"SLEEPYTIME GAL"
Slap-happy Judy in the greatest fun picture she's ever made, and supported by a cast of Hollywood's greatest comedians.

ALSO —
"Information Please" and "A Polo Phoney"

For State Treasurer

Mr. John J. Tierney, the treasurer of Bernalillo County, is a candidate for State treasurer on the Democratic ticket. His announcement will be found on another page of this paper.

For a number of years Mr. Tierney was cashier of the State Trust & Savings Bank in Albuquerque. Later he was appointed by Judge Harry P. Owen of the 7th Judicial District, as receiver for the Bank of Magdalena and the Socorro State Bank. He was born and reared in New Mexico and for many years has been actively associated with the Democratic party. He has been treasurer of Bernalillo County for two terms and is at present serving the 1941-1942 term. During the terms of his service as treasurer of Bernalillo County he has collected over \$18,000,000, distributing it to schools and various other governmental subdivisions without the loss of one cent. He conducted the affairs of the office to the satisfaction of the taxpayers and of the state officials. His knowledge of banking and finance, of handling public money, of investment of school and other permanent funds, will be of utmost value in faithfully performing the duties of State Treasurer in the event of his election.

He stands on his record of honesty, efficiency and experience. The support of the voters will be greatly appreciated.

For Probate Judge

Judge Marcial C. St. John announces his candidacy for Probate Judge on the Democratic ticket, subject to the primary in Sept. Judge St. John belongs to a pioneer Lincoln County family, he is a veteran of World War I, and is an active member of Benjamin I. Barry Post, No. 11. Judge St. John has served the past two years, efficiently and satisfactorily. Prior to this he served a term as Probate Judge. He is fair, honorable and attentive. He is qualified and will appreciate your consideration.

FOR SALE. Cheap, 1935, Ford V 8 Pick-up. Inquire at telephone office in Capitan, N.M. Aug. 7-14.

REGISTRATION FOR CANNING SUGAR

The following places will open for canning sugar applications on August 18, 19, and 20th. Mrs. Joe Wigley, registrar at Capitan; Rev. A. Roll, registrar at Tinnie; Mrs. Silas, registrar at Lincoln; Ruidoso, at school house; Mrs. Lee Hancock, registrar at Corona; Carrizozo at Community Hall. The registrars at this time will receive only applications for sugar for canning. These applications will be passed on later by the Local Rationing Board and certificates mailed to each applicant.

This is Final Registration For Canning Sugar.
Signed: Wm. W. Gallachers, Chairman.

VILLAGE REPORT

Minutes of regular meeting of Board of Trustees held at City Hall, August 4, 1942, at 7:30 p. m.

Members present: M. U. Finley, Mayor; A. J. Scharf, R. E. Shafer and Ben Sanchez, members. Morgan Lovelace, Clerk, and Roy Ward, Marshal.

Members absent: G. T. McQuillen.

Minutes of last meeting were read and approved.

Mr. M. B. Harwell and Mr. Huntsinger met with the Board of Trustees to discuss an operating agreement in connection with the Carrizozo municipal gas system, subject to the approval of the State Comptroller's Office and the Public Service Commission.

The following bills were approved and ordered paid.

- A. E. Huntsinger, premium on Bond \$25.00
- R. J. Richards, m de ref 2.50
- C. A. Snow, re. st. light 3.25
- 7 gals gas, city tk 1.40
- Lincoln Co. Motor Co. 7 gals gas, city tk 1.40
- C'zozo Hdw Co supplies 1.50
- Harkey Lumber Co. 1.50
- Monte Vista Service sta gas and oil, fire truck 1.20

Petty-Grantham Nuptials

Miss Ruth Beatrice Petty and Mr. Robert Malcolm Grantham were united in marriage at 5:00 o'clock p. m. last Sunday, August 9, 1942 at the home of the bride's parents, Mr. and Mrs. J. F. Petty, in the presence of the immediate family.

Mrs. Ben S. Burns played "I Love You Truly" and "Indian Love Call." The bride and groom entered to the strains of Lohengrin's wedding march and stood by an improvised altar of flowers, where the Rev. N. T. James, of the Baptist church, officiated, using the ring ceremony. Mrs. Vernon Petty was matron of honor and the bride's brother, Mr. Vernon Petty, was the groom's attendant.

The bride wore a full length white dress and carried an arm bouquet of white carnations and pink gladioli. For something old she wore her mother's wedding necklace, for something borrowed and something blue she wore Mrs. Vernon Petty's bracelet.

The matron of honor was becomingly gowned in a lovely blue dress and carried a bouquet of pink carnations.

Following the ceremony, Mr. and Mrs. Ralph Petty served the guests with wedding cake and punch. Mrs. Ralph Petty baked the wedding cake. The bridal party received many handsome and useful gifts.

The bride is the daughter of Mr. and Mrs. J. F. Petty of Carrizozo. She is very attractive and sings beautifully. She is a graduate of Carrizozo High school and attended school at Highlands University at Las Vegas.

The groom is a son of Mr. and Mrs. J. M. Grantham of Seattle, Washington. He is a graduate of the University of Washington and is employed by the United States Bureau of Mines.

Following the ceremony they left for a brief honeymoon trip, after which they will be at home to friends in Tucson, Arizona.

For traveling the bride wore a dark green suit with white accessories. They departed amidst a shower of rice and good wishes.

SISTER DIES IN KANSAS

Mrs. Gussie Johnson received a message Monday night from Salina, Kansas, stating that her twin sister, Mrs. Stebbins had passed away. She had been ill for some time, but was not considered in a critical condition. Mrs. Johnson left at once for Kansas. Mrs. Stebbins was very well known here where she visited frequently and was very well liked. Mr. Harry Miller is a brother of Mrs. Stebbins. People feel much regret over the untimely death of this well known lady.

For County Treasurer

Mr. James Brister announces his candidacy as treasurer of Lincoln County on the Democratic ticket, subject to the primary election.

Mr. Brister came to Lincoln County in 1936. He was married to the daughter of Mr. F. H. Hall of Capitan, shortly after coming here.

He spent four years in the Navy. While in the Navy he was attached to the Flagship, USS Chicago, and served in VCS Squadron 5. His duties were manifold and required greatest accuracy. He kept all records of the squadron, including hours in the air, correct records on the upkeep of planes, supplies, replacements of air craft (which were required every 600 hours) and of servicing, gasoline, and the numerous other duties in connection: A complicated and tedious task.

After the expiration of the four-year enlistment period in 1939, Mr. Brister returned to Lincoln County where he has been engaged in the real estate business and has been an insurance salesman. At present he is secretary of the Business Men's club and of the Red Cross.

Mr. Brister is a graduate of the Civilian Defense school in Albuquerque, and taught the Civilian Defense school here. He was born and reared and graduated at Ft. Worth, Texas. This is his first venture in politics, and he respectfully asks the consideration of the voters at the primary election on Sept. 12, 1942.

Lost We Forget

On Aug. 24, 1940, Gerald P. Nye, Republican Senator from North Dakota said: "About the only argument the friends of conscription have been able to drum up is that Hitler is going to get us if we don't watch out, and probably by tomorrow, or anyway come harvest time. . . . Our hysteria of the moment seems to have no room for the thought that Herr Hitler is hardly fool enough to be just plain head hunting. Of course he isn't."

On Aug. 26, 1940, Republican Senator Taft, of Ohio: "It is beyond possibility to transport an army unless we have control of the seas, and if we have naval control of the seas we can defeat the western hemisphere with our Navy. I do not think that any army should be sent to South America."

On Aug. 26, 1940, Senator Lodge, Republican, of Massachusetts, said: "I strongly feel that we have no business to send any troops to Europe, or the Argentine, or Chili, or Uruguay."

On Aug. 27, 1941, Senator Ernest Lundeen, anti-interventionist, said: "If Japan ever fights America,

HON. J. J. DEMPSEY TO BE HERE AUGUST 18TH

The Hon. John J. Dempsey is seeking the nomination for Governor of New Mexico on the Democratic ticket. Mr. Dempsey is not a stranger to the voters of this county. He has been here many times.

Right at this critical period when we are casting about for strong leadership and for officials with understanding of our state and national crises, Mr. Dempsey would seem to be an excellent choice to carry on affairs of the State. On Tuesday, August 18, Lincoln county will be honored by a visit from this distinguished candidate and party.

Don't fail to hear his discussion of the issues, at Community Hall in Carrizozo, at 8 o'clock Tuesday evening August 18th.

Harry Straley for Sheriff

At the solicitation of friends, Mr. Harry A. Straley of Ancho is seeking the nomination for Sheriff of Lincoln County on the Democratic ticket. He is one of Lincoln county's substantial citizens, and has been here since 1912. He is a member of the firm of Straley and Company, and is a successful ranchman. The Straley family came to New Mexico from Texas, and naturally have supported the Democratic party. He will appreciate your vote and promises if elected to fulfill the duties of office to the best of his ability.

Adolph, Benito and Hirohito—the three blind mice. Make them run with ten percent of your income in War Bonds every pay day.

Mrs. Pete Johnson, Sr., and her daughter, Mrs. Pete Johnson, Jr., went to Colorado last Friday, where they visited Mr. Pete Johnson, who had been in a Colorado hospital. He returned home with his wife and mother Wednesday and feels fine.

Will unload another car Dawson Nut Coal next week.

BUY YOUR WINTERS SUPPLY NOW.

BURTON FULL YARD

Are you entitled to wear a "target" label button? You are if you are investing at least ten percent of your income in War Bonds every pay day. It's your badge of patriotism.

es it will not be in the Hawaiian region; it will not be off San Francisco and San Diego and Portland; it will be in Japanese waters. The Japanese are too clever to come over and tackle us here! They will want us to go over there, and our navy must be three or four times the size of theirs if we are to be on a parity in any such struggle."

BANKS AND THE WAR

How to Save Gasoline, Tires and Time

Checks provide the answer. If you are helping to win this war, your time is valuable. Don't waste it going from place to place, paying bills with cash. Don't use up gasoline and tires needlessly. Pay by check—by mail—instead. Men and women are invited to start checking accounts here. Simply come to the bank with your first deposit.

Tank Maintenance

This sequence of photographs shows the operation of an ordnance tank maintenance crew training for the job of keeping these monsters in working order under combat conditions.

Trapped in a swampy hole this medium tank (at right) awaits a salvage crew. The men are trained under combat conditions.

VICTORY PARADE

"Here she comes boys!" A motor truck powers the winch.

An ordnance maintenance officer directs repair of the tank in a camouflaged position in the "combat" zone. The machine shop on wheels carries the tools, machinery and spare parts needed for repair.

Tanks are powered by engines similar to those used in aircraft.

This tank track is rolled up awaiting repairs. It's the ordnance soldiers job to do what the sign says.

A wall of water is "crashed" by this hard-hitting army tank.

Six Million Farmers Throughout U. S. Producing World's Largest Food Crop

War Material Vital, but Soldiers and Workers Must Get Nourishing Food

Uncle Sam's farm—the whole United States—will produce this year the biggest food crop in the world's history! Harvesting of this planned production for the war effort has begun and the immensity of it all is an all-time tribute to the American farmer.

Off Uncle Sam's farm assembly line every minute of every day throughout 1942 are coming something like 100,000 quarts of milk,

Take that swift-winged army Aerona plane up there. In its wings, tail and fuselage are 650 square feet of cotton linen.

Yes, Uncle Sam's farmers are turning out war crops this year. Corn and wheat, for example. Most of it goes for feed and food, but some is used in making ethyl alcohol which in turn is employed in making explosives, synthetic rubber and other products.

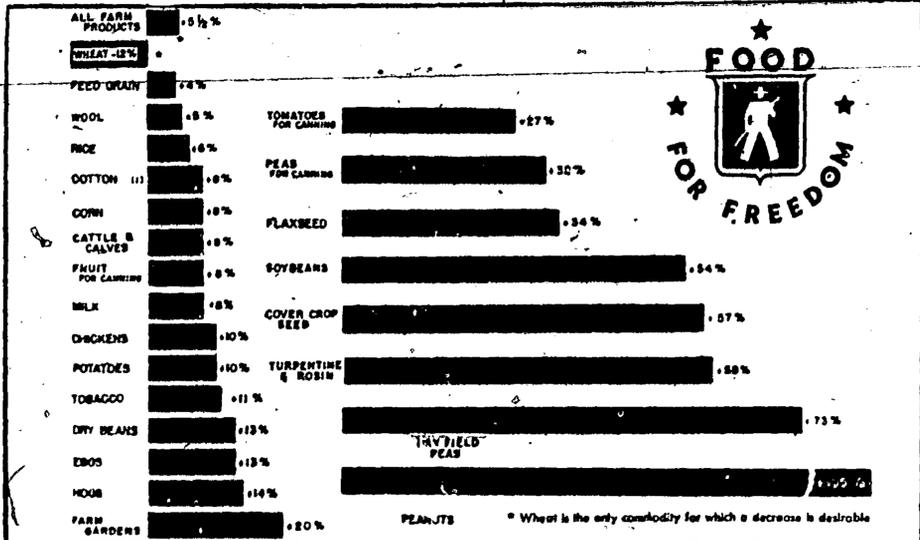

Peas and soybeans are used to make oil which replaces other oils employed in cooking, and releases them for use in nitro-glycerine explosives. Oil from soybeans and flaxseed is used in the paint and varnish covering our ships and planes. Flax is a source of linen for parachute harnesses and rigging. Wool from our sheep makes uni-

guns turned out this year will be determined largely by the kind and amount of food our workers eat. The newest type planes need high

Milk and Shipping
In 1942 we are building 8 million tons of shipping—a tremendous amount. But the farmers of Minnesota and Iowa alone will produce more than 8 million tons of milk in 1942.

octane gas no more than our war workers need highly nutritious foods.

Better Food Means More Guns.
Good food, in fact, can be translated more or less directly into guns. For example, the British minister of labor has said to our agricultural

American farm goals for 1942, showing increase over 1941 production.

45,000 pounds of potatoes, 73,000 pounds of beef, veal, pork and lard. Think of it! EVERY MINUTE.

If you saw the U. S. navy riding majestically in the sea of milk, chances are you'd call it a nightmare. But could be! Our farmers this year are scheduled to produce 57 billion quarts of milk—more than enough to float not only our navy but every battleship, aircraft carrier, cruiser, destroyer and submarine owned by the United States, Britain, Russia and all the other United Nations combined.

If you are good at mental pictures, maybe you can visualize 50 billion eggs. That's enough eggs to make a line reaching seven times from the earth to the moon.

Or 2 1/2 billion pounds of meat—enough to pave seven four-lane highways an inch thick from New York to San Francisco—seven of them.

Or 91 million acres of corn—an area one-fifth larger than Italy and Sicily combined.

But why all this production of food and fiber? It isn't a part of our victory plan to drown the Nazis in milk or to bombard the Japs with eggs and potatoes.

Farmers Build Planes and Ships.
Well, food and fiber are not made by so many bags of wheat and so many bales of cotton. They are flying fortresses and big battleships, like the Washington and the North Carolina; and aircraft carriers, like the Wasp; and General Grant tanks; and workers in the factories and brave men at the front. Those are the crops our farmers are harvesting this year in 3,622 counties of the United States.

forms for soldiers and clothes for civilians. Aviators' jackets, pants, helmets, and boots are lined with shearing sheep skins. In fact, the average soldier uses 100 pounds of wool a year, against an average of 2 1/2 pounds for civilians.

But vital as are these materials for our weapons of war, they are much less important than the food which nourishes our workers and sustains our fighters. Food is one essential without which no man can fight or work.

Bataan Proved It.
Look at Bataan to see how true that is. Look at Bataan to see the importance of food. According to reports, mule meat and rice were all our forces had to eat from early February until the time of ultimate surrender. We just couldn't get through to them with enough pork and beef to do them any good. And what happened? Our last counter-attack failed, not because of bullets or bombs, but because of sheer exhaustion. A shortage of food and sleep had drained out almost the last drops of vitality. Bataan fell only after its defenders no longer had the physical strength to stand.

That time, food worked for the enemy. Given the shipping, six million American farmers are determined that from now on food shall work for us. They know that today a tractor used in production of food is just as important as a tank on the battlefield. They know that what they do on their farms is important.

The number of planes, tanks and officials: "Give us the meat, eggs, and cheese, and we'll increase production 15 to 20 per cent."

Again, an appalling loss of production is suffered annually through sickness of workers. In 1941 more than 20 times as many man-days were lost by sickness as by strikes. The most common sickness is the ordinary cold, and the best preventive for it is a good diet.

So, it's the job of our farmers to keep our men fit—as fit as our machines. It's their job to provide the vitamin A which helps fliers see at night; the vitamin B which helps curb sea-sickness, nervousness and digestive troubles; the vitamin C which wards off scurvy, bad teeth, irritability, listlessness and plagues which in the World War took a bigger toll of lives than bombs, bullets, shells and gas combined.

Yes, vitamins and good food are war weapons. But to get them—and especially to get the right amounts of the right things—is a colossal task.

That is why goals are just as necessary for agriculture as they are for plane or tank manufacturers. We want a specific number of fortresses, or medium bombers, or pursuit ships, or training planes.

So, too, in agriculture, we want a specific amount of pork, of beef, of milk, and all other farm products. Fortunately, our farmers are ready for the job. Eight months before Pearl Harbor they began turning out war products requested by the British for lend-lease shipment. Three months before Pearl Harbor, farmers were fully organized on a war-time basis.

Farm Production Is Planned Production.
On April 3, 1941, Secretary of Agriculture Wickard called for a big expansion in the products which the British had just made known they would need under lend-lease: evaporated and dry skim milk, cheese, eggs and pork. And our farmers set out to see that neither our own folks nor the British would run short.

During the summer of 1941—still several months before Pearl Harbor—the department of agriculture went to work on a plan to get war production goals for all farm products. The production goal idea had been used for years by Triple-A on basic crops, but it was a new departure to apply it to all farm products. It meant estimating our own needs, those of our Allies, the allowances necessary for food reserves, and finally the ability of farmers to produce. It meant breaking down the national goals into state, county, and finally into individual farm goals. It meant the contacting of practically every producer by a Triple-A farmer organizer.

Threshing wheat in Bartholomew county, Indiana. This picture was taken on the Perry Thompson farm at the height of activities.

Triple-A Committeemen Enlist Farm Cooperation

Even while Japanese bombs were exploding on Hickam Field and spreading ruin over Hawaii and the Philippines, Triple-A committeemen were covering the country enlisting farmer co-operation—voluntary co-operation.

There were shortages to contend with—shortages of labor, shortages of machinery and equipment, shortages of barley, baling wire, and dozens of other supplies. The state and county war boards have worked with every available agency to keep shortages from holding production. Most of the goals were set higher than production had ever been before. Only a few were lower. Wheat, for example, was down 12 per cent from the 1941 level because there was already a two-year supply of wheat on hand. We couldn't afford to use land, labor, and materials for a crop that isn't needed, any more than we can now afford to build pleasure cars and luxury gadgets.

farmers are ready for the job. Eight months before Pearl Harbor they began turning out war products requested by the British for lend-lease shipment. Three months before Pearl Harbor, farmers were fully organized on a war-time basis.

ALL-BRAN FUDGE SQUARES—BEST YOU EVER TASTED!

Every mother in the land will want to bake these scrumptious cookies. Children will demolish a plate of them in a wink. Grown-ups rave about their "different" taste and new crunchy texture. They're made, of course, with the famous cereal, Kellogg's All-Bran.

CELLOGG'S ALL-BRAN FUDGE SQUARES
3 squares unsweetened 1 cup sugar
1 cup flour
1/2 cup butter 1/2 cup All-Bran
1/2 cup nuts 1/2 cup raisins
2 eggs 1 teaspoon vanilla extract
Melt chocolate over hot water and beat until light and fluffy. Add melted chocolate and butter. Stir in flour, All-Bran, chopped nuts and raisins. Pour into greased pan, making a layer about one-third inch thick. Bake in moderate oven (375°F.) about 20 minutes. Yield: Sixteen 3-inch squares (8 x 8 inch pan).

Cowboys Branded
Until recently, the Cowboys, an honorary service organization of the University of Texas, initiated its members by burning UT, the school's initials, on their chest with a hot branding iron.

To Relieve MONTHLY FEMALE PAIN
If you suffer monthly cramps, backache, nervousness, dizziness or "irregular" periods—due to functional monthly disturbances—try Lydia E. Pinkham's Vegetable Compound at once! Pinkham's Compound is one medicine you can rely on today made especially for women.
Taken regularly throughout the month, Pinkham's Compound helps build up your system, relieves such symptoms, and restores health. Worth trying!
LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Sentinels of Health
Don't Neglect Them!
Nature designed the kidneys to do a marvelous job. Their task is to keep the body's blood as free as possible of waste. In doing this, they act as sentinels of health—constant, producing, and maintaining the kidneys must remove from the blood all the waste that is produced. When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer from backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—feel tired, nervous, all worn out.
Frequent, scanty or burning urination are sometimes further evidence of kidney or bladder disturbance.
The recognized and proper treatment is a diuretic medicine to help the kidneys rid of excess poisons body waste. Doan's Pills. They have had more than forty years of public approval, endorsed the country over. Look on Doan's. Sold at all drug stores.

BEACONS OF SAFETY
Like a beacon light of the height—the advertisements in newspapers direct you to newer, better and easier ways of providing the things needed or desired. If shines, this beacon of newspaper advertising—and it will be to your advantage to follow it whenever you make a purchase.

RED RANGE

By EUGENE CUNNINGHAM

© EUGENE CUNNINGHAM W.N.U. RELEASE

THE STORY SO FAR: Forced to run from the law he saves his life when he is arrested by being the notorious "Carmelita" man. Con Cameron is trying to save his money. With his pal, Carmelita, he is working for Topka Tenison, owner of the Broken Wheel ranch, Nevil Lows, married of the neighborhood town of Nevada. "Always," Carmelita says, "you know that the 'Gracey' job, one of the Broken Wheel men is a suspect of being Carmelita Lina. Lows' sister, Janet, is staying with the Tenisons. They are deeply attached to her, having lost their only child, a boy, when he was kidnapped many years before. On their way out to the ranch after purchasing Tenison to give them the job, Con and Carmelita met Monk Irby, one of the Mesquite crew. Margaret and Dad Faramore, leader of another band of outlaws, hate both Nevil Lows and the Broken Wheel outfit. In the night when followed their meeting with Irby, Con knocked out Irby. Then he, and Carmelita, fought off more of Margaret's men to protect Janet Lows. When Mrs. Tenison sent Con to find out how the "next one," the Gracys, were coming along, Con found Mr. Gracy—Con and Mrs. Gracy and the boy seriously hurt. Topka and Con later turn for a doctor, with instructions to tell the constable, Janet, and no one else about the suspicious that it was Monk Irby who shot the Gracys.

Now continue with the story.

Blackbeard staggered and Con rushed in.

In the back bar, as if discussing it. "You and that redhead partner sure played hell in High Z with them lady-wranglers of Gloomy's," he said in a low voice. "They bulged into town—licking their sores like a bunch of scalded hounds. Nobody was killed, but some was skipt awful bad. They say Gloomy's promised to wipe out your mark. But from what Monk Irby spewed out, he ain't going to wait for Gloomy!"

Con asked the bartender where Gloomy and Monk were. "There's a 11' bitsy plaza, just two-three Mex' houses, on the road to Helligo Canyon. The bunch stops there lots of times. I think that's where they went, yesterday. Watch your step, young fellow!"

He went up the bar to serve customers and Con lifted his glass and set it down empty. Then a rasping voice sounded, almost in his ear. "Ain't you workin' for that damn' Busted Wheel?"

Con turned very carefully. When he saw the face thrust out toward him, he made a disgusted grimace and drew back. It was a big man, Indian dark, with shiny stubble of beard from eyes to collarbone. One lanky eye was permanently slitted by an old weal that slanted across eyebrow and cheekbone and notched the high nose bridge. Thick, loose mouth shone bluish-red against the black of his straggling mustache.

He wore no shell belt, but high on his hip, under an old coat, was a stubby Colt. His hand was on it. Con's gun was in his waistband, under his shirt.

He flashed his hand up and inside his shirt and out again. The big man was jerking out his pistol, but Con thought triumphantly that he had beaten him. Then from behind him a hand knocked down his Colt, struck his arm again and the gun roared as it fell. He took a heavy blow in the back that drove him forward. Instinctly, he clawed at the tall man's thick wrist, caught it and twisted savagely with all the strength of powerful shoulders and wiry arms.

Con fell into him and clung, lifting his feet off the floor and kicking viciously backward. He felt a heel strike something soft and heard a groan. Then his toes touched the floor again and he kicked the big man on his shin. The grip on his arm relaxed slightly and he snatched free, to rise on tiptoe and swing a long right to the cheek. Blackbeard staggered, and Con rushed in. He slid back as the big figure crumpled, began to turn to get at the second man, and felt the impact of an almost knockout blow on his jaw.

"He sure does set up nights to hate a Busted Wheel, Latimer does," one of the voices said marvelingly. "But if it hadn't been for that nephew of his helping him, there's one Wheeler would have killed him first crack out of the box. He beat Latimer to it, only that boy knocked his arm down. Latimer had his hand on the cutter, too!"

Con sat up so abruptly that men bent over him jerked back out of the way. Automatically, he put his hand inside his shirt and groped for his Colt.

Hands helped him. He peered around and the bartender pushed over his pistol. He spun the cylinder to see that the loads were intact, let down the hammer upon an empty chamber, and shoved the gun into his waistband. He stood sulkily for a moment, but the doctor took him by the arm and moved him toward the door.

Riding beside the doctor's buggy, going out of Onopa, Con asked about the Latimers and was told that they had been in the country less than a year. Latimer had a small outfit between the Broken Wheel and Helligo Canyon.

"All!" Con said softly. "Between the Wheel and the Canyon." "That's what Topka thought! The first time he found Latimer wandering around the Wheel side of the line, he called it a natural accident. But the second time it happened, he and the boys with him accosted Latimer across the line and invited him to stay there. Latimer has hampered every Broken Wheel cowboy he could find, since then. You're the seventh or eighth."

"Why, maybe I'll be the last one, then. If that nephew of his hadn't hit me from behind, today, the Latimers would have been holding rifles, not guns."

The doctor looked very tolerantly at him and shook his gray head. They talked little, after that. Con was becoming more and more conscious of his soreness. He was glad to swing down in the Broken Wheel yard and take the doctor's buggy in charge. Dinner had been eaten, but Con got a handout from the cook, who asked no questions about his battered face.

Then Perch looked into the kitchen of the bunkhouse and with sight of Con whooped shrilly and whirled about.

"Gale!" he yelled. "Oh, Gale! Twenty Johnson just come in, packing the Latimer trademark. Why'd you tell this pilgrim what he might run into, around Onopa?"

Gore appeared, behind him. But before he could speak, Topka Tenison looked over Perch's shoulder. He shook his head slightly, frowning. Con continued to eat placidly, but he was beginning to feel irritation. A corner of Tenison's mouth lifted and he turned to Gore.

"We won't wait for the horses from Red Mesa," he said. "I won't hold the wagon, I mean. You take the boys that are ready and pull out. When Johnny Dutch and Skeets and Caramba come in from the Mesa with the horses, the rest of the boys can get fixed up. Now, you got your rep's picked?"

"All right," Tenison answered Gore's nod. "We'll meet the other wagons at Antelope Springs and scatter our rep's. You stay here on the place, Twenty. You, too, Perch."

"Huh?" Con grunted, putting down his coffee. "You don't want me on roundup? I certainly would like to—"

"Got plenty. Somebody's got to stick here," Tenison told him curtly, turning away.

To be left here as a sort of chore-boy was bad enough, but to be left because Tenison weighed him against other men, and classed him as a weakling by Wheel standards, was far worse. He went toward the corrals, eyes moodily upon the ground. Then from the house Mrs. Tenison called him.

"I'm glad you're going to stay with us," she said, smiling at him. "I asked for you, but it didn't seem that I was going to get you. Gale thinks a lot of your roping. But you're staying and that pleases me, son. For, with all the trouble we've been having—You know, of course, that Megeath intended to carry off Janet the other night. I'm glad you're going to be around, son."

"I'll play bulldog," Con assured her evenly. "How's the hospital, by the way? That boy all right?"

"I'm going to keep him in bed for a while yet. He developed more fever. The only way we could talk him into lying quiet was to tell him you'd ordered it."

"He minds what I say because he thinks I'm your mother," Mrs. Tenison said, with a soft, strange little laugh. "And he looked at Janet and called her 'Mia' Twenty" and said all right; if you had told us to tell him to be quiet, he would!"

"I'm certainly getting fixed up with a family, now!" Con cried—and felt that he was flushing and wondered why he should be.

PATTERNS SEWING CIRCLE

SO, YOU are going to have a baby! Well, the clothes problem can be settled very easily—with a frock and jacket—just the type we offer in this pattern. Frock has cap sleeves, pleats down the front provide all the extra fullness needed and is very easy to make. The jacket tops off a very successful outfit which can be produced at small expense at home.

Pattern No. 8199 is made in sizes 12, 14, 16, 18, 20 and 40. Size 16 dress and jacket requires 6 1/4 yards 36-inch material.

Pattern No. 8186 is in sizes 11 to 18. Size 13—with short sleeves—requires 4 1/2 yards 36-inch material.

THE short cut to glamour these days is to add a dirdnd frock to your wardrobe. Today's pattern brings you the very style everyone seems to be wearing. For individual style excitement the long torso top of this model is banded with ribbon—here you can effect a plain color contrast with a printed material—or a plaid, striped or printed contrast with a plain fabric.

Pattern No. 8199 is made in sizes 12, 14, 16, 18, 20 and 40. Size 16 dress and jacket requires 6 1/4 yards 36-inch material.

Pattern No. 8186 is in sizes 11 to 18. Size 13—with short sleeves—requires 4 1/2 yards 36-inch material.

ASK ME ANOTHER?

A General Quiz The Questions

1. Does February ever have five Sundays?
2. To what political party did George Washington belong?
3. Does a beam of light from the sun travel equally as fast as a beam of light from a candle?
4. What had the following women in common—Lot's wife, Bluebeard's wife and Adam's wife?
5. How many Pilgrim Fathers landed from the Mayflower?
6. What capital city of what country has had three names all within this century?
7. What is the date of the year following 1 B. C.?
8. What is a shaddock?
9. How many countries does the Iberian peninsula contain?
10. We apply this slang expression "cock-eyed" to an intoxicated person. Is this an intoxication in any sense true?

The answers

1. Yes. It will again have five in 1948 and 1976.
2. The Federalist party.
3. They travel at the same speed.
4. Curiosity about forbidden matters led to disastrous consequences.
5. One hundred two.
6. St. Petersburg, Petrograd and Leningrad, in Russia.
7. 1 A. D.
8. A pear-shaped citrus fruit.
9. Two, Spain and Portugal.
10. Yes, literally so. The alcohol progressively weakens the muscles that draw the eyes outward and, consequently, the pupils gradually converge and the drinker becomes cock-eyed.

Work and Education

It is not necessarily the mark of a superior intelligence to disdain an inferior job, and advanced education does not and never has guaranteed an advanced position in life.

One may be fitted for an important post, but that does not mean that one is unfitted for a unimportant post. Humble and monotonous occupations can provide scope for great qualities, they can be performed well or ill and the better educated the man the better is he likely to perform them.

One Good Reason "I never see your husband looking at another woman."

"No, George is devoted to me. Besides, he's so nearsighted."

The Egrotist "The performing sea and an elephant crossed a jungle bridge together."

That Sort of Fellow "Is that man annoyed with you? I notice he didn't return your greeting."

Dead Giveaway "They had had a little argument. When the wife went into the hall she met the maid and became suspicious."

"Mary, were you listening?" she asked the girl. "No, ma'am."

"Mary, don't deny it—your hair is still standing on end."

"IN THE AIR OR ON THE GROUND" says ALTITUDE ENGINEER TOM FLOYD OF BOULDER AIRCRAFT CO.

CAMELS ARE STANDARD EQUIPMENT WITH ME. THEY'RE EXTRA MILD WITH A FLAVOR THAT CLICKS EVERY TIME

IMPORTANT TO STEADY SMOKERS! The smoke of slow-burning CAMELS contains LESS NICOTINE than that of the 4 other largest-selling brands tested—less than any of them—according to independent scientific tests of the smoke itself!

WHO'S NEWS THIS WEEK

By LEMUEL F. PARTON
Consolidated Features—WNU Release.

NEW YORK.—It would appear that the blizzard of report forms with which war agencies snow under business isn't entirely premeditated and somebody ought to do something about it, if anybody can. At any rate, the War Production board co-operates with a committee of business men who will try to cut down the paper overhead, by evolving simplified systems of reporting and accounting. They are waist deep in government blanks and battling their way out. The government seems sympathetic.

Hearing the newly organized defense forces against the paper blitz is W. J. Donald, president of the American Trade Association Executives. He is chairman of a special advisory committee which will work with the WPB, a King Canute wielding a valiant broom against the paper inundation.

Possibly this is the "managerial revolution," which young Prof. James Burnham described in his provocative book of a year or so ago. At any rate, Mr. Donald is a fair laboratory sample of the oncoming men of management of the professor's discourse, a John the Baptist in the managerial wilderness for many years, urging the managers to shake a leg and do something on their own account before being swamped by the bureaucrats. He was director of the American Management Association from 1921 to 1933, advising the managers, during this period for being "too smug" and not considering what might happen to them unless the metes and bounds between management and finance and management and government were more clearly defined and regarded.

Mr. Donald, Canadian born, naturalized in 1923, naturally will have to use up a lot more paper in his education and explorative campaign among the individual members of 1,200 trade associations, whom he will consult. He wants comments and suggestions. In Sarina, Ont., where he was born in 1870, he attended the Sarina Collegiate Institute, and later was graduated from McMaster university at Hamilton, Ont. He came here in 1911 as manager of the installation staff of the American City bureau, making his U. S. A. career in business economics.

NEWS values shrink like devaluated currency in time of over-tension. Col. Robert L. Scott Jr. caught eight or ten lines in the paper when it flew over Mt. Everest, clearing the highest mountain in the world by a full mile. For the young colonel, this was a detail of a work-a-day hop from India to China.

War reputations build like a coral reef. Off and on for the last few weeks there has been a dribble of news about the long, lanky, Colonel Scott of Mason, Ga., working himself as a "one-man air force" in Burma and China. On June 29 he succeeded Col. Catch V. Haynes as chief of the India-China air command. That means that he and the 31st pursuit squadron, which he commands, are the heirs of the "Flying Tigers," or the American Volunteer group which bombed its way to glory along the Burma road.

Early in this encounter, Colonel Scott demonstrated what we have fondly supposed to be our national aptitude for quick and resourceful action. A troop of Japanese was moving steadily up the Chindwin river in West Burma. The colonel had only a small pursuit plane. He swung a 550-pound bomb in it, and with it scored a bulls-eye on the advancing troop. These and similar exploits won him a silver star.

He is a former West Pointer, 36 years old, indentured in rough and tumble flying, when, with Colonel Haynes, he flew the mails, in 1934. He later commanded the 78th pursuit squadron in Panama.

Colonel Scott celebrated his 34th birthday by piloting a Flying Fortress across the South Atlantic to India and making a quick jump to North Assam in a Tomahawk Fighter.

It seems to this onlooker that the new OWI would do well to piece together the stories of self-starters like the colonel and deal them as hot news. The necessity of planning and organization being what it is, the fact remains that these men are the real spark plugs of our fighting forces and the public would like to receive more news of them.

A Corner of Egypt's Battlefield

Gunners of the British Imperials are shown placing their anti-aircraft guns where they will do the most harm to Axis fliers in the battle for Egypt. They are digging in along one of the supply routes on which trucks may be seen speeding in the background. These lines, near Cairo, are the favorite targets of enemy aircraft.

Protection for the Ferry Command

Sergt. Jack Early of New Orleans, assistant radio operator and tail gunner, is shown in the rear turret of his U. S. ferry command "Liberator" plane in England. The ferry command has been delivering planes to England since the start of the war and has, in many ways, been responsible for the bombing of large German cities.

Former Champ Shows 'Em How

Lieut. W. H. Dempsey helps to toughen coastguardsmen at the coast guard training school at Manhattan Beach, N. Y. Here the former heavyweight champion is shown fashioning some nifty footwork as an "unarmed foe" tried to grab his gun. Dempsey is athletic officer at the training school.

Army, Navy Officials at White House

Left to right: Adm. Ernest J. King, commander in chief of the U. S. fleet and chief of naval operations; Adm. William D. Leahy, chief of staff for President Roosevelt, newly appointed; and Gen. George Marshall, chief of staff of the U. S. army, shown as they arrived at the White House for a conference with the President.

Off to Court

William Griffin, publisher of the New York Enquirer; (left) as he left a hospital for a hearing in federal court. Griffin is one of 23 persons indicted on charges of undermining morale of the armed forces. He is with his brother and a nurse.

Fighting Son

Among the 999 plebes now at West Point is John Doolittle, son of Brig. Gen. Jimmy Doolittle, who led the bombing raid on Tokyo. Cadet Doolittle is toting a light machine gun during field training session.

Tin Goes to War

The first load of tin cans collected in Chicago's salvage drive is loaded on a gondola car to be shipped to factories for remelting. Housewives throughout the nation have joined in the tin salvage program, sponsored by the WPB.

Senate Candidate

Mrs. Ernest Lundeen, widow of the late Senator Lundeen of Minnesota, has filed for the senate seat left vacant by her husband's death. If nominated, she will oppose Joseph P. Hill.

FIRST-AID to the AILING HOUSE

by Roger B. Whitman
DAMPNESS IN HOUSES OFTEN DUE TO METHOD OF PLASTERING

COMPLAINTS of cold and damp houses are likely to be due to the application of inside plaster directly to outside masonry walls; brick, tile, concrete blocks and stone. Properly, plaster should be on lath to provide an insulating air space. Without it the plaster becomes almost as cold as the masonry itself, and the house air in contact with it becomes chilled. Further, moisture in the house air condenses against it, often to such an extent that the wallpaper comes off. This defect in construction can be noticed by placing the hand on the inner surface of an outside wall to compare its temperature with that of a wall between two rooms. The appearance of wet spots on a plaster wall covering an inside chimney is from a similar condition; the chimney brickwork is cold, and in chilling the plaster that is applied directly to it, will result in condensation from damp house air. Such situations can be remedied only by protecting the inside plaster against the low temperature of the masonry. One method would be to replace the inside plaster with plaster on lath on furring strips; another, to sheathe the inner surface of the outside walls with insulating board. With this protection a house would be much more comfortable in cold weather because the house air would not be affected by the low temperature of the walls.

Wall Smoked Black
Question: We have a new house heated with a forced air furnace. In about four weeks after starting the fire, the living-room wall around the register was smoked black. The furnace engineer, without examining the furnace, said the colling was not from smoke, but from dust, rag lint, etc. We doubt this, as everything is new and clean. What do you think?
Answer: Soiling around registers is usually from open joints around the firebox; probably through breaks in the cemented joints. These should be recemented at a time when the fire is out. In the meantime, lift out the register and cover the end of the pipe with fabric moccasin netting, preferably dark in color, which will be held in place when the register is returned to position.

Sagging Floors
Question: The floors in my very old house are sagging because of the weight of the massive chimney in the center. As the walls have just been plastered, I do not wish to have the floors raised. I am thinking of taking up the hardwood flooring and putting a filler underneath. What could I use for this?
Answer: The sagging of the floors may indicate serious trouble; the rotting of foundations, the rotting or destruction of floor beams and other woodwork, or some similar trouble. It would be a waste of time and money to do any kind of repair work without knowing the exact condition of the house. I strongly recommend that you have a thorough examination made by a competent builder.

Cellar Floor Paint
Question: Part of the cellar of my house is used as a kitchen and general utility room. The cement floor has been painted a number of times with cement paint, but with unsatisfactory results; it peels off and the cement shows through. How can I finish that floor to stand reasonable wear?
Answer: You must use special paint for the job; a kind of paint that is proof against the lime in the cement. One variety that gives excellent results is based on rubber. Any large paint dealer should be able to supply it. Cement paint is not intended for a floor, although it is also proof against lime. It is excellent for walls that do not receive wear.

Fire-Stained Walls
Question: We recently had a fire in our home, and the walls are covered with black smoke stains. What should be done before we re-paper?
Answer: Take off the old paper, or if the walls are not papered, wash with a solution of washing soda in water, a pound to the gallon. Rinse with clear water and allow to dry thoroughly.

Bathroom Ventilation
Question: Must a bathroom be ventilated by running a pipe through the roof?
Answer: Ventilation and other details of a plumbing installation are covered in the plumbing code of the neighborhood. If this code is not followed, you may get into trouble with the authorities.

CLASSIFIED DEPARTMENT

Business Opportunities
For Sale—Modern cabin court in resort town. Wonderful climate. Close to snow army camp. Other business demands my time. Cash and part trade. Land or livestock in Colo., Kansas, Pa. Derry, 1802 E. Main, Canon City, Colo.
For Sale—Feed business averaging \$10,000 per year net profit located in central Iowa. Price \$30,000. Might consider part trade for apartments or stocked ranch in Colo. Write BOX 423 JEFFERSON, IOWA.

1640 So. Broadway, Denver, Colo., PE 4081

Household Hints

Sweet corn, green string beans, green peas, pumpkins, squash, celery and greens are best vegetables for home drying. Apples and berries are adapted to drying in the home among fruits.

To keep bread in the best condition, store it when cool in a clean, well-aired, covered, ventilated container and keep in a cool, dry place.

Each time bed sheets are changed the mattress should be turned end-for-end or upside down.

To protect garden shoes keep them well greased or oiled with neat-foot oil or cad or castor oil, tallow or wool grease. Let dry in a warm place.

Rancidity in lard can be prevented by keeping it away from air, light and warmth. Store in tin or crockery containers in a cool place.

Sheets and other linens should be ironed in different folds each week so the creases will not break through.

From an old French word "meat" derived from the Latin word "moccus" meaning a curd or a meal, comes the Army's name "meat" for its breakfast, dinner, and supper. Favorite meal with the soldier is chicken dinner—his favorite cigarette, Camel. (Based on actual sales records from Post Exchanges.) A carton of Camels, by the way, is the gift he prefers first of all from the folks back home. He's said so. Local tobacco dealers are featuring Camel cartons to send anywhere to men in the armed forces.—Adv.

Household Hints

by Lynn Chambers

Cheese Trays Help You Through Sugar-Rationing Period!
(See Recipes Below.)

Take It Easy on Sugar

No sweets with sugar rationed? Why, of course. With honey, corn and maple syrup, molasses, and prepared pudding mixtures, you can learn how to prepare delightful sugar-saving desserts, cakes, and cookies that will not only take you gracefully through the sugar-rationing period but will also remain favorites with you long after these times are past.

Honey blends with raisins and spices in this delicious melt-in-your-mouth pie.

Honey Raisin Crumb Pie.

- 1 egg yolk
- 1/2 teaspoon ginger
- 1/2 cup bread crumbs
- 1/4 cup flour
- 1/2 teaspoon cinnamon
- 1/4 cup hot water
- 3 tablespoons butter
- 1/2 cup raisins
- 1/2 cup honey
- 1/2 teaspoon nutmeg
- 1/2 cup nut meats

Blend hot water with honey and add egg yolk. Mix flour, crumbs and spices. Rub in butter. Place a layer of raisins on unbaked pie shell, cover raisins with layer of nut meats, and pour over honey-water-egg mixture. Top with layer of crumb mixture. Bake at 450 degrees until crust browns at edges, reduce to 325 degrees for 20 minutes or until firm.

Magie Chocolate Pie.

- 2 squares unsweetened chocolate
- 1 1/2 cups sweetened condensed milk
- 1/2 cup water
- 1/2 teaspoon salt
- 1/2 teaspoon vanilla
- Baked pie shell (8-inch) or cookie-pie crust

Melt chocolate in top of double boiler. Add sweetened condensed milk and stir over rapidly boiling water 5 minutes until mixture thickens. Remove from heat. Add water and salt. Stir until thoroughly blended. When cool, add vanilla. Pour into baked pie shell, or cookie crumb crust. Chill.

Get your full quota of milk into the diet by serving it in this delectable combination with rennet powder. No sugar required!

Marshmallow Maple Rennet-Custard.

- 1 package maple rennet powder
 - 1 pint milk, not canned
 - 5 marshmallows, diced
- Dissolve marshmallows in 1 cup hot milk. Then add 1 cup cold milk and warm slowly, stirring constantly. Test a drop on the inside of wrist frequently. When COMFORTABLY WARM (110 degrees), not hot, proceed according to directions on package. Chill, then serve.

- Butterscotch-Ice-Box Cake. (Serves 6 to 8)
- 1 recipe butterscotch cornstarch pudding
- 1/2 cup cream, whipped
- Lady fingers or cake strips

Lynn Says:

Household Tips: Are you wondering how those pots and pans are going to last for the duration? Since the production for these has been sharply curtailed, they will want hints on keeping them in "cooking" condition:

Aluminum: Leaving food in aluminum longer than necessary, soaking the utensil before washing and alkalies such as soda spell short wear for this metal. If you want to clean aluminum without endangering its wearing period, use very fine scouring powder or steel wool for discolorations. Or, cooking acid foods like tomatoes, rhubarb and apples will do the trick.

Iron: Wash in hot, sudsy water. If this doesn't clean it, use hot soda and water. If rusted, use scouring powder or steel wool. Always dry completely and wrap in paper for storage.

Tin: This metal does not keep shiny indefinitely. Remove burnt foods by boiling in soda and water for five minutes, never longer. Rinse and dry thoroughly.

THIS WEEK'S MENU

- *Lemon Smothered Chops
- Broiled Tomato Slices
- Buttered Noodles
- Vegetable Salad Bowl
- Date-Nut Bread Butter
- Diced Fresh Fruit
- *Apple Sauce Cake Beverage
- *Recipes Given

Prepare butterscotch pudding as directed on package. Cool. Fold in whipped cream. Line bottom and sides of mold or loaf pan with waxed paper. Arrange layer of lady fingers on bottom and sides of mold. Turn 1/2 of pudding into mold; cover with layer of lady fingers. Turn remaining pudding into mold and place another layer of lady fingers on top. Chill 12 to 24 hours in refrigerator. Unmold.

Bermuda Appetizers.
Chop Bermuda onion finely, marinate and drain. Spread on crisp crackers and cover with slices of Lederkrans-cheese. Thin slices of rye, pumpernickel or whole wheat bread which have been buttered may be used instead.

You can do all sorts of things with cheese as a lact source and serve it in place of fruit. Comembert has an affinity for fruit. Try it with crackers served with a bowl full of summer's luscious fruits or, try American-made equivalents of Roquefort and Blue cheese spread on hot buttered Boston brown-bread tossed with after dinner coffee in place of dessert. Serve a cheese tray for refreshments and spare the sugar ration.

This spicy apple sauce cake requires only 1/2 cup of sugar.

***Apple Sauce Cake.**

- 1/2 cup shortening
- 1/2 cup sugar
- 2 eggs
- 1/2 cup molasses
- 2 cups cake flour
- 3 teaspoons baking powder
- 1 teaspoon cinnamon
- 1/2 teaspoon nutmeg
- 1/2 teaspoon cloves
- 1/2 teaspoon soda
- 1 cup apple sauce
- 1/2 cup raisins

Cream shortening; add sugar slowly, beating in well. Add well-beaten eggs and beat until well blended; add molasses. Sift together dry ingredients and add alternately with apple sauce to first mixture. Add raisins. Bake in greased square baking pan in moderate oven at 350 degrees about 1 hour. Frost with:

- Balsin Nut Frosting.
 - 1 egg white
 - 1/4 cup light corn syrup
 - 1/2 teaspoon vanilla extract
 - 1/2 cup chopped seeded raisins
 - 1/2 cup chopped pecan meats
- Beat egg white until stiff. Add syrup slowly, beating constantly. Add vanilla and half of raisins and nuts. Spread between layers and on top of cake. Sprinkle with remaining raisins and nuts.

***Lemon Smothered Chops.**
(Serves 4 to 8)

2 pounds pork or lamb chops, cut thick

Put in a large covered skillet or chicken fryer. Cover top of meat closely with:

- 2 unpeeled lemons, sliced
- 1 large sweet onion, cut in rings
- 1 green pepper, cut in rings
- 1 teaspoon salt.

Pour over all:

- 2 cups tomato juice

Dot with flakes of fat cut from meat or butter. Cover and cook on top of stove 1 1/2 hours or until done. Lift onto a hot platter, being careful to keep lemon, onion and pepper slices in place. The meat cooked this way acquires a chicken texture and color, while the lemon, onion, pepper and tomato make a delicious sauce accompaniment.

Have you a particular household or cooking problem on which you would like expert advice? Write to Miss Lynn Chambers at Western Newspaper Union, 210 South Dearborn Street, Chicago, Illinois, explaining your problem fully to her. Please enclose a stamped, self-addressed envelope for your reply.

Smart White Accents Bring Costumes Up to the Minute

By CHERIE NICHOLAS

ALL signs point to a continuance through fall and winter of the high fashion rank accorded during the past months to pretty, flattering and "feminizing" white accents on dark costumes. The vogue for dark dresses and suits highlighted with lovely, lacy neckwear and various other frilly, immaculately white touches is particularly apropos at the immediate moment in that it so beautifully solves that tantalizing problem of smart and timely dressing through the "betwixt and between" season which leads from summer into fall.

For the touch that is warranted to lend a new lease of life to summer-on-the-wane clothes that you are loath to give up as long as warmish days persist, regardless of what the calendar has to say about it, there is nothing that surpasses the refreshing prettiness of doches and splashes of billowy, frilly white. That is why so many fashion-wise women have taken to collecting a "neckwear wardrobe," just as the college girl once collected sweaters.

What with suits registering as fashion "firsts" on the fall style program, one of the most-to-be-deared items you can put in your collection of lacy fineries is a dainty dickey of exquisitely embroidered organdy like that pictured above to the right in the illustration. Note, particularly, the cunning self fabric bow tie fastening, a new note in last-word chic. A dickey of this patrician type is a choice possession that will prove to be "a thing of beauty and a joy forever." Incidentally, we might add that reports from neckwear departments say there are more calls for dickets to wear with suits this season than ever before. One of the clever diversions milliners are indulging in is the trimming of hats with dramatic lingerie touches, ruffles and frills especially. You can see by the picture how effective the result is.

The fabot of hand-crocheted lace pictured at the top left is another

item that should be included in every neckwear collection. It will prove a standby when an extra touch of allure is needed. You will be wearing it with your suit, and it will prove definitely "right" with your one-piece frocks and your blouses.

As inspiring and as spirit lifting as a good repartee is the bright and pliant set of scalloped organdy collar and cuffs illustrated below to the left in this group. A handsome set like this is a miracle worker when it comes to importing a dressy afternoon look to a simple daytime frock.

To set off a pretty face and to add glory to a dark dress, the adorable collar at the lower right in the above illustration possesses a fetching way all its own. Spanning white and crisp and immaculate, it will add a lift to your walk and a gayness to your spirit. The handsome Venice lace that edges it helps to make the vote unanimous that it is one of the prettiest collars brought out this season.

Spending of lacy accents, here's news for fall that really is news. It's in regard to the new velveteen suits now being shown in smart autumn fashion previews. The all lace blouse of Alencon or Chantilly to wear with it is cast for an important role. Froths of lace in pretty confusion cascade down the front of some of the blouses. They will add grace and daintiness to fall and winter suits for cocktail and into-the-evening affairs. Sports blouses will be good, also, and neat, trim and spic-and-span looking. Colorful wool lace blouses are also scheduled for fashion prestige.

Released by Western Newspaper Union.

Fall Coat

There is a movement among women, which is gaining momentum with each passing day, toward buying apparel of enduring quality and the genteel smartness which reflects discriminating selection. The simple good taste characteristic of the better fall coats is exemplified in the model pictured above. The Forstmann woolen of which it is tailored has quality in look and in velvety texture. For the rest, the appeal of this coat centers in the gentle modulation of its superb lines and in the color, for color is scheduled to play a most important role in coats and suits this fall.

Show Wash Cottons For School, Dates

The vogue for tubable cottons goes on at a rapid pace. Back-to-school wardrobes, especially, include cottons, many which look like wool being made up into coats and even coats.

Jacket suit-dresses of richly colorful plaid ginghams are high style for town wear, and black linen or shantung costumes are holding good and will continue to do so until really fall days set in.

Young folks who eagerly don "after duty" dresses, when uniforms are laid aside after hours of war work, take keen delight in the crisp organdies, dotted muscades and smart piques that make up so pleasingly into dance frocks.

The demands for loveliness go especially to the new crinkled seersuckers that are beautifully flayer-printed and are so sheer and tissue-like they are exquisitely dainty and feminine. These are for the most part made with wide swirling skirts, or are ruffled in triple tiers for the skirt.

Velvet Trim

Very new and attractive are the new black wool coats that are colored anduffed with velvet. Some of them are tied with a sash of velvet to one side. Other new models have velvet yokes or plastrons.

Felt Flowers

The newest felt hats are sporting cunning felt flower-trims. The flowers are cutouts in multi-colors. They are attached to the off-the-face brim so that the petals are left free and away from the background.

ON THE HOME FRONT

With RUTH WYETH SPEARS

WHATEVER the limitations that priorities may place on new bathroom fixtures there is no limit to the gay color and good cheer that you may have with brightly painted cupboards and towels decorated with pieces from your scrap bag. In this bathroom a morning glory applique design is used for towels of two sizes and for curtains.

The handy towel and lotion cupboard is painted white outside and

morning glory blue inside. The sides, top and bottom are screwed together at the corners. Use half-inch metal angles as shelf supports, or make grooves for a neater job.

NOTE: Here is news for the man with hammer and saw. Whether you have a coping saw from the dime store or an expensive hand saw, you may now make cut-out scallops for any purpose desired. Pattern No. 227 includes scallops from one and a half inches to nineteen inches; together with numerous illustrations of their use in home decorations. The lady with needle and thread will want pattern No. 223 with ten hot iron transfers of the Morning Glory designs. Patterns are 10 cents each. Order by number and address:

MRS. RUTH WYETH SPEARS
Bedford Hills, New York
Drawer 18
Enclose 10 cents for each pattern desired.

To save shopping trips

Buy more oranges at a time—they keep

You don't have to cut down on fresh foods just because you shop less often these days. Simply buy oranges in larger amounts. They're naturally good keepers!

They give you protective vitamins and minerals you need, especially vitamin C. They satisfy your sweet tooth—save sugar.

Local and Personal

A special coach was set aside last Monday to receive the 40 odd selectees who were sent to the Ft. Bliss reception center for examination as to their ability and fitness for military service. The News has never been favored with names of the departing men, if we had, their names would be published at the date of departure.

Mrs. John R. O'Malley of New Orleans, Louisiana, formerly of Capitan, is now nursing in the U. S. Marine hospital at New Orleans. Mr. O'Malley has gone on duty at sea.

Mr. M. C. St. John motored to Albuquerque last Sunday and returned Monday, he was accompanied by Mr. and Mrs. Vie Lopez and family.

Mr. Joe Romero who has been ill for a long time is improved and went up town in his wheel chair yesterday.

Mr. Ted Purecy has accepted a defense job at Long Beach, California and has gone out there. Mrs. Purecy and son, Ted will join him there shortly.

Mr. W. J. Ferguson has gone to Alamogordo where he is employed on a defense job.

Mr. and Mrs. E. H. Hendricks and little grandson of Jack's Peak were business visitors in Carrizozo yesterday.

Misses Barbara Smith and Margio McClure entertained with a birthday supper in honor of Mr. Wade Lane Tuesday evening.

Engineer L. J. Adams of Tucumcari was in town Wednesday.

Mr. and Mrs. Ben Sanchez received word from their son Albert, who is now in the U. S. Navy. Albert states that he has entered the Internal Combustion Engine school as an Aviation Mechanic Mate at the San Diego Naval base.

Engineer Henry Hoffman spent several days at home this week.

Mr. W. W. Nicholas of Clovis is running for nomination for Congressman from New Mexico.

Mr. and Mrs. Will Ed Harris were business visitors in Carrizozo yesterday.

Sgt. Sat Chavez returned last week to Sheppard Field, Texas, after spending a two-week furlough here with his parents.

Local Landing Field Cleared

By courtesy of the County Commissioners and under the direction of the Chamber of Commerce, the weeds and grass have been removed from the landing field, for small planes; North of town. This should have been done some time ago, as many planes have tried to find a place to land, not finding it, they have flown on.

Dr. R. E. Blaney, Secy.

Past Matrons Held Memorial Service

The Past Matrons' Club held memorial services last Thursday evening for their departed sister, Mrs. Maud L. Blaney. Chapter was opened with the usual formalities then a recess was called. The memorial service was public. After the service guests departed and the Chapter proceeded with their meeting.

It's common sense to be thrifty. If you save you are thrifty. War Bonds help you to save and help to save America. Buy your War Bonds every day.
