and less noticeable than darning thread.

July Enlistment Quota Raised

Maj. Frank L. Shannon, Marine Corps Recruiting Officer in Phoenix, declared today that the Arizona New Mexico quota for July had been raised from 80 to 125 enlistments.

"This area has never failed to meet our quota since this station became the district headquarters last January," said Maj. Shannon. "I know the men of Arizona and New Mexico will come through again as in the past."

In addition to the main station in Phoenix, the Marines Maj. Shannon said, maintain sub-stations at Tucson, Ariz., and Albuquerque and Roswell, N. M.

"The Marine Corps is now accepting men only for general service," the major added. "Men from 17 to 35 are eligible. Married men may enlist if their dependents will sign dependency waivers."

For prospective Marines in outlying districts, Major Shannon said, the recruiting service offers a unique enlistment plan.

"A prospective applicant should write to one of our recruiting stations and we will forward blanks to be filled out," the recruiting officer said. "Then, if necessary, a preliminary medical examination may be given by a nearby civilian physician."

BUY U.S. WAR BONDS-STAMPS

(Special to Lincoln County News)
Los Angeles, California, July 23, 1942.—One of the many who are answering the Navy Department's call for 30,000 pilots in 1942 was Fenner D. Jones, 21, son of Mr. and Mrs. Robert S. Jones, Corona, who has been enlisted as a Navy flight student.

Young Jones will be ordered to report to the Navy's new pre-flight school at Saint Mary's College. Here he will undergo a training course whose primary interest will be to "toughen him up" for aviation duties. After three months spent at this school, under the tutelage of some of the country's outstanding coaches, he will be better able to cope with any situation that may develop while on combat duty.

This course is followed by three months at the Naval Reserve Aviation Base, Los Alamitos, where he will take part in ground school studies, dual flying under the guidance of a skilled Navy flyer, and 60 to 75 hours of solo flying.

Transferred to the advance training base at Corpus Christi, Tex., he will be given intensified ground school courses, and will fly faster and heavier land and seaplanes.

Completion of six months of training at the advance base and Jones will be commissioned as Ensign in the United States Naval Reserve or Second Lieutenant in the United States Marine Corps Reserve.

As a flying officer he will be assigned to duty with the Fleet or one of the Naval Air Stations.

Running A Newspaper

(Pleasant Hill (Mo.) Times)

We like people who give us news items.

We adore club reporters who get their news promptly instead of the week after a club meeting.

We are fond of folks who know typewritten copy should be double spaced and of correspondents whose handwriting requires no special decoding.

We appreciate readers who realize that no conclave is held in the newspaper office each day to decide which item will appear on front page and which inside. While we do plan to give front-page space to the several most important stories, there is, in our minds, an equality of importance between the Smith's "company" on page 1 and the Jones' "dinner" guest on page 4.

We are grateful to fellow citizens who do not make a gleeful practice of pointing out typographical errors that get into the paper. We invariably find them ourselves the moment the paper is off the press, and seldom think them funny.

And we greatly esteem those fine souls who take the trouble to compliment us when they have enjoyed "a piece" in the paper.

There are, indeed, some very nice people in the world.

Mr. A. M. Fernandez of Taos, N. M., has announced his candidacy for Congress, subject to Democratic primary, Sept. 12.

WHY CENSORSHIP?

(By 1st Lt. Ralph H. Ayers, AC Public Relations Officer RAFS, Roswell, N. M.)

Why censorship? To Americans unused to censorship in any form, there is always a raising of the eyebrows when it comes up in a discussion. So, being a curious member of the 4th estate, I hied myself out to the Intelligence Officer of the Roswell Army Flying School and asked him to explain to me the "why" of censorship, so that I could pass his slants on to you.

It seems according to this officer, that basically the enemy, in order to crush us, must know what we are doing, how we propose to do it, and what sources we can command to do it with. With all of the shreds of information the enemy can gather he forms a pattern which will provide him with the essential news he needs to know, and each succeeding piece of information is added to his never-ending pattern so that at all times he can estimate what is going on our side of the fence.

"It isn't the big pieces of inside information that we are afraid of leaking over to the enemy," he said, "But the little items released by loose-lipped individuals who don't care who dies as long as they get the credit for knowing something."

Whether we talk loosely, or write loosely, the results are the same, for the enemy. If Americans would just button up their wagging jaws concerning the war effort their would be little or no information for the enemy to get his hands on. For example, take secrecy surrounding the bombing of Tokyo. The Japanese haven't the vaguest idea where these bombers came from, where they

were bound, where their mysterious bases are, where Shanghai? And how they would like to, and how they are trying in every way possible to find out. The men who had part in this plan in any way aren't talking.

So take a lesson from the secrecy surrounding this raid, and "shut up" for the duration.

You would make life a little easier for the Military Intelligence of this country, and tougher than the devil for the minions of Hitler & Co., and incidentally you could be making it easier on yourself. Stupid comment on your part is a contributing factor in giving the enemy information which will prolong this war. This same information could fit into the enemy's pattern concerning our strength and whereabouts, so that instead of a great victory, we could suffer a humiliating defeat in some battle.

Too simple information carelessly tossed off by you could be the determining factor in causing the loss of life of your own son, or that of your neighbor next door. So, QUIET PLEASE! The enemy is listening.

abc's

of wartime travel

avoid week-end travel

Travel is always heaviest on week-ends. By planning to start your trip on a Tuesday, Wednesday or Thursday, you have a wider choice of accommodations and you make room for those who must travel on week-ends—war workers and men in the armed services.

be an early bird

Get full information well in advance of the day you plan to leave. Make your reservation and purchase your rail and Pullman tickets early. You thus are assured of accommodations and you avoid last minute rush. It's a good idea to buy your return reservation at the same time.

Cancel promptly IF PLANS CHANGE

The space you reserve on a train is valuable—too valuable to go unused. If you are forced to change your plans, please cancel your reservation and turn in your Pullman ticket for refund immediately so the space can be used by other travelers. Remember that seats on the Streamlined Daylights must be reserved in advance. Here, too, we ask you to turn in your reservation promptly if you decide not to go.

don't waste space

If you need a compartment, a drawing room, or a bedroom by all means buy it. But please don't take more space than absolutely necessary. A berth may be all that you really need. Or share a room with a friend or business associate when you are traveling together.

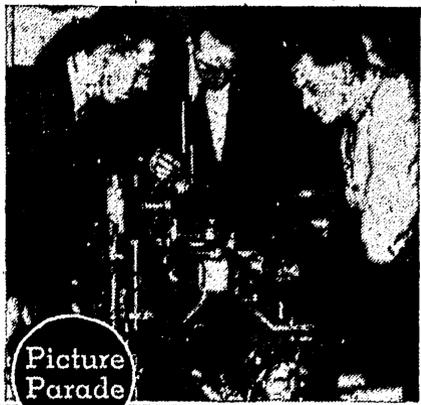

To get \$25 a month starting in 10 years, buy an \$18.75 War Bond every month now.

The Friendly Southern Pacific

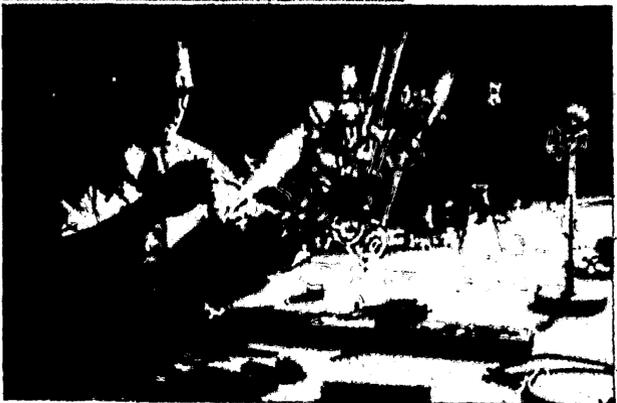

### Engineer's Wonderland

A wonderland of modern miracles is housed within the white Landon stone walls of the Northwestern University's new Technological Institute at Evanston, Ill. There are rooms where it is always raining, and taps which deliver the pressure of 3 Niagara. Right: Physics professor, Brentano (center), and two assistants, analyze the elements in a piece of metal alloy.

Picture Parade

At the institute there is a machine which exerts the pulverizing weight of 5,000,000 pounds, another that sags with the weight of an eyelash. One room is colder than the North Pole and another three times as hot as the Sahara at mid-day. Left: Crushing 18-inch thick concrete or gently cracking egg shells is equally easy for this two and a half story 1,000,000-pound testing machine, which is used to study structural performance of large beams.

For modern research in chemistry and physics the ancient art of glass blowing, shown here, is still an essential factor. James F. Morris prepares many intricate and unusual pieces of apparatus in the new Technological Institute.

Above: Walter P. Murphy, railway supply manufacturer, whose gift of \$6,735,000 created the Technological Institute. Left: Two budding scientists experiment with chemical reactions.

Chemistry Professor Malcolm Dole (right) uses a model to explain to students what a molecule of nylon looks like. The chemistry department works in co-operation with the engineering department.

The Technological Institute of Northwestern University

### Post-War Period In U. S. to Be an Amazing New Age

#### After-War Years Will See Astonishing Changes in Ways of Living.

Mr. and Mrs. Average American of the post-war era probably will find themselves living in a world full of comforts, conveniences and gadgets that at a present day view have a decidedly Jules Verne flavor.

They may own a home that was erected from the ground up within eight hours and is just as stable as one which before the war required six months to build. The home will have conveniences undreamed of even for comfort-loving Americans. They probably will drive a modestly priced automobile that runs 35 miles on a gallon of gasoline and will negotiate terrain and hills formerly suitable only for the timo-honored mountain goat.

If they live on a farm they probably will have an amazing vehicle that can be used to plough, harrow, milk and round up the cows.

When vacation time comes around they may fly over to Cairo or down to Buenos Aires for the week-end. Or they may even make an around-the-world trip during the head of the family's traditional "two weeks off with pay."

These are not fancies conjured from a Lewis Carroll (who authored "Alice in Wonderland") imagination. They are practical potentialities which industrial experts already are forecasting as the logical peacetime application of armament developments.

War is a forceful spur to the progress of industrial science and invention. Under its duress there is no time for the cautiously slow experiments which mark the reception accorded new inventions and discoveries in years of peace. New methods, new materials are accepted overnight and are tested in the acid furnaces of combat. The tragedy of modern warfare is an anachronism of progress.

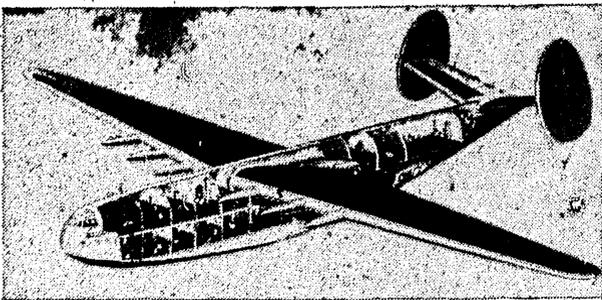

Distance Annihilated. There is no better illustration of this than the advancement made by aviation as a result of World War I. The airplane represented new potentialities of speed and destruction and as such was seized upon as a weapon of offense by the Allies and their enemies alike. In the short period of four years aviation made an advance that would have required a quarter of a century in normal times.

Today, the same situation magnified ten times over obtains. Only recently, Glenn Martin, the noted aircraft designer, announced plans for a 125-ton behemoth of the air capable of transporting 50,000 pounds of equipment at speeds of 200 to 230 miles an hour to be built after the war. This plane, said Mr. Martin, will be "as big as a 30-room house." Meanwhile, another company is reported to have already completed the wooden dummy of a ship that will dwarf the Martin monster—a 160-ton model which could move whole battalions across the continent overnight.

Already in use are new methods of construction which lighten aircraft by hundreds of pounds and so tremendously increase their passenger and freight carrying ability. Naturally, these planes are at present only in military form.

When Peace Comes. However, when peace comes these Goliaths of the clouds will be interpreted in terms of pleasure and convenience for the travel-loving nation. The almost unbelievable speed which has been developed for mili-

### Air Leviathan of Near Future

This new design of Glenn L. Martin company's proposed 250,000-pound flying ship is a "preview" of what all will be seeing as it roars across the skies after the war is won. Such planes as these today could haul regiments from coast to coast in a day's time.

tary planes—some of which fly in excess of 500 miles an hour—will place far-flung continents and their cities within a comparatively few days or few hours flying distance of the United States. Flying freight trains probably will become the order of the skies.

The increasing public interest in aviation, the training of thousands of young men as expert pilots and the strides made by safety in aviation also presage a new era of private flying. Ten years, even five years from now, plane-rental and fly-it-yourself services probably will be too commonplace to be news. When priorities are no longer necessary, stall-proof, spin-proof planes such as the "Ercoupe" and "Skyfarer" (notable for folding wing features) probably will travel side by side with automobiles along the highways as they shuttle from air field to garage.

An C. R. Smith, former president of American Airlines, recently declared, "In the post-war period, non-

#### Toward a New Era

Even as the nation devotes the full energies of its industrial power and scientific genius to victory, its citizens can still lift their eyes above and beyond the holocaust of world war to an era that will bring with it a new pattern of living at once finer and more dramatic in its benefits than any civilization has known before.

stop operation over the ocean will be possible with most of the crossing to Europe done at high altitude speeds in excess of 300 miles per hour.

#### Miracle Car Forecast for Farm Use.

As in aviation so in the world of automotive progress the developments of war will become integrated into America's peacetime pattern of life a few years hence.

In recent tests conducted by the United States department of agriculture and Willys-Overland Motors, Inc., makers and manufacturers of the standard design Jeep, at Auburn, Ala., and Toledo, Ohio; the vehicle gave promise of performing with the same versatility on the farm as it presently is doing on the battlefields of Europe and the Far East.

During these tests the car did everything from cultipacking and harrowing a field in one operation, using 2.12 gallons of gas per acre, to hauling almost a ton and a half of farm produce a distance of 13 miles on a gallon of gasoline.

Already known as the "army's miracle car," the Jeep is the descendant of a motor driven platform on wheels known as the "belly-flopper," which was first demonstrated at Fort Benning, Ga., in 1940. At the request of army officials Joseph W. Frazer, president of the Willys-Overland company, and other automotive experts undertook the design of a car which would not exceed 1,400 pounds in weight and should

This is a modern version of beating swords into ploughshares: converting the army's miracle car, the "Jeep," into an agricultural vehicle of many uses. Who knows, but that some future day Old Bossy, down in the south pasture, will be herded by means of such a jeep?

### New Heights of Health for U. S. Citizens After War

From out of the many efforts to improve conditions in the nation's great manufacturing plants as a war measure has emerged a cure for one of the most dreaded of all diseases—silicosis.

Science has discovered that aluminum dust has an affinity for silica and that blown into the air it coats the microscopic particles of silica so that when the latter is inhaled into the lungs its poisonous effects are annu-

nated and it becomes harmless.

However, above and beyond discoveries of this type there is the even broader aspect of a new high level of health which post-war generations undoubtedly will enjoy because of the far-flung program of education in nutrition now under way as a part of the war effort. Probably for the first time in the history of any nation, Americans will reach new heights of health and well-being because of this newly ac-

quired knowledge of how and what to eat.

In the light of these new benefits and luxuries which await only the end of the world struggle to become realities it is logical to look also into the economic horizons of the post-war period to discover what likelihood there is that the average American family will be economically able to enjoy this new pattern of life already looming on peacetime horizons.

These automotive principles of high-powered engines which consume a minimum of fuel also will be applied to pleasure vehicles, automobile designers predict, forecasting a light yet powerful car which will require only about one gallon of gasoline every 35 or 40 miles.

#### On the Sea, Too.

On the sea also the war effort is providing amazing new inventions applicable to the country's peacetime pattern of living. The United States has experimented with an all-aluminum destroyer which they believe will cut through the water at 52 knots an hour.

Seacraft designers declare that the use of aluminum in boat construction may well be the forerunner of high speed passenger transport ships faster than anything previously dreamed of. Row and sail boats so light that a half-grown boy can carry one across country, and sleek pleasure craft that will rival in water the speed of their automotive cousins on land, undoubtedly will make their appearance in the post-war era at prices within reach of the American in the smaller income bracket.

Describing the post-war house which Americans may be occupying ten years from now, Norman Bel Geddes, who designed the Futurama at the New York World's Fair, pictures a prefabricated house which a crew of six men could erect in one eight-hour day. With such a house a family might well eat dinner in a home that had been no more than a pile of materials the same morning.

"We have all the techniques and facilities to build houses such as I have described," says Mr. Bel Geddes. "Today, we have an opportunity to change over from old-fashioned and costly methods to the modern mass production way of building better homes at lower cost." He estimates that at least 2,600,000 new housing units will be required after the war.

Still another noted American architect, Walter Dorwin Teague, declares that we have only to apply to home-building the same techniques of design, manufacture and selling that have provided one motor car for every four people in the United States to produce a type of home which will be within reach of the man in the very low income bracket.

Mr. Teague has designed a house to sell for \$1,000 to \$2,000 which, can be rearranged, even when occupied, as to size and floor plan almost as easily as one changes the furniture in a room. The Teague house not only can be enlarged or reduced in size at the owner's will but also can be moved from one building site to another.

Such a factory-fabricated house, he says, will compare with present day houses as a modern automobile compares with an old-fashioned buggy. If the owner of such a house discovers that his job necessitates a move across the continent he will simply take the house down, call a truck and have the house transported to his new place of residence. If after six or eight years he wants a new house he will trade in his old one just as he does his automobile.

Still another architect who has been studying post-war housing problems, William Hamby, urges that "For better living the post-war home must be improved for the one who has the most to do—the woman."

In a house planned "to take the drudgery or" of housekeeping," Mr. Hamby abolishes the usual kitchen and substitutes a streamlined and beautified unit so planned that while the homemaker gets dinner she can also participate in the family's activities.

## CLASSIFIED DEPARTMENT

### FEED

Feeders Attention! Pig Meal for approximately \$5 ton—hog raiser for \$30 by using 10 lbs with your home grown grain—balanced with proteins and vitamins. Get that extra egg and milk production and a super finish on your steers. No hog raiser—meat dealers wanted everywhere. THE NU LAC YEASTON CO., Jefferson, Iowa.

### ASK ME ANOTHER?

A General Quiz

- #### The Questions
1. What useful but deadly drug does the nux vomica tree yield?
  2. Which of the following does not belong to the Central American group: Costa Rica, Colombia, Guatemala?
  3. What was the ancient name of the Dardanelles?
  4. What name is given to a group of paid applauders?
  5. What did the three men, Hadrian, Justinian and Trojan, have in common?
  6. Who cautioned his men to "put your trust in God, but mind to keep your powder dry"?
  7. How many miracles of Christ are narrated in every one of the four gospels, Matthew, Mark, Luke and John?

- #### The Answers
1. Strychnine.
  2. Colombia.
  3. Hellespont.
  4. Claque.
  5. All were emperors of Rome.
  6. Oliver Cromwell.
  7. One (feeding the 5,000).

Admirals may be admirable, but that isn't where the word comes from. It comes from an old Arabic word "amir-al" meaning "commander of." That's what the Admiral is, the top-ranking officer in the Navy. Top-ranking cigarette for our Navy men is Camel—the favorite, too, with men in the Army, Marines and Coast Guard, according to actual sales records from their service stores. Camels are their favorite gift, too. Local dealers are featuring Camel cartons to send anywhere to any member of our armed forces. Today is a good time to send them a carton of Camels.—Adv.

### Acid Indigestion

What many Doctors do for it  
When excess stomach acid causes gas, sour stomach, heartburn, doctors prescribe the fastest-acting medicine known for relief—Scholl's Zino-pads. The pads in 10-seconds, 15 minutes. If your very first trial doesn't prove Scholl's better, return the pads to us and get double your money back, free.

### Increasing Value

The Church is the only institution on earth which continues to increase in value while being constantly discounted by its friends.—W. G. Montgomery.

### AWAY GO CORNS

Pain goes quick, corns speedily removed when you use this soothing, soothing Dr. Scholl's Zino-pads. Try them!

#### Dr. Scholl's Zino-pads

### Facts of ADVERTISING

ADVERTISING represents the leadership of a nation. It points the way. We merely follow—follow to new heights of comfort, convenience, of happiness.

As time goes on advertising is used more and more, and as it is used more we all profit more. It's the way advertising has—

of bringing a profit to everybody concerned, the consumer included.

**NEW IDEAS**

For Home-makers  
By RUTH WYETH SPEARS

GIVE an old wicker chair a smart cover of gay chintz and it will be ready to start a new life. The chintz for this chair has a quaint pattern of strawberries with green leaves and the skirt with its trim box pleated corners is plain green. The cover is removable with a zipper opening down the center back and long stitches with heavy thread through

the cover and the wicker are used here and there to hold it neatly in place.

The padding for the inside of the back lends both style and comfort. The cotton batting is fitted and cut on the chair. It is then used for a pattern to cut a slightly larger muslin foundation and the chintz, as shown at the upper left. These three layers are then basted and stitched together to make the puffed ridges for this part of the cover. Plain seams are used to stitch the pieces of the cover together.

NOTE: Mrs. Spears' booklet No. 7 gives complete directions for making the ottoman shown in this sketch. Also more than 30 other fascinating homemaking projects, each with working drawings. If you have ever made slip covers you will want Book 1, as it shows the beginner exactly how to cut, fit and sew them. Send your order to:

MRS. RUTH WYETH SPEARS

**Bathing Their God**

Once every 15 years, more than 500,000 members of the Jain sect in India gather in the city of Sravana Belgona for the bath and ceremonial worship of the 57-foot statue of their god Gomateshvara, says Collier's.

From various stations on the scaffolding on three sides, scores of Jain priests pour milk, ghee and water over the colossal figure and then shower it with such offerings as dates, poppy seeds, sugar, coins and gems.

**TRY THIS NERVOUS**  
IF YOU'RE NERVOUS  
on "certain days" of month  
If functional monthly disturbances make you nervous, restless, high-strung, cranky, blue, at such times—try Lydia E. Pinkham's Vegetable Compound—famous for over 40 years—to help relieve such pain and nervous feelings of women's "difficult days."  
Taken regularly—Pinkham's Compound helps build up resistance against such annoying symptoms. Follow label directions. Will worth trying!

**BUREAU OF STANDARDS**

• A BUSINESS organization which wants to get the most for the money sets up standards by which to judge what is offered to it, just as in Washington the government maintains a Bureau of Standards.

• You can have your own Bureau of Standards, too. Just consult the advertising columns of your newspaper. They safeguard your purchasing power every day of every year.

**FIRST-AID to the AILING HOUSE**

by Roger B. Whitman  
Roger B. Whitman—WNU Features.  
**ELECTRIC HOUSE WIRING EXPLAINED IN GOVERNMENT PAMPHLETS**

WITH the general extension of electric service, it is now possible to bring its advantages to houses that were formerly far beyond the electrified limits. This situation becomes clear to me by the number of inquiries that I am getting on the wiring of houses; the materials that are needed, the methods of laying the wires, of making connections, etc. It should be said in the first place that in many parts of the country there are codes that require electrical work to be done by licensed electricians, and covered by a certificate by the fire underwriters. Before doing any electrical work, an owner should ask his insurance agent whether or not this is necessary.

The Rural Electrification administration has issued two pamphlets that give full information on wiring. These can be had from the Superintendent of Documents, Washington, D. C., who should be asked for "Wiring Your Farm and Home," which costs five cents, and "Electrifying Your Farm and Home," which costs ten cents. Information will also be supplied by the large mail order houses, which have issued pamphlets of instruction. Correct wiring, properly installed, should last almost indefinitely.

**Cold Rooms**

Question: Our two-family house has hot air heat, and on a cold night we have difficulty in heating all of the first floor rooms. The front hall and den of the second apartment get absolutely no heat. What would be your advice?

Answer: With hot air heat the common reason for a cold room is that outside air leaks into the room around the windows and elsewhere in such great volume that warm air is prevented from coming out of the register. In that case the remedy is to make the windows tight with weatherstrips and storm sash. Another method is to install a fan in the furnace, so that warm air will be driven through the registers under pressure. This is not an expensive attachment and can be provided by any heating contractor. When properly installed it should give equal distribution of heat throughout the house.

**Cleaning Waxed Floors**

Question: I had my floors sanded a year ago and finished them with a liquid wax. Now I should like to clean them. How could this be done?

Answer: Wiping with cloths wet with turpentine should pick up the wax and the dirt with it. However, in the year that has passed, dirt has probably gone through the wax and into the wood to such an extent that washing with turpentine will not take it out. Should that be the case, your best move will be to go over the floor lightly with a sanding machine. When the floor is cleaned, do not apply any wax to the bare wood. Before waxing, put on a sealing coat, such as shellac, varnish, or something similar.

**Painting a Brass Bed**

Question: What can I do to a brass bed to make it look like mahogany?

Answer: The best you can do is to paint it. As a starter, go all over the bed with sandpaper to brighten the metal and also to make the surface slightly rough. Then wipe with turpentine and put on a coat of enamel undercoat. When this has dried follow with a coat of enamel. Instead of painting the bed, you could try the effect of putting slip covers on the head and foot.

**Oil-Stained Stone**

Question: Our fireplace is smooth stone. It had a few cracks, which I filled with putty. But the oil has come out of the putty and stained the stone. How can this be removed?

Answer: Cover the stains with a paste made of fuller's earth or powdered chalk and any spot remover, such as carbon tetrachloride. Allow to remain until dry and then brush off.

**Sailed Soapstone Tub**

Question: My soapstone tub and sink look very streaky. What can I use on the outside to make them look more presentable?

Answer: Scrub with any coarse washing powder and follow with steel wool or sandpaper. As a final touch, rub with paste wax.

**Faded Baby Carriage Top**

Question: Waterproof cloth on my baby carriage is badly faded. What kind of paint or dye can I use to refinish it?

Answer: At an automobile supply store you can get a dressing for canvas tops that should give good results.

**Fitted Suits Are Favored by Those Who Really Want to Swim**

By CHERIE NICHOLAS

**PLAY clothes are in a very colorful and versatile mood this season, and swim suits are no exception to the rule.**

It adds to the zest of things that bathing suit fashions present two distinct trends to be considered, for dressmaker fabric types vie with body-molding wool knits.

With some the selecting of swim suits is a matter of picturesque garb which spends more hours on the beach in the style parade than in the water! To these the dressmaker styles which play up novelty and fabric dramatically make definite appeal.

Then there are the real swimmers who go in for health and exercise and trophies and who want suits which give perfect freedom of action to the body. To these fearless divers and swimmers it is the suit of wool knit which makes appeal. It is efficiency they demand for their suit, with color glory and chic styling added. They will find all they long for in the handsome yet practical fashions illustrated in the above picture. The designing of these models manages the task of allowing freedom of movement while remaining perfectly molded to the figure.

Favored by real swimmers is the one-piece suit pictured to the right. This bright red ribbed knit, subtly elastic and flexible, is a masterpiece. The adroit shirring is brought up into a pretty bow effect at the front, at the same time that it makes the suit conform to the body. Thus it meets the ideal of the ardent enthusiast who is battling with the waves.

Just as the plaid sweaters scored big last season the Argyle plaid wool knit swim suits like that pictured to the left in the group are triumphantly in the lead this summer.

This one-piece suit with front skirt is a real swimmer, and it rides on the crest of the wave of fashion as well as on the waves of the ocean. You can get it in muted colors or in bright, lush colors that are thrilling.

The young and sleek two-piece red and white striped wool suit centered in the group has all the characteristics which go to make up the ideal garb for a swimming enthusiast. The texture is very new, being a most interesting seersucker construction. Its amazing light weight and its midriff treatment appeals to the young set.

Amidst the confusion of play clothes which crowd summer beaches, one is impressed with the number of two-piece novelties made of jersey. An outstanding model is in black and white striped jersey with bare midriff and covered shoulders, the sleeves stopping midway to the elbow.

The all-white vogue is represented in many charming jersey suits. Especially charming is the white jersey, the halter-neck top of which is cut out at the front midriff only. Bowknots in contrasting jersey are applied here and there.

While there is still a limited supply of rubber bathing caps to be had comes the comforting news that substitute, rubberless caps are being produced. These are of cotton treated with pyrazoline to make them weatherproof. And that goes to prove once again that "necessity is the mother of invention."

Released by WETA Newspaper Union.

**PATTERNS SEWING CIRCLE**

WHAT a practical idea there is in this cunning small outfit for little girls! Off with the jacket and you have a cunning play dress without sleeves—so that it permits rollicking freedom and plenty of healthy sun tan. It is a dress which your daughter can wear in comfort for hours of back-yard play, beach games and farm life!

The jacket which dramatically transforms the princess frock into a smart street outfit is just waist length, has tiny short sleeves and a simple square neck. You'll like the effect if you apply to the skirt two bands of the material you use in the jacket. Band the pantlegs, too, to complete the cheerful ensemble. Pattern No. 1607-B gives you complete instructions for making each of the three pieces.

Barbara Bell Pattern No. 1607-B is designed for sizes 2, 3, 4, 5 and 6 years. Size 3 years dress requires 1 1/2 yards of 23- or 25-inch material, bolero plus bands for dress and pantlegs, 3/4 yard and pantlegs, 3/4 yard.

**New Dirndl**

A SLICK new long torso frock with a swish skirt—and just shoulder ruffles for sleeves—is ideal for summer wear. You can have sleeves, if you want them, and a bright row of braid to bring attention to the flattering low-cut neckline—as you can see in our

**Big Moving Job**

One of the largest single moving jobs on record was the transfer of an artificial silk factory from Hopewell, Va., to Sao Paulo, Brazil, in 1934. There were seven shipments of equipment and machinery, and some of the pieces were so large that the railroad hauling them from Santos had to move one of its stations out of the way.

smaller view. Just the frock junior girls from coast to coast are asking for this season!

Barbara Bell Pattern No. 1606-B is designed for sizes 11, 12, 13, 14, and 15. Corresponding bust measurements 23, 24, 25 and 27. Size 13 (31) with shoulder ruffles, requires 3 1/2 yards 23-inch material. With short sleeves, 3 1/2 yards. Send your order to:

**Fly Is Paralysis Carrier**

Discovery that common flies carry the virus of infantile paralysis has been made by Drs. John L. Paul and James D. Track at Yale university medical school.

It is now evident that poliomyelitis (infantile paralysis), which cripples 10,000 persons and kills from 600 to 1,000 every year, is a disease of the intestinal tract as well as the spinal cord, and that flies may carry the virus from sewage.

The discovery of Drs. Paul and Track makes the common house fly more than ever an enemy to health and even to life itself, especially among children.

**Wine and Gray**

Wine and gray checked cotton gingham makes this jacket dress for town wear. There are interesting details that give this stunning outfit distinction. The beautifully cut jacket has bias bands of the gingham on pockets and cuffs. The bias idea is carried out, also, in the pleated skirt and the jabot. A very significant detail is this jabot, for it is an innovation for it to be of self fabric. This technique has been used successfully by a leading designer for lightweight cloth suits.

**Gray Chambray Is Ideal for Summer**

Refreshingly new and ultra chic is the suit or dress made of chambray in a "Puritan" gray that is lovely for summer. Favos for this gray washable is sweeping through style centers at the moment, the grays challenging the much-talked-of town blacks to a lively contest.

Women love the new gray chambrays, because, for one reason among many, they launder so easily and exquisitely. Then, too, they yield so attractively to white accents, and they have that immaculate looking way about them that is so much sought for by women who dote on a perfectly groomed appearance.

A new styling given to a gray chambray dress buttons the surplice bodice over to the left underarm with large white pearl buttons running down the skirt to the hemline. The message of gray satin for afternoon dresses is also being broadcast through fashion circles, but of course these are for "date" wear and such.

The gray chambrays are so delightfully practical for all-purpose wear they'll prove a constant source of joy.

**Two-Piece Ensemble Has Wide Scarf for a Jacket**

When the fall season gets in swing one of the sights you'll see that's good for the eyes is the tweed two-piece ensemble that college girls will adore.

It has a tweed skirt finished off with self-fringe (the edge raveled) up and down the wraparound edge to the left. Instead of a jacket there's a wide, shawl-like scarf. The shawl also has matching self-fringed edges. Add a bright blouse to bring the costume to a perfect climax.

**CONSISTENT ADVERTISING**

When advertising is carried on for a long enough time, the name of the product advertised becomes a part of the daily life of the household, a trusted and respected thing. No thing can be consistently advertised unless it is worthy of that trust and respect.

Mr. and Mrs. Jim Greer were in town Monday to visit the Lester Greer family.

Mrs. Maggie Pfingston of Nogal was here last Friday buying some ranch supplies.

Mr and Mrs. Raymond Davis and children were in town Saturday from their ranch.

Mr. Les Harman spent Saturday and Sunday in Roswell with his two daughters, Mmes. Earl Reeves and Jack Graves, and their families.

Mrs. Theodore Hobbie and her sister, Mrs. George Estrella both of San Francisco, California are spending a few days in Ruidoso with Sgt. Hobbie's parents, Mr. and Mrs. Vaughn Hobbie. Sgt. Hobbie is still stationed in Hawaii.

Engineer Henry Hoffman brought the local from Tucumcari Saturday.

Mr. and Mrs. Sam Welsh entertained Miss Rhoda Freeman and Corporal Lee Carl last Sunday.

Mr. and Mrs. Jack Turner entertained Corp. Gene Dow for dinner Sunday.

Mrs. A. H. Kudner and children are spending the summer at their lovely ranch home, the O-O in Venado Gap. They wish their paper sent to them here during their visit.

Mr. Lester Greer arrived home from Santa Fe Sunday and left Tuesday on his return trip, accompanied by Mrs. Greer.

Mrs. Clyde Adams of Lamesa, Texas is visiting her mother, Mrs. Pearl Stearns at her ranch at Nogal for a few weeks. Both ladies were Carrizozo shopping visitors last Saturday.

Mr. and Mrs. O'dell Baker and daughter Lee Adell were here from Duran to spend Sunday.

Mrs. J. V. Hobbie of Ruidoso visited her sister, Mrs. Maggie Esby last Saturday. With her were her daughters Mrs. G. N. Taylor and Mrs. Theodosia Hobbie and also Mrs. George Estrella, and Mrs. Chas. Peebles of Alto.

Mrs. Consuelo Richardson replaced Mrs. W. C. Marler at the county superintendent's office while the latter recuperates from a recent operation.

Mr. Manuel Corona, county commissioner of district 1, was here on business Saturday.

Brakeman Fred Greer was here from El Paso Monday.

Mr. Thornton of the T. & G. Grocery received a telegram from his son, Earl, who has been in San Antonio, Texas for some time. Earl was made a student pilot in the Air Corps.

Dan Conley, Jr., who is at the San Diego Naval training base finished his course on his 19th birthday and will be at home to spend five days' leave with his parents.
