

RAMBLIN' AROUND

By PAUL BAKER

Frank Boyce made a good point this week when he remarked that we are quick to tell the teenagers what they can't do. They can't stay out after curfew hours and they can't loiter on the streets. All good and well, but why can't we make a more constructive approach and provide more recreation for the young people? It's worth serious thought. Other communities have tackled the problem and have come up with constructive ideas, such as, for instance, a recreation center for teenagers activities outside of school hours and on Saturdays.

Printed on Page 2 of this issue of the News is an article by Larry Bynon of Santa Fe in which he questions the wisdom of taking the highway commission out of politics and responsible to no one. Mr. Bynon raises an important point. Should any agency or governmental function which uses public funds be independent of political control? To me there is serious doubt if this should ever take place in our form of government which gets its strength from the people and their power to vote for a change when they think it's necessary. We hear the expression: "Let's take our highways, our schools, our civil service out of politics." As if politics was something undesirable. Like the definition of politics as the science of government administered for the welfare of the people. Let's have more of this kind of politics in government. It will be a safeguard against autocratic action by independent agencies and log-rolling in the civil service. There should be no sinecure for anyone on the public payroll. Land Commissioner Johnny Walker had the right idea when he insisted on a full day's work for a day's pay.

It was reported last week in another newspaper that Alamogordo had bought Lake Bonito and that the government was paying up the money. This announcement is premature, as negotiations are in the early stage. However, the statement may be prophetic of things to come. It will be a sad day for Lincoln County when Lake Bonito's waters are piped over the mountain and out of the county. The GPA is busy packaging seeds for hunters to use in a grass re-seeding program. "Frisby Doe" asks the hunters to take time to plant the seed in the package, at elevations from 4000 to 8000 feet. We can expect to see old Mt. Baldy wearing a brand new green toupe next summer.

Baseball lingo is a language all its own. The Englishman who said baseball was a crazy game when he saw it for the first time would have been even more confused if he had listened to a broadcast of the World Series. Here's the way the game was announced in the 8th inning of the fourth game: "McDougal had a triple in the third but he died. Black fires and McDougal lines the pitch over the barrier. The Yankees are really plastering the ball today. Here's Kuzava. He takes a pitch outside. Two and two. Foul, upstairs. Dent in the screen. Ball inside. Kuzava checked his wrist. He goes down on strikes."

Doggers—A cut and a drive for Gilliam. It's a home run. Pewee Reese up. Strike called—a wrinkle on the inside corner. Woodling grabs a high fly. The next batter swings at a fast ball that cracked. Raschi starts to heat up. The Dodgers finally won that game, but they lost the series two days later and the Brooklyn Eagle, in its first edition printed the results with a mourning band across the front page and the words "Please Omit Flowers."

Here's a little poem that came in the mail: I'd rather be a Could-Be, If I couldn't be an Are; For a Could-be is a Would-be, With a chance at touching par. I'd rather be a Has-Been Than a Might-Have-Been, by far; For a Might-Have-Been has never been, But a Has was once an Are.

THE WEATHER table with columns for High, Low, and Pre for dates October 1 through October 7.

LINCOLN COUNTY NEWS

And Carrizozo Outlook

(Volume 39, Number 8, Carrizozo News, Vol. 48)

CARRIZOZO NEW MEXICO, Friday, October 9, 1953

(Outlook, Volume 44, No. 23)

YOUTH NABBED IN BURGLARY ATTEMPT

Caught red-handed in an attempt to burglarize the Zumwalt Phillips 66 oil depot office on Highway 390, Monday night, a youth has been lodged in the county jail. A companion also is in jail, following the two youths' brief adventure into the ways of crime.

Shortly after midnight Monday while making a routine trip around town, City Marshal Adams, saw someone in the act of breaking a window in the Phillips 66 office. The marshal turned his spotlight on the suspect, who jumped in his car and sped into Carrizozo, the marshal behind him. After a chase around town the car was forced to stop near the Food Mart and the youth was arrested.

He was Kent Newcom, 17, of Wichita, Kans. He had no registration papers for the 1950 Nash Rambler he was driving, and had no driver's license. The youth said his companion might be able to furnish these. The one referred to turned out to be Darrel Terbush, 16, also of Wichita, who happened to be a patient at Carrizozo hospital at the time. Young Terbush had entered the hospital at 7 o'clock Sunday evening for treatment of a gunshot wound in his left knee.

HEADED FOR CALIFORNIA

Both youths were questioned separately and the story of each, which checked on all essential parts, follows: They quit school in Wichita, and sold their books for enough money to get them to Hutchinson. There they stole a car, broke into two stores and stole four guns, including two .22 pistols with 1000 rounds of ammunition. They started out for California, traveling on Highway 54. Along the way, two service stations were broken into, one yielding \$13 and the other a 50c roll of pennies. They arrived in Carrizozo broke and Terbush went to the hospital to have his knee treated.

Newcom, meanwhile set out to raise traveling funds. Sometime around midnight he broke into Virgil Hall's garage in Capitan. He took a new \$300 cash register with him and after taking out over a hundred dollars in checks, he hid the cash register under a bridge on the Nogal road. It was later recovered. When arrested Newcom had the checks in his car and it was through them that the officers discovered that Hall's garage had been broken into. Mr. Hall himself was not aware of the fact until City Marshal Adams telephoned him.

Montana Cowboy Wins Championship at Fair

\*ALBUQUERQUE (Special)—Buck Boyce of Havre, Mont., was named all-around cowboy for the 1953 New Mexico State Fair rodeo which ended a nine-night run at Albuquerque Sunday.

Lawson Fore of Arlington, Cal., was champ of the saddle bronc riders. Boyce was entered in bareback riding, bulldogging and calf roping events and was judged the best performer. Jim White of Carlisbad was the best champ bareback rider, followed by Boyce; Manuel Enos of Shawnee, Wyo., and Jim R. White of Pueblo, Colo. John D. Holleyman of Ozona, Tex., was champion calf roping, with a time on three calves of 44.7. Champ bulldogger was Glen Hobe, who got three bulls in 33.0. Tuid go-round winners were: Freddie Brown, Lawton, Okla., bull wrestling; Troy Fort, Lovington, calf roping (13.5); Don Brannon, Lakewood, Colo., bulldogging (82).

Commissioners OK Funds for Ruidoso to Buy Rights-of-Way

Following a trip by District Attorney C. C. Chase to Santa Fe last Friday, the State is making available to Ruidoso a portion of the debenture bond surplus, which has been set aside for use by Ruidoso to purchase rights-of-way for Highway 70 widening through the Village limits.

Contract to Be Given For Mill Building

C. E. Degner, president of the New Mexico Copper Corp., reports that a contract is being given to build the mill building to house the ball mill, 10-ton flotation plant and concentration tables, large classifier, drying system of concentrates and numerous other items.

Mr. Degner states that, due to the high fluorspar content of ore from the Conqueror Rio Tinto mine, the company expects to make acid grade spar. A power plant, adjacent to the mill building, is also being constructed. The entire mill plant will be electrified.

At its mine, the company is running a drift on the 220-foot level to intercept the ore body that was opened up at the 135-foot level. Mr. Shapley has previously stated this should open up approximately 50,000 tons of ore between the lower level and the surface.

Three 4-Hers Exhibit At Fair in Roswell

Three 4-H club members from Lincoln County have exhibits at the Eastern New Mexico Fair which opened in Roswell October 6. The fair ends the 10th.

COURT HOUSE NEWS

Marriage Licenses

Mary Ann Archuleta, 16, of Corona and Kenneth Bartlett, 13, of Corona.

Margarita Chavez, 18, of Corona, and Emiliano Lueras Jr., 24, of Corona.

Adela Saenz, 23, and Ramon Reyes, 22, both of El Paso.

Jake Salas, 42, of Green Tree and Redith Jamison 36, of Hollywood.

Final Decree Granted

A final decree of divorce has been awarded Edward F. Luvaul from Audrey O. Doss Luvaul, on grounds of incompatibility. Certain real estate was awarded to plaintiff.

J. P. COURT

Oct. 2—Sgt. Albert Newton, Red Canyon, fined \$10 for drunk and disorderly; Pvt. Wilburn D. Lewis, Red Canyon, fined \$10 for drunk and disorderly; Sgt. Clyde R. Pippin, Oscura, fined \$10 for fighting.

Oct. 7—Urban F. Myers, Red Canyon, fined \$15 for fighting; Ramon A. Gomez, Carrizozo, fined \$10 for drunkenness.

TV RECEPTION IMPROVES

Bill Nickels reports that TV reception from Albuquerque has greatly improved since the new stations went into operation on Sandia Mountain. Their beams, coupled with a new type antenna installed by Mr. Nickels are resulting in pictures that he declares are: "Excellent on Channel 13; good on Channel 7 and fair on Channel 4."

TOWN TRUSTEES VOTE TO BLOCK CLOSING OF ROAD

The town trustees, at their meeting Tuesday night took steps to forestall possible closing of a public road—an extension of E avenue north, which crosses Highway 390 and is an access road to the airport, to the Lewis Farlis property, and is also used by others.

The trustees passed a motion that the court be petitioned thru the proper legal channels to retain the extension of E street as a public road. The land through which the road passes has recently sold to an El Paso man.

NEW CURFEW ORDINANCE

The trustees approved amendments to two existing ordinances. One provides for a curfew for juveniles under the age of 17 years and fixes penalties for its violation. The other ordinance prohibits loitering on the streets. Both ordinances were the outgrowth of a recent street fight in which military personnel and juveniles were involved.

OTHER COUNCIL BUSINESS

Truman Spencer Jr. asked the trustees if it would be possible to take steps to reduce the fire hazard at the town dump. Two recent fires in the dump could have spread into adjoining grass land and burned to the Mul Fals. Mr. Spencer said Mayor Roberts suggested as a solution that the town would grade a fire break around the dump.

Fred English and Duff May representing the Lions Club said the club was prepared to help the town in its garbage collection problem. The club, he said, would undertake as a community service project, securing the necessary containers for wet and dry garbage. If the town, in return would work out a plan for systematic collection.

"It would be useless," Mr. English said, "to provide receptacles for garbage unless it is regularly picked up and disposed of."

A. E. Scay presented a proposition to the trustees to collect all garbage weekly, and keep the streets and alleys free of weeds and trash for a flat rate of \$450 monthly.

The mayor and trustees were in agreement on the necessity of having an improved garbage collection system, and have taken the matter under advisement, promising the Lions Club an answer in the near future.

LICENSES GRANTED

The trustees approved business licenses to L. Z. Manfre for a general insurance agency; to J. J. Boone for a home appliance and refrigeration store on Central ave., and John W. Harkcy, real estate office.

R. G. Firman was granted permits to move five prefabricated houses to sites in Block 33 of the McDonald Addition. Cost, \$1500 each. Jess Garrigan, contractor.

Permit granted Bob Means for \$1000 addition to present garage building. Permit requested for a permit to build a cinder block house, 12 x 14 ft., on lot 9, in block 3, was tabled for further investigation.

Granted request of Lewis Farlis to close all of Walnut st. and Tatt avenue in the Boulevard Addition to the Village of Carrizozo, title of vacated land to revert to Mr. Farlis.

Granted permission to R. E. Carville, operator of a pool room to stay open until 12 p.m., and on Sunday from 1 p.m. to 12.

Heard Ashley Clason, El Paso engineer, briefly review progress in completing his firm's work in preparing an estimate for a revamped water distribution system for the town. He said he would have a final estimate in the hands of the mayor in about two weeks.

City Marshal Adams was instructed to enforce the no parking restriction on the west side of the post office building where mail trucks receive and discharge mail.

Vernon Petty, appointed by the town trustees on a County water committee, said he would attend the hearing Thursday in Santa Fe before the Interstate Streams Commission. Mayor Roberts said he also plans to attend the meeting.

Present at the town trustee meeting, in addition to Mayor Roberts, were Guslie Johnson, clerk, and trustees Clifton E. Zumwalt, C. A. Snow, Roy Shafer and Juan Martinez.

Ruidoso Water Users Consider Formation of Conservancy District

A meeting was held Wednesday night in Glencoe by the directors of the Ruidoso Water Users Association to consider the advisability of forming a conservancy district.

According to Daniel R. Brenton, attorney for the Water Users Association, the district would embrace, generally, the area covered by the Hondo-Lincoln County Basin. This basin recently has been declared closed by John H. Bilas, State engineer, as a conservation measure.

The Hondo-Lincoln County Basin, starts at Ruidoso and follows the Hondo and Ruidoso rivers down to and including the Diamond Ranch at Border, approximately 42 miles west of Roswell. The Basin does not include Capitan, but following a section line, three miles east of that town, extends a considerable distance north.

A conservancy district, if formed, Mr. Brenton said, would "fit like a glove" over the recently designated Hondo-Lincoln County Basin.

Capitan Farm Bureau To Meet October 16

The Capitan local of the Lincoln Farm and Livestock Bureau will meet October 16 in Capitan, starting with a covered dish supper at 6:30 p.m.

It will be one of the most important meetings of the year, according to Charles A. Jones, chairman. Policies and resolutions will be drawn up and voted on, to be sent to the State and National conventions.

"This meeting will prove that the future policies of our agricultural economics will be made at meetings like this one," Mr. Jones said this week.

"We would like to have every member present on the 16th, as there will be a State representative of Farm Bureau present."

"Bring your ideas and your neighbor's ideas, even bring your neighbor, whether he is a member or not. To progress we must grow and maybe your neighbor after meeting with us would like to be a member, too."

County Represented At Santa Fe Meeting of Streams Commission

A number of Lincoln County citizens were in Santa Fe yesterday (Thursday) attending an important meeting of the Interstate Streams Commission.

Expected to be discussed were water problems of a number of communities concerned with the disposition of Lake Bonito and water rights on the White Mountain slope.

Lincoln County Fleeces Win State Fair Awards

T. J. Sutherland placed first and fourth in the Fine Wool (60's) class at the State Fair. In the Fine Wools (64's) J. F. Sutherland placed fourth and the Slaughter Ranch placed sixth.

In the 1/2 blood class, Clyde Marley placed fourth and fifth and the Fuller Ranch third and sixth.

Jimmy McTelgus placed fourth in the Corriedale Ram class. Fuller Ranch placed seventh in the 1/2 blood class.

Milt Mable of Picacho took second award with his Reg. Corriedale ram fleeces.

Open House Saturday At New Burger Bar

Pick Warden and James Allen Hightower have opened a Burger Bar adjoining their Taste-Freez ice cream establishment on Highway 54 across from the City Hall.

Shallow Gas Well to Be Drilled Near Corona

By MRS. A. E. MULKEY

CORONA (Special)—The Albuquerque Exploration Inc., a newly formed Duke City firm, has selected a location for an oil well on the Hal Bogle ranch south-east of Corona. This first test is an attempt to develop a shallow gas field in Lincoln County.

The firm reportedly has 43,000 acres of Federal leases in a solid block. The El Paso Natural Gas Company pipeline, now under construction across the State, will pass through the Albuquerque Exploration lease block.

The firm plans to drill No. 1 its well (NE NW sec. 15, 4 S., 16E) to 1000 feet, or deeper. Cable tools will be used.

Leonard George of Hagerman is contractor for the first test well. The Albuquerque Exploration incorporators are Leonard A. Basinski, Wilber E. Kramer, R. E. Edelman, Walter B. Gilbert, G. A. Reynolds, J. W. Malloy, W. R. Watson, J. Berch and Richard Losh, all of Albuquerque, and Cecil Brintnool of Carlisbad.

Dodge and Plymouth Out With 1954 Models

Dodge will display its 1954 line of automobiles in dealer showrooms throughout the nation Thursday, October 9.

Roy Shafer, Lincoln County distributor, announced that the new Dodge is on display in his showroom, and that the 1954 Plymouth will be on display a week later on Thursday, Oct. 15.

Featured in the new Dodge is its fully automatic PowerFiltro drive, Red Ram 150 hp. V-eight engine, power steering and a longer body sweep.

The new Plymouths are longer than last year's models, with new body lines, new front end design, new interiors and engine improvements.

Scouts to Have Day as Junior Traffic Officers

Boy Scout Troop 53 of Carrizozo will hold its annual Patrol Day Saturday, Oct. 10 from 9 o'clock a.m. to 2:30 p.m. The object of the day is to promote safety in the village.

All day long the Scouts will collect fines of 25 cents to 50 cents from motorists and pedestrians who break traffic laws. Everyone is therefore urged to obey all traffic laws on Saturday, as well as every other day.

Each Scout on traffic duty will wear his uniform or a part of it. Money collected from this day pays for badges and equipment for the Scouts. This bill ran to about \$30 last year.

Railroad Property Sold To A. T. Pfingsten

The El Paso and Rock Island Railway has by quitclaim deed relinquished its leasehold on land, ditches and water rights on the Bonito River to Mr. and Mrs. A. T. Pfingsten.

Forty-six, deeded parcels of land are involved in the sale. The railway company reserved certain land, also the title and exclusive rights to all minerals and mineral ores.

OFFICIAL VISIT TO LEGION AUXILIARY BY MRS. NAN GENTA

Mrs. Nan Genta, district president of the American Legion Auxiliary, District No. 5, will make her official visit to Benj. I. Berry Unit No. 11, American Legion Auxiliary, on Friday, Oct. 9. Dinner will be served at 6:30 p.m. to guests and members of the Unit.

PTA MEETS MONDAY

The regular monthly meeting of the Carrizozo PTA will be held next Monday evening, October 12. Everyone is urged to attend.

SAFETY MEETING OCT. 14

The Southern Pacific will hold a safety meeting at the Odd Fellows Hall, Wednesday evening, October 14. A good movie will be shown. The public is cordially invited to attend.

HAM, BACON SMOOT, OCT. 18

The Lincoln County Rifle and Pistol Club is having a ham and bacon smoot Sunday, Oct. 18, at the Carrizozo Rifle Range.

WILL HARRISON'S Inside The Capital

EXPERT SEES ANSWER TO COWBOY PROBLEM

SANTA FE, Oct. 7.—Our Clint, the senator, and Republican Ed, the governor, have been stumbling all over each other trying to keep the cattlemen in the manner to which they have become accustomed in the last ten years. That of course doesn't have anything to do with the possibility that they might be running against each other for the Senate next year.

They've floated all kinds of schemes without even coming close to the obvious solution of the problem of beef that sells for 15 cents a pound on the hoof and won't sell at \$1 a pound in butcher shops.

Us expert political economists could fix that in a hurry. Clint and Ed are political all right but they're not economists.

Republican Ed has suggested buying the cows and plowing them under in Europe. Democratic Clint would put on government guaranteed prices and then tell the stockmen how many cows they could raise.

They've talked about cows eating and Europeans eating but haven't gotten to the real crux of the situation which is the voting eaters here at home. You would think those politicians would have thought of that.

The ordinary jerk can only afford to pay about 30 cents a pound for beef. Naturally that won't keep the cattlemen in new model Cadillac. So subsidies the jerk with 70 cents for each pound of dollar beef he buys. Would that stimulate the beef business? Haha!

And if the jerks got to eating more beef than the ranges could produce the government could put on the brakes by paying a subsidy of 80 cents a pound for not eating beef.

Little kinks in the program such as doing right by vegetarians and people who get pimples on their face from eating beef could be overcome perhaps by giving them subsidies for buying cowhide suitcases or maybe giving them government-paid vacations at dude ranches.

This thing offers steady control, not only of the cowmen and the whole economy of the country but of everybody who eats. If Ike and Ezra Tatt Benson don't pick up the Harrison Plan they deserve the trouble they're getting.

COVER-UP PLATES HARD TO JUSTIFY

The governor says he is going to inquire to see if there has been any misuse of 143 sets of "cover-up" plates issued this year by the State for use on State and federally owned automobiles.

It's hard to see how any use at all of the plates would not be misuse. They are ordinary private plates for use on State cars which the law says must at all times bear plates and be conspicuously marked to show that they are State property.

The use of the disguising plates goes along with another apparent law violation in another part of the book which requires that State cars be painted on each side with white or yellow letters at least two inches high proclaiming them to be the property of the State. The State has stopped marring its sedans with that ugly painting.

The purpose of the plates, the governor says, is to enable law enforcement officials to approach without being recognized. For this the State police have three sets.

For some reason not explained the Bureau of Revenue has 34 sets. The cover-up plates are used on unsigned State cars which makes them perfect for not being recognized by law violators or anybody else who might have an interest in the use of automobiles bought and operated with tax money.

There's a set of sneak plates out and an unsigned automobile for every one of the bureau field men whose chief duty is the collection of delinquent taxes, assistance of taxpayers, and incidental inspection of liquor and tobacco sellers.

For this they need 11 times the sneak-up equipment used by the State police.

It follows that the Bureau of Revenue field men should also have State-purchased blue whiplashes and purple sun-glasses because a lot of good it will do 'em to sneak in town in a disguised car and then be recognized by their gold teeth or warts on their noses.

Even if it were legal, the use of disguised State automobiles would be no good. It is a tempting invitation for personal misuse of the State cars and gasoline such as has already been uncovered in Santa Fe. That was

**LETTER TO EDITOR**

**Mescaleros Lay Claim To Ft. Stanton Land**

(A memorandum from Claude E. Wood, administrative assistant to Senator Clinton F. Anderson sheds additional light on the claims of the Mescalero Apaches to Fort Stanton lands. Without going into the merits of the case, Mr. Wood sets forth the facts as he found them in the files):

Editor, News:

The Mescalero-Apache Indians have filed before the Indian Claims Commission, Claim No. 22, declaring that by virtue of the provisions of the Treaty of Guadalupe-Hidalgo, dated February 2, 1848, and signed at this City of Guadalupe Hidalgo, Mexico, they have some claim or right to reimbursement for land which has subsequently been taken away from them. They claim further that by the Treaty of July 1, 1852, entered into at Santa Fe, New Mexico, that the Government of the United States agreed to remove every possible cause that might disturb the peace and quiet of the Apaches, and that the Government of the United States would, at its early convenience, designate, settle and adjust their territorial boundaries, and pass and issue in their territory such laws as may be determined conducive to the happiness and prosperity of these Indians.

Further, claim is made that by Treaty of July 27, 1853, concluded at Fort Atkinson, that the United States did agree to "Protect and defend the Indian Tribes, parties hereto, against the commitment of any depreciations upon them, and in their

territories, by the people of the United States, for and during the term for which this treaty shall be in force, and to compensate them for any injuries that might result therefrom."

The Indians claim that subsequent to these treaties, their territory was reduced from time to time and that by Executive Order of May 12, 1859, the Military Reservation of Fort Stanton was established, which took a portion of the lands belonging to the Indians. The records of the Bureau of Land Management show that the Military Reservation was set up by such Executive Order, and further that by Executive Order of December 30, 1895, the land in the Reservation was turned over to the Department of the Interior for disposal under the Act of July 5, 1884 (23 Stat. 103).

**RESERVATION WHITTLED**

By Executive Order of April 1, 1899, the land was reserved and set aside for use of the Marine Hospital Service. On November 1, 1899, the President, by Executive Order, reserved additional lands adjoining the Reservation, including parts of Section 21, 22, and 27, Twp. 9 South, Range 15 E. The total area at this time is in excess of 27,000 acres, and has been held by the Public Health Service for use in connection with the operation of the Marine Hospital. Various attempts have been made by private individuals to lease or purchase the land, but so far as possible to ascertain from the records, the land has never been used by private individuals, and has not been used by the Mescalero-Apache Indians; since the establishment of Fort Stanton, they have confined their operations to the reduced Indian Reservation. The Indian Affairs Laws and Treaties, Vol. 1, show several Executive Orders, decreasing the size of the Indian Reservation. However, all of these orders show the original boundary to begin along the North side of the Fort Stanton Military Reservation until the Order of October 30, 1897. This reduced the tract considerably, and by Executive Order dated May 19, 1882, this Order was vacated and a new Order issued, further reducing the Reservation. This was followed by a later Order of March 24, 1883, which reduced the Reservation to its present size.

It is because of that history that the Indians made claim to at least a part of this land and urge that consideration be given to their claim for the right to have this added to their Reservation for use in the conduct of their livestock operations.

**Corona Freshman High In Entrance Exam**

Las Vegas—Jimmy Bryan, son of Mr. and Mrs. Walter E. Bryan of Corona, was one of the ten highest scoring Freshmen at Highlands University during entrance examinations conducted as a part of freshmen orientation week. Jimmy's score on the Cooperative General Achievement Test in Mathematics placed him in what would be the top 20 percent of high school graduating centers in the nation.

**CAPITAL NEWS**

By LARRY BYRON

Superintendents of county and municipal school districts in the state are being urged to attend a meeting in Albuquerque on Friday, October 9, for the purpose of meeting with Roy Larsen, president of Time, Inc., who is also chairman of the National Citizens' Commission for the Public Schools. The purpose of Larsen's visit is to advise with school administrators on the whole program of citizen interest in public education. Educators all over the nation are becoming keenly aware of the need for closer liaison between the schools and the general public. With the great strides being made in technological fields, the need for advanced education increases, and the expense of maintaining the public schools systems grows increasingly greater. Educators realize that only through keeping the people of the country in close contact with the educational program can they hope to avoid criticism over the rising costs. Closer relations between the schools and the general public results in people taking a greater personal interest in their schools and also in keeping them fully informed as to how their educational dollars are being spent. It also brings home to the general public the problems faced by educators because of the constantly increasing numbers of children reaching school age every year, and the need for a constantly expanding physical plant to care for the newcomers.

New Mexico's State Highway Commission, aware of the criticism pointed up by the recent grand jury in Santa Fe, which pointed out that the commission was responsible to no one but itself for its actions, thought its position was put in such an unfavorable light as to warrant the group going on a radio program on KOB Saturday afternoon and defending its prerogatives. While the Commission members admitted they were entirely independent of executive control of any kind, they pointed out that they were subject to removal by the Supreme Court for some cause, such as malfeasance in office or failure to properly perform their duties. While most people in New Mexico thought at the time they voted the constitutional amendment which gave the Highway Commission complete freedom of action it was a good step to get this state department out from under political control, many now seem to be wondering if the amendment didn't go too far, and if some checks and controls might not be wise. At it stands at the present time the commission is responsible to no

**Men Lead Women In July Traffic Accidents**

There were 26 drivers involved in fatal accidents on New Mexico highways during the month of July, 1953. Of these, 22 were male and 3 were female, the sex of one such driver was not reported. 11 had New Mexico drivers' licenses, 9 had out-of-state licenses, one had no license, and there was no report on the licenses of five.

This information is furnished by the most recent summary of motor vehicle accidents released by Rosendo Garcia, Director of the Driver's License Division of the Bureau of Revenue. The report covers the month of July. Delayed receipt of accident reports in this office and the time needed for compiling and printing statistical material are the reasons for the time elapsed before monthly reports can be published.

During the month of July, there were 800 traffic accidents resulting in 22 deaths and 283 persons injured. In 56.1 percent of all accidents and 80 percent of fatal accidents, the driver or drivers were cited for some violation of the law. The violations included drinking.

Not even the people of the state, except through another amendment, are in a position to take a hand in formation of policies. Unless the almost absolute power now enjoyed by the Commission is abused, however, there seems little chance that any change in the set-up will be made.

Horace Moses, head of the Gasoline Tax Division in the Bureau of Revenue, announces that 62 permits for the use of tax-exempt fuel on farms and ranches have now been revoked because of violations of the law. These violations consist of farmers and ranchers using the tax-exempt fuel on vehicles used on the public highways of the state. During the past few months a vigorous effort has been made to put a halt to widespread violations. Moses points out that while to date the department has been satisfied with revoking permits, which means that for a year farmers and ranchers must pay the six cents a gallon state tax on all fuel used on their places in non-highway equipment, the law has real teeth. The law makes violations a felony and provides for both stiff fines and terms in the state penitentiary. Teams of investigators are now engaged in checking farm and ranch vehicles used on the public highways and where colored gasoline is found in the tanks complaints are made to the district auditor for the division who immediately cancels the permit of the individual involved and notifies the state office.

**LINCOLN COUNTY IN BYGONE YEARS**

**20 Years Ago**

(From the files of the Lincoln County News, Oct. 6, 1932.)  
Mauricio Sandoval and Miss Ester Uderos were married last Saturday night at the home of Judge Elerdo Chavez. Both bride and groom are members of families who have lived in Lincoln County many years.

Mr. and Mrs. Frank English and two younger sons returned Tuesday from a trip to the Chicago exposition, Niagara Falls, New York City and the National capitol.

Last Friday our football team lost to Weed, 14 to 7. Next week's game is with Alamogordo.

Mrs. E. T. Collier is visiting her sister, Mrs. S. M. Wharton, in Tucuman.

Mmes. Fred Boughner and George Titsworth were elected delegates to the 22nd annual convention of the New Mexico Federation of Women's Clubs to be held in Albuquerque October 2. Mesdames Spencer and Mayer were named alternates.

Mayor G. T. McQuillen and J. H. Fulmer left to attend the Chicago Exposition.

Miss Lula Harris visited her sisters, Mmes. Kendricks and McClellan in Alto, Tuesday.

**40 Years Ago**

(From the files of the Carrizozo News, Oct. 10, 1913.)

The Carrizozo Trading Company was burglarized last night and a gun was stolen.

J. B. French, Charles Spence and W. C. Pittman made a trip across the mountains this week.

Tom McDonald, in from Mocking Herd Gap, reports cattle to be fat, but prospects poor for the coming winter and spring.

William N. and John C. Hightower were over yesterday from their home on Eagle Creek.

It is estimated that there are more than 700,000 acetylene automobile lights in use in the United States.

J. B. Wingfield has returned to his home at White Mountain after a visit with his family in Alamogordo.

There was a severe hail storm Friday last. Half the size of pigeon's eggs covered the ground for an hour.

Roy Lemon and Bob Taylor of White Oaks are attending court in Carrizozo.

Promptly at 12 o'clock noon last Saturday, in the Sacred Heart chapel at Fort Stanton, Prof. J. P. Davis of the Lincoln High School was received into the Catholic Church.

YOUR property insurance agent is an integral part of the life of your community. His taxes support local municipal services and the local schools. His purchases of goods and services and his other expenditures contribute to the economic welfare of the community. He is an employer of local labor. The very nature of his work, with its many outside contacts, permits him to be an active supporter of civic activities.

By selling and servicing Workmen's Compensation Insurance, in most states, he helps to provide indemnity to the injured laborer. By safeguarding the accumulated savings of people through Property and Liability Insurance, he is a tremendous factor in the peace of mind of millions of property owners. By selling Accident Insurance, Accident and Health Insurance, Hospitalization Insurance and Pension plans, he helps to provide security against loss of income. Through the careful service he performs, the individual agent and his thousands of colleagues throughout the nation help to make available a distinctive American type of social security by voluntary, independent action.

His contributions to the community are a part of the magic of insurance protection. He helps guided factories to rise again to provide jobs for many workers. The promise of protection which he has sold helps to restore the home or store which went up in smoke and which, without insurance, might have meant the destruction of a lifetime's savings. His counsel is the bulwark of those whose ownership of property entails the possibility of damaging law suits.

Merchant and professional counselor, he is your friend and neighbor. He is your property insurance agent, serving the public interest twenty-four hours a day.

483,000 calls...  
just here in  
Carrizozo

*That's Right Ma'am...*

In 1953 alone, Carrizozo folks will make just about that many telephone calls. Hard to believe? Maybe. But stop to consider how many times YOU used the telephone today. A call to the market. One about the party this weekend. And maybe (but for your sake we hope not) still another to the doctor or the fire department.

483,000 calls in a year in Carrizozo! Yes, that's a lot of talking—a lot more than just a few years ago. But we at the telephone company like it that way. The fact that your telephone calls mount up into the hundreds and the thousands before you know it, well, that must mean we're doing our job well.

**L. V. COOK**  
MANAGER

A message to every  
prospective new car buyer:

You can have  
the most popular automatic transmission  
to be found in any low-priced car

**Chevrolet's Famous 1953 Powerglide!\***

Much faster, smoother, more economical! Thoroughly proved and improved through years of development and over a billion owner-driven miles! Production now running at new high levels due to record nationwide demand!

Much More Economical  
Chevrolet's 1953 Powerglide Automatic Transmission—tamed with the 115-h.p. "Blue-Flame" high-compression Valve-in-Head engine—brings you entirely new operating economy in city driving and on long trips.

Far Easier Getaway  
Put the selector lever in "DRIVE" position—step on the accelerator—and you move smoothly away from a standing start to legal traffic speed in seconds.

Important New Gas Savings  
You'll never know how economical an automatic transmission can be until you try the 1953 Powerglide. Various improvements, including a more efficient use of engine power, make it extremely thrifty.

Great New Passing Ability  
The car picks up pace in traffic or on the highway at the touch of a toe, for the '53 Powerglide has an added automatic passing range.

Smoother No-Shift Driving  
Driving is almost incredibly easy, changes of speed almost unbelievably smooth... for this transmission gives simplest, smoothest, no-shift driving at lowest cost!

Safe Bye-on-the-Road Driving  
Powerglide permits you to concentrate on driving, with hands on the steering wheel and eyes on the road.

Full Engine Braking-Power on Hills  
Powerglide's flexibility lets you cruise easily up any hill. And you enjoy constant engine braking power for maximum safety when descending.

Rock Out of Trouble  
Powerglide's smooth power flow lets you rock out of sand, snow or mud whenever the need arises. "LOW" and "REVERSE" are side by side on the Powerglide quadrant, making the operation doubly easy.

Push-Proof Parking  
Put the selector lever in "PARK" position when you leave the car, and a positive gear-type lock holds it in position until you return.

Time-Proved, Owner-Proved Dependability  
Come in—Drive a Chevrolet with this floor, more popular automatic transmission—time-proved by hundreds of thousands of owners in over a billion miles of driving!

**CHEVROLET**

\*Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and "21" models. Power Steering available on all models.

## AROUND TOWN

L. Z. Manire left last week end on a week's trip to Chicago. He will visit his daughter, Mrs. R. W. Miller, and family.

A. P. Sifton Jr., manager of the Lyric Theater, entered the Carrizozo Hospital Tuesday for a minor operation. During the period the theatre is closed, the outside and foyer are being painted.

Grady Eldridge, rancher north of Capitan, and Mrs. Eldridge were business visitors in town the first of the week.

Fred Bonnell, cattleman from near the Capitan Gap, was attending to business matters in town Monday.

Seen around town Monday, from Capitan were Rob Leslie and Tom Current.

Mrs. Maggie Espy is in Tucuman, making an extended visit at the home of her daughter, Mrs. Taylor Woodie.

L. D. Merchant, prominent stockman from the Encinosa section, was a business visitor in Carrizozo Monday.

### Another Family Loses Possessions In Fire

Another family recently lost its home and possessions by fire. They are Mr. and Mrs. Paulina Aldaz and five children, of Tularosa. Everything was lost in the fire that destroyed their home the first of last week. J. S. Zamora of Carrizozo, a brother-in-law, is helping the family re-establish their home. Anyone who would care to donate useful household articles or clothing, may leave the same at the Zamora store.

### Ruidoso's Aspencade Tour Set for Sunday

An Aspencade tour into the colorful White Mountains will leave Ruidoso at 9 o'clock Sunday morning, October 11.

Riding clubs will be in a parade contest, to be staged and judged under the direction of the Ruidoso Trail Riders, an organization recently formed which will cooperate with the Ruidoso Chamber of Commerce in staging this year's program.

Interdenominational church services will be held at some scenic spot along the trail. A chuck wagon dinner is to be served by the Chamber of Commerce at \$1.50 per plate for adults and \$1 for children.

Autumn colors are expected to be at their height Sunday. Aspens in the higher reaches of Sierra Blanca, more popularly known as "Old Baldy," started turning to gold two weeks ago, it is reported.

Mrs. Rosalind Barnes, manager of the Ruidoso Chamber of Commerce, states that visitors to Ruidoso may make the Aspencade trip by auto, on horseback or by haywagon. Car trails will be routed differently from the horseback trails.

### FORT STANTON

By MRS. FERCY PARKER

Dr. and Mrs. Duncan and two girls arrived from Seattle last week, driving a new two-toned Dodge. The girls are attending Capitan High School.

Harry Bernstein, a former patient, was back for a visit.

Mr. and Mrs. Wes Young were in Albuquerque attending a council meeting of the VFW last week.

Herbert Totten, of Manhattan Beach, a former patient, is back visiting all his friends.

Mrs. Edna Wallace of Littlefield, Texas, is working at the Medical Center.

Bert Minter is convalescing at home with a broken ankle.

Mr. and Mrs. Kuslanovich and Johnny were visitors at the State Fair in Albuquerque over the week end.

Connie and Jack Padilla are driving a 1953 Ford.

Mrs. Bert Minter is working at the Medical Center.

Johnny Martinez of Espanola is working at the Medical Center.

Father Davis called a business meeting of the women of the Episcopal Church to discuss the organizing of a Women's Auxiliary.

A. J. Mahala spent a few days at the State Fair.

Mr. and Mrs. Johnny Figueras of El Paso were recent visitors in the Parker home.

### ANCHO BRIEFS

By MRS. ELVA WILSON

Mrs. Jessie Ticer visited her daughter, Jay-J, who is a senior at Highlands University at Las Vegas, last week end.

Mr. and Mrs. Tommy Stewart entertained the B. W. Wilson, W. B. Wilson, John Allen and Bryan Hightower families, and Mrs. Anna Dishroon of Las Cruces, with a delightful supper last Friday.

Mrs. Robert Risinger surprised Rob with a birthday supper Wednesday of this week. The supper was given in the lunch room of the school house. About twenty guests were present. Are birthday's fun, Rob?

Mr. and Mrs. Gene Dishroon and sons, of Las Cruces, were week end guests of the Walton Wilsons. Mrs. Dishroon, Ruth's mother, returned home with them.

Walt and Ruth Wilson are attending the fair in Roswell this week.

A carnival, sponsored by the Ancho PTA, is to be held this Saturday night at the Ancho school house. Square dancing will follow the carnival.

Ancho is jubilant over the report in the News last week that Highway 54 will be black-topped next Spring.

It is feared that blasting by the El Paso Natural Gas Company for its pipeline is scaring all the deer out of the country.

### Zelma Loudell Mays

Pledged to Sorority

State College, N. Mex.—Miss Zelma Loudell Mays, daughter of Mr. and Mrs. W. A. Mays of Corona, was recently named a pledge of the Delta Zeta Sorority at New Mexico A&M College.

Miss Mays was one of seven pledges who were recently complimented at a formal tea and open house at State College. Miss Mays is a sophomore and is majoring in home economics education.

### Hondo High School

Names Paper Staff

The following students have been appointed to the staff of the Hondo H.S. newspaper "Eagle's Scream" for the present school year:

Editor-in-chief, Bobby Shackelford; asst. editor-in-chief, Feltze Bowser; business manager, Benito Morrofo; asst. business manager, Barbara McKnight; literary editor, Emelino Brady; asst. literary editor, Kay Taylor; art editors, Delta Juher and Ernest Sedillo; sports editor, Larry Torrez; assistant sports editor, Danny Nunez.

Activities editor, Dorothy Trujillo; asst. activities editor, Shirley Polindexter; jokes editor, Andrew Nunez; asst. jokes editor, Freddie Titworth; alumni editor, Luella Salcido; news editor, Dorothy Jean Chavez; assistant news editor, Cathy Thomas; cub reporter, Virginia Torrez; cub reporter, Barbara Dillard; typists, Rita Sandoval, Josephine Analla; faculty advisors, Mrs. R. Douglas, A. S. Gomez.

Under an honor-point system, the editor-in-chief will receive the maximum number of honor points.

### Booklet Gives Help in Selection of Clothing

Consumers need more buying guides for clothing and fabrics, says Miss Rheba Boyles extension clothing specialist at New Mexico A&M College.

A generation ago the skilled homemaker could identify all the fabrics she bought for her family and the home by sight and "feeling". Today the fabrics are made of many different fibers and treated in hundreds of different ways, so it is impossible for the homemaker to judge the invisible qualities of clothing or fabrics. As a result, she may buy garments or material that will be unsatisfactory because their service quality is poor or they are used and cared for in unsuitable ways.

One of the consumer's best guides is the label or tag which many progressive manufacturers are now using on clothing and fabrics. Unfortunately such tags are not found on all garments and materials, so the shopper must depend on other sources of information for intelligent buying.

Miss Boyles says the best way to know "new fabrics" is to have a good background of the na-

**HIGH-SPEED relief from AGONIZING PAINS OF ARTHRITIS**

Hospital tests prove Musterole gives relief almost beyond belief. Also greater ease in moving. Eats, sleeps, meditates. Concentrated. You can relax it work!

**MUSTEROLE**

tural fibers, cotton, silk, linen and wool, then apply this information to each new fabric or fiber. The new fabrics are made to look like and to perform like our "natural fibers".

The wise shopper also needs to know the fabric terms, different

weaves, fibers, finishes of fabrics, and dyeing processes in order to make wise selections of garment and materials.

In "Textiles of Today" a new extension booklet, Miss Boyles explains the characteristics, limitations and important uses of

natural fibers and man-made fibers. She also lists other types of fabrics, popular fabric weaves and terms pertaining to the structure of fabrics. The information in her booklet will be invaluable to the homemaker who is looking for additional

helpful ideas that will assist her in making wise choices clothing and fabrics. Homemakers may obtain a copy by writing to the Extension Service, State College, New Mexico.

## NEWS FROM THE COUNTY AGENT

By RALPH DUNLAP  
County Extension Agent

### Ranch Day at A&M Features Jornada Tour

Hundreds of farmers and ranchers are expected to attend the two events scheduled for October 12 and 13. All ranchers and farmers who are interested are invited to attend.

Ranch Day, a tour of the U. S. Forest Service's Jornada Experimental Range and New Mexico A&M College's Ranch, will begin at 8 a. m., October 12 from the Dona Ana County Courthouse square. Research workers with the College and with the Forest Service will explain their latest findings during the stops on the tour.

Ed Heringa of Clayton will be one of the principal speakers on the afternoon program. Frank Boice, prominent cattleman of Sonora, Ariz., will talk on "Some Things I Have Learned About Ranching." Dr. H. E. Crookshanks, BAI nutritionist of the Pan Tech Field Laboratory in Amarillo, will discuss urinary calculi in cattle.

H. B. Pingrey, agricultural economist at New Mexico A&M College's Experiment Station, will discuss "A Sound Management Program on Irrigated Farms in 1954."

### Two Southeast Wool Growers Win Top Awards at State Fair

Albuquerque — Two Southeastern New Mexico wool growers topped a field of experts Wednesday representing the state's growing wool industry to take blue ribbon honors with their

**ALBERT MITCHELL**—Mr. Cattleman himself—owner of the Tequite Ranch at Albert, N. M., is pictured at the command post in a cattle-shipping scene on the cover of the October Country Gentleman. fleeces in the 1953 New Mexico State Fair.

Winning major honors in the Senior wool show of the 16th Annual Exposition were B. M. Medlin of Tatum, the champion fleeces exhibitor, and Phillip Frier, also of Tatum, who showed the reserve champion fleeces. Medlin's prize-winner had won

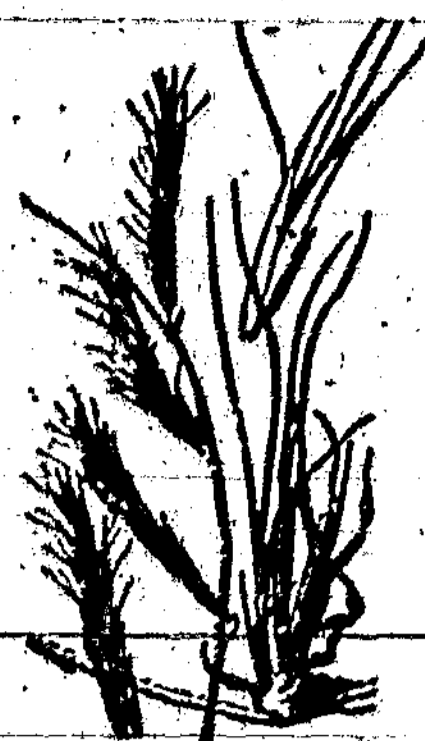

first in the division for fine wool of 64's spinning count before going on to take the top blue ribbon award. Frier's fleeces were the first place winner in the range ram fleeces, fine wool 64 to 66's spinning count division.

Other first place winners in various classes included T. J. Sutherland of Ruidoso; B. A. &

## Know Your Grasses

(Second of a series on grasses native to New Mexico)

### BLACK GRAMA

### Choice Grass of The Western Range

By S. H. FUCHS

Black Gramma is also known as Crowfoot Gramma and Woolly foot in different localities. It is one of the most valuable forage plants on our dry sandy, gravelly, rocky soils up to about 5,500 feet. It may be observed sparingly at higher elevations, up around 7,000 feet here in Lincoln County.

Black Gramma is relished by all classes of livestock and is considered excellent forage both summer and winter. It is of untold value to Lincoln County ranchers. This perennial is easily recognized by its "flag heads", wiry, and woolly-grayish lower stems.

Black Gramma commonly produces very few viable seeds. It depends mainly on runners for reproduction. Although very

M. L. Watson of Roswell, Eugenio Perez Ranch at Vaughn and Tony Martinez of Roy

The Richardson fleeces topped the junior show after winning the fine wool fleeces division in class competition.

### MAKING CORN AND SORGHUM SILAGE

By E. E. ANDERSON  
Extension Dairyman

When harvested at the right stage of maturity and ensiled with reasonable care, corn and sorghum forage can be made into excellent quality silage. Sufficient sugar is present so that enough acid is produced in the silage to keep it from spoiling.

Occasionally a considerable amount of the feeding value and palatability is lost because the forage is not harvested at the most desirable stage of maturity, or the moisture content is not properly controlled.

Corn should be harvested in the early-dent stage and sorghums when the seeds are so hard they cannot be crushed between the thumb and finger. It is desirable that most, or all of the leaves be green. The feed will pack better and make a higher quality silage if cut in one-fourth to one-half inch lengths. It's very important that the dirt walls and covering of a trench silo be thoroughly wet. Regardless of the type of silo, good drainage is necessary. When corn or sorghum forage is harvested at the proper stage of growth and ensiled with ordinary care, it should make excellent silage.

drought resistant and well adapted to natural range, Black Gramma is readily eliminated on over-grazed range.

Old timers tell us that it once dominated extensive areas, many of these same areas are now completely void of this remarkable grass. These places are now commonly covered with annuals, 3-Awns, Tumble weeds, and other less productive and less palatable species. One valuable feature Black Gramma possesses that invading species do not offer, is that it commonly stays green in part through the winter months.

Some ranchers recognize that this grass depends almost entirely on vegetative means for reproduction. They are working with nature in conserving and increasing this valuable grass by employing a deferred rotation system of grazing on their rangeland. Thus, ranges that were thinning out are being successfully and effectively revegetated. This improved range not only means more feed, which means more dollars; but also a sound range program with the soil securely tied down by extensive soil-binding fibrous roots of good grasses.

Very little reseeding has been done with Black Gramma because of the difficulty in obtaining good seed and the apparent low seedling vigor. So it is much better to protect the range rather than be compelled to resort to such drastic and costly means of recourse.

### Prices Down, Volume of Farm Marketings Up

Farmers received about \$17.7 billion from marketings in the first eight months of 1953—6% less than a year ago. Average prices were down about 10% but the volume of marketings was a little larger.

Receipts from livestock and products were \$11 billion — 7% below the same period in 1952. Receipts were down 13% on meat animals and 5% for dairy products. They were up 11% for poultry and eggs.

Crop receipts were 4% below last year, at \$6.7 billion. October 4-10 has been set aside by President Eisenhower as National Fire Prevention Week. During the past year farm fires caused the loss of about \$133,000,000 worth of farm property, as well as the death of 3,000 farm people. Approximately 93 per cent of these fires were the result of carelessness or neglect.

## Capitan's Newspaper In 1901 Described Cave at Ft. Stanton

(In the archives of the Lincoln County Courthouse are kept the files of newspapers published from the early days up to the present time. Ernest Key likes to look back over the old issues and last week he brought out a copy of the "Capitan Progress," dated March 1, 1901. Its description of the Ft. Stanton Cave follows—Ed.):

### THE FT. STANTON CAVE

The Mammoth Cave of Kentucky has a worthy rival in Lincoln County, New Mexico, at Ft. Stanton, five miles from Capitan.

The entrance to the Fort Stanton Cave is small and uninviting, but it is when the daring explorer gets some distance under the ground that he is permitted to gaze upon some of the grandest sights of nature to be found in the world. Spacious chambers of every fantastic shape imaginable, with tortuous passages between, are to be seen on every side, many of which are filled with crystals of all sizes and shapes. Nowhere is nature so beautiful and intricate as in the formation of the crystals. Here are to be seen an abundance of beautiful stalactites and stalagmites.

In many places the very walls of the chamber are filled with needle-like crystals that somewhat resemble glass in appearance. In many places these fine crystals are more than one foot in length and in appearance are of snowy whiteness.

The Fort Stanton Cave is not very well known, even by many of the older inhabitants of this section, and but few people can boast of having explored it to any considerable extent. Not one hundred persons in all of El Paso have ever heard of this wonderful freak of nature that exists so close to their door.

In the month of August, 1898, W. H. Tuttle and a party of tourists from El Paso visited and explored the Fort Stanton Cave, having a Lincoln County man for guide, exploring what they supposed was the main cave or entrance. Mr. Tuttle carried with him a thermometer and an aneroid with which to secure the temperature and altitude.

### LOG OF TRIP

The following are some of the notations made by Mr. Tuttle, they being the most complete of any record obtained of any exploring party that ever visited this cave—The Mammoth Cave at Fort Stanton: the most wonderful freak of nature to be found in New Mexico:

"August 15, 1898, entered the cave at 9:30 o'clock; temperature at mouth of cave, 94 degrees, altitude, 6,140 feet.

At 10 o'clock, had traveled one and three-eighths miles; altitude 6,095 feet; course, northeast by north.

At 11 o'clock, had traveled one and one-fourth miles further; altitude, 6,040 feet; course, more northerly.

At 12 o'clock, noon, had traveled one and one-eighth miles further; course north; altitude, 6,090.

Total distance traveled in cave was four miles. Temperature of cave 58; temperature of water in cave, 52.

The water in the cave is al-

most as clear as the air, being nearly transparent.

At a distance of four miles the water covers the entire bottom of the cave to a depth of from one to three feet.

At places the roof of the cave is nearly one hundred feet in height.

There are no fish or bats in the cave."

According to the reading of Mr. Tuttle's aneroid, it will be noticed that the cave is comparatively level, falling for the first mile and a half and then gradually rising. The direction being nearly north, towards the west end of the Capitan mountains.

From where Mr. Tuttle and party turned back, there were footprints and other evidences of persons having gone further.

Mr. Tuttle and his party found many side rooms and passages leading off from the main cave all along the entire distance of four miles, and several times upon their return trip they took the wrong passages.

Within a distance about a half mile from the outside entrance, there is a side room or passage that leads into what is called the Crystal Chamber where are found the crystals above mentioned, the most perfectly formed and in all their grandest beauty. Stalactites and stalagmites in all imaginable shapes hang from overhead and project from below. Here are stalactites two feet or more in length, showing that the cave is very long in existence. In many places the stalagmites on the floor look like long spears of white glass.

### ISLES AND GROTTOS

Leaving the Crystal Chamber and following the passage on further, one passes through various isles and grottos, all most wonderfully and beautifully lined with crystals, and finally arrives at a small stream of running water. This water flows in a northerly direction and gradually increases in volume, until within the course of three or four miles it flows into a lake of perfectly clear water.

It was by the side of this lake that various exploring parties found the remains of an old canoe. Only one party is known to have crossed this subterranean lake. It is thought that the Indians knew the secrets of the cave and used canoes to cross the lake.

Not many years ago, a band of Apache Indians, being hotly pursued by soldiers, took refuge in this cave. The mouth of the cave was guarded for three weeks, and during this time, these sarge Indians were seen over in the Capitan mountains, several miles away from the cave entrance. The supposition is that the Indians made their escape by going through the Crystal Chamber, swam the lake and passed out the cave through some unknown opening in the Capitan mountains.

We have but few authentic records of this cave except those kindly furnished us by Mr. Tuttle, but other reliable parties state that they have found passages that have been explored for distances nearly twice the distances traveled by Mr. Tuttle. Nearly all explorers agree that the cave runs in a northerly direction and would pass under the west end of the Capitan mountains.

### BOAT MADE FOR LAKE

In 1872, J. W. Swan, now residing here, who was then a carpenter at Fort Stanton, made a small row boat for Quartermaster Conrad of Ft. Stanton, and Lieutenant Boyd of Company B, 5th United States Cavalry. These gentlemen spent several days in the cave and explored the lake leading from the Crystal Chamber for a distance of over eight miles from the cave entrance. Among other important discoveries made by them, they discovered a waterfall where a beautiful stream of water falls some distance over a precipice.

In 1880, three soldiers from Ft. Stanton spent three days in this cave exploring its wonders. Recently several parties from Capitan have explored the cave for hours and reported wonderful sights.

Old timers tell us that the waters in the cave receded for a distance of one-fourth of a mile within the past twenty-five years.

The entrance or mouth of this cave is located on the south side of the Rio Bonito, less than one mile from Ft. Stanton U. S. Marine Hospital. As the course of the cave is northward, it must necessarily pass under the Rio Bonito within the first one-half mile from the entrance. As distance is gained the formation becomes very solid and in place. In fact there are no evidences of recent cavings of earth or rock. The narrowest part of the cave is at the entrance and it may be explored with comparative ease and safety.

The cave is located on the Fort Stanton Military Reservation five miles from Capitan; it is easy of access and free to all who wish to explore it. No one has seen New Mexico's greatest wonder until they have seen the Great Mammoth Cave of the Montezumas at Fort Stanton,

## District Convention of Woman's Clubs Termed Huge Success

The thirty-first annual convention of the fourth district of the New Mexico Federation of Women's Clubs, held Tuesday at the Carrizozo Woman's Club, representing 14 clubs, was a most colorful and successful event.

A delegation, headed by District President, Mrs. Bernice Lytle, came from Las Cruces. Other delegations headed by their presidents or alternates included: Mrs. J. T. Bradshaw, president, Anthony Crescent Club of La Mesa; Mrs. Martin Bartlett, Alamogordo president; Mrs. Grey, representing the Canutillo Aladdin Club of El Paso; Mrs. Clara Snow, president, Carrizozo Woman's Club; Mrs. Mary Warner, in the absence of president Mrs. Hugh Bancroft, representing Captain; Mrs. B. J. Bonnell, president, Glencoe.

Mrs. W. C. Knox, president of the Hot Springs Woman's Club from Truth or Consequences; Mrs. L. E. Freudenthal, Las Cruces; Mrs. Wesley Freeburg, president, Lordsburg; Mrs. Marshall Woodward, president, Mesquero Woman's Club; Mrs. Ike Kennedy, Ruidoso; Mrs. Kenneth Thomas, president, Silver City; Mrs. M. A. Thomas, president, State College Progress Club and Mrs. Cleo Dadds represented the Tularosa Woman's Club in the absence of Mrs. D. A. Walker, president.

Registration began at 9 a.m. with Mrs. Betty Nickels in charge. At 10 a.m., the meeting was called to order by the district president, Mrs. Bernice Lytle. The singing of America and the Pledge of Allegiance was given in unison, followed by an invocation by Mrs. Lytle. A welcoming address by Mrs. Betty Nickels was responded to by Mrs. J. A. Foster.

Mrs. A. A. Kowitz, State President N. M. F. W. C., gave an address, bringing out the highlights of the National Convention which she attended.

Reports from various committees were given throughout the remainder of the morning, with balloting for new officers ending the session before luncheon. The newly elected District officers are: Mrs. Lucille Foster of Lordsburg, district president; Mrs. A. C. Cox of Silver City, district vice-president; Mrs. G. N. Stroman of Las Cruces, recording secretary, and Mrs. Wesley Freeburg of Lordsburg, corresponding secretary.

The club rooms, decorated in a fiesta theme, provided a lovely background for the many beautiful and colorful "squam" and fiesta dresses, resplendent with silver and turquoise accessories. The Tularosa delegation provided an abundance of beautiful flowers which everyone enjoyed. Mrs. Thelma Murphy was chairman of the flower committee.

A delightful luncheon of chicken salad, green beans, olives, hot rolls, potato chips, sherbet and coffee was served to more than a hundred guests. Souvenir paper weights made of lava from the Mt. Fuji by members of the Carrizozo Woman's Club were extremely novel for favors.

**LUNCHEON SPEAKER**  
During luncheon Mrs. Hick Knox of Truth or Consequences gave an inspiring talk on her European trip this summer, primarily to see the Coronation. The theme of her talk was how grateful the Europeans are to the American people. They look to us, she said, to preserve the civilization of the world. As she went aboard the ship to come home, her husband said, "I guess you realize now that war is

## Sites Bought for New Tourist Cabins

Mr. and Mrs. Charles Hughes of Odessa, Texas, were in Corona again recently, looking over the property they bought for tourist cabins or a motel. It includes the old light plant building and lots belonging to the REA; also a lot and a half belonging to A. E. Mulkey, adjoining the Corona Motor Company on the south.

The Hughes first planned to begin the motel immediately, but have decided to wait now until Spring to lay the foundations and begin building.

Curtis Clement of Alamogordo has bought some lots from Corbin Hester at the south end of town. He plans to begin building tourist cabins in the Spring. He is teaching school at the present time.

## Cardinals Repeat Win Over Vaughn

The Corona Cardinals defeated Vaughn 6 to 0 in a return game played on Corona's field last Friday. Two of the Cardinals first string players were out of the game because of injuries received in the Eastland game.

Corona won a previous game from Vaughn, 19 to 6.

This week Corona meet Captain here for the Cardinals final game of the season.

Homer G. Baird, third trick operator for Southern Pacific, has been transferred to Fort Worth. He and his family left Monday, headed for Mt. Pleasant, Texas. From there they will go to Fort Worth.

James M. Aldrich, who is employed by Brown Construction Co., has bought the Baird place just north of the Roberts Mercantile, which formerly belonged to Wesley King. Mr. and Mrs. G. D. Minyard from Oklahoma are at present living in the house vacated by the Bairds. Mr. Minyard is working for the Delta Engineering Co.

Johannis Barros, Gilbert Marquez and Emelia Flores, all students of the Albuquerque Business College, were home the past week end.

J. M. Shelton, Corona's depot agent for many years, is in the Southern Pacific general hospital in San Francisco for a major operation.

Mr. and Mrs. R. D. Morrow, Glenda Wilson and Elene Mulkey made a business trip to Albuquerque Friday. Mrs. Morrow went for medical treatment and the girls consulted an eye specialist for glasses.

## Young Peoples' Service At Presbyterian Church

Mr. and Mrs. Ed Brown of Albuquerque will have charge at the 11 a.m. service at the Presbyterian Church next Sunday, Oct. 11. The Browns are sponsors of the Round Up group and the Westminster Fellowship group of the First Church in Albuquerque. They will bring a service of special interest to the young people.

Music will be arranged by the representatives of First Church in Albuquerque. The public is cordially invited to join in this service.

C. I. Clark has returned to Corona as third trick operator for the SP, taking H. G. Baird's place and Maurice Weeks is staying with Clark but working out of Aneho. Miss O. K. Smith is second trick operator and Allen Maxwell is relieving Mr. Shelton as agent.

Eddie Lueras, son of Mr. and Mrs. Victor Lueras of Claunch, formerly of Corona, is home on furlough from Camp Hood, Tex., this week.

The following cattlemen have been shipping cattle from Corona the past week: Noble Snodgrass, Max Penix, Jack Davidson and Ellis Hodge. Sheep were shipped out by Floyd Proctor, Leo Owen, W. D. Whinniford, and Fred Large, also this week and last week.

The Corona annual school carnival will be October 16-17. The town basketball team will play the teachers at 6 p.m., Friday, October 16.

## HOSPITAL NOTES

**ADMISSIONS:** Shirley Morgan and Mrs. C. L. Robinson of Capitlan; R. R. Jobe of Claunch; Dale Brown of Corona, Frank Adler, Roy L. Jeffery, Flora Samora, Mrs. Betty Williams, Georgia Johnson, Ailya Sifton, Pauline Phenojo, Elizabeth Padina, Mrs. Natalia Vega and Billy Nickels Jr., all of Carrizozo. Joe Kendrick, Santa Fe; Frank Newcomb of St. Louis, Mo., and Bill Little of Hutchinson, Kans.

**DISMISSALS:** Mrs. Bella Barola, Felix Guevara, Shirley Morgan, Mrs. C. L. Robinson, Frank Adler, Roy L. Jeffery, Bill Little and Mrs. Corrie Eorling.

**BIRTHS:** Born to Mr. and Mrs. Leo Samora of Carrizozo, a daughter, at 8:46 a.m., October 6, 1938, weighing 7 lbs., 64 ozs. Born to Mr. and Mrs. David Williams III, at 4:40 p.m., October 6, 1938, weighing 6 lbs., 32 ozs.

## Lincoln County News

Friday, October 8, 1938

**Evangelistic Meetings At Methodist Church**  
A series of meetings will begin in the Carrizozo Methodist Church on Sunday morning, October 16.

Rev. Frank Curry, pastor of the Methodist church in Tularosa, will preach in the morning at 11 o'clock and also at the 7 o'clock service, and each evening thereafter through Thursday, October 22.

Rev. Curry will also direct a visitation campaign for the church during these days.

In announcing the evangelistic services, Rev. C. E. Burch, pastor, said this week: "Make your plans to attend these services and let's give God a chance at our lives to make our town what He wants it to be."

J. B. Cloce and John House shipped several carloads of iron ore to the mill this week.

## LEGAL NOTICES

**AN ORDINANCE AMENDING SECTIONS 2, 3, AND 4 OF ORDINANCE NO. 49, PROVIDING FOR A CURFEW FOR JUVENILES UNDER THE AGE OF 17 YEARS, AND FIXING PENALTIES FOR ITS VIOLATION.**

BE IT ORDAINED BY THE BOARD OF TRUSTEES OF THE VILLAGE OF CARRIZOZO, NEW MEXICO, as follows:  
Section 1: Section 1 of Ordinance No. 49 be and the same hereby is amended to read as follows:

1. Unlawful for juveniles to be on streets. It shall be unlawful for any juvenile, male or female, under the age of 17 years to be upon any of the streets of the village at any time between the hours of 9:30 p.m. and 5:00 a.m., unless accompanied by a parent or guardian.

Section 2: Section 2 of Ordinance No. 49 be and the same hereby is amended to read as follows:  
2. Permitting juveniles on street prohibited. It shall be unlawful for a parent or guardian of any juvenile, male or female, to knowingly permit such juvenile to be in violation of Section 2 of Ordinance No. 49.

Section 3: Section 3 of Ordinance No. 49 be and the same hereby is amended to read as follows:  
3. Warning sirens to be provided. That the town fire siren shall be sounded each night at 9:15 p.m. as the first curfew warning and a second warning of the fire siren shall be sounded at 9:30 p.m.

Section 4: Section 4 of Ordinance No. 49 be and the same hereby is amended to read as follows:  
4. Duty of Village Marshal to Detain Juveniles Violating Curfew.—It is hereby made the duty of the Village Marshal to take into custody any juvenile under the age of 17 years who shall be found on the streets of the village unaccompanied by a parent or guardian after the

## INSIDE THE CAPITAL

cases of supplying the cover-up plates on every Friday night and masquerading the State car as a private family vehicle over the week end.

And it's kind of kicking the cap. citizen in the face if they won't even let him see and recognize the car he's buying and operating.

The governor and the motor vehicle commissioner, Tony Luna, who have started looking into the use of the disguise plates are likely to come back with the answer that the Federal government uses the things. Yeah, but the federals don't have laws saying that they can't be used and that their cars must be painted, with public property signs.

Until the law is changed and until State employees lose the urge to drive State cars on picnics and beer busts, the Bureau of Revenue officers who have sleuthing to do that can't be handled by police would do well to rent cover-up cars and leave the State jalopies in the motor pool where they belong.

hour of 9:30 p.m. and before 5 a.m., and to take such juvenile to the Office of the Sheriff of Lincoln County and to immediately notify the parent or guardian of such juvenile of the fact of such custody and within 24 hours thereafter, to also notify the Probation Office of the District Court of Lincoln County that said juvenile was detained.

Section 5. Any person violating Section 1 or Section 2 of this Ordinance shall be liable to fine upon conviction of not less than \$3.00 nor more than \$25.00 for the first offense and not less than \$25.00 nor more than \$100.00 for each subsequent offense.

Section 6. All ordinances and parts of ordinances in conflict herewith are hereby repealed. Passed, signed, adopted and approved this 6th day of October, 1938.

MARVIN H. ROBERTS, Mayor.  
GUSSIE E. JOHNSON, City Clerk.

**ORDINANCE No. 52**  
An Ordinance prohibiting loitering on the streets and providing penalties for its violation. BE IT ORDAINED BY THE Board of Trustees of the Village of Carrizozo:

Section 1.—That it shall be unlawful for any person to loiter on the streets of the Village of Carrizozo after the hour of 9:30 P. M.

Section 2. That it shall be unlawful for any person at any time to conduct himself in a disorderly manner on the streets of the Village of Carrizozo or to use abusive language on said streets or to congregate in disorderly groups on said streets.

Section 3. Any person violating this ordinance shall be liable upon conviction to a fine of not less than \$5.00 nor more than \$25.00, or to imprisonment in the county jail not exceeding 10 days, or both.  
Passed, signed, adopted and approved this 6th day of October, 1938.  
MARVIN H. ROBERTS, Mayor.  
GUSSIE E. JOHNSON, City Clerk.
