### Miss Campbell and Eugene Pollard Married Monday

Miss Gloria Campbell, head of the English Department of Carrizozo High school and Mr. Eugene Pollard of Ruidoso were united in marriage September 26th, at El Paso.

The marriage was to have been kept secret until the bride had informed her relatives in Ruidoso but when she arrived at school Wednesday morning with a far-away look in her eyes no one was deceived; especially her English students who heard rumors of a faculty member being married.

So later Mrs. Pollard admitted the fact to her favorite English class and received their congratulations.

### ANCHO NEWS

By Bessie Jones

Milton Jones made a trip to Alamogordo last Monday. He bought one of the houses from the Holloman Air-base and is moving to his ranch.

The Ladies Auxiliary met at the school house last Thursday with Mrs. Maud Risinger taking over, as muddy roads prevented Mrs. Wilson from coming out and being hostess. Mrs. June Straley had a good program. Graham crackers and orange marmalade and coffee were served to Mesdames: June Straley, Kate Straley, Katie Mae Straley, Dave Elliot, Allie Snodgrass, Rosa Aragon, Bryan Hightower, Vernelle Hightower, Bessie Jones and Hostess. The next meeting will be at Claunch with Mrs. Markham. Our visitor was Mrs. Paul Chevron.

Mr. J. H. Morrow of Clovis was here with a load of the best watermelons we've tasted all summer. I know because I'm his sister and he gave me quite a few to sample.

The P.T.A. Meeting has been changed from first Monday afternoon to the first Wednesday night, 7:00 p.m. A very short program will be presented in October by our teacher, Mr. Russell. After our business session we will serve refreshments. Everyone will be expected to pay his or her dues therefore enlisting them to vote on all issues concerned. Everyone invited and let's all join and keep our school lunches going for our children.

Mrs. Mollie Smith and Oris enjoyed a good chicken supper with Mr. and Mrs. Cap Straley last Friday night. It was in honor of Mrs. Smith's and Joe Ann's birthdays.

My, are we proud of the lights in our houses by the R.E.A. lines. We have had them less than two weeks, so are just now getting accustomed to them.

Mr. Jimmy Mulvihill and his nephew Michael Ferriter of Phoenix, Ariz. were weekend guests of Mrs. Reba Bingham.

Mr. and Mrs. Cap Straley and Mrs. George Straley attended the 4-H meeting to plan the year's program at the home of Noble Snodgrass in Corona last Friday. Cap Straley took Cope to El Paso to have his eyes examined again. The Dr. was well pleased with the progress. Sally Jackson came home with them and visit a few days. L. Y. and his nephew Robert Lundford came after her.

Mr. M. U. Finley has been ill for several days, but is recovering rapidly.

## Wingless Chickens Cause Speculation

### Impact on Industry Studied by Growers

Poultrymen and consumers throughout the United States are still speculating on the degree impact on the poultry industry of the development of wingless chickens.

Peter Baumann, Des Moines, Iowa, a veterinary supply salesman, has raised a flock of 400 such chickens and has proclaimed loudly that they are the "nearest thing" alive to famed cartoonist Al Capp's "shmoos."

Baumann said he had spent 10 years developing the wingless flock, and that he expects the breed to set a new trend in chicken raising. He pointed out that the wingless chicken has a thick layer of white meat where ordinary chickens have wings.

Baumann said he had kept his

chicken breed a secret because he wanted to be sure it was a success. He studied animal husbandry at Iowa State college and asserts his wingless chickens are not a "freak." A freak does not reproduce, he argued.

The ancestors of this new breed of chicken, Baumann said, came from Texas. He was traveling through that state in the 20's when he acquired a light Brahma rooster and a white Minorca hen. Each bird had only stubs for wings.

He bred them, he said, and was astounded when the hen hatched wingless chickens. He then began experimenting and breeding.

Baumann reported that at first he got only three or four wingless birds out of 100 eggs. Now, he said, about 93 of every 100 chicks have no wings at all. Some of the others, he said, have stubs or a stub on one side and a wing on the other.

Deviled Swiss Puffs Make Delightful Sandwich  
(See Recipe Below)

### Luncheon Ideas

**DO YOU FEEL** that your head is brimming full of question marks instead of good ideas when it comes time to think of something for luncheon?

Then tack the ideas given in today's column somewhere where they'll be sure to remind you of something guaranteed to be successful. Some of these recipes are for simple family fare while others are sheer elegant eating, suitable for guests, for a special Sunday night supper.

With a well rounded luncheon dish, you need only a big vegetable or fruit salad, chilled to icy crispness, to make the main course complete. Your dessert might be pie, cake, ice cream, or simply fruit and cookies.

Keep your pantry shelves well supplied with staples, as well as such items as dried beef, deviled ham, "noodels," evaporated milk, rice and condensed soups so that you can whip together these recipes without trips to the store at the last minute. In this way you'll be well prepared to meet family meal problems as well as those which arise when guests drop in.

**THIS deviled swiss puff** is truly new and different, easy to prepare and fun to eat. When made in the individual casserole skillets as shown in the picture, it will be a real success at a ladies' luncheon. Savory deviled ham is used in the recipe, but you might also try liver sausage or another favorite meat spread.

The cheese mixture may be prepared, except for the baking powder, a day in advance of use, in case you are rushed for time in meal preparation. Remove the mixture from the refrigerator an hour before using so that it will be soft for easy spreading. Add the baking powder just before using.

#### Deviled Swiss Cheese Puff (Serves 4)

- 1/2 cup evaporated milk
- 1 tablespoon flour
- 1 tablespoon water
- 1 egg, slightly beaten
- 1 cup grated Swiss cheese (processed)
- 1/4 teaspoon onion juice
- Dash of tabasco sauce
- 1/2 teaspoon baking powder
- 2 tablespoons deviled ham
- 2 tablespoons evaporated milk
- 4 slices tomato
- 4 slices bread

Heat the 1/2 cup evaporated milk in top part of double boiler. Mix flour with water. Stir into milk and cook until thickened, about five minutes. Add the beaten egg, cheese and seasonings and continue cooking until cheese is melted and the mixture thick and creamy. Set aside to cool. Blend ham with two tablespoons of evaporated milk. Spread the slices of bread with the ham mixture, then top each with a slice of tomato. Blend baking powder into cooled cheese mixture. Spread the cheese mixture thickly on each sandwich. Place sandwiches in individual shallow casseroles or in a shallow baking pan. Place under broiler. Using moderate heat, broil until cheese is

#### LYNN SAYS: Making Cooking Easy In These Simple Ways

Use the pastry blender for mashing eggs for egg salad or sandwich mixtures. It works easily to make the eggs coarse or fine, as you like.

Get the full taste from green peppers for a salad or any other dish, by grating or shredding them, instead of chopping.

Add a few banana flakes to hot or cold cereal just before serving. They add delicious flavor.

puffed and slightly browned on top. Serve at once.

Note: American cheese or pimento cheese are also good to use in the above mixture to replate Swiss cheese, if desired.

### A BUDGET MEAL that is a tempting dish can be turned out of dried lima beans, seasoned with onion, mace and powdered sage, the latter to point up the sausage topping. Double-rich evaporated milk poured over the beans for baking adds richness to the dish as well as keeping the beans admirably moist.

#### Limas Louisiana (Serves 4)

- 1 cup dried lima beans
- 2 cups water
- 2 tablespoons finely chopped onion
- 1 teaspoon sugar
- 1/4 teaspoon mace
- 1 teaspoon salt
- 1/2 teaspoon powdered sage or poultry seasoning
- 1/2 pound small pork sausages
- 1/2 cup evaporated milk

Shredded green pepper  
Wash beans; soak for several hours or overnight in four cups water. Drain; cook beans in the two cups of water until tender. Add onion, sugar and seasonings to the beans. Place the sausages in a skillet and cook until the links are browned. Use the drippings to grease the baking dish. Turn the bean mixture into the dish. Pour milk over the beans. Arrange browned sausages over the top. Stirred a bit of green pepper over them and bake in a moderate (350°) oven for 20 minutes.

### FRAGRANT and steaming chicken baked with rice boasts a sophisticated flavor combination spiced with green pepper, onions and slivered almonds.

#### \*Chicken Baked with Rice (Serves 6)

- 1/2 cup uncooked rice
- 1/2 cup green pepper, chopped
- 2 tablespoons minced onion
- 1/2 cup slivered almonds, if desired
- 1 1/2 cups diced chicken
- 1 10 1/2-ounce can condensed mushroom sauce
- 1/2 teaspoon salt
- Few grains black pepper
- 1 cup evaporated milk

Cook rice according to favorite recipe or directions on package. Mix with green pepper, onion and almonds. Arrange layers of rice, chicken and soup in a 1 1/2 quart casserole. Season with salt and pepper. Add milk and bake in a moderate (350°) oven until bubbling and browned, about 30 minutes.

When you purchase ice cream which has been frozen too hard to serve, place the container under hot water for just a few seconds, and it will slice readily enough for serving.

Poached eggs will not spread if you stir the water vigorously in one direction, to create a whirlpool, before you drop in the eggs.

Before scalding milk for a recipe, butter the bottom of the pan you use, before pouring in the milk. It will not scorch or brown so easily.

## Milk Diet Alone Found Sufficient For Human Needs

ITHACA, N. Y.—According to results of a survey conducted at Cornell university's animal husbandry laboratory, a diet of milk only may be sufficient to sustain healthy human life.

The nothing-but-milk-for-a-111-e-time experiment was tried on white rats. They were compared with an equal number of white rats fed the best ordinary diet. Milk lacks copper, iron, manganese, and iodine. These minerals were added to the diet of the milk-fed rats.

### Have No Cancer

The rats on milk have lived as long as those on other food. The survivors' ages now are equivalent to the 80's and 90's in humans. Dr. Olive M. McCay, who conducted the experiments, says:

"These studies permit two conclusions. First, that mineralized milk can serve as the sole article of diet from weaning to death. Second, the milk of the cow is not injurious when fed throughout life to a strange species, such as the rat."

Man, who drinks cow's milk, is also a strange species. It is notable in the milk-fed rats that they had no more cancer, no more hardening of arteries, or other diseases, than rats on ordinary food. This ordinary food was the diet that man eats.

The first practical result of these experiments is milk bread, baked at Cornell and sold in Ithaca. This bread is also made by a few commercial bakers and by mental hospitals for their patients. Milk bread is not in any way a treatment for insanity. It is more nutritious than the bread that most mental hospitals have been able to afford. It is made with low-cost, dried skimmed milk. The advantage in the mental hospitals is that their aged patients eat lots of bread.

### Animals Like Milk

"One question that has been debated for centuries," says Dr. McCay, "concerns milk as suitable food for grown people. Many feel that milk is not a good food for the adult."

"I suppose this feeling starts from our knowledge that every animal stops nursing and eats the food of its parents. Have you ever asked yourself if this change is due to the unsatisfactory nature of the milk as a food for the adult, or as a means of protecting the health of the mother?"

"Most adult animals will consume large amounts of milk if they can get it. Cats drink milk throughout life. Great Danes dogs drink milk when they weigh 120 pounds. Barge pigs learn to steal milk from cows. We even feed it to chickens and to trout. Certainly milk must be a complete food, or chickens and fish that never taste it naturally would not thrive upon it when they can get it."

### War Surplus Materials Find Many Strange Uses

LINCOLN, NEBR.—War surplus materials worth an estimated two million dollars, ranging from 10-cent bottles of disinfectant to \$25,000 radar sets, have been distributed among Nebraska colleges and schools during the past 12 months.

Floyd Parker, director of the war surplus division in the state school superintendent's office, said the materials which helped the United States win the war are being put to uses never dreamed of by their manufacturers.

Parker cited some of the peace-time conversions:

Rubber-covered gasoline tanks—The rubber was cut up for stair pads, and tanks halved and used to store rugs and sweeping preparations.

Gas-mask cases—Used by basketball players to carry their gear.

Pup tents—Sewed together for drop cloths.

Radio equipment parts—Salvaged to set up school-wide communication systems.

Snow shoes—To be used in actual instruction.

Baking powder, 6,000 pounds—Home-economics departments snatched at this item.

Even sample sets of false teeth can be "easily disposed of," Parker said. He added that a few schools have taken materials for new buildings and equipped them, all from surplus materials.

### Requirements Recounted For Happy Marriages

CHICAGO.—Are there any special requirements for a successful marriage? Mrs. Emily B. Budd, director of the Philadelphia marriage council says "yes."

- She lists them as follows:
1. The ability to obtain and hold a job that provides enough income to support a home and children.
  2. Knowledge of how to maintain a comfortable home and repair usual household equipment.
  3. Knowledge of cooking, balanced diets.
  4. Ability to budget income and knowledge of what is necessary for financial protection and security.
  5. Knowledge of health.
  6. Knowledge of sexual needs and behavior.
  7. Some knowledge of child care and what planning for a baby involves.

## FIRST AID to the AILING HOUSE

by Roger C. Whitman

**QUESTION:** Our wallpaper is coming loose above our radiator. We papered three years ago this spring. We took all the old paper off and then gave the walls a good coat of glue sizing. Could you suggest something we could use that will not loosen the paper? (We have vapor heat.)

**ANSWER:** As you say the paper loosened above the radiator, but evidently did not loosen anywhere else, I make the guess that the heat was in the radiator at the time of papering, and the heat dried out the glue size too quickly so that the paper did not make a good bond. If you are planning to repaper, make sure that the radiator is cold at the time you paper that part of the room.

**QUESTION:** Our dining-room furniture has white spots on the legs, probably caused by striking the legs with shoes. Is there some way I can touch them up? I do not want to refinish the entire piece unless I have to.

**ANSWER:** I suppose the pieces are made of a white wood, such as maple, and the varnish has been scuffed off. I believe you will find it more satisfactory to do a good job rather than touch up the pieces with preparations for hiding the damage. However, perhaps you would rather do it this way. If so, ask your hardware dealer for one or two of the new products made for concealing scratches and other blemishes on furniture or ask at a furniture store.

**QUESTION:** There is a corner crack in our bedroom wall and the ceiling has cracks. We have used a preparation for fixing cracks, but after a severe winter the cracks show up again. Is there any other material besides paper that would be pretty and not crack down at the corners? Our room is finished in calcimine. Would that have to be removed if covered with other material?

**ANSWER:** A corner crack needs a somewhat different treatment from a crack in the straight wall. The plaster should be removed down to the lath on each side of the corner for a distance of 4 to 6 inches. Then a metal corner lath is nailed in place and that part of the wall then is replastered. If you cannot get corner lath, you may be able to get metal lath in strips 8 to 12 inches wide. Bend the strips at right angles to fit the corner and fasten in place. It would be advisable to have a plasterer do the job for you. The ceiling crack can be "undercut" to make it wider at the lath than at the surface. The plaster crumbs should be cleaned out and the groove wet with water. It then can be filled with patching plaster almost to the top and allowed to dry. It will shrink a trifle in drying. It then should be filled to the surface and smoothed level with the surrounding plaster surface.

### Hide Signs of Wealth

In every Bantu language there is a word to describe the action of a man who, owning a considerable herd of cattle, plants them out among his poorer relatives and neighbors so that he will not appear too prosperous. Everybody knows that they are his, and just how many he has, but he must avoid any appearance of ostentation. Similarly, it is not considered advisable to own too good a house or lands that are too well cultivated. Fear of exciting the envy of the chief is one of the motives that govern this attitude of mind, which always has been a powerful brake to the progress of Bantu agriculture in South Africa.

**Brass Tacks on Taxes**

The most discouraging thing of the age is the number of people who are for a thing no matter what it is as long as it is to be paid for by tax money. One of the first lessons a member of democracy should learn is that tax money is earned by labor and is paid out of the savings of workers. A man builds a house out of his savings or sets up a business or an industry out of his savings. It is those savings that are taxed to pay for all the Utopian schemes. If the worker who puts his life's savings into a home doesn't pay his taxes to support the schemes of those who desire to live off the government, his home is taken away from him and he is set out on the street. No matter in what glowing colors the picture is painted by starry-eyed dreamers, tax money pays the bill and tax money comes from the worker who practices thrift, and self-denial and industry, and good judgment and sobriety.

PRESENT DAY ECONOMY UNDERMINES

Clink of Dime Is Death Knell of Parting Era

THE PROVERBIAL NICKEL PHONE CALL

By H. I. PHILLIPS

THE NICKEL'S LAST STAND

AMERICAN TELEPHONE companies are experimenting with 10-cent pay stations, which abolish the proverbial 5-cent call. Even talk is to be more expensive than ever.

In some cities field tests are being made with new phone booth

dime-a-call machines. We presume the tests have two purposes: (1) to see how the apparatus works; (2) to note how loudly the user squawks.

The telephone business "ain't what it used to be and the companies are up against terrific costs. For all we know the nickel-phone call is as eco-

nomically unsound as the nickel bus fare, the nickel hot-dog and the nickel movie. But a bigger fight is likely, as the public has been brought up on the 5-cent phone call. It may even regard the telephone booth as the nickel's last stand.

It has seen the 5-cent piece replaced in most every field, but there is something about disassociating it from a phone booth that fills many a heart with anguish. One of the few things left in America at the old price is the nickel phone booth. It stands almost by itself as a place a man may enter without asking, "I wonder how prices have gone up in here since I was around last time."

There has always been something about the clink of a nickel in a phone booth that made sweet music, and of late it has conveyed unmistakably the soothing proof that there was still something in America not out of reach of a man in the lower brackets.

Even if you made the call and found your girl has just left for dinner with somebody else, it didn't seem exorbitant. But when it takes a dime to get the same news it will be something else again.

We can see the phone companies' point. There is not the money in conversation that there used to be. It costs twice as much to produce "number please" as it did 10 years ago. The companies say they are losing money on the transaction at nickel pay-station rates.

Nevertheless we look for a hot time at hearings before the public service commission. Elmer Twitchell is among those who will be present with some novel pleas. "I may not fight the abolition of the nickel call if the figures show it is necessary," he said, "but I will demand that a 10-cent phone booth be made twice as roomy as a nickel one."

"I want it better ventilated too," he continued. "In a nickel phone booth you are practically in solitary confinement. If I pay a dime I may even demand a soft chair and maybe television."

("A \$15,000 dream house raffled off on Sixth avenue, New York, had to be sold by the owner for \$1,000 because of the costs of moving and reassembling," news item.)

Want a lovely dream house? Take a chance—you must—

Win it and, my dears, How the dream will bust! Fifty cents a ticket . . .

Give your luck a try! Who will get the building? Some fast dollar guy!

It seems to us the dream house might have been advertised as having hot and cold indifference, a fine view of snafu, crossed-up ventilation and an acre of headaches.

YE GOTHAM BUGLE & BANNER

A British parliament member says John Bull will not be kicked around, by unlettered pot bellied money magnets from the U.S. . . . This is the first indication anybody could look at Uncle Sam and sing, "He's too fat, he's too fat, he's too fat for me." . . . Ye ad bears Tolson's next picture will be called "Tolson Hits The Jackpot," "Tolson Follows Through" or "Tolson Takes Fort Knox." The driver who killed Margaret Mitchell and who is alleged to have been drunk, speeding, and on the wrong side of the road, as well as a repeated offender against traffic laws, is charged merely with involuntary manslaughter, the penalty for which is one to three years!

Why movie review readers go mad:

"The second Tolson film is not as sentimental nor as heart warming as its predecessor." — Kate Cameron.

"Of course the plot of the new Tolson movie is soggy with sentiment. The songs drip with nostalgia." — Jim O'Connor.

SCRIPTURE: Isaiah 6; DEVOTIONAL READING: Hosea 14.

What is a Call of God?

Lesson for October 2, 1949

IF YOU knew exactly what God wanted you to do, would you do it? Of course you would. The trouble is: How does any one know what God's will is?

For example, a young man is thinking about his life's work; what shall he choose? Most young men would do what they were sure God called them to do, but what is a call?

The story of Isaiah throws some light on this problem. (We are beginning this week a three month's study of the great prophets Isaiah and Jeremiah.) True, he lived some 2700 years ago, and half way to the other side of the world; but human nature has not changed in 2700 years.

From Man about Town To Man of God

ISAIAH was a young man about 700 years before Christ. He was a personal friend of all the important people, a man of good education, with wide horizons of interest, of independent means, eloquent, polished, the sort of man who makes a good career diplomat.

He tells in some detail the story of how he came to be a prophet. The story is in Isaiah 6. Perhaps if we had been there with a camera and a wire recorder we might have been able to photograph the seraphim and take down their cries, just as Isaiah saw and heard them.

What we do know is that that experience changed Isaiah's life. Up to that time (on his own showing) he had been a "man of unclean lips;" from that time on he began to be a "spokesman for the Lord. Let us try to say what the story of that life-changing vision, that call, means in terms of our own experience.

The Flame of God

FIRST there was the overwhelming sense of God's reality and power and holy majesty. No one can ever experience a call who does not take God seriously.

A God "afar off," a God who is only a problem, an idea, a hypothesis, never called any one. God alone can make himself real to man; and only a man with a real sense of a living God is going to hear his call.

Next came Isaiah's realization of his own unworthiness and sin. A man who feels equal to a great task is probably not equal to it. "Them as knows nowthin' fears nowthin'," as the Irish say. A man who feels good enough to serve God, just as he is, is not good enough. A man without a sense of sin is too full of it.

Then comes the burning coal from the altar; Isaiah feels that his guilt is gone. No one can fully do God's will with an unforgiven heart. Isaiah was not sinless at one stroke, of course, yet it is possible to turn from all known sin; it is possible to devote one's loyalty to God; and this Isaiah did.

It was only then that he heard the call: Whom shall I send? In modern and less picturesque language, Isaiah was conscious of a need he had not felt before—that is, of God's need, of his people's need.

What those needs were will come out in later studies. The point is that young Isaiah, who hitherto had lived only for himself, now saw the need of the city and the people among whom he lived.

"Here Am I; Send Me."

THEN comes the last stage—Isaiah's willing offer of himself. His great talent was the ability to use language. He could make words march and sing as few men of any race have done. But up to that time, it seems, his gift of eloquence had been used chiefly in telling dirty stories.

Now he has repented, and been forgiven, and he says to God: Use me. His voice, his knowledge, his eloquence, which he had been using against God (or at best, only for Isaiah) he was now to use for God and man.

So there is a call: A sense of God, near and commanding and holy; repentance; forgiveness; a sense of need; willingness to devote all one's gifts to fill that need.

Marine Corpsman Sets Unofficial Rifle Mark

Washington, D.C.—Marine Corporal Stanley F. Sanders of Fleet Marine Force, Atlantic, set an unofficial National Rifle association record recently when he fired a string of 117 consecutive bulls-eyes in the Maryland state .30 caliber championship rifle matches.

Sanders' feat came about in the prone rapid fire matches on the 200 yard line. Seven shooters were tied with perfect scores on the initial run, and it was necessary to continue firing in the eliminations. The records will be posted as "unofficial" until the NRA can examine the claim for record.

NEW! APPLESAUCE MUFFINS

Crisp and fragrant as autumn air when made with our sweet Kellogg's All-Bran. Believe distress of MONTHLY FEMALE WEAKNESS

Are you troubled by distress of female functional periodic disturbances? Does this make you suffer from pain, feel too nervous, tired, over-taxed and fail to sleep, become over-fatigued and feel the life-giving blood?

That Nagging Backache

May Warn of Disturbed Kidney Action. Modern life with its busy and worry irregular habits, improper eating and drinking—its lack of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

DOANS PILLS

Preparation GRACE NOLL CROWELL. WHAT shall I take into the coming year? And what shall I leave behind? I asked my heart, And quick came the answers: "Lay all doubt and fear And anxious care aside before you start. Take but life's stark necessities along: The Word of God that you may be kept fit, The staff of faith, the lamp of hope, a song Of high and dauntless courage; fill your kit With laughter, and take happiness to wear, 'Twill cloak you on the bleakest, coldest day; And take an apple and a loaf to share With one who may be hungry on the way. Fill your canteen from a wayside well, 'You may grow thirsty," said my cautious heart. And Hark, across the world a midnight bell Peels out a summons—it is time to start.

Star Dust STAGE-SCREEN-RADIO BY INEZ GERHARD

NOW that it's over, Robert Q. Lewis can draw a long breath and look back with pride on the terrific job that he did from August 1 to October 1. He took over for Arthur Godfrey five morning shows a week on CBS and one television show, lasting an hour, on Wednes-

day evenings. Godfrey's popularity made him a difficult man to fill in for, and Lewis was bound to be a target for a lot of criticism, just because he wasn't Arthur. Now they're saying that there couldn't have been a better man for the job. Lewis did his best, of course, but he wasn't worried; he's done too many outstanding shows of his own for that.

Sonny Tufts carried a container like a knitting bag to the "Easy Living" set at RKO every day; it held a two-quant thermos of half-milk, half-cream and another filled with soup and sweetbread mixture. It was his daily lunch.

The father-son team of Walter and John Huston, which won three Academy awards last year, will be reunited in Horizon Pictures' next for Columbia. "Reminiscences of a Cowboy" will co-star Walter Huston and Montgomery Clift. John Huston will direct, and, following tradition, will be seen in a small part. It should be good; everything John Huston does succeeds.

The cigarette company now sponsoring "Ladies Be Seated" and "One Man's Opinion," with Walter Kieran, has shifted them from Mutual to ABC; they replace "Against the Storm," daytime serial, and "Queen for a Day."

The Fiction FLASH OF BRILLIANCE Corner By Richard H. Wilkinson

CONSIDERING the fact that the necklace was valued at \$50,000 and it was not insured, Mrs. Holbrook should have been upset. The fact that she wasn't astonished even her husband, for her husband knew her for an emotional, excitable person.

3-Minute Fictlet

"But, good lord, Bess! You might at least act concerned. I paid 50 grand for that rope. Maybe you think I'm made of money." "That," said Mrs. Holbrook, "is the point." "Point? What point?" Mr. Holbrook was becoming irritated.

"I mean," said Bess, "that I'm not the empty-headed, irresponsible person you think me. The diamond necklace wasn't stolen. I left it back in New York—in a safety deposit box."

"You what?" "The jewels that were stolen were imitations. I wouldn't dream of wearing the originals without having them insured."

Mr. Holbrook's mouth fell open. "So you see," said Bess. "It isn't as bad as it seems."

Rita Fenway, one of the guests, suddenly said: "But it doesn't alter the fact that there's a thief afoot. And that means we're all in danger of being robbed. And the cruise won't be over for another week."

"Of course," Mrs. Holbrook said. "And nothing could be more satisfactory. My dears, consider that we are to be on the high seas for a week. The criminal, whoever he is, will have to remain with us during that length of time. A week, my dears, will give our clever and efficient captain ample opportunity to apprehend the thief."

An hour after Mrs. Holbrook had demonstrated her hidden genius she excused herself from a group in the main lounge and unobtrusively descended to her cabin. After a moment she rang for the captain.

"No. The real ones. Captain Talbert, I'm going to take you into my confidence. The story I told about the necklace being imitation was false. I've never worn false jewelry and I never shall. I merely told that story so that the thief would think his loot valueless."

CAPTAIN TALBERT'S face lighted. "And then you spoke about apprehending the criminal by searching for the imitations so that the thief would return—"

"Exactly. The imitations weren't worth keeping, and in order to dispel the possibility of having them found in his possession he decided to return them. In doing so he unintentionally returned the originals—and spared me the unpleasant-

ness of facing my husband—alone." Captain Talbert nodded understandingly. He knew what the word "alone" meant. He regarded Mrs. Holbrook with frank admiration. "Mrs. Holbrook, allow me to congratulate you, and please understand that you will have my fullest co-operation. After a reasonable length of time I'll announce that we have been unsuccessful in our search."

A moment later Captain Talbert went out. Left alone, Mrs. Holbrook sat down before her mirror. It had been a strain. A great strain. She sighed wearily. It was such a relief to feel that once more she could return to the role of the irresponsible spouse that her husband understood and expected.
