Outlook, Volume 41, No. 13

## 'A Day In Old Lincoln' Set For August 6

Sunday, August 6, is a big day to residents of Lincoln County.

On that date, folks from near and far will gather at Lincoln to greet old friends, reminisce about early days in Lincoln County, and then settle down in the evening to watch the drama of the days of the famous Billy the Kid re-enacted.

"The Last Escape of Billy the Kid" will be presented at 8 P. M.

The pageant is being presented under the direction of Mrs. Caroline Davis. It is sponsored by the Lincoln County Historical Society under the leadership of Mr. and Mrs. Will Coe and Bert Pfingsten. Mr. Pfingsten is in charge of the afternoon program honoring the old timers.

Several rehearsals have been held in preparation for Sunday's presentation. Approximately 200 Lincoln County people are featured in the pageant, including many descendants of the people who fought in that famous Lincoln County war or were connected with its early history.

Last week's issue of The News-Outlook contained the names of the entire cast and their parts.

John Davis, Hondo, plays the part of the principal character—Billy the Kid. Mr. Davis played the same part last year and was reported an outstanding success. Recent rehearsals indicate the entire cast will play their parts with conviction and realism.

The pageant will be held on the old courthouse grounds at 8 P. M.

Earlier in the day the old timers will gather at 11 A. M. to chat with old friends and enjoy a basket lunch.

A musical program is planned for Sunday afternoon featuring W. C. Massey, Roswell; Peter Hurd, San Patricio; Louise Massey Mable and Mill Mable, Picacho; Stockley Brothers, Roswell; Sheldon Taylor, San Patricio; Ray Reed, Dick Stubbs, Troy Jordan, Lloyd Jordan and Joe Massey.

Lincoln schools will serve dinners from 11 A. M. to 7 P. M. The Catholic church will have refreshment stands also.

Persons visiting Lincoln on August 6 will be welcomed at the two state-owned restorations—the Terron and the old courthouse. No admission charge will be made on that date.

## Cinder Blocks Used In New Harkey Building

The Atlas Lime Company, El Paso, manufactures the cinder block which is used in the construction of the new building of the Harkey Lumber Company.

This company is one of the oldest manufacturers of building materials in the Southwest. More than 40 years ago, in 1905, it was organized in El Paso, principally, for the manufacture of brick; then as brick and lime manufacturers. At the present time, it manufactures seven different classes of lime and are the principal lime producers between Los Angeles, Denver and Dallas.

Their trade territory covers Arizona, New Mexico, West Texas and the state of California.

Cinder-concrete block have come into general use as building material during the past quarter of a century and have proved to be so excellent for general building purposes that their use saves every type of building construction. They are so universally adaptable, modular masonry units, so economical and durable, that their popularity is rapidly increasing.

Cinder-concrete has every structural requirement possessed by the ordinary wall material, such as clay brick, clay tile, adobe, rock, even frame construction, and Atlas Volcanic Cinder-Concrete has advantages not found in any other wall material. Many thousand years ago, these were active volcanoes in what is now southwestern New Mexico. During certain periods of volcanic activity, scoria and lightweight cinder were produced.

In the manufacture of Atlas cinder-concrete block, from the cinder granules to the jobsite, the block are handled until the block is set in the wall.

## Rug Demonstration For Picacho Woman's Club

Mrs. Revelle Davis of the El Nido, Hondo, demonstrated the art of hooked rugs to the Picacho Woman's Club Tuesday, July 25. She had for exhibition several rugs, some of which had been in use for many years. All were greatly admired and much interest was shown in taking up this work. Mrs. Davis designs her own patterns, as well as those she has in her shop at El Nido, and keeps a good supply of all the needs of this art.

After the demonstration refreshments were served by Mrs. Charles Fuller and Mrs. Dick Fresquez to the following members and guests: Mesdames Robert Casey, Wallace Jacobs, Albert Kimbrell, Andrew Fresquez, Dan Salas, Hugh Sloan; Misses Elsie Kimbrell, Juanita and Rita Sandoval.

## Lions To Sponsor Queen

The Carrizozo Lions Club and The News-Outlook will sponsor a girl from Lincoln County as a contestant for State Fair Queen. Rules provide the girls must be single, permanent residents of Lincoln County and between the ages 16 to 20 inclusive. Contestants will be judged on their riding ability and southwestern personality. Every county in the state is expected to be represented. The girls will go to Albuquerque for the opening day of the fair on September 23, and will be guests of the State Fair from that date to October 1.

Watch next week's issue of The News-Outlook for complete details of this contest.

## Hondo Man Visits Greece

Winford S. McClary, aviation storekeeper, third class, United States Navy, of Hondo, N. M., recently visited the ancient Hellenic city of Athens, Greece, when his ship the aircraft carrier USS Leyte anchored there after extensive maneuvers with the Sixth Fleet, of which it is a unit.

The visit, which was arranged to give the members of the crew an opportunity to relax ashore, enabled him to participate in organized tours of the centuries-old city, including the Acropolis with its renowned Parthenon and the many other sights of the surrounding countryside.

## Angus Cemetery Cleanup Scheduled August 12

Saturday, August 12, is cleanup day at Angus Cemetery.

Mrs. Henry Peebles, secretary treasurer of the cemetery association, requests friends and relatives of those interred at the Angus Cemetery plan to spend the entire day on this necessary project. She reminds interested persons to bring their own tools, as none are available at the cemetery.

Mrs. Peebles stated the committee hopes a large group will bring their lunch and thereby have a long day in which to get the work completed. She also said contributions for the cemetery fund will be appreciated from those who are unable to work on the project as scheduled.

## Carrizozo Schools To Open Monday, Aug. 21

Carrizozo public schools will open August 21. During the summer the buildings and grounds have been renovated and improved.

High school pupils who have not been attending school here previously should request a complete transcript from the school last attended be sent to Superintendent L. Z. Massey so enrollment may be made without delay. Primary pupils who enter school for the first time should present a birth certificate. Vaccination should have been done before they reach school age.

Any pupil who will be six years old on or before January 1, 1951, will be entitled to enter at the beginning of school and need not wait until they are six years old.

## Harkey Recalls Business Start

The dedication of the new home of the Harkey Lumber Company, Carrizozo, which will be held August 5 from 1 to 9 P. M., marks the realization of a lifelong ambition of its owner, John W. Harkey.

Reminiscent of the herpses of the popular Alger novels of some years ago is the story of Mr. Harkey's career. Born in Hale County, Texas, on April 25, 1889, Mr. Harkey's mother died when he was 6 years of age, leaving 11 other children. The youngest child was only 17 days old. Shortly after his father remarried, the family moved to New Mexico, and made their home near Bonita City (the present site of Bonita Dam).

Mr. Harkey recalls educational opportunities in New Mexico in those days were somewhat limited. Twelve children were born to Harkey's father and step-mother and the brothers and sisters attended schools at Bonita City and Parsons City (the latter being located at the mouth of the Tan Bark Canyon). Two of his teachers named are Tom Grafton and Miss Ula Gilmore (now Mrs. Paul Mayer).

Before he was 10 years old, John Harkey helped finance his schooling by doing chores at the home of Beryl James (including the milking of seven cows) and working in the mines on Saturdays and Sundays. From this work, his earnings averaged \$15 a month. As time progressed, he was made a firehand in the mines—shooting ore down for the Parsons Mining Company. His wages by that time had been raised to \$3 per day.

At the age of 16, Mr. Harkey was employed as a boiler-maker by the El Paso and Southwestern Railroad Company in Carrizozo.

On June 12, 1912, at the age of 23, he married Minnie L. Dalton of Nogal, Misa Dalton was born in White Oaks and spent much of her girlhood there. The young couple settled on a section of land south of Carrizozo, and applied for a grant to homestead it. As quickly as he could, with savings from his small salary, Mr. Harkey purchased land. Eventually, he was able to secure 2,000 acres of which he was justly proud.

About 1921, the Exchange Bank (now defunct) closed its doors. Mr. Harkey was one of 13 persons who had signed as security for the bank to handle county funds. As a result, he was heavily obligated and was subsequently forced to sacrifice everything he owned in order to cover his indebtedness caused by the bank's failure.

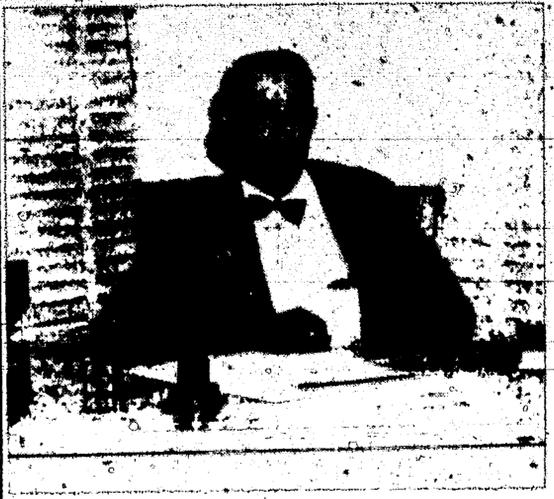

After the failure of the bank, Mr. Harkey operated a garage on El Paso Avenue although he continued to reside on the ranch.

About 1924, he and his family returned to Carrizozo to make their home. Mr. Harkey recalls he rented the building, which is now the property of the local lodge of the IOOF, for \$3 per month. He relates he picked up a few Sisson wrenches here and there (he has a favorite story of where) and hung them on the wall. The shop was then open for business. His first merchandise purchase was a six-foot Samson windmill, which, to his consternation, he discovered he must sell if he were to buy anything else.

Subsequently, he took a correspondence course in plumbing, which he studied during his spare time. So proficient did he become at the trade, that eventually he found himself doing a large portion of the plumbing work in and around Carrizozo.

From that small beginning—with only a few wrenches as his tools of trade—young Harkey met with such success he was able to purchase the building which housed his shop. Mr. Harkey says he bought the building about August, 1928, because he thought the \$3 a month rental was too high. He mortgaged that building in April, 1930, in order to purchase the Humphrey Feed Store property. This latter building has been the home of the Harkey Lumber Company for the past 20 years.

After moving to their new location—the Humphrey Feed Store—Mr. Harkey purchased an old lumber building. His son, Fay Harkey, and a helper dis-

John W. Harkey, owner and founder of the Harkey Lumber Company, Carrizozo, is shown at his desk in the new building just completed. Formal opening hours for the new store are from 1 to 9 P. M. Saturday, August 5.

## City Council Has Lengthy Session

Carrizozo City Council met Tuesday night in what developed into a lengthy session. Highlights of the city dad's business at this meeting, which was attended by several local and out-of-county visitors were: Lack of drainage near Dr. J. P. Turner's office and the hospital; the offer of Truman Spencer Jr. to "swap" electrical construction for drainage work; the offer of Will Ed Harris, in behalf of the Country Club, to sell water to the city; the protest of J. W. Johnson, one of the owners of the Socorro Laundry and Dry Cleaners, regarding the amount of occupation tax levied on his Carrizozo operation; the Carrizozo water situation in general and damage being done to electric meters.

After the meeting was called to order, with all members present except Leandro Vega, Dr. Turner asked City Council if anything could be done about the washing out of earth around his office, which has occurred during the recent heavy rains.

Dr. Turner suggested a concrete gutter and gutter construction as a means of eliminating the trouble, which is causing inconvenience to Dr. Turner as well as his patients. The doctor also pointed out the same thing is occurring on the hospital grounds on the main street side where there is not sufficient drainage.

Truman Spencer Sr. told the group there was good drainage under Highway 380 and believed cleaning of the drainage ditches in front of Dr. Turner's office and the Mal Pasa court would help the situation considerably. Mayor Vernon Petty asked Dr. Turner if he believed construction of a concrete depression and cleaning of the drainage ditches would help. Dr. Turner is of the opinion it would, and offered to pay his share for such work. Councilman Roy Shafer suggested several members of council visit the scene, and decide what is to be done. Councilmen C. A. Snow, Shafer and T. E. Kelley and Lawrence Queen, utilities superintendent, were selected to take care of this matter. It was also decided to give the hospital area a couple of lights needed there. Queen will make the installations.

At the suggestion of Councilman Kelley, signs will be secured to restrict noise and speeding in the hospital zone.

Mrs. J. P. Turner requested the council to take action regarding some streets in the southeast sector which are in need of repair because of washouts of earth. The root of the trouble here appears to be the same as in the hospital area. It is believed that cleaning of the drainage ditches in that area will solve the problem, and is to be done as quickly as possible.

Councilman Kelley said they were trying to make arrangements to get the county grader to do this work the next time it is in this vicinity. However, Truman Spencer Jr., at this point offered to "swap" cleaning of the drainage ditches in return for the city constructing a line to his home about a mile or so from Carrizozo. Spencer would furnish all materials except the trans-

former. City Council apparently thinks it will be a good "swap" and work is expected to start soon.

An idea for a water system for Carrizozo was suggested by Will Ed Harris. There is a well at the Country Club which, apparently, can furnish the city with plenty of water at 15 cents per 1,000 gallons. The Country Club's well is 210 feet deep and a recent test disclosed it could pump 120 gallons per minute. The test was made through a three-inch pipe and from a depth of about 80 feet. Truman Sr. told the group the draw-down while pumping was only two or three feet.

Spencer added an analysis of that water is being made but he does not consider it a true test of the well has been idle for about five years. He stated a more accurate test can be made after the well has been pumped for some time.

Mayor Vernon Petty told Harris and Spencer any bonding company would want to know three things—the chemical analysis; capacity and a clearance from the State Health Department. Spencer Sr. said they are willing to comply with all requirements but before they do anything further, they want to know if the city is definitely interested. Mayor Petty told him council is definitely interested in producing their own water. Spencer said they had pumped water eight hours at 120 gallons per minute, and wanted to try it out with a larger pipe and pump.

The city would be expected to equip and maintain the system, as the Country Club would sell it to them right at the source. The general idea is for the city to have a storage tank located at the well and water pumped into it from there. Councilman Snow expressed the opinion it might be possible for the city to develop a water system on their own land. Truman Spencer Sr. said, however, another well on Country Club property did not have the same capacity, and Queen stated there is a good possibility the large capacity well on the Country Club property has better water than would be found in the area suggested by Snow. He explained he was of that opinion in view of his investigation of the water fault through there.

Spencer Sr. related a test at Coyote Springs at one time showed a flow of 20 gallons per minute, that it was not particularly soft water. Queen explained the city's present supply of water is not particularly soft either. Spencer Sr. stated the city will eventually have to secure their own water system and use a softener as do many other towns. He also expressed the opinion a storage tank is a necessity.

Councilman Shafer thinks the city should not pay more than 10 cents per 1,000 gallons, but Will Ed Harris replied that at 15 cents per 1,000 gallons the town could save over \$500 per month, and the equipment would be paid off in about three years. Mayor Petty told the group City Council knows the town must definitely develop its own water system. Harris expressed the belief the Country Club location is the best possible one, and Petty said it looked fine to him, but an engineering opinion is also

## Harkey To Open New Store Aug. 5; All Invited

### Corona Schools To Open Monday, August 21

By MRS. A. E. MULKEY  
Corona schools will open for the fall term Monday, August 21. A general assembly is scheduled for 9 A. M. to which the public is invited.

A meeting of the Corona faculty is planned for Saturday, August 19, at 9 A. M. to make final arrangements for the re-opening of the schools.

Faculty members for 1950-51 are: Mr. and Mrs. Sam J. Earle; Misses Julia Kerr, Ila Rogers, Marie Natton, Zepha Atkinson, Martha Kerr and Clara Griffin; Messrs. Truman Natton, George Rogers, T. B. Fors, C. C. Carlton, I. H. Burgess, and J. E. Griffin; and Mrs. Ethel Parker.

L. W. Parker is superintendent of Corona schools.

Following are the individuals who have contracts for the 1950-51 bus routes: Messrs. Victor Lucars, J. E. Robinson, Jim Rogers, Wesley King, Lewis Vick, Floyd Proctor, Earl Roper, Walter Bryan, Jeff Owen, J. P. Ingram and Peter Madrid. Lucars and Proctor have purchased the latest in forward seat type buses. All the other drivers have fairly new equipment.

The Corona schools have undergone considerable face lifting. Included among the many improvements are: Complete redecoration of the high school interior, and painting of the exterior; redecoration of the school lunch room to which has been added some \$2,000 worth of equipment, and refinishing of the grade school interior.

A music and art teacher has been appointed, and classes for these subjects will be held in the rooms formerly occupied by the woodworking department, and which have been remodeled. Decoration of the present auditorium has been deferred until completion of the new gymnasium-vocational building. The present auditorium is the former gym and will be converted for a modern auditorium and girls' physical education room.

The new gymnasium-vocational building is expected to be finished in September at a cost of about \$140,000. It will be one of the most modern buildings in the state, and will be completely furnished to the last detail. Included is a community room with separate entrance and heat. Approximately 1,500 feet of sidewalk have been constructed which will be a boon in bad weather. The power company has erected six flood lights to give lighting to the entire school grounds at night. The lights are automatically controlled.

The city will notify the State Health Department to send a man to investigate the sanitation angle. Petty's comment on the situation was "there is no use beating about the bush; the city needs water and wants it."

J. W. Johnson, Socorro laundry owner, protested what he claims is a 100 per cent increase in the company's occupation license. Johnson stated the \$200 which they have been paying under protest each year for their occupation license, amounts to more than they pay for the 2 per cent school tax assessment.

The Socorro man said he did not object to paying a higher tax than a local business man but felt \$200 a year was unreasonable. It appears Johnson paid a fee of \$10 per year when he first started operating in Carrizozo and this figure was later raised to \$25 per year. An amended ordinance was passed on August 3, 1948, which raised the occupational license of outside business firms operating here to \$200 per year. Johnson's application showed he had grossed about \$7,700 in Carrizozo last year.

He asked council why that particular ordinance had been passed and Shafer replied it had been done at the request of a man by the name of Rutherford who previously operated a dry cleaning shop here. It seems Rutherford wanted some protection.

The Harkey Lumber Company staff are busily engaged today in making final preparations for the formal opening of their new home on Tularosa Avenue Saturday, August 5. After more than a quarter of a century of business here in Carrizozo, the firm is moving from the building they have called home for over 20 years.

The formal opening will be held from 1 to 9 P. M. Saturday, August 5. The firm announces they will hold a reception during those hours to afford them an opportunity to converse at leisure with friends and patrons. Although no formal business will be transacted on that day, the company states they will be glad to tag, for delivery the following week, any merchandise selected. Free souvenirs will be given each guest, and the youngsters will receive free balloons. Refreshments will be served to all visitors.

The climax of the opening will be the awarding of three valuable prizes. Adults only may register for these prizes, which will be awarded at 8 P. M.

Registration is absolutely free—there is positively no obligation to purchase anything in order to register, the company states. The following merchandise will be given away free:

First prize—Model NB-8G 8-foot G. E. refrigerator.  
Second prize—Sunbeam Mixer.  
Third prize—Model 40 Presto Cooker.

The three individuals holding the winning registration numbers will be in luck. The beautiful and efficient household appliances to be given away will prove a boon to any homemaker. Best of all, the holders of the winning registration numbers are not required to be in the store at the time the winners are announced.

The new building contains 4,200 square feet of floor space as compared with 1,500 square feet of space in the old building. Another article appears elsewhere in this issue of The News-Outlook which recounts the interesting, albeit rugged, career of John W. Harkey, the owner of the firm.

The building was designed by Mr. Harkey's son, Fay, who supervised its construction from the foundation up, and built many of the fixtures as well as much of the office furniture.

The building is constructed of cinder block with built-up roof and a plate-glass front with tile overhang. The exterior is stuccoed white with terra cotta trim. The interior has an insulated tile ceiling with stucco walls of pastel blue. The tile floor is gray with touches of color in varying hues. The offices are knotty-pine with furniture constructed of the same wood.

The company has arranged their merchandise in many attractive displays for the convenience of their patrons.

The Harkey Lumber Company is prepared to meet the homemaker's need from building a house to furnishing it completely. Included in the merchandise handled by this firm are Gen-

(Continued on Back Page)

## Capitan Schools To Open Monday, August 28

The Capitan Union High School Board and Municipal Board of Education, in a joint meeting Monday evening, July 24, set the opening date of the Capitan schools for Monday, August 28, at 9 A. M., according to L. W. Clark, superintendent of schools.

There will be a public assembly in the high school gym. All parents and friends are invited to attend the opening session of the schools.

THE LINCOLN COUNTY NEWS AND CARRIZOZO OUTLOOK

PUBLISHED EVERY FRIDAY Member New Mexico Press Association Entered as second-class matter July 30, 1926, at the Post Office at Carrizozo, New Mexico, under the Act of March 3, 1879. Subscription: In New Mexico, \$2 Per Year; Six Months \$1.25 Outside New Mexico, \$2.50 Per Year Subscriptions Payable in Advance L. Kinnard, Editor and Publisher

PROBLEMS OF SURVIVAL It seems clear now that our federal government must make war-scale military expenditures for an indefinite period. Regardless of the duration of the Korean conflict, it already has demonstrated that neither our present nor our previously planned military strength would be sufficient in an all out showdown with the sprawling Communist war machine. Our government must therefore spend heavily, at least during the next several years, to build up the fighting strength of the armed services. The new spending for actual war, piled on top of the already huge "cold war" outlays and the other staggering expenses federal government services which have mushroomed in the past 20 years, creates a whole new series of national problems and dangers. In war time or in any prolonged preparation for war, a danger that can be equal to that of war itself is the abnormal growth of government in size and power and cost.

An Historic Danger Power once conferred upon an individual is seldom voluntarily given up. The same truth applies in government, only more so. History confirms this. Many of our federal government's controls, taxes and spending programs adopted as emergency measures prior to and during the war have not been removed. The years after the end of the war (for instance, travel and communications taxes). Our free enterprise economy has survived this burden but not without injury; and any new controls and burdensome taxes that might be extended over a long period could very well fatally cripple our system.

Another danger about which our people need to be alerted is the intensification of the undercover work of those movements seeking to scrap our capitalistic enterprise system. Probably the greatest menace created by the 40,000 American Communists and fellow travelers will be in their Fifth Column work fomenting strikes in vital industries, otherwise sabotaging war production, and agitating for disunity. The menace of the disguised Socialists, of Planned Economy advocates, will not be so easily recognized, and that fact makes their movement the more dangerous.

England's Example We now know that the British Socialists did their decisive work in England while opponents of Socialism were preoccupied with the war. To a few Fabian strategists and a few alert observers who had watched the infiltration of the ally disguised Socialist propaganda into all British thought, the sudden rise to power of the Fabian Labor-Socialist Party at the end of the war was no surprise. To almost everyone else, in England and America, it was.

If our economy should become critically strained because of the terrific burden of this new war effort following so closely upon the copping cost of the last one, our capitalist system might be able to promise only "blood, sweat and tears" — something like the sacrifices, hard work and heartbreaks experienced by our forebears who established freedom in America. The disguised American Socialists would step forward then, as they did in England, with their rainbow of promises—"the good life, jobs for all, security for all from cradle to grave, fair shares"—all provided by the "Welfare Government."

Wisdom Needed Therefore the health of our national financial structure—our economy—is of paramount importance. Even the wisest and sanest management of the government's fiscal affairs will be fraught with constant dangers. General Omar Bradley, chairman of the joint chiefs of staff, himself recognized these dangers when he observed there was a limit on what a nation could

Hoarders Criticized By State Legion Commander

"Hoarders and profiteers should write direct to Joe Stalin for their Order of Lenin medals, which they are richly earning," Seaborn P. Collins of Las Cruces, state American Legion commander, declared. "Those who buy more than they need and those who take advantage of this buying hysteria to boost their profits are doing more to serve Russia than the traitorous Communist agents in America," he added.

Collins returned recently from American Legion national headquarters in Indianapolis where all state commanders met in extraordinary emergency conference to consider national problems arising from the present world crisis. "It is tragic that in this country today some citizens are proving themselves unworthy to be called Americans," the New Mexico Legion leader said, referring to what he called "panic buyers and money-mad speculators."

Both groups he described as "weak sisters" and charged that "they have so little faith in themselves, their country and their God that they are out to get theirs at any cost." Calling for "resolute citizens" to gird themselves for "any necessary sacrifice to defend their freedom," Collins reminded that artificial shortages and spiraling prices must inevitably result in rigid federal controls.

Many persons undoubtedly are acting innocently, he said, without realizing the harm done. In such cases he recommended that "their friends and neighbors tell them, and those who refuse to listen should be ostracized by decent citizens."

Notation to homemakers: Before you start your home canning, have your pressure canners tested by your county home demonstration agent. Farm property losses from lightning average about \$10 million per year. An estimated 400 lives lost, and from 800 to 1,000 rural people are injured each year by lightning.

spend "without imperiling its economic survival." And so to sum up: The nearer we come to balancing all government budgets, federal, state and local, whatever the cost in temporary sacrifices, the less will be the inflationary pressure and the more certain we can be of economic survival. And above all else, each citizen should serve as a committee of one to expose the disguised Socialists at work and to keep the public overwhelmingly aware of the value of individual freedom—so we won't lose it at the end of the war emergency like England did.

Gas Tax Revenues Up 52.5 Pct. For 1949-50

An increase in the rate of gasoline tax collections, along with the added 2 cents a gallon, has pushed revenues from that source up 52.5 per cent for the 1949-50 fiscal year over the previous period. Figures compiled by the New Mexico Taxpayers Association from reports of the Bureau of Revenue show collections from the 7-cent tax at \$13,394,382 for the year ended June 30. In the previous fiscal year, \$8,794,369 was collected from the 5-cent tax. Although most of the \$4,610,013 increase is due to the 2-cent increase authorized by the 1949 Legislature, it does not tell the whole story.

During the 1949-50 fiscal year, \$1,913,483 was collected for each 1 cent of gas tax. That compares with \$1,756,874 for the previous year, an increase of \$156,609.

The Taxpayers Association estimates that with \$3,820,998 available June 30, for retirement of highway debentures and a similar amount accumulating during the current fiscal year, there should be about \$7,653,932 available June 30, 1951.

That would be enough, the association figures, to pay off with interest \$6,000,000 worth of outstanding bonds. Difficulty is that there will not be that amount of highway bonds maturing at the end of the present fiscal year.

Civil Service Exams

The United States Civil Service Commission announced an examination for guard, paying \$2,674 a year and guard supervisor, paying \$3,125 and \$4,150 a year. Vacancies to be filled from this examination are at the Kirtland Air Force Base, Albuquerque, N. M. This examination is open to veterans only.

To qualify, applicants will be required to take a written test which will consist of two subjects (1) a general test, and (2) a directory test. In addition to passing the written test, applicants must have had from 18 to 48 months appropriate experience.

Applications must be received by the executive secretary, Board of U. S. Civil Service Examiners, Sandia Base, P. O. Box 5100, Albuquerque, N. M., not later than August 7, 1950.

Baptists Told World Alliance Force For Truth

The Baptist World Congress has become a "force to be reckoned with" by those who oppose the traditions of faith and freedom," a Virginia minister declared in Cleveland. Dr. Theodore F. Adams, vice president of the Baptist World Alliance, spoke near the close of the six-day congress of the group. The congress adjourned July 27 to meet again in 1955 in London. "Well may they take note—the

WAVE Reserves Asked To Volunteer For Duty

Four naval activities have been named by the Eighth Naval District to process and give medical examinations to enlisted WAVE reservists who volunteer for active duty.

They are the naval station in New Orleans, naval air stations at Dallas and Corpus Christi and the naval station at Orange, Texas.

WAVES belonging to organized or volunteer units were asked to apply for active duty through their commanding officers. Officers should apply by letter directly to the district commandant, district headquarters announced.

Volunteers must have at least one year's obligated service remaining in their enlistments. Accepted volunteers will be ordered to one of the three Texas examining activities or to the naval station here.

Qualified applicants will be sent to Corpus Christi for outfitting and to await permanent assignment by the Bureau of Naval Personnel.

CASH OR EASY TERMS Ginsberg Music Co. 305 N. Main Phone 18 ROSWELL, N. MEX.

deners of liberty, persecutors of their fellow men. Communists and pagans—we Baptists shall do our part to proclaim to men the truth that makes them free," Dr. Adams said. He is pastor of the First Baptist Church at Richmond, Va.

Speaking on "The Meaning of This Congress," he said the meetings have accomplished four major things: "We have renewed our fellowship, reaffirmed our faith, restated our Baptist distinctives and reformed our forces for world conquest for Christ." Earlier, the congress approved a resolution urging laws to safeguard the rights of oppressed minority groups and opposing racial discrimination and segregation.

It called upon the world's 18 million Baptists to free themselves from any racial and cultural prejudice and embody the mind and spirit of Christ. The resolution mentioned discrimination against Jews, Orientals, Mexicans and Negroes. Another resolution endorsed the convention on Genocide proposed by the United Nations.

Genocide was defined as certain acts designed to destroy a nation, ethnic racial or religious group.

**San Patricio**

By MICKEY THOMAS

The San Pat cowboys backed out of going to the rodeo when the show went turtle again.

Many plan to attend Carrizo on August 5th and 6th.

The play practice is running along. The participants are getting right in the groove. They hope to give a nice performance again this year. Le Roy McKnight gets better and better as "Old Gause."

Jewell Bonnel feels much better now, after her narrow escape last Wednesday. When Ralph and Jewell were returning home from play practice a local car ran them off the road. Their new car is damaged but we are all so glad they were not injured too badly.

The little summer class making plaster craft has made many lovely figurines. The girls have purchased several new molds.

The Rob Mendenhalls write they plan to visit up here during their vacation. Bob was the agricultural teacher at Hondo.

Catherine Thomas is back home. She has been visiting in Alamogordo.

Mrs. Bob Armstrong came up San Patricio way last Friday to visit around. She and the baby are staying for awhile with Caroline Davis.

That new fruit stand of Edith and Tom Rigby gets prettier every time we pass by. It is going to add a lot to the business places of San Patricio.

San Pat has enjoyed the rainy season. The hay balers are set back, but everyone else is enjoying the cool moisture. Gardens, flowers, grass and orchards all profit by this new weather fall.

Willy Babers is talking about going to Las Vegas for the rodeo.

Rex Randall spent a few days here in the valley. He will coach at White Face this coming school year. We all wish he were still in the valley.

**CORONA**

By MRS. A. E. MULKEY

Mr. and Mrs. Tom Keelin and children of Douglas, Ariz. were here recently visiting his parents, Mr. and Mrs. E. T. Keelin.

Mr. and Mrs. T. J. Smith Jr. of Bates Ranch returned last week from a 10-day trip to Texas and Mississippi.

Mr. and Mrs. G. C. Mulkey of Wichita, Kan. were here visiting his son, A. E. Mulkey and family, last week.

Mr. and Mrs. Charles Porter Jr. have a baby daughter born July 22. They named her Lola Marie.

Miss Sally Mae Pfeiffer was hostess to a group of high school students last Friday evening in honor of her house guest, Miss Nan Loy Chambers of Plainview, Texas.

Miss June Clements of Albuquerque is visiting her sister, Mrs. Charles Porter Jr.

Mrs. W. A. Mays and son, Wayne, and daughter, Loydell, are vacationing in Texas.

Coach and Mrs. Trammell Ford and daughter, Candie, are back for another school year in Corona. They spent the summer in Las Vegas.

Lightning damaged the village water pump and motor last Thursday. Although it took some time to repair it the village suffered very little from a water

The E. L. Jarnagins, their son Elberto, and his wife Fannie shortage.

have returned from a trip to the West Coast. En route their stops at special places of interest were the Painted Desert, Petrified Forest, Grand Canyon, Boulder Dam, San Francisco and Yosemite National Park.

Another special stop was made at Stockton, Calif., to locate the grave of the elder Jarnagins, son, Alle B., who died during the war. A monument was placed on the boy's grave. While in Stockton, they attended the automobile races.

The Jarnagins took several rolls of film to record their trip.

There are 45 per cent more tractors and 25 per cent more automobiles on U. S. farms now than when the war ended, according to a report from the Bureau of Agricultural Economics.

Always keep bulls in safe pens. Never handle bulls unless they are properly restrained. Speak to animals when approaching them.

Learn and obey farm safety rules.

**CAPITAN**

By ANN EARLING

Mr. and Mrs. Bill Edmondson and two sons of Carlsbad were weekend visitors at the home of Mrs. Edmondson.

The Wednesday Bridge Club was entertained at the home of Mrs. Otto Lowe; Mrs. Hunt Hobbs held high score and Mrs. G. A. Griffith low.

Lloyd Shryock of El Paso visited the H. R. Jacksons. Mr. Shryock is an uncle of Mr. Jackson.

Mr. and Mrs. D. O. Murphy were visitors in Roswell on Sunday and Monday. While there they attended a night baseball game.

The Thursday Bridge Club was entertained at the home of Mrs. James Hight. High score was held by Mrs. Jack Earling and low by Mrs. Edna Laramie.

Mr. and Mrs. H. R. Jackson and family left on Friday for a short vacation in Houston, Texas.

A picnic supper for the Soil Conservation Service employees was held at White Sands on Saturday night, July 29. Mr. and Mrs. Tom Uterback and family attended from Capitan.

Mr. and Mrs. Rayford Burnett

are vacationing in Pasadena, Calif.

Mrs. W. F. Lips, who is spending the summer in Ruidoso, visited with the L. V. Harcrows the past week. Mrs. Lips is a niece of Mrs. Harcrow.

The L. W. Clarks are visiting Mrs. Clark's mother in southern California. They motored via Las Vegas, N. M.

The Capitan firemen have set the date August 20 for their annual picnic. Beef barbecue and all the trimmings will be on the menu this year.

Mr. and Mrs. Frank Taylor entertained the members of the school band with a wienie roast. The fireplace in their new home must be in good working order

for that is where they held the wienie roast. The Taylor home is yet to be completed on the inside.

Mr. and Mrs. Joe Evans and children of Roswell were weekend guests of the Travis Werners.

Fletcher Hall Jr. is the new owner and manager of Halls Drug Store as of August 1. Mr. and Mrs. Hall Sr. expect to be around town for a short time, then do a little traveling before settling permanently.

Victor Eaton of Alamogordo and Lois Howlett of Ruidoso were married in Carrizozo July 4. After the ceremony, dinner was served to the wedded couple, their attendants and friends at the home of Mrs. S. V. Harcrow in Capitan.

**State Legion Convention To Be Held In Ruidoso**

Official "call" for the thirty-first annual American Legion state convention, scheduled for September 7, 8 and 9 in Ruidoso, has gone out from New Mexico department headquarters in Albuquerque.

The state "promenade" of the 40 & 8 Legion honor society, is billed a day earlier, September 6. The Legion auxiliary will be in statewide session the same days as its brother organization.

C. C. Chase has been designated general convention chairman by Commander James Hale of the host Robert J. Hagee Post No. 79 in Ruidoso.

Plans are being made to entertain more than 500 visiting Legionnaires and their families. Special entertainment events will supplement the parade, child welfare banquet and other traditional convention features.

Housing chairman is Dr. W. D. Horton, Box 187, Ruidoso, and all requests for room reservations should go to him, the state headquarters announcement said. An advance deposit of \$5 is required for each room reserved.

Each post is entitled to voting delegates in proportion to the size of its membership. A convention highlight will be the election of a new state commander to succeed Seaborn P. Collins, Las Cruces.

**New Vet Forms Available**

World War II veterans and survivors of deceased veterans who have not yet applied for reimbursement for unused military leave may now obtain new application forms at any Veterans Administration office in New Mexico, the contact service announced recently.

Public Law 479, which became law April 26, extended the time to June 30, 1951, in which former enlisted service personnel may apply for payment of leave time not used while in service. Many veterans have failed to avail themselves of the benefit, it was pointed out. In cooperation with the Department of the Army, the VA will furnish the forms and advise veterans on the proper way to fill them out.

**N. M. State Fair To Present Square Dancers**

Visitors to the New Mexico State Fair, to be held in Albuquerque from September 23 through October 1, will be treated to a spectacular display by the famous Boom Town Mounted Square Dancers, it was announced recently by Fair Manager Leon H. Harms.

**Sale Of Registered Horses To Be Held At State Fair**

The New Mexico State Fair, to be held in Albuquerque from September 23 through October 1, will stage a sale of registered quarter horses and Palominos for the first time in the history of the state exposition.

The sale, sponsored jointly by the New Mexico Quarter Horse Association and the New Mexico Palomino Association, will be held at the Fair Grounds on Thursday, September 28.

State Fair Manager Leon H. Harms said only bona fide members of either association will be eligible to consign horses to the sale.

"The sale will be limited to a number not to exceed 40 head," Harms said, "and any number in excess of that figure will be sifted to give us the best animals possible."

According to rules set forth in the New Mexico State Fair Premium Book, all horses must be entered in halter classes during the regular fair showings, and must be sold with no removals permitted.

**Estimated Property Value Of County \$10,900,000**

The estimated property value in Lincoln County for 1950 is \$10,900,000, according to figures prepared by Dee Donnell and Associates. The 1949 valuation was \$9,111,897.

The total county budget for 1950-51 is estimated at \$218,065. The following is a breakdown of this amount:

General county, \$12,320; salaries, \$36,215; district court, \$12,500; roads, \$18,480; miscellaneous including agricultural agent, court house and jail repair, indigent fund and audit charge, \$6,200; elections, \$2,700; health, \$3,800; farm range, \$1,900; Lincoln County Hospital, \$50,300; Hondo Valley General Hospital, \$50,300; interest, \$6,000; sinking fund, \$10,350.

The above figures are balanced by income which has been estimated will be received from various license fees, taxes, etc.

The average dairy cow today is giving about 20 per cent more milk than she did 25 years ago.

Organized in 1946, the group has appeared at various fairs and rodeos throughout the Southwest under the direction of their leader and caller, Dow Estes. Members of the team include ranchers and farmers, housewives, high school and college girls and beauty operators. Each one, however, is an expert rider. The dancers will present seven or eight dances, with each performance a complete "square dance on horseback." Right and left grand, do-al-do, promenade, etc., exactly like dancers in a ballroom.

The most thrilling dance, from the spectator's point of view, is the Grand Figure Eight, presented at the end of each performance. It is also the most dangerous for riders and horses. With the horses running at full speed and missing each other by mere inches, the smallest error in judgment and timing could be fatal.

**Seeks Indian Ruins**

"Got any old Indian ruins in your yard?" The art department is seeking Indian ruin acreage at New Mexico Western College for class exploration.

Ross T. Bittinger, head of the art department, hopes that persons who have land which may harbor relics of Indian civilization, will allow college students to dig for these evidences.

Bittinger says that all digging will be under close faculty supervision and landowners need fear no damage to the premises. Anybody willing to cooperate is asked to contact Bittinger by phone or mail at the college. His telephone number is 177-J.

Always stop a machine before getting off to unclog, oil or adjust. Keep all machine guards and safety devices in place.

**McKinney Heads State Free Europe Committee**

Robert McKinney, chairman of the New Mexico Economic Development Commission, has been named state chairman of the national committee for a Free Europe.

The Santa Fe publisher was named by General Lucius D. Clay, national chairman, and Palmer Hoyt, Denver, regional chairman.

SUMMONS AND NOTICE OF PENDENCY OF SUIT

STATE OF NEW MEXICO TO: CORDIE CRAWFORD WYLY, impleaded with the following named Defendants against whom substituted service is hereby sought to be obtained, to-wit: The following named Defendants by name, if living; if deceased, their unknown heirs; CORDIE CRAWFORD WYLY, also known as MRS. G. B. WYLY, EVA ANN MARR, also known as MRS. W. H. MARR, EDWARD HOAGLAND, ELLIAS GARCIA, F. G. PETERS, WILLIAM L. CALLENS, JOSE MANUEL SANCHEZ, ANTONIA SANCHEZ, GREGORIO GARCIA, MARIA MARTIN A MARES GARCIA, JOHN BROWN, DONITA D. GARCIA, the unknown heirs of the following deceased persons: EVA ANN HOAGLAND, also known as MRS. E. A. HOAGLAND, AGAPITO GALLEGOS, ELIAS GARCIA; and all unknown persons claiming any right, title or interest in or to the premises involved in this cause, adverse to Plaintiffs, GREETINGS:

You and each of you are hereby notified that Lloyd S. Gipson, Ula L. Gipson and Jimmie L. Gipson, a minor, by his father and next friend, Lloyd S. Gipson, have filed suit against you in the District Court of Lincoln County, New Mexico, in Cause No. 5712 on the Civil Docket, for the purpose of quieting title in fee simple in said Plaintiffs to the property described in the Complaint in said cause, more specifically described as follows, to-wit:

All that part of the following described tracts of land which lies south of U. S. Highway No. 70, to-wit:

(1) A Tract of 25 acres of land on the East side of the SE 1/4 SW 1/4 of Section 5, Township 11 South of Range 15 East of N. M. P. M., the west line of which is also the east line of the tract owned by Roberto Chaves and is marked with stones from north to south;

(2) A Tract of thirty-six and four-fifths (36 and 4/5) acres described as all that original tract contained in the NE 1/4 SW 1/4 and S 1/4 of Section 5, Township 11, South of Range 15 East, patented to Jose Manuel Sanchez, EXCEPTING therefrom the 0.2 acre tract conveyed to Jose Montoya, and also the 1.82 acre tract decided to the County of Lincoln for highway purposes; and all water rights appurtenant to said tracts including 17.45 acres of water rights from the Rio Ruidoso through the Jose Manuel Sanchez ditch. Plaintiffs alleging that they are the owners of said lands and improvements thereon in fee simple.

WHEREFORE, you and each of you must appear and plead in said cause on or before the 11th day of September, 1950, or you will be in default and Plaintiffs will proceed to secure the relief sought by their Complaint, and you and each of you will thereafter be forever barred and estopped from claiming or asserting any right, title, lien or interest in or to said real estate. Frazier, Quantius & Cusick, whose address is 123 West 4th Street, Roswell, New Mexico, are attorneys for Plaintiffs.

WITNESS my hand and seal at Carrizozo, New Mexico, this 13th day of July, 1950.

IN THE DISTRICT COURT COUNTY OF LINCOLN STATE OF NEW MEXICO

H. A. FOSTER, Plaintiff, vs. The following named Defendants against whom substituted service is hereby sought to be obtained, to-wit: HOSEA DOTSON, if living; if deceased the unknown heirs of) No. 5725 (Seal); UNKNOWN HEIRS OF ANDREW LOPEZ, et al; ALL UNKNOWN CLAIMANTS OF INTEREST IN THE PREMISES ADVERSE TO THE PLAINTIFF; Defendant.) NOTICE OF PENDENCY OF SUIT

THE STATE OF NEW MEXICO: To each of the above named defendants, against whom substituted service is hereby sought to be obtained, GREETING: You and each of you are hereby notified that the above named Plaintiff has filed his

Complaint against you in the above numbered and entitled case and Court.

The general object of said suit is to quiet Plaintiff's title to the real estate described in the Complaint, situate in Lincoln County, New Mexico, and being:

South Half Southeast Quarter (S 1/2 SE 1/4) of Section Ten (10); South Half Southwest Quarter (S 1/2 SW 1/4) of Section Eleven (11); All in Township Six South, Range, Thirteen East, (Twp. 6 S., Rge. 13 E.)

against the adverse claims of you and each of you and anyone claiming by, under or through you, and to forever bar and estop you from having or claiming any lien upon, or right or title to said real estate.

Unless you enter your appearance in said cause on or before the 8th day of September, 1950, judgment will be rendered in said cause against you and each of you by default.

Plaintiff's attorneys are BRENTON & HALL, Carrizozo, New Mexico.

GIVEN under my hand and the seal of the Third Judicial District Court of the State of New Mexico, this 15th day of July, 1950.

J. G. MOORE, District Court Clerk. By Otila E. Vega, Deputy. (D. C. SEAL) J 21-28 A 4-11

IN THE PROBATE COURT OF LINCOLN COUNTY, STATE OF NEW MEXICO

IN THE MATTER OF ) THE LAST WILL AND ) TESTAMENT AND OF ) THE ESTATE OF ) No. 741 ) JAMES T. BOOKY, ) Deceased.

NOTICE OF APPOINTMENT OF EXECUTRIX

NOTICE IS HEREBY GIVEN that the undersigned was, on the 6th day of May, 1950, appointed Executrix of the last will and testament and of the estate of James T. Booky, deceased, by the Probate Court of Lincoln County, State of New Mexico.

THEREFORE, all persons having claims against said estate are hereby notified to present the same to the Executrix for approval and to file the same with the Probate Clerk of Lincoln County, New Mexico, within six months from the date of the first publication of this notice, or the same will be barred.

DATED this 12th day of July, 1950. (s) ALICE P. BOOKY, J 21-28 A 4-11 Executrix.

SUMMONS AND NOTICE OF SUIT PENDING

STATE OF NEW MEXICO TO: The following named defendants against whom substituted service is hereby sought to be obtained, to-wit: Unknown heirs of Luther H. Halsted, also known as L. H. Halsted, and as Luther E. Halsted, deceased.

YOU ARE HEREBY NOTIFIED That there has been filed in the District Court of Lincoln County, State of New Mexico, a certain cause wherein Molena O. Latham, is plaintiff, and you are defendant, the same being Cause No. 5652 on the Civil Docket. The general object of said action is to quiet and set at rest title of the plaintiff in fee simple to The Silver King Lode Mining Claim, Survey No. 749, embracing a portion of Township ten South, Range Eleven East, New Mexico Principal Meridian, as is more particularly described in the complaint in said cause.

YOU ARE FURTHER NOTIFIED that unless you enter your appearance or plead herein on or before the 2nd day of September, 1950, the plaintiff will make application to the Court for judgment by Default and Judgment by Default will be rendered against you and each of you as prayed for in said complaint.

The name and post office address of the plaintiff's attorneys is BRENTON & HALL, Carrizozo, New Mexico.

WITNESS my hand and seal of the District Court of Lincoln County, New Mexico, on this 13th day of July, 1950.

J. G. MOORE, District Clerk. By Otila E. Vega, Deputy. (D. C. SEAL) J 21-28 A 4-11

NOTICE OF PUBLICATION STATE LAND SALE LINCOLN COUNTY OFFICE OF COMMISSIONER OF PUBLIC LANDS

Santa Fe, New Mexico Notice is hereby given that pursuant to the provisions of the Act of Congress approved June 20, 1910, the laws of the State of New Mexico, and the rules and regulations of the State Land Office, the Commissioner of Public Lands will offer at public sale to the highest and best bidder at 9:30 A. M., on October 6th, 1950, at the front door of the Court House in the city of Carrizozo, County seat of Lincoln County, New Mexico, subject to existing lease or leases, if any, the following described State Institutional land, to-wit: SALE No. 2553 W 1/2 SW 1/4, E 1/2 SE 1/4 of Section 32, Township 6 South, Range 14 East; NE 1/4, N 1/2 SE 1/4 of Section 5; W 1/2 NW 1/4 of Section 10, Township 7 South, Range 14 East, N. M. P. M., containing 490.52 acres, more or less, according to the government survey thereof.

No bid will be accepted on the above described lands for less than Five and No/100 (\$5.00) Dollars per acre, and the successful bidder will be required to pay at the time of sale five per cent (5%) of the amount of his bid, the value of the improvements and the costs of sale. The balance of the price offered will be payable in thirty years with interest on all deferred payments at the rate of four per cent (4%) per annum in advance, in accordance with the terms of the contract to be entered into by the successful bidder, form of which will be furnished on request.

All minerals on the said lands are reserved to the State of New Mexico, and the Commissioner reserves the right to reject any and all bids.

DATED AT SANTA FE, NEW MEXICO, this 18th day of July, 1950.

GUY SHEPARD, Commissioner of Public Lands. (SEAL) J 28-Oct 6

The Sunday services: 10 A. M., church school, Mrs. J. Aldridge, superintendent; 7:30 P. M., church worship and sermon;

Sheriff of Lincoln County, New Mexico, who, pursuant to said execution, took into his possession certain electrical materials and supplies consisting of electrical household fixtures, connections, plugs, plates, fuse boxes and other materials used in the electric wiring of houses and buildings.

NOW, THEREFORE, pursuant to said Writ of Execution, S. M. Ortiz, Sheriff, Lincoln County, New Mexico, will on the 29th day of August, 1950, at 10:00 o'clock A. M., in front of the Post Office at Ruidoso, New Mexico, offer said above described property for sale at public auction to the highest bidder for cash, for the purpose of applying the proceeds thereof to the satisfaction of plaintiff's judgment, interest thereon, court costs, and costs of sale as aforesaid.

WITNESS MY HAND at Carrizozo, New Mexico, on this 24th day of July, 1950.

(s) E. M. ORTIZ, Sheriff, Lincoln County, Carrizozo, New Mexico.

Cattle Growers Announce Exhibitor Awards

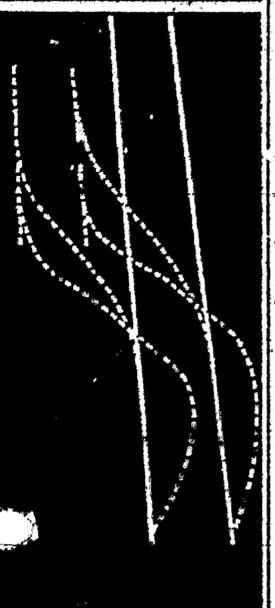

Contest rules and special awards to junior livestock exhibitors at the New Mexico State Fair to encourage better breeding and commercial feeding of cattle have been announced by Roy Forehand, president, New Mexico Cattle Growers Association. The four top winners in the breeding heifer contest will be awarded heifer calves valued at

FIGHTING EDITOR

CHRISTOPHER, ILL.—The campaign of Victor C. Leiker, 33-year-old editor of the weekly Christopher Progress here, against irregularities in relief administration has brought gratifying results. Four townships were notified they will lose their state grants of more than \$60,000 a month unless they show evidence that the irregularities have been cleared up. Leiker pressed his campaign against boss rule despite the loss of substantial advertising accounts.

How to Park

A survey of high school driving instructors by the Chevrolet Motor Division discloses parking as the toughest maneuver for students to master. The above photo-diagram illustrates correct procedure. First, stop along and approximately even with the car ahead. Next, cut your wheels sharply right, and back up until your rear right bumper just clears the rear left bumper of the car ahead. Then, cut your wheels sharply left, backing slowly until alongside of curb.

\$100 to \$130 each and the commercial feeding project will offer the five high exhibitors an all-expense trip to the Kansas City stock yards. Forehand said. The two contests are to be sponsored jointly by the State Fair and cattlemen's association.

"These contests are open to all members of recognized 4-H or FFA clubs in New Mexico and we expect junior exhibitors from every county in the state to participate," Forehand said. Requirements for entries in the junior breeding department provide

vide boys and girls shall have owned and managed the heifer entered for a period of at least five months under the supervision of a county agent or vocational agricultural instructor. In the commercial feeder-steer class contest, rules provide pens of five fat steers must be shown and winners of the first five pens will be awarded an all-expense trip to some livestock marketing terminal.

Keep ladders in good repair and easily accessible in case of emergency.

Electric Kitchen on Wheels

Complete all-electric kitchens and home-laundries, duplicating those found in prize winning homes, have been placed on wheels for a tour that will take them into thousands of towns and villages across the nation. As shown above such glamorous innovations as the push-button electric range, the front opening automatic dishwasher and the two door refrigerator will be demonstrated by home economists who will accompany the exhibit from Chicago's Hotpoint factories. While the project is planned to ultimately utilize many complete "kitchens and laundries on wheels" in all parts of the country, the pilot run is being made to 50 farm and home equipment shows at points in Alabama, Kentucky, Mississippi and Tennessee.

A spokesman said that besides the fairs and other crowd events, special showings of the equipment would be held for dealer and electric company customers.

In addition to the full-size electric kitchens and laundries, the Freshair trailer which carries the exhibit has installed two "planning nooks" where women may design and build their own kitchen and miniature scale models. Hotpoint dealers have arrangements by which the miniature appliances and the design selected may be duplicated in a new or remodeled home kitchen.

Woman Stars In Unusual Sales Job

Outstanding success in an unusual field for women—selling trucks to large operators of automotive equipment—is the record of Mrs. Dorethy Dennis, best sales manager of a large Chevrolet dealership in St. Louis and believed to be the only woman in the country to occupy such a position in the automobile industry. Earning the highly competitive best business, Mrs. Dennis established a notable record in the sale of cars and trucks to owners of large fleets in the midwest. Pictured above with two officials of the United Van Lines, Mrs. Dennis says the formula for sales success consists of hard work, enthusiasm and customer service.

European Visitors Welcomed In Chicago

Chicago's recovery since the end of the war will be shown to Americans at the First United States International Trade Fair in Chicago next August 7-30. Shown above, celebrating arrangements for the exhibit of post war European products are: (left to right) Technica, Advisor Bernhard Buerger (France) of the Organization for European Economic Cooperation with Martin H. Kennedy, Mayor of Chicago, and J. E. Aase, President of the First U. S. International Trade Fair.

### New Mexico American Legion Favors UMT

The American Legion of New Mexico will be mobilized immediately for an all-out campaign to secure speedy enactment of Universal Military Training.

That was the announcement of Department Commander Seaborn Collins upon his return from Indianapolis, Ind., where he attended an extraordinary emergency meeting of all state commanders of the American Legion. The meeting was called by National Commander George N. Craig to brief the state chiefs of the Legion on details of the new UMT drive.

At its Indianapolis meeting the Legion announced a revolutionary policy, Commander Collins said. Realizing that an adequate preparedness program would cost many new billions, the American Legion called for curtailment of all governmental expenditures that do not directly contribute to national security and which can be postponed without injuring the welfare of the American people. It then set an economy example by throwing overboard for the duration of the emergency its advocacy of any new veterans' benefits.

Commander Collins emphasized that UMT means "security insurance for our nation and survival insurance for our young men."

"The war in Korea has spotlighted the appalling shortage of trained American manpower," Commander Collins pointed out. "We have now only three divisions of troops into Korea and already have exhausted all of our available manpower. It has become necessary now to call out National Guard and organized reserve units. These are composed mostly of veterans of World War II. Beyond that we just have no trained manpower left."

"If Russia can stir up one satellite war to drain off most of our trained manpower resources, where will we be if trouble breaks out, as it likely may, in Formosa, Indo-China, the Philippines, Greece, Iran, Turkey and other sectors? It is now very evident that Korea may be only the curtain-raiser on the Soviet timetable of violence."

"Universal Military Training does not mean conscription or regimentation. It means only the training of our young men, under civilian control, in basic military know-how. UMT will create a vast pool of trained civilian reservists who would be called into military service only if the need arose."

"The strategic function of UMT will be to discourage international bandits from perpetrating the acts of violence which necessitate the drafting of American youth for military service."

"Today war is a complex art. Raw recruits cannot use the scientific weapons of modern warfare or defend themselves against such weapons without thorough training. In modern war the trained survive and the untrained die."

### Picnic To Be Held For Corona Teachers Aug. 20

Corona will honor its teachers with a picnic on Sunday, August 20, at the picnic grounds in Red Cloud Canyon.

A picnic lunch will be served at 1 P. M. to welcome returning and new faculty members to the community.

The entire community is invited to participate.

### Professor Sees N. M. As Iron And Steel Producer

The possibility New Mexico may one day be one of the leading western producers of iron and steel is seen by Dr. Vincent C. Kelley, professor of geology at the University of New Mexico. His opinion appears in an article in the latest issue of the New Mexico Quarterly, out recently.

"It is not generally known New Mexico has produced iron ore every year for the past 60 years with the exception of four years from 1932 to 1935," Dr. Kelley said. And, though the amount of ore produced has never been comparable with the leading eastern iron producing states such as Minnesota, Wisconsin and Michigan, "there have been times in the past when the western iron and steel industry depended rather strongly on the New Mexico production."

"Until 1945 New Mexico ranked third among western states in the production of iron ore, and even today, Dr. Kelley estimates, there are at least 142 million tons of ore remaining in our mineral reserves."

Distances from Albuquerque of iron deposits and coal for the blast furnaces compare favorably with the location of existing furnaces throughout the country, Dr. Kelley says, pointing out other western states have already sought to utilize their state's iron resources by erecting processing plants. Among them are Utah, Colorado, California and Texas.

Coal for the local furnaces could be found in the beds around Raton, while the principal ore deposits are in Grants, Sierra, Socorro and Lincoln counties. Lack of sufficient water is seen as the main obstacle to the foundation of plants here.

"New Mexico occupies a very favorable position among western states with regard to fluxes and natural sources of ferro alloy metals such as manganese, molybdenum, vanadium and tungsten," Dr. Kelley says, adding as other western states deplete their own iron reserves, the position of New Mexico's ores is economically improved.

Dr. Kelley suggests public funds might well be used to develop the neglected iron reserves of the state showing that a blast furnace within the state would have already saved an estimated one dollar per ton on the seven million tons already mined, while an associated steel fabricating plant would save enormous shipping charges on steel products shipped from the East.

Dr. Kelley concludes on an optimistic note saying: "At present in order to establish a New Mexico (iron) industry, it would probably be necessary to obtain considerable public support. If supported till markets were developed and secured, its success and expansion might be assured."

To guard against the entry of such devastating diseases as Asiatic or European Newcastle disease and fowl plague, the U. S. Department of Agriculture is adding poultry to the list of imported animals which must go through a period of observation under quarantine before entry is permitted.

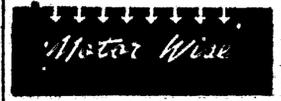

### N. M. Benefits From Tourists, Says Uncle Bill

By WILL ROBINSON

The pressure of 12,000 people through the Carlsbad Caverns in a couple of days recently justifies again the fact the whole state ought to be interested in such matters, since it is of direct interest to all of New Mexico. Of the 12,000 in this crowd, probably 5,000 were tourists in the true sense of the word; and while they were at it, made it their business to see the White Sands, the Botanical Lakes, Ruidoso, El Paso, Elephant Butte, Albuquerque and Santa Fe, and so forth, spending on an average \$6 per day per capita while in the "Land of Enchantment."

As a rule our people appreciate the caverns more than Uncle Sam does. The old gentleman is positively niggardly in his treatment of the greatest underground wonder of the world, the only national park that not only pays its own expenses but leaves a nice margin for the national park fund. Illustrating this tightness there should have been at least two more elevators to bring the people out of the caverns, after they had sensibly walked down. Such an addition of two more elevators would make it possible to handle several thousand more people in one day, making the cash register jingle merrily. The old gentleman knows this perfectly well, but just mention the caverns and the old man turns a padlock key on his pocketbook.

Inasmuch as all of the state profits by the great and enlarging volume of tourist business at the caverns, every Chamber of Commerce in the state ought to lead in the pressure to get those elevators. It isn't Carlsbad alone that is interested in their sufficiency. We all get a crack at the dinero such 12,000 crowds.

"The customer has loaded - the situation is well in hand."

### Commerce Dept. Says Clouds Reach 60,000 Ft.

**SOCORRO**—Thunderclouds may reach a height of 60,000 feet, although 30,000 is more common, according to "The Thunderstorm," a new book issued by the U. S. Department of Commerce. Studies made by scientists at New Mexico School of Mines contributed to the volume, which summarizes activities of the Thunderstorm Project, a joint study by the U. S. Air Force, Navy, Weather Bureau and National Advisory Committee for Aeronautics.

The book summarizes 10 phases of the thunderstorm research, including the structure of thunderstorms, turbulence, the effect of thunderstorms upon the weather, geographical modifications of the storms, and the effect of thunderstorms on airplanes.

The electrical studies of E. J. Workman, president of New Mexico School of Mines, and R. E. Holzer and G. E. Pelsor are described in the section on "Electric Fields Inside the Thunderstorm." Workman and his associates noted there are several centers of positive and negative

electricity in a single thunderstorm.

Radar studies of the height of thunderclouds, made by E. J. Workman and S. E. Reynolds, supervisor of the NMSM Thunderstorm Laboratory, also are reported. On the radar screen, the scientists were able to record pictures of moist air masses in thunderclouds; an important means of determining the size and development of these storms.

A plane flying into a thunderstorm at 180 miles an hour can be forced up as much as 5,000 feet by the violent updrafts inside the cloud, according to the report. Downdrafts may drop a plane 1,400 feet. The most dangerous altitude for flying into a thunderstorm is between 15,000 and 25,000 feet, the altitude at which many of the newer airplanes preferably are flown. However, by using radar, the planes may detect the thunderclouds at a distance and thus avoid them.

Keep guns unloaded except when using them. But treat every gun as though it were loaded. And never aim at anything you don't want to shoot.

Fort Stanton

By HELEN NASH WHITEHEAD
Fort Stanton youngsters didn't waste any time putting their new indoor skates into action after they arrived. The old German Camp's recreation hall is the ideal place, but supervision is a "must" just as at the swimming pool. The hours and details were worked out by the mothers at a meeting called by Mrs. Boyd, who was instrumental in getting the skates at a reduced price. She also bought an extra pair for those who don't have them, or for guests on a rental basis. This money will be reinvested in more skates and to provide some kind of music.

Mr. and Mrs. S. R. Cox drove over to Lubbock to bring back his parents, Mr. and Mrs. J. L. Cox, who will visit until after Old Lincoln Day.

The number of motor scooters are on the increase and is definitely the latest way to put out around the station. Two of the newest owners are Bill Gould and Jimmy Thompson.

Incidentally, Jim Thompson is back on the job in the kitchen after a siege of mumps.

Mrs. L. H. Merrell, who was hostess for the U. S. P. H. S. Women's Bridge Club last Thursday afternoon, served a delicious torte and coffee before the game got under way. In addition to the hostess, Mesdames Baker, Burlington, Gould, Kusanovich, Parker, Reed, Shaw, Stemmer, White, Whitehead and Miss Reid made three tables.

Boy Scout Bill Bingham needn't feel too badly about being air sick during a flight at Walker Air Base—it can happen to any of us. This was part of a two-day program to entertain the four scouts who went from Fort Stanton.

Carol Lee Bingham and Earl Payne, who originally planned a fall wedding, are already married.

One wonders why so many couples run off from Fort Stanton to marry when there are not only adequate facilities here at the Fort, but a lovely setting for either an outdoor or indoor ceremony.

The Boyds have house guests, her aunt and uncle from Whitehouse, Ohio: Mr. and Mrs. David

Tilton will remain until after Old Lincoln Day.

Clare Boyd recently had Molly Graton, daughter of Major Graton, at the New Mexico Institute, as a guest.

The Merrells were hosts for a dessert bridge Friday evening to allow the husbands to see how well the afternoon practice bridge had done for the ladies. Mrs. Kusanovich and Mrs. White tied for ladies' high, score Percy Parker walked off with the men's high, while Dr. Whitehead trailed with a consolation prize.

Mr. Valentine, engineer from the PWA, is here from Denver to check work on our new boilers and to discuss other building problems.

Charles Woodard, assistant finance officer of the USPHS, is here from Washington, D. C., checking our financial system.

Mrs. Boyd deserves a big hand for the time and effort expended to make the plate luncheon, which will be served by the Lincoln School on Old Lincoln Day, a success. The luncheon will be \$1, the proceeds from which will go toward getting inside toilet facilities. The school also has the cold drink, ice cream and candy

concessions, which we hope will go over big.

The Catholic Church will have a sandwich stand for hamburgers and enchilladas.

The William Rainey of Miami, Ariz., are here for a few days.

The Carl Neeses have swapped their yellow pickup for another fire engine red. Carl was on some "hush-hush" business in Portales for the gasoline division of the Bureau of Taxes.

You can't beat races, but Arva Mahla went back for more after losing heavily on a "place" horse, which was disqualified.

Douglas Screws and Jim Evers are running the dry cleaning shop.

The Adolph Wilsons week-ended in Roswell.

The Paymans returned after an extensive automobile trip. Understand Sacred Heart Chapel was crowded for mass and benediction, with music by Nancy Payman.

Earl Harcrow may leave at any time due to the Eighth Naval District call for their reserves.

The Kusanovichs and Whiteheads relaxed over charcoal broiled steaks in the patio of the

lovely home of Mr. and Mrs. Chester Foust Saturday evening. What a view! What hospitality! What meals!

Dr. H. W. Kopping, our personal new doctor, is gaining confidence and friends daily. The latest is probably Caroline Sanchez, a severe arthritic—need I say more to those who have seen her get around since he gave her Percorten followed by ascorbic acid. It is believed that these two together in the body may form a substance similar to cortisone,

which is one of the adrenal hormones. If this works, it's much less expensive than cortisone.

The Fort Stanton and Captain Boy Scouts will each have a parking lot at Lincoln for Old Lincoln Day, where they hope to pick up a little money. Bert Effingsten contributed the space for this purpose.

The next wedding seems to be L. T. Womack, who is marrying Ruth Morris of Capitan, probably August 12. A shower is being given the bride-elect on the 9th

at the City Hall in Capitan at 7:30 P. M. Isn't Cupid, the busy one these days?

There are more than 6,000 known species of grasses.

More than 18,600 farm families have applied for loans under the new farm housing program carried on by the U. S. Department of Agriculture.

Even Wiser than He Seems

PLAINLY, here travels a man wise in the ways of fine motorcars.

You know that, by the four Ventiports and the rich sweep of chrome which mark his car as a ROADMASTER.

You know it, should you trail him on the highway, by the smooth lift of the big Fireball

power plant at his toe's command, by the obvious levelness of the ride he enjoys, the swift ease with which Dynaflow Drive solves his traffic problems.

What is not so plain from what you see is that here also is a man very wise in what today's dollar should buy!

For this man has all that a fine owner can ask for—brilliant performance, a ride without equal for gentle softness, finger-easy handling, abundant room all around him, styling that is really the most distinguished on the highway.

Yet he paid considerably less than comparable merit costs elsewhere.

He found fewer extra charges in his delivered price, with such things as Dynaflow Drive, foam rubber cushions, windshield washers, electric clock, even non-glare rear-view mirror included in the price.

If you know fine cars, it won't take fifteen minutes behind a ROADMASTER wheel to see that here is one of the finest.

If you have inquired about prices, a single glance at the delivered figures establishes this as the big buy of the field.

Why not make both checks—especially since your Buick dealer will be glad to arrange a trial run in a ROADMASTER any time you care to call on him?

Only BUICK has Dynaflow-DRIVE and with it goes

POWER-COMPRESSION Proball valve-in head power in three engines, New V-230 engine in Buick models • NEW-PATTERN STYLING, with MULTI-GUARD fenders, taper-through fenders, "double bubble" taillight • WIDE-JOINT FRONTEND, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and passing, short turning radius • EXTRA-WIDE SEATS cradled between the axle • SOFT BUICK RIDE, from oil-cell springing, Safety-Rite rim, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with body by Fisher.

\*Standard on ROADMASTER, optional extra cost on Buick and SPECIAL models.

See a BUICK J. BUICK, ABC Network, every Monday evening.

**LEGALS**

**IN THE PROBATE COURT STATE OF NEW MEXICO, COUNTY OF LINCOLN.**  
IN RE: Last Will and Testament of J. W. Armstrong, No. 670 strong, deceased.

**NOTICE OF HEARING UPON FINAL REPORT AND ACCOUNT OF ADMINISTRATOR**  
STATE OF NEW MEXICO, TO: Jesse W. Armstrong, Jr. and to all unknown heirs of J. W. Armstrong, deceased, and to all unknown persons claiming any lien upon or right, title or interest in or to the estate of said decedent. GREETINGS:

NOTICE IS HEREBY GIVEN that C. A. Glover has filed his final report and account as Administrator of the Estate of J. W. Armstrong, deceased, together with his petition praying for his discharge, that the Honorable Ederdo Chavez, Probate Judge of Lincoln County, New Mexico, has set Monday the 11th day of September, 1950, at the hour of 10:00 o'clock A. M., at the Court Room of the Probate Court at Carrizozo, Lincoln County, New Mexico, as the day, time and place for hearing objections, if any there be, to the final account and report, that at the said time and place the Probate Court will consider the final account and report and will proceed to determine the heirship of said J. W. Armstrong, deceased, the Ownership of his Estate, and the interest of each respective claimant thereto or therein, and the persons entitled to distribution thereof.

The name and address of the attorneys for the Administrator is BRENTON & HALL, Carrizozo, New Mexico.

IN WITNESS WHEREOF, I have hereunto set my hand and seal of the Probate Court on this the 26th day of July, 1950.

J. G. MOORE, Probate Clerk.  
By Otila E. Vega, Deputy.

**Harkey Recalls—**

(Continued from Page 1)  
mantled it and stored the material in a back room at their new place of business. He sold this lumber to people who bought it a stick at a time. Soon, he had sold all this used lumber, and then decided to stock a little new lumber in some old coal sheds on the property. As time went by, the demand for lumber increased to such an extent, the Harkeys decided a lumber yard was needed. The old coal sheds were torn down to make way for a lumber yard to serve the needs of this area.

Until a few years ago, Mrs. Harkey assisted her husband with the business. However, as their sons, Fay and Jack, grew to manhood, they gradually took over many of the duties connected with it, and relieved their father and mother of much detail.

The Harkeys are proud to present this new and modern building to the public as evidence of their faith in the growth and progress of Carrizozo and Lincoln County. It is the result of many years of hard work and farsighted planning.

Mr. Harkey's two sons, Fay and Jack, are associated with him in business, and to them he ascribes a full measure of credit for the assistance they have given him.

Fay Harkey, who is the contractor for the new building, drew the plans and has supervised its construction from the

tion against out-of-city competition. Johnson told council it would be nice in Socorro if they could legislate competition out, but they could not and he did not want them to do so.

He pointed out his firm had proven its responsibility and stability and quoted the following costs in other towns: Magdalena, \$10 per year; Hot Springs, \$25 per year; Albuquerque, \$30 per year. He added Socorro charges an Albuquerque laundry firm \$35 per year to operate there.

The Socorro firm does not believe it is practical to establish a local agency, and said without the Ruidoso turn-around the route would not be profitable. Johnson pointed out he had not raised rates despite the increase in his Carrizozo license, and is engaging in fair and clean competition. Council did not appear inclined to change the ordinance and reduce Johnson's license fee.

Councilman Shafer is of the opinion the ordinance should be left on the books as a protection to local businesses.

Report made electric meters are being tampered with and also damaged. Council stated meter owners will be held responsible. It appears also that youngsters may be doing some of the damage, and, in such cases, the parents will be held responsible.
