Carrizozo Included In Television Plan

At last Carrizozo has something to look forward to in case the proposed plans of the Federal communications commission are approved. We'll all be buying television sets.

Thirty-seven New Mexico communities would be allocated television broadcast channels if new proposals of the Federal Communications Commission are approved.

The proposals are subject to public hearing on August 29. Under the plan 42 new television channels would be added to the existing 12. The state now has one television station — KOB-TV at Albuquerque.

The KOB-TV channel operates on one of the 12 channels now in use. They are classified as very high frequencies.

Under the proposed plans the very high frequency channels in New Mexico would be allocated as follows for stations:

Albuquerque, four; Carlsbad, one; Clovis, one; Gallup, two; Roswell, three; Santa Fe, three; Silver City, one.

In the 42 new channels to be added are the ultra high frequencies. They would be allocated as follows for stations:

Taste-Teasers

"The way to a man's heart..."
By NANCY COOK

Do you know Jack Berch, the whistlin' baritone on NBC's daily "Jack Berch Show"? Well, he's no mean cook — especially when it comes to Chuck Wagon Stew, a favorite dish of his family. Jack first tasted it when a small boy in Sigel, Ill. . . later learned to make it. Though he's taught his pretty wife, Margo, how to cook it, this particular dish is Jack's specialty when he's let loose in the kitchen. It's so delicious, I'm passing on the recipe to you.

CHUCK WAGON STEW
Brown in hot fat 1 lb. of beef chuck cut in 1 1/2-inch cubes; add 3 cups of boiling water, 1 teaspoon lemon juice, 1 teaspoon Worcestershire sauce, 1 clove garlic, 1 medium-sized onion (sliced), 1 can tomatoes, 2 bay leaves, some chopped parsley, salt, pepper, 1 teaspoon of sugar, and a dash of allspice. Cook over low flame for about 3 hours; stir occasionally to keep from sticking. Add 3 carrots (cut in lengths), and 1 lb. (18 to 24) small white onions. Continue cooking 20 to 30 min. (5 cubed potatoes may be added if you wish).

On-The-Shelf Department

Folks keep asking how I manage to whip together such seemingly prepared-in-advance meals when unexpected guests arrive. It's really not difficult . . . the secret lies on your emergency shelf. Here are some suggestions:

There are two real he-man canned sauces — one, a beef-rich tomato sauce, the other rich with mushrooms — which work terrific when poured over or combined with meat, fish or spaghetti. You'll find they add a chef-like touch to even the most ordinary dishes!

Then there's canned ravioli. Now there's a dish men really go for. Serve with a fresh green salad, a tart dressing and a light dessert and see what that does for your enjoyment and reputation.

Another last-minute inspiration — especially for a novice cook — is

a whole spaghetti dinner for 8 or 4, put up in one package complete with concentrated sauce and cheese.

These time-savers are also dime-savers, so don't wait until company comes to try them. More about shelf items later . . .

Vintage Flavors in Wine Vinegars Spark Up Meals

Meats and fowl are "tenderized" when marinated with vinegar. An old culinary art practiced by chefs for years.

I suggest you try it next time with herb-flavored wine vinegar. There are many varieties . . . some flavored with sweet basil, dill, tarragon and other herb blends. The sourness is lost in cooking, but the delicate hidden flavor of the herbs remains.

Exciting way to fix lamb chops: Molten each chop lightly with herb vinegar. Let stand 1 hour. Brush with olive oil and broil.

Household Hint: To polish your kitchen stove easily and quickly, use a piece of crumpled up waxed paper. You'll find it not only cleans and polishes it to a satiny gloss, but also prevents the formation of rust.

Mrs. Wilson Attends Ranchmen's Annual Meeting NEA

Delegates to the 87th Annual Meeting of the National Education Association representing 325,000 teachers throughout the United States and its territories, officially voted to bar members of the Communist party from employment in American schools according to Mrs. Elva S. Wilson, who has just returned from the convention.

In taking this action, the 3000 delegates who participated in the convention at Boston July 3-8 declared, "As a measure of defense against our most potent threat, American schools should teach about communism and all forms of totalitarianism, including the principles and practices of the Soviet Union and the Communist Party in the United States. Teaching about Communism does not mean advocacy of Communism. Such advocacy should not be permitted in American schools.

"Members of the Communist Party shall not be employed in the American Schools. Such membership involves adherence to doctrines and discipline completely inconsistent with the principles of freedom on which American education depends. Such membership, and the accompanying surrender of intellectual integrity, render an individual unfit to discharge the duties of a teacher in this country.

"At the same time we condemn the careless, incorrect and unjust use of such words as "Red" and "Communist" to attack teachers and other persons who in point of fact are not Communists, but who merely have views different from those of their accusers. The whole spirit of free American education will be subverted unless teachers are free to think for themselves. It is because members of the Communist Party are required to surrender this right, as a consequence of becoming part of a movement characterized by conspiracy and calculated deceit, that they shall be excluded from employment as teachers and from membership in the NEA."

President Truman in the following telegram to Miss Mabel Studebaker of Erie, Pa. NEA president, joined the delegates in advocating federal aid to education to help strengthen the nation's school system:

Ford is the son of Mr. and Mrs. Oscar Ford of Las Vegas, and at the present time is completing work on his master's degree at Highlands.

Ranchmen's Campmeeting

The Ranchmen's Camp meeting which opened the 20th of this month will last through Sunday July 24.

The Rev. Everett B. King of Albuquerque delivered the dedicatory address Wednesday night July 20 in the presence of a magnificent crowd. Dr. King was present at our first campmeeting in 1940. He will remain for the entire series of meetings this year. Others who will assist are Rev. Herschel Ford of El Paso who will remain for the entire meeting; Frank Darrow of Las Cruces in charge of song services. Manager Ralph Hall reports a very busy season this time with meetings from Wyoming through New Mexico and Arizona.

Our meeting on the Mesa will be from the 20th to the 24th inclusive.

Our cook "Santigo" is on hand and will see that everyone is well supplied with food.

So don't fail to attend and enjoy the spiritual uplift resulting from his revival.

The new tabernacle will supply many comforts to those in attendance.

"You and all the teachers you represent are engaged in a task of the utmost importance to our national welfare. The trainers of our children and youth are a bulwark of good character, good citizenship, and good government and I greet them as such. I have repeatedly pledged my support to federal aid to the states in the equalizing educational opportunities and improving the salaries of our teachers. As you know, such an appropriation was provided for in the budget for this year and a bill has been passed by the Senate. I fully expect the House committee and the House itself to take early and favorable action on this subject. I hope to have the pleasure of signing a satisfactory federal aid bill before the close of the present session of this Congress"

In a spirited election contest Dr. A. D. Holt, executive secretary of the Tennessee Education Association, Nashville, Tenn., was chosen by the delegates to serve as president of the Association for the coming year.

Right With God

Lesson for July 24, 1949

"GET RIGHT with God" is an expression which has been sometimes used by people. It is not a coarse or cheap idea. It is the most important thing you can do. Think what it means to be wrong with God! That means to be out of harmony with his will, going "across" the grain of reality as the old Greeks used to say. To be wrong with God means to be a rebel against reality, to have the power of the universe working against you, and so to be headed for sure destruction. Wrong with God, you cannot win. Right with God, you cannot lose. To be right with God means to be in line with the purpose that runs through all things; it means in the simple language of the Bible, to live as a child of God.

Mule or Man?

THERE are two ways in which a man can come into line, so to speak, with God. One is by being whipped into it, and the other is by a free act of will. The poet of the 32nd Psalm begs his readers, not to be like mules or colts (Ps. 32:9). These animals can be broken and controlled by their masters. But they do not understand what is going on, and if left to themselves they would never serve.

They have to be caught, harnessed and driven. But God does not want to treat human beings like that. Getting right with God is not a business of getting into harness, being beaten late walking on the right road.

That is not God's way. He pleads with us through his inspired poet: Be not as mules—be men!

Facing Up to Yourself

THE short good Bible word for being wrong with God is Sin. The very first step toward being right with God is to see yourself as you are. No one ever went to a doctor till he at least suspected he was sick. No one ever went to school of his own accord who thought he knew everything. And no one will come to God who thinks he is as good as he needs to be. When life goes hard with us, when everything about our life seems twisted and rotten, we make all sorts of excuses for ourselves, we lay the blame on our parents or our friends or the social and economic system in which we live (doubtless all these have a share in creating our troubles), but we hate to look at ourselves in the mirror of truth.

This comes first: recognizing our own wrongness, not just weakness but wrongness. When we reach the point where we can say with the Psalmist, "Create in me a clean heart, O God, and renew a right spirit within me," then we are on the right road.

"Hide Thy Face"

THERE are two things we never hear about in the Bible. One is that God never forgave anyone who did not repent, and the other is that he refused to forgive any one who did repent. But repentance is not merely regretting that a wrong was done; still less regretting being caught. Repentance, the kind the Bible describes (as in these Psalms for example), means a complete change of attitude; it means coming over on God's side and seeing sin the way he sees it, seeing life the way he sees it.

God's forgiveness is not of the grading, remembering, reminding kind. But condoning and forgiving are still a world apart. Condoning means saying in effect, it is all right, it makes no difference, you can go on sinning for all I care.

Some human "forgiveness" may be like that, but not God's. His forgiveness is based on real repentance, and the aim of it is to save the sinner from his sin.

Pitiless in Mercy

THE Psalmists saw clearly what a kind of God we have. He is not like the holder of a mortgage waiting till the first time some payment is deferred gives him a chance to pounce down and evict his tenant. We are not criminals against whom God is a prosecuting attorney, trying to pile up evidence against us. "If thou shouldst mark iniquities, who shall stand?" We are children, lost and wandering children, rebellious and disobedient children, but still children; and God holds open the door of mercy.

Tobacco Important In Marshall Plan

Is Present Prop Of Tobacco Farmer Tobacco, from the time of the Virginia colony, has mingled along as an intimate part of the American story to the present day.

To support an undermanned foundation, jack up the soil and dig out under the foundation. Fill the excavated area against the wood form with concrete.

Massachusetts, and the great burley area of Tennessee, Kentucky and the north bank of the Ohio.

The cigarette is the prime favorite. The modern cigarette, as we know it, was created almost on the eve of World War I.

The cigarette has even wooed many of the ladies away from their pipes or snuff sticks.

Tobacco is of considerable importance in the Marshall plan and the Marshall plan is the present prop of the tobacco farmer.

Considerable Care Urged in Tree Moving

Considerable care should be exercised when young fruit trees are moved from the nursery to an orchard or yard where soil fertility and other conditions may be less favorable.

Dr. A. Lee Schrader of the horticulture department, University of Maryland, points out that when trees are dug for shipment, part of the root system inevitably is lost.

County Planning To Honor Early Quinine Sponsor

ARROW ROCK, MO.—Belated honor to the memory of an obscure country physician whose courage and learning made possible the opening of much of the nation's frontier is being sought by the D.A.R. of Arrow Rock, Mo.

The doctor is John Sappington, who introduced quinine over the bitter opposition of fellow physicians, to defeat the malaria which in areas like Pike county, Ill., wiped out as much as 80 per cent of the pioneer immigrants in one year.

The D.A.R., through its committee chairman, Miss Mary Turley and Mrs. E. M. Lanham, is seeking the aid of Missouri physicians and others to erect a state memorial shrine to the doctor.

Learned of Quinine Distressed by the malaria, which 125 years ago threatened to halt settlements of all the Mississippi valley, Dr. Sappington searched the world's medical literature for latest developments in treating the disease.

Accordingly, Sappington's son was sent east for 100 ounces and through effort, came back with 100 pounds. As other physicians ridiculed the treatment, and the doctor could not use such quantities in his practice, he took the bold step of opening a factory to make anti-fever pills.

When the business was at its height, Dr. Sappington published a book on fevers in which he revealed that quinine was the active ingredient in his magic pills.

At his death, Dr. Sappington left a fund of \$20,000 to aid needy students of Saline county, Missouri, to obtain an education. To date, F. C. Barnhill, Marshall, Mo., reports that, with the accrued interest, \$217,614.80 has been expended, 12,584 students aided and \$85,551.47 still remains.

Yet, despite great services of the country doctor, he lies virtually unremembered in a tomb amid the leaning tombstones of the Arrow Rock cemetery. Now, in long overdue recognition of the doctor's achievements, the D.A.R. has set out to provide a suitable memorial.

Reformed Head Hunter Gets Impressive Sight of N. Y.

NEW YORK.—A barefoot South Sea islander with a blue wool skirt, a GI haircut, and wearing a big smile arrived in New York for his first look at the "big fella place."

By that, Robert Salau, 42, son of a reformed Solomon Islands headhunter, meant the biggest city in the world was the biggest surprise of his life.

He was amazed that the Empire State building looked just like the tattered picture he had carried halfway around the world.

Salau, a Seventh-Day Adventist missionary, arrived on the Mauretania after a visit to England, France, and Switzerland.

Emphasizing his friendly remarks by brandishing an eight-foot war spear, he said his voyage on the big ship was "more better than a war canoe."

About 40 years ago Salau's tribe was persuaded by missionaries to stop chopping off the heads of enemies and also saving the skulls of deceased members of families. During the war Salau and thousands of other converts gave vital information to U.S. marines. He received a citation.

Australia to Divert River On One Side of Mountain

SYDNEY.—Australia is about to undertake the greatest engineering feat in her history, diverting a river on one side of the Australian Alps so that it flows into rivers on the other side.

Headwaters of the Snowy river will be made to flow west and north across the mountains into the upper Murry and Tumut rivers, instead of flowing eastward and southward as the river now does.

Its new artificial course will be cut through the mountains, then directed through natural valleys. It is all part of a huge hydroelectric project to cost Australia \$60 million dollars over a period of years.

Flatter Summer Meals With Properly Cooked, Attractive Vegetables

WHEN the thermometer speeds into the nineties, every homemaker worries about meals and family appetites. Even though appetites appear robust on picnics, they are apt to reemerge on the slim side for a meal in the family dining room.

Is there a certain remedy for the waning appetite amidst the witting heat of hot summer days? Yes, certainly, there are several sure-fire ways of coaxing the family into eating what they should.

Vegetables add color, and consequent interest, too, to the family dinner table with their glorious greens, reds and orange yellows. Who could ask for a better artist's palette with which to decorate the mealtime scene?

Serve vegetables fresh, whenever possible since this saves food value. When they are cooked, however, use only a small amount of water, season carefully, but not heavily, and cook until tender. Vegetables are best if they have some of their natural crisp texture, even though cooked.

Seasonings should be mild so that you don't mask the delicious natural flavors and thus jade the appetite further. You may add some of the nice sauces for variety, however, and thus create interest that might not otherwise be present.

YOU CAN'T BEAT a salad bowl of summer vegetables, especially when there's a tasty dressing to go along with it.

Here's a suggestion with a delightful dressing seasoned with blue cheese and anchovies:

*Summer Salad Bowl (Serves 6-8) 2 cups fresh spinach leaves 1 small head lettuce 2 cups shredded green cabbage 1 bunch watercress 1 fresh dill 1 cup diced celery and tops 1/2 cup green pepper rings 1 cup crumbled blue cheese 1/2 cup French dressing 1 2-ounce can anchovy fillets

Rub salad bowl with cut clove of garlic. Break spinach and lettuce into bite-sized pieces in the salad bowl. Add cabbage and watercress; sprinkle with the herbs, fresh dill and tarragon. Add celery and green pepper. Sprinkle with cheese. Chill. Just before serving add French dressing and anchovy fillets. Toss lightly.

Chinese Salad (Serves 4-6) 2 cups canned bean sprouts, drained 1/2 cup diced celery 1 medium cucumber, sliced thin 1 green pepper, minced 2 tomatoes, cut in small cubes French dressing Minced chives Combine all vegetables and toss

Treat fresh vegetables kindly and you'll be well rewarded for their acceptance at meals. New potatoes, quick cooked in their skins, are tender and delicious when teamed with cheese-crusted tomatoes and plump, grated asparagus spears with a mippy sauce.

LYNN SAYS: Keep Them Cool When Thermometer Soars Refreshing fruit platters come in for a big bid during summer.

Place cherries and grapes in the center of your largest, coolest platter. Surround with a mound of each of the following: peach halves with a cluster of blueberries in the center; cantaloupe edges, pineapple chunks mixed with halved strawberries, honeydew melon wedges and watermelon triangles.

Vegetables, cooked or fresh, chilled and seasoned, arranged attractively on a salad platter add appetite appeal to the main course. Arrange mounds of the small vegetables like corn kernels, green lima beans or peas with strips of carrots, asparagus or celery on lettuce and pass with a tangy dressing.

LYNN CHAMBERS' MENU Leftover Roast Beef with Barbecue Sauce Baked Potatoes *Summer Salad Bowl Toasted Rolls Butter Beverage Blueberry Pie *Recipe Given

with French dressing, to which may have been added one teaspoon of soy sauce, if desired. Reheat the salad ingredients for one hour. Drain off extra dressing and serve with mayonnaise. Sprinkle top with minced chives before serving.

HERE'S an excellent way to prepare and serve asparagus:

Asparagus with Sour Cream Sauce (Serves 6) 2 pounds asparagus spears 1/2 cup thick sour cream 1/2 cup drained horseradish 1/2 teaspoon salt 1/2 teaspoon paprika

Cook asparagus in a small amount of boiling, salted water until tender, about 25 minutes; drain. Meanwhile, make sauce by beating the sour cream slightly, add remaining ingredients and blend thoroughly. Serve with cooked asparagus spears.

Broiled Tomatoes (Serves 6) 3 medium tomatoes, cut in halves 1 teaspoon salt 1/2 teaspoon pepper 1/2 cup buttered bread crumbs 1/2 cup grated American cheese

Season each tomato half with salt and pepper. Blend crumbs and cheese and sprinkle on each tomato half. Arrange in a baking pan and bake in a moderate (375°) oven for 15 minutes, or broil 8-10 minutes under low heat.

A GOOD main dish to serve at home or to tote to a picnic uses corn and tomatoes, seasoned beautifully with bacon, green pepper and a cheese topping.

Corn-Tomato Casserole (Serves 6) 4 strips bacon, sliced 1/2 cup chopped onion 1/2 cup minced green pepper 2 1/2 cups chopped tomatoes 2 tablespoons brown sugar 1 teaspoon salt 1/2 teaspoon pepper 2 1/2 cups corn, cut from cob, or canned corn 1/2 cups dry bread crumbs 1/2 cup grated cheese

Fry bacon in a skillet until crisp. Place in a 1 1/2 quart casserole. Add onion and green pepper to bacon fat and cook until tender. Add tomatoes, sugar and seasonings. Simmer for 15 minutes. Stir in corn. Cook for eight minutes, if using uncooked corn. Place all mixture from skillet into the casserole. Top with bread crumbs, then with cheese, and bake, uncovered, in a moderate (350°) oven for 30 minutes.

Don't discard cold, fried trout. Serve it on a bed of watercress or lettuce and pass with sour cream in which are floating thin slices of cucumber. Serve with a lemon wedge.

Lamb chops take well to barbecue sauce and broil quickly to keep your kitchen cool. Serve with a fruit garnish of pineapple, banana half and grapefruit segments. Chilled soups are ideal for starting off the meal with proper spirit. You might try jellied consommé or icy cold cream vichyssoise.

Encourage Business

Given encouragement, business is ready to go ahead in a long time expansion to produce goods to meet the Nation's need and to furnish employment for our working population. After two decades of depression and war, the country is ready for great era of development. Population growth alone requires an increased rate of capital investment and new enterprise, but we cannot bring about the development merely by wishing for it. We must go to work and see that an atmosphere is created in which it can flourish.—Earl Shreve, President, United States Chamber of Commerce.

FROM AMHERST TO AIRLANES was the direct course of Dan Seymour, capable young actor of Ceremonies of CBS' Tuesday "We The People." In one grand swoop, in 1935, Danny got himself a wife (Lucille), a college degree and his first radio announcer's job in Boston (at \$22.50 per week). The "power behind the throne," his wife, convinced him to try his luck in New York.

"DOODLES" WEAVER, whose "Professor Featherbaum" routine is a weekly feature of the Spike Jones Show on CBS each Saturday night, spends his spare time inventing new and unusual instruments for Spike's City Slickers to fool around with. His latest is a "Trombonaparte" which hasn't been used yet because no one in the band is named Napoleon. "Doodles" also invented a "Snacksophone" for musicians who get hungry while they're playing. Still in the development stage, the "Snacksophone" will have roasting ears as an important element because, "Doodles" explains, "Corn is our stock and trade, we gotta stay in character."

STUNTLING BLOCKS do not deny fame—from the experience of Lucille Ball, star of CBS' Friday "My Favorite Husband"—for Lucille has had plenty of them. She was told that a dramatic course, for her, was a waste of time and never got beyond rehearsals on any number of Broadway plays. Then came a tragic accident and 3 years of learning to walk again. Strangely enough, Lucille Ball, her first big break came in the role of a showgirl who was paralyzed from the hips down and she played the part so convincingly that every film studio was at her door. As "Liz Cooper" in the hilarious comedy "My Favorite Husband," Lucille again plays a part she knows so well—that of a happily married gal. In real life, she is very happily married to Desi Arnaz.

KILLING PACE — John Garfield is one of those rare personalities—a real New Yorker. Born on the city's lower East Side, he is making Broadway history in both his personal appearances in "The Big Knife," the Clifford Odets play, and the recent premiere of his Columbia picture "We Were Strangers." Co-starred with Jennifer Jones and Pedro Armendariz in the hit film directed by John Huston, John Garfield, who recently copped the New York Critic's Award, Garfield plays an American, born in Cuba. He is called one of the hardest workers in a hard-working profession. Those who view his activities in both current stage and screen attractions agree the pace is killing—he dies at the end of both!

Southern Pacific announced today that orders have been placed for 67 diesel locomotives of various types, at a cost of more than \$23,000,000, in furtherance of its extensive improvement program.

In making the announcement A. T. Mercer, president of the railroad, said the new orders will raise to approximately \$241,000,000 the company's post war expenditure for new rolling stock, nearly \$90,000,000 being for 268 diesel locomotives.

Deliveries of the newly ordered diesel locomotives are scheduled to start in October of this year and when the current order is completed in June, 1950, Southern Pacific will have a total of 402 diesel locomotives of types in operation on its lines. Mercer said

Of 196 diesel locomotives previously ordered since V-J day, the railroad had received 163 by mid-June, of which number 54 are of 6000 horsepower. The company's present fleet of 238 diesel switchers is one of the largest of its kind in the country, the railroad president pointed out.

Included among the 67 diesels just ordered will be 28 of 6000 horsepower each, for main line service; 17 road switch locomotives each 1500 horsepower; and 22 switchers, each 1000 horsepower. The company also is acquiring an additional passenger diesel unit.

Zoning for Liquor License

In view of need for additional funds for county purposes, commissioners might for the next fiscal year consider the advisability of zoning rural areas as is done in Bernalillo County. In that county, in Zone I (up to 6 miles outside of city limits of Albuquerque), \$1200 is charged for Dispensers' Licenses, \$300 for Retail Licenses, and \$300 for Club Licenses. In Zone II (five to twelve miles out) Dispensers' Licenses are \$700 and Retail Licenses \$400. In Zone III (twelve or more miles out) Dispensers' Licenses cost \$800 and Retail Licenses \$250.

As one stands beside the mound of a loved one who has passed on, there is comfort in the age old thought—here might an appropriate memorial be erected to perpetuate the qualities one has known and grown to love. To Meet in Hot Springs

Albuquerque, July 18.—Special to News: State Cattlemen will hold their next quarterly meeting in Hot Springs on September 9 and 10 according to G.W. Evans, Magdalena, president of the N.M. Cattle Growers association.

Although it has been the custom of our organization to meet in Albuquerque during the State Fair in September, an unusual and hearty invitation from Senator Burton Roach Manager of Hot Springs Chamber of Commerce lead our directors to vote for the Sierra county capitol. Childhood Memories Drive Batter Berserk

... YOU WISH TO BE SWITCHED TO THE MINORS

By H. I. PHILLIPS

A PSYCHIATRIC EXAM

(Wherein Elmer Twitchell, having shot a first baseman, is questioned for reasons.)

Doctor.—Now, then, I want you to relax and let your thoughts run freely.

Elmer.—Are you a good psychiatrist?

Doctor.—Yes, I never played first base in my life.

Elmer.—What position did you play?

Doctor.—I was a southpaw pitcher in my college days.

Elmer.—That does it! I must have my gun back... Please, my gun!... It rests my nerves so!

Doctor.—Quiet! I'm trying to help you out of a very serious jam.

You shot a ballplayer and can go to prison.

Elmer.—Do they put people in prison for shooting ballplayers?

Doctor.—If they didn't some clubs would be bumped off in a single afternoon. Now, listen, there must be a psychopathic reason for what you did.

Elmer.—That could have done it.

Doctor.—Did your father ever read the baseball summaries aloud? Did you ever live in Brooklyn back in the days of those eccentric infielders?

Elmer.—I had an uncle who used to recite that Costello thing entitled "Who's on First?"

Doctor.—Good. I'll make a note of that. In your infancy were you ever chased with a ball bat for not doing your homework?

Elmer.—I seem to remember something like that. And I recall that as a little child I was taught to walk too early. I developed an aversion to walks.

Doctor.—That would explain it if you shot a pitcher. In school did you ever have a teacher who wore a mask and chest protector?

Elmer.—No, but I had a kindergarten principal who carried a sawed-off bat and insisted he had been ordered to hunt.

Doctor.—In your immature years did you ever play softball?

Elmer.—Yes. I was such a poor hitter I never got to first except when hit by the pitcher. And I never got to second because there wasn't a .300 hitter on the team.

Doctor.—Now it's all clear. If you ever were to get to second base you know you would have to shoot the first baseman... The idea took possession of you!... It became an urge!... You couldn't resist it!... We can explain everything to the court. You are as good as free.

Elmer.—Goody! Goody! Can I have my gun back?

Doctor.—Probably, but we may have to switch you to some other league!

President Truman says there is no depression. If you are out of work it is all a red herring.

Milton Berle and his former wife, Joyce Mathews, separated in 1947, were remarried the other day... The ceremony was disappointing to us as no Texaco quartette showed up to sing the wedding march... It was one time on a Berle program where the other performer got equal billing... Everything went off smoothly, Surrogate Bill Collins, who presided, refraining from opening the ritual with "Tell ya what I'm gonna do."

Baccalaureate: Gentlemen of the classes of 1949: I am going to scrap the platitudes, ignore the old rhetorical patterns and skip anything resembling baloney balonus.

It will be a novelty, I am sure, to hear a baccalaureate a little different from the one delivered last year. I give you these three all-important words of three and four letters which rate paramount importance in the struggle ahead: "Use your head!"

MIRACLES Grace Noll Crowell. THEY sought the Master's healing touch, They followed Him down lane and field, And every ailing, seeking one Who came to Him was healed. O Master, still today we come: The great throngs down the earthly roads, We bear our sorrow and our pain, We stoop beneath our heavy loads. We pray, and often grief is stilled, And pain becomes a strange, past thing; Our loads are lifted, many times Even from our remembering. And these are miracles as great As those far ones on sea and land, All healing, all release, dear Lord, Comes from Thy hand, Thy unseen hand.

The Fiction *** BEST ALIBI *** By Richard H. Wilkinson

MAX SANDERS' home had been robbed of jewels valued at \$50,000. The jewels were kept in a wall safe behind a picture in Max's study, which was located on the second floor of his Beverly Hills home.

Inspector Ray Beatty was assigned to the case. Leo MacDougal, a police officer, who had been summoned from his beat, showed Inspector Beatty the evidence that had thus far been discovered.

First there was a ladder placed against a window that opened into a second floor hall. This window had been discovered open.

Inspector Beatty told MacDougal to summon all the servants. Then he questioned them. They all had good excuses. Sid Furbush, a secretary, had spent the night at the movies with a friend. Edwards, the butler, had read in his room until Mr. and Mrs. Sanders returned from a party, when he admitted them.

It was right after that, that Mrs. Sanders went to the safe to replace the jewels she had worn, and found the others gone.

Martha Greene, the housekeeper, had been in her room all evening. Her room was located on the second floor. She had gone down to the kitchen about 10 o'clock for a bite to eat and found Viola Matson, the maid, there with her boy friend. Returning, Martha had passed Edward's room and seen Edwards sitting by his table, reading.

INSPECTOR BEATTY dismissed the servants and went back to the study. He examined every inch of it. Then he went into the hall and examined that. He also examined the window and the ladder and the ground below the window. It had rained a little the night before and he found some footprints beside the ladder. They looked like men's footprints.

Inspector Beatty sought out Sid Furbush. He asked the secretary if Max Sanders held business conferences in his study. Furbush said that he did.

"The chances are, then, that he's had occasion to open the safe when others were present?"

"It's quite likely."

"I want as complete a list as you can make me of all the people you've known to be in the study during the past month."

Carrying the shoes he returned to the study and asked Furbush if they were his shoes.

"Why, yes," said Furbush. "Why? Where did you get them?"

"Out of your closet. I searched the closets of all the servants till I found a pair of shoes with some mud on the soles. It was you who committed the robbery."

"You're crazy. That's a cock-eyed theory. The robber came up the ladder."

"No," said Inspector Beatty, "that's only what you expected us to believe. That's why you put the ladder there and left the window open. The robbery was committed before you placed the ladder there."

"How do you know that? You can't prove it."

"I won't have to. What I can prove is that no one came up the ladder. It rained last night. There was mud. There's mud on your shoes. The shoes fit the footprints at the foot of the ladder. Yet there is no mud at all on the rungs of the ladder. If there had been I would have probably been fooled and not been sure that some one inside committed the theft. Besides you had the heat alibi. I checked with the man with whom you said you attended the movie. He broke down and confessed everything."

MacDougal was amazed. Afterwards he said to Beatty: "I didn't know you checked with Furbush's friend. When did that happen?"

"It didn't," said Beatty.
