In 1907, he married Ethel Turnbull, who died March 9, 1947.

Of his six children, five are still living. Walter passed on at the age of two years. The five children are: Mrs. Effie Marler, Ruidoso; Ernest Campbell, Richland, Washington, who was unable to be here; Mrs. Elva Coe, Ruidoso; Charles Campbell, Ruidoso; Gloria Campbell, Carrizozo; there are four grandchildren.

Mr. Campbell was an artist at woodcarving and cabinet-making he was also very much interested in machinery, and at one time studied mechanical engineering. He was accomplished mandolin player.

For twenty-five years he was a builder and contractor in Gallup and Ruidoso, though, in his sixty-five years, he did many things, including an experience as a superintendent of gold mines.

In 1928, he moved to Ruidoso. In 1941, he moved to Coyote, and in these recent years, while ill of body, he continued his studies and found more time for his search for truth.

He was baptized and became a member of the Christian Church at Humbolt, Arizona, in 1910 and made a thorough study of the Bible. A genuinely kindly and friendly man, he leaves behind a host of friends.

Interment was made in Stetson Cemetery in Ruidoso.

Blue and Gold Dinner

The Cub Scouts of Corona, Pack 152, their parents and their leaders celebrated the 38th birthday of Cub Scouting Monday evening, Feb. 9. It was the second Blue and Gold Dinner of the Pack. The dinner was held in the Hot Lunch room at the school. There was a huge birthday cake, lovely decorations, and all kinds of good things to eat.

Cub Master, Mr. Sterling Rodge, was in charge of the program. The principal speaker was Mr. Bill Hientz of Carlbad, a Field Worker for the White Mountain District of Boy Scouts. Mr. Hientz gave a good talk and encouraged the Cubs and their parents to keep up the good work. Cub Scout Committeesmen present were the Chairman Mr. Wesley King, and Mr. Labe Sharp, and Supt. L. Parker. Scout Master, Mr. Walter Pfeiffer, was also present. Two of the Cubs to join the regular Scouts, both having reached the age of twelve years. Two new Cubs are Clifford Bryan and Lesley Sharp.

Congratulations go to the three Den Mothers, Mrs. Jessie Harris, Mrs. Wesley King, and Mrs. Jessie Wade, for the successful year. The Cubs have just had. We hope that next year will be as successful and profitable to the Cubs as the past year.

There were fifty-two present at this dinner, including parents, children and visitors. About eighteen families were represented. The Cub Scout meeting day is Tuesday afternoon at the school. If you have a boy nine, ten, or eleven let him join the Cubs and get the training which will make him a better individual with whom to live.

Cub Scouts belonging to pack 152 consist of the following boys: Gerald Berryman, Jackie King, Harold Bryan, Vernon Wade, Gilbert Bryan, Billy and Leslie Sarp, Clifford Bryan, Frank Mulkey, Vernal Lucas, Lonnie Lee, and J. R. Mayhugh. The Den Chiefs are Gerald King and Johnny Porter. Den mothers are Mrs. Jessie Harris and Mrs. Vera King. Mrs. Ollie DeWade who was one of the Den Mothers has resigned since she does not plan to be here all this year.

Corona Water Users were well represented at the Mass Meeting Thursday, February 12, and many phases of Corona's water problems were discussed. The majority of those present went on record as favoring greater cooperation between the Water Board and the City Council.

The City Council through its control of streets and alleys could bring about a fairer distribution of water than has existed through these dry years. It could compel all water users to pay their just share of the expense or quit using from our common water supply.

Miss Sally Mae Pfeiffer entertained a group of teen age boys and girls at dinner at her lovely home last Sunday, February 15th. The decorations and the food were carried out in the Valentine motif.

There was a good ball game here Saturday night between Ruidoso boys and the Corona boys. Corona won both games. The game between Mountainair and Corona was called off last week because of bad roads.

Mr. and Mrs. W. B. Winniford were called to Dallas, Texas this week because of the serious illness of Mr. Winniford's brother.

Ward Harris who has been in Albuquerque for treatment is much improved and is expected home this week.

There has been some lambing during the severe weather, and the losses have been relatively light.

Mr. Luther King made a trip to Tuberos one day last week.

Mr. Francis Hester who formerly lived in Corona, was here on business a few days last week. Mr. and

Large Crowd Attends Golden Wedding Anniversary Reception

In spite of snow drifts, and slippery pavements everybody from everywhere arrived safely at the Woman's Club building in Carrizozo to be present at the Golden Wedding Reception given in honor of Mr. and Mrs. A. B. Zumwalt, Sr., last Friday, February 13 from 3 in the afternoon until 9 in the evening. All theories concerning "Friday 13th" being an unlucky date were then and there exploded. The day was one of the most marvelous this winter; no wind, and with New Mexico sun-shining so brightly we were made more aware than ever that this "Land of Enchantment" can recover from winter's blasts within a few short hours.

The anniversary dinner was given at the Woman's Club building at noon with forty-eight members of the family present. Mr. and Mrs. Henry Peebles of Nogal, old friends of the family, were on hand to help and Mrs. Peebles entered into the spirit of the occasion with all her heart helping until everything was prepared. Needless to say the dinner was perfect in every way.

The anniversary gifts were so numerous and so beautiful it would be difficult to describe them all even if we had the space.

Gold catin elderly down comforts, gold colored all wool blankets, gold trimmed table lamps, water sets pitcher, gold topped candy dishes, gold vases, gold jewelry, towels, pillow cases and linens with gold color embroidery; one outstanding gift was a 5-dollar gold piece from Mr. and Mrs. John W. Harkey, made in 1898. Mrs. Zumwalt was wearing a gold ring set with an emerald and diamonds which was Mr. Zumwalt's anniversary gift to his wife.

The building was filled with beautiful flowers, gifts of friends, leather luggage for their trip to the Northwest was another handsome gift from the grandsons.

Throughout the afternoon and evening the beautifully appointed table with its lace cloth, golden candles, lovely silver and plates piled high with delectable wedding cake were a delight to the eye. At different hours, different ones poured tea and coffee.

Two or three hundred signed the guest book, but a few forgot to sign.

On display was a photograph of the Rev. and Mrs. John H. Skinner surrounded by their family which was taken twenty-five years ago when they celebrated their Golden Wedding anniversary. Also a group picture of Mr. and Mrs. Zumwalt and their wedding guests taken on their wedding date in 1898. Mrs. John Harkey and Mr. Wm. Ferguson were two local people who were at the wedding.

About mid-afternoon a little comedy was introduced by guests, mostly relatives taking part in a mock wedding ceremony in which long hair, gray beards, long curling mustaches, and shoulder shawls were worn. Mr. Wm. Ferguson and wife took part in the comedy wedding.

The evening closed with music, good byes and good wishes.

DEVOTIONAL READING: Ephesians 9:10-20.

Power of Holy Spirit

Lesson for February 15, 1948

Dr. Newton

TWO decades ago, the famous preacher, Rev. Reginald J. Campbell, declared, "The 18th Century may be characterized as the Century of God the Father; the 19th Century as the Century of God the Son; and we are praying that the 20th Century may be experienced as the Century of the Holy Spirit." That was a brave and hopeful prayer. May we claim the same hope.

"These things I have spoken unto you, being yet present with you. But the Comforter, which is the Holy Spirit, whom the Father will send in my name, he shall teach you all things, and bring all things to your remembrance, whatsoever I have said unto you." John 14:25 and 26. Go on to read Acts 2:1-4; 3:1 to 4:31; Galatians 5:22-26 and you will have the Scripture passages for Sunday's lesson, with Ephesians 6:10-20 as the devotional reading.

PETER ACTS BRAVELY

IN THE passage in Acts we have the picture of Peter and John about to enter the temple on the Sabbath, when suddenly they find themselves confronted by a sick beggar. What could they do with him and for him? He was asking for money.

Peter said, "Silver and gold have I none; but such as I have give I thee, in the Name of Jesus Christ of Nazareth rise up and walk!"

The lame man stood up, leaping and walking and rejoicing, and went into the temple with Peter and John. Only the power of God can do such mighty works. Peter was not afraid to tackle the man's needs, since he relied upon God's wisdom and strength.

WHY PETER WAS BRAVE

PETER is often pictured as a very quick-tempered person. He was usually the first to speak in every situation. He was the leader of the group—a natural leader of men. But Peter did not assume to meet the poor man's need in his strength. Only "in the Name of Jesus."

When we forget self and rely upon the Holy Spirit for direction, we are enabled to meet and master any situation. Juniors will do well to remember these words, "Not by might, nor by power, but by my Spirit, saith the Lord of hosts." Zechariah 4:6.

Junior boys and girls can meet life's tasks in the same assurance in which Peter dealt with the lame man, if we rely upon the Holy Spirit.

SECRET OF CHRISTIAN POWER

"YOU shall receive power when the Holy Spirit has come upon you." Acts 1:8. That is the secret of the Christian's power. It does not originate elsewhere. It is God's gift to those who implicitly trust in him.

This great truth is particularly appealing to intermediates and seniors. Young people are keenly sensitive to the times in which they live. We live today in an hour of unprecedented power—atomic energy! But all of the marvels of modern science have not been able to give young people the sense of mastery. Rather, we are afraid. The scientists themselves tell us that this is history's most precarious age.

Only when the Holy Spirit is regnant in our hearts can we possess the power of which Paul is writing in Galatians, when he says, "But the fruit of the Spirit is love, joy, peace, long suffering, gentleness, goodness, faith, meekness, temperance."

WHEN WE HAVE THAT POWER

WHY, then, should we ever be weak, when we may always possess that power? This is the most searching question for any Christian. The answer will lead us to certain inevitable admissions. We become weak spiritually when we forget to pray, when we forget to read God's word, when we allow the interests of this world to blind our eyes, and deafen our ears to the reality of God's presence.

The Holy Spirit will dwell within us, if only we will welcome him. He will not come unbidden; he will not remain unwanted. He cannot be made secondary. Either he guides or surrenders the reins to us.

Our lives are spiritually strong and healthy when the Holy Spirit governs. Our work is effective, our words are compelling. We speak not out of wisdom, but the wisdom of God. We go not in our strength, but in his strength.

IT'S THE LAW

By CLARISSA LORENZ

MY HEAD in the clouds that warm day in April driving up Broadway. The radio in my jalopy was tuned in on Tom O'Neill, my favorite voice of the year. I was listening to The Songshop Hour when the sharp blast of a whistle brought me down to this too, too solid earth. I'd driven straight through a red light.

As a big, burly traffic cop swaggered over to my battered coupe, my knees shook. I had a deep respect for law and order.

"What's the big idea, sister?" he bellowed.

"I'm sorry, officer, I said meekly. "I was late for school."

"Better be late than sorry," he said in an altogether different voice as he caught O'Neill's lush rendition of "Irresistible You." He jerked his head and smiled at the radio. "You know, that guy's not bad."

"He's simply super," I gurgled.

"He makes me all goose-pimpley." The blue eyes of the law flickered, then fell on the volume of Popular Melodies on the seat beside me. "Musical. What do you do for a living?"

"Piano teacher," I replied, "at Miss Follens Day School." I gave him a wan smile.

He pushed back his cap and wiped the moist, blond ringlets plastered to his brow. "Ever do any radio work?"

"That made me wince. "I just wish I had a dollar for every audition I've had."

"Full over," he ordered.

I obeyed with alacrity. At the curb I became visible. Anything to stave off a ticket, I told him that radio was a snare and delusion for any ambitious young girl. I'd got nowhere. "Sorry, we have our own staff accompanist. . . . Sorry, nothing right now, but if you'll leave your name—"

He grinned, and it was like a burst of sunshine. He leaned against my car, looking at me as if I were a crossword puzzle. "Say, how about dinner tonight?"

"You could have knocked me over with a feather. "Why, I don't believe—" I began primly. "You see—"

If he thought I was a girl who could be picked up, even by a policeman. . . .

"Okay, sister," he grunted. "I get it." Then his voice became official again. "Well, I'll let you off this time."

"Thank you, officer," I said. "But don't let it happen again. Remember, I'm keeping my eye on you."

I looked at my watch: 8:45. I'd never make it by nine. Not when I had to pick up that daily cargo of seven squirming kids and convoy them to the red brick building that was my prison five days a week. I sighed. Art is long and life is short, and didn't I know it. I'd probably go on teaching sassy beats, five-finger exercises until the grave yawned. Especially now that Charlie had gone international on me. Corporal Charles Brent, No. 1 hell! When I got his bombshell of a letter two months ago, telling me coolly he'd fallen for one of those Aussies, I kissed all hope goodbye of every marrying an artist. Charlie played the bassoon before the Army made him play the bazooka.

Until today I thought he'd broken my heart. But that night in bed, when I tried to picture him, all I could see were a pair of sky-blue eyes, strong white teeth, and moist, blond ringlets under a policeman's cap. I felt a twinge of remorse at having snubbed him. What if he was just a traffic cop? Maybe something could still be done about it.

"But don't let it happen again. Remember, I'm keeping my eye on you."

Next morning I wore my new Easter bonnet, a pink, flyaway, confection. On my radio O'Neill was giving deliciously with "Time Waits for No One." My heart went boom as I approached the crossing on Broadway. There stood my nice giant in a shaft of sunlight. I drove straight through the red light. At the blast of that tin whistle I jammed on the brake. He sauntered over, twirling his shiny toy.

"Well, sister," he said sternly, "if you're gonna make it a habit, I have to take steps. Let's see your license."

I looked at him in sheer dismay. O'Neill went crooning on, but my traffic cop seemed deaf this morning. "Make it snappy." So I fumbled in my imitation alligator bag and fished out the license folder. "Beryl Thompson," he read, and took down the number, name and address.

He handed it to me. "Here you are."

"You concealed goods," I told myself hotly, watching his broad back. "Serves you right."

The low ceiling depression that hung over me all that day was lifted at 5:35 when I got back to my room and found a message to call Mr. Burnham at the radio station. I flew to the hall phone.

"Be at the studio tomorrow night at 8:30 sharp," he said over the phone.

The next day I was on hand long before six. "It's a transcription program," Mr. Burnham explained. "Miss Miles, the studio accompanist, is out sick, and her substitute's having a baby."

"What's the program, Mr. Burnham?"

"The Songshop Hour. Studio B. Here's the music. You'll have plenty of time to run through it—before O'Neill gets here."

"O'Neill? But he broadcasts mornings, doesn't he?"

"He records at 6 the night before."

AS THE green baize door of Studio B closed soundlessly behind me, I felt like turning cartwheels. A little before 6:30 a familiar voice broke up my practicing. "Hello, sister!"

I looked up, and my fingers began to prickle. There was my traffic cop, bareheaded and in shirt-tails.

"Pardon the attire," he said with mock politeness. "I'm not supposed to wear my coat off duty."

"Are you Tom O'Neill?"

"Professionally speaking, yes."

He came over and began polishing with his hand the badge on his blue

shirt, which read, "The Singing Cop." "Nobody knows about it except the gang here. I told 'em it had to be that way, or else. If the boys down at the station knew I was a crooning canary, the wouldn't be worth livin'."

I sat still, looking slightly ga-ga. "Say," he said, his eyes twinkling, "that's a fine reception, considering that I snagged you a radio job."

"You did?" I gasped. "But Mr. Burnham said—"

He waved his big hand at me. "I know. When I heard about Miss Miles, I asked him to give you a try-out." He looked up at the clock. "Okay, beautiful. Let's try that old number, 'Why Don't You Fall in Love With Me'?"

I obeyed mechanically. As I said before, I have a deep respect for law and order.

WHEN YOU ADMIRE YOU ARE HAPPY.

A man who was my friend is gone. He was a man everyone loved. He could go into any company and inside of five minutes win every person in that company as his friend. His genius was the genius for expressing his warm and friendly personality.

Last night when I was thinking over our friendship for each other and trying to analyze to see if I could discover the true secret of his gift, I hit upon something that hadn't ever occurred to me before. His genius was the genius of knowing how to admire.

I've never known anyone who was so filled with admiration and enthusiasm for everything in the wide world as he was. About things that you and I take for granted, he went into raptures.

In the lowliest and meanest of lives he saw qualities to praise. Yes, I'm sure his genius was the genius for admiration and that that was what made him liked and popular and happy, for you know what I am telling you, that he was a happy man. How could he be otherwise when he found all the world and its contents infinitely beautiful and exciting?

As I was thinking about him last night I couldn't help comparing him—contrasting him rather—with another friend. In his friends this other friend of mine finds nothing to admire, absolutely nothing. He attacks everything: The institutions which men have founded are grounded on stupidity. The heads of our government are crooks. Is he happy? You know he is not.

I think it probably is easier to be like the second man I have told you about than the first, for it seems to be one of the traits of human nature to like to find fault rather than to find things that are good.

Yet I am convinced that anyone, with a little practice and attention to the job, can acquire part of the genius of the man I started telling you about in this little article—the man who had the genius for admiration.

Just as an experiment suppose for one day only you do not criticize anything or anybody. Look for something to admire and praise. If you look hard enough for something to praise, you can find it, but if you don't find it right off, don't say a word of criticism—just keep still if you can't praise.

It's amazing the effect this has on your life and on your outlook on the world.

One man to whom I gave this advice a short time ago said it was like going out into the sunlight after leaving a darkened room when he began to see the world as an admirer rather than as a fault-finder.

Consider that an experiment of this kind will take just one day of your time and not cost one cent. Don't you think it's worthwhile?

"Pa," said Hector, looking from the book he was reading, "what is meant by 'diplomatic phraseology'?"

"Well," replied Pa. "If you were to say to a homely girl, 'Your face would stop a clock,' that would be stupidity, but if you said to her, 'When I look into your eyes, time stands still, that would be diplomatic phraseology!'"

DPs Have Many Skills U.S. Needs

Useful Citizens Remain Idle In Displaced Person Camps

By **BAUKHAGE**
News Analyst and Commentator

WASHINGTON.—It's a strange thing about us Americans who grew up under a Declaration of Independence which states that we're all born free and equal, and a Constitution which is so scornful of blue blood that it specifically declares that "no title of nobility shall be granted by the United States; and no person holding any office of profit or trust under them shall, without the consent of congress, accept any present, emolument, office or title of any kind whatever from any king, prince or foreign state."

In other words, we're supposed to believe "a man's a man for a that."

Nevertheless, come election eve, somebody always gets very excited about the ancestors of any prospective candidate for the office of president (or the office of dogcatcher, for that matter).

So I wasn't surprised to see a dispatch come over

Baukhage

the wires saying that somebody, who says his grandfather was the brother of the grandfather of General Eisenhower, is in a displaced persons' camp in Denmark. Eisenhower, when questioned, says his ancestors came to America before the revolution and he has little or no information about the family in Europe. A good American answer, I'd say. And it serves to bring up the question of displaced persons in Europe, a matter with which the congress of the United States is mildly concerned at present. Not as much concerned, however, as Rep. William G. Stratton (Rep., Ill.) would like, since he has introduced a bill "to authorize the United States . . . to take its fair share in the resettlement of displaced persons in Germany, Austria and Italy, including relatives of citizens or members of the armed forces, by permitting their admission to the United States in a number equivalent to a part of the total quota numbers unused during the war years."

There are some 11 million persons who were enslaved, captured in war or thrown into concentration camps by the Nazis, who have been sent home, and 850,000 others who, like the alleged relative of General Eisenhower and many who have escaped from under the iron curtain since the war, can never go home for fear of political persecution in Soviet-controlled countries where they would face slavery or death. Fifty per cent of these still in the camps are women and children. One-fifth are Jews.

Many DPs have skills and are only too anxious to use them. And there is room for

them — or somebody — to take the place of the manpower which has been drained from the farms in the Middle West into factories.

There are 95,000 DPs who are trained farm workers. Now, instead of producing food for others and easing the terrific strain on the American farms due to the shift in population, these DPs are eating at America's expense. I doubt if any American is hardhearted enough to say: "I am not my brother's keeper. Send 'em all back where they came from . . . to strengthen the slings of the Communist dictatorship and live out their lives in slavery . . . if they are allowed to live at all."

Breaking down the DP census under the "agriculture" classification made by American officials, we have:

Farmers (all types)	77,478
Agronomists	5,449
Lumbermen	761
Hunters, Fishermen	723
Millers	1,191
Other agric. workers	10,999

Many other skills are represented. Need any carpenters? More than 5,000 are in the camps; nearly 2,000 painters; altogether more than 21,000 trained in construction and maintenance. And so on.

No comment is necessary on the items: "Hospital attendants, 1,133; nurses, 4,057; physicians and surgeons, 1,763"; or, from the housewives' point of view . . . "Domestics, 22,066."

It isn't as if we had thousands of unemployed in this country, or that we weren't trying to increase production to feed and house our people.

It costs our army (that means you) \$400,000 per day to keep these people semi-prisoners, growing up to be useless citizens by denying them freedom and hope. What does it cost our consciences?

THEY'RE ROARIN' FOR WARREN . . . California's Republican assembly, meeting in Del Monte, heartily approved a resolution to "go out and sell Gov. Earl Warren as the best man for president of the United States." The campaign to get the GOP nomination for Warren has been gaining momentum.

NEWS REVIEW

House Debates Tax Bill; Gandhi Is Assassinated

All signs pointed to an income tax cut of one kind or another this year as the house of representatives changed the bell for the opening round of crucial, election-year debate on that much-belabored issue.

Joseph Martin (Rep., Mass.), speaker of the house, started things off with the assertion that an income tax slash is in the bag. He conceded, however, that it might not run as high as the 6.5 billion dollars provided in the Knutson bill, now up for debate.

But in the end, he said, the Republican congress would override a presidential veto "of the tax bill we send to the White House."

In order to beat the veto that Mr. Truman might slap on the tax bill, however, the Republicans would have to line up a few Democrats to vote on their side to make the necessary two-thirds majority. And to bring enough Democrats around, it was thought, the senate Republicans would tone down the bill.

Rep. Robert Doughton (Dem., N. C.), ranking Democrat on the tax-fixing ways and means committee, pointed out the obvious fact that Republicans would have to trim the size of the cut to get anywhere. Otherwise, he said, congress will uphold the veto "and we will have no tax reduction at all."

As far as Knutson's \$1.1-billion-dollar measure is concerned, GOP congressmen were touting it on the grounds that it would spur business, increase production and relieve the price-pressure on taxpayers in addition to leaving the government enough revenue for an 11-billion-dollar payment on the public debt in the next two years.

Pakistan Gandhi had been the man of strong spirit to whom all three opposing factions, Hindus, Moslems and Sikhs, had looked for guidance.

And in his last fast, of five-day duration, he had given it to them. He had provided the three clashing religious groups with a foundation for peace. His action had tended to narrow the schism between Moslems and Hindus, had lessened the talk of war.

Whether his death would undo the good that the last days of his life had accomplished remained, for the time being, an open question.

LITTLE MAN

And What Now?

To the senate banking and currency committee came a representative of America's beloved "little man" to talk of inflation and ask the question "What now?"

Economists may define an inflationary condition as an excess of demand over supply or a disproportionate amount of money and credit in relation to exchange, but to Cyrus J. Waud of Camden, N. J., inflation simply means that his \$30-a-week salary can't take care of his wife and six children.

Waud, a canner worker, told a story familiar to millions of his co-

WAUD AND FAMILY

workers across the nation: The endless, insufferable rise in prices; the hand-to-mouth struggle to keep even with the implacable economic circumstances . . . which gradually were beating him down.

With the dispassionate bitterness of a good U. S. citizen who knows that it is within his rights but not within his power to have economic freedom and comfort for his family and himself, Waud summed it all up in the 1948 "little man's" tragic cliché:

"We're not living, we're only existing."

Born 'Flypaper'

One of the latest developments in this century of scientific whingdings is a bacterial flypaper to keep rooms free of disease germs.

It is a chemical that can be put on floors, blankets or curtains to catch and hold tiny organisms, including those which cause colds, when they settle out of the air. Unlike flypaper, it doesn't kill, but it does keep germs from circulating around the room.

DEATH:

Gandhi

Mohandas K. Gandhi, India's champion, peacemaker, patient saint, was dead at the age of 78—a victim of an assassin's bullets.

He died barely two weeks after Hindus, Sikhs and Moslems alike, overjoyed at the possibility of peace that Gandhi's latest fast had procured for their dominions, were shouting "Gandhiji ki jai" (long live Gandhi) in the streets of Delhi.

It was a violent ending for the mahatma who all his life had preached and practiced a philosophy based on an abhorrence of violence. A Hindu from Poona approached him during a prayer meeting and fired three shots into his body from close range.

To India and to India's Hindus to whom Gandhi had devoted his life, his death was a bitter experience and a shock that left the already turbulent sub-continent in an even more complete state of turmoil.

After the partition of the country into the dominions of India and

IT CAN HAPPEN . . . John Foster Dulles, GOP foreign affairs expert, told congress that Russia will "take over all of Europe" unless Marshall plan aid is given to the European democracies, immediately.

HOT WATER . . . Thanks to the round metal disk seating in the center of his water trough, this horse has the laugh of old man water. It is a Sontag water heater, produced by Westinghouse to assure farm animals of a drink despite the cold.

IS THAT SO? . . . Nikita S. Khrushchev, secretary of the Ukraine Communist party's central committee, was quoted by radio Moscow as virtually admitting that the Stalin regime is combating anti-Soviet uprisings in the intensely nationalistic Ukraine.

'CONSCRIFT' . . . Wearing the rags given him in exchange for his own good clothes, Nick Datsis, American barber from Worcester, Mass., managed to escape from Greek guerrillas who "drafted" him and made him their battalion barber.

Creed of Destruction

What is Communism, as exemplified by members of the Communist party in the United States? Some say it is a religion. Well, if the whirling dervishes are religious, so are the Communists. They are certainly as fanatically devoted to their creed. If the American people were a little more familiar with that creed, they would understand the Communists better, and it is to be remembered that that creed is more than an "I believe." It is a set of rules, and if you don't obey those rules, your life is in danger. Communists don't believe in punishment in a future life. Their motto is "do it now," and they do it.

My attention has been directed recently to one paragraph in the Communist bible, a resolution passed and accepted and integrated into the internationals. It explains just what you can expect of Communists when they join a club, a union or any international body. Expect no more of them; so keep. This is the paragraph:

"There can be no question of the utilization of bourgeois governmental institutions except for the purpose of their destruction."

Many explanations have been offered as to why a normal, natural-born American should embrace communism. The reasons range all the way up and down the scale, and include everything from a broken heart to some hidden neurosis that makes other people nag their husbands, maltreat their wives, drink, kick the dog or jump into the river. But whatever the urge is, it has some strange effects on the patient.

Take, for instance, that one-time firebrand member of the "Wobblies," Elizabeth Gurley Flynn. Many of you recall the pictureesque IWWs, "International Workers of the World," who flourished in the early 1900s. Miss Flynn played a spectacular part in the famous Meantime range strike of 1912—her father was a miner.

She helped organize the Communist party in America in 1929. Now she conducts a column "Life of the Party" in the party organ, the Daily Worker, published in New

York, which follows the party-line as a fox follows the aniseed bag or a rat follows the smell of cheese.

In a recent column, Miss Flynn described a luncheon in honor of the "First Daytime Women's Strike" of the Communist party's Kings Highway section. Says she (note how Marxists flatter over the simple acts of the housewife): "The luncheon which the women prepared themselves was so delicious it is evidence they are equally good Marxists and good cooks. How can I refuse under such temptation?"

Perhaps sensing that someone might reach for a grain or two of salt before perusing her observations further, she sounds a somewhat different note in another breath:

"The Communist party of New York affords us not only this wonderful opportunity (attending a big meeting) to meet together to memorialize the noble life of Lenin, but give us inspiration to be guided by his teachings."

BUMPER BABY CROP

Boom in Births Means Changes

Biggest boom of all right now is that which is expanding the U. S. baby crop to historic proportions.

More than 36 million new babies have arrived on the scene in this nation since 1940, when the baby boom began. That is nearly 11 million more than had been expected on the basis of what has been considered the average yearly birth rate of the past, about two million.

And this bumper crop has increased the total national family to more than 144 million souls—considerably more than even any government bureau had counted on.

Last year more babies from heaven arrived in the U. S. than ever before in its history, a whopping 3.7 million; and this year probably will measure up to approximately the same standard.

Big families mean big changes, as every parent knows. Although the future is seldom less than obscure, it is possible to predict in general terms what this expanded birth rate will mean to the U. S. during the next 10 or 15 years.

There will be more growing children to provide for. That means bigger markets than ever for industry, business and manufacturers. It will mean the building of more schools, the production of more food, the manufacture of more clothing, the building of more homes.

The infants' wear and toy industries, of course, have already looked to new loyal of endeavor and production.

As the children start to school and outgrow their little quarters at home the construction industry will

begin to feel the impact in the form of a stepped-up demand for more single-family houses, builders believe.

This, in turn, will give impetus to the home furnishing and home equipment business. Further, it will mean the building of more banks and stores and the extension of bus and street car lines. In short, it will stimulate and sustain a higher level of employment.

Another implication lies in the fact that the present babies will have reached the peak of their youthful strength between 1960 and 1970. Military and other authorities are quick to figure that if universal military training were to be adopted now America's potential military strength would be extremely impressive in the eyes of the world at that time.

HOUSEHOLD HINTS

Fold a dishcloth twice to form a square, then crock it a simple edge around it with bright thread. Press to a washable pot-holder or a cheery table mat.

When planning to add a room to the house, don't change the location of the bathroom unless you want to get into the expense of moving extensive plumbing. Another thing to watch is the building line. It's so easy to encroach upon your neighbor's property if you are not careful.

When disconnecting electrical appliances from outlets, do not pull on the cord. Grasp the plug itself firmly and pull it free.

Keep the family sewing machine covered when it is not in use to protect it from dust.

To out up raisins for baking, use a pair of old scissors which have been dipped in hot water.

Cabbage Roll-Ups

(Serves 6)
1 head of cabbage
1 pound ground lamb or beef
2 onions, chopped
1 cup uncooked rice
Salt and pepper
2 cups canned tomatoes
1/2 cup water

Cook cabbage until tender; drain and then carefully separate leaves from the stem end. Combine meat, onions, rice, salt and pepper. On each cabbage leaf place several tablespoons of the mixture, then secure with toothpicks.

Place the roll-ups in a greased casserole and add the tomatoes which have been mixed with water. Cook in a moderate (350 degrees) oven for one hour or until rice is tender.

Add cream sauce and pimiento to leftover veal roast as demonstrated in the following recipe, and you will have an excellent meat dish:

Veal à la King

(Serves 3)
1/2 green pepper, shredded
1/4 pound mushrooms
2 tablespoons fat
4 tablespoons flour
4 cups milk
Salt and pepper
3 cups diced cooked veal
1 pimiento, sliced

Cook green pepper and mushrooms in fat for eight minutes. Remove from fat. Add flour to fat and blend. Add milk and seasonings and cook until thickened, stirring constantly. Add green pepper, mushrooms and remaining ingredients and heat. Serve on toast, in bread croutades or patty shells.

English Hot Pot

(Serves 4 to 6)
5 potatoes, pared and sliced
1 1/2 pounds lamb shoulder or breast
2 lamb kidneys

2 cups tomatoes
2 cups canned peas
1 green pepper
Salt and pepper

A little meat will go a long way if you serve attractive cabbage roll-ups in a bed of buttered noodles. Round out the meal with buttered green beans and pickled beets. Add some simple baked fruit for dessert.

BETTER DAIRY HERDS . . . Dairying is one of the five major points emphasized in the community development plan at Tupelo, Miss. Twenty Jersey heifers, imported from the Isle of Jersey for Lee county breeders, are shown here in the hands of F. F. A. club members before being distributed to their owners. Each heifer costs \$1,000.

SMALL TOWNS, U.S.A.

Improved System of Agriculture, Social Reforms Are Major Needs

By EARLE HITCH
Released by WNU Features

"The small community must be regarded as a cross-section of our common life, with economic and cultural resources which will satisfy all the major needs and cravings of most men."

That thesis, expressed by Dr. Arthur E. Morgan, one of the leading U. S. authorities on the values of small community life, formed the basis of the community development plan instituted at Tupelo, Miss.

The plan, now in its second year of operation and hailed as a model in revitalizing rural communities, has resulted in development of the resources in the area surrounding Tupelo on a wide scale. The region embraces five populous counties, with a total population of approximately 175,000.

Diversify Farming.
Most of the agricultural production comes from small family-type farms on which cotton has been the main source of income. But cotton has been hard on the land. Also it has its ups and downs as a money crop. So the small farmers around Tupelo are being introduced to an improved system of agriculture. The land is suited to intensive cultivation, and a general program to build up the land is proceeding. What is being done at Tupelo is worth the notice of small farm communities everywhere.

The best thing about the Tupelo plan is this: It is practical. The difficulties as well as the needs have been taken into consideration, and the goals have been fixed accordingly. The plan does not expect to accomplish everything in a day. It is based on a reconversion policy that is doing two highly desirable things at the same time. It is achieving some immediate results and laying foundations for more important results in the future.

Interest in the farmers' problems is not new in Tupelo. The banks, the businessmen and the Daily Journal, Tupelo's forward-looking newspaper, for years have recognized the importance of making farming pay a good return. Thirty years ago, when the boll weevil did heavy damage in the cotton patches, the banks began promoting dairying. For years the Daily Journal has been campaigning for better agriculture. The farmers have been urged to look after their soils, and to consider growing things beside cotton.

Recalls Pitfalls of Past.
This campaign has had the personal interest and a great deal of the time of the Daily Journal's energetic publisher, George McLean. Two years ago, when McLean returned from war service with the navy, he remembered the troubled times on the farms after World War I and during the depression. He was aware that cotton again might bump up against a declining market. He knew too that mechanization was not far away, and that the small farmers would be at a disadvantage when machine production is fully established. McLean determined to make a careful study of the whole farm outlook as it affected the Tupelo region.

He employed, at the expense of his newspaper, a professional farm management organization to make

Settling a Quarrel
An unusual custom prevails among the Apa Tanis, a tribe of 20,000 living in an isolated section of the Himalayas. When two men are engaged in a personal quarrel, such as over a debt or a woman, they are allowed to kidnap members of each other's family and imprison them in a private stockade until a settlement is reached.
