

RAMBLIN' AROUND

By PAUL BAKER

There is considerable interest in the oldest subscriber content being conducted by the News and receipt is acknowledged of two letters from subscribers who have taken either the News or Outlook since 1907 and 1910, respectively.

The contest is still open and we would like to hear from others who have taken this newspaper since way back when.

This week wrote links to the chapter of one Thanksgiving turkey. It was a robust bird and well roasted, but ground beef will taste good for a change. This year I escaped turkey hash and soup, thanks to our little dog Poodle who suddenly developed an appetite not only for turkey tidbits, but the carcass as well. How I love that little snare dog!

Roy Shafer reports a cool 12 degrees below zero one morning at his ranch in the hills near Corona. It's a little on the chilly side up there now, he says, but the difference in temperature makes the climate at the ranch ideal during the warm months.

As proof that the Christmas season is drawing nigh, Postmaster Kelt this week received a plain white envelope with the words "Santa Claus" written across the front of it. That's all the address there was. Our postmaster must have been undecided which direction to forward the letter so he closed his eyes and tossed it in the direction of a row of boxes. It came to rest in the News box beside a motley array of papers and envelopes, containing bills, dues, free publicity, a tax statement and one remittance from a blessed subscriber.

The News staff was unable to decipher the message to Santa Claus, but our responsibility is great. The lot who typed the letter within the plain envelope must have had a number of things in mind come Christmas morn, and we are printing the letter, hoping that one of our Eskimo subscribers will relay it to Santa Claus who will doubtless be able to decode it.

The letter follows: BESSIE GGGGG NNNNNN ))))((( FFFFF QQQQQ H UUUUU MOC \*\*\*\*\* LLLL LLLL TTTT LLLL LLLL OOOOO KKKK DDDDD \*\*\*\*\* PTTTT WHOFF XXXX

A community effort that deserves much praise is that of the Hondo Valley High School PTA which some time ago undertook to raise \$3000 to buy uniforms for the school band. All of this indebtedness except approximately \$800 has been paid off and it is to retire the remaining obligation, was after the first of the year, that a bazaar and variety show will be held at Hondo Saturday, December 13. It seeks the support of all who can possibly attend.

The Carrizozo Village Council has adopted a watchful waiting policy in regard to the development of water resources for the town. They have been advised not to spend money on test wells at the present time. Information from one source is that the Southern Pacific will put a pipe on the Lake Bonito system that Alamo could afford to pay. If that deal is worked out, Carrizozo should benefit by having a greater supply of water at lower cost. We'll get up early when that day arrives.

When C. E. Degner promises to write a line or two when away on a trip, he will do just that. But he may forget to mail mine. When C. E. returned this week from his visit to Washington, D. C., he dropped into the News office to tell us he had written the card all right, but he considered the little matter of taking the card out of his coat pocket and depositing it in the mail box. The card came back with him to Carrizozo. Well, anyway, we ALMOST got a card, and I still have faith... Faith that some time, some where, from a far off place, a souvenir postal card will arrive from a friend saying: "Having a good time. Wish you were here."

LOS ANGELES TRAFFICITY A pedestrian, crossing the street, was struck and hurled 80 feet. Along came a cop, poised and serene, And gave him a ticket - "For leaving the scene!"

WORK BEGINS ON OSCURO AIRSTRIP

Construction has begun on a 7000-ft. airstrip near the Army Barracks at Oscurito, 23 miles southwest of Carrizozo.

A crew of ten men are working on the project of grading, draining and surfacing the runway, which is estimated by I. M. Lewis will take three months to complete.

Mr. Lewis is a member of the firm of Lewis & Nicolli, Gallup contractors, who have been given a sub-contract by the Hugh McMillan Company.

The runway will be used as an air auxiliary landing strip. Several of the men employed on the project are reported to be looking for homes or apartments to rent in Carrizozo.

Capitan H. S. Gridders Given Victory Dinner

The undefeated Capitan Tigers and their dates were entertained with a dinner Monday evening, Nov. 24. The dinner was put on by local tiger-boosters in and around Capitan and Ft. Stanton. Tables were laid for approximately 60, but due to bad weather and dangerous roads, all were not able to attend.

The tables were decorated with the orange and black colors of the fighting Tigers. The place cards were made to represent a football with the player's number on each instead of his name. The place card also contained the program and menu. The menu was roast turkey with all the trimmings.

Mr. Lee, the basketball coach, was guest speaker. He gave a short but impressive talk based on sport and cooperation in athletics.

TEAM THANKS BACKERS The Capitan Tiger football team and their coach wish to thank those who contributed to the wonderful dinner and evening of entertainment given by the local boosters on November 24. Their kind interest and appreciation on the part of parents and friends is what helps to make a successful football team.

CAPITAN TIGERS

Duane (Bud) Darling, the Tiger's highly-rated football coach, was program chairman. He gave a short resume of the season and of each boy's performance and also announced the lettermen. The coach was then presented with a beautiful table planter lamp, in appreciation for his coaching of sportsmanship and for an undefeated team. The boys had autographed the shade. Melvin Romero, the outstanding lineman, and Johnny Werser, left half back, were elected honorary co-captains of the Tiger team. This was done beforehand by the boys but the winners were not announced until that night.

After the dinner, LeRoy McKnight showed several football game picture slides which he and others had taken during the year. The rest of the evening was spent in dancing.

N. M. COPPER CORP. PLANS EXPANSION IN LOCAL MINING

Plans for expansion of operations of the New Mexico Copper Corporation were announced in Carrizozo this week following the return of C. E. Degner, president from Washington, D. C., where he attended a meeting of the board of directors.

Additional equipment, including a diesel engine, is being purchased for the Conquer mine, 11 miles southwest of Corona. Eight men are presently employed in this operation which produces fluorspar, copper, silver and lead. Mr. Degner states that the crew will be enlarged to 25 after the first of the year.

The main shaft of the Conquer is at a depth of 135 feet. An additional shaft will be sunk and drilled at various levels.

The ore in an adjoining shaft has been explored to a depth of 330 feet.

Fluorspar, a mineral used in hardening steel, is being shipped to Deming for milling. Mr. Degner states there is increasing demand by steel mills for fluor spar, which imparts hardness to steel similar to manganese and tungsten.

Copper, silver and lead ores from the Conquer mine are being shipped to El Paso for refining. Another property of the Corporation is the Surprise Park mine in the Sierra Blanca mountains south of Carrizozo. This location, producing copper and silver, is scheduled for development after the first of the year, Mr. Degner states.

Jack Payne, Corona engineer and surveyor for Lincoln County, will assist Mr. Degner in managing the two properties.

Carrizozo Quintet To Meet Defending Bean Valley Champs

Basketball gets under way in full swing tomorrow night when Carrizozo quintet plays host to the Mountainair Mustangs. The main game is scheduled for 8:15 p. m.

Mountainair is the defending champion of the Bean Valley Tournament as well as the District 14 champion of last season which made an admirable showing in the Regional Tournament losing to the strong Silver City team by only 4 points. They are reportedly strong again this season which will mean the Grizzlies will have their hands full tomorrow night.

Coach Hamilton's squad is still handicapped by lack of practice sessions due to the hunting season and Thanksgiving vacation. Hamilton was out of town over the vacation, thanks to Uncle Sam who called him to Albuquerque for a physical examination in accordance with the draft law.

With this week's practice sessions behind them, the Grizzlies will be a better ball club than when they met Hondo two weeks ago. The return of veterans Gerald King and Dillon Lovelace to the lineup will add more height and speed to the club as well as valuable experience.

FLOOR GAME IMPROVES Although the Grizzlies were ragged in their first outing, Coach Hamilton was pleased with their floor game and their desire to play. They showed also that they might be able to conquer the fast break with a little more practice.

Lee Straley, Tino Lopez and Gerald King should provide the speed needed for Hamilton's fast break offense with several newcomers looking better and able to step in at any time.

This week Coach Hamilton has been working mainly on the passing game and rebounding off the offensive board which was weak against Hondo. With the Alamo Tigers here next Friday night and the Grizzly team journeying to Tularosa Saturday, the Carrizozo mentor is working hard to get the boys in the best possible shape before these two important clashes.

Tomorrow night's game will give some indication as to how Carrizozo will stack up in the Bean Valley Conference this season.

The preliminary game will start at 6:45 p. m.

### LINCOLN COUNTY 20 YEARS AGO

(From the files of the Lincoln County News, December 2, 1932)

Hunters shot two of Jim Tully's Hereford cows in the Ruidoso country during the past hunting season. Jim is glad that the "shoot a deer if you can — but shoot something" season has ended.

Mrs. R. E. Berry was hostess to the Women's Missionary Society Wednesday afternoon.

The Lincoln County Teachers' Association was well attended, even though the depression is on.

Resolution: "We, the members of the Lincoln County Teachers' Association go on record as favoring the plan that certificates of indebtedness be issued to all teachers when funds are not available to pay warrants."

Born to Mr. and Mrs. Aaron Akers of Capitan, a daughter, Lora Margaret.

November 26 Miss Ruth Brickley and Burl Lindsay suffered injuries when their car crashed into an east-bound freight train. Miss Brickley received a sprained ankle and a scalp wound. Mr. Lindsay's arm was broken.

There is much sickness in Capitan at the present time, mostly flu and chicken pox.

Shortage of manpower, particularly year-round farm hands, continues to be one of agriculture's most difficult problems, according to reports from throughout the nation.

### New Mexico's Death Rate in 1949 Below National Average

The death rate in New Mexico in 1949 was 20 per 1,000 population, a figure lower than the death rate of the United States of 27 per 1,000 population, according to the annual report of the New Mexico Department of Public Health.

The death rate for heart disease, cancer, diseases of the circulatory system (including apoplexy), nephritis and arteriosclerosis and lower than corresponding rates for the United States.

However, the rate for accidents in general, motor vehicle accidents, tuberculosis, influenza and pneumonia were higher than the rates for the United States.

Expansion and development of water supplies continued in 1949 with improvements completed in Batoon, Taos, Alamogordo, Clovis, Farmington, Melrose and other towns. Chlorination of public water supplies has now reached

all but a few of the major water supplies. Certification to the U. S. Public Health Service of water utilized on the interstate carriers (mainly railroads and airlines) showed approval of additional watering points at Las Vegas, Lordsburg, Gallup, Albuquerque and Clovis, heretofore not fully approved.

The work of the provision of domestic water supplies was extended by the completion of such water supplies in El Cerrito, Torreon, Lumberton, Dixon and Abiquiu. The average cost of bringing an approved water supply to 299 families was \$115.13 per family. It is to be hoped that legislative appropriations will permit the continuance of this work for several more years, as the need is great.

## For Loss of State Funds

Commissioners of the State Department of Fish and Game last week heard the case of Tommy Jeter, owner of Mountain View Ranch at Cowles in the Pecos Canyon. Mr. Jeter was robbed in August of 1952 of \$324.75 in funds collected from the sale of hunting and fishing licenses before the money could be turned into the State Game Department.  
Mr. Jeter contended the Department, not Mountain View Ranch, would have to bear the loss since he had collected the money, as required. The Department contended the money was his responsibility until he paid them.  
A verbal opinion by a member of the Attorney General's staff confirmed the Department's stand.  
The Commissioners further: Heard a report on the big game

## Southern Pacific to Buy 2000 New Freight Cars

Southern Pacific is asking for bids on another 2000 new freight cars, although 8300 cars are still to be delivered in its previous orders. D. J. Russell, president of the railroad, has just announced.

The new orders will raise to approximately 40,000 the number of new freight cars acquired or ordered by Southern Pacific since end of World War II.

Since January 1, 1946, capacity of the Southern Pacific freight car fleet in service has been increased about 31 percent, contrasted to a national average gain of about 4 percent, Russell pointed out.

The new orders will include mostly gondolas and open and covered hopper cars. Although costs of the new cars will not be known until bids are in, it is estimated they will raise to more than \$440,000,000 the railroad's appropriation for post war equipment. These appropriations will include Southern Pacific's share in the cost of over 10,200 new refrigerator cars for the jointly owned Pacific Fruit Express Company.

Southern Pacific's large acquisitions of new rolling stock,

season which showed a 21.8% deer kill for the ten checking stations reporting final returns.

Agreed to close a one and one-half mile area around Orco Peak in Socorro County to all hunting in order to protect Army radar installations on the Peak.

Granted three Class A lake permits to Grady Vaughn of Chama for ponds he has built and developed on his private lands. The ponds do not draw on any continual public water course and will be privately stocked; Heard a discouraging report on the prairie chicken survey, now in progress. Local landowners and Department biologists in the field say brood stock is low, feed is scarce and moisture is light.

Greeted with hearty approval a proposal by well-known rancher, Ben Florshelm of Springer, which, if successful, would mean the acquisition of additional public fishing waters by the Game Commission at Mr. Florshelm's expense. Mr. Florshelm proposes to buy the Abbott Lakes in Harding County from their owner, the Southern Pacific Railroad, then turn them over to the Commission to be held in perpetuity as a public recreational ground. The two lakes comprise approximately 22 surface acres and are suitable for trout, although they contain mostly warm water species at the present time.

## Conference to Discuss "Life a Day" Record On N. M. Highways

ALAMOGORDO, DEC. 4—The Regional Conference on Highway Safety will be held at Community Center in Alamogordo on Wednesday, Dec. 10, when residents of Otero, Dona Ana and Lincoln counties will meet to discuss causes of traffic accidents and to present their ideas as to best control them.

Registration will begin at 9 o'clock, with the meeting following at 9:30 a. m.

Earl Shain, district chairman, is urging all members of the local Rotary, 20-30 Club, Optimist, American Legion and other civic organizations, including the PTA organizations, to attend the conference which he thinks should be of vital concern to all.

Mr. Shain states that as of Tuesday, Nov. 25, the 330th day of the year, New Mexico has had a total of 340 vehicle accident fatalities, a ratio of more than one

together with extensive post-war expansion of plant facilities, Russell said, are to meet the needs of national defense and are in keeping with national growth and industrial developments in its territory.

per day and which is in excess of last year's figure. He adds that the death rate on the highways in New Mexico for last year was the highest of any state in the Union.

At the conference, a report will be made to the people of New Mexico on what the Governor's Traffic Safety Committee has done; and what happened to the 200 suggestions submitted in seven such conferences held last year which formed the backbone of the work done by the governor's committee, according to C. O. Erwin, chairman. "The only way," Erwin states, "we have of knowing what a majority of the New Mexicans think is to have these conferences and find out."

## More Meat in Sight During Coming Year

Production of meat has risen moderately in the nation this year. Economists of the U. S. Department of Agriculture say meat production will continue to increase in the year ahead. They expect the average person to eat a few pounds more meat in 1953 than in 1952.

The economists base their prediction on the prospect of more cattle and calves coming to market. They expect larger output of beef and veal to account for nearly all the gain in total meat production. Pork supply will probably be less, with about the same supply of lamb and mutton.

**GENERAL MOTORS ANNOUNCES THE 1953 PONTIAC**

PONTIAC, MICH., Dec 2.—First of the General Motors units to announce new models, the Pontiac Motor Division today unveiled its 1953 line of Dual-Streak Chieftain cars in a nationwide program of simultaneous dealer showings, according to Pontiac General Manager and General Motors Vice-President, Robert M. Critchfield. The new Pontiac is on display this week at the City Garage in Carrizozo. For 1953 Pontiac introduces a completely new line of automobiles with new roomier bodies, mounted on longer wheelbase chassis, with improvements incorporated in styling, riding qualities, ease of steering, and equipment; and, in the case of the six cylinder model, substantially increased power. Mr. Critchfield says. Eleven body styles are incorporated in the new lines in three series, the Special, Deluxe and Custom. They include two and four door sedans, three station wagons, a convertible coupe and two new Catalinas. An addition to the line is the two-seat station wagon with folding rear seat arrangement. Each series is introduced with either featuring the new bodies, which are immediately distin-

guishable from previous models by their large one-piece wrap-around rear windows, one-piece curved windshields, high deck contour, modern rear-fin fender design and completely revised styling of sheet metal and trim are new luxuries, and highly practical interiors. In addition, such engineering advances as power steering, as optional equipment, modified Curve Control front suspension, ignition key starting, electronic headlight dimmers, improved Dual-Range Hydromatic transmissions, and other technical developments characterize the new cars. While roomier, the new Pontiacs are more streamlined than hettotops and are characterized by a marked increase in driver and passenger vision. Elimination of the dividing strip in the windshield and adoption of one piece wrap around rear windows has increased both forward and rearward vision by as much as 39 percent, eliminating blind spots and contributing substantially to the sense of safety and security of passengers and operator. The useful glass area is 254 square inches more than in previous models with the new curved glass windshield and rear windows of the safety type as before. As a result of the longer wheelbase and new interior dimensions, two and four door sedans have approximately 2 1/2 inches greater rear compartment knee-

ed. By repositioning the accelerator pedal, the engineers have provided more leg room for the driver, which, combined with adjustable front seats, permits maximum driver comfort. The longer wheel base chassis—122 inches as compared with 120 last year—is mounted on a sturdy frame redesigned to accommodate the larger bodies, the new Curve Control front suspension and other changes made to enhance riding quality, steering ease and roadability of the new cars. Outstanding technical development in the 1953 Pontiacs, according to the engineers, is the introduction of Curve Control front suspension by which greatly improved steering and handling of the car over rough roads and curves is achieved. For 1953 the six cylinder engine has been made more powerful, the horsepower being raised from 102 at 3400 rpm to 118 at 3900 rpm, with a compression ratio of 7.7 to 1. This increase has been accomplished by the use of duplex carburetion with new intake manifold, new camshaft, more compact combustion chambers, electroplated pistons and other changes.
