General Hurley's Address Delivered On Schedule

Last Wednesday evening at the court room of the local court house General Patrick J. Hurley and Mr. Gerald D. Champion, Chairman of the State Republican Central Committee addressed those who braved the storm and were in attendance. Highlights and excerpts of General Hurley's address were as follows: "New Mexico is on the threshold of an area of great development of its natural resources. I favor the development of resources of New Mexico under the American system of free enterprise."

New Mexico has not been developed industrially. We should not only develop new industries within the state. . . we should bring new industries to the state.

New Mexico has been the most neglected State in the United States. Its schools and roads have been sadly neglected. I am in favor of adequate Federal road and school appropriations for New Mexico.

New Mexico's Social Security program is a political football. The cost of operating Social Security in New Mexico is greater and the benefits that go to the people is less than in our Republican sister state of Colorado. The entire program should be revised to give less money to the politicians and more relief to the people.

I am in favor of flood control. I am in favor of soil conservation. I am in favor of improvements that will guarantee the rights of water users every place in the state of New Mexico."

ENCHILADA SUPPER SERVED BY LOCAL GIRL SCOUTS

Quite a sizable crowd enjoyed the enchilada supper served by the Local Girl Scouts last Saturday evening at the Woman's Club Building.

Scout leaders assisted the girls in preparation and serving of the enchiladas.

OUR PUBLIC BUSINESS (New Mexico Tax Bulletin) The Federal Budget

President Truman's proposed budget for 1948-49 estimates expenditures at \$39.7 billion, with receipts estimated at \$44.5 billion. Of the receipts 52 per cent would come from individual taxes, 23 per cent from corporation taxes, 17 per cent from excise taxes, and 8 per cent from other sources. The expenditures would be for purposes as follows: Defense, 28 per cent; international aid, 18 per cent; veterans, 15 per cent; interest on debt, 13.2 per cent; social security, 5 per cent; tax refunds, 5 per cent; transportation and communication, 4.1 per cent; development of natural resources, 4.1 per cent; general government, 2.9 per cent; agriculture, 2.3 per cent; and miscellaneous, 2.4 per cent. Of the surplus \$4.8 billion would be used to apply on the retirement of the national debt. For the year ending June 30, 1948, it is estimated that the income will be \$45.2 billion, and the expenditures \$37.7 billion, leaving a surplus of \$7.5 billion. On June 30, 1948, it is estimated that the national debt (Continued on Page 8)

Cattlemen Convention Dates Announced

More than three thousand cattlemen representing every part of New Mexico and many states throughout the west are expected to attend the 34th annual Convention of the New Mexico Cattle Growers Association in Albuquerque March 7, 8 and 9 according to George A. Godfrey, Anamias President. "Advance hotel and auto court reservations already made point to an all time record attendance," he said.

"Cattle growers of the southwest are greatly concerned relative to several problems now facing the industry, and this combined with the freedom of postwar travel points to a convention which will make Albuquerque a real cow-town in the second week in March. The organization now has 4,400 members."

"The convention has outgrown entertainment facilities, in Albuquerque," Godfrey stated, "and it has become necessary for us to withgo the annual banquet. This will be replaced, however, with a dance and floor show the evening of Mar. 8 and a Cowboy Dance the following night."

"The livestock industry of the west has become dependent upon organized action and service to preserve and develop this basic economic resource," Godfrey stated. "Our group is endeavoring to meet all problems with efforts to be of assistance not only to the industry but to the general welfare of our state and nation."

MR. TOM JAMES REPORTED SOMEWHAT IMPROVED

FIRE TUESDAY NIGHT AT PLAZA HOTEL

Last Tuesday evening about 9:30 the fire department was called to the Plaza Hotel where an overheated flue had caused the ceiling to ignite. Quick work was made of the fire and the damage was slight.

Senator L. P. Hall and daughter Martha Sue were visitors in town Monday.

Population Forecast In U. S. 1945-1975

"Forecasts of the Population of the United States, 1945-1975", soon to be published by the Bureau of the Census, can now be ordered from the Superintendent of Documents, Washington 25, D. C. for delivery as soon as published. The basic study, of essential interest to anyone who has to work with future trends, can be obtained for 45 cents a copy.

The projections of America's population included in this report were prepared by the Scripps Foundation for Research in Population Problems and are generally regarded as the standard statistical series on this vital subject. The series was begun under the sponsorship of the National Resources Planning Board and has now been revised with the collaboration of the Bureau of the Census.

"There has been an extensive public demand for revisions that would reflect the unanticipated demographic effects of the war. The revisions presented here were prepared about two years ago, but the report contains a full statement of the assumptions and methods used to enable technicians to make what ever adjustments are required by current developments."

Sets of the forecasts are presented according to a wide variety of assumptions to 1975, with some sets being carried as far as the year 2000. The figures are not limited to the total size of the population but include much detail on color and nativity, sex and age. Charts and graphs aid the reader to get a summary view of the important trends.

The present addition, prepared by P. K. Whelpton, Associate Director of the Scripps Foundation, assisted by Hope Tisdale Eldridge and Jacob S. Siegel of the Bureau of the Census, contains a greatly expanded chapter on "Implications of the expected trends in population growth and composition." Anyone who has to plan programs and policies at the national level will be interested in these implications. Public administration, private utilities, manufacturing, marketing, employment, education, housing, conservation of natural resources, public health, and social security are among the fields affected.

Rev. Jesse Allen of the local Baptist Church attended the pastors conference held in Alamogordo on Monday and Tuesday of this week.

CORONA NEWS

By Mrs. A. E. Mulkey

Corona Woman's Extension Club

The Corona Women's Extension Club met last Thursday, January 22, at the home of Mrs. W. S. Dishman. Mrs. I. L. Burgess and Mrs. Cliff Switzer were assistant hostesses. The newly elected officers were installed during the business meeting with Mrs. Frank SuKelmire, Jr., in charge of the installation ceremonies.

A delicious covered dish luncheon was enjoyed at the noon hour. Members were seated at tables centered with lovely salt plants, called "Prosperity Plants". Following the luncheon a Parliamentary drill was held by Mrs. H. L. Hancock, Parliamentarian.

Mr. Carl P. Radcliff, County Agent, had charge of the afternoon program. He gave a most interesting talk on "Good Citizenship". The new officers are: President, Mrs. Chancey Thomson; Vice-President, Mrs. Bill Keelin; Secretary, Mrs. George Davis; Treasurer, Miss Donnie Franks; and Parliamentarian Mrs. H. L. Hancock.

Mr. and Mrs. Corbin Hester were business visitors in Roswell last week.

Mr. and Mrs. Fred Lackey have a new son, born January 22.

Eddie Knight, son of Mr. and Mrs. Kenneth Knight, was out of school all last week because of illness.

Mrs. Bill Wilson has been ill for several weeks. Mrs. Floyd McKibben was also on the sick list.

School in Corona was closed the first of the week due to very bad weather.

Mr. and Mrs. Jesse Wade, Mr. and Mrs. Jack Weathersbee, and Mr. and Mrs. W. C. Stiggins made a business and sight-seeing trip down to old Mexico last week. It is an interesting country down there, but the women say they prefer New Mexico to live, and all were glad to get back home.

PICKETT TO KEYNOTE OKLAHOMA CONVENTION

New Mexico was signally honored this week by the selection of Ingram B. Pickett, organizer of New Mexico's Young Democrat clubs, to keynote speech at the convention of the League of Young Democrats of Oklahoma in McAlester on Feb. 21.

In extending the invitation to Mr. Pickett, President Buck Cartwright said, "We have selected you because of the almost phenomenal record you have compiled in service to the party through your organizing efforts and because of the tremendous impression your physique, energy, loyalty and ability have made upon us. We were especially pleased at the reaction to your talk given before the convention of Young Democrats in Dallas, Texas, last year and our national leaders at that time remarked that your forceful personality was a distinct asset to our party."

The Oklahoma convention is expected to draw more than 3,000 delegates representing the 25,000 members of the League in that state. The address at the annual banquet on Feb. 20 will be given by Gael Sullivan Executive director of the National Democratic party who will be introduced by Roy G. Baker, National president of the Young Democratic Clubs of America.

ENTERS ENMO

Charles Wilson, son of E. W. Wilson of Ancho, is among the new students registering at Eastern New Mexico College for the spring semester. Wilson formerly attended New Mexico A & M. He is a sophomore majoring in business administration.

Carrizozo Hit By Cold Wave

On Monday of this week a storm hit, increasing to blizzard proportions on Tuesday, when winds reached a reported velocity of 60 miles an hour, driving sand and snow before it.

Business was practically at a standstill on Tuesday with several establishments remaining closed.

Schools closed on Tuesday and Wednesday. Thursday attendance was low due to failure of some of the buses to arrive.

Gas pressure on the city lines became very low adding to the discomfort.

In a large percentage of homes water pipes were frozen, in some instances, pipes or fixtures broken.

Snow fell intermittently through Wednesday but yesterday it had moderated considerably.

S. P. Railway officials reported some signal and communication apparatus failure between here and Tucuman. Several east bound freight trains have been held in the local yards for several hours but passenger service continues as fast as possible, under the prevailing conditions.

ENGAGEMENT ANNOUNCED

Dr. and Mrs. V. D. Leo of Nilo, Hawaii, announce the engagement and approaching marriage of their daughter Rita to Lt. (J. G.) Charles N. Pruitt, M. C., U. S. N. Miss Leo is of an old, established Hawaiian family. She was educated in Hawaii and finished school at the University of Hawaii in 1941. She was a member of Alpha Delta sorority. She is visiting friends and relatives in San Francisco while she chooses her trousseau, before returning to the Islands with her parents, Dr. and Mrs. Leo.

Lt. Pruitt is the son of Mrs. Pearl A. Pruitt of Capitan and was educated in New Mexico and the east. He is now with the U. S. Navy Medical department, and is stationed on the West Coast. Lt. Pruitt and his bride-to-be met in Hawaii in 1944 while he was stationed at Pearl Harbor.

The wedding will take place in Hawaii in the late summer. —Contributed.

SCRIPTURE: II Corinthians 5:20 to 6:10; Hebrews 11
DEVOTIONAL READING: Romans 12: 9-21

When We Work With God
Lesson for January 25, 1948

DR. E. STANLEY JONES was in Atlanta on one of his several visits, and some of us were asking him about his notable and unique experience as a missionary in the Orient. "If you had it all to go over, Dr. Jones, would you devote your life to the peoples of faraway Asia, or would you choose to live in America with its abundance of good things?" he was asked. Quick as a flash of lightning he replied: "If I had a thousand lives to give, they would all gladly go to the wistful souls of Asia."

Paul would have been heartened in the day that he wrote II Corinthians 5:20 to 6:10, and Romans 12:9-21, to have heard someone talk as Dr. Jones talked that afternoon, for in our lesson for Sunday, Paul is summoning every Christian to the highest possible commitment to the will of God as we go forth in the task to beseech all men to be reconciled unto God through Jesus Christ, who hath taken upon himself the iniquity of us all, "that we might be made the righteousness of God in him."

Thus we come to see the significance and the meaning of the memory verse for Sunday's lesson, "We are fellow workmen for God," I Corinthians 3:9.

PEOPLE WHO WORK WITH GOD READ Hebrews' 11th chapter for a picture of some of the noble souls who really worked with God, by faith, as the writer delights to put it.

Abraham, for example, "went out, not knowing whither he went," but when he came to the end of life's day, he was accounted the friend of God. Moses, "choosing rather to suffer affliction with the people of God, than to enjoy the pleasures of sin for a season, esteeming the reproach of Christ greater riches than the treasures of Egypt, endured as seeing him who is invisible."

HOW WE WORK WITH GOD READ again that eleventh chapter of Romans to discover how the men and women named there worked with God. Two words will quickly come to light — faith and obedience. They believed God, and they obeyed God. Junior boys and girls will do well to recall some of the heroes of history — men like Washington and Lincoln and Lee — and in every instance you will discover that they, too, believed God and obeyed God. Remember the story of Washington kneeling in prayer in the snow at Valley Forge!

We cannot work with God unless and until we believe and obey him. "Can we walk together except they be agreed?" You cannot please your earthly father unless you believe him and obey him.

GOOD WORKMEN ESSENTIAL WE COME now to the deeper implications of the lesson, revealed in II Corinthians 5:20 to 6:10: "We then, as workers together with him, beseech you also that ye receive not the grace of God in vain; but in all things approving ourselves in much patience, in afflictions, in distresses, in watchings, by kindness, by love unfeigned, by the power of God..."

Here is the acid test of doing the work of an ambassador of Christ — we must first be fully committed to him before we can persuade others to accept him as Saviour and Lord. We shall not have better homes and better churches until we first have better Christians. We shall not have better business until we first have better business men.

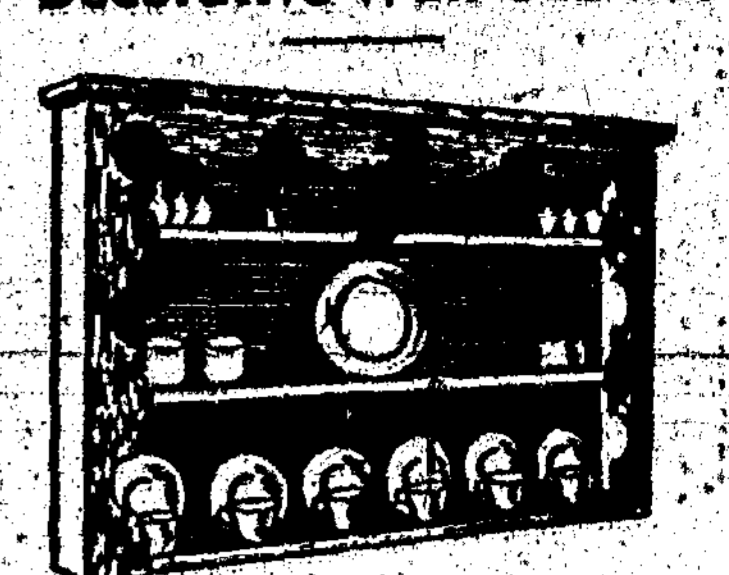

And the only way by which we become good workmen is through the redeeming, transforming grace of the Lord Jesus Christ. JOY OF WORKING WITH GOD WHY did Dr. E. Stanley Jones answer so quickly about giving a thousand lives to the benighted, wistful souls of Asia? Because he had discovered the unspeakable joy of working with God in reconciling men unto him. The largest, surest wages in this world is the experience of working for and with God. "What I kept, I lost; what I gave, I have."

Do you believe it? It is difficult to believe until you try it. Indeed, I would say that it is beyond all imagination to grasp the meaning of working with God. You have to take Christ at exactly what he meant when he said, "Come and see."

"When we walk with the Lord, in the light of his word, what a glory he sheds on our way!"

Heavy-Tusked Elephants Easy Prey to Hunters

As the tusks of an elephant grow throughout its life, many a male in Africa eventually develops a set so heavy that the animal has to place them in forks of trees at short intervals in order to rest its tired neck muscles, says Collier's.

Thereafter, these elephants, being unable to keep pace with their herds, lead solitary lives and become easy victims of ivory hunters.

STREAK OF IRISH

By GARTH R. SPENCER

Russ Van Hosen was late but feeling good, with the check from another car sale tucked in his pocket. He walked in at the back door. Pat was stirring something at the cupboard. She heard him, but didn't glance around.

right," he said, "why should I?" "I'm going back to work for Hal, if you want to know." A little stab went through Russ's heart. "Simply because of Gerlie Hale?"

Russ swallowed against the painful aching in his throat. What a fool! To think their little spat had mattered — as if every couple didn't have them during their first year.

It had begun this time as usual, with a quick sizzling flash of Pat's Irish temper. One of those brief flash-ups which usually ended with little damage done. Only this one hadn't ended yet; it was still dragging on. Well, let it drag!

Russ took out his billfold. It held three fives and a ten. He offered her the bills. Without looking at them Pat shook her head.

From Kirk's Sport Shop, Chicago. It contained a set of perfectly matched clubs. So that was it! That was why she had had Kirk stop there. To get a present — for him. All these months, Pat had been scripping on her clothes, pinching, saying—

"I don't know — he was somewhere around, I guess. Anyway, I had sold her the car."

Russ said nothing. He watched her back the car out onto the drive. Not until then did full realization come over him. He had held firm; he had won a moral victory. But Pat was gone.

"Don't honey me! For a half hour you've let me sit out there in the drive. In the rain! Waiting . . . for you to come out and get me. But you wouldn't. Oh, how I hate you! Instead you waited until I had to give in myself — humbling my pride —"

"Pat!" No answer. "Pat!" he called again. "Pat was coming down the stairway; she had on her hat and coat. She carried her bag in her hand.

Russ studied her face. She was bluffing, of course; threatening to leave. Well, two could bluff. "That's

"I can," Russ said humbly, "if you can overlook a streak of stubborn Dutch."

Shoes Require Special Care in Wet Weather. Shoes often suffer from wet weather. Once soaked they may never look as well or fit as comfortably unless they are properly dried and cared for.

Extension clothing specialists say that wet shoes should be taken off as soon as possible. Leather is weak when it's wet. Wearing wet shoes may pull them out of shape and cause breaks and other damage.

As the shoes dry, clean them with saddle soap. Follow this with a little sulfonated castor oil rubbed in by hand. This treatment keeps leather soft and pliable.

Leather soles can be made moisture resistant by setting the shoes in a pan of just enough warm oil to cover the soles. Let them stand in this 15 minutes, taking care not to get the heels in the oil, for oil rots rubber.

AROUND THE HOUSE

To keep order in the bathroom and prevent squabbles, assign wash cloths and towels of a certain color to each member of the family. Never change the color scheme, though.

To store a loaf of bread that has been cut, wrap it in waxed paper. A cloth absorbs moisture and may give the bread an "off" flavor.

If a dress pattern calls for ruffles or flounces, choose cheap material for them.

The suction attachment of an electric vacuum cleaner may be used for cleaning hot air registers.

Don't be disturbed if your baby does not grow as rapidly during his second year as he did during his first. A slowing down of baby's development during his second year is perfectly natural.

If buttonholes are worn or torn, or if the material around them is beginning to unravel, you may replace the worn section with a band of ribbon. Work new buttonholes. For more interest, you may make cuffs for your dress with the same kind of ribbon.

3 Unions Block Labor Peace—Refuse Wage Boost Already Accepted by 19 Other Railroad Unions!

The Brotherhood of Locomotive Engineers, Brotherhood of Locomotive Firemen and Engineers and the Switchmen's Union of North America, representing 125,000 railroad employees, have refused to accept the offer of the Railroads of a wage increase of 15 1/2 cents an hour. This is the same increase awarded 1,000,000 non-operating employees by an arbitration board in September, 1947. This is the same increase accepted by 175,000 conductors, trainmen and switchmen by agreement on November 14, 1947. Agreements have been made with 1,175,000 employees, represented by nineteen unions. But these three unions, representing only 125,000 men, are trying to get more. They are demanding also many new working rules not embraced in the settlement with the conductors and trainmen.

Incidentally, the Switchmen's Union of North America represents only about 7% of all railroad switchmen; the other 93% being represented by the Brotherhood of Railroad Trainmen and covered by the settlement with that union.

Strike Threat
The leaders of these three unions spread a strike ballot while negotiations were still in progress. This is not a secret vote but is taken by union leaders and votes are signed by the employees in the presence of union representatives.

When direct negotiations failed, the leaders of these three unions refused to join the railroads in asking the National Mediation Board to attempt to settle the dispute, but the Board took jurisdiction at the request of the carriers and has been earnestly attempting since November 24, 1947, to bring about a settlement. The Board on January 18, 1948, announced its inability to reach a mediation settlement. The leaders of the unions rejected the request of the Mediation Board to arbitrate. The railroads accepted.

What Now?
The Unions having refused to arbitrate, the Railway Labor Act provides for the appointment of a fact-finding board by the President.

The railroads feel it is due shippers, passengers, employees, stockholders, and the general public to know that throughout these negotiations and in mediation, they have not only exerted every effort to reach a fair and reasonable settlement, but they have also met every requirement of the Railway Labor Act respecting the negotiation, mediation, and arbitration of labor disputes.

It seems unthinkable that these three unions, representing less than 10 per cent of railroad

employees, and those among the highest paid, can successfully maintain the threat of a paralyzing strike against the interest of the entire country—and against 90 per cent of their fellow employees.

The threat of a strike cannot justify granting more favorable conditions to 125,000 employees than have already been put in effect for 1,175,000, nor will it alter the opposition of the railroads to unwarranted wage increases or to changes in working rules which are not justified.

A glance at the box shows what employees represented by the Engineers and Firemen make. They are among the highest paid in the ranks of labor in the United States, if not the highest.

Compare these wages with what you make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (prevail) and 1947. Also shown is what 1947 earnings would have been if the 15 1/2 cent per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.	1947 Actual Annual Earnings	1947 Actual Annual Earnings	1947 Average Annual Earnings with 15 1/2 cent per hour raise

BACKWARD GLANCES

FORTY YEARS AGO FROM 1908 CAPITAN NEWS

That agriculture is now far in the lead among the industries of New Mexico is shown by the December issue of the agricultural department's reporter. This report shows that according to the department's figures, which are far below the actual figures six crops yielded \$6,142,000. The six crops are: Corn—42,000 acres, yielding 29 bushels to the acre, at 72 cents a bushel, \$877,000. Wheat 46,000 acres, yielding 24 bushels to the acre, at 93 cents a bushel, \$1,027,000. Oats—12,000 acres, yielding 38 bushels to the acre, at 38 cents a bushel, \$254,000. Barley—1,000 acres, yielding 29 bushels to the acre, at 70 cents a bushel, \$18,000. Potatoes—1,000 acres, yielding 100 bushels to the acre, at 96 cents a bushel, \$96,000. Hay—160,000 acres yielding 2 1/2 tons to the acre, at \$10.75 a ton, \$3,870,000. Value of the six different crops \$6,142,000.

The Capitan public school will close early next month, and Professor Harper intends to immediately open school at Angus. The patrons of the school, however, are making arrangements for a spring term, and are in communication with a young lady at Big Springs, Texas, in regard to the matter.

THIRTY YEARS AGO FROM 1918 CARRIZOZO NEWS

C. A. Snow who is with the Electric Light Co., returned this week from a trip to Texas. The coal chute in the local yards was destroyed by fire Monday night. No explanation has been given as to the origin of the fire. There were about 100 tons of coal in the chute but the fire was extinguished before any appreciable coal was lost, about 5 tons having burned. Besides the loss of machinery and other material in the chute, the company has been inconvenienced by having to coal its engines with shovels. The loss is estimated, at \$6,000 to \$8,000. The Red Cross Chapter of Carrizozo have together with what has been sent in from auxiliaries, the following list of knitted garments packed and ready for shipment: 5 pair of socks, 34 sweaters, 8 helmets and 15 pair of wristlets. W. J. Langston was out on the French ranch during the last storm putting up a windmill tower.

Telephone Service in rural areas is expanding constantly...

Every working day new telephones are installed, pole lines built and wire strung to serve more farms and ranches.
 More than 30,000 poles and over 12,000 miles of wire have been added to our rural telephone systems since the beginning of 1946—nearly half of this equipment being installed during the last year.
 Many lines have been constructed of new high-strength steel wire which permits the spacing of poles more than twice as far apart as formerly, thereby speeding up rural construction.
 Over 14,000 telephones were added in rural areas during 1947.
 During 1948 we expect to bring telephone service to many thousands more people on farms and ranches.

Many Political Thrills Seen in 1948

Democrats, GOP Unafraid Of Wallace Party Threat

By **BAUKHAGE**
News Analyst and Commentator.

WASHINGTON.—From the way things look to the newsmen whose beat stretches along that historic mile-and-an-eighth from Capitol Hill to the White House, politics in 1948 is going to be a rodeo—plenty of excitement for the audience, a lot of hard riding and tough spills for the performers.

At this writing, nobody's down-hearted. At the last rodeo I attended, there was a very funny funny-man who fell off horses and rode brahmas backwards and made wisecracks over the loudspeaker system (it was a very up-to-date rodeo not more than 2,000 miles from where the deer and the antelope play).

There were also a number of very good, very earnest contestants who had learned their bucking and breaking a long way from a drugstore or a Hollywood set.

Baukhage

The funny-man himself was no tenderfoot when it came to forking a bronc, but once in a while he got in the way of the real performers. Since they weren't riding for glory alone (the purses were fairly heavy), he incurred some displeasure from the regulars, if not from the spectators.

This year the political field will take on a similar appearance. The owner of one of the sombreros tossed into the arena in December is going to cause considerable concern to the rest.

I refer, of course, to hard-riding Hank, the Iowa Whirlwind, who is no more afraid to ride bare-back than he is to ride bear-back. He isn't so bad either with the vocalariat when it comes to throwing as well as rearing the bull. As the contenders rise up the situation with the aid of a lot of wishful thinking, Mr. Wallace is going to get in everybody's way but theirs.

Certainly there is no gloom exuding from the White House. Sure, said the President to us at a recent press-radio conference, the Democrats were going to have a happy New Year, he already was. And stretching back for a long time, the presidential news conferences have

almost bubbled. Once in a while, Mr. Truman would jerk a little when the reporter's needle hit a political nerve, but for the most part, these meetings, where the questions become sharper and sharper as the Ideas of November '48 approach, have been a feast of wit and a flow of soul.

And there is no moaning at the bars where other Democrats gather; Wallace will drive all the liberals to active support of the Democrats, they'll tell you; he will shear away the lunatic fringe of Democratic support; drain the party of the last tint of that which might incarnadine its record; will garner the middle-of-the-roaders who will feel less danger of contaminating their ballots with a New-Dealish radicalism; it may mean Mr. Taft may be Mr. Truman's opponent, and an easier battle can be fought and won against Taft, say the Democrats, than against other presidential hopefuls who might be better Republican vote-getters.

And so on—you've heard the story before from many optimistic lips.

If the Democratic tepee excites joy, the Taft wigwam shakes with cheery mirth. Reasons are obvious. In a nutshell, Republicans say: The issue is left and right. The left is split. And so the rooster crows triumphantly without waiting for November dawn.

Likewise, each hopeful favorite son finds something to cheer him.

But the canny observers are placing no bets yet, and those who had their money down have had to do very little hedging. There is only one thing certain and that is: It's going to be a grand show.

Lo, the Noble Horse

The year 1947 ended with a new sea serpent story which you undoubtedly read about. I mention it, because I myself saw a strange and terrifying beast as I walked to work one late December morning, and I believe the two tales worthy of repetition.

As to the sea serpent: The Associated Press carried a signed story by the master of the steamship Santa Clara, J. Fordan, in which he described the monster sighted in the Atlantic 118 miles east of Cape Lookout. He named the first and third mates and the navigation officer as witnesses.

According to their testimony, the monster's snake-like head was about two and one-half feet long, there was about 35 feet of cylindrical body some three feet in diameter visible. The water about the beast was stained red and the animal was thrashing around in apparent agony, causing the skipper to believe that the ship had cut it in two. The beast's skin was "brown, slick and smooth, there were no protuberances, fins or hair on the head, neck or visible parts of the body."

That's the skipper's story.

None is equally terrifying. I actually saw in the early morning, moving down New Hampshire avenue, a huge creature, whose body, like the skipper's sea serpent, was without fins or protuberances, but unlike it, was covered with hair. The head was more than two feet long, the barrel-shaped body was supported on four long legs which made the creature higher when it threw up its head, much higher than a man.

Its feet were not large compared to the great, powerful body, and they terminated in a great claw, or nail-like substance, which would give the creature terrible weapons of offense or defense. The teeth were large and blunt, and the mouth, though not large, plainly could inflict damaging wounds.

Human beings looked puny beside this creature which appeared as out of place on a Washington city street as a hippopotamus or an elephant. Strangely enough, it did not cause any great commotion except among the younger people who stared in wonder. Obviously, never having seen anything like it, except in picture books, it did pose considerable problems for motorized traffic. Horns honked, drivers jilted, back-seat orders thundered.

Finally the monster turned off the street and went up an alley. That was a great relief to me. I knew what it was. I had even ridden one when I was in the artillery, and later, but it was a shock to see a real live EQUUS CABALLUS in a city street.

Glory, Jest And Riddles

I submit the following as an IQ test to my readers. The answers will not be found on the following pages: Can you tell a cormorant from a water turkey when they are so far away they look no bigger than a fly in custard pie?

Did you ever see a loon trying to walk?

Did you know that between Christmas and New Year's Day, reindeer crow, cows moo, horses whinny in the night, when otherwise they would be asleep?

Do you know they DON'T? Can you tell by the feel on the line whether you have a catfish or a lazy trout on your hook?

Do you know where to scrape the deepest hole in the ground when you have to roll up in your blanket and sleep al fresco?

Would you rather spend a night in a rain-storm in a pup tent if you were camped in a pine forest, or crawl under the lowest branches, matted on a hundred years of pine needles, rolled up in a shelter-half?

Could you plow the corners better with an old-fashioned plow or a new-fashioned tractor?

If a man talks "low-German," does that mean he is talking a dialect?

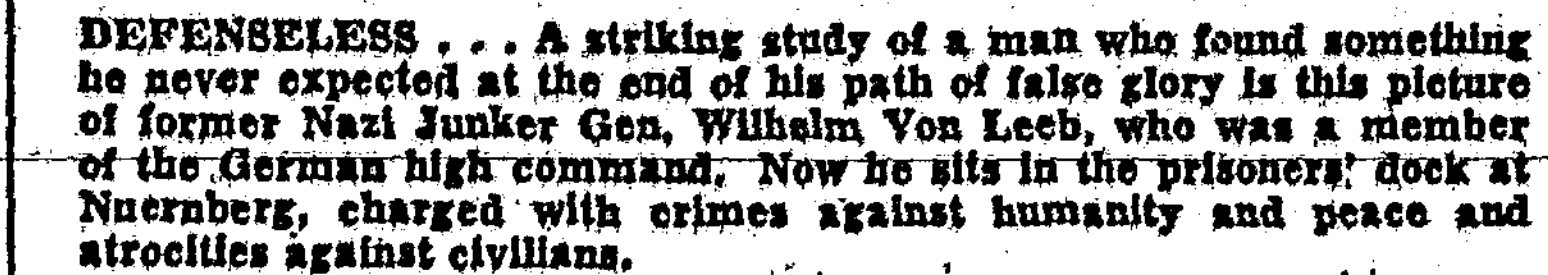

Do the educated people in England speak a language which would be more understandable to Shakespeare than our "hill-billies" lingo?

Anyone answering all of these questions correctly will receive a free trip to the moon on the third rocket ship.

WET AND DRY

Factions Fight Over Statistics

Those irreconcilable enemies, the wet and dry forces in the U. S., fought out the legal liquor question in 768 local option elections in 31 states last year, then went at each other hammer and tongs in a battle of statistics.

DEFENSELESS . . . A striking study of a man who found something he never expected at the end of his path of false glory is this picture of former Nazi Junker Gen. Wilhelm Von Leeb, who was a member of the German high command. Now he sits in the prisoners' dock at Nuernberg, charged with crimes against humanity and peace and atrocities against civilians.

NEWS REVIEW Truman Asks Tax Cut; Brazil Ousts All Reds

Whether President Harry Truman's state of the union message to congress was "socialistic," as Republican partisans dubbed it, or "forthright and courageous," as in the eyes of loyal Democrats, remained a matter of opinion, but it was fairly obvious that in making it the President had cast a loving glance toward next November's election day.

He proposed a combination tax-cutting-and-raising device that manifestly has no chance of passage in the Republican dominated congress but one that sounds good to a lot of voters. His plan, embodying tax-relief to the "little man," would give each individual taxpayer an immediate \$40 tax cut for himself and for each dependent. To offset that reduction in federal income he proposed that corporation taxes be raised by 3.2 billion dollars.

Mr. Truman presented the scheme as a "cost of living" credit designed primarily to relieve the small taxpayer.

In a phrase certain to be quoted with relish by Democratic orators during the coming campaign, the President said he wants to keep revenue collections where they are and still help those who need relief to "buy the necessities of life."

Supplementing the tax proposals he called for a 75-cent-per-hour minimum wage, representing a 35-cent increase over the present 40-cent minimum. Although in the past he has favored raising the national minimum wage, the 75-cent figure was the highest flat demand he has made.

General tone of the President's message to the joint session led most observers to believe that he was swinging his administration back to "a little left of center," a point which generally is identified with New Deal philosophies.

Some saw in the speech a perceptible bid for the left-wing and liberal vote that Henry Wallace's third party is threatening to take away from the Democrats.

Republican reaction to Mr. Truman's speech was bitter and intense and the G.O.P. went ahead more determinedly with its own tax-reduction bill.

KNOCKOUT: Brazil

Brazil, which severed diplomatic relations with Russia in a huff last October, now has administered what looks like the coup de grace to Red activity within its own borders.

It came in the form of a law, signed amid great furor by President Enrico Dutra, virtually abolishing every vestige of Communist action in Brazil by removing all Communists from elective posts throughout the nation, including congressmen.

The process of outlawing the Reds was far from a calm one, marked at times by dramatic displays of Latin-American nerve and temper.

Fist fights broke out frequently on the floor of the chamber of deputies, and at one point during the debate the session was suspended temporarily when three deputies pulled guns from their pockets and waved

AND FURTHERMORE . . .

Taxes were not the only controversial issue touched upon by Mr. Truman in his message to congress. He also asked for:

1. The once-rejected 10-point anti-inflation program with power to impose wage and price controls and rationing.
2. Universal military training.
3. Authorization of the four-year Marshall plan.
4. Stronger and extended rent controls.
5. Public housing for low-income families and government action to cut building costs.
6. Modernization of farm price supports and broader crop insurance.
7. Extension of unemployment compensation, old age and survivors' benefits, a national health plan and federal financial aid for education.
8. Admission of European refugees into the U. S.
9. Statehood for Alaska and Hawaii.

them at three Communist members. No shots were fired.

Outside the building private citizens argued vociferously and exchanged blows. Leftist crowds shouted vengeance on the deputies and police sirens screamed through downtown Rio de Janeiro.

It was, by and large, the most turbulent legislative session ever held in Brazil.

Other nations could take an object lesson from Brazil's achievement. Communists can be frozen out of government activity even though the process may be noisy and painful.

THIRD FORCE: Socialism?

Latest voice from among the less potent nations of the globe to rise in protest of the cold battle between Russia and the U. S. was that of Leon Blum, French Socialist leader and short-time premier of France.

He called for a "third force of the world" to stand between the Big Two, even as such a middle group has stood between the Communists and DeGaullists in France.

Blum said the international third force would oppose American capitalism and expansion as well as Russian imperialism and extinction of human rights. That force, he proposed, ought to be headed by France and Great Britain.

Blum was espousing on a worldwide basis an old and eminently workable theory—the balance of power. While Russia and America are battling it out on fairly even terms, Blum would have the two lesser nations step in to take control of the slight power balance that is left over and thus possibly be able to steer a course more to their liking.

Between Russia and the U. S., said Blum, "there is room for nations which want at the same time personal liberty and collective economy, democracy and social justice." It was another plea for a middle course, and to Blum a middle course meant Socialism.

Kidneys Must Work Well

For You To Feel Well
At least every day, I sleep every week, never stopping, the kidneys must work better than the liver.
If more people were aware of how the kidneys work, they would not be in the hospital bed, suffering from kidney trouble. The kidneys are the most important organs in the body. They filter out the waste from the blood and keep the blood clean. If the kidneys are not working properly, the waste builds up in the blood and causes many diseases.
Doans Pills are the best kidney medicine in the world. They are made from natural herbs and are completely safe. They will help you feel better and keep your kidneys working properly.

GOOD LEADERSHIP AND PLANNING ARE MAIN FACTORS IN A REVISED RURAL ECONOMY.

SMALL TOWNS, U.S.A.

Rural Planning Must Emphasize Restored Soil, New Employment

Restoration of the soil and introduction of new types of employment are major factors in revitalizing rural economy to meet the challenge of the changing times. The growing necessity for sound rural economic planning is apparent in small town and agricultural America, faced as they are by revolutionary changes in the pattern of living. The times bring evidence that most rural living problems can be solved. Happily this evidence, which has been accumulating for several years, shows the solutions can be accomplished by simple, home-devised plans.

Rural economic problems ordinarily come from limitations on earning opportunities. The earnings get lean when the land is allowed to wear out and other employment in the neighborhood is limited. Therefore, the solution lies in restoring productivity of the soil and in providing new kinds of employment. Both these things can be done with good leadership and good planning.

Extension of rural electric lines, the trend toward decentralizing industry, new methods of farm production and land use, all are making easier the task of reviving the country communities and small towns.

Much valuable community work has been done. Some of the pioneering dates back 20 years and longer. The successes of some communities provide examples for others to follow. One of the earliest and most highly regarded small community developments is in the southern mountains at Brasstown, N. C. There the soil has been saved and returned to fertility, and some small industries have been introduced to provide the needed opportunities to earn.

Model Rural Community. Brasstown is a model in the rural life movement. It has shown that the home and the home surroundings are the most important things in happy living. High wages are not essential if there are better compensations. Happiness cannot be bought with wages. All is well when there are jobs for all, if the work is pleasant and the home is secure.

Brasstown is a folk center. It is the home of a school of rural living, which has become the influence that shapes and guides the life of the entire community. This is the John C. Campbell Folk school, established to be a permanent, and useful memorial to a devoted worker who spent his life as a teacher of mountain people. The school is the life work of Mrs. Olive D. Campbell, widow of the man for whom it was named.

This school is like nothing else in the U. S. Its pattern was the folk schools of Denmark, and Danish rural school ideas have been adapted to the needs of the Brasstown community.

The school has more than 100 classes and teachers. It is the voice and spirit of the community. Since it was founded the living standards and the outlook of the whole people have been uplifted and given a solid footing. It has succeeded in making the present bright and the future hopeful.

The school is a place for demonstration, practice, study and recreation. It is the stimulus not only of the culture, but of the commerce of the whole countryside. All ages may go to its classes. Everything having to do with local living is part of its program — farming and forestry, folk dancing and games, health and nursing, home industries and house-keeping, and the marketing of the

Here's One Barber Who Never Talks

SPRINGFIELD, ILL. — Contrary to the prevailing trend among tonorial artists, one Springfield barber throughout his 12 years in the trade never has bored his customers with lengthy recitals on politics or weather or wondrous oils for rindown scalps.

This novel barber, Bob Belford, who stands behind chair No. 5 in Jim Drew's barber shop here, has been a deaf mute since birth. But some of his customers never are aware of his infirmity.

Barbers on either side of Belford act as interpreters for the customers, pointing out the tonic desired or gesturing for the various types of scalp treatments or a facial.

George Smith, who works the chair adjacent to Belford's, rates Belford among the best barbers he has seen wield a razor in his 47 years in the trade.

Old and New Cookie Favorites Rank High For Snack Purposes

Do you like to have people dropping in just to be neighborly? Do you have youngsters who bring their friends home often? Then you'll want to have the cookie jar well stocked at all times with old favorites and new.

A cup of hot chocolate and a cookie mean something to every youngster, especially when the weather is bitingly cold; and it also means something very special to your own friends who may just happen to drop in.

Spread your friendliness and cheer in this way with others and you'll be a happier person.

It's easy to have cookies on hand if you select those that are quick to fix and easy to keep. You'll feel a lot easier about inviting people in if there's always a snack or two ready.

In view of the prevailing high cost of butter and shortenings, the cookie baker must be careful to select recipes that spare these precious products.

Nut Macaroons. (Makes 3 1/2 dozen)

4 egg whites
1/2 teaspoon salt
1 teaspoon almond extract
1/2 teaspoon vanilla
1/2 cup sugar
3 cups cornflakes, slightly crushed
1 cup pecans, coarsely chopped
1 cup coconut

Add salt to whites and beat to a coarse foam. Add flavorings. Add sugar by one tablespoon proportions, continuing beating until liquid is stiff and glossy. Fold in cornflakes, nuts and coconut. Drop from teaspoon onto well-greased baking sheet. Bake in a moderate (350 degree) oven until delicately browned, about 10 minutes. Remove promptly from baking sheet.

Date Drops. Dates and syrup keep the sugar content low on these Date Drops. They stay fresh and moist for a long time, if they last, in a cookie jar or covered cookie tin. Use for snacks and lunch boxes.

If you like crunchy, fruity cookies, make these Date Drops. You'll find they keep nicely in a cookie jar.

Date Drop Cookies. (Makes 4 dozen)

2 cups flour
2 teaspoons baking powder
1 teaspoon salt
1/2 teaspoon cinnamon
1/2 teaspoon ginger
1/2 cup shortening
1/2 cup brown sugar
1/2 cup bottled corn syrup (dark)
1 egg, beaten
1 tablespoon milk
1 tablespoon orange juice
2 teaspoons grated orange rind
1 cup chopped dates

Sift flour, measure and sift again with baking powder, salt, cinnamon and ginger. Cream shortening, add sugar and beat until light and fluffy. Add corn syrup and then egg, mixing well after each has been added. Add dry ingredients alternately with milk and orange juice to creamed mixture. Stir in orange rind and dates. Drop by spoonfuls on greased baking sheet. Bake in a moderate oven (375 degrees) about 10 to 12 minutes or until golden brown.

Date Dainties. (Makes 25 1 1/4-inch squares)

2 cups chopped dates
1 cup raisins, chopped
1 teaspoon vanilla
1/2 cup sugar
3 eggs, beaten
1 cup flour
2 teaspoons baking powder
1/2 teaspoon salt

LYNN SAYS: Solve That Lettuce Problem Easily

Meat juices and gravy are excellent to use with meat or even vegetables for flavor.

Cooked cereals may be chilled and sliced, fried and served with jelly or syrup.

Canned fruit juices are easy to use in fruit salad dressing, such as thinning mayonnaise, pudding sauces, favoring milk or beating meat. Use also for liquid or any part thereof in gelatin salads or desserts.

HOUSEHOLD HINTS

Holding onions under water while peeling makes it a fearless process, and keeps the onion odor from penetrating. . . . To flour chickens evenly for frying, place the flour in a paper sack, then the pieces of chicken, and shake vigorously. . . . Adding a teaspoon of lemon juice to the water in which rice is boiled will help separate the grains of rice.

Leftover breads, rolls and crackers may be toasted and served with spread. If they are very hard and old, have them thoroughly dry or toasted and then put through the food chopper for bread crumbs.

The best way to keep lettuce is to wrap it in waxed paper and place it in the refrigerator unwashed. It is likely to turn brown if it is washed.

Soured milk and cream may be used to make gravy for meats, such as veal. Also use them for baking breads, cakes or cookies.

HOW TO SIGNAL A CAR FOR HELP AT NIGHT

IT'S MIDNIGHT. It's an emergency. How to "flag down" a passing motorist? Your flashlight is your best bet. Swing your flashlight across the road . . . with the beam down! Be sure it's powered with "Eveready" batteries . . . powerful, dependable, they outlast all other brands!

KEEP YOUR LIGHT MOVING, says the AAA. Standing about 50 feet to the rear of your car, wave the flashlight across the road . . . with the beam down! DON'T throw the beam into the eyes of the oncoming motorist! A light in a driver's eyes can cause a serious accident!

KEEP A "DANGER SIGNAL" HANDY! Red means "danger." So here's what you can do to turn a flashlight into a danger signal. Roll a sheet of red cellophane around the head of the light. Hold it in place with a rubber band. Twist the ends of cellophane to resemble a flare. Keep an "Eveready" flashlight handy.

Proof! . . . in the laboratory, in your own flashlight . . .

'EVEREADY' BATTERIES OUTLAST ALL OTHER BRANDS!

● Brighter light, longer life! That's what you want in a flashlight battery—and that's what you get with "Eveready" brand batteries. Laboratory tests prove it. And the best "laboratory" of all—your own flashlight—proves it! That's why "Eveready" batteries outlast all other brands—because they outlast all other brands!

School Supervision

The New Mexico Education Association is continuing its efforts to bring about a reorganization of state and county school administration. It is believed that the county and state school superintendents should be appointed rather than elected. The recommendation includes the proposal that the county school boards should be elected as in the case of the municipal school boards, such board to have the power to appoint a professionally trained superintendent. As to the State Board of Education, it is recommended that the Board should be appointed by the Governor and that that Board should select a highly qualified educator as the Commissioner of Education. It is believed that this would remove the schools from partisan politics, resulting in increased efficiency and economy and a continuity of administration that is missing under the present system.

The Legislatures

Ten States will convene in regular session this year, as follows: California, March 8; Kentucky, January 8; Louisiana, May 10; Massachusetts, January 7; Mississippi, January 13; New Jersey, January 13; New York, January 7; Rhode Island, January 6; South Carolina, January 13; and Virginia, January 14.

Highway Transportation

Highway transportation industry, as well as automotive companies, are giving active support to a six point program, according to the New Mexico Transporter, that calls for: (1) improvement of streets and highways; (2) proper expenditures of tax revenues paid by motorists and other highway users; (3) establishment and enforcement of uniform traffic regulations; (4) expansion of adequate parking facilities; (5) stipulation of driver training programs; and, (6) support of highway safety programs.
