Volume XXIV, No. 47 (Carrizozo News, Vol. 44)

CARRIZOZO, NEW MEXICO, Friday, June 30, 1950

Outlook, Volume 41, No. 8

## Date For 'Old Lincoln Day' Is August 6

On Monday evening a large group of Lincoln County residents met on the grounds of the Lincoln County Museum in Lincoln to make plans for the annual "A Day In Old Lincoln" and the pageant on Billy the Kid which is scheduled for August 6. A huge campfire was built by J. G. Ramey and A. L. Hulbert and the latter prepared and served coffee to the crowd.

Doughnuts were passed around to go with the coffee. Many had brought a picnic supper, and the food was spread out for all to enjoy.

The setting was perfect for the meeting—surrounded by mountains, green trees and a moonlighted sky, it highlighted the campfire around which the group settled to discuss their plans for the coming event.

Wilbur Coe, Bert Pflingsten and Caroline Davis were the principal speakers. Mr. Coe outlined the general background of this annual celebration in Lincoln County, and introduced Mrs. Caroline Davis who will be in charge of events. She announced the various committees which will serve and told of their need to secure the services of a number of actors. Children will be welcome to appear in the pageant as they are needed to give realistic touch to the various scenes.

Mrs. Davis outlined the various properties that will be necessary to stage the production, and expressed the hope last year's actors will be available this year. The majority of last year's participants are expected to take part in the 1950 pageant. Another meeting is scheduled for Tuesday, July 11, at Lincoln, to more fully work out plans for the August 6 event. In all, five meetings are planned prior to the festive day. It was pointed out the participants travel considerable distance to the meetings and it was planned to make it as easy as possible for them, and not schedule unnecessary meetings.

The following committees have been appointed:

Construction: Messrs. Baker, Bingham, J. G. Ramey and Barney Aldaz.

Publicity: Mrs. Helen Nash Whitehead and Dan Storm.

Refreshments: Mr. and Mrs. J. G. Ramey, A. L. Hulbert, Mr. and Mrs. Edgar Phillips, Mr. and Mrs. Dan Gilles and Belle and Bill Wilson.

Properties: Dan Gilles, Christobal Zamoras, Roman Maes and Esmal Salas.

Horses: Edgar Phillips, Jiggs Marr, Wilbur McKnight, Truman Spencer Jr., John Thomas, Tom Babers, Leroy McKnight.

Ammunition and Guns: Ralph Bonnell, Charles Fuller, Leo Joyner.

Notifications: Mesdames Garner, Joyner, Guest, Nosker and Taylor.

Music: Wilbur Coe, Bruce Griffith, Louise Mable and Sydney Bonnell.

Costumes: Mesdames Bruce Griffith, Wallace Ferguson, Sydney Bonnell, John Thomas, Roman Maes, Leroy McKnight and Mrs. Annie Ramey.

Makeup: Paul Gardner, Mrs. Jeff Dockray, Mrs. Wilbur McKnight, Mrs. Ambrose Guest and Mrs. Ralph Bonnell.

Dances: E. S. McClain, Fernin Montes, Ophelia Salas, Mrs. Jeff Dockray and Mrs. Roman Maes.

## Grand Officers Visit Carrizozo Odd Fellows

Grand Master John Klassen, Albuquerque, paid his official visit to Carrizozo Lodge No. 36, T.O.F., Tuesday evening. He was accompanied by Gayle Dellinger, past grand master, also of Albuquerque.

Klassen, a former Carrizozo resident whom many will remember as a Methodist minister here, gave a very interesting talk on his plans for the year.

Grand Warden Herbert Guyton, Deming, was also present for this official visit and gave a short talk.

## Vada Lou Morgan Weds Local Man

Vada Lou Morgan, Captain's daughter of Mr. and Mrs. Roy Morgan, became the bride of G. W. Chapman, Carrizozo, son of Mr. and Mrs. L. B. Chapman, at a single ring ceremony Saturday, June 24, at 8 A. M. in the Captain Methodist Church. The altar was decorated with baskets of white gladioli, fern and blue delphinium. Branched candelabra held tall white tapers. Clyde Shults of Carrizozo read the rites.

Preceding the ceremony, Mary Ann Cox, pianist, played "The Lords Prayer" while Raynette Edington lighted the candles. Veda Lou Branum of Carrizozo sang "Because" and "I Love You Truly."

The bride, given in marriage by her father, wore a ballerina length dress of white frosted organza with white picture hat and white slippers. She carried her white rainbow Bible with decor of white carnations and shower of white ribbon and baby's breath. The only color in the bride's costume was long pink nylon gloves loaned for the occasion by Mrs. Ray Province. Something blue was a blue star sapphire ring loaned by the bride's aunt, Mrs. Herbert Holcomb. Something old was a coin worn in her shoe.

She was attended by her sister, Miss Shirley Morgan, as maid of honor, whose pink eyelet organza dress was fashioned like the bride's. She wore white accessories and carried a corsage of white carnations.

Best man was Mervin Smoot, Carrizozo.

The bride's mother, Mrs. Roy Morgan, was dressed in navy blue with white accessories and corsage of pink carnations.

The bridegroom's mother, Mrs. L. B. Chapman, Carrizozo, wore a gray sheer with white accessories and corsage of pink carnation.

A reception was held immediately following the ceremony in the undercroft of the church. Miss Evelyn Cheney presided at the guest book. Mrs. Corine Province, Mrs. Travis Werner, Mrs. Wallace Ferguson, Mrs. Don Murphy and Miss Ruth Morris presided at the lace covered bride's table, which was centered by a three-tiered wedding cake served with coffee and punch.

Mr. and Mrs. Chapman left for a short honeymoon, the bride wearing a navy blue suit with white accessories and carnation corsage.

Out of town guests included the bride's grandmother, Mrs. Cora Morgan; grandfather, Albert Holcomb; Mr. and Mrs. Ray Emens, Mr. and Mrs. Herbert Holcomb, Mrs. Ann Holcomb and daughter, Joan, all of Alamogordo.

Other out of town guests were from Roswell, Glencoe and Carrizozo.

## Carrizozo Water Supply Somewhat Improved

Apparently the water situation in all of Carrizozo is continuing to improve. Although reservoir repairs are not expected to be completed for several days, there have been only two trains a day through town since the railroad strike began, as against approximately 10 ordinarily. The decreased use of water by the trains may have some bearing on Carrizozo's increase.

Last Saturday afternoon representatives of The News-Outlook visited the southeast section to observe first hand the conditions existing there. Faucets were turned on, but no water resulted. Except for those with wells who could irrigate, the land was extremely dry in appearance.

Residents were observed carrying water in all kinds of receptacles because they could get none from the faucets in their homes.

Since Sunday, however, the southeast section reports they have had water for the majority of the 24 hours in a day.

## Some Local Stores To Observe Long Holiday

Many of the local business houses will observe a long holiday weekend and remain closed Sunday, Monday and Tuesday, July 2, 3 and 4.

This is being done in order to give employers and employees an opportunity to get away for long weekend trips if they wish.

## Well Child Clinic To Be Sponsored By P.T.A.

The Carrizozo P.T.A. is sponsoring the well child clinic for mothers and children which will be held on July 6 and 7 from 12 noon to 5 P. M. at the Lincoln County Health Department offices at the courthouse, Carrizozo. Physicians will be available to make the examinations.

Mrs. Alje Bumgardner, county nurse, is chairman of the P.T.A. committee in charge of this work. She is assisted by Mrs. J. G. Moore, co-chairman, and Mesdames Meyer Barnett and John Littleton, members.

Clinics are also planned to be held during August and September dates for which will be announced later.

Physicians from Santa Fe are expected to be present at the clinics.

Well child clinics are held each month in the year, but during the summer months the P.T.A. organizations sponsor what is termed the "summer roundup."

The clinical work is done under the auspices of the County Health Department, but members of the P.T.A. contribute their services in performing work necessary in the conduction of the clinic.

The P.T.A. and civic organizations, such as the Lions Club, American Legion and Veterans of Foreign Wars and their auxiliaries, Women's Clubs and others assist the welfare of the county by contributing towards the purchase of glasses, etc., for needy children in Lincoln County.

Since the inauguration of these well child clinics, many children have been benefited who, otherwise, might have gone through school and perhaps life with deficient hearing and eyesight, as well as other defects.

One case cited is that of the youngster playing on the school ground. A visiting nurse noticed the child limping. Further investigation developed the youngster had TB of the hip, and remedial measures were taken immediately.

Other cases have been discovered of children whose unsatisfactory progress in school work was directly attributable to deficient eyesight or hearing. Still other children have had various medical ills, which, when learned and corrected, have made a great difference in their lives.

The County Health Department points out these well child clinics, although free, are decidedly not a form of charity. They are sponsored by the U. S. Public Health Service, state and county health departments in a nationwide attempt to keep well children well, and correct the medical ills of other youngsters before they get beyond control.

The health authorities are especially anxious to examine the children who will shortly enter school for the first time.

In connection with the aid afforded needy children by providing them with eye glasses, etc., without charge, it is stressed such aid should not be requested unless absolutely necessary. If the funds of organizations, used for such purposes, are depleted by a heavy and unnecessary demand, it could cause delay in providing a child in actual want with needed remedial aid.

These clinics are also provided in other towns in Lincoln County, depending upon their size and accessibility.

Corona does not hold a clinic such as is held in other towns in Lincoln County, but the citizens there maintain a small community chest. The county nurse examines the children regularly, and all worthy needy cases are assisted by the Corona Community Chest. Mrs. Dell Roberts is chairman of the Corona organization.

## Storm Interrupts Local Power, Phone Service

Local power and telephone services were interrupted Wednesday afternoon when a drenching rain, accompanied by thunder and lightning and high winds, fell in Carrizozo.

Telephone service appeared to be interrupted only at intervals, but the power was off for more than an hour.

The .53 inches of rain which was recorded here as a result of the storm more than made up for any inconvenience caused.

## Editorial

If a merchant chooses to be discourteous to customers, it is his affair, but when city employees for county, state or federal employes) refuse to answer the questions of the public they have been hired to serve, The News-Outlook believes the situation warrants investigation. Before proceeding further in this matter, The News-Outlook wishes to briefly outline the circumstances which have led up to the subject of government employes.

Carrizozo is experiencing a water shortage as this editorial is being written. The main part of town, with the exception of some people who live in upstairs rooms, is faring remarkably well. The residents in the southeast sector have been and are yet bearing the brunt of this water shortage. They have been wonderfully patient. At one time they were entirely without water for about eight days with the exception of very infrequent intervals when water ran in the mains for extremely short periods of time. Even then, it was reported, the water was so yellow in color they hesitated to use it for any purpose other than to flush their commodes. Those people without supplemental wells are carrying water from the railroad yards and anywhere else they can get it.

The Southern Pacific Railroad has men working at top speed to repair the reservoir where it is alleged leaks have caused the loss of more water than is being used here in town. Railroad officials have been quoted in El Paso and Albuquerque papers as saying the town will have all the water it needs when repairs are completed.

Before last week's issue of The News-Outlook went to press, we checked with Lawrence Queen, city utilities superintendent, regarding whether or not it was possible to turn the water off at intervals in the town proper so that the people in the southeast section could have their share. Queen explained it was not practical to do so inasmuch as there was danger of air pockets forming in the pipes, and, in case of fire, water could not get through the mains as quickly as necessary. During the course of the conversation, the utilities man said the city was hauling water to people in the southeast section who requested it, and would continue to do so. The News-Outlook accepted Queen's information in good faith and so printed it, along with other facts pertaining to the situation, to keep our readers informed of progress being made to remedy the water shortage.

After the paper was out last week, The News-Outlook received various reports concerning the water shortage, including those from people in the southeast section. Those in that section stated they were without water except for a little at night and sometimes again in the early morning. We urged patience, and they said if they could only be notified when water would be in their mains, they could fill their containers and avoid some of the inconvenience of carrying water from considerable distances. The News-Outlook pointed out it might be impossible for the city to do that, and again urged patience and called their attention to Queen's offer which had appeared in our June 23 issue. We told them we realized it was impossible for them to stay up 24 hours a day waiting for water, and that they must have sleep if they were to continue to do their daily work, but that it was an emergency which we felt sure would be ended once the reservoir repairs are completed. In the meantime, it was pointed out, the city had reported it was willing to haul water upon request.

Later, it was reported to the paper by reliable sources Queen had been contacted regarding the hauling of drinking water. He was asked not to bring it over in the tank in which the city had reportedly been hauling water to the southeast section. The same sources had informed The News-Outlook the tank in question was old and rusty looking and that water out of it had an oily appearance, and suitable only for flushing commodes. Queen is alleged to have said if the people couldn't use the water from this tank there was nothing he could do. It was reported also that his attitude was far from cooperative.

Whether or not those accusations are just or unjust, The News-Outlook is not prepared to say. We can cite only our experience with Lawrence Queen, the man whose appointment as city utilities superintendent was approved by City Council on May 23 at a "spur of the moment" meeting, of which The News-Outlook was informed on the following Thursday, June 1.

When reports come to a newspaper, they must be traced and checked for veracity. That is a public service performed by all conscientious newspapers. Unless the town's paper is ready and willing to conscientiously inform the residents on all subjects incidental to their welfare, and to defend their rights and privileges, at all times, then the newspaper has failed in the duty for which it was intended, and subsequently the town's progress is lessened.

The News-Outlook was only attempting to perform this public service when it called Queen concerning the reports on the tank used to haul water to the southeast section.

Queen informed The News-Outlook there was nothing wrong with the tank used—that it was a galvanized one and suitable for hauling water. When told about the reports an old rusty tank was being used and the water was so oily and dirty in appearance the people in the southeast section could use it only for flushing commodes, Queen told the paper, "I don't believe I have to explain my position to you. You can take anything you have up with City Council." He was asked why he took that attitude and replied: "It just makes me mad to have to answer this sort of thing every day."

The paper then told Queen it expected a civil answer when asking about public business. He said "I do not choose to answer," and hung up.

Is the public expecting too much in seeking to obtain information about a reported condition that could very easily affect the health of the community?

Perhaps Mr. Queen isn't aware that if the report proved to be true, it could result in a serious situation, his attitude in the matter certainly did not give The News-Outlook the impression he would attempt to prove the reports to be unfounded. Frankly, all newspaper people become skeptical when they receive evasive answers, answers such as Queen gave this newspaper, or hear a receiver "banged in their ear" when attempting to check on reports.

We freely admit the public can be trying at times, but they are entitled to receive courteous and adequate information. If government isn't a big business, why do we have huge numbers of city, county, state and federal employes to handle it? Government employes are hired to serve the public's interest, and should feel a moral obligation to perform their duties in such manner there can be no possible criticism. The writer speaks from experience as a former employe of both county and state governments in California.

Such treatment as accorded The News-Outlook and reportedly to other citizens by Queen would not have been tolerated there.

If it makes Queen mad to answer questions every day on matters relating to public interest, The News-Outlook wonders if he is temperamentally suited for the job of city utilities superintendent. There must be many days when a person holding as responsible a job as Queen is wants to "tear his hair." One test of an employe's suitability for such a nerve racking position is his ability to handle the public with a smile instead of a snarl.

We suggest Mr. Queen study the situation carefully and then if he is still of the opinion it "makes him mad" to answer the public's questions, it might be wise for him to step out and allow someone else an opportunity to prove his worth.

A public employe should be extremely patient and tactful in handling the public, and The News-Outlook wonders if Mr. Queen possesses these necessary qualifications.

It's up to Mr. Queen—if he desires to serve the public conscientiously and in a manner above reproach, we are for him, but if his attitude remains that experienced by The News-Outlook when seeking information of civic interest, we believe he is the wrong man for the job and should submit his resignation to City Council.

## Annual Rodeo At Capitan July 3-4

July 3 and 4 are the dates for the eleventh annual RCA approved rodeo to be held at the Lincoln County Ropers Club Arena, Capitan. The events start at 2 P. M. daily. The board of directors in charge of the rodeo are:

O. L. Wilson, president; Grady Eldridge, vice president; Jack W. Earling, secretary-treasurer; A. T. Pflingsten and John Thomas, members. Other members of the club are:

Ralph Bonnell, Tom Babers, William Gallacher, Pete Beauvalle, Raymond Davis, Rute Marr, Wallace Ferguson, Champ Ferguson, Hunt Hobbs, William Holmes, Thomas Karr, Fred LaMay, Roy LaMay, Ellis Marr, Fred Pflingsten, Allie Stover, George Perry, Buck Nosker, Dyer Forbus, Bill Ferguson, Fletcher Hall Jr., F. C. Stover, Bob Boyce and W. F. Coe.

Five main events are scheduled for each afternoon and include bareback bronc riding, saddle bronc riding, steer wrestling, bull riding and calf roping. Jack Shaw, topnotch roper who has performed in Madison Square Garden, New York, is expected to compete in the various contests.

Members of the Rodeo Cowboys Association will participate and the rodeo is also open to local cowboys. The association members are permitted to enter only RCA approved rodeos.

Stock for the rodeo will be furnished by Earl Moore, Clovis.

Admission is \$1.50 plus tax.

Also announced is the dance which will be held Monday evening, July 3, at the Capitan Grade school gym. The dance is an annual affair sponsored by the Capitan Fire Department and the Lincoln County Ropers Club.

## Dee Donnell Asked To Assist In Reassessment

At a second meeting of the Lincoln County commissioners on June 23, it was announced the commissioners will request Dee Donnell and Associates send a man to work with Ramon Luna, county assessor, in order to determine whether or not the new and higher property assessments are in order.

Harry Straley, Lincoln County commissioner, stated property owners in this county will be notified later regarding possible action to be taken. The county commissioners plan to meet as a board of equalization again to discuss the matter.

Straley told the group the state legislature last year passed the reassessment law, and the firm of Dee Donnell and Associates was hired by the state to do the work in connection with the new assessments. He added there appeared to be errors in their method of assessing property, and felt the matter should be investigated.

It appears this firm used the same formula on all property for making their valuation, regardless of property location. It was reported they were governed only by the outside dimensions of buildings and whether or not they were of frame, stucco, adobe, etc., construction. The commissioners reported they did not check on the inside condition of the buildings in question. In other words, it apparently made no difference whether or not the building had a floor, the type of material used where there were floors, etc.

The county clerk's office reported that up to 11 A. M. on June 23, approximately 50 Lincoln County property owners had registered their protests against the new tax valuations. In some cases, it was reported, property has been assessed as high as 300 and 400 per cent more than the previous valuation.

## City Council Meeting Date Changed To July 6

Mayor Vernon Petty has informed The News-Outlook the regular monthly meeting of Carrizozo's City Council will be held on July 6 at 7:30 P. M. at City Hall.

Regular monthly meetings of the town's council are held on the first Tuesday of each month, but since July's meeting date occurs on a holiday (July 4), the date has been changed to July 6.

## G.O.P. Victory Caravan Visits Here June 28

On Wednesday, just ahead of the storm which brought Carrizozo one-half inch of rain, the Republican Victory Caravan arrived here for a buffet luncheon and informal meeting, arranged by the local Republican Club.

Candidates traveling in the Caravan and the offices which they seek are: Edwin L. Mechem, governor; Paul F. Larrazolo, lieutenant governor; Steiner Mason, Congress, and Charles H. Corlett, commissioner of public lands. Mel Mencher, publicity director, is also with the group.

The members of the Carrizozo Republican Women's Club prepared and served luncheon to approximately 35 guests at the local fire hall. The attractively appointed buffet table was laden with the delicious homecooked food for which Lincoln County homemakers are noted. The guests were served cafeteria style and took their food to small tables scattered throughout the room.

H. Elfred Jones, local attorney, made an excellent master of ceremonies, giving pertinent advice along with his introductions. Jones pointed out during the course of the meeting there were 700 more Democratic voters than Republican ones in Lincoln County, but nevertheless it is a strong Republican county. He added there were many Democrats who are sympathetic to the aims of the Republicans in this county, and that the support of such Democrats is necessary and important to the success of the Republican campaign.

Mrs. Lorine Samelson, Republican candidate for Lincoln County superintendent of schools, spoke on the necessity of maintaining a two-party government.

(Continued on Back Page)

## Former Carrizozo Resident Succumbs In Roswell

Word has been received here of the death of William J. Ferguson, 74, on June 9, at Roswell. Funeral services were held at Westrum Chapel there on June 11 with the Revs. Claude Hartley and Howard Ingram officiating. Interment was at South Park Cemetery, Roswell, where Masonic services were conducted. Casket bearers were Maynard Wyatt, John Janow, Charles O'Neill, J. E. Neighbors, Tal Johnson and Pat Owens.

Mr. Ferguson was born in Canyon, Texas, and resided there for a number of years. He was employed as a pumper with the water department of Southern Pacific for many years, being stationed in various parts of Texas and New Mexico. He lived in Carrizozo for several years, where he retired in 1941. The family moved to Roswell in 1943.

He is survived by his wife, Una Ferguson, and six children, E. E. Ferguson, Antioch, Calif.; Mrs. F. M. O'Neil, San Francisco, Calif.; W. D. Ferguson, U. S. Navy at San Diego; Mrs. Josie Baby, Mrs. Fred Garrett and James Ferguson, all of Roswell.

Mr. Ferguson also leaves four brothers, two sisters, 10 grandchildren and one great-grandchild.

## Strike Reduces Railroad Service To 2 Trains Day

C. O. Brewster, Carrizozo station agent for SP, told The News-Outlook Thursday morning there are only two trains a day through town since the beginning of the strike by railroad switchmen. Brewster said they were passenger trains, with one traveling west and the other east.

The railroad workers are seeking a workweek reduction from 48 to 40 hours without loss in pay.

**Your State Government**

**By Thomas J. Mahy, GOVERNOR**

"Look for his good points, not his bad; speak well of him, ignore his faults; see his accomplishments, not his errors; for by so doing you give him strength, and no one is perfect."—Frank Emery.

A reader who has the mistaken idea that the governor has something to do with penalties meted out to drunken drivers wants to know why they get away with light sentences, not always jail, and that frequently drunken driving charges are reduced to cases of reckless driving.

The matter of sentencing all offenders rests in the hands of the courts, justice and district. The governor, quite properly, has no control over the courts. I think my position on drunken drivers is pretty well known. I have never yet pardoned one from confinement for this offense, except in two cases, and

rectly, from nice government aids, grants, subsidies, general handouts or preferential treatment—and are not a bit more regimented, restricted, regulated and controlled than the farmer. By the time you kids are 21 your subsidy ought to be a cinch. Already 25,000,000 fortunates get regular checks direct from government agencies, and we're improving that every day.

You and your generation have a great adventure awaiting you. Bill—discovering new things that government can do and new things you can do for the government. It will be exciting, for instance, devising a way to pay off the national debt with which all these wonderful services we are getting have been bought. As of today, the debt is only \$3,000 million for all you boys and girls 16 and under. It was \$1.1 billion when we took over in 1915. We've done well. It's \$250 billion now and we're increasing it by \$3 billion a year.

Yep, you youngsters are going to be sitting in the driver's seat in a great age, Son. As for ourselves, we're going to be sitting (period), thanks to your generosity yet unspoken. But excuse me now—I see the postman coming. He's bringing my check. I injured myself hastening to catch the bus nine weeks ago, was ill with exhaustion when I received home. I've been recovering nicely. The postman is bringing my Tuckered-Out-After-Hastening-To-Catch-The-Bus Compensation. I'll be okay again and back to work in 17 weeks, when the TOAHFTCB Compensation checks run out.

It's been a tough battle. But there's nothing too good for the youngsters of America.

that was where both the judge passing sentence and prosecuting attorney who prosecuted asked that it be done.

It is sometimes hard for the public to understand why some offenders get a lighter sentence for the same kind of an offense that draws for another a more severe penalty. That is also something which rests entirely with the courts.

The law, in most cases, prescribes not a fixed but a minimum and maximum term. For example, "not less than one nor more than 10 years," the law reads. The judges do give varying sentences under such statutes. They take into consideration the character of the offense and of the prisoner; the circumstances of the crime and the personal record of the accused.

No two judges are likely to feel the same about what should be the sentence, taking into consideration the example which should be set as a deterrent to others, the protection of society and the punishment justified and chances of rehabilitation of the offender.

It would be well if there could be more uniformity in sentences with respect to some crimes, no doubt. And yet the law fixed a hard and fast rule which the judge would be required to follow, there would be little chance for the exercise of that judicial discretion which is intended to allow consideration for the past life of the prisoner and the impulses which gave rise to the criminal act; there would be no opportunity to give advantage to the less evil motives and less perverted moral code of the man charged. The minimum and maximum sentences do give the parole board an opportunity to give recognition to the convict

who is truly repentant and whose conduct in prison gives reasonable promise of his reformation.

Since I have been governor I have invariably followed the recommendation of the board of pardons and paroles, or the judge passing sentence, at no time going over the heads of the judges or this board to exercise my own ideas of justice and mercy. The governor might in all cases act on his own judgment, as we know. He is not bound by the board's recommendation. The constitution gives him full and complete authority in such matters. But I have never felt it a good practice to do so.

We cannot expect busy business men and women to accept places on this and other important state boards if they know that their judgment and discretion is to be overridden by the governor just to satisfy his own idea of what should be done.

I can point to the administration of our state prison since I have been governor as an example of what it is to have good men in charge and to back them up with confidence and respect from the chief executive.

**WHAT'S THE SCORE, POP?**  
 Dear Pop:  
 The kids my age are growing up. We want to ask some questions about our country. Your generation has had control for a long time. How well are you going to pass along? How your generation strengthened our American heritage of individual freedom? Have you kept the American strain of self-reliance healthy and strong? What does the financial ledger show? Have you been paying your way? Are the books in balance? These questions have begun to bother us. They seem pretty important. What's the score, Pop?  
 Yours,  
 BILL.

Dear Bill:  
 You and your generation haven't a thing to worry about. We've done a great job for you. That glorious individual freedom our parents handed down to us—well, we've improved it, added a new freedom—the Freedom to Learn to Washington!  
 And that magnificent private enterprise system our dads and grandparents built—we've had it modernized in a Pennsylvania Avenue machine shop, fixed up good. Under government supervision it has got the country bustling at the seams with greenback money worth at least 50c on the dollar!  
 Yep, we've fixed everything so you kids will get what's coming to you—and good! We've done it all with a great discovery. Son, we've discovered government—in a big way! When we get through with it—or vice versa—it's going to be all yours, for vice versa!

The way we've got things fixed now you can grow cotton, wheat, corn, potatoes, hens or cows—anything!—and our wonderful government will pay you a handsome profit—and all you have to do is keep your mouth shut and be an obedient farmer when the government experts tell you what to do. You can become a merchant or a manufacturer and the tariffs, government contracts, subsidized loans and handouts to the Tom, Dick and Harrys who buy your goods will make you as good as the farmer's. To quit, you just grin and operate your business as directed by the government and John L. You can become a wage earner and get a minimum, or contract wage enforced by the government, an old age pension and other benefits practically free, and a raise periodically. You can get all this by merely conducting yourself according to union, company and government regulations!  
 If you are a veteran, a doctor, lawyer, teacher or professor, cop, state or local government, you benefit, directly or indi-

rectly, from nice government aids, grants, subsidies, general handouts or preferential treatment—and are not a bit more regimented, restricted, regulated and controlled than the farmer. By the time you kids are 21 your subsidy ought to be a cinch. Already 25,000,000 fortunates get regular checks direct from government agencies, and we're improving that every day.

You and your generation have a great adventure awaiting you. Bill—discovering new things that government can do and new things you can do for the government. It will be exciting, for instance, devising a way to pay off the national debt with which all these wonderful services we are getting have been bought. As of today, the debt is only \$3,000 million for all you boys and girls 16 and under. It was \$1.1 billion when we took over in 1915. We've done well. It's \$250 billion now and we're increasing it by \$3 billion a year.

Yep, you youngsters are going to be sitting in the driver's seat in a great age, Son. As for ourselves, we're going to be sitting (period), thanks to your generosity yet unspoken. But excuse me now—I see the postman coming. He's bringing my check. I injured myself hastening to catch the bus nine weeks ago, was ill with exhaustion when I received home. I've been recovering nicely. The postman is bringing my Tuckered-Out-After-Hastening-To-Catch-The-Bus Compensation. I'll be okay again and back to work in 17 weeks, when the TOAHFTCB Compensation checks run out.

It's been a tough battle. But there's nothing too good for the youngsters of America.

### Search For Most Famous Rifle Of The Early West

Brand new 30-30 sporting rifles suitable for deer, black bear, coyotes and the like are awaiting 20 persons who are the unsuspecting owners of one of America's rarest and least known variety of what has been described as the most famous rifle of the early West. The rifle for which a nationwide dragnet is now out is the "One of One Thousand" variety of the lever action Winchester 73.

Any readers of this paper who qualify will receive a new rifle with the compliments of Universal Pictures and Lincoln County News-Outlet. Since the publication of an article in the May issue of the official journal of the National Rifle Association of America started the search, Universal Pictures, which made its new Jimmy Stewart movie "Winchester 73," about one of these guns, has announced that the first 20 persons who satisfactorily report their ownership of one of these rare rifles will receive a brand new Model 94 deer rifle. The Model 94 is a modern descendant of the Model 73.

How many of the "One of One Thousand" rifles still survive after some 75 years since they were produced is not known. They were only made from 1875 through 1881. There may not be many, if any are found, it is possible that some as yet unknown chapters in American history will be revealed.

The first news that Universal would give a new gun for word about the old ones was announced by Bobby Benson, youthful gun lover and cowboy star on his "B Bar B Riders" radio program broadcast over more than 400 stations of the Mutual network.

The conditions under which

the rifles will be awarded follow:

The rifle must be a Model 1873 Winchester and have the words "One of One Thousand" engraved on the top of the barrel just ahead of the receiver. The present owner must supply a photograph of the engraved words "One of One Thousand" and a notarized letter stating his ownership, serial number of the rifle and such facts regarding the previous ownership or history if known. Precedence to determine the first 20 reported will be determined by the postmark of the letter, which should be addressed to "Winchester 73 Department, Universal Pictures Co., Inc., 445 Park Avenue, New York 22, New York."

Only 124 of the "One of One Thousand" Model 73 rifle were produced. One of them was loaned by Winchester to Universal-International to play the leading role in the movie "Winchester 73." The rifle actually is the hero. Winchester also made two duplicates for standby use should the original be damaged or lost in production. The standbys were never used.

The present search is for the whereabouts of the other 123 "One of One Thousand" rifles. While only 124 were made of this variety, a total of 720,510 Model 73's were produced by Winchester from 1873 to 1924 when the model was discontinued.

Known as "the gun that won the West," the Model 73 has been used throughout the West and in many other parts of the world. The equally famous 44-40 ammunition which it fired was also used in the Colt six-shooter. At various times this ammunition was used as money and such cartridges are included in the world famous currency collection of 80,000 items owned by the Chase National Bank in New York.

Another famous Model 73 in making news this year when one once used by Buffalo Bill will be presented to the Buffalo Bill Museum in Cody, Wyo., on July 4. This rifle is owned by Colonel Walter F. Slegmund, an executive of Winchester, who will give the gun to the Cody Museum during the Frontier Days Celebration. It will be received by Mary Jester Allen, niece of William Frederick Cody.

### ON THE JOB

N. M. State Employment Service with EMPLOYMENT UP—The summer upsurge in employment is raising New Mexico's economy to new levels. Construction reaches a new high as trade and service establishments prepare for the summer tourist season. The only dark spots in the employment field are coal mining and lack of moisture which is affecting agricultural activity. The largest number of construction workers are employed at or near Albuquerque and Santa Fe. However, housing units and commercial buildings are going up in practically all areas in the state. Many towns are adding to their school facilities. Several hospitals are under construction and several more will be started during the summer. Road jobs are underway in all sections but use of heavy equipment has reduced the number of workers per mile. Petroleum mining has in-

creased employment somewhat. Deep test drilling around Hobbs has been accelerated. In spite of this increased activity, oil field workers are unemployed in Farmington and Hobbs. Reopening of lumber woods operations and sawmills has been completed. Lack of timber in the Raton area caused some woodsmen to migrate to other areas. Coal mine workers in the Raton area are hard hit by closing of the Phelps Dodge operations. Recruitment of these workers for Montana mines is being done. Gallup miners are on a one or two-day week with prospects of less work ahead for the summer. About 700 workers were given temporary jobs by the Census Bureau. A large proportion of these workers just entered the labor market for this job. Preparation for the tourist season has already added over

800 workers to trade and service payrolls. The continued dry weather has retarded agricultural activity and is causing considerable anxiety concerning crops. The wheat harvest has been damaged to the extent that local labor will be sufficient for harvesting. Cotton chopping is retarded two weeks at least, as large areas had to be replanted after the heavy winds. Farmington fruit was all frozen and tomato growing will be the only activity in that area.

In spite of lower farm prices, the use of fertilizer will hold up well, the USDA economists predict. They believe that fertilizer posts still favor the use of more fertilizer. Prices will run about the same as they did last year. Medium wools, particularly choice lots of three-eighth blood grade sold very well in November and December.

### Spotlight Favorites

Dairy foods step into the spotlight with the Scottold Twins of Ice Follies fame when the dairy industry observes nationally in June its 14th Annual Dairy Month. The twins, Joanne and Joyce, whose skating skill is acclaimed from coast to coast, say: "We're healthy because our favorite foods are dairy products." With the annual per capita use of milk and its products at 249 quarts, there is still need for a 40% higher consumption of milk and its products, according to scientists, who say Americans should consume 341 quarts a year. Among the cooperators with the dairy industry in the June Dairy Month nationwide program to develop a better understanding of dairy foods are the national newspapers, magazines, radio and television stations, food, drug and variety stores, restaurants, hotels and the railroad industry.

You All Know Whit Is a Hard Man to Please Our old friend L. A. Whitaker, who now is caring for his Dad in Temple City, Calif., came back a week or so ago and took delivery of a new Ford '50 eight-cylinder sedan. You all know Whit is the sort of fellow who buys carefully and makes sure he gets his money's worth. Well, here's what he writes from out there: Dear Marvin: The car is sure a peach, most comfortable I ever sat in. First day, I left Carriazo at 4:10 P. M. and made Bowie, Ark., that's 363 miles, at 9:45 that night. Left Bowie at 7 A. M. and reached here, 638 miles, at 9 P. M. and never went more than 60 m.p.h. It was hot on the desert, but I did not have to add a drop of water. I averaged 21 1/2 miles per gallon. I don't think anybody would ask for more. Dad is pleased with the color, which he calls Cherry Red. Thanks for getting me such a fine car, and with best regards to all, I am Sincerely, L. A. Whitaker. We all know Whit, and one thing is sure: if he didn't like his new Ford he'd tell us the reasons just as plainly. It's comments like his that make us sure we've got the best value in the town, bar none. Now, make us prove it. There's a Ford in your future... with a Future Built In! '50 FORD The One Fine Car in the low-price field! Lincoln County Motors, Inc. Phone 146 Marvin H. Roberts, President Carriazo, N. M.

Fort Stanton

By HELEN NASH WHITEHEAD Dr. McQuigg brought Dr. Ralph Knisely with him on his regular surgical visit to the Fort from Lovelace Clinic, Mayo trained Dr. Knisely is a pathologist at Lovelace, who will be added to our staff of consultants. He will cooperate with our own very able Lawson Fish in rounding up all the bugs that pester humanity. He was disappointed in not seeing Fish, who is still vacationing. Incidentally, assistant Perry Zamora is doing a grand job in the "lab" while the boss is away.

Drs. McQuigg, Knisely, Benson, Lithgow and Whitehead had their usual round table pre-nuptial discussion well into the night. Dr. Whitehead showed some pathological slides that he had made at the Marine Hospital, Ellis Island, with his regular picture taking camera, which proved interesting.

Mrs. Bill Gould was hostess to the regular afternoon session of the U. S. Public Health Service Women's Bridge Club. In spite of vacations, it was possible to get three tables together. In addition to the hostess, there were Mesdames Burleson, Gaston, Howell, Kusanovich, Lithgow, Merrill, Parker, Shaw, Stemmer, Whitehead and Miss Ostrander.

The Leo Paymans are driving east and won't be back until August 1. Both Drs. Benson and Lithgow have gotten their orders. Dr. Benson planned to leave Wednesday or Thursday of this week and Lithgow about July 10. Dr. Lithgow has been very successful with the surgery he has done here and patients have given him a hand for his speed, kindness and humane manner.

Willie Zamora is visiting his sister, Arsenia Griego, and her husband, Phil, at Las Vegas. Phil used to work in the kitchen.

Sue Durr, daughter of Mrs. Carl (Florence) News, and her son Gary are visiting her mother in Capitlan.

Russell Stokely, former barber here, is back for a checkup and possible treatment.

Albert R. Pearl has created some real nice knick-knacks which can be had at the Craft Shop, La Huerta, near Glencoe, and Jeffers Pottery and Curio Shop at Ruidoso.

For something exquisite, different and individual in costume jewelry don't miss seeing the work of Bruno Barthel, one of our talented patients. He materializes actual leaves, crabs, sea horses or whatever. Mrs. Coe has expressed a wish to have some tiny apples from her ranch processed in this manner as a necklace and bracelet. Now that Barthel is settling better organized, I hope Mrs. Coe will take advantage of it. His work certainly is conversational pieces either as a gift or a treat for yourself. He has a partial display at the Craft Shop here at the Fort.

Dr. Milton Pollard, down from Albuquerque last weekend, was kept busy examining patients' eyes.

Jimmy Keller and "Kingfish" Kronburg were over at Truth or Consequences (formerly Hot Springs) for some fishing. Jimmy took a few baths for his arthritis. Mrs. Reed is on vacation.

Miss Maroney will be away for two months for further college training in Chicago.

Alex A. Bagard is expected to leave here with a "fit for duty" discharge within the next two weeks.

John Hillhoff has returned from Vineyard Haven. He will be remembered for his photographic work he did here for many years. We could use someone to develop film, etc.

Robbie Robinson is doing a good job clerking at the Fort Stanton store.

The ball team recently organized is going great. Last Sunday Carrizozo's "D" team came over to take a licking, 11-5. There was a lot of good sportsmanship on both sides and the team has been invited to play a return game next Sunday. Our own X-ray technician, Charlie Reed, is manager and the players, including some Hill-ins, are Famael Salas, Sam Romero, Gilbert and Joseph Escobedo, Jack Padilla, Cecil Thompson, Nilo and Lloyd Miller, Cruz Macas, Robert Olguin, Robert Trujillo and Billy Brown.

Percy G. Wiggs, who has been tagged as a smooth talker, is working hard for Captain Lions Club on his day off.

Joe Hobbs, referred to as "work horse" at the Fort Stanton Service Station, is missed very much while he's vacationing.

John G. Dooley is on Dr. Waggoner's list for surgery. Dooley turned down bronoscopic treatment which is commonly referred to by the patients as the "snorkle tube."

Visitors from Carlsbad were Sheriff Dwight Lee, service officer of the Veterans of Foreign Wars Post No. 3277; Mrs. Frank Nord, past president of the Women's Auxiliary, and Mrs. Joe Sawyer, both of whom are hospital and rehabilitation chairwomen. All are very much interested in rehabilitation and how they might help, not only with occupational therapy material but clothing as well.

San Patricio

By MICKEY THOMAS

Last week we voted on the bond issue to obtain enough funds to build a new manual arts room on the Hondo High School. I believe the Picocho, Tinnie and Hondo groups were almost all agreeable. The San Patricio people turned out in large numbers and defeated the measure.

It is not difficult to see their viewpoint. San Patricio is a very poor school district, though it has the most children. Paying more taxes seems to be more than some people can stand.

Under the present system of each district building only in proportion to their tax intake, San Patricio will always be unfortunate in the school improvement schedule. It does seem unfair that the poorer districts must suffer inferior buildings, supplies and the crumbs from better districts, when their need is really greater.

I do not see how we will ever improve our school system unless we do vote a bond issue. As long as taxes are high, the San Patricio people will be reluctant to saddle more taxes on their overworked, poorly producing land.

Nellie Ruth Lucas is back home. Helena and Stump Lucas went after her. We're glad to

en's Auxiliary, and Mrs. Joe Sawyer, both of whom are hospital and rehabilitation chairwomen. All are very much interested in rehabilitation and how they might help, not only with occupational therapy material but clothing as well.

Miss Marlan Floyd, director of dietitians of the Public Health Service, is expected within the next day or two provided the railroad strike doesn't prevent it. Misses Young, Howell, McCallum and Ostrander traveled over some pretty bumpy roads to get to the Granquivira National Monument, old ruins of the Piro Indians.

Incidentally, there are two openings here at the Fort for one expert stenographer, the other stenographer-chief with provisions for living on the field if desired. These are ideal positions for competent personnel.

Dana Kusanovich was chosen delegate from this area to a national convention in Kansas City, Mo., of the Future Homemakers of America and is well on her way, providing railroad strikes do not interrupt her itinerary. High school home economic students of New Mexico are expected to be active in this organization or rather it is a prerequisite and 15 to 20 girls from the state are attending the convention, which is the second on a national scale.

CORONA

By MRS. A. E. MULKEY

Mrs. Tom DuBois of Phoenix, Ariz., is in Corona this week visiting her daughter, Mrs. V. C. Waldon, and other relatives and old friends.

Mrs. Bill King (Edith) is home from Joplin, Mo., where she went to attend funeral services of her mother, who passed away recently.

Dan Coker purchased a new Chevrolet car this week from Jack Chaney.

Mrs. E. L. Jarnagin and her daughter-in-law, Mrs. E. H. Jarnagin, made a trip to Vaughn and attended the picture show Sunday afternoon.

Mr. and Mrs. Frank Everett and baby daughter of Delhart, Texas, are visiting her parents, Mr. and Mrs. W. B. Winniford, this week.

Harrell Fuller, son of Mr. and Mrs. Kenneth Fuller fell from a horse first of this week injuring his head and side.

have you back, Nellie. Also hope Stump stays.

Gerald and Evelyn Marr have been staying for a visit with Tom and Louise Babers.

Billy Babers won first money in the jackpot roping at Alamogordo last Sunday. Johnny Thomas took second. Therefore, San Patricio took all the money. That Billy is really coming along. He's hard to beat right now!

Shelton Taylor is having a rotten time with a displaced vertebrae. All of us hope he recovers soon.

Muriel Latham flew to New Rochelle, N. Y., last Thursday. Her father passed away with a heart attack. We all send our sympathy to Muriel and her family.

San Patricio and residents one mile west of San Pat enjoyed a one and two-tenths inch rain Sunday. We did not enjoy the few large hail stones which fell though. Fortunately, the fruit was not damaged. But paper roofs had enough holes to need re-roofing. Two miles west of San Pat a really damaging hail fell.

Kay Taylor spent a week in Roswell. She attended a summer art school. Now she is making ming trees, liguerines and very nice work, too.

The show at Ruidoso was filled to capacity Sunday night. San Pat faces were seen everywhere. Natalia and Ernesto Chavez, Willie Randolph, Cerella Sanchez, Gloria Chavez and many more.

The new padre wants to tidy up the graveyard at San Patricio's church. He is so right. Weeds and wind blown trash have made the cemetery rather unsightly. Everyone seems to concur about this problem. So soon, we hope the graven will all be well cared for.

CAPITAN

By ANN EARLING

Mr. and Mrs. Fletcher Hall Jr. and daughter, Pamela Sue, have moved back to Capitlan.

Mr. and Mrs. Nathan Moore and three children were here on Monday visiting friends. The Moores now reside near San Diego, Calif.

Mrs. L. W. Clark and Mrs. Peg Pfingsten are being hospitalized in Carrizozo.

On Wednesday, June 21, a bridal shower was held for Vada Lou Morgan at the Hotel Buena Vista. Mary Ann Cox played soft music until the guests arrived, then Leota Pfingsten rendered two solos. After Vada Lou opened her many gifts, refreshments were served by hostesses, Evelyn Cheney, Mary Werner, Lou Ferguson and Corrine Province. Seventy-seven guests' names were registered in the bride's book.

Things have sure been going on at the high school grounds. The high school itself has a brand new outside paint job, walks are being built between the grade and high school, lawns are being planned and a plaster job on the grade school is also under way.

Mr. and Mrs. Dean Earl and two children visited in Santa Fe this week. While there they also planned to visit with little Smokey, the cub rescued from the Capitlan Mountains fire.

Mr. and Mrs. B. A. McDougal, their two daughters, Barbara and Betty, and Rose Kveton, all of Abernathy, Texas, were weekend guests of the Ray Province.

Mr. and Mrs. Lloyd Miller, their three children and Mr. and Mrs. Manuel Miller left by car for Seneca Castle, N. Y., where they will visit Mr. and Mrs. Bill Morey and family. Mrs. Morey is the former Peta Miller.

Mr. and Mrs. John Mitchell and children were visiting her parents, Mr. and Mrs. Frank Hodge, during the weekend.

Miss Patsy Scroggins of Albuquerque is visiting in the Chaney Thomson home this week.

Mr. and Mrs. Julian Baca are the proud parents of a baby girl, born Monday, June 26.

Mrs. L. L. Argenright has been ill the past week with a severe sore throat.

Mr. and Mrs. E. H. Jarnagin recently moved two families, the Guy Richardson family and the Pete Donsworth family of Cedarvale, to Arkansas.

Mrs. A. E. Mulkey and daughter, Elene, and sons, Frank and Lee, visited her mother, Mrs. Ada Harris of Albuquerque, last week.

Taxes And Economy

Taxes are heavy. Taxpayers should be keenly interested in the stewardship of their public officials. They have a right to all the facts. That is the reason for the existence of taxpayers' associations. So far as its funds permit the Taxpayers' Association of New Mexico ascertains and publishes facts and figures on governmental costs and administration.—N. M. Tax Bulletin.

ANOTHER STRIKE AGAINST THE PUBLIC AND INDUSTRY AND AGRICULTURE SERVED BY FIVE WESTERN RAILROADS President Truman's EMERGENCY BOARD recommends a 40-hour week and a pay increase of 18 cents an hour, or \$1.44 a day for switchmen represented by the Switchmen's Union of North America. Notwithstanding the tremendous increase in their expenses involved, the Railroads' answer to Board is... YES! NO! Union leaders' answer to Board is.. In face of Board findings to the contrary, union leaders insist on 48 hours pay for 40 hours work. This would be an average increase of 31 cents an hour, or \$2.48 a day. So Union leaders have called a completely unjustified strike on 5 Western railroads, effective June 25. On June 15, an Emergency Board appointed by President Truman under the terms of the Railway Labor Act recommended the railroads grant switchmen a 40-hour week and a wage increase of 18 cents an hour, or \$1.44 for an 8-hour day. Despite the added financial burden involved, the railroads are ready to accept these recommendations, as they have always accepted Emergency Board recommendations on national issues. But the leaders of the Switchmen's Union refuse to accept! They demand an average increase of 31 CENTS AN HOUR OR \$2.48 A DAY—although their present earnings are substantially higher than those of workers in other industries. Board Says Demands Unjustified In its report, the Board declared this demand unjustified by all the evidence presented. It also pointed out that it would give the switchmen an unfair pay advantage over other groups of railroad employees, and would add too great a burden to railroad costs. Here is another case of a railroad union flouting the findings of an Emergency Board—another case of calling a crippling strike in an outrageous and reckless attempt to force demands which the Board clearly labels as unjustified! Leaders of the Switchmen's Union are calling this strike in defiance of the Board—in defiance of the facts—and at the expense of the public! In its report on this case, the Board made this statement: "The railroad industry, the Board believes, needs above all else a period of relative stability to adjust and adapt itself to present competitive post-war conditions." Despite this warning, the leaders of the Switchmen's Union are upsetting the apple-cart—forcing a completely unjustified strike against every body who uses the railroads. It is time to put an end to such un-American tactics! The Answer is a Raw Attempt At Dictatorship is "No!" In the interest of the public who depend on the railroads every day, there can be only one answer to this outrageous and dictatorial action by the leaders of the Switchmen's Union. And that answer is—"NO!" EASTERN SOUTHEASTERN WESTERN RAILROADS We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

NEW MEXICO'S Pageant of Events CALENDAR FOR JULY The colorful events listed below take place between July 1 and July 10. Watch for a later "Pageant of Events" that will cover July 11 through July 30. July 1, 2, 3, 4 and continuing each week-end thereafter throughout July—RUIDOSO, Races at Hollywood Park. July 1, 2, 3, 4—MESCALERO, Indian Ceremonials. July 3, 4, 5—LAS VEGAS, Old Town Fiesta. July 2, 4—GRANTS, 21st Annual Rodeo. July 3, 4, 5—GALLUP, Lion's Club Rodeo. July 3, 4—PORTALES, Annual Air Show. July 4—CIMARRON, Annual Rodeo. CLAYTON, Rabbit Ear Round-Up. SILVER CITY, Rodeo. SANTA FE, ALAMOGORDO, FARMINGTON, CARLSBAD and DEMING, Annual Fireworks displays. July 8, 9 and each week-end thereafter throughout July, RATON, Horse Racing. July 8, 9—ESPANOLA, Onate Spanish and Indian Fiestas. You'll enjoy attending New Mexico's Pageant of Events... just as you enjoy the fine flavor of good beer... for beer is the beverage of good fellowship and sensible moderation. **Repellent Discourages Rabbits Eating Plants**

A new rabbit repellent for gardeners that greatly reduces the amount of damage to agricultural crops, flowers and vegetables has been introduced commercially by E. F. Goodrich Company.

The new chemical formulation, called "No-Nib", is packaged in powder form in small cans (six ounces net weight) that contain a sufficient quantity to protect the area of the average small home garden plot against the ravages of hungry rabbits. It can be dusted on vegetable plants and flowers or can be mixed with water and used as a spray. Applications should be repeated if heavy rain washes off the repellent, the chemical company said.

"No-Nib" was tested extensively by the chemical company at the University of Florida Agricultural Experiment Station, Gainesville, Fla. Workers at the experiment station acted as advisors and observed the test results.

Wild cottontail rabbits, the species that causes most of the damage to vegetables and flowers, were used in the experiments. The new rabbit repellent proved highly effective in discouraging the animals from eating corn, flowers such as tulips, dahlias, narcissus and nymphaea and young vegetable crops such as beans, lettuce, radishes, collard greens and carrots.

None of the sprayed and dusted plants in three lettuce patches was eaten in one series of tests, whereas from 80 to 100 per cent of the plants in an untreated patch were nibbled and damaged.

Contrary to popular belief, Br'er Rabbit did not show as much interest in carrots as he did in other foods. This led the biologists to discontinue using

**Donated Foods Help School Lunch Program**

School lunch cooks are hanging up their aprons after the biggest year in the history of the National School Lunch Program. They've served one and one-third billion lunches to eight million children in 52,800 schools in the United States and territories. Food for the lunches put 180 million dollars into cash registers of local stores and markets where most of it was bought.

In addition to locally purchased foods, schools were given more than 400 million pounds of food by the U. S. Department of Agriculture. Some of these were highly nutritious foods bought with part of the school lunch appropriation. They included: American-processed cheese, peanut butter, concentrated orange juice, canned tomatoes and tomato paste, canned fruits and canned vegetables. Other foods were those purchased by the department under programs to remove surplus commodities from marketing channels. Some of these were Irish potatoes, fresh apples and pears, butter, dried eggs, non-fat milk solids and small quantities of fresh prunes, dried fruits and fresh vegetables.

Most interesting development of the 1949-50 school year was the success of the campaign to lower the cost of lunches through careful use of these donated commodities. Real purpose of this drive, says U. S. Department of Agriculture officials, was to get

this food for the duration of the project.

Distribution of the new rabbit repellent will be established this year in a test market area in Ohio, Indiana and Western Pennsylvania, with nationwide distribution planned for 1951.

Inquiries about "No-Nib" may be sent to E. F. Goodrich Chemical Company, 714 West Olympic Boulevard, Los Angeles 15, Calif.

**Greatest Enemy Of Childhood**

By HELEN NASH WHITEHEAD  
Rheumatic fever, called childhood's greatest enemy and No. 1 killer, causes 90 per cent of all heart diseases in children or more than five times as many deaths as infantile paralysis, whooping cough, diphtheria, scarlet fever and cerebrospinal meningitis combined. It also attacks grownups, too, and is one of the most important causes of deaths in later life. During the physical screening process in the last war, 40,000 young victims were discovered. It is serious because there are an estimated 3,000,000 rheumatic fever victims in the U. S. either suffering from it or who have had it or who don't know they have it.

Of the 21 varieties of heart trouble, rheumatic fever is the most common trouble and usually strikes after the age of 5. Even though the child has an apparently normal recovery, he is likely to have one or more attacks. The scarred heart valves or muscles interrupt the flow of blood and in later life any complications, such as high blood pressure or hardening of the arteries compels the heart to pump three times as fast in order to

more children to eat a complete meal at noon on every school day. In many places where the price of the lunch was reduced 5 cents the number of lunch customers increased as much as 50 per cent. In some small schools the increase was 100 per cent.

Reports from many states tell the same story: The price of lunches can be lowered by wise use of donated foods. Even a slight reduction in price enables many more children to buy the complete lunch.

get the average or normal amount of blood into the arteries.

The cause of rheumatic fever has not been determined. It is often difficult to diagnose because the symptoms are so variable as conditions favoring the disease, such as malnutrition, poverty, etc. Although it has been found in well-to-do homes as well.

Parents should not ignore pains in the joints or persistent low fever, or loss of appetite. Often the disease starts with a sore throat or a tonsillitis attack about two weeks prior to the rheumatic fever attack, however every sore throat is not a potential rheumatic fever victim and it is not contagious. There may or may not be any of these signs, but if one member of a family comes down with it, be sure to have the rest of the family checked as they do seem to be a hereditary predisposition for the disease.

Medical experts of the University of Chicago, Northwestern University and Loyola University are combining their resources with Dr. Albert Dorfman, University of Chicago pediatrician and director of a five-year research project, who has been financially aided by the Chicago Heart Association, to find the answer.

When ACTH broke into the limelight along with cortisone in the dramatic treatment of arthritis, it was assumed that it would prove useful in rheumatic fever cases, and it has.

ACTH, which requires 400,000 pituitary glands (hory) to yield one pound of this miracle drug is expensive for obvious reasons. Meanwhile, in April of 1950, a 39-year-old man who had become weaker and weaker from a series of diseases because a valve of his heart was affected by rheu-

matic fever in childhood, submitted to a very delicate operation. Dr. Charles Bailey of Philadelphia carefully opened a hole in his heart, inserted a tiny knife and cut the valve free. The anesthesiologist spoke: "Pulse is firmer and blood pressure going up."

"That does it," said Dr. Bailey. Earlier this year a Texas woman walked out of a Boston hospital listed as cured of rheumatic fever and possibly fatal heart disease by a new method of surgery performed successfully for the first time in medical history.

Dr. Hariken, assistant clinical professor of surgery at Harvard medical school and visiting chest surgeon at Peter Bent Brigham Hospital said this is the first time an essentially normally functioning valve has been obtained through surgery and a way of correcting one of the killing aspects of heart disease.

This operation is not performed with a surgeon's knife but with a "finder" with which the scar tissue in a valve between the two left sections of the heart is scraped away. This lets the blood flow in from one side and prevents it from flowing back into the heart sector from

which it came. Imagine the joy that must

(Continued from Page 1)

and pointed out Russia as her illustration of what happens when one party completely dominates a country. It is Mrs. Sampson's contention that competition is healthy for a country.

L. S. (Heavy) Drake, Republican candidate for state representative, Sixteenth District, urged reduction of the state gasoline tax, monthly publication of state expenditures, and that Lincoln County receive its proportionate share of road funds. Drake urged completion of Highway 54 as an important factor in the prosperity and growth of Lincoln County, as well as adding materially to the welfare of the entire state.

Major General Charles H. Corlett, Espanola, who achieved outstanding recognition in World Wars I and II, told the group he believes it is possible to increase New Mexico land revenue from more than 10 million dollars to 100 million dollars, depending upon the possibility of finding oil, etc. if such proved to be true, Corlett said, it would greatly benefit our schools. If elected, he proposes to appoint an advisory committee of men from all types of business enterprises who are interested in conservation of New Mexico's resources.

Corlett is in favor of a long range program covering the advancement of New Mexico's school system. He believes the party's platform will bring them victory in November.

Steiner Mason, owner of the Ford agency at Tucuman, expressed the regret of his running mate, Jose L. Armijo, who is hospitalized, in not being able to attend the meeting. Mason expressed the belief Russia is trying to see how far she can go, but feels we should keep America well defended and financially strong. He is of the opinion a government cannot continue indefinitely spending more money than is taken in without running into difficulty.

He pointed out the individual who practiced such economy could not stay solvent. He urges that government not spend more than is taken in, and reduce the national debt so that in case of emergency, the U. S. will have a reserve with which to meet such situation. Steiner concluded by saying he has spent many happy hours in Lincoln County hunting and fishing, and is always glad to be here.

Paul Larrazolo, whose father, late O. A. Larrazolo, was governor of New Mexico from 1919-1920, stated the members of the caravan have talked to about 14,000 people to date during their tour. He stated many Democrats were supporting Mechem, and declared the party in power is not the true Democrats, and that the good free thinking Democrats must join the Republicans if the Democratic Party's house is to be cleaned. Larrazolo added their good Democratic friends should unite with the Republicans to assure a victory next fall. He said the Democrats in power are spending thousands of dollars on people who do nothing but work at politics the year 'round.

Larrazolo pointed out the Army

**Connell Dean Delegate To FHA Convention**

Connell Dean, Bingham, left Tuesday to attend the Future Homemakers of America national convention in Kansas City, Mo. Miss Dean is a delegate from District 6 to the convention which will be held from June 28 to July 1.

The selection of delegate was made as follows: Ten girls in the Carrizozo FHA group with the highest number of points were selected. The number of points earned by each girl is based upon their work in the organization during the past year. From this group of 10 girls, three were voted upon by Carrizozo chapter members. Then, the chapter members were again asked to vote for one of these three girls.

Miss Dean emerged the lucky winner of this election, and her name and score sheet were sent to the state FHA advisor, Katherine Dicks, Las Cruces, A. & M. College.

At the Red Rose banquet held during the state convention of FHA at Las Vegas, it was disclosed Miss Dean had been selected as one of the delegates to the national convention.

The New Mexico delegation plan to present the skill, "Future Homemakers Grow Step by Step," at the Kansas City convocation.

Although daylong business sessions are scheduled, the lighter side of the meetings will not be neglected, and various forms of entertainment are planned for the girls, including tours, banquets, etc.

Miss Danna Kuslanovich, delegate from Capitan, will accompany Miss Dean.

Expenses of the trip for Delegates Dean and Kuslanovich will be met by their respective FHA chapters.

Pat Shores is visiting relatives in Hobbs, N. M. She planned to be gone 10 days.

Messrs. Fred English and Fred Napp attended a Frigidaire district meeting in El Paso last Tuesday. English said the Frigidaire people have some interesting news which will be announced at a later date.

convoy passing outside at that moment, and said the country's money should be saved to help in its defense should the need arise. Larrazolo expressed the hope that Mechem would be the next governor of New Mexico.

Edwin L. Mechem, 33-year-old Las Cruces attorney and New Mexico gubernatorial candidate, spoke briefly regarding his aims if successful in the November election. He told the assembly that although the Carrizozo reception was the smallest one he had attended it was the "best one and truly wonderful."

Mechem charged the Democratic Party in power as "only interested in themselves and the money they can get." He charged the Democrats in power with forcing various citizens of New Mexico to "klick in" in connection with the purchase of state licenses, and said the Republicans needed the help of the Democrats who felt the same about government affairs as Mechem and his supporters.

Mechem reiterated the Republicans and Democrats want equal representation and the government restored to the individual citizens, and that the citizens should have the privilege of controlling it.

The young candidate said there is no question Highway 54 is an arterial one, carrying traffic from Chicago to El Paso. He added it is foolish to expect a definite statement as to the date of completion inasmuch as the decision will rest with a five-man highway commission, who control the highway funds. Those members must have the approval of three-fifths of the state.

The State Supreme Court judges the qualifications of the members of that commission. Mechem promised to appoint, to such commission, the five best qualified men he can find. Although Mechem did not commit himself regarding a definite date for completion of Highway 54, he informed The News-Outlook he would, if elected, recommend to this five-man commission its immediate completion.

During the course of the informal meeting, a number of Lincoln County candidates for office were introduced. The Republican candidates expressed their appreciation for the hospitality and said when it was necessary to get something done just call on the women.

Members of the local Republican Women's Club who presided at the buffet table were Mesdames Myer Barnett, J. G. Moore, R. E. Lemon, William Gallesher, Gussie Johnson, J. H. Fulmer and Mabel Vigil.

**'Smokey' Given Farewell Party In State Capital**

A farewell party for Smokey, the orphan bear rescued from the recent Capitan Mountains forest fire, was given at Seth Hall in Santa Fe Monday, June 26, at 7 P. M.

The party was to be given the evening before the cub left for Washington, D. C., to be dedicated to the children of the nation and to the conservation of forests and wildlife. An impressive ceremony was planned for the night of June 26, where representatives of the various conservation agencies spoke on the need for protecting natural resources. Members of the U. S. Forest Service from the Lincoln National Forest where the Capitan fire burned, told of the damage to the area. District Warden Speed Simmons and other men on the fire line told of finding Smokey.

Other speakers included Angus Evans, chairman of the State Game Commission; Mayor Frank Ortiz of Santa Fe, representative of the U. S. Forest Service; National Park Service; Soil Conservation Service; Department of Game and Fish; Piper Aircraft Company; J. W. Thompson Advertising Agency; and Foote, Cone and Belding Company. The meeting was sponsored by the Boy and Girl Scouts of America.

It was planned to have Smokey there with his new found friend the black cocker spaniel puppy belonging to Ray Bell, chief field warden of the Department of Game and Fish.

**Eagle-Picher Paints Now Available In Lincoln Co.**

The Ray Traxler Company of Albuquerque, New Mexico distributes Eagle-Picher paints and varnishes, announces the Nickels Building and Hardware of Carrizozo as their wholesale and retail dealer for this county.

Joel H. Taylor, sales representative, states the paint company, established in 1943, is a leader in the field of mining, smelting and manufacturing of paint ingredients. The Eagle-Picher company operates 27 factories and guarantees all paint as to true color, durability and quality. "Compare the label on the can" is their slogan. Taylor added their scientific paint laboratory at Joplin, Mo. is world renown for its present day development of high quality paints and varnishes.

**Lincoln And Otero Youth To Meet Here July 1**

The youth of Lincoln and Otero counties will assemble at the First Baptist Church Saturday, July 1, at 7:30 P. M. for their monthly meeting.

Programmed for the evening are a social hour, fellowship wiener roast and testimony service. The closing message will be delivered by Rev. Eual Lawson, superintendent of evangelism for New Mexico Baptists. The public is welcome to attend.

Starting Sunday evening, July 2, and continuing for one week, Rev. E. D. Morgan, Clovis, will inaugurate in Carrizozo a study of the book, "The Baptist Line."

The public is invited to hear Rev. Morgan at 7:30 P. M. each evening discuss the book which he authored.

**Corona Extension Club Holds All-Day Meet**

The Corona Women's Extension Club met in the home of Mrs. Carl Hines June 22 for their regular meeting. Mrs. Clint Sultemeier was assistant hostess. Twenty-six members and guests were present for the all-day meeting.

A covered-dish luncheon was enjoyed at the noon hour. The centerpiece for the table was a lovely bouquet of delphinium and roses, a gift to the hostess from Mrs. Caille Franks.

The afternoon program was a discussion and demonstration on garment fitting by Miss Rheda Boyles, extension clothing specialist.

During the business meeting plans were made for the July meeting at which time members of the 4-H Club will give a demonstration. The meeting will be held in the Corona High School gymnasium and will be an afternoon one.

Club members were pleased to have as a guest Mrs. W. R. Belden of Chandler, Ariz., a former member of the club. Other guests included Mrs. Bert Penix, Mrs. Ernest Rich, Mrs. Jeff Owen, Mrs. Irvin Watson and Misses Carmel Jones and Louel Mays.

**Chrysler Introduces New Dodge 'Sportabout'**

Chrysler's new model, the Dodge 'Sportabout,' will have its preview at the outdoor automobile show at Red Run Golf Club, near Detroit, to be held in connection with the Motor City Open Golf tournament June 30 through July 1.

Dodge describes the new vehicle as "an improved version of the Wayfarer sports roadster." It is an all-weather car with an aluminum framed top of weather proof fabric that can be raised or lowered in a few seconds.

The price was not announced, but Dodge reported it will be "America's lowest priced full size open car."

**Remodeling Of Local Store Near Completion**

The T. & G. Grocery, Carrizozo, has been undergoing some "dress up" work.

J. E. Thornton is having the inside of his store painted and is adding additional display shelves for the convenience of his customers. Thornton says the work is not completed but rapidly nearing so.

Saturday afternoon, July 1, the store personnel will serve free orange ade from 2 to 5 and the public is invited.

**Bill Dolan Of Carrizozo To Wed Hondo Girl**

Word has been received here of the impending marriage of Bill Dolan, Carrizozo, to Elizabeth Torres, Hondo, on September 23 in Hondo.

The announcement of their approaching marriage was made recently by Mr. and Mrs. M. L. Torres, Hondo, parents of the prospective bride.

Dolan is the son of Mrs. Chana G. Herring, Carrizozo, and W. P. Dolan, Tucuman. His sister is Mrs. Ralph Smith, Carrizozo.

Miss Torres is a graduate of Hondo High School and the benedict-elect graduated from Carrizozo High School.

**PERSONALS**

Mr. and Mrs. Wayne Withers and family have returned from a month's vacation, the majority of which was spent between Portland, Ore., and Saskatchewan, Canada. Withers says he went as far as there was a road on which to travel. He reported excellent fishing.

Mr. and Mrs. Winzell Rickerson recently returned from a vacation by motor which took them as far east as Dallas. Their outdoor trip was made pleasant by rain which preceded them all the way, but Pinkie says they encountered some extremely warm weather on the return trip.

Mr. and Mrs. F. O. Brown spent their two weeks vacation in Portland, Ore., and Los Angeles. In Portland, they visited Mr. Brown's father, R. I. Brown, and other relatives. In Los Angeles, they attended the Shriners convention.

**Carrizozo Defeated By Holloman Air Base**

The Holloman Air Base nine continued their winning streak by dropping Carrizozo, 24 to 1, on the local diamond June 25.

Three Carrizozo pitchers saw action against the undefeated Air Base. The local team will meet Holloman Air Base July 2, looking for revenge.
