Official Paper — Legal Printing

VOLUME XXIII No. 29 (Carrizozo News, Vol. 44)

CARRIZOZO, NEW MEXICO, FRIDAY, FEBRUARY 11, 1949

Outlook Vol. 39 — No. 41

This is Boy Scout Week Help Them Grow

For the past 39 years, our country has been enriched by the existence of the Boy Scouts of America. This thriving movement has affected the lives of more than 15,500,000 boys and men who have, in turn, contributed to the general welfare of us all.

The theme of this year's Boy Scout Week is "Adventure— that's Scouting" but it's much more than that. Boy Scouts get the satisfaction of "learning by doing" exciting things, to "help other people at all times," and enjoying outdoor activities.

No yardstick can measure the harvest of advantage Boy Scouts bring to the nation and community. But the Scouts depend on the active support of each of us to increase and extend these benefits.

Let's help them grow — and thereby reap for ourselves a larger crop of healthier, happier young men!

T. T. A. MEETING HAS FOUNDERS DAY PROGRAM

A regular meeting of the Carrizozo Parent-Teacher Association was held on Monday evening, Feb. 7, in the grade school building with 31 members and guests present.

The third grade won the prize by having the more parents present than any other grade. What about getting busy boys and girls and give the 3rd grade more competition at the next meeting.

After the business session, an interesting program was presented. Mr. Clyde Brewster gave two vocal solos, "The Trumpeter" and "Water Boy," with Mr. Snider at the piano. Mr. Shults and Mr. Manire, gave interesting talks. Mrs. L. Z. Manire gave a chronological outline of the important events of the Congress of Parent-Teachers since the founding in 1897. At that time there were 2,000 members, in 1948 the membership was more than 5,000,000.

Be sure and listen to the P. T. A. program, over station KOB each Saturday morning from 8:45 to 9 and plan to be present at the next meeting of the local unit March 7, at 7:30 p. m.

LOCAL NEWS

Yesterday, February 10th Kelley funeral home had charge of services for Valentino B. Sanchez, age 67 who passed away February 9th after a short illness.

Mrs. A. P. Sitton, Sr., left this week for Tularosa to spend two or three weeks with her grand daughter.

Mrs. Jess Wade was shopping in Carrizozo this week.

Mrs. Chas. Littell of White Oaks has gone to El Paso to spend the remainder of the winter with her son Mr. John Littell and family; Mrs. Littell asks that her paper be sent there until further notice.

Mrs. Beulah Hartley spent the past week end in Las Cruces visiting her daughter, Mrs. Miles Williams.

Mr. Lloyd Sneathen was taken to a Roswell hospital last Tuesday following an accident in which his truck was overturned near Roswell.

Mr. Marshall Atkinson was a visitor from White Oaks last Monday and had his paper changed to Roswell. Mr. Atkinson says he is going in for irrigated farming.

Mr. and Mrs. R. A. Sparks and son in law Earl Thornton and wife went to Santa Fe Sunday and Monday to see the ancient city and its sights.

CORONA NEWS

(By Mrs. A. E. Mulkey)

Mr. Ben Thomas Arnold, 64, died in a hospital at Plainview, Texas Sunday, January 23. Mr. Arnold bought the Frank Dishman ranch near Corona and lived here for a number of years. He and his family moved from Corona last July to Hale Center, Texas. Mr. Arnold had been in poor health for several months. He was born in the State of Georgia. He moved from Georgia to Bowie, Texas in 1901. Survivors are his widow, four sons, Ellis, B. G. both of Hale Center, Texas; Leslie, Decatur, Texas and Floyd, Bowie, Texas; three daughters Mrs. Cecil Huth, Childress, Texas, Mrs. Luther Wade, Bowie Texas and Miss Effie Mae Arnold, Hale Center Texas and three brothers in Georgia. Mr. Arnold and family have many friends in Corona.

Mr. and Mrs. Clifford Baker moved this week to the George Davis place in Corona. Mr. and Mrs. Davis have moved to the J. W. Donaldson farm at Cedarvale that they purchased recently.

Mr. and Mrs. P. A. Thompson have gone to visit their son, Aubrey at Des Moines, New Mexico.

Mr. and Mrs. Del Jameson went to Amarillo, Texas this week to buy a new truck.

Mr. and Mrs. Walter Jones have a new baby daughter born Tuesday, February 8, in Albuquerque. She has been named Charlene Ruth.

Rev. R. M. Miller, Pastor of the First Baptist Church in Corona, fell breaking a bone in his wrist one day last week. He is now recovering in the Veteran's Hospital in Albuquerque. Mr. Shaw, teacher at Cedarvale, held services Sunday at the church.

Rev. and Mrs. H. D. Peoples of Estancia were dinner guests in the B. C. Berryman home Sunday.

A large crowd attended the ball game held here Saturday night. The game was between Mountainair and Corona with Corona the winner.

Mr. A. E. Mulkey made a business trip to Albuquerque Tuesday. The Mulkey family and Mr. Jack Chancey visited Capitan and Carrizozo Sunday.

LETTER TO MRS. MULKEY

I would like to thank my many friends for the beautiful flowers, cards and letters I have received during my illness.

You never know just what it has meant to me.

It's friends like you that make this world a better place in which to live.

When we are sailing along life's highway we are inclined to lose the true meaning of friendship, but its times like these that make us really understand how much we depend upon them.

May I never fail my friends when they need me, and show them by thought and deed how much I appreciate them.

As you know I have been very ill since I've been here but everything humanly possible has been done for my welfare and comfort.

I think the Doctors and nurses are simply marvelous.

I am well on the road to recovery and hope to be seeing you soon.

Sincerely,
Frances Smith

BETTER HOUSING GOAL FOR POULTRY PROGRAM

Better housing of the farm poultry flock will be emphasized by the Extension service in Lincoln county in 1949.

At a recent meeting held at Hondo Mr. E. E. Anderson, Extension Dairy-Poultry Specialist of New Mexico A & M College, stated that in his opinion two or three dozen birds properly housed and fed will supply all of the eggs needed for the average size family.

Mr. Anderson spent two days in the county working with the county Agent in making farm visits and in holding a poultry and dairy meeting at Hondo. The farm visits revealed that poor housing conditions is the chief factor causing the farm flocks to be out of production at this time of the year, as well as making the flock unprofitable in many instances.

Following the round-table discussion on housing feeding and diseases of poultry, fifteen farmers out of the total attendance of fifty, requested blueprints of the modern small farm flock poultry house plans indicating their intention of constructing a modern poultry house in the future.

The blueprints will be furnished through the county office, and additional assistance given upon request in the construction of the building and in the construction of feeders, nests, and other equipment that will be needed in the building.

MRS. DOROTHY CASTILLO

Funeral services were conducted in Arabela last Saturday for Mrs. Dorothy Castillo, age 45, who passed away in a Roswell hospital after a short illness.

Mrs. Castillo is survived by her husband, Guadalupe Castillo, and by her father Aragon Montoya both of Arabela; by a brother Manuel Montoya, and two sisters Pollean Montoya of Vaughn; Alta Garcia Sanchez of Ruidoso.

Deceased was born and reared in Lincoln County.

—Contributed.

Funeral For Lincoln Co. Overseas Hero

Remains of the late, Camp C. Pepper, PFC, U. S. Army will arrive at the Kelley funeral home today, February 11th.

Rites will be held in Capitan, on Sunday, February 13th, with Norton Pepper Post #608 Veterans of Foreign Wars in charge.

This is the first of our veterans, who died in the service of his country to be returned from overseas.

OIL DRILLERS BUSY AGAIN

Oil Drillers working on White Oaks Dome, Kelt No. 1 well have been working anxiously for a number of days to make up for the time they lost during the bad weather.

Saturday at 4 p. m. of last week when the drillers ceased operations they had reached a depth of 490 feet by putting on night shifts for two nights.

At that depth they had a number of feet of hard gray sand or rock which looked something like a quartz formation. Later they drilled through three feet of red sand.

Early Tuesday morning at a depth of 650 feet they struck gas. This was an interesting development; also it again became necessary to cease the well.

At one stage of the drilling a good stream of soft water, 95% pure was cased off.

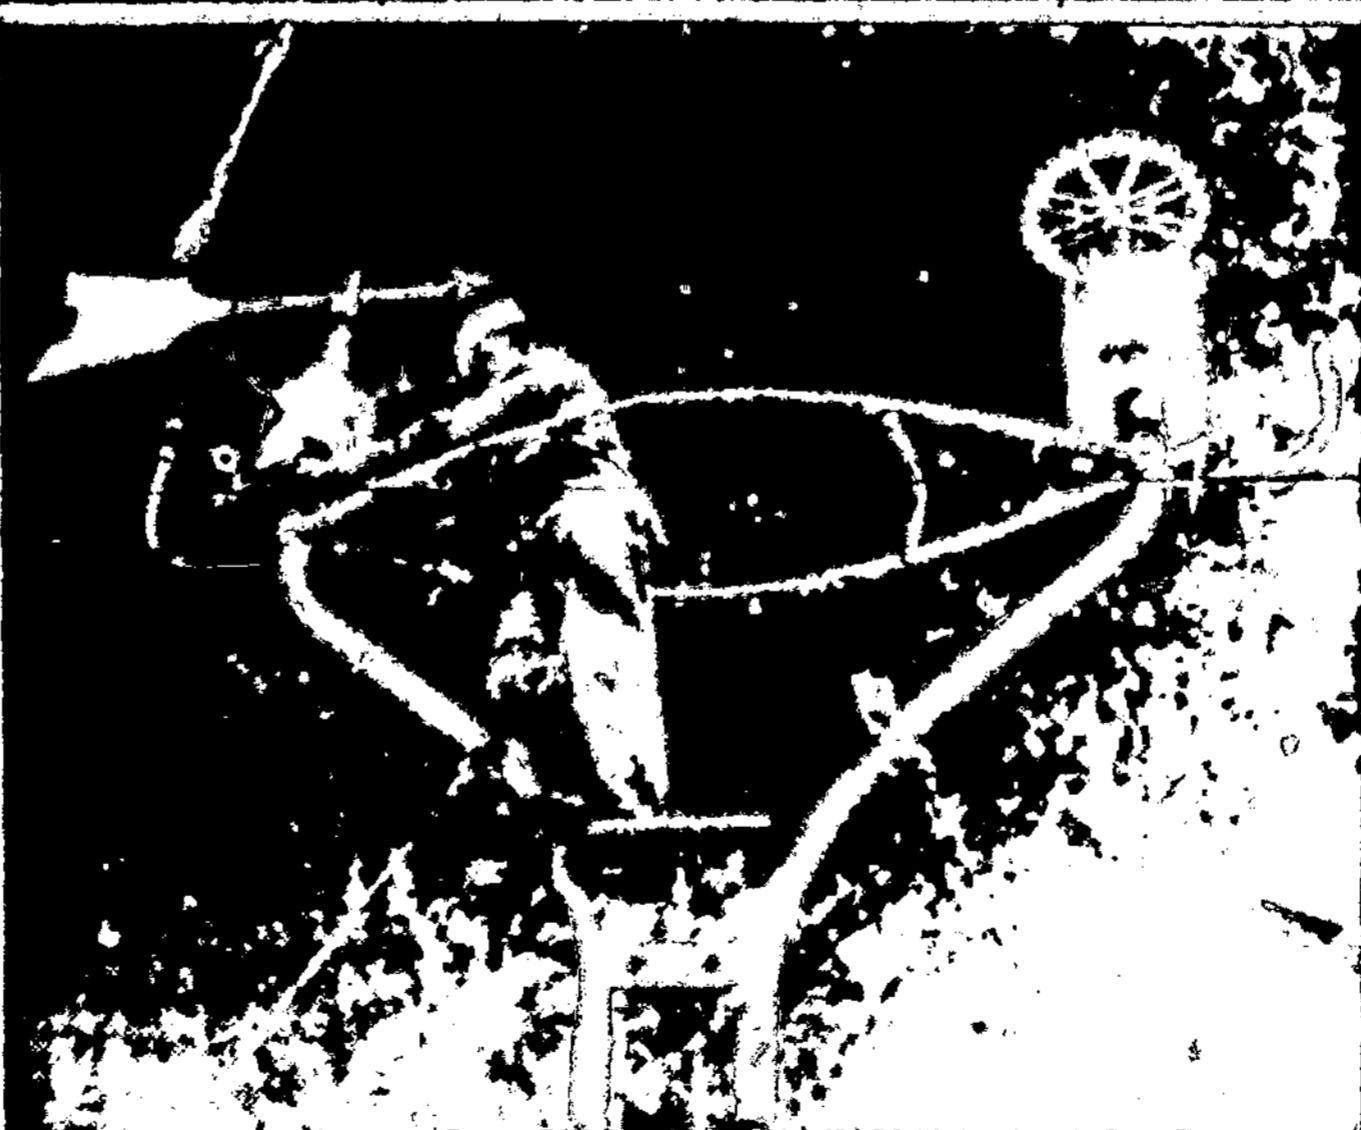

To ease off the gas flow required several days but drilling has been resumed.

NOTICE

The Carrizozo Woman's Club will meet Friday Feb. 18th at the Club house. Miss Thelma White has charge of the program, "Guest Day".

Coe's Attend Big Rural Electrification Meet

Mr. and Mrs. Wilbur Coe of Glencoe spent last week at the Hotel Commodore in New York City, in attendance at the largest convention of Rural Electrification leaders ever to have been held in the country.

Mr. Coe is a director of the Otero-Lincoln County Electric Co-operative with its headquarters at Capitan.

They left New York Saturday, February 10th for Audobon, Indiana, where they were joined by friends for a trip to Florida and Cuba. They expect to return home about March 1st.

Following report was sent by Mr.

Ancho News

By Bessie Jones

The School Board Election was held last Tuesday for one trustee. Harry Straley was elected to succeed Mrs. Elliot.

Mrs. Y. L. Jackson of El Paso visited her mother, Jackie Silvers, last week.

Mrs. Reba Bingham returned home from a visit in El Paso last Tuesday.

Mrs. Elva Wilson, Supt. County Schools was a welcome visitor in the Ancho community last Saturday.

We are proud of the slightly warmer weather we've enjoyed the past week, as a stockman lost a few head of stock, during the coldest spell.

Mr. Caldwell spent the past week end visiting in Las Vegas.

Mr. and Mrs. Bryan Hightower spent the week end in Carlsbad, visiting their daughter, Mrs. Ivy Payne and family.

VETERANS' NEWS

Carl R. Gray, Jr., Administrator of Veteran Affairs has issued orders eliminating the 13 branch offices of the V A as supervisory units and is establishing in these locations 13 direct offices which will be limited to operational activities involved in handling National Service Life Insurance and death claims.

This means that all supervision of field offices which has heretofore been carried on by 13 branch offices will now be directed from the central office in Washington, D. C. The 13 new direct offices for insurance and death claims will also be supervised from Washington.

National Service Life Insurance, death claims and auxiliary operational activities will continue as heretofore at the 13 locations. These operations will be under the direction of a manager and the offices thus formed will be designated Veterans Administration district offices.

Creighton E. Hays has been named manager for District 13, which includes Colorado, New Mexico, Wyoming, and Utah.

The managers of the district offices will be responsible to the Administrator for the efficient administration and performance of all activities which are assigned to such offices (N S L I, death claims and auxiliary operational activities) and the application of policies and procedures which have been approved by the Administrator.

The managers will be charged with the additional responsibility of cooperating in the liquidation of the intermediate supervisory activities of the former V A branch offices so that liquidation will be (Continued on Page 10)

A near-fire took place at the Claude Brannum home last Sunday night, when something went wrong with the electric refrigerator.

Mr. Eddie Fitzpatrick of Nogal arrived home Tuesday from a business trip to San Juan valley.

Coe to the News-Outlook for publication.

The largest convention of rural electrification leaders in the country was held in New York City January 31 to February 3.

Secretary of Agriculture, Charles F. Brannan, Secretary of the Interior Julius A. Krug; Assistant to President John R. Stegman, and REA Administrator Claude Wickard, were among the top Government officials who spoke to the 4,000 National R E A Association members at the four-day session of panel discussions, open forums and business meetings.

Dr. Stegman speaking at the banquet held on February 1, read a special message from President Truman: "It will continue to be the policy of this administration to provide loans as rapidly as funds are required to extend electrification to rural areas of our country, through the creation and extension of cooperatives on a sound basis," the President said "and thus to extend the benefits of our democratic way of life." Dr. Stegman declared that the President has a deep interest in speeding up electrification of rural areas "because he knows that where the power lines stop, progress comes to a dead end. He knows that the electric lines which carry power across the nation are pumping life-blood into our democratic, free-enterprise economy".

The Assistant to the President recalled that in the mid-thirties the United States was one of the most backward of the major nations in the vital matter of extending electricity to rural areas. "Only one farm out of 9 had central electric service. Today we have only 3 farms in ten without it."

Secretary of the Interior Krug covered the dire shortages of power and struck out strongly at private utility lobbying activities. "Some high priced lobbying talent and come vicious propaganda have been employed (in restricting the development of the nation's power resources)," Krug said. "Most of you know that the top power lobbyist in Washington receives a larger annual salary than the combined and total annual pay of five of any of the President's nine cabinet officers. Only last week this gent (Purcell Smith, president of the National Association of Electric Companies) commanded news headlines in our leading newspapers by damming the President's proposal for a Columbia Valley Authority."

Secretary of Agriculture Brannan referred to cooperative rural electrification as an integral part of the national farm program through which farmers themselves are "employing the home-spun brand of private enterprise to improve their living and working conditions."

"The attainment of national farm program objectives depends, among other things, and the availability of abundant, dependable, low-cost electric power to all farmers. Modern agriculture, like modern industry, goes forward on power," he said.

REA Administrator Wickard, referring to the problems which pertain directly to the bringing of service to every community, told delegates: "Materials are needed in larger quantities. The availability of aluminum conductor is the controlling factor in construction for many REA borrowers. The supply situation on other types of conductor has been tightening. The Wisconsin Electric Cooperative's contract with the Reynolds Metals Co. for aluminum conductors offers a ray of hope on what otherwise is a darkening picture in this field."

Among resolutions passed by the convention were those calling for Congress to authorize \$450,000,000 for REA loans during the next year and development of the nation's rivers with hydroelectric dams. The resolution supporting power called attention to the widespread shortage of adequate amounts of electric generating capacity necessary for dependable service.

Inevitable Critics
Lesson for February 13, 1949

ONCE UPON a time, so the old story goes, there was a chameleon, a lizard that can change its color to match whatever it stands on. They put him on a black cloth and he turned black; on a red tablecloth and he turned red; on a green billiard table and he turned green. Then some mean person set him down on a Christmas necktie—and the poor little thing exploded. Dr. Foreman

This is a parable of the person who tries to please everybody. It can't be done—and it ought not to be tried. "Woe unto you," said Jesus, "when all men speak well of you."

Jesus Christ himself did not please every one. Not even a perfect personality can be 100 per cent popular. Not that Jesus enjoyed rubbing people the wrong way. There was nothing perverse about him. He was deeply sincerely, friendly, and to lose any friendships must have been even more painful for him than for us who are so selfish. Nevertheless he did make enemies, he had his critics; and his followers may expect no better.

Misunderstanding Motives
ONE POINT on which Jesus met terrific opposition was his attitude toward the Sabbath. Repeatedly he or his disciples would do things on the Sabbath which (as Jews then understood the law) were quite wrong. There are Jewish communities in Palestine today where a man walking on the street on the Sabbath, smoking a cigarette would be warned to put it out; for it is against the Mosaic law to light a fire on the sacred day, even a tiny fire at the end of a cigarette.

It was just that sort of thing that Jesus ran into, more than once. His enemies misunderstood, or at least misrepresented, his motives.

They claimed that he was "blasphemous," that is, that he was deliberately making light of God's law. The truth was that he was acting by God's highest law—the law of love. Helping people in need was more important than keeping the letter of the Sabbath law. Jesus' example may help us here.

Stepping Out of Bounds
WHEN Jesus healed the man with the palsy, it was not the cure his critics found fault with, it was his first saying "Your sins are forgiven." "Who can forgive sins but God alone?" they said. In short, the Pharisees thought—some of them perhaps sincerely—that Jesus was stepping out of bounds, pretending to do something that he had no right to attempt and no power to accomplish.

Now Jesus did have both the right and the power to say what he said to that sick and sinful man. And he made no apologies for going beyond the limits his critics set for him.

So we too may sometimes be accused of "biting off too much," of going beyond our powers or capacities. Our critics may be right, you know, though Jesus' critics never were. But how often they are wrong! If Lincoln had listened to his critics he never would have left his backwoods law office; they did not think him fit to be president. If the Wright boys had listened to their neighbors, they never would have flown an airplane, for who would have thought a couple of bicycle mechanics could do what so many scientists said was impossible?

The Company You Keep
JESUS' friends got him into trouble, as Mark shows us. For one thing, some were the "wrong sort" like Matthew the tax-collector. Then his friends had an unconventional kind of religion, they actually seemed happy about it instead of gloomy like some of John's disciples. And to make matters worse, his friends "broke" the Sabbath laws much as Jesus did. All in all, Jesus' critics complained that Jesus' friends were a bad lot, and they judged him by the company he kept. But Jesus knew his friends better than his enemies did.

He never gave up or loosened a single friendship on his critics' account. Some of his friends gave him up, but he never gave them up.

So the Christian, if he has anything like Jesus' gift for making friends, may find himself criticized for their sakes.

HOUSEHOLD MEMOS

by Lynn Chambers

START THE DAY WITH A GOOD BREAKFAST
(See Recipes Below)

BRIGHT BEGINNING

ONE OF THE biggest services which any homemaker can give her family is to feed them a good, substantial breakfast to get them off to work and school with proper spirit. This is the best way—at least to my knowledge—of preventing that mid-morning lag in energy as well as having the mind razor sharp whether you apply yourself at a school desk, sit in an office or work in the barn, fields or your own kitchen.

A good breakfast need not be elaborate to serve its purpose. Start off with a simple pattern including fruit, cereal and milk and you can be well fed.

Naturally if you want more, there are any number of foods to be added. Too, there's no need to feel that breakfasts can't have variety. You can vary fruit and cereal daily, while eggs, breakfast meats and hot breads have infinite variety.

If mother will start fragrant odors in the kitchen when the family is scheduled to hear the alarm clock, this will help keep them interested in completing the process and get them down to a good breakfast.

FOR THOSE of you who depend upon the oven to take the chill out of the house in the morning, here are some splendid, quick-to-mix hot breads for breakfast or any other meal:

Honey Nut Bran Muffins
(Makes 16 large muffins)
1/2 cup honey
1 cup flour
1/4 teaspoon soda
1/2 teaspoon salt
1/2 teaspoon baking powder
2 cups bran
1 tablespoon melted butter
1 1/2 cups milk
1/4 cup walnuts, chopped fine

Sift together flour, soda, salt and baking powder. Mix with bran and add other ingredients. Place in greased muffin pans and bake in a quick (425° F.) oven for 25 to 30 minutes.

Raisin Bran Muffins
(Makes 6 Muffins)
1/2 cup sifted flour
1 1/2 teaspoons double-acting baking powder
1/4 teaspoon salt
1-2 tablespoons sugar
1 egg, well beaten
1/2 cup milk
1 1/2 tablespoons melted shortening
1/4 cup raisin bran

Sift flour once, measure, add baking powder, salt and sugar; sift again. Combine egg and milk and add to flour mixture. Add shortening, then mix only enough to dampen flour. Fold in raisin bran. Turn into greased muffin pans, filling them 2/3 full. Bake in a hot (425° F.) oven 25 minutes.

Flake Gems
(Makes 12 muffins)
1 cup sifted flour
4 tablespoons sugar
1 teaspoon salt
3 1/2 teaspoons baking powder
1 egg
1/2 cup milk
1 1/2 tablespoons melted fat
2 cups corn flakes or wheat flakes

LYNN CHAMBERS' MENU BREAKFAST

- Orange Juice
- Cooked farina with raisins
- Butter
- Honey Kuchen Beverage
- Recipe Given

Sift together flour, sugar, salt and baking powder. Beat egg until light, add milk then stir in dry ingredients, being careful not to overmix. Add slightly cooled fat and stir just enough to mix ingredients. Carefully fold in corn flakes. Fill greased muffin pans, 2 inches in diameter, 2/3 full. Bake in a moderately hot (400° F.) oven about 20 to 25 minutes.

Honey Kuchen
(Makes 1 square)
Topping:
1/4 cup brown sugar
1/4 teaspoon cinnamon
1/4 teaspoon nutmeg
2 tablespoons butter
1/4 cup bran or wheat flakes
Kuchen:
1/2 cup sifted flour
2 1/4 teaspoons baking powder
1/4 teaspoon salt
1/2 cup milk
1/4 cup honey
1 egg
3 tablespoons melted fat
1 1/2 cups bran or wheat flakes

Sift together flour, baking powder, salt. Combine milk, honey well-beaten egg and add to flour mixture. Add fat mixing only enough to combine. Fold in flakes. Place into a greased pan 8x8x2 inches. Sprinkle topping over batter. Bake in a moderately hot (400° F.) oven 25 minutes.

ANOTHER WAY to include cereal in the menu is to cook, chill and fry it. This may be served with fruit or breakfast meat or with syrup. It's a hearty, tasty dish.

Fried Wheat-Meal
(Serves 6)
1/2 teaspoon salt
2 1/2 cups boiling water
1/4 cup wheat meal

Add salt to boiling water in the saucepan. Add cereal slowly, stirring constantly. Bring to a boil and cook 3 minutes, stirring constantly. Pour into cold, wet mold. Let stand overnight, or until cold and firm. Turn from pan. Slice into 3/8-inch slices, and saute in a small amount of fat, turning to brown both sides. Serve with maple-flavored syrup. (Leftover cooked wheat-meal may be used in this way.)

Fried Wheat-Meal with Fruit: Add 1/2 cup seedless raisins, chopped dates or chopped figs to the cooked cereal before turning into mold.

Fried Wheat-Meal with Apples: Add 1/2 cup apples, peeled and cut in 1/2-inch pieces to cooked wheat-meal before turning into mold.

U. S. Wives Rate Poorly Against Foreign Women

PHILADELPHIA, PA.—How does the American woman stack up in the international matrimonial derby?

If she had to compete for John Doe's affection—and wedding ring—with her sisters from other lands, would she emerge as a champion or a badly outclassed also ran?

More and more, authors, psychologists, sociologists and just mere men have been making uncomplimentary comparisons between America's women and those of other lands.

For instance, foreign correspondent Leland Stowe, on the basis of 20 years of travel on five continents, says that the American woman is neither all she thinks she is nor much that American men assume she is. Compared to her overseas sisters, she doesn't score as many top points as might be expected.

He draws up a lengthy indictment. Among other things, he says, American women have been accused of being the most spoiled, self-centered, aggressive, disinterested in men and homemaking, expensive, restless, rude, conversation hogging, unfeminine, individuality lacking unhappy and dissatisfied women in the world.

Are any or all of these things true? If they are, what is the reason?

These questions were directed in Philadelphia to a young French bride. Her answers are given below.

"American women should be the happiest in the world. They have more of the things that make life easy for a woman—refrigerators and washing machines and vacuum cleaners.

"Instead, they always seem to want more and more. In France women are happy with what they have.

"Perhaps that is why the United States keeps making progress—because its women want change. But it also means that American women always seem discontented.

So says Mrs. Marie Bonds, brown haired, brown eyed native of Biarritz, France, who came to this country to marry Ralph Bonds of Haverton, Pa.

Since that time she has accompanied her husband, a member of a brother team of organizers, throughout New England, the east coast and the midwest, and has thus been able to observe American women in various settings.

"Why should American men prefer women of other nations?" Marie muses. "That is hard to say. After all, American women are attractive, much better informed than European women.

"However, the American woman's point of view is entirely different from, for instance, the French woman's.

"Take the matter of marriage, I believe we are more serious about it. From the time we are little girls, we are impressed with the idea that our most important duty is to look after our husbands and our children."

Japan's Baby Boom Zooms Population to 81 Million

TOKYO.—Japan's amazing post-war baby boom has even the statisticians gasping.

Abetted by a declining death rate, the bumper baby crop has helped up Japan's population to 80,800,000. This is a population gain of eight million since Japan's surrender.

Repatriation of Japanese soldiers and civilians from abroad accounted for slightly more than half the gain.

On the basis of present estimates by occupation experts, Japan has 568 persons per square mile.

Previously statisticians figured Japan would have a population of 80 million by 1950.

SEWING CIRCLE PATTERNS

Tailored Style Has Nice Lines
Princess Dress Is Easy Sewing

Yoked Dress
THIS adorable little yoked dress is pretty enough for parties, yet delightfully easy for mother to sew. Cut on princess lines with narrow ruffling for trim.

Watch Out For It!
2-4-D, the famous weed killer, will also kill most legumes, most vegetables, garden flowers and shrubbery, says NDAC extension service.

Household Hints

In ironing cotton sheets and pillowcases, use warm water for sprinkling because it penetrates the fabric more quickly than cold water.

Do not use too hot an iron or use too much pressure when ironing the folds of sheets. This results in weakness, at the line of the folds and finally causes cracking of the sheet along these lines.

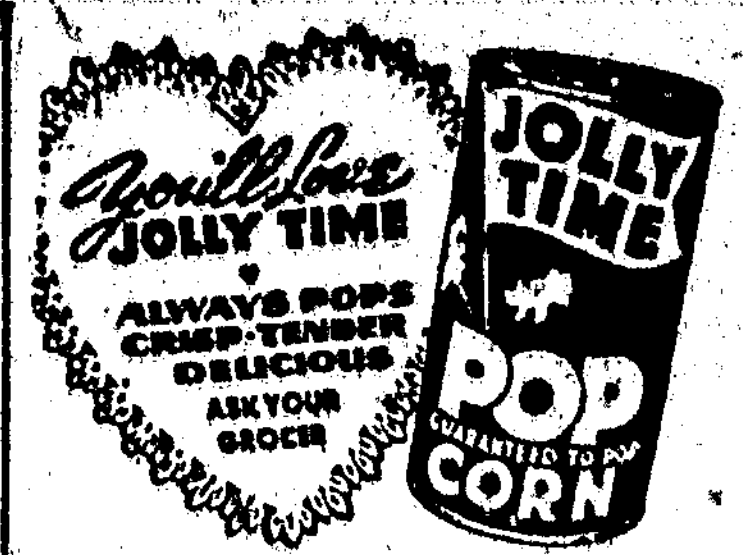

In removing stains from sheets and pillowcases, special methods should be used for the various types of stains. Lipstick usually comes out when bleached in hot, sudsy water. If it refuses to come out, the stained part should be bleached with hydrogen peroxide or Javelle water. If breakfast-bedders have spilled coffee or chocolate, the spots will usually wash out in hot sudsy water.

To remove fruit stains, pour boiling water through the stain. If it is stubborn, bleach with hydrogen peroxide or Javelle water. To remove iron rust, apply a solution of oxalic acid and rinse thoroughly.

It is not necessary to iron Turkish towels. Ironing may mat the loops and make the towel less absorbent.

To make fudge squares uniform in size, pour the fudge in ice cube trays which have been greased with margarine. The fudge hardens quickly and each piece is uniform.

New towels should be laundered before use for better absorbency and sanitation.

No Longer Constipated

"Since I made ALL-BRAN my breakfast cereal I've stopped taking laxatives!"—Mrs. V. DeBrien, Philadelphia, Pa.

If your diet lacks bulk for normal elimination, this delicious cereal will supply it. Eat an ounce every day in milk—and drink plenty of water. If not satisfied after 10 days, send the empty carton to the Kellogg Co., Battle Creek, Mich., and get DOUBLE YOUR MONEY BACK. Order KELLOGG'S ALL-BRAN today.

This Home-Mixed Cough Syrup Is Most Effective

Cough medicines usually contain a large quantity of plain syrup—a good ingredient, but one which you can easily make at home. Take 2 cups of granulated sugar and 1 cup of water, and stir a few moments until dissolved. Or use corn syrup or liquid honey, instead of sugar syrup.

Then get from any druggist 3 1/2 ounces of Finex, pour it into a pint bottle, and fill up with your syrup. This gives you a full pint of wonderful medicine for coughs due to colds. It makes a real saving because it gives you about four times as much for your money. Never spoils. Tastes fine.

This is actually a strikingly effective, quick-acting cough relief. Swiftly, you feel it taking hold. It loosens the phlegm, soothes the irritated membranes and makes breathing easy. You've never seen anything better for quick and pleasing results.

Finex is a special compound of precise ingredients in concentrated form, a most reliable soothing agent for throat and bronchial irritations. Money refunded if it doesn't please you in every way.

Finex Is Dependable!

HAS YOUR DOCTOR SAID: "REDUCE SMOKING"?

Then ask him about SANO, the safer cigarette with

51.6% LESS NICOTINE

Not a Substitute—Not Misleading
Sano's scientific process cuts nicotine content to half that of ordinary cigarettes. Yet skillful blending makes every puff a pleasure.

FINEX-HALL TOBACCO CO., INC., N. Y. (A brand based on outstanding tests of popular brands)

CHEST-COLD DISTRESS?

Quick relief with MENTHOLATUM

Don't let coughing wrack his chest—rub on time-proven Mentholum. See how quickly Mentholum's famous combination of menthol, camphor and other ingredients help loosen congestion without burning tender skin. Its soothing vapors comfort inflamed bronchial passages, ease coughing spasms. 35¢ and 75¢.

MENTHOLATUM

How MILD can a cigarette be?

"I LEARNED THE ANSWER TO THAT WHEN I MADE THE CAMEL 30-DAY TEST... CAMELS ARE MILD!"

"30 DAYS? I'VE SMOKED CAMELS FOR YEARS. I KNOW THEY'RE MILD... AND THAT RICH, FULL FLAVOR IS GREAT."

In a recent test of hundreds of people who smoked only Camels for 30 days, noted three specialists, making weekly examinations, reported NOT ONE SINGLE CASE OF THROAT IRRITATION due to smoking CAMELS

TECHNIQUE OF DESTRUCTION

There has always been a school of writers, politicians and professors in our country who gain more or less publicity, prominence or revenue by attacking business. Their preachings tend to break down public confidence in a business and set the stage for socialization of industry, the goal of those who seek to glorify government at the expense of individual opportunity and personal liberty.

Commenting on this practice of

the business baiters, the Oroville, California, Mercury, said: "No one defends monopoly, but they get to talking about monopoly, and smear the bigness of some of our corporations just because they are big." The Mercury then pointed out that to bolster his argument against business, one such baiter recently attacked the chain food stores with the old canard "that the chains... have destroyed a lot local grocers by going in and selling eggs temporarily at a lower figure and then boosting it later." How simple and convincing that sounds, but how far from the truth!

"We must judge matters by what we have seen. Twenty years ago the Mercury had two food advertisers— one chain and one local food store. Now the Mercury has a dozen food advertisers— one chain and eleven local stores. During those twenty years chain food stores in Oroville have increased 100% from one to two. But during those same twenty years large locally owned and operated food stores have increased probably 700 or 800%.

"During those same twenty years a new generation of young grocers has gone into business here and they are doing very well. There isn't any chain food store monopoly in Oroville."

The same condition prevails generally throughout the country, but still the lies are repeated in an effort to destroy one branch of retailing. Why?

"CINDERELLA OF THE UNDER-WORLD"— Who killed "Bugsy" Siegal? Who controls our sports, motion picture and union rackets, gorgeous Virginia Hill knows-- and spends \$200,000 a year trying to forget! For the daring story of this mysterious darling of the syndicate read it in the American Weekly that great magazine distributed with next Sunday's Los Angeles Examiner.

NOTICE OF PUBLICATION
STATE TIMBER SALE
LINCOLN COUNTY
OFFICE OF COMMISSIONER OF
PUBLIC LANDS

Santa Fe, New Mexico
Notice is hereby given that pursuant to the provisions of the law and the rules and regulations of the State Land Office, the Commissioner of Public Lands will offer for sale and will sell at public auction to the highest and best bidder on March 24th, 1949, at 10:30 A. M., at the front door of the Court House in the town of Carrizozo, County seat of Lincoln County, New Mexico, all of the merchantable dead timber standing and down, and all of the live timber cranked or designated for cutting on the following described State Institutional lands, to-wit:

SALE NO. 2318
SE1/4NW1/4 of Section 25; SE1/4SW1/4, SE1/4 of Section 28; N1/2NW1/4 of Section 35; ALL of Section 36; Township 10 South, Range 13 East, containing 1,040.00 acres, more or less, according to the government survey thereof.

There is estimated to be available for cutting 300,000, more or less feet B. M., of Ponderosa Pine. No bid for less than Seven and 50/100 (\$7.50) Dollars per thousand will be considered or accepted. No one will be permitted to bid who has not, prior to the hour set for the sale, deposited with the Commissioner of Public Lands or his agent conducting the sale the sum of \$150.00 to cover cost of advertising and incidental expenses connected with said sale and \$5.00 filing fee. Deposits of unsuccessful bidders will be returned, but the deposit of the successful bidder will be applied in payment of advertising and incidental expenses, and any balance will be credited as part of the first payment on the timber sale agreement.

It is further understood that the cost of survey is to be borne by the successful bidder.

The successful bidder will be required to execute a corporate surety bond with a New Mexico agent, in the amount of \$1000.00 to carry out the terms of the agreement.

Form of contract and information concerning the conditions of the sale, will be furnished prospective bidders upon application to the Commissioner of Public Lands.

The right to reject any and all bids is hereby reserved.

DATED AT SANTA FE, NEW MEXICO, this the 3rd day of January, 1949.

Guy Shepard
COMMISSIONER OF PUBLIC
LANDS
(SEAL) J7-Mar 18

NOTICE

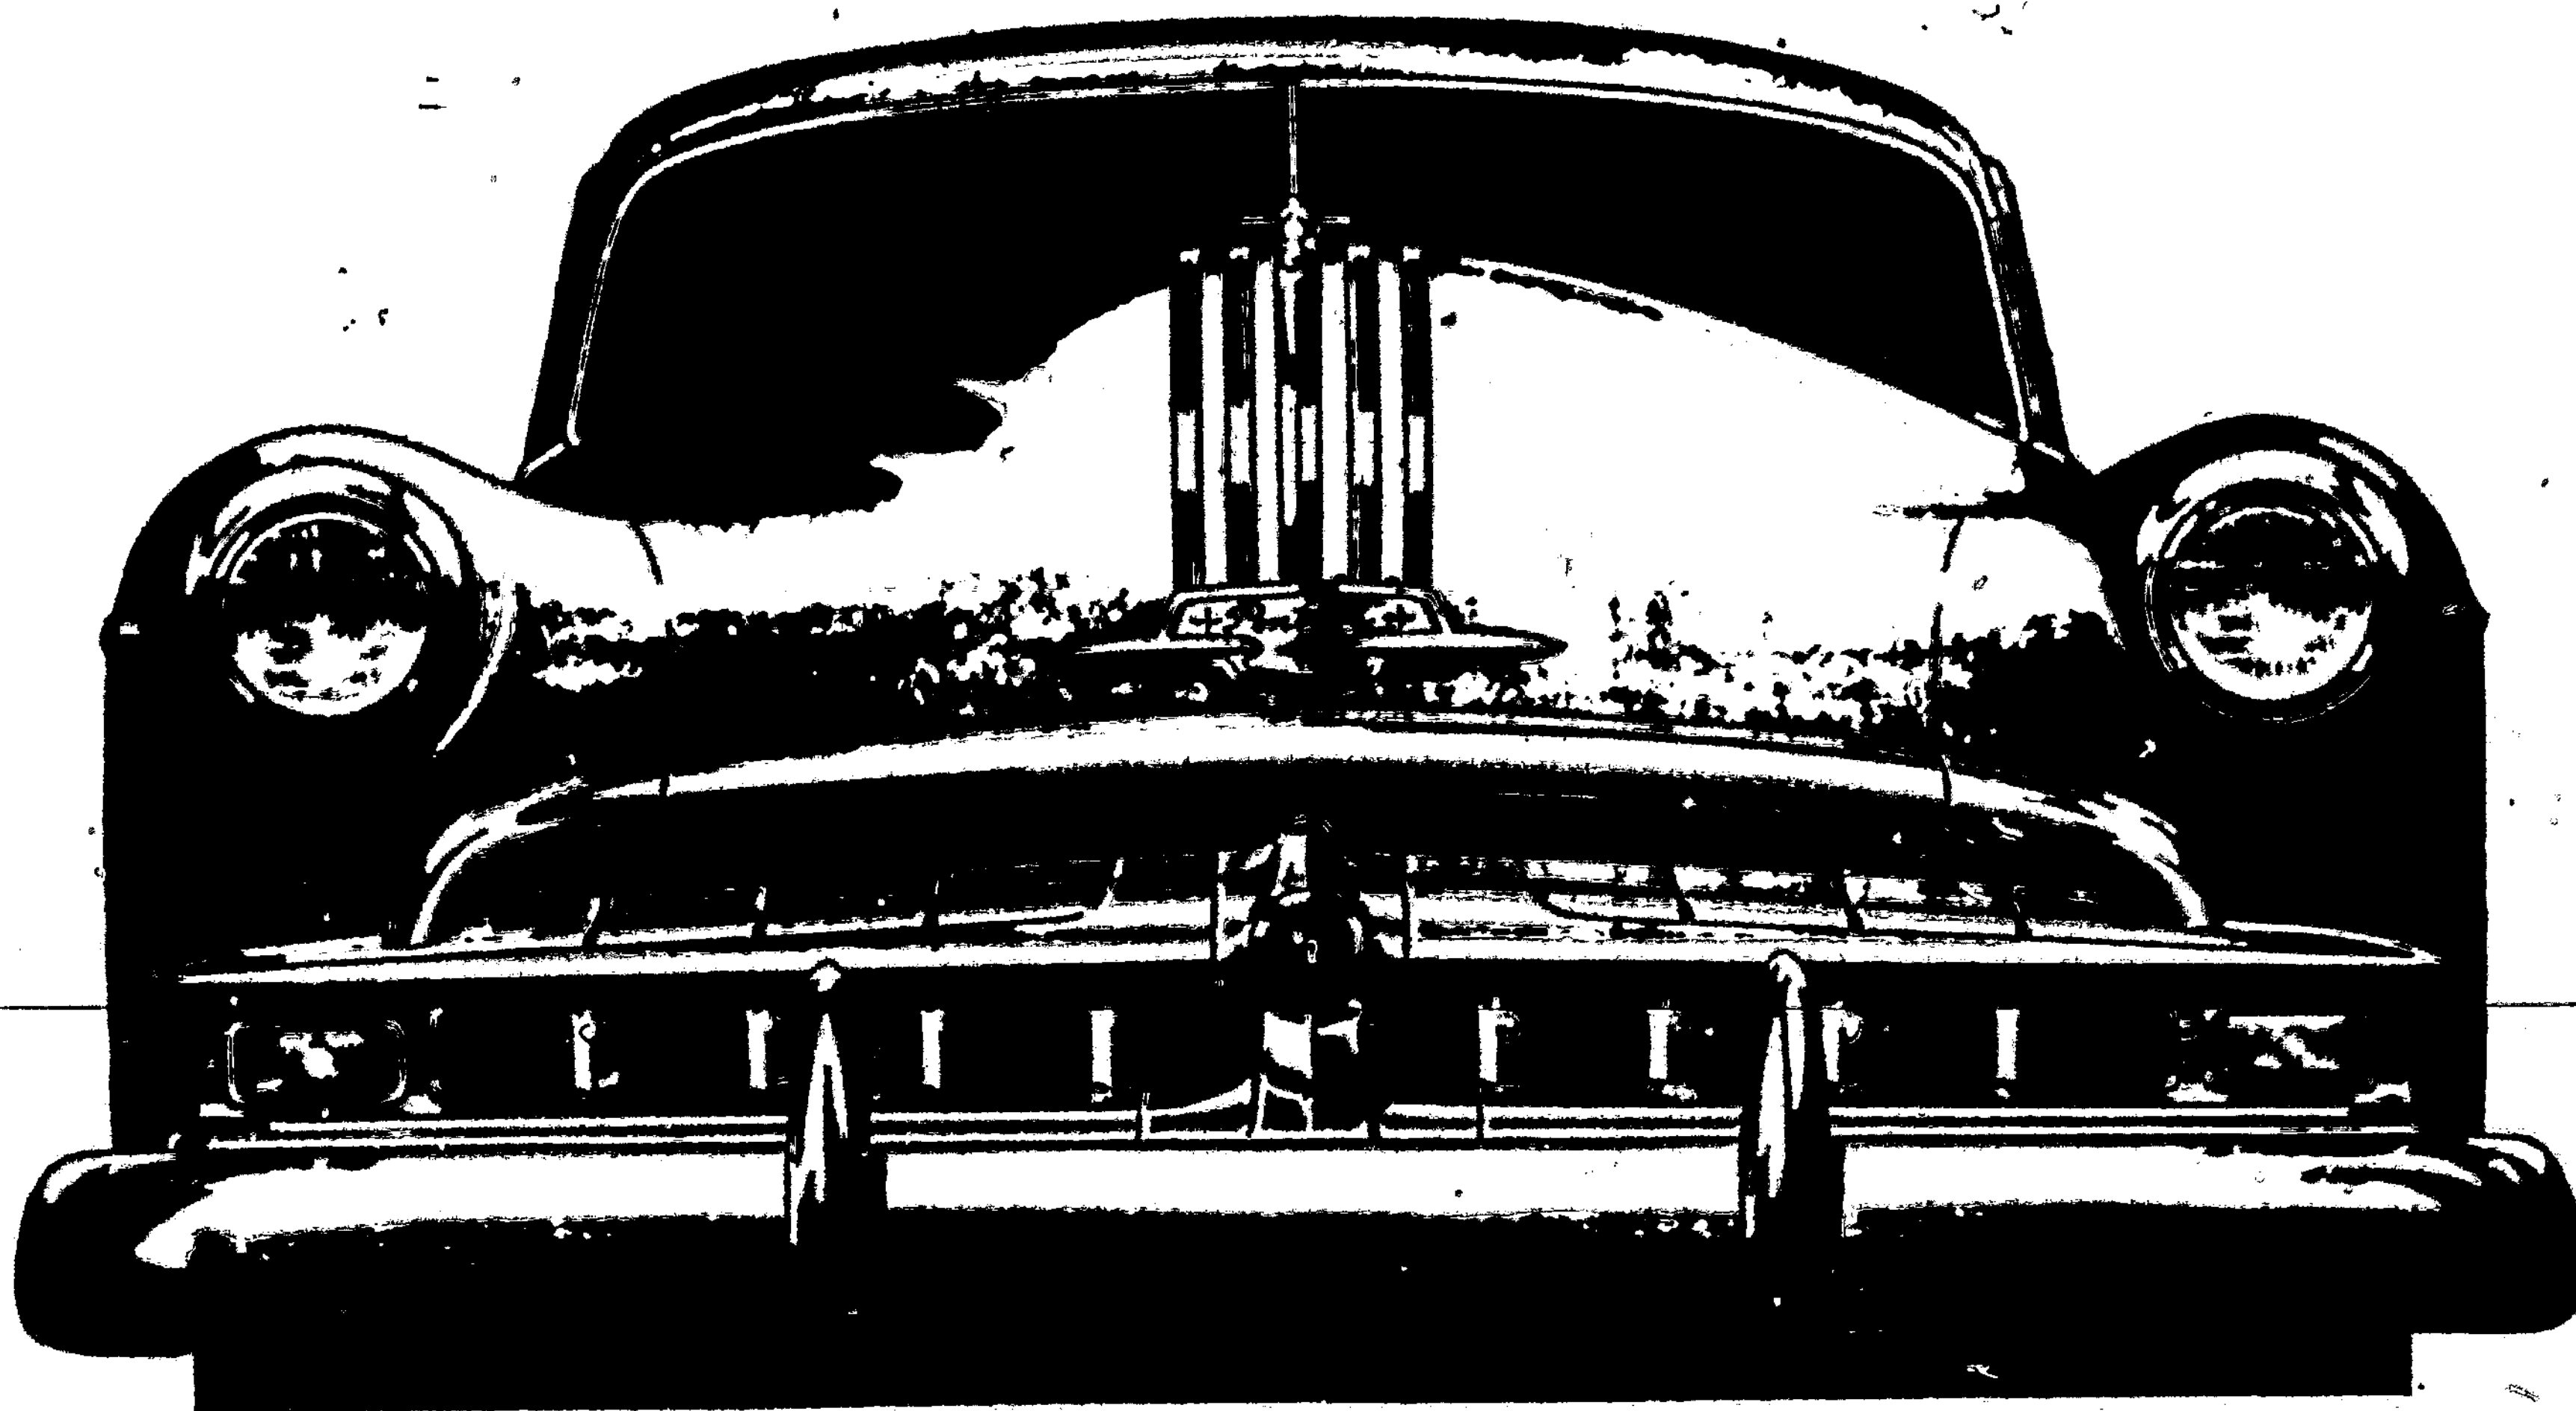

The time of the year to declare your property for taxes is here. In accordance with Sec. 11 Chapter 107 of Tax Laws of 1933, the assessor will visit each school district for the purpose of receiving declarations of taxable property for 1948. We sincerely ask your cooperation in the prompt assessment of your March 1st which is the deadline.

Announcing the

1949 PONTIAC

Now on display

The Finest of all New Features in the Smartest of all New Cars!

We extend to you and your family a most cordial invitation to come in and see the great new 1949 Pontiac! Definitely and decidedly, it's the finest, most beautiful Pontiac we have ever been privileged to show. You will admire everything about it: the flashing smartness of its completely new Bodies by Fisher—its many new features—its fine performance. Here's a real step forward in the motor car world... one that you should see without delay!

PONTIAC—Division of General Motors

1. THE YEAR'S OUTSTANDING BEAUTY
2. LOWEST PRICED CAR WITH GM HYDRA-MATIC DRIVE Cost of additional cost
3. COMPLETELY NEW BODIES BY FISHER
4. WIDER SEATS—ADDED ROOM
5. WIDE, EASY-ACCESS DOORS
6. NEW WIDE-HORIZON CURVED WINDSHIELD
7. SAFE-T-NEW DRIVER VIEW
8. NEW DIAL-CLUSTER DASH
9. EXCLUSIVE TRAVELUX RIDE
10. NEW FINGER-TIP STARTER BUTTON ON INSTRUMENT PANEL
11. NEW HEATING AND VENTILATING SYSTEM
12. CARRY-MORE LUGGAGE SPACE
13. NEW LOW-PRESSURE TIRES, 15" WHEELS AND WIDE RIMS
14. PONTIAC FAMOUS IMPROVED STRAIGHT FRONT AND SIX CYLINDER ENGINE

Star-Liter

MOVIES, MIKES and MISCELLANEOUS

BY LYN WILSON

ONE PERSON who breathes a sigh of relief with the holidays over is Helen Hayes, star of the Electric Theatre Sunday nights on CBS. After several months in England, starring in the British version of "The Glass Menagerie," the tiny actress came home the middle of Nov. and crowded her Christmas shopping into less than a month. In addition, Miss Hayes started her new radio series; got daughter Mary MacArthur ready for her social debut; decorated and furnished an apartment for Mary; got her family ready for the holidays; read several new plays; made 14 benefit appearances; posed for over 100 pictures; bought a new wardrobe—and broadcast every Sunday night!

Busy! And with the holidays over, next on the agenda is to completely redecorate her N. Y. apartment—and she's doing all the planning.

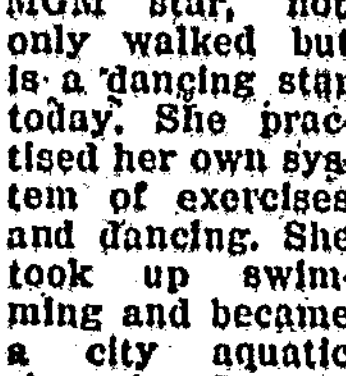

SMALL BUT BIG news of the "Day" — Dennis Day's wife the former Betty Alquist presented Dennis (and the holiday season) with a brand new 8 lb. 2 oz. son, baby is a California native named Patrick James McNulty. Dennis is a native of the Bronx born a McNulty.

THE LOCAL CHAPTER of the American Cancer Society of Xenia, Ohio, added more than \$2,500 to their fund as a result of a resident of that city winning the mystery prize on Producer Sam Levine's MBS "Take A Number" program.

The prize, an all expense party, provided by the program's sponsor, was presented to the Mayor's committee by the winner, Mrs. Joseph Chamberlin. Chamberlin appeared at the concert held by them and the town turn out in full force to attend and participate in the drawing for more than \$1,500 worth of door prizes. Leave it to the American public, they've never lost a fight yet and this sort of work and unselfishness can win the fight against cancer.

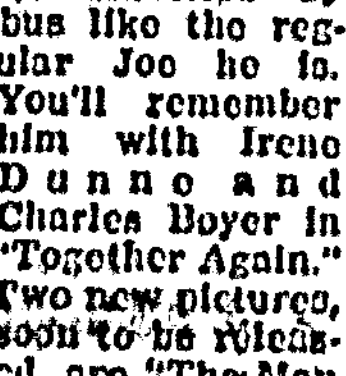

THIS LITTLE LADY'S LIFE should be an inspiration to people who are faced with handicaps. Refusing to be discouraged by the dictum of doctors that she might never walk again, June Allyson, versatile young MGM star, not only walked but is a dancing star today. She practiced her own system of exercises and dancing. She took up swimming and became a city aquatic champion. Her reward is Hollywood's top-most rung of stardom. In six short years she has made some 16 movies—her latest "Little Women" and "The Three Musketeers." June is married to actor Dick Powell. She is unaffected, friendly and sincere and was accorded unnumbered pin-up titles by the G.I.'s during the war.

SPEAKING OF HONORS ... Eve Arden has picked off another ... this time Newspaper and Magazine radio editors throughout the U. S. and Canada have voted "Eve the Best Comedienne" in the Motion Picture Daily's 13th Annual Radio Poll for "Fame" magazine.

MAN OF THE WORLD — Jerome Courtland, 22, is telling Hollywood friends all about the Big Town, following his first visit to New York. Unlike the guy who created a minor furor opposite Shirley Temple in "Kiss and Tell," he travelled by bus like the regular Joe he is. You'll remember him with Irene Dunno and Charles Boyer in "Together Again."

Two new pictures, soon to be released, are "The Man Jerry Courtland From Colorado" (a technicolor production) and "The Walking Hills" and ... he has just finished "Mata Hari" for Columbia in which he sings for the first time. To now, Jerry's singing has been for vict. He has never forgotten his hospitalization for seven long months after a stint in the service. Jerome should do well ... his mother, Mary Courtland, was the first vocalist on radio's "Hit Parade."

To maintain order, intelligence and harmony in the territory immediately under one's own hat will keep most of fairly well employed.

READ THE HEADLINES

Is fire prevention worth the effort? Don't answer that question offhand — give it some thought first.

Here to aid your thinking, are a few headlines, taken verbatim from papers in various parts of the country. "Three Children Killed in Brooklyn Fire; Found Clasped in One Another's Arms; Family of Seven Die in Burning Home; Fire Kills Farm Mother and Six of Ten Children; Fire Kills Two Babies as Stove Overturns; Woman Revived, Find Four in Family Suffocated."

A list of such gruesome headlines could be extended indefinitely. In the course of an average year, fire kills over 10,000 people in this country. It permanently disfigures many more. It maims others for life. And as its toll is especially great among young children, who don't know what to do when fire strikes and there's no one about them to help them.

When it comes to economic waste fire makes an appalling record. Direct money loss runs to \$700,000,000 a year and more. And indirect waste, which cannot be exactly figured, is estimated at two or three times that sum. And no one can measure the human problems which arise when fire costs a man his home or his job.

Where will the next headline telling of death and destruction by fire originate? It may be a thousand miles away — it may be in the next town — it may be in your home. Now decide whether fire prevention is worth the effort.

To maintain order, intelligence and harmony in the territory immediately under one's own hat will keep most of fairly well employed.

'TAKE the WHEEL---Get the FEEL'

Ford Motor Company has a big national campaign on to get folks to take a ride in the '49 Fords. Seems like a smart idea to us— now that the new Chevvy is out. So, we want you to ride in a new Ford. Just ask, and you can take the wheel of my new six-cylinder. Stop me anywhere, any time. The same goes for Chet's fancy eight-cylinder convertible. Drive either one over the roughest street or road you can find. Then you'll know why Ford says "Take the wheel— learn the FEEL" of the '49 Ford.

— MARVIN ROBERTS,
 General Manager
 Lincoln County Motors, Inc.
 Better Service, All Makes

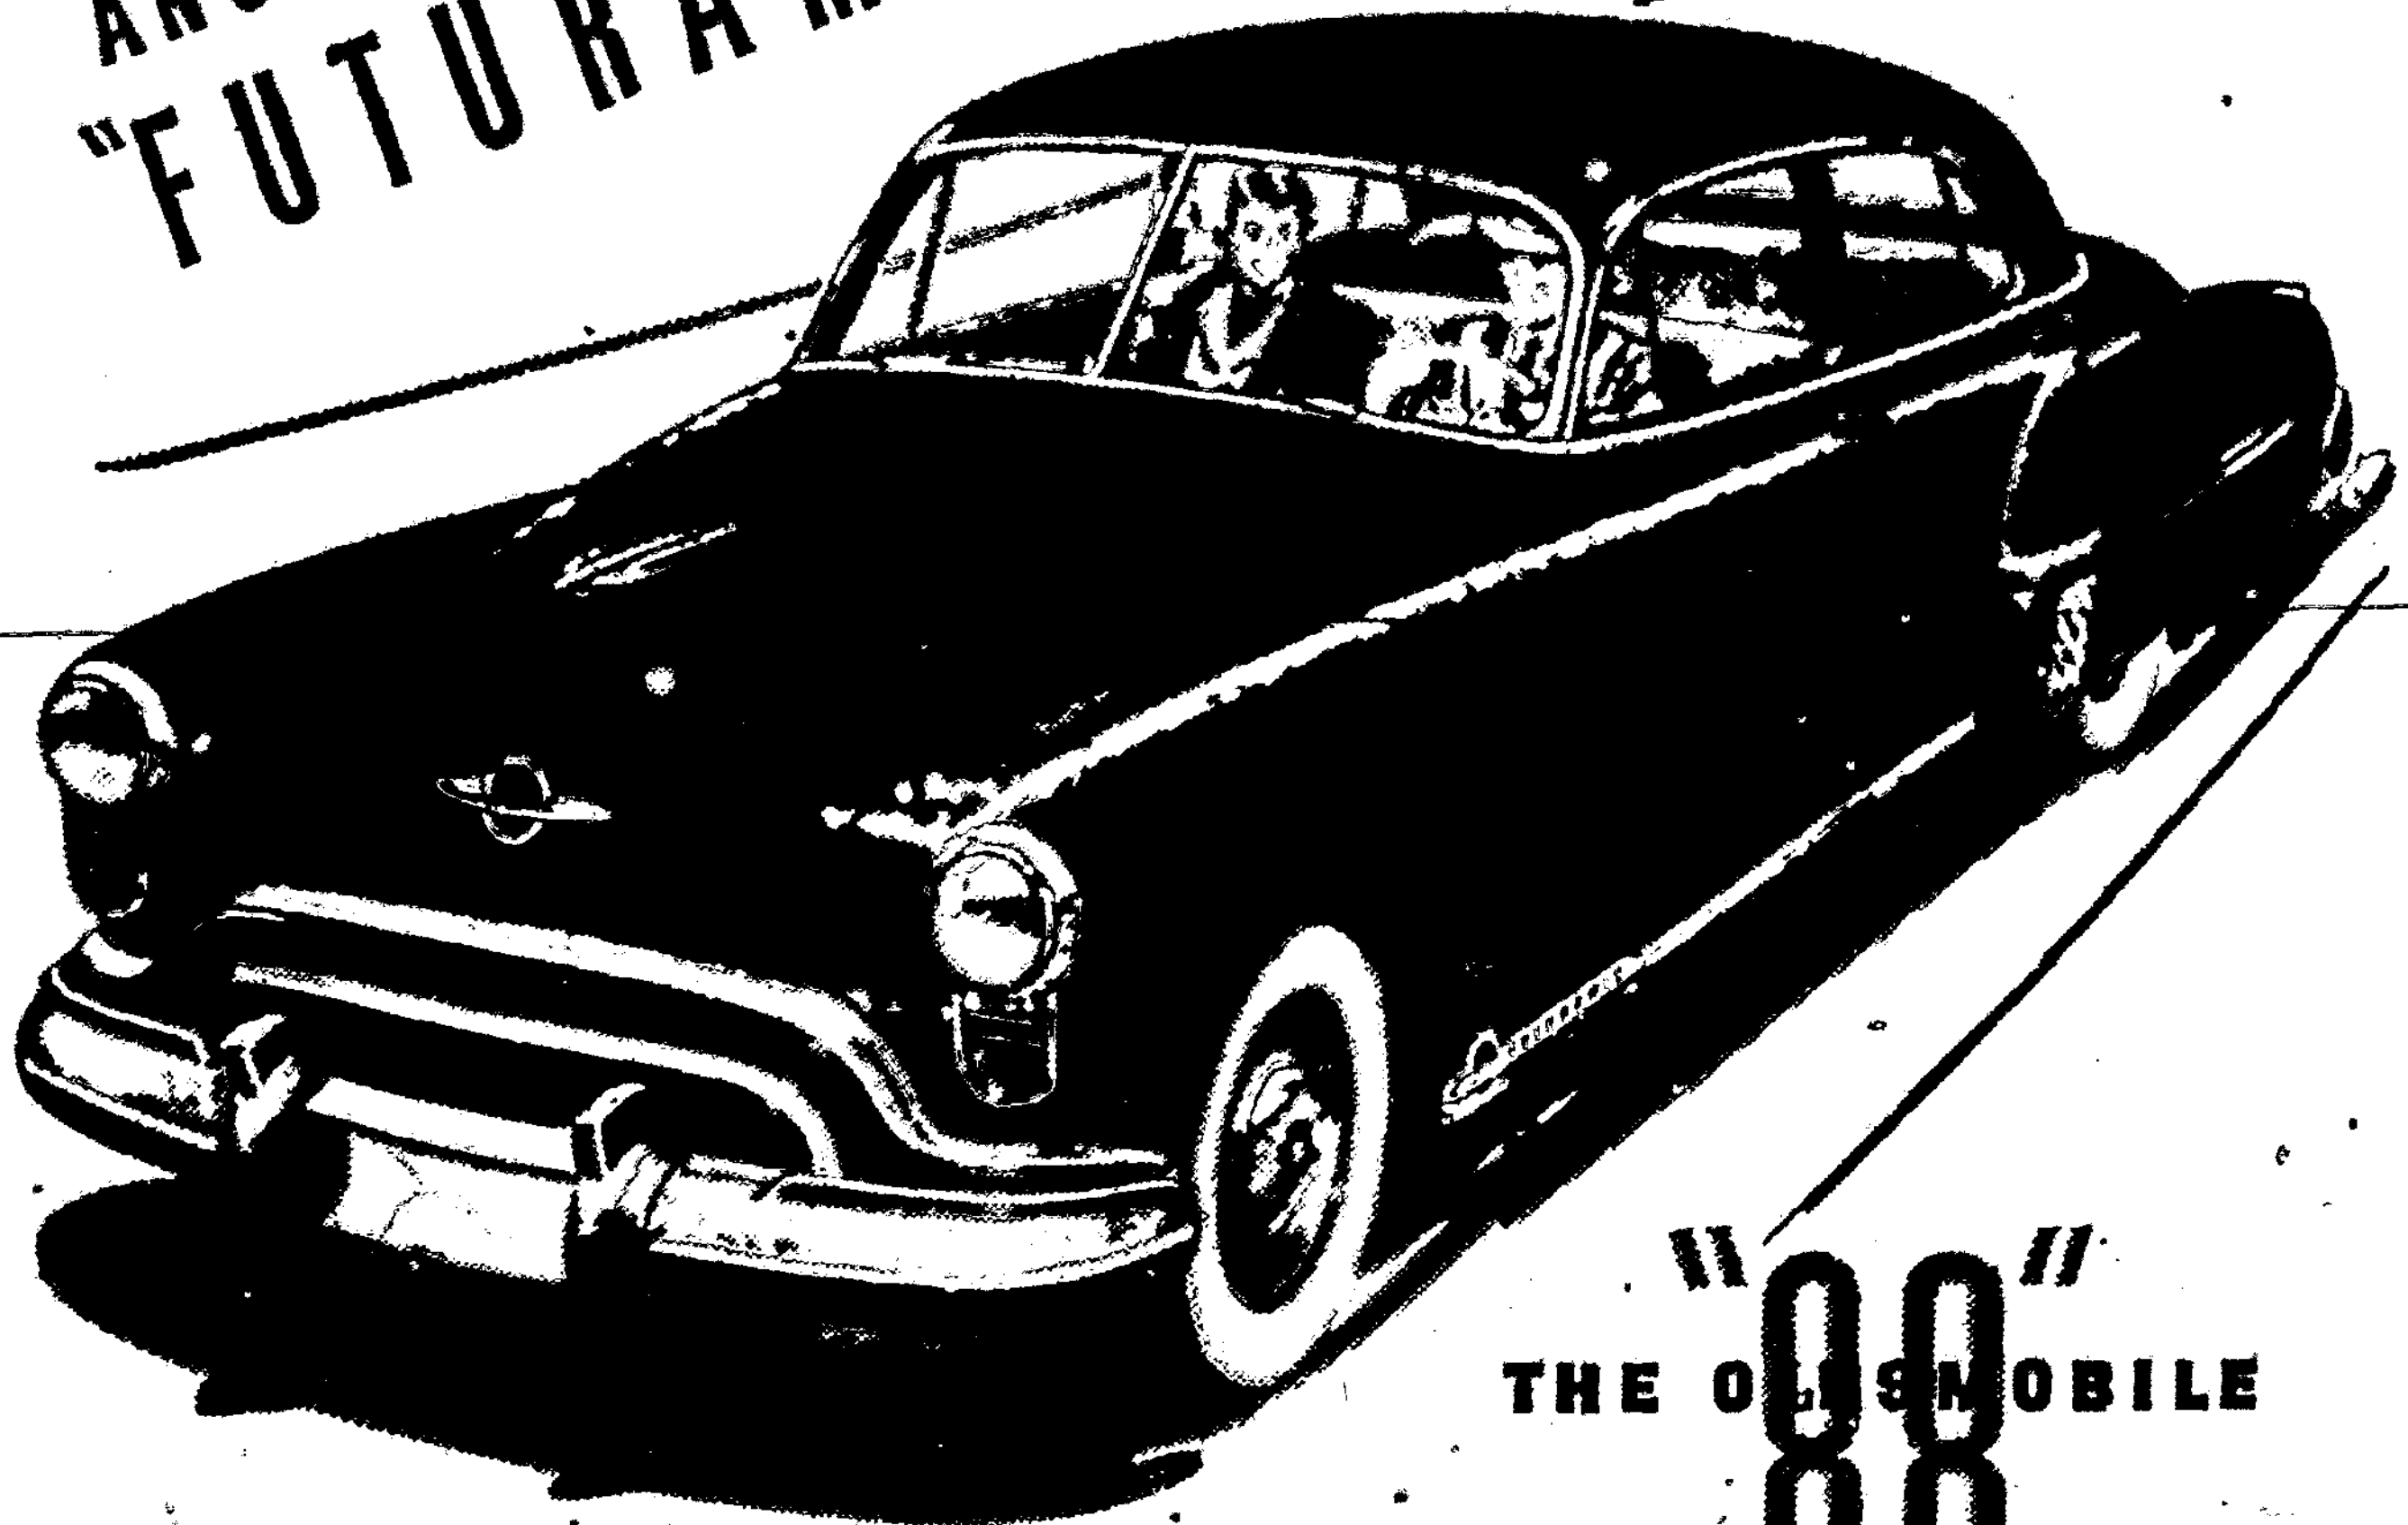

"Take the Wheel, get the feel!"

The "untold wealth" of the United States refers, of course to the men and women who don't tell everything on their income tax returns.

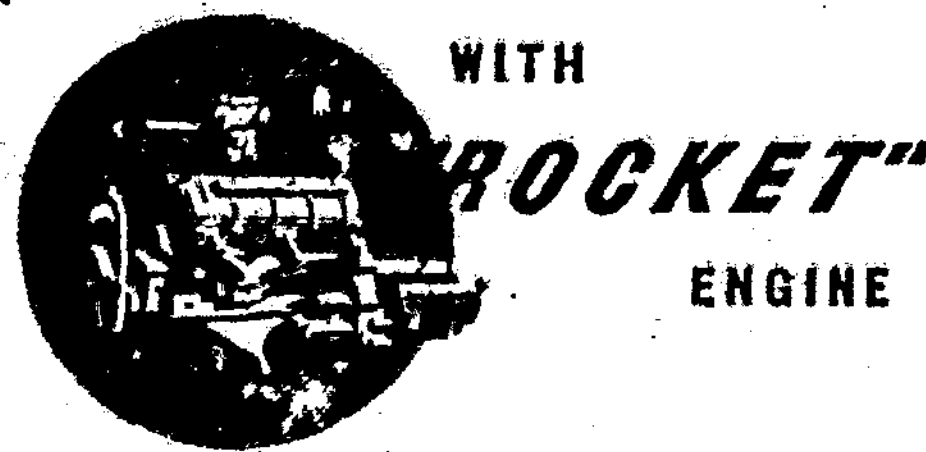

Cats and dogs may be kept in apartment houses, according to the ruling of a judge. Why not get real radical and include children too?

ANNOUNCING
 ANOTHER NEW
 "FUTURAMIC"...

THE OLDSMOBILE
 "88"

The Futuramic Fleet is now complete! The Oldsmobile "98" ... the Oldsmobile "76" ... and now the Oldsmobile "88," the newest Futuramic of them all! It's NEW in power ... with all the brilliant action, unbelievable smoothness, and gas-saving economy of Oldsmobile's high-compression "Rocket" Engine. It's NEW in styling ... with that brand new Body by Fisher whose lower, wider, roomier dimensions and greater visibility have made it an industry-wide sensation. But the Oldsmobile "88" goes further than that. It has an entirely NEW balance ... a NEW "feel" ... an indescribable something that sets it apart from any car ever built. You'll understand this when you drive the car ... and not until. So make a date with the "88." Ask your dealer to demonstrate Oldsmobile's "New Thrill!"

How can I get the most out of my money?

Briefly stated, here is a sound plan: 1, Deposit all income in a checking account so you will know where your dollars go. 2, Estimate your fixed expense and bank it until you need it. 3, Build a reserve with regular bank thrift deposits; life insurance; and U. S. Saving Bonds. 4, Spend the rest wisely by shopping for the things you need. 5, Buy only the luxuries you can afford.

NEW MEXICO NOTES

From A Wheel Chair
By: Katherine B. Mabry

Santa Fe and the legislature will, in the next few weeks, rub elbows with more "learning" than we are accustomed to have around. Already the higher ups from the various institutions of learning in the state are converging on the capitol to talk up their case for a big slice of the tax money to keep their individual schools going and growing—and each school head, or spokesman, is fortified with figures to prove how his particular institution is doing a better job with less money than the other fellow's project.

It presents a tangled web of information which will be hard for some to digest. The legislative committees on appropriations are going to have a hard time determining where and how much to cut—to know what are the "fancy trimmings and unessentials" which the Governor has said must be cut out. But the appropriations committees have the help of some experienced and hard boiled experts to guide them.

It is also interesting to note that while the press of the state quite generally applauds the Governor's statement that these swollen school budget requests must be pared down, the newspapers of the localities where any one of the state institutions happen to be located seem to find little to complain about in the appropriation demand for their particular school. This represents the inevitable expression of local pride and a desire to see one's own home town well taken care of. That's human nature and it's quite understandable.

We do have a right, I believe, to be proud of all of our state educational institutions, not to say our local and municipal schools which have come so far in the recent years. Whatever you may hear about how our schools operate, you do not hear the charge that any of them are politically controlled. That is a healthy sign. There are places in government for politics, but these places are not in our schools, in our public welfare or in the administration of our highway department.

The legislature, and the executive must see the over-all picture and try to match what we will have to spend with that which is really necessary to have. The legislature, facing this problem, will be sorely tried when the members must take a broader view than that dictated by their own community interest, and when they must finally say what allowances can be made to each for the next two years. With a demand of six to eight million more than will be available without new taxes being levied, somebody will have to step in and use the heavy blue pencil, and that, of course, will hurt.

Perhaps an over-all board of control, with powers superior to those exercised by the several constitutionally created boards of regents would be the answer. At least some over-all authority, which would be less influenced by local pride and local interests could in this way serve a useful purpose in cutting out some duplications and in determining where and how much of the scarce tax dollar could be spent.

I must watch myself or I will be getting into deep water and on controversial grounds. But a woman, I believe, should have her say if she doesn't always get her way.

NEWS ITEMS IN BRIEF

H. N. Morgan, owner of the Ruldoso Gas Co., asked the Public Service Commission to approve sale of his utility to George Westall of Ruldoso. The PSC set Feb. 9 for the hearing.

During the year of 1948 the Game Department planted a total of 2,400 banded cock pheasants in areas where there was later an open season. In order to get information as to the per centage of planted birds that reached the hunter's bag the Department offered a prize of \$25, for the highest number in each of the seven different series of ten band numbers which represented banded birds planted in various areas.

Actually, only four prize winning band numbers were received. Three series of ten were not represented in the bands returned. A total of 202 bands were returned by sportsmen to the Department. This means that only 14.2 per cent of the cock

U. S. LARGEST WOOL USER

In outlining the benefits of concerted action by the chief apparel wool growing countries and American interest, Mr. Devereaux said: "The United States is the largest user of apparel wools in the world. Its consumption averages one billion grease pounds annually compared to an estimated production of 225 million pounds in 1949. As a result of this countries continued industrial expansion and the contraction of our western range lands, we must now import between 70 and 80 percent of our apparel wools and 100 per cent of our carpet wools.

"Even though sheep raising again reached a prowar maximum, it would be necessary for the United States to import between 50 and 60 per cent of its apparel wools.

"It is, therefore, sound judgment for American wool growers and American wool interests generally to work in close harmony with their chief sources of supply in the non-controversial fields of research

pheasants released during 1949 reached hunter's bag.

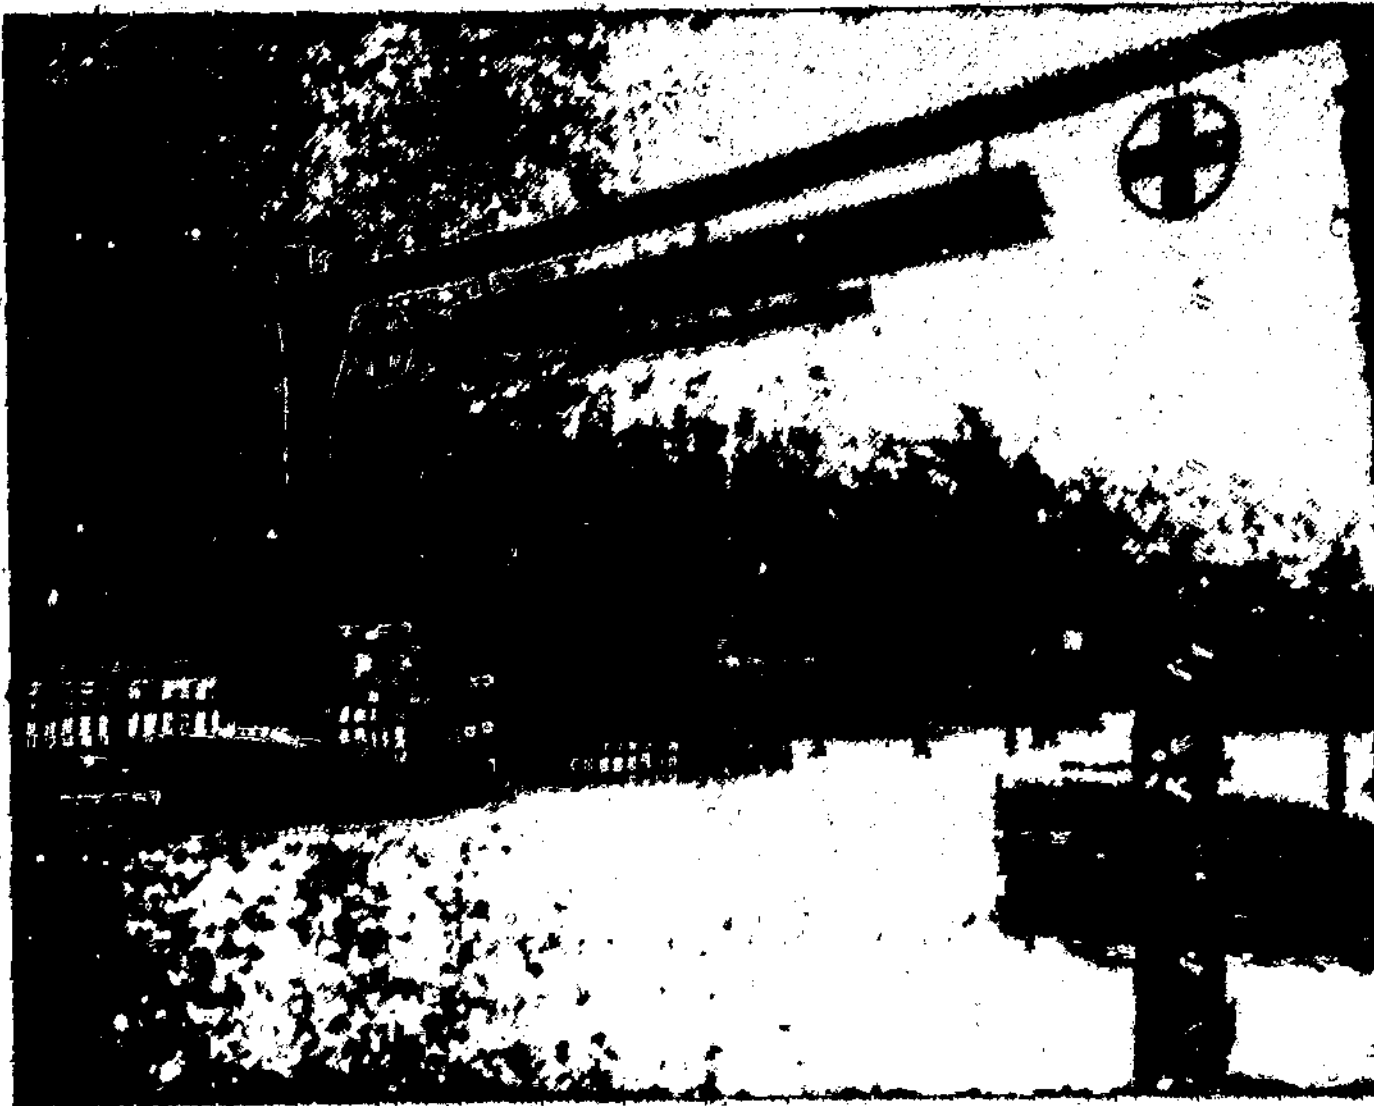

More than 80,000,000 acres of undeveloped land in the U. S. are estimated to be suitable for farming.

National 4-H Club week has been set for March 5-13.

In 1947, extension work assisted 1,720,911 4-H club boys and girls in 80,220 community clubs.

education and promotion. Concerted action will increase the values of wools and, we hope, develop economies in processing which will be reflected in lower costs to the public. In this world of warring ideologies it will serve as an practical, working example of international cooperation".

It is said that the dollar shortage in Canada is serious. Along about this time of year the buck shortage is also "serious" in the average American home.

Mantle of snow drapes Santa Fe Indian Village at deserted Railroad Fair. Snowfall lends weird touch to pueblos usually found in warmer climes. Summer residents of cliff dwellings, long returned to homes in Southwest, probably have never seen snow. Buildings were erected as exhibit for popular lake front show held in Chicago last summer. The fair will open again June 25, 1949, and operate until October.

"Finding the Why in Delinquency" Why did Larry steal candy? Why did Ruth play Truant? Read how Ohio's clinic for teen-agers learns why a child is delinquent—then does something about it. Be sure to read this interesting article that appears in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner.

A "double-jointe" wiper snugly hugs windshield curvatures on the 1949 Chevrolet.

From where I sit... by Joe Marsh

Remember How We Talked?

From where I sit, it's easy to criticize the other person when we don't take a good long look at ourselves. Sure, there'll always be some differences. I'm fond of a temperate glass of beer and maybe you would prefer ginger ale—but let's just live and let live. Because when we go out of our way to find things to find fault with in others, chances are they can find a few in us, too.

Joe Marsh

Carrizozo Hardware Co. Phone 96

Sold to Swift for \$1,883,823,473.00

Quick Facts on Swift's Business in 1948

Total Sales \$2,861,114,041

Swift's average sales dollar was spent as follows:

For Livestock & Other Agricultural Products	79.8 cts.
For Employes' Wages & Salaries	9.6 cts.
For Supplies	4.0 cts.
For Transportation	2.0 cts.
For Taxes	1.5 cts.
For Other Business Expenses	1.9 cts.
Total spent out of each average dollar	98.8 cts.
Remaining as Earnings for Swift	1.2 cts.
Total	100 cents

Because your business of farming and ranching is so closely related to our business of meat packing, we believe you are interested in an accounting of Swift & Company's operations in 1948. On this page we tell you how much money we received, how we spent this money, and how much we earned for services performed.

The past year was reasonably profitable to both producers and Swift & Company. That's the way it should be in America. A fair profit to producers means better living and insures a sound program on farms and ranches. A fair profit to

business in cities and towns helps maintain purchasing power and markets for the products which you and Swift have to sell.

In 1948, Swift & Company paid nearly two billion dollars for agricultural products. We processed and distributed nationwide this output of your land and labor... cattle, calves, hogs, lambs, dairy and poultry products, soybeans, cottonseed, peanuts and other products of agriculture. For these we paid out 79.8 cents from each dollar we received from the sale of our products.

HOW THE DOLLAR WAS DIVIDED

In America a business is operated to serve the public, and to earn a profit for its owners. In 1948, Swift earned \$27,839,210 net profit. That was an average of 1.2 cents out of each dollar we received from the sale of our products. Who got the balance of 98.8 cents? It went to people who work directly in the livestock-meat industry, to additional thousands in other businesses.

Management's Role in Modern Farming

by O. R. Johnson
University of Missouri, Columbia

Better farm management can give startling results. If managed as well as the best 20% of the farms are managed, output of the average acre could be doubled. In most areas the output of pasture land could be increased three or four times. Our cleverest feeders get 60% more out of their feed than do average feeders. Production per cow, sow or hen could be increased 50% to 100% if animals and methods as good as those used by the top 20% of our farmers were employed by all farmers.

There are two ways of achieving higher production per acre without increasing costs. The most practical method is to raise the level of management efficiency without increasing present working forces per farm. The other method is for the farm family, with modern power and machinery, to farm more acres. This second method has obvious limitations. For there would not be enough acres to go around without eliminating many farm families. Do we want larger farm units and reduced farm population? Many think not.

However, many farmers are now faced with adopting either one or the other of the above methods. Farmers must meet today's high operating costs and still maintain living standards without forcing prices beyond the reach of the average consumer. Consumers cannot be expected to support, indefinitely, inefficient farm output by paying the high prices such inefficiency demands.

- The major cost of meat packing is the purchase of livestock and other agricultural products. Swift paid \$1,883,823,473 to farmers and ranchers last year. You, the producers, received 79.8 cents out of each average dollar we took in from sales.
- Swift & Company employs 73,000 men and women to provide the services producers, retailers and consumers demand. The employees look to their company for regular, gainful employment. They earned \$226,154,019 in wages and salaries in 1948... or 9.6 cents of each average sales dollar.
- Supplies of all kinds—sugar, salt, spices, containers, fuel, electricity cost us \$94,809,928. These supplies are furnished by other businesses. Our purchases from them created work and wages for many more Americans. This took 4 cents of our average sales dollar.
- Transportation charges are a necessary item of expense, and a large one, too. Meats are moved an average of 1,000 miles from farm and ranch to market. During 1948, in distributing our products to cities, towns and villages, Swift & Company spent \$46,702,487 for transportation by rail and motor. This amounted to 2.0 cents of each average dollar of sales income.
- Government expenses—fire and police protection, national defense, roads, social security, public education, etc.—are all paid out of taxes. Swift's tax bill for the year was \$36,220,291. The Federal Government and each of the 48 states collected some of this amount. And taxes were paid in hundreds of municipalities where our plants and properties are located. Federal, state and local taxes took 1.6 cents of our average sales dollar.
- More than 200,000 retail store operators look to Swift for a regular supply of meats and other Swift products. We help build retailers' trade by developing nationwide consumer markets. Our research laboratories and test kitchens also help create consumer demand. Depreciation, interest and other expenses common to every business, add to this total. All these cost \$46,514,663 or 1.9 cents of the average dollar of sales.

Swift & Company
UNION STOCK YARDS, CHICAGO 9, ILLINOIS
Nutrition is our business—and you's

That's the story of the division of Swift's average dollar received from sales. Of that dollar, 98.8 cents went to other people or businesses. The 1.2 cents left is our return for processing, marketing and distributing meats and other products for millions of American families. Out of this return—or net earnings—our 64,000 shareholders, men and women who invested their savings in the Company, received dividends which were 7/10 of a cent of the average sales dollar. The balance of 1/2 cent was retained to provide for future needs of the Company.

How's your inventory on PROTECTION?

Of what good are "goods on hand" if a fire destroys them? Of what value are "unfilled orders" if an interruption of business makes it impossible to fill them?

How can you rely on "assets" that disaster or dishonest employees may impair?

If a fire destroys your building, have you enough insurance protection to permit you to rebuild at today's prices?

Are you sufficiently protected against loss from damage suits that could be devastating?

Are you adequately covered against theft, holdup, embezzlement?

Let us make an inventory of your insurance protection on both your business and personal property. No obligation.

One of the noteworthy trends in 1940 auto ranks is a swing to valve-in-head engines. Chevrolet has featured this engine design for 20 yrs. Advantages are greater power efficiency and lower maintenance costs.

BACKWARD GLANCES

40 YEARS AGO FROM 1900 CARRIZOZO NEWS

We often hear the expression, "This is the windiest country I ever saw," and few attempt to deny it. Not because it is undeniable, but because we have so many days in the year that are perfectly ideal so we overlook the croakers' plaint and change the subject. Once in awhile however we hear that the wind blows in other sections of the country and we make mention of the fact merely as a reminder. We are in receipt of a letter from Ray Hall, who went to Wichita Kan., last week. A portion of his letter reads: "The wind blew worse yesterday than it ever did blow in New Mexico. It reached a velocity of 44 miles an hour. It blew down houses, trees, signs and plate glass store fronts. Two people were blown to the pavement; a wagon was upset and the roof of a street car was blown off". Better come back to New Mexico Roy.

L. R. LaMay was down from his farm on the Mesa the first of the week with a consignment of livestock to the local market.

Seven car loads of iron piping were unloaded at Coyote last week and the work of laying pipe on the extension was begun.

Mrs. Geo. Dingwall left Monday night for Dawson to join her husband after spending 6 weeks here with relatives.

John Queen and Miss Jodie Biggs were married at White Oaks last week and came down Wednesday and took the train for Phoenix, Ariz. accompanied by Mr. Queen's mother.

Robert Hurt, the county assessor, has his uncle from Memphis, Texas as a visitor.

WEEKLY NEWS ANALYSIS Landlords Rebel Over Rent Curbs; Russians Set up Anti-ERP Program; Israel, Egypt Sign End to Fighting

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

REBELLION: Among Landlords

Chest out, muscles flexed, truculent of attitude, members of the American Property Owners association in 20 cities threatened wholesale eviction of tenants in protest against rental control bills now in congress.

AN OFFICIAL of the organization, composed chiefly of owners of small property, said in Tulsa, Okla., 600 to 1,000 eviction notices would be mailed to Tulsa tenants advising them to vacate within 60 days. Similar action, he said, was expected in Chicago, Houston, Kansas City, Detroit, St. Louis, Fort Wayne, Grand Rapids, Danville, Ill., and other cities.

The eviction notices affected rent-controlled housing and included houses and apartments. Business units are not under rent control.

SPEAR-HEADING the Tulsa movement was a retired Baptist minister, the Rev. Wallace J. Murphy, executive-secretary of the 200-member Tulsa property owners organization, and an honorary president of the national association.

The Rev. Murphy termed two rent control bills now before congress "intolerable" and said, "we refuse to operate so long as rental controls are on." Owner of considerable property in Tulsa, the retired clergyman asserted, "we don't intend to serve under slavery which would take away the right to control our property. It is not enough that we must rent our property at a loss—now they want to fine us and put us in jail."

Landlords appeared mainly incensed because pending rent curb measures would be giving the federal housing expediter right to control evictions, extend rent control periods, provide triple damages for overcharges on rent, and permit fines up to \$5,000 and a year in jail for convicted violators.

OBSERVERS WONDERED IF landlords weren't letting their wrath becloud their judgment. For, under existing law, which doesn't expire until late March, landlords are prohibited from doing exactly what the Rev. Murphy and his associates plan to do.

The Tulsa incident was merely fuel to the flame of belief that if rent curbs are not maintained, the question of housing for those who cannot afford to buy homes would become even more difficult than it is at present.

RUSSIANS: Coming to Tew?

Messrs. Joe Stalin and the politburo, so long and so vocally derisive of everything the western world has or offers, were subconsciously paying that world the sincerest form of flattery—imitation.

The Russians had come forth with their own version of ERP, alphabetical symbol of the Marshall plan for aid to Europe.

AS THE EAST'S answer to the European recovery plan, Russia had organized the economic council of mutual assistance for cooperation with five of her neighbors, Bulgaria, Czechoslovakia, Hungary, Poland and Romania.

The purpose, as outlined from Moscow, was "the exchange of experience in the economic field, the rendering of technical assistance to each other, and the rendering of mutual assistance in regard to raw materials, foodstuffs, equipment, etc." Russia, with her vast resources, obviously was to be the key nation in the council.

The Kremlin held the door open to other nations. The announcement said, "other countries of Europe that share the principles of the council and wish to participate in broad economic cooperation with the aforementioned countries," may join.

THAT MOSCOW was considering the Marshall plan when its six-nation council was formed was evident in a Russian charge that the ERP interfered with the sovereignty of nations, and that the U. S., Britain, and "certain other countries of western Europe" were boycotting the six nations in trade.

The Russian action may prove to be the vital error in the Soviets' program of expansion. If the system fails to function, it will serve only to spotlight the efficacy of the Marshall plan and the superiority of the western nations in equipment and ability to keep European commitments.

HURRY-UP MEASURE

Priority Ordered for Rent Curb Bill

Speed was of the essence. Rent controls had to be safeguarded swiftly. So, into the senate hopper fell an administration bill calling for broader and tougher rent controls for another two years.

The bill, authorized by Senator Maybank, (D., S. C.) and, in the house by Representative Spencer (D., Ky.) would require controls through March 31, 1951, and would

New Leader

Li Tsing-Jen, China's nationalistic vice-president was holding the reins of organized government following Generalissimo Chiang Kai-shek's departure from Nanking to clear the way for a Communist-directed peace.

PEACE DOVE:

Hovers in East

Hovering wings of the dove of peace were becoming faintly audible in the Holy Land dispute.

Israel and Egypt signed a permanent cease-fire order and armistice talks were still going on after recent difficulties.

THERE WERE even more significant developments looking toward final peace in the long controversy stemming from the partition of the Holy Land to make the area available as a place of settlement and nationalization of Jews.

Great Britain had capitulated, and with the British lion on its side, the new nation of Israel had the two most powerful nations in the world committed to its support.

Other nations were falling in line to recognize the Jewish state. Indications were that with the trend apparently fully in motion, Arab opponents to the Israeli state would soon be standing completely alone in their opposition.

SHOULD THAT condition eventuate, Israel seemingly would have nothing to fear. Inasmuch as its armistice already have proven a match for Arab forces.

Bible students and others religiously inclined would be quick to see in the developments the beginning of fulfillment of the old prophecy that the Holy Land would one day be returned to the Jews, that they would one day become a nation again, with their own flag, their own land, their own government.

SURPLUSES:

Curbs Are Sought

Fearful of large surpluses of wheat and cotton, the government was studying moves to prevent this contingency.

Secretary of Agriculture Charles Brannan outlined to a senate agriculture committee plans to hold down this year's cotton and wheat crops.

Brannan's plan called for serving notice on wheat and cotton farmers that the 1949 crops they plant will not be considered part of their average production in figuring any future acreage allotments. This means growers could plant fewer acres without being penalized later by proportionate acreage curbs on their crops.

Under present law, if acreage controls are renewed, the average acreage planted by a farmer in the five previous years is the amount he is entitled to plant.

Many officials felt that might induce many farmers to plant as much as they can in order to have the maximum possible acreage when and if controls are clamped on.

Brannan's plan, assuring the farmer of no restrictive penalties through curtailment of acreage, was seen as a possible curb on any excessive planting.

About as large a winter wheat crop as possible already has been planted and a committee member declared cotton farmers are preparing to plant an "extra large crop" to get benefit of present high support prices.

Chairman Elmer Thomas (D., Okla.) of the committee which heard Brannan, said legislation to back up Brannan's proposal would be offered in congress.

give the federal housing expediter powers he does not have now. These would include authority to re-impose rent ceilings on previously decontrolled areas and on other specified types of living quarters. Restored also would be right to control evictions, to sue for triple damages following overcharges, and to take criminal action against willful violators.

JACKSON DAY:

Million Or More

"Happy Harry" Truman had pulled himself up by his own bootstraps, grasped the dark cloud of Democratic gloom and ripped it aside to disclose a satisfying silver lining.

And now, party big-wigs and adherents are smiling expansively in anticipation of hacking the million-dollar mark when the traditional \$100-a-plate Jackson Day dinners are held in February.

NOTHING SUCCEEDS like success, Truman might have reminded his followers—and because of his personal success, money, which was woefully lacking in Democratic party coffers before the election, is now expected to come rolling in.

Normally, anywhere from \$600,000 to \$700,000 is raised for the party at the dinners, but this year the national committee thinks it can surpass that figure and come nearer the million-dollar mark.

And they well may do it, for many people who wanted no part of Harry Truman during the campaign, and who kept their hands in their pockets, now are willing to give and give generously.

However, careful planning is going into this year's Jackson Day dinner project. One such dinner will be held in every congressional district of the larger states, and at least one dinner in each of the smaller ones.

Plans already have been mapped to seat an all-time high record of 3,000 at the Washington dinner.

"Of course there are still some lukewarm 'Wednesday Democrats,'" a committee said, "but the financial return this year should be terrific."

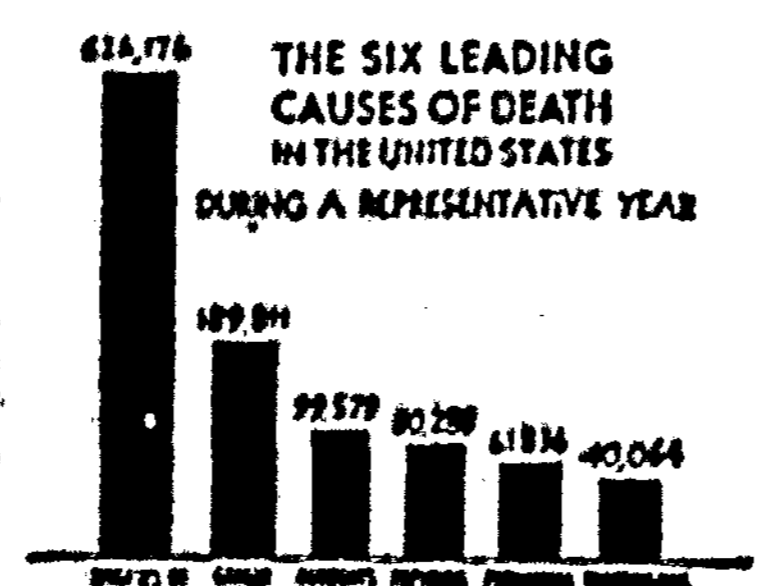

Chief Killer

Once again the nation's attention would be called to the fact that diseases of the heart and blood vessels are the leading cause of death in the United States.

The occasion: The American Heart association's 1949 national campaign: Hard to dramatize, because its victims seldom die spectacularly, heart disease is a major concern of those who deal with a people's health. The malady is responsible for one of every three deaths in the nation each year.

Rheumatic fever and rheumatic heart disease take a heavier toll from youngsters five to 19 than any other disease. Even in the years from 35 to 54, heart disease causes far greater mortality than the other leading killers, including cancer, accidents, tuberculosis, pneumonia and nephritis.

THE SIX LEADING CAUSES OF DEATH IN THE UNITED STATES DURING A REPRESENTATIVE YEAR

The chart tells its own story about the fatalities resulting from heart diseases in the nation.

The dates of the national campaign of the American Heart association are February 7 to 28. The dates of National Heart Week are February 14 to 21.

THE FUND-RAISING goal of the campaign is five million dollars. Of this, three and one-half million dollars will be used by local heart associations to maintain and expand their community cardiac programs. The remainder will be used by the American Heart association for expansion of its national programs.

The 1949 campaign slogan is apt and compelling. It is: "Open your heart—fight heart disease."

COAL SUPPLY:

Everyone Relax

The American male who must wrestle with the furnace, worry about keeping a fireplace full of fuel, concern himself with the possibility of a heatless future could sit back and relax.

There is enough coal under the surface of the United States to last a thousand years.

After that, somebody else could worry.

AUTHORITY for the extent of the nation's coal resources was Dr. Edward R. Weidlein, director of the Mellon institute of industrial research.

Pointing out that half the world's known coal reserve is possessed by the United States, he asserted many industrial leaders and technical experts believe "that a large industrial development based on coal is in the making and that a considerable expansion in coal production is imminent."

PSYCHIATRISTS:

Who's Next?

Americans had something else to worry about besides prices and possible war. It seemed the nation's chief need, despite any suppositions to the contrary, was more psychiatrists.

According to a subcommittee of the Hoover commission, nothing could be done about the nation's deplorable mental health condition until the present 4,000 psychiatrists were increased to 14,000.

IT'S ALL IN HOW YOU LOOK AT IT . . . Through a trick of perspective and camera angle, this German V-2 rocket appears to dwarf the 553-foot Washington monument. The rocket, however, is only 55 feet high and is a part of the armed forces exhibit on the monument grounds. The V-2 was powerful enough to be one of the Nazis' most effective weapons in the attacks on Great Britain.

SOME NOTES FOR THE RECORD . . . Grandchildren of Vice-President Alben W. Barkley of Kentucky add a few marginal notes to the Congressional record. They are Alben W. Barkley, II, aged four, and his sister, Dorothy Anne Barkley, six. They are seated at the former senator's desk in the upper chamber.

ONLY THE BRAVE PROTEST THE FARE . . . But in this instance it appears to be doing little good. A lucky Rio de Janeiro, Brazil, cop is doing some vigorous necking here with Evandro Cavato, one of 34 students of the National Union arrested in protest riots against a planned increase in Rio car fare. Three street cars were stoned and set on fire by the demonstrators, who, police said, were members of the young Communist League. All were released after questioning.

INAUGURAL PRESENT FOR PRESIDENT . . . President Harry S. Truman stands beside a shiny model of the bronze bust, by Washington sculptor Felix de Weldon, which was presented to the President during inauguration week. The presentation was made by the Democratic National committee. The bust carries an inscription written by President Truman, himself. It reads: "Our goal must be not peace in our time—but peace for all time."

WEEKLY PICTURE STORY

A is for Andy, simian star of the Bronx zoo, who made his film debut recently when the zoo decided to produce a motion picture based on an "animal alphabet." Since then, with all the precocity of a human being five times his age, Andy has become victim of the grand delusion that he is the favorite first-born of Thelma herself.

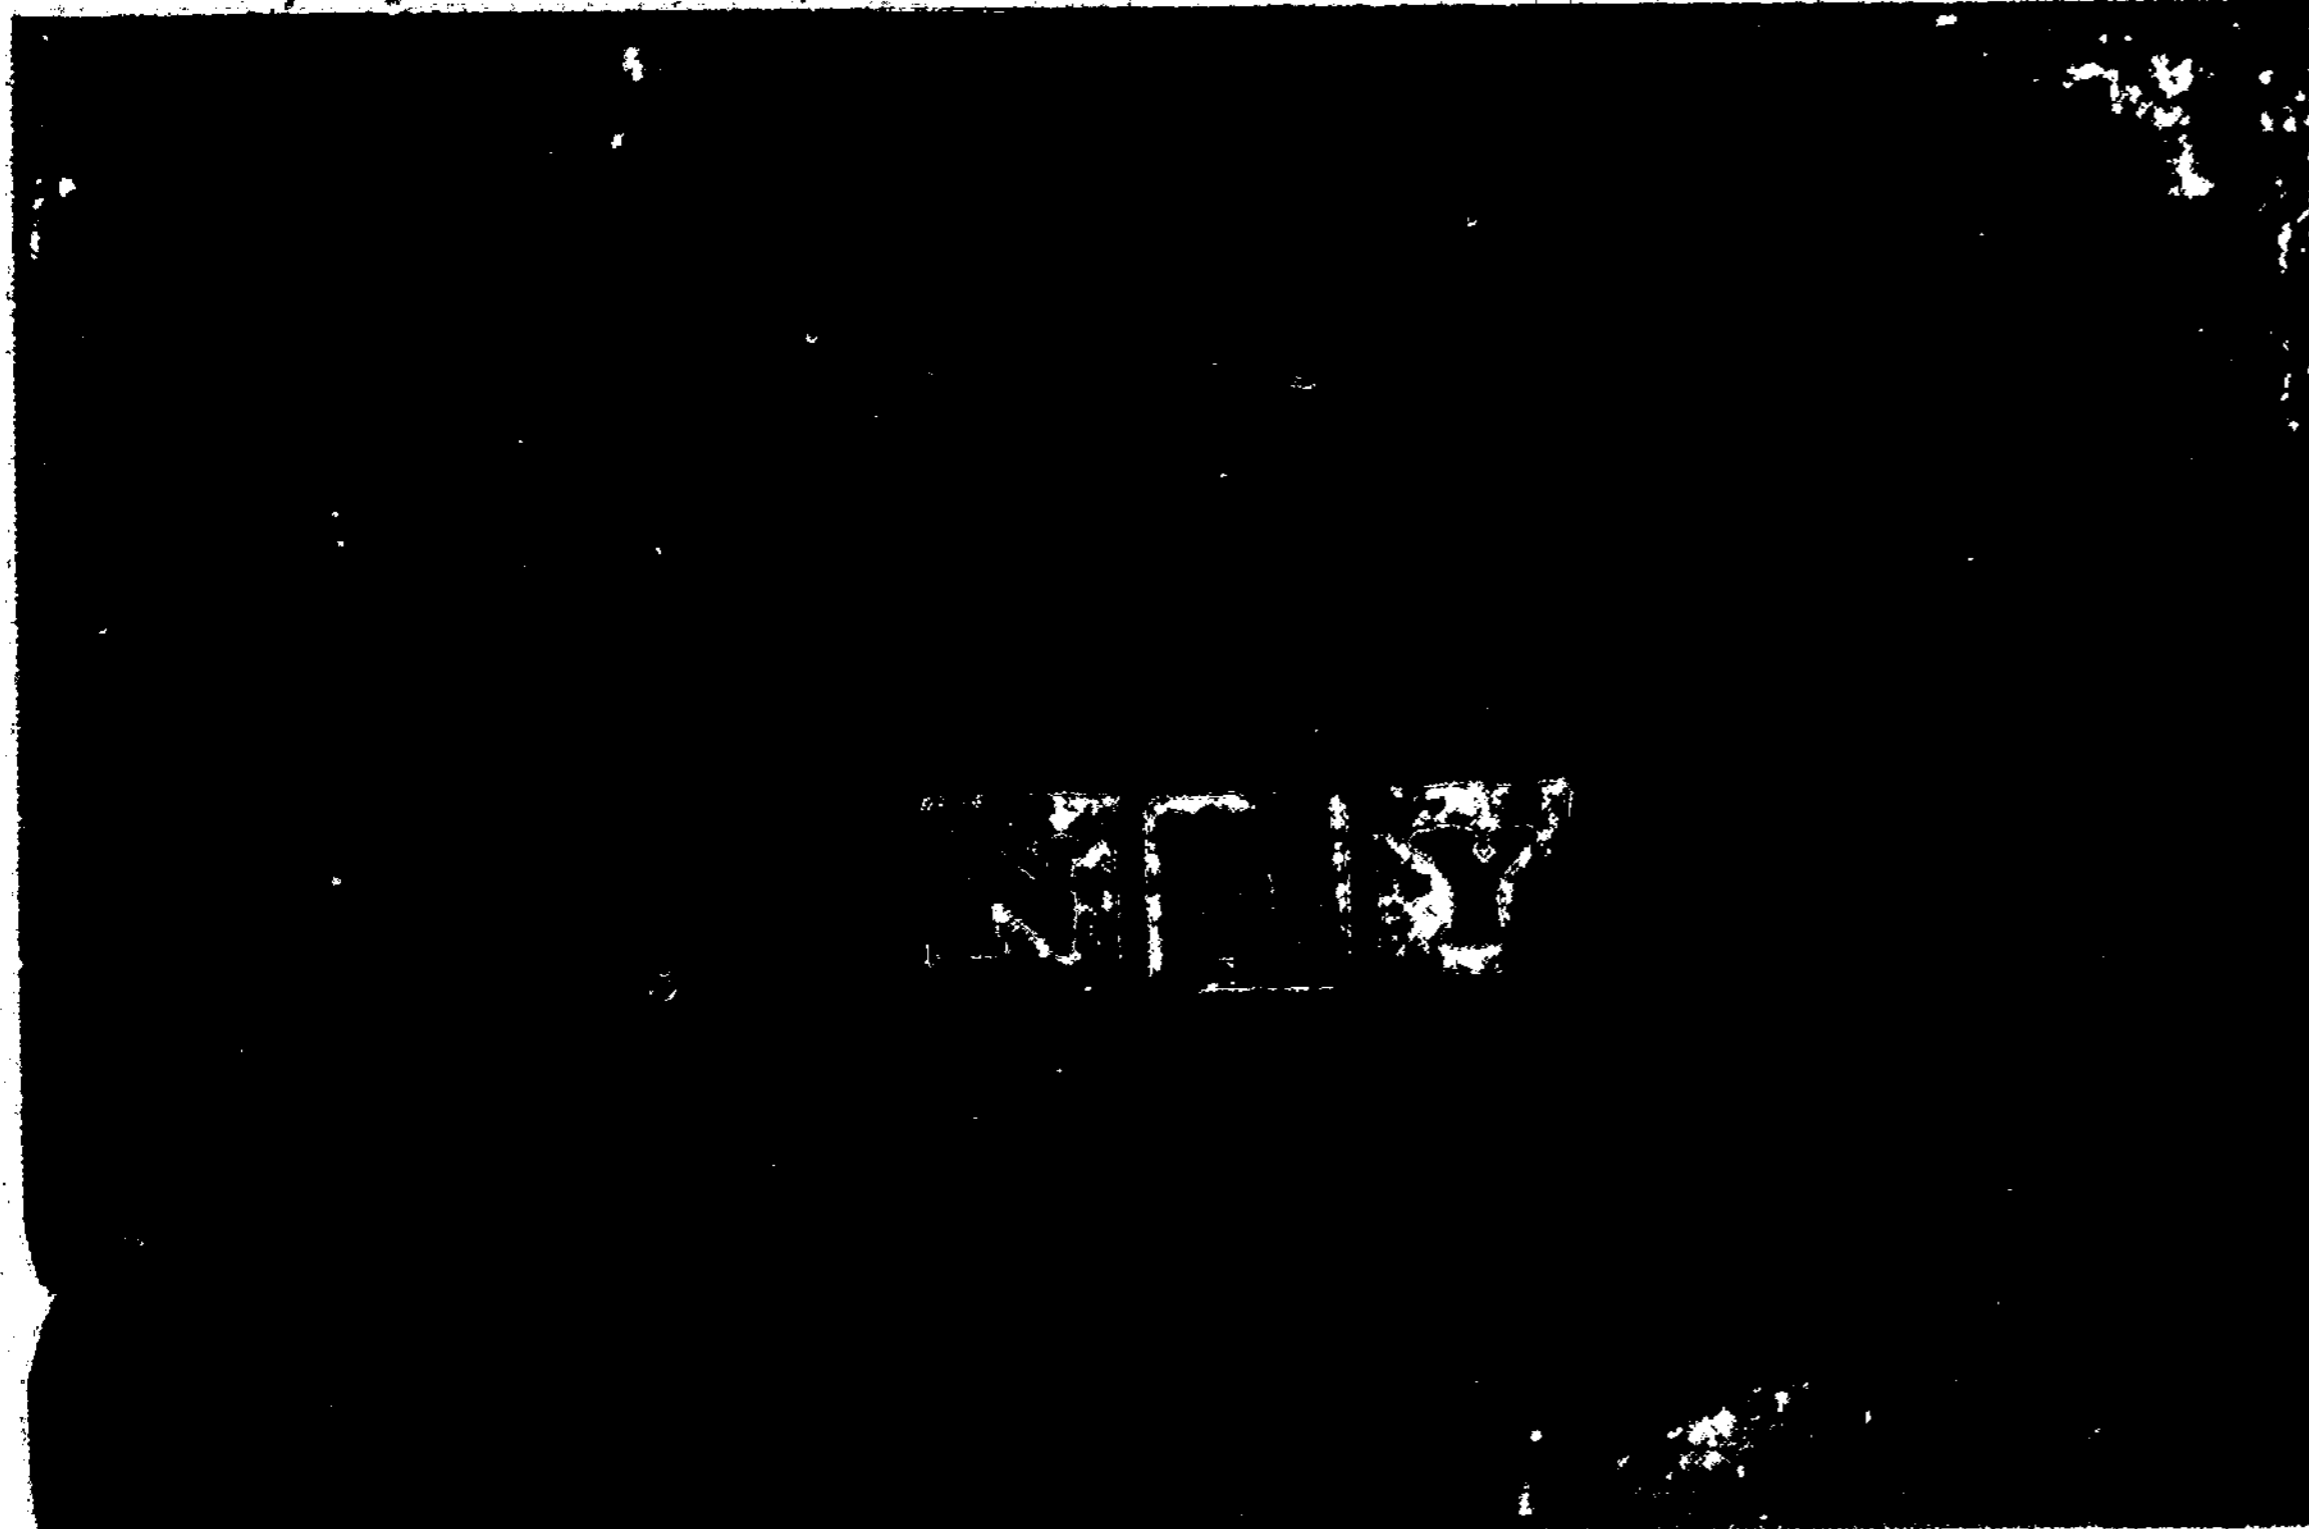

In the zoo's original casting of the film, the chimpanzee was chosen to represent one letter—O for orangutan. But that didn't stop the little genius from ranging unobscuredly through the whole alphabet, starting with A for Andy, naturally.

Although Andy was mostly cooperative, he staged temperamental flare-ups, just like any other simian (left). Then it would take all the coaxing of his keeper, Mickey Quinn, plus a little something in the way

of a bribe to get him back to work. One of Andy's assignments was to pose for the zoo staff artist. This he did with great alacrity (right).

That glow in Andy's eyes is from vault-hunting pride. Imagine! A simian starlet with his name in colored block. It isn't on Broadway yet, of course, but that's only a short leap for an orangutan. Andy probably is thinking that if they only would let him out of the cage and give him the name of a good agent he'd make it in no time.

AMG Top Man In Munich Has Mammoth Task

MUNICH.—Murray D. Van Waggoner, former governor of Michigan feels that he has a big job on his hands here as military governor of Bavaria, one of the three laender (provinces) in the American zone of occupation in Germany.

Van Waggoner is less concerned with the actual execution of policy than he is with supervision of the way in which the elected German officials put these policies into effect.

But the field of this supervision is much broader than it would be in a state government at home, he says. In the absence of any federal government, the laender or state administration must be both.

Comparing the two jobs, Van Waggoner points out that governors in the United States frequently have the assistance of organized commissions in broad fields of policy like public utilities or conservation. Nothing of that sort exists in Bavaria.

He has studied the possibilities of such a reform here. But so far, he says, he has not proposed it formally or in private conversations with the Bavarian leaders.

Some Many Callers
In the governor's office in Lansing, Mich., Van Waggoner says, he saw callers during office hours on the average of one every 15 minutes. Here, outside of his own immediate staff, he sees perhaps three each day. But the volume of correspondence and reports is immensely greater, he says.

He finds the setup of American military government is sometimes cumbersome and unresponsive.

"At home," Van Waggoner explains, "when you decided to do something you called in the people who were involved and went ahead with the job. If we decide here in Munich that we want to make some move, it must be approved in Berlin, Frankfurt and a dozen other places. By the time it gets back to us, we may have changed our minds or the whole problem may even have ceased to exist."

He agrees that teaching the forms of democratic government to the Germans is a task of immense proportions. He does not believe that the Americans and the other occupying powers are proceeding too quickly in turning over authority to the local officials.

Some Never Learn
"There are some people," he says, "who never learn to swim until they are pushed off the end of a dock."

He adds tolerantly: "Of course, they will make some mistakes." Among the bars to genuine Democratic progress there are two factors, Van Waggoner thinks, which outweigh the others.

One is an entrenched and hugely jealous civil service which starts its protection at the top instead of at the bottom. "It is almost impossible to remove a policy-forming official, but the putz-frau, or scrubwoman, can be tossed to the political wolves any time," he says.

Abundance of Salisburys Pittance in Duplication

CHICAGO.—Twenty-two communities in the world are named Salisbury, but they are a pittance in the realm of duplication, according to the Encyclopaedia Britannica.

Mayor R. G. Gordon of Salisbury, England, sent Christmas greetings yesterday to the twenty-one other Salisburys. At the same time he challenged any other town or city to produce a greater number of sister places.

How about Clinton, which thirty-three cities and towns use as their name? asks Britannica. Thirty Clintons are situated in the United States, one in New Zealand and two in Canada.

And, says the Encyclopaedia firm, there are thirty-two Cliftons in the United States, New Zealand, Australia, Canada and Westmorland, England. Chester in Cheshire, England, has twenty-nine namesakes.

There are twenty-nine Center-villes, twenty-eight Springfields, twenty-eight Auburns, twenty-seven Belmonts and twenty-seven Cleavelands, just to scratch the surface.

City Does Not Determine Whether Costs High, Low

LINCOLN, NEB.—The idea that the cost of living varies sharply from city to city doesn't carry much weight with the business-research bureau at the University of Nebraska.

Living expenses are 12 per cent lower in New Orleans than in Washington, but those are the two extremes, the bureau reported. In 34 cities studied, the "average difference" amounted to less than 3 per cent. Dr. Edgar Z. Palmer, bureau chief, said. Food costs varied about 1 1/2 per cent.

"It seems to make little difference what city we live in," he said. "Living costs too much in any, and there is not much choice."

Population appears to have no effect on living expenses, Palmer said.

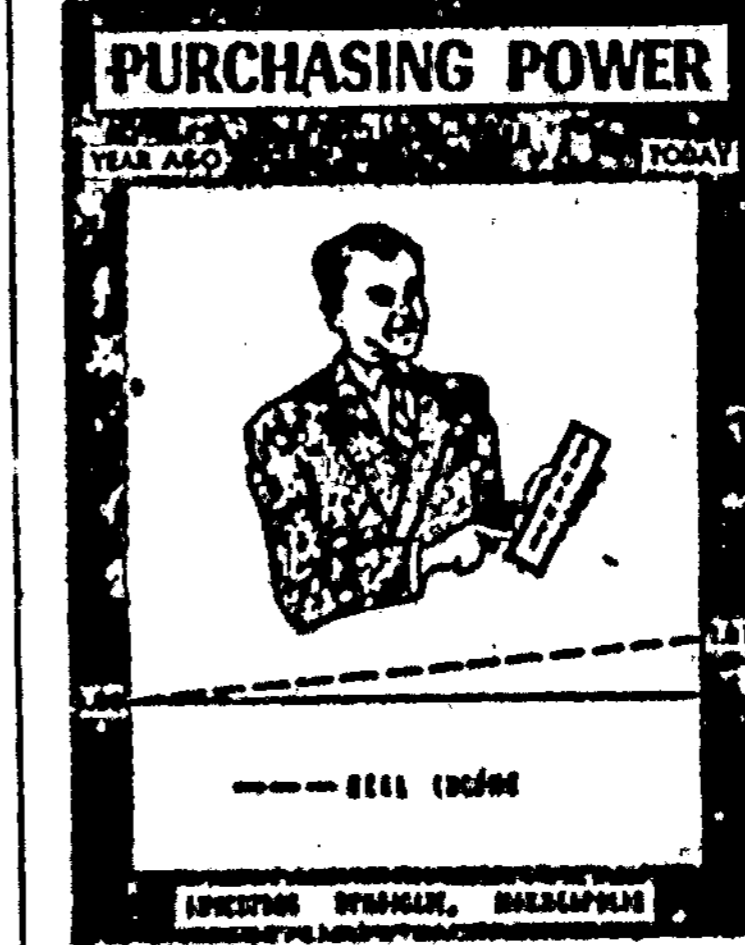

Farm Outlook Bright For Coming 5 Years

Federal Economists Show Optimism in Forecasts

In spite of some recent declines in farm prices, agricultural economists of the U. S. department of agriculture took an optimistic point of view at their recent outlook conference in Washington, D. C. In the past, these economists have confined their estimates of the outlook to the coming 12 months. This time they tried to look five years ahead. And, they decided that things look fairly good for the farmer for that long.

Of course, they made two basic assumptions that some people still are a little doubtful about—that a stable peace will be established and that there will be no serious de-

America's economic boom continues as buying power outpaces prices.

pression. If time should prove them wrong about one of the two, the effect may be drastic. And they hasten to point out that these are assumption, not predictions.

They then go on to point out that the population will increase between one and two million persons a year until 1952; that industrial output per worker will increase, and that yields per acre and per livestock unit probably also will increase.

High incomes for industrial workers will mean a steady market for foodstuffs and clothing. High yield per worker might mean more stable prices for industrial goods. Higher yields per acre and per animal unit will mean more economical production for the farmer.

All in all, this shapes up to just about the kind of five-year period that the farmers themselves would like to enjoy. High production at fair prices means a break for producers and consumers—a square deal for both.

Battle Against Afosa

In a drive to stamp out afosa (feet and mouth disease) from Mexico in two years, a joint U. S.-Mexico commission has undertaken the job of vaccinating from eight to 10 million cattle in the affected area by the end of 1949.

Trained teams go ahead of the line teams of vaccinators to preach the benefits of vaccination and convince the sometimes ignorant cattle owners that vaccination is the only alternative to disaster.

By the end of 1949 the program will have cost approximately 50 million dollars. It includes five points: constant inspection, disinfection, eradication, vaccination and quarantine.

The vaccination process itself is simple. A needle of the vaccine is shot into the animal and that's all there is to it. It will take from eight to 10 million shots to complete the job. The vaccine protects for six months.

Expert Urges Milk Cows Be Taught 'Good Habits'

Training your cows in good habits is most important to all dairymen, according to a leading dairy specialist. He lists the following recommendations for more milk, greater profits and reduced mastitis:

Keep cows undisturbed; stimulate milk letdown one minute before milking begins; operate milking machine according to manufacturer's directions.

Small Circus Wagon Will Please Children

HERE is a gift idea that appeals to everyone. It's a circus wagon plant holder that makes a delightful center piece for the table. Ivy and other small potted plants thrive in this gaily decorated circus wagon. If there is a child in the family, forget its use as a center piece and make several wagons to form a circus. Youngsters love to cage their wild animals and move them about.

The full size pattern offered below offers a quick and easy method of building. No special tools or skill are required. User merely traces the pattern on the wood pattern specifies, saws and assembles. To insure painting with a professional touch, full size decorating outlines are provided. These are traced on the wood and painted the colors pattern suggests. Pattern specifies using small pieces of wood that can be purchased at any lumber yard.

BOOTE'S HATCHERY, Inc., Washington, Minn.

CHANGE of LIFE?
Are you going through the functional "middle age" period peculiar to women (30 to 42 yrs.)? Does this make you suffer from hot flashes, feel so nervous, high-strung, tired? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound also has what Doctors call a "eumenic tonic effect!"
LYDIA E. PINKHAM'S COMPOUND

Me? I Use Corn Vanish?
Of course—I've had plenty of unnecessary torture, pain, limping, loss of sleep, all these years. I want relief! The book "Why Not 'Corn Vanish'?" brings me the how and where-with to restore comfort to my tired feet by removing the source of corns. They guarantee to remove corns or return my money. I will send for it now, as this ad appears once a month. It costs so little, it will do so much. Portable 22 Address: Corn Vanish, Great Dal., Minneapolis, Minn.

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not get so slow as Nature intended—fall to remove impurities that, if retained, may poison the system and spoil the whole body mechanism.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—feeling a nervous, weary and loss of pep and strength.
Other signs of kidney or bladder disorder are sometimes burning, stinging or itching sensation.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have the same cleaning effect on men as on women. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your druggist.

IN THE PROBATE COURT OF LINCOLN COUNTY STATE OF NEW MEXICO

IN THE MATTER OF THE
ESTATE OF SAM (No. 683
KAMEES, Deceased.)
NOTICE OF HEARING ON FINAL
REPORT

STATE OF NEW MEXICO TO:
Thodora S. Kamees, Sarah Kamees
Ruiz, Sam Kamees, Jr., Mary
Kamees, David Q. Kamees, and to
all unknown heirs of said decedent,
and all unknown persons claiming
any lien upon, or right, title or in-
terest in and to the estate of said
decedent:

GREETINGS: You and each of
you are hereby notified that Tho-
dora S. Kamees, administratrix, has
filed her Final Account and Report
herein, and that the Probate Judge
of Lincoln County, New Mexico,
has fixed the 1st day of April, 1949,
at the hour of 2:00 o'clock P. M., at
the office of the Probate Judge of
said County, as the day, time and
place for hearing on said Final Ac-
count and Report, at which time
the Court will proceed to determine
the heirship of said decedent, the
ownership of his estate, the interest
of each respective claimant thereo-
r herein, and the persons entit-
led to the distribution thereof.

All persons having objections to
said Final Account and Report are
hereby notified to file said objec-
tions in the office of the County
Clerk of Lincoln County, New
Mexico, on or before the date here-
inabove set for said hearing.

O. O. Askren, Box 223, Roswell,
New Mexico, is attorney for said
administratrix.

WITNESS MY HAND as Clerk
of said Court, and the seal thereof,
this 9th day of February, 1949.

J. G. Moore
Clerk.
By: Otila E. Vega, Deputy
(Seal) F 11-M4

NOTICE OF PENDENCY OF ACTION

THE STATE OF NEW MEXICO,
to W. E. Wright, impleaded with
the following named defendants
against whom substituted service is
hereby sought to be obtained: The
following named defendants by
name, if living, if deceased, their
Unknown Heirs: Emil Theodore
Burr and June Burr, his wife,
and E. J. Foster; and to All Un-
known Claimants of interest in the
premises described in the com-
plaint of the Plaintiffs hereinafter
named, adverse to said plaintiffs:
You are notified that there is pend-
ing in the District Court of Lincoln
County, New Mexico, a certain
civil cause No. 3541 in which Sam
W. Stout and Sallie Stout, his wife,
are plaintiffs and you are defend-
ants. The general object of said
action is to quiet the title of the
plaintiffs to the property described
in the complaint in said cause, be-
ing certain real estate situated in
the townsite of Palo Verde in the
West Half of the Northwest Quar-
ter of Sec. 20, T. 11 S., R. 14 E., N.
M. P. M., in Lincoln County, New
Mexico; and to establish the inter-
est of the plaintiffs as warrantors
of the title to the portion of said
real estate heretofore sold and con-
veyed by them. You are further
notified that unless you enter your
appearance in said cause on or be-
fore the 6th day of April, 1949,
judgment will be rendered in said
cause against you by default. Plain-
tiffs' attorneys are Shipley and
Shipley, Box 751, Alamogordo, New
Mexico.

WITNESS my hand and the seal
of said Court at Carrizozo, Lincoln
County, New Mexico, this 9th day
of February, 1949.

J. G. MOORE, Clerk of the
District Court of Lincoln Co.,
N. Mex.
By: Otila E. Vega, Deputy.

VETERANS' NEWS

(Continued from Page 1)

completed not later than June 30,
1949.

Hospitalization and outpatient
treatment provided by Veterans Ad-
ministration are not available to
members of veterans' families. V
A said in response to a number of
inquiries.

Many wives of veterans were
treated by Army and Navy doctors
while their husbands were in ser-
vice. Some wives now erroneously
believe they also are entitled to
medical treatment from VA physi-
cians.

Only ex-service men and women,
if discharged under honorable con-
ditions other than dishonorable, are
entitled to hospital treatment un-
der the following priority system:
First: Emergency cases.

Second: Those suffering from in-
juries or diseases incurred in or ag-
gravated by military service.

Third: Those who were under oath
they are unable to pay hospital
charges for treatment of non-ser-

NOTICE TO FEDERAL
INCOME TAXPAYERS

Your income tax return for the
calendar year 1948 must be filed
not later than March 15, 1949, with
the Collector of Internal Revenue
for the district in which you live or
have your principal place of busi-
ness.

While most taxpayers will be
able to prepare their returns them-
selves, a Deputy Collector of Inter-
nal Revenue will be at the Court
room of the Lincoln County Court
house February 19th, 1949, between
8 a. m. and 5 p. m. to give any
advice or assistance needed. No
charge will be made for this service.

Most taxpayers have already made
substantial payments on their 1948
Federal tax through withholding
from their wages or direct payment
to the Collector, but, nevertheless,
all taxpayers must file annual re-
turns on or before March 15, 1949,
as provided by law.

Chevrolet's use in 1948 of air-
plane-type, double-action shock ab-
sorbers at both front and rear of
the chassis promises to contribute
importantly to passenger comfort.
The device came into favor during
the war when compact light-weight
shock control was demanded to
cushion the extreme jolts of air-
craft landings.

They tell us jet planes can be
run on corn liquor. Well that may
be, but with corn liquor, who needs
a jet plane.

vice connected disabilities or ill-
nesses. These veterans if not in the
emergency category, must wait un-
til a bed becomes available.

Outpatient treatment is available
only for veterans with service-con-
nected disabilities. Each veteran's
eligibility must be determined by V
A before treatment of this type is
authorized.
