Jonathan, Loyal Friend Lesson for July 25, 1948

WELL might we term this a lesson on the facets of friendship. Rarely will one come upon such a splendid example of friendship in

Such was the Dr. Newton friendship of Jonathan and David—a sheltering tree—one soul abiding in two bodies. Although Jonathan's father attempted at least ten times to kill David, Jonathan was drawn the closer to David, with whose

soul his was knit. The record of this friendship is found in our scripture and devotional readings for the lesson, with the golden text from Proverba 17:17, "A friend loveth at all times."

A PRINCE SHARES WITH ... A SHEPHERD

TONATHAN was the crown prince J apparent. David was a shepherd boy. Saul expected to place Jonathan on the throne. God had selected' David.

Jonathan would, no doubt, have made a better king than Saul, his father; but he had no desire to be king when he discovered the kingly qualities in his friend, David. Not once did Jonathan ever indicate any disappointment in not becoming

JONATHAN STANDS UP FOR HIS FRIEND

TATHEN Saul openly plotted, the VV death of David, Jonathan begged his father to reconsider his course and spare the life of the man who had killed Goliath and had proved himself the valiant friend of Saul. This was the final test of Jonathan's sacrificial dove for David. He might have remained silent, thus aiding in the death of the one man who gtood between him and the throne. But Jonathan was made of the stout texture which counts no sacrifice too dear for a friend. He was willing to stand up and be counted when it meant that he would not become king. Thus we see that true friendship is not always easy. It usually is very costly, but it pays big dividends in the coin of eternal wealth.

FRIENDSHIP THAT COSTS

A ND like as Jonathan stood up And witnessed his lasting friendship for David, at a very great cost, so are we today summoned to this ennobling type of friendship for Christ. "Ye are my friends if ye do whatsoever I command you." he once said.

Young people find it rather costly to be loyal friends of Christ today. There are many siren voices that invite young people to take the low road-social drinking, gambling devices of one sort and another, satisfaction of sensual desires. But the true friend of Christ will withstand these voices, choosing rather the high road of Christian gentlemen.

SACRIFICIAL FRIENDSHIP

66 THENDSHIP is the loveliest I flower in the garden of humanity," according to my cherished friend, Dr. Hight C. Moore. I would add this thought—true friendship flowers in the garden of humanity, but it finds its life in the Garden of God's Perfect Eden.

I have not known one single friendship that has impressed me that did not stem from above. "How can two walk together except they be agreed?" And the only cement that will hold human hearts together, one soul in two bodies is the grace of God.

"Friendship is as God, who gives and asks no payment," said Richard Hovey, and not until the human will is yielded to the will of God, even as was the will of Jonathan, can sacrificial friendship come to flower and to harvest.

Can Your Soups and Relishes Now (See recipes below)

Canning Tactics

ISNT IT CONVENIENT to have home-canned foods in good supply before the garden runs out? Yes, you may have been putting up fruits and vegetables as well as some of the early jams, jellies and preserves, but how about some of those extras that help tide you through the win-

There are a variety of homecanned soups which are simply grand when lunch time rolls around on a snowy day. And, of course, there are pickles and relishes that are always handy for adding zest to sandwich suppers or for rounding out the meat course.

IF YOU LIKE a good, well-seasoned tomato soup, here is an easy way to put up one. This is a smallsized recipe, but it is concentrated so it will go a long way after you heat it and add milk or water. Of course, the recipe can be multiplied.

> Concentrated Tomato Soup (Makes 2 quarts)

12 pounds tomatoes 3 small bay leaves

12 whole cloves 2 teaspoons salt 2 teaspoons sugar

Choose firm, red ripe tomatoes. Wash and remove cores; then Add hay leaves and heat to boiling. Reduce heat and simmer for 10 until of the consistency of gravy. | quarts. Tie cloves in a cheesecloth bog, and add during the last five minutes of cooking time. Remove cloves and

add salt. Pour into hot sterile jars, place on lids and simmer for five minutes in a boiling water bath. IF YOU LIKE to can meats, here

are some ways which are delicious for preparing them:

(Makes 4 quarts)

2 1/4 quarts tomatoes 2 cups sliced celery Z tablespoons salt

I teaspoon sugar 1/8 teaspoon black pepper

6 pounds boneless veal, cut for

Peel tomatoes, remove cores and slice thin before measuring. Or use one and one-half quarts cooked or canned tomatoes. Mix tomatoes with celery, salt, sugar and pepper; heat to boiling and cook rapidly for five minutes. Add veal, cover and simmer for 20 minutes. Pack into clean hot jars and fill to within one-half inch of top. Adjust lids according to manufacturers' directions. Process 75 minutes for pints, 90 minutes for quarts at 10 pounds pressure.

Beef for Slew (Makes 4 quarts)

10 pounds of beef 3 tablespoons shortening 2 tablespoons sait

Use either chuck or rump of beef Trim off excess fat and weigh meat efter frimming. Wipe with damp cloth and cut into pieces to fit jars. Melt shortening and brown melt in skillet. When well browned add just, enough water to cover, heating until all browned residue from skillet is dissolved to make a rich gravy. Pack meat into clean hot jars to within one inch of the top. Add one and one-half teaspoons salt to each quart. Adjust lids. Process 75 minutes for pints, 90 minutes for quarts at 10 pounds pressure.

ANY VEGETABLES you like may be used in a soup combination, but the processing should be done in a pressure cooker for vegetables unlike tomatoes are a non-acid food and need more processing.

If the garden is coming to the end of its yield, here's a good batch of soup that can be put up from it: End-of-Gardon Soup

(Makes 3 quarts) . 2 paranips, poeled

2 medium-sized pointees 4 carrols, seraped

2 cups quartered, pecled tematoes 2 bunches celery, cut

1 sweet red pepper, trimmed and cut in strips 1/4 pound spinach, washed and shredded

I cup cut green beans 2 quarts water

Clean all vegetables thoroughly before preparing. Cut in rather | up with the answer. Bates was small pieces. Place in soup kettle, add water and simmer for two to three minutes. Pack while hot into place in a large preserving kettle. | clean jars; add one teaspoon salt to each quart. Adjust lids; process in pressure cooker, 60 minutes at 10 minutes. Put through sieve or food pounds pressure for pints, or 70 mill, return to kettle and simmer minutes at 10 pounds pressure for

Chill Sauco

(Makes 4 pints) 19 tomatoes I quart chosped sweet red pep-

pers Leup finely chopped white

onions 1 hot red pepper, chopped

I quart sugar

2 tablespoons salt 5 cups vinegar

I tablespoon celery seed

1 tablespoon ground cinnamon 1 teaspoon ground cloves

Scald tomatoes, remove skins and cores. Clean and chop remaining vegetables. Heat to boiling in a large kettle and cook vigorously for one and one-half hours. Add spices tied in two of three thicknesses of cheesecisth and cook one-half hour longer until the mixture is thickened. Remove spice bag. Pour into hot sterile jars and seal immediately.

Chunk Pickles (Makes 8 pints) 6 pounds large encumbers 3-1/4 cups salt 3 quarts water 2 tablespoons alum

I quart vinegar

8 cups sugar

2 2-inch sticks cinnamon Z blades mace I tablespoon whole cloves

crock or iar; cover with cold brine made of salt and water; let stand two weeks. Remove cucumbers from brine, wash, trim off stem ends and cut crosswise into one-inch pieces. Cover with cold water; add alum; let stand overnight. Drain; wash

Wash cucumbers; place in stone

well. Combine remaining ingredients and bring them to a boll. Pour immediately over cucumber chunks. Repeat the process for three mornings, reheating the syrup every time, On the fourth morning, place cucumbers in jars and pour hot syrup over them. Seal at once. Released by WNU Features

Modern City Frightens Prisoner of 34 Years

CHICAGO:-Robert Webb, 60 years old, stared at the hurrying crowds and the giant buildings in Chicago's Loop and couldn't believe what he

It was the first time Webb had seen the city with the eyes of a free man in 34 years.

. Webb was known as Chicago's first automobile bandit. But the automobile traffic he saw was almost more than he could face.

Except for a few fleeting glimpses of the city on the way to the Criminal Courts building for hearings on petitions for writs of habeas corpus and a six-week interval when he escaped in 1925, he has not seen the outside world since he went to prison in 1914.

Webb killed a policeman trying to arrest him in his hideout on a charge of automobile theft. He was sentenced to life imprisonment but was released on parole.

He walked hand-in hand with his sister, Mrs. Mary Webb Hamilton, through the streets of the city he knew as a youth.

"I can't believe it," he said. "I never thought such changes could take place, even in the time I've been away."

Webb visited Gen. John V. Clinnin, who supported more than a dozen attempts to gain Webb's pa-

Webb won Clinnin's gratitude in 1917, when he helped to quell a prison riot. Clinnin at that time was a major in charge of a national guard unit fighting the riot.

Webb gripped Mrs. Hamilton's hand as the time came to cross the street. The shifting traffic lights and the halting and stopping of hundreds of automobiles appeared too much for him. He almost was afraid to cross when the lights turned green.

"It was nothing like this the last time I was here," he said.

Airman Taxis Plane Down Main Street; Fined \$10

DALTON, NEB. - Aeronautics department officials were stumped when William' D. Bates taxled his plane up Main street.

Bates had landed on a field outside the city limits. He maneuvered his aircraft onto the highway, proceeded into town and parked in front of a cafe. There he sipped a cup of coffee.

Study of the department's rules failed to show a precedent. The state highway patrol came fined \$10 for operating a motor vehicle more than eight feet wide on a highway.

Buby, I, Swims and Dives In Movies for a Living

LOS ANGELES.—Dennis McShane has gone to work early in life. Dennis is only one year old but he has bloscomed out as a fullfledged wage earner. He already has a social security card. He can't walk yet, but he's husky and weighs 32 pounds.

Dennis can swim, and how. He started owimming in the bathtub when he was five months old and, at nine months, his parents, Mr. and Mrs. Glenn McShane, put him under the training of an expert coach.

Dennis has appeared in one movie and is scheduled to start work in another soon. The baby can swim across a 30-foot pool and dive from a regulation diving board.

Persistent Suitor Refuses To Take "No" for Answer

ST. LOUIS, MO. — An 18-year-old Minneapolis, Minn., girl was on her way back home by train after a two-day auto trip marked by several marriage proposals.

Marion Noodleman came into a police station and asked for assistance after Lawrence Londer, 22. also of Minneapolis, threatened to leave her because she kept saying

She said he proposed "repeatedly and unsuccessfully" during the trip which included stops at Mason City, Ia., and Kansas City. She said Londer even took her to the city hall here, "hoping that if I got close to a marriage license. I might change my mind."

Londer was not held.

Police Wait Three Hours As Burglar Sits With Baby

NEW YORK. - Two detectives brought in their man-but only after they'd joined him in a three-hour baby-sitting task,

The officers, John Tracy and Edward Gillen, investigating the burglary of a candy store, seized their man in his Bronx home.

Kenneth Connors, 26, admitted the burglary, police said. But he told the detectives he'd be unable to accompany them to the police station. His wife, he explained, had gone to the movies, leaving him to care for

The officers shared the baby-sitting task. Three hours later, the wife returned and Connors was taken to the station house where he was booked on a burglary charge.

Henry's Widow Was All Out for Forced Labor

"Do you wish to have the body cremated or buried?" the undertaker inquired, when the widow called to arrange for the interment of her late husband, Henry.

"If it's up to me, I want you to cremate the lazy rascal and put his ashes into an hour glass," the long-suffering woman replied. "But, my good woman!" ob-

jected the undertaker, "I couldn't

do that. Why that's unthinkable!" "Unthinkable, my eyei" reloined the widow. "That good-fornothing loafer nover worked lick in his life, but now that he has no cay in the malter. I'm going to make him to be useful at

Coving

Hearer all the time

KURAL telephone lines are reaching out further, day by day-nearer to the farms and ranches of those who have been waiting for telephone service.

In the western states served by this Company, the post-war rural expansion program is ahead of schedule. During the past two years we have placed nearly 40,000 poles, strung over 15,000 miles of wire, and added some 35,000 farm telephones.

This is the sort of job that never ends. It will go steadily on, bringing dependable communications to more farmers and ranchers for their added security and pleasure.

MOUNTAIN STATES TELEPHONE & TELEGRAPH CO.

BACKWARD GLANCES

40 YEARS AGO FROM 1908 CARRIZOZO NEWS

Plans for a new depot for Carrizozo have been drawn, submitted and approved, so we have been reliably informed. The work of construction is to begin in a few days, the structure is to be a twostory frame, the first story to be used for baggage and express, office and waiting room. The second story is to be utilized by the trainmaster, the dispatcher, and assistants in these departments. The new building will adjoin the old depot on the west.

A party of automobilists made the trip to Gran Quivers and return Sunday, a distance of 45 miles They left here about 6:30 in the morning, arrived at the ruins about noon took lunch there, and, after exploring this ancient and silent city for two hours, started on their return, reaching Carrizozo at seven in the evening.

A staunch republican from the ern part of the state. Santa Fe side of the territory was in Carrizozo one day this week. Asked his-opinion on the political situation he stated his opinion was that Bryan would be the next president and that he would be supported by a democratic house. Regarding the republican nominee the following day, for delegate he was of the opinion it would be either Spies or Andrews, the chances favoring the latter; and yet, there was a chance for a dark horse from his side of the territory bobbing up. But it doesn't matter who is nominated, as those on the inside concede the election to Larrazola; for he holds an unascallable position, and is much stronger than two years ago, when the returns had to be doctored to defeat him.

-WEEKLY NEWS ANALYSIS-

Arabs and Jews Go Back to War As U.N. Truce Fails in Palestine; Truman OKs Farm Price Support

-By Bill Schoentgen, WNU Staff Writer-

(EDITOR'S NOTE: When epinions are expressed in these columns, they are these of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

FAILURE:

U.N. Truce

There was not peace, but once more a sword in Palestine. The United Nations truce had failed.

As the four-week interruption of hostilities between Arabs and Jews dragged somberly through its final hours, combatants on both sides were making preparations to resume warfare.

They had failed to come to terms, and that failure arose out of the fact that there had existed no political or social basis upon which a peace agreement could be rested, nor were either the Jews on Arabs. particularly eager to create one.

Their attitude throughout the truce negotiations had been that the contest over whether the state of Israel should be allowed to exist must necessarily be a flat, wifterlose battle with no middle ground solution possible.

Count Folke Bernadotte, U.N. mediator in Palestine, had tried hard, but he had had to carry out his negotiations in what might be termed a spiritual vacuum between the Jews and Arabs. There simply was no meeting of minds upon which he might have capitalized.

Before the truce expired Ber- BERLIN: nadotte had endeavored to get it extended and continue the negotiations. Israel had agreed to such an extension but the Arab league opposed it.

Previously, during the last days: of the truce, the Arabs had 'rejected a plan submitted by Bernadotte which included an extensive revision of the now defunct U.N. partition scheme.

Bernadotte's proposal would have restored the area of Palestine to what it was before Trans-Jordan was separated from it, and that total area then would have been partitioned into independent Arab and Jewish states.

The plan, as presented, had a ring of desperation in it. It must have been obvious, even to Bernadotte, that the Arabs would not accept such a scheme, particularly since they had violently opposed | powers' plans for a West German the original U.N. partition idea.

Trans-Jordan was especially antagonistic to the plan, insisting that it would put the nation under at lof the city to save the dwindling least partial jurisdiction of the United Nations, thus making it no better than a dependent state.

As Bernadoite and his staff left Palestine guns already were firing and the Holy Land had relapsed into a condition of war.

FARM BILL:

Price Support

To the accompaniment of his now customory blast at the 80th congross President Truman signed into law a farm bill that extends present price support policies for 15 months and establishes a long-range, flexible support program to begin January 1, 1050.

Signing the bill, the President said: "I wish to make it plain once again that legislation for price supports is only part of the action this REPUBLICAN: congress should have taken to meet the problems of American agricul- Changes, If

Thus, he was not criticizing the farm price support bill in itself but | reality for Gov. Thomas E. Dewey rather giving another re-run to the Jor New York, the Republican nomfamiliar themo whereby he has been castigating congress for doing a little when a lot more was leins that will face him if he does needed.

Congress, he said, falled to enact legislation to strengthen the soil conservation program; it did not provide the necessary funds for marketing research; it did not act on the international wheat agreement. It failed, he specified, to "the serious problems of rural housing, health and education.**

"In the field of agriculture, as in 'so many others, most of the business of the 80th congress was left unfinished." Mr. Truman observed. Under the extension bill farm prices generally will be supported at their present levels, However, the support price for cotton will drop from \$114 to 90 per cent of

parity. The idea behind patity farm prices is to insure the farmer the same buying power, compared with the rest of the community, that he had during a favorable crop period. Untally the standard interval upon which parity prices are based are the five years from 1909 to 1914.

Tive other basic crops will conlinue to be supported at 90 per cent of parity. They are wheat, corn tice, peanuts and tobacco.

Spending Money

Rep. Hugh D. Scott Jr. of Pennsylvania has been chosen by Republican leaders as the national chairman to lead the party in the forthcoming presidential campaign. Scott is 47, a World War II veteran and represents the Germantown-Chesinut Hill district of Philadelphia in the house of representatives.

Trouble

As U. S. planes continued to fly all of you on it." tons of food into beleaguered Berlin the East-West stalemate over CYCLES: Germany was solidifying in a stubborn mold.

The Russian blockade of Berlin had brought the painful German issue to a head, and both the Soviets and the western powers were anticipating that events might begin to move very rapidly soon,

There were these developments: The Communists announced that they were drawing up a constitution for a German republic and also a two-year plan to link Berlin economically with the Soviet zone.

At the same time, on the free side of the iron curtain, German political leaders were expressing their opposition to the western federal government,

In Berlin, power cuts were ordered in the three western sectors coal stocks. The action was taken desplie the fact that coal shipments had begun to arrive by air.

Key to the situation, perhaps, was the Communist proposal for a new constitution. The Soviet-sponsored German People's Congress of eastern Germany announced that the document would be official. In a statement the group said that "Germany is an indivisible republie made up of states and that executive power stems from the people."

That appeared to bring Soviet Intentions more or less out in the open. It means that Russia apparently is determined either to force the western democracles out of Berlin or bludgeon them into an agreement whereby the Soviets would be in virtual control of the city.

Although the presidency of the United States still is far from a ines neveribeless is giving considerable thought to some of the probret elected to the office.

If, for instance, he is to make good his promise to sweep out "16 years of Democratic cobwebs! from the federal government, these are some of the tasks he will be expected to perform: Replace hundreds of officials in

Washington and all over the nation with men of his choice who will put his policies into effect. Establish with congress a coordi-

nated program of policies for all federal departments, both foreign and domestic.

Streamline government functions and eliminate duplications in the present atructure of alphabetical agencies and bureaus.

RAILROADS:

No Strike Federal Judge T. Alan Goldsbor-

ough was not a man to stand idly by and watch society disintegrate, as he termed it, so he issued an infunction forbidding a national rail

The injunction was a permanent one replacing the temporary 'no strike" order he issued last May ! after the government had selzed the railroads in the face of an impending strike by the three operating brotherhoods.

Justifying his action, Goldsborough said that if he had not issued the order "the whole economic and political system of the nation would be upset."

Although rail unions had protested that a permanent injunction was unnecessary, Goldsborough said they could not be permitted "to adopt a process which will disintegrate society itself." That held true, he pointed out, regardless of whatever merits the union's case might hold.

"Our political influence throughout the world would be done away with, we'd become a laughing stock, To permit a strike of this kind is something society should not be forced to tolerate."

But as the stalemate dragged on the disputants apparently lost some of their zest for the contest.

Finally a series of conferences, arranged by John R. Steelman, presidential assistant, resulted in a more or less amicable settlement: The unions agreed to accept a wage increase of 15% cents an hour, plus some changes in operating rules.

Chortled President Truman as he called the labor and management representatives into his office: "You did this on your own hook and I feel very good about it. I congratulate

Freezing

People who are addicted to the theory that human existence is defined by cycles have made a horrendous prediction: This will be a world of dictators for the next 250 years.

That prognostication was made in a "law of growth of nations," published by the Foundation for the Study of Cycles. This law indicates further that after the period of diotators will come a static or "frozen" civilization.

This "frozen" civilization probably will be a happy one, but it is, nevertheless, doomed to deteriorate. The end is foreseen when younger peoples, eager for the loot of the world, rise to give the coup de grace to the emasculated western powers:

Who these younger peoples are is not revealed. They may be a fresh group of batbarians or nearbarbarians who will come sweeping down from the north or up from the south.

Low Finance

In addition to giving Knasin a false intentive toward becoming particularly nasty in Berlin, the recent surrescy revaluation he Germany's western reach enumed a certain amount of persouri flancist confusion wind, This German haustran inrued in her old entrancy for the new money spendered by the western pewers, receiving 46 new marks for se of the old. But the new money will buy as much as the wid-she hones.

Let's talk about the ape!" he There was a quick, breath-taking filled with deep shadow the narrow finished quickly, harshly. slot of the alley between them, and the noise of the city was a screen laughed. about them, isolating them from the rest of the world.

"That's what you think now, but yould get straight in your thinking in a few weeks, or months, or years. Then it would make a lot of difference." Across the alley, Ralph Pell leaned bronzed arms on the low brick parapet of the other building and shook his head in slow deliberation. Pink neon glow spilling into the alley from the street eight floors down glinted on his brown eyes and made odd shadows in his curly, brown hair. It, changed to an impossible color the tan of his knitted sport shirt. "After that, it would always be there between us. Or rather, it wouldn't be there,"

He laughed harshly and reached down to feel, through brown trouser fabric, the device which substituted for the flesh and bone he had left on a field in Normandy when gunfire from the ground met parachutes drifting silently in the darkness. He would never forget that.

"No. Ralph." Harriet's small fist struck the stained brick of the low parapet bordering her own flat roof. as if to drive understanding across the dark drop of the alley between them. "It would never make any difference to me. To me. you would always be-" She groped momentarily for a word that would not

"Normal?" His voice was flat and

"Please, Ralph." Her voice rose a little.

"Sorry, but I'd never be that; even with two real legs." He laughed shortly. "Service medico says I'm part of a mind, as well as part of a man. Let's don't kid ourselves. Too much is riding on it. It would always be there between us like-well, like this alley is between us now. I'd have as much chance getting over it as I would getting over this alley." He glanced down at the eight-story drop, the aliver of pavement below. "Imagine me doing that. Be your age, Get wise to some facts. The best thing for both of us to do is to forget we ever-"Ah!" He made a savage gesture. "Let's talk about something elee."

Harriet said that quickly, almost desperately. "Let's talk about you peeping at me on my roof here this summer. Let's talk about you waiting downstairs to introduce yourself as the

peeper. Let's talk about the places we have been together, the things we have done. Let's talk about our meeting up here with the alley between us in the evening. Let's talk about-" Her voice slopped for a moment on an odd, sharp gasp. "Let's talk about the big ape escaping from the city zoo this afternoon,

Lel's-" "Ape escaping from the 200?" Ralph Pell stood, tall and slender in the night. "I haven't heard anything about it. You're sure?"

"You probably missed it." Harape is big and black and ferocious." I-I certainly wouldn't like to meet no one here to help me. Goodness!

ence to me, Ralph, and I meant | and glad to get away from humans. | down through the black Normandy And I didn't peep at you on your night, a huge silk dome above him, Dusk dimmed the coral gold of roof. I looked. It can't be a crime bracing himself for the blast from

THOSE DISC JERKIES

We weren't aware that those recorded radio programs, M. C.'ed by eager young beavers known as "disc jockies," had become so much a part of teep-age life until one of our histyle scouts from Nashville, Tenn., told us it was customery to end up an evening date at the local radio station to watch the platters go round and listen to the jockey loke. That piece of news set us out on the trail for more disc jockey info. Tune in to the next transcribed paragraphs, if you're interested.

MOTHER'S DAY-Up in Montreal, Canada, Disc Jockey Bob Horne, who conducts a regular after-school clam bake for teen-agers. has established every Thursday as Mother's day. Teen-agers request records to be played for their mothers and the Mother-of-the-Week is picked from their letters and is sent a dozen roses. Wonder if any mother has been honored with Spike Jones' "William Tell Overture."

RHYME TIME—Out Detroit way. a disc jockey known as "Jack the Bell Boy," reads poems submitted to him by teen-agers. He also sends out membership cards and club pins to every teen-ager who wants to join his disc club.

-CLOCK WORK-In Dayton, Ohio, teen-agers depend on Bud Baldwin's "Breakfast in Bedlam" to get them to school on time. And in Oklahoma, disc jockey Tom De Vore spins special "Two-Minute Egg" tunes for the benefit of housewives who like to boil their eggs to music.

CELEBRITY SESSIONS - Lucky St. Louis teen agers who attend Disc Jockey Gil Newsomes' Teen Thirty" club have actually met such guest stars as Buddy Clark, Nat "King" Cole, Eddy Howard, Frankie Carle, Stan Kenton and, oh, so many others. Also, after the broadcast, there's an hour of danc-

ing right there in the studio. Well, as one disc fockey said to another disc jockey. 'Go fly in a saucer." And that, junior, explains the mystery of those discs you saw

'Starter' Fertilizer **Boosts Tomato Yield** Best Results Obtained With Cannery Produce

Tomato yields have been increased greatly by scientists who used starter solutions at transplanting time. Completely soluble, high analysis fertilizers now are available which will make excellent "starter" or transplanting solutions for cannery tomatoes, according to the New York state experiment station.

One of the best of three new formulas is a 15-30-14 combination of chemically pare ingredients, which dissolves completely in water, thus avoiding the time and trouble

of straining out the insoluble residue which results if ordinary fertilizers are used for this purpose. Excellent results may be obtained from using the 15-30-14 formula at the rate of four pounds to 50 gallons of water, or 10 pounds to a 5-10-5 to the same amount of water.

The solution is applied at trans-Manting time at the rate of onefourth pint to the plant. Increased yields of a ton and a half of to--matoes are not uncommon from the use of these solutions, which cost less than \$1 an acre for materials. The beneficial effects are especially marked at the first picking of cannery tomatoes. Market gardeners are not likely to find the practice so beneficial because of the more intensive fertilization of their land and the better nourished plants they usually employ.

Precautions Suggested To Cut Haying Mishaps

Haying mishaps annually account for a large percentage of the mounting farm accident toll, National Safety council points out in urging farmers to take extra precautions during the haying season.

To reduce hazards and thus avoid dicastrous losses, here are a few suggestions:

Carefully, check all equipment for defective hitches, ropes, pulleys, lifts, hay racks or ladders. Loft floors should be put in good repair and hay chutes guarded.

Make storis and stops gradually in all having operations and watch out for falls from hay racks, hay steeks and hoy mows.

Machinery should be stopped and thrown out of gear before oiling, adjusting or unclogging, and safety guards should be kept in place at all times.

Pitchforks are dangerous; always place them where they are in plain sight of all workers. Nover throw a pitchfork.

Do not wear loose or ragged clothing which may caich easily in moving machinery.

Damp hay is one of the principal cauces of barn fires. Be sure the hay is well cured before storing and check regularly for several weeks. for any signs of heating.

Two Row Stalk-Cutter

The two row stalk-catter t turned on its skids for transpost belween flelds. When reversed (with cutting blades on reel removed) and riding on cutter blades, the tool levels corn stalks so the ground can be prepared more easily for the next crop. Are welding makes a rigid frame that is required when the cutter is hauled through a field behind a tractor.

2, 4-D Spray Proves Fatal To Some Woody Plants

Many woody plants, including willows, are partially killed by 2, 4.D sprays. Killing of large shrubs or trees cannot be expected. The spray may be used, however, to prevent resprouting of susceptible species by applying as a concentrated apray to resprouts after the trees and shrubs have been cut. Repeated applications will be necessary to prevent

NEW MEXICO EMPLOYMENT

Total employment in New Mexico mining, manufacturing, transpcortation and utilites, trade, finance service and regular government industries continued its upward trend for the third consecutive month and increased 900 workers according to a release by Benjamin D. Luchini, Chairman-Executive Direcfor of the Employment Security Commission.

Workers employed in the above industries now number 108,000 compared with 107,100 in May 1948, and 102,000 in June 1947. Increasco occured in manufacturing, transportation and trade; mining, finonce, and cervice retained , their May levels while government doc-

Manufacturing establishments show the greatest gain, 600, from er and lumber products production. An increase of 200 is noted in wanulacture of food products.

The decrease of 100 in gas and petroleum mining, caused by altortage of material is offset by an increase in copall metal mines. Contrary to previous ceasonal fluctuation cost mining employment has reduction

transportation employment 200. Dis contains 103 pages and 12 plates, persons having claims against the pensing of gasoline, food and gen. The area covered is mostly in New estate of said decedent are hereby cral merchandice, largely for fourist consumption, upped retail trade one and Colorado. The report has post office address in Ruidoso, New 200 workers from May, to 1,203 Imore than a year ago. Wholesale trade cained 300 workers during the last year and 200 aince May.

118,384 HUNTING AND FISHING LICENSES ISSUED

There were 119,304 hunters and fishing licenses and mixellaneous permits issued by thise State Game Department during the fixal year ended June 20, 1940, for an increase of 5002 over the previous year, cecording to ligures released by Elllott S. Barker, State Game Worden. The figures also show an increase \$30,374 in revenue from lic enses, the total for the fiscal year tieting \$456,327 hs against \$425,053 last year.

The Worden said that fishing lie leases and the fishing proportion of combination licenses made up 42-2% of the revenue, Bird licelises 12.8% and Big Game 45%.

Resident fishing licenses showed the greatest gain; the number being 4,739 over the previous year, while non- resident fishing licenses decreased by 2,345. On the other hand the \$2.00 20 day non-resident permits, good only at Elephant Buste, Caballo and Conchas Lakes, increased from 4.008 to 7,404 m gain of 3,396.

There was a loss of 2,484 non-reident hig game hunters for a 80% decrease, while resident big game! hunters increased by 2,781. Warden Barker commented that the loss in non-resident hunters was probably due to doubling of the hunting license fee. The loss of non-resident seeson fishing licenses was more than made up in number by the
