### Reception at Old Lincoln County Court House Well Attended

A large crowd of old timers gathered at Lincoln last Saturday to attend the reception given by State Historian George Curry and held at the old courthouse building, which is now the Lincoln Branch of the State Museum.

Mr. and Mrs. Wilbur Coe of Glenwood presented a very interesting outdoor program of music, with a specially dedicated song for each guest speaker. Mr. Will Robinson of Roswell presented the speakers. Governor and Mrs. Thomas J. Mabry, their son and family were in attendance. Governor Mabry addressed the gathering and highly praised the work of the historian and the transformation of the historic old building.

Ex-governor J. P. Hinkle spoke of Lincoln County of fifty years ago and recalled many amusing and historical events.

George Curry, whose inauguration as governor of the territory of New Mexico, took place the 15th of August, 1907 in Santa Fe, welcomed the guests; related interesting happenings in his military and political career and expressed his pride and pleasure in his work as State Historian.

Flowers, received from well-wishers over the county and state were attractively arranged in the beautiful old building.

A number of ladies of the county assisted with the serving of ice cream cake and punch to the guests.

### Capitan Methodist Church

Rev. F. J. Johnston, Pastor

In a recent paper there appeared (S.P.M. column) an article in which reference was made to the Presbyterian, Methodist, Congregational, Baptist, Catholic or what have you, churches and spoke of them as different religions. Most any one ought to know that this is a false statement. For all these churches belong to the same religion. They may have varied orders of public worship and may be trying to emphasize different phases of the Christian religion but basically they are all one in Christ. "Now are ye the body of Christ and members in particular." I Cor 12:27. Partly because of these different emphases they have been called by different names but let no earnest Christian stumble over a name. A rose would be just as sweet if known under any other name. It is in this all inclusive spirit that I announce the celebration of the Sacrament in our church next Sunday at 11 A. M. It is the Lord's Table. Jesus asked all of His followers to do this in remembrance of Him. Church members are under solemn vows to present themselves. Other believers are as welcome as the sun light, to join us. Nay further, as a brother I entreat you. Be sure that we will be delighted to have your fellowship. Please help make this a great Memorial of Him.

Rev. and Mrs. L. S. Markam of Claunch were visitors in town on Wednesday.

Mr. Roy Harmon has returned to his duties at the local postoffice after a few days absence due to a leg injury.

Rev. W. Otho Mills left today for a visit to his family in Alamosa, Colorado.

### School Notes

Mr. and Mrs. Omer Spurlock are absent from their classrooms this week, they were called to Rector, Arkansas due to the illness of Mrs. Spurlock's mother. Mrs. Phillip Helek is teaching in the primary room in the absence of Mrs. Spurlock and Rev. Howard Pitts has taken over Mr. Spurlock's classes.

The high school had ten pupils to enroll Monday morning, including Charles Maxwell that went to school in Claunch last year. He is entering here as a Junior, which makes twenty-nine enrolled in the junior class. This however does not come up with the Sophomore class which now has thirty-four.

The typing class has ten new typewriters, which replaces machines that were from 15 to 20 years old, but that had to be used due to the fact that it was not possible to get machines. This class was so large that it had to be divided so we could have enough machines, to go around.

The first grade room will have the small desks soon, taking the place of the small chairs and the table that have been used, this room also is running over with pupils.

A large turn-out of enthusiastic boys are out for football practice this season. Coaches Heick and Shaw have held daily work-outs and are well pleased with this year's prospective team.

The football boys hope that all the new equipment will be here for the first game, which is Friday September 12th, we will have the best equipment in the history of the school, and we expect to have some good results to show the public in our games. The support of all the people of the town should be given if we are to have the kind of a team we would like to see in Carrizozo.

The regular Pack Meeting of the Cub Scouts was held last Wednesday afternoon. It was an exciting meeting for the Cubs, it being the day of their Soap Box Derby. There were four contestants, and the entries had made their Soap Box Cars. Their greatest problem was getting wheels to put on their cars. One car was disabled before the Derby got started, and was unable to compete. The Derby was held on the hill just West of Capitan and all traffic was held up for the Big Event. Wallace Ferguson was the winner of the Derby. Other contestants were Garth Hyde, Arthur Hawkins and Bobby Eshom, though Bobby's car was the one which was disabled before the race, he made an effort, and we wish him better luck next time. The Derby was well attended by the people of Capitan.

**Work Is Good**

**LESSON TEXT FOR AUGUST 31**—Proverbs 6:9-11; 18-9; 24:30-32; Ecclesiastes 3:12.  
**MEMORY SELECTION**—Whatever thy hand findeth to do, do it with thy might.—Ecclesiastes 9:10.  
**EDITOR'S NOTE:** Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

By WILLIAM CULBERTSON, D. D.,  
Of The Moody Bible Institute, Chicago.

**WISE** indeed is that legislator who understands that there are two extremes to be avoided in dealing with the problems of the working man. The one extreme is that heartless, cruel exploitation of labor which grinds men to powder, which deals with individuals as chattel. The other extreme is to provide such an amount of free time for the individual that both his personal life and economic prosperity are in danger.

Work is good. It is well to keep in mind that before the fall man was commanded to tend the garden. Perhaps to some of us that command is not a command to work, because the evidences of sin in a cursed creation were not present!

Life without purpose, life without activity for good, would be vain and actually intolerable.

I. An Illustration of Prudence and a Warning Against Indolence (Prov. 6:11; 18:9).

**THE** illustration from the creature world is apt. Ants, as this scripture states, have no overseer, and yet they are diligent in providing for the time of need.

It would seem as though they are constantly active in caring for present and future needs. In Palestine, where they may be active throughout the year, there is still the need of stored provisions for the rainy season, and so it is true that the ant gathers food in the harvest for future need.

Anyone who is tempted to be indolent would be wise to consider the ways of the ant, and to manifest as much concern for present and future needs.

The sluggard is described as one asleep, as one who is never satisfied, but constantly wants more slumber. Such folding of the hands, such indolence, brings poverty, and that poverty comes as a robber.

Indolence is not mere passivity. The man who fails to work is not guilty of omitting to do what he should do, but he is actually a robber of society. There is an active element involved in indolence; not only has the man failed to contribute, but, in addition, the good that he might have done has remained undone. The sluggard is therefore a brother to the destroyer (Prov. 18:13).

II. An Illustration of Indolence and a Lesson in Prudence (Prov. 24:30-32).

**IT** IS striking that the Word of God presents the ant as the illustration of prudence, but when it comes to an illustration of indolence it directs our attention to man.

The illustration is that of the man who is lazy, who is void of understanding. The Preacher visits him. Going to his field and vineyard, he finds it grown over with thorns, covered with weeds, and the stone wall broken down.

Instead of citing the particular lessons learned, the Preacher simply observes that he looked on, thought deeply, and received instruction. Perhaps the best antidote to laziness is to see it in its inception. The squalid conditions, the inability to cope with emergencies that we normally see in the life of the man who wants only ease are sufficient to warn most of us against it.

Entirely apart from the dignity of labor, the homely recompense of being able to meet our own needs is the compensation of self-respect that initiative and resourcefulness bring. May we have a higher goal as we labor than merely providing for our own needs, though this is certainly important. Beyond it, of course, is the ability to help others also (cf. Eph. 4:22).

III. A God-Given Reward for Labor (Eccles. 5:12).

**ONE** of the great compensations of faithful labor is sleep. This passage speaks of the sleep of the laboring man as sweet. When as Christians we have fulfilled our duty, when we have given an honest day's work, the recompense of the Lord is success from labor.

The great stress of the Word of God is similarly on the man in authority doing that which is right for those who labor under him, and on the laborer, to be worthy of his hire. Thus does the Bible guarantee a cordial and happy relationship between employer and employee. When either party departs from biblical standards, chaos results.

Here is a plan as up-to-date as the present hour, as workable as the most precise mechanical device ever made. All that is necessary is that the Word of God be followed.

**HOUSEHOLD MEMOS**

**Pickles, Relishes, Jams Satisfy Taste Needs During Meals**

Late-in-season grapes are ideal for use as preserves, a jam-like product which gives a true lift to fall and winter menus. A true conserve contains raisins or nuts, or both, but they may be omitted.

Even though most of us like simple meals, well cooked and attractively served,

there's an almost universal hunger for something tart or a bit of a sweet that we look for in addition to the basic foods.

This may take the form of a colorful tomato relish, a crisp green pickle, or a thick sweet jam or conserve. These accompaniments are often the finishing, "polished" touches to a meal that make the difference between a success or a failure in the food line.

Now that sugar is plentiful, we can indulge ourselves a bit in the way of sweet fruit mixtures. Pickles and other relishes don't require much sweetening, and there's enough in the gardens and on the markets to make our shelves both bulge and sparkle with other goodies.

Think of sandwiches and you immediately remember how good pickles are with them. Then, too, you can use them with meats, in dressings and sauces.

- Bread and Butter Chops.**  
3 quarts sliced cucumbers  
3 onions, sliced  
5 1/2 cups elder vinegar  
3 cups brown sugar  
1 pod hot red pepper  
1 teaspoon cumin  
1/2 teaspoon ginger  
2 tablespoons mustard seed  
1 teaspoon turmeric  
1/2 teaspoon celery seed  
1 piece horseradish

Soak the cucumbers and onions (separately) for 5 to 10 hours in brine, made by dissolving 1/2 gallon of cool water.

- Bread and Butter Chops (continued):**  
Drain well. Add onions, 2 1/2 cups vinegar and 2 1/2 cups of water to the cucumbers. Simmer about 15 minutes. Drain; discard liquid in which scalded. Make syrup by boiling the sugar and spices with 3 cups of vinegar and 1 cup water for 5 minutes. Pack well drained cucumbers and onions in hot jars. Cover with boiling syrup and seal at once.

This next is a variation of chili sauce that has seasonings you'll like. It has the same thickness as chili sauce when you have finished cooking it.

- Peruvian Sauce.**  
24 ripe tomatoes  
3 large onions  
3 green peppers  
1 pod hot pepper  
2 large cucumbers  
4 tart apples  
3 cups brown sugar  
1 clove garlic  
1 tablespoon salt  
1 tablespoon ground allspice  
1 tablespoon mustard seed  
1 teaspoon cinnamon  
3 cups vinegar

**LYNN SAYS:**  
Use fragrantly for breakfast.

When apples are in season during the fall and winter, serve the family apple-spice pancakes. Add 1 cup chopped apples to your pancake batter and serve them dusted with a mixture of 1/2 cup of sugar and 2 tablespoons of cinnamon.

One cup of minced ham, cooked pork sausage meat or roast beef also may be folded into pancake batter.

**LYNN CHAMBERS' MENU**

- Bolled Smoked Pork Shoulder
- Mustard Sauce Baked Potatoes
- Pureed Squash
- Tomato-Coleslaw Salad
- Beverage
- Baked Pears with Honey

Scald and skin tomatoes, skin onions, remove seeds from peppers, pare cucumbers and discard their seeds if very large, pare and core apples. Run vegetables and apples through the food chopper. Add sugar and vinegar and cook until thick. Add spices and vinegar and continue cooking until of the same consistency as chili sauce. Pour, while boiling hot, into hot sterile jars. Seal at once.

- Pear Pickles.**  
1 gallon pears  
6 cups sugar  
2 cups water  
4 cups vinegar  
2 pieces of ginger root  
2 sticks of cinnamon  
2 tablespoons whole allspice  
1 tablespoon cloves

Select firm pears. Pare and leave small ones whole. Halve or quarter the larger ones. Boil for 20 minutes in clear water. Boil sugar, water, vinegar and spices (tied in a bag) for 10 minutes. Add pears and let stand overnight. Cook until tender. Pack pears into hot jars. Cook syrup until thick and pour over pears. Process for 5 minutes in a hot water bath.

- Peach Chutney.**  
1 gallon peaches  
2 onions  
1 clove garlic  
1 cup seeded raisins  
5 cups vinegar  
1/4 cup white mustard seed  
2 tablespoons ground ginger  
1 pod hot red pepper  
1 cup brown sugar

Chop peeled peaches, onions, garlic and raisins. Add 1/2 of the vinegar. Cook until soft. Add all other ingredients. Cook until thick. Pour into hot jars and seal immediately.

The above chutney recipe may also be used with apples, pears or plums.

Make your butter go further by having a luscious spread for the bread or an accompaniment to the meat course with relishes and other goodies made new while produce is still available.

- Grape Conserve.**  
2 quarts stemmed grapes  
5 cups sugar  
1 cup nut meats  
1/2 teaspoon salt

For the Concord type grapes, press to remove pulps from skins. Run skins through the food chopper, then boil for 20 minutes in just enough water to prevent sticking. Cook pulps down in their own juice until soft. Rub through colander to remove seeds. Combine skins and pulps with sugar and boil rapidly until thick. Add nuts and salt. Pour, boiling hot, into sterile jars and seal at once.

- Plum Conserve.**  
2 quarts seeded plums  
1 lemon  
1/2 teaspoon salt  
1 large stick cinnamon  
6 cups sugar  
1 cup raisins  
1 cup nut meats

Use firm-fleshed plums. Cook until soft with pulp and grated lemon rind, salt and cinnamon. Add sugar and raisins. Cook until thick. Remove cinnamon and add nuts. Pour boiling hot into hot jars and seal immediately.

Do you like a sweet, southern type pancake? Fold in 2 tablespoons of brown sugar with 1/2 cup chopped pecan meats to the batter before baking. Use your leftover rice in pancake batter. BACKWARD GLANCES

40 YEARS AGO  
1907 Capitan News

The heavy rains of the past week have played sad havoc with the roadbed of the Southwestern in the Tularosa-Three Rivers country and as a consequence, the train service is slightly out of joint.

Street work has been in progress this week under the supervision of Supervisor Booth. The town people subscribed to have side walks and crossings, and now they have them. Geese and ducks are not the only bipeds who can now cross the streets—though each family may be represented daily.

Capitan, to a stranger, must present the appearance of being only a hamlet of little importance, yet if that same stranger should remain a few days and see the wagon loads of goods that are hauled away by farmers and ranchmen he would change his opinion, at least as to its capacity for doing business.

The prize, a box of cigars, to the handsomest editor or lawyer at the editors and lawyers meet in Roswell, was awarded to J. D. Whalen of the Artesia Advocate.

Mrs. Gussie Johnson has returned from a visit to her mother, who resides in California.

Lieutenant T. A. Spencer, Jr., has gone to Roswell where he has accepted a position as instructor of Military tactics in the Institute.

Senator Perry Sears and wife were in town last Tuesday from Capitan.

Mrs. Sabino Vidaurri and son Lucio left for Albuquerque Sunday they were accompanied by Ramon St. John, Jr., and Mrs. Pola Pacheco, of Albuquerque.

Miss Tressie Davis, teacher of Home Economics in the local school, arrived last Saturday from Missouri and will start her classes the 6th of September.

RIDING CLASSES FOR GIRLS AND BOYS AT STATE FAIR

The riding class for boys and girls under 16 years of age promises to be an interesting feature of this year's New Mexico State Fair horse show, according to Leon H. Harms, fair manager.

Since distribution of the fair's premium book a large number of entries in this children's riding class have been received, Harms said. So many of these have come in that Jack Dean, horse show superintendent, is considering putting the young horsemen and women through their paces in age groups. Judging will be on horsemanship only. Awards in the class are \$20, \$15, \$10 and \$5 for the four placings.

Daily Vitamin Source—Home Canned Tomatoes

—Photo courtesy Ball Bros. Co.

Tomatoes, really a fruit but more often regarded and used as a vegetable, are easy to can at home, and yet few people ever have enough to last through the winter until the next crop comes along. To can, select fresh, firm, sound ripe tomatoes and wash carefully. Scald in small quantities. Using a cheesecloth square to hold the tomatoes and dipping them into hot water is an easy and effective way of scalding.

Skin, pack and process as quickly as possible after scalding. Letting the tomatoes stand after scalding is likely to cause flat

sour. If exposed to air after skinning they also lose food value. Tomatoes are an important source of Vitamin C (ascorbic acid) which is needed in daily diet for good health. Always cut out the hard cores and green spots before canning and avoid canning tomatoes from which decayed spots and fungus growths have been removed.

The Ball Blue Book recipe for Regular Pack directs that the prepared tomatoes be packed solidly into hot jars. Add one teaspoon salt to each quart. Do not add any liquid. Process 45 minutes in

hot water bath. Or, another method given is to boil the prepared tomatoes five minutes, pour into hot jars, add one teaspoon salt to each quart and process 20 minutes in hot water bath.

To can tomatoes whole, prepare them as above, being careful not to cut into the seed pod when removing the core. Pack into hot jars as closely as possible without crushing. Add one teaspoon salt to each quart, and cover with hot tomato juice or puree. Process 35 minutes in hot water bath.

# Morgan Horse "American as America"

## Government Runs Unique Breeding Farm in Vermont

By BAUKHAGE  
News Analyst and Commentator.

WASHINGTON, D. C.—Some time ago the world was startled to learn from Pravda, the official communist party newspaper in Moscow, that it was a Russian who discovered "wireless" (as radio was called in its youth), and as if that weren't enough, it was announced later by the same authority that the electric light, which poor Thomas Edison certainly thought he had something to do with, was likewise a Russian invention.

If I ever read, as some day I fear I shall, that ice-cream sodas and hot-dogs were first discovered on a pleasant afternoon by some mysterious Muscovite as he sat dreaming on his back steppes, I shall announce that borsch and vodka are American products and that the Volga boatmen were simply a prodigal local of the CIO maritime union.

Meanwhile, however, I am reminded by the department of agriculture that one thing which is as American as America and which no foreigner had better try to appropriate as a home-grown product, is the Morgan horse.

Baukhage

able of the United States Morgan horse farm which covers about 1,000 acres of rolling, wooded country two miles north of Middlebury, Vt.

The original farm of 400 acres was presented to the United States department of agriculture by Joseph Battell, Colonel Battell had long been an admirer and breeder of Morgan horses, and had founded the American Morgan register. The farm was established in 1897. The area was increased by an additional gift of about 35 acres by Colonel Battell in 1906, and by purchase of about 530 acres from Middlebury College in 1917. The land, underlain with limestone, is well adapted to the production of horses.

In the selection of foundation breeding stock, and in planning subsequent matings, emphasis was placed upon size and quality, and ability to perform the three gait, walk, trot and canter. These points

continue to be emphasized. Also, every effort has been made to preserve adequate muscling and depth of body and to preserve and enhance desirable temperament.

The stocky stallion, original of the post-mortem effigy was named for its owner, a singing schoolmaster, was foaled in 1793 and died in 1831. He (I mean the stallion not the schoolmaster) had a romantic career and he is the progenitor of the breed, which as the department of agriculture says, is one of the few breeds of horses developed in the United States. Justin was a "small, active animal of great power and endurance, with the reputation of being able to outwalk, outrun, and outpull any other horse in Vermont and the neighboring states."

He had the power to transmit these qualities, says the department, to his three known sons and the United States government is doing its share to perpetuate the characteristics for which his ilk is known: "beauty, easy keeping, soundness, endurance, and spirit coupled with gentleness."

The first time I ever went to Vermont I was attracted to these plucky little horses. Later I learned more about the Morgan horse. He weighs less than 1,000 pounds, he is not over 14 hands high, round-barreled, with powerful chest and leg muscles, a proud head and a stout heart. He has done a lot to develop the state of Vermont and his adventures have carried him far afield. In a fictionalized but remarkably accurate story of "Justin I," Marguerite Henry tells how the boy Joel, who "genited" Justin as a colt, later lost track of him and finally found him again and how Joel, in his cavalry uniform with a sprig of evergreen in his helmet, sat proudly on his diminutive mount when President Monroe re-

viewed the Green Mountain boys when they came back from the War of 1812.

The author has Joel say about Justin afterward: "He was just a little work horse that cleared the fields and helped Vermont grow 'up. Come to think of it, he's like us. He's American... that's what he is, American."

The Morgan horse helped other states and territories grow up, too, for their equine brotherhood went West with the emigrating farmers, and more than one American soldier was proudly mounted on a Morgan as he went into battle. General Custer rode off on a Morgan horse when he went out to fight the Indians, a whole regiment of cavalry had Morgan mounts in the Civil War.

### Breeding Program Is Under Way

Now, "The Morgan horse breeders' Dr. McFee of the animal husbandry division of the department of agriculture told me, "have given more attention to the traits desirable in a riding horse." (Forty descendants of Justin became famous as trotters. Some of you remember such names as Ethan Allen, Black Hawk and Dan Patch.)

At the Morgan farm today usually about forty-five horses are under test.

According to the official description, the breeding program there calls for "the measurement of each youngster at one year of age, at two years, and at three years. All are trained under saddle and in harness and are put through controlled performance and endurance trials when about three years old. The data thus obtained form the permanent records of the individuals. They are used also in studies of sire and dam inheritance and as criteria for formulation of the station's breeding program. For the tests of three-year olds the department's horse specialists have devised specific trials to measure the walking and trotting gaits and the horses' endurance in harness and under the saddle."

Always versatile, the Morgan was as chippy when he went to the meeting house on Sunday pulling the sarray with the fringes on the top as it was weekdays when it could drag a log in the sawmill which often took a team of his big brothers to hudge. And when buggies are still used, you'll often find a Morgan between the shafts. He is used on the trail, too, for his feris these days seems to be under the saddle.

The Morgan horses have found homes far from the shadow of their native Green Mountains and today the stock probably is increasing more rapidly in California than anywhere in the East. I regret to say that on my last trip to Vermont, this summer, though mighty Mount Mansfield looked up at the heavens with the same stern profile that it did when I first painted, pack-laden to its top, the maple-sugar tasted as good (though it cost too much), the mist still held the peak of Killington as gently as ever in its graceful fingers. But I missed the quick tattoo of those small strong hooves on the hard highways, and the silhouette of an arched neck against the sky above a mountain pasture.

"I'm glad that Uncle Sam is doing his part, in the shadow of Justin's statue, to perpetuate the breed that is "just like us," as Joel said:—American.

### NO THUMB ON SCALES

## Extend Prepackaging to Meat

That old caricature of the butcher resting his thumb on the scales as he weighs out the meat soon will vanish completely from the American scene if the trend toward prepackaging of fresh cut meats continues at its present pace.

Approximately 180 stores across the nation currently are operating their meat departments on that basis, and their cash registers are recording ample proof that attractively cut meat wrapped in cellophane and placed in display cases sells itself as efficiently as a butcher's sales talk could.

With the popular cuts of meat in weights most in demand placed in open-top refrigerated cases, the housewife can shop at her leisure

HOW TO CELEBRATE A BIRTHDAY . . . Triplets Maureen, Michael and Michele Yosco of Flushing, N. Y., got all dressed up to celebrate their first birthday. They also had three lovely cakes. Put them all together—clean clothes, gooey cake and inquisitive one-year-olds—and they spell washday for mother.

## Rioting Flares in India; British Get Stern Rule

### INDEPENDENCE:

#### India Riots

During the two days before fateful India became a land of free men, more than 200 died in a bloody orgy of violence and rioting in the huge northern province of Punjab.

Lahore, the capital, was the center of the disturbance, but fierce fighting also took place throughout the west and east Punjab countryside. Wide sections of Lahore were aflame.

This took place on the eve of India's independence day, just before the Indian constituent assembly sat down to function as a free governing body.

Cause of the rioting, incited, as always, by terrorists, was the bitter disagreement arising out of the partitioning of India into two separate zones—one for Hindus, the other for Moslems.

In New Delhi, the independence day ceremonial program began with two minutes of silence for those who died in the fight for freedom which was finally achieved through amicable negotiations with the British.

### IRON HAND:

#### Britannia Ruled

It well may be true that "Britons never, never, never shall be slaves," as the anthem has it, but in view of Prime Minister Clement Attlee's new emergency action giving the government stern powers over British industry and labor, many in the islands are now harboring serious doubts about that.

The emergency bill, which Winston Churchill charged invoked such restraints as the government has never before imposed except in time of war, has been passed by both houses of parliament and now—for better or worse—is law of the land.

Designed to bring Britain out of her deadly economic slump, the bill empowers the government to command labor and industry to do practically anything and everything, if it is in the national interest.

Rallying cry of the British conservatives, led by Churchill, is "dictatorship."

Anthony Eden, former foreign secretary, got into the fight by asking that parliament cut short a planned vacation so the members can be on hand to examine the measure which the government will order.

"The house cannot be an absent spectator while the government does a split over the ever-widening abyss," said Eden, also a member of the Conservative party.

### CO-OP INQUIRY:

#### Two Questions

Although the public is not too well informed about it, one of the most important and fiercely waged domestic post war battles is that being fought between private business and cooperative enterprises.

Crux of the feud is the fact that cooperatives are tax-exempt, while private business is not. From this evolve two basic questions:

1. What effect does tax-exemption have upon growth of the cooperative?
2. Is tax-exemption a factor of discrimination against private business?

A house small business subcommittee has begun an attempt to find the answers with an investigation of the cooperative community enterprise at Greentown, Md. In the Greentown case, business groups have charged that the government has aided the cooperative in keeping private business out of the development area.

This hearing, as well as others on the west coast, is being conducted by Rep. B. Walter Riehlman (Rep., N. Y.) as acting chairman of the subcommittee.

In view of the theory that taxes will remain high, compared with the past, for at least 50 years, according to economists, the tax-exemption feature of co-ops' existence will grow increasingly important.

### RED SAUCERS:

#### Soviets Curious

Those flying disks were fun while they lasted, but by this time everybody has practically forgotten them.

Well, almost everybody. Latest report having to do with the aerial chinaware is that Soviet agents in the United States have been ordered to solve the mystery of the disks. Presupposing the report to be true, it means, at least, that the saucers were not of Russian origin.

Soviet espionage agents here are said to have been advised that the Kremlin believes the flying saucers might have some connection with army experiments on methods of knocking out enemy radar.

### Tourist Trade

Operating on the highly plausible theory that left-over land mines are not only unhealthy for wandering tourists but are also bad for business, the French ministry of reconstruction is working hard to clear all possible danger spots in former fighting areas around France. While the French admit that erstwhile battle zones might attract heavy tourist trade, they are not taking any chances.

OAK RIDGE DIRECTOR . . . Emerging as a key figure in the U. S. atomic energy program is John G. Franklin, recently appointed manager of the atomic energy commission's Oak Ridge, Tenn., division.

PAIR OF BABES . . . When this couple of Babes got together, the talk naturally turned to sports—mainly because one is Babe Ruth, king of swat; and the other is Babe Didrikson Zaharias.

ACCUSES BRITISH . . . The Rev. Stanley Grawel, 29, former Methodist minister at Worcester, Mass., sailed as mess boy on Jewish immigrant ship "Exodus 1947." He accused British naval forces of ramming the ship 14 times.

RITUAL DANCE . . . Historic Indian ceremonial dances of the Smoki Indians are performed by an organization of townspeople at Prescott, Ark., to perpetuate lore of the region.

The counties entered to September 2 were Bernalillo, Colfax, Dona Ana, Luna, Otero, Roosevelt, Santa Fe, Sierra, Socorro, San Juan, Torrance and Valencia.

The county exhibit section in Agricultural Hall has been completely remodeled with installation of permanent display cases for several counties.
