CARRIZOZO, NEW MEXICO, FRIDAY, MAY 14, 1948

Outlook Vol. 89—No. 2

### Orville Luttrell Announces for Sheriff Of Lincoln County

Mr. Orville Luttrell, has announced his intention of seeking the Republican nomination for the office of County Sheriff, subject to the approval of the primary election, June 8th.

Mr. Luttrell was born in Capitan, educated in the public schools of the county, and has been a life long resident with the exception of his army service.

Mr. Luttrell is qualified for the office, he is seeking, having served as a Deputy Sheriff under Sheriff Nick S. Vega, for the past two years, part of this service as Chief Deputy. He attended two F. B. I. schools, one at Ruidoso and one in Alamogordo. He speaks Spanish fluently.

During World War II he enlisted in the U. S. Army Air Forces and served as a Crew Chief on a B-24 Heavy Bomber. His squadron served for two years in the Pacific from Australia to the Philippine Islands, bombing Japanese positions and disrupting their supply and communication lines.

In making his announcement, Mr. Luttrell said, "During my service as Chief Deputy I covered the majority of the county, and made acquaintances in all sections, traveled the roads and trails. If nominated and elected I will give the citizens of Lincoln County a fair, and impartial administration."

Mr. Luttrell is a young man, a veteran of World War II, capable, honest, fearless, and experienced. He will appreciate the vote and support of all of the citizens of the county.

### Maude Eshom Announces for Treasurer Of Lincoln County

Mrs. Maude F. Eshom of Capitan has authorized us to publish her announcement of candidacy for the Democratic nomination for the office of County Treasurer, subject to the approval of the Democratic primary June 8, 1948.

Mrs. Eshom, daughter of Mr. and Mrs. Henry Fritz was reared in Lincoln County, educated in the public schools and was graduated from Capitan High School. Later attending Highlands University at Las Vegas, where she studied business administration; received a teachers certificate.

Mrs. Eshom has taught in the County schools. Served one term as a deputy to the Superintendent of County Schools.

The past school term Mrs. Eshom was employed in the administrative offices of Capitan Union High School. Her experience has been wide and varied, having kept the books for several small companies and individual businesses of the county, at various times and has always proved accurate and dependable.

Mrs. Eshom will appreciate your support in the coming primary, and if nominated and elected, she will serve the people of Lincoln County to the best of her ability.

#### NOTICE

The Carrizozo Woman's Club will meet Friday, May 21st at the club house. There will be a 12:00 o'clock dinner, each one to bring a covered dish. Mrs. Norman, Chairman.

Regular meeting at 3:00 o'clock. Installation of officers and annual reports.

Mrs. Ben S. Burns Press Reporter.

### CORONA NEWS

By Mrs. A. E. Mulkey

Everybody has heard about the forest fire in Red Cloud Canyon. The high winds have caused the fire to spread over a wide area. The men and boys for miles around have spent several days and nights trying to bring the fire under control.

School was out Saturday, May 8, in Corona. The Senior Class left Monday morning for the Grand Canyon. Several of the teachers were on their way to Oklahoma, Texas, Colorado and other places. Mr. and Mrs. George Rogers will spend the summer on their farm in Colorado. Mr. Sterling Rodke will spend the summer at his home in Lexington, Oklahoma. Mrs. Edna Lynch will be at Durant, Okla., Miss Martha King will spend part of the summer at Bogota, Texas and will attend a summer session at Pueblo, Mexico. Miss King goes not plan to be back at Corona next year. Miss Martha Kerr will spend the summer in Mississippi visiting home folks.

New teachers next year will be Mr. and Mrs. Joe Hatcher from Waco, Texas. Mr. Hatcher will teach Spanish and other subjects. Mrs. Hatcher will teach the second grade. Mrs. Jessie Harris who was second grade teacher this year will be at her home in Albuquerque. We will tell you about the other teachers later. We have not found out yet what they plan to do this summer.

Mr. and Mrs. Floyd Procter have a new baby girl born May 5.

Mr. Carl P. Radcliff, County Agent, was here Thursday, Friday and Saturday, helping the following cattlemen spray their livestock for lice and ticks: Archie Perkins, Carl Ryberg, Will Ed Harris, Ben Roberts, Melnis, LeRoy Owen, and L. L. Argenbright.

Mr. and Mrs. Harvey Coker of Belen and Socorro, who were formerly ranchers, have bought the stock and leased the Casey Sweet Shop.

Mrs. Claude Corey plans to make a trip to Oklahoma City to visit her mother and sisters, leaving about the 16th.

Mrs. Monte Barnemach of El Paso was here this week visiting her daughter, Mrs. Walter B. Cape.

Mr. and Mrs. Tom Smith of San Bernardino, California, are here this week visiting friends. The Smiths owned a Cafe here at one time. It has been nine years since Mr. and Mrs. Smith left Corona.

(Continued on Page 10)

### FIRE DESTROYS 2,000 ACRES OF TIMBER

Mr. W. E. Wilbank, Superintendent of the Cibola National Forest, accompanied by Stanton Wallos, Assistant Superintendent, A. R. Kallaus, Office Manager, and Robert L. Stewart paid an official visit here Monday to express their thanks to the citizens of Carrizozo, for their splendid cooperation and help in fighting the recent fire in the Gallinas Mountains.

The fire was apparently started by some careless juvenile picnickers on Friday evening, destroying approximately 2,000 acres of fine timber.

Mr. Wilbank cautions all persons entering forest areas to be on guard at all times with camp fires, cigarettes and matches. "Let's prevent forest fires" he concluded.

### W. E. REYNOLDS TRANSFERRED TO LORDSBURG

W. E. Reynolds, Terminal Trainmaster here for the past two years has been appointed as Terminal Trainmaster at Lordsburg, and Mr. R. L. King appointed to the local post.

The appointments were effective May 5.

Mr. King and family will arrive here about the 15th of May. He has been with Southern Pacific about ten years, serving as Secretary to the Superintendent of the Division and other positions of responsibility.

### J. O. Payne Announces For Commissioner Of 2nd. District

Mr. J. O. Payne of Capitan has authorized us to publish his announcement for the Republican nomination for the office of County Commissioner from the Second District subject to the action of the primary election on June 8th.

Mr. Payne youngest son of W. B. Payne of Capitan was reared on his fathers ranch north of Capitan. Educated in the Capitan schools. Is married and the father of two children. Mr. Payne owns a ranch and has been highly successful in its operation and management.

A veteran of World War II, Mr. Payne served with the U. S. Army ground forces in a Tank Destroyer Battalion, his overseas service was in England and the North African campaign.

An interest in seeing Lincoln County farm and ranch to market roads improved and to see Lincoln County grow with its population has prompted Mr. Payne's decision to enter the race.

Mr. Payne is young, capable, earnest and if nominated and elected will, to the best of his ability serve for the interests of all of Lincoln County.

### Reil - Harrison

A lovely home wedding took place at 10 o'clock last Wednesday morning when Miss Patricia Reil became the bride of Mr. George Harrison of El Paso. Rev. Howard Pitts, pastor of the Methodist church read the marriage vows in the presence of sixteen guests and members of the immediate family.

Miss Mildred Hoffman was bridesmaid and Mr. Clarence Rust was best man. Prior to the ceremony Mrs. Ben S. Burns played "Always" To the strains of the wedding march the bride entered on the arm of her nephew, Mervin Smoot, who gave her in marriage. The single ring ceremony was used.

The bride wore a lovely white dress made street length.

Mrs. Harrison is the daughter of Mr. and Mrs. V. Reil and only graduated from Carrizozo High May 6th. She is one of the most popular and attractive girls ever reared in Carrizozo.

The groom is an employee of the Southern Pacific Railroad Company. He is well known having lived here when he was small. He is industrious and enterprising. He is also popular with his co-workers and everyone.

Following the ceremony the guests were served wedding cake and fruit cocktail.

The bride and groom left for a short wedding trip to Carlsbad and on to Portales where they will visit the groom's grandmother before going to their home in El Paso.

### 39 Candidates File for Office Here

At 5 p. m. Monday when deadline for filing their intention to enter primary race for County and District offices was reached, 18 Democrats and 21 Republicans had filed.

The Democratic candidates include Harry Straley, County Commissioner from District Two; Abraham B. Sanchez, for County Commissioner from District Three; Pat Farrar, for County Commissioner, from District Three.

Roman S. Luna and Eliseo Gomez for County Tax Assessor.

For the office of County Sheriff, W. B. Sheff; S. M. Ortiz; Roman Nunez.

For the office of County Treasurer, Mrs. Maude F. Eshom.

For the office of County Clerk, Flora Leslie.

For the office of County Superintendent of Schools, Mrs. S. Wilson.

For Probate Judge, Elerdo Chavez. For Justice of the Peace, Claude E. Webb, Precinct No. 19; George H. Seele, Precinct No. 19; Ossili M. Harvey, Precinct No. 14.

For Constable, W. E. Wade, Precinct No. 19; Coleman G. Joyce, Precinct No. 19; Frank Barajas, Precinct No. 19.

### Alva P. Sitton, Sr.

Mr. Alva P. Sitton, Sr., 82 passed away, Tuesday morning, May 11, 1948, at the local hospital. The remains were taken to Tularosa that afternoon where the Masonic Lodge had charge of the graveside services. Rev. John L. Lawson of Tularosa, held a prayer service.

Alva P. Sitton, was born July 17, 1866 at Bayou Lettsworth, Point Capp Parish, Louisiana. His early life was spent in his home state. He moved to Taylor, Texas where he met and married Miss Rose McGuire on September 20, 1898. One son, Alva, Jr., was born to them.

While the couple lived in Taylor, Mr. Sitton, Sr., was baptized in the First Christian Church there, at the time he was a stationary engineer and had charge of the Taylor Water Works and Ice Plant. Later they moved to Neosho, Mo., where Mr. Sitton was engaged in similar work.

In 1911 the family moved from Missouri to New Mexico and Mr. Sitton was employed as Chief Engineer at Fort Stanton from 1912 to 1919 at which time he resigned his position and with his son, built and operated the Mace-U-Theatre and the Army and Navy store for 20 years in Tularosa.

Mr. Sitton, Jr., purchased the Lyric Theatre in Carrizozo, in 1940. In 1947, Mr. and Mrs. Sitton, Sr., disposed of their interests in Tularosa and moved here.

Always a devoted husband the couple shared a mutual interest in everything that went on in their home and community, last fall they had taken their first plane trip together, and had flown to Oregon to visit Mr. Sitton's sisters. They would have celebrated their Golden Wedding anniversary in September of this year.

Mr. Sitton had been given a life membership in Tularosa Lodge No. 49 A. F. & A. M. He had been an active Mason for 50 years.

He is survived by his wife, Rose his son Alva, Jr., one granddaughter, Mrs. Gene Lackey, and two great grand children, Jo Ann and Robert Lackey, of Tularosa. Two sisters, Mrs. Julia Rust and Mrs. Katie B. Boyles of Medford Oregon.

Interment was in Tularosa cemetery.

### SENATOR CHAVEZ VOTES REPEAL OF OLEO TAX

Senator Dennis Chavez (D-N.M.) said in reply to inquiries from New Mexico that he proposed to vote for the repeal of the federal tax on oleo-margarine.

"The levy against this food has been both discriminatory and a handicap" asserted Senator Chavez. "We can find no just reason for its continuance, especially today when high prices worry the the households."

The Senator's mail from New Mexico has been heavy in recent weeks on the oleo controversy.

### J. G. Moore Announces for Clerk of Lincoln County

Mr. J. G. Moore has authorized us to publish his announcement for the office of County Clerk subject to the approval of the Republican Primary June 8th.

Mr. Moore has been in business in Carrizozo for the past eight years and needs no introduction to the people of Lincoln County. In the 1946 General Election Mr. Moore was a candidate for State Treasurer.

Mr. Moore is qualified, experienced and able. If nominated and elected will serve the people of the county impartially, honestly, and to the best of his ability and for the interest of the whole of Lincoln County.

### Roman Nunez Announces for Sheriff Of Lincoln County

We are authorized to publish the announcement of Roman C. Nunez for the office of County Sheriff of Lincoln County subject to the approval of the Democratic Primary June 8th.

Mr. Nunez was born at Picacho in 1903 and has lived his entire life in the county. He is the owner of a ranch. Mr. Nunez attended the schools of the county and took extension work from La Salle University at Chicago, Ill.

The father of ten children ranging in school from the 3rd grade to a Junior in University of New Mexico, is interested in a good educational system for the county and state.

As for qualifications, Mr. Nunez has served as a special guard for

the U. S. Marshal at various times handling several dangerous criminals. He attended the F. B. I. schools that were held here, Ruidoso and one in Roswell. Has carried a special Deputy Commission under the present Sheriff, Nick S. Vega, the past term.

Mr. Nunez knows Lincoln County well in his travels over the County both in connection with his personal business and also on party business.

"Several months ago," Mr. Nunez said, "I announced I was not a candidate at that time for office however after re-considering and at the insistence of my friends I reconsidered and am now in the race."

Mr. Nunez is able, honest, fearless and promises to give the county a fair and impartial administration, if nominated and elected. He will appreciate the support of the citizens of the county at large.

### CHUCK WAGON SUPPER AND BARN DANCE AT WOMAN'S CLUB BUILDING TONIGHT

The White Mountain Ramblers, the boys who know how to "make with the old time music" will furnish the music for the barn dance and bingo party at the Woman's Club building tonight, Friday, the 14th.

Barbecued beef and beans head the bill of fare for the Chuck Wagon Supper. Serving will start at 5:00 p. m. and continue through 8:30 p. m.

For an evening of old timers entertainment, it's "Round-up Time" at the Club building tonight. Wear your levis and cottons. The public is invited.

### Gov. and Mrs. Mabry Entertain with Luncheon at S. P. Hotel Sat.

About forty of the business and professional people of Carrizozo and two or three from other points had both the honor and pleasure of being guests of Governor Thomas J. Mabry and Mrs. Mabry at a noon luncheon last Saturday at the South Pacific Hotel. Mr. and Mrs. J. B. Howell prepared a chicken dinner for the occasion which was very much enjoyed. Before being seated each lady was presented with a carnation brought by Mrs. Mabry from the Green houses at the Governor's mansion. The tables also were centered with sweet peas and carnations from the same source.

Rev. Jesse Allen returned thanks after which Mr. L. A. Whitaker said a few words of introduction.

Following the luncheon Governor and Mrs. Mabry each made short talks and expressed pleasure at being in Carrizozo.

Mr. L. A. Whitaker said a few words expressing appreciation for those who had been invited as guests of Governor and Mrs. Mabry.

So far as we can recall this is the first time since Governor McDonald's time that a State Executive has ever bestowed any attention of this kind on Lincoln County citizens.

All appreciated the gesture of good will on the part of our distinguished governor and his wife and felt signally honored at receiving the invitation.

They were enroute to Ruidoso where Governor Mabry was to address the educational meeting of 20-30 Club in the afternoon.

### RAINBOW GIRLS INSTALL

Assembly No. 7, Order of Rainbow Girls installed officers for the ensuing term in public installation ceremonies held Saturday evening, May 8th at the Masonic hall.

Mrs. Henry Hoffman was in charge of the installation in the absence of Mother Advisor, Mrs. Glenneth Stokes; Mildred Hoffman was installing Worthy Advisor, Frances Degner, installing Chaplain and Noreen Melton of Corona installing Marshall.

Nelda Ann Hodge of Corona was installed as Worthy Advisor, Vada Morgan of Capitan was installed as Worthy Associate Advisor.

Other officers were installed as follows: Charity, Ethlyn White of Capitan, Hope, Hope Snow; Faith, Janet Shafer; Chaplain, Joy Dawn Reil; Drill Leader, Ann Eaker; Love, Katholene Ward; Religion, Patricia Reil; Nature, Velda Lenard Immortality, Norma Compton; Fidelity, Betty Brewster; Service, Era Berry; Patriotism, Shirley Ann McCane of Capitan; Confidential Observer, Veda Lou Brantum; Outer, Observer, Elaine Shultz; Choir Director, Martha Miller; Choir Members, Carmel Dean and Marlon Lincoln.

Miss Hodge introduced her parents and grandmother and announced that her father would be Rainbow Dad for next year. Outgoing Rainbow Dad, Roy Shafer, was presented with a gift, Miss Mildred Hoffman in behalf of the Rainbow Girls, thanked Mr. Shafer for his fine cooperation and help the past year.

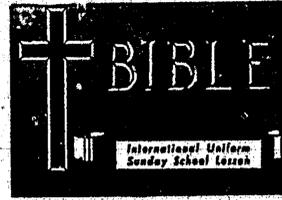

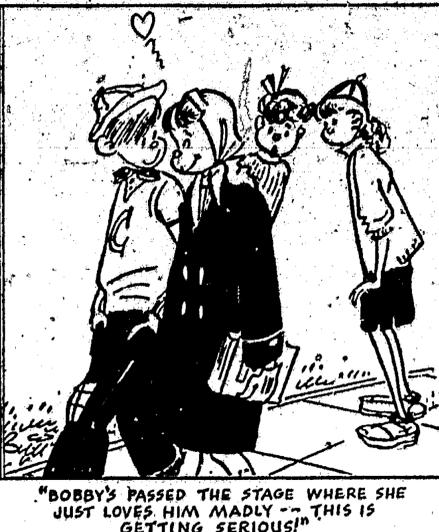

Presentation of a Rainbow Bible to past Worthy Advisor, Mildred Hoffman was made by Neva Rae Garrison.

A social hour, held at the Woman's Club building followed the installation.

SCRIPTURE: Ezra 7:1-10; Nehemiah 8:1-13  
DEVOTIONAL READING: Psalms 119:9-18

**Ezra Leads A Revival**  
Lesson for May 9, 1948

GLANCING for a moment at our history, we see that in 538 B. C., 50,000 Jews were returned to Jerusalem from Babylon, and the temple was rebuilt; and 78 years later, Ezra returns with about 7,000 Jews to inaugurate needed reforms. Then came Nehemiah, 444 B. C., to rebuild the walls, and with Ezra to lead in a needed religious revival.

**HAPPY TIMES WITH THE BIBLE**  
"FOR Ezra had prepared his heart to seek the law of the Lord, and to do it, and to teach in Israel statutes and judgments."

There was great need for a revival of religion, and Ezra knew that there can be no real revival until the people come back to God. He therefore read to them the statutes and judgments. Ezra read from the law of Moses from morning until midday, "and the ears of all the people were attentive unto the book of the law."

What would you think of the people being summoned into some public place today to hear the Bible read? But you say, we hear it read over the radio, and we hear it read in church, and we sometimes hear it read in the home. But do we hear it? And are our ears really attentive?

**HEARING AND DOING GOD'S WORD**

EZRA not only read God's word to the people, but he led them to do what they were commanded in the law. They went out to give portions to those who were in need. They came back to worship God. They began both to hear and to do.

"Be ye doers of the word, and not hearers only," James 1:22. It is positively dangerous to receive impressions from God and refuse to express what he has put in our hearts to do for him. Let me put it this way, we can become religiously intoxicated unless we go forth to serve.

**LIVING OUR RELIGION**

WHAT Ezra and Nehemiah led the people to do in the long ago was to put into practice what they heard—to live their religion. The late Gandhi was reported to have said, "I might have embraced Christianity, had Christians lived what they professed."

Let us keep clearly in mind that Ezra was first concerned in instructing the people according to all that God had said in the Scriptures. That comes first. We must have conviction about what is right. We must have a creed, but we are to remember that it is in daily living that we make our creeds effective.

**WHAT IS A RELIGIOUS REVIVAL?**

THIS lesson intends to reveal to us how a religious revival broke out in Jerusalem in the long ago, nearly 500 years before Christ was born. Well may we ask, What is a religious revival?

"Lord, send a revival, and let it begin in my heart." Revivals are prayed down, not talked up. We have fallen into the fallacy of speaking of revivals when some overnight spell-binder comes along and kicks up a big sensation. Before he leaves town, Pharissism is more rampant than ever. It is not until the Spirit of God moves upon the hearts of his people and rekindles in them a sense of sin, bringing them to true repentance, that we can have a real religious revival.

When men are convicted of their sins, they will say with Zacchaeus, "Lord, the half of my goods I give to the poor, and if I have taken from any man by false accusation, I restore him fourfold." When men begin to feel and talk and act like that, you have a real religious revival. And I repeat, such revivals are prayed down, not talked up. Now you are ready to read Psalms 119:9-18.

(Copyright by the International Council of Religious Education on behalf of Protestant denominations. Released by WNU Features.)

**Ruined by Hate**

Hate never ruined an enemy, but it has ruined the lives of many a hater.

You never fail to get your reward for Christian service, for the reason that it is its own compensation.

Discontent is the want of self-liking; it is the infirmity of will.—Emerson.

**Easily Built Automatic Auto Garage Door**

If you want a really sturdy, handsome, automatic garage door, build it yourself from the pattern offered below. The pattern not only simplifies building the door but also tells how to attach the necessary garage door hardware in order to make it completely automatic and upward acting. All materials needed for building the door are now readily obtainable at lumber yards everywhere. The garage door hardware that makes this door a fully automatic acting door is also now available at hardware counters and lumber yards.

The pattern contains complete directions for building an 8 ft. by 7 ft. door. It also provides information for building larger size doors, if needed. Realizing the importance of style and having a door match the exterior sheathing of your home, the pattern contains directions for building 12 other styles of door. There are doors without lights, with 2, 4 or 6 lights. Others are solid panel doors that blend in with modern style houses.

Send 50c for Swing-Up Garage Door Pattern No. 88 to East-Bild Pattern Company, Dept. W., Pleasantville, N. Y.

**HOUSEHOLD HINTS**

For extra plump, juicy raisins, rinse them in hot water before using! When using raisins in baking, dust them with part of the dry ingredients; this helps keep them from sinking and spreads their flavor.

Keep light bulbs and globes free from dust; even a light coating of soil can reduce amount of light considerably. Bulbs may be removed and wiped with a damp cloth; they must be thoroughly dried before they are replaced.

Add a few drops of glycerin to the rinse water when washing leather gloves; it helps soften the leather.

For tender, fully scrambled eggs, add water instead of milk; milk has a tendency to toughen the eggs; water keeps them light and fluffy.

**IF YOU READ THIS**

come back to us. Mom's not cross at you any more. She said, "I never would have picked that quarrel with Dad if I hadn't felt so miserable." Seems she'd been bothered with constipation caused by lack of bulk in the diet. Well, since Grandpa tipped her off to **KELLOGG'S ALL-BRAN**, Mom has joined the "regulars"—and what a difference it is! She polished off a bowlful of **ALL-BRAN** every a.m., drinks a lot of water. She's taken to baking sweet muffins, too, from the recipe on the **ALL-BRAN** box. So come on back. You'll find home was never like this—before **ALL-BRAN**. JACK.

**EMBARRASSED?**

Drives nearly frantic by itching and burning of simple piles, that keep you edging in discomfort? Countless sufferers are finding untold relief from such distress by bathing tender parts with the pure, gently-cleansing lather of Resinol Soap—then applying soothing, skillfully medicated Resinol Ointment. Why don't you try this time-tested easy way to long-lasting comfort?

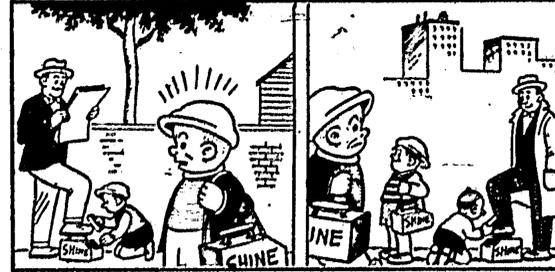

**RESINOL OINTMENT AND SOAP**

**Watch Your Kidneys!**

Help Them Cleanse the Blood of Harmful Body Waste  
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not get too heavy-laden. It is better to remove kidney trouble, than to let it remain. It poisons the system and weakens the whole body's efficiency.  
Symptoms may be itching backache, persistent headache, nausea or dizziness, going up nights, swelling, puffiness under the eyes, feeling of nervous acidity and loss of pep and interest in life.  
Other signs of kidney or bladder trouble are sometimes burning, stinging or too frequent urination.  
There should be no doubt that prompt treatment is vital in such cases. The Doan's Pills have been helping countless people for more than forty years. They have a nation-wide reputation. They are recommended by trained people the country over. Ask your druggist!

### Cover Crops Reduce Soil Erosion Losses

Research Tests Show Four Main Advantages

How cover crops seeded in corn and other row crops could help farmers fight erosion, build up the soil's organic matter and add to the nitrogen supply, is indicated in studies by research men in Iowa agricultural experiment station.

- Four major advantages are cited:
1. Cover crops protect the soil from August to May. One-fourth of the annual soil loss occurs during this period.
  2. Well-fertilized legumes and grasses add organic matter to the soil that helps resist erosion during the May and June period. This is the time when one-half of the annual soil losses occur.
  3. Cover crops add nitrogen to the soil, especially when legumes are a part of all the mixture.
  4. The yield of corn will be slightly increased in the year following the seeding of cover crops.

Research workers have developed a plan that locks the problem of seeding the cover crops. Just before

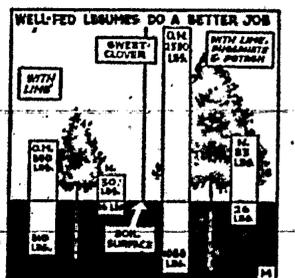

Good field of corn secured from proper plant food.

Jaying by the corn, they broadcast the seed with an endgate seeder. Weeder are attached to the cultivator to help cover the seed and better growth results.

### Clover and Alfalfa Need Limed, Fertilized Soil

Sweet clover and alfalfa will do a good job of increasing the soil's supply of nitrogen and vitally needed organic matter if they are well fed.

Legumes are heavy eaters of phosphate and potash. They thrive best in a soil that has been limed to correct acidity and to furnish calcium.

When legumes get a full quota of needed nutrients they will produce top results. That was shown in Newton soil experiment field in Illinois.

The accompanying chart summarizes results. Sweet clover grown on soil that had been limed and fertilized with phosphate and potash produced 63 pounds more nitrogen and a ton more organic matter per acre than that grown on soil that had received only lime. Another advantage of well-fed legumes comes in improved soil tilth.

The sturdy tap roots of well-fed sweet clover and alfalfa drive through plow sole compactions and push mineralized organic matter deep into the soil. They open tight soil to air and moisture. The added organic matter and better tilth 18 to 25 inches deep enable crops following in the rotation to make more efficient use of the plant food available in the soil.

### Increased Production Of Butterfat Required

Dairy farmers whose average annual production per cow is only 6,000 pounds are operating on a bare subsistence figure, it is pointed out by Howard O. Selby, general manager of the United Farmers of New England. It is not unreasonable to suggest that an annual production per cow of 7,500 pounds would be possible and that it would yield an economic level more nearly in line with other groups in the nation, he adds.

### Cleanliness Emphasized In Treating of Wounds

Horses under treatment do much better at pasture than in stables, if the weather is suitable. If sick horses must be stabled, quarters should be clean and well-ventilated. Be gentle in dressing wounds, clip closely or shave the hair around the wound and make sure that no discharge from around the edges is carried into the wound. Proper drainage of the wound must be assured.

### Canning Rules Insist On Perfect Ripeness, Freshness of Produce

There never was a canning rule better devised than the one about putting up your fruit and vegetables at their peak of freshness and while they are perfectly ripened. If you have your own garden of strawberries, peas and asparagus, you can check them every day and decide when perfection has been reached.

Then whisk the produce into your kitchen where jars and canning equipment wait in readiness. Following directions, you may be certain you have caught the produce at its best, thus assuring perfect eating enjoyment later.

The early canning we want to get out of way includes strawberries, rhubarb, peas and asparagus, par-

Berries used for jams and jellies should be fresh and ripe. Wash in plenty of water just before using. It's best to wash and then pick off the hulls.

ticularly. It may seem early, but right now is the time when these delicacies are coming to their best form.

**\*Strawberry Jam (Makes about 5 six-ounce glasses)**  
 2 1/2 cups prepared fruit  
 3 1/2 cups sugar  
 1/4 cup bottled fruit pectin

To prepare the fruit. Crush thoroughly about one quart full ripe strawberries. Measure 2 1/2 cups into a large saucepan.

To make the jam Add sugar to fruit in saucepan and mix well. Place over high heat, bring to a full rolling boil, and boil hard one minute, stirring constantly.

Remove from heat and stir in bottled fruit pectin. (Scrape all bottled fruit pectin from measuring cup.) Then stir and skim by turns for three minutes to cool slightly, to prevent floating fruit. Pour quickly into glasses. Paraffin at once.

**Strawberry Rhubarb Jam (Makes 8 glasses)**  
 1 cup prepared strawberries  
 1 1/2 cups prepared rhubarb  
 2 1/2 cups extra sweet corn syrup  
 1 cup sugar

Wash, stem and crush strawberries. Wash and slice rhubarb, add corn syrup and sugar. Boil until thickened or jam is 220 degrees. Skim and cool five minutes to prevent fruit from floating. Pour into clean hot jelly glasses. Cover with melted paraffin.

**Raspberry Jelly (5 or 6 glasses)**  
 2 cups raspberry juice  
 2 cups extra-sweet corn syrup  
 1 1/2 cups sugar  
 1/2 cup liquid pectin  
 1 tablespoon lemon juice

To prepare juice: Sort and wash slightly underripe raspberries, drain. Crush berries. Simmer 10 minutes. Strain through jelly rag. Measure juice and mix with corn syrup, sugar and liquid pectin. Boil until jelly stage is reached (221 degrees) or mixture threads from a spoon. Add lemon juice. Remove from heat. Skim. Pour into clean hot jelly glasses. Cover with melted paraffin.

**Strawberry Sunshine Preserves (2 quarts strawberries)**  
 2 quarts strawberries  
 3 cups sugar

Wash and hull berries. Leave whole. Add sugar and stir just enough to mix. Heat in a flat pan over a low burner. Stir occasionally to prevent sticking. When the boiling point has been reached remove from heat and pour into flat pans. Cover with panes of window glass and let stand in the sunshine about two days, or until the syrup is thick. Seal in clean jars.

### LYNN SAYS: Flavor's the Thing When You Cook

Want sausage patties to taste better than ever? Roll them in egg and cornflakes before you fry them.

Pork chops take on the new look when you bake them in a mixture of four cups of cranberry sauce, one cup honey and one-half teaspoon of cloves.

Ground almonds go well in creamed chicken soup. Make it thick, smooth and creamy.

### LYNN CHAMBERS' MENU

- Broiled Trout
- Buttered New Potatoes
- Fresh Peas
- Tossed Salad
- Hot Biscuits
- \*Strawberry Jam Beverage
- Pineapple Sundae
- \*Recipe Given

**Tutti Fruiti Jam**  
 4 cups strawberries or raspberries  
 2 cups gooseberries  
 2 cups currants  
 2 cups diced rhubarb or pitted cherries  
 Sugar (3/4 as much as fruit pulp)

Mash fruits and heat gently until juicy and well mixed. Measure and add three-fourths as much sugar as fruit. Cook rapidly and stir the mixture until thickened, about 20 minutes. Pour into clean, hot jars and seal.

**Asparagus**  
 Remove scales from stalk. Wash thoroughly to remove all soil. Cut in jar lengths. Tie in bundles, place tips up in boiling water to cover lower tough portions. Cover vessel tightly. Pre-cook three minutes. Drain, pack into clean pint jars, tips up. Add 1/2 teaspoon salt to each jar if desired, fill jar to within 1/2 inch of top with water in which vegetable was pre-cooked or boiling-water. Put on cap, screwing the band tight. Process 40 minutes at 10 pounds in pressure cooker.

**Peas**  
 Use only young tender, freshly gathered peas. Shell, wash and sort according to size. Pre-cook three to seven minutes, depending on the age and size of the peas. Pack loosely to within one inch of top into clean jars. Fill to within 1/2 inch of top with water in which vegetable was pre-cooked or boiling water. Add one teaspoon of salt and sugar mixture to each pint jar if desired. Put on cap, screwing the band tight. Process 60 minutes at 10 pounds in pressure cooker.

If you want to put up strawberries and rhubarb, the methods are really very simple. I am giving two that will work well, one for strawberries that will not float, and an easy oven baked rhubarb that needs to be processed for only five minutes in the water bath.

**Baked Rhubarb**  
 Wash and cut rhubarb into one-inch lengths without removing the skin. Place in a baking dish and add one cup sugar to each quart of rhubarb. Cover dish and bake until

Perfect jellies and jams are possible when you use the carefully tested recipes in this column.

rhubarb is tender. Place rhubarb and syrup which has formed, into clean jars to within 1/2 inch of the top. Put on cap and adjust according to manufacturers' instructions. Process in water bath five minutes.

**Strawberries (Will Not Float)**  
 1 cup sugar  
 2 pounds strawberries  
 1/2 cup strawberry juice

Boil together the sugar and strawberry juice. This juice may be obtained by crushing and heating some of the culls or overripe berries. Cool and add the whole berries, then boil for three minutes. Cover the vessel, then set aside for four hours or overnight. Pack into clean jars to within one-half inch of the top. Adjust cap. Process in water bath for 15 minutes.

### A Real Thirst Quencher

A refreshing fruit drink always is welcome as the warm days of spring and summer approach. Try the following for the evening's refreshment: For four glasses, combine two cups orange juice, one-half cup lemon or lime juice, one-half cup diced or shredded fresh pineapple. Chill thoroughly. Pour into glasses with chilled ice or ice cubes, fill with gingerale.

Released by WNU Features

Before you fold your omelet, spread it with a mixture of creamed crabmeat. Serve with tomato soup or a fruit cup to make an easy meal.

Mix tuna and crabmeat, then mix with celery, green pepper and hard-cooked eggs. Add cream sauce and bake in ramekins. This is an easy-to-fix meal on a busy day.

Using up hard-cooked eggs? Chop and mix with crumbled bacon, moisten with mayonnaise and season with Worcestershire sauce. A good snack on salted rye bread.

### CLEVER PRINCESS STYLE DRESS DAINY SUMMER OUTFIT FOR TOTS

### Patrick Henry's Old Home

To Become National Shrine  
 For a long time the home where Patrick Henry lived and is buried was forgotten. Now it has become an American shrine.

The Henry home—Red Hill, in Charlotte county, Virginia—which was burned in 1919, is to be restored as it was in Patrick Henry's time, and furnished with the furniture and decorations that Patrick Henry had.

This great patriot won his first fame by demanding for colonial Virginians the rights of Englishmen. He won his greatest fame by demanding for all Americans complete freedom forever from England.

Although a slave-holder, Patrick Henry considered slave-holding an economic curse as well as a social evil. He was a lawyer by profession, and also a very successful politician.

By 1775 war was imminent. On March 23 Patrick Henry offered a resolution to organize the Virginia militia and put the colony in a state of defense. In supporting it he made his most famous speech, which closes with the declaration: "Give me Liberty or give me death!"

**Indian Skull Deformation**  
 A strange skull deformation practiced by Indians of Mexico and parts of the southwestern United States a few centuries before arrival of the first white men is being studied at Smithsonian Institution. It consisted of a marked flattening of the top of the back of the head, presumably by deliberate pressure applied to the heads of infants. In extreme cases it produced what might be described as "three-horned men" with pressure-produced protuberances on two sides and the front of the skull. This was the situation in the first case ever reported, that of a skull found by a French anthropologist about 100 years ago on the Island of Sacrifices just outside Vera Cruz. No other specimens have quite reached the three-horned stage, but some of the individuals must have presented a weird appearance. In some cases the front of the skull also was flattened, producing a high, peaked head.

Doesn't it seem more sensible?  
**ALL-VEGETABLE LAXATIVE**  
 In NR (Nature's Remedy) Tablets there are no chemicals, no minerals, no phenol derivatives. NR Tablets are different—entirely different. Purely vegetable—a combination of 10 vegetable ingredients formulated over 50 years ago. Uncoated or candy coated, their action is dependable, thorough, yet gentle, as millions of NR's have proved. Get a 25¢ box. Use as directed.

**LOOKING AHEAD**

GEORGE S. BENSON  
President—National Labor Union  
Searcy, Arkansas

**A WORKER'S SOCIETY?**  
If you are a tradesman, or skilled or unskilled laborer who works with his hands—if you call yourself a "worker"—you must indeed be thankful that you live in America. Not that you should be any more or less thankful being a doctor, lawyer, teacher, or whatever you are. But somebody has called this nation a "workers' Republic", and I consider that phrase a good way to describe what we enjoy in this land of plenty.

Indeed there is no other country, whether socialized, partly socialized, or even communistic, that has given its workers more. A capitalist America has enabled even "common" laborers to live like kings were accustomed to live not many years ago. We produce and enjoy the fruits of production. We must never forget that this has come about because the American way of life makes it possible.

**Glorious Future**  
Do you know of a better and happier workers' nation? Have the "isms" and ideologies of the experimenters produced anything better? Certainly they have not. No worker in the world comes anywhere close to drawing the pay or enjoying the comforts of the average person right here in America. There is hardly a nation today that is not begging us to send them goods, or to bolster up their lagging economy in some way.

Possibly there are shortcomings in the American method. But judging from the achievements of the past, and viewing the possibilities ahead—I can think of nothing more foolish than to discard any part of our American way.

We can have a future fully as glorious as our past. We have new worlds of atomic energy, jet propulsion, and electronics to explore. I can think of no other economic system, besides the kind we have in America, as being equal to the opportunities ahead.

**Your Own Way**  
We have immediate needs, too. Our people could use perhaps five million new and improved homes in which to live. Millions of farm homes need electricity and running water. We need more automobiles, and our capacity for them seems never to diminish. More cars mean more roads. One advancement calls for many more. Friend, let me say that I know of no system that will bring these things to us—except that American way of initiative and enterprise.

In this workers' America, there are other things of great importance. As a worker, you are not told what you may do or how to do it. You are not the mere chattel of some state bureau. You can choose your job and your career, and so can your son. You can make your own decisions. Whether you work for an employer, or decide to work for yourself, you have a right to serve the world your own way. These things are important to you, and you are important to your nation.

No other land can show the progress America has made. Nowhere else is there such a high standard of living—that applies to everybody. Progress has flourished here as nowhere else. Why? We have been free to exercise ingenuity, incentive, competition, and thrift. We have been free to invest savings in more and better tools. We have not been subject to tyranny or despotism from government. What political dictatorship can match this achievement?

**Uncle Sam Says**

You bowed your head off when a home town player, bat on shoulder, let a perfect pitch wham into the catcher's mitt for the third strike. Well, you'd have the same right to howl if you saw the man who works next to you miss the ball on this tax reduction business. By taking the extra money and putting it into United States savings bonds through the payroll savings plan he actually would be hitting a home run for security for you and country.

Your country needs millions of savors now to preserve the nation's security. America's security is your security.

U. S. Treasury Department

**VA CONTACT REPRESENTATIVES TO DENVER SCHOOL**

Three New Mexico Contact Representatives of the Veterans Administration are attending a special Contact school, May 10 to 21, in Denver. It was announced by Gene A. Robens, VA Regional Manager in Albuquerque. Those named to attend the conference are A. R. Baca Las Vegas; William H. Durand, Roswell and Richard M. Lawson, Clovis. The purpose of the school Manager Robens said, is to familiarize Contact Representatives from New Mexico, Colorado, Utah, and Wyoming, comprising VA's Branch Office 13, in new VA regulations, as well as to train them in benefits available to veterans and administered by the agency.

Topping the agenda will be recent instructions regarding Public Law 346 which provides on-the-job training for veterans. Advising veterans on this law will be turned over to Contact Representatives in the field. The VA offices at Las Vegas, Roswell, and Clovis will be closed during this two-week period. Other communities served on an itinerant basis will be closed temporarily as follows: Carrizozo, May 13. On the return of these men from school, itinerant service will be resumed, Mr. Robens said.

Almost 94 per cent of the total land area of New Mexico is classified as grazing land. Slightly over three per cent is classified as cropland, with less than one per cent of the total under irrigation.

**NEW DEPARTMENTS ADDED TO STATE TEACHERS COLLEGE**

New Mexico State Teachers college catalogs for 1948-49 now coming off the press at the college print shop show teaching degrees offered in 14 separate fields, according to Dr. H. W. James, president.

The latest department to be added is industrial arts, which was set up as a teaching major last fall.

Students preparing to teach may now take degrees in the following fields: arts and crafts, commerce, elementary education, health and physical education, home economics, English, Spanish, social science, mathematics, biology, chemistry, general science, industrial arts, and music. They may select minors in all these fields except elementary education, and also in history, economics, political science, geography, sociology, and psychology.

Dr. James pointed out that some of the most recently added departments, such as arts and crafts, industrial arts, and commerce, are those in which teachers are most in demand. "In those fields, as in music, women's physical education, and home economics, the teacher shortage is particularly acute," he said. "And therefore the pay is correspondingly high. However, salaries in the less usual fields have always been higher than average."

Courses offered this summer that are of special interest to teachers wishing to fill out state requirements include the Conservation workshop, audio-visual education

**BURNS PROPERTY TRANSFERRED TO ST. MICHAEL'S**

The War Assets Administration announced last week the transfer to St. Michael's College, Santa Fe, of that portion of Burns General Hospital which has been occupied by the college since its inception

lost September. The property transferred consists of 126 acres of land, 48 buildings and bleachers and other equipment and athletic fields.

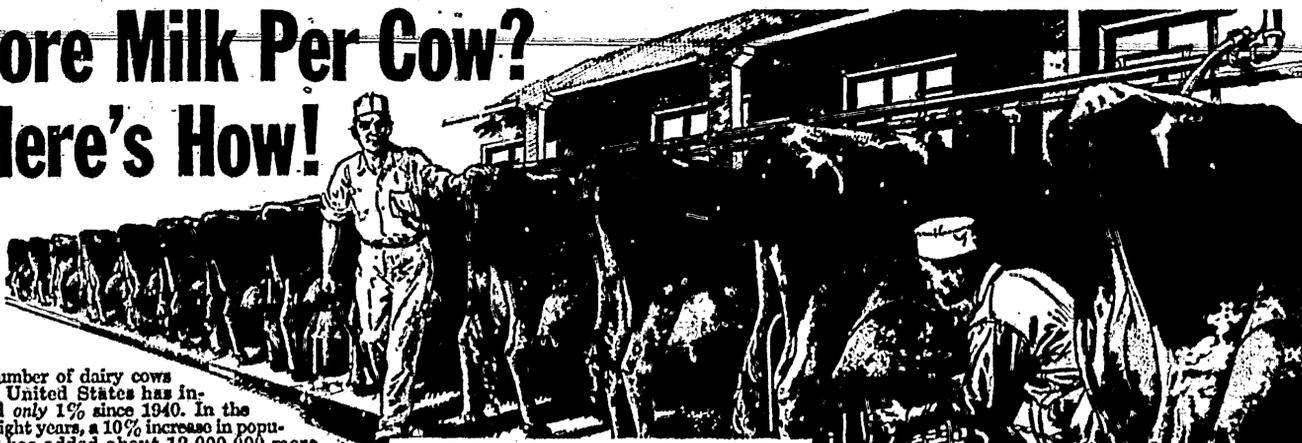

Approximately one half of the original Burns hospital area and one third of the buildings are affected by the transfer.

Organized as a four year college last fall, St. Michael's has been set up in conformity with the standards of the North Central Association of Colleges and Secondary Schools, accrediting agency for this area. The college is accredited by the New Mexico State Department

of Education and by the Catholic University of America, Washington, D. C.

"Miracle On Fifty-two Dollars A Week."— Could you support nine people on fifty-two dollars a week? See how good management made this possible. Read this absorbing story in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

**More Milk Per Cow? Here's How!**

The number of dairy cows in the United States has increased only 1% since 1940. In the same eight years, a 10% increase in population has added about 12,000,000 more mouths to feed. These new American appetites need plenty of dairy products. Where are they coming from? More cows? Certainly that should mean more milk. But to bring more cows into production takes time—three years or more. The other solution is to increase the average production of milk and butterfat per cow. On many farms, dairy production has been increased without adding more cows. Here's how:

1. Improve your pastures. Dairymen have a saying—"Grow more grass and make more cash!" Good grass is your best and cheapest dairy feed. Lime and fertilize. Control weeds by spraying and mowing. Reseed to improve grasses. These are all good pasture builders.
2. Handle your milk and cream efficiently. Mechanical separators reduce loss of butterfat and improve its quality. Give more careful attention to sanitation. Quick cooling and proper handling can help you sell milk and cream, of better quality, for more profit.
3. Eliminate cattle pests. New sprays, like derris and DDT, used on the herd and in the barn, can rid your cows of grubs, practically eliminate pesky flies and lice. These pests rob America of an unbelievable amount of milk each year. Iowa alone sets the loss caused by heel flies and grubs at nearly 250 million pounds of milk in one year.
4. Control mastitis and Bang's disease. They are serious enemies of milk production. Complete control of them could increase the nation's milk supply 20% or more. That would be one quart every day for 30,000,000 people.
5. Check with your neighbors. See what they have done to increase their herd averages. You can also get help from your County Agent, your Vocational Agricultural teacher, your State College Extension Station, or your State Veterinarian. Increase production with more milk per cow. And more milk per cow means more cash for you.

**Standardbred vs. Crossbred Chickens**

by R. George Jaap  
Ohio State University, Columbus, Ohio

The relative merits of standardbred vs. crossbred chickens may be summed up in three words—not much difference. But this difference is more often in favor of the well-chosen crossbred.

The advantages of a good crossbred are: faster growth and more eggs. However, many a slip can occur in crossbreeding chickens which will make them inferior, market-wise, to standardbreds.

For example, to produce a suitable crossbred, both standardbred parental breeds must be of top quality. If one has a mediocre egg production, it is almost a certainty the resulting crossbred will be a poorer producer than the high-producing standardbred side of the family.

The fact that crossbreds usually are darker-colored may be a market disadvantage. Many markets pay a premium for white-feathered chickens. White Plymouth Rocks are not suitable for crossbreeding. If they are crossed with New Hampshire, dark-colored chickens will often result. Therefore, the premium for whites is lost. And the slightly faster growth rate of crossbreds may not make up this price difference.

In color of eggs, the crossbred producer is also at a market disadvantage. Most egg-producing crossbreds lay colored eggs. Many markets pay more for white eggs. Therefore, the crossbred producer forfeits the profit on white eggs until crossbreds, which will consistently lay white eggs, are produced.

In certain cases, crossbreds may develop a greater susceptibility to disease than the better parent.

It is possible to develop crossbreds superior to the better standardbred strains. But determining the most suitable crossbreed is difficult because two different breeds are involved.

**"It takes a big engine to pull a HEAVY Load"**

The little engine is good for its purpose, but is not built to pull such a big load.

The larger engine is designed to handle large loads—efficiently, economically and easily.

Two-thirds of the livestock is produced west of the Mississippi River. Two-thirds of the meat is eaten east of the Mississippi. Bringing these two together is a job requiring a large engine.

That's why the country needs nationwide meat packers like Swift & Company. For with processing plants located where most of the livestock is raised, we can help bridge the gap between western range and the kitchen range. It is an important job, and we're proud that we are able to handle a share of it.

**How you gonna care for 'em down on the farm?**

Fresh, high-quality eggs grade better, bring better prices and help build consumer demand. Ideal eggs are large, fresh and clean. They are uniform in size and shape. Clear, thick whites, and firm, evenly colored yolks show good interior quality.

Top grade eggs begin with a good flock of layers, properly fed and cared for. Remove the roosters when breeding season ends—your hens will lay as well and infertile eggs keep much better. Keep the nests well filled with straw. Gather eggs two or three times a day . . . Never wash eggs! Use steel wool to clean the dirty ones . . . Keep them in a cool place—not over 60°. Sort them in the case according to color and size. Market them at least twice a week.

Remember, your best advertisement is to produce eggs which will reach the consumer fresh, clean and evenly sized. Quality helps make a better market for your eggs.

**Soda Bill says:**

.. if you bark at people all day you'll be dog-tired by night.

.. it's funny how opportunities look so much bigger going away than when coming.

**HAM & EGGS GO TOGETHER**

Milk, cream, poultry and eggs brought producers a gross income of nearly 6 1/2 billion dollars last year. That's big business!

Every family in the nation uses dairy and poultry products. These products are perishable. They have to be handled with care. It's a big job to process and distribute butter, cheese, ice cream, dressed poultry, and eggs in prime condition. It's a nationwide job—as broad and as long as America.

We have nationwide refrigerating and meat distributing facilities to serve both producers and consumers. It is economical to use these same coolers, refrigerator cars and trucks for dairy and poultry products.

The Swift salesman sells meat, poultry, eggs, cheese, butter and other products. In this way we can have one salesman for sixteen or more products, instead of sixteen salesmen each selling one product. The same goes for delivery, too.

If you were in business marketing many different products to the same buyers, would you have one salesman for each product? You would have each salesman sell many of your products. That saves money, effort, travel and the buyers' time. That's our way, too.

**BILL TO COMPENSATE FORMER LAND USERS TO HOUSE**

National legislation which will be of valuable aid to ranchers formerly using the 4,000,000 acre Alamo-gordo Bombing range and White Sands Proving grounds was approved by the U. S. Senate last week under the guidance of Senator Carl A. Hatch, (D-N. M.) according to G. W. Evans, Magdalena President of the New Mexico Cattle Growers Association.

"The measure S.1874 will go to the House of Representatives this week and early approval is expected" Evans said. The bill gives the War Department authority to compensate former land users for public lands contingent upon private property which have been condemned for defense purposes. Approximately 120 cattlemen are effected. The state cattlemen's association requested the legislation last December in quarterly meeting at Hot Springs when it was pointed out that the former act under which this authority was granted had been repealed at close of the na-

ional emergency. "Since repeal of the former authority in June of 1947, the War Department had found it necessary to inform ranchers that they would be unable to continue compensation for military land use. Passage of S.1874 is expected to relieve the situation before actual payments were contemplated for the current fiscal year," Evans said.

**VETERANS' NEWS**

More than half of the 216,000 World War II veterans in Utah, Wyoming, Colorado and New Mexico have applied for education or training, according to figures released by the Denver branch office of the Veterans Administration.

Of the 175,955 who applied, 122,029 entered training. A total of 5,627 have completed their courses and 59,103 remained in training on February 1. Nearly 20,000 applications were received from disabled veterans for education or training under Public Law 16.

In New Mexico, 34,784 out of 50,000 veterans applied and 21,620 actually entered training. A total of 1,322 completed their courses and 9,493 remain in training.

The peak of enrollment in institutional training, VA said, was reached during the 1947-48 school year. Veterans may apply for education or training under the G. I. Bill (Public Law 340) within four years from July 25, 1947, or within four years from discharge or separation, whichever is later. Training must be completed in most instances, by July, 1950.

A total of 130 million administrative records are required to keep track of veterans and their families. This is exclusive of the insurance service, which has 100 million records. In the master file alone, 24 million names are card indexed. There are 217,000 Smiths, 125,000 of them named John, 100,000 Browns, 170,000 Johnsons, 103,000 Williams, 110,000 Millers, 130,000 Jones and 80,500 Adams. 170 named John Quincy. There are more than 100 Eichelhowers and 20 George C. Marchalls.

Confusion that can come from similarity of names is indicated in the story of two brothers. They are twins, Laugh W. and Vaughn W. Macey. These brothers gave the VA system of records and identification a real work-out when both of them applied for disability compensation.

Both entered the army on the same day and received serial numbers only one point apart. They served in the same training camps and embarked for Europe on the same boat. In Europe they served in the same combat engineers unit in France. They were promoted to PFC and later to Corporal on the same days. Both drove one-half ton trucks. In quarters one slept over the other in the two-tier bunks. Both were wounded by one shell burst and were sent to the same field hospital. They were discharged from service on the same day.

After discharge they both went to work for the Springhill Paper

Co., Shreveport, La. Both began work in the testing room and later moved to the laboratory on the same day. They both enrolled in the same business school and signed up for the same type of careers.

These two claims caused the VA a good many headaches and were cleared up only when the twins personally visited a regional office and straightened out the details of their identity.

Over 97 per cent of New Mexico's land area is used for farming and ranching, leaving less than three per cent for cities, towns, military reservations, and other uses. One and six-tenths of the total area is barren or inaccessible.

Almost three-fourth million cattle were sold from New Mexico ranches in 1947. They were sold for almost \$73 million. The value of the entire livestock production has been reported as more than \$100 million. The Clovis stockyard handled about \$50 million in livestock in 1947.

10 acres in size, and more than 5000 were over 1,000 acres each in New Mexico.

From where I sit... by Joe Marsh

**The Laugh's on Them!**

A lot of folks (outsiders mostly) laughed when we formed our Town Improvement Council. Couldn't figure why we needed such a group, so long as we had a competent local government in office.

But the laugh's on them—because the Council has done a lot of good in our town; put the "Stop" signs up on Main Street, subscribed a new ward to the City Hospital, fixed up the Teen-Age Center; organized our charities.

From where I sit, the people can do as much to run a town as gov-

ernment itself—just the way industry can regulate its operations over and above the laws imposed upon it: like the brewers' program of "Self Regulation."

They inspect all taverns selling beer—to make sure they're clean, orderly, law-abiding . . . warning those few that aren't to "clean up or run the risk of being closed up." And like good citizens the tavern keepers are wholeheartedly behind the program!

Joe Marsh

BACKWARD GLANCES

FORTY YEARS AGO FROM 1908 CAPITAN NEWS

Thursday afternoon, one week ago yesterday, the Wells-Fargo safe at French was robbed of \$35,000 by three masked men. French is a station on the Santa Fe, at the crossing of the Dawson branch. The money had been consigned by the First National Bank of Albuquerque to the Southwestern Coal company at Dawson, and was to have been used in the payment of labor for last month. The safe containing the money, consisting of \$20,000 in currency and \$15,000 in gold and silver, was in charge of an armed messenger, and the messenger had transferred the safe from the Santa Fe train to the station depot and awaiting the arrival of the Dawson train.

The robbers invaded the depot and got the "drop" on the guard, the agent, and a by-stander and bound each of them. Two unsuccessful attempts were made to blow the safe open with nitroglycerin, and the safe was finally demolished with a sledge hammer. The booty was secured and sacked, the robbers fired a few parting shots, mounted their horses and hit the trail for the hills. The authorities were notified at

once, and posses were soon scouring the country in every direction. Two suspects have since been arrested but none of the swag secured.

THIRTY YEARS AGO FROM 1918 CARRIZOZO NEWS

Neil H. Bigget, editor of the Capitan Mountaineer, was here Monday and Tuesday.

WEEKLY NEWS ANALYSIS

# Anti-Communist Coalition Crushes Red Opponents in Italian Election; Lewis, Miners Fined for Contempt

By Bill Schoentgen, WNU Staff Writer

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

## EAST, WEST: In Italy

By the time officials finished counting the first vote returns from Italy's national election there was no longer any element of surprise in the fact that the anti-Communist coalition parties were winning two-to-one.

Unusual thing was that the anti-Red Christian Democrats, Republicans and Social Unity party had scored such a top-heavy victory. They led everywhere, even in the so-called "Red North" where Communists had amassed considerable strength in the industrial cities. It appeared that the anti-Communists had secured absolute majority in both the Italian senate and chamber of deputies.

Communist front spokesmen conceded that the election results "must be considered a victory" for Premier Alcide De Gasperi's coalition.

This Italian election had been the plum for which both the U. S. and Soviet Russia had been competing frantically for six months. It was a real contest. Each nation had sent myriads of entries: "I think Italy should be anti-Communist (or Communist) because..." Each entry was accompanied, not by boxtops, but by boxcars of food and machinery as well as other blandishments.

Victory of the anti-Communists in the election was, in a manner of speaking, a clear-cut victory of benevolent capitalism over militant communism. As such it could exert tremendous influence on the course of European history.

Probably the principal factors deciding the outcome of the election were passage of the European recovery program and the U. S. proposal to return Trieste to Italy.

Further, the election appeared to make an important point concerning the workings of Communist aggression: Ability of the Communists to take over a country is greatly reduced in cases where the Red army cannot be brought into position to exert pressure on the intended victim.

The Red army was not a factor in the Italian elections. It was a factor, either through its immediate presence or its threatening proximity, in the coups of Czechoslovakia, Poland, Romania, Bulgaria and eastern Germany.

If that reasoning is sound, a disturbing conclusion is evident: Should Russia realize that Soviet domination of Europe cannot be accomplished without use of military force, the next step might be to bring the Red army into action.

## LEWIS:

### Lost and Fined

All things considered, John L. Lewis came away from his brush with the government in fairly good shape—a uttering only relatively minor abrasions of the pocketbook.

For ignoring a federal order to end the soft coal strike that began March 15 over a pension dispute, Lewis was convicted by Federal Judge T. Alan Goldsborough of criminal contempt of court. As punishment Judge Goldsborough imposed a \$20,000 fine on Lewis personally and fined his United Mine Workers union a total of 1.4 million dollars.

It was almost a verbatim re-enactment of the Lewis-Goldsborough drama of 1946 when the judge fined Lewis \$10,000 and the union 3.5 million dollars for contempt.

This time, however, Judge Goldsborough wanted to be tough. He wanted to give Lewis a jail term but refrained from doing so upon advice from the government, chief prosecutor in the case.

Nevertheless, he deplored the government's policy of "expediency" which dictated that the mine chief's punishment should be limited to a fine and that he should not be given a jail sentence because that would make a martyr of him in the eyes of the miners.

It was a bad spot for Lewis—perhaps the worst of his career. Not only had he failed to beat the Taft-Hartley act and been forced to accept terms far short of his original demands in settlement of the pension dispute, but he also had put his UMW treasury 1.4 million dollars in the hole.

And now, if the miners continued to stay away from work in protest against the punishment, the government retained a powerful weapon it could wield. The Taft-Hartley injunction against them still was pending.

## Ancient Africans

A heavy flint cleaver, reduced to chalk-like consistency after having lain in the earth for millenniums, is part of the evidence a Harvard anthropologist brought back from Northwest Africa to support his claim that man existed in that section of the world 100,000 years ago.

Dr. Hugh Woodson, director of the American School of Prehistoric Research, returned from the expedition with two tons of fossils.

## Requirements

Gen. Omar Bradley, army chief of staff, told the house armed services committee that in the event of another war the U. S. must occupy Greenland, Iceland, Spitzbergen and the Azores or expose its industrial and population centers to air attacks. In a bid for congressional support of the draft and UMT, General Bradley warned that the army today would be in no position to take such positive action should the need arise.

## HOLY LAND: What Now?

In its first positive action since the U. S. backed away from its stand favoring partition, the United Nations security council issued a call to both Jews and Arabs to stop fighting in Palestine.

It probably was a gesture of impotence rendered even more impotent by the fact that the security council, although it laid down specific truce directives to both factions, decided against sending a U.N. commission to the scene of trouble to check on compliance.

Russia, continuing to favor the partition plan, refused to support the truce proposal but at the same time Andrei Gromyko, Soviet delegate, refrained from applying Russia's big-power veto and thus permitted the agreement to be concluded.

There was no assurance that either Jewish or Arab forces would agree to a United Nations truce and lay down their arms.

Well aware that the truce proposal had little or no significance in the pattern of the Holy Land tragedy, U. N. delegates shook their heads gloomily and wondered if the United Nations, not yet three years old, might not be a blue baby.

It was clear that the U. N.'s lack of "clan vital" in the Palestine problem stemmed directly from the decline of American prestige and leadership in the world organization.

After having pushed the partition plan through the U. N. by the sheer weight of its apparent conviction, the U. S. suddenly abandoned its support of partition in order to dabble in power politics with Middle East oil on the stakes. Instead of partition U. S. leaders advocated a temporary United Nations trusteeship. But they failed to indicate what kind of trusteeship or exactly how they thought it should be enforced.

While the American U. N. delegation was playing hard-to-get, other delegates were asking "What are we here for?"

Unofficial explanation was that the U. S. was trying, through Secretary of State George Marshall in Bogota, Colombia, to get some South American nations to offer to supply the troops that will be needed to enforce a trusteeship.

## A-WEAPON: Bingo!

Another batch of atoms has been exploded on the sea-girt wastes of Eniwetok atoll in the far western Pacific.

In the words of the U. S. atomic energy commission, the event marked the successful completion of an "atomic weapon." There was no further description of the sixth known atomic explosion in world history; but, as always in the case of applied nuclear physics, the element of mystery involved was at least as awesome as specific knowledge of the instrument might be.

At this stage, the situation between U. S. and Russia was not unlike a popular American game of chance. Democracy had just completed a row of numbers on its card; and in the U. S. announcement of a new atomic weapon kibitzers around the world could hear a loud cry of "Bingo!"

## HYBRID CORN: North Central

Twelve North Central states are well in advance of the South in the percentage of corn acreage planted with high-yield hybrid seed, according to a report by the department of agriculture.

The North Central group has increased its use of hybrid seed from 20% in 1923 to 82.5 per cent of all its acreage planted last year, while the South has only 37.5 per cent planted to hybrid seed.

## NEBRASKA: Stassen Again

Harold E. Stassen had husked his political corn well in Nebraska. Voters in the state's preferential primary—typed this year as a "popularity poll"—showed their favors on the wayfaring campaigner from Minnesota in a field of seven Republican presidential aspirants.

Results of the Nebraska balloting gave Stassen 15 national convention delegates for at least the first ballot. Legally, Nebraska's delegates go to the national convention unpledged. By custom, however, the outcome of the preferential primary is binding on the delegates for the first ballot. Stassen now estimated that he would command at least 300 delegates on the first ballot in Philadelphia this June.

As far as Thomas E. Dewey was concerned, the Nebraska primary added not a cubit to his political stature. He ran an indifferent second to Stassen; and there were many who predicted that this defeat, closely following the complete rout of Dewey forces in Wisconsin, virtually eliminated the New York governor from the GOP presidential campaign arena.

Ohio's Sen. Robert Taft, who had the support of Sen. Hugh Butler's state political organization, took third place, although he had been expected to show considerable strength in Nebraska. It was a critical blow to his political stock.

Far down the list and completely out of the money were the other four contenders: Sen. Arthur Vandenberg, Gen. Douglas MacArthur, Gov. Earl Warren of California and Speaker of the House Joseph Martin.

As always after a pivotal political event such as the Nebraska primary, innumerable experts were scurrying through their mental gymnastics to find significances. This was the consensus:

Stassen had generated a lot of horsepower because of his Wisconsin and Nebraska victories. Conceivably, he could sweep the GOP convention, although that contingency was by no means certain yet.

Taft and Dewey were in shoal water and heading for the rocks unless some outside force gave their candidacies a boost. The question no longer was whether Taft or Dewey would get the nomination but whether they could resolve their differences long enough to get together to stop Stassen.

General MacArthur, it appeared, would not get a chance to accept the nomination.

## Successor

Epifanio Quirino, vice-president of the Republic of the Philippines, succeeded to the presidency upon the death of President Manuel Roxas. Roxas died in a Clark field hospital, only a short time after uttering a pledge of "indestructible faith" between the American and Philippine peoples.

## UPSWING: Inflation

Latest of President Truman's recurring announcements that the nation's economy is being endangered by high prices was backed up this time by department of commerce economists.

They found that business activity had been growing stronger in recent weeks and concluded that this increasing strength must be interpreted in the light of the economic impact of lowered taxes, the foreign aid program and stepped-up military spending.

## Headliners

**IN SCRANTON . . .** Mrs. Mamie Francione pointed out that drinking is bad for the liver, dancing is hard on the heart, singing weakens the lungs, cited her abstinence from all three activities as the reason she has lived to be 100.

**IN PHILADELPHIA . . .** Raymond Palmer heaved a box through a jewelry store window, was led away to jail muttering, "I did it, I did it. It's something I wanted to do all my life. It's this very window I wanted to break."

**IN TOKYO . . .** Japanese whalers convened in a Buddhist temple, prayed for the souls of the 1,331 whales they caught last winter.

**IN FORT WORTH . . .** Thieves leaving a lumberyard in the middle of the night with a truckload of loot got stuck in soft ground, called a garage, had a tow truck pull them out, paid the garage man, drove away with their stolen lumber.

**IN NEW YORK . . .** American Bible society announced that it had distributed 2,318,400 copies of the Bible in 147 languages during 1947.

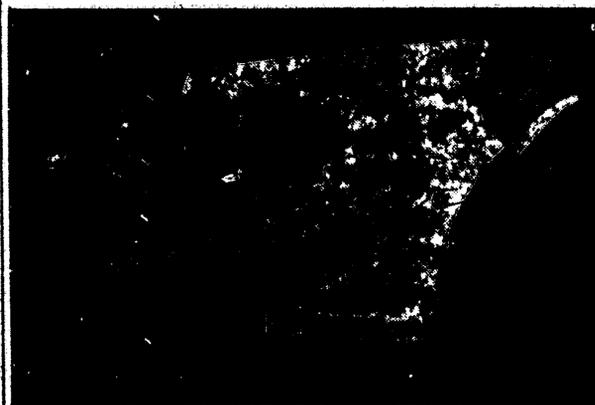

'IF WE DON'T WIN IT'S A SHAME'... Employing a stiff-armed, overhead pitch, President Harry S. Truman, a southpaw, tossed the first ball at the opening game between the New York Yankees and the Washington Nats at Griffith stadium in Washington, thereby officially opening the 1948 major league baseball season. It was the first hurling the President had done since he pitched his hat into the political ring by stating he was actively seeking Democratic renomination.

SCROLL OF THANKS TO ITALY... Day after the vital Italian elections residents of South Philadelphia's Italian colony gathered to offer thanks and to celebrate the defeat of the Communists. Part of the celebration entailed the signing of a 200-foot scroll, thanking the Pope for his part in availing the Italian people to vote for democracy.

ALASKA WANTS IN... People of Alaska are serious about getting their territory accepted as the 49th state in the union. Gov. Victor C. Rivera of the territorial senate of Alaska speaks to a gathering in the main street of Anchorage to present a forceful demand for statehood. Anchorage doesn't have the climate for an outdoor tea party, but citizens there have dug down into American history for their battle slogan: 'Taxation without representation.' Remember?

KNUG SERVES NAVAJO REHABILITATION... Navajo Indians Deschewis (left) and Sam Akkee, chairman of the Navajo tribal council of Shiprock, N.M., display a map of their non-productive land to Interior Secretary Julius Krug who has promised to give 5,050 of the 12,000 Navajo-Strickland Navajo Indian families off their arid reservations to more productive lands. Krug wants a 90-million-dollar appropriation to promote agriculture and industry on the reservations.

Seaweed in Medicine  
The seaweed, laver, is used to aid in cure of glandular tumors.

Ancient Origin of Nails  
The origin of nails has been lost in antiquity although they are mentioned in the Bible in connection with the building of Solomon's temple and at the Crucifixion. Hand made, they were scarce until about 1800, when cut iron nails came into production. Steel nails were first made in France about 1840 and first produced in America about 1878.

New Tight Casing  
Packaging a perishable food product such as sausage in a tubular casing made of material that when heated at or below 212 degrees will contract to conform closely to the content without wrinkling is the object of a recently patented invention. The tubular casing is made from rubber hydrochloride, with or without plasticizers, heating and stretching to not more than 150 per cent of its original size and cooling to set it in the stretched condition. Later heating contracts it.

Animals Without Grain  
Fifty per cent of all meat of all kinds produced in the United States is grown without the feeding of any grain at all. In the case of cattle, more than 80 per cent of all beef produced was grown without the feeding of grain of any kind—the animals being raised on roughage, grass, beet pulp and a large number of other foods unsuitable for human consumption. Two-thirds of the area of the United States is in grass which would be wasted if there were no animals to consume it and convert it into meat.

State Held Lottery  
The Louisiana state lottery in 1938 received a 25 year franchise for which it paid \$40,000 annually.

## CLASSIFIED DEPARTMENT

**BUSINESS & INVEST. OFFER.**  
FOR SALE: Well equipped welding and blacksmith shop. Good location. Selling on account of health. L. O. Moran, Box 1234, Durango, Colo.

FOR SALE: 12-seat Tourist Court. Further details, write M. MADDELL, Oxnark Tourist Court, Oxnark, Arkansas.

**FARM MACHINERY & EQUIP.**

**THANKS!**

**The FICTION Corner**

**STATION IDENTIFICATION**

By JOHN H. HOSE

"PLEASE take a seat along the mezzanine, sir. The next tour of Radio City begins in approximately five minutes," piped the charming hostess as she handed the tour tickets to Bob Johnson.

Only two days remained of the week for which Bob had saved all year. Vacation in New York—gosh! It had been wonderful . . . Coney Island, Grant's tomb, Statue of Liberty, Central park . . . meals in Greenwich village at the "Captain's Bell" and the night in Chinatown. Only two things remained on Bob's schedule—a night ride on the Staten Island ferry and this tour of Radio City.

Bob was 25, tall, blond and tagged as the rugged type by the hometown bobby soxers. After his graduation from Mascoutah high school, he had gone to work at Carl Mayhew's filling station and garage. Everyone in the Illinois town said that Bob was a born mechanic. Although Bob had been to nearby St. Louis many times, he always had longed to come to the big city. Now his dream visit had blossomed into reality, but it was drawing rapidly to an end. In 36 hours, he would be on the Penny speeding westward once again.

"But it sure was worth it," thought Bob, as he joined the group of 14 or 15 people which had gathered in the mezzanine foyer of the RCA building. He only casually noticed the girl who seemed so deeply engrossed in the showcase full of modeled hands of eminent NBC conductors. He had been looking at the unusual display only a few moments when the petite tour guide called.

"Please step forward to the elevator, folks. I am Helen Barry. We're happy to welcome you to Radio City. In the course of this tour, we shall visit the studios, show you the inner workings of radio and conclude by attending an actual broadcast of the Fred Waring show.

"Now I think it would be nice to know your names, and especially where some of you are from. We'll let you begin, sir," she said as she pointed to the portly man in the vanguard of the little group.

"We're Mr. and Mrs. Albert Fisher from Cedar Rapids, Iowa," from the dignified gentleman.

The others dutifully chimed in. "Elmer Peterson, St. Paul, Minn." "Eloise Miller, Altoona, Penn." "Bob Johnson, Mascoutah, Ill." "Mr. and Mrs. Mark Brown and sons, Gary and John, Chicago."

"Anne Strong, Vandalia, Ill." Partly because she came from nearby Vandalia, but more because of the soft, resonant quality of her voice, Bob turned quickly to inspect the young lady thus identified. As he looked into her self-confident, smiling face, he remembered the young lady whom he had noticed while waiting for the tour to begin. Her round face with its even, pleasing features made him think of Illinois, somehow. It seemed that she was symbol of the wide, sweeping prairies of his home state—almost a breath-of-freshment in the crowded elevator.

As the group emerged from the cage after a rapid ascent, Bob crowded ahead among the others until he reached Anne Strong.

"Miss Strong," he stammered, "I overheard you say you were from Vandalia. I'm from Mascoutah, and I've been to Vandalia lots of times." "Yes, Bob, I heard you say you were from Mascoutah," answered Anne casually, as though she and Bob had been friends for years. "Are you enjoying your visit here in New York?" she continued.

"Oh you bet!" replied Bob. "I'm going back tomorrow."

"If you will step this way, please, we will enter the sound effects department," interrupted the guide at this point, and Bob didn't quite finish his sentence.

"Please observe, and I shall demonstrate how sounds are simulated with the most simple devices," the girl continued as she entered a glass-enclosed booth.

"For example, to create the sound impression of a trotting horse, we simply take these half coconut shells and clap them together sharply.

Anne Strong recognized that the remote flutter of excitement within her was due to this young man rather than the wonders of radio.

ly. The plop, plop, plop comes through your radio at home just like the trotting hoof-beats. If we wish to make your mouth water with the sound of frying eggs, we need only crinkle bits of cellophane before the microphone.

"When we wish to reproduce telephone calls, we use the filler microphone . . ."

The voice droned on and on, but Bob had lost interest in radio. He was infinitely more aware of the slim young lady at his side. Her arm had brushed against him as the group crowded forward to watch the sound demonstration on the other side of the glass partition, and Bob was shaken by the tremor of excitement aroused by this brief contact.

Anne Strong, too, recognized that the remote flutter of excitement within her was due to this young man rather than the wonders of radio.

When Anne left Vandalia, she had decided never to return. It was such a provincial little town, she thought, and she felt sure she couldn't stand spending the rest of her life there. Of course she knew that she didn't go to the big city to achieve fame like a Heratie Alger here; but at any rate, she would be free from the petty gossip and restrictions of small town life.

Anne was considered the best beautician in Vandalia, so she was quite confident that she would experience no difficulty in finding work in New York. But for a few weeks, she planned to "see the sights" before going to work. Only this very morning, she had decided to see Radio City.

As they left the sound effects room and moved along the corridor toward the television demonstration, Bob and Anne walked silently to-

gether. Each seemed to be deeply engrossed in his own thoughts.

"Now we shall televise some of you," the guide announced, "and you can observe how you might appear on a television broadcast."

"Would you like to be first, Miss?" she asked, indicating Anne.

"Oh . . . I guess so," replied Anne, stepping forward.

As he watched her enter the enclosure under the glare of the lights for the television view, Bob again was aware of the undertones of feeling created by Anne's vibrant personality. He couldn't help but note

with possessive pride when he overheard the lady from Pennsylvania remark about how lovely Anne appeared on the television screen.

Then Anne was back at his side.

"How did I look, Bob? Was I terrible?" she inquired.

"You were wonderful!" said Bob, and Anne seemed to understand and interpret the feeling in his voice as genuine.

"When are you going back to Vandalia, Anne?" asked Bob, as they followed the group along the corridor.

"I wasn't planning to return to Vandalia . . . ever."

All the station seemed to drain out of Bob when she answered. For the swiftly moving machinery which carries us so rapidly into the future already was busy at work creating fantasies for Bob. Across the miles, his thoughts had planned how he would borrow Carl's car to drive to Vandalia to see Anne. But Anne wasn't going back; she was staying in New York.

"That concludes our tour of Radio City. I hope you have enjoyed your view behind the scenes in radio," came from the girl guide to jerk Bob back to reality.

Turning to Anne he asked: "Since I'll probably never see you again, how about celebrating my last day in New York with me? It can be your farewell salute to Illinois."

Anne said, "O. K., Bob, what's on the schedule?"

Somewhat sheepishly, Bob told her his plans, and they set out together. They visited the art museum, lunched at the open air restaurant in Central park, shared a bag of popcorn at the Bronx zoo and enjoyed dinner in a Slovakian restaurant below Third avenue. They brought the happy day to a close with the ride on the ferry.

As they walked slowly toward the hotel where Anne was staying, she asked quietly: "Where do you live in Mascoutah, Bob?"

"Since Mother died," replied Bob, "I've been living in two rooms over the garage where I work. I batch. It's not a bad place. There are five rooms there, but I use only two of them."

"I just wondered," said Anne, "thought I might like to send you a postcard some time. It's been great fun today, Bob. You're the first person in New York with whom I've felt really friendly. And you had to come all the way from Illinois." She paused as they drew near the hotel entrance.

"I hope you have a nice trip home," she continued as she extended her hand to him in a farewell gesture. "Thanks for a very nice day!"

"Gee, Anne, I had a swell time," said Bob. "Glad I got to know you. Maybe we'll see each other again some time, who knows."

They were both silent for a few moments. Then Bob shuffled his right foot around before he said, "Well, so long, Anne." Anne noticed the droop of his shoulders as he shuffled off down the street.

Two weeks later, Carl came into the garage and shouted to Bob: "Hey, Bob, who do you know in Vandalia?"

Bob looked up somewhat surprised, asking, "Why?"

"Letter here from Vandalia for you, and it looks like a female's handwriting to me," bawled Carl. "Ummmm! Smells good, too."

Before he looked at the crumpled handwriting, Bob knew that a certain beautician had decided that the big city wasn't so good after all.

**Doctor Dyes Self Blue in Experiment**

PHILADELPHIA. — Experiments in which a doctor risked his life as a volunteer guinea pig disclosed that chemical dyes may prove a "most powerful weapon" in warfare against cancer, the University of Pennsylvania disclosed.

The doctor asked that his name not be used. He volunteered after a dye—similar to that used on Easter eggs and catalogued in the color index as Nile blue sulfate—proved toxic in experiments on animals, the university reported.

It was the synthesized dye-stuff known as Nile blue 2-B which the anonymous hero swallowed to test its poisonous effects on humans. There were no ill effects. But the doctor turned a handsome shade of blue.

The newly established cancer commission of the university reported "experiments on animals demonstrated that certain malignant growths not only are retarded by selected dyestuffs, but some of these substances actually caused a marked shrinkage of the malignant tissues."

"Knowing that cancer cells break off and wander into other tissues," the commission reported, "Dr. Margaret Reed Lewis found it important to find a colored substance selective for cancer tissue so that its course could be traced through the body."

Use of Nile blue sulfate demonstrated tumors stained with the dye "grew more slowly than uncolored tumors and that treated animals lived longer than untreated animals."

But the dye was toxic. It was then the synthesized material was made and the human guinea pig volunteered for experiments.

**Ex-King Gets Driver's License For "Michael"**

WASHINGTON. — Ex-King Michael of Romania applied for a Washington, D. C., drivers license.

He was asked to sign his full name.

He signed "Michael." The police officer patiently asked him to fill in his middle and last names.

"I do not have any other names," the former king explained.

He paid his \$3 fee and received a license made out simply to "Michael."

**Oil Companies Build Plants To Make Gasoline From Gas**

WASHINGTON. — Some automobiles may be running on natural gas a year hence.

Two oil companies are building plants to make synthetic gasoline from natural gas and hope to begin production in a year. They say their product will be as good as any motor fuel and perhaps cost two cents less a gallon.

The Standard Oil Company of Indiana is building the synthetic plant in the Hugoton gas field in Kansas. The Carthage-Hydrocol, Incorporated, is building the other at Brownsville, Tex.

Their combined production is expected to be about 12,000 barrels a day. That is little more than a drop in the bucket compared with gasoline consumption of several million barrels daily.

Some government officials say it is still an open question whether the infant industry "catches on" enough to supplement greatly the tight supply of regular gasoline.

They pointed out that the price of petroleum is now high while that of natural gas is not. If petroleum costs drop or natural gas prices rise, they say, the gas-to-gasoline process may not be profitable.

**"Gag" Hats Made in Hardware Store Thrill Women Shoppers**

SAN MATEO, CALIF. — Women don't know a joke when they see one. Especially not when the joke is a hat.

That's what hardware store manager Al Colby says.

For 35 years Colby stared in pop-eyed amazement at the concoctions worn by his women customers. Finally, he could stand it no longer.

So Colby, whose only contact with millinery shops had been to pay the cashier as Mrs. C. sailed out the door with a new lid, sat down and whipped up 18 "guaranteed original" models.

He made 'em entirely out of stuff in his hardware store.

"Into his 'labor of laughs' went pieces of stove pipe, door handles, toilet brushes, mops, plastic bowls, flower pots, sponges, bread roll baskets, colored coasters, measuring spoons and beaters, clothes pin bags, muffin baskets, aluminum jello molds, dish rags, sink stoppers, copper scouring pads and assorted nuts, bolts and screws.

Then he put them in a window display in his store and settled back to watch the women laugh.

What happened? Women flocked from miles around to "oh" and "ah" and exclaimed "Isn't that just too, too!"

**FIRST AID to the AILING HOUSE**

by Roger C. Whitman

QUESTION: I have bought an old house that has wooden gutters with metal linings. The linings have rusted through from lack of paint. Could I paint over the metal with some of the new-type waterproof paint?

ANSWER: If the metal has rusted through, I believe it would serve no purpose to retain it. If you can remove it without too much trouble, you could paint the wood gutters on the inside with liquid asphalt paint, and the outside with a good house paint. If there are spaces at the joints, cover them with roofing cement and roofing felt, then paint over the felt with asphalt paint.

QUESTION: We just bought a new house and all the woodwork is painted white. I'd like very much to varnish it without taking the paint off. Could this be done?

ANSWER: Varnish cannot be applied over paint in the way that you ask about. The paint must first be removed either with paint remover or else by scraping or sandpapering.

QUESTION: Kindly advise me what I can do to smooth a concrete basement floor? It is rough, scaly and pitted.

ANSWER: For a fine job, you could have a terrazzo flooring contractor grind the floor down smooth with his terrazzo grinding machine. If the floor were very thin and cracked, I would suggest having it broken up and a new floor poured on top. If the floor is not leaking or cracked, I believe you could simply apply a floor leveling compound, smoothing it on with a trowel.

**Apron Potholders**

A BIG, competent-looking and very tailored apron which can take hard wear in the kitchen can be made of striped, checked or flowered cotton and trimmed with two rows of bright bias binding. The "mitt" potholders can be made of the same or of a contrasting material. Plain blue denim makes an interesting mitt if it is trimmed with a lush red appliqued strawberry as illustrated.

To obtain patterns for both apron and potholder-mitts and aprons for the Kitchen Set (Pattern No. 5118) send 20 cents in coin. Your Name, Address and Pattern Number.

Due to an unusually large demand and recent increases in fabric prices, it is required in filling orders for a few of the most popular patterns:

SEWING CIRCLE NEEDLEWORK 536 South Wells St., Chicago 7, Ill. No. 5118—20 cents for Pattern. Name: Address:

**Why?**

WHY TAKE HARSH LAXATIVES? Try Healthful Lemon in Water—

The juice of a lemon in a glass of water, when taken first thing on arising, is all that most people need to insure prompt, normal elimination. No more harsh laxatives that irritate the digestive tract and impair nutrition! Lemon in water is good for you!

Generations of Americans have taken Lemons for health—and generations of doctors have recommended them. They are rich in vitamin C; supply valuable amounts of B and P. They alkalize; aid digestion. Not too sharp or sour, lemon in water has a refreshing tang—cleans the mouth, wakes you up. It's not a purgative—simply helps your system regulate itself. Try it 10 days. USE CALIFORNIA SUNKIST BRANDS

**NEWS that makes folks sleep all night!**

Thousands now sleep undisturbed because of the nerve that they bring awakened night after night. Let's hope that you're one of the millions who usually sleep within 30 hours. (Sleep disorder irritation is an prevalent and costly problem. DOUBLE YOUR MONEY BACK. Make 24-hour test. Get Foley's from drug store. Full satisfaction or DOUBLE YOUR MONEY BACK.

**Relieves Distress of MONTHLY FEMALE WEAKNESS**

Also Helps Build up Red Blood! Do female functional periodic disturbances make you suffer pain, feel so nervous, irritable—at such times? Then try Lydia E. Pinkham's TABLETS to relieve such symptoms. Pinkham's Tablets are also very effective to help build up red blood in simple anemia. Lydia E. Pinkham's TABLETS

**SPRAY WITH Black Leaf 40**

Double-duty beautiful kills by contact with insects. Destroys plant lice but spares beneficial insects. Use one ounce per gallon of water. Destroys 100% of insects. YOUNG'S PRODUCTS A CHEMICAL CORPORATION. Nicholas Street, Louisville 2, Kentucky.

**ARE YOU A HEAVY SMOKER?**

Change to SANO—the distinctive cigarette with

**51.6% LESS NICOTINE**

Not a Substitute—Not Medicated Sano's scientific process cuts nicotine content to half that of ordinary cigarettes. Yet skillful blending makes every puff a pleasure. FLEMING-HALL TOBACCO CO., INC., N. Y. A survey based on unassisted tests of popular brands. ASK YOUR DOCTOR ABOUT SANO'S CIGARETTES

**Let's go to town —at home!**

NO TELLING what tomorrow's weather may be. It looks the best forecast. But we do want chairs for the windows. We do need a carpet sweeper, a new percolator, and a new end-table in the living-room. And we don't want to stroll around rainy streets to hunt them. Problem: How to thwart the weather man. Simple enough! Let's sit down by the fireplace and read the advertisements. Here it's comfortable and snug. We'll take the newspaper page by page, compare prices, qualities, brand-names. Tomorrow, rain or shine, we'll head for the store that has what we want, and home again in a jiffy.

"Buying at Home"—through the advertising columns—gives you wide selection, more time to decide, and satisfaction when you decide. MAKE IT ONE OF YOUR PLEASANT HABITS!

**Because Someone Has Faith in Me**

Grace Noll Crowell

BECAUSE someone has faith in me I cannot fall though all the way Winds up the hill. My staff in hand, and cheerily, I can but fare me forth each day With right good will.

Because someone has faith in me I need to keep my heart quite true, My own faith strong, My vision clear, that I may see, Undaunted by what meets my view, And sing a song.

God help me sing the song, I pray, God keep me clean and strong to go, Clear-eyed to see The sacred, upward-winding way, For fall I cannot; one I know Has faith in me.

## Ancho News

By Mrs. Elva S. Wilson

Rev. Mills will preach at Ancho Sunday, May 16th. Everyone welcome.

Mrs. Beane Jones and little daughter "Boopa" were Sunday guests at the Hightower ranch.

Mr. and Mrs. John Allen Hightower and son are Leo Cruce and El Paso visitors this week.

A cork shower was given for Mrs. Shorty Stoneman by Mrs. Alice Snodgrass and Mrs. Killingsworth at the Snodgrass home, May 11th. After games were played refreshments were served by Mrs. L. P. Hall and Martha, Mrs. George Straley, Mrs. Cap Straley, Mrs. Milton Jones, Mrs. Charles Stoneman, Mrs. B. A. Hightower, Mrs. B. W. Wilson

Mrs. Manuel Aragon and Miss Mabel Aragon. The honoree received many beautiful and useful gifts.

Mrs. Snodgrass and Mrs. Killingsworth and families were week-end visitors at Salinas.

Mrs. Gerry Blocker, nee Gerry Sweet, and husband were Ancho visitors last week. The Blockers are now living in Los Angeles.

Mr. Jim Hall and Mill Jones have returned from a business trip in Texas.

Rev. Markham preached at Ancho Sunday May, 9th.

Mrs. Reba Bingham has returned from the Furness-hospital in Carrizozo where she had her tonsils removed.

## Personal

Mr. E. Silva of Pichacho was a business visitor here Saturday and while here visited at the News-office and added his name to the subscription list.

Roman Nuno was a business visitor here Saturday from Pichacho and attended the governor's luncheon at the Southern Pacific Hotel.

Mr. Wayne Zumwalt and family have moved from Sheridan, Oregon to Oakland, Oregon, and request the News- Outlook be sent to them there.

Mr. J. O. Payne, candidate for the Republican Nomination for County Commissioner from District No. 2, of Capitan, was a business visitor in town Monday.

Mrs. Maude F. Eshom, candidate for the Democratic nomination for County Treasurer was a visitor here from Capitan last Monday. She was accompanied by her son Robert Henry.

Mr. and Mrs. Fred H. English spent Mothers Day with their parents Mr. and Mrs. F. A. English at Bonito.

Flora Leslie, Democratic candidate for the office of County Clerk was a business visitor in town Monday of this week, from Capitan.

Mr. and Mrs. Leo Ortiz and family of Alamogordo visited their parents, Mr. and Mrs. Joaquin Ortiz and brothers here the past week end.

Mr. Manuel Padilla visited his sister and family in Tularosa the first of this week.

Mr. S. M. "Sally" Ortiz spent last Sunday in the Hondo Valley in the interest of his campaign for the Democratic nomination for the office of County Sheriff.

Mr. Orville Luttrell, Republican candidate for the nomination to the office of County Sheriff was a Ruidoso visitor Monday of this week.

Mr. and Mrs. R. A. Walker and Mr. and Mrs. S. B. Boston spent last week end at Hot Springs.

Mr. and Mrs. Hollis Jones of Snyder Texas and Mr. and Mrs. Howard Jones and children of Hachita spent Mothers Day with their parents Mr. and Mrs. Colonel Jones.

Attorney Roy T. Mobley, of Alamogordo was in town Tuesday in the interest of his campaign for the District Judgeship.

## Corona News

(Continued from Page 1)

Mrs. A. J. Imhoff has returned from a three weeks visit with her son in Tucson, Arizona.

Rev. W. I. Smith of Alamogordo has been holding a revival at the Assembly of God Church the past two weeks. There were special services and dinner at the church Sunday with a Mothers' Day program in the afternoon.

Rev. John L. Smith has resigned as pastor of the Baptist Church and will be leaving Corona June 1. We regret his leaving, and hope that we shall soon have another pastor for our church.

A Presbyterian church has been organized recently in Corona with 33 members. Plans are being made for the erection of a church building in the near future.

Miss Juanita Willingham entertained her classmates, members of the eighth grade graduating class, with a party Saturday night.

### CARD OF THANKS

We wish to thank our friends of Carrizozo and Lincoln and Otero Counties for their thoughts and kindness.

Rose Sitton  
Alva and Josie Sitton

Mrs. Glenneth Stokes who has been ill at her home here is reported as much improved.

Mr. Henry Means of Hollywood, was a visitor in town last Sunday.

Grade VIII. Flavio Herrera, Manuel Regal, Philadelphia Olivas, Cecilia Chavez, Sofia Gallegos, Pablita

### BUBONIC PLAGUE FOUND IN FLEAS OF LINCOLN COUNTY RODENTS

The State Department of Public Health has received a report from the U. S. Public Health Service through its Plague Suppressive Laboratory in San Francisco, that bubonic plague organisms were demonstrated to be present in fleas from wood rats trapped on April 15, 1948 about 3 miles east of Capitan, Lincoln County, New Mexico. This is the first report of positive findings of bubonic plague in the rodents in New Mexico made as a result of the activities of the field crew sent into the state by the U. S. Public Health Service this year.

This crew is moving about from place to place in New Mexico and next week is expected to enter northern Rio Arriba County as a result of a report from some residents in that area to the effect that last fall there was a heavy mortality among the prairie dogs in that region and that the prairie dog hills this spring very heavily infested with fleas. Upon the State Department of Public Health calling attention of the field crew to this situation arrangements were made for an investigation in northern Rio Arriba County.

The State Department of Public Health again warns individuals that it is potentially dangerous to handle dead prairie dogs because the fleas which infest the prairie dogs could fairly easily infest the persons handling the dead animal.

The Public Health Department very strongly advises all citizens not to handle prairie dogs, nor wood rats, pack rats, nor in fact, any wild rodent.

ita Morales, Angeline Sandoval, Viola Vega, Daisy Zamora, Raymond Aragon.

Frances Ortiz, Beatrice Najer, Juanita Luera, Josephine Duran, Pauline Gallegos, Estella Chavez, Ruben Chavez, Julia Olivas, Salvador Morales and Arsenia Luera received honorable mention.

Nellie Navarro, David Pacheco, Manuel Aragon, Margarita Vega, Joe Luera, Julia Vega, Marcario Luera, Jessie Baca, Ramon Aragon Rita Zamora received improvement certificates.
