WALTER KELLER Harpsichord Concert By Noted Musician at Old Lincoln Courthouse

Walter Keller, associate professor of music of the University of New Mexico, will present a harpsichord concert at the Old Court House, State Monument in Lincoln, N. M., on Sunday, May 3, at 3:00 p. m.

Prof. Keller will play a beautifully finished instrument of 17th Century design, which he procured in order to reproduce in authentic manner the tone and style of music of earlier periods.

The harpsichord has a long and interesting history. Although instruments of harpsichord type existed as early as the 14th Century, the earliest accurate information about its structure dates from about 1500. Music written originally for the harpsichord has, in the last two centuries, been used principally by pianists.

However, the last decade has seen much popular interest in the revival of the harpsichord. This instrument has appeared frequently in recent years in solo recitals as well as with chamber orchestras and even dance bands.

Prof. Keller's harpsichord was built recently by John Chalmers of Detroit, who is one of the very few people engaged in this interesting art. The instrument has the spirit of the Bach period as well as a solidity made possible through the use of modern materials. It has two manuals; the natural keys are black, and the sharp keys are a cream color.

The musician served in the U. S. Coast Guard during World War II. He acquired his Master's Degree in Arts from Indiana University, and has spent the last two summers and a year's leave of absence studying for his Doctorate in Music at Harvard University. He is a graduate of the Juilliard Graduate School of Music in New York City.

Mr. Keller has traveled in Central Europe, Mexico and Central America.

HIGH PRAISE FOR BAND PERFORMANCE

Receipts from the Carrizozo High School musical festival will be sufficient, together with the PTA's contribution, to pay off indebtedness on the band uniforms. Jerome Bartkus, band director, stated this week.

It was hoped the receipts would be sufficient to buy additional instruments for the band, several of which are greatly needed.

The musical festival was a success in every way. The concert was presented to a full auditorium and met with fine audience response.

The numbers presented were well played and excellently directed by Mr. Bartkus. Two humorous skits, "Ragtime Wedding" and selections by an old-time German band, "Just Arrived in this Country," added variety to the program.

Instrumentation was well balanced and the attack was sharp, showing good direction and long hours of work on the part of the band members.

The Glee Club's numbers were equally well received. The all-girl chorus presented four numbers, with a saxophone solo by Lee Adel Baker. Voices of the chorus blended well and their enunciation was good. The chorus was also directed by Mr. Bartkus.

C. A. Snow was the winner of the calf donated to the band uniform fund by Pal Withers. Plans for next year are for a slightly larger band. Only one member will be lost by graduation. The high school's 1953-54 band will play a much better quality of music and at a higher musical level. Mr. Bartkus predicted this week.

COMMIT JAY HULLS TO STATE ASYLUM

Jay Hulls, 49, alias Jessie E. Hulls, whose last address was Carrizozo, has been committed to the State institution for insane at Las Vegas.

At the time of his arrest in Carrizozo April 15, Hulls had in his car three loaded guns, ten sticks of dynamite and 10 cwsps. Thirty feet of fuse was concealed in the floorboard of his car.

A telegrapher, Hulls had recently been discharged from the employ of the Southern Pacific and at the time of his arrest he had parked his car near the Southern Pacific depot, where a safety meeting was in progress.

Sheriff Bradley made the arrest, accompanied by Patrolman Carlos Salas and Town Marshal Clyde Atwood.

Hulls was charged with the possession of dynamite within the city limits and was lodged in the County Jail. Last Saturday, Sheriff Bradley, Marshal Atwood and Jack Grayson, special agent for the Southern Pacific, took Hulls to Las Vegas for a hearing before Judge Luis E. Armijo.

Following his arrest, it was learned that Hulls had previously been committed to mental institutions in Oklahoma and California. He was tried for assault and battery in El Centro, Calif., was found insane and spent the next four years at Napa.

PERSONNEL CHECK

He was discharged in 1951 and changed his name from Hulls to Hulls. He then secured employment with the Southern Pacific as a relief telegrapher and worked several different places, the last in Carrizozo, coming here about a year ago.

In checking personnel records the railroad company's office in Los Angeles discovered Hulls' falsification of his name and he was discharged. The sheriff's office department in Carrizozo was notified and asked to keep the man under surveillance.

Hulls' arsenal was composed of, in addition to the dynamite, a Remington-Union automatic with a full clip of shells; a .30-40 rifle, with telescopic sights, a shell in the chamber and a full magazine; also a .22 semi-automatic rifle.

After his arrest, the man's insanity soon became evident. In his possession were many letters and writings claiming supernatural powers. One, addressed to President Eisenhower offered his services in ferreting out enemies of this country who were trying to "destroy our government by a 'thought process.'"

He claimed credit for the atomic bomb, the German V-2 rocket and the Russian ice bomb. Asked why he had in his possession guns and dynamite, Hulls stated they were to protect him from his "mental enemies."

His stay in Carrizozo was marked by a previous brush with the law, when he was fined in Police Court March 31 for disorderly conduct. He appeared normal enough at that time.

Carrizozo Woman Loses Life in Car Accident

Funeral services were conducted Wednesday afternoon for Mrs. Christine Vall, 27, of Carrizozo, who lost her life in a tragic one-car accident Sunday morning.

Rev. H. T. Ray conducted the services in the First Baptist Church. Interment was in Evergreen Cemetery.

The accident occurred at 10:45 Sunday morning on U. S. Highway, 21 miles west of Carrizozo. Mrs. Vall was driving a new GMC pickup. The vehicle ran off the right side of an embankment on a straight stretch of road, caused, it is believed, by her inexperience in driving.

Mrs. Vall was killed instantly, her chest crushed by the steering wheel. She also sustained a fractured skull.

Her husband, L. D. Vall, a passenger in the car, was not seriously injured, but was removed to Carrizozo hospital. He was released Monday.

Patrolman Eddie Apodaca of State Unit 12 and Sheriff Glen Bradley investigated the accident.

Mrs. Vall was born July 23, 1925, in Oklahoma. Surviving are her husband; her father, Walter Helm of California; two sisters, Betty Worley and Joyce Ann West; two brothers, William Lee Helm and Dale Helm, all of Oklahoma, and two uncles.

WILL HARRISON'S Inside the Capital

SANTA FE, April 22—Two hundred and seventy people of the state bureau of revenues are wondering if they are the forgotten tribe of the statehouse. Thirteen months ago their wages were ordered frozen by the governor until some bad spots were ironed out. They're still frozen... Capital politicians, Democrats included, are guessing that Ed Mechem would outrun Senator Clint Anderson if that race should develop next year. But that's very long-range guessing... Judge Ford Wilson (he used to be a judge anyway) thinks the only solution for the penitentiary difficulties is "to get a better class of people in the place."... Some Democrats are complaining that Attorney General Dick Robinson is playing footsie with the governor. From here it looks more like constructive cooperation... Bill Kestler, the 34-year-old Republican candidate for Attorney General may wind up glad that he lost to Robinson. He's all lined up for the \$12,000 a year job as chief counsel for the U. S. Indian Bureau... The first indication of revived life in the Democratic party at the recent meeting came when Barney Cruz of Mora socked Carlos Trujillo of Taos. They were arguing about Land Commissioner Johnny Walker who fired Cruz and kept Trujillo... When John Miles was taken to the hospital on the eve of the Demo Central Committee meeting. It was for the same trouble that almost killed him when he was governor in 1941. That was when his prospective successors stayed up all night fighting over the anticipated spoils. This time the attack wasn't so serious... Speaking of the ailing, former Supreme Court Justice Abe Zinn has been perilously ill for some time. He suffered several strokes... Dona Ann Democrats would like to start something going for Sen. Jess Richardson for governor... What happened to that Indian Commissioner appointment that Alva Simpson, the Welfare Director and Gallup Glenn Emmons were shooting for? Ike's been in for 3 months now.

DOPE QUESTION

The current phase of the prison investigation is concerned chiefly with the use of dope in the institution, and it will be strange if the disclosures fail to attract attention of ex-FBI man Ed Mechem, the governor. These guys usually perk up like a bird dog smelling a hunting coat when they hear narcotics.

What will he do, for instance, when it is brought out at the May 8 meeting of the committee that a pen guard was fired last year for smuggling dope into the prison and signed a statement admitting it, but was never reported for prosecution? Or how will he receive the information that another guard was fired last August "on strong suspicion" of smuggling narcotics and rehired last March 37?

Another critical point in the prison people's handling of narcotics matters was their failure to report to federal authorities the morphine and cocaine theft of last September 10 when the prison hospital safe was smashed by convicts.

The narcotics traffic in the pen may develop into a major subject of the legislature committee's investigation because of the stringent federal and state laws on the control of the stuff. There's hardly such a thing as a little narcotic violation.

The members of the 14-man committee are getting suspicious of each other in the belief that some want to whitewash the prison and others want to do a smear job. The majority of the group, however, including Republicans and Democrats, seem intent on making a fair and thorough investigation.

AROUND THE STATE ON A TYPEWRITER

The (ugh) Truth or Consequences Fiesta this year appears to have attained the stature of a big show. People visiting the capital from all over are talking about its success... Helen's Mrs. Dick Cantillo, of city hall and county assessor's office experience, won't deny that she's shooting at the Demo nomination for secretary of state... Socorro's capable Eppie Ramirez, the director of Public Employee Retirement board, points out that an article in this space about Burton Dwyer, Johnny Miles, Abe Zinn getting bigger pensions. We should have said they will be eligible for bigger payments when the new law goes into effect in June... The State Highway Commission has a special chair for Rep. Heavy Drake of Lincoln County. He hasn't missed a meeting in two years.

NO NEW POLIO CASES

No new cases of polio were reported this week by the New Mexico State Department of Public Health. The total to date is 12, compared with 15 at the same time last year.

BUS DRIVERS CONVENTION

A school bus drivers' district convention was held in Carrizozo April 13. Guest speaker was M. Martin from Santa Fe. The meeting was reported to have been very successful.

SHADOWS

By Wm. Fetter

Beneath the pine I buried a dream
While the rest of the world was asleep;
The place is only known to the moon
And the stars that lonely vigil keep
All that was left of a treasured dream,
While the rest of the world was asleep.

And no one will ever note or know
The sorrow dwelling within my breast,
Or the anguish that has filled my heart
Since a cherished, happy dream went west,
And I was left for a while to go
Alone amid scenes that we both loved so.

O, dream quit haunting my hours of sleep
Sweet ghost lie still in your narrow grave,
You still have left the stars and the moon
And the solitude, a boon I crave!
Quit haunting me, for I would sleep
Away from memories covered deep.

Heringa Tells Problems Facing Cattle Growers

ALBUQUERQUE, N. M., April 22—An aggressive attack by New Mexico Cattle Growers on problems facing their industry is told in the April issue of "New Mexico Stockman" magazine.

The magazine, official publication of New Mexico Cattle Growers, details steps taken by ranchers from every corner of the state to face the most serious decline in cattle prices in recent years and an uncertain prospect as to range conditions.

Cattlemen, reports the Stockman, are rallying to the support of their industry and its future with a spirit of "one for all and all for one."

The new issue contains a detailed report on the recent 39th convention in Albuquerque of the New Mexico Cattle Growers Association, including many photographs of delegates and a complete list of resolutions; lists of addresses by a number of prominent speakers also is presented.

Ed Heringa, re-elected president of the group, keynotes the solid front presented by ranchmen in facing the critical days ahead, in these words in a foreword to the publication:

"Although the industry is confronted with depressed market conditions at the present time, the work and activities of this association and similar groups throughout the nation is expected to do much toward improving the situation at the earliest possible time.

"Only working together in matters of mutual interest can the livestock industry or any other industry expect to survive and prosper under our form of economy and government."

In a special article by Mrs. Tom Charles of Alamogordo, the Stockman tells of electric power opening new frontiers for land owners in Southern New Mexico. It also reprints an article from U. S. News and World Report entitled "Boom in the Desert," describing New Mexico and Arizona as the fastest-growing states in the Union.

Report Sentiment for Renaming 'Hot Springs'

NEW YORK, N.Y., April 21—A little town in the Rio Grande Valley, formerly called "Hot Springs" New Mexico, has been paying the consequences ever since April, 1950 when its name was officially changed to "Truth or Consequences," writes Wm. S. Fairfield in the current issue of "The Reporter" magazine.

This change was made by a four to one vote of the townspeople at the behest of the producers of Ralph Edwards' radio show of the same name. In return for the change, Hot Springs was to receive "millions of dollars' worth" of free radio advertising annually, and Edwards promised that it would "become the greatest health resort in the entire nation."

Edwards has continued to mention the town regularly and has even conceived various stunts to draw additional attention to it. This year, for example, for his fourth annual broadcast from Truth or Consequences, Edwards had an "unlucky" contestant hitch-hike from New York to Truth or Consequences, with a skunk—"deodorized, of course"—on a leash.

Since the original vote to change the name, the forces of the opposition have been growing. A Hot Springs Club, dedicated to restoring the old name has been formed.

Another disquieting factor to Edwards' boosters is the slipping popularity of the town's parent show.

The "Reporter" also mentions other Edwards' ideas which have soured. The million-dollar hospital Edwards was going to build with receipts from the "Grandma Hush" contest never materialized. There is a Truth or Consequences Museum of Relics which cost the city \$7,000 or \$8,000 to build. All Edwards ever sent was a few pictures of himself and an elephant blanket.

**MUSIC RECITAL
DRAWS PRAISE**

The recital by the music pupils of Mrs. E. S. Burns, which was presented Monday night, was largely attended and well-received. The program was varied with piano selections, violin, accordion numbers and vocal solos. The young musicians performed remarkably well. The budding pianists were Susan Spencer, Opal McBrayer, Donny Rickerson, Ida Sue Shrum, Kenneth Crenshaw, Buddy Groves, Sandra, Mary Alice and Glenda Sue King, Jonette and Marilyn Harkey, Janette Ray, Bobby Dan Crenshaw, Donna Kay Hurley, Jerilyn Graves, Sonny Shrum and Clara Nell Burns, Billy Joe Anderson and Harry Rickerson were unable to perform due to illness. A ballet dance by Anette Zimmerman was beautifully given. The little dancer performed with grace and ease, and looked exactly like the name of her dance—"Gay Little Rosebud". Susan Spencer accompanied Anette. Mary Nickels, accompanied by her mother, rendered two selections on the violin, which were very well done. Bobby Rickerson was a hit with his vocal rendition of "Jumbalya". Three of the older performers displayed definite talent in music. Miss Raynette Edgington of Capitan, who played "Scherzo, E Minor," and "Doll Dance"; Miss Barbara Jan Hurley, who played "The Glow Worm" on the piano, and two accordion numbers, and Jeff Morriss, who rendered "Silver Bells" on the piano.

Snow, who attended State Federation of Woman's Clubs at Lordsburg, April 13-17, gave a very interesting report of the meeting. One of the projects to be sponsored by State Federation is "Civil Defense." Mrs. Snow told of meeting Mrs. Ruth Brickley Bishop, a former resident of Carrizozo. Mrs. Bishop's father was cashier and president of a Carrizozo bank for many years. Mrs. George Zimmerman, program chairman, was unable to be present. LINCOLN

By MRS. J. E. PHILLIPS

Joe Baca is leaving today for Albuquerque for the Veterans Hospital, where he will receive medical care. Joe had a brother in Albuquerque, so he will have a visit with him, too.

Mrs. Irene Forbus is out of the hospital and is getting along fine, according to Mrs. Helen Meeks, who was in yesterday to get her mail. I noticed Ray Taylor has moved his new well drill he purchased recently, no doubt to a well location. Mr. Yarbrough, who has been ill, has improved sufficiently to go to work again. Leo Joiner has been helping him out at his filling station in Hondo. Virginia Gomez was up to visit her parents last Sunday. Mrs. Grace Jones has contributed some old store fixtures to the Museum. Well over half the cost of World War II was financed by borrowing.

CHALLENGE TO THE INDUSTRY -the new GMC 400-27 that outpowers and outclasses its field

GMC's new 18,000 GVW hauler not only dwarfs trucks of 16,000 and 17,000 GVW—but overshadow—and underprices—those rated at 19,000. In fact, the GMC 400-27 is designed to outhaul any truck up to 19,500 GVW. Its new engine of progressive design is stripped of excess weight, yet built stronger to absorb the stress of really high compression. It gives you braker

response, more power and mileage from regular gas. It includes, as standard equipment, many features that are optional at extra cost on other trucks. As a tractor—or as a truck—it can increase your hauling ability, give you impressively better equipment—and save you both purchase and operating money to boot.

130 CROSS CRAWLER—on money-saving single combustion. Valve-in-head engine, 270 cubic inch displacement, 7.5 to 1 compression ratio.

5-SPEED ELECTRIC 5MT REAR AXLE—15,000 pounds capacity, is coupled with a 4-speed Synchro-Mesh transmission, putting 8 forward speeds at the driver's command. (Single-speed axle available at a saving; 5-speed transmission optional at extra cost.)

34,000 GVW—137" or 147" wheelbase in tractor; 161", 172" or 187" wheelbase in trucks (9- and 12-foot platform or stake bodies optional).

ALSO STANDARD EQUIPMENT: 4,500 pound capacity front axle—Hydraulic-actuated brakes—Moraine M-400 main and connecting rod bearings—Tosco-hardened crankshaft.

5,900,000 More Cattle Than Year Previous

There were about 93,690,000 head of cattle and calves on U. S. farms and ranches at the beginning of this year. This is seven per cent or 5,900,000 head above the previous record a year earlier and 10 per cent above the 10-year (1942-51) average of 80,491,000 head. Milk cows and heifers two years old or older, at 23,090,000 head are up three per cent from last year, but seven per cent less than the 10-year average.

National sheep numbers were estimated at 27,857,000 head, one per cent below the 28,050,000 head on farms and ranches at the beginning of last year and 22 per cent below the 1942-51 average. The numbers of horses and mules declined 11 per cent and eight per cent respectively.

Chickens on U. S. farms JAN. 1, 1953, excluding commercial broilers, totaled 431,410,000. This is four per cent less than a year ago and 12 per cent below the 1942-51 average. Farm holdings of turkeys (excluding fryers) number 5,333,000, eight per cent less than a year ago and 13 per cent below the 1942-51 average.

GAME DEPT. REPORTS

DEER PLENTIFUL IN NO. M. M.
Wildlife, generally speaking, was in a fairly satisfactory condition at the end of the year. Quail are the worst hit in the drought counties, but antelope fawns may be having difficulty in surviving. Elk in all areas are satisfactory, with apparent increase in the Fort Bayard Refuge. Bear are normally plentiful and not doing a great deal of damage.

Deer are very plentiful throughout the northern part of the State with excess or approaching excess populations in the upper Pecos, the north side of the Jemez in the Burns Canyon area, the Vermejo Park and other areas near Cimarron.

Turkey have shown an increase in many areas during the past few years and, all in all, seem to be in a more satisfactory condition than for many years. Antelope continue to do pretty well in most sections and heavy hunting will be necessary in some spots.

LINCOLN COUNTY IN BYGONE YEARS

40 Years Ago

(From the files of the Carrizozo Outlook, April 24, 1913)
 The Socorro Chieftain, with all other property located within the block with it, was destroyed by fire last week. But the Mayers, publishers, did not allow a little thing like that to stop them. They made a quick shift and the Chieftain put in its regular appearance, brighter and better than ever. Takes more than a fire to kill a newspaper.
 John Bryan was over Monday from the Nogal-Capitan country. Mrs. Frank J. Sager and daughter, Esther, left Saturday

for a visit to the old Ohio home. James Gray, upon the recommendation of the local club, has been appointed by Lincoln County Road Commission to put the Carrizozo-Oscuro-Three Rivers road in condition.

Pontiac Hardtop Coupe Proving Popular Car

The American motorist still prefers the deluxe model in motor cars, according to H. E. Crawford, general sales manager of the Pontiac Motor Division.
 "In 1950 when we introduced the Catalina, a luxurious hardtop coupe, we expected it to account for no more than five per cent of our sales," Mr. Crawford said. "We are surprised. It actually amounted to eight per cent that year, 12.8 per cent in 1951 and 19.1 per cent in 1952."
 The Catalina, which is offered in a custom and deluxe model by Pontiac, features such things as luxury fittings, distinctive trim, special colors and color-keyed interiors. The custom model, which is by far the most popular, is available with hand-buffed leather upholstery in matching colors.
 "This year, in our 1953 models, the sale of Catalinas picked up right where we left off in 1952," Mr. Crawford revealed. "We produced 19.2 per cent in January and 19.9 per cent in February to meet customer demand. Our projected schedule, reflecting orders placed through our dealers, call for further increases in the production of this model."

S. S. Now Inducting Young Men Nearing 20

Colonel John P. McFarland, State Director of Selective Service, said that since numbers of 19-year-olds are now being inducted, many registrants and their parents have gained the false impression that all the men who have just reached their 19th birthday will be inducted almost immediately.
 It was explained that the term "nineteen-year-old," as used by the Selective Service System, includes all of those registrants between nineteen and twenty. Selective Service Regulations require each local board to induct the oldest registrants classified "A" and found acceptable by the armed forces before taking the younger men.
 Thus, the registrants who are nineteen years and ten or eleven months, are for the most part the 19-year-old men who are now filling the induction calls in many boards. Such boards will next take those registrants who are nineteen years and nine months, and so forth under the selective service procedure of taking the oldest first.

News and Views From Your Nation's Capitol

By JOHN J. DEMPSEY
 Congressman from New Mexico

WASHINGTON, D. C., April 21.—Congress, back at work after the Easter recess, is evidencing greater determination than ever before this session that spending and taxes are to be reduced before the adjournment curtain rings down in mid-1953, probably in late July. That was apparent in Capitol Hill as the nation's lawmakers returned to their duties with reports that the "people back home" are in no mood to tolerate alibi or excuses for failure to carry out the economy pledges made in the 1952 campaign. The public attitude was bound to be—and quite properly—"make good or else."
 In the meantime these heads of departments who have been telling Congress that cutting their budget requests will be "terrifically difficult" apparently are responding in some degree to pressure of public opinion and goading by the economy bloc in the Congress and are beginning to find ways of overcoming the difficulty. It has become less "terrific." They are whittling down their budget requests and Congress, it is virtually certain, will pare them further.
 It is evident to anyone who has studied the matter even superficially that cuts must be made in the defense and foreign aid budgets if appropriations are to be held down to the point where the tax burden can be lightened this year. President Eisenhower has requested that his advisory staff be given time to complete its analysis of defense needs before final determination is made on appropriations for that department. Secretary of State Dulles has indicated he is now on the trail of waste and reckless spending abroad.

Just before Easter recess Chairman John Taber (R. N.Y.) of the House Appropriations Committee said he believed in excess of 12 billions could be trimmed from the original Truman budget, submitted early this year. His figure is somewhat in excess of the 10 billions I had said previously could be lopped off without injury to any proper government function. During the recess Sen. Styles Bridges (R. N.H.), chairman of the Senate Appropriations Committee, said the entire federal spending budget, including defense, "can be cut all along the line without impairing efficiency or national security." Both of those charmen are thoroughly conversant with the spending program and, quite naturally, carry much weight in the decision on appropriations.
 Senator Bridges made his statement following a conference with the President, but said he was speaking only for himself

and not for the President. Sen. Taft (R-O.), Senate majority leader, agreed that "some economies can be made in military expenditures."
 This recent turn of events has given considerable encouragement to the supporters of the bill introduced by Chairman Reed of the House Ways and Means Committee, which would cut personal income taxes by 5 1/4 per cent this year. Rep. Reed says he will continue to press for action on this measure.

One of the most troublesome problems confronting education officials in New Mexico—public school education of Indians—will be solved in part at least, if legislation just introduced in the Congress is enacted. Two Senate bills, 1596 and 1597, would extend federal aid to education, both in building and operating schools, for two years, or until June 30, 1955.
 The present laws would be changed in some regard, but they would continue to recognize the obligation of the federal government to aid in areas where there has been heavy immigration due to federal defense activities and installations. Several cities in New Mexico have come under the provisions of the law. The new legislation, however, includes the Indian reservation population, previously covered by the Johnson-O'Malley Act, which provided for payments to the state under contract for educating some Indians. The proposed legislation would empower the Commissioner of Education to build schools and pay for their operation on federal areas, which would include Indian reservations.

The attitude of the Congress on this legislation may be judged by the fact that aid-to-education funds were restored in the recently-passed supplementary appropriation bill for 1953, after they had been eliminated by the House Appropriations Committee. The House and Senate concurred in the restoration by a large majority. The new legislation does not provide for as large appropriations as have been made previously for the purpose.

A GENERAL MOTORS MASTERPIECE

A Very Proud Car—At A Very Modest Price!

According to Webster, one of the important meanings of the word *proud* is this: "Worthy of admiration; deserving praise."
 That definition fits the 1953 Pontiac like a glove. Pontiac's distinctive Silver-Stroke beauty is certainly worthy of admiration—and gets plenty of it everywhere. And when you sit behind the wheel and feel the effortless surge from Pontiac's famous power plant you'll know that you're driving a mighty proud performer.

As a matter of fact, the only modest thing about a Pontiac is its price—for this wonderful car which gives you the engineering quality and the best features of the costliest cars is priced just above the very lowest!

And when you're figuring price, be sure to remember Pontiac's remarkable resale value—the sure test of long-lasting quality. Why not come in and see how easily you, too, can become the proud owner of a new Pontiac?
