BAND DIRECTOR PLANS SUMMER MUSIC PROGRAM

Recent music aptitude tests among pupils of the Carrizozo schools 6th, 7th, 8th and 9th grades have shown over 80 of the enrollment have ability and are interested in music...

A band instrument company has offered to furnish instruments to students at a nominal rental fee for a period of three months, giving an opportunity for practice.

It is planned to start the beginners' summer program about June 1. The organization of a junior band next fall is also in the planning.

Mr. White put such a plan into effect when he was in charge of music in the Texas City schools. He built up a 90-piece high school band, two junior high school bands and five elementary school bands.

BOY LOSES LIFE IN SP RESERVOIR

The Southern Pacific water storage reservoir at Luna was the scene of a tragedy Monday when it claimed the life of Alvin Ray Elliott, 3 1/2 year old son of Mr. and Mrs. Dave L. Elliott.

His mother missed the lad and going in search of him, came upon the shocking discovery. His body was floating in the reservoir. Dr. Turner was summoned from Carrizozo and applied oxygen for an hour, without avail.

How the lad gained entrance to the reservoir is not known, as the storage basins normally have adequate safeguards. Funeral services for the youngster were conducted Wednesday afternoon at 2 o'clock in Ancho, the Rev. H. T. Ray officiating. The Shaw Mortuary was in charge of arrangements.

Alvin Ray was born November 21, 1950, in Carrizozo. He is survived by, in addition to his parents, four brothers, Leon, Kenneth, Gary and Billy; two half-sisters, Mrs. Dorothy Cope and Mrs. Maxine Price, who reside in California; three half-brothers, Charles, R. E. and Perry Lynn Elliott, the latter in the service of the U. S. Army, stationed in Canada.

MUSEUM LEASES OLD TUNSTALL STORE AT LINCOLN

John Boylan, custodian of the Old Courthouse Museum in Lincoln, announced this week that the Old Lincoln County Memorial Commission has again leased the Old Tunstall store in Lincoln and will open it to the public as a museum.

The commission, which administers the Courthouse Museum and maintains the old Torreon in Lincoln, opened the store as a museum during the summer months of last year.

A landmark in the town of Lincoln since before the days of the Lincoln County War, the old store's historic significance and picturesque architecture have attracted tourists from all over the United States.

Its first owner was John Tunstall, whose murder by a sheriff's posse was the spark which touched off the Lincoln County War. After Tunstall's partner, Alexander McSwain, was killed and his house burned during the three-day battle of the war, the store, left unattended, was looted by the Seven Rivers Gang.

The store's lead-lined doors and window shutters still give evidence of the trouble its early owners took to protect themselves against the stray bullets of street forays of those turbulent days.

Some of the original fixtures are still part of the store's furnishings, and even items of merchandise preserved from earlier days fill the show cases. One exhibit, a silver measuring cup, once dipped whiskey from a barrel for celebrating a customer's having paid up his year's account.

The store and its contents have been preserved by the family of John Penfield, pioneer Lincoln merchant.

Attendants at the Museum will be Mr. and Mrs. Lloyd Hulbert, long-time residents of Lincoln. Hulbert, for many years powder man at the Old Abe gold mine in White Oaks, also holds the record for having shoveled the greatest number of carloads of ore in one day. His father was E. W. Hulbert, Lincoln attorney, who was county clerk, county treasurer, and probate judge in Lincoln County before the county seat was moved to Carrizozo.

The museum will be open every day from 9 a.m. to 5 p.m. Admission is free to residents of Lincoln County.

"Billy the Kid" Pageant Dates Set: August 7-8

Plans are under way for the annual "Billy the Kid" pageant at the Old Lincoln County Court House. Dates for the presentation have been set August 7th and 8th.

A committee is busy writing the script. The pageant is to be under the direction of John Hamilton, Hondo Valley High School principal.

It is planned to build a new platform and further enlarge the seating capacity of the hillside arena.

Gas Explosion Severely Burns Ysabel Aldaz

Ysabel Aldaz, 32, who was severely burned in a propane gas explosion Thursday afternoon in Carrizozo, continues to improve at Carrizozo Hospital.

Aldaz, an employee of the Carrizozo Hardware Company, was bottling propane from a container in a small building off Highway 390. It is believed a spark set off an explosion that was heard for several blocks.

In the resulting fire, Aldaz suffered first, second and third degree burns from the waist up and his hands were badly burned.

A passing truck driver is credited with tossing Aldaz a blanket and assisting him in extinguishing the fire in his clothing. Aldaz was then taken to the hospital.

In spite of the severity of his burns, Aldaz remained conscious and was able to walk into the hospital unassisted.

The Carrizozo Fire Department responded promptly, though the small bottling plant was a total loss and a pickup truck being used by Aldaz was partly destroyed.

STATE WARNED SOME AND LET OTHERS GO

SANTA FE, May 12—Several thousand New Mexico people holding policies with the bankrupt Pioneer Mutual and facing possible assessments and loss of claims could have escaped the trouble if they had enjoyed the advance warnings given to some groups by the State Corporation Commission.

A year before the company's condition became generally known the State purchasing agent was warned away from the company by the Corporation Commission which handles insurance regulations. The public service commission which must approve insurance carried by butane handlers and others was tipped to accept no more of it and the Corporation Commission warned common carriers operating under commission charters to switch to other companies.

Failure to warn the rest of the public has been explained by the commission as a part of a plan to get the company back on a stable basis which would have been impossible if all the policyholders cancelled out. It was apparently impossible anyway and now the unwarned group of policyholders are in danger of being stuck.

EASTSIDE CANDIDATES ALL FROM CARLSBAD

Eastside Democrats long shy of places on the State ticket landed three for the executive offices in last week's voting—all from Carlsbad. They are Natalie Buck for state secretary, Georgia Lusk for school superintendent, Dick Robinson for attorney general. Here's how the geography is distributed on the whole Democratic ticket: Six live in Santa Fe—Congressmen John J. Dempsey and Antonio M. Fernandez, Joe Montoya for lieutenant governor, Jim Hannah for auditor, Joe Grant for treasurer, Henry Kiker for the supreme court. Three live in Albuquerque—John Simms for governor, Sen. Clinton Anderson, Corporation Commissioner Ingram Pickett; Land Commissioner Johnny Walker is from Silver City, Justice Jim McGhee from Roswell, Justice Dan Sadler from Raton.

Republicans have three from Albuquerque, attorney general and two for the supreme court, three from Santa Fe, corporation commissioner, Congress and State secretary, and one each from Las Cruces, Roswell, Raton, Carlsbad, Clovis, Espanola, Sandoval county and Santa Rosa.

STRONG MAN AND GAL; ALVIN OUTWORKED NOLM

Strong man in the primary run was Joe M. Montoya for lieutenant governor who ran at the top of the ticket after getting no cooperation at all from party leaders. Strong woman was Natalie Buck who won big over Irene Arias of Santa Fe despite (Continued on Page 8)

ENGINEERS DATA ON LAKE BONITO

(The Alamogordo News, in its edition last week, published the first of a series of articles on the proposed purchase by that city of the Bonito water system. Decision to buy was based on a feasibility report by W. F. Turney & Associates, Santa Fe engineers. According to the article, "cost of the lake, pipeline and pumping facilities, attorneys fees, expenses and contingencies amounts to approximately \$80,000, which is over \$200,000 less than the original price quoted by Southern Pacific."

The article continues: Water demands this summer for Alamogordo and Holloman Air-Force-Base combined are expected to exceed by some 30-million gallons an available 88-million gallon supply.

According to a study made in January this year by city engineers W. F. Turney and associates of Santa Fe, the water from the Southern Pacific-owned Bonito reservoir on Bonito river would meet the August demand here of 118-million gallons of water with some 20-million gallons to spare.

Alamogordo and HAFB in 1953 needed 968 million gallons of water, or 2,660,000-gallons per day, according to the survey.

Monthly records of Alamogordo-HAFB metered water sales indicate an average actual use of 508 million gallons each year for the last three years, 1951-53. The Turney survey estimates Bonito river water, regulated by the SP reservoir, can produce 100 million gallons every month of an average year.

Daily supply for Alamogordo-HAFB of Bonito water and present facilities would average 4,522,000 gallons, the report estimates, after demands of Fort Stanton, Nogal and Carrizozo have been met. The 750,000 gallon capacity HAFB wells would be reserved for emergency use only.

This figure would double the 1953 daily supply of 2,450,000 gallons, which included the HAFB wells at capacity.

By 1960, about 55 million more gallons of water will be needed in the peak usage month August, than the present city facilities can provide. Average demand in 1960 for Alamogordo alone will be 1,595,000 gallons per day, 145 gallons per person, or a yearly average of 582 million gallons.

HAFB uses only 140,000 gallons more per day than the city. Peak demand for the base in 1960 is placed at an estimated 2-million g. p. d. The city and base have a contractual water supply agreement. HAFB has long faced the

Pfc. John B. Pryor Joins Unit in Germany

Kaiserslautern, Germany — Pfc. John B. Pryor, 21, son of Mr. and Mrs. Richard Pryor, Tinsle, N. M., recently joined Seventh Army's 45th Anti-Aircraft Artillery Battalion in Kaiserslautern, Germany. Combat units of the Seventh Army form a major part of the strong cordon of American defense forces stretching across the U. S. Zone of Germany. Pryor, a member of Battery C, entered the Army in March 1953 and completed basic training at Fort Bliss, Tex.

threat of exhaustion of its well field and possible infiltration of salt water into the fresh water supply, caused by over-pumping. The city, therefore, has had to seek new sources of water not only to meet its own growing needs but those of the air base.

Present Alamogordo water supply system consists of the Alamo line which supplies "hard" waters from Gordon, Cavier and Alamogordo Canyons, the French and Woods Ranch wells, along with La Luz, Fresnoal lines which supply "very hard" waters.

Two steel standpipes now under construction and three existing concrete reservoirs will store 4.7 million gallons of water from these sources. Combined capacity of two new storage reservoirs now under construction will be 82-million gallons of La Luz-Fresnal line waters.

Upon completion of works now being built, the Turney report estimates that total city production will be 620 million gallons a year. This is about 500 million gallons short of the present yearly requirements of both city and air base.

Alamogordo city officials immediately began negotiations for the much-needed water source when SP made known its willingness to sell option to the Bonito reservoir waters. Other cities in the area are actively interested in this surplus water of the now dieselized SP railroad.

Alamogordo's very real need of this water is evident in the figures quoted here. The Turney report concludes that if this "additional water supply is not acquired for Holloman and for Alamogordo at this time, the opportunity will be lost and will not recur."

The city acquired the Bonito option last month and is now arranging to take up the option.

STATE GAME DEPARTMENT NEWSLETTER

FISHING IN NOGAL LAKE

District Warden John Shaul of the New Mexico Department of Game and Fish reports "some mighty good fishing in Nogal Lake. He estimates that well over a hundred fishermen, largely from Roswell and Alamogordo, were trying their luck one Sunday. For some it was their first try at trout fishing. Bait used was chiefly worms or cluslers, and some orange flat-fish. Shaul had reports of some limits taken. He calls attention to the most frequent offense—stringing two to four catches on one stringer."

LOS PINOS RIVER WILL OPEN AGAIN

Through the efforts of the New Mexico Department of Game and Fish and the cooperation of land owners, a major portion of Los Pinos River in Rio-Arriba-County will open for public fishing again this year. That is, from the pump station just west of Ortiz village, to a point near where the Big Horn station road enters the Canyon.

the Wild Cats and is to move to Carrizozo. Grover Hightower has moved back to Fort Stanton and the ball team and orchestra are re-joining.

President Rolland has called a meeting of the Carrizozo Commercial Club to discuss the Gran Quivira road project.

The Lincoln County High School at Capitan will close its nine month term on May 21. A play, "Too Many Husbands," is to be given with the following in the cast: Charles Schreck, Jenny Boone, Bert Pfingsten, Arthur Howard, Charles Thomason, James Howard, Myrtle McDaniel, Jenny Parker, Theresa West and Reuben Boone.

Not since 1897-98 have the sheepmen of the county had better prospects. The range is fine and the sheep in good condition.

The news from Mexico was that both rebel leaders Zapata and Villa, with their followers, were marching on Huerta in Mexico City.

Susie Sterling filed notice of intention to make three-year proof on her homestead at Os-curo. Witnesses were William H. Sexton, Andrew R. Zumwalt, Elmer W. Zumwalt and William Hust.

At San Miguel village, however, a very short stretch of this water will not be open. The Department has provided a number of campsites along the stream. Fishermen may expect to find good fishing except during flood stages and periods of extremely low water. Los Pinos River is usually reached from U. S. Highway 285, through Antonito, Colorado and back into New Mexico at the village of Ortiz, via a graded road. A rough but passable road leads on up the river through the areas open to fishing. The season will open May 22 and close November 21.

NEIGHBORING STATES' FISHING REGULATIONS

Colorado's trout season opens May 15 in most waters, June 15 in highest areas. Bag limit is 10 fish or 10 pounds. Arizona's season and bag limit will be announced in June. Game Commissions at the various state capitals mail regulations on request.

Mr. and Mrs. J. W. Barnes, formerly of Carrizozo, are planning to locate in Mountain Home, Idaho. Mr. Barnes is employed by the Griffin Construction Company and expects to be at Mountain Home for approximately a year and a half.

Mrs. Art Helms of Oscura was a business visitor in Carrizozo Saturday.

Mr. and Mrs. C. A. Snow received a telegram Sunday that the family of their son, Captain Charles A. Snow Jr., had arrived safely to join him at Wiesbaden, Germany.

Mr. and Mrs. Frank English returned Saturday from El Rito where they had been visiting the Fred Burleson family.

HONDO SCHOOLS—FACTS AND FIGURES

(Second of a Series)

(The following has been prepared by the Public Relations Committee: Carl P. Radcliff, chairman, Ruby Douglass and Albert Gomez. It has been approved by Fermin S. Montes, superintendent and John A. Hamilton, principal. The material includes facts and figures on the operation, objectives and accomplishments of the schools.

SCIENCE DEPARTMENT:
The science department is fairly well equipped, even though there is a lack of many facilities for art, laboratory, and shop work. The department has approximately \$1200 worth of equipment. Included in this is a large demonstration desk, a telescope, a microscope, and much small equipment that is used by both the teachers in demonstrations, and the students in actual experiments. This year six new microscopes were added. Each elementary school was equipped with a microscope. The high school science department made and exhibited projects at the Science Fair in Socorro and earned a number of placings in the A and B classes.

HOME ECONOMICS DEPT.:
The home economics department is also crowded for space; but, has considerable furnishings and equipment used in teaching various units in foods, clothing and home management. There is approximately \$2500 worth of equipment in the department. Some of the major equipment includes a unit of metal kitchen cabinets, a sink unit, a gas range, two standard sewing machines, four electric Singer sewing machines, and an electric refrigerator. A unit taught this year of much interest to the students was "Baby Care". A life-sized doll with complete layette was purchased to aid with this unit.

COMMERCIAL DEPARTMENT
The commercial department has under its supervision two school publications, and is equipped with 12 typewriters, all of which are up-to-date models and in good condition. This year a new electric adding machine and a duplicator has been added.

MUSIC DEPARTMENT:
The music department has a first, second, and third band. The grade schools furnish one of these groups, and a "feeder plan" guarantees an adequate number of members for the senior band. There are 27 instruments, including pianos, owned by the school; 37 instruments are owned by individuals; and there are available 35 band uniforms, including hats and belts, and five Majorette uniforms, including shakos, tights, belts,

Armed Forces Day to Be Observed May 15

Area 11 Armed Forces Day Hdqtrs., New Orleans, La., May 11—Armed Forces Day 1954 will be celebrated May 15 throughout the states of Arkansas, Louisiana, Texas, New Mexico and Oklahoma, with airplane fly-overs, open houses at military establishments, displays of the 280-mm atomic cannon, guided missiles, and high ranking civilian officials and military officers as speakers at Armed Forces Day ceremonies.

Again this year the slogan for Armed Forces Day is "Power for Peace." To demonstrate this power, citizens all over the country will be invited to "open houses" at nearly all military activities. This will give the citizens an opportunity to see the "Power for Peace", their tax dollar is buying.

In New Mexico 12 cities will hold Armed Forces Day celebrations. They are: Roswell, Santa Fe, Albuquerque, Deming, Gallup, Hobbs, Las Cruces, Silver City, Tucuman, Alamogordo, Clovis and Carlsbad.

All except Santa Fe and Gallup will have airplane fly-overs and Roswell, Hobbs, Tucuman, Alamogordo and Clovis will have Armed Forces Day parades.

Public visiting will be allowed at military activities in and near Roswell, Santa Fe, Gallup, Tucuman and Alamogordo.

and hats. The senior band participates in competitive contests with other bands in the state. Band members earn money for trips through projects.

ATHLETICS & RECREATION:
Athletics and recreation offer softball, varied calisthenics, games, and basketball at a competitive level. New uniforms and other routine equipment were added this year. Girls participate in some of the athletic and recreational facilities offered, as well as boys. Community and school spirit was considerably on the up-grade this year. A great deal of credit for the high school spirit goes to an enthusiastic pep club. Facilities of the gymnasium were too limited to accommodate the crowds. The first team won 17 out of 24 games during the current season.

LIBRARY:
The library uses the Dewey Decimal System, and is under the supervision of a part-time librarian with student assistants. It is used regularly as a book station for the State Library Department, and receives consignments of books from it. The following equipment is in use: two reading chairs, one table, six chairs, file with author index and title index, and magazine rack. Ten current publications and two newspapers are available to students. It is inadequate in space and number of fiction and non-fiction books.

VISUAL AID PROGRAM:
Under the visual aid program 23 films have been shown this year; all departments of the

Examination to Be Held for United States Substitute Postal Clerk

DENVER, Colo., May 10—Announcement was made today by officials of the Tenth Regional Office of the U. S. Civil Service Commission of a new examination to be held for the position of substitute postal clerk in the post office at Carrizozo.

The salary rate is \$1,614 an hour. The duties of the positions include sorting and distributing mail to railway post offices and small routes and the handling of heavy sacks of letter mail, parcel post and paper mail. Substitute postal clerks are required to be available for duty on short notice, and generally they will be working every day.

Competitors are required to take a written examination designed to test aptitude for learning and for performing the duties of the position. Civil Service officials emphasized the need for competitors to study the sample questions available before attempting to take the examination. They said past experience has proved that the most successful competitors are those who have made themselves familiar with the type of questions asked before going into the examination.

Applicants for these positions must actually reside within the delivery area of the post office applied for, or be a bona fide patron of the office. From the list of eligibles, appointments will be made to fill vacancies as they occur. Promotions to regular positions are usually made from among the substitutes according to seniority of appointment.

Further information, the necessary application forms, and sample questions may be obtained from the Commission's Examiner in charge, or Civil Service information representative located at the Carrizozo post office; from the Civil Service Information office, room 100, New Customhouse Building, Denver, Colo.; or from the regional office at the Denver Federal Center. Applications will be accepted at the office of the director, Tenth U. S. Civil Service Region, Building 41, Denver Federal Center in Denver until the needs of the service have been met. All applicants will be notified of the exact time and place to report for the written test.

psychologist at the U. S. Veterans Hospital in Albuquerque, paraphrased the old saying that "There are no bad children — only bad parents," when he said recently of his own practice, "I don't need to treat the children so much as the parents."

In addition to poor family life that leads to many of the problems of youth, those attending the conference will take up other problems of the young, such as employment, use of leisure time, emotional troubles and dependent and neglected children.

"Our prisons and mental institutions are filled with overflowing today with the youths of this year and prior years whose problems went unmet," Dr. Salazar said. "And these are only the most drastic examples. Can we find better ways to meet these ever increasing problems? We can try, and our conference this year represents one effort at trying."

A "New-To-Do-It" PAINT POINTERS

So-called one-coat house paint is formulated with greater hiding power than standard material and should be spread somewhat thicker. About 500 square feet per gallon is recommended. Homeowners are advised, however, that two coats of a reliable exterior paint will normally provide greater durability than a job done with the one-coat type product. As an added tip—some paint weathers more rapidly on the south side—two coats may be called for when one may serve adequately elsewhere.

Facts About the Navy

The Navy's early release program, which provides for the separation of enlisted personnel two months in advance of normal separation dates, has been extended through December 31, 1954.

There will be 1434 first class petty officers advanced to chief petty officer ratings as the result of Navy-wide enlisted promotion examinations.

Each "hush mark" on a Navy enlisted man's uniform which is a red, gold, or blue diagonal stripe across the sleeves, designates four years of service.

State Conference in June on Social Welfare

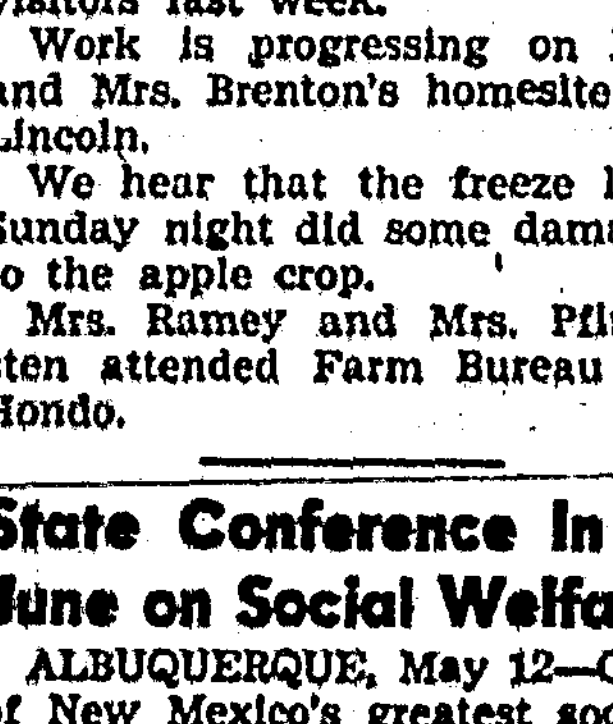

ALBUQUERQUE, May 12—One of New Mexico's greatest social problems, juvenile delinquency, will be discussed from many standpoints at the annual sessions of the New Mexico Conference of Social Welfare June 10, 11 and 12.

The meetings will be at the University of New Mexico campus in Albuquerque.

Five panels will meet simultaneously on each of the three days of the conference. One foregone conclusion, that much of the increase in juvenile delinquency is caused by a breakdown in family ties, is intimated in the wording of the conference theme, which is "The Problems of Youth—Toward Strengthening Family Life."

IT'S AMERICA'S "BEST SELLER"

Because it's America's Best Buy

Ford has pioneered in bringing the most worth-while things to the most people... and more and more people are now buying Fords

FOR A LONG TIME, people have recognized that Ford is the "Worth More" car. And they have been expressing their preference in a great and growing volume of purchases.

The reason is simple. More and more people have found in Ford everything they want and need.

If you're in the market for any new car, Test Drive a Ford and find out what a brilliant performer it is and you'll really understand why Ford is America's Best Seller and America's Best Buy.

In the first place, Ford offers the two most modern engines in the industry: a new 130-h.p. Y-block V-8 and 115-h.p. I-block Six.

As for comfort—Ford is the only car in its field with Ball-Joint Front Suspension for handling and riding ease.

Choice, too, is a department where Ford excels. You'll find just exactly the car for you among the 14 body styles and more than 100 body color and upholstery combinations in Ford's three great lines.

Ford is a completely modern car. The advanced fine-car features that make it "Worth More" when you buy it, will also make it "Worth More" to someone else when you sell it.

Why not accept our invitation to Test Drive a '54 Ford... and see why America's best seller is your best buy!

Test Plot for Aphids At Nosker Orchard

A woolly aphid control test plot has been established in the Gladys-Nosker orchard at Glenwood. The woolly aphid causes a large loss to the orchard owner by entering the roots of apple and pear trees and thereby shortening the life of the trees as well as decreasing production. As this is a young orchard showing a light woolly aphid infestation, the control can be made more readily established. Aspray containing Benzene Hexachloride and Malathion was applied on the tree and around the base of the tree. The treatment will be applied at regular intervals during the year.

USDA Announces Loan Rates for Shorn Wool

Representative loan rates for shorn or pulled wool and other wool price support program details for the 1954-marketing year have been announced by the U.S. Department of Agriculture. The rates are based on the national average support price of 53.2 cents per pound of wool, grease basis, which is 1.1 cents higher than the minimum price announced on December 9, 1953. The national average wool support price is equal to 90 per cent of parity price for wool as announced by USDA on March 30. While most loans will be made on grease wool, the following representative prices are on clean wool per pound, Boston basis.

Graded Territory and Texas

Wool: Fine 64s and finer, staple and good French combing \$1.64; half blood, 60s and finer, staple and good French combing \$1.48; three-eighths blood, 56/58s, staple and good French combing, \$1.28; one-quarter blood, 50/48s, staple and good French combing, \$1.17.

The lower prices for certain grades and classes under the 1954 program, compared to last year's schedules, reflect compensation for the greater rise in prices of fine wools during 1953 than in the coarser grades. Most of the loan schedule increases were in fine wools, which comprise nearly 50 per cent of the clip.

As announced in December, nonrecourse and advance loans will be available on shorn and pulled wool (wool pulled from the pelts of slaughtered sheep and lambs) from May 1, 1954, through March 31, 1955. Non-recourse loans will mature on April 30, 1955. Advance loans will be on a recourse basis. These loans will mature in 6 months from the date of disbursement of loan proceeds or on March 31, 1955, whichever is earlier. Advance loans may be converted to nonrecourse loans. Making loans available on pulled wool is a departure from the 1953 program, which provided for support on pulled wool through direct purchases.

Program operations are similar to those currently in effect. Loans will be made available to producers through handlers who represent producers or producer pools. Handlers approved under the support program will serve all major wool-producing areas of the U. S. Loans will be available through approved private lending agencies as well as through the CSS Commodity Offices, as under the current pro-

Grizzly Juniors Win Intramural Meet

In intramural day at the Carrizozo school last week, the Juniors scored a track meet victory, racking up 74 points to 53 for the second place Sophomores. The Seniors scored 27 points, the Freshmen 20 and the Seventh and Eighth Graders 12. Fifty-five took part in the meet. Following are the results and winners, in order:

100-yd Dash — Tom Barnett (10.6). S. Stidham, S. Wedell, T. Gallegos, L. Holland.

220-yd Dash — S. Stidham (25.2). S. Harkey, T. Barnett, T. Gallegos, L. Nowell.

880-yd Run — B. Hicks (2:28.1). B. Lopez, G. Pino, V. Lopez.

1 Mile Run — B. Hicks, R. Lopez, R. Vega, B. Lopez, R. Means.

Broad Jump — Harkey (18 ft., 11 in.). Stidham (18 ft., 10 in.). Nowell, Wedell, J. Lucero.

Shot Put — Wedell (40 ft., 1 in.). Sidwell, L. Nowell, Barnett, Lucero.

High Jump — L. Nowell (5 ft.). Second place tie, Harkey and Pino (4 ft., 10 in.). 3d, 4th, 5th, tie, Palomarez, Hicks, Barnett, Lucero.

440-yd. Relay — Sophs, 0:53.8; Juniors, Seniors, 7th and 8th. On winning team—Harkey, Barnett, Gallegos and B. Lopez.

880-yd. Relay — Sophs, 1:50.2; Juniors, Seniors.

Girls' Relay — Juniors (Anne Gallacher, Verna Ruth Petty, Ina Withers, Barbara Micon); 2nd, 7th and 8th; third, Sophs.

Fat Boy Race (185 lbs. or over)

gram. Nonrecourse loans will be made following appraisal to determine value based on shrinkage, grade and other factors. A fee will be charged for appraisal. The rate loan per pound will be based on loan schedule. Since this schedule is on a Boston basis, transportation costs to Boston will be deducted in determining the loan rate to individual producers.

To be eligible for a loan under the 1954 program, the wool must be put in a merchantable condition and stored in an approved warehouse prior to Feb. 28, 1955. The storage cost will be paid by the producers while the wool is under loan. The appraisal request, preparatory to making a loan, must be made by February 28, 1955. Pending appraisal, advance loans on a recourse basis can be obtained to reimburse handlers for advances they have made to the producers. These loans will not exceed 75% of the estimated value of the wool.

Prior to May, when the 1954 loan program goes into operation, handlers and producers can take the required steps (such as grading, putting wool in a merchantable condition, storing and making appraisal requests) for obtaining loans on wool.

—Wedell, Leon Ashcraft, G. Barnum.

Girls' 50-yd. Dash — Verna Ruth Petty (7.5); Anne Gallacher, Jonette Harkey, Lee Adell Baker, Carol Romero.

THIRTY TONS OF WATER A WEEK

(Editor's Note: The American Watershed Council is a national non-profit organization which believes conservation is primarily a job for local people and that the nation's economy can best be strengthened by encouraging broader community interest in development of natural resources. This is the first of four articles.)

By EDWIN R. COTTON
President American Watershed Council

Washington, D. C. (Special)—If a sign inscribed: "It requires 30 tons a week of this precious water to maintain my standard of living," were hung on every faucet in America, people taking an active part in preservation of the nation's water resources would be numbered in millions, not thousands.

When this 30 tons of water is compared with the one-third of a ton of all other materials, such as food, timber, metals and fuel, required to support a person for a week, its value to the people is readily seen. Yet its share of the family and industrial budget is infinitesimal in our \$365 billion annual economy. Of this amount the annual water bill is only about \$3 billion.

Water is the lifeblood of a nation. In abundance and properly managed, it spells prosperity and strength. But in most of America water is so commonplace that people rarely think of it as a natural resource to be carefully guarded.

\$40 Billion in Water Projects
Its importance to the overall economy is demonstrated by the fact that industries, municipalities, states and the federal government have invested about

\$40 billion in water projects. No one here feels that with our scientific know-how we face a serious water shortage in the foreseeable future that no matter what is done there will be periodic local shortages that some sections will be visited by costly floods and under certain conditions, erosion will continue to blight our soil. They are aware too that in spite of major efforts by industries and local governments, many urban areas still have a serious water contamination problem, such as that now facing the nation's capital, where raw sewage continues to be dumped into the otherwise beautiful Potomac River.

All of these problems, they feel, can be overcome through better integration of local and national planning. In this respect, President Eisenhower had this to say about water management in his first State of the Union message:

President Favors Partnership
"The best natural resources program will not result from federal bureaucracy. It will involve a partnership of the states and local communities, private citizens and the federal government, all working together. This combined effort will advance the development of the great advance the development of the great river valleys of our nation and the power that they can generate."

Students of the nation's water problems generally are agreed on that statement.

Whale vs. Fishing Boat
A harpooned sperm whale charged and sank the American bark Kathleen in 1902. The ship went down in five minutes, says the National Geographic Society, and all hands survived, although nine whalers had to row 1000 miles before reaching safety.

Game Dept. Newsletter
and the aforementioned members of the New Mexico Department of Game and Fish, inspected a proposed dam site near the city, where a lake for wildlife habitat is contemplated. Picketts stated that the lake site was first investigated by the Department two years ago and later investigations revealed that the site was satisfactory for dam construction. He added that the general vicinity is considered by wildlife men as strategic for the development of a waterfowl resting area, to maintain the dwindling migration route now existing along the eastern side of New Mexico.

WAYS TO AVOID TRACTOR MISHAPS
Two leading causes of tractor accidents are speeding and allowing youngsters to play around and ride along on tractors. Among other causes are fueling while the tractor is running, hitching above the drawbar, pulling up steep banks and trying to back or "rock" out of a mudhole. The last three can unbalance a tractor and tip it backwards onto a driver in a matter of seconds. If you're stuck in the mud, get someone to pull out—don't risk an overturn.

Listed below are tips to help prevent costly accidents:

1. Keep children off and away from tractors.
2. Don't speed the tractor. It's designed for careful, slow pulling, not as a "hotrod".
3. Keep tractors lighted and implements lighted or reflectorized when on highways at dusk, after dark or early morning.
4. Shut the tractor off and let it cool before fueling. Make a habit of gassing up first thing in the morning, or right after lunch when the tractor is cool from overnight rest or noon shut off.
5. To avoid chance of explosion and fire, keep the gas line tight from gas tank to carburetor. They can leak fumes and a spark can set the tractor and you—afire.

It's a good idea, too, to mount a fire extinguisher on a bracket at the front or rear of the tractor so you can get at it easily.

The tomb of the Unknown Soldier in Arlington National Cemetery has one of the largest single blocks of marble quarried in America, says the National Geographic Society. It came from an almost solid mountain of marble in western Colorado, and was cut to size in Vermont.

Corona School

End Term Friday

Corona School is out today, Friday, May 14. Eighth Grade students will have their exercises at 11 a.m. Corona Seniors' commencement will be at 8.

The Corona Seniors were in charge of the assembly program Monday of this week. The Seniors gave a skit about what might be happening ten years from now. The class will was also read.

Exhibit Day at Corona School was Tuesday. The pupils' best works of the year were viewed by many visitors. A style show and program was held at 1:30.

Mrs. Floyd Griffin and three daughters, Dora and Francis, and Mrs. Jimmie Wright, left this week for a trip to Texas.

The Lloyd Carr family, who recently moved from Corona to Las Cruces, were here Sunday for the baccalaureate services.

Mr. and Mrs. Lee Campbell have a new daughter, Terry Lee, born Saturday, May 8.

Mr. and Mrs. Archie Perkins and daughter, Sherrill, and son, Rand, and Mrs. Perkins' mother, Mrs. Mary DuBols, visited the Frank DuBols Jr. family in Albuquerque Sunday.

Fenner Jones was home from Albuquerque last week end, visiting his parents, Mr. and Mrs. R. S. Jones.

Guyra and Dennis Jenkins and their mother, Mrs. Bill Jenkins, from Artesia, are here this week visiting their grandparents, Mr. and Mrs. Alex Jenkins.

K. J. Bagley and A. C. Hester made a business trip to Roswell Monday of this week. They reported rain and hail between Corona and Roswell. There was both rain and hail north and east of Corona. Some ranchers reported as much as half an inch of rain.

Free Tests Available For Bovine Diseases

Dr. G. D. Allen of the Bureau of Animal Industry, from Roswell, will be in Lincoln County the latter part of May to test milk cows for Bangs disease and tuberculosis. This is a free service to Lincoln County residents.

Anyone interested in having their cows tested is asked to contact the County Agent's office. Dr. Allen will be in the Capitan, Nogal and Carrizozo area May 17-18 and in the Corona and Ancho area May 24 and 25.

MARRIAGE LICENSES

Rena Sellers, 26, and Wesley Collins, 43, both of Snyder, Tex.

Few centipedes have as many as 100 legs, says the National Geographic Society. The common house type has only 15 pairs; the garden variety, 21 pairs. Some species have as many as 200 legs.

Letters Awarded

To School Athletes

High school boys who earned letters for track, basketball and football received their letters at the assembly. They were: Vernon Wade, George Bagley, Holt Lovelace, Dan Simpson, Champ Turner, Miles Waldon, Charles Babb, Shannon Shaw, Archie Lackey, Frank Mulkey, Gilbert Bryan, Butch Carnell, Sheldon Dickie, George James and Abe Flores.

ANCHO BRIEFS

R. E. Risinger has returned from Roswell, where he attended funeral services for his brother-in-law.

Mr. and Mrs. B. A. Hightower visited in Carlsbad and Roswell Monday and Tuesday. They were guests at a music recital in which Judy Payne participated.

Jo Ann Straley was home over the week end.

The ice cream supper and party sponsored by the Ancho PTA was very successful and everyone reported a delightful time.

Church services were held in Ancho Sunday, conducted by the Rev. L. Markham.

Rev. and Mrs. Markham and Mr. and Mrs. Barney Wilson were Mother's Day dinner guests of Mr. and Mrs. Walton Wilson. Ruth is now chairman for the greeting cards and personalized stationery, proving so popular with the graduates.

ENCINOSA

The weather was misty and foggy Monday and Tuesday mornings but no moisture amount to much up to Tuesday morning.

Mr. and Mrs. Charley Francis visited a son in San Angelo, Texas, last week. On the return trip they visited relatives at Stanton. They report all places as having plenty of moisture and crops are coming up fine.

Mr. and Mrs. Edd Downing and John Downing visited a brother-in-law, who was ill in Texas, last week. Edd Downing returned home and Mrs. Downing stopped for a visit with a daughter in Dallas.

The school group had a very nice picnic Friday over near Bonito dam, in the Philadelphia Canyon. The mothers, Mmes. Sanchez, Montoya and Trujillo, gave the children a wicener roast.

Grade School Wins Award for Architects

Carrizozo's new grade school building is being given wide publicity as a result of winning first award for buildings of this type at the annual exhibition of the American Institute of Architects, western mountain division.

The Carrizozo school was designed by the Albuquerque firm of Flatow & Moore. The photographs, drawings and models of this school and a number of other buildings designed by members of the Institute, have been shown in Albuquerque and will be exhibited in Colorado, Arizona, Utah and Wyoming.

Awards were given in many categories, such as schools, hospitals, residences, public buildings, churches and commercial structures.

GIRL SCOUTS HONOR MOTHERS

Girl Scouts of Troop 5-2 entertained their mothers and a number of guests at a Mother's Day Tea, Sunday at the home of Mr. and Mrs. Truman Spencer, Jr.

The serving table was decorated in a most novel manner. The centerpiece was a red, white and blue merry-go-round, with streamers from the top of the pole to each individual May basket, filled with mints.

The girls performed in a group dance which they had learned at camp. Other entertainment was three movies on "Diving," "Points of Interest in the U. S.," and a cartoon, projected by Truman Spencer Jr.

Refreshments of chocolate cakes, made by the girls, and iced tea were served the mothers and guests.

The girls who helped to plan and serve the Mother's Day tea were Lee Adell Baker, Jonette Harkey, Mary Alice, Glenda Sue and Sandra Kay King; Betty and Frances Schlarb, Vivian Schroder, Arsenia Delgado, Shirley Lewis, Jerilyn Graves, Sharon Fulkerson, Anna Jo Watson, Donna Kay Hurley, Susan Spencer and Patricia Young.

Mrs. Ruth Sadowaki is teaching first aid to the girls of Troop 5-2.

INSIDE CAPITAL

a cut-in on her territory by Rowena Jopling of Clovis. . . Ingram Pickett's top-heavy win for nomination for another six years on the corporation commission is expected to result in his demand for a major voice in party affairs. . . Political observers familiar with the tactics of Sen. Dennis Chavez over the last 24 years think they saw a sign of trouble in his recent public recommendation for the retention of Rex Meador as State chairman.

Governor-running John Simms wants another for chairman and if he makes the change it will give the Chavez group an excuse to be unfriendly. If he does not it will give the Chavez's a strong position in Meador's organization at a time when the senator is not even a candidate.

There wasn't anything deeply significant in Alvin Stockton's win over Holm Bursum for the Republican governor spot. It was 90 per cent the result of Alvin out-campaigning Holm. He was at it for a solid year. There was some resentment to Republican organization backing of Bursum, some resentment to the Mechem administration which was also with Bursum, but mostly it was Stockton's work. . . Those two should forever be proud of their neighbor's estimation of them.

Bursum's Socorro county voted for him 799 to 35; Stockton's Colfax voted for him 906 to 72. . . The unknown Earl Nunn of Springer made a remarkable stand against the long-time political figure, Georgia Lusk, for Demo school superintendent. The narrow-margin loss was in a sense a victory for the small-town educator and the educational group that backed him.

WALKER AND PICKETT SLAP DOWN THREATS

Political threats and bluffs got their ears pinned back for the second time this year in the primary election when Corporation Commissioner Ingram Pickett who had been sentenced to political death by some of the loudest mouths in the Democratic party came out high man in the party run. Pickett was washed out and erased from the political books when he sided with a Republican commissioner a couple of years ago and fired a bunch of Democratic malingerers, including a couple of county chairmen. He was nailed in a coffin and buried when he endorsed Republican Jason Kehlman for the corporation commission and praised the Republican governor in his run for a
