CARRIZOZO, NEW MEXICO, FRIDAY, JUNE 6, 1947

Outlook Vol. 38—No. 5

CORONA NEWS

Our Vacation Bible School is now in progress. Attendance this week is on the increase. We will tell you more about the school next week.

The Day Camp for Brownie Scouts has been postponed because of whooping cough, chicken pox, and flu. A day camp will be held probably in July or August.

A rummage sale was held May 30 and 31st at the Waldon Cafe for the benefit of the Church. Another rummage sale will be held in August. Net proceeds of \$75.00 from this sale will be applied on the purchase of a solo box for the Baptist church.

Miss Dell Roberts and Mrs. Robin Pfeiffer were buying at the Merchant's Market in Albuquerque June 1.

Mr. and Mrs. Archie Perkins and children are in Albuquerque this week attending a Druggists Convention.

Mr. and Mrs. B. E. Penix were visitors in Ruidoso the past weekend.

Mrs. Vera Hardy and her two sons left Sunday for the state of Washington. From there they will sail for Japan to join Mr. Hardy.

Mr. and Mrs. T. D. Colbough, daughters of Delta, Colorado are visiting in Corona.

The Federation Woman's Club is sponsoring a card party Saturday night, June 14, at the school gym.

Miss Sally Mae Pfeiffer was hostess to a group of the younger girls Monday afternoon. The occasion was a get-acquainted party for Sally Mae's cousin, Adell Weaver of Wharton, Texas, who is spending her vacation here.

Return from Southern— Eastern Trip

Mr. and Mrs. Elmer Eaker and three children, Ann, Alma and Johnnie arrived home last Friday after a trip of several thousand miles through the South and Eastern states. Cities nearer home visited enroute were San Antonio, Houston and Galveston Texas; New Orleans, La.; eastern points visited were New York, Atlantic City, N. J.; Niagara Falls, Washington, D. C., Chicago. In Michigan they went to Detroit and Grand Rapids; at the last named place they spent several days at the home of Mr. and Mrs. C. B. Ellsworth and family. Mrs. Ellsworth is a sister of Mrs. Eaker, and has visited here several times, the last visit being in 1945.

Reid Dudley and family of San Francisco came and looked after the drug store while Elmer was away. Reid formerly lived in Carrizozo, but since his discharge from service has made his home on the West Coast. He and his wife left last Friday for their home.

Rev. W. Otho Mills to Preach at Nogal Sunday

Rev. W. Otho Mills will preach Sunday, June 8, at Nogal following Sunday School which begins at 10:00 o'clock.

Rev. Mills will take for his subject: "For God." The Scripture will be taken from John 3:1, 21. The text will be: John 3:16.

Magdalena Tops Carrizozo 7-6

The local Veteran ball team met the Magdalena nine at the local park last Sunday afternoon. There was a good crowd of fans in attendance.

Carrizozo came out on the small end of the score after a bad 8th inning that brought home 4 runs for Magdalena.

Jerry Beltran was on the mound Esquel Chavez and Lorenzo Marabal were in the catchers box. All players on both teams turned in star performances.

Final score Magdalena 7 and Carrizozo 6. Games for the next two weeks were slated with Santa Rosa who have joined a league leaving a gap in the local schedule.

In Appreciation

The 54 Highway Association committee wish to thank the people of Carrizozo for their generous support in making it possible to raise Carrizozo's quota of \$400 for the National association.

Such cooperation up and down the line will hasten the day when highway 54 will be one of the most traveled highways in the United States.

Roy Shafer
Vernon Petty
A. J. Rolland

New Pastor At Trinity Methodist Church

Carrizozo's new Methodist minister, the Rev. Howard S. Pitts, comes home to the New Mexico Conference with a fresh point of view. He has been in New York City for the past year learning what he could about religious radio-drama.

Rev. Howard S. Pitts / Eight years ago, Rev. Pitts served as President of the Methodist Youth Fellowship of the New Mexico Conference and of the South Central Jurisdiction. In 1941 he was graduated from the Texas College of Mines, in El Paso, where he was president of the student body.

At Trinity Methodist Church, Mr. Pitts is reorganizing the Youth Fellowship, which will meet on Sunday evenings, and organizing a Tuesday evening adult group to explore the New Testament through study and worship. But his chief concern is to bring everyday religion into Carrizozo's homes. "Sunday," he says, "must become more than a bold front for the rest of the week."

Mrs. Cliff Zumwalt returned to her home this week, after spending several weeks at the Floyd Smith home in Mesilla Park.

Vacation Bible School at First Baptist Church Concluded

Above are the workers and pupils

The Vacation Bible School opened Friday May 16th, with 30 enrolled. The afternoon was given over to a parade, with County Sheriff Vega leading the way.

Monday 19th, the Bible School opened with 36 present. The largest attendance of any one day was on Wednesday the 28th, the last day, with 48 present. There were about 60 different enrollment cards written. Thursday the 29, 44 went on a picnic near Colonel Jones' place at Nogal, with Mr. Jones as leader.

First half hour of the school each morning, was given to singing, scripture reading, prayer, salutes to the flag, and Bible character stories. Next, 45 minutes of class work, which was study of the Bible; then a recreation period. Last 45 minutes of the morning was given wholly to hand work; the girls and boys in separate groups.

During the first week of school there were also revival services each night, which resulted in five professions of faith in Christ and three additions to the church. Two by letter, one by baptism. Rev. Olive Riley of Tularosa, missionary of the Lincoln Baptist association did the preaching.

Miss Dorothy Outlaw, of Albuquerque, associate Superintendent of Baptist Sunday School work of New Mexico was general principal of the school. Miss Outlaw is spending four days in Albuquerque, helping to teach a group of 38 college students the Vacation Bible School work. These 38 young people will be sent out to different Baptist Associations in New Mexico to lead in Vacation Bible schools. Miss Outlaw will be the state secretary's assistant in overseeing this work.

Local Scouts Camp In Baca Canyon

Last Saturday Scout Master Sam Welsh took scouts Claude Wilson, Richard C. Brewster, Alton Lenord, Eddie Holguin and Henry Vega to Baca Canyon in the Capitan Mountains for an outdoor camping trip.

Mr. Paul Wilson was with the campers on Sunday and Mr. Welsh was with them the remainder of the time. They returned on Tuesday after an enjoyable outing.

Mr. and Mrs. John Rowland are spending their vacation here with their mother, Mrs. Epsy and at Alamogordo. At the end of their vacation they will be stationed at Lordsburg. Mr. Rowland is with the Signal Department of S. P. Railway.

William W. Fulmer Awarded Scholarship

Mr. and Mrs. J. H. Fulmer attended the N. M. M. I. Commencement exercises in Roswell Tuesday. Their son Bill returned home with them.

Bill was awarded the Walter H. Boyd Memorial Scholarship. This award is made to a second classman for continuance at New Mexico Military Institute for the purpose of gaining a commission in the Army of the United States or Officers' Reserve Corps, on the following basis: 1. a soldierly proficiency; 2. character suitable to that of an officer; 3. scholarly aptitude.

The Walter H. Boyd Memorial Scholarship was established by terms of the will of Lt. Truman O. Boyd, III. His brother, who was killed in action in Tunisia, May 3, 1943. This is the fourth year of award.

Republican Convention

Tomorrow morning June 7th at the grade school gymnasium in Capitan the Republican Party will hold their County convention for the election of a County Central Committee Chairman Vice Chairman; Secretary-Treasurer and the delegates to the state Convention.

The majority of precincts in the County held the precinct meetings on Wednesday June 4th and selected their representatives to the County Convention.

Rifle and Pistol Club Target Shoot

Last Sunday afternoon at the island in the Mat Pais a good crowd of members of the Lincoln County Rifle and Pistol Club held their first target practice.

A short business session concluded the afternoon.

Kenneth Willingham

Deepest sympathy is felt for Mrs. Stella Willingham upon the tragic death of her son, Kenneth, who was aboard the ill-fated air transport which dived suddenly into a Maryland swamp last Friday night taking the entire 53 persons who were on the plane to a sudden, horrible death.

Kenneth was formerly a student of Carrizozo High school and is well known and well remembered here.

Bill Dolan is the new assistant at the Conoco Service Station operated by Clyde Atwood.

Memorial Day Service At White Oaks

An extremely interesting and impressive memorial service was held at the White Oaks cemetery on May 30th. Ex-Gov. George Curry, a representative of Governor Mabry who was unable to be present gave a splendid talk in which he paid fine tribute to the late Hon. William C. McDonald, who was first governor of New Mexico after it became a state. The ladies of White Oaks had made a beautiful wreath which was placed upon his grave. Two grandchildren of Governor McDonald were present to witness the ceremony as well as a large number of former residents who were there for the occasion. Many visitors brought basket lunches, and members of the White Oaks Ladies Aid served coffee and iced tea in the Aid Hall. All credit is due to D. L. Jackson, for his faithful service, and excellent care of the White Oaks cemetery.

Methodist Church

Rev. Howard S. Pitts, Pastor

Thank you each and all for helping me get started in my new work as pastor of Trinity Methodist Church. It speaks well for my predecessor, Rev. Johnston. I am sure we all wish him well in his ministry in Capitan.

Hardly had I arrived in Carrizozo before several laymen urged the digging of a well at the church. A generous Baptist layman, Leroy Perry and his fellow-worker, Orville Ross, were willing to dig the well for only the cost of the materials. Thanks to their big-heartedness, Trinity will soon blossom with a green lawn as soon as we get that new pump.

Each Tuesday night at 7:30 at the church there is a meeting for Bible study and worship (at present we are exploring Timothy). In 1730, John Wesley started a similar weekly meeting for those who felt the need of prayer, this was the beginning of United Societies—and, later, of the Methodist Church. It is felt that here is the heart of the church program, for here is found the intimacy and informality needed for a personal, group relationship with God.

This Tuesday evening gathering is open to all who feel its need. The Youth Fellowship began holding regular Sunday evening meetings last Sunday. Plans are underway for fixing up a room in the parsonage for their regular meeting-place. And enthusiasm is running high for a big picnic being planned for next Friday, the 13th.

Talk seems to be spreading about Sunday evening meetings for the Intermediates. And, rumor has it that the young adults of Carrizozo would like to get together as a fellowship and discussion group.

Next Sunday's sermon will be concerned with "Man's Disorder and God's Design." Church School begins at 10:00 a. m., and the Morning Worship starts at 11:00 o'clock.

Here's a thought for the day: "We do not love people so much for the good they have done us as for the good we have done them." (Tolstoy).

Rev. F. J. Johnston, of Capitan, brought his daughter Muriel to Carrizozo last Saturday and she returned to her home in El Paso.

National Association U. S. 54 Highway To Hold Two Day Meet

On Friday and Saturday June 6th and 7th at Tucumcari the National Association of U. S. Highway 54 will hold a meeting with headquarters in the Randall Hotel.

A New Mexico Transportation Company bus came through here yesterday about 10:30 a. m. picking up delegates along the route. Members of the Association from El Paso to Wichita Kansas will be in attendance.

At 9:30 a. m. today the program starts with registration and the State President meeting. New Mexico's President W. E. Knott of Three Rivers and State Vice-President Roy Shafer of Carrizozo will be in attendance.

At the afternoon session Committee appointments will be made followed by a trip to Conchos Dam. Saturday sessions at 9:30 a. m. and 1:30 p. m. will complete the business of this meeting. A banquet will be given by the Tucumcari Chamber of Commerce for the delegates.

Cake Walk

Members of the Carrizozo High School "C" Club gave a cake walk on the evening of Memorial Day, at the junction of Main street and Alamogordo Avenue. About twelve cakes were bestowed upon the lucky walkers, or rather the the walkers who were lucky enough to stop on the winning numbers. Cakes donated; charges were 25c per walk for each individual. The boys were well pleased with the amount of money they took in.

Club president is Glenn Snow, vice-president, Clarence Huat and W. G. Chapman is Sec.-Treas. Men who have lettered in athletics are eligible members.

Mr. and Mrs. R. C. Withers are driving a new Frazer automobile purchased from the Lincoln County Motors.

LEGALS

IN THE PROBATE COURT OF LINCOLN COUNTY STATE OF NEW MEXICO

IN THE MATTER OF THE ESTATE OF ROLAND S. ALLEN, deceased. NOTICE OF HEARING ON FINAL ACCOUNT AND REPORT, AND DETERMINATION OF HEIRSHIP STATE OF NEW MEXICO TO: Zana Allen and Teddie Sue Allen and to all unknown heirs of Roland S. Allen, deceased, and all unknown persons claiming any lien upon, any right, title or interest in, to, or upon the estate of Roland S. Allen, deceased, and TO WHOM IT MAY CONCERN, GREETINGS:

Notice is hereby given that Zana Allen, administratrix of the estate of Roland S. Allen, deceased, has filed her Final Account and Report as such administratrix with the Clerk of the Probate Court at Carrizozo, Lincoln County, New Mexico, and the Honorable Fortino L. Beltran, Judge of said Probate Court, has fixed the 5 day of July, 1947, at 10:00 A. M. in the Probate Court room of the County Court House at Carrizozo, Lincoln County, New Mexico, as the time and place for hearing of objections, if any, to said Final Account and Report, and the said Probate Judge will, at the said time and place, proceed to examine and inquire into said Final Report and Account, and if found to be correct, will approve same and discharge the administratrix, and will, at the same time and place determine the heirs of the said Roland S. Allen, deceased, and the ownership of the estate of said decedent and the interest of each respective claimant thereto or therein, and the persons entitled to the distribution of said estate as provided by law.

That A. B. Carpenter, whose post office address is P. O. Box 250, Roswell, New Mexico, is the attorney for Zana Allen, administratrix of the estate of Roland S. Allen, deceased.

S. E. Greisen, Clerk of the Probate Court (Probate Court Seal) M 20-J 13

New Mexico Weekly Newsletter

By Dr. G. Ward Fenley But back in the Good Old Days George Eddy Jr. of the Carrizozo County News is writing a series of articles on life in the buckboard days. He says "A six gun was the law and justice was as quick as a rattlesnake bite!"

Maybe so. George, but back when Grampa was a boy, they simply did not have mass production methods, Even Donald Davidson (see Las Cruces Citizen) will admit that it took Alias Billy the Kid possibly a decade to kill even thirty men.

And 69 year old Forrest Pioneer, A. W. Yates (Tucumari American) put very few if any notches in his gun barrel even though, as a sheriff, he knew he "could kill three or four tenderfoots before they could get their guns out."

Mr. Yates never even bothered with disarming a prisoner. He simply told them that "we are on an equal footing now-if you want to draw, have at it bud!" They never reached for the forty five.

People, Comin', Goin', Doin' Some 1000 Baptists converged this week on Alamogordo. A bell hop at an Alamogordo hotel wired me that every Baptist arrived with a copy of the ten commandments and a ten dollar bill. Neither has been broken to this date!

Some way or other, Governor Tom Mabry's Cadillac number; New Mexico 1-A was parked close (Gallup Independent) by the film company shooting "Paso Por Aqui" last week. And some how, a for sale, \$1800, was tacked on it. Gov. Tom had some explaining to do when the movie stars were hot for buying it.

And in Conclusion That is all for this week except to give you a definition of human nature: That which makes you sweat at a pedestrian when driving and at a driver when you are a pedestrian!!! Try a Classified Ad.

Aluminum Wire To Be Used By Farmers

The nation's farmers can prevent the loss of \$100,000,000 worth of hay and straw from this year's crop threatened by a shortage of bale ties made from steel, by making up the deficiency with ties made from aluminum, Frank R. Nicholas, president of the Nichols Wire and Steel Company here, stated on completion of a survey of on-farm needs and tie production potentials. There is an ample supply of aluminum wire compared with an acute scarcity of steel wire, he said.

Farmers will need 143,200 tons of steel ties this year, it is estimated by the department of agriculture, but actual production will fall under this figure, he declared. Last year only 127,757 tons of steel ties were manufactured and even less will be made this year, Mr. Nichols forecast.

The deficiency between needs and manufacture of ties spells the loss of some 500,000,000 tons of hay and straw, averaging \$20.00 a ton at today's prices as estimated by Fred K. Sale, Secretary and Treasurer of the National Hay Association. Unless properly baled for shipment the products will go to waste. While aluminum bale ties cost more than those made from steel, the difference is negligible compared with the overall savings, Mr. Nicholas stated. The additional cost for aluminum ties over steel ties at a legitimate price is only 75c per ton of hay baled. This higher cost is offset almost entirely when black market prices are paid, he said.

At the behest of several farmer organizations, the Nichols company, which manufactures aluminum wire, has swung into the production of aluminum bale ties, he stated. While his company cannot fill the need for ties it stands ready to furnish aluminum wire to other manufacturer with the capacity to make bale ties, Mr. Nichols announced. A great deal of the shortage can be made up by the combined production of his and other companies in the field, Mr. Nichols feels.

QUALITY IN A MEMORIAL
 Quality is not something that can be argued into a monument or promised into it. To begin, the material must have it. In the finish and the lettering, it must be placed there. The finest sales talk will not act as a substitute. Rock of Ages means quality, and the Rock of Ages seal is your absolute assurance of the finest material and the supreme quality of craftsmanship.

You're Welcome
 A veteran dropped in at our bank the other day and said, "I need advice. I'd like to talk with you about a problem that's been on my mind."
 We told him he had come to the right place. He talked about half a dozen things. We listened. And because banking is our business, we could answer his questions that had a financial side: his rights under the G. I. bill; the value of a plot of ground he wanted to buy; and the local opportunities for a business he was thinking of starting.
 When he left, he smiled and thanked us. "Don't thank us," we told him. "We're here not only to lend money, but also to help in every way we can."
 He and his fellow veterans are always welcome here. If we can do something for you, come on in.

From where I sit... by Joe Marsh
No "Smog" in Our Town
 A lot of folks in our town had been writing letters to the *Clarion*, complaining about the "smog" or smoky fog that sometimes blanketed the neighborhood, and made their eyes smart.
 So we made an investigation and published a list of the contributory factors! The dump at the end of Maple Street; the canning factory; trash burned outside of home incinerators; and others.
 Right away folks started taking action, voluntarily. Closed up the dump, cleaned out their own incinerators, got the factory to put in new combustion units—till there's not a trace of "smog" now.
 From where I sit, there's another example of self-regulation. In a way, it's similar to the Brewery's Self-Regulation program. When they hear of a tavern that's causing dissatisfaction to the town, in any way, they see it get disciplined or closed up. There's nothing like appealing to the folks themselves—if you want action.
 Joe Marsh

30 Years of Service

Believed to have the longest continuous service record of any automobile advertising executive, B. B. (Cap) Kimball, assistant advertising manager of Pontiac Motor Division, May 27th celebrated his 30th anniversary with Pontiac.

On the evening of May 28th several hundred newspaper, advertising, and automotive friends gathered at Bloomfield Hills Country Club to properly celebrate the event.

Just out of West Point, "Cap" went to work for Pontiac's predecessor, Oakland, on May 27th, 1917. He started as a time-keeper in the Payroll Department, but shortly shifted to advertising and has remained there since.

His acquaintanceship among newspaper and magazine representatives is perhaps the largest in the country, and he has seen the Division's advertising appropriation grow from a few hundred dollars to many millions. He has worked with eleven sales managers and five general managers during his career.

"Cap" is a native of Pontiac, is married, and the father of three children: Basil L., also a Pontiac Motor employe, Evelyn and Barbara.

Veteran's News

The latest tabulation released by Veteran's Administration reports an estimated total of 18,188,000 living veterans as of May 1. Of this number, 14,267,000 served in World War I and the remainder were in prior wars and in the peacetime forces. Geographic distribution of the recorded veterans include: Colorado, 156,000; New Mexico, 74,000; Utah, 82,000, and Wyoming, 42,000. Not all of these veterans can qualify for VA benefits, since G. I. Bill advantages are available only to those discharged under other than dishonorable conditions. This limitation affects about 150,000 World War I veterans throughout the nation, but the number is being reduced as the War and Navy Departments reconsider the circumstances under which other than honorable discharge certificates were granted.

Veterans in need of surgery of the nervous system now are sent to 41 specially equipped and staffed hospital centers operated by VA or under contract to it. Each center has the special equipment, neurosurgeons and other skilled personnel necessary to perform all types of neurosurgical operations including some involving surgery not performed in the average general medical hospital. Eligible veterans also may be treated, in the Army's Fitzsimons General Hospital at Denver.

Veterans Administration urges veterans who plan to attend college and other institutions of higher learning for the first time next fall under the G. I. Bill to arrange immediately for entrance into the schools of their choice if they have not already done so. All indications point to an increase over the current peak of approximately 1,200,000 ex-GIs now enrolled in these institutions. Veterans who wait until the last minute to apply for entrance are running the risk of being "shut out", VA said. VA also advised veterans who plan to start their educational training next fall to apply at once for their certificates of eligibility by visiting or writing their nearest VA office.

Indications are that about half of the veterans attending higher educational institutions under the G. I. Bill in Utah, New Mexico, Wyoming, and

Colorado will continue their education during the summer session. Contact with schools of higher learning indicates that if present building and expansion programs are completed, the institutions can accommodate a slight increase in enrollment at the beginning of the fall term.

Five veterans of the Civil War were among the 105,691 veteran-patients under the care of the Veterans Administration on April 1. Eligible for hospital care by VA are all veterans with disabilities incurred in or aggravated by their service in the armed forces. Veterans with nonservice connected ailments may be hospitalized if beds are available and are not needed by service-connected cases, and if they sign a statement that they are unable to pay for treatment elsewhere.

Cool Off With an Egg Julep!
(See recipe below.)

Cool Refreshment

No summer menu collection is complete without a set of cool drink recipes. These tasty drinks are so handy and convenient to have for both family and company use, that each summer season should see us well armed with a new set of recipes. After you have decided on the different types of cool refreshments you will serve, see that you have all the ingredients on hand so they can be whipped together at a moment's notice.

Cool drinks fall in several categories. You should have several recipes which are really nutritious for the youngsters when they come in from play. Then, too, you should have another set of recipes that are tasty as well as nice to serve guests who may drop in afternoon or evening.

Cool drinks will be more of a success if they are served in frosty looking, decorative glasses. And don't forget the appeal of tinted ice cubes. Use harmless food color, if you like, or freeze bits of cherries, other fruit or mint sprigs with them. For iced tea or coffee, freeze the beverage itself into cubes so that the drink will not be too diluted when served.

HERE ARE several nutritious drinks which will make a big hit with the children.

Egg and T Julep
(Serves 10)

- 3 eggs, beaten
- 1/4 cup sugar
- 1/2 teaspoon salt
- 2 cups orange juice, strained
- 1/2 cup lemon juice, strained
- Crushed ice
- Club soda

Blend eggs, sugar and salt. Add fruit juices. Shake or beat until the sugar is dissolved. Pour over finely crushed ice and fill glasses 1/2 full. Add club soda slowly. Serve promptly.

Chocolate Banana Milk Shake
(Serves 6 to 8)

- 4 sieved large, ripe bananas
- 4 cups milk
- 1/4 cup chocolate flavored malt drink
- Ice

Press the bananas through a sieve, then combine them with the milk and chocolate flavored malt drink. Use a shaker or tightly covered jar. Add ice. Shake well and serve at once.

Mint-Chocolate Frost
(Serves 4)

- 1/2 cup cocoa
- 1/4 cup corn syrup
- 1 cup hot water
- 1 teaspoon vanilla
- 1/2 teaspoon mint extract
- 1 quart milk
- 1/2 teaspoon salt
- 1/2 pint vanilla ice cream

Combine cocoa and syrup. Add hot water, stir well and cool. Add remaining ingredients and beat until well blended. Serve in tall glasses. Additional scoops of ice cream may be used on top to give the effect of a soda.

LYNN SAYS:

Hints for Better Cooking
Never wash berries until just before they are used. To keep the juice in strawberries, wash the berries before removing hulls. The best way to wash them is to float them in a pan of water and lift out gently. Repeat the process until the water remains clear.
Oranges and lemons will squeeze more easily if they are rolled against the table until they are slightly soft. If they are too hard to roll, heat them slightly.

LYNN CHAMBERS' MENUS

- Veal Cutlet Tomato Sauce
- Parsleyed Potatoes
- French Green Beans
- Head Lettuce with French Dressing
- Oatmeal Bread
- Citrus Chiffon Pie
- Beverage

- Chocolate Malted Milk (Serves 1)
- 1/4 cup chilled milk
- 2 tablespoons chocolate syrup
- 1/4 cup carbonated water
- Chocolate or vanilla ice cream
- Add milk to syrup slowly, stirring constantly. Pour into tall glasses. Add carbonated water and stir well enough to mix. Add ice cream and serve at once.

RECIPES WITH their main ingredient as fruit juice or a combination of them are given here. These come under the guest beverage classification but also may be served the family when you want to give them a special treat.

- Cranberry Pineapple Ale (Makes 6 cups)
- 1 pint cranberry juice
- 2 1/4 cups pineapple juice
- 1 1/2 cups ginger ale
- Cracked ice

Combine fruit juices with ginger ale. Add ice and serve, well chilled.

Frosted Ginger Ale
(Makes 6 1/2 glasses)

- 1/4 cup light corn syrup
- 1/4 cup sugar
- 1 cup hot water
- 5 whole cloves
- 1 stick cinnamon
- 1/4 teaspoon allspice
- 1/4 teaspoon nutmeg
- 1 1/2 cups orange juice
- 1 cup grapefruit juice
- 3 1/2 cups ginger ale
- Ice

Boil together syrup, sugar and water for 5 minutes. Add spices and let stand 1 1/2 hours. Strain through several thicknesses of cheesecloth. Add fruit juices and chill. Just before serving add ginger ale and pour into ice filled glasses.

Orange Lime Fix
(Serves 4)

- 2 cups orange juice
- 1/2 cup granulated sugar
- 12 sprigs mint
- 4 tablespoons lime juice
- 1 1/2 cups carbonated water
- Ice

Heat 1 cup of orange juice to the boiling point. Add sugar and mint which has been chopped. Cool, cover. Strain and add remaining orange juice and lime juice. Just before serving add carbonated water and ice.

Ambrosia
(Makes 6 quarts)

- 4 cups apricot nectar
- 4 cups orange juice
- 1 1/4 cups lemon juice
- 1/2 cup lime juice
- 1 cup powdered sugar
- 4 quarts carbonated water
- Ice

Combine juices and sugar and stir until latter is dissolved. Just before serving add the carbonated water and pour over ice.

Released by Western Newspaper Union.

To cut hard-cooked eggs readily, use a fine wire or a sharp knife dipped in cold water to prevent the yolk from sticking.

To cut meats for salad, use a pair of kitchen shears in place of a knife. You will be able to work much more quickly.

Bacon should be placed in the skillet before the unit is heated. Cook slowly, pouring off the fat as it accumulates.

To remove pinfeathers from fowl, a pair of tweezers is very satisfactory.

GEM OF BEAUTY . . . Once a fiery volcano, Crater lake in Oregon now ranks as one of the beauty spots in national parks of the West. The lake, which gives the park its name, is the deepest on the North American continent; its color is a mysterious blue. Sheet slides rise 500 to 2,000 feet to the rim from the lake surface. Liao rock, on the rim of the lake, is shown in this picture, with Mount Thielsen in the background.

NATURE'S HANDIWORK

Pacific Coast Parks Show Results of Volcanic Action

WNU Features.

Volcanoes have been a dominant factor in shaping the American landscape, especially in many parts of the West. Three of the major volcanic exhibits of California, Oregon and Washington have been incorporated into the national park system.

It was 40 years ago that Theodore Roosevelt, using the authority granted by congress the preceding year, established Lassen peak and nearby Cinder Cone as national monuments. Nine years later these two attractions of nature were incorporated into Lassen Volcanic National park, containing 103,269 acres.

Greatest single distinction of the park is the fact that it contains the only recently active volcano in the United States. Starting May 30, 1914, a series of eruptions continued until February, 1921. Most spectacular in the seven-year-long series were the 1915 eruptions, which were accompanied by extensive flows of hot lava. These created the "devastated area," which still ranks as one of the park's points of principal interest to tourists.

The great cone of Lassen peak rises 10,543 feet above sea level. As in the "devastated area," the Cinder Cone, which was last active about 100 years ago, and its immediate surroundings are almost wholly devoid of vegetation.

Underground fires have been active in this region for a long time and they have exerted their power in a variety of ways. This is suggested by Bumpas Hill, a colorful hot springs area; Rolling Springs lake; Red Cinder Cone; Crater butte, and the privately owned sulphur works, which lies within the park.

AT CRATER LAKE National park, in southern Oregon, on the crest of the Cascade range, is presented the spectacle of a lake of deepest blue in the crater of Mount Mazama, an extinct volcano. Many geologists have concluded that the basin occupied by the lake, which has neither inlet or outlet, resulted from collapse of the volcanic cone of the ancient peak.

The lake is supplied with water by rainfall and snowfall as well as by snow which is blown into it from the rim. Collapse of the mountain's summit did not mean the end of its volcanic activity; Wizard Island, a symmetrical cinder cone, was formed later and rises 780 feet above surface of the lake. Covering an area of 20 square miles, Crater lake is 6 miles across; it has a shore line of 20 miles and the multi-colored cliffs of the crater's rim rise 500 to 2,000 feet above it. The park contains 160,290 acres.

HIGHEST OF ALL volcanic peaks of the western United States is Mount Rainier, 14,408 feet in elevation, which is the central and dominant feature of Mount Rainier National park. Although it has long been dormant, steam still issues from vents on its summit, and several hot springs are found nearby at picturesquely named Ohanapeosh hot springs.

From the lofty central cone radiates the greatest single-peak glacier system in the United States, with 24 active rivers of ice. One of these, the Emmons, which starts from the summit of ice and snow fields, is 1 1/2 miles in length, the longest glacier in the United States. Most of them extend far below the timberline.

John Muir, who perhaps did as much as any one person to further the spread of the national park idea, considered the wildflower fields of Mount Rainier the finest he had ever

seen in all his wanderings throughout the mountains of the West. The most extensive and colorful displays are found in the mountain "parks" which lie between the long rivers of ice and above the dense forests which clothe the lower elevations of the park. The forests themselves, virgin stands of gigantic Douglas fir, western red cedar and western hemlock, are a distinguished feature, particularly attractive to eastern and midwestern visitors.

ALL THREE of these parks are almost as popular during the winter as in summer. All of them have very heavy snowfall and all have open slopes that offer the skier every variety of skiing experience, which extends into late spring and even early summer. Roads are kept open in each park to permit winter sports enthusiasts to reach them, although the expense of plowing out the roads after every snowstorm is rather high.

IN LASSEN Volcanic National park there are public accommodations near Manzanita lake, close to the northwest entrance of the park. At Crater lake, similar accommodations are situated within a short distance of the rim. At Mount Rainier they are found at Longmire, about 2,750 feet above sea level; at Paradise valley, 5,537 feet elevation, and at Ohanapeosh hot springs in the southeast corner of the park. Public campgrounds, for which no fee is charged, are to be found at a number of points in each of these parks.

As in most of the other national parks, National Park service provides staffs of ranger-naturalists whose job it is to help the visitor gain a better understanding of the plant and animal life of the parks and of the geological phenomena found in them.

RIVER OF ICE . . . Nisqually glacier flows down the south side of Mount Rainier, focal point in Mount Rainier National park in Washington.

Realistic Acting

OGDEN, UTAH—La Moine Wall, 15, was rehearsing for a school play, the script calling for him to be "knocked out" in a fight. He didn't get up when the rehearsal ended. He had bumped his head a little too hard when he fell to the floor. First aid treatment brought him around.

Animals Are 'Ears' for Deaf Woman

GOODING, IDA—Deafness has proved no great handicap to Mrs. Violet Gooding, for she has Inky, a cat, and Impy, a dog, to serve as her "ears."
The amazing thing about the two animals is that they have been trained in the universal sign language of the deaf. There are no spoken commands in Mrs. Gooding's home. Her hands do the commanding.

No doorbell warns of impending visitors. When someone at the door presses a button, a red light comes on in the living room. If Mrs. Gooding doesn't notice it, Impy or Inky do—and notify their mistress. Impy awakens Mrs. Gooding every morning by patting the bed covers.
Mrs. Gooding, who lives alone, is self-supporting, working for the State School for the Deaf and Blind here. Her husband died in 1937.

Touch Typewriting Can Be Self-Taught
GETTING A JOB

WHETHER you plan to make office work your career, or hope to enter some other field eventually, you have to know typing to get a foothold.

The Weekly Newspaper Service booklet teaches touch typing with charts, exercises and speed drills. Simple to learn. Send 25 cents (coin) for "Touch Typewriting Self-Taught" to Weekly Newspaper Service, 243 W. 17th St., New York 11, N. Y. Print name, address, booklet title and No. 13.

FALSE TEETH

To hold your loose upper and lower teeth comfortably secure all day—every day, try dentist's amazing discovery called STAZE. Not a "mass" product. STAZE is pleasant-to-use. Safe. Fits like a glove. At drugists today! Accept no substitutes!

STAZE Sales All Day at Your Dentist's

Dogs I've Known...
by Helen E. Robinson

Neighborhood Pet—A fellow anybody'd be proud to own—lively and well-nourished on Gro-Pup Ribbons. These crisp, toasted ribbons give him every vitamin and mineral dogs are known to need. Economical—one box supplies as much food by dry weight as five 1-lb. cans of dog food! Gro-Pup also comes in Meal and in Pel-Ets. Feed all three.

Find Rare Armor

Since the 16th century, the Church of the Madonna delle Grazie, near Mantua, Italy, has had the upper part of its interior walls lined with life-sized human figures that custodians believed were made of papier-mache. But in 1937, an authority on antiques examined the 17 military figures and discovered they were dressed in excellent suits of rare medieval armor.

AID-TO-HAIR-GROWTH

Farmers: Control Weeds

- in Growing Grains
- in Pastures

with

AGRICULTURAL WEED-NO-MORE

The Original Butyl Ester of D.D.T.

The Farm-Tested Weed Killer

Get all the facts on this new farm weapon today!

Wood-No-More controls mustards, sunflower, cocklebur, bindweed, Canada thistle, hoary cross, buckbrush, and other weeds. Weed-No-More increases your yield, and helps improve quality. Weed-No-More, by killing and controlling weeds, reduces loss of soil moisture and fertility.

This new farm weapon makes weed control easier, cheaper, and more effective than has heretofore been possible in growing grain crops and in many other farm areas where broad-leaf weeds are a problem.

Now! Concentrated Low-Ballage Spraying

New spraying method developed by Sherwin-Williams Research uses little as 2 gallons of water per acre! See your dealer for complete information.
