Outlook Vol. 40 - No. 4

To Combat Fire Hazards

The U. S. Forest Service and the New Mexico State Employment Service, with assistance from the mayor of Carrizozo and the mayor of Capitan have completed plans for meeting fire emergencies in our nearby forest areas during this year's fire season.

These agencies are keenly aware of the fire hazards that exist at this time of each year. Furthermore, they realize the vital importance of our forest to industry, to sportsmen and to nature lovers. The wholehearted co-operation of the public is urged in giving protection to our forest by fire prevention practices and by control of fires should they occur. The Alamogordo office of the New Mexico State Employment Service, which serves Lincoln County, is listing all individuals eighteen years of age and over who are physically able to do arduous work and who are willing to accept this type of work. In reporting for duty, these men are instructed to wear heavy field denim or khaki with strong high shoes and medium weight socks.

The Forest Service will immediately notify the Employment Service should help be needed for a fire emergency. A pre-arranged signal of five blasts from the town siren in either Carrizozo or Capitan will be sounded and those who have registered for this work are to report immediately to the fire stations of their respective towns, ready for departure. In addition to a hourly rate of pay, the Forest Service will furnish transportation and subsistence.

Any person willing to accept this type of work is requested to call at the itinerant office of the New Mexico State Employment Service at the Court House in Carrizozo, between 10:30 A. M. and 2:30 P. M. on any Friday.

Poppy Day

Saturday, May 28th is annual Poppy Day for our Legion Auxiliary. So on that date when the members hand you a Poppy, please be generous, remembering what the veterans have sacrificed for us. Their disability is our responsibility. Let us not forget them or what the Poppy symbolizes.

CORONA NEWS

(By Mrs. A. E. Mulkey)

Senior Girl Scout Camp
Mavis Ruston, Emma Gallegas, Kathleen Merrett, Mennie Alice Welch, Dotty Rogers, Josie Aboyta, Myrtle Austin, Joy Ann McInnis, Amella Grosenbacher, Sally Mae Pfeiffer, and Juanita Willingham accompanied by Dell Mae Roberts and Robin Pfeiffer spent a week at "Our Cabin" in the Gallinas Mountains.

Showers kept the air delightfully cool and fresh. The girls included some very good cooks who treated us to hot biscuits, corn bread, peachobbler, bean polo beans, fried stew, kabobs, and other camp dishes, all well done and delicious.

We enjoyed softball, croquet, archery, horshack riding, target practice, hiking, and fire-do stories and singing. We had a most interesting stunt night, a hot air balloon, and some realistic dog fights.

The mysterious Oscar was our mascot. No one saw him, but all of his plaintive baby cry at the most unexpected times and places.

The sixty-three guests at our camp included visitors from Vaughn, Corona, Cedarvale, Duran, and Willard.

The Camp closed our fifth year of Girl Scouting in Corona, but our first year as a Senior Scout Troop. We are grateful to our leaders, our committee, the American Legion and its Auxiliary, the Boy Scouts, the Community Chest, and to each and every individual who has contributed to the success of Girl Scouting or to the building of "Our Cabin."

The goals of Scouting are self-reliance, international goodwill, democracy, and clean wholesome recreation. We solicit your continued support and goodwill.

The Senior Girl Scout Troop.

The New Mexico State Library Extension Service located at Corona Motor Company recently received 170 new books from the State Library at Santa Fe. This library is a free service to the Community. Come in and check out as many books as you like.

Doug's Berryman, oldest son of Mr. and Mrs. B. C. Berryman is spending his summer vacation at Eunice, New Mexico.

The Jarnagin trucks are hauling sheep from the Foster Ranch to Bent, Texas this week.

Dr. and Mrs. W. R. Bolden and daughter, Vickie, from Chandler, Ariz. were here the first of this week visiting friends. The Boldens were seven years at Corona before leaving here about a year ago.

Mrs. J. R. Jenkins recently traded her ranch here for property in Amarillo, Texas. Mrs. Jenkins and Mrs. E. L. Jarnagin made a business trip to Carrizozo Saturday. Mrs. Jenkins made a business trip to Santa Fe the first of this week.

Mrs. M. A. Casey of Carrizozo is here this week visiting her son, Claud, and others.

The American Legion Auxiliary will sponsor a public card party at the school gym at 7:30 p. m., May 31. The proceeds will go to defray the expenses for the three entries to Girl State and Boy State. There will be all kinds of games for adults and children. Everybody welcome.

Mrs. L. Parker has gone to Tucson, Arizona for several weeks visit with her mother who has not been well for several months.

Mrs. Otis recently visited her people in Atlanta, Georgia.

Mrs. E. H. Bailey and daughter, Jack's and Michigan, left Tuesday for a visit in Illinois.

El Rancho Hotel has not been leased to Mrs. Sullivan. Anyone interested, contact owners, Mr. and Mrs. J. M. Shelton. No one else has authority to lease, rent, or sell the El Rancho Hotel. Mrs. J. M. Shelton
Corona, New Mexico

Mr. and Mrs. E. L. Jarnagin, Mr. and Mrs. E. H. Jarnagin, and Mrs. M. A. Casey attended El Rancho Flea Dealers Conference at Clovis, May 22. All expenses of the trip were paid by El Rancho Dealers. All those attending reported a grand time.

Mrs. Dick Bagley and son, George, from Clovis are here this week visiting relatives and friends.

Corona Boy Scouts, twelve in number recently finished a most successful week of camping at "Our Cabin" in the Gallinas Mountains under the direction of Scout Master Walter Pfeiffer and assistant Scout Master Phillip Austin. Several of the boys passed their scout requirements while in camp. Our sincere thanks to all those who made camping at Our Cabin possible.

The Women's Auxiliary of the Presbyterian Church met at the home of Mrs. W. B. Winniford last week. There were 17 present. Mrs. Maude Miller led the Devotional, a program on Love. Mrs. Edna Jones led the program, "Christianity in the Home". Mrs. Maude Hancock and Mrs. S. Markham (readers) piano selections. Refreshments of ice cream, cake, and punch were served. The next meeting will be at the home of Mrs. Ida Mae Melton, June 16.

A Westminster Fellowship was formed Wednesday evening in Corona. Rev. L. Markham met with a group of young people to organize and plan their summer program. Each Wednesday evening at 7:30 p. m. this group will meet at the Legion Hut for a short devotional which will be followed by an evening of recreational activities. All teen is interested and all ages are welcome.

Mrs. W. A. Mays and daughter, Lola, have gone to Monte Vista, Colo. to spend the summer.

The Roy Hughes family has been transferred to Muleshoe, Texas for a while. They expect to return later for further work with the R.E.A. here.

Rev. R. M. Miller, former pastor of the Corona Baptist Church has resigned and has gone to Albuquerque where he is attending a series of revivals. Mr. J. S. Shaw of Cedarvale will bring a message next Sunday morning at the Baptist church. There will be some visiting preachers here during the summer or until a regular pastor can be secured. Sunday morning services will be as usual: Sunday school at 10:00, Praying service at 11:00. There will be Training Union Services at 6:30 each Sunday evening, and Prayer Services at 7:30 p. m. each Wednesday evening. Everybody is urged to come and take part in the services.

Corona 4-H Club boys were selling tickets this week to a benefit picture show. The first show will be held Monday, May 23, of this week, a second show will be shown here next Monday, May 30. The show will consist of "World Series of 1948," "Objective Security," "It's Your America," and "Slings with Singin' Sam." Adults 3 cents, children 20 cents. Money will be used for Youth Camp near Cloudcroft.

HISTORICAL SOCIETY MET

MAY 15

The Lincoln County Historical Society held a meeting on Sunday, May 16, to make plans for a program of summer events at the Old Lincoln County Museum. The meeting was held at the home of Mrs. Ruth T. Martin at Lincoln and the following were present: Mr. and Mrs. Wilbur E. Coe, Mr. and Mrs. Bert Pfingsten, Mrs. Charles T. Fuller, Mr. Harry Straley, Mr. and Mrs. Red Ramey, Mrs. Garner, Frank C. Boyce, Col. M. G. Fulton, and Mrs. Ruth T. Martin.

The Society voted to have an Old Timers Day at Lincoln, June 10th and extended special invitations to all old timers of this area. Mr. Bert Pfingsten was made general chairman of all arrangements for the day.

The Society also voted to set August 14 as the day for the annual event, A Day in Old Lincoln, and to extend an invitation to Governor Mabry to attend.

Plans were laid for extensive repairs on the old courthouse and a committee was appointed to take charge of those repairs. The committee was also given responsibility for arrangement of seating facilities for the summer events.

COUNTY REACHES ONE-THIRD OF CAMP GOAL

Through the cooperation of various organizations, individuals, committees, and 4-H Club members, Lincoln County has now raised over one-third of its thousand dollar quota toward the building of the \$30,000 youth camp in the Sacramento Mountains.

Following is a list of contributions received up to the present time: One hundred dollar donation by Mr. Lyman D. Strickland, of Corona (to be sold as a means of raising funds); One hundred dollar donation by Mr. Carl I. Ryberg, of Corona, (to be sold as a means of raising funds); Corona Extension Women's Club—\$50; Lincoln County Agency Bank—\$25; Mr. R. L. Sharp, of Corona—\$10; Mr. Robert McDaniel, of Glenaca—\$10; Corona Community Chest—\$50; Corona Woman's Club—\$10.

A total of \$136.95 has been raised through the showing of picture films by the County Agent in the various schools in the county.

Lincoln County has been asked to raise only \$1,000 on the \$30,000 youth camp. This is one of the smallest quotas set. Other counties have been asked to raise as high as \$4,000. If everyone will help, we can soon raise our county quota. A special effort is being made to have the money raised in all counties at the earliest possible date, in order to have the camp constructed in time for use this year.

Checks should be made out to the "Lincoln County 4-H Club Fund" and mailed to Carl P. Ralcliff, County Extension Agent, Box 217, Carrizozo, New Mexico, or donations may be given to a 4-H Club member or committeeman, who identify themselves with proper credentials. Your contribution and support will be greatly appreciated.

Prayer in Pain

Lesson for May 29, 1949

THE SHADOW over Gethsemane is deep. We can scarcely see the tortured figure under the moonlit olive trees. If Jesus' closest friends, in that hour, were strangers to his soul, we cannot dare to penetrate all the secrets of that fateful hour. Yet while we cannot know all, we can know enough; enough to support us in our own time of darkness and of pain. Mark uses very strong language to describe the state of Jesus' mind in Gethsemane. The two Greek words he uses, translated in the King James version "sore amazed" and "very heavy," are translated by the Revised Standard Version "greatly distressed and troubled;" by Goodspeed, "distress and dread;" by Moffatt, "appalled and agitated." As our hymn says,

"We know not how, we cannot tell
What pains He had to bear."

Still, we do know of some of the burdens which weighed so terribly on Jesus' mind and heart that night.

Power of Darkness

ONE THING that must have troubled our Lord was lack of sympathy. Peter, James and John were comfortably asleep, evidently without the slightest notion of what he was suffering. But there was worse than lack of sympathy, somewhere in the dark city one of Jesus' supposed friends, the man called Judas, was even then slinking through the alleys with murder in his heart!

Jesus well knew what was in store for him. He knew the Sannhedrin would call him a blasphemer, he knew what the Romans would do with him, once they got their hands on him. Worse than this must have been the tragic sense of failure.

"I would, but ye would not," he had said in tears to this very city; a city full of enemies who should have been his friends, of unbelievers who should have believed, a city he loved, but which had nothing for him but thorns and a cross.

All this was on Jesus' heart that night—and as many Christians believe, far more. One of the most profound Christian thinkers has suggested that the heaviest, most painful shadow on Jesus' white soul was the sense of guilt, not his own but for the sins of the world.

Blood and the Angel

SO JESUS PRAYED. Even in the cool spring night his forehead was covered with sweat, falling to the rocky ground like dripping blood. Never rose prayer from a more tortured heart. And what came of it? In one sense, the prayer was not answered. The cup did not pass from him, he must drink it to the last bitter dregs. The prayer did not remove the pain. Yet in a deeper sense, the prayer of Christ was fully answered. "Not as I will, but as Thou wilt," he breathed. The prayer that sets one's own will in line with the will of God, whatever His will may be, is the prayer that always finds answer. At the end, there was not release, but power. "An angel came and strengthened him."

What Prayer Can Do

JESUS "LEARNED" obedience by the things which he suffered." (Heb. 5:8.) We can share his lesson. The hour of pain is not the hour to begin praying; those who have not learned prayer before, will scarcely know how to pray in a time of agony. Yet the time of pain is not the time to give up praying. When the dark hour comes, Jesus did not throw aside his faith, he prayed more intensely than ever before. Prayer does not explain pain; much less explain it away.

Prayer does not always get rid of pain, even though in many cases the prayer of faith works where doctors fail. What true prayer does always is to set the one who prays in tune with the will of God even when that will is not as our own.

Prayer does not bring us all the answers to the riddles of existence. It does bring power to bear what God sends us. For God's answer to those he loves is not always escape, but it is always endurance.

FIRST AID to the AILING HOUSE

by Roger C. Whitman

Building A Basement Room

Question: We have a project in mind and I am able to do the work myself if I have a little help. We want to dig out a basement under the kitchen; we have two rooms under the house already. Have you any leaflets on tiling out the drain, and footings for concrete blocks? After the basement room is completed, we plan of a kitchen sink and cupboards. Have you any leaflets on plumbing for a kitchen?

Answer: Those are all rather large subjects, and I do not have any leaflets to cover them. If there is a good public library in your town, you should find handbooks on plumbing and piping on file. Other sources of information are the publishing house of Theodore Audel & Company, 49 West 23rd St., New York; also the Popular Mechanics Magazine, 200 East Ontario St., Chicago. The Portland Cement Association, 33 West Grand Ave., Chicago; can supply bulletins on concrete work around the house.

New Gasoline Process

The nation's transportation industries, worried by the current gasoline shortage, have been assured of an abundant supply of liquid fuel at reasonable cost when sufficient plants are placed in operation to use a new synthetic process from natural gas. However, this source of supply is not expected to be widely used for several years.

FREED FROM HARSH LAXATIVES

"I used to take laxatives regularly—until I started eating KELLOGG'S ALL-BRAN daily. That was 22 years ago. ALL-BRAN still keeps me regular!" Clarence M. Smith, 2501 S. Paul Avenue, Madison, Wis. This is just one of many unsolicited letters. If you suffer constipation due to lack of bulk in the diet, eat an ounce of ALL-BRAN daily, drink plenty of water. If not satisfied after 10 days, send the empty carton to Kellogg's, Little Creek, Mich. Get DOUBLE YOUR MONEY BACK! Buy today!

Farm Buying Power Still Shows Gains

Increase Well Above Cost-of-Living Rate

The current drop in living costs has given the average city wage-earner approximately the same buying power today that he enjoyed in June, 1945, final month of OPA. Though the farmer's buying power has edged off with the drop in food prices it is bumping against government price supports, and still shows a gain that is well over double the increase in the cost of living, according to a chart study of our ten-year-old war boom, made by the family economics bureau of Northwestern National Life Insurance company.

Ten years ago last winter you could buy a new four-door sedan for \$825, sirloin steak was 39 cents a pound, milk averaged 12 1/2 cents a quart, and you could build a five-room modern house for around \$3,000—but we had 10 million unemployed. Then European rearmament orders sparked our recovery

The above chart plots the course of the 10-year war boom. In January, 1935, America had 19 million unemployed and 44 million at work. Annual net income per farm was \$762. Industrial wages averaged \$24 a week, an annual rate of 31.24% from a nine-year-old depression, the study recalls.

After an even 10 years of recovery, boom, inflation, and tapering off, the score stands as follows: Net annual income per farm 300 per cent higher—it was \$702 in 1935, reached \$2,915 in 1945, and had sagged to an annual rate of \$2,800 by January, 1945. Weekly industrial wages up 130 per cent—from \$24 in January of '35 to approximately \$35 in January of '45. Living costs 71 per cent higher than 10 years ago, after nearly a four-point drop in the last few months. Finally, about three million unemployed—a normal "float", as economists call it.

Wage rates show a gain of 26 and a half per cent since June, 1945, while the cost of living index now stands just 23 per cent higher than in that final month of OPA. The actual living cost increase has been somewhat less than 23 per cent, the study says, since the government index naturally makes no allowance for over-ceiling prices which were general in the latter months of OPA; thus the wage-earner's paycheck of today buys him as much or slightly more than his paycheck of June, 1945, the study finds.

Percentage increases in worker paychecks do not reflect sharp additional gains made in so-called "fringe" payments during the past decade, such as more vacations, holidays, sick-leave, pension programs, etc., the study points out.

Poultry House Cleaner

A superior poultry house cleaning method has now been found—cleaning with a high-pressure sprayer. As shown here, the high-pressure spray actually pulverizes the dirt and droppings and blasts them away. Food Machinery and Chemical Corporation developed the sprayer that is doing the cleaning. It is said to do a better and cheaper cleaning job, faster and easier.

Hormones May Limit Frost Damage in Time

American apple growers, usually hard hit financially by late spring frosts will soon be able to avoid that obstacle. A combination of tracers (radioactive atoms) and hormones may make it possible to keep apple buds closed until the cold season has passed—thus saving the industry millions of dollars lost annually through damaged fruit. A spray would be used to cover fruit and prevent freezing.

Oldest Scrolls Of Bible To Go To High Bidder

BALTIMORE.—Four leather-bound parchment scrolls, described by a Johns Hopkins university archaeologist as "the greatest manuscript discovery of modern times," will be offered for sale to the highest bidder.

He will have to be wealthy. The documents are the four oldest manuscripts of the Old Testament known to date. Valued at more than a million dollars, they were brought secretly to this country early this year.

Discovered by wandering Arabs in a half-closed cave by the Dead sea in 1947, the parchments contain the entire Book of the Prophet Isaiah as it appears in the Bible, a commentary on the Book of Habakkuk, and a manual of discipline for a Judaea sect.

Experts say they were written 100 years before Christ—1,100 years before the date assigned to the oldest Hebrew Bible scroll previously known.

Sale Date Soon
An authoritative source, who declined use of his name, said the treasure would go on the block shortly. It is owned by St. Mark's Syrian Orthodox convent in Jerusalem.

Dr. F. W. Albright, professor of Semitic languages at Hopkins and one of the nation's top archaeologists; first established the authenticity of the scrolls from photographs sent to him.

Since then he has examined the originals. He reported:

"During the past few weeks any possible doubt about the age and authenticity of the scrolls has been removed."

He disclosed also that the documents were sent to the Metropolitan Museum of Art in New York. There chemists reportedly are working over one scroll whose condition has prevented its being unrolled.

St. Mark's was damaged badly in the recent fighting between Israeli and Arab forces in the Holy Land. It expects to get repair money from the sale of the manuscripts.

U. S. May Buy
The hope is that the U. S. Government may buy them. Among interested groups, however, is Yale University.

The find, whose worth to the Christian-Jewish world has been termed incalculable, was brought to America by Athanasius Yeshua Samuel, Syrian archbishop of Jerusalem and Trans-Jordan and Orthodox apostolic delegate to the United States.

The documents were already in the U. S., it was disclosed, when dispatches March 18 reported them hidden and guarded in Syrian homes to prevent possible damage or loss in Palestine fighting.

Dr. Albright believes that one of the scrolls—the one reportedly in chemists' hands now—written in Aramaic, the tongue of Christ.

And, he declared, it may contain another Bible book—which would double the monetary value.

Old Fluorescent Tubes Create Health Hazards

NEW YORK.—Industrial representatives have joined with New York city officials in issuing a warning concerning disposal of burned-out fluorescent lamps.

At a conference called by the department of health and sanitation, it was said that broken fluorescent tubes may create health hazards.

The tubes—of which 200 million are said to be in use throughout the nation—are reported coated on the inside with a phosphor which usually contains beryllium, a toxic substance.

It was said that skin cuts from broken tubes might cause a condition known as granuloma, a benign skin tumor. There also is a danger in inhaling dust from broken tubes.

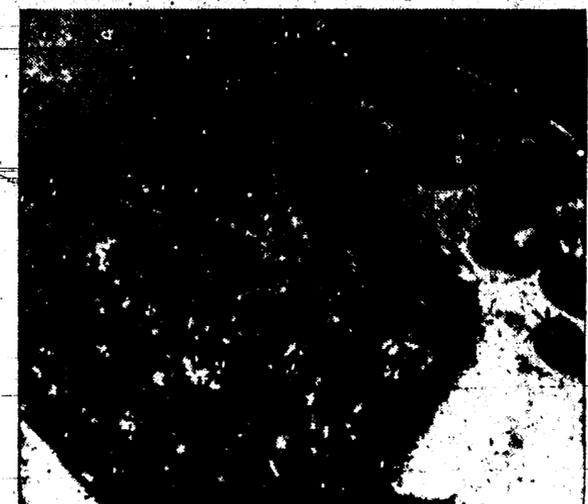

The conference, including representatives of firms which manufacture the tubes, unanimously adopted this list of precautions for disposing of burned-out tubes:

1. Keep discarded tubes away from children.
2. Never break tubes or place tubes in incinerator or open containers in the street.
3. Deliver tubes directly to refuse trucks.
4. Should a tube be broken, sweep up fragments and wrap them in heavy paper. Never handle broken fragments without gloves.
5. If cut by a broken tube, consult a doctor at once.

Modern Man Declared Now Uglier Than Ever

GRAHAMSTOWN.—"Men have never been so ugly as they are today," says Prof. I. J. Rousseau of Grahamstown, who advocates communal exercises on the beaches and folk dancing to "restore the physique of the South African male." The professor has campaigned against obesity for 15 years, describing the average male over 40 as "a comic, pot-bellied creature and a perambulating eyecore." Women's figures have improved, he thinks.

Strawberries Delight at Meal Time! (See Recipes Below)

Strawberry Parade

BRIGHT red, luscious strawberries are with us again in wonderful quantities! They're here to brighten menu plans as well as to delight the palate in numerous ways.

Versatile, too, strawberries add color and flavor to fruit cups, make glamorous salads, and even more tempting desserts. The season is short, so make the most of it with these super-special recipes.

The first on the recipe parade is an airy-fairy chiffon pie that uses strawberries in the pie mixture as well as in the garnish.

It's the perfect dessert to a heavy meal, and may be made well in advance of dinner or luncheon.

*Strawberry Chiffon Pie (Makes 1 9-inch pie)

- 1 envelope unflavored gelatin
- 3/4 cup cold water
- 1/2 cup hot water
- 1 cup sugar
- 1 cup fresh strawberry pulp and juice
- 3/4 teaspoon salt
- 2 egg whites
- 1 cup cream, whipped
- 1 baked 9-inch pie shell

Soften gelatin in cold water and dissolve in hot water. Add 3/4 cup sugar, strawberry pulp and juice, and salt. Cool until mixture begins to thicken and then fold in whipped cream and the stiffly beaten egg whites to which the remaining 1/4 cup of sugar has been added. Pour into a baked pie shell and chill until firm. Garnish with whipped cream and strawberries.

ANOTHER of the season's choice fruits is combined with strawberries to make a delectable pie.

Rhubarb and strawberries are a happily wedded combination both from flavor and color standpoint.

*Strawberry-Rhubarb Pie (Makes 1 9-inch pie)

- 1 1/2 cups sugar
- 3/4 cup flour
- 1 cup fresh strawberries
- 2 cups rhubarb
- 1 recipe pastry
- 2 tablespoons butter

Sift sugar and flour together and combine 3/4 of it with the fruit. Line pie pan with pastry, then sprinkle the remaining flour-sugar mixture over the bottom and add the filling. Dot with butter and arrange pastry strips over the top in a lattice design. Bake in a hot (425°) oven for 10 minutes. Reduce heat to moderate (350°) and bake for 30 minutes longer or until fruit is tender.

Here's a different type of strawberry pie, with sweetened condensed milk and cream cheese:

*Strawberry Cheese Pie (Makes 1 9-inch pie)

- 1 1/2 cups sweetened, condensed milk
- 3/4 cup lemon juice
- 2 egg yolks, beaten
- 2 ounces cream cheese
- 1 cup sliced strawberries
- 1 baked 9-inch pie shell

LYNN CHAMBERS' MENU

- Barbecued Chicken
- French Fried Potatoes
- Buttered Asparagus
- Tomato Cole Slaw
- Hot Biscuits
- Butter
- Honey
- *Strawberry Chiffon Pie
- Beverage
- *Recipe Given

2 egg whites, beaten stiff
3/4 cup sugar

Blend together milk and lemon juice. Add egg yolks, cheese and strawberries. Pour into pastry shell. Beat egg whites and slowly add the 3/4 cup sugar, beating constantly. Pile over the pie. Bake in a slow (325°) oven for 15 minutes. Chill pie before serving.

To make a crust for a single pie crust shell (9-inch), as called for in the above recipes, use one cup sifted flour with 1/2 teaspoon salt. Crumble in 1/3 cup of lard or shortening, and use pastry blender until mixture resembles coarse meal. Add two to three tablespoons ice water, just enough to hold mixture together. Roll lightly and spread into pastry tin. Bake in a hot (450°) oven for 15 to 18 minutes.

*Strawberry Cream Tarts (Makes 6 tarts)

- 6 baked tart shells
- 3/4 cup milk
- 1/4 cup sugar
- 1 tablespoon flour
- 1 egg, well beaten
- 3/4 teaspoon vanilla
- 1/2 cup cream, whipped
- 1 1/2 cups strawberries
- 3/4 cup currant jelly

Scald the milk, then mix in sugar, flour and beaten egg. Stir constantly, then cook over hot water until thick. Add vanilla; cool. Fold in whipped cream. Fill tart shells half full of this mixture. Arrange a layer of strawberries on top. Heat the currant jelly, until it melts, then spoon one tablespoon of it on top of the strawberries. Let jelly settle.

THERE'S NOTHING like short-cake, many strawberry fans, will say, so here's the recipe for an excellent one:

*Strawberry Shortcake (Serves 6)

- 2 cups sifted flour
- 4 teaspoons baking powder
- 1/2 teaspoon salt
- 1 tablespoon sugar
- 1/3 cup butter
- 1 egg, beaten

Sift together dry ingredients. Work in butter with a fork. Add milk, mixed with egg and blend together with flour mixture to make a soft dough. Turn out on floured board and divide dough into two parts. Pat each part, roll out and shape into a buttered round tin. Or, cut with biscuit cutter to make individual cakes. Bake 12 minutes in a hot (450°) oven. To serve, split while hot, butter and spread one quart of cleaned and sweetened strawberries. Top with whipped cream or serve plain or with thick cream from a pitcher.

Here's a frozen strawberry dessert which makes a good dessert for warm evenings:

Slices of cake which have become a little stale may also be topped with sweetened berries for a simple, economical dessert.

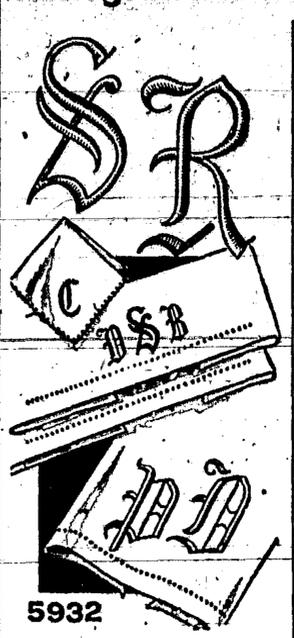

A bowl or a basket of assorted fruits and berries makes a beautiful dessert for a party supper be it family or party.

Pieces of fresh pineapple, combined with fresh whole berries and sliced bananas form the basis of a nice dessert fruit cup.

Fresh currants, sugared and chilled make a nice dessert too with fresh red raspberries.

MABRY ENDORSES CANCER PROGRAM

Governor Thomas J. Mabry today endorsed the American Cancer program being conducted in New Mexico and urged support for the current funds raising campaign.

New Mexico's quota for the 1949 program of education, research and limited treatment is \$30,000 according to information supplied by the New Mexico division of the American Cancer Society.

"Despite the mounting cancer deaths, we have reason to be optimistic," the governor said.

"During the last four years, the American Cancer Society has organized a large group of scientists to devote full time to the problem of conquering this disease."

"There is evidence that 1949 may well be the most important year of our lives in the program against cancer. We are fast reaching a climax in this conflict. If enough funds are made available to push forward the work of research and to bulwark the frontal assault of detection and treatment, we can be most optimistic about the outcome."

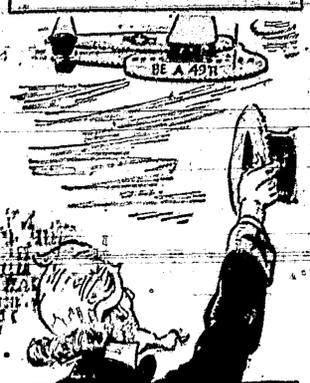

This year's campaign is being directed by the New Mexico Hotel Association, with President Fletcher Brumit, manager of the Hilton Hotel in Albuquerque, as drive chairman for the state.

REBEKAH LODGE NOTES

The much discussed topic "Changing Our Meeting Night" was put to a vote at the regular meeting of Conlara Rebekah Lodge 15 Thursday night. The twenty members present each voiced an opinion on the very best and most convenient nights to hold meetings. Our meeting nights, which have been the 1st and 3rd Thursday nights of each month, conflicted with other activities so that some of the members were unable to attend all the meetings. So after much discussion pro and con at the last several sessions, it was finally put to a vote and passed on the 2nd and 4th Thursdays. This date does not conflict in any way with anything so now the lodge will know whether their members actually do want to be loyal members and have a 100% attendance, or if that was just an excuse. The Bee Hive fund was increased by \$65 by the recent Gypsy Dinner held in the Home Ec. Room, and there are several excellent ideas "cooking" to increase it still more. The next meeting will be one of the most interesting we have ever had. Harriett Ratcliff is working hard to put over a memorial Service, and the cooperation of each member is essential. Following each meeting delightful refreshments, and a social hour is enjoyed, so let's all start counting on being present.

Mrs. H. W. McMillan who has been visiting her sister, Mrs. Jesse Carter in Tularosa, returned home Thursday with her daughter, Mrs. Clyde Atwood, who spent the day in Tularosa.

Uncle Sam Says

The modern 49'er doesn't have to travel overland to strike it rich. He can pile it up right at home with U. S. Savings Bonds. You don't have to risk your lives, as did our forefathers. You can sign up for Savings Bonds during the big "Opportunity Drive", May 16-June 30. In ten short years every \$3 you invest now will grow into \$4. You will thereby be assuring a sound America and your own future security. THIS IS YOUR OPPORTUNITY—act now and the future will be yours—your cherished dreams will come true. COMPARISON OF ECONOMIC CONDITIONS

Albuquerque—While retail sales for February of 1949 barely held even with February of 1948 for the nation as a whole, the retail volume in New Mexico gained 20 per cent for the same period, announced Prof. Ralph Edgel of the University of New Mexico Bureau of Business Research. The comparison of the economic conditions in New Mexico and the entire U. S. appears in the current issue of New Mexico Business, a monthly publication of the University.

The contrast, said Edgel, brings two questions to the forefront. "Why does New Mexico continue to lead the nation in retail sales?" and "How much longer can New Mexico continue to show up better in this respect than the nation as a whole?"

But Edgel added that, since New Mexico is not isolated, it is highly improbable that the state can continue at high levels for any length of time independently of a high level of economic activity across the nation.

In seeking for economic reasons that make New Mexico tick, the business researcher found that non-agricultural employment so far in 1948 has held up better in the state than over most of the country. Furthermore, even with government building projects in New Mexico accounting for large part of contract construction, well over 50 per cent of employment is carried on by privately financed firms.

Inflated construction activity is probably the weakest element in New Mexico's economy at the present time, said Edgel, and offers the least hope for continued high employment in the state. It is doubtful, according to the monthly business publication, with construction costs at an all-time high, if the market can continue to absorb the product of construction employment.

The second largest increase in employment occurred in manufactur-

ing. This phase of prosperity in New Mexico is one of the most encouraging aspects of the entire outlook and "may lend strength and stability to the economy of the state." Apparel stores were the only ones showing sales smaller this February than they showed in February 1948.

District I, taking in San Juan and McKinley counties, showed the greatest retail sales gain over Feb., 1948—over 40 percent. This can possibly be explained by the rather poor showing the same district made for 1948. District IV, Bernalillo, Torrance and Valencia, made the poorest showing with an increase of only 17 per cent during the year.

Only Chavez County showed a decrease in retail sales from last February, with a minus 4. The counties showing increase in order are: San Juan 72 per cent; Rio Arriba 69, Valencia 68, Catron 63, Lea 60, Harding 54, Colfax 51, Torrance 48, Sierra 42, Socorro 40, Curry 31, Eddy 29, Luna 28, McKinley and Taos 27, San Miguel and De Baca 26, Roosevelt 25, Grant 22, Santa Fe 20, Guadalupe 19, Lincoln 17, Mora 16, Dona Ana 13, Sandoval 12, Hidalgo 10, Otero 9, Union 5, Quay 4, and Bernalillo 3.

Shakespeare in Stainless Steel

It remained for Margaret Webster, daughter of the colored actress, Daise May Whitty and her actor-husband, Ben Webster, to put Shakespeare on tour in a Fruehauf stainless steel trailer. Every comfort, prop and electrical equipment made up the trailer load on the 40,000 mile tour of America's college campuses where the most of 21 alternates between Hamlet and Macbeth. The performances are sponsored by the board of education or the local chamber of commerce. The tour is scheduled to last 26 weeks this year.

NEW MEXICO NOTES

From A Wheel Chair By: Katherine B. Mabry

Someone has said that nothing can ever take the place of the powerful ruler of the human race in a democracy of free men—public sentiment. That is not to say that public sentiment or public opinion is always right. I do not understand the author of the above lines when he says that it is public sentiment...

We depend so much today upon the public sentiment motivated or defined by the free press and radio of the country. Both agencies have become so much a part of our lives...

Those of us who read much of the radio commentators and have our preference for those who avoid the pen or stand before the microphone. Those who feel impartially and accurately give us the news and seem interest in their analysis of controversial questions...

So many of us want to lean on someone we think is in better position to know the facts and advise us to depend in a large measure upon someone to whom we attribute greater opportunity for knowing the facts, the truth, and a superior talent for directing the course of our thinking in these troublous times.

Purposeful, or malicious, selectivity in reporting news, and dishonesty and bias in giving views on controversial subjects of current interest, is as much a violation of the ethics of the profession, as is told, as is plain distortion of a news story or an omission to report it at all because it may tell against one's own pet theory or purpose.

We all gladly salute the free press of free peoples everywhere. We cringe to think what could happen to us if we did not have this freedom to write and speak the thought of our minds and to take a stand on issues of the day.

We should not despair because some publications may appear to have lost, if they ever had, their power of persuasion. The point to remember is that they are free to try at least to mould opinion.

Some of us do yearn for the old days of the "Individual" newspapers whose opinions meant something to its subscribers because it reflected the character of the man who owned and edited it. Those were the days when newspapers of character really exerted an influence. It may be that our big papers of today are interested primarily in making money and, perhaps that is why our small town paper wields more influence.

FEDERAL FARM PROGRAM

Albuquerque—Sharp criticism of Secretary of Agriculture Brannan's proposed new federal farm program is contained in a letter to all members of New Mexico's Congressional delegation by G. W. Evans, of Magdalena, President of the New Mexico Cattle Growers Association. Text of the letter is published in the May issue of the NEW MEXICO STOCKMAN.

"It appears to me from a distance that the program is calculated first to fool the public and second to completely regiment all segments of agriculture," Evans said.

The Brannan plan, one of the most controversial programs ever introduced in Washington, supposedly would guarantee consumers low prices on agriculture products while maintaining the farmer's high return through direct payments covering the difference between actual consumer price and a support level established by the USDA.

Evans expressed the opinion that the nation's agriculture could not survive if it is placed under strict government domination.

"To my way of thinking," he said "it is strictly class legislation and a method of false economy. It is being sold to the farmer on grounds that it will insure and give him better incomes and it is being sold to the consumer on grounds that it will provide more food at a cheaper

LOOKING AHEAD

GEORGE S. BENSON, President, Harding College, Scarff, Arkansas

Worker's Dilemma

Whether to ask for another raise in 1949 is a question now vexing our unions. Shall they go on through this year without asking for another raise? Some unions are saying it will be bad business for the nation's workers to insist on another round of increases. Others, recalling that raises have been obtained three years in a row, insist that labor keep it up and demand another raise.

How's the way to answer this \$81 question, so that the American workman may have the \$81—and much more? Because it makes sense that any sound gain made by American workers will be a gain for the entire nation, I favor what ever will have the greatest long range benefit for American workers.

People who have their feet straight know that any substantial rise in wages must be followed by a jump in prices. This is elementary fact-and-figure economics. I would have another wage boom with the rise in prices it would bring—and the nation would keep on buying—that would be one thing. But there are strong indications that won't work again.

Pipelines of supply to consumer are beginning to fill up. The public is refusing to buy as it has for five years. Consumers are getting more price conscious. Many manufacturers are even now finding it hard to market what they produce. Some are already compelled either to decrease hours of operation or lay off workers.

If a wage boom now would result in more unemployment and lower wages in the long run, would labor unions demand the increase? No they would not. Yet that is exactly what would happen, if we should crowd the entire economy toward a depression. There are certain serious danger signals.

Here is a sample. On January 27 a Cleveland utility company awarded a contract for two generators to a Swiss firm. They cost \$1,140,000 which was nearly \$500,000 less than bids of three American firms. The Cleveland company had to accept the foreign bid, despite protests by American companies and by American workers.

Now that Europe is beginning to get into the market, it will be seen that America has no monopoly on manufactured goods in the world markets. Competition there is just beginning, and it will get tough plenty. Wage increases that push up prices, besides making more trouble just now in the home market, would make it hard for America to compete in foreign markets.

Foreign production will also continue to invade our home markets. Since living costs are already definitely going down, and since a wage increase would be very bad for the industries we work for, and would endanger our jobs, I'd say let it go. If we can keep present wage levels, and let prices come down, that will mean a real raise for everybody. That way, not only union members, but everybody will have their standard of living raised a full notch.

Have you heard Dr. Benson and the radio drama "Class of the President"? Check your local station for time.

"Actually it is the taxpayers program which will load all of our people with a financial burden beyond endurance," Evans stated.

In the same issue of the NEW MEXICO STOCKMAN, an editorial abolishes the Brannan plan, "Utopia without the price tag."

The New Mexico Cattle Growers Association consistently has opposed any form of government subsidies or supporting prices. During the March convention in Albuquerque, the association went on record opposing the Brannan plan—although at that time it still was in the rumor stage and had not been made public.

How Smiley Bowled 'Em Over

Dropped into the bowling alley the other night and there was little Smiley Roberts, who's built like a bird, showing the big fellows how to do it. He rolled an average of 184 for 5 games. That's bowling!

Later on, over a friendly glass of beer at Andy's Garden Tavern, I asked Smiley how he did it. "Practice, practice, and then some more practice," he said, "and I follow a regular set of training rules so I'll keep in good shape."

Then Andy chimed in. "To be really good at anything you've got to follow the rules. Take running this tavern. We tavern owners and the bowling industry have a Self-Regulation program we follow to see that places getting beer and ale are run right. When you follow the rules—you'll stay out ahead of the other fellow."

From where I sit, in sports or business it's important to "keep in shape." There are training rules, and tavern rules—and they help, say all!

OFFICERS OF NEW NATIONAL CITIZENS GROUP

The newly formed National Citizens Commission for the Public Schools has named the above four officers. From left to right: Roy E. Larsen, Chairman, president of Time & Life; James P. Brownlee, Vice-Chairman, former Deputy Administrator of the OPA; John A. Stevenson, Treasurer, president of Penn Mutual Life Insurance Co.; and Leo Perils, Secretary, Director of the National CIO Community Services Committee.

Prominent Laymen Form Commission To Help In Public School Crisis

Aroused by the continuing nationwide crisis in the public schools, a group of prominent men and women have formed a National Citizens Commission for the Public Schools which will work for concerted action by citizens in their local communities. It was announced May 18.

The Commission has received initial financial support from the Carnegie Corporation and the General Education Board. Dr. James B. Conant, President of Harvard University, hailed it as "potentially the most important move for the advancement of public education taken in the last fifty years."

The Commission is composed exclusively of laymen, many of them outstanding in business, labor, law and publishing. Its twenty-eight initial members are convinced that because of the problems of the times, public schools have never before been so important to the nation.

The Commission is the first organization of its kind established in this century to devote itself to the public schools. It plans to act as a clearing house of information on public school problems for local groups, and to pilot outstanding examples of community action for the improvement of public schools.

"Professional educators, many conscientious school boards, the Parent-Teacher Associations, and other groups are working hard for better public schools," Roy E. Larsen, president of Time & Life and chairman of the group, said. "But the problems of public education are so broad that they concern all of us, and it is time for all of us to understand and do something about them."

Headquarters of the Commission will be at 2 West 45th Street, New York City. When the group is fully expanded it will have sixty members.

CHICAGO RAILROAD FAIR

Amarillo, April 20—Preparations for the Chicago Railroad Fair on June 25 are well under way.

The Santa Fe Railroad has announced many improvements in its replica of a southwestern Indian Village which last year featured its exhibit.

Again native Indians from the Santa Fe Southwest will live on the fair grounds in the pueblos, hogans and wigwags which the railroad has constructed.

Authentic Indian sandpainting will be made up in a glass enclosure permitting them to be viewed by fair visitors without interrupting the medicine men who make the paintings.

Indian arts and crafts workers, applying the trades of silversmithing, weaving and basketry will be housed in an open shelter permitting Indian Village visitors to watch their handi-crafts. Also in the shelter will be two looms on which Spanish-American weavers will make the famous Chimayo blankets.

Vic Vet says

VETERANS, WHEN YOU WRITE THE VA, DON'T WRITE TO WASHINGTON... WRITE TO THE NEAREST VA OFFICE... THAT'S THE QUICKEST WAY TO GET FAST SERVICE.

The Indian Trading Post which last year attracted many visitors will be enlarged for the 1949 Fair.

Added to the Santa Fe exhibit will be an arcade located near the north entrance of the Village showing a section of all the states through which the railroad passes in large photographic murals.

A large quonset hut seating about 200 people will also be added to the Village and continuous motion pictures from 2 PM to 10 PM typical of the scenic southwest will be exhibited free.

WEEKLY NEWSLETTER

Despite several brickbats which haven't been shot yet - here goes another on the subject of husband and wives.

George Lawton, hardy and brave soul, wrote in the last issue of the Readers Digest:

"The American male of the middle income bracket overworks himself, his wife underworks herself. As luxuries become necessities, under the influence of modern advertising the American woman does less and less, lives longer and longer. He husband, his insurance paid up, die of a heart attack."

Plain words - them are, and due to be taken to heart by New Mexico women.

And Furthermore
The Louisville Courier-Journal says that "what annoys a woman most is to have people drop in and find her home looking as it usually does."

Dr. Walter C. Alvarez, whom we quoted two weeks ago, come out with a further statement that "women wear themselves out trying to make over the ordinary, good, kind prosaic husband into Charles Boyer."

Do Men Like Women?
Over a recent CBS broadcast, David Cohn made a flat statement that American men do not like women. He qualified his statement by saying that he was not referring to the love of one man for one woman. What he meant, he said, was that men do not like women as people.

Women have become so dominating, said Cohn, that even when she wears the pants around home, she is an unhappy creature and would be much happier if men would be more dominant! I! A victim of her own making!

Woman's tears, said the Santa Fe Magazine recently, are the most effective water power in the world

today. And the Omaha World Herald pointed out with the fact that plastics are not new because of what happened to Adam in the hands of Eve.

But marriage does bring music into the home. The husband learns right off to play second fiddle. Sad Feminine World

And into this sad, feminine world, Gordon Greaves, Portales editor, has brought another daughter - his second. Seems as if he'd know better.

The unmarried woman is in just about as bad a state of mental disrepair. The reason some women do not marry, says the Ladies Home Journal is because they see men as they are rather than as men see themselves.

Even if they marry an ideal, it often turns out to be an ordeal. Then Who's To Blame?

As the current argument waxes long and hot, it seems that man is about as much to blame for the unhappy females as the women are themselves. Man, by failing to assert himself, permits the woman to take over and wreck the whole scheme of affairs.

The young man arrives for his late and immediately asks: "What show shall we see tonight?" and "where shall we go for dinner?" If the poor simp had sense enough to take the bull by the horns he'd say: "We're going to the Alvarado for dinner and after that to the Kimb where there is a good show you'll like."

Instead, he asks her advice and keeps on asking it for the remainder of his life - after once saying those fatal words, "I do."

Women like to feel that somebody is in charge and when the condescending male refuses to assume this prerogative, she is forced to give directions and life is all balled up.

And In Conclusion

That's all this week except to tell you why a woman buys: 1. Because her husband says she can't; 2. It will make her look thin; 3. it comes from Paris; 4. her neighbors can't afford it; 5. nobody has one; 6. everybody has one; 7. it's different; and 8. "because."

M-Day For Operation Small Fry

Children will delight in helping to prepare and package these wonderful little coconut apricot balls, to surprise Mother on Mother's Day. Of course, Mother may have to be in on the secret if the tots are as young as those in our picture - but they won't mind, so long as she acts surprised when she opens the box on Mother's Day.

This candy is so simple to make - it requires no cooking, you see - that after the preliminaries involving the food chopper, small fry will be able to take over operations quite readily, with a little direction. And it can be great fun shaping the little balls, rolling them in coconut, and packing them into a gift box. If, during the process, considerable "tasting" is required to make sure the candy is just right for Mother, you can be sure that these fruity little coconut balls are a healthful, and wholesome sweet for youngsters.

Once the grown-ups have tasted them, Coconut Apricot Balls will not be limited to Operation Small Fry. They take so little time to make, and they are so good and so economical, you will want to include this attractive confection in your plans on countless occasions - for parties, as hostess and holiday gifts, or just to have around the house for the family to enjoy.

COCONUT APRICOT BALLS

24 dried apricots 2 teaspoons orange juice
1 can moist shredded coconut 2 tablespoons confectioners' sugar

Wash apricots and dry thoroughly. Put apricots and coconut through food chopper. Add orange juice and sugar and mix until blended. Shape into balls about 1/2 inch in diameter. Roll in shredded coconut. Makes 2 dozen balls.

A. & M. AG CLUB ELECTS OFFICERS

State College, N. M., May 24 - Dorman Brooker, junior agricultural service major from Ft. Sumner, has been elected president of New Mexico A & M's Ag Club.

Other officers for the coming year are Manuel Gonzales, vice-president, senior agricultural major from Taiban; Harvey Hutchings, secretary, junior agricultural service major from Tularosa; George R. WEEKLY NEWS ANALYSIS

Russian Motives Puzzle Diplomats As Berlin Blockade Comes to End; U. S. Spending Widely Criticized

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

BLOCKADE LIFT PREPARATIONS . . . Preparations to get things ready for the Russian lift of the Berlin blockade went busily ahead as agreements between the occupation powers fixed the time. Photos above show workers getting trains ready to operate under regulations fixed by the Soviets—rules which will permit 16 freight trains to operate daily into the city. Efficacy of the U.S. airlift in supplying Berlin with needed supplies despite the blockade was given major credit for the Reds' decision to end the road block.

BERLIN:

Up The Barriers

What had really impelled the Russians to lift the Berlin blockade, and how would the action affect world peace?

Those were two top questions actuating western power diplomats as a semblance of peace was restored to the troubled Berlin sector of Germany and the U.S. airlift eased off.

MANY OBSERVERS professed to see in the Russian action proof that the U.S. airlift operations had shown the Soviets so decisively the futility of maintaining the blockade, that even the obtuse easterners finally had seen the light.

There were others who insisted the blockade lift decision was motivated by a hope within the Kremlin that such an action would delay formation of a German people's government. However, this did not seem a tenable theory, inasmuch as the western powers already had declared plans to go ahead with such a project.

Seekers of peace attempted to see in the decision evidence that Russia really did not mean to make war now and that some as-yet-obscure motive looking toward continuation of Red expansion without recourse to arms was really behind the move.

SINCE MOSCOW'S original announcement concerning the end to the blockade, the order was broadened. Restoration of "transport, trade and communications" services was directed.

The order permitted 16 freight trains a day to move into Berlin, restored highway traffic, waived previous Soviet claims to search Allied baggage, and demanded Soviet travel permits at certain check points. Mail service was also to be restored. Actually, the Soviet order restored the Berlin situation to what it was on March 1, 1949.

Both British and Americans moved in reinforcements for the small units at border points to check papers of travelers and hotels and rooming houses had filled with persons waiting for the barriers to be raised.

PARROT:

Pretty Smart

Lorchen the parrot is a pretty smart bird.

HE LIVES in the Stamp & Coin Shop on Times Square in New York.

A customer tried to enter the store, but found the door locked.

However, as he turned away he heard Lorchen's instant screams: "Let me out! Goodbye, goodbye." Intrigued, the customer listened closer, heard muffled moans from inside the shop.

He SUMMONED a building superintendent who opened the door and found Gustave Moorz, 50, the parrot's owner and shop proprietor, bound in a chair by tape and wire. His mouth was taped.

Moorz told police two men broke into the shop, tied him and took \$444 from a safe and \$100 from his pockets.

Nuclear Scientist Gives Definition of His Kind

In Baltimore, nuclear scientist Robert D. Fowler, of Johns Hopkins University, gave this definition of a nuclear scientist to a group of government officials at a symposium:

A man standing in a field in absolute darkness with thousands of baseballs on the ground around him. Somewhere in the field, invisible to him, is a barn with but one window and some kind of animal inside.

The man picks up a ball and throws it in any direction. If, by some chance, it goes through the barn window and hits the animal, then bounces out again so that the man can catch it in the darkness—he attempts to identify the animal by smelling the ball.

That is something like a nuclear scientist practicing nuclear science.

Suggestions that U.S. spending might be curtailed somewhat were coming from several quarters. Latest source was President Truman's economic advisers who held the idea that some existing tax burdens might be lightened and that the administration might scale down its call for four billion dollars in new levies.

THE COUNCIL of economic advisors, whose function is to counsel with the President on fiscal matters as they affect finance and economics, was reported to feel that current business trends justify an early check on federal spending—that is, if the budget is to be brought anywhere near to a balance.

It was the council's opinion that such levies as taxes on the transportation of goods add to the business costs and consumer prices and impede an orderly withdrawal from the postwar business boom.

The council was more than cool to any extended public works program—indicating its opinion by refraining from making any such recommendations in its report. The advisers have consistently urged that local governments prepare "shelves" of public-works blueprints for use when needed to bolster employment and public purchasing power.

BUT THE PRESENT trend of the national economy—which council chairman Edwin G. Nourse called a "healthy disinflation"—does not warrant large-scale works spending now, the council said. Such outlays would make it harder to reach the goal of lower government costs.

After a White House visit, Nourse informed newsmen that the council expects "some further easing of living costs." Prices, he said, are continuing downward, but "not on a demoralizing basis and there is no need to dig into the storm cellars."

ROAD SAFETY:

For Boys & Girls

In the year 1947—figures for last year are not yet available—National Safety Council figures showed that 7,150 persons between the ages of 15 and 24 were killed in automobile accidents on American highways. In addition 330,000 boys and girls within that age group were injured in highway accidents.

ACCIDENT REPORTS from 29 states last year disclosed that 27 per cent of all drivers involved in accidents—or nearly one out of three—were under 25 years of age.

That was an appalling toll of the nation's youths and something, it appeared, should be done about it. Now, something was being done about it. The Inter-Industry highway safety committee had come up with a program designed to enlist the aid of youth itself in cutting down highway accidents and fatalities among the nation's youth.

The program is one of education which would tend to encourage greater responsibility on the part of younger drivers when using the family car. Program material now is being distributed to national organizations which agree to help sponsor the movement. The program is centered around drivers 15 to 25 years of age.

CHIEF INTEREST-and-cooperation-getter in the program are "man-to-man" and "Dad-to-Daughter" agreement cards. The agreements are for the signature of eligible sons and daughters with their fathers, and outline eight good driving practices which the young drivers agree to observe while using the family car.

All state and local public support organizations were urged to take advantage of this opportunity to help reduce highway traffic accidents involving youngsters.

Those interested were directed to write: Inter-Industry highway safety committee, 1026 17th street, N. W., Washington 6, D. C.

WHEAT YIELD:

Near-Record Crop

With wheat surplus already straining grower and governmental ingenuity in housing it, word was that the United States may approach a new crop record during the new season. Farmers, already off to a good start, were not surprised at a U.S. department of agriculture estimate of more than a billion, 21 million bushels from the winter-wheat crop. That estimate was nearly two million several weeks ago.

No official forecast was given on spring wheat, but the department said prospects point to around 300 million bushels for that type of wheat.

OFFICIALS indicated the tremendous wheat yield will create further surplus and might lead to government controls designed to cut the acreage in 1950 between 15 and 25 per cent. Controls would include planting restrictions and possibly marketing quotas for individual farmers.

No forecasts were given on other crops except rye, hay and southern peaches. But the department said reports from various parts of the country indicated progress of 1949 crops is encouraging. Rye production was estimated at 22 million bushels, second smallest acreage in 75 years. The hay crop was put at 101 million tons, a more than average yield. The peach crop in 10 southeastern states was forecast at approximately 15 million bushels, about the same as last year.

"Iron Man"

President Harry S. Truman is shown lighting the candles on a pre-birthday cake presented to him by the White House staff. Bundles in front of him represent only a portion of the birthday greetings he received. Having observed his 65th natal anniversary, the President was described as being in excellent physical condition—a veritable "Iron Man."

Loss in Strath

It was a rough day for London merchants. Thousands of women besieged west end stores in the biggest nylon stocking hunt London had ever seen. Crowds, including some men waited outside the stores at dawn. But it was in vain. The London Standard had announced the sale, but didn't mention that only 500 pairs of hose were issued to each of the 16 leading stores.

YACHT RACE STARTS . . . Yachts entered in the opening race of the 1949 America's Cup series for international design in Great Sound, Bermuda, got off to a fast, close start. Eight yachts were slated to compete in the series, four representing the United States, and the other four from Bermuda. The Wisp, one of the U. S. entries, whisked to victory in the first test.

INGRID BERGMAN "STARRED" IN ROMANCE TRIANGLE . . . Screen-actress Ingrid Bergman, pictured here with her husband, Dr. Peter Lindstrom (right) and Italian director Roberto Rossellini before they became co-starters in a dramatic love triangle, has announced that she will return to her husband after she finishes a picture in Italy which Rossellini is directing. Stories from the film's location and pictures showing her and Rossellini in romantic poses sent her husband speeding to the scene. The two men met in a yacht off Messina and it is believed the understanding was reached then.

CUTS BIRTHDAY CAKE . . . In New York, with his wife assisting, Israel's President Chaim Weizmann cuts slice from 450-pound, seven-foot-high birthday cake at celebration of Israel's first anniversary. Honoring Dr. Weizmann, 100 leaders from communities throughout the country presented checks totaling more than 15.5 million dollars to the United Jewish Appeal Organization's program of immigration and resettlement in Israel.

GLORIA SWANSON RESUMES MOVIE CAREER . . . In Hollywood, glamorous Gloria Swanson, one-time great star of the silent screen, was before the cameras again for the first time in the past eight years. Seen with Paramount director Billy Wilder, she will appear in "Sunset Boulevard," with Brian von Borstel, another old-time favorite.

EX-NAZI PILOT . . . A former pilot in the German Luftwaffe and machine-gunner in World War II, Karl H. Gebert now is in the U.S. army. He was taken from Abilene, Tex., to Germany by his parents when he was 12. War came and he went into the German air force. He was captured by the Russians.

QUEEN . . . Doris Zhart, 15, is shown after she had been installed as queen of the annual Brooklyn botanical gardens cherry blossom exhibit. The cherry blossom setting was emblematic of the occasion.

"URGE" TO KILL . . . Diane Allen, 12, confessed to WHI county, Illinois, police authorities that she drew a young boy playmate in a shallow stream in Joliet. Diane told police she simply "had an urge" to draw the boy—an urge which struck her while they were picking flowers.

PRIZEWINNER . . . Arthur Miller, 33, playwright, was awarded the coveted Pulitzer prize for distinguished efforts in the field of the theater. His new famous play, "Death of a Salesman," won him recognition.

SUCCESSOR . . . With news of retirement of Gen. Lucius D. Clay as military governor of the American zone in Germany, a likely successor was John J. McCloy, shown here. McCloy was reported reluctant to leave his present job.

... IN CLOTHES CLOSET THESE DAYS

H. I. PHILLIPS

CLOTHES CLOSET REFUGEES

The case of the young New York man who lived in a clothes closet for 10 years and, upon his release, cried, "I want to go back in there. I don't like it outside," is not as unusual as you might think.

This department has come into possession of the fact that there are numerous such cases. Elmer Twitchell, for instance, has a nephew, Pastrami Twitchell, who has not only been in a closet for 10 years, but has resisted all efforts to entice him out. "He went in during

Hitler's oratorical tirades over the milk. We nearly got him out this season, but he heard Vishinsky," Elmer explained. "Then he nailed up the door from the inside."

Other cases reported today, with statements by each follow: Thaddeus Swivelhead: "Yes, I have been living in the top-drawer of an old dresser for five years. I crawled in because of the depressing war news all over the world. After a little while I heard that the war was over and that peace had been declared. I came out, read the newspaper headlines and leaped back in again. I'm no fool."

Asa Z. Boogie who has been living on a shelf in a basement pantry ever since 1943: "I climbed onto this shelf when the prices of everything began rising, with government controls helping very little. From time to time I peeked out and found things getting more unbearable. I am a fugitive from 75-cent cocktails, beer at 17-cents a glass, \$4.50 steak dinners, 20-cent cocktails, shrimp cocktails at \$1.10 a throw, 80 cents for watered coup, the \$1.25 raw lamb chop delivered on the butcher's block and people who call up to know what radio program I am listening to. Come out again? Why?"

H. K. G. Stuffinbush, who has been residing in a filing cabinet for ever so long: "If you wish to talk to me, climb in. I refuse to come out for anybody. I consider that I am a sane, wise and highly judicious fellow. You and all others who prefer the outside world in its present shape are nuts. "The location of my home and my place of employment was such that I had to use the subway for north and south travel and buses for east and west. Once in a while when I went to a theater I had to get a taxi. I lived in an apartment where everybody kept the radio

on all night. A room across the hall was occupied by an opera star who vocalized all day. Every few weeks there was an elevator strike in the building. And in order to get to my job I had to cross nine picket lines. So I got into this filing cabinet and, mister, it seems paradise."

Jarvis P. X. Waffle, who has been living in an abandoned cello case ever since 1919: "I got in right after Woodrow Wilson announced America would make the world safe for democracy. I knew what that would mean. Now and then I get a pre-ty good line on what life is like outside this cello case and, boy, am I happy to be where I am! No flying saucer mysteries! No video comedians! No pop music! No radio jingles! No jackpots! They can't even get me interested in "Stop The Music."

There are so many daily changes in President Truman's cabinet that it seems to us something should be done to number the players or abolish the two platoon system in government.

"John L. Lewis Hopes to Avoid Strike."—Headline... Wanna bet?

Olympia flew to Churchill Downs by plane. It was just for practice. In his recent races the horse had trouble getting his landing gear down.

"Secretary of Commerce Sawyer administered the oats to his new chief aide, Cornelius Vanderbilt."—Journal of Commerce... Come, come, boys, the setup in Washington isn't getting that bad! "The psychiatrist said that the bank looter was clearly a victim of unbearable emotional conflicts coupled with a form of latent immaturity. The man attempted to establish an impression of importance, and in so doing got hopelessly into debt without the stability to correct this condition."—News

The New House

HERE Christ shall come, and here He shall abide.

Our table shall be set for our great Guest; Our lamp be lit, our hearts be warm and wide; And here He shall find shelter, food, and rest.

And He will talk with us beside our fire, And He will walk with us through every ark. We can confide each hope and each desire, No question be too great or small to ask.

Because He lives with us, is one of us, We shall take care no evil thing be heard; Because His ways are kind and courteous, We shall watch our ways, our every spoken word.

This is our new house, Lord, be Thou its Head; We gladly share its simple fare with Thee; Sit at our table, break and bless our bread, And make us worthy of Thy company.

The Fiction MURDER BY TWO

By Richard H. Wilkinson

IT SEEMS to be universally presupposed," said Inspector Ben Odell, "that people who aren't in their own element are at a disadvantage."

"I'm thinking of the time Detective Sergeant Rod Upshur went up to Round Pond for his summer vacation. Rod was city bred and city raised. He worked on the police force of one of the country's largest cities. He didn't know a great deal about the country and country ways. But he knew human nature, and he was smart.

"Rod was staying at one of those summer camps and was having a pretty dull time, when Henry Graves, the owner, came to him with a request.

"There's been a drowning up the river a ways," he explained. "Jed Thomas, the local officer, isn't so sure but what there's foul play. I know it's out of your jurisdiction, but we'd appreciate having you lend us a hand." He smiled flatteringly. "You see, your fame as a detector of crime is far reaching."

"Jed Thomas, a farmer by trade, was congenial and willing to let Rod assume the entire burden.

"Fact is, Mr. Upshur, there's been a feud hereabouts. Between the Hallams and the Spencers.

"Well, sir, couple days back Herm and Punk Hallam come to me an' says they was bait diggin' in their lower pasture and suddenly they sees a boat with Pat Spencer in it come sweepin' around the bend. He was clear across the river, which is about 200 yards wide there, an' they claim he hit a submerged log and stuck. They claim he tried to push himself off with an oar an' the oar slipped an' it an' him fell overboard. Well, sir, Pat can't swim an' he just naturally drowned.

"Jed Thomas drove Rod out to the Hallam farm and introduced him to Herm and Punk. They were big strapping fellows, sin us, amused.

"I see," Rod remarked to Jed, "that you recovered the oar Pat Spencer lost overboard."

"Yep," replied Jed, and not too happily, "I found it caught in some weeds along the bank about 15 yards downstream. I guess he mista' lost it, just like Punk and Herm said."

"Punk and Herm laughed.

"Wait a minute," Rod said easily. "Not so fast, boys. You two are smart all right. Too smart. So smart you made one awful blunder. Officer Thomas, I think you'll be safe in arresting these men and charging them with murder."

"O' course he did! Punk Hallam said darkly. 'Listen, city jigger, you ain't comin' up here an' refilin' away with accusin' us o' murder. You ain't scarin' us none. We got each other for witnesses."

"Fine," said Rod. "That makes the lie all the worse, because you both declare you saw Spencer fall out of the boat, first dropping his oar. No, I must confess I am a city man and the ways of the country are strange to me. However, any dumbbell would know after looking at that river and seeing that bend above here and knowing that there's a fast current, that

an oar dropped overboard near the opposite bank, could never lodge in underneath along the bank on this side 15 feet from where we're standing. It would be two or three miles down stream by now."

"For a minute, there was silence. The three men stared at Rod blankly. It took quite awhile for the announcement to penetrate. Officer Thomas fortunately, recovered first. He had a gun in his pocket and he got it out, just as Punk Hallam jumped at him. He had to shoot Punk through the shoulder, and would have done the same to Herm, apparently, had one more ounce of grey matter than his brother. He quit."

Brief Lexicology Of 'Bossy'

The first person to call a cow 'bossy' may have had a sense of humor, a knowledge of Latin, or a smattering of both.

On the other hand, the term may have just evolved—like Topsy 'grew'; the Latin word for ox is bos; in the Teutonic languages the root word is spelled variously bos, bosse, or busse—meaning barn, stall, or crib; such an evolutionary explanation supposes that a boss calf was kept in a barn or stall as distinguished from a calf grazing at large and that 'bossy' as applied to a cow was derived from the same source.

Don't Miss Saturday's Matinee

As one means of meeting Lincoln County's quota of \$1,000.00 on the building of the youth camp plans are made to show a special picture "Stillwell Road" Saturday, May 28, beginning at 2:30 P. M.

This is a film that you cannot afford to miss. It is an Army censored picture which has recently been released for showing to the public. Actual scenes of combat in driving the Japs back, and the story of this campaign is given as it actually happened. Plan to come and assist us by discussing the show with your neighbors. Regular theatre prices will be charged.
