Publishers Hear Boyle, Visit Prison

Pulitzer prize winning Hal Boyle, Associated Press columnist and war correspondent, spoke on "Our Stake in Korea" at the opening session of the New Mexico Press convention at Santa Fe last Friday afternoon.

Boyle is of the opinion the U. S. has accomplished what it set out to do, stop Russian aggression, and that if a series of perimeter wars for a generation will avert another all-out war, it may be worth it.

Commenting on recent reports of the increased strength of the Chinese Reds, he said that an all-out drive by them would probably be a touch and go thing as to "whether we could remain in Korea."

Boyle appears to believe the U. S. did not make a mistake by going in Korea, and named the following achievements: built a fence against the Iron Curtain and delayed a possible third war by surprising the Russian leader; the American people have learned this country cannot remain the fat boy of the world but must build some muscle; and built an army in Korea.

Following his talk, the famous war correspondent answered a number of questions asked by the state's newspapermen.

On Saturday afternoon, the press was invited to have luncheon at the state penitentiary and tour the men's section of the prison as the guests of Morris Abrams, the new warden appointed after the resignation of Joe Tondre.

Wives of the newspapermen and the press women were not permitted to view the men's section, but were taken on a tour of the women's quarters by A. C. Warming, Federal Prisons Bureau consultant, who is making a study of the penitentiary.

Prisoners reported cigarettes may be purchased inside the prison at 17 1/2 cents per package or tin for 35 cents, but friends and relatives are not permitted to send cigarettes to the convicts from outside.

One group of newspapermen talked with some prisoners who

Democrats Re-elect Nunez, Name Delegates At Capitan Meeting

Democrats in Lincoln County met at the American Legion Hall, Capitan, Saturday night, June 21, following a dinner held at Pearl's Cafe in that village.

The conclave was conducted by Dan Swearingen as temporary chairman, Ramon Nunez, Picacho, was re-elected county chairman.

Twelve delegates were chosen to attend the state convention at Albuquerque this week with instructions to vote for Mrs. Coe as national committeewoman.

Members elected to the state central committee are Mrs. Albert Kimbrell, Mrs. Tom Burleson, Edward Penfield, and Johnson Stearns.

Democrats, including various candidates for county offices, present at the Capitan meeting were Mr. and Mrs. Roman Nunez, Mr. and Mrs. Arvel Runnels, Rev. Oscar Rainey, Rev. George Boenighausen, Mrs. Joanna Amastae, Edward Penfield, Fred Dawson, Ed Wingfield, Dan Swearingen, Manuel Corona, Mrs. Fred McTeague, Mrs. Albert Kimbrell, Pete Romero, Truman A. Spencer Jr., Johnson Stearns, Mr. and Mrs. Wilbur Coe, Johnny Annarone, Clyde Atwood, Bracel Frezquez, Colonel Frank Graham, Barney Luck, Julio Herrera, Mrs. Edith Sheehan and Frank E. Smith.

Corona Girl Second In Santa Rosa Contest

Mrs. Mary Jane Eramouse of Corona placed second in the girls' cloverleaf barrel race at the Future Farmers of America rodeo in Santa Rosa on Monday.

All-around cowboy honors went to Allan Epps, Etancia, while D'Aun Young, Lovington, was named all-around cowgirl.

Lions Club Purchases New Roller Skates

Local Lions Club officials said this week that a number of new pairs of roller skates were received in time for tonight's (Friday) skating at Miller's Hall.

The skating project, which the Carrizozo club inaugurated last year, has been an enormous success since the beginning, and members predict an even greater attendance this season in view of the many new residents in this village.

Attends Rainbow Meet

Attending the 1952 conclave of New Mexico Rainbow Girls at Las Cruces last week was Miss Peggy Cathey, Carrizozo, who has been elected grand flag bearer for the ensuing year.

Employment Up

Employment in New Mexico during the fourth quarter of 1951 was 3 1/2 per cent higher than in the corresponding period for 1950.

European Countries Attain Recovery Goal

According to Senator Ellender of Louisiana, European countries receiving economic aid from the United States have already attained a status of economic recovery beyond that which had been set as a goal for ending that aid.

The senator spoke only of economic assistance, and offered an amendment to save the American taxpayer \$500,000,000, basing it on official estimates and figures. Having studied the situation first hand in Europe, he is regarded as well qualified to pass judgment on foreign aid.

Foreign aid sums under discussion in Congress are authorized and not appropriations, and even if they are accepted in legislation, those urging caution in foreign aid spending see an opportunity to save if a strong public demand for economy is made.

Dean Earl In Charge Of Forest Spraying

Dean Earl, Alamogordo, former Capitan resident and assistant supervisor of the Lincoln Forest staff, is in charge of the spraying operations now underway in the Sacramento area of the Lincoln National Forest.

Alamo Man Heads Membership Drive

Heading the 1952-53 membership drive for the Otero County Community Concert Association is B. J. Edwards, Alamogordo, manager of Theatre Enterprises, Inc., according to an announcement made by Mrs. M. R. Sanguiet, Alamogordo, president.

MRS. LAURA M. KING

Mrs. Laura M. King, Roswell, pictured above, was named state executive committeewoman in an election of officers for the Disabled American Veterans auxiliary held during the state convention at Artesia June 12-14.

Mrs. King Commended For Work In DAV

Mrs. Laura M. King, Roswell, formerly a resident of this village, was highly commended by Mrs. Vivian Corby, national adjutant of the Disabled American Veterans auxiliary at the state convention held in Artesia June 12-14 for her work as commander of the state organization.

The former Carrizozoan, who has gained recognition throughout New Mexico for her work in the veterans group, was also commended by the various district commanders and units.

New officers of the state organization who were elected at the Artesia conclave include Mrs. Lorene Threperans, Silver City, commander; Mrs. Nellie Walters, Artesia, senior vice president; Mrs. Laura Williams, Albuquerque, junior vice president, and Mrs. Gladys M. McCreech, Roswell, junior vice president.

Construction Started On Apple Grading, Packing Plant At Hondo

By DAN STORM

Construction was started last week on the apple grading and packing plant of the White Mountain Fruit-Growers Association. The building, located at Hondo, must be completed by August 15, according to A. T. (Bert) Pfingsten, Hondo, chairman of the association's executive board.

The structure, of pumice block and stucco with metal roof, is situated across the highway from Hondo High School and south of Bradley's Garage. Contractor for the 64x138 building is John E. Iwig, Carrizozo. The site of the plant was selected because it appeared to meet with the approval of the majority of the fruit growers in the county.

The machinery will be powered by electricity, and membership in the Otero County Electric Cooperative, Cloudcroft, has been arranged in order that three-phase power will be available at the time of installation.

The fruit will be government inspected, thus assuring consumers top grade apples. The various grades include: U. S. extra fancy; U. S. fancy; U. S. No. 1; U. S. No. 1 cookers; U. S. No. 1 early; U. S. utility, and U. S. hall grade.

Leaders in the apple industry, both locally and outside experts, state that this step for the development of apple growing in Lincoln County is an absolute necessity for top success fruit growing in this area.

The hearing originally was to be held last Monday on an order obtained by Allan D. Walker of Alamogordo demanding that the state canvassing board declare him winner or give sufficient reason for not doing so.

REA Reneges On Power Plant Offer

Water Conservation Urged By S. P. Official

Mayor Marvin H. Roberts, Carrizozo, said this week he has received a verbal request from Robert Hicks, local water supervisor for the Southern Pacific Company, that villagers refrain from using water unnecessarily.

It is reported that several families in the southeast section of town are without water except from around 2 A. M. to 5 A. M., and that excessive use of water in other sections works a severe hardship on those families.

Last summer pictures were published in the Lincoln County News as well as several dailies which showed huge geysers of water spouting skyward when the wornout pipe line was unable to carry the required flow.

Members Urged To Attend GPA Meeting

All members of the White Mountain Game Protective Association and their wives are urged to attend the next meeting of the group which is to be held July 3 at the clubhouse of the Carrizozo Woman's Club at 7:30 P. M.

Members Urged To Attend GPA Meeting

Farris also reported a change in date of the association's monthly meetings will be voted upon at the July conference. Officials of the group have come to the conclusion that the meetings, held on the first Thursday of every month, conflict with those of other organizations, resulting in lowered attendance for the GPA.

Your Nation's Capitol

By JOHN J. DEMPSEY
Congressman from New Mexico

WASHINGTON — New Mexico's flood control and water conservation picture is brighter now than before and it bids fair to continue that way.

Here are the contributing factors, due to effective and coordinated teamwork by every member of the New Mexico congressional delegation.

At the request of the President there has been included in the Interior department appropriation bill now under consideration by the Senate Appropriations Committee the sum of \$2,050,000 for the 1953 fiscal year, starting next July 1, to carry on the channeling work in the Middle Rio Grande area. This will enable the Bureau of Reclamation to put an end to the heavy loss of water in the San Marcel swamp and at the same time prevent the retarded flow which contributes to the flood menace.

Action by the Public Works Committee of the House in adopting a resolution requesting the Army Corps of Engineers to add to the Middle Rio Grande Flood Control plans a preliminary survey for a series of check dams in the Sandia Mountains to prevent further flash floods like that which recently was disastrous to Albuquerque. This completes the necessary authority so that the Corps of Engineers can start that work without delay.

This will make it possible to tie in the flash flood control work with the overall Middle Rio Grande program on which the Corps of Engineers have been working for some time but which had not been included heretofore because funds were not available. It was pointed out to the President that the flood menace to Albuquerque and its environs would continue to exist until these check dams had been built, regardless of what was done on the main stem of the Rio Grande.

Assurance that sufficient funds are to be provided in the civil functions appropriations bill to enable the Corps of Engineers to carry on the Jemez Dam phase of the flood control program. This has been passed by the House and certain Senate approval will assure completion of the dam.

As a result of these developments the New Mexico congressional delegation is confident that the entire Rio Grande program will be carried on to completion without further delays.

The Vermejo irrigation project near Maxwell is to have a total of \$610,000 available during the next year for carrying on the work which will bring water to 7,200 acres of the fertile lands in the project.

This money already has been set up in Bureau of Reclamation funds. The Vermejo project was found feasible by the President more than a year ago in accordance with a 1950 law, but funds then made available for the work were withheld later when a misunderstanding arose over the ownership of some of the land and its eligibility for inclusion in the project.

This later was cleared up and the President authorized the Bureau of the Budget to release the funds to the Bureau of Reclamation for continuation of the work.

Provision of additional money now assures the land owners in the Vermejo district that the project will be carried to completion. This is another case where the united effort of the New Mexico congressional delegation has done the job.

Livestock specialists say that hogs should be kept separated from both dairy cattle and poultry. Chickens can give hogs a form of TB, and cows have been known to contract Bang's disease from infected hogs.

CORONA

By MRS. A. E. MULKEY

Miss Peggy Graves of Roswell spent last week in Corona visiting her sister, Mrs. Elbert Owen. Her parents, Mr. and Mrs. R. R. Groves, were here during the weekend, and she returned home with them.

The young people of the Presbyterian Westminster Fellowship were entertained last week with a barbecue at the ranch home of Mr. and Mrs. Joe Winniford.

Nick Sesma of Albuquerque, who brings the milk to Corona, had an auto accident near Torrance Saturday afternoon about 3:30. His car struck an embankment, resulting in a leg injury and damage to his car. Garvin Campbell, who brings gasoline to Corona, picked Sesma up and took him to a doctor in Vaughn. Leon Erramouspe, son of Mr. and Mrs. Juan Erramouspe, wrote home from Joskosuka, Japan, saying that he was leaving on one of the largest aircraft ships made, loaded with ammunition and headed for Korea. Leon has been in the Navy for several months.

Mayor Cleve Brown said that two truck loads of people, probably of Quaker or Dutch origin, who did not speak English, stopped at his hotel Friday night. There were a number of adults and 27 children. Brown earned they could talk Spanish and was able to talk with one of the men in broken English and Spanish. He learned they were from Old Mexico en route to Canada to visit relatives. The mayor let them have all the rooms at the hotel he could spare, and they brought in quilts to make beds for the children.

Mr. and Mrs. J. M. Melton have returned to Corona after a few weeks visit with Melton's mother in Tularosa. The Meltons plan to return in the near future to Oregon where they recently bought a ranch.

Mr. and Mrs. Alvin Keelin of Alamogordo have a new son, Joseph Alvin, born June 10. The Keelins are formerly from Corona. Mrs. Keelin is a native of Pie Town.

Corona American Legion Auxiliary is sponsoring a box supper and program Saturday, June 28, at the new gymnasium, at 7 P. M.

Mrs. W. F. (Dores) Bryan, who was in an Albuquerque hospital recovering from a major operation, came home this week and is improving rapidly. Bryan, recently in New Orleans for treatment of an infected leg, is home and still having some trouble with it. Mrs. Herbert Fuller, sister of Bryan, has been keeping their three little girls.

Mr. and Mrs. George Weynand made a business trip to Belen and were gone from their ranch several days last week.

L. J. Argenbright, who was reported as having a slight heart attack last week, is home after seeing a heart specialist in Roswell. Our report was incorrect, since Mr. Argenbright did not suffer a heart attack, but was merely having some trouble with his heart. The doctor told him he might need to go to a lower climate. He made another trip with Jim Rogers this week for further treatment.

Mrs. Jim Rogers spent this week in Portales with her daughter, Dorothy, who is a telephone operator there.

Supt. and Mrs. L. Parker, Mr. and Mrs. Corbin Hester and Mr. and Mrs. Willis Lovelace and the Lovelace children were fishing at Ute Park last week in the northern part of the state.

Miss Wanda Thomson, daughter of Mr. and Mrs. A. C. Thomson, entertained a group of her girl friends at a canasta party at her home Friday afternoon celebrating her birthday anniversary. In the evening the girls went to the Youth Canteen.

Mr. and Mrs. J. W. Bates have arrived in Corona to vacation at their summer home on the Bates ranch at the foot of the Gallina Mountains. Their home is at Tulsa, Okla. Frank Brodney of Grand Canyon, Colo., is foreman of the Bates ranch.

Mr. and Mrs. E. O. Burns and children are leaving this week to visit the couple's parents at Denton, Okla.

Mr. and Mrs. Jack Payne and children visited Mrs. Payne's parents, Mr. and Mrs. Skinner, at Nogal, last weekend.

Mrs. Margaret Cramer, her daughter, Mrs. Dolores Wix, and her two grandsons, Jimmie and Steve, from Wichita, Kan., are visiting Mrs. Cramer's brother, Albert Mulkey and family, this week.

A total of 7,666,000 persons were working on farms in the U. S. in mid-February. Of this number, 8,495,000 were farm operators and unpaid members of their families, and 1,168,000 were hired workers.

Safety Council Urges
Sane Holiday Driving

Ninety million Americans will go forth on the Fourth—for a holiday or a hollow day.

The National Safety Council estimates that there will be 40,000,000 passenger vehicles on U. S. streets and highways during the three-day weekend and that they will travel 5,000,000,000 miles—enough to circle the world 200,000 times!

The figures only emphasize the tremendous amount of travel expected during the holiday, the council said. It emphasized that more cars on the road traveling more miles will inevitably mean more accidents—unless there is more caution than usual on the part of the motoring public.

An ominous note already has been sounded this year with the traffic-death toll for Memorial Day setting a new record of 360 lives lost in traffic alone.

In an attempt to prevent a holiday tragedy for hundreds of persons, the council is conducting again this year a nationwide campaign for a safe Independence Day celebration.

Many national organizations, government officials, police departments and local safety councils are cooperating in the effort.

Ned H. Dearborn, president of the council, appealed to every citizen to do his part in preventing traffic tragedy over the Fourth.

"You as an individual can do something about it," he said, "because these tragedies result from things we can control—haste, selfishness, thoughtfulness, the desire to show off. Take it easy on the Fourth—be alive on the Fifth."

Make your holiday drive a safety drive, Mr. Dearborn urged, by obeying the following rules:

1. Make sure your car is in safe mechanical condition.
2. Start your trip in plenty of time, so you won't have to hurry.

We now have 16 per cent fewer milk cows in this country than seven years ago—and a lot more people. Increase in milk production per cow helps offset the decline in cow numbers. Nevertheless, the economists figure production of milk per person in these United States will be the lowest on record in 1952.

3. Keep your speed down. Slow up here and show up there.
4. Pass other cars only if there is plenty of room.
5. Stay far enough behind other cars so that you can stop in an emergency.
6. Keep your temper, and be courteous and patient in heavy traffic.
7. Don't drive after drinking—even a little.
8. Stop and rest whenever overtired or sleepy.

NOGAL MESA

By DOROTHY GUCK

New Mexico, the land of changeable weather, has certainly been fickle recently. She blasts us with those destructive whips of fire from the sky that send Joe Wigley scurrying over the country answering distress calls of the electric users, and the Forest Service firemen hurrying up trails to quell the blazes in the pines. Her gift of moisture is but a salesman's sample that creates a wish for more. In this state of ours, probably illustrating to our discontent with meager rains, folds up her clouds, transports them elsewhere and leaves us high, dry and windy.

Just as S. C. Snow, Carrizozo carpenter, was preparing to enjoy a Sunday picnic in the forest above Bonito Dam, he noticed smoke. He reported it immediately to the fire guards, Virgil Jones and Gilbert Snell, at the dam, then went to work with fire tools building a line around the blaze. The fire was the result of a lightning strike a few days before and occurred in Jasper Canyon. Several such fires were controlled after the electric storms that peppered the Capitan and White Mountain districts.

Fred and Jesse Dawson were visiting in Nogal with two sisters-in-law of Fred, the former Josie and Nellie Kyle, one-time residents of the Mesa. The women, from San Diego, are relatives of the Allison of Glenocoe. They were traveling to Little Rock, Ark.

Ben Pfingsten rode with the Edmundsons down to his first close view of the White Sands. While there, he watched a rocket soar into the sky. Ronnie McDaniel, twin cousin of Texas Bob, spent a week with Ben, who was kept busy filling the young cowboys with fried chicken.

The Henry Peebles are loosening up the joints of a new pickup. Went to Roswell Monday.

Mary Ann Cox enrolled in summer school at Boulder, Colo. Her parents drove her there and will return by way of Texas to visit Sam's people.

Reba Jean Luck is counting off the days at home in Alto until she will be up and around again.

Monjeau had 274 visitors on Sunday and 170 on Saturday. "Queen for a Day" and her party were on the lofty peak one day. Bonito Dam checked 154 cars on Sunday.

Jennie Lou Pflange has been visiting at the Pfingsten ranch and is expecting her cousin, Caroline Lou Nichols of Ponca City, Okla., to join her this week. Foster Putney of Denver is also there. Mrs. Ben Cox of Rawley, Calif., stopped for a day. Leota says the summer had just begun. By the Fourth, friends and relatives will be sleeping in the orchard. Says Leota: "I love it. The more the better. The younger guests are eating me the chore of picking gallons of strawberries from our bumper crop."

Mrs. Peebles received word that her nephew, Tom (Skipper) Gould passed his examination for the cooperative study plan in engineering sponsored by State College and White Sands Proving Grounds and will start his schooling this fall. Meantime, he is leaving for New York to spend the summer working at La Guardia Airport.

Additional News From Corona

By MRS. A. E. MULKEY

Mr. and Mrs. Carl C. Carlton of Cynthia and Anthony spent Sunday with Corona friends. Carlton has accepted a position with the English department of Lovington High School and the family has already established residence there.

Rev. David Reiter of Albuquerque has completed a series of four most inspiring sermons to the Presbyterian congregation.

On June 29, Rev. Rice will return for his final service in the Corona church, at 11 A. M. Also present for the Sunday morning service will be three or four ministers to represent the Presbytery and Rev. Richard Goodier, the incoming missionary for this field. After five years of service in Colombia with the Presbyterian Board of Foreign Missions, Rev. Goodier comes to serve the Corona and Willard churches under the direction of the board of home missions.

If you have no other church home, you are sincerely invited to join the Presbyterians in all their regular services.

Candido Tafayo, who this year graduated from Corona High School, left Friday for service with the U. S. Air Force.

In 1951, Arizona again led all states in cotton yields with an average of 719 pounds of short staple lint per acre. California was second with 640 pounds of lint per acre and New Mexico third with 414 pounds per acre.

HONDO VALLEY

By ELMA F. ROSERS

Guess all the good folks live in Carrizozo as they seem to get rain there and the rest of us don't get any and we thought all the time just politicians lived there.

We were up to the county seat the past week to hear some of the trials and see and visit with friends.

See Pete Romero headed for the county seat to get some posters printed before election, do a little visiting and tend to some business there.

Jack Smith of Hondo had a little trouble with his tractor in which he came out second best. He lost the ends of three fingers on his left hand and went to Fort Stanton where Mrs. Smith is a nurse. Hope you get along O. K., Jack.

George Butts is still under the doctor's care, but seems to be getting along O. K. as he is up and around and able to argue.

Mrs. Raymond, the postmaster at Tinnie, and her daughter, Mrs. Virginia Guest, were Carrizozo visitors the past week.

See in the papers we are going to have Highway 70 resurfaced from Roswell to Tularosa. It is badly needed in places.

They have started work on the new apple shed at Hondo just east of Bradley's Garage. That is an improvement needed for a long time and we hope the entire valley benefits from it.

Word has just been received of the death of Jose Montoya, 35, Roswell. He is survived by his mother, Mrs. Aurora S. Montoya, and four sisters, Miss Tille Montoya, Mrs. Maximiana N. Salas, Mrs. Rosa Gallegos and Mrs. Octaviana Sanchez, four brothers, Flavio, Isidro, Manuel and Juan Montoya, all of San Patricio. The deceased had been ill and confined to St. Joseph's Hospital for quite some time. Funeral services were held Tuesday at San Patricio.

Mrs. Charlie Hernandez and children of Albuquerque are visiting Mr. Hernandez' parents, the Steve Hernandez Sr., at Hondo for several days.

Rev. and Mrs. Oldham are welcoming both adults and children to their "tent revival" and Bible school. The tots will enjoy singing and other work under direction of trained teachers who will teach handicrafts and sewing. All are welcome to attend. Services close July 6—Rev. Fred Barnes of Phoenix, Ariz., is assisting in the services each day and evening, 10 A. M. and 7:30 P. M.

Miss Irene Romero, daughter of Mr. and Mrs. Mike Romero, was married the past week in El Paso to Emilio B. Montoya, son of Mr. and Mrs. Manuel B. Montoya. Both are from Arabela. Their many friends wish them happiness.

Mr. and Mrs. Porfirio Fresquez of Peachop have left for Jemez Springs for several days vacation and pleasure trip.

Mr. and Mrs. Loren Counts are spending the summer at their cabin in Ruidoso and have as their guest, "Dad Oliver," well known here. They spent several hours visiting and doing some shopping on their way to Roswell.

Guess Freddie Titsworth will take a much needed vacation now as Frank has a new mechanic, Buck Hardey, to take Freddie's place in the garage. Everyone will miss Freddie's welcome smile.

RETURN FROM VISIT

Mrs. Marbry Burns and her sister, Mrs. Belle Boyer, returned to their home here after a three weeks' visit in Plano, Ill., with their brother and sister-in-law, Mr. and Mrs. W. K. Henning, and other relatives. The Carrizozoans were guests of honor at several events during their stay in the Middle West. Mrs. Effie (Ziegler) Gutknecht, Chicago, entertained the two sisters with a tea at Marshall Fields' in that city. Mrs. Gutknecht, whose husband is a Chicago judge, is a former resident of this village. Mr. and Mrs. Gutknecht have just recently returned from a tour of India.

Warns Politicians

DR. LOUIS H. BAUER of Hempstead, New York, new President of the American Medical Association, who this week urged both major political parties to write platforms which "disavow all threats to our Constitutional independence and liberty."

CHICAGO—Warning both the Republican and Democratic Parties that the eyes of the world will be upon them during their July convention in Chicago, the new President of the American Medical Association Tuesday night challenged them to nominate fearless men of integrity who will be guided by the highest concepts of national welfare and world freedom.

Dr. Louis H. Bauer of Hempstead, New York, in his inaugural address delivered here at the 301st Annual Session of the AMA, declared that "a candidate who emerges from a smoke-filled room will be the candidate of defeat."

The People Watch

The two major political parties and their leaders have the task of giving the American people a Government that serves rather than a Government that dominates, Dr. Bauer said. Then, addressing his remarks to the July convention delegates, he added: "You will not be alone in the convention hall. In these days of national radio and television you will have millions of Americans watching you, testing your sincerity, weighing your judgment, analyzing your motives."

San Patricio Sentinel

Joe Montoya, who has been seriously ill for sometime, passed away Sunday at a Roswell hospital. Members of his family were at his bedside constantly. Funeral services were held Tuesday afternoon. We extend our deepest sympathy to the Montoya family.

All of San Patricio was very unhappy to hear about Ben Sanchez' accident. He, his daughter, Cerila, and Francisco Polanco Jr. were on their way to Albuquerque where Cerila was to attend Girls State and Francisco Boys State when they had a car accident. Ben is suffering from shock but up and around again. Cerila is to be confined to the hospital for sometime. Francisco is now home. The pick-up in which they were riding was completely demolished. The insurance company has provided the family with a new pick-up.

Mrs. Peter Hurd's mother, Mrs. Wyothe, and her nephew Denny are visiting in San Pat. They returned with Carol Hurd who has been in school in the East.

The Apple Growers Association met at the home of Ralph Bonnell Friday night. San Pat was well represented at the meeting. The group has started its apple shed near the Bradley garage in East Honda.

"America's most wonderful cowboy" attended the races at Hollywood Saturday and Sunday (if you haven't heard the story of the Austrians, be sure to ask Tom Barber the next time you see him).

Court week in Carrizozo found many of our San Pat residents "courting." bench warming may be the term. Among those seen there were Mrs. Lorenzo Marrufo Elzy Perry, Jr., Mr. and Mrs. Manuel Montoya, Joe Macs Johnny Thomas and Manuel Herrera.

Ernesto Chavez' brother reports that Ernesto is now in California with an older brother, Jake.

Ronald Perry spent the week end with Jimmy Gibson at Glencoe.

Humphrey Chavez is due to dock in San Diego this week. He has been serving with the Navy in Korean waters for some months now. His classmate, Roy Chavez, is still spending two weeks in Korean waters and two weeks in Japan.

Dan Lucas recently drove up in a new maroon pick-up. He must be going to rodeo again this summer.

If anyone in San Pat has any printable news, I should appreciate it if he would leave it at the post office for me. We will see what we can do about keeping San Patricio in the news. Thank you.

Fertilizers now cost only slightly more than half again as much as they cost in 1935-39—definitely a "best buy" to farmers.

OPS. NOTES

The New Mexico district office of price stabilization reports price adjustments for services only totaling \$112,079.85 have been denied. OPS claims that had the increases been allowed, consumers would have had to "dig down" and pay the boost for dry cleaning, laundry, motor car repairs, parking, cold storage, etc.

Meat displays at the butcher's are tagged with the name of the cut, the price per pound, and the grade.

Restaurants and taverns are required to post their base period ceiling prices. The public is requested to notify OPS of any violations of this regulation.

Housewives, grocerymen and restaurant owners are reported as besieging the district office with protests since the decontrol of potatoes. Complaints are said to register increases ranging from 40 to 50 per cent since decontrol.

Exempted from price control are the services in conjunction with making and supplying abstracts of titles to real property. The action is in line with the agency's exemption of fees and charges of real estate brokers, agents and appraisers, and mortgage brokers.

An increase has been allowed in retail price of certain consumer goods articles in the exact dollars and cents amount of in-bound increased transportation costs resulting since Feb. 26, 1951, provided such added costs are incurred after June 16, 1952. The action is reported necessary because of increased transportation costs authorized by the Interstate Commerce Commission and the Post Office Department. The increased costs are reported to be on furniture of bamboo, fibre, grass and other materials light weight; cabinets, chests and similar equipment made of fibre materials; mattresses and similar articles. Since May, 1951, transportation rates, including parcel post rates, have increased from 6 to 25 per cent, and in some instances, even more. It is also reported that less than carload lot rail rates increased by 120 per cent in some areas.

Small eating and drinking establishments are not now required to file CPR 11 base period sales and costs reports. The exemption applies to firms whose gross sales in 1951 were not more than \$24,000 or an average of \$2,000 a month if open only part of the year. Also exempted from the requirement are small drug stores and similar establishments serving food and beverages, which do not segregate such sales from other sales if the total food and beverage purchases in 1951 were not more than \$12,000, or an average of \$1,000 per month.

Manufacturers of ready-mixed concrete and sand and gravel dealers are authorized to reflect in their ceiling prices the increased costs covering "out-of-area" purchases of sand, gravel and crushed stone. Sales of discontinued makes of passenger automobiles are exempted from price control if the manufacturer was not in business on June 24, 1950. Autos over 20 years old are also exempted.

Don't Do This!

What not to do when you go on vacation is shown here by Model Doc Kranz. Don't post signs that reveal the house is empty. It's an invitation to burglars. A new "Check-list for Vacationers" warns that many vacationers leave such signs behind, in notices to the milkman, postman or newsboy. Instead, tell the milkman in advance to stop deliveries, ask the post office to hold your mail, and have the newspaper sent to your vacation address. Other Do's and Don'ts prominent on the check-list include: DO lock doors and windows—but DON'T pull down window shades, for that also signals an empty house and invites trouble. DON'T forget flashlight, first aid kit, sunscreen and suntan lotion. DO carry "Scotch" cellophane tape in the glove compartment for such "jobs" as wrapping medicine bottles, repairing road maps, mending torn pages in children's books, and re-securing lost and dust from clothing. (Wrap tape around your hand, sticky side out, and pat your clothing to pick up lint and dust.) DO turn off water and the gas hot water heater to avoid leaks that may develop—and DO pull plugs out of electric outlets to avoid short-circuits that could cause fire. DO seal perfume and lotion bottles and insect-repellent bottles with cellophane tape to prevent spilling inside your luggage, and seal packages and cartons with tape to keep dust out. DO make reservations in advance unless planning your trip "gypsy style." Otherwise, start looking for lodging about 4 or 5 P.M. DO keep a running picture-story of your vacation with postcards or snapshots. Link them together with tape, to keep them in the right order, easy to show.

Mysterious Lights Near Corona

By MRS. A. F. MULKEY A mystery light, or rather two lights side by side, appears nightly just after sundown. What are the lights? Where do they come from?

A rancher's wife reports having seen these lights regularly for more than 35 years. As she and her husband sat on their ranchhouse porch of an evening looking toward the Camelon hills they could see the lights coming, at the same time every evening, just after sundown. The darker the night the brighter the lights. As they sat watching the lights would always disappear in a fence corner nearby. Sometimes one or both would go out to the fence corner to the spot where the lights disappeared, and wait to be on hand when the lights arrived. But, when there they saw nothing.

Neighbors when visiting this ranch house in the evening would notice the lights, and sometimes mistake them for car lights, only they were not as bright as car lights, and there was no road in the direction from which they came.

The place is now deserted. The ranch house has fallen down. The rancher has passed on to his other home, and his wife, the former Mrs. Fannie Fullam of Corona, is now Mrs. Fannie Voyles. She resides at Plainview, Texas, and is a subscriber to the Lincoln County News.

We plan to go out and watch for the lights some evening, and when and if we solve this mystery we will tell you about it.

Farm Accidents Take Huge Toll Annually

Farm work accidents for the past year reached a staggering total both in persons involved and in financial loss. Figures compiled by the Bureau of Agricultural Economics show that 4,000 persons were involved in fatal farm work accidents.

Permanently disabled totaled 250; loss of arm or leg, 11,400; loss of finger or toe, 30,900, and temporary disability affected 373,000. The number of farm accidents affected a total of 424,550 persons.

Accidents affecting farmers are expected to cost about \$1 billion this year—including fire and motor vehicle and property damages. For example, four farm buildings will burn every hour of every day, according to the National Protection Association, and every 24 seconds a disabling injury will strike some unlucky farm person.

About 15,000 farm residents die and about 1,300,000 are injured in rural accidents each year. The farm motor vehicle accident rate strikes down about 6,000 persons and leave 220,000 to suffer injuries from operating motor vehicles each year.

Scores Six Hits

Manuel "Mochó" Gutierrez, former Carrizozoan, scored six hits at Alamogordo recently to lead the Alamogordo baseball club to a 10-3 victory over the Artesia Eagles. Gutierrez, playing at second base for the Alamogordo team for the past several weeks, was credited with 10 strikeouts and issued only two walks during the entire nine innings of pitching.

Born and reared at Carrizozo, Gutierrez is employed at Holloman Air Force Base.

Municipal Elections

Such reports as have reached the Office of the New Mexico Taxpayers' Association indicate that there is an increasing inclination on the part of voters in municipal elections to disregard partisanship. Candidates are grouped under such titles as "Citizens' Ticket," "Independent Ticket," etc. In Tularosa there were two tickets, labeled "Progressive" and "Better Tularosa" tickets. Candidates were elected from both tickets. Of three members of the Board of Trustees elected, one is an Independent, one is a Democrat and one is a Republican. The clerk elected is a Democrat, as are two hold-over trustees. The time may come when, at least at local elections, the only questions to be considered as to any candidate will be, "Is he honest?" and "Is he capable?"—New Mexico Tax Bulletin.

According to the USDA, the desirable level of fertilizer use by 1955 is expected to be about 70 per cent more nitrogen, 55 per cent more phosphate, and 50 per cent more potash than was available during the 1951 crop year.

Warns Politicians

DR. LOUIS H. BAUER of Hempstead, New York, new President of the American Medical Association, who this week urged both major political parties to write platforms which "disavow all threats to our Constitutional independence and liberty."

CHICAGO—Warning both the Republican and Democratic Parties that the eyes of the world will be upon them during their July convention in Chicago, the new President of the American Medical Association Tuesday night challenged them to nominate fearless men of integrity who will be guided by the highest concepts of national welfare and world freedom.

Dr. Louis H. Bauer of Hempstead, New York, in his inaugural address delivered here at the 101st Annual Session of the A.M.A., declared that "a candidate who emerges from a smoke-filled room will be the candidate of defeat."

The People Watch
The two major political parties and their leaders have the task of giving the American people a Government that serves rather than a Government that dominates, Dr. Bauer said. Then, addressing his remarks to the July convention delegates, he added:

"You will not be alone in the convention hall. In these days of nationwide radio and television you will have millions of Americans watching you, testing your sincerity, weighing your judgment, analyzing your motives."

San Patricio Sentinel

Joe Montoya, who has been seriously ill for sometime, passed away Sunday at a Roswell hospital. Members of his family were at his bedside constantly. Funeral services were held Tuesday afternoon. We extend our deepest sympathy to the Montoya family.

All of San Patricio was very unhappy to hear about Ben Sanchez' accident. He, his daughter, Cerila, and Franco Polaco Jr. were on their way to Albuquerque where Cerila was to attend Girls State and Franco to Boys State when they had a car accident. Ben is suffering from shock but up and around again. Cerila is to be confined to the hospital for sometime. Franco is now home. The pick-up in which they were riding was completely demolished. The insurance company has provided the family with a new pick-up.

Mrs. Peter Hurd's mother, Mrs. Wyeth, and her nephew, Denny, are visiting in San Pat. They returned with Carol Hurd who has been in school in the East.

The Apple Growers Association met at the home of Ralph Bonnell Friday night. San Pat was well represented at the meeting. The group has started its apple shed near the Bradley garage in East Hondo.

"America's most wonderful cowboy" attended the races at Hollywood Saturday and Sunday (if you haven't heard the story of the Autriank, be sure to ask Tom Baher the next time you see him.)

Court week in Carrizozo found many of our San Pat residents "courting," bench warming may be the term. Among those seen there were Mrs. Lorenzo Marrufo Elzy Perry Jr., Mr. and Mrs. Manuel Montoya, Joe Mae Johnny Thomas and Manuel Herrera.

Ernesto Chavez brother reports that Ernesto is now in California with an older brother, Jake. Ronald Perry spent the week end with Jimmy Gibson at Glencoe.

Humphrey Chavez is due to dock in San Diego this week. He has been serving with the Navy in Korean waters for some months now. His classmate, Roy Chavez, is still spending two weeks in Korean waters and two weeks in Japan.

Dan Lucas recently drove up in a new maroon pick-up. He must be going to rodeo again this summer.

If anyone in San Pat has any printable news, I should appreciate it if he would leave it at the post office for me. We will tell what we can do about keeping San Patricio in the news. Thank you.

Fertilizers now cost only slightly more than half again as much as they cost in 1935-39—definitely a "best buy" to farmers.

OPS NOTES

The New Mexico district office of price stabilization reports price adjustments for services only totaling \$112,079.85 have been denied. OPS claims that had the increases been allowed, consumers would have had to "dig down" and pay the boost for dry cleaning, laundry, motor car repairs, parking, cold storage, etc.

Meat displays at the butcher's are tagged with the name of the cut, the price per pound, and the grade.

Restaurants and taverns are required to post their base-period ceiling prices. The public is requested to notify OPS of any violations of this regulation.

Housewives, grocerymen and restaurant owners are reported as besieging the district office with protests since the decontrol of politics. Complaints are said to register increases ranging from 40 to 50 per cent since decontrol.

Exempted from price control are the services in conjunction with making and supplying abstracts of titles to real property. The action is in line with the agency's exemption of fees and charges of real estate brokers, agents and appraisers, and mortgage brokers.

An increase has been allowed in retail price of certain consumer goods articles; in the exact dollars and cents amount of in-bond increased transportation costs resulting since Feb. 28, 1951, provided such added costs are incurred after June 16, 1952. The action is reported necessary because of increased transportation costs authorized by the Interstate Commerce Commission and the Post Office Department. The increased costs are reported to be on furniture of bamboo, fibre, glass and other materials light weight; cabinets, chests and similar equipment made of fibre materials, mattresses and similar articles. Since May, 1951, transportation rates, including parcel post rates, have increased from 6 to 25 per cent, and, in some instances, even more. It is also reported that less than carload lot rail rates increased by 120 per cent in some areas.

Small eating and drinking establishments are not now required to file CPR 11 base period sales and costs reports. The exemption applies to firms whose gross sales in 1951 were not more than \$24,000 or an average of \$2,000 a month if open only part of the year. Also exempted from the requirement are small drug stores and similar establishments serving food and beverages, which do not segregate such sales from other sales if the total food and beverage purchases in 1951 were not more than \$12,000 or an average of \$1,000 per month.

Little Known Facts about your navy

It opens only part of the year.

Manufacturers of ready-mixed concrete and sand and gravel dealers are authorized to reflect in their ceiling prices the increased costs covering "out-of-area" purchases of sand, gravel and crushed stone.

Sales of discontinued makes of passenger automobiles are exempted from price control if the manufacturer was not in business on June 24, 1950. Autos over 20 years old are also exempted.

CONVALESCING

Mrs. Alma Sargent Miller, who underwent major surgery last week at Southwestern Hospital, El Paso, is reported to be convalescing satisfactorily. Her brother, Joe Sargent, accompanied her to El Paso but returned to Carrizozo this week. He plans to remain here indefinitely.

Don't Do This!

What not to do when you go on vacation is shown here by Model Dee Krans: Don't post signs that reveal the house is empty. It's an invitation to burglars. A new "Check-list for Vacationers" warns that many vacationers leave such signs behind, in notices to the milkman, postman or barber. Instead, tell the milkman in advance to stop deliveries, ask the post office to hold your mail, and have the newspaper sent to your vacation address.

Other Do's and Don'ts prominent on the check-list include: DO lock doors and windows, but DON'T pull down window shades for that also signals an empty house and invites trouble. DON'T forget flashlight, first aid kit, compass and map, bottle opener, car opener, cleaning tissue, sun glasses, aspirin, and sun lotion.

DO carry "Scotch" cellophane tape in the glove compartment for such "little" jobs as wrapping nails, repairing road wear, mending torn paper in children's books, and repairing flat and dead car batteries. (Wrap tape around your hand; it sticks out, and put your clothing to pick up lint and dust.)

DO turn off water and the gas hot water heater to avoid leaks that may develop—and DO pull plugs out of electric outlets to avoid short-circuits that could cause fire.

DO seal perfume and lotion bottles and insect-repellent bottles with cellophane tape to prevent spilling inside your luggage, and seal packages and cartons with tape to keep dust out.

DO make reservations in advance unless planning your trip "gypsy style." Otherwise, start looking for lodging about 4 or 5 p.m. DO keep a running picture story of your vacation with postcards or snapshots. Link them together with tape, to keep them in the right order, easy to show.

Mysterious Lights Near Corona

By MRS. A. F. MULKEY A mystery light, or rather two lights side by side, appears nightly just after sundown. What are the lights? Where do they come from? A rancher's wife reports having seen these lights regularly for more than 35 years. As she and her husband sat on their ranchhouse porch of an evening looking toward the Camelon hills they could see the lights coming, at the same time every evening, just after sundown. The darker the night the brighter the lights. As they sat watching the lights would always disappear in a fence corner nearby. Sometimes one or both would go out to the fence corner to the spot where the lights disappeared, and wait to be on hand when the lights arrived. But, when there they saw nothing.

Neighbors when visiting this ranch house in the evening would notice the lights, and sometimes mistake them for car lights, only they were not as bright as car lights, and there was no road in the direction from which they came. The place is now deserted. The ranch house has fallen down. The rancher has passed on to his other home, and his wife, the former Mrs. Fannie Pulliam of Corona, is now Mrs. Fannie Voyles. She resides at Plainview, Texas, and is a subscriber to the Lincoln County News.

We plan to go out-and-watch for the lights some evening, and when and if we solve this mystery we will tell you about it.

Farm Accidents Take Huge Toll Annually

Farm work accidents for the past year reached a staggering total both in persons involved and in financial loss. Figures compiled by the Bureau of Agricultural Economics show that 4,000 persons were involved in fatal farm work accidents.

Permanently disabled totaled 250; loss of arm or leg, 11,600; loss of finger or toe, 30,900, and temporary disability affected 378,000. The number of farm accidents affected a total of 324,550 persons.

Accidents affecting farmers are expected to cost about \$1 billion this year—including fire and motor vehicle and property damages. For example, four farm buildings will burn every hour of every day, according to the National Protection Association, and every 24 seconds a disabling injury will strike some unlucky farm person.

About 15,000 farm residents die and about 1,300,000 are injured in rural accidents each year. The farm motor vehicle accident rate strikes down about 6,000 persons and leaves 220,000 to suffer injuries from operating motor vehicles each year.

Scores Six Hits

Manuel "Moocho" Gutierrez, former Carrizozoan, scored six hits at Alamogordo recently to lead the Alamo vets baseball club to a 10-3 victory over the Artesia Eagles. Gutierrez, playing at second base for the Alamogordo team for the past several weeks, was credited with 10 strikeouts and issued only two walks during the entire nine innings of pitching.

Born and reared at Carrizozo, Gutierrez is employed at Holloman Air Force Base.

Municipal Elections

Such reports as have reached the Office of the New Mexico Taxpayers' Association indicate that there is an increasing inclination on the part of voters in municipal elections to disregard partisanship. Candidates are grouped under such titles as "Citizens' Ticket," "Independent Ticket," etc. In Tularosa there were two tickets, labeled "Progressive" and "Better Tularosa" tickets. Candidates were elected from both tickets. Of three members of the Board of Trustees elected, one is an Independent, one is a Democrat and one is a Republican. The clerk elected is a Democrat, as are two hold-over trustees. The time may come when, at least at local elections, the only questions to be considered as to any candidate will be, "Is he honest?" and "Is he capable?" New Mexico Tax Bulletin.

said "even though we are convicts, we like cleanliness." One mattress was observed in such a filthy and torn condition that a member of the press stated he would not permit his pet dog on it. It was reported it is necessary to spray mattresses several times a week.

The prisoners include many young men for whom rehabilitation is possible, but a number of newspapermen were of the opinion that conditions at the penitentiary are not conducive for that purpose. One group of prisoners told the newsmen, "we will appreciate anything you can do for us."

The visiting press, who had lunched on steak, beans, salad, beverage, rolls and pie asked the convicts what they had eaten that noon, and they reported beans was the only food on their luncheon menu. It was stated the prisoners are being fed for 18 cents a day and they expressed the wish that their practically constant diet of beans could be varied a little. They commented that sometimes on Sundays or holidays they were given small portions of meat.

When newsmen commented on some of the unclean and unsanitary conditions, one prisoner remarked, "you should see the 'hole'". It was reported a prisoner can get 10 days in the "hole" for almost anything. The visitors saw only a small portion of the prison which is old and hopelessly outmoded. The prisoners reported some of the cells do not even have plumbing facilities and the occupants are forced to use small buckets. It was reported that prisoners who are punished by being confined to the "hole" are allowed only two slices of bread and a gallon of water per day, with a "pretty good" meal furnished every few days.

The cooperation of the state's press is urged by prison officials in seeking funds to modernize the penitentiary and its methods. Authorities indicate they will request assistance from the state finance board in their efforts to get started on reforms and changes which Warming has already recommended.

Prior to the luncheon and tour, the press association approved a resolution that the availability of public records is the keystone to informed public opinion, and reaffirmed its position that "public officials should respect the spirit as well as the letter of the law, which provides that all public records shall be available to inspection at all times." Following the June 11 slaying of a prison guard at the prison, the New Mexican, Capitol Daily that ran articles highly critical of the institution, for a time was denied unlimited access to convict records. The board, however, ultimately agreed to unlimited access at a time when the newspaper was preparing to take its fight to court.

PERSONALS

Mrs. Margie Clouse and her mother, Mrs. Nellie Branum, are visiting in Colorado this week with Mr. and Mrs. Wayne Van Schoyck. Mrs. Lemon is relieving Mrs. Clouse at the local bank.

Mr. and Mrs. Howard Hall of Corona, Calif., were visitors at the R. E. Lemon home last week. It was Mrs. Hall's first visit to Carrizozo in 43 years and she found very few of the old landmarks. She and Mrs. Lemon were schoolmates in White Oaks. They planned a surprise visit but found Mrs. Lemon away and visited with Mr. Lemon overnight and left for Oklahoma City where Mr. Hall has oil interests.

Apple Growers—

association was selected to denote the general area, as well as to convey to the homemaker that the apples are grown in the high altitude of a mountainous section, which is an important factor in the outstanding flavor and mineral and vitamin content of the fruit.

At a recent meeting of the organization's executive board held at the Bonnell ranch near Glenico, the members were informed all legal matters had been completed and the association functioning as a stock company. Certificates of stock were given to the original purchasers and an announcement made that stock is available to fruit growers in this county, as well as to other individuals who are interested in the success of the enterprise.

During a recent discussion of the project, Pfingsten reported the purpose of the association is to bring Lincoln County apples before the nation's buyers at their best and properly conditioned in every respect; to give all fruit growers in this area an opportunity to attain the highest rewards for their fruit growing, and to serve all in the entire community. He commented it made no difference whether a large number of trees or a small number were grown, and that everyone is welcome to seek membership in the organization. It was also announced that individuals who do not have orchards are eligible to extend support to the association.

It was emphasized that any fruit grower in Lincoln County may have apples processed and marketed by the association even though he is not a member. According to Pfingsten, the executive committee feels the organization is a home owned and home operated concern, and until such time as it might be necessary to seek outside capital, stock in the association will not be available to investors from outside Lincoln County.

FISH AND GAME NOTES

State Game Warden Elliott S. Barker has announced the completion of arrangements to hold a field symposium on watersheds, recreation, wildlife and range management in the Pecos country June 29 through July 2. The sessions are sponsored by the state agency and the area U. S. Forest Service office. Guests will include representatives from conservation agencies in Arizona and this state. Special invitations have been mailed to livestock associations, resort owners, wildlife officials, water users and others urging them to attend the meeting.

Barker stated the purpose of the conclave is to examine the important upper Pecos watershed, analyze its uses, values and problems and correlate the functions of the watershed with its intrinsic worth.

Headquarters during the four-day gathering is the old Pancho Ranger Station at the head of the Pecos. Several field trips to nearby areas are also included for the visitors.

Two Dalhart, Texas, men found excellent fishing on the Cimarron and Costilla rivers recently. So good, in fact, that each paid a fine of \$100 and court costs of \$6. The men were discovered with a total of 111 fish in their possession—just nine trout short of four times their legal limit of fish per day or in possession.

and \$25 court costs. Ten-day jail sentence imposed with credit for time served. Driver's license revoked for one year.

State vs. Victorio Chavez: Charged with reckless driving. Pleaded guilty. Paid court costs of \$50.

The following cases were withdrawn: Numbers 5598, 5601, 5617, 5608, 5609, 5596, 5623 and 5610. Case 5590 vacated to be set at a later date.

Size and color don't affect the flavor or quality of dry onions, according to Miss May Stanek, nutritionist for the Extension Service at Colorado A&M. When you're choosing onions, avoid the ones with wet necks, she says. The Bermuda and Spanish types are milder than the very hard, long-keeping varieties.
