### Nogal News

It was very cold here Sunday and Monday. The thermometer was down to 22 degrees Sunday morning.

The R. E. A. contractors are clearing a right of way across Nogal Mesa, and all the people are pleased and excited over the prospects of getting electricity.

A number of the men who are on the committee for the Ranchmen's camp meeting met at the camp grounds on Nogal Mesa Saturday, October 16th to start the work of fencing the allotted area which was decided upon last July for camping grounds.

In spite of the difficulties encountered when Mark Sloan's post-hole digger broke down and the rocky-hillside post holes that had to be dug by hand, holes were all dug and some of the posts set. Another day was set to finish the job and hopes were expressed that more men would turn out to help. These present this time were Meador, Jack Robinson, Lon Merchand, Brack and Mark Sloan, Gilbert and La Moyne Peters, Henry and Bobby Peckles and faithful Ralph Hall who came with his working clothes on and as usual brought up his share of the work. About noon some of the women came over with a picnic lunch and hot coffee for the men.

### ARRIVED HOME FROM PORTO RICA

Master Sgt. and Mrs. Theodore Hobbie and children have arrived home from Porto Rica where they have been stationed the past two years. They are visiting their parents Mr. and Mrs. Vaughn Hobbie at Ruidoso.

### TEEN-AGE BARN DANCE AT CAPITAN SATURDAY

#### CORONA NEWS

(By Mrs. A. E. Mulkey)

#### BURGESS - RICHARDS

Mr. Freddie Burgess, son of Mr. and Mrs. I. H. Burgess of Corona, and Miss Elizabeth Richards, daughter of Mr. and Mrs. Ira B. Richards of Rodeo, were married Saturday, October 16 at the First Baptist Church in Las Cruces by Rev. Sidney Maddox who is their pastor. Miss Johnnie Godley was maid of honor and Miss Evelyn Turpening was bridesmaid. Paul Crane was best man with Sammy Bean and Joe Baird as ushers. The Bride was given in marriage by her brother Findley Richards. The Bride and Groom went to Cloudcroft for a short honeymoon trip. They are both Seniors at State College and will continue their studies there.

Mr. and Mrs. I. H. Burgess, Mrs. L. L. Vick, and Mrs. W. A. Mays were in Las Cruces last weekend. Mrs. Burgess went there the first of the week and attended a shower on Thursday given in honor of her daughter-in-law to be, Miss Richards. Later she and Mr. Burgess attended their son, Freddie's wedding. Mrs. Vick visited her sons, Ermon and Austin, and Mrs. May's son Carl.

The Federation Women's Club met October 14 for their regular meeting. The principal speaker was Miss Martha Kerr. Miss Kerr spent two years in Italy and traveled very extensively while there. She told of her experiences and illustrated her talk with pictures which she took while there. A group of women sang, "Neapolitan Nights" Doughnuts and hot spiced cider were served by the hostesses, Mrs. Geraldine Perkins and Mrs. Ruby Perkins.

#### Remember your Community Chest!

Mr. Clyde Jones of Clyde's Garage recently had an eye operation in Amarillo, Texas. He is staying at present, with a nephew at Clovis. We hope the operation was successful and that he will soon be back in Corona. Mrs. Ada Ryberg and her father, Mr. Alex Jones are taking care of the garage while Clyde is away.

Mr. and Mrs. Paul Brazel and son, Harry Preston, of Alamogordo were in Corona on business last week. Mrs. Brazel is a daughter of Mrs. Francis Melton of El Rancho Hotel.

Mrs. Ethel Wade has spent the past month at Dallas, Texas with her sister who is an invalid. She is expected home soon.

Mrs. Callie Franks and Miss Donnie Franks are in El Paso this week. Mrs. Franks plans to enter Southwestern General hospital.

Friday of last week Estancia played Corona boys their last football game of the season. The score, 0-0.

Mrs. L. L. Argenbright was in Carlsbad last week with Rev. and Mrs. Markham of Claunch. While there they made a trip through the Caverns.

George Melton, Jerry Stiggins, and Mennen Clements, former high school boys of Corona, were visiting in Corona last weekend.

Mr. Jesse Wade continued to be very ill, and under a doctor's care in Albuquerque. Mrs. Wade is with him. Their three boys are in school here in Corona.

The Laymen of the Baptist church of Vaughn came to Corona Monday night and held a good service.

Don't forget the Corona School Carnival this week, October 22-23 (continued on page 12)

The Art Tea given last Sunday afternoon by the Carrizozo Woman's club at their spacious club building was about the most interesting and completely, successful social event the club has held for a long time.

During receiving hours, Mrs. W. A. Nicholas, Mrs. Paul Mayer and Mrs. Clifton Zumwalt, poured coffee and tea. Every kind of lovely sandwiches and cookies, tea cakes and fruit and nut rolls were served.

More than three hundred guests called during the afternoon to view the large display of arts and crafts all of which were by Lincoln Countians.

More than one hundred paintings were exhibited representing oil, water colors, crayon sketches, embroidered designs and pictures of every kind. A few of the contributing artists were, Messrs. Peter Hurd, Kustanovich, Carl Ness, Otto and Ernest Prehm and Bernard Valuckas, Miss Grace Jones, Mmes. Ray Sale, Guselo Johnson, Rose silton, Helen Pior, Clint Branum, Zella Hansen, Elizabeth Tittsworth Wilson, and Miss Thelma White, and so many others we couldn't name them all.

In addition to many beautiful pictures shown, exhibits consisted of many lovely quilts, hand embroidered center pieces, pillow cases, towels, scarfs; about 10 crocheted bed spreads of every weight thread and design; any number of hand tooled leather bags, bill folds and other articles; hand hammered brass, copper and silver articles; some wood carvings, and inlaid wood designs of many kinds, bowls and some carved animals, by Mr. Clint Branum. Mr. Jess Garrison had a very beautiful sewing cabinet with many small blocks of wood inlaid entirely from Lincoln County wood.

Some ceramic designs, pottery, clay, and all little arts were well represented, with roses and other designs baked on.

A little girl had a table full of designs she had made from modeling clay.

There was shell work and some marvelous designs of shell jewelry. The Capitan Woman's club had on display a lovely, roomy cedar chest made by T. Utterback. This chest is to be in Carrizozo Hardware Company's window.

A great many articles of drawn work, cut work, and hemstitching were displayed.

Some of the quilts were elaborate and made with almost invisible stitches. Some of them were very old—veritable antiques. Others were put together with fancy designs.

The Glencoe Woman's Club had on display a larie quilt which had won a ribbon at the Southeastern New Mexico fair. This quilt was of considerable interest. Each ranch in that locality had its brand embroidered on a block with owner's name also embroidered either above or below the brand. We believe each ranch woman had made her own block.

Don Shults had some airplane models on display. One especially elaborate design.

Examples of woven rugs, knit afghans "throws" and many things so lovely that all cannot be described.

The committees on the Art tea appreciate the whole hearted cooperation they received from all over the county. A lot of time and effort was expended going to every place in the county collecting the displays; all had to be labeled and transported safely—and then returned safely. This last job is hard to do because it is a kind of anticlimax to the wonderful affair.

Members of the Art Committee were Miss Grace Jones, chairman; Mrs. Earl Thornton, Mrs. Ray Sale. In the absence of Mrs. R. E. Lemon who was at the bedside of her sister Mrs. Queen in California and the illness of Miss Thelma White, Mrs. Glenneth Stokes served. Refreshment committee: Mrs. Kelley Stephenson, chairman; Mrs. Ed Kelley, Mrs. T. O. Hayes.

Life and Law Lesson for October 17, 1948

YOU, friend reader, probably know less about what is in the books of Exodus, Leviticus, Numbers and Deuteronomy than any other part of the Bible. These are the sections mostly filled with laws—

Some of these old laws are dead; but even a mummy can be interesting. Call them dead if you like; you still can learn a great deal about the times and the minds and the customs of those far-off days by reading the laws which governed people's daily lives.

But it is hardly fair to call them dead. Rather, they have been honorably retired. That is to say, they were admirable laws in their time and place, and God's will was learned through them.

The Living Soul of Law

THERE are two ways of looking at any law, or you might say there are two sides of every law, the inside and the outside, the soul and the body as it were. The body, the outside, is the letter of the law; the inside or soul of the law is the spirit or principle of the law.

The body of the law, like the body of a man, dies; it is not intended to live on and on. But the soul of the law (if it has one; some don't) lives forever. Take, for instance, that law in Lev. 19:10. The body of it, the letter, says: Do not be efficient in getting in your crops. Leave some wheat in the field. Leave some grapes on the vine.

Today that sounds rather stupid, on the face of it, and no good farmer would pay attention to it. But look at the spirit of that law: the wheat and the grapes were to be left for "the poor and the stranger." There was then no Red Cross, no bureau of displaced persons, no traveler's aid, no family service, no social security, none of our many modern agencies for the underprivileged. Those who had property were bidden to have a care for those who had none.

The duty of society to see that no one starves, the duty of all to help those in need, that is the living soul of this law, and it still breathes in laws of the 24th century—laws of old age assistance, maternity assistance, pension plans and so forth. The living soul of the Old Testament laws can be expressed this way: The love of justice and the justice of love. The best and wisest laws today are those which give this same spirit its fullest and most practical form.

Jesus' Best Word

THE Jews figured out that there were in all 613 separate commandments in all the laws combined. They used to have interesting debates as to which of all the 613 commandments was the most important.

They came to Jesus with that well-worn question. Jesus quoted only two laws, one from Deut. 6:5 and the other from Lev. 19:18. Love God, love your neighbor, he said. All the other laws depend on these two.

To this day, Christian thinkers are not entirely agreed as to just how far Old Testament laws may be binding on Christians. But all are agreed on two points: The basic principle of these laws is always good, and that fundamental principle is love.

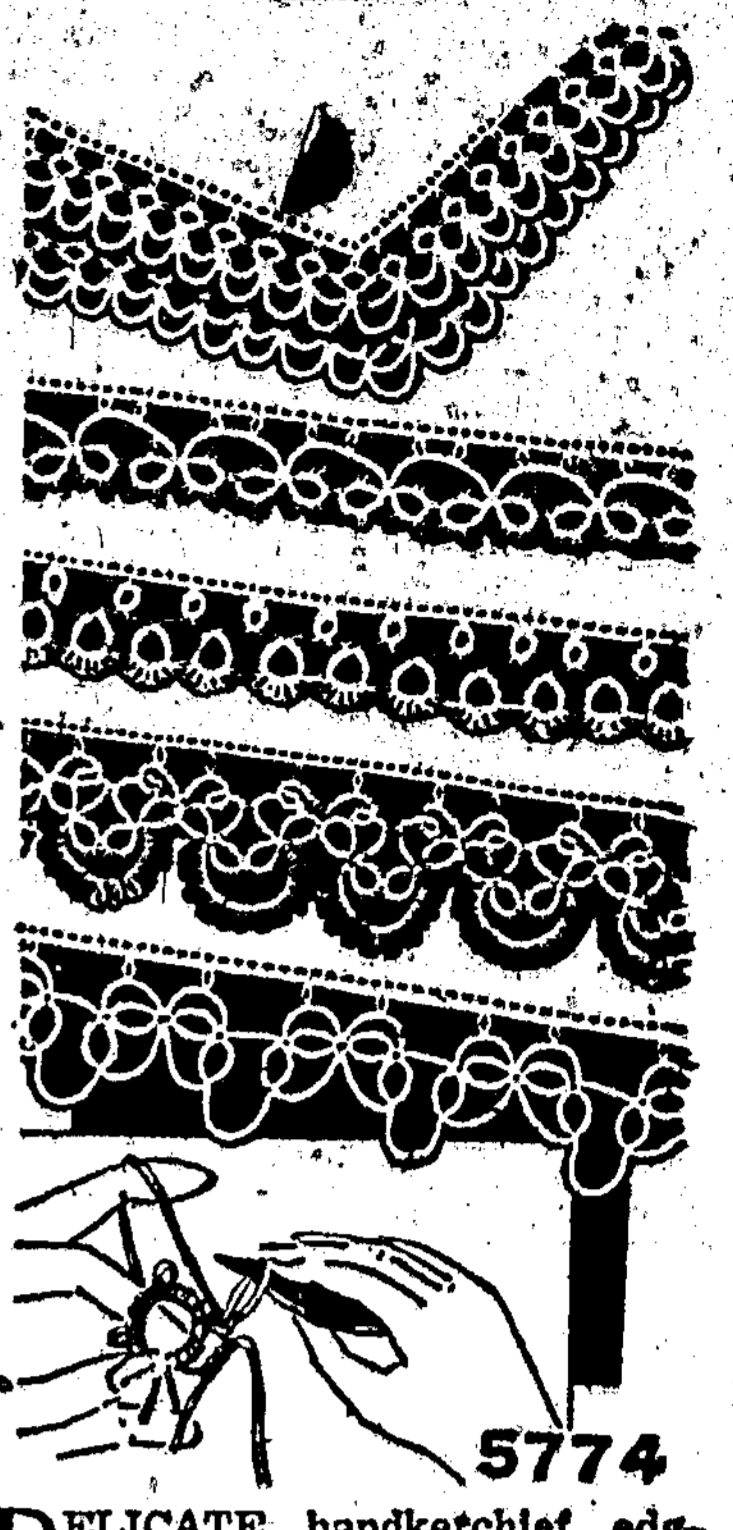

Love Is Not Repealed

THIS is what Christians mean when they say that the laws of God are eternal. We do not mean that every law between the covers of the Bible can and should be used as the law of our land today.

What we do mean is that the spirit of these laws is immortal, for the spirit is love, and love never has been repealed. Show me a law which helps the strong at the expense of the weak, a law which encourages cheating and selfishness and fighting, and I will show you a bad law. Show me a law which encourages, and helps men to deal fairly with one another and to live together in peace, and I will show you a good law. Every law that helps you love your neighbor is a good law; indeed there is something divine about it, for God is Love.

**Better Care, Feeding Increase Hog Profits**

**Improved Rations and Cleanliness Stressed**

Extra care for the brood sow and her litter, with emphasis on cleanliness and better feeding, will assure extra profits whether the herd includes one sow or a hundred.

Proof of that assertion is contained in the experience of Joseph O'Bryan of Hiattville, Kan., nationally-known breeder and exhibitor of purebred Hampshires, who raises about 3,000 hogs a year, most of them for market.

Although O'Bryan raises hogs on a wholesale scale, he keeps his op-

eration on an individual farm basis as a means of insuring proper care. A program of better care and better feeding for sows and their litters, introduced on his farms in the fall of 1947, already has paid dividends, O'Bryan reports. With 100 litters last spring, he raised as much pork as he formerly raised from 150.

Early in the gestation period sows were given a special ration of 80 per cent oats, 5 per cent meat scrap, 4 per cent pelleted milk product and the balance either corn or wheat. Sows were sprayed and washed thoroughly prior to farrowing. Clean pens and a brooder for the little pigs also were provided. The sow's ration was changed when the pigs were about two weeks old, cutting down oats to about 40 per cent and increasing portions of wheat or corn.

At less than two weeks of age little pigs were started creep feeding in a low pan or trough. Their ration consisted of 80 per cent oats, 4 per cent meat scrap, 8 per cent pelleted milk product and the balance coarse wheat. Pens and troughs were washed and disinfected regularly. As the little pigs grow, oats in the ration is reduced while corn or wheat is increased to about 70 to 80 per cent.

Summarizing the program, O'Bryan maintains that he had much stronger piglets at birth, with earlier, faster and cheaper gains and a marked reduction in mortality.

**'Police Force'**

Plenty of organic matter is a good "police force" for ridding soil of bacteria that cause diseases of growing crops. R. C. Thomas, associate pathologist of the Ohio agricultural experiment station, estimates that 50 million bacteria live in a single ounce of soil. Some of these are beneficial. Others are harmful to crops. The good kind rot the organic matter and release plant nutrients to build a fertile soil. The harmful kind cause plant disease.

Adding organic matter to soil will help increase the good kind and at the same time cut down the harmful bacteria population. Adding organic matter makes the soil a better home for the good kind so they flourish and grow. Extracts from organic matter contain viruses that make disease-causing bacteria harmless to plants.

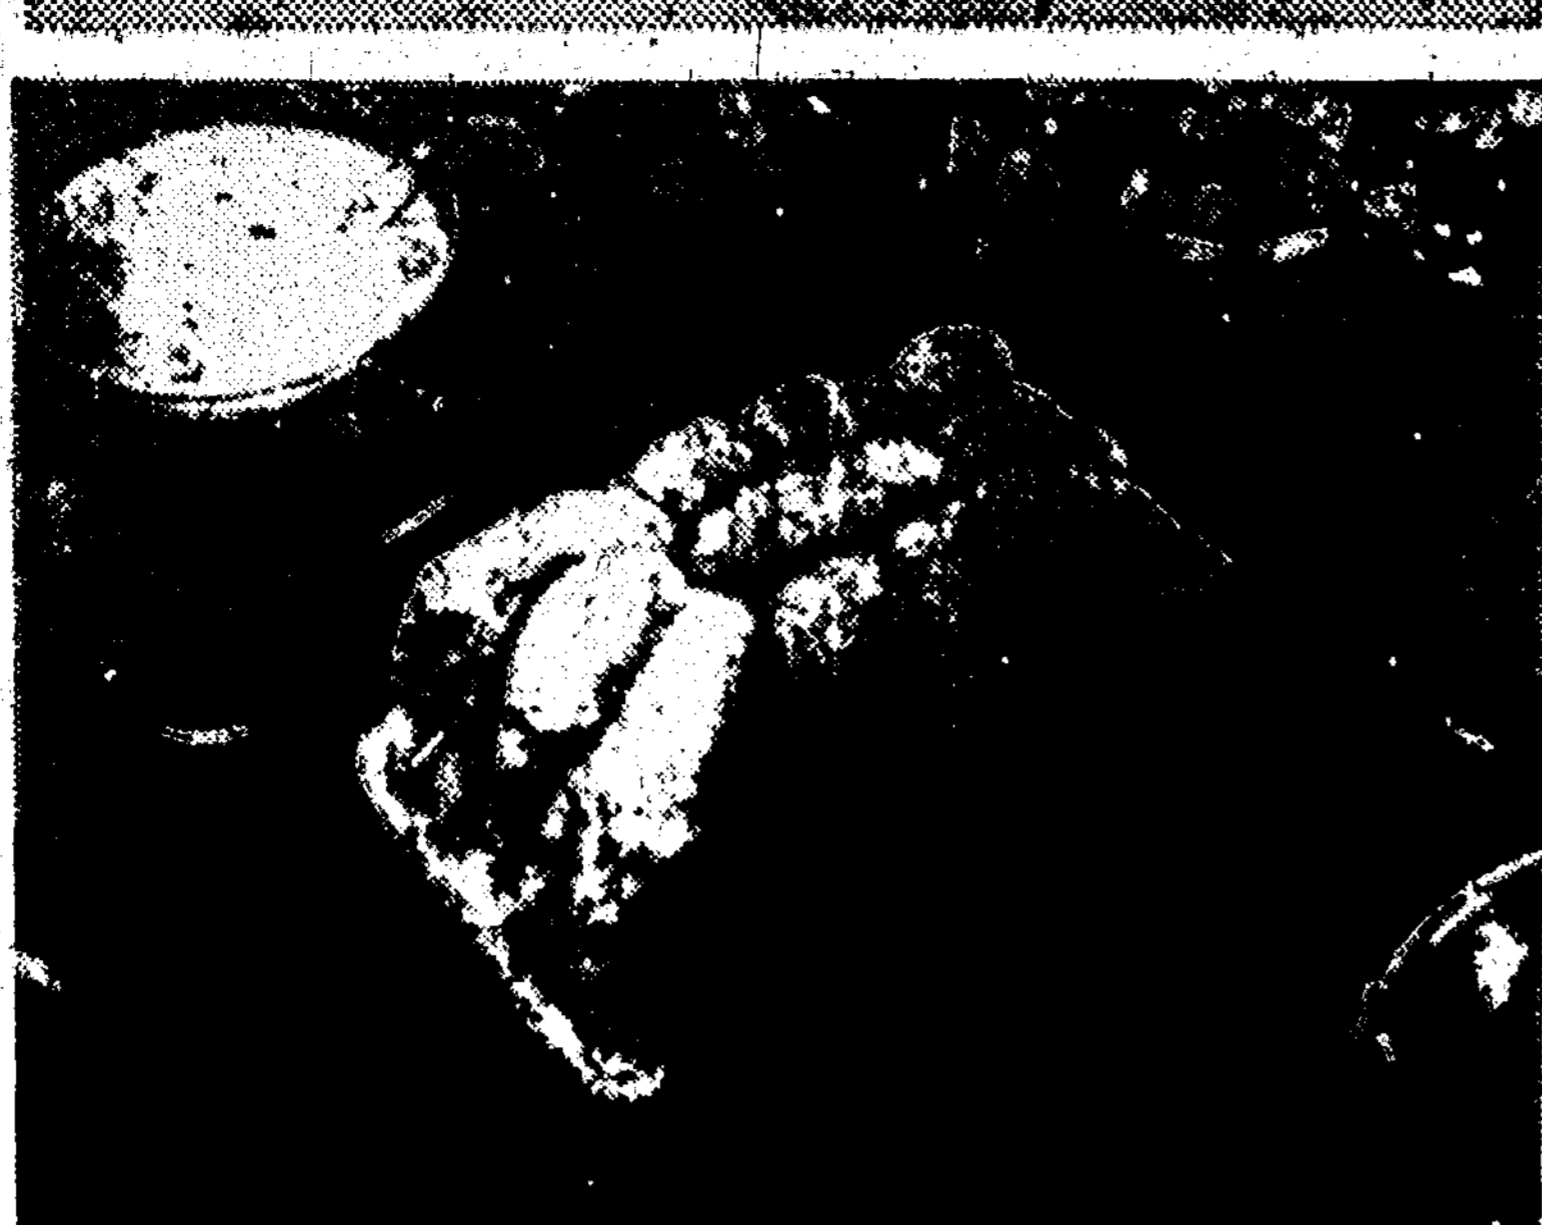

A good soil management program will increase the soil's organic matter supply and help free the land of disease-causing bacteria.

**Stinking Smut Remains Major Wheat Disease**

Bunt or stinking smut remains a major wheat disease even though science knows how to control it, demonstrating the need for continual vigilance in preventive measures.

Plant scientists recommend use of resistant varieties combined with treatment of the seed with a reliable fungicide. Where practical, the grower should avoid planting when the soil temperature favors development of smut in the soil.

**HOUSEHOLD MEMOS**

Families Enjoy Variety in Desserts! (See Recipes Below)

**Dessert Patterns**

"MY FAMILY CAN enjoy the same meat and vegetable dishes," says a homemaker, "but they really want variety in their desserts. It's hard to keep enough good, easy to make things on hand to satisfy them."

Well, our hunger patterns are usually satisfied by the time we get to the "frosting" of the meal, and we all like something special. We may want to save or the main course, but we like surprises for desserts.

The woman who is busy with many household duties might like to skip dessert just because she can't think of something new, or because desserts are a bit too complicated to prepare, or so she thinks. How about some easy but sure to be good desserts for family or company dinner?

**YOU'LL WANT** to choose a light, fluffy gelatin or fruit dessert when the meal's been substantial. If, on the other hand, the meal has been a hurry-up affair then give the folks a nice, rich, baked dessert which will really stick to the ribs. Above all, make them picture pretty, gay, colorful and breath-takingly good like those in the column today.

**Cranberry Log**  
 1/2 cup sifted cake flour  
 1/2 teaspoon baking powder  
 1/2 teaspoon salt  
 3 egg yolks  
 3 egg whites  
 1/4 teaspoon cream of tartar  
 1/2 cup sugar

Beat egg whites until frothy. Add cream of tartar and beat stiff. Add 1/4 cup sugar and beat until points are formed. Add remaining sugar to egg yolks and beat until thick and light colored. Fold carefully into egg white mixture. Then fold in sifted dry ingredients. Pour into a shallow pan, 9 by 12 inches, which has been greased and lined with waxed paper. Bake 20-25 minutes at 350 degrees. Have ready a strip of waxed paper cut about 15 inches longer than the cake. Sprinkle thickly with powdered sugar the section on which the cake will be turned. Roll up 15 inches of paper to form a thin roller which will make center for the rolled cake. When cake has baked, turn out on powdered sugar. Remove paper from cake. Then, starting with roller, roll up cake like a "jelly roll." Cool. Unroll cake when cool and spread with softened cream cheese and reroll tightly.

**Cherry Cream Pudding (Serves 6-8)**  
 6 eggs, separated  
 1 1/4 cups sugar  
 1/2 cup boiling water  
 1 cup sifted cake flour  
 1 teaspoon cream of tartar  
 1/2 teaspoon vanilla  
 1/2 teaspoon almond extract

Slowly boil sugar and water until it threads when dropped from the end of a spoon. Beat the whites stiff. Pour hot syrup over whites slowly, and beat until cool. Beat egg yolks until thick and lemon-colored and blend in egg white mixture. Add

flavorings, then sifted dry ingredients. Bake in an ungreased tube pan in a moderate (350 degrees) oven until golden and done, about one hour. Cool and fill center with one can (No. 1) of black, pitted cherries which have been folded in two cups sweetened whipped cream.

**Molded Rice Pudding (Serves 6-8)**  
 2 cups cooked rice  
 1 No. 2 1/2 size can apricots  
 2 tablespoons gelatin  
 1/4 cup cold water  
 2 slices pineapple, cut up  
 1 cup whipping cream  
 2 tablespoons sugar  
 1 teaspoon vanilla

Add the juice from the can of apricots to the cooked rice. Stir over a low flame until rice has absorbed the juice. Soak gelatin in cold water. Stir into hot rice. Add all except a few apricots (saved for garnish) which have been rubbed through a sieve. Mix in pineapple. Mix lightly so as not to mash the rice. When mixture begins to set, add whipped cream which has been mixed with sugar and vanilla. Pour into a cold rinsed mold and allow to chill. Turn out onto platter and garnish with apricot halves and additional whipped cream, if desired.

**HERE ARE EASY variations of an unflavored gelatin and orange juice dessert.** You also may use any other fruit juice you prefer to unlock even more possibilities for you.

**Basic Clear Orange Gelatine (Serves 4)**  
 1 envelope unflavored gelatin  
 1/2 cup cold orange juice  
 1 1/4 cups hot orange juice  
 1/2 cup sugar  
 1/2 teaspoon salt

Soften gelatin in cold orange juice. Add hot orange juice, sugar and salt; stir until dissolved. Pour into molds and chill until firm.

**ORANGE WHIP:** Use basic recipe with following change. Chill gelatin mixture until slightly thicker than unbeaten egg whites; beat with rotary beater until light and fluffy. Turn into molds and chill until firm.

**ORANGE SPANISH CREAM:** Use basic recipe with following changes. Soften gelatin in one cup cold milk in top of double boiler. Place over boiling water. Add sugar and salt and stir until gelatin and sugar are dissolved. Beat two egg yolks slightly. Pour a small amount of the hot mixture over egg yolks. Return to double boiler and cook over hot, not boiling, water, stirring constantly until mixture coats the spoon. Remove from heat; cool. Stir in three-quarter cup cold orange juice; chill until thickened. Beat two egg whites until stiff. Fold in gelatin mixture and chill until firm in mold.

**Family Clothes Rack Solves Space Problem**

If you will spend an evening's time making this rack you can help eliminate many family arguments. With this handy rack available, stockings, lingerie and other personals will not have to be hung up in the bathroom. While small, this rack provides ample space for drying everything from the children's clothes to whatever else you've got to wash in a hurry.

The pattern offered below provides the quickest method of building the rack illustrated. The pattern is traced on wood which the pattern specifies. Each part is then sawed and assembled exactly as step by step directions indicate. No special tools or skill are required. The small pieces of lumber and dowels which pattern specifies can be purchased at small cost from your local lumber dealer.

So far space in the family, a convenient drying rack and the relaxation you'll get making it, send 25 cents for Pattern No. 26 to East-Bird Pattern Co., Dept. W, Pleasantville, N. Y.

**Origin of Mascara**

Woman's oldest manufactured beauty aid, according to a Hollywood make-up man, is mascara.

This material is known to have been compounded by the Egyptians as far back as 4,000 B. C. Inspection of feminine portraits of that time, as presented by wall paintings in modernly unearthed tombs, leads one to suspect that the glamor gals of ancient Egypt wore highly comparable with those of today.

**Family Clothes Rack Solves Space Problem**

If you will spend an evening's time making this rack you can help eliminate many family arguments. With this handy rack available, stockings, lingerie and other personals will not have to be hung up in the bathroom. While small, this rack provides ample space for drying everything from the children's clothes to whatever else you've got to wash in a hurry.

The pattern offered below provides the quickest method of building the rack illustrated. The pattern is traced on wood which the pattern specifies. Each part is then sawed and assembled exactly as step by step directions indicate. No special tools or skill are required. The small pieces of lumber and dowels which pattern specifies can be purchased at small cost from your local lumber dealer.

So far space in the family, a convenient drying rack and the relaxation you'll get making it, send 25 cents for Pattern No. 26 to East-Bird Pattern Co., Dept. W, Pleasantville, N. Y.

**50,000-Mile Trip For Vacation**

A two-year vacation and 50,000 miles, from Alaska to Guatemala, are ahead of Harold W. Siebens of St. Louis, Mo. Siebens sold his business last year on the advice of his doctors.

He will be accompanied on his jaunt by his mother, two daughters, a son and radio technician. They are traveling in two light trucks, each with a house trailer attached.

"I've always wanted to take a trip like this," Siebens said as he started out recently, "with nothing to worry about but the road ahead and all the time in the world." The first lap of the trip will take the group to Alaska by way of the Alaska highway.

The Right to Work Must Be Guaranteed to New Mexico Citizens

By Delmar Roberts, President, New Mexico Farm and Livestock Bureau

Amendment No. 3 will appear on the general election ballot November 2. This general type of legislation, which has been adopted in 18 other states, has become known as the Right-to-Work law and so we speak of Amendment No. 3 as New Mexico's Right-to-Work amendment. I am not going to discuss this particularly as a farm and livestock producer, but more as a citizen of New Mexico who feels this to be a vitally important issue to our state. It is unfortunate that more of our citizens do not feel free to do the same. I find that most people who should be taking an active part supporting Amendment No. 3 have been intimidated by threats of boycott, vengeance, and reprisals uttered by labor leaders. Fortunately, in New Mexico, although it is not true in other states, agriculture is not as yet dominated by union bosses, so I feel free to speak my mind without fear of personal loss. Text of Amendment No. 3: There is nothing complicated about the Amendment. Here it is, word for word: "No person shall be denied employment because of membership in or affiliation with or resignation of expulsion from a labor organization or because of refusal to join or affiliate with a labor organization; nor shall any individual, corporation or association of any kind enter into any contract, written or oral, to exclude any person from employment because of membership in or non-membership in any labor organization, nor shall any person be compelled against his will to pay dues to a labor organization as a condition prerequisite to employment or as a condition of employment. "The term 'labor organization' means any organization, agency or employee representation group, committee or plan, which may exist for the purpose, in whole or in part, of dealing with employers concerning labor disputes, wages, rates of pay, hours of employment, or other conditions of work or employment."

What It Does: Obviously that insures a man's right to work. It insures his right to join a union or not to join a union, whichever he believes serves his own interest. Had our founding fathers ever foreseen a time in our future when a man's livelihood could be endangered by the whim of a dictatorial union boss, this amendment would have already been a part of our basic Bill of Rights. Since they did not, it is time that the people of New Mexico reassert their belief in the dignity of the individual, in his right of self-determination, in the basic fundamentals of free enterprise, and in the democratic way of life by making the right to work a part of our constitutional bill of rights. Dictatorship by Union Contracts: New Mexico has at a little organized labor activity and it is probable that many of you are not familiar with the conditions set down by so-called labor leaders that make Amendment No. 3 necessary. During the past few years, union bosses have effected a dictatorial control over the economic welfare of the union mem-

bers by what are known as closed shop and union shop contracts. A closed shop is a contract between the employer and the heads of the labor union which basically provides that no one may be employed except members of that union. Usually it goes farther and deprives the employer of any review of the qualifications of his employees. In other words, when you need a new truck driver, a clerk, or a stenographer you call the union business agent and he sends them over. You take them whether you like them or not. The union shop contract is aptly described as the closed shop with a 30 day time fuse. Under the union shop you may select your employees, but within 30 days they must become union members or be fired. Now there are a great many objections to both of these, and I have space to mention only a few. First, however, let me make the point that a labor union is a private association not subject to controls by our courts. Consequently denial of membership or suspension of membership, where a closed or union shop exists, effectively denies the worker the right to earn a living in the field in which he is skilled. I submit that this constitutes a greater arbitrary power over people than anyone in the United States has ever been given before. This power has brought about a situation in which the worker is less responsible to his employer than he is to the whim of the union business agent. His skill, his efficiency, and even his job is secondary to his union membership. Now that is not a desirable condition. It does not promote efficiency nor does it benefit the union member. Specifically Declines 23%: Speaking of working efficiently, we are all affected by its tremendous decline in the last few years. According to the American Builder, a construction trade magazine, one area showed 23% decline in the efficiency of 7 building trade unions from 1940 to 1947. That is brought about by a great many factors, two of which are these: First—human nature. We will say that I am young and a capable carpenter, and that I am working with a fine old man of 70 who can not do as much work as I can. Under union rules we both receive the same salary. So I say "Why should I do any more work than Pop over here does?" So there becomes a tendency for our production to be set by the least efficient worker of the group. In my opinion, however, this is not the greatest destroyer. The greatest is known as restrictive labor practices. These are rules concerning working conditions set down by union bosses which provide that a carpenter who needs to move an electric wire may not do so. In fact, he probably is not permitted a pair of pliers. Further, an electrician finding a small nubbly of wood where he is to place a wall socket may not take out his pocket knife and whittle it off as you or I would do. Instead, each of these men must seek the other to perform the job that falls within his particular jurisdiction. If that means a half

wage or buying power. In addition, the history of other states which have adopted Right to Work legislation shows a definite trend toward increased wages. Why Force People? No one has ever offered me an intelligent reason why a man should be forced into a labor union, against his will, except this: That the working man presumably has not sufficient intelligence to know what is good for him or what isn't and that he must be forced to let other people act for his own best interests. It is my belief that this is not true. If it is true, and applies to all of us, then democracy will fall and we may as well immediately embrace dictatorship. If it applies to only a select class of people in our country who do not have sufficient intelligence to be granted the right of self-determination, then their voting franchise should be withdrawn and their welfare should not be placed in the hands of a private association run by men who may either be benevolent or mercenary, but rather their guardianship should be placed in the hands of our government. I do not believe that this condition exists, and I know that you do not believe so either. Closed Shop vs. Amendment 3: It seems almost impossible in a short article of this kind to do full justice to a subject which so vitally affects our state, our nation, and our people. I want to make these statements positively and without explanation, as a summary of my belief: That union bosses, through closed shop and union shop contracts, have enslaved the union member and destroyed his freedom of speech, thought, and action; That the dictatorial powers so created have invited communistic infiltration of American labor unions; That the efficiency of the American workman is being reduced against his will by arbitrary rules promulgated by union bosses; That most of the slow-downs, jurisdictional strikes, feather-bedding, sympathy strikes, and other unwise practices are brought about by union bosses, not members; That by adopting Amendment No. 3 we will give the average member the "right to work," assure his freedom to criticize union policy and choose wiser and more American leadership. Every Vote Needed: In the past, most of us have failed to vote on constitutional amendments. Three out-of-state labor bosses that I know of are in New Mexico, and many others have been in and out fighting Amendment No. 3 with threats, money, and propaganda. Defeat of Amendment No. 3 is the first plank of the Wallace party platform in New Mexico. Arthur Bary, communist organizer from Denver, has spoken over KOB in Albuquerque against Amendment No. 3. Unless the citizens of New Mexico go to the polls and vote for the amendment, it will fail. Do not let this happen to New Mexico.

 That puts us much in the frame of Ed Burpee of the Otero County Times, He's hunting a soft political appointment—one that pays well with little work to do.  
 Such a job would be that of weather forecaster of Otero County. All the job would require would be one stencil and a mimeograph.

**ST. MICHAEL'S BROADCAST EACH TUESDAY**

An innovation, in the form of an inter-collegiate panel discussion, will be a feature of one of the forthcoming broadcasts in the series "St. Michael's College Is On the Air" which is transmitted each Tuesday evening from 7:15 to 7:30 over the facilities of station KTRC, Santa Fe.  
 Highlands university, Las Vegas, has been invited to send two representatives to discuss with two students from St. Michael's the subject of "Higher Education in New Mexico".  
 Previous broadcasts have been presented by members of the faculty of St. Michael's and by students from various departments. The forthcoming broadcast will be the first in which students of another college will participate.  
 The program will be moderated by one of the St. Michael's faculty who will introduce and conclude the discussion. It will not be a round table in the generally accepted sense, but a discussion in which each speaker will deliver a prepared commentary.

**Hopes Unrealized**  
 I noticed a want ad the other day: Wanted: An apartment large enough to keep the wife from going to her mother and small enough to keep her mother from coming here.  
 Looking at statistics of all passports granted for foreign travel in April, May, and June, we found that housewives headed the list.  
 Some wag commented: "It may be a man's world but Mama is the one looking it over."  
 Another commentator—she was a woman—sighed: "Artful dreaming and a smooth paint job will take 20 years off her true age but you can't fool a long flight of stairs."

**NEW DEMANDS**

48 hours pay for 40 hours work  
 Penalty pay for weekends & holidays  
 25¢ an hour increase  
 Total 1 1/2 BILLION DOLLARS

SOARING COSTS WAGE INCREASES

**1 1/2 Billion Dollar Road Block!**

**RAILROADS MUST OPERATE** around the clock every day and night of the year.  
 Although they know this, leaders of 16 railroad unions are demanding a five-day, Monday through Friday, week for one million railroad employes.  
 They want 48 hours pay for 40 hours work — in itself a 20% wage increase.  
 They also demand a minimum of 12 hours pay for any work performed on Saturdays, and 16 hours pay for any work performed on Sundays and holidays.  
 On top of all this they want an additional increase of 25¢ an hour for every employe!

**You'd Pay the Bill!**  
 Summing up these demands, they mean that these union leaders seek to force the railroads to give one million employes an annual raise which would average \$1500 per employe!  
 The total cost of this would be no less than 1 1/2 billion dollars per year, which is more than twice the expected net income of the railroads this year.  
 You'd pay the bill, because if these increased costs are forced on the railroads,

they must have still further rate and fare increases.

**Demands Unreasonable**  
 These employes have had substantial raises during and since the war. Their average weekly earnings are higher than the average weekly earnings of workers in manufacturing industries. They have more job security than the average worker in American industry. They also enjoy paid vacations, a retirement system and other advantages more generous than the average worker receives.  
 In contrast with the demands of these 16 unions, which add up to the equivalent of 48¢ an hour, the Conductors and Trainmen recently settled their wage request for an increase of 16¢ an hour.

**Railroads Run for Everybody—Not Employes Alone**  
 The railroad industry must serve not one but many groups—producers, businessmen, shippers, passengers and the general public—night and day, every day of the year. These unions are proceeding in utter disregard of this important difference between railroads and other industries. Industrial plants can be shut down over weekends and holidays, but freight, mail, express and passengers must continue to move. Everybody who enters railroad employment knows this.

**Strike Threat**  
 On September 15, 1948, the leaders of these 16 unions began talking a strike vote. But the threat of a strike will not alter the opposition of the railroads to such unreasonable demands!

The work on the new building has begun in earnest. The foundation trench is being dug, the material is on the ground and the carpenters are at work putting the material in shape. The building will be two-story, and will adjoin the old depot.

The celebrated Coe orchards on the Ruidoso, have disposed of six cars of apples to Loretz & Kepley, of El Paso. The apples were loaded at Capitan and shipped to El Paso. The El Paso trade has learned to appreciate our mountain apples, and a ready sale is assured for all shipped to Texas and Arizona points. The apples grown in this county are known over the southwest.

Miss Cora Kelley killed a fine buck in Carrizo mountain last Saturday. This is not the first exploit of Miss Kelley's with a gun. Last summer, while out hunting, she ran across a loafer wolf, and a well directed shot gave her a twenty-dollar pelt. This record the NEWS believes, entitles Miss Kelley to the name of "Huntress of the Valley."

A roster of the sick would include the larger part of our population. Scarcely a family but had one sick; in a large number of families three and four down with the "Flu" To some extent this condition obtains in the rural districts of the county, but not as bad as in towns. As a whole, however, the epidemic appears to have been less violent in Lincoln county than many other places.

The Democratic convention named "Shorty" Miller for the office of County Assessor, and his name will be found in the usual column. Mr. Miller was for a number of years connected with the sheep sanitary board and in the course of the performance of his duties became thoroughly acquainted with the people and the property of Lincoln county.

We introduce herewith Captain Robert T. Lucas, recently promoted to the rank of captain at Camp Pike Arkansas. Captain Lucas received his commission as first lieutenant in the medical corps and left here April 8th for Fort Riley, Kansas. Captain Lucas now has charge of the third infirmary, his unit looking after the newly arrived men in camp.
