DEVOTIONAL READING: Romans 12: 1-14

**Choose The Best!**

Lesson for October 30, 1948

IT HURT Isalah's patriotism, and his religion too, to see how fast his country was going down hill. Most of the troubles Isalah saw were with us today. Wealthy women spending more and more on themselves; leaders who are irresponsible, self-seeking and incompetent; poverty unprevented and uncared-for; drunkenness high and low. Isalah, and other prophets as well, saw in the sin and drunkenness of Dr. Foreman the times the sign and symbol of national decay. To the careless, the selfish and the wild, to those who were "leaders" but were leading in the wrong direction, Isalah kept saying, in many different ways, Choose the best!

**The Prophets' Successors**

THERE WAS A TIME when the church put most of her preaching emphasis on individual religion: Get right with God! was the cry. The church of today has not by any means given up her emphasis on personal religion, but we are learning from the prophets what social righteousness means. The church in our time is the logical and actual successor to the prophet's work.

The church is doing more than ever to awaken the conscience of society, in fact the church itself has a duty to be the conscience of society. One of the problems about which our nation needs to be waked up is one that Isalah and Jeremiah faced, only we have it in a more desperate form.

We call it alcoholism; they called it by an uglier, more suitable word: drunkenness. Even in those days drinking was a problem; it cut down the national health, wealth and wisdom. Nowadays it is worse because of two factors. One is the higher percentage of alcohol in beverages such as whiskey, unknown in those days. The other factor is advertising.

**Where Drunkards Start**

AGAINST ALL THIS the church must keep saying and persuading people, Choose the Best! But it does comparatively little good to say this to the confirmed alcoholic. It makes more sense to say it to young people. For the sad feature of alcoholism is that it begins in the high schools.

The Yale School of Alcohol Studies has collected evidence indicating that two-thirds of all alcoholics begin drinking habits in the early high school years.

A recent Gallup poll shows the greatest percentage of drinkers to be in the age group 21 to 33. Today, it is estimated, there are four million alcohol addicts or excessive drinkers who are in more or less constant trouble with their families and employers.

Drunkenness costs industry in America no less than one billion dollars a year, and has a lot to do with the break-up of homes and with crime generally.

**Allied Youth**

SOMETHING is being done to stop this, which you should know about. There is a movement known as Allied Youth, a national educational organization working in high schools all over the country. Its work is positive, not negative. It is not trying to pass laws or to bring back prohibition. What it does try to do—and it is succeeding remarkably well in many places—is to give young people a way of life that will enable them to meet social pressure for drinking without loss of "face." Every Allied Youth post in a school has three aims: 1. To meet the social and recreational needs of young people.

Every New Year's Eve, for instance, when millions of Americans are getting sickly drunk, more than 5,000 young people gather in Detroit for the biggest dry party in America, sponsored by Allied Youth.

2. To establish within the school a fellowship of young people who do not think it is necessary to drink to be smart. Such a group can change the attitude of an entire school.

3. To build a solid foundation of education for total abstinence. Essentially, Allied Youth is saying to young people everywhere, "Choose the Best!"

(Information about Allied Youth can be had by writing Allied Youth, 1700 M. Street N.W., Washington, D. C.)

**HOUSEHOLD MEMOS** by Lynn Chambers

Variety Gives Lunch Boxes Interest (See Recipes Below)

**Sandwich Tricks**

HOUSEMAKERS who put together lunch boxes daily are apt to fall into just as much of a rut about them as the school children or husbands who eat them. Yet, since lunch is such an important meal of the day, rules for variety must be observed conscientiously.

Explore your ingenuity for sandwich combinations. These, after all, are the mainstay of almost every lunch box. Think of other ways to make packed lunches interesting. See what interesting salad and fruit combinations can be tucked in small glass jars or cartons to add zest to the meal.

Hot beverages and soups are particularly interesting in cold weather. A few unexpected surprises in the way of candied dried fruits, confections and new cookies or cake releases for the sandwiches will make a constant delight for the person opening the packed lunch.

Plan for lunch boxes at least a week at a time, so that the same breads and fillings are not repeated too often. Add special and appetizing seasonings to the sandwich fillings; prepare fondas carefully and neatly and see how much fun this task can become!

Make quick work of the lunch box by getting a tray of necessary materials in an easy-to-reach cupboard. This should contain a knife for spreading as well as one for cutting the bread. Waxed paper and bags, cartons or covered glass cups, rubber bands, tin foil, candies, fruits, etc., should be on the tray.

In the refrigerator, keep another section or tray with the fillings or spreads, salads and fruits, vegetables, and relishes, so that you need get out only the two trays to get together the lunch.

THERE ARE SOME different fillings and spreads which will add zest and appeal to any worked-over collections:

**Egg Salad-Olive Sandwich Filling** (Makes 1 cup)  
6 hard-cooked eggs, chopped  
2 tablespoons sliced, stuffed olives  
1/4 cup mayonnaise  
1/2 teaspoon onion salt  
Dash of pepper  
1/4 teaspoon dry mustard  
1/4 teaspoon Worcestershire sauce  
Combine all ingredients and refrigerate until ready for use.

**Horseradish Butter Spread** (Makes 1/2 cup)  
1/2 cup soft butter  
1 tablespoon prepared horseradish  
1/2 teaspoon salt  
Combine ingredients, but do not refrigerate before using.

**LYNN SAYS:**  
Here are Special Tricks For Special Occasions

Baked potatoes can get over-worked, too, with the butter, salt and pepper treatment. Try baking, then scoop out the mealy potato, season with rich cream, salt and pepper and add some sausage meat or bacon, crisply fried and crumbled before returning to shells.

Slices of ham in the spaghetti will bring compliments to you. A dash of basil will add the gourmet flavor touch.

**LYNN CHAMBERS' MENU**  
Braised Short Ribs of Beef  
Carrots Lima Beans  
Potatoes  
Chef's Salad Rolls  
Beverage Pear Pie

**Sliced Tongue Sandwiches** (Makes 6)  
1/2 cup horseradish butter spread  
30 slices cooked tongue  
12 slices enriched bread  
Spread bread with horseradish butter. Arrange five slices tongue on each of six slices of bread and top with remaining bread.  
**Salami-Egg Salad Filling** (Makes 1/2 cup)  
1/2 cup chopped salami sausage  
1/2 cup mayonnaise or salad dressing  
1 tablespoon chopped green pepper  
1/2 teaspoon salt  
Combine all ingredients in order given.

WHEN THE LUNCH BOX consists of two sandwiches, it often makes for variety to make one of meat, fish or cheese, and the other one a vegetable combination.

The crispness as well as a good choice of flavors will make the latter interesting sandwich material. Try some of these ideas:

Mix grated carrots and cabbage, in amounts desired with mayonnaise. Top with two slices of crisp bacon.

Slice cucumbers thin, dust with salt, then cover with thinly sliced radishes. Spread with mayonnaise.

Grated cabbage and carrots mixed with chopped celery, mayonnaise and enough chili sauce for flavoring gives a crisp, colorful sandwich.

Lettuce, watercress or young, tender spinach leaves, or other greens, topped with thinly sliced tomatoes and mayonnaise gives a salad sandwich.

Leftover peas may be mashed and mixed with mayonnaise and peanuts for interesting variety.

**Fruit Sandwiches**  
Grind 1/2 cup dates with 1/2 cup figs; add some chopped nuts and moisten with pineapple and lemon juice.

Slice bananas thin, dip them in orange juice. Place on buttered bread, covered with lettuce, then sprinkle with a few chopped nuts.

Thinly sliced apples, spread with mayonnaise mixed with chopped celery and nuts, gives a salad type sandwich.

**Egg Sandwiches**  
Mix hard-cooked, chopped eggs with mustard and mayonnaise. Add catsup to taste and enough chopped cucumber or cucumber pickles to make the spread crisp.

Chopped hard-cooked eggs combine well with chopped watercress or finely shredded lettuce and salad dressing to moisten.

Baking-powder biscuits take on novel interest when made with orange juice replacing milk. Add some of the grated rind, too, if you want to sharpen the flavor.

Finely chopped pecans, two tablespoons to a cup of rice, will do much more than you expect to that delicacy which is already such a favorite.

Fillets of fish take on festive air when they're served with chopped almonds cooked until just slightly browned in salad oil.

**Gay Corncob Potholder**

Amusing, Practical  
AN AMUSING yet very practical potholder knitted in the shape of an ear of corn of heavy yellow and orange wool. So simple and easy to do you can make more than one in an evening! Trim with green leaves and a hanging loop.

To obtain complete knitting instructions, stitch illustrations, material requirements and finishing directions for Corn Cob Potholder (Pattern No. 5907) send 30 cents to copy your name, address and pattern number.

**FIRST AID to the AILING HOUSE**  
by Regis C. Whitman

QUESTION: Our drains are stopped up very often in spite of the fact that we have had the pipes cleared by a tree-rooter machine. I am of the opinion that it is a clogged vent and not tree roots in the pipes. Can you give me any advice?  
ANSWER: It is possible that the pitch of the horizontal soil pipe is insufficient, so that grease and other sediment matter congeals and closes up the line and retards the flow of waste matter to the sewer. Re-laying of the pipe is one solution, if that is the case. I doubt if a clogged vent would cause the condition. The other solution to such a problem is to install a grease trap in the line from the kitchen sink and clean it out periodically.

**Home Accident Deaths**  
Number 35,000 in 1948

CHICAGO.—Home is where the heart is—and where the heart of the accident problem is, too.

There were 35,000 home accident deaths in 1948—which makes the home America's No. 1 accidental killer.

Falls were the greatest cause of home deaths last year, resulting in 10,280 fatalities. Burns, scalds and explosions came next, with a total of 6,000 deaths. Mechanical suffocation caused 1,000 deaths, to rank third in 1948.

Special studies show that more than 25 per cent of fatal home accidents occur in the bedroom. The yard and kitchen are the next most hazardous locations at home, causing about 12 and 10 per cent of the deaths respectively.

**U.S. Motorists Learn to Drive More Slowly**

CHICAGO.—American motorists are learning to drive more safely, according to the 1948 edition of the National Safety Council's statistical yearbook, "Accident Facts."

The 1948 traffic volume was the greatest in the nation's history—8 per cent greater than 1947. Yet the mileage death rate—deaths per 100,000,000 vehicle miles—was the lowest in the nation's history. The 8.0 rate was 30 per cent lower than the average rate of 11.5 through World War II. If the higher rate had prevailed last year, 14,000 more lives would have been lost.

FOR YOUR RECIPE FILE  
**RICE KRISPIES MARSHMALLOW SQUARES!**  
1/2 cup butter or margarine  
1/2 lb. marshmallows (about 2 1/2 doz.)  
1/2 teaspoon vanilla  
1 pkg. Kellogg's Rice Krispies (5 1/2 oz.)

Cook butter or margarine and marshmallows over water until syrupy. Beat in vanilla. Add Rice Krispies in greatest part and pour mixture on top. Mix well. Press into 9x13" greased shallow tin. Cut into 2 1/2" squares when cool. Yield: 24 delicious Rice Krispies Marshmallow Squares. Everyone loves 'em!

**DEFICIT SPENDING**

To continue borrowing by the Federal Government to meet increasing expenditures is "unthinkable" in the opinion of Senator Harry F. Byrd of Virginia. "Large scale deficit financing," says the Senator, "would shatter public confidence in Federal securities—under current circumstances—at a time when the debt is a quarter of a trillion dollars. Citizens who own bonds would ask themselves if the Government cannot balance its budget in this period of prosperity, and in time of peace, will it ever be balanced again? If Congress embarks again on deliberate deficit financing, I, for one seriously doubt whether we shall ever again balance the Federal budget. Our credit would be wrecked and our system of Government destroyed." Tax Bulletin

Mr. and Mrs. Ernest Yandell of Corona visited Mr. and Mrs. Jerry Graves here Saturday.

**Which Will You Have?**

Foolish question? Not at all. In countries where freedom has vanished some people may own bikes, but cars may never be within their reach. The American standard of living provides abundantly. Installment buying with the aid of bank credit also is part of the answer. A bank auto loan at low cost helps many families to own new cars!

**DUCK STAMPS**

Of the record breaking sale of 2,127,598 Federal "Duck Stamps" to sportsmen and collectors for the period July 1, 1948 to June 30, 1949, New Mexico Sportsmen purchased 9,010. State Game Warden Elliott S. Barker said today.

The largest sale in any state for the last fiscal year was 171,888 in California while Texas moved to second place with 164,070 sales.

Duck stamps, according to Baker, formerly cost \$1.00, but this year's duck stamps which are now on sale at Post Office through the country cost \$2.00. "With the season beginning at noon Friday, Oct. 14, it might be well to remind sportsmen that every hunter of migratory birds, who is 16 years of age or older must have on his person a duck stamp of current issue with his signature in ink across its face," Barker said.

**MORE POPULAR THAN EVER**

Preferred by more users than the next two makes combined!

**ADVANCE-DESIGN TRUCKS**

Featuring VALVE-IN-HEAD ENGINES • DIAPHRAGM SPRING CLUTCH • SYNCHRO-MESH TRANSMISSIONS • HYPOND REAR AXLES • DOUBLE-ARTICULATED BRAKES • WIDE-BASE WHEELS • ADVANCE-DESIGN STYLING • BALL-TYPE STEERING • UNIT-DESIGN BODIES

Here's real proof of truck value! Now that operators can get the make they really want, Chevrolet Advance-Design trucks are setting new sales records every week. More and more buyers are insisting on the power, the comfort and safety they get in Chevrolet. They like Chevrolet's rugged good looks... the way Chevrolet trucks handle their hauling jobs with such low operating and upkeep expense. In fact, they like these advantages so well that they buy more Chevrolet trucks than the next two makes combined! Come in now, and talk over your trucking needs with us.

WEEKLY NEWS ANALYSIS

# Harvest This Year Second Largest In U.S. History, Government Says; Reds Purge Czech Property-Owners

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

## HARVEST: Second Largest

America's horn of plenty continued to go all out in its production of food for the world. Latest crop summary of the U.S. department of agriculture showed that good harvest weather would assure the nation of its second largest volume of crops in history, topped only by the record-breaking haul of 1948.

EQUALLY important was the fact that a record supply of corn was on tap for producing meat, dairy and poultry products.

The month of September brought conditions sufficiently favorable to boost total production prospects 1 per cent, despite a slight decline in the corn estimate. Total crop volume was indicated at 131 per cent of the 1923-1932 base level, second only to last year's 137 per cent.

However, present indications are that this may be the last year for some time that crop production reaches such astronomical heights. As surpluses were mounting almost alarmingly, the government was preparing to take action to reduce output next year.

There was every likelihood that market quotas would be slapped on some of the basic crops which have been overflowing into storage in recent years.

THIS YEAR'S huge output is the result of fairly large production of most individual crops, rather than record-breaking yields of just a few.

Nearly 128 million tons of livestock-feed grains are being produced this year, including a corn crop of about 3.47 billion bushels. Last year's corn crop of 3.03 billion bushels set an all-time record.

The 30.5 billion tons of food grains now estimated, though exceeded in each of the past three seasons, is greater than in any earlier year. Included in this figure is a bumper wheat crop of 1.12 billion bushels, virtually all of which has been harvested.

CONGRESS: Half a Loaf

The first session of the 81st congress headed toward an October adjournment with less than half of President Truman's program written into law.

THE PRESIDENT could count 15 major accomplishments, by his reckoning, at least, on the part of the congress he helped ride into office last November.

Left as unfinished business for the 1950 congressional campaign, however, were a number of highly controversial proposals among the 22 requests that Mr. Truman had laid before the present session without getting final action.

Chief among these is the Taft-Hartley act repeal, which was turned down in both houses during the session. The President undoubtedly will revive the issue in January, and the outcome this time may depend upon how some special elections this year to fill vacated and house vacancies turn out.

SOME OF THE other requests which Mr. Truman is almost sure to re-introduce early next year will be for a system of compulsory health insurance, civil rights legislation, standby price-wage controls and the passage of "Point 4" legislation to guarantee U.S. support in developing backward areas of the world.

PAY BOOST: For Cabinet

There was good news for cabinet members, who have been plugging along at the same old salary ever since 1923.

A joint senate-house conference managed to arrive at an agreement to boost cabinet members' salaries from \$19,000 to \$22,500 a year.

THE CONGRESSIONAL group also approved pay raises for some 200 other top-drawer federal officials—at a cost of \$1,037,000 annually.

In addition to raising cabinet salaries, the pay bill will:

GRANT Undersecretary of Defense Stovall Early \$20,000 a year instead of \$14,500, and the armed-forces secretaries \$18,000 a year instead of \$14,000.

Most of the undersecretaries of the various departments will go up from \$10,330 to \$17,500. J. Edgar Hoover who, as head of the FBI, now receives \$14,000 will get a raise to \$18,000.

IGNORANCE COSTLY

### Story of \$200-Bills Trips Up Gambler

It was not the first case where unfamiliarity with big money had tripped up an individual who was attempting to frigate with it, but navy petty officer James G. Stratton, New York, might have made his story stick had he known more about money when he reported to police he'd been robbed. He said a tall, thin, mustachioed man held a knife to his back and took \$31,500

## Witness

Admiral Arthur W. Radford took the stand before the house armed services committee to testify that current defense plans and military setup relegate the navy to a role "useless and inadequate" in the event of an atomic war.

### CZECH PURGE: Slow Terror

Slow terror, the kind that eventually is born in persons living under any totalitarian government, was seeping through Communist Czechoslovakia.

Cause of it was a Red purge, aimed primarily at supposed bourgeois elements, but leaving no man—be he a Communist party member or not—free from the fear that he may become a victim sooner or later.

UNCONFIRMED reports of the total seized or marked for arrest in the Communist police roundups ranged between 30,000 and 40,000. No information was being given, either as to causes, results or any other details of the widespread arrests.

The pattern of the purge was clear. Landlords, architects, confectioners and other small shopkeepers were being picked up and their business confiscated. In some cases, their apartments were seized and families displaced.

In the main, it was a drive against Czechoslovakia's propertied classes, theoretically the mortal enemies of Marxist communism.

HOWEVER, the prosecution of the property owners was accompanied throughout Bohemia and Moravia by purges of government employees, the clergy, army and even the Communist ranks. Charges, where there were any, ranged from high treason and sympathy with Titoism or "centrist imperialism" to simple denigrations by snipers who had overheard suspicious bits of conversation.

Possible hint as to the reason behind the purge was the report that the government is having trouble not only in its campaign to control the Roman Catholic church, but also its efforts to prod higher production out of the workers.

### CHINESE REDS: Win Diplomats

Was it a case of rats deserting a sinking ship?

That might have been a plausible construction of the move as Chinese diplomatic staff members in Paris deserted to the Communist regime at Peking and called on Chinese diplomats throughout the world to follow their example.

GEORGE MONG, counselor of the Paris embassy, made the announcement. He reported that 11 diplomats, eight from the embassy and three from the consulate had walked out on Chiang Kai-shek and the Nationalist government at Canton.

The development posed a problem for the French foreign ministry's Asiatic affairs section. They were particularly concerned by the threat of a rebel sit-in at the embassy. However, the issue was resolved when the French moved firmly to back up the Nationalists and struck the dissident Chinese envoys off its diplomatic list.

THE FRENCH difficulty was clear. While Paris still recognized the Nationalist government, it was becoming increasingly apparent that the western powers eventually may recognize the Communist regime of Mao Tse-tung. Already there have been conversations on that subject.

### CONFERE

John L. Lewis, chief of the United Mine Workers, coal miners' union, shown as he met with mediators in Washington in an effort to settle the coal strike.

### BENEFITS: For War I Vets

President Truman signed into law a bill increasing disability and dependence payments to World War I veterans by an estimated 112 million dollars annually. Among its major provisions were:

Provide full compensation, instead of 75 per cent, for veterans whose disability is presumed to have resulted from war service.

Increase the length of time for which payments may be made.

## BURLEY: U. S. Likes Quotas

The government took first steps toward continuing existing rigid marketing controls on burley tobacco amid calls by agriculture secretary Charles Brannan for another three-year control program and for views by interested persons on the question.

BRANNAN'S REQUEST for the three-year extension of control on the burley crops stemmed from the fact that this year's prospective production of about 590 million pounds is well above the current annual rate of disappearance.

The leftover of burley on October 1, the beginning of the 1949-crop-marketing year, was estimated at 970 million pounds—about 7.5 per cent above that of a year ago. It was the highest on record.

Brannan, in asking for expressions of views by interested persons, was acting under requirements of the law. The question is expected to be submitted to a referendum in December. Approval by at least two thirds of those voting would be required.

QUOTAS for the 1947, 1948 and 1949 crops were voted in 1946. Brannan is also required by law to proclaim quotas by December 1 if he finds there is a surplus within terms of the law, and there would be few who would not concede that a surplus exists.

## BIG STEEL: Try, Try Again

The government was pledged to do its best to bring peace into the steel industry.

MORE AND MORE meetings had been arranged in an effort to end the deadlock between workers and operators. Cyrus Ching, U. S. conciliator director, made the first peace move in the extended strike when he arranged informal meetings with steel companies and the striking CIO United Steelworkers.

Both sides had been holding doggedly to their pre-strike positions—the union for company-paid insurance and pensions recommended by a presidential board, and the industry for welfare benefits with workers helping to foot the bill.

SOME COMPANIES had agreed to accept the union terms, but this did not mean strike's end.

The stakes were big in the contest. Where big steel went there would go most of U. S. industry, inasmuch as steel usually sets the pattern in wage and labor negotiations.

## NAVY: Blue Fading

The man with the charming smile, the iron will and a weakness for salt water and blue uniforms was no longer in the White House. Top man in U.S. government, instead, was a hard-bitten captain of artillery in World War I, an army enthusiast with little in common with sailors.

THUS THE NAVY, embattled against a horde of critics, detractors, and air-minded big brass was literally fighting for its life before congress. The battle dragged on and on, while the huge B-30, world's largest bomber, shook and bumped about in the verbal hurricane raging in Washington.

The U.S. air force, for the moment, at least, held the center of the stage, reared assured of most support. The navy, according to one witness, would be relegated to the status of a convoy force if present unification plans for the armed services were carried out.

Hitting out viciously at the air force, the navy declared building of the B-36 was an inexcusable waste of taxpayer money, claimed the big ship could never do the job expected of it, argued and fought for a chance at a duel between the navy and the bomber.

HOARY TALE . . . Major Gregory Gudlofsky, here of the Polish underground during the late war, who arrived in the United States recently, tells a war story. In Delfera Janis, a two-year-old immigrant from Poland, Major Gudlofsky was credited with killing General Kucera, son-in-law of the notorious Hettarich Himmler, during a raid in which he accounted for two other German generals also. His real name is Gutman, and he will make his new home with a cousin in the Bronx.

DEB REPLACES STAR . . . Tongue-waggers of Broadway went into their specialty recently when William D. Fawley, Jr., son of the former United States ambassador to Brazil, escorted debutante Gloria Shannors to El Morocco, one of New York's fashionable night spots.

TITLED STUDENTS . . . The "Red Knight" niece and a princess enter United States as students among 75 German exchange students recently arriving in New York. They are Princess Eleanore von Bayern (left) and Baroness Ingeborg von Richtigofen, niece of famed Baron Manfred von Richtigofen, Germany's World War I ace, who was famed as the "Red Knight" of the air. The princess will attend Catholic university in Washington, D. C.

DEPENDING ON JOE . . . New York Yankees' manager, who has been up to his neck in woe all season, puts a hand on the shoulder of his recuperating slugger, Joe DiMaggio, and tells him that the fate of the Yankees in the World Series rests on his shoulders. Joe returned to the field after a siege of virus pneumonia just in time to help New York win the pennant and the series. The Yankees, now world champs, were hounded by injuries all season.

## CLASSIFIED DEPARTMENT

**AUTOS, TRUCKS & ACCESS.**  
1947 G.M.C. 3-ton tractor with 1948 motor, 1948 trailer, complete with airbrakes and dual wheels, Brash Motor Sales, Brash, Colo. Phone 630.

## Completely Secret Hearing Near Reality With Ultra-Small Aid

"It can't be built!" That's what electronics engineers told "Telax" 2 years ago, when they outlined plans for a revolutionary new hearing aid, smaller and lighter than any in existence.

But thanks to a miraculous "wireless circuit" printed on water-thin polystyrene plastic, the "impossible" is today a reality. The extraordinary new Telax 300 weighs only 3.4 ounces. It is smaller than any hearing aid ever built. It sets a new standard in clear speech understanding. It has a built-in "battery economizer" that drastically reduces battery costs.

And with its case finished in genuine gold and silver (first ever offered—and at no advance in price), the new Telax 300 is certainly the most beautiful hearing aid ever designed.

For further information about the exciting new Telax 300, and about the three ways to truly secret hearing write: Mae L. Warner, 634 16th St., Denver, Colo. He will gladly send you complete details on how Telax can bring you hearing happiness. WRITE TODAY!

## Head Cold Stiffness

RELIEVED IN SECONDS!

For almost instant relief, put a few Vicks Vapo-Nol Nose Drops in each nostril. Vapo-Nol will get right where stuffy trouble is! It opens up cold-clogged nose... relieves stuffiness... and lets you breathe again. Try it.

VICKS VAPO-NOL NOSE DROPS

## WHEN SLEEP WON'T COME AND YOU FEEL GLUM

Try This Delicious Chewing-Gum Laxative

When you feel that you all night—feel headachy and just awful because you need a laxative—do this... Chew FRENCH-ALMINT—delicious chewing-gum laxative. The action of French-Almint's special medicine "arrows" the stomach. That is, it doesn't act while in the stomach, but only when further along in the lower digestive tract... where you want it to act. You feel fine again quickly! And scientists say chewing makes French-Almint's fine medicine more effective—"arrows" it so it flows gently into the system. Get French-Almint at any drug store for 3¢, 5¢ or only 10¢.

FRENCH-ALMINT MILDLY CATHARTIC-GUM LAXATIVE
