

Rep. Dempsey Local Visitor

John J. (Jack) Dempsey, former New Mexico governor and at present a candidate for the House of Representatives...

Dempsey, a stalwart figure with snow white hair and keen piercing eyes, told The News-Outlook what he will strive to accomplish if elected...

Dempsey gained his experience as a member of U. S. Congress for six years he was New Mexico's only representative; governor of New Mexico for four years; undersecretary of the Interior; appointed member of the Maritime Commission in 1940 and Hoover Commission consultant on natural resources...

There must be a sound solution for the problems confronting this country, he said, and the solutions must be based upon the judgment of experienced men. The future security of the U. S. is the most important problem...

Dempsey believes one is as important as the other and as much care should be exercised in spending the funds created by taxation as is taken in collecting them. Today, he related, hidden taxes are so all-embracing that people do not know just how much and what taxes they are paying...

Dempsey expressed the thought it does not seem fair for the government to take a large slice of a man's earnings for income tax, and then tax him again when he wants to spend what is left for a car, shaving cream or talcum powder for the baby...

Should he want to call his mother long distance on some special day it would cost him a 25 per cent tax. Although this money obtained through taxes is the largest amount ever collected by the government in peacetime, the national budget is unbalanced and we are in the...

Marvin Roberts Named Head Of Ford Agency

By a deal announced this week, Marvin Roberts, who has been general manager of Lincoln County Motors, Inc., becomes president of the local Ford Motor Company dealership...

"I've been a Ford boy most of my life, starting right here as a 'grease-ball,'" says Marvin. "Before I came here, I've lived on a ranch and worked on the railroad, so I know the problems of wage earners in this community. In getting opportunity to become the Carrizozo Ford dealer, I'm realizing a long time ambition."

Roberts is a Mason, a member of the Lions Club and active in local Red Cross and Salvation Army work.

Rain Making To Be Explained

Of especial interest to Lincoln County residents is the announcement Mr. Barnes, Precipitation Control Company, Phoenix, Ariz., will lecture this week in Carrizozo on the art of artificial rain making...

Barnes is scheduled to speak Saturday, May 20, at 10 A. M. at Carrizozo City Hall. No admission charge will be made and the public is urged to attend and hear what promises to be a most enlightening and instructive explanation of the development of this comparatively new science.

Although ranchers and farmers are probably more immediately concerned as to the future value of this science, the individual's design for living may well be affected also by the success or failure in perfecting artificial rain.

Roy Shafer, Carrizozo, and Morris Spear, Claunch, have been in contact with Barnes for more than a month in order to complete necessary arrangements for including Carrizozo in his itinerary...

The sponsors, Shafer and Spear, feel the lecture is on a very timely subject and merits a large attendance.

Rainbow Girls To Sell Buddy Poppies Saturday

The Order of the Rainbow for Girls groups of Carrizozo, Capitán and Fort Stanton have been delegated to sell the Buddy Poppies in their local communities on Saturday, May 20.

Lawson Fish, commander Norton Pepper Post No. 7883, VFW, Capitán, will direct the selling of the poppies.

The public is urged to contribute generously to the disabled and needy veterans for whom the war will never end.

The local Rainbow Girls also honored their worthy grand advisor, Carol Hensley, at a banquet and meeting Wednesday evening at the Masonic Temple.

Juanita McSmith, worthy advisor, conducted the mock initiation held for the grand worthy advisor.

16 Scholarships In Music Offered By NMA&M

Sixteen scholarships which will cover applied music fees will be offered in 1950-51 by the New Mexico A. & M. music department.

Professor Carl Jacobs, head of the department, announced this week that two of these scholarships will be offered for piano, four for voice, three for string instruments and seven for brass and woodwind instruments.

The scholarships will not exempt students from tuition and regular fees, but will cover all applied music fees. The awards will be granted to students majoring or minoring in music.

Summer School Classes To Start Here May 22

Superintendent L. Z. Manfre, Carrizozo, announced this week enrollment in summer school classes will start May 22. Clyde Shultz, Carrizozo teacher, will conduct upper grades and high school classes beginning May 22, and ending early in July.

Classes will convene from 8 A. M. to 12 noon only, five days per week. Students attending these sessions are required to pay tuition, which will amount to approximately \$10 per subject.

Christian Service Society To Install Officers

The installation ceremony for the new officers of the local Women's Society for Christian Service will be held at the home of Mrs. F. O. Brown, May 24.

Following is the new roster: Mesdames L. Z. Manfre, president; Hazel McClintock, vice president; Charles Hodgkin, secretary; J. P. Turner, treasurer; Heavy Webb, secretary of spiritual life, and J. E. Thorstein, secretary missionary education. Everyone is welcome.

Starlighters To Play For Country Club Dance

Carrizozo Country Club members and their guests will dance to the music of Janet Vacher and her Starlighters Saturday evening, May 20. The Starlighters have fulfilled many previous engagements in Carrizozo and are very popular with the club's patrons.

The club's managers, Mr. and Mrs. Paul Nissen, will provide their usual excellent attention to the comfort of the guests.

Alamo Vets Win Two From Local Town Team

The Carrizozo baseball team dropped both ends of a double-header at Alamo, Sunday, 7 to 5 and 17 to 2, to the Alamo Vets.

In the first game, five Alamo runs crossed the plate in a big fourth inning. A double play cut short a Carrizozo rally in the ninth after three runs were scored. A home run was made by both teams with Bill Dolan, Carrizozo, getting his second four-bagger in as many games.

All members of the Carrizozo team, not used regularly, played in a live-inning practice game following the nine-inning regular affair. The only score for Carrizozo was a home run by Bob Huffmyer with one on. The Alamo team pounded out 17 runs, scoring every time they came to bat.

Too Many Gas Meters; Not Enough Guard Rails

The gas meter at the Honde Trading Post was broken off in an accident in which the automobile of a Mr. Bruton of Artesia was involved.

The sheriff's office reported the man drove into the parking lot of the trading post and apparently parked too close to the edge of an embankment. In backing, he reportedly turned his wheels too much and the car slid sideways down the bank, and broke off the gas meter.

Standard Oil To Drill Wildcat Near Carrizozo

The El Paso Times reports Standard Oil has announced plans to begin drilling a wildcat test well in the Carrizozo area of Lincoln and Socorro counties.

The test is to be projected to a depth of 3,500 feet, and the location is 1,900 feet from the north and west boundaries of Section 33, Township 8 South, Range 9 East. The well allegedly will test a block of 40,000 acres Standard holds under lease on the Carrizozo structure.

A Successful Season

New Mexico A. & M.'s 1950 stock judging team recorded a successful judging season that included a second place at the Western Livestock Show in Denver and a ninth place in the Southwestern Livestock Exposition at Fort Worth. The team competed with judging teams from 15 other colleges throughout the nation.

Team members shown above with two of their trophies are: Front row, left to right, R. H. HANCOCK, CORONA; Claude Martin, Hot Springs; Al Porter, El Paso, Texas; Bill Durio, Las Cruces; Professor P. E. Neale, coach.

Back row, Ross Duke, San Jon; Billy Smith, Roswell; A. K. Brown, Durango, Colo.; R. C. de Baca, Newkirk, and J. W. Hinrich, Greenville.

Corona Boy Takes Active Part In School Opera

Clifford Grossbacher of Corona, a student at Midland College, Fremont, Neb., and prominent there in college singing and dramatic activities, had a responsible singing part in the comic opera, "Robin Hood," presented by picked members of Midland's musical and acting organizations Thursday and Friday nights (May 11-12) in the Fremont City Auditorium, before large and enthusiastic audiences.

Cast members for this tuneful depiction of the merry outlaw of Sherwood Forest, according to ancient legend, were chosen from among the best singers of Midland's noted a cappella choir and the best actors from among the Midland Players, college dramatic society, for this joint production.

This was the most ambitious stage venture yet attempted by Midland students, and the first time that anything approaching the opera status had been undertaken. The Midland Players themselves have presented, during the current school year, Shakespeare's Merchant of Venice and also Jane Eyre, by Charlotte Rontie, while the a cappella choir has given numerous formal concerts, not only in Nebraska but also at various places in Colorado, Kansas, Missouri and other areas.

Medical Technologists Convene In Santa Fe

The New Mexico State Society of Medical Technologists held their third annual convention May 14 at the La Posada Inn, Santa Fe.

Some of the 30 members present had traveled from as far away as Roswell, Las Cruces, Fort Stanton and Gallup. Sister Joan of Arc, Las Vegas, presided over the meeting. Dr. Ralph Knisely, consulting pathologist, talked about the "Laboratory Diagnosis of Tuberculosis" and brought out for the benefit of the technologists the newest and best methods for the diagnosis of this dreaded disease.

White Oaks Boy Kicked By Horse; Leg Broken

Bobby Dan Crenshaw, 5-year-old son of Mr. and Mrs. Bud Crenshaw of White Oaks, suffered a broken leg Tuesday while riding a horse. The accident occurred when the horse Bobby was riding apparently came too close to one alongside, and the second horse kicked him.

The boy's parents recently returned from Mexico where Mr. Crenshaw was employed with the U. S. government in connection with the work of eradication of the hoof and mouth disease.

Youth Attempts Suicide; In Critical Condition

The sheriff's office here reports a local 17-year-old juvenile allegedly shot himself in the stomach this week in what appears to be a case of attempted suicide. It is also reported a note was found, but the officers have not divulged its contents.

Knifing Victim In Serious Condition; One Held

Charges of "suspicion of assault" have been filed against Ed. T. Evans, 23, in connection with the stabbing of Ben West Jr., 24, last week in Capitán. Both young men are from Alabama and are employed by REA in the construction of the line between Nogal and Capitán.

West is reported to have been cut deep in the stomach. Although West was said to have been in bad condition, he was reported this week to be improving. Both boys told the sheriff's office they didn't remember what happened. Evans is being held in the Carrizozo jail. West is in Fort Stanton Hospital.

Alamogordo Eastern Star Holds Friendship Night

Alamogordo Chapter of Order of Eastern Star held a "Friendship Night" last week to which were invited members of Eastern star chapters in Carrizozo, Ruidoso and Tularosa.

A buffet supper was served by Mrs. Scruggs of Alamogordo, worthy matron, and her committee. The meeting which followed was presided over by officers selected from the various chapters' officials.

Early Morning Blaze Destroys Refrigerator

A fire last week which completely destroyed a refrigerator in a house occupied by Mrs. Julia Sherrill is reported by Mrs. Vincent Bell, the owner.

The fire was discovered about 1:30 A. M. by Mrs. Sherrill who was awakened by a loud "popping" noise. Apparently the fluid in the motor exploded.

Although the walls of the room were charred, the damage was confined to the kitchen. Mrs. Bell said the loss was not covered by insurance. She especially commended the local fire department for their promptness in arriving to extinguish the blaze, and said the building would probably have been entirely destroyed except for their quick action.

And We Thought They Only Studied The 'Bum'

The sheriff's office here reports the request from a Brooklyn, N. Y., student for information concerning the history of William Bonney (Billy the Kid) so he can pass his examinations.

The county's law enforcement officers are digging up the material needed.

Former Resident Shooting Victim

Funeral services for Earl J. Traux, former Carrizozo resident shot to death in a Lakin, Kan., boarding house, were held May 16 in the Nelson-Fulmer Memorial Chapel in Las Cruces.

The 51-year-old cabinetmaker was shot to death by Walter G. Cox, 53, with a 16-gauge shotgun. Cox then fatally wounded himself with a .22 caliber rifle, a Lakin coroner's jury found. The men reportedly had argued over the noise each made at the rooming house where both lived.

Traux is survived by 12 children, including a son, Thomas, El Paso; five sons, Robert, Paul, Newton, Louis and Harvey, Las Cruces; daughters Elbie Traux, Las Cruces, and Mrs. Mary Wallace, Vaughn, N. M.

He was a native of Marshall, Minn., and a graduate of the University of California. He formerly was assistant county surveyor in Lincoln County. He later worked for the Southern Pacific in El Paso. The Rev. John Parrott of the First Baptist Church of Las Cruces officiated. Burial was at Slumbering Mountain Cemetery near Las Cruces.

Alamogordo Eastern Star Holds Friendship Night

Alamogordo Chapter of Order of Eastern Star held a "Friendship Night" last week to which were invited members of Eastern star chapters in Carrizozo, Ruidoso and Tularosa.

A buffet supper was served by Mrs. Scruggs of Alamogordo, worthy matron, and her committee. The meeting which followed was presided over by officers selected from the various chapters' officials.

77-Year-Old San Patricio Man Killed By Auto

Jose Bernabe Lara, 77-year-old San Patricio man, was killed Tuesday about 7:30 P. M. at San Patricio when he was struck by a car alleged to have been driven by a San Patricio juvenile.

The sheriff's office stated Lara was apparently waiting along the highway when he was struck head on. Lara and his wife had been making their home with a daughter, Carmen Lara, San Patricio.

The inquest was conducted by Manuel Chavez, justice of the peace, Carrizozo. Charges have not been filed, the sheriff's office reported, pending further investigation.

Two Cars Crash Near Ft. Stanton; No Casualties

Two juveniles were involved in an automobile collision on the road between Fort Stanton and Highway 390. No one was injured.

The boy driving the first car apparently made a sudden stop to avoid hitting a horse in the road, and the second vehicle reportedly crashed into the rear of the first car.

L. Kinnard, Editor and Publisher

Sunday afternoon The News-Outlook editors started out on their second trip for exploring Lincoln County. They were headed for Ruidoso via Capitán, Lincoln, Hondo, San Patricio and numerous other small communities between Carrizozo and Ruidoso.

The same change from desert to wooded panorama between Ancho and Corona is also to be seen between Carrizozo and Capitán. As one tops a small hill before reaching Capitán, the community is spread before your eyes.

Probably the first building noticed is the large and attractive Capitán High School. From there on one pictures the town as it was in the days of yore when old buildings, still standing, were as new as today's city hall, among many others. The town's background of wooded hills provides a pleasant setting for this progressive minded community.

A history of Lincoln County's settlement and growth would make interesting reading for both old and new residents, and is a project contemplated by the News-Outlook.

The first stop was made at the museum in Lincoln. What a wealth of history is to be found there! Lincoln County's history embodies three cultures—Anglo, Spanish and Indian. Many memories of Billy the Kid are there—carefully preserved. William (Billy the Kid) Bonney hangs down in history as one of the most famous men in Lincoln County. Beloved by some, and despised by others of his contemporaries, he yet remains one of the most controversial characters.

Maurice G. Fulton, curator, pointed out many historical and valuable records as well as memories of days in Lincoln County's history. It would take a book to do full justice to this museum. Fulton explained the restoration work now being done and what they hope to accomplish.

Markers to identify the various historical buildings in Lincoln are now available, he said, and will be erected shortly. Work on the septic tank is progressing rapidly. The museum officials hope to rebuild the old adobe corral, which existed at one time, to its former appearance. There are a number of reasons this project would be of advantage.

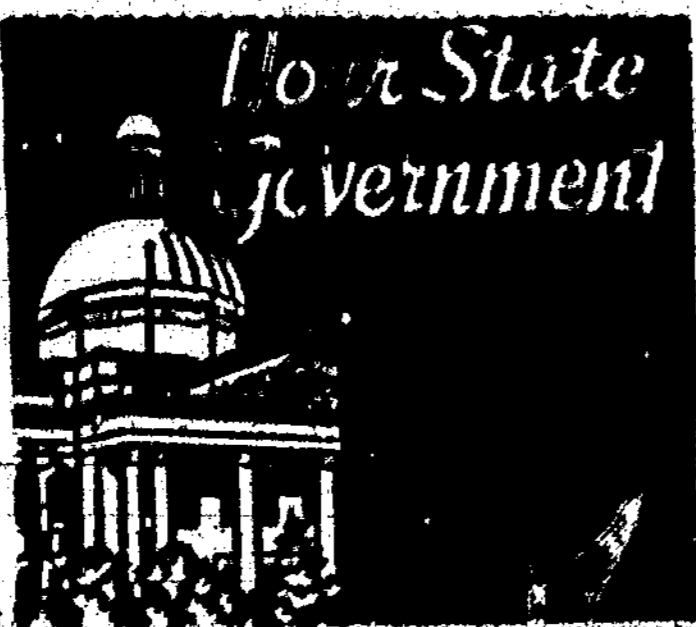

First and foremost in the attraction the museum, in a natural setting, would have for tourists. The corral would tend to separate the building from its immediate surroundings, and give it the background it once had. It would also afford a setting for the display of old vehicles and other exhibits not suitable for indoor showing. Not least in importance, is the fact it could serve as an outdoor auditorium for small scale entertainments such as costume dances, motion pictures, etc.

Members of the present Lincoln County Memorial Commission are E. C. Hawkins, Farmington; G. W. Carr, Portales; Mrs. Ora L. Eldsworth, Fort Sumner; Alfred Hunter, Alamogordo; Harold Miller, Carlsbad; W. H. Duckworth, Clovis; Jim Cooley, Roswell; Mrs. U. D. Sawyer, Cresco, and Bert Pflingsten, Lincoln.

Browsing among the records and exhibits in the museum had consumed more time than we realized, and upon emerging discovered the afternoon was well along. We had another stop to make in Lincoln but became confused over directions and were out of town before we found the place. About that time an incident occurred that distracted us from all else—a loud screaming noise. After making sure it was something on the car, we decided it was a part needing grease. Actually, however, a water pump had become defective, so we pulled into the Hondo Service Station where the manager located the source of our trouble.

This delay prevented us making other contemplated stops if we were to cover the territory we had mapped out for the trip.

After passing San Patricio, we ran into a fairly heavy shower of rain in the midst of bright sunshine, but with heavy clouds over the surrounding mountains. Soon we were passing through the communities of Green Tree

By Thomas J. Mabry, GOVERNOR

"Fear and prejudice agitate the simple differences in our way of thinking, and demagoguery exploits them. Too many people try to out-shout when they can't out-reason you."

New Mexico, as we all know, is a rapidly growing state. For various reasons it has not been possible as yet to establish here large manufacturing industries employing thousands of people. For various reasons it has not been possible as yet to establish here large manufacturing industries employing thousands of people.

Our efforts in this direction have been very productive; in fact, more productive than most people realize. Some of these industries, or manufacturing

and Hollywood.

From Lincoln on, we noticed the evidences of irrigation and commented on the lush green of the section of land so irrigated.

From there the land took on a green look, and as we approached the resort communities of Green Tree, etc., we noticed with pleasure the attractive homes and buildings with their well landscaped grounds.

We confused Hollywood with Ruidoso, and had to be directed. This entire section makes a beautiful setting for winter and summer sports, and once Highway 54 is completed, the tourists from the East will certainly have no lack of variety of scenery in Lincoln County. They may enjoy practically any type of vacation they desire. Once in Ruidoso, we renewed acquaintance with W. A. Hart and Pat Farrar and met their wives. We also met the Farrars' son and daughter-in-law, as well as their small granddaughter who gleefully informed us she'd been on a picnic and had "waffles and potato salad." We met also Messrs. Davis, Samelson and Crosby, and Mrs. Iva Coleman while there.

The hours had gone by so quickly it was time to start home before we were ready to call it a day. Darkness had fallen when we reached Hondo again and turned towards home. In Capitán, although quite late for social visits, we stopped to say hello to Carl and Mrs. Ness. The hospitable Mrs. Ness who had just returned from Las Cruces, opened her Mother's Day box of chocolates for her visitors. Little did she know the capacity of the editor's wife for chocolates, who made a sizeable inroad on the box.

Again started home, two sleepy people declared they would allow more than an afternoon the next time they made the trip.

The trouble is, the paper must come out each and every week, so the editors have to juggle time as best they can. They see plainly Lincoln County can't be covered in a day, a week, or even a month. At least, we've started and we never expect to finish making trips and visits in Lincoln County.

plants, employ only two or three workers, while others employ considerably more.

Many people will be surprised to learn that during the period 1929 to 1947, New Mexico experienced a growth in the value added by manufacturing of 511 per cent.

This is by far the greatest percentage gain of any state in the entire nation. The average percentage growth for the United States was 204 per cent and for the second highest state, South Carolina, only 370 per cent. The other western states all showed a gain, the highest 267 per cent, but the average was less than 200 per cent.

While percentages are always a little tricky, it is nevertheless encouraging to know that our gain on this basis was so great and so much higher than that of any other state in the entire nation, not to say in the Rocky Mountain area.

There are several other indications which point up this very healthy situation. In 1943 for instance, there were 379 manufacturing plants in the state. Today there are 521. Persons employed in manufacturing in 1943 totaled 5,420. Today there are more than 11,100. That is an increase of well over 100 per cent in the last seven years.

For the general employment situation, we have an equally optimistic picture. In 1943, for instance, there were 5,557 employers, in the state who engaged 57,242 employees. Today, we have 9,894 employers in New Mexico with a total of 138,900 employees. That is an increase of over 109 per cent. Agricultural, ranch and domestic labor is not included in the above figures.

Through the work of our newly created Economic Development Commission, and with the cooperation of state and local officials and community groups, we have every reason to believe that this favorable picture can become even brighter.

We have all of the elements here for continued, orderly growth. Through the utilization of our natural resources, and by making the most of all of these elements through proper leadership, there is no reason why New Mexico cannot stay at the top on a percentage basis in industrial growth.

The type work that our Economic Development Commission is doing under the direction of Chairman Robert McKinney in behalf of lower and more equitable freight rates, is another factor which ought to give great impetus to this small business and general industrial growth.

We consume less meat per person now than 50 years ago (1900—152 pounds per capita; 1949—147 pounds). The top year for consumption of beef, veal, lamb and pork was 1908, with an annual per capita consumption 163.3 pounds.

JOHN CRICK RICH, New York couturier, suggests Yalk, Green & Elger Checkboard buttons and white organza to give a fresh buoyant look to last year's basic dress. Clever slinky tucks give the covered 1949 winged look and the red-and-white transparent Checkboard adds the final touch of couturier chic.

Grass is America's biggest crop. It covers 958,000,000 acres, or 60 per cent of the United States.

"Now I know why they call it a party line!"

• "There was an edge in Dad's voice when he said that, and he doesn't get irritated with me often. But I'd been calling the gang about the Spring Dance and I guess maybe I *did* have the line tied up for a long time. Well, that upset Dad because he was waiting for an important call, about a special out-of-town order or something.

• "I'm afraid I sulked for awhile, because I still had lots of calls to make. But I can't stay mad at Dad for long, and anyway his call came through and he got the order!

• "Then, right out of the blue, he promised me that new formal I'd been wanting—and all it cost me was a 5-minute lecture on being a little more thoughtful about tying up the telephone, especially when it's on a party line. (I have to admit, that little lecture made me realize how easy it is to block important calls by tying up the line with a long series of calls.)"

Nogal Mesa

By DOROTHY GUCK

Barney Luck Jr., son of Mr. and Mrs. Barney Luck of Alto, has accepted a job with the Game and Fish Department at Conchas Dam. He will act as assistant to Elmo Traylor.

Sonny, as his friends all know him, has been fire lookout with the Forest Service for 10 years. In 1940 he manned the new lookout at Buldoso under Ranger Gordon Gray. He worked there the next year under Ranger Tom Buchanan. In 1942 Sonny moved to Monjeau, where he has been stationed during fire season for eight years.

Sonny is leaving the tower with some regrets. He has spent many a lonely vigil on the high peak that overlooks all of the White Mountain District, but at times he has witnessed some of the most thrilling and spectacular sights of nature. As lightning strikes all around, the tower with Sonny in it, vibrates and roars with the static sound. In 1945 when Buldoso suffered a great fire loss, and the Bonita had a 3,000 acre fire, Sonny was at his post, helping advise the ranger as to the extent and direction of the flames, for many days and nights.

The earliest the Monjeau lookout has been manned is March 31. Sonny was working in El Paso when the Bonita fire started this year on March 12. When he heard the news over the radio, he quit his job and headed for Monjeau. For three days he was radio dispatcher for the Capitan fire, receiving messages at Monjeau directly from the fire camp, and transmitting them by phone back to Capitan or Block Lookout. The latest Sonny has stayed on the tower is August 8. At times he has remained at his job day and night without leaving for supplies, for 30 days.

Sonny has about 1,500 visitors during the summer. To each he is courteous and cheerfully willing to answer their many questions. His only difficulty came one year when a young girl climbed atop the stone railing and shouted, "I'm going to commit suicide!" and jumped. A very angry Sonny picked the girl up, washed off her bruised knees, and sent her home with some stern words of advice.

Sonny, and his very sunny disposition will be missed, but we can't help but wish him words of good luck in the new job which promises to be more permanent.

Willard (Dub) Cooper is replacing Sonny on Monjeau for the summer.

The little bear rescued from the Capitan fire was flown to Santa Fe by Ray Bell, examined by a veterinarian, and turned over to the care of the Game and Fish Department.

Duster Luck of Capitan caught a trout May 11 in Nogal Lake measuring 26 1/2 inches. It is the largest ever caught there, and was witnessed by many fishing enthusiasts. No fake stretching was needed for this super fish.

CORONA

By MRS. A. E. MULKEY

The Corona Baptist Church is holding a vacation bible school this week and next, May 15 to 26. Twenty-two were enrolled Monday and more are expected to enroll before the week is over. The school is for children from 4 through 16.

Corona school teachers away for the summer are Mr. and Mrs. George Rogers, who are in Colorado; T. E. Ford, who plans to attend Las Vegas Normal University; Miss Martha Kerr will attend Mississippi Teachers College; Miss Julia Kerr plans to attend Greeley College, Colorado; Fred Burgess will attend Las Cruces State College and I. H. Burgess, Mrs. Zelpha Atkinson and Superintendent and Mrs. L. Parker will spend most of their time this summer in Corona.

Margie Melton, daughter of Mr. and Mrs. J. M. Melton, and Newman Merritt, son of Mr. and Mrs. L. K. Merritt of Corona, were married last week. Their friends wish them a happy and successful life together.

John Earnest Tracey is visiting in Tatum, N. M., this week. Byron and Myron Yancey and Tommy Tafoya went this week for tryouts for football at the Highlands University.

Rev. Howard L. Holland of San Angelo, Texas, will hold services at the Corona Presbyterian Church Sunday, May 21.

Mr. and Mrs. Alberto Jarnagin took Mrs. P. H. Buchanan to visit her sister in Austin, Texas, last Friday. They returned via Tahoka, Texas, and brought home Mr. Jarnagin's parents, Mr. and Mrs. E. L. Jarnagin. Mr. Jarnagin Sr. is recovering from a heart attack which he suffered about three weeks ago while on his way home from visiting a sister who was ill.

It was reported that a little more than .60 of an inch of rain fell around Corona last week, but we understand the rain was not general.

\$5,552 School Tax

The school tax collected in Lincoln County during April, 1950, totaled \$5,552. This figure includes \$11 in license fees.

Maytag Reduces Prices On Washing Machines

The Maytag Company of Newton, Iowa, has notified Carrizozo Hardware Company of a price reduction on all washing machine models.

Attributing the action to "large scale production and manufacturing economies," Maytag officials this week announced a reduction of \$10 on automatics and \$5 on conventional washers.

"In the past 18 to 24 months, Maytag has spent many millions of dollars for new and modern equipment and facilities to achieve cost reductions," Roy A. Bradt, Maytag vice president in charge of sales and advertising, said in a letter to dealers, announcing the price cut. "Materials, both raw and manufactured, have shown definite trends upward in costs and more increases appear to be in the offing. Our manufacturing division, however, has done a superb job in absorbing the increased costs and in using our large volume of sales to the best advantage.

These reductions have been made at the earliest possible moment and in spite of the fact that our factories are working at capacity and with a sizeable backlog of unfilled orders."

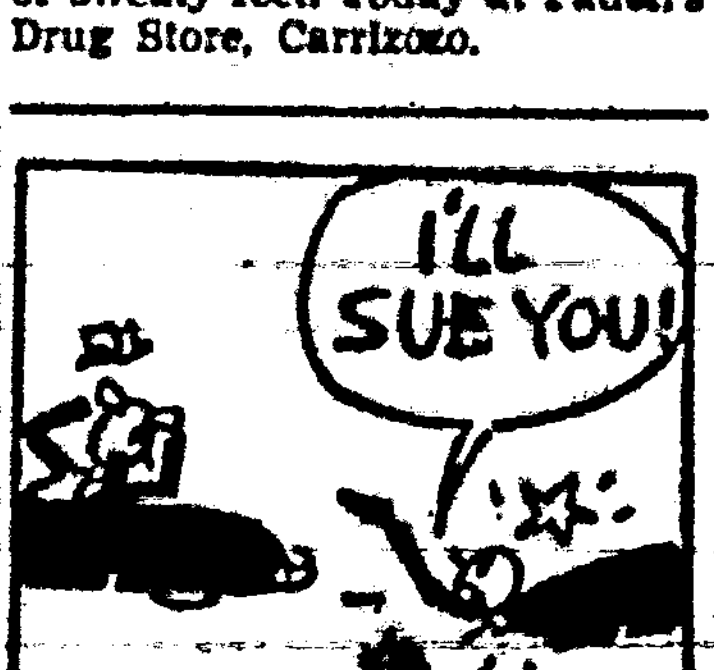

The Maytag Company recently built an ultra-modern, multi-million-dollar plant at Newton for manufacture of its new automatic washer, which is meeting with phenomenal acceptance over the country resulting in a sharp increase in originally contemplated production schedules for the product. Large areas are to be added to the new plant this summer for production of a newly developed clothes dryer and for warehousing of appliances.

The original factory, also at Newton, was started in 1893 and was recently the scene of a big open house celebration, marking production of Maytag's six millionth washer. The company also distributes ironers, gas ranges and home freezers.

Fort Stanton

By FRANK SMITH

Lieutenant Willett White, USN, instructor of naval science at the UNM, Albuquerque, was the principal speaker at a meeting of the Reserve Officers convention, Las Cruces, Saturday, May 13. After the meal, Willett and his family came to the Fort to spend Mother's Day with his family. Information came to me that it was the mother of Dr. J. C. Archer, former M.O.C here, who died recently in Abilene, Texas. I deeply regret to write that Mrs. J. C. Archer (Bennie) died after a bad attack of the flu. Mrs. Roy E. Whitehead was hostess last Thursday to a number of ladies at a bridge party. Those present were Mesdames Merrell, Burleson, White, Parker, Payman, Kuslanovich and Baker. A regular bi-weekly bridge party is about to start, with the different ladies alternating in being hostesses. Dr. Rodger MacQuigg did quite a little work during the brief time he spent at the hospital. He will have to stay a little longer the next time due to some major surgery in the office. Edwin P. Brewer left here in the best of health—singing the praises of Dr. Whitehead and the wonderful work he is doing at the Fort. Medical Technician Lawson D. Fish is much respected among a bunch of technologists as was evidenced by the many questions turned over to him for answering at the recently held convention of New Mexico Medical Technologists at the La Posada Inn, Santa Fe, on Sunday, May 14. Fish was unanimously elected delegate of the group to the national convention to be held in Houston, Texas, in June. Your correspondent went along on the Santa Fe trip and had a very enjoyable time. Mary Anne Cox and Guy Tom Howard are among those going to Chihuahua, Mexico, when the senior class makes a trip there on May 16-19 from Captain Union High School. Planning in from Roswell, Dr. R. P. Waggoner, consultant surgeon, made a perfect three point landing on the mesa on Mother's Day. Dan Kuslanovich is the latest subscriber to The Lincoln County News-Outline. Others will soon be wanting to have this paper in their homes. Charles A. Blomberg dropped in to tell me that he had a letter from Mrs. Linden E. Johnson, hoping he was better; the paper showed that he had a heart attack—the latter was very mild and Charlie still stayed in overnight. This may be the last column for a little while as I may leave for a few weeks to see what salt water and sunshine will do for me.

San Patricio

John Latham, brother of Howard Latham and uncle of Henry Latham, passed away yesterday. All of us were very fond of Uncle John, and we extend our sympathies to his family. San Patricio is still well represented at the fire in the Captains. Fire fighting is now a matter of mopping up the smouldering stumps and cleaning up some of the slow burning areas. The new padre had a record attendance for his first Sunday. He seems to be as likeable as Father Hammer. Two fickle clouds have hung low, making us even think rain

B.F. Goodrich TIRE HEADQUARTERS

Of America's 19,000,000 veterans of all wars and campaigns, nearly 100,000 were in Veterans Administration hospitals at the end of April.

For many thousands of these, the war truly will never end. They are doomed for the remainder of their lives to remain charges of their government—grim reminders of the tragic price of war.

A grateful nation has seen to it that these heroes—some bedfast for life, others destined to spend the rest of their days in wheel chairs or on crutches—get the best of medical care. Modern hospitals and highly trained doctors and nurses see to their physical needs, thanks to the American tradition that it is the obligation of government to "care for him who shall have borne the battle."

Much as it provides in the way of physical care for its sick and disabled war heroes, the government cannot give them the extra comforts they need to make their drab lives more bearable, and

to remind them that they are not forgotten. That is an obligation which must be assumed by their grateful fellow citizens as an expression of gratitude for the sacrifices they have made, and in recognition of the patience and forbearance with which they are carrying the burden of their handicaps.

The Veterans of Foreign Wars has gladly met this challenge by lending a helping hand in their battle against doubt, boredom, bitterness, and despair. In addition, the Veterans of Foreign Wars, through its service officers in every community, makes sure that the dependents of hospitalized veterans are cared for.

When you are asked to buy a Buddy Poppy, remember that every penny contributed by the American people in this campaign will be spent during the next twelve months for veteran welfare work exclusively. Most of what you give for a Buddy Poppy will be spent right here in our own

community—for the benefit of our own needy veterans and their dependents.

The contribution you make through the purchase of a Buddy Poppy will be spent strictly for these patriotic purposes:

- For the aid, relief and comfort of disabled and needy veterans, their dependents, their widows and orphans.
- For maintenance or expansion of the V.F.W. National Home for widows and orphans of veterans at Easton Rapids, Michigan.
- For hospital or individual assistance and entertainment for needy veterans and service patients, and their dependents.
- For rehabilitation, welfare and service work, including Nelson service with the Veterans Administration.
- For necessary expenses for military funerals of deceased veterans.
- For acquisition, improvement and maintenance of burial plots and the decoration of graves of veterans and servicemen.

Phillip Henry Suckles

Phillip Henry Suckles, youngest child of the late Mr. and Mrs. Frank P. Suckles, was born June 20, 1924, at Socorro, N. M., and passed away at 12:55 P. M. Tuesday, April 25, 1950, at Albuquerque. He attended elementary and high schools in Socorro and lived there until 1945 when he moved to Corona and was united in marriage with Miss Zelpha Stroope. Since that time he has worked in different parts of New Mexico and in Missouri, but has called Corona "home."

He became a member of the First Presbyterian Church of Socorro at the age of 14 and lived a Christian life as evidenced by his strong devotion to his family, friends and fellow workers. Characteristics of "Phil" were a ready smile, a keen sense of humor, an intense interest in all sports from a local to a national level, and a willingness always to help. Survivors include his widow, two sons, Clarence and Bruce; one daughter, Janell; two brothers, Percy of Socorro and George of Danti; three sisters, Mrs. Franko Balding of Rocky Ford, Colo., Mrs. Irene Ferguson of Los Angeles, Calif., and Mrs. Gwendolyn McKay of Houston, Texas. Services were held in the Presbyterian Church of Corona with the Rev. L. Markham officiating. Burial was in the Corona Cemetery. Pallbearers were Jackie Davidson, Archie Perkins, Nolan Vickery, Arthur Melton, William Hamilton and Frank Smith.

there and Vaughn. Mr. Johnson also stated the Harris engineering firm is staking the C section of 479 miles of line making service available for the first time to 480 farmers, ranchers and residents of the Estancia Valley, Punta, Mazzano, Abo and Scholle districts. The cooperative suggests that you use a local licensed electrician and that you deal with your local established electrical appliance and equipment dealers as this will enable you to receive better service on your equipment and any additional service that you might need.

Johnson said "there are no dealers or wiring electricians working for the cooperative, or sent by the cooperative. We are here to assist you, not to direct you."

Rep. Dempsey

(Continued from Page 1)

red between five and six billion dollars, he said.

One of the ways to lower prices is to reduce and eliminate the federal government's share of every item we buy, Dempsey said, otherwise from present high taxes to complete confiscation is but a step.

Dempsey believes government bureaus and agencies should receive careful scrutiny and waste stopped, and economy in spending should be the watchword. Although he is in favor of foreign aid he warns against permitting it to affect our economy adversely and lowering the American standard of living, and that we must ever be on guard against lowering our standards since our standard of living is what has made our country great and enabled us to help so many of the world's people.

As a member of the Hoover Commission Task Force on Natural Resources, Dempsey states he has made a thorough study of natural resources, and it is his firm conviction a total saving of from three to five billion dollars a year could be made in government expenditures. He also believes our national security, general prosperity and the extent to which funds are made available for federal spending are dependent upon how and to what extent our natural resources are developed.

Because water is the greatest of all natural resources (and a most valuable one in New Mexico), Dempsey said every drop of rain and every piece of soil upon which that rain falls must be protected. Soil must be kept from washing away and from blowing away. The better we protect our soil and watersheds, the better may we control our water supplies, in his opinion.

Expenditures by state and federal governments in the development and conservation of water and soil will enrich the state and country. They are permanent benefits. New Mexico is losing much needed water because of lack of flood control; especially in the Pecos Valley and the Middle Rio Grande Valley, he continued, although the latter is now on the way to being controlled, Dempsey related it has been demonstrated in the Rio Grande from Caballo to El Paso that canalization of the stream could prevent floods and save water. The canalization project has saved 70,000 acre feet of water annually; a tremendous saving to a water starved state.

It was graphically demonstrated, he pointed out, what occurs when water is controlled and "used for irrigation, rather than permit it to be uncontrolled and destroy the land on which we depend. Dempsey will also, if elected, work for a long range program of federal aid for education, but with sole control vested in the individual states. He believes expanded control of state matters by the federal government should be discouraged rather than encouraged. He said he would continue to work for adequate provisions for care of disabled veterans and their dependents and a continuation of veterans preference for federal and state employment.

Dempsey said it is simple to adopt a "go along" policy, and anyone sent to Congress can do that although essentially that is no representation at all. He added any public candidate should approach the voter on the basis of his record. He feels his experience qualifies him to give New Mexico the kind of representation wanted and needed back in Washington. Dempsey urges voters to let nothing interfere with their voting on June 6, and to see that their neighbors vote also. Two weeks ago, he said, only a small percentage of eligible voters take part in the primary which means a minority actually controls the election.

Dempsey was born in Pennsylvania and came to New Mexico in 1928 from Oklahoma. In 1933, he was drafted as state NRA director and was later made director for New Mexico of the Federal Housing Administration and National Emergency Council. Governor Arthur Seligman appointed him a member of the board of regents of the University of New Mexico, of which he was later made president. He was elected to Congress in 1944 on the Democratic ticket, and through re-election served until January, 1949. He resigned from the office of undersecretary of the interior in June, 1948, to become a Democratic candidate for governor of New Mexico. He ended his second term as governor December 31, 1948.

One of the Dempsey sponsored bills was the soil conservation act which restored millions of acres of nature-ravaged lands in New Mexico and other states.

White Oaks

By MRS. E. W. WHITWELL

Mr. and Mrs. Robert Huffmeyer had as guests over the weekend Mr. and Mrs. Nell Smith of Dexter and Mr. and Mrs. Emmett Starkey and daughter of Morenci, Ariz.

Mrs. Harry Watson of Buidoso has been here visiting her niece and nephew, the Tommy Stewarts.

Mrs. Bud Crenshaw and two sons have returned from Mexico City.

Mr. and Mrs. R. E. Lemon and granddaughters have been visiting in White Oaks this week.

Mrs. Simpson, her daughter and son-in-law and children of Greenville, Texas, have been visiting the Owen Simpson family.

From 1910 to 1950, the output of the American farm worker increased 121 per cent.

Water resource development he obtained brought high levels of agricultural and livestock development to the state. He was responsible for much of the Rio Grande, Pecos and Canadian River watersheds development and their great irrigation projects.

An outstanding honor was accorded Dempsey when he was made a member of the rules committee, most powerful in the House of Representatives.

It is reported his program of rigid economy during his administration as governor of New Mexico resulted in the largest state treasury surplus up to that time, and the saving of funds through that economy made possible the state capitol buildings remodeling now under way.

An adequate primary and secondary road program has always received strong support from Dempsey, and he is responsible for much of the paving of Highway 54 within Carrizozo as well as south of here.

"SEQUEL TO TRAGEDY" Fate continues to weave strange patterns in the lives of Bud Goltum and Louise Overell—the two lovers who once were tried for killing her parents with dynamite. Once they were freed of all charges, they forgot their vows of undying love and devotion and went separate ways. It's in the American Weekly, that great magazine distributed with next Sunday's Los Angeles Examiner. (Adv)
