School Opening

The Public Schools of Carrizozo will open on August 22nd, at 9:00 A. M. All pupils should be present at that time with their report and book cards. New pupils in high school should request a complete transcript of their credits from the school they last attended, so enrollment may be made without any delay.

Primary pupils that have not entered school should have a birth certificate to present the first day, so that a complete record may be made from the very beginning. Any pupils that will be six years old on or before January 1st 1950 should be enrolled at the beginning of school. They do not have to wait until their sixth birthday to start to school as long as they will be six years old on January 1st. Children born after January 1st 1944 will have to wait until next school term to enter, or August, 1950.

FIRST BAPTIST CHURCH

First Baptist church will be busy until the opening of school with Vacation Bible school and revival services.

Army Worms Sweep County

A plague of Army cut worms are rampant in the county; not quite so serious maybe as the swarms of Egypt, but they are causing as much excitement and discomfort.

Mrs. Guskie Johnson is the possessor of a powder to be used. She has 100 pounds on tap and more to come. She has it in 5, 10 and 15 pound bags. She will sell to all comers while the powder lasts. If in need of it she has it at the City Hall.

Later: We accepted an invitation to drive out to view the above mentioned army worms. The Highway is literally covered with millions of the creeping things. They are about 1 inch in length and sometimes get into a ball and amble along at quite a pace. The highway has a green appearance. They can scarcely be discerned from the plants upon which they feed.

A DAY IN OLD LINCOLN

The Lincoln County Historical Society is sponsoring a celebration at Lincoln, New Mexico, former county seat of old Lincoln County and the heart of Billy the Kid country. The program will begin at 10:00 A. M. Sunday, August 14, 1949, and there will be guided tours of the town of Lincoln, Mesalero Indian Dance, Cowboy Music, and Square Dance Exhibits. At 4:00 P. M. Gov. Mabry will lead the Parade, following will come introduction of distinguished guests, a Spanish Fiesta directed by Mr. Fermin Montes of the Hondo School, and Special Music. During the day the Lincoln Schools will sell lunchee and soft drinks and at 6:00 P. M. a barbecue will be served at \$1.00 per plate. The highlight of the day comes at 8:00 P. M. with the presentation of an Historical Pageant, "The Last Escape of Billy the Kid," directed by Mrs. Douglas, instructor of speech, Hondo High School.

Peter Hard, nationally known painter, will play the part of Billy. Many of the participants in the pageant are descendants of the men who featured in this episode of the history of old Lincoln County. Some of the other members of the cast are: Mrs. McSwen, Louise Fritz Ferguson of Capitan; Mr. McSwen, Buck Noaker Glencoe; Governor Lew Wallace, Kenneth Noaker, Glencoe; Pat Garrett, Ralph Bonnell Glencoe; Sheriff Brady, Tom Barber, San Patricio; Old Man Gaus, the jailor Dan Storm Glencoe; and Murphy, Billy Bad bers, San Patricio.

There will be seats for about three thousand persons with admission 50c, children free. Reserved seats will be 50c more for both children and adults, approximately 1000 seats will be reserved.

Lincoln, New Mexico is located on highway 380 between Carrizozo and Roswell and near Ruidoso one of the Southwest's finest resorts.

CURRENT TURNED ON CORONA CO-OP LINES

The Central New Mexico Electric Cooperative, Inc., announced from their Corona, New Mexico office that at 2:00 P. M. July 8, 1949, they expected to turn electric current on their lines being completed in Lincoln and Torrance Counties and begin serving many of their 422 members in these counties to whom they have built lines recently.

The engines and generators in the Corona Power Plant are now being made ready to furnish power to these lines. Many farms and ranches will have electric service for the first time from this plant and these lines which were financed by a loan from the Rural Electrification Administration to The Central New Mexico Electric Cooperative, Inc.

The Central New Mexico Electric Cooperative, Inc. is an incorporated, locally owned, private, non profit enterprise organized by the people of Lincoln, Torrance, Bernalillo, Santa Fe, San Miguel, and Guadalupe counties to obtain electric service for themselves.

On July 26, 1949 The Central New Mexico Electric Cooperative, Inc., began operating in Vaughn and Encino after acquiring the plant and lines of the Vaughn Light and Power Company and began extending their lines to serve its rural members in this area.

Plant Ills Expert Has Important Job Task Complicated, Needs Much Study

Diagnosing plant illis is a complicated task and one which requires careful study. Specialists of the Clemson extension entomology and plant disease department suggest that, in arriving at decisions, consideration should always be given to possibility of winter-injury and cold damage.

"Telling farmers and other plant growers what ails their plants is an important function of the agricultural workers," the specialists say. "It is the first step in prescribing the best possible remedy."

Seed treatment is not a cure-all, they point out, even though at times it is entirely effective in pre-

venting the occurrence of diseases. "More frequently," the specialists added, "it is only one step in a disease control plan. Disease germs are harbored at times deep in the seed and away from the reaches of seed treatment."

They explained that diseases may be carried over on old crop refuse in the seed bed, on soil, or weeds. Other practices may be needed to obtain greatest disease control. For example, seed treatment alone does not completely control watermelon anthracnose, but in demonstrations last year seed treatment delayed the disease until late in the season when a minimum of dust applications proved practical.

Two 'Rules of Thumb' Available to Dairymen

Dairymen interested in measuring the efficiency of their farm production now have two "rules of thumb" to use as guides. The more efficient dairymen are those who ship 50 gallons of milk daily for each full-time man employed in their dairy business, according to Joe-Pou extension dairyman at the University of Maryland. As another guide, he states that one gallon of milk should be produced daily for each acre of cropland and pasture used in feeding the dairy herd.

Range Shelters Pay Off For Raisers of Poultry

Successful poultrymen are increasing their use of range shelters. Range shelters are easier to build and cost less than a brooder house. They can be readily moved. Growing birds get more fresh air and access to clean body-building pasture. Missouri university tests showed that birds pastured on well-fertilized alfalfa were healthier and needed less feed for each pound of gain.

Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Waste

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.

Symptoms may be nagging headache, persistent headache, attacks of dizziness, getting up nights, swelling, painless under the eyes—a feeling of nervous anxiety and loss of pep and strength.

Other signs of kidney or bladder ailment are sometimes burning, scanty or too frequent urination.

Singing Holidays

Lesson for August 14, 1949

IF A CITIZEN of the U.S.A. observed all the holidays that are officially counted as legal, somewhere in his wide country, he would have 43 days off every year. Holidays are a national habit in all countries.

Dr. Foreman

God and Country

IT looks as if some kinds of holidays produce songs and others don't. It appears to be a general rule: If the holiday is specially patriotic or religious, then people sing; otherwise they don't.

When our Lord had his "Last Supper" he and his friends would sing these very Psalms. The hymn "I will sing before they went out" was very probably the latter part of this group, 116-118, always sung at the end of the Passover meal.

Hallelujah

OUR word "Hallelujah" is Hebrew, and comes from the Psalms. It means "Praise ye the Lord!" incidentally, it is a religious word, and should not be used, as it so often is, irreverently or lightly.

When our Lord had his "Last Supper" he and his friends would sing these very Psalms. The hymn "I will sing before they went out" was very probably the latter part of this group, 116-118, always sung at the end of the Passover meal.

Parodies

A SAD FACT today is that the un-Christian world, which does not understand religion at all, has taken over our religious holidays but leaves the religion out. The result is a parody, something without rhyme or reason.

For people who are not Christians, Christmas is only Xmas, a time for exchanging useless presents, a time for shopkeepers to make money.

And as for Easter, there are cities where the big tents are only the bunnies and the parade, neither of which has the slightest thing to do with the real Easter.

Only The Blind Get to 'See' Science Items

LONDON.—If you can see, you can't get into the London science museum's popular science exhibition. It's for the blind alone. They "see" with their hands.

Officials conceived the idea when a blind boy—surrounded by magnificent exhibits in glass cases—asked what was the good of a museum to him. He couldn't see the exhibits, he said, and he could not touch them.

Officials gave some valuable exhibits to the boy to handle—and took the lesson to heart. Next day they hauled out scores of choice items and arranged them on tables in a special room. The national museum for the blind hastened to provide descriptive labels in Braille. Now the exhibition is thronged every day.

Housed Wright Plane

The science museum is the one that housed the plane the Wright brothers flew at Kitty Hawk, N. C., in 1903. It was displayed as a prize exhibit from 1928 until last year, when it was sent back to the Smithsonian Institution in Washington.

The exhibition for the blind has everything from a three-foot replica of an ancient Egyptian chariot wheel to the real thing in Spitfire, aircraft engines. There are models of aircraft, locomotives and ships, an old spinning wheel, hand looms, mine rescue apparatus, tuning forks, a 14th century axe. All are strange and wonderful to the sightless.

The Spitfire engine sits ponderously on the floor near the door. The blind go over it lovingly, fingering every bolt. One man, fascinated, put in two hours "looking" at it.

That's what they say—"looking," not "touching."

"Quick, look at this!" blind schoolboys call excitedly to blind companions.

No Fear of Damage

The museum isn't afraid the exhibits will be damaged. The blind have a feather touch.

"Seeing" the exhibition is a two-handed job. Visitors use their left hand to read the braille description while their right races over the exhibit.

"You wouldn't think a kid could fall in love with a sun-recorder, would you?" an attendant asked, pointing to a blind boy running his hands over the smooth, round glass instrument. The boy snuggled his cheek against it; he still was "looking" much later.

The museum doesn't know how many of Britain's 70,000 blind will visit it. But the exhibition is packed every day. Parties of blind schoolchildren have traveled as far as 80 miles. That's a long way in England.

For blind youngsters, a visit is "better than listening to the circus." That's what one told his mother.

Ignatius, The Ghost, Irides by Publicity

LONDON.—Ignatius, the friendly ghost, is annoyed at all the publicity he's been getting. Mrs. Irene Bradshaw, 39-year-old wife of the vicar of Elm, reports.

Ignatius warns of impending deaths in the parish by tolling his phantom bell. Mrs. Bradshaw contends.

Twenty-seven times the death knell has sounded—27 times a villager has died. But Mrs. Bradshaw is the only one who can hear the bell.

Since Mrs. Bradshaw told reporters of her little chum, hundreds of curious men and women have invaded the quiet vicarage in Cambridgeshire.

"I don't want any boy friends, and Ignatius needs no girl friends," Mrs. Bradshaw wrote London newspapers. I am a very busy woman, with a beautiful house and no maid, who has not time to answer the door to visitors who ask, "Have you an evil eye?"

"Strange men send their telephone numbers; stranger men ask me if they can spend the night here," she added furiously.

"Psychic-research people wish to hear me. People send letters to Ignatius asking if he will cure them of falling hair or other trouble. Many people have invaded the churchyard and vicarage gardens. Hooligans have broken down a tomb, and Ignatius is annoyed. Instead of keeping to his corridor, he came to my bedside and, after throwing down some photographs, told me how foolish I was to let him get into the news."

Mrs. Bradshaw said she first met Ignatius about two years ago when she bumped into him in a dark corridor in the church. They struck up an acquaintance which has lasted ever since.

Ignatius, she said, used to be a tomb in the church several centuries back. He was assigned the bell-ringing job, but once forgot to ring it to warn of approaching floodwaters. He keeps trying to make up for his mistake by warning of approaching deaths now.

HOUSEHOLD MEMOS by Lynn Chambers

Serve Frosty Cool Food During Sweltering Heat To Tempt All Appetites

WHEN the sweltering days hit us, there's nothing more pleasing than to have plenty of frosty cool foods to tempt heat-ridden appetites.

Mothers, too, can keep a lot cooler and comfortable while they prepare chilled rather than hot foods, and the former can be just as nourishing. However, if a hot food is desired, it might easily be a cup

of hot soup or a toasted sandwich to serve with the salad, for neither of these takes long enough cooking to heat the kitchen or the cook!

Salads as main dishes should be nourishing, so plan to build them with meat, fish, fowl or cheese, one of the good protein foods which are needed daily. Fill them brimming with vitamins and minerals to keep their energy-giving qualities high.

PREPARE salad ingredients in the cool hours of morning so they will chill thoroughly and need just mixing at lunch or dinner time. This cuts down preparation time—when energies are low and the heat is at its highest.

Tomato Crabmeat Salad (Serves 6)

- 6 large ripe tomatoes
1 can crabmeat
1/2 cup lemon juice
1 tablespoon chili sauce
2 cups finely chopped celery
1 tablespoon grated onion
1/2 cup diced green pepper
1/2 cup chopped pecans
1 teaspoon salt
1/2 cup mayonnaise
4 hard-cooked eggs, sliced
Scald tomatoes one minute in boiling water or turn over heat on a long fork to loosen the skins. Peel and scoop out center. Sprinkle the tomato cavity with salt and turn upside down to chill. Mix all remaining ingredients, except eggs. Fill tomato cups and serve on a bed of greens, garnished with egg slices.

Frozen Chicken Salad (Serves 4)

- 1 teaspoon gelatin
2 tablespoons cold water
1/2 cup mayonnaise
1/2 cup heavy cream, whipped
1 1/2 cups minced cooked or canned chicken
1/2 cup blanched chopped almonds, toasted
1/2 cup malaga grapes, halved and seeded
1/2 teaspoon salt
Dissolve gelatin in cold water for five minutes. Discard over boiling water. Cool, then combine with mayonnaise. Add remaining ingredients, folding in the whipped cream last. Freeze in tray of automatic refrigerator until firm. Slice and serve on lettuce or watercress.

*Hearty Salad Bowl (Serves 6)

- 1 cup cooked ham, cut in thin strips
1 cup Swiss cheese, cut in thin strips
1 cup raw carrot strips

A luscious red ripe tomato makes the base for this salad and may be filled with cold slaw or shredded carrot salad for a nourishing luncheon when combined with crusted rolls and a beverage. If you need a more filling meal, start off with a chilled or hot soup.

LYNN SAYS:

Mrs. Bradshaw said she first met Ignatius about two years ago when she bumped into him in a dark corridor in the church. They struck up an acquaintance which has lasted ever since.

Ignatius, she said, used to be a tomb in the church several centuries back. He was assigned the bell-ringing job, but once forgot to ring it to warn of approaching floodwaters. He keeps trying to make up for his mistake by warning of approaching deaths now.

Save plumber's bill. Try pouring kerosene down the drain before sending for the plumber to remedy the stoppage.

Moths won't like this. Go over your rugs every so often with a broom dipped in hot water to which a little turpentine has been added. This will freshen a tired carpet and discourage moths.

When making peppermints drop them onto a piece of waxed paper instead of onto a pan. They are more easily removed from waxed paper.

According to modern usage any kind of soup may be served in a cream soup cup in spite of its name.

When whitening shoes you can keep polish off soles, if you wish, by putting cellulose (Scotch) tape around soles while applying polish.

When waxing floors, wax feet of furniture. When it's moved, there's less danger of scratching floor.

You don't have to heat up the oven to bake meringue on a pie. Heat a heavy skillet and turn it upside down over the pie.

Buy a suction cup clothes hook (the kind intended to fit on glass inside an auto) and stick it on side of electric refrigerator or stove (away from oven) or on any other surface which won't mar. It's a handy place to hang pot holders.

I use my rubber plate scraper for greasing cookie tins and baking dishes. It's quicker and easier than using fingers and no stopping to wash hands afterward.

To darn a small hole in a filmy curtain, cover hole with piece of white paper and "darn" it, stitching back and forth and crosswise many times with sewing machine. Laundry curtain and paper will come off, leaving neat darn.

"More fishermen should go into the Charette Lakes and take some of those ring perch and big trout out of there," says State Game Warden, Elliott Barker today.

Joe Hendricks, Game Department Fisheries Biologist, has recently completed a survey of the two natural basin lakes situated some 20 miles Northwest of Wagon Mound, New Mexico, and found that the lakes abound in perch and trout. According to Hendricks, rainbow and brown trout from nine inches up to four and five pounds are plentiful in the lower lake. The Charette Lakes were purchased by the Game Department

From where I sit... by Joe Marsh

We Cut Down The Hedges - And Accidents!

Hedges have been shooting up like weeds, lately, along Main Street. They've turned into real traffic hazards. Drivers at the corners couldn't see stop lights or the approaching cars.

After one accident and a couple of near-misses, the Town Council decided to have a hedge-trimming bee - cut them all to size at once.

We held the bee on Saturday. No one had to come, but it seemed like every man in town was out with shears and clippers. Women kept passing out sandwiches and cool glasses of ice-water and beer.

From where I sit (on my front porch)—looking out over neat, trim hedgerows—it just shows what folks can accomplish for their own good when they work together. The Brewers work with tavern-owners in the same way in their Self-Regulation program. They cooperate in keeping their places neat and spruced up—cutting out "dead wood" and making sure they stay "in the clear."

American Banking In Action Another American Idea

More than one hundred million American cars have rolled off the assembly lines. Only in a country like ours—where the mechanic who makes a car also makes enough money to buy one—can cars be made and sold in million lots. Your money in the bank helps to finance automobile production and to make jobs for 9 million workers in this field. When you buy a new car, bank credit will help you finance it. THERE'S MORE ROOM FOR THE MONEY in this Model 43 4-door Sedan.

NEW in looks—NEW in room—NEW in handling—and priced right down your alley!

FEAST your eyes, folks—and reach for your checkbook.

For here, in one stunning, swift-lined bundle, is everything—yes, everything—you've been hoping for.

New style note? Well, just look at that brand-new idea in front-end styling. Grille, bumper, bumper-guards and even parking lights all combined in a single, sturdy assembly that means you can't "lock horns" with other cars!

New over-all size? We've trimmed inches from its over-all length for handiness in traffic—yet here's still the generous wheelbase that spells a level-going ride.

New roominess? Swing open the doors—a thumb-touch does it!—and gaze on the biggest interiors you can buy for the money, with sofa-wide front seats and no less than 12 more inches in rear-seat hiproom.

Slip behind the wheel. Fingereasy Synchro-Mesh transmission if you choose—the satiny smoothness of Dynaflo Drive* as optional equipment if you want the very latest thing.

And if power is your meat—just lift the bonnet and look on a husky Fireball power plant of 110 horsepower

*Optional at extra cost.

with conventional transmission, 120 with Dynaflo Drive.

Surely here's a car big as your fondest ambition—yet price-wise it's right down your alley! Fits modest family budgets as it fits modest-size garages, puts Buick in reach of still more people!

So here's really a "must see" item! On display now, in three trim-'n'-tidy body types, it won't stay long on dealers' floors. Go now—see it and get that order in!

YOUR KEY TO GREATER VALUE

THIS TRIM TWO-DOOR SEDANET will delight the whole family. Children are safe in the full-size, over-wide rear seat.

WEEKLY NEWS ANALYSIS

Truman Signs North Atlantic Pact; Brannan Farm Plan Beaten in House; British Clamor for A-Bomb Secrets

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

ENVOY TO COSTA RICA SWORN IN . . . Joseph Black (left) of Doylstown, Pa., places his left hand upon the Bible as he takes oath of office and is sworn in as new ambassador to Costa Rica from the United States. He succeeds Nathaniel P. Davis. The wife of the new envoy is looking as Stanley Woodward, chief of protocol officer at the state department in Washington, D. C., administers the oath.

BRANNAN PLAN:

Loses Trial

The house approved a measure continuing the farm price-support program in its present form. The bill was slated to go to the senate. The house vote was 303-25. The retention of the 90 per cent of parity supports killed the Aiken law, passed by the Republican-controlled 80th congress and which was scheduled to go into effect Jan. 1.

The administration gained a partial victory in eliminating the Aiken law and saw defeat in being denied a test run of the controversial Brannan agricultural plan. Under the Brannan plan, perishable crops would be allowed to sell at what the market would pay; then the government would pay the farmers the difference between the support level and the average price the farmers got.

The Pace bill, which embodied provisions for a trial run on three farm products of the Brannan plan, lost out, 223-152.

A substitute for the Pace bill, the Gore measure, suspending the Aiken law and continuing the present farm program, won by a final vote 303-25.

One of the surprises of the session was the very few votes cast to keep the Aiken law alive.

Corridors of the house office building where the meeting was held were filled with lobbyists for various farm organizations. Police had the area roped off.

Democratic Leader McCormack (Mass.) argued that opponents of the Pace bill were obligated to offer some kind of alternative.

"I'm concerned about the consumer," he said. "When he reads about millions of bushels of potatoes being burned under the present farm program, he wants to know what's wrong."

WARNING:

Pact Okayed

Russia received a warning that any further aggression in Europe will be considered an attack upon the United States. The warning came in the form of an 82-13 ratification of the Atlantic pact by the senate.

It was the first time in American history that a peacetime pledge had been made that the United States will take action (military action, if necessary) if certain other nations are attacked.

UNDER the north Atlantic treaty this nation and 11 other nations pledge that an attack upon one will be considered an attack upon all. The pact also pledges that the 12 members of the treaty shall prepare for mutual defense before the need for military action actually arises.

A small minority waged bitter opposition to the pact during the 13 days of senate debate upon it. Three Republicans, Wherry of Nebraska, Taft of Ohio and Watkins of Utah, tried to write a reservation into the treaty, specifying that ratification did not impose upon the United States the moral or legal obligation to supply arms to the other 11 signers.

The heavy vote for ratification and the impressive vote against arms reservations were victories for the senate bipartisan foreign policy. Only two Democrats voted against ratification—Johnson of

CRAZY FISH

Searchers after the unique can find the "crewless" fish aquarium in the world at the University of Toledo, Ohio.

As a by-product of research into means of boosting the stock of fish in the nation's lakes and rivers, Floyd J. Brinley, physiologist, has developed the following:

Thirty-three-eyed brown trout. Trout with extra transplanted hearts outside their bodies which continue to pulsate after the fish have died.

Trout babies which, in the interest of determining the effect of oxygen on the heart action of fish, live in oxygen "tents."

ATOM DATA:

England's Needs

Reports say the administration has investigated the possibilities of sharing atom-bomb secrets with Britain by executive agreement without action by congress. Some law-makers have sought to tie the President's hands.

The idea has been discussed but no decision has been reached to carry it through. It is considered a matter of the senate-house atomic committee, the state department, the armed services and the atomic energy commission. A secret meeting at Blair House was thought to have been called by Truman to discuss the matter.

The United Kingdom and Canada co-operated in atomic development during the war and are believed to know all about the wartime bomb. The atomic energy law of 1946 has forbidden further exchange of information.

Some sources say Great Britain can produce an atom bomb of its own if it decides to concentrate on the problem.

Britain may have threatened the United States with loss of uranium ore from British-owned Belgian Congo mines if the U.S. refuses to yield atomic secrets.

Britishers have been resentful that their observers were not allowed at the Eniwetok bomb test. Roosevelt established the precedent of presidential co-operation with Britain in things atomic without congressional authorization.

HOUSING:

Modest Home

A modest home may be built for \$3,000, federal rent director Tighe Woods has proven. He was trying to solve the military's housing difficulties.

The over-all size of the house is 15 by 38 feet. The price includes sewer and water systems.

Chairman Vinson (D., Ga.) of the house armed services committee said he was going to examine Wood's home near Fort Belvoir, Va. The committee has studied a military construction bill authorizing the armed services to spend more than 440 million to house 7,788 military families.

THE BILL would limit homes in the United States to \$15,500 cost each with no limit on those built abroad.

Colorado and Taylor of Idaho, Henry Wallace's running mate in 1948.

President Truman then asked congress for a billion, 450 million dollars to finance an arms-aid program for western Europe after signing the pact.

INCOMES:

Profits Decline

Net corporation income, according to the securities and exchange commission dropped to an estimated two billion, 400 million dollars after taxes, in the first quarter of this year.

THIS INCOME was approximately 16 per cent below the profits for the corresponding quarter of 1948 and 18 per cent below the preceding quarter.

The drop in sales, the report said, more than offset lower costs and expenses.

Experiencing the largest declines in net earnings were the large corporations. These lower profits were said to have been reflected in lower rates of return on stockholder's equities.

The SEC reported: "The ratio of profits after taxes to stockholders' equity for corporations over 100 million dollars in assets dropped from an annual rate of 18 per cent in the fourth quarter of 1948 to 14.4 per cent in the first quarter this year."

SMALLEST-SIZE CLASS corporations with less than \$250,000 in assets showed an increase from a small loss to 8.4 per cent.

All but two of 22 industry groups showed declines in profits after taxes from the fourth quarter of 1948 to the first of 1949.

ARMISTICE:

Israel-Syria Accord

Syria and Israel have signed an armistice agreement that will keep their military forces behind their international frontiers and established demilitarized zones in the contested areas.

THE CEREMONY, taking place between the Israeli and Syrian fighting lines in north Galilee, will lead, it is hoped, to an early settlement of issues between Israel and the Arab states in the Lausanne, Switzerland, talks of the UN Palestine conciliation commission.

Israel has signed armistices with all the Arab countries that took part in the Palestine conflict—Egypt, Lebanon, Iraq, Jordan and Syria.

The agreement is another tribute to the skill of Dr. Ralph Bunche, UN mediator, and Brig. Gen. William E. Riley, US chief of staff.

IT HAS been agreed that unrestricted civil life may be resumed in the demilitarized zones pending final peace negotiations when an international boundary will be clearly defined.

The agreement calls for the withdrawal of defensive forces to a line three and a half miles deep on either side of the armistice line. This keeps the Arab legion and the Israeli troops out of grade-tossing distance of each other.

GUATEMALA:

Rebellion Off

A military revolt in Guatemala against the government of President Juan Jose Arenal died out. Calm spread over the capital after 24 hours of fighting that followed the assassination of Col. Francisco Javier Arana, chief of the armed forces.

FORT GUARDIA DE HONOR, the seat of the revolt, was regained by loyal troops and civilian volunteers. All fighting ceased.

Forty persons were reported killed, according to the police director. No United States citizens were among the casualties.

Observers said the colonel was killed because he refused to lead an uprising against the government, and then his death was used as an excuse to attack the government.

Among those fighting were many who belonged to a political party backing Arana for president. All state ministers were loyal to the president.

THE GOVERNMENT armed large groups of civilians for the battle against the rebels.

Several United States citizens were endangered by the fighting but none were injured.

Queen

Is there anyone to dispute the decision of the judges in selecting Justice Harvill, 15, of Carolina Beach, N. C., as queen of the Lions? The smiling miss was the wife in competition with beauties of other nations. The crowning occurred at the 24th annual convention of Lions International at Madison Square Garden, N. Y.

PROTEST:

Russ Denied

Russia protested against Italian membership in the north Atlantic alliance, but her protest was denied by secretary of state Dean Acheson. Russia claimed Italy's participation was a violation of a treaty she had with Russia and other allies after the war that she would join in no alliance directed against any of the victors. Acheson denounced the Soviets.

Jacqueline is wearing a red (stop) bathing suit; Galen is wearing an amber (caution) suit; and Cornelia is wearing a green (go) suit.

UNWELCOME RESCUE . . . Patrolmen haul an unidentified man aboard a navy launch at 44th Street and North river, New York, after rescuing him from the river. The man, fully clothed, jumped into the river and was swimming away from the dock when policemen arrived. They shed their clothes and dived in after him. He fought them off, but was overpowered. Still struggling, he was taken aboard the launch.

JUNKY . . . Just pet Elaine Lang (left) and Sue Thornwall on opposite sides of a bowl of frozen orange juice and it's only a matter of minutes before he ready to drink. The girls are prepared to demonstrate with the frozen beverages before delegates to the Institute of Food Technologists in meeting in San Francisco.

HERO RETURNS HOME . . . Roger Young, American infantryman hero of World War II, immortalized in gruff ballad that has achieved world fame, is taken home. His flag-draped remains pass through Chicago en route to his Ohio home town where he was placed in his final resting place. Here, Master Sgt. Arthur L. Meach (left) and Sgt. Ed Krombaker of Bell Knott Co., Ft. Sheridan, Ill., place a flag over the casket of Pvt. Roger Young of the Chicago quartermaster depot.

CAUSES "FLUTTER" . . . Walter Urwiler, who can "flutter" his own heart, is awaiting trial in Denver for defrauding government hospitals. He is accused of using his ability for 38 years to gain admittance to hospitals.

RARE CASE . . . The six-month-old daughter of Bernard Kaplan, former football ace, awaits operation at Boston hospital to remove freak encirclement of her windpipe by the great aorta artery. She is in constant danger of suffocation.

"BAD BOY" TO BADMAN . . . Audie Murphy, star of movie "Bad Boy" and World War II's most decorated hero, will portray for the movies the role of Billy the Kid, western cowboy and badman. Billy, known as the "Kid from Texas," was born in N. Y.

VACATION'S END . . . Henry Ford II and his wife arrive in New York aboard the Queen Elizabeth after short vacation trip. Ford faces a demand by CIO United Automobile Workers for a fourth-round pay boost.

WAR CRIMES SURESHOT . . . Otto Abetz, former German ambassador to France, faces war crimes charge of placing large groups of French people in concentration camps during the war. Here, he appears in court.

Reds Covet Singapore, British Stronghold

British power has been challenged again in Singapore. From the walls, pictures of Chiang Kai-shek are being torn down and pictures of Mao Tse-tung, Communist, are being tacked furiously.

British rule was flaunted once before. Last summer the Chinese Communist high command ordered the Chinese Reds in Singapore to

switch from agitation to direct action.

The British acted swiftly in the face of rioting and shooting, seizing Communist leaders and hanging some of them. Communist power was broken in the city.

Singapore is really two cities mixed together—a Chinese city and a British city.

Presently our phone rang. We leaped to it and announced our name with no waste of time.

"Elmer Twitchell," we said. There was no answer. We jiggled the hook and insisted on getting the connection.

"Who called you?" "What difference does it make?" we asked.

"There is no Elbert P. Twitchell here. You have the wrong number."

"No, I haven't. Listen..." "This is not Twitchell," the female voice insisted.

"Of course not," we explained. "How could it be?"

"Hello," the voice said. "And you're not supposed to say 'hello,'" we put in.

"Hello. Who do you want? Hello. You must have the wrong number. Hello."

"Stop slipping in all of those hellos!" we yelled. "Haven't you heard about them?"

Here a male voice put in. "Hello," it said. "Are you trying to get me?"

"No, you're trying to get me," we said. "Who are you? Hello," the voice repeated.

"Elmer Twitchell. You are Dudley Zeek, aren't you?" "Who?"

"Dudley Zeek." "No," came the answer. "This is the Economy Pastrami Factory, Amos Finch speaking."

"Are you trying to get Elmer Twitchell?" "No. My secretary has been trying to get the city hall. What're you doing on the line. Hello. There must be a mixup. Hello. Hello."

It was too much. We hung up and fell, wilted, into a chair. After a while the phone rang.

The wife answered it. "There's a Dudley Zeek on the wire. He says you left word for him to call."

"Just say 'hello' to him... four or five times," we concluded bitterly.

Let us do your
worrying for you!

Anxiety never yet prevented a catastrophe—never
paid a bill for a home that burned, a car that collided, an
accident that happened, a theft that was committed, a
judgment that was levied.

Insurance protection brings serenity, and peace of
mind. For no matter what happens, when you're fully
protected, you know that your savings, your home and
your family's welfare are secure.

So, why worry, when insurance protection against
nearly every hazard is so quickly available—in the
soundest, strongest companies. Call us today!
