## Mabel M. Vigil Announces for County Supt. of Schools

I wish to announce to the citizens of Carrizozo and Lincoln County that I have filed my candidacy for Superintendent of Lincoln County Schools, subject to the approval of the Republican primary, June 8th.

I am 34 years old and have resided in Carrizozo since 1931. After completing High School, I took post graduate work in Business Administration and worked in the office of Mr. Groce, Supt. of Carrizozo schools. Since that time, I have been employed in clerical work in a wide and varied employment, which, I believe, has qualified me for the supervision of the office which I am seeking.

I have worked in the office of the Superintendent of Schools and have sufficient knowledge of the duties of this office to carry on the work in an intelligent and efficient manner.

I am a staunch believer in education and have always fought for certain methods and convictions which I believe I can put into effect. I am elected to this office, I believe that I am energetic and conscientious enough person to give this office my full effort and time.

I will strive for better schools, better salaries for teachers, bus drivers and janitors. For improvement of school buildings and school grounds. For better teachers for every county school. For better relations between parents and teachers. I will, in an unbiased and unprejudiced manner work for the education of our children, because, I believe, that in education lies our future. If we overcome racial prejudices, it must come through education. If we overcome the "isms" it must come through educating the child against them. We must educate our children against war and teach them to be neighborly and not grasping.

I will give my full support to the Health Program which has been started by our County Health Office and work for its success.

I will work with the County Board, with the Local Board, with teachers and patrons to make your school the best possible with available funds.

I sincerely seek and ask for your vote in the Primary Election on June 8th and in the General Election on November 2nd.

—Mabel M. Vigil

## LINCOLN COUNTY GOAL OF \$95,000 IN U. S. SAVINGS BONDS BY JUNE 30.

Lowering of the personal income tax rate by Congress opens the way for increased purchases of U. S. Security Bonds in Lincoln County during America's Security Loan, S. E. Greben chairman of the county U. S. Savings Bond Committee, announced. The new income tax rate, which went into effect May 1, reduces the amount of money withheld from wages for income tax payments.

Investment of the amount previously withheld from wages under the withholding tax in U. S. Security Bonds will provide financial security for every resident of the county and his family and it will help stabilize our national economy the chairman said. The local savings bond committee urges everyone to invest as much as possible in the safest, surest and best investment in the world today—U. S. Security Bonds.

"If we are to reach our county objective of \$95,000 during the security loan which extends through June 30, we must increase our purchases of Security Bonds". During April, residents of this county purchased \$13,931.55 in Series E, F and G Bonds.

Individuals may purchase Security Bonds at the bank or post office. Security Bonds also are being purchased under the automatic, painless, partial payment payroll Savings Plan which is offered to employees by many concerns in the county. The Bond-a-Month Plan offered by banks is a convenient, easy method of protecting future plans with a liquid reserve, quickly available when needed.

## CORONA NEWS

By Mrs. A. E. Mulkey

Mr. Arthur Melton and Mr. Archie Perkins took the scouts to see the damage done by the forest fire in the Gallina Mountains Sunday. The fire was started Friday, May 7, a little below the picnic grounds in the Red Cloud Canyon. The strong winds carried it to the south and east burning over about seven sections before being brought under control. It was reported that the aerial maps taken by the forest service indicated that 1700 acres of forest were destroyed.

Rev. John L. Smith, pastor of Corona Baptist Church, filled the pulpit at Moriarty last Sunday evening.

The revival at the Assembly of God church is still going on every night at 7:30 p. m. Rev. W. I. Smith of Alamogordo is doing the preaching.

Rev. Markham of Claunch will have Presbyterian Services at the school gymnasium the third Thursday evening and the fourth Sunday evening at 7:30 p. m. Memorial services will be held May 30, at 11:00 a. m. Sunday School every Sunday morning at 10:00 A. M. Everybody welcome.

The senior class of Corona High School had planned to take a trip to Grand Canyon but they changed their minds and went to Ruidoso and the Carlsbad Caverns instead. They all report a wonderful trip. The following seven out of the thirteen graduating made the trip: Norine Melton, Nalda Ann Hodges, Ruth Lackey, Madeline Smith, Lila Mae Proffitt, Carl Mays, and Billy Ehart.

Mr. and Mrs. Kenneth Knight and son Eddie, and Mr. and Mrs. Louis Vick accompanied the Corona seniors on their trip to Ruidoso Carlsbad and the Caverns.

Mr. and Mrs. Ernest Vandell and son Everett, and daughter, Joe Evelyn, went to Santa Rosa fishing last weekend.

Miss Patsy Bagely and her sister, Anello of Albuquerque, are visiting in Vernon, Texas this week.

Mr. B. C. Berryman took her son, Donald to Levelland, Texas last week. He plans to have his tonsils removed while at Levelland.

Mr. and Mrs. Sam Ehart and family have moved to Carrizozo. Mr. and Mrs. Clarence Ashcraft of Ancho have moved here. Mr. Ashcraft will take Mr. Ehart's place as section foreman.

Mr. and Mrs. Roy McGuffin, who formerly lived here, are visiting friends in Corona this week. They live at Ft. Sumner.

Miss Judy Perkins and her grandmother, Mrs. Greenwood, are visiting this week in Duncan, Okla.

Mrs. Francis Melton and her daughters, Yvonne and Nanette and Lester Williams and Marshal Miner attended Baccalaureate Services at Tularosa. Mrs. Melton's son, George attends school there. They also attended the rodeo at Capitan during the week end.

Mr. Leroy Anderson, third truck operator for the S. P. Railway, has returned from a visit with home folks at Meridian, Texas.

Mrs. Wesley King and children are visiting her brother and sisters at Portales this week.

Mr. and Mrs. Claud Casey are spending this week in Oklahoma City visiting Mrs. Casey's mother and sisters.

Mrs. L. Parker went to Tucson, Arizona this week to see her mother, Mrs. Carmier.

## SIX WEEK SUMMER SCHOOL OPENS MAY 24th

Miss Gloria Campbell has announced that she will conduct a six week summer school starting May 24th through July 2nd.

All grades and High School subjects will be offered with the exception of High school, sciences, commercial subjects, and Spanish.

The full six week course is offered at \$12.50 each subject. Registration will be Monday 9:00 a. m., May 24th at the Grade School building.

## N. M. MOUNTED PATROL TO STAGE BIG RODEO AT CAPITAN, JUNE 20

Troop 5 of the New Mexico Mounted Patrol will play host to other troops of the state organization at Capitan on Sunday, June 20, offering a full card of rodeo events and matched horse races. Mounted troopers from Santa Fe, Albuquerque, Gallup and Las Vegas will attend, and the public is invited.

Lieut. Corbin Hester, commanding Troop 5, and Trooper Will Ed Harris who is chairman of the special rodeo committee, estimate that the affair will draw one of the largest crowds ever gathered in Lincoln County. Special effort is being made to attract young, fresh cowboy talent and entrants must be amateurs or members of the Mounted Patrol.

Events, with purses to which all entrance fees will be added, are 50%, 30%, and 20% for first, second and third place;

Bronc riding, fee \$10 with \$100 added; Rigging Riding, fee \$7.50 with \$75 added; Calf Roping, fee \$10 with \$100 added; Bull-Dogging, fee \$7.50 with \$75 added; Team Tying, fee \$10 with \$50 added. For the matched horse races there will be added purses.

Stock for the program will be furnished and managed by Merchants Brothers of Estancia, N. M.

Troop 5 is inviting members of other troops and their wives to attend a get-together meeting on Saturday, June 19th, at Navajo Lodge in Ruidoso. Following the meeting there will be dances at both Ruidoso and Capitan.

Entries for the rodeo events must be filed at Capitan before 12 noon on Sunday. The program will start at 1:30 p. m.

## HOPE SNOW ATTENDS GIRL STATE AT LAS VEGAS

Miss Hope Snow daughter of Mr. and Mrs. C. A. Snow, has been selected to attend Girls State an organization to train girls in the function of state and national governments, which will open May 21st in Las Vegas.

Miss Snow, who will be a senior in the Carrizozo High School next year, will be sponsored by the local American Legion Auxiliary.

Phil Smith, was selected as the representative to Boy State, he was jointly sponsored by the American Legion and the Carrizozo Business Men's Club.

## Lincoln County Girl Scout Play Day Held At Fort Stanton

Local Girl Scouts attended the Lincoln County Girl Scout Play Day held last Saturday at Fort Stanton and walked off with most of the events scheduled.

Emily Ann Johnson placed first in the 50 yard dash and the sack race. The Shuttle-Relay was won by Marion Lincoln's team. Dorothy Withers placed first in arm and head bandaging exhibitions, Emily Ann Johnson in ankle bandaging.

The girls were also given top honors for the best song, and for their humorous skit.

Scout leaders attending play day were Mesdames Starley, Petty, and Pete E. Johnson. Girl scouts who attended and took part in the program were: Marion Lincoln, Emily Ann Johnson, Birtha Shrum, Verna Ruth Petty, Charlene Morgan, Dorothy Withers and Jeanette Posey.

## CORONA FEDERATION WOMAN'S CLUB

The regular meeting of the Corona Woman's Club was held Thursday, May 13.

Mrs. Lee Hancock gave a report on the State Convention held in Las Cruces in April.

The Club voted the Scout tree project as the prize winner 1947-48. The Scouts landscaped in front of the Corona Baptist Church.

Mr. Donald McKay gave a very descriptive idea of his dream come true in "The Art Colony of the Southwest" in Ruidoso.

Mr. Hawkins, Music director of Estancia, and Mrs. Hawkins were guests.

Mrs. Robin Pfeiffer sang "O Fair New Mexico", accompanied by Sally Mae Pfeiffer.

Mr. Hawkins led the group in singing "La Cucaracha" accompanied by Sally Mae.

Response to roll call was an original slogan for New Mexico.

Mrs. J. R. Jenkins and Mrs. Clint Sultemeier were hostesses.

The history of New Mexico and the formation of its counties were shown in a series of maps running the full length of the tables. Bowls of Yucca decorated the tables. The state colors were carried out on the tables. Favots were baskets of cactus blooms.

## ROUND-UP PARTY A SUCCESS

The "Round-up Party", an evening of old fashioned entertainment, given by the Carrizozo Woman's Club last Friday evening was a social and financial success.

A chuck wagon supper was served out of doors early in the evening bingo was played in the round room.

Mr. Joe Morgan kept the dance going at a lively pace. Square dancing, Paul Jones, Broom dance and Put your little foot, were enjoyed by all. The White Mountain Ramblers from Fort Stanton furnished the old time music.

Mrs. Ralph Petty, Mrs. Wm. Norman, Mrs. Roy Shaffer and Mrs. R. E. Bumgardner were the committee in charge.

## CIVIL SERVICE POSITIONS NOW OPEN

The United States Civil Service Commission has recently lowered the requirements for their Stenographer examination. Until recently an applicant for the Stenographer examination was required to take dictation given at the rate of 80 words per minute. However, because of the shortage of available stenographers, this standard has been lowered to dictation given at 60 words per minute.

Applications for both Stenographer and Typist positions are being accepted by the Regional Director, Thirteenth U. S. Civil Service Region, 106 New Customhouse, Denver 2, Colorado, until further notice. Salaries for Typists and Stenographers range from \$1765 to \$2394 a year.

Applicants for the Typist positions must compete in a general clerical test and in an actual performance test on a typewriter. Applicants for the Stenographer positions must qualify in the above tests and in addition must pass a stenographic dictation exercise given at the rate of 80 words per minute. Full information, as well as application forms, may be secured from the Office of the Thirteenth U. S. Civil Service Region, or from Roy Harman, Secretary, Board of U. S. Civil Service Examiners at the post office in Carrizozo, N. Mex.

## Poppy Day May 29th

How the little red poppy became the memorial flower of the dead of the two world wars was described by Mrs. Mabel Vigil, Poppy Chairman of Benjamin I. Berry Unit of the American Legion Auxiliary, as the Auxiliary continued its preparations for the annual observance of Poppy Day here Saturday, May 29.

"The custom of wearing the poppy as a memorial flower seems to spring up naturally both in the United States and England after the close of World War I," explained Mrs. Vigil. "Returning soldiers brought back memories of the little wild poppies growing along the edge of the trenches, beneath the tangled barbed wire, around the shell holes and over the fresh earth of the battle graves. They were the one touch of nature's beauty which survived in that area of destruction known as 'the western front', and came to symbolize the heroism of those who died."

"The association of the poppy with the war dead was given beautiful expression in the poem of Col. John McCrae, Canadian physician

who sacrificed his own life shortly after he wrote:  
"In Flanders field the poppies blow,  
Between the crosses row on row—  
The poem touched hearts the world over and tied the poppy inseparably to thoughts of the war dead."

The first instance of wearing poppies in tribute to the dead took place in New York City on November 9, 1918, when Miss Molina Michael, of Athens, Georgia, a Y. M. C. A. staff worker, distributed poppies at a conference of that organization.

The poppy was first distributed publicly on the streets of Milwaukee in June, 1919, in connection for the aid of the disabled veterans with the home-coming of the 32nd Division, and was to raise funds in that same city the following May.

"The American Legion adopted the poppy as its memorial flower at its National Convention in Cleveland in 1920, and by the American Legion Auxiliary at its first National Convention in Kansas City in 1921.

SCRIPTURE: Malachi  
DEVOTIONAL READING: Luke 2:1-6, 15-17

Malachi Demands Sincere Religion  
Lesson for May 16, 1948

GET ready for some straight talk in next Sunday's lesson. Malachi reveals the dark picture of unrequited love, polluted offerings, impious priests, unfaithful husbands. You wonder if Sam Jones has come back to life. He begins by crying, "The burden of the word of the Lord to Israel by Malachi." We shall miss the entire meaning of this lesson if we fail to read every word of the Book of Malachi. We cannot claim any of the promises of a better day, as indicated in the latter section of Malachi unless and until we deal with such hypocrisy as may infest our lives today, even as the priests and people were consumed with iniquity when Malachi prophesied unto them.

Dr. Newton Malachi. We cannot claim any of the promises of a better day, as indicated in the latter section of Malachi unless and until we deal with such hypocrisy as may infest our lives today, even as the priests and people were consumed with iniquity when Malachi prophesied unto them.

GIVING OUR BEST TO GOD

"A SON honoureth his father, and a servant his master; if then I be a father, where is mine honour? and if I be a master, where is my fear?" Malachi 1:6.

How can God bring good out of evil, when his people hold back their best from him? Let us bring it closer home, and ask, How can our earthly parents do their best for us, when we give them half-hearted allegiance?

OUR BEST IN WORSHIP

PASSAGES in the first, second and third chapters of Malachi reveal the lack of sincerity on the part of the priests in the worship which they offered and which they taught the people to offer. Here we see that unclean hands can never bring an acceptable offering unto the Lord. He looketh on the heart. He knows what is in man.

Using the house of God to make a show before men was one of the shameful evils of the priests in the days of Malachi. It did not fool God then, nor will it fool him today. Unless our worship is an expression of something fine and sincere, he will not accept it.

THE DAY OF RECKONING

"BEHOLD, I will send my messenger, and he shall prepare the way before me; and the Lord, whom ye seek, shall suddenly come to his temple, even the messenger of the covenant, whom ye delight in. . . . But who shall abide the day of his coming?"

One would think that such words of warning would have brought the priests and the people to their senses in humble contrition before God; but they continued to disregard the words of God's messenger.

"For, behold, the day cometh, that shall burn as an oven; and all the proud, yea, and all that do wickedly, shall be stubble; and the day that cometh shall burn them up, saith the Lord of hosts; that it shall leave them neither root nor branch."

Thus did God warn—a day in which priests and people went down beneath the chariot wheels of the invaders. And once again the warnings of God, though despised, were fulfilled to the last word in the terrible punishment upon those who forgot him.

THE PROMISE TO THE FAITHFUL

BUT God does not forget those who truly love him, and thus the Book of Malachi closes with the words of promise to the faithful. "But unto you that fear my name shall the Sun of righteousness arise with healing in his wings; and ye shall go forth, and grow up as calves of the stall," Malachi 4:2.

The remnants of those who remained true to God in the midst of a wicked generation were used to "perpetuate his witness in the earth. The dark days of persecution could not put out the light of his presence and peace.

Let us pause as we study this Book of Malachi and search our own souls, lest we be guilty of the hypocrisy which destroyed the people in the long ago. With every strand of strength which he grants us, let us do with our might what our hands find to do, and the peace that passeth all understanding will be our portion.

"And all flesh shall see the salvation of the Lord."

## FIRST AID to the AILING HOUSE

by Roger C. Whitman

**QUESTION:** We are bothered with excess moisture in our house. We have mineral wool insulation in the attic, and storm sash in some of the windows. We use gas heat. What can be done?

**ANSWER:** If you are burning gas in a room or water heaters that are not connected to a vent, that would be one reason for the moisture. Gas and oil produce large quantities of vapor when burning, and this vapor should be vented outdoors. If you have no finished basement, only a dirt floor in the cellar space, you should either plan to lay a waterproof concrete floor or else insulate the underside of the first flooring. The windows should all have storm sash, and it should be well fitted.

**QUESTION:** Is there anything that I could use to fill rather wide cracks which have appeared between baseboard and moulding?

**ANSWER:** That joint can be closed with a form of moulding called quarter-round. This should be attached not to the baseboard or flooring, but by long nails passing at an angle through the opening between baseboard and flooring and into the timber behind. There will be continual movement in the flooring and baseboard through the seasons, and secured in this manner the joint will remain covered.

### New Strain of Corn Withstands Drouth

**Guatemala Crossbreed Also Resists Root Rot**

Possibility of producing corn that would withstand root rot and other diseases as well as prolonged dry spells appealed to Earl E. May and Iowa State college officials. Knowing that Guatemala had been producing corn for more than 2,000 years in an isolated region, which had resulted in a highly inbred strain which could withstand dry spells as well as certain diseases and pests, Iowa research workers collected

Jim Moore, KMA, and Enrique Salas inspecting Guatemala corn field.

1,200 varieties of corn from Central America.

New Guatemala - U. S. crossbred corn has been tested at Ames, Iowa. The new corn outyielded three commonly used U. S. hybrids as much as 25 bushels to the acre. While the Midwest varieties withered and died during hot weather, the Guatemala-U. S. crossbreed remain in full ears. The tests are to be continued, but college officials believe that early results give promise of a new strain that will withstand long dry and hot spells in any part of the United States. James Moore, K.M.A. station, reports that work in Guatemala has proven entirely successful and he believes that the new corn soon will be grown on many farms in the United States.

### Organic Matter Will Aid Work of Soil Bacteria

A single ounce of soil contains 54 million living bacteria, according to R. C. Thomas of the Ohio agricultural experiment station.

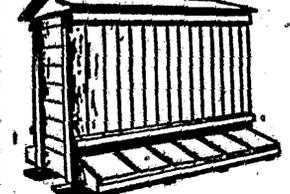

These bacteria can help or harm the crops, depending on the kind of bacteria. The good kind rot the organic matter, release plant nutrients and help build soil structure. The harmful kind cause plant diseases.

The good kind can be aided and the harmful kind eliminated by adding organic matter to the soil. To get this organic matter, according to Middle West Soil Improvement committee, return all possible animal manures to the soil; put back all crop residues and grow deep-rooted legumes regularly in the rotation and feed them generously with fertilizer carrying phosphate and potash.

### Early Growth Stressed in Raising Baby Pigs

While the average weight of eight-week-old pigs is probably less than 30 pounds, a lot of pigs weigh 40 pounds or more at this age. On the contrary, many weigh as low as 20 pounds. These variations in weaning weights have a marked effect on the growth-rate of pigs up to the time they are baconers. The bigger pigs at eight weeks old are the first to reach 200 pounds liveweight.

### Hog Self-Feeder

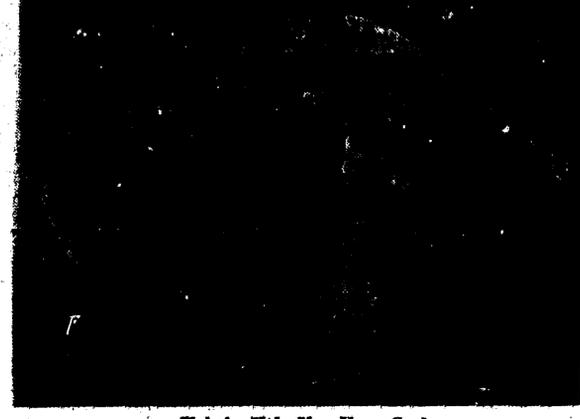

A portable hog feeder is a piece of labor saving equipment which has a place on every farm where hogs are being raised. The capacity of this feeder is 55 bushels, but it may be made of any size desired. If it is kept well painted it will remain water tight.

### Culling Pays Dividends To Poultry Producers

Regular culling pays dividends, but many poultry farmers are unable to carry out the procedure because of pressure of other duties. However, as the moulting season approaches, it will be seen that a percentage of the flock commences to moult earlier than others, and it is these early moulters that should be segregated and sent off to market at first opportunity.

#### Cool Tactics

As soon as warmer weather starts seeping into the house, many a woman asks the all important question, "How can I keep cool and still cook for the family?"

That is a neat trick, but you can do it, too. The first thing is to plan your menus so there are no long cooking ideas in them. Make a point of not selecting anything that will require more than 30 minutes cooking.

The second is to do most of your work in the cool of the morning, so that you won't be spending too much time right at supper time when it is so warm.

The third is to plan all-cool meals and get the preparation out of the way before hot weather really hits you. There are a number of cool ideas such as meat or meat-fortified salads that can be whipped together early and stored until supper time. Do this once or twice a week and see how nicely it works.

Here are several ideas that won't require much actual cooking preparation. Use them often for variety.

#### Broiled Veal Cutlets (Serves 6)

6 veal cutlets, 1/2 inch thick  
 Salt and pepper  
 1 cup fine bread crumbs  
 2 eggs, slightly beaten  
 Fat

Season cutlets with salt and pepper. Dip in bread crumbs, egg and then in bread crumbs.

Saute in fat for 15 minutes on each side, using low heat. Serve with tomato sauce.

#### Jellied Tuna Fish

2 6-ounce cans tuna fish, flaked  
 2 hard-cooked eggs, chopped  
 1/2 cup sliced stuffed olives  
 2 tablespoons capers  
 1 tablespoon chopped chives or minced onion  
 1 tablespoon plain gelatin  
 1/8 cup cold water  
 2 cups mayonnaise  
 Lettuce, sliced tomato, sliced avocado

Combine tuna fish, eggs, olives, capers and chives. Soak gelatin for five minutes in cold water. Dissolve over hot water. Add to mayonnaise, stirring constantly. Add to fish mixture and mix thoroughly. Turn into mold and chill until firm. Unmold on lettuce and garnish with tomatoes and avocado.

#### Shrimp Salad, New Orleans (Serves 4)

1 cup cooked rice  
 1 cup canned or cooked shrimp  
 3/4 teaspoon salt  
 1 tablespoon lemon juice  
 1 tablespoon minced scallions or onion  
 2 tablespoons French dressing  
 1 tablespoon chopped stuffed olives  
 1/4 cup sliced green pepper  
 3/4 cup diced raw cauliflower  
 1/3 cup mayonnaise  
 1/2 small head of lettuce or escarole, finely shredded

Chill rice. Clean shrimp, removing black vein down the back. Cut shrimp into pieces, then combine with remaining ingredients. Serve on individual beds of the shredded lettuce.

#### Salad That Satisfies

Salad suggestions always intrigue the homemaker who is interested in varying her menus, particularly when she wants to "dress up" a cold meal for hot summer days. Here is one slightly different from the usual salad: Make lemon jelly in the usual manner, using lemon flavored gelatin or the plain unflavored gelatin and following the standard recipe. Turn into molds which have been rinsed with cold water. Fill molds about one-fourth full. Let this gelatin harden. Then fill molds with a combination of chopped apple, grated coconut, celery and a bit of chopped pimento for flavor. To two cups gelatin, use one cup chopped apple, two-thirds cup chopped celery, one pimento and one-half cup grated coconut. Fill molds with gelatin and chill until firm. Serve on salad greens with French dressing or a sour cream dressing.

#### Vegetable Sausage Salad (Serves 6)

1 quart diced cooked potatoes  
 2 cups cubed salami or Thuringer sausage  
 2 tablespoons vinegar  
 2 cups large cooked peas  
 1 cup chopped celery  
 1 pimento, chopped  
 6 sweet pickles, chopped  
 2 hard-cooked eggs, chopped  
 Mayonnaise and salt

Mix all ingredients together and add enough mayonnaise to moisten, salt to taste and extra vinegar, if desired. Heap in a large wooden bowl lined with crisp lettuce and garnish with tiny whole pickled beets and slices of hard-cooked eggs.

#### LYNN SAYS: Color, Flavor Contrast Will Whet Appetite

If you don't want warmer weather to wilt appetites, keep in mind interesting texture, flavor and color contrasts in preparing foods. No appetite wanes when food plates look pretty.

Roll oranges and lemons until slightly soft before squeezing to get more juice.

For crisp, dry bacon, broil on a cake rack. Drain on unglazed paper.

## 'Accident-Proof' Drill Injures Two Men

A supposedly accident-proof device, which was being demonstrated in Chicago recently, misbehaved during its first public appearance and caused injury to two men.

The device is a gun that drills short, threaded holes in walls. It is powered by a .22 caliber rifle cartridge.

When the accident occurred, about fifty persons had gathered to see it work. One man held his left hand over the front end to demonstrate the gun's safety. It discharged as he did so. The rod pierced the man's hand and injured another spectator. The manufacturers of the new drill have decided that more improvements are needed on the device.

## HOUSEHOLD HINTS

A travelling clothes line saves steps and eliminates walking on wet grass, etc. The wire may be threaded through a well pulley attached at the kitchen window and another on the garage, front porch, or whatever is situated at a convenient distance and line is reeled out or in as clothes are hung or taken off.

Roast meats will carve more easily if allowed to "rest" a few minutes after they are taken from the oven. High ceilings appear lower when painted a dark, rich color—such as red or royal blue.

Open wrapper of wrapped bread carefully on one end. Replace unused slices of bread and roll wrapper down tight; bread will remain fresh until last crust is used.

Stale rolls grate easily and produce fine, light crumbs. When watering the house plants, be careful not to wet the foliage of the begonias, it will curl if you do.

Save time by placing sliced bacon in skillet without trying to separate slices; slices will separate easily with a fork as they begin to warm.

WEEKLY NEWS RELEASE  
(Office of the Governor of N. Mex.)

New Mexico's cotton producing counties were given special recognition this week Governor Thomas J. Mabry proclaimed Cotton Week for the period of May 17 through May 22.

Pointing out that New Mexico produces some of the finest premium cotton in the Nation, Governor Mabry said that "New Mexico has a special interest in all matters that effect the cotton industry." Cotton and cotton products," he said, "have played an important part in the development of our national economy. The manufactured products of cotton find their way into every home in our nation and have done much to increase the American standard of living."

A suggestion put forth in a Colorado publication that Kit Carson's body be brought back to Colorado got a cold reception in New Mexico. It was suggested that the body of Kit Carson be moved from its Taos burial place to Fort Garland, Colorado, where Carson was once in command.

"Personally, I am strongly opposed to it, as would all of New Mexico, I am sure," Governor Mabry said. "Kit Carson was a great American whose achievements are closely associated with the history of New Mexico. He chose this state for his home, which he built at Taos, and he chose a New Mexico woman, Josefita Jaramillo, for his wife."

"People of all New Mexico, and especially the citizens of Taos, take great pride in honoring the memory of Kit Carson, and we want his body to rest in the coil of the state that he called home."

"We have no place in America for communists", Governor Thomas J. Mabry declared this week in an address on Americanism.

"I would say, let them go to Russia," the governor said, "... and as they take off, tell them to carry to their fellow communists on the other side of the world at least some message of truth if they can. Tell them that here in America we have 250,000 churches where the right to freely worship is guaranteed every man, woman and child—while Russia has none where such freedom is permitted.

That we have 200,000 schools and 1000 colleges where restless minds and inquiring intellects can work unmolested in their search for truth. That we have 18,000 uncensored newspapers as against 18—all censored—for Russia, and that the radio reaches every home in the land to carry the story of free enterprise and spiritual progress.

"And tell them finally that we who are left here enjoy this heritage that cost so much in blood and

we who enjoy a moderate beverage like beer want to do so in a place that's clean, orderly and homelike. So under its program of "Self Regulation," the brewing industry checks every tavern periodically, and warns any that aren't up to standard that they'd better do a bit of "trimming." And like Led Denny's fence, it works out mighty satisfactorily—for the brewers, the tavern keepers, and you!

From where I sit, anything worth while takes a bit of watching. Taverns selling beer, for instance. Folks

**FOR THE RECORD**

Under a Carrizozo date line an Associated Press article states that "Sheriff Nick Vega chagrined a good part of the town's able-bodied male population" to fight the recent forest fire in the Gallinas mountains near Corona that burned 2,000 acres of timber.

The article also states: "The sheriff had a line of trucks waiting. A number of firemen protested a forest fire wasn't in their line."

"They set out with orders to go 50 miles an hour lest come be tempted to jump out," we do not know who sent this in but the article gives a false impression. There were plenty of volunteers; they went willingly; fought day and night; until the blaze was brought under control.

The men of Carrizozo are always ready and willing to answer the call of any emergency and there is no complaint afterwards.

Keeping production records on all your dairy cows is more important than ever this year. By knowing just how much a cow produces, you can adjust the amount of grain she's getting. It's a quick way to cut feed wastes. Besides, production records will give you an accurate guide for planning a breeding program.

Perlite is truly a wonder-rock. This massive pearl - grey to black rock when heated rapidly to near its melting point (about 1450° C.) expands suddenly to a large volume of fluffy white material - literally it pops like corn.

**SMALL POX VACCINATION.**

(By Dr. R. G. M. Ehlers)  
The prevention of smallpox depends on vaccination which produces an immunity to the disease. Smallpox was at one time the most prevalent and most dreaded disease before vaccination was known, five persons out of a hundred escape the disease and approximately one fourth of those contracting the disease died. Many of those who recovered were horribly disfigured for life.

**CLINT ANDERSON FOR SENATOR**

*The Man for The Job*

In view of the fact that we have a dependable means of prevention and protection against smallpox, there is no reason why we should permit it to appear year after year, and in some years, in increasing numbers. More cases are reported in the United States than in any other country except formerly British India. There are a great number of children unprotected, and because health authorities urge and accomplish vaccination of school children mainly, it is safe to say that there are more unvaccinated adults than children, parents who usually give permission to vaccinate their children, completely forgetting themselves.

A baby should be vaccinated during its first year of life and again on entering school. When smallpox appears in a community, it is a safe plan for everyone to be vaccinated immediately. Ordinarily, an adult should be vaccinated every seven years. If an individual is protected against the disease, an immune reaction, easily recognizable, will occur within 24 to 48 hours.

Vaccination consists in introducing virus into the skin with the idea of producing a very mild type of the disease, thus establishing an immunity which lasts a number of years, usually seven. The incubation period is about three days, at which time a small papule appears, similar to a small pimple, where the virus was inserted. The papule develops into a pustule, dries, forms a crust or brownish scab which should not be removed. It will drop off the twentieth day or so.

Shields are never used. Fresh air and sunshine have been found useful in warding off infection. A gauze dressing may be used over the place of vaccination for 48 hours, but usually where underwear or clothes are clean, no infection need be feared.

Since vaccination affords such a high degree of immunity to the individual, persons who avail themselves of this protection are also serving the best interest of the community. Some states have laws compelling vaccination, some have not. In all states where vaccination is compulsory vaccination is legal. It is certainly our duty to see that each and everyone is vaccinated.

**BUY A BUDDY POPPY**

Parents with infants, pre-schoolers or who knows they themselves should be vaccinated, should present themselves to the family physician, with their children, if not vaccinated. If one is without funds, the District Health Department will, upon request with a note stating the person is unable to pay, be glad to accomplish the vaccination without charge. When a school child brings home a request slip to be filled out for vaccination at school, the slip should be filled out promptly.

Let us not wait for a fever epidemic in which lives may be lost or bodies marred with disfiguring scars before we avail ourselves of the reliable protection of vaccination.

**NAVAJO VETERANS RECEIVE READJUSTMENT ALLOWANCES**  
1947 income on the Navajo Reservation was supplemented by readjustment allowances paid to 346 Navajo veterans in the amount of \$42,463.00, according to a statement released today by Benjamin D. Litchini, Chairman-Executive Director of the Employment Security Commission, which administers Title V of the G. I. Bill of Rights in New Mexico.

The percentage of Navajo Veterans receiving readjustment allowances is in direct proportion to the number of all New Mexico veterans who have drawn readjustment allowances during the same period. During 1947, only 32 Navajos claimed unemployment compensation under the provisions of the State job insurance law, drawing a total of \$304.50.

**School Enrollment and Average  
Daily Attendance, 1946-47**

From figures released by the  
Superintendent of Public Instruc-  
tion it is found that the enrollment  
of pupils of public elementary and  
high schools in the year ended June  
30, 1947, was 131,647 - 47,212 in rural  
districts and 84,435 in municipal  
districts. The average daily attend-  
ance in all these schools was 103,  
403, - 37,525 in rural districts and  
65,878 in municipal districts. The  
percent of enrollments in average  
daily attendance in all the schools  
was 79 in rural and 78 in municipal  
districts.

**Highway Debentures**

The usual summary of statements  
concerning highway debentures  
was issued by the State Treasurer  
as of April 1, 1948. This statement  
shows that up to that date \$43,100,  
000 had been authorized in high-  
way debentures by various Legisla-  
tures from 1927 to 1947, except the  
session of 1943, which authorized  
no debentures. However, the total  
amount issued by all those author-  
ized amounts to \$41,100,000 on  
April 1 of this year. Of this amount  
\$18,017,000 has been retired, leav-  
ing the amount outstanding on the  
date mentioned of \$23,083,000. It  
is noted that during these twenty  
years interest rates have been re-  
duced from a high of six percent  
in the earlier years to as low as 1 1/2  
percent in later years. However,  
the amounts issued on April 1, 1948  
carried an interest rate of 2 1/2%.

**Teachers' Salaries and Individual  
Incomes**

For the National as a whole the  
Department of Commerce estimates  
the average income of individuals for  
1946 at \$1200, while the average  
salaries for classroom teachers for  
1947-48 has been estimated at \$2302  
In New Mexico the comparative  
figures are as follows: Average  
classroom teachers' salaries 1947-48

**FORTY YEARS AGO FROM  
1908 CAPITAN NEWS:**

An excursion train from El Paso,  
carrying about thirty-five people,  
came in Sunday, the occasion being  
the opening of a new town on the  
Bonito, eighteen miles south of this  
place. The excursionists were met  
at Walnut station, and conveyed to  
Bonito via Parsons. On Monday a  
picnic was given by the town com-  
pany, to which people for many  
miles around were invited. Quite a  
large number of vehicles left Capitan  
Monday morning carrying people  
who wished to be present at the  
picnic and other "doings". The ex-

**SMALL POX VACCINATION**

(By Dr. R. G. M. Ehlers)  
The prevention of smallpox depends on vaccination which produces an immunity to the disease. Smallpox was at one time the most prevalent and most dreaded disease. Before vaccination was known, five persons out of a hundred escape the disease and approximately one fourth of those contracting the disease died. Many of those who recovered were horribly disfigured for life.

**CLINT ANDERSON FOR SENATOR**

*The Man for The Job*

In view of the fact that we have a dependable means of prevention and protection against smallpox, there is no reason why we should permit it to appear year after year, and in some years, in increasing numbers. More cases are reported in the United States than in any other country except formerly British India. There are a great number of children unprotected, and because health authorities urge and accomplish vaccination of school children mainly, it is safe to say that there are more unvaccinated adults than children, parents who usually give permission to vaccinate their children, completely forgetting themselves.

A baby should be vaccinated during its first year of life and again on entering school. When smallpox appears in a community, it is a safe plan for everyone to be vaccinated immediately. Ordinarily, an adult should be vaccinated every seven years. If an individual is protected against the disease, an immune reaction, easily recognizable, will occur within 24 to 48 hours.

Vaccination consists in introducing virus into the skin with the idea of producing a very mild type of the disease, thus establishing an immunity which lasts a number of years, usually seven. The incubation period is about three days, at which time a small papule appears, similar to a small pimple, where the virus was inserted. The papule develops into a pustule, dries, forms a crust or brownish scab which should not be removed. It will drop off the twentieth day or so.

**Shields Never Used**  
Shields are never used. Fresh air and sunshine have been found useful in warding off infection. A gauze dressing may be used over the place of vaccination for 48 hours, but usually where underwear or clothes are clean, no infection need be feared.

Since vaccination affords such a high degree of immunity to the individual, persons who avail them-

**BUY A BUDDY POPPY**

elves of this protection are also serving the best interest of the community. Some states have laws compelling vaccination, some have not. In all states where vaccination is compulsory vaccination is legal. It is certainly our duty to see that each and everyone is vaccinated.

Parents with infants, pre-schoolers or who knows they themselves should be vaccinated, should present themselves to the family physician, with their children, if not vaccinated. If one is without funds the District Health Department will, upon request with a note stating the person is unable to pay, be glad to accomplish the vaccination without charge. When a school child brings home a request slip to be filed out for vaccination at school, the slip should be filled out promptly.

Let us not wait for a severe epidemic in which lives may be lost or bodies marred with disfiguring scars before we avail ourselves of the reliable protection of vaccination.

**NAVAJO VETERANS RECEIVE READJUSTMENT ALLOWANCES**

1947 income on the Navajo Reservation was supplemented by readjustment allowances paid to 346 Navajo veterans in the amount of \$43,463.00, according to a statement released today by Benjamin D. Litchini, Chairman-Executive Director of the Employment Security Commission, which administers Title V of the U. I. Bill of Rights in New Mexico.

The percentage of Navajo veterans receiving readjustment allowances is in direct proportion to the number of all New Mexico veterans who have drawn readjustment allowances during the same period. During 1947, only 32 Navajos claimed unemployment compensation under the provisions of the State job insurance law, drawing a total of \$304.50.

**OUR PUBLIC BUSINESS**  
New Mexico Tax Bulletin  
School Enrollment and Average Daily Attendance, 1946-47  
From figures released by the Superintendent of Public Instruction it is found that the enrollment of pupils of public elementary and high schools in the year ended June 30, 1947, was 131,647 - 47,212 in rural districts and 84,435 in municipal districts. The average daily attendance in all these schools was 103,403, - 37,525 in rural districts and 65,878 in municipal districts. The percent of enrollments in average daily attendance in all the schools was 79 in rural and 78 in municipal districts.

**Highway Debentures**  
The usual summary of statements concerning highway debentures was issued by the State Treasurer as of April 1, 1948. This statement shows that up to that date \$43,100,000 had been authorized in highway debentures by various Legislatures from 1927 to 1947, except the session of 1943, which authorized no debentures. However, the total amount issued by all those authorized amounts to \$41,100,000 on April 1 of this year. Of this amount \$18,917,000 has been retired, leaving the amount outstanding on the date mentioned of \$22,183,000. It is noted that during these twenty years interest rates have been reduced from a high of six percent in the earlier years to as low as 1 1/2 percent in later years. However, the amounts issued on April 1, 1948 carried an interest rate of 2 1/2%.

**Teachers' Salaries and Individual Incomes**  
For the National as a whole the Department of Commerce estimates the average income of individuals for 1948 at \$1200, while the average salaries for classroom teachers for 1947-48 has been estimated at \$2308. In New Mexico the comparative figures are as follows: Average classroom teachers' salaries 1947-48 \$2708, and average income of individuals for 1948, \$911. It may be noted that New Mexico pays higher average salaries compared with the income of individuals than all others, except perhaps one or two.

WEEKLY NEWS ANALYSIS

Palestine Trouble Heads for Climax As Arab Nations Prepare to Attack; Vandenberg Gives Warning to Russ

By Bill Schoentgen, WNU Staff Writer

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

CLIMAX: Palestine

With a clashing of arms and a babble of alarmed voices, events in Palestine appeared to be piling up for another minor but bloody climax in human history.

This particular crisis had its immediate beginning in a savage attack on the Arab city of Jaffa by members of Irgun Zvai Leumi, Jewish underground force. Fact that the Irgunists' foray against Jaffa was made in defiance of orders by Hagannah, the regular Jewish militia, carried no weight in the rush of incidents that followed.

From Palestine's coastal plain, site of the neighboring cities of Jaffa (Arab) and Tel Aviv (Jewish), the focal point of the disturbances moved swiftly inland to the holy city of Jerusalem.

Arabs and Jews hastily deployed their on-the-scene forces in preparation for what stacked up to be a major battle for possession of Jerusalem. Facing each other across a scant 200 yards of no-man's land, each side had its eyes fixed on the strategic Alamein camp which the British were evacuating.

But that wasn't all. It soon became apparent that the Arab league nations surrounding Palestine did not intend to stay out of this fight.

Reports were current that six Arab nations had decided to invade the Holy Land with ground, sea and air forces before the British ended their mandate on May 15.

The whole thing was shaping up in the form of a more or less total Arab effort to crush completely the Jewish intention of creating a Zionist state in Palestine.

Worried United Nations delegates, meanwhile, cast about for a means to prevent the inevitable carnage, or at least to preserve the city of Jerusalem.

France pushed its sponsorship of a heavily-armed volunteer U. N. police corps to safeguard Jerusalem. Hint of the make-up of such a force was given in the suggestion that it might include 100 New York police volunteers, but no Russians. This protective army would number from 500 to 800 members.

While the Palestine situation leaped into a frantic state of flux, the United States kept discreetly out of it all in conformation to its recently adopted policy of apparent disinterest to what happens in the Holy Land.

DEFIANCE: Two Issues

In a surprise speech at a dinner given by Michigan chambers of commerce for the state's congressional delegation, Sen. Arthur Vandenberg served notice on Russia that:

- 1. The United States may join western Europe in a military alliance against Communist aggression, and
2. "We shall not surrender to Communist conspiracies in the United States."

Thus, the chief Republican proponent of bipartisan foreign policy split the mind on two issues which, like grapefruit, will come more and more to be in the public eye as this year wears on.

Simply stated, those two issues are: Whether the U. S. should line up militarily alongside the recently formed union of western European nations, and whether the Communist party should be outlawed in this country.

They could become decisive issues in the presidential campaign. Indeed, Harold Stassen already has introduced one of them by coming out bluntly in favor of outlawing Communists in the U. S.

Vandenberg said, "We are suicidal fools if we do not root out and destroy any treason at home which may dream of bringing world revolution to the United States."

The Michigan senator only hinted at a U. S. military alliance with western Europe, but his remarks hardly could be misconstrued.

What Vandenberg didn't say is that while the U. S. has no formal or official role in the union of western European nations, American aid and support, military-wise, of that union almost inevitably is implied.

Whether or not this nation will grant that assurance will come to be a towering question in the public mind soon.

SKY-HIGH: Bombing

A team of air force and army ordnance men is seeking better methods of hitting pinpoint bomb targets from extremely high altitudes, out of reach of most anti-aircraft guns or fighter planes.

This joint organization is conducting most of its secret tests in the California desert at Muroc air base. Its assignment is to carry out research in bombing techniques, particularly at high altitudes.

OUTLOOK

The Dim Peace

Gen. Omar N. Bradley, army chief of staff, was taking a dim view of the possibilities of peace.

In fact, he admitted to the senate armed services committee, the prospect of a war is appreciably greater now than it was three months ago.

Adding forcefully to the pattern of evidence which U. S. armed forces representatives have been constructing to support their requests for a military draft and universal training, Bradley said:

"I think we would be neglecting our duty if we did not try to tell you that we are a little bit more afraid something will happen than we were three months ago when we were talking in terms of reserves."

And he added "we are not so sure" that war might not be looming in the immediate future.

To his testimony Bradley appended this clincher:

"We know that we are all speaking about Russia."

There it was — a responsible appraisal by the chief of staff of where the present talking war between Russia and the U. S. might lead.

What caused General Bradley to think the situation is more critical now than it was three months ago? He didn't say, but there is only one apparent explanation.

The tide of power politics has turned against Russia and is moving in favor of the western democracies.

With ERP beginning to channel money and supplies into Europe, the fields most favorable to Communist growth — poverty, hunger and dissatisfaction — are starting to be reclaimed.

As far as getting control of western Europe was concerned, Communists saw their main chance go glimmering when they lost the Italian election. They have, in short, gone beyond the stage where they can carry out territorial acquisitions through political coups.

In order to expand further now, Russia probably would have to apply force, which, in this case, would be the Red army.

And that may be why General Bradley thinks war is more of a likelihood now than it was three months ago.

SMASHER: For Atoms

To expand further the constantly widening fields of atomic research, a gigantic new cyclotron will be built at the University of California at a total cost of nine million dollars.

In announcing the project the atomic energy commission said the new cyclotron — commonly known as an atom-smasher — would be 20 times more powerful than the 4,900-ton machine currently in operation at the Berkeley institution.

David E. Lillenthal, AEC chairman, provided a hint as to the kind of long range planning for peace the commission is visualizing when he said that the new cyclotron "serves notice to the world that it is the intent of the people of the United States to be pre-eminent in the development of fundamental science of all kinds."

Engineering already is under way on the huge atom-splitter, but it will take five years before it is completed. Conceived as 30 times more powerful than the most powerful cyclotron now operating, it will produce atomic bullets ranging in force from six billion to 10 billion volts.

At Large

Secretary of Commerce W. Averell Harriman has been named by President Truman as ambassador-at-large for the European recovery program. Harriman resigned his cabinet post immediately.

Now an inventor has come up with a check that not only will talk but will scream if it has been forged or tampered with.

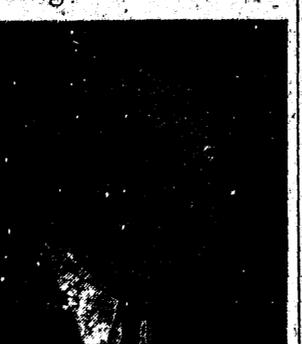

Burgess Smith, who used to do legal counterfeiting for the U. S. treasury, claims that his check will identify itself verbally when it is passed through a special machine. And if it has been tampered with it will emit a shrill scream, indicating that it is worthless.

Money Talks

Now an inventor has come up with a check that not only will talk but will scream if it has been forged or tampered with.

Burgess Smith, who used to do legal counterfeiting for the U. S. treasury, claims that his check will identify itself verbally when it is passed through a special machine. And if it has been tampered with it will emit a shrill scream, indicating that it is worthless.

Target

Walter P. Reuther, president of the United Auto Workers (CIO), was seriously wounded when he was shot by an unknown assailant who fired a shotgun at him through the window of his Detroit home. Communists were suspected of being behind the attack because of Reuther's strong opposition to them in the union.

MINERS: Temporary

Let not the public be deceived by the spell of quiet that is reigning in the nation's soft coal mines and the temporary evaporation of John L. Lewis from the stage.

As it looks now, this peaceful situation is good only until June 30. Even while the miners continue to chop coal in the pits, they make it clear that they expect to go back to their fighting on that date.

June 30 is the day the present wage agreement between the United Mine Workers and the coal operators expires. It is possible, of course, that a new agreement may be reached before then, but it is practically impossible to find anyone who thinks so.

After Lewis' tussle with Federal Judge T. Alan Goldsborough in which he and the union were fined a total of \$1,420,000, the miners went back to work after hearing John L.'s "wish" that they do so. This, however, is regarded as merely a temporary truce.

One of the reasons advanced for Lewis' cantankerous delay in coming to terms on the pension dispute was that the mine leader was eking out the work stoppage as long as possible in order to deplete the nation's coal reserves and so put himself in a better bargaining position when the contract negotiations came up.

That he accomplished that end there is no gainsaying. Coal stocks went down almost to zero all over the country, resulting in curtailment of steel production, a cut in rail travel and various major and minor industrial shutdowns.

It is a fact, too, that industry will not have recovered its balance sufficiently by June 30 to cope adequately with whatever emergency Lewis might precipitate this time.

FOOD PRICES: Logical

Not that it makes it any easier to pay the grocery bill, but the reasons why food prices are so high are no mystery.

U. S. has been channelling food and resources into foreign countries at a rate and volume never before approached. Also, every American able to digest solid food is eating 17 per cent more than he did before the war.

Finally, until just recently, consumers have been spending their money on food because there was nothing much else available to buy.

Those conclusions were reached by University of Wisconsin economists after an investigation into the causes of current high price levels.

Center of the whole spiral are grain prices. Strong exports of corn and wheat caused an upswing in prices on the commodity markets. More expensive grains cause prices of flour, bread, ham, pork loins and rib roasts to go up.

OREGON: Next Up

After whirling breezily through Ohio to the thorough discomfitement of Sen. Robert Taft, campaigning Harold E. Stassen set his political sights on the May 21 Oregon primary election where he was due to joust with Gov. Thomas E. Dewey for that state's Republican convention delegates.

In a kick-off address in Portland Stassen refurbished his foreign and domestic policies for the edification of Oregon voters who will elect the 12-member GOP delegation.

Stassen was taking his Oregon campaign seriously because a large measure of importance was being attached to the election insofar as it would provide the first test of West coast opinion on Republican presidential contenders.

SHORTAGE: Farm Machinery

Behind the present shortage of farm machinery in the U. S. lies a now all-too-familiar story: More such machinery is being produced than ever before but it isn't enough to meet the demand.

Waiting list for farm machinery is phenomenally long, yet 121 per cent more tractors, cream separators and other pieces of farm equipment were produced in 1947 than were available in 1939.

BOMB TO END ALL BOMBS... Secretary of the Army Kenneth Royall (left) cranes his neck to look up in the direction of the tail fins of a giant 43,000-pound bomb which attracted his attention during a visit to Aberdeen, Md., proving grounds. The big bomb recently was given a drop test (unarmed) at Muroc dry lake, Calif. From a converted B-29, with Royall are Maj. Gen. Everett S. Hughes, chief of ordnance, and Maj. Gen. A. D. Quinton, Jr., (right) commanding the proving grounds.

BULBOUS NOTE OF THANKS... Dutch bulb-growers are blushing with appreciation for the Marshall plan. This is just one of many designs that have sprung up throughout Holland, where the bulb-growers have designed in flowers words of appreciation for the passage of the American aid to Europe program. Word of appreciation here is 'dollars,' which speaks volumes.

COLUMBIA BASIN SIPHON... Near Adrian, Wash., steel workers weave web of heavy reinforcing bars around which will be poured concrete for Crab creek inverted siphon which will convey Columbia basin irrigation water across Dry Creek to reclaim eastern Washington sagebrush land. Twenty-five feet in diameter and 4,500 feet long, it will be world's largest monolithic concrete pipeline.

Tracing Undulant Fever Undulant fever in humans is traceable to Bang's disease in cattle as well as to brucellosis in swine.

Indonesian Farmer Indonesia is a preponderantly agricultural country, the result of an auspicious combination of favorable climate and — especially in Java — a soil enriched with the fertile ashes and lava from numerous volcanoes. Consequently, more than 80 per cent of the Indonesian peoples work their own farms, either full time or at least as their principal occupation.

Good Bookkeeper, Too When George Washington accepted command of the continental army he said that he would make no charge for his services but that he would keep an account of his expenses, which he "did not doubt congress would repay." His account book, made out at close of the war, shows that he expended more than \$160,000 or 16,000 pounds in "lawful" or coin currency. So accurate were Washington's accounts that the treasury found a discrepancy of only 89-90 of one dollar more due Washington than his book shows.

Easy to Pluck Chickens Now chickens can be plucked mechanically by water spray, says National Patent Council. Patent has been granted on a device on which fowl is vertically suspended head downward in a frame, which is rotated on its vertical axis between water pipes so that jets of water strike against the grain on the feathers. The fowl is subjected to a spray of hot water at 75 pounds pressure to soften the feather follicles, followed by jets at about 95 degrees and 150 pounds pressure. Practically all feathers thus may be removed.

WORLD MOVES TO IRE'S DOOR... All kinds of people have scratched their heads industriously in an effort to find a latent symbolism in this picture of a boy in a robe carrying a globe into the New York home which Gen. Dwight D. Eisenhower and his wife will occupy when he assumes his duties as President of Columbia University. But, without, it remains just a picture of a man carrying a globe into a new abode.

The FICTION Corner

SUBWAY LOCHINVAR

By PAT HILKER

JEFF had a pocketful of nickels. But he followed her to the change booth. He stood behind her in the line, his eyes noting every detail from her soft, short black curls to her doll-size suede shoes.

He was so busy with his survey that he failed to notice the nickel she left in the worn wooden cup in the shell.

"Hey, Lady," the money-changer yelled after her, "You left your change!"

She must not have heard the man, for she was already through the turnstile and was disappearing down the stairs to the platform. Jeff tried to make his voice sound casual as he told the man, "I'll give it to her."

The man grinned. "Sure don't blame you."

Jeff fumbled in his haste to get through the turnstile. He followed her downstairs and spotted her in the middle of the crowd on the platform, watching the F train roll in.

"Your change," he panted, "You left your change at the booth."

She stared up at him, and the impact of the incredibly dark velvety eyes tossed his heart into some rosy world far, far away.

Desperately he searched for the smooth, brilliant, exactly right thing he never could think to say until it was too late. But, "You left your change," he repeated inanely, and held out the nickel.

"Why, thank you very much," she said, and her voice was just what it should have been—low and soft and sweet.

"How nice of you to chase after me!"

"Oh, that's all right," he said. "I... I..." and there he stuck.

She smiled rather vaguely at him, waited a minute, and started to turn away when he failed to think of anything else to say.

"Wait, please!" he shouted at her. He didn't need to shout—he was right beside her—so close that the crowd rushing out of the train threw her against him.

For a breathless moment, he saw her tiny hand clutch at his coat, smelled the wonderful sweetness of her perfume as she laughed up at him. He supported her elbows and helped her catch her balance.

"This seems to be your day for rescuing me," she said, "Thanks again."

Before he could say another word, she was inside the car and the door was closing. Then he realized he hadn't found out her name or anything about her except that her left hand was innocent of rings—wedding or otherwise.

He darted down the platform and found a last late-closing door. It didn't help much to know that he was on the same train with her—once that he had no business on it.

It was jammed and he struggled hopelessly to get back to her car. He died a thousand deaths at 34th street, 23rd and 14th, afraid she would get off and he would miss her in the mob.

It happened at West 4th street, but he saw her in time and bounded after her, down the stairs to the Sixth avenue platform, barely keeping her in sight.

He thought she looked right at him, just before she wheeled and ran back up the stairs. "Hope she isn't afraid of me—might peg me for a wolf," he told himself.

"No—that's silly! Probably didn't even see me." He chased back up the stairs—to find that she was not on the downtown platform. He looked behind the newsstand, at both ends of the long platform—she was not in sight.

It dawned on him to look across

the tracks at the uptown platform—where he saw her, just before the train pulled in.

He skidded all the way down the stairs, landing in an ungraceful and thoroughly disgruntled heap at the bottom. By the time he untangled his long arms and legs and got across the mezzanine floor and back up the uptown stairs, the train was pulling out and she was gone.

He was sunk, stymied, and he didn't have the remotest chance of catching her—of finding out what any half-wit should have asked her before he returned the precious

The guard looked at her with understanding, looked grimly at Jeff and had a firm grip on Jeff's collar an instant later.

"Bothering the lady, eh? Why you—I ought to have you thrown in the jug!"

In about 40 seconds, Jeff was standing dazed and furious outside the subway station, back where he had first maneuvered to walk close to the lovely little black-haired stranger.

Why had she raised such a rumpus? She must have seen him before, when she doubled back at West 4th—she must have run away from

Jeff spotted her in the middle of the crowd on the platform, watching the F train roll in. "Your change," he panted, "you left your change at the booth."

nickel. Who was she? Where did she live? Did she travel the same route every day? Did she work—did she—did she—did she have the slightest clue as to how to find her again—ever.

Cursing himself for a blithering idiot, he stopped on the next train that came along. Might as well go back to 42nd street and ride his usual train back to his lonely room and his lonelier thoughts.

Of course he decided to be at that change booth every day for the rest of his life, if necessary, until he found her again. He pondered an ad to run in the Times: "Will the beautiful lady with the dark eyes who forgot a nickel at the change booth at 42nd street on the night of..."

Back at 42nd street, he stood gloomily staring at her for several minutes before he realized it. She was standing on the downtown platform again, right where he had first spotted her.

She had dreamed all of his life of some day meeting. She was talking to a man, so absorbed that she didn't even glance in his direction.

Once more Jeff dashed upstairs, downstairs and along the platform until at last he could reach out and grasp her arm.

She looked up then, surprise widening her dark eyes, and let out a blood-curling scream. "Help! Help! Help!"—She backed away from him, still screaming and started toward a blue-uniformed subway guard.

him! What was so frightening about him?

He puzzled and groused over that problem while he drank two cups of coffee in a little place across the street. He didn't get the answer until he reached into his pocket for his wallet to pay his check. The wallet was gone.

Jeff remembered the appealing way her dark eyes had held his when she was thrown on his chest on the platform—remembered those pretty little white hands as they clung to his lapel—tugging at his heart strings—and his wallet.

Prospector Who Found Gold Mine Searches For Peace and Quiet

MINNEAPOLIS.—John Laskowsky, 59, a prospector, came here from Arizona to get away from the people who, he said, have driven him mad since he discovered a gold mine that might yield \$25,000 per ton of ore.

He flew here with J. J. Bliss, a Minneapolis metal products manufacturer who took pity on Laskowsky after watching a crowd of people hound him about his gold mine.

"The poor guy was swamped by curious people all the time," Bliss said, "so he left the stake guarded by his son and a brother-in-law and came here with me."

Bliss said they were asking geologists from the University of Minnesota and the University of Colorado to go to the mine and examine it.

Laskowsky said he had been panning gold in the Wickenburg, Ariz., area for 15 years before he struck it rich. He had found small deposits often and had supported his family by panning them.

When he finally found the rich lode, Laskowsky said, he packed out \$2,500 worth of ore on his back because "if anyone suspected what was going on, I might have got shot."

He showed photostats of the Wickenburg Sun which quoted an ore market owner as saying "Laskowsky's samples are the richest gold ore I've seen in almost a lifetime in the mining industry."

He also had documents headed "State of Arizona Department of Resources" and "United States Mint, San Francisco" which reported that a 150 pound sampling of ore yielded \$1,051.63 in gold.

"Generally, people figure that ore that pays even \$25 a ton is worth mining," he said.

"I'm going back before long, but those people out there have got to let me alone. I just had to get away from them. They wouldn't let me sleep or eat or anything. They made me pan gold while they watched."

Fireman Rush to Extinguish Blaze in Heating Stove

HARTFORD CITY, IND.—A three-year-old girl here spoiled a hot game of checkers in which Hartford City firemen were participating.

The child tried to call a cleaning company but got the fire station instead. She asked that a driver be sent to her home.

"Do you have a fire?" the fireman asked. "Yes," was the reply.

Engines roared, tires screeched and sirens whined as fire trucks drew up to the house. The little girl then explained of course they had a fire—in the heating stove.

Birth of Quintuplets in U. S. Is Possible Statistics Show

NEW YORK.—Despite the odds, some American mother most any day may have quintuplets who survive and grow.

By amazing coincidence, there have been at least three cases of quintuplets in the United States in the last 12 years. Two occurred only 20 months apart.

In each case, the quints were born prematurely and none lived more than half an hour. The chance that all five will survive is extremely thin.

What makes the births such a remarkable coincidence is that, by the rule that seems to apply to plural births, quintuplets would be expected once in about 50 million births! With the United States' birth rate around three and one-half million annually, quints would be expected, mathematically, only once in 15 years or so.

The three cases of quints so close together, doesn't mean that this rule is wrong, or that it won't happen again soon. American quints could be born tomorrow, or not for 100 years.

For the coincidence that brought so many quints in so short a time does not mean the rules were out of order. They are not expected to be applied to any one given year or even a few years. But taken over decades they are valid. Then the rates do not seem to vary much.

Survey Discloses That Glare Is No. 1 Foe of Auto Drivers

SAN FRANCISCO.—Glare is the No. 1 enemy of millions of motorists who drive at night, according to a nation-wide survey of the American Automobile association.

It characterized the existing situation in regard to automobile headlights as a "serious factor against safety, courtesy and law."

The survey showed that one-third of drivers at night either forget or refuse to dim their headlights for approaching cars.

Other findings revealed that automobile headlighting, long inadequate has not nearly kept pace in safety and efficiency with other automobile improvements. Hazards of night driving have been increased greatly by the large number of cars with lights incorrectly adjusted or focused, or with one or more blacked out.

How to help your sick child GET WELL FASTER

... as recommended in the interest of child welfare by ROSE G. ANDERSON, Ph.D., Director of The Psychological Service Center, New York

1. The after-effects of your child's illness are often more important than the illness itself. Fevers, coughing, wheezing, convulsions, etc., are all signs of a child's body fighting through weakness. Such well-meant kindness may prolong his convalescence.

2. You'll be smart to help him amuse himself. Give him something which doesn't require an adult's constant attention. Give him your "Eveready" flashlight... or get him one of his own. If he tires of flashing the beam, or flicking out imaginary signals, then...

3. Show him how to cut designs or figures from stiff paper and how to throw their shadows on the ceiling or wall. Moving the figures will make them dance. Watch his pride in what he's done. Watch him get well faster because he's happier!

Free!... in the laboratory... in your own flashlight... EVEREADY BATTERIES OUTLAST ALL OTHER BRANDS! Brighter light, longer life! That's what you want in a flashlight battery—and that's what you get with "Eveready" brand batteries. Laboratory tests prove it. And the best "laboratory" of all—your own flashlight—proves it! That's why "Eveready" batteries outlast all other brands—because they outlast all other brands!

The registered trade-mark "Eveready" distinguishes products of NATIONAL CARBON COMPANY, INC. 30 East 42nd Street, New York 17, N. Y. Unit of Union Carbide and Carbon Corporation

I Think That God is Proud

Grace Noll Crowell I THINK that God is proud of those who bear A sorrow bravely—proud indeed of them Who walk straight through the dark to find Him there And kneel in faith to touch His garment's hem. Oh, proud of those who lift their heads to shake Away the tears from eyes that have grown dim, Who tighten quivering lips and turn to take The only road they know that leads to Him. How proud He must be of them—He who knows All sorrow, and how hard grief is to bear! I think He sees them coming, and He goes With outstretched arms and hands to meet them there, And with a look, a touch on head or hand, Each finds his heart bravely comforted.

LET'S TALK ABOUT YOU

BY CHARLES B. ROTH

Tact—A Daily Need

One of the chief qualities of those whom you like and admire is a quality known as tact.

Chances are that in your lifetime you've known very few men and women who were completely tactful. But haven't you known scores and scores who were not?

You know the kind I mean—men and women who always are saying untactful things that make you unhappy, that fill you with doubts about yourself, that give you moments when you wonder whether there is such a thing as a kindly person in the world.

Tact is without doubt the essence of charm, graciousness and of gentleness. But do you know what it is?

It's merely the perception of what to do or say under delicate or difficult circumstances. That's a definition of tact. But tact is much more than a definition really.

Tact is really a way of life. You can't be tactful unless you are thinking about other people, about what they like, about their rights and feelings more than you think about your own.

The real value of tact in your life is that it relieves tension and glosses over situations that might endanger friendships or cause you to lose self-respect in the eyes of other persons. If you have tact, you balance both sides and never willfully offend another person.

At the risk of appearing untactful, let me tell you that no one ever is born with tact, but everyone who ever had it acquired it. And you can acquire it just as easily and just as surely as anyone else can. Do you want to know how?

I've already hinted at that earlier yourself. And that's the advice I am going to give you now.

Think of that other person, try to see his viewpoint, try to see what his likes and dislikes are. Ask yourself what you would do if your respective roles were reversed. And then when you express yourself either by word or action, express yourself in unselfishness in the way you think he would like you to.

## SURPRISE SHOWER FOR MRS. GORDON DOCKERY

(Too late for last week)

A pink and blue surprise shower was given at the home of Mrs. Bert Minter in Fort Stanton, May 8, 1948 in honor of Mrs. Gordon Dockery.

The house was beautifully decorated in pink and blue. Lovely refreshments were served. Many nice gifts were received by the honoree. The hostesses were Mrs. Minter and her daughter Mrs. Joe Barber.

9,000 New Mexico farms are classified as "subsistence" meaning no cash income is derived from the soil.

## VETERAN NEWS

More than 50,000 veterans in education and training programs administered by the Veterans Administration in Utah, Wyoming, Colorado and New Mexico may be eligible for increased subsistence benefits as the result of recent enactment of a new law.

The law increases ceilings on combined subsistence and salary for trainees to \$210 for a veteran with no dependents; \$270 for a veteran with one dependent; and \$290 for a veteran with more than one dependent. The old ceilings were \$175 for a veteran with no dependents and \$200 for a veteran with one or more dependents.

Increases under the new ceiling will be retroactive from April 1 although initial payments probably will not be received by veterans until their July checks, due about August 1. VA will enclose with May

## NOTICE IN THE MATTER OF ESTABLISHING A LICENSE RATE FOR DISPENSERS, RETAILERS, AND CLUB VENDORS OF ALCOHOLIC LIQUORS

Notice is hereby given by the Board of County Commissioners of Lincoln County, New Mexico to all persons proposing to sell or dispense alcoholic liquors outside of the Corporate districts in the County of Lincoln and who have qualified under the provisions of the Liquor Control Act, Chapter 61, Laws of New Mexico, 1941 Statutes Annotated, and all acts amendatory thereof and supplementary thereto, and who have as a condition precedent hereto secured proper license from the Bureau of Revenue, Division of Liquor Control of the State of New Mexico may apply to the Board of County Commissioners through the office of the County Clerk, in Carrizozo, New Mexico, for license to sell or dispense alcoholic liquors in the following designations:

DISPENSER'S LICENSE for the sale of all alcoholic liquors.

CLUB LICENSE for the sale of all alcoholic liquors.

RETAILER'S LICENSE for the sale of all alcoholic liquors in Package form.

The Board of County Commissioners within and for Lincoln County, New Mexico has designated and prescribed license fees to be paid to the County of Lincoln as follows:

DISPENSER'S LICENSE \$400.00

CLUB LICENSE \$400.00

RETAILER'S LICENSE \$300.00

The License tax period shall begin July 1, 1948 and end June 30, 1949, and the full amount of said license tax fee is due and payable on the date of issuance of the license for the license year, or balance of year.

Done this 3rd day of May A. D. 1948 at Carrizozo, New Mexico.

subsidence checks, due early in June, a printed explanation of provisions of the new law.

VA urged veterans not to write or contact VA offices regarding the increased allowances. The higher rates will be paid automatically to all trainees whose existing applications now on file with VA, contain the information needed to establish their dependencies. When additional information is needed, the veteran will receive a form by mail which he should fill out completely and return promptly.

VA also stressed that, while increases are retroactive to April 1 and the first increased payment will include all back increases due, completed forms establishing dependencies must be filed with VA prior to September 1, 1948. Otherwise, payments will begin when the necessary information is filed.

The new law increases benefits to GI Bill trainees by raising pay ceilings and increasing subsistence allowances for part-time school training and for combination school and job training programs, including institutional on-farm training. It also extends increased benefits to disabled veterans taking combination types of training under Public Law 10.

In the case of veterans in job training only, no change was made in the maximum subsistence allowance payable of \$65 a month to a veteran without dependents and \$90 a month to a veteran with one or more dependents. It simply increases the permissible combined total of salary plus subsistence. VA emphasized that the law never intended that his subsistence should enable a veteran to earn more while in training than he will receive when he is fully trained.

For about two cents a day, electricity can be used to supply a farm home with water.
